

Super D. S 741

Chapter 741: Five forces

"As long as Taiyi is here, we will not lose any of the three big families. This time I will run for myself."

After Xuanzhongshan finished, he turned to look at Ye Xuan: "This time you can find the fourth key, you can make a great contribution. If you can break through the half-step supreme before the three families arrive, you also Let's go in together."

"Thank you for your respect!"

Ye Xuan's eyes lit up.

As long as he thinks, can it be a breakthrough to half-step supreme, what is the difficulty?

To be honest, he is also very curious about this general. After all, there will be an adventure in it. Although it is dangerous, the more dangerous the adventure is, the bigger it will be.

Anyway, he still has a avatar in the East China. If the deity is dead, then the avatar is the deity.

"Yes, the people of the three major families are definitely not less than us, and there are more than a few." Green fire nodded.

At the moment, Xuanzhongshan people are leaving directly to the Sword Palace.

In fact, Ye Xuan's avatar is also taking people to the Sword Temple, but for some reason, he has not returned to the Sword Palace for the time being, because he was afraid of hitting the Xuanzhong Mountain.

Now the Great Wilderness can pass, so Xuanzhongshan people quickly rushed to the Swords Palace, and then told his old friend Taiyi Sword God.

Taiyi Sword God retired for many years, this time it was finally out of the customs, and then followed the Xuanzhongshan people.

At the same time, during this period, Ye Xuan also found a quiet place, pretending to look like.

"Hey, the host breaks through, and the current Emperor will seal up to half the size!"

Realm, finally broke through again.

Ye Xuan consumed a supreme Dan and upgraded to a half step.

He clearly felt that his physical constitution has undergone earth-shaking changes. His strength is probably at least five times that of the peak Emperor.

If the White Dragon Supreme is still alive, his sword will surely kill the White Dragon Supreme.

"The Great will seal the body and greatly enhance the body. It is really a pediatrics compared with this."

Ye Xuan thought about it.

After the breakthrough, those ignorances are actually of little use, and only a few are still useful, such as double space, collapse of the ups and downs, acceleration of the wind, shrinking into the inch and so on.

In general, he is much stronger than the half-step supreme of his class.

A few days later, Xuanzhongshan also returned, bringing back a white-haired old man, who is the owner of the Taiyi Palace, the Taiyi sword god.

"Taiyi, I haven't seen you for a long time!"

Green fire is also rushing to say hello.

"I didn't expect things to be so coincidental." After the arrival of Taiyi Swordsman, Ye Xuan sighed and then fell on Ye Xuan.

After he felt the scent of Ye Xuan, he was also amazed.

"Half-step supreme, it really is a genius." Xuanzhongshan people's eyes lit up.

Only a few days after he left, Ye Xuan broke through from the peak of the Great Emperor to the half-step, which is enough to shock everyone.

Although he gave Ye Xuan ten Supreme Dan, but if the ordinary peak Emperor got the Supreme Dan, refining speed is not as good as Ye Xuan, it usually takes several months to refining one.

I don't know, Ye Xuan broke through to the half step and consumed a few.

However, this does not matter, because there are more important things at the moment.

"If you give him another one or two years, you will be able to surpass me." Taiyi Jianshen commented.

This evaluation is already very high.

However, Ye Xuan's heart is a cold smile, he feels that it will not be used for so long.

"The realm of the five of us is almost the same. If we join hands, we can compare it with one of the three families."

Qinghu said, his brow suddenly dipped up and said: "Just, our fourth key, originally belonged to the Yang family, when their key was stolen by the wind and thunder, so that the time to explore the remains is backward. Pushed for a thousand years..."

"You are afraid, then Li Jia also learned the news?" Xuanzhongshan asked.

"Yes, if the Li family knows it, then it will become a force of the five parties." Green fire nodded.

"It shouldn't be. The three big families are not so stupid. What are the benefits to them?"

A middle-aged man behind the green fire said that he is another big giant in the tenth prison, Qi Yuanjie.

"That may not be, Yang Jia and Li Jia have a good relationship, maybe the news will be told to Li." Another person brought by Qinghuo said that he is called Hong Wenming, and is also one of the three giants of the Tenth Heaven.

"If this is the case, then there is no way. After all, we are outsiders. However, the fourth key is on us, and all three of us have the lord in the body, and the other party can't help us." Green fire nodded.

Xuanzhongshan people answered: "Although I don't know which general is the general of the ancient sacred sects, but there should be quasi-supreme sacred soldiers and quasi-supreme martial arts. If they kill, they don't care if you have The official lord."

"If this is the case, then we can only separate, do not be with them, or they may be attacked by the group." Taiyi Sword God said.

The people nodded silently.

Next, they also waited here for two days. Two days later, they saw a large group of people rushing over.

"Damn, it really is the four big families."

Green fire whispered aloud.

This group of people is the four major families with four relics of the millennium, including Tuoba, Shangguan, Li, and Yang.

"Green fire, you are coming early."

A middle-aged man took the lead.

"Tuo Yu homeowner, how Li family ..." Green fire whispered.

"No way, the Yang family brought the news to the Li family, only the forces of the five parties." Tuoba's family shook his head.

Soon, the masters of the other three families also fell.

These four families were originally in a big city, but after a thousand years, now the major families have been transferred, so there is almost no relationship except the Yang family and the Li family.

The green fire quickly glanced at the four families, and there were not many people coming from the four families. The four parties added up to twenty-four people, six for each party.

However, all that comes is half-step supreme.

Among them, only the six of the Shangguan family are all under the black cloak, with a face towel, who does not know who.

However, after seeing Ye Xuan in a team on the shelf, the figure was slightly trembled, and the light under the cloak flickered.

At this time, the other three owners also swept over.

"Green fire, the fourth key, is the wind and thunder the Great from our Li family, so my Li family is also qualified." Li Jiajia said.

"You have come all over, if you want to catch up, you can't go, or the five forces." Green fire is faint.

After all, Li Jia and Yang Jia are all the way. If he drives away the Li family, what about the key of the Yang family?

Relics, but it is necessary to have four relics at the same time to be able to open, and one less will not work.

Chapter 742: General of the Spike

"If this is the case, then let's discuss the distribution." Tuoba's owner said.

"If it is together, then divide it equally. If you separate, you will rely on strength." Yang's family said.

This distribution is acceptable to everyone because they are not going to be together, they want to act on their own.

"Okay, let's go!"

The five major forces reached a consensus and went straight to the front of the generals.

There are some strange words on the gates of the generals, but the people present are prepared, and they do not open the door, but start to look directly.

"This general, it seems to be the general of the ancient sacred wolf!" said an old man of the Tuoba family.

General Spike!

These four words fall into the ears of everyone, some are familiar, and some are heard for the first time.

"Sure enough, it is the General of the Spike. It is said that this general of the Spikes is well-versed in the law and the organs. His Majesty has three thousand wolves, all of which are comparable to the half-step supreme."

Someone exclaimed.

Three thousand wolf teeth ride, three thousand and a half steps to the supreme!

Everyone was shocked, it seems that they are lucky.

"Even if three thousand wolf teeth are strong, but it has been so many years, how can they survive?"

Someone has raised questions.

However, the next moment, the old man who read the font on the front door is a cold-sounding voice. He said: "This general general of the wolf is proficient in the organs and the array. These three thousand wolf-tooth rides are all flawed. I suspect that these three thousand Oh, it's in this general!"

what?

When I heard this, all the people present were flashing.

Three thousand wolf teeth riding, are you?

That being said, these embarrassing people will not die under normal circumstances. If someone gets them, they will have three thousand and a half steps.

"It is said that this general of the fangs relies on a general to control these three thousand wolf teeth, so this general will have a general seal!"

The old man of the Tuoba family continued.

