Chapter 711: Save people

Ye Xuan didn't really want to save the ginger, but there was no injury, and there were two disciples in the Sword Shrine, so he couldn't sit back and watch.

"Then you are hiding here, I will kill it directly. You have to remember that we are saving people, not clearing the sand and thief!" No injury and once again reminded me.

"No harm to your brother, don't worry, I can't beat it, it's not a problem to escape." Ye Xuan vowed.

Although these groups of sand thieves are well versed in the technique of squatting, can they be compared with the real shrinkage?

Ye Xuan's speed, but they are several times.

"If this is the case, then I am on!" Without any injury, it was directly rushed out.

And Ye Xuan, also quickly went to the opposite side of this big well.

"Bold sand thieves, come out and die!"

Leaving without hurt, while shouting.

There are two sand thief guards under the big well, but they have just reacted, that is, they are directly killed by no injuries, and there is no muddy water.

The sound of innocence was deafening, and the entire underground castle was shaken. When he landed, there were a lot of sand thieves.

"A big courage, dare to rush in, who are you?" asked a sand thief.

"Hey, have you held up my companion and can't recognize me?"

Drinking a sentence without hurting, raising a hand, the next time the sand thief was smashed into two halves. Not only that, but other sand thieves have not been spared.

Just kidding, no injury, but the third-order emperor, even the second-order emperor in front of him, is also vulnerable, only the third-order emperor can fight against it, and only confrontation.

The sound of innocence is very large. It is estimated that there will soon be a thief or a leader of the virtual god.

Anyway, these people are sand thieves. The more you kill one, the more you kill without injury, the less chance that Ye Xuan will be discovered.

At this time, Ye Xuan is already starting to act. He uses the shrinking ground to make an inch of meaning, and shuttles through the soil wall.

This sand thief is still big, and Ye Xuan first explored it to see if he could find the slaves who were about to be sold.

"Booming!"

Just as he shuttled through the sand thief, there was a huge sound coming from outside. It seems that no injury has already fought the leader of the sand thief.

Ye Xuan also quickly stepped up, and now he is not shrinking into the inch, and come directly.

It happened that there were two sand thieves passing by and saw him.

"What person?" A sand thief shouted.

But the next moment, he saw two flashes of cold, then he and another sand thief's head flew up.

Ye Xuan quickly chased the past and took their shackles.

Although the speed of shrinking into the inch is fast, but every time you have to drill out and take a look, it is better to do it. After all, Ye Xuan has four agile advances, and can also use double space to accelerate, so the land is in this way. In the case, it is easier to use than the size.

At this time, he suddenly remembered that it was better to ask the sand thief than to find it himself. This is more convenient.

It's a coincidence that the second wave of people he met after he came out turned out to be a thief's leader of the virtual god.

"Kid, look for death!"

The sand thief sipped and smothered Ye Xuan.

However, Ye Xuan is claimed to have no rivals at the same level, and a first-order emperor in the district, he is still not eye-catching.

"Double space!"

"Great will!"

The next moment, the head of the sand thief was stiff and unable to move.

"what?"

The sand thief was shocked. He felt that Ye Xuan's will is similar to him, but his strength is a hundred thousand miles.

When he reacted, Ye Xuan had already killed him. He said: "Where are the slaves that you have been arrested?"

"The **** stuff, there is a kind of kill me!" The sand thief leader would rather die.

"Okay, I am fulfilling you!"

Ye Xuan's eyes glanced, the pressure in the double space began to increase, and the thief's head only felt a roar of his head. It is estimated that his brain will be directly exploding soon.

"I said, I said!"

The sand thief smelled the breath of death and hurriedly changed his mind.

"Say!"

Ye Xuan cold drink.

"There are two roads behind me. The one on the left is the end!" The thief hurriedly said.

Ye Xuan glanced at it. There are indeed two roads behind the head of the sand thief. At the moment, Ye Xuan is a sword.

"Oh!"

The head of the sand thief flew up, he thought he said, Ye Xuan would not kill him.

Ye Xuan quickly took off his Qiang Kun ring and then rushed to the left road. His speed was very fast, faster than the third-order emperor.

After a short time, he saw a prison, trapped in a group of people, full of forty or fifty.

"Jiang Tian is doing?"

Ye Xuan looked at it and found out that Jiang Tian did the wolverine figure.

However, in addition to this prison, there are two sand thief guards.

"who?"

Two sand thieves have discovered Ye Xuan.

But the next moment, they are not moving.

Although this sand pirate group is good, there are two third-order emperors, but the second-order emperor is actually one, which is one of the opponents before Jiang Tianduo.

The two thieves who guarded this prison were only the first-order emperor. Ye Xuan fully exerted double space and killed the two.

He swiftly swept over and took the two of them out and then turned around.

"Hey!"

The special lock of the prison exploded and the prison door was opened.

Then, the people inside are smashing out. However, they still have special ankles. If they don't open, they are a group of ordinary people who are more powerful. Even ordinary virtual gods can kill them. .

"Little brother, are you coming to save us?"

"Little brother, fast, unlock our bondage, let's kill together."

"This group of **** sand thieves, we have more than a dozen virtual gods here, and a third-order emperor, together they killed them."

This group of people shouted.

Ye Xuan ignored them and quickly opened the feet of Jiang Tianquan and the two disciple disciples and threw them three Chinese imaginary soldiers.

"Ye Xuan, what about the injured brother?"

A disciple of the Sword Temple asked.

"He led two third-order emperors, and I am responsible for saving you." Ye Xuan said as he untied the shackles of some people on the side and threw them some Chinese imaginary soldiers.

When these people were arrested, they were put on their ankles, and the Qiang Kun ring was also taken away, so the weapons they had for many years were gone.

However, life is more important than weapons.

Soon, the constraints of these people are all untied, and there are weapons at the same time.

"Thank you for the help of the little brother!"

Everyone is talking with a fist.

Chapter 712: Fox tail

"Let's go, the two third-order emperors will soon come back, go quickly!" Ye Xuan has no nonsense, directly with this group of people to go outside.

This group of people, there are two second-order emperors, and ten first-order emperors, if they add up, they can also resist a third-order emperor.

At this time, Jiang Tian gathered up with a smile and whispered: "Hey, is there any interest in taking a trip with me?"

Ye Xuan asked with vigilance: "Where?"

He understands that at this time, Jiang Tian is the evil character of Jiang Tianquan, otherwise how could he show such a smile?

"Before I heard these sand thieves say that there is a strange tree here, and the tree will produce results every year. This fruit can be improved and repaired..."

Jiang Tian said with a smirk.

"Is it....."

Ye Xuan's eyes are a glimpse. He can't fully believe in the ghosts of Jiang Tian's. This evil character's Jiang Tianquan is more difficult than the cold character.

"At this time, the unscrupulous brothers have taken the two third-order emperors away, and no one in the sand thief can stop us." Jiang Tian continued.

Ye Xuan paused, and the two disciples of the Shenjing Palace behind him said: "Two brothers, you will go out with the crowd, I will go to a place with Master Jiang!"

Then he told them the location of the meeting with no injuries.

"it is good!"

The disciples of the two swordsmen nodded.

Subsequently, Ye Xuan and Jiang Tian did not leave the team.

"What Jiang Tian said, I don't know if it is true or not, but today, we also need to make a break!"

Ye Xuan's heart is dark.

Although Jiang Tianzhao is a third-order emperor, he is a breakthrough in the will of the refining of other people. The strength is worse than no injury, and it is worse than the non-injured opponent. It is only stronger than the second-order emperor.

Ye Xuan himself, in the case of the nine-level king, abused Jiang Wenyue, and now he broke into the virtual **** of the emperor. With the will of the great emperor, he is not afraid of Jiang Tianquan.

The most important thing is that he now has a killing trick, that is, the sword-killing cycle that he learned after breaking into the virtual god.

