

## Super D. S 761

Chapter 761: Xia Yunyi?

Ye Xuan's plan is very simple. As long as the projection of the old man disappears, he can kill the Tianfeng City Lord.

The old man seems to have noticed something and shouted: "I am Xia Yunyi, don't make mistakes!"

This sentence is obviously said to Ye Xuan.

"Who is Xia Yunyi?"

This is the first thought after Ye Xuan heard the words.

But it sounds like it looks very good.

Unfortunately, Ye Xuan does not eat this set.

"Old guy, you colluded with the ghost, if you are known by the Holy Spirit, what do you think?"

Ye Xuan suddenly left the ground and drank a big sentence.

"boom!"

The old man quickly slammed a palm, but did not hit Ye Xuan.

Fang Caixuan was only made to be hit, and now it is not so easy to hit him.

However, Ye Xuan's words, but the old man's heart trembled.

Ghost teaching is the wanted force. If you are known to collude with the ghosts, then you must marry the nine.

"Kid, you are not looking for death, then you can't blame me!" The old man's dawn is getting colder and colder.

"Old guy, you have kind of killed me!"

Ye Xuan is not afraid.

"Boom!" "Boom!" "Boom!"

The old man shot again, and under the huge palm print, it was always empty.

Ye Xuan is in possession of the martial arts of the supreme martial arts, plus various accelerations, as long as you pay attention to some, you can still avoid it.

Time, a little bit past.

"Grandpa, when will the helper arrive?"

Tianfeng City Lord asked for help while helping.

"Come on, don't worry!"

The old man comforted, but his face became more and more gloomy. If the other party did not arrive in time, then his death was his grandson.

"Old guy, look at the trick!"

Ye Xuan felt that the strength of the old man was getting weaker and weaker.

However, the object he attacked was not the shadow of the old man, but the owner of Tianfeng.

Looking at Ye Xuan's attack like a mad dog, Tianfeng City's owner resisted it very hard. He regretted why he took the gas that was hard to condense and attacked Ye Xuan instead of using it to resist the attack.

Otherwise, he can hold on for a while.

"Boom!" "Boom!" "Boom!"

The attack of the old man is getting weaker and weaker, but Ye Xuan is still at its peak.

"Not good, my projection is going to disappear soon!" The old man's face sank and calculated the next time, only ten seconds.

If the rest of the time, he can not kill Ye Xuan, the master of contact did not come, then Tianfeng City Lord is dangerous.

Ten seconds!

Nine seconds!

Eight seconds!

For people like Ye Xuan, one second is actually very long. In one second, they can shoot dozens of times and can run 10,000 meters.

However, Ye Xuan's speed is amazing, and the strength of the old man has been reduced to the point where it is not threatening Ye Xuan.

This is trouble!

"grandfather!"

Tianfeng City Lord is about to cry.

"Come on, come soon!" The old man immediately comforted.

Three seconds!

Two seconds!

One second!

Unfortunately, the master who the old man contacted still did not arrive.

"Miscellaneous things, if you dare to move him, I am sure that Xia Yunyi must lick your skin!" The old man shouted.

"I am here, have the courage to come!"

Ye Xuan responded loudly.

His voice has not yet fallen, the shadow of the old man is gradually faded, and disappeared immediately.

"grandfather!"

Tianfeng City Lord saw the old man disappear, really cried out, said a good master?

Ye Xuan is wearing a dragon-shaped gold armor, and the martial arts he has learned is a knife, which is almost injurious to Ye Xuan.

In addition, Ye Xuan is faster than him, he has almost only beaten.

"Tianfeng City Lord, now, you have no help!"

Ye Xuan smiled coldly.

Tianfeng City's main face is gloomy, and he turns around and runs.

He couldn't help Ye Xuan, but Ye Xuan shouldn't have killed him so easily, so he still has a little time.

"Want to go, no way!"

Ye Xuan is full of light.

"Circle crack!"

"The wolf is rushing!"

After all, the wolf tooth rush is the absolute school of the generals of the fangs. The power is good, the speed is extremely fast, and the most important thing is the limitation.

With Ye Xuan stabbing, the head of a giant wolf bites toward Tianfeng City.

"Give me a burst!"