General print!

Everyone has this name in mind.

"Well, let's open the door first." Yang family said.

The people nodded, and the green fire also silently took out a quaint brass key.

The same is true of the other three owners. They walked together and inserted the brass key into the keyhole.

"Boom!"

When the last key enters the hole, the door trembles and then slowly opens.

The generals opened the door and opened!

The forces of the five parties have not yet entered, first wait until the door is opened and say.

"Boom!"

The quaint gate finally stopped, and the things inside were also reflected in the eyes of everyone.

The people present, plus Ye Xuan and He Yan, are just thirty-one. The realm of the two of them is the weakest among the people present.

At this time, the eyes of Ye Xuan are a long passage. The passage is about ten meters wide. The walls and floors are made of special jade, which looks smooth and shiny.

"Amphibious Avenue!"

There are four words on the entrance stone wall.

Everyone didn't move because it was not an ordinary place. This is the cemetery of a general of the ancient sacred dynasty.

"It seems that there is no danger, let me go and see!"

A master of the Li family volunteered.

The Li family wants to block, but the other party has already rushed into the channel.

He ran a hundred meters cautiously, but he did not see any danger.

"Haha, it's okay, let's come." Li's master laughed.

But the next moment, his smile was abruptly stopped, thinking that suddenly there was a special arrow that fell into his head.

head shot!

"Li Xiang!"

Li family horse immediately shouted.

The head was penetrated, and the master of the Li family immediately fell to the ground, and the blood berthed out and died.

"I saw that the arrow was shot from the wall!"

Some people in the brigade exclaimed, not only him, but even Ye Xuan saw it.

When the Lijia master stopped, the wall suddenly opened a small hole, and then an arrow was shot.

"Can't stop, never stop, go all the way!"

Someone shouted out the speculation in my heart.

In fact, everyone thinks so, but no one dares to try again.

"The only one arrow is not fast. Just be careful if it is not a problem."

Suddenly a strong man came out and was a Yang family.

"I am finishing defensive martial arts, let me try!"

The brawny came to the side of the passage.

Yang's family and others are actually opposed. After all, the strong man is his Yang family.

"No, there are a few more people going together!" Yang said.

People are Yang's, and other families are taking advantage of the fishermen's interests. This is not enough.

"I am metallic, let me come."

Tuoba's family is also out of one person.

The people present are half-step supreme, strong and strong, and the arrow can shoot through a half-step supreme head. Obviously it is not so easy to deal with. If several people have teamed up in the past, there is also a kind of care.

Because Li Jia directly died a master, this time Li family passed.

At this time, the three major families have already had three people, only the green fire side.

"I am coming, I have a flame."

Hong Wenming, one of the three giants of the Tenth Heaven, said.

When everyone heard this, they all glimpsed a glimpse of it. They sighed that the master of Li's family died suddenly. It is clear that there is a flame. Why do you have to try it yourself?

"First let the flames separate to explore."

Someone suggested.

Hong Wenming did not say anything. In the field, a flame was condensed at the door.

His flames stepped into the channel and ran wildly.

"puff!"

An arrow shoots through the flames, and the flames dissipate instantly.

However, everyone also saw some clues.

"This channel can't stop. I'm afraid it won't work too fast. I will try a few more flames."

After the completion of Hong civilization, all of the six flames were condensed and then lined up in a row.

These six flames are the fastest, the first is the fastest, the second is the second, and the sixth is the slowest.

"Puff puff!"

A single arrow shot from the wall. Because these arrows were closed after shooting, I don't know when it will appear, so everyone can't attack.

Fortunately, this time the six flames were actually destroyed by five.

The last one is keeping a speed to the end.

"Right right, at this speed, as long as you keep this speed, you can pass through the channel!"

Everyone is showing a happy color. It seems that this assault avenue, they are over.

Soon, the flames were rushed to the end, unharmed.

"go!"

The remaining five of Li's family looked at each other and quickly entered the assault avenue. When passing by the body, they also collected it.

Chapter 743: Lost

The cautiousness of the five forces is correct. After all, this general is a master of the law and the organs. If they venture into it, I am afraid that the death and injury will be heavy and even completely destroyed.

"Good guy, I have died before I entered the generals..."

Ye Xuan swallowed his mouth silently. He estimated that there would be a limit on the law in this general army.

At this time, the Yang family, who was in a black cloak, had already entered. They kept the speed of the flames and quickly passed the passage.

Soon, there are only seven people who are Ye Xuan.

"Ye Xuan, He Yan, this general is extremely dangerous, even we may all fall, do you want to follow?" Xuanzhongshan asked.

He Yan is his pro-disciple, and Ye Xuan is also his registered disciple. Both of them are qualified. He does not want to see the two being broken.

Ye Xuan and He Yan looked at each other and then Zheng focused.

"In this case, I don't say much, you are behind me."

Xuanzhongshan said.

Then, their seven-member team was led by the green fire, and then the bottom of the Taiyi sword god, through the ascension avenue.

However, when they rushed through the Ascension Avenue, they found that the other four families disappeared.

"How could they just turn around the corner?" He Yan shocked.

After that long rushing avenue, it was a corner, and there was only one way to go in front of the seven.

Although it is possible to leave first, the Tuoba family in front of them is only less than a second earlier than them.

"There is no movement. It seems that there is something here. Everyone should be careful, don't let it go!" Xuanzhongshan reminded.

However, his reminder is useless.

Because I walked in front of the green fire, suddenly turned around, but found that Ye Xuan six people are gone!

"How can this be?"

Green fire was shocked because he heard the footsteps of six people in the last second. Every second, everyone disappeared.

Even he did not know how the six people of Ye Xuan disappeared.

At this time, somewhere in the general.

"My day, man?"

Ye Xuan couldn't help but exclaimed. He walked away. He Yan and Xuanzhongshan, who were walking in front of him, suddenly disappeared. It was like moving in an instant. When he turned back, Taiyi Sword God was gone. .

Now he is alone, in this channel.

"Is it a fantasy?"

Ye Xuan closed his eyes and felt it.

There is also a supersonic bat blood in his body. Although the sensing distance is only a kilometer, at this time he does not feel anything, only pale walls.

It seems that this general used a strange approach to separate all of them, such as transmission.

"But it, one person is alone!"

Ye Xuan is calm, he is now a half-step supreme, the emperor will be half-formed, plus a variety of blood, etc., his strength is not less than 10% or 15% weak.

He tried to shrink the floor and then he couldn't break the floor. Only the ground technique could increase the speed.

"There is a rushing avenue, there is only one way to go, you can only go straight!"

The eight-year-old sword held by Ye Xuan suddenly broke open, and then quickly swam around him.

Half-step supreme can burn infuriating, and the speed of the eight wild winds has increased several times.

Anyway, he has the blood of the **** of life, the real gas burns up and does not need money, so use it casually.

Ye Xuan moved very carefully. He didn't have a flame, so he could only exchange some of the true peaks from the phagocytic system to find out.

At the end of this passage, there was a split road. He tried one first, but unexpectedly, he came back from another road.

"I am going, there is no way to go?"

Ye Xuan screamed and was shocked.

If you change people, you can't even get a link. Is this going to kill him?

No, there is still a way to go, that is the assault avenue!

Ye Xuan hurried back to the end of the ascending avenue, looking from afar, and found that there is no quaint gate at the end of the ascension avenue.

This shows that this avenue is not the one before.

"Ok?"

At this time, Ye Xuan suddenly found a figure at the end of the ascension avenue.

This is a beast with armor. On the back of this beast, there is a man in armor.

However, this person and the beast are connected together, and the armor is wearing the same armor with the beast.

Upon seeing it, Ye Xuan's mind suddenly flashed a name.

Spike riding!