This trick has not been used yet, but the power is definitely stronger than the sword-breaking star.

"Where is the odd tree you said, where?"

After the crowd, Ye Xuan could not help but ask.

"It's at the end of another road." Jiang Tian did evil and smiled.

"Well, you lead the way!"

Ye Xuan nodded.

Jiang Tian tried to smile again and then led the way ahead.

On this road, I encountered some unlucky sand thieves, all of them were killed by Ye Xuan, and then they took down the ring. Jiang Tianquan also received a Qiang Kun ring to put things.

Not long after, they felt a strong aura.

In front, there is really a treasure!

"I didn't expect this Jiang Tian to say it is true." Ye Xuan hearted, he thought that Jiang Tian wanted to find a place to kill him.

"who?"

Suddenly there was a violent drink at the corner of the front, and then a sand thief came out.

"The second-order emperor, kill!"

Jiang Tian did a cold drink and looked at it. The sand thief's head was raised with an inexhaustible flame.

This invincible flame combines the will of the third-order Emperor of Jiang Tiandu and is powerful.

However, this sand thief is not vegetarian, and quickly avoids it. But the next moment, he felt two pressures and sealed his retreat.

"dead!"

Jiang Tian went up one step and a sword flew him.

After all, he is the third-order emperor, even if he refines the will of the fallen emperor, it is stronger than the general second-order emperor.

The head of the sand thief was smashed, so it was solved by Ye Xuan.

"Double space!"

"Thirty-six overlapping shadows!"

With the cooperation of the two, Ye Xuan easily killed the leader of the sand thief. Then, he swiftly swept the past and put away the thief of the sand thief.

Jiang Tian did just look at him quietly, with a smile on his lips and no words.

"This **** is doing..."

Ye Xuan threw the Qiankun ring aside, his eyes glanced, and his mind was thinking.

The current Jiang Tian is very weird, a second-order emperor's spoils, this Jiang Tian did not even penalize.

After killing the head of the sand thief, Jiang Tianquan turned his corner and immediately, he saw a red tree.

"A strong flame."

Jiang Tian did his pupils shrink, and he instantly realized that this piece of heaven and earth is a fire property.

Coincidentally, he is also a fire attribute.

At this time, Ye Xuan has also swept over.

"Equint!"

Jiang Tian made a low drink and quickly swept away.

There are more than a dozen fruits on this mangrove tree, and Ye Xuan is not too slow, rushing past and madly picking.

"This thing is useless to me, but it can be swallowed!"

Ye Xuan's eyes smothered the red fruit and refined it into a fine. He estimated that the two fruits were almost up to the top of the ring that he got.

Even if he wants to share the same with Jiang Tian, he can get at least eight fruits.

By then, he will be able to break through to the second-order emperor.

However, at this time, Jiang Tianduo, his eyes fell on Ye Xuan, and he showed a smug smile, then suddenly shot.

"Ok?"

Ye Xuan, who is collecting red fruits, suddenly trembled and quickly retreated.

"Hey!"

The place where he stood was suddenly bursting open.

Do not destroy the flames!

Moreover, it is still the invincible flame that combines the will of the great emperor!

At this point, he and Jiang Tian are here, so this must be done by Jiang Tian.

"Is the fox tail finally revealed?"

Ye Xuan said coldly.

At the time when Jiang Tian's proposal was made, Ye Xuan actually had this idea. When he took the second-order emperor's Qiankun Ring, Jiang Tian did not say anything.

This means that he is likely to shoot Ye Xuan.

Moreover, now they are the only two of them, it is a good time to start.

Ye Xuan has already prepared, otherwise, I am afraid that it will be ruined by Jiang Tian.

"Oh, you are so against my father, this hate, how can I not report?" Jiang Tian said with a cold smile.

"hatred?"

Ye Xuan almost didn't laugh out loud, saying: "Speaking of hatred, have you forgotten what you have done?"

"Nature will not, but without the stimulation at that time, will you grow to the point of today?" Jiang Tian did evil and smiled.

"It does not!"

Ye Xuan shook his head. If there was no stimulation by Jiang Tian, his progress would not be so rapid. All this was Jiang Tian's forced.

"Occasionally, we will understand the grievances today." Jiang Tian tried to hold the Chinese imaginary gods given by Ye Xuan and slowly walked down.

"Right on my mind!"

Ye Xuan sacrificed the wind dragon to come, the left hand wind dragon 斩 right hand eight desert sword.

This time his opponent is the third-order emperor Jiang Tianquan. Even though Jiang Tian is weaker than the general third-order emperor, he is stronger than the second-order emperor.

If Ye Xuan wants to kill him, I am afraid it is not so easy without the card.

Chapter 713: tragedy

"You'd better not be merciful, otherwise you will die very badly." Jiang Tian did not hesitate to say a word.

"It won't be me who died."

Ye Xuan shook his head.

Both are very confident.

Jiang Tianduo is trying to press Ye Xuan two realms, so he is eating Ding Ye Xuan.

And Ye Xuan, too.

The two were silent for a few seconds, almost at the same time.

"Double space!"

"Great will!"

Ye Xuan directly used the housekeeping skills. After all, he relied on this meal.

"Flame avatar!"

Jiang Tianquan also quickly condensed a flame composed of immortal flames behind Ye Xuan, and then attacked both sides at the same time.

"call out!"

"call out!"

Two swordsmen rubbed Ye Xuan's body and the speed of Ye Xuan broke out directly.

"It's hard to solve my hatred when I kill it directly!"

Ye Xuan's eyes slammed and raised his hand.

"It's really hard!"

Jiang Tian did the evil and smiled, and quickly filled the flames with eternal flames to resist the attack of Ye Xuan.

Don't forget, his attributes also succumb to Ye Xuan.

"Hey!" "Hey!" "Hey!"

The thirty-six overlapping shadows that combined the great will and the earth's pulsation 64 were defeated by Jiang Tian, but Jiang Tian's deity was limited by double space, and the speed was reduced by 40%.

Master battle, just one round, almost can see the gap.

Ye Xuan has restrictions and attacks, and Jiang Tian has only a strong attack power, and the weapons in his hands are slag. Apart from the suppression on the realm, he has no advantage.

"Booming!"

Just after the first round of the two men played, the outside suddenly came a loud noise, and both of them could not help but stunned.

"It seems that there is something unexpected, or solve the problem of Jiang Tian!"

Ye Xuan thought about it and found that there was another flame in the vicinity.

Two flames are separated!

No, three!

"Kid, I know you have to take revenge, but I would rather die than Jiang Tian, and I won't let you report it. So, die together!"

Since Ye Xuan broke through to the virtual god, he knew that he would die in Ye Xuan's hands, so he was ready to burn with Ye Xuan.

Before Jiang Tian's voice fell, Ye Xuan had already felt three flames, and the breath was growing.

This trick, he has seen before.

Flames burn the sky!

The three major flames, and the fact that Jiang Tian is using the flames to burn the sky at the same time, Ye Xuan may not be able to stand up.

"Double space!"

"Great will!"

"Thirty-six overlapping shadows!"

Ye Xuan is always in use, ready to defeat all three flames.

However, his great will and Jiang Tian were too different. The second flame was not able to be defeated. Even the first flame was not exploded by the double space. Only the third flame was scattered. .

"boom!"

Suddenly there is a strong energy sweeping through the caves. The flames of the Great Emperor's will burn the power of the heavens. If the three superpositions are combined, even the fourth-order emperor will fall, not to mention the stone walls that are used to support the sand.

The three flames are superimposed on the sky, and the explosion diameter can reach tens of thousands of meters, directly blasting the sand thieves half.

Hundreds of sand thieves were blown up without ash, and the entire underground became a vacuum. The sand on the top was also blown up.

In a short while, the quicksands on the top are coming in.

That mangrove tree and fruit were burned out by the flames of indestructible flames, and Jiang Tian did not disappear.