The owner of Tianfeng City slammed a knife, and the knife and the wolf head collided together, but what he did not notice was that behind the head of the giant wolf, he was still a giant wolf head.

The wolf's head opened his mouth and bite directly at the waist of Tianfeng City. He wanted to live his lower body.

"not good!"

The owner of Tianfeng City looked at his fat belly and was pierced by the wolf's teeth. His blood was flustered and his face became pale.

The fangs are strong and bite, and they can also limit the actions of the opponent.

Ye Xuan did not think of using this trick to kill Tianfeng City Lord, and immediately made up a few rounds with the original gas that was just restored.

The realm of Tianfeng City is higher than that of the sub-city, but if the two are at the same level, the men in the armor are much better than him.

This is a slap in the face, and Tianfeng City's main lord did not defeat it.

In this way, he is even hiding from Ye Xuan's killings.

"call out!"

A road broke through the air, like a ghost and a ghost, Tianfeng City Lord has been desperate, and the fat face of the fat face shook.

"My grandfather won't let you go!"

Tianfeng City is yelling at the sky.

"Oh!"

A circular crack swept through his celestial cover and cut his brain.

Tianfeng City Lord, die!

"How big is the person, still looking for Grandpa?"

Ye Xuan was very disdainful and rushed past.

"Hey, the host breaks through, and the current Emperor will seal up to 50%!"

The system prompts.

However, before Ye Xuan carefully explored the things in the Tiankun City Lord Qiankun Ring, there was a strong breath that approached quickly.

"Not good, withdraw!"

Ye Xuan quickly collected the body of Tianfeng City and then broke into the ground.

It didn't take long for someone to rush over. He smelled the \*\*\*\* smell around him and said with a blank face: "It's still a step late..."

.....

After killing Tianfeng City Master, Ye Xuan quickly left the scene, and he did not dare to go to Tianfeng City, because the old man Xia Yunyi seems to be very big.

Fortunately, Ye Xuan put on the dragon-shaped gold armor before going to the city's main government, and also deliberately changed his voice, so even if he really saw Xia Yunyi, the other party may not recognize it.

However, the wolf's sword, the dragon's golden armor, the round crack, the wolf's teeth, etc., will reveal his identity.

After staying away from the battle site, Ye Xuan was the one who took up the dragon-shaped gold armor, and then showed out the real body, and began to check the Tiankun ring of Tianfeng City.

However, nothing was found.

"Although the clue is broken, then Xia Yunyi is the grandfather of Tianfeng City, and it must be related to the ghost teaching..."

Ye Xuan thought about it.

Since the other party dared to report his name and wanted to shake him back, he must be a person with identity. The estimate is not small. He just inquires, and he can find out.

Chapter 762: Emperor Yan

At the moment, Ye Xuan is returning to Tianfeng City again.

At this time, Tianfeng City has been in a mess, because Tianfeng City has never returned.

The only words of Xia Yunyi are also passed to Tianfeng City, so Ye Xuan inquires about this name and will not be suspected.

I don't know if I don't know, and I'm shocked.

Xia Yunyi is the red man next to the Seven Emperors of the Sun Dynasty, helping him manage many issues.

Simply put, it is the steward of the Seven Emperors.

The Seven Emperors, a strong role for the Japanese Yan Dynasty to compete for the Prince, is one of the candidates for the Prince.

"It's so big, it seems to be tricky."

Ye Xuan eyes a glimpse.

Tianfeng City Master colluded with the ghost teaching, and each month was responsible for handing over tens of thousands of ghost lanterns to his grandfather.

In this way, behind the ghost teaching, it is likely to be the seven emperors.

"When you go to the emperor, don't you know, or do you know that you don't break?"

Ye Xuan also can't understand.

The ghost taught so embarrassed that the emperor of the Sun Dynasty may not know.

However, it is necessary to establish a prince soon, so those princes are fighting for infighting, and it is ok to play some small means.

"The last wish of General Spike, I have done everything I can, but the other side is not small, or break through and say!"

In the heart of Ye Xuan's thought, it was to plunder the site of the Flames.

Although he has a dragon-shaped gold armor, he killed the owner of Tianfeng City, and the matter of the dragon-grained gold armor is sure to be exposed, so it is not necessary to take it out.