"Huh!"

Suddenly, this wolf-toothed ride began to charge, and the big knife held in his hand was lifted over his head, and in the blink of an eye he plunged into front of Ye Xuan and then kneel down.

"call out!"

The big knife was cut, but it was the annihilation of Ye Xuan's afterimage.

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

This embarrassment, directly on the wolf ride on the body, the next moment, this wolf tooth ride is torn apart, the armor scattered everywhere.

The pulsation of the earth is 256, which is the collapse of the mystery, and there is also a collapse effect.

Ye Xuan's current sword, I am afraid that even the great will of the great emperor will not be able to block, let alone this wolf tooth ride?

"This armor is a good thing, take it first!"

Ye Xuan went over.

The wolf ride is composed of a piece of dark gray armor with a vacuum inside.

However, when Ye Xuan walked over, he found that these armor could not be received in the swallowing space.

At the same time, the armor in his hand began to tremble.

"what?"

Ye Xuan quickly threw the armor in his hand. The next moment, the armor was like a magnet, and suddenly it was reorganized into a wolf ride.

"My day!"

Ye Xuan was shocked, and it was a sword that broke out and beat the wolf's teeth again.

The armor of the Spike can't be taken, it will be reorganized automatically, and the defense is strong. Although the strength of the unit is not strong, these characteristics are enough to cause trouble to others.

Ye Xuan waited for a while and found that the wolf ride was reorganized again. Now he is a sword and breaks it up.

"The armor can't be closed, and even the weapon is the same. It seems that only the general can be printed!"

Ye Xuan thought in his heart, and then he began to explore the road. He did not know the danger of this assault avenue, so be careful.

However, this time he is predicting failure. This road is very ordinary and there is no danger.

After Ye Xuan walked through this avenue, he saw a stone monument with three lines of names on the stone tablet.

Jingxin Lake!

Casting the building!

Training ground!

Behind this stone monument, there are three gates, each with three names on the stone monument.

"Is this directly accessible to these three places..."

Ye Xuan has some doubts in his heart.

The cast-cast building should be a place to create weapons, organs, and shackles.

Not to mention the training ground, it is the place to drill soldiers.

As for the Jingxin Lake, Ye Xuan did not know, but he felt that this place must not give you a leisurely walk to pass the time.

Chapter 744: Training ground

"Wait, here is the general, there will be no soldiers inside, usually the scorpion and the wolf ride. The cast-cast building may be an institution, the training ground may have a lot of wolf teeth riding, which one should I go?"

Ye Xuan thought while looking around, and did not find other channels. There is no way to leave the generals. It seems that he can only choose one.

"The Jingxin Lake is unknown, and it is excluded. The casting building is estimated to be an organ. It is too dangerous for me to exclude. Training ground, let's just..."

Ye Xuan made a decision.

Then he just retired the gate of the training ground and walked in.

"Well? Mystery?"

Now, Ye Xuan finally understands why he is separated from other people. The generals of the relationship are the secrets. Each of them has passed through different secret entrances, so they are separated.

And this door is also a secret entrance.

"Let me see, what is there in this training ground!"

When Ye Xuan entered the training ground, the door behind him was shut down.

The training ground is a big downfall, but there are still many stands and seats around.

Ye Xuan looked around and found that it was a bit like the Colosseum.

There is no one in the training ground, and there is no such thing as a shackle. There is only one stone monument.

There are a few lines above, and Ye Xuan is shocked after reading it.

"Spike riding challenge?"

Ye Xuan brows a pick.

This wolf ride challenge, there will be a wolf ride, and after defeating it, there will be two wolf rides at the same time, and so on, ten people for a pass.

From the fifth level to the tenth level, there will be rewards. At the same time, these rewards are also very rich. The reward for the fifth level is one hundred supreme Dan.

The reward of the tenth level is even more accurate.

Among them, only those who pass the five levels can leave the training ground.

Otherwise, you will only live here and die!

"Beginning is a wolf ride, and so on. If you want to leave the training ground, you have to go from one to fifty. Isn't Nima a bit cruel?"

Ye Xuan was shocked.

The strength of the wolf ride, he has seen, if the white dragon supreme saw the wolf ride, I am afraid it can not be defeated in a short time.

It's not that simple to want to beat fifty wolf riders.

After all, the infuriating gas can not be recovered in a short time.

"The interval between two battles must not exceed ten minutes, otherwise recalculate!"

This is the rule attached to the training ground.

Here, both strength and resilience are needed. If someone can't control the gas consumption, so that the recovery product is used up, then it really has to die here.

"Thirty people, I chose the training ground for me. This should not be possible. Here, there should be an independent secret, and there are countless such training grounds..."

Ye Xuan thought about it and set foot on the ring.

The next moment, he heard a thick voice.

"Young people, are you challenging?"

Ye Xuan was shocked and immediately responded. This should be the voice of the general.

When he reached his realm, he could keep his voice for thousands of years. This is nothing. However, the conscious voice, this is the remnant, and Ye Xuan can't do it now.

"Yes!"

Ye Xuan nodded.

"It is good!"

Then, a door next to the ring was opened, and then a wolf was pulled out.

This wolf ride is exactly the same as that that Ye Xuan Fang has seen. The humanoid armor and the wolf armor are integrated into one, holding a big knife and murderous.

"Hey!" "Hey!" "Hey!"

After the emergence of this wolf tooth ride, it immediately rushed toward Ye Xuan.

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

"Hey!" "Hey!" "Hey!"

This wolf ride was instantly disintegrated, and Ye Xuan won the first victory.

Then, this wolf ride is a reorganization, but it did not attack Ye Xuan this time, but quietly.

"Young people, you have ten minutes of rest!"

The thick voice sounded again.

Those who cultivated to the level of Ye Xuan are not disabled. They all know that even if they only consume the infuriating spirit of a sword, they must reply. After all, in the training field, endurance is the most important thing.

However, this is not necessary for Ye Xuan. With the tree of life, he burned out the instinct and recovered, and the physical strength consumed by the sword was restored.

"No need, let's get started!"

Ye Xuan clenched the eight-year-old sword and said coldly.

The general thoughts of General Spikes did not say much. The next moment, behind the gate, another wolf was riding out.

Now, it is the second game, two to one.

"The generals can't fly in the air. If you want to pass, you must quickly defeat these wolves."

Ye Xuan immediately shot, the two wolf teeth riding collapsed and won the victory.

"Come back!"

He has no nonsense and continues to fight.

Three, four... nine, ten...

Even if ten wolves ride out, Ye Xuan can instantly defeat them.

Ten games for the first round, now Ye Xuan has taken the next level, and after four passes, he can get the reward of five levels, while leaving the training ground.

However, Ye Xuan's goal is not the five levels, but the ten levels.

Eight-year-old sword is good. Although the degree of cultivation is equivalent to that of other people for decades, it can be a higher weapon than the virtual soldier. If Ye Xuan can get it, the combat power can be improved a lot.

Not only that, but the ninth level also has a quasi-supreme martial arts, which is what he really needs.

All in all, it is a few passes, a few turns!

"Hey!" "Hey!" "Hey!"

"carry on!"

"carry on!"

"carry on!"

Ye Xuan's voice is powerful and powerful. In less than five minutes, he has been playing from one to forty-nine.

Now, the 50th game!

"One pair of fifty, if it's someone else, I'm afraid it's very tricky. From one fight to fifty, I'm afraid I'm already bottoming out."

Ye Xuan thought in mind, at this time, a wolf tooth came out in the gate.

Fifty, just right!

"come on!"

The eight-year-old sword in the hands of Ye Xuan has broken again, and it is the best way to deal with this wolf tooth ride.

"boom!"

When Ye Xuan's voice fell, fifty wolf-tooth rides were launched in an instant.