"Cough..."

Ye Xuan, who was burned by three flames, did not die on the spot, because he integrated the will of the Emperor into the 64-fold and double space of the pulsation guard.

While defending, use the repulsion and wind to resist the attack.

Even so, he was bombarded to death, which is more powerful than the previous death dust.

"The **** is doing..."

Ye Xuan quickly sat up, let the life of the **** tree restore the blood, and then prepare to chase the ginger.

I used three flames to burn the sky, and Jiang Tian's instinct has already bottomed out. At this time, Ye Xuan also regretted it. She knew that the fruits of the mangroves would all be lighted first.

As long as he broke through to the second-order emperor, the third-order emperor's Jiang Tian is in front of him, not worth mentioning.

It's a pity that he cares about it. He feels that Jiang Tian's efforts to kill Jiang Tian's hate are not enough.

"Almost, you want to run, run me?"

Ye Xuan eyes a glimpse.

Just as he was about to use the shrinkage to become an inch and chase after Jiang Tianquan, suddenly there was a figure that swept it out.

"Who?"

Ye Xuan turned around and saw that he was a man wearing a battle armor. The next moment, he felt that he could not move.

Great will!

Even Jiang Tian could not shake Ye Xuan with the Emperor's will, but this man of armor can, which means he is at least the fourth-order emperor. Because, even without injury, he could not shake him with the great will.

"The fourth-order emperor, how can there be a fourth-order emperor here?"

Ye Xuan was shocked and suddenly smelled an ominous premonition.

"Kid, this is moving, are you getting it out?" asked the man in armor with his eyes open.

"No!"

Ye Xuan subconsciously answered.

"Even if it is not you, it is also related to you, so courageous, even ruined the red tree, let me run a sigh."
The men in the armor are angry.

A white run, which allows Ye Xuan to guess that this man is not a sand thief.

"Is it to buy slaves?"

Ye Xuan suddenly gave birth to this idea.

The slaves of the Japanese Yan Dynasty prevailed slaves. The slaves caught were engraved with a special method on the face. Even if the words were cut off and recovered with healing drugs, the slave would still be there.

Eternal life is slave!

Ye Xuan couldn't help but shudder. If he was to be a slave, it would be better to kill him.

"Hey, look at your kid's qualifications is not bad, there may be some background, but I like you with this background." The men in the armor chilled and then lost a pair of ankles at Ye Xuan.

The ankle suddenly opened in the air and plunged toward Ye Xuan's feet.

Upon seeing it, Ye Xuan was scared to death. This ankle is something that limits his infuriating and mystery.

However, he is now shocked by the will of the Emperor, how can he escape?

"Damn, take it!"

Ye Xuan screamed, and he received the ridiculous space in the devastating space, because he knew that if he was caught, the 戒 戒 ring would be taken away.

The men in the armor did not pay much attention to the action of Ye Xuan. They directly controlled the ankles and locked them on Ye Xuan's feet.

This time, Ye Xuan is miserable!

"The trough, the infuriating, the righteousness, and the will of the great emperor, really can't be used!"

Looking at the ankle on his feet, Ye Xuan wants to cry without tears, how can he think that he will be caught.

I knew that he left directly.

A thought that led to the occurrence of this tragedy, this is finished!

Chapter 714: Hell

At this time, Ye Xuan prayed in his heart. He did not pray for a miracle. Instead, he prayed that the blood of the **** of life could wash away the slave. Otherwise, how could he face his family and friends?

The men in the armor saw the ankles locked, and they also withdrew the will of the great emperor. Then, there was a middle-aged sand thief who swept to the armored man.

"Hey adults, this..." The middle-aged sand thief looked at the scene in front of him and couldn't speak.

"The red fruits I ordered, now you can't take it out, you said, what should I do?" The men in the armor asked coldly.

"Hey."

The middle-aged sand thief swiftly swallowed and said: "Hey adults, this is not our business."

"I don't care so much, anyway, I want the red inflammatory fruit you can't get out, don't you want me to run away?"

The tone of the men in the armor, the azole is compelling.

The middle-aged sand thief rushed to think about it and said: "It's my fault to swear by adults. In this way, I will give all the prisoners who have recently been arrested to you, and add some natural treasures, which will not let you run white. Oh, how?"

"Hey, this is almost the same." The men in the armor nodded slightly and looked at Ye Xuan. "This kid is what I caught and brought me."

"Yes." The middle-aged sand thief nodded quickly.

Immediately, he quickly swept the past and brought Ye Xuan as a chicken and took it away.

"Damn, this is trouble!"

Ye Xuan screamed in his heart.

This middle-aged sand thief should be a third-order emperor in the sand pirate group, but he called the men in the armor as adults. It seems that this man in the armor should be the person of the Sunshine dynasty.

Ye Xuan was taken by middle-aged sand and then walked into a large open space. Many people are waiting for Ye Xuan.

"Little brother, how have you been caught?"

"Hey, I'm tired of you."

These people are those who were rescued by Ye Xuan, but they were caught again. Ye Xuan glanced at the number, the number was half, and the disciples of the two swordsmen were not there.

"A total of eighteen people."

The middle-aged sand thief opened his mouth and smiled. He took Ye Xuan's Qiang Kun ring and then handed him a Qiankun ring to the men's armor.

The men in the armor took a look at the Qiankun ring and sat up with satisfaction: "It's very good, although I didn't get the red fruit, but I didn't count it."

He did not find that Ye Xuan's Qiankun ring did not have the only eight-year-old sword he had seen, because the virtual gods were not worth the money, and others had been cultivating the virtual soldiers for decades, only they could use them.

"Xie Yan adults understand." Middle-aged sand thieves immediately laughed.

"Well, you guys, follow me, if you dare to run, you will blame me for being ruthless." The men in the armor said, just follow a ladder.

Even if he is a fourth-order emperor, he still can't fly in the desert of death.

Ye Xuan and others are neatly following him.

All of these eighteen people were put on their ankles, and a sand thief could kill all of them. Escape could not escape, and they could only accept their fate.

Soon, they just left the sand thief.

"Adult, where are we going to be sold?"

After returning to the land, someone asked, they knew they were going to be sold, and always knew where they would be sold.

"Sell?"

The men in the armor shook their heads: "No, your faces will not be engraved with slaves. I am not selling you as slaves."

"We are not slaves?"

Eighteen people, including Ye Xuan, heard this and their eyes could not be brightened.

"You are not a slave. As for where it is, you will know when you go." The men in the armor suddenly smiled and said, "Next, I will untie your embarrassment. You guys add up, not me alone. Opponents, so be self-aware."

In order to speed up the road, the men in the armor untied the eighteen people of Ye Xuan and then walked ahead.

The eighteen of them, the highest is the second-order emperor, but this kind of realm is in front of the men of the armor, and it is only a matter of thought.

Although Ye Xuan really wants to run in a shrinking position, but this men's armor is behind him, if he has any change, the men in the armor will instantly shake him with the will of the great emperor.

Therefore, 18 of them can only follow the direction of the men in the armor.

Originally, there were a few people who wanted to kill themselves. But they heard that the men in the armor said that they would not treat them as slaves, but they dismissed the idea. Maybe, things have a turning point?

The eighteen of them, under the supervision of the men of the armor, ran for three days.

This time, the road was calm and there was no trouble.

When they were about to leave the desert, the men in the armor shouted at them and then put them on their ankles one by one.

Ye Xuan is also disheartened. If he is a second-order emperor, he will definitely fight with this man.

However, he has not broken yet!

In these three days, he has exhausted Jiang Tian in his head for countless times, and he also prayed for no harm to appear, and he joined forces with him to fight against this men.

However, no injuries have occurred, and it is said that he was seriously injured.

"Look first, I don't believe, I have no chance to escape!"

Ye Xuan took the ankle again and followed the men of the armor to leave the desert of death.