The generals couldn't fly in the air, and even jumped a few meters high. The wave of the 50-wolf ride, if the average person accidentally dropped it, would definitely be hacked to death.

Ye Xuan held a top-of-the-line virtual soldier, and suddenly shot at the wolf's teeth that rushed to the whistling. The next moment, there was a sword shadow that struck towards the wolf.

"Double space!"

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

Chapter 745

Ye Xuan took out all the solutions, while controlling the eight-handed blade to attack the wolf's teeth, while using the double space and the thirty-six overlapping shadows, he broke the wolf's teeth and he stood still.

When fifty wolf teeth rushed to Ye Xuan, there were only twenty more dead.

At this time, Ye Xuan was kicked and kicked in.

In less than three seconds, the more than twenty of the Spikes are all disintegrated.

"Young people, you passed the fifth level and rewarded 100 Supreme Dan!"

The voice of General Spike has just fallen, and in the air is a dragon ring, which contains hundreds of Supreme Dan.

At the same time, the fifty wolf-toothed rides were reorganized again, so they looked at Ye Xuan quietly.

"One hundred Supreme Dan, almost let me break through!"

Ye Xuan hastened to the past and will pick up the ring.

"Hey, the host breaks through, and the current Emperor will seal up as one!"

The system prompts.

Sure enough, a hundred Supreme Dan, let him successfully break through once.

The Emperor will seal the body and greatly enhance the body. Now even if the Emperor Fengfeng burns the sky with flames in front of him, he will not be able to resist it, and he will not hurt him.

"My speed has increased by at least 30%. Only if I want to get through the 10 levels, there are some difficulties, but now, it's easy!"

Ye Xuan's dawn is big.

The tenth level of the training ground is to face a hundred wolf teeth at the same time, not the average person can pass.

However, his attack can kill the wolf's teeth, and the speed is several times faster than the wolf's teeth. With his strength, it is not a problem to easily solve the problem of a hundred wolf teeth.

"Young people, do you want to continue, or choose to leave? If you continue, if you fail, you will need to challenge again, and the reward will not be refreshed!"

The thick voice sounded again.

Wen Yan, Ye Xuan did not want to answer: "Continue!"

The fifth level is 100 Supreme Dan, while the sixth level is 500 Supreme Dan, and the seventh level is a thousand Supreme Dan. This should be 1,500 Supreme Dan, which can almost make Ye Xuan break through once again. It is.

One thousand and five hundred Supreme Dan, if given to other people, can only break through two or three times.

However, Ye Xuan's experience of breaking through is much more than others, so it is estimated that it can only be done once.

Fifty-one...fifty-two... fifty-three...

Ye Xuan, who broke through the realm, is now more comfortable to kill. Every sword can be killed and two or three wolf teeth can be killed.

In a battle, he won't spend three seconds!

"Young people, you are so good, congratulations on passing the sixth level, this is your reward!"

In the sky, another 乾 戒 戒 ,,
,,,,,,,,,,,,,,,,,,,,,

After a minute.

"Young people, congratulations on passing the seventh level, this is your reward!"

Another piece of Qiang Kun quit.

"Hey, the host breaks through, and the current Emperor will seal up to one and a half!"

Ye Xuan's realm has improved.

One and a half, that is, 15%, as long as the Emperor will be 100% sealed, then you can greet the rob, as long as you pass, you can practice the supreme body, and achieve the true supreme.

"Haha, now I can just go through ten levels!"

Ye Xuan couldn't help but laughed: "Continue!"

Seventy-one...seventy-two...seventy-three...

Ye Xuan all the way to kill, although the realm has not improved, but his strength is constantly strengthening.

"Congratulations, young people, you passed the eighth level, this is your reward!"

It is another 乾 戒 戒 。 .

The reward for this eighth level is not the Supreme Dan, but a map, a map of the generals.

After getting the map, Ye Xuan quickly transcribed into the phagocytic system.

"Jingxin Lake, the melting cast house, the training ground, and the ... General Hall!"

Ye Xuan looked at it.

The most valuable thing in the general's army should be the general's seal. After all, this is the key thing to control the three thousand wolf teeth.

"carry on!"

Ye Xuan shouted.

Eighty-one...eighty-two...eighty-three...

Soon, Ye Xuan passed the ninth level.

"Young people, congratulations on passing the ninth level, you can choose a quasi-supreme martial arts!"

When the voice of General Spikes fell, Ye Xuan floated a list in front of him.

Above, all are the names of martial arts.

"My thirty-six overlapping images and the collapse of the mystery, the power is not worse than the quasi-supreme martial arts, the speed is not bad..."

Ye Xuan was hesitant.

He pondered for a moment and finally decided.

"The singer is a ghost, he is!"

Ye Xuan shouted.

This is a stalwart, not an attacking martial art. However, he can enhance his strength like weightlifting and light weight.

This singular dragon is a ghost, first burning the infuriating, and then turning into a singular dragon, increasing strength. If Ye Xuan is running on the ground, this singular dragon will have the effect, so Ye Xuan chose it.

It can improve the attack power and increase the speed. It can be improved on both sides. It is very good.

"Snapped!"

After Ye Xuan answered, there was a secret that suddenly fell to the ground. Ye Xuan rushed to pick it up and transcribed it into the phagocytic system.

"Hey, the host learned the genius!"

It is good to have a phagocytic system. Others may have to study martial arts for a year or two. Ye Xuan can only learn in one second.

Now, Ye Xuan has passed the ninth level, leaving only the last level.

"carry on!"

Ye Xuan shouted.

In the next moment, another channel was taken out by a wolf tooth, ninety-one.

Ye Xuan just learned a quasi-supreme martial art, just to try the effect.

"The dragon is ghostly!"

"Thirty-six overlapping shadows!"

“The earth is pulsating 256!”

He was holding a sword and a sword.

“Hey!” “Hey!” “Hey!”

The wolf ride that just started to charge, was instantly dismantled more than ten.

The original attack by Ye Xuan was only three or four at a time, but now it has reached more than ten.

Although he is now using the Eight-Dangerous Sword, it is not an ordinary top-class virtual warrior, but the power will not be upgraded to such a strong, Ye Xuan estimates that at most eight, and after using the genius, the power is full. Doubled up.

“Hey!” “Hey!” “Hey!”

A sword has been flashed, and the more than 90 wolf teeth have not yet rushed to Ye Xuan, and they have been beaten, all collapsed.

Not only that, but there are some wolf teeth riding, and the armor has been cracked by Ye Xuan.

The material of these spikes is very hard. It was made by the generals of the Generals. The Ye Xuan played ninety games before, and did not destroy a piece of armor. Now, with one stroke, the armor can be cracked.

If you give Ye Xuan a quasi-supreme squad, he is afraid that he can strike a wolf and can't reorganize.

Chapter 746: Long knife vice

"carry on!"

Ye Xuan's self-confidence suddenly burst into shed.

Ninety two... ninety three... ninety four...

Soon, Ye Xuan defeated ninety-nine wolf-jaws at the same time. These wolf-toothed rides were also very embarrassing. Some parts were broken by Ye Xuan and could not be reorganized.

"These wolves are good at riding. Although it is a pity to break, there are less than one hundred."

Ye Xuan thought in his heart, his goal is also the general seal. He estimated that he already had the strength to compete with other forces for the military seal.

"Young people, the last level is not difficult, do you want to continue?"

The voice of General Spikes sounded again.

Ye Xuan brows a pick.

The difficulty is not small?

What is the difference between ninety-nine wolf teeth riding and one hundred wolf teeth riding?

"It is estimated that this last wolf ride is not a normal one!" Ye Xuan suddenly understood, nodded: "Continue!"

"Hey!"

The next moment, in the black lacquered passage in front of him, there was a burst of footsteps.

"Sure enough, it is not ordinary wolf riding, this is the footsteps of people!" Ye Xuan brow slightly wrinkled, watching the front.

Not long after, there was a long knife with a dark gray armor coming out.

"This is a long knife deputy, can be an enemy!"

The sound of General Spikes sounded.

"Whatever it is, come on!"

Ye Xuan holds the eight-year-old sword.

In this case, it is not much effective to kill the eight wild winds. Anyway, those wolf teeth rides do not pose any threat to Ye Xuan.

On the contrary, this long knife deputy will not be a human being, but a shackle, it has nothing to breathe, making Ye Xuan quite jealous.

"boom!"

The long knife will shake the long knife in his hand.

Suddenly, the ninety-nine wolf-toothed rides were on the brink.

"Hey, let's solve these miscellaneous fish first!" Ye Xuan snorted and solved the ninety-nine wolf teeth in front.

In the last game, he used an enemy ninety-nine, and when the other party had not rushed over, he defeated it all.

But this time, it's not that simple.

"The dragon is ghostly!"

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

Ye Xuan is still crazy out of the sword, a list of wolf teeth riding was bombed, and then collapsed.

However, some of the attacks were blocked by the long knife who suddenly swept to the front.

"Well? That weapon is the ultimate spiritual treasure?"

Ye Xuanyuan has widened his eyes, but he has no time to think about it, because this long knife will suddenly accelerate.

"what?"

Ye Xuan was just reacting, and the other party had already lifted the long knife over his head.

"Oh!"

A crisp sound spread, Ye Xuan's right shoulder was directly cut down, but fortunately he responded, otherwise the knife would be divided into two halves.

"eight wild swords, broken!"

Ye Xuan quickly driven the infuriating, cracked the eight-year-old sword and attacked the long knife deputy.

It is not important that his right arm is shackled with his right shoulder. What is important is that the long knife will be in front of him. If he does not take it seriously, he will pay the price of blood.

“Hey!” “Hey!” “Hey!”

The eight-handed blade hit the armor of the long knife and suddenly made a strong metal collision.

At the same time, Ye Xuan has already evacuated at full speed.

The long knife deputy will not be prepared to pursue Ye Xuan, but will be stunned at the eight-handed blade.

"Hey!"

A sharp blade will be directly cut into two by the long knife.

"My day!"

Ye Xuan saw his eyes almost coming out.

He used the eight-year-old sword that had been used for so long, and he was destroyed by the long knife. What should he use in the future?

"eight wild swords, go!"

Ye Xuan no longer controls the remaining seven-handed blade to attack the long knife, but to attack the remaining wolves.

“Hey!” “Hey!” “Hey!”

The long knife will turn his head and rush toward Ye Xuan.

Ye Xuan's face sank and glanced, and found that the life tree had not been treated yet, and the right hand only reached the elbow position.

He quickly took out a smuggled squadron and then sneaked into the army of the wolf.

Fang Caichang knife will suddenly accelerate, killing him a surprise, if it is one-on-one, Ye Xuan can still escape his attack.

However, now it is not one-on-one. If you don't solve the problem with a spike, then if he is surrounded, the consequences will be unimaginable.

Moreover, he can use the spike to ride, temporarily blocking the long knife vice.

Soon, Ye Xuan's right hand was restored as before, and he took out another smuggled squadron, and then he took a two-pronged approach and madly defeated the fangs.

Fifty!

Forty!

Thirty

Ye Xuan was rushed into the wolf to ride the army in less than two seconds, and the only good wolf ride in the field was only less than twenty.

At the same time, Ye Xuan is also locked again by the long knife deputy.

"Come on!"

Ye Xuan is holding a barren sword and drinking.

Although a part of the Eight Desert Sword was split in half, it was still able to reorganize.

Compared with the eight-year-old swords, the attack power is as high as 50%, which is the effect of cultivation.

"The dragon is ghostly!"

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

Now Ye Xuan is also fully attacking, although the double space will not have much effect on this long knife, but it is better than nothing.

"Huh!"

The long knife in the hand of the long knife is a quasi-supreme soldier, so Ye Xuan can't dare to touch him hard.

Repulsive acceleration, wind acceleration, wind wing, ground technique, five agile advances, and popular, these factors make Ye Xuan's speed slightly faster than the long knife.

Otherwise, Ye Xuan has already died in the hands of the other party.

"Boom!" "Boom!" "Boom!"

Ye Xuan evaded the attack of the long knife vice, while counterattacking.

But the long knife's reaction was too fast, and the quasi-supreme squad in his hand could attack his attack.

Therefore, if Ye Xuan wants to win, he will not be surprised.

At this point, Ye Xuan regretted some, because he has five god-level blood in his body, and the last one is the blood of Gemini.

Gemini blood, as long as the deity and the body fit, then the combat power will increase by 10%.

However, now that Ye Xuan has a avatar, he will certainly be able to easily kill this long knife.

Unfortunately, the avatar is still on the East.

"If you want to win, you have to bleed and fight!"

Ye Xuan bit his teeth and suddenly swept past.

This time, he is going to exchange blood for blood!

"Oh!"

The long knife will raise his hand and squat the left shoulder of Ye Xuan. At the same time, Ye Xuan's right hand also took out a sword.

"Boom!" "Boom!" "Boom!"

The long knife will be smashed and flew straight out.

Fighting in this way, Ye Xuan is also psychologically prepared for a long time. After all, one person is inadvertent and the whole person will be split in two.

Now he relies on the blood of the **** of life.

Chapter 747: by

Fortunately, the armor of this long knife is not a quasi-supreme soldier, Ye Xuan, this sword, still hit it cracked.

"effective!"

Ye Xuan's light flashes, although it is impossible to solve this long knife deputy once, but if it is several times, it will definitely work.

However, there must be no mistakes during the period, or the head will be split in half.

"Hey!"

Ye Xuan swallowed and waited for the tree of life to restore his left arm.

After all, this long knife deputy is just a slap, no consciousness, this is good news.

When the long knife was going to be smashed, Ye Xuan quickly solved the remaining wolf ride.

"kill!"

The long knife deputy will kill again, Ye Xuan is also welcoming.

"Oh!"

Ye Xuancai's left shoulder has just been cut off again. At the same time, he also took a long knife and a sword.

"Hey!"

The long armor's abdomen armor crack is widened, and I am afraid that it will be broken again.

"Hey!" "Hey!" "Hey!"

The crisp crack of the metal shattered and spread, Ye Xuan used several arms as a bait, and finally defeated the abdomen of the long knife. As long as he persisted for a while, the long knife deputy would be yelled by Ye Xuan.

At that time, there is no long knife for the leg, not afraid!

"Oh!" "Oh!" "Oh!"

Ye Xuan's arm was cut off again and again, and he couldn't help but scream. If the blood of the **** tree is restored, he will be completely smashed by the tentacles.

"Give me to die!"

After Ye Xuan was defamed for fifteen times, he tried his best to get a sword.

"Hey!"

In a crisp sound week, the waist of the long knife was finally broken, and the upper body was planted down.

However, in the process of planting it down, it smashed.

"Hey!"

Ye Xuan only saw a flash of cold, then the throat was cold, and blood madness sprang from his throat.

"Hey!"

Ye Xuan hurriedly grabbed his throat with one hand, blocked the blood with real gas, and held his head in one hand.

This knife almost cut his entire head. Fortunately, his reaction was very fast. He quickly pressed his head and let the life tree restore blood.

After a second.

"Where, scare me!"

Ye Xuan is arrogant and arrogant. If his head is shackled, he will be useless if he has the blood of his life tree.

Of course, even if the head is smashed, it will be fine. After all, he has a lie in the East.