The desert of death is in the Sun Dynasty, but because it is a dangerous place, there is no city around it.

Fortunately, the men of the armor also had a Dapeng comparable to the Emperor of the Devil. After the 18 people of Ye Xuan sat up, they flew for another three days, and then they landed in front of a canyon.

"Hey adults, how come you?"

When Dapeng fell, the same man wearing a battle armor came over.

"Chen Daren, this time I will send someone to Heaven."

Said the adults.

"Haha, it turns out."

Chen Daren smiled, and then he glanced at the eighteen people of Ye Xuan. He said: "You guys should have been slaves, but you are generous and sent you to Heaven. You know where Hell is. What?"

Heaven!

When the word fell into Ye Xuan's ear, he was confused.

However, others understand what it is.

"This, isn't this the place where the Japanese invaders are holding key prisoners?"

Someone blurted out.

"Yes, those fierce prisoners are being held in this hell. However, this **** does not completely limit your freedom. After you enter the hell, you can move freely in the hell, even if it is Killing people is fine."

Chen Daren nodded, and then directly lost to Ye Xuan eighteen people some of the Qiang Kun ring, and at the same time untied their jealousy.

"Everyone has a ring of,,

Chapter 715: Double fruit?

Ye Xuan has already lost his **** at this time, but he feels a few strong atmosphere here, at least the fourth-order emperor, so he dare not have any rash action.

He followed the meaning of Chen Daren and explored the Qiankun Ring. There was only one standard Chinese imaginary soldier in the system, and one looked at it.

"Hell, is the sacred power of the Sun Dynasty and the Great Yuan Dynasty. It is in a secret place. You will enter into it later, and a red air will be formed on your head, as long as you Killing the strong people of the Great Yuan Dynasty, then you can rob the other side of the air." Chen Daren began to explain.

"What is the use of this gas transport?"

Someone asked.

"Air transport, it is not very useful for you, but it can make my Sun Yansheng more prosperous. There are some places in Heaven, you can use your gas to exchange some things, such as Shangpin Xu Shenbing, Wu Learning, all kinds of cultivation resources, even double fruit can be exchanged." Chen Daren explained.

After Ye Xuan heard the words "double fruit", the whole person was trembled.

"Double fruit? Is it a double fruit that can condense the second kind of illusory god?"

"God, this thing is born in the world, very rare, I did not expect that it can be exchanged with gas."

"It's too naive, so precious fruit is so precious, it will definitely require a lot of gas exchange."

Chen Daren heard the words and smiled: "Yes, the twin fruits are extremely rare. You guys are estimated that there is no way to redeem them. When you enter the hell, you are red gas, red orange, yellow, green, blue, purple, red is the lowest gas. As long as you continue to kill the people of the Great

Yuan dynasty, then you can plunder part of their qi, and then enhance the qi of the Sun Dynasty. This will help me to never die, the generation is stronger than the generation. generation."

To put it simply, it is to use a large number of people's air transport, piled up in the country's gas transport, let the country prosper.

"It seems that there are definitely many people in Heaven?"

Someone said.

"Yes, in addition to you still have a lot of people who voluntarily enter the prison, as long as you can condense the blue air transport, then you can exchange freedom and leave the hell." Chen Daren nodded.

Red orange yellow green blue blue purple, blue air transport is a five-level air transport, how many of the people present can reach?

"Haha, don't think that you can't reach it. There are three giants in the Sunshine Sin Dynasty, one of them, the first-order emperor in the time of entering the prison, the growth rate is so fast that you can't think of it."

Chen Daren smiled and said: "I will say it here, you can choose not to enter, but the consequence is that I am killed on the spot. I am already handed over to you, this martial arts can see other people's air transport. It is very simple to cultivate."

When he finished, he came directly to the stone wall with the 18 people who were Ye Xuan.

There is a metal gate under the stone wall. Chen Daren walked over and opened the metal gate with special means.

After the metal gate, there is only one fantastic secret entrance, nothing else.

Chen Cairen said that the prison was opened up by the Supreme Power of the Sun and the Great Supreme, but this does not mean that there are only two entrances.

"Okay, let's go in."

Chen Daren said: "Remind you a little more, killing people of the same level or low-level air transport, the plundering of the air transport is relatively small. When you go in, it is a red air transport, the difference between you and the enemy's air transport, the air transport you plunder In addition, it is impossible to plunder the air transport of the same camp. If it is found by the Japanese Yan Army to kill the same camp, it will be killed on the spot."

Ye Xuan's eighteen people paused and remembered these words.

Now, Ye Xuan is already ready to enter the prison, who made him accidentally caught?

Although the downsizing into the inch is very powerful, but in addition to the adults and Chen Daren, there are many hidden masters, if you act rashly, you will be killed on the spot.

"The **** * is done, if I touch you, I will not pull your skin!"

In the heart of Ye Xuan, Jiang Tian once again licked a dog's blood.

However, he also admitted that he was a big idea. He did not expect that the flames of Jiang Tian could even condense three. The fire attribute has the strongest attack power, and it is said that a master can condense more than ten flames, which is very difficult.

But for now, let's go through the difficult situation of Heaven first.

"I just missed a double fruit. I didn't expect to have a redemption inside. This time, I must condense my avatar!"

Ye Xuan's heart whispered a word and then walked into the entrance to the secret.

The next moment, he appeared in a canyon.

"Newcomer? Let's go, the Great Yuan Army often comes to rob the entrance."

Still waiting for Ye Xuan to look around, there is a sound.

Eighteen people turned their heads and found that a hole was suddenly opened in the canyon, and a man got out of it.

"Hello, can you tell me something about hell?"

A second-order emperor asked.

"There is nothing to say, although we are all affiliated to the Sunshine Holy War camp, but occasionally there will be killings and treasures happening, as long as they are not touched by the Japanese Yan Army. I think you should all be caught in, otherwise I have already killed you." After the man finished speaking, he drilled in again.

Ye Xuan is a group of people who have been caught, so the Qiankun ring is also a kind of Chinese character virtual soldier.

The man did not need to risk the pursuit of the Japanese Yan army, killing Ye Xuan eighteen people.

Now, Ye Xuan has already entered the Hell, where the crisis is so raging, so he does not say anything, directly into the ground with shrinking ground.

"Little brother, let's join hands... eh?"

The second-order emperor turned his head, but found that Ye Xuan had disappeared. These means were not comparable to them.

Even if Ye Xuan is still here, he will definitely not join hands with these people.

Just kidding, these people are weak but the eight-level king, and the strong one is a second-order emperor. He will not be a Madonna to protect these people.

"I still have eight wild swords in my hands that are equivalent to others for decades. Just let me break through once and I can fight against the third-order emperor."

Ye Xuan hid in the ground five hundred meters.

The man said that he must not fly over a kilometer or a land-wide kilometer. It seems that there are some potential dangers in the prison, or a battle.

However, this is exactly the case, his main attribute is the soil, as long as he does not fly too high, he is sure to shake the other side to the land.

And land, but his home.

"Let me look at it first!"

Ye Xuan took out the door from the ring of Qiankun, and took a moment to devour the crystal and learn it.

"Hey, the host has learned to look good!"

The system prompts.

Chapter 716: Mysterious old man

After learning to look angry, Ye Xuan returned to the original road, and then secretly looked at the seventeen people at the back.

He looked at the group with a look of anger and found that these people had a small red cloud on their heads, which means they are all red.

And Ye Xuan looked up and could see his own air, but also red.

"People who kill the camp cannot plunder the air. Only the people who kill the Great Yuan can plunder, and the greater the gap in the air transport, the more they will be plundered. If you want to leave the hell, you must at least get a blue color. Air transport, just do not know how much gas transportation is needed to exchange double fruit."

Ye Xuan thought about it and then left.

At this time, he is not familiar with this hell, so you must first understand.