However, the avatar has not yet broken through to the half step, if the deity is dead, the avatar needs to be re-cultivated.

"It's terrible, forgetting to leave a Supreme Dan for the avatar."

Ye Xuan looked at the long knife deputy on the ground and subconsciously retired a few steps. Only then did he get the supreme Dan, all swallowed by his deity, and forgot to stay one.

Otherwise, the avatar in the East China can also break through to the half step.

If the deity had any accidents in this general, the avatar would be a comeback.

"Young people, you are very powerful, congratulations on your customs clearance, the tenth level of reward is the quasi-supreme Lingbao, what kind of weapons do you need?"

The voice rang again.

"sword!"

Ye Xuan did not want to answer.

Just kidding, he has the blood of the sword **** in his body, which enhances the power of swordsmanship and the sense of swordsmanship.

If you don't choose a sword, can you not choose a knife?

"it is good!"

When the voice fell, a long sword suddenly fell.

Ye Xuan hurried past and picked up the sword.

Sword name, soul rhyme!

"The soul of the sword, the quasi-supreme **** soldiers!"

Ye Xuan's light flashes, and if he has the right-handed sacred soldier, what will the long knife be?

I am afraid that there will be no more than three rounds, and the long knife will be killed by him.

Quasi-Supreme God Soldiers, like the virtual soldiers, can be infuriated. Moreover, the power of the Quasi-Supreme Lingbao will be much larger than that of the Shangpin.

Ye Xuan took this Confucian sword and the Eight-Dangerous Sword to make a comparison. There is no soul-sword sword that has been infuriated by the infuriating. The increase has actually surpassed the eight-year-old sword that has been conceived for decades.

The combat power has doubled up.

"The teacher and the fire are in their realm, I don't know how much..."

Ye Xuan thought in the heart.

These people are also half-step supreme, but he did not ask, after all, the realm is also a secret, who will talk about it?

"Young people, you have already received the 10th level reward, you can go directly to the General Hall. Of course, you can also go to Jingxin Lake or the Casting House."

"Boom!"

When the voice fell, a door on the side of the training ground was suddenly opened.

Ye Xuan took a look at these wolf teeth riding and long knife deputy. In fact, he still wants to take the long knife away. After all, this is also a strict sword.

However, the long knife and the long knife pair will be integrated, and he estimates that it is impossible to collect. Besides, the sorrow of General Spikes will certainly not allow him to take the long knife.

At the moment, Ye Xuan is holding the soul sword and the eight desert swords and walks into the door.

At the back of the door, there are three ways to go.

Go straight to the General Hall, on the left is Jingxin Lake, and on the right is the Casting Building.

Before Ye Xuan passed the eighth level, he got a map of the generals, which also marked some content.

The generals of the Spikes are decisive and decisive, and the soldiers who are under the arm are very brave. The killing can be said to be unobtrusive.

Therefore, these soldiers need to exercise their minds so as not to break into murder.

Jingxin Lake is to help these soldiers. It is actually a magical array, unraveling the soldiers' hearts.

The cast-casting building is indeed the place where the weapons and organs are forged, and the organs there are heavy, very testable and insightful.

Ye Xuan is very glad that he has not chosen the melting cast building. Although he is not stupid, he hates this place most. He wants to successfully survive the casting building, which is much slower than the training ground.

"This general hall is another maze. Fortunately, I got the map. It seems that I should be able to reach the main hall and then get the general seal!"

Ye Xuan glanced.

Intuition tells him that the general seal must be in the main hall.

At the moment, he is going straight.

Not long after, he came out from the training ground.

In front, there is a big hall, compared to the general temple.

"Well? Someone?"

At this time, Ye Xuan frowned, because he suddenly saw a black figure plunged into the general's temple.

He remembers that among the five forces, only the officials of the Shangguan family wore black cloaks and black face towels, and the mysterious look of God.

However, what makes Ye Xuan strange is that the other party actually came out faster than him.

"Right, the training ground can reach out after five levels!"

Ye Xuan suddenly remembered this matter.

Since someone entered the General's Hall before him, he could not fall behind. He rushed past, but he lost the black figure.

"But, go to the main hall along the map."

Ye Xuan was too lazy to manage and left directly along the map.

Chapter 748: Double kill

There are still some organs and shackles in the general's temple. Ye Xuan only got the map, and there is no indication of where there are organs, so he can't run so fast.

“Hey!” “Hey!” “Hey!”

After Ye Xuan figured out the mechanism of a passage, he began to move forward.

Those arrows appeared to be regular, which he took a few minutes to launch.

However, after he passed this passage, he heard an unusual voice.

“Hey!” “Hey!” “Hey!”

The sound of a collision of weapons was introduced into Ye Xuan’s ear.

"The corner is ahead, someone is fighting!"

Ye Xuan’s eyes are bright, but he can’t guarantee that those in front are his own.

However, there is a voice in front of him, he is more familiar.

"Green fire!"

Ye Xuan rushed to the past.

When he turned the corner, it was discovered that the green fire was in sight. At this time, the green fire was being under siege by two people.

Fang Caixuan also glanced at him. Except for the six members of the Shangguan family who were under the black cloak, the rest of them remembered a little, at least knowing which side of the force.

The two men who besieged the green fire, one is the Yang family, and the other is the Li family.

"The speed is fast, the realm is higher than me!"

Ye Xuan brow wrinkles.

The speed of these three people is almost the same, Ye Xuan estimates that their will seal should reach about 30%.

However, this does not mean that their speed can be faster than Ye Xuan.

"Ok?"

A master of Li's family flashed and saw Ye Xuan.

Not only that, Green Fire and another person also noticed.

"The kid is going!"

Green fire hurriedly shouted.

Green Fire and Ye Xuan also have some relations. If it is not a green fire, he is probably still killing in Heaven.

Coupled with Green Fire is their side of the party, so Ye Xuan will not sit idly by.

"The eyes of the predecessors of the green fire seem to be the quasi-supreme gods. This is the master of the Li family and the Yang family, so he wants to kill people and win the treasure!"

Ye Xuan instantly understood, and rushed to the past.

"Kid, you are doing..."

The green fire has not finished, it is to see the sword of the hand held by Ye Xuan, the quality of this sword seems to be no worse than the sword in his hand.

Quasi-supreme **** soldiers!

Ye Xuan, even got a handful of the supreme **** soldiers.

"Join hands and kill them!" Green fire immediately changed his mouth.

"it is good!"

Ye Xuan nodded and said.

At the same time, the masters of Yang Jia and Li Jia discovered that Ye Xuan also had a quasi-supreme soldier. Now, they can be divided equally.

At that time, Ye Xuan joined the battle, his opponent is the master of Li.

"Kid, you actually chose me, I really don't know how to live!" Leo coldly shouted.

"Dead, it will be you!"

Ye Xuan left his hand and suddenly appeared a simple sword. The next moment, this simple sword was broken into nine pieces.

Before the eight-handed blade was smashed by the long knife, so the power of one handle is not enough.

However, the Eight-Year Sword is only used to contain it.

"The dragon is ghostly!"

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

"Double space!"

This master of the Li family, the Emperor will seal the body has reached 30%, the strength is much stronger than the long knife vice.

Although the effect of the righteousness on the half-step supreme is not great, as long as there is still a little effect, then it may decide the victory or defeat of a battle.

If it is always counted, Ye Xuan's attack is stronger than the other, and the speed is faster than the other party. The other party can't last long.

Therefore, in this battle, Ye Xuan is almost sure to win.

"Hey!"

Ye Xuan only got a sword, the other party couldn't get it, and it was directly bombarded. Not only that, the Li Shang master's hands in the hands of the top-grade virtual soldiers, directly broken into pieces.