"Fang Caida, Chen Daren said that there are three giants in the Sunshine Religion camp in Heaven, and there is also a Japanese-inflamed army. It seems that there is also a city in the prison. However, although it is a site of the Japanese Yan Dynasty, it will also appear. Killing people to win the treasure."

Ye Xuan gave himself a wake up, then he rose to the land and began to run wild.

He is only a red airlift, and is a first-class emperor, so generally there will be no people in the same camp to risk killing him.

"Well? Someone?"

He ran for ten minutes, and he saw several people in the same camp. He has already become a temperament, and can distinguish whether it is the air transport of the same camp or the air transport of the Great Yuan Dynasty.

At this time in front of him was a white-haired old man who was roasting meat before the campfire.

"Young man, have you been here?"

The white-haired old man smiled and looked at Ye Xuan.

Ye Xuan glanced at the red cloud on the head of the white-haired old man and said: "Predecessors, can you tell me the direction of a recent city?"

The white-haired old man looked at Ye Xuan and said, "Young man, don't worry, sit down and have a drink with me."

"Sorry, the seniors, the kid is in a hurry, but also hope that the seniors will tell." Ye Xuan refused.

"That's it, you can find it yourself." The white-haired old man turned the barbecue.

Ye Xuan blinked.

From the time he first left Lianyun City, he developed a habit of not easily trusting others.

Although the air traffic on the head of the white-haired old man is red, he can converge on the air. Even Ye Xuan can't see his depth. The strength is probably not the same.

Just as Ye Xuan considered it, suddenly a strong pressure shocked him.

"Young man, if I want to kill you, do you know how easy it is?" The white-haired old man's eyes glanced.

Ye Xuan is crying. His recent luck has been very bad. He was first caught and thrown into Hell, and now he has encountered a master.

This sense of oppression is stronger than that of the adults.

He estimated that the white-haired old man in front of him was at least the fourth-order emperor and even the fifth-order emperor.

This kind of strong wants to kill him, it is easy.

"Ok!"

Ye Xuan rushed to answer, the next moment, he just felt that the pressure on his body disappeared and he could move.

"Sit down and have two drinks."

The white-haired old man smiled a little and changed into a wine glass, then filled it up.

Ye Xuan walked over and sat in front of him and took the glass.

"Well? This wine..."

Ye Xuan brows a pick and drinks it directly.

Special devouring!

"The trough, what kind of wine is this, is a cup more precious than the two red fruits?" Ye Xuan was shocked. He also felt that his physical condition had changed and became stronger.

"This is the old dragon wine brewed by the old man, which can enhance the body, but the old man drank too much, and now it has no effect on me." The white-haired old man replied.

"Thank you for your predecessors!"

Ye Xuan hurry to hug his fist, he estimated that if you drink two or three cups, you can break through to the second-order emperor.

"Don't thank me, this Yanlong wine is not white, I want you to answer a question." The white-haired old man squinted.

"what is the problem?"

Ye Xuan asked subconsciously that he was the first to see this white-haired old man. He didn't know what the other party would ask. Could it be that it was outside of hell?

"When you are using the martial arts, is it popular?" said the white-haired old man.

This question, but Ye Xuan said a bit, but it seems that many people recognize this martial arts, so he did not conceal, nod directly.

"Well, a question, a glass of wine, what are the little brothers doing?" The white-haired old man was filled with a cup of dragon wine.

"dry!"

Ye Xuan nodded immediately.

Just kidding, this is completely white, and a few more cups, he can break through to the second-order emperor.

He took the wine glass and swallowed the dragon wine.

"The second question, where did you learn to be popular?" asked the white-haired old man.

"Wind and Thunder!"

Ye Xuan subconsciously replied.

The Wind Thunder Hall has been looked over by him, and there is nothing there.

And he was arrested for the prison, and Qiang Kun was taken away, so the white-haired old man was at most his martial arts.

"Is it the wind and thunder temple in the riot of the sea of riots?" The white-haired old man handed over a cup of Yanlong wine.

Ye Xuan stunned.

This matter, he and Guan Lan know, why is this white-haired old man also know?

"Not bad!"

Ye Xuan nodded and drank the dragon wine.

At this time, only one cup, he can break through to the second-order emperor.

"Then you have nothing but the other things? For example, the body and the key?" The white-haired old man was filled with a cup of dragon wine and handed it to Ye Xuan.

Ye Xuan's body trembled and said: "The body and the key?"

The white-haired old man looked into his eyes and sighed: "There is no such thing as the wind thunder hall..."

Ye Xuan brows a pick, took this cup of Yanlong wine to drink on the spot.

"Hey, the host breaks through, and is currently the second-order emperor!"

The system prompts to sound.

The white-haired old man flashed a little, and he said with amazement: "Your boy is awesome. Yanlong wine can enhance his body. You drank four cups and broke through."

"Predecessors are really eye-catching." Ye Xuan hurriedly flattered, and then asked: "Predecessors, I was in the wind and thunder temple, but also got the wind dragon and the righteous seeds, but did not see any keys, this key is..."

"The wind and thunder emperor, thousands of years ago, but the martial arts and the sacred dynasty, he plundered a lot of wealth with this martial art and the righteousness, and then disappeared. The wealth he plundered has a key, a can open a relic. The key. Before he died, he released the wind and said that he built many wind and thunder temples, including a wind and thunder temple, which stored his body and the remains of the remains." The white-haired old man replied.

"Relics key? Dead body?"

Ye Xuan brows a pick, he did not find the body of the wind and thunder in the ground, and did not find the key.

However, he did not understand a bit.

Chapter 717: Defect

"You have known the predecessors that the thunder is forbidden underground, why..." Ye Xuan could not help but ask.

"Why don't you take things away? Is it simple? Because the virtual gods can't enter the Tianlei Island. If the nine-level king enters, they will be killed by the riots." There are many dangers besides the riots of the riots. If the strength of the entrant exceeds the range he has set, then the wind thunder hall will directly blow up. You can get his inheritance, and it is a good luck. "The white-haired old man explained.

After listening to Ye Xuan, she was shocked.

At that time, he did not feel the danger besides the rioting star, and now he listened to the white-haired old man and immediately shuddered.

"There is no place for him to inherit from his place, so where is his body?" The old man muttered.

He believes that next to the body of Feng Lei, there must be a key to open the ruins.

"That wind thunder hall, was found a few?" Ye Xuan could not help but ask.

"The wind thunder emperor has a total of six wind thunder halls, and there are three secrets, but even so, after so many years of exploration, only three secret wind thunder halls have not been found. Those who find the wind thunder hall All have got a huge fortune, flying to the sky, the inheritance you get, the preciousness is second only to the 'key', but unfortunately, you have also been caught in the hell."

The white-haired old man has no choice but to shake his head. He thinks that Ye Xuan's Fenglong and Leizhi inheritance are cheaper than others.

In the virtual state of God, it is all by the righteousness, and the same is true of the virtual god. Moreover, the understanding of the righteousness is not so simple, even if it is a virtual god, it may not be able to comprehend all the righteousness.

Therefore, Ye Xuan and Guan Yulan got the wind and thunder heritage, ranking second in preciousness.

"Well, I have already inquired about the matter, you don't have what I want, so say goodbye." The white-haired old man suddenly stood up and said: "This bottle of dragon wine is for you, this is a hell. The map inside is also sent to you."

Ye Xuan took the map and looked at it directly into the phagocytic system. When he was ready to thank the white-haired old man, he found that the white-haired old man had disappeared.

"Disappeared?"

Ye Xuan looked around in a circle and did not find the figure of the white-haired old man. The strength of this person is probably far beyond his expectations.

From the beginning to the end, he did not even know the name of the white-haired old man.

This white-haired old man not only gave him Yanlong wine, but also told him a secret, which is not bad.

"The closest thing to here is a windy city."

Ye Xuan glanced at the map and then quickly left.

It took about an hour for him to arrive at the Windy City and then wander around the Windy City.

The city in the **** is similar to the outer city, but you can use gas to buy things.

When Ye Xuan entered the city, he took a strange spar, which can detect the size of his gas. Regrettably, his red gas value is one, which is really pitiful.

Red orange yellow green blue blue purple, purple gas transport is at least one million.

In other words, if you want to leave the hell, you must get at least 10,000 gas. As for the two winds, this windy city does not have to go to the main city of the three giants. The value is also high so that Ye Xuan is chilling.

Subsequently, Ye Xuan left the Windy City, and he had nothing to do in the city anyway.

"The Windy City, on the border of the two camps, wants to plunder the air, so the quickest way is to kill the Da Yuan Sheng camp."

Ye Xuan's eyes squinted and his figure began to flash.

If you want to improve quickly, you have to kill. Although it is dangerous, it will improve quickly.

Ye Xuan spent a day, using the shrinking ground to cross the border of the camp and entered the site of the Great Yuan Dynasty.

"The map given by the predecessors also has the distribution of the city of the Yuanyuan Holy Land. Well, it is him."

Ye Xuan immediately selected a nearby city. His plan was to stay next to the city, then follow the city and kill him.

Soon, he just saw this Yiqing City.

There are only six main cities in the prison, and there are six in each of the camps. The general masters are in these main cities. As for other cities, they are generally middle and low-order emperors.

Ye Xuan is tens of thousands of meters away from the Yiqing City. From afar, I saw some people who went out of the city.

Then, he then selectively tracks according to the speed of these people.

"Three second-order emperors, you are!"

Ye Xuan's eyes slammed into the ground.

It's easy to use it to shrink into the ground. As long as the realm is not too bad, even if you can't beat it, you can retreat.

Ye Xuan counted the time under the ground. When the three second-order emperors passed over his head, he suddenly killed him.

"Double space!"

"Great will!"

Ye Xuan made a move, first shocked one person with a double space, and then took out a thirty-six overlapping image.

"Oh!"

One of the second-order emperors was sneaked and died in an instant.

One of the remaining two was shaken by Ye Xuan's double space and was under tremendous pressure. He could not even turn around.

Another talent has just reacted, and was killed by Ye Xuan.

"Do not....."

The man who was shocked by the double space exclaimed because he knew that his two companions were dead. However, Ye Xuan did not drag on the water and quickly killed him.

The three second-order emperors were all fallen, and the dragons and horses flew to Ye Xuan.

At the same time, the three oranges on their heads were also separated, plundering Ye Xuan. Then, the three orange gas movements collapsed.

Heaven is built in a secret environment. This secret is so strange that the people killed by Ye Xuan will automatically add to him.

"The three of them are all orange, and they only added ten points to me, too little."

Ye Xuan shook his head helplessly, then quickly broke into the ground.

The greater the difference in air transport, the more air transport will be obtained after the killing. The air transport between Ye Xuan and the three people is not much different, so there is not much plundering, only he is promoted to the orange air transport.

Air transport can buy things in the city, so many people exchange gas transportation into Tiancaibao, etc., to enhance their strength. Of course, if you want these things, you have to superimpose the air transport, because those shops in the Sun Dynasty are not allowed to change things, only gas exchange.

Moreover, only the official personnel of the Sunshine Sects have the ability to divide the air transport.

Although there are not many air transports of these three people, there are still quite a few things in the Qiankun ring. If the three second-order emperors join forces, even the third-order emperor can fight.

Ye Xuan swallowed up all the things in the Qiankun ring, and his strength improved a lot. Then he returned to the city outside Yiqing.

Chapter 718: Siege

In the hell, people often do things like Ye Xuan, but in a hundred virtual gods, the soil attributes and the wood attributes add up to five, and one hundred soil attributes are in the virtual state, comprehending the shrinkage. Maybe not even one.

Therefore, Ye Xuangan has such an activity and is very advantageous.

In less than a few minutes, Ye Xuan killed another team, two second-order emperors, and a first-order emperor.

His cultivation is done again.

"According to this, I may be able to break through to the third-order emperor today!"

Ye Xuan eyes a glimpse.

Now his strength, I am afraid it can be compared with no injury, if he reaches the third-order emperor, even if it is the big man and Chen Daren, I am afraid to die in his hands.

At this time, Ye Xuan hid outside the city of Yiqing.

"Well? This speed is the fourth-order emperor?"

Ye Xuan hid behind a mound of his own, only two eyes were revealed.

He saw that after one of the figures went out of the city, he quickly swept in his direction.

This person's speed is very fast, faster than no injury, so Ye Xuan guess is the fourth-order emperor.

The fourth-order emperor, he should now be able to compete, but don't forget, this place is the site of the hostile camp, if he does not kill quickly, it will definitely attract the attention of others.

Just as he was preparing to break into the ground and prepare to take a break from the edge, he suddenly discovered that this person was not the fourth-order emperor he imagined.

"It turned out to be the third-order emperor who understood the earth's skills..."

When he reacted, the two sisters couldn't help but burst out two brilliant men. Since they were not the fourth-order emperor, he had the confidence to kill him.

He quickly broke into the ground and began to calculate time.

One second!

Two seconds!

Three seconds!

In three seconds, the third-order emperor was enough to cross him.

Then he went around and swept it out.

The third-order emperor who felt a few kilometers away felt something. When he turned around, he found Ye Xuan.

However, at this time, Ye Xuan has already swept a sword.

"The Eight Swordsmanship, the sword destroys the reincarnation!"

Ye Xuan and a sword swept out, and a sword quickly swept away, killing the third-order emperor. After that, the sword was suddenly folded back, and the body of the third-order emperor was broken into two. half.

The sword destroys the reincarnation, but it is a very powerful martial art. The sword that goes out is more powerful than the sword.

But this is not the point. The key point is that Ye Xuan can control this sword and continue to attack other people, just like the eight winds.

In the same way, this move requires taking the instinct of Ye Xuan. At the same time, controlling this sword also requires a lot of infuriating. If Ye Xuan does not have the blood of the **** of life, he will control the time for at least one second.

"This trick is very good for sneak attacks."

Ye Xuan is very satisfied.

The sword will not be controlled by Ye Xuan. When he goes out, the speed can be slowed down. When the other party thinks that he has escaped, the sword will turn back and suddenly kill him.

The Eight Great Emperor who can create this martial art is definitely a super genius.

At the moment, Ye Xuan quickly swept the past and put away the other's Qiang Kun.

The airlift of this third-order emperor is yellow, which directly enhances Ye Xuan's more than fifty points of gas transportation, which is very good.

"There are two or three third-order emperors, and it is estimated that they will be able to break through to the third-order emperor." Ye Xuan blinked and returned to the outside of Yiqing City.

There are quite a few masters in Yiqing City. At the same time, Ye Xuan's point is that he has seen several fourth-order emperors leave.

After all, the Sun Dynasty and the Great Yuan Dynasty are not a small force. And this **** seems to have been formed for hundreds of years, and I don't know how many strong people have accumulated.

Ye Xuan spent a long time outside this Yiqing City. After killing a number of masters, he finally broke through to the third-order emperor.

At the same time, his air transport is already yellow, reaching 120.

"Now my air transport is yellow, I can't rob the red and orange air. Oh, it seems that it is not so easy to exchange a double fruit."

Ye Xuan has some helplessness. The high-level airlift kills the low-level airmen. It seldom plunders. If you want to leave the hell, you need at least a blue air transport. This will kill all layers, otherwise it will depend on the quantity.

Even if Ye Xuan's strength becomes stronger, it is possible to exchange the air transport with his peers, leaving only the red air transport, and then plundering other people, so that more is obtained.

At this time, suddenly there was a group of black-pressed shadows that swept toward Yiqing City.

At this time, although it was dark night, Ye Xuan practiced the temper, and the group of people stayed together, and it was difficult to find it.