"This blow, want your life!"

Ye Xuan looked dignified and once again pulled out a sword.

He learned the glory of the dragon, the speed of the shot is lightning fast, the sniper instantly passed the Li family, and it was twisted into two halves.

Although she used two swords, Ye Xuan was very satisfied with her strength.

After the death of Li's master, he quickly swept the past and then accepted the other's shackles.

Because this Li family master is to explore the ruins, there is not much in the Qiankun ring, but it is better than nothing.

Ye Xuan left a supreme Dan, and the rest were swallowed up.

Almost at the same time, this one of the supreme Dan was swallowed up by Ye Xuan, who was far away from the East China, and broke through to the half step.

The Li family master was killed in an instant, and this scene fell into the eyes of the green fire and the master of the Yang family, they were very shocked.

The most weird, it is a green fire.

When the green fire wandered in the prison, I accidentally encountered the use of the popular Ye Xuan, so I invited to sit down and chat for a while.

At that time, Ye Xuan was only a first-class emperor.

However, now, Ye Xuan has grown to the point where he kills half a step, which makes him a bit unacceptable.

"Green fire predecessors, I will help you!"

Ye Xuan drank a word and immediately turned around and rushed back.

The master of the Yang family is not stupid, his companion strength is similar to him, but this kind of realm has been spiked by Ye Xuan, not to mention the green fire, even Ye Xuan can kill him.

He does not go, look for death?

"Haha, just because you want to escape my palm?"

Ye Xuan's heart sneered, and Shi Zhan's ghosts rushed up.

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

His attack was very rapid, and the Yang family master who had reached the 30% of the emperor's body seal could not stop it. He was directly bombarded, and the top-class virtual soldier was also instantly broken.

The Yang family master was gloomy and his heart was not good, but he did not see Ye Xuan attack again.

"Hey!" "Hey!" "Hey!"

Ye Xuan did not attack, because he did not need it, and the seven-handed blade had already swept him in the first step.

"Puff puff!"

The seven-handed blade was all immersed in the head of this Yang family master. The next moment, the head of Yang's master was bursting open and became a headless body.

The two great emperors will seal the 30% of the half-step supreme, all fallen!

Ye Xuan rushed to the past and took over the shackles. Although it was only improved, it was not bad.

"Green fire predecessors, are you okay?"

Ye Xuan asked.

The green fire has already been in the same place at this time. Two people who have played without his ability to fight back have been killed by Ye Xuan one by one. Then Ye Xuan's strength is already stronger than him.

"I am fine."

Qinghuo stabilized his emotions and smiled and said: "Compared with you, my qualifications really can't see people."

"The green fire predecessors won the prize." Ye Xuan smiled and asked: "I don't know other people..."

"At that time, we suddenly lost. Then I went to Jingxin Lake. Because of my high mood, I passed it very quickly, and I got a quasi-supreme soldier. You are the first person I have seen." The fire shook his head.

Chapter 749: Main hall

"It seems that the Master and others may still be in those three places." Ye Xuan eyes.

These three levels, he has a comment on the map.

If the strength of the training ground is not enough, it may be trapped inside. If the mood of Jingxin Lake is not enough, it will continue to fall into the illusion. The cast-cast building may also be trapped inside.

In short, people who can come out have some abilities.

"I don't care anymore. I got a map in Jingxin Lake. Let's go to the main hall and get the generals. If you win the generals, you can control this general." Green fire said.

"Control the generals?"

Ye Xuan brows a pick.

Doesn't it mean that the military seal is used to control the three thousand wolf rides?

However, it is very good to be able to control the entire general.

"go!"

Green fire said, it is leading the way ahead.

Now, Ye Xuan and him have joined forces, and the two are moving fast. They are close to the main hall.

Ye Xuan actually has a map in his hand, but he found that the green fire is not the same as the map in his hand, but it can also lead to the main hall.

The green fire came out of Jingxin Lake, and he came out from the training ground. If this is the case, there may be a different map on the side of the cast house.

Anyway, they can all lead to the main hall.

Under the joint of Ye Xuan and Qing Huo, they arrived at the main hall within half an hour.

However, the main hall door is closed.

"If you want to open the main hall door, you must get together the attributes of the golden wood, the fire and the earth."

When Ye Xuan saw the words on the stone wall on the side of the main hall, he immediately turned his eyes.

They are only two people, and they are definitely not in agreement.

"I am a fire attribute, you are a soil property, as long as you come back to gold, wood, water, you can open the door." Green fire said.

That is to say, the wood property is as small as the soil property. What if there is no wood property among the 31 people who come in?

Besides, even if there are wood attributes, what if they are trapped in the three places of the training ground, or fallen?

"There is no way, it seems that I can only wait."

Ye Xuan is also helpless shaking his head.

They are indeed coming first. If you can't get along with the five elements, you can't get in.

Therefore, you can only wait!

There are three roads in the main hall. Ye Xuan and Qing Huo are hidden on the road in Jingxin Lake, while the other two roads are surrounded by Ye Xuan.

Although these battles are only five, if someone comes over, they will be crushed, so that Ye Xuan and Qinghuo will be able to know.

Ye Xuan and Qing Huo waited for an hour.

"What is going on with this general, the generals of the Spikes, the basics of the half-step is rarely used, why do you have to go five lines to open the door."

Green fire is also very helpless.

Half-step supreme is basically relying on physical and burning battles. The meaning of the righteousness is not great for the half-step supreme, unless there is comprehensible skill, wind acceleration and double space, etc., can be used.

"Hey!"

At this moment, suddenly a sound fell into the ears of Ye Xuan and Qing Huo.

They trembled and immediately swept to the corner to see who was coming.

The sound came from the next door, very close.

Although there is a lord in the green fire, in this case, the other party can kill whether he has a title or not.

Soon, the one who caught the attention of Ye Xuan and Green Fire appeared, and it was not one.

"Xuanzhong, Taiyi, it turned out to be you!"

The green fire immediately swept out.

Come, it is the Xuanzhongshan people and the Taiyi sword god.

Xuanzhongshan people and Taiyi swordsman did not expect to be able to meet their own people. When they heard the sound of green fire, they almost had to start.

"How, how do you harvest?" Green Fire asked.

"Yes, I passed the training ground and got a squadron. But Taiyi gave up on the seventh floor when he was casting a building." Xuanzhongshan said.

"It doesn't matter if you don't get it. Now we have come to the main hall. As long as we get the general seal, we can control the whole general!" Green fire comforted.

Taiyi Sword God asked a little strangely: "How do you know that the military seal can still control the generals?"

"There is a remnant of the generals of the fangs in Jingxin Lake. He told him. However, the generals are not available to the average person. There is still a test in the main hall. Not only that, but we also need to get together the five elements to open the main hall. The door!" Green fire replied.

When Fang Cai and Qing Huo stayed together, Ye Xuan already understood, so I was not surprised.

"You must open the door first, and then pass the test, can you get the general seal?" Xuanzhongshan people and Taiyi sword **** looked at each other.

"I am gold and water. The mysterious is the soil property and the wood property. You have the fire property in the green fire, and the five elements are all together!"

Taiyi Sword God looked around in a circle and his eyes lit up.

Now Ye Xuan and Qinghuo first arrived at the main hall door, but luck was not very good, and they were stuck here.

If they don't have the two left, they can't even enter the gate, and what do they say?

However, the green fire has forgotten, Taiyi Jianshen and Xuanzhongshan people have two attributes.

Metallurgy is Taiyi sword god, wood property is Xuanzhongshan people, water property or Taiyi sword god, fire attribute is green fire, soil property is Xuanzhongshanren and Ye Xuan.

Five elements, it's true!

"Go, go in before they come!"

The four people swept past.