"I am the person of the Japanese Sun Dynasty, so many, is it to attack the city?"

Ye Xuan's heart trembled, it seems that he is having a problem.

This group of people, there are more than 50, the vast majority of the head is orange and yellow gas transport, and some are green gas transport.

It seems that it is really going to attack the city.

Ye Xuan turned his head and saw that Yiqing City had already opened the big city guard. At the same time, there were also a large number of masters of the Great Yuan Dynasty.

In fact, the big city has always been there, this is to block the enemy camp to kill people and destroy the shop.

Even if it is the ninth-order emperor, I am afraid that it will not be able to destroy this big city, so the city is very safe.

However, the Japanese Yan Dynasty has already been killed, so Yiqing City immediately gathered a large number of masters, ready to go out to fight.

Soon, Yiqing City rushed out dozens of masters.

"kill!"

More than 50 masters of the Sunshine Sin Dynasty, no nonsense, directly rushed to the past.

"A big scene is really a good opportunity!"

Ye Xuan glimmered and quickly joined the battle.

In this kind of large-scale battle, he must not rush into the crowd, because there will be a large number of emperors will be on him, very dangerous.

"The Eight Swordsmanship, the sword destroys the reincarnation!"

Ye Xuan quickly took out a glimpse, then broke the Eight Desert Sword and attacked it.

A strong sword and a slashed blade directly plunged into the crowd. In the blink of an eye, many people fell.

The decision of the prison is that Ye Xuan gave these people a fatal blow, so the airlift of these people all gathered on the head of Ye Xuan.

At the same time, Ye Xuan is not idle.

"Thirty-six overlapping shadows!"

"The earth is pulsating 64!"

A fierce attack plundered and killed the master of the Great Yuan dynasty. Then Ye Xuan used the double space to pluck the Qiankun ring.

This kind of large-scale battle, there are many people who fish in the water, they are all staring at those bodies.

"Good guy, dare to dare to hit my idea?" Ye Xuan eyes stunned, quickly pulled out a sword and killed a person who wanted to grab him.

Moreover, the person he killed was still in the camp of the Sun Dynasty.

In the territory of the Sunshine Sage, if you dare to kill the same camp, as long as it is encountered by the Japanese Yan Jun, it will definitely be killed on the spot.

Chapter 719: Being chased

Those who killed the same camp in the Sun Dynasty site will be killed by the Japanese Yan army. However, it is not the site of the Sun Dynasty, but the Yuan Dynasty. Here, there will be no Japanese Yan Jun, there will be no Yuan Yuanjun, so there will be no problem in killing oneself.

Although this group of people came to attack the city, in fact, many people moved their thoughts and suddenly smothered their own people afterwards and then fled.

After killing a person who is not self-sufficient, the people around him dare not provoke Ye Xuan. They feel that Ye Xuan is not a good persimmon.

But at the same time, Ye Xuan was also stared by a fourth-order emperor.

"Kid, look for death!"

The fourth-order emperor saw Ye Xuan received a lot of Qiang Kun ring, and hurriedly rushed toward Ye Xuan.

"Dare to come to me for trouble, courage is not small, go!"

Ye Xuan's eyes slammed and controlled the sword to extinguish the reincarnation and the eight-handed blade attacked him.

"Hey, the insects are tricky!"

The fourth-order emperor glanced at the eight-handed blade, but at this moment, suddenly two forces buck him on his body, limiting his actions.

"what?"

The fourth-order emperor's eyes widened and forced to open with the will of the great emperor, but the speed was greatly reduced, only 40% of the peak period.

"call out!"

The sword extinguished the turn and passed over his head, cutting off his heavenly cover.

"Not self-reliant!"

In the heart of Ye Xuan's heart, he took the sentence of the fourth-order emperor and took it one step further.

When he joined the battle, he glanced at it. There were probably five fourth-order emperors on the side of the Yuan Dynasty. Now one is dead, and there are four.

Killing ten third-order emperors is not as good as killing a fourth-order emperor, so Ye Xuan all the way toward a fourth-order emperor.

At this time, the fourth-order emperor is fighting with the master of the Japanese Yan Dynasty.

The master of the Sun Dynasty sect saw Ye Xuan Chong, directly drinking a low sentence: "Roll!"

"A big tone, I will kill you first!"

Ye Xuan was angered, and directly reorganized the Eight Desert Swords, and used the restored infuriating spirit to directly extract a sword.

Swords are reincarnation!

The only sword that killed the reincarnation, after killing a few individuals, was defeated by Ye Xuan himself, killing a second-order emperor, as long as the ordinary 36 overlapping shadows would be fine, after all, control the sword to extinguish the reincarnation, It is too expensive.

"Oh!"

This sword extinguished the reincarnation and directly killed the Japanese sage master who let Ye Xuan go.

"what?"

His opponent was shocked, and did not expect Ye Xuan to kill the fourth-order emperor.

He was so scared that he quickly turned to face Ye Xuan, but at this time, two forces were pressed against him.

Not only that, but after the sword has crossed a track, it is swept back.

"Oh!"

This fourth-order emperor was also killed by Ye Xuan, and immediately, the sword was reincarnation.

Ye Xuan took over two of the Qiang Kun, and turned around and saw that there were only 20 people left in the battlefield.

Hundreds of people have fought, and now there are only 20 people left, which shows that the battle is very intense.

At this time, those who have benefited from it are all smashed and turned around.

"I don't want to go!"

Ye Xuan stared at the fourth-order emperor of a great Yuan Dynasty and chased it up.

"Ok?"

The fourth-order emperor with yellow gas on his head discovered Ye Xuan, and Fang Cai Xuan killed two scenes of the fourth-order emperor, but he saw it.

He was shocked and rushed to attack while attacking.

But his hand was lifted in half, the speed was a big drop, and then, a fierce sniper hit.

"Hey!" "Hey!" "Hey!"

The middle-aged virtual soldier in the hands of the fourth-order emperor swayed hundreds of times in an instant.

"Hey!"

The Chinese character imaginary soldier directly broke, and the fourth-order emperor flew out.

He was frightened.

The Chinese character is very hard, not the average person can smash, but Ye Xuan did it.

At this time, he held the right hand of the sword and was shocked by the pulsation of more than a dozen times.

"Dead!"

Ye Xuan once again took out a few swords and killed him in an instant. When he flew up his head, Ye Xuan had already taken off his ring.

"Hey, the host breaks through, and is currently the fourth-order emperor!"

The pleasing system sounds again, and Ye Xuan's realm breaks through again. At the same time, his air transport has also improved.

But at this time.

"Bold, I dare to let go in my Da Yuan's territory, find death!"

Suddenly a violent sizzling sounded, Ye Xuan looked at the sound and found a man wearing a standard armor rushing toward him.

"This is the Great Yuan Army?"

Ye Xuan's light flashed.

The Great Yuan Army, at least the sixth-order emperor, they constantly walked in the territory of Dayuan. If they saw the Sun Dynasty or someone who killed the same camp, they would directly shoot.

Unfortunately, this great Yuanjun soldier went straight to Ye Xuan.

"Green gas transport."

Ye Xuan thought about it.

In the end, I decided to retire. After all, there are other great Yuanjun masters around. If they are besieged, then he will be miserable.

At the moment, he is turning around and leaving quickly, not chasing other people.

People must know how to be good enough to be happy and live for a long time.

Although he may have the ability to compete against this great Yuan army master, he is still cautious and waits for him to exchange his double fruit.

"I don't want to go!"

The six-ordered emperor glanced at it, and there was a great emperor who was pressed against Ye Xuan.

Ye Xuan used the pulsation guardian of the Emperor's will to expand 64. Even so, his speed dropped by 20%.

However, he still has a double space that is not used.

When the Sixth Emperor reacted, his speed dropped by 20%. Now, the speed of the two is flat.

"It's not far from the site of the Sunshine Sin Dynasty, seduce him in the past, and then kill him with others!"

Ye Xuan is doing his mind.

Both the Japanese Yan Army and the Yuan Yuan Army are the official army of the Sun Yan Dynasty and the Great Yuan Dynasty. The strength and wealth are not comparable to the average person.

Therefore, Ye Xuan did not use the shrinking ground to leave.

"Mix things, don't go!"

The generals of the Yuan Yuanjun, who followed Yang Xuan, continued to growl.

"Cut, if I want to go, you want to stop me?" Ye Xuan is very disdainful in his heart. If he wants to go, he will directly use the shrinking ground to slip away.

The two chased one, one escaped, and the speed was fast.

This Yuan Yuanjun warrior also knows that Ye Xuan is trying to escape to the site of the Sunshine Holy Dynasties, but his speed is always unable to catch up with Ye Xuan, and he does not want to give up.

"After a while, I will enter the boundary of the Sun Dynasty. I hope to come to a fifth-order emperor or a sixth-order emperor to help..."

Ye Xuan thought in his heart.

Of course, even if there is no one, as long as they enter the boundary of the Sun Dynasty, Ye Xuan will counterattack the past.

He only fled because he was afraid to meet other Da Yuanjun masters, but the Great Yuan army was guarding the Da Yuan Sheng dynasty. Under normal circumstances, he would not enter the hostile boundary.

Chapter 720: Ghost teaching

Ye Xuan is confident that he can kill the sixth-order emperor alone. After all, they have already ran for a while, and the instinct and the emperor will consume a lot of money, and he is still at the peak.

At this time, the sixth-order emperor is also entangled in the heart, whether or not to chase Ye Xuan.

However, he thought that he had been chasing for a while, Ye Xuan was fast, but the infuriating and the Emperor would be much less than him.

So, he decided to rush in!

"Snapped!"

Ye Xuan stepped into the territory of the Sun Dynasty. Now, he is not afraid of encountering the Great Yuan Army. This probability is very small.

"Run for a while, then kill your life!"

Ye Xuan glimmered and continued to run.

The 6th-order Emperor of the Great Yuan Army, also followed for a few minutes, but then he did not dare to go deeper.

"Forget it, be careful!"

He snorted in his heart, his feet down, and immediately turned around.

But at this time.

"The Eight Swordsmanship, the sword destroys the reincarnation!"

Ye Xuan held a sword of eight wild, and took a sword against the soldier of the Great Yuan Army.

The sword mans flashed and instantly rushed to the front of the great Yuan army soldier. However, he was not a vegetarian, and quickly escaped the sword.

"eight wild swords, go!"

At the same time as the other side avoided the attack, Ye Xuan broke the Eight-Day Sword, and the eight-handed blade slid toward each other under various accelerations.

"Humph!"

The general of the Great Yuan Army was cold and his body suddenly burst open.

Flames burn the sky!

The will of the sixth-order emperor is integrated into the mystery of the flames burning the sky, and its power is enormous.

Fortunately, Ye Xuan had been prepared for the early time, with the earth pulsating 64 heavy resistance.

On that day, Jiang Tian was simultaneously detonating three flames to burn the sky, and the power was enormous. At that time, Ye Xuan was not killed. This time he naturally would not.

"The flames burn the sky is huge, I see how much instinct you still have?"

Ye Xuan flew backwards and thought.

This flame burned the sky, but the sword was extinguished and the earthquake was scattered. Not only that, but even the eight-handed blade was shaken.

I have to say that this person has a very strong sense of fighting. He smells dangerous and is very decisive.

However, Ye Xuan's instinct is recovering quickly.

At the same time, at the moment of Fang Cai, Ye Xuan also heard a tone.

"Hey, the earth is pulsating 64 times, and the earth is pulsating 128!"

The pulse of the earth has once again increased and the power has doubled.

Ye Xuan Fang was burned by this flame, and his arm was ignited by the flames of invincible, so he quickly cut it down.

If he realized that the earth was pulsating 128 heavy, he could hardly burn the sky with the flames and kill the sixth-order emperor.

"Kid, die!"

The master of the Great Yuan Army suddenly rushed out of the smoke and squatted against Ye Xuan.

"Just rely on your trick, still want to kill me?"

Ye Xuan's foot was on the next meal and greeted him.

"Hey!"

Jianmang was on the pulsation guardian of Ye Xuan, and it swayed for a hundred times, then dissipated.

"what?"

The great Yuan army master was shocked. His sword was enough to kill a fifth-order emperor. However, he did not have any effect on Ye Xuan.

"Death, sword broken stars!"

"puff!"

Ye Xuan stabbed a sword and fell into the body of the great Yuanjun master. The next moment, he turned into an incomplete corpse.

Originally, Ye Xuan still wanted to fight a guerrilla war, but he did not expect that he suddenly realized that the earth was pulsating 128.

I don't know how much the earth's pulsation has to be upgraded before it can become a broken down.

But in general, this time Ye Xuan is making a big profit, the earth is pulsating 128, so that his strength has at least doubled.

However, just as he just took over the Qiang Kun, he suddenly saw a figure swiftly swept over.

"Own people?"

Ye Xuan glimmered and quickly retreated, keeping a distance from the figure.

This is a young man in his thirties who looks ordinary and wears black clothes. He glanced at Ye Xuan and then plunged to the body of the great Yuanjun master, and suddenly took out a lantern.

"Little brother, this corpse, do you still want it?" the black youth asked.

"Would you like?"

Ye Xuan took a look at the body that had shattered into countless pieces and shook his head. He didn't understand what this black youth meant.

But the next moment, he was shocked.

I saw that the lantern in the hands of the young man in black suddenly flashed, and immediately, a white light flew from the body of the great Yuan army master, and then swept into the lantern.

"This is, the will of the great?"

Ye Xuan is a big sister.

When the Emperor of the Devil is dying, the will of the Emperor will quickly collapse, but some people will be able to preserve the will of the Emperor.

Jiang Tianduo, that is, refining the will of the great emperor, only broke through to the third-order emperor.

At this time, the black man's technique was to preserve the will of the sixth-order emperor of the great Yuan army master.

"Thank you for your little brother."

At this time, the young man in black opened his mouth and smiled.

"What is your means?" Ye Xuan could not help but ask.

"Oh?"

This young black man is a little surprised. "It seems that you don't know that my little brother taught me. My ghost teaches that in addition to ordinary cultivation, you can also extract the will of the emperor whose body is not completely broken, and then refine it."

"Ghosts teach?"

Ye Xuan brows a pick, he really has not heard of this power.

However, it is a very good way to extract the Emperor's will not completely collapsed.

Jiang Tian is the third-order emperor, his will is stronger than the second-order emperor, but if you continue to refine the will of the emperor, this is much faster than the general cultivation.

"It seems that the little brothers have never heard of it, the little brothers can be interested in joining my ghost teaching?" The young men in black saw Ye Xuan's strength is good, so they have the heart to recruit.

"What are the requirements?" asked Ye Xuan.

"No, people can come, my ghost teaches the need for a genius like you. If you are willing to join, the church master will definitely cultivate you." The black youth shook his head.

Ye Xuan's eyes sighed and asked: "If I don't join?"

He feels that this ghost teaching is a bit strange, maybe it is an all-night organization.

"Oh, my ghost teaches to be wanted by the Sun Dynasty. So if you don't agree, then I will at least accept your will." The young black eyes suddenly became cold, and the smile on the corner of the mouth was very evil.

Ye Xuan thought about it for a moment, and finally nodded: "Well, I am joining!"

"Happy, you are now the fourth-order emperor, go to see the master with me, the churchlor can quickly promote you to the sixth-order emperor." Black youth eyes brightened.

He believes that after he said this welfare, Ye Xuan will certainly not refuse.

"It seems that this ghost teaches, the power is not small."

Ye Xuan's heart is a dark sentence.