Then, Ye Xuan watched the three of them put the instinct of different attributes into the round hole of the main hall door.

"Boom!"

The main hall door, finally opened!

At the moment, the four are plundering in.

"Take the door closed and say it!"

Green fire proposed.

They are so hard to get together with the five elements of the property, but they can let other people come in. If they want to enter, they have to make another five-line attribute.

"Boom!"

The door was pushed by everyone and the formation was re-launched.

Immediately, the four talents began to look around and looked at the main hall.

The main hall of the general has only sixteen pillars and one platform in the middle.

There are four long knife vices on the table, and in the middle of the four long knife vices, there is a set of golden armor.

This set of gold armor is holding a sabre, holding a square thing in one hand, presumably the general is printed.

"You, congratulations, you have come to the main hall!"

At this moment, a voice suddenly sounded in the main hall, which was the general of the wolf.

Ye Xuan four people listened to the ear, did not immediately take the generals to take down, because this generals of the wolf is proficient in the formation and the law, is there a high-risk institution on the table?

"General Spike, how do we get the generals?"

Green fire sent a little excitement to ask.

After all, this one will be related to the entire general. If anyone gets the general seal, he will be able to fly.

Chapter 750: Dragon gold armor

Although the general of the Spike has been dead for thousands of years, his remaining thoughts have not dissipated. He paused and said: "If you want to win the generals, you must defeat my four long-knife deputies, and I spent a lifetime of dragon-shaped gold armor!"

"Hey!"

When the voice of General Spikes fell, the five armor on the table suddenly moved.

Sure enough, they will move.

"The dragon's hand on the left hand is the general seal. As long as someone can get it, then the whole general will be his, including this set of dragon-shaped gold armor!"

The voice of General Spikes echoed in the main hall.

"Dragon-grained gold armor? It sounds like a domineering look."

Ye Xuan whispered.

Unexpectedly, this was heard by General Spike.

"Ha ha ha ha, young people, this set of dragon-shaped gold armor is my life's hard work, as long as the blood drops to recognize the Lord, you can receive Dan Tianzhong, while the dragon-shaped gold armor is indestructible, it has a special effect, it can resist the two The power of success!"

The generals of General Spikes laughed loudly.

When the words came out, all four people present were shocked.

Resist the power of robbing 20%?

After the breakthrough of Emperor Fengfeng, it is a half-step supreme, and the half-step supreme is also strong and weak. Only the talents who will seal the body of the emperor can be taken to the robbery. If you have passed the supreme robbery, then you can condense the supreme body. .

The power of the supreme robbery, Qinghuo and others all understand that although they have never seen the supreme robbery, they have heard of it.

The half-step of the ten peaks will be taken to the looting, and there is only one that can truly achieve supreme.

However, this set of dragon-shaped gold armor can withstand the power of 20% to the robbery, this is simply a god.

"Haha, do you know that the dragon-shaped gold armor is so powerful? Unfortunately, my wolf teeth put on this set of dragon-shaped gold armor, and it was still smashed by the supreme scum, leaving only one residual thought to survive."

General Spike sighed and said, "Well, if you four want to get the generals, then go on."

"Hey!"

Under the control of the generals of the Spikes, the Dragon Gold Armor went down the ring.

The other four long-knife deputies will also look at Ye Xuan, waiting for the attack of four people.

"This dragon gold armor is indeed good, but I have cultivated for so many years, the Emperor will only seal the body 30%, I have no chance in this life and supreme." Green fire knows his weight, but helplessly shake his head.

"I am also very old, and it is useless to get the dragon gold armor." Taiyi Jianshen shook his head.

Their meaning is very obvious, that is to give up this set of dragon gold armor.

At this time, Ye Xuan looked at Xuanzhongshan, and Xuanzhongshan was a middle-aged man who looked younger.

"Ye Xuan, don't look at him. He and the two of us swayed the Sun Dynasty. It just happened to get a little old spring. His age is the biggest among the three of us." Green Fire reminded.

what?

This was a shock to Ye Xuan. He suddenly remembered that the three people had indeed fought together, and it has been for decades.

"My age is indeed the biggest. This set of dragon-shaped gold armor is purely wasteful. And Ye Xuan is only in his early twenties. It is most likely to reach the half-step to the peak, and the great will will be sealed. If you are With this set of dragon-shaped gold armor, you may be able to achieve supreme. At that time, you can open up the country and establish a holy dynasty!" Xuanzhongshan people looked at Ye Xuan.

"This....."

Ye Xuan squatted.

He originally thought that he would grab the three people with green fire, but now it seems that this is not the case.

"The three of us will help you win the generals, let you control the generals, and we will be exposed to the light." Taiyi Sword God said.

All three of them are optimistic about Ye Xuan.

He Yan, a prostitute disciple of Xuanzhongshan, is also a half-step supreme, but He Yan is actually in his forties, but Xuanzhongshan people originally gave him some old springs.

If you are qualified, no one in the room can compare Ye Xuan.

"it is good!"

Since the three reached a consensus, Ye Xuan naturally could not refuse, and immediately nodded.

"The four long-knife deputies will seem to be more powerful than the training ground. I and Taiyi will stop him, and you and the green fire will solve the dragon-shaped gold armor!"

Xuanzhongshan people glanced.

He came out from the training ground, so he saw the great deputy of the long knife. Although he said that he now has a quasi-supreme soldier, but the number of the other party is large, he can't care.

"Four, if you are ready, then take it!"

The voice of General Spikes sounded again.

"on!"

Xuanzhongshan and Taiyi Sword God looked at each other and immediately killed them.

At the same time, Qinghuo also directly condensed six flames to help, and Ye Xuan also broke the eight-blank sword, hoping to quickly resolve the four long-knife vices.

As long as the four long-knife deputies will collapse, it is time for the four of them to besiege the dragon-shaped gold armor.

The four quickly swept out and attacked four long-knife vices.

However, the Dragon Gold Armor was the first to defeat their attack, and went straight to Ye Xuan.

"Fast speed!"

Ye Xuan brows a pick.

The strength of this dragon-shaped gold armor is really much stronger than the long knife deputy. At his current speed, I am afraid it is better than nothing.

"Three, give me a stop!"

Ye Xuan hurriedly yelled.

Under this circumstance, Ye Xuan can't hide it, because if they are defeated, then there is only one death.

If it is dead, what is the use of Qiankun Ring?

After the three people heard the green fire, they also stunned, and immediately hesitated to take off the ring and throw it to Ye Xuan.

At this time, the dragon-shaped gold armor has been holding the handle of the wolf-toothed sword in front of Ye Xuan, a sword squat.

"Hey!"

Ye Xuan raised the sword and blocked the attack.

At that time, Ye Xuan felt the tremendous pressure. The strength of this dragon-shaped gold armor is probably at least twice that of the long knife.

The long knife will be able to take an enemy, and the strength of the dragon gold armor is twice that of the long knife. This does not mean that the dragon gold armor can be an enemy two hundred.

Two times the strength will be infinitely magnified, three hundred, four hundred or even five hundred are possible.

If non-Ye Xuan is trained to be a ghost, I am afraid that this sword is enough to split him in two.

"Seven heavy fire dragon swords!"

The green fire, together with the six flames, is a pair of dragon-shaped gold armor, and the seven snipers are one, and the power is fierce.

The dragon-shaped gold arm turned to look at it, and a single sword shocked the blow.

However, this also won a lot of time.

"Thirty-six overlapping shadows!"

"The earth is pulsating 256!"

Ye Xuan took a sword and took out the dragon.

If it is an ordinary long knife deputy, Ye Xuan may only need two swords to solve it, but the dragon-shaped gold armor's defense is amazing, Ye Xuan is full of a sword, but it is not able to leave any trace on the top.