And if you want to complete the last wish of General Spike, then you only have strong strength, at least invincible in half step.

Invincible under the Supreme, this is too far away from him.

However, Hell is a good place to practice. He can even kill the Hell Giants. Who else can stop him?

After making the decision, Ye Xuan was plunging into the site of the Flames. This time, he had to do a big job.

.....

At the same time, in the distant Sun Yan Emperor.

Seven Imperial Palace.

"His Royal Highness, I have something to report!"

Xia Yunyi, who had almost killed Ye Xuan before, said reverently outside a palace.

The next moment, the palace gate was opened.

This palace is the palace of the Seven Emperors of the Sun Dynasty.

"what's up?"

There was a peaceful voice in the palace.

Xia Yunyi walked in quickly.

The Seventh Emperor of the Sun Dynasty is a young man of almost the same age as Ye Xuan. He wears a golden robe, wears a golden crown, and is a demeanor of the superior.

Beside him, stood a enchanting woman in black.

"His Highness, the big things are not good. The dragon-shaped gold armor of the ancient sacred generals of the ancient sacred ancestors appeared thousands of years ago!" Xia Yunyi immediately reported.

"what?"

The seven emperors looked stiff, and he didn't speak. The black woman next to him was exclaimed:  
"Dragon-grained gold armor?"

Xia Yunyi looked at the woman in black and said with some sadness: "Yes, my grandson is killed by this person wearing a dragon gold armor."

"What strength is that man?" Seven princes couldn't help but ask.

"The Great will seal four and a half, and appeared in the No. 6 Hell, when my Supreme Projection could not kill it." Xia Yunyi replied.

"Only four and a half?"

The seven emperors and the black women are very surprised.

This is a little unbelievable. After all, the generals of the Spikes were half-step to the peak of their lives, and finally disappeared. It is said that the failure of the robbery was killed by the Supreme.

"Why did he kill the Tianfeng City Lord?" asked the Seven Emperors curiously.

"This person killed the deputy city owner of Tianfeng and found evidence of the ghost teaching, so he came to the scene..." Xia Yunyi said slowly.

The seven emperors screamed and shouted: "So, he knows?"

Xia Yunyi was scared to death, and said in a hurry: "His Royal Highness is not safe, my grandson is more cautious in doing things, and generally will not leave any evidence..."

"What if there is?" The seven emperors widened their eyes.

Xia Yunyi was scared of cold sweat, "I will investigate this!"

When he finished, he turned and left.

The seven emperors looked at his back and murmured: "The 6th Heaven is my territory. Is it difficult to be a four-prince?"

"His Highness, that person is only four and a half of the Emperor's will, and the Dragon Gold is a waste to him. It should not be the four emperors." The black woman reminded.

"It's also true, but the father's preference for the four emperors, I'm afraid that this Prince's trial..." The Seven Emperors are somewhat worried.

"His Highness, please don't worry, there is my ghost to teach you, the position of the Prince must be yours." The woman in black comforted.

The seven emperors are cold-stricken: "Hey, what are the ghosts you said, when will they appear?"

"People who use the mystery to improve will have ghost tattoos. If they don't, then they are crossing the street mouse. After a while, I will teach the master to remove this side effect. Those ghosts can be like ordinary people..."

.....

Sun Yan Sheng Dynasties, No. 6 Heaven.

At this time, it was already seven days since Ye Xuan killed the Tianfeng City Lord.

In these seven days, Ye Xuan has been killed in the flames of the Holy Sepulchre, and once again raised once again, the Emperor will seal the body has been 55%.

At the same time, the air transport on his head was also raised to purple.

"Purple air transport, it seems that you can directly exchange the Marquis!"

Ye Xuan's eyes lit up.

The title of the Marquis, this is not low, because the Tianfeng City Lord is just the Marquis.

However, it was a pity that he did not get the air transport and secret weapon used by the owner of Tianfeng City.

At the moment, he came to another main city in the No. 6 Hell. After he exchanged the purple gas for the Marquis, he left the No. 6 Hell.

He first went back to the generals, raised the realm of the avatar, and then went to the emperor again.

This time, he is going to go deep into the enemy's belly investigation.

The water of the imperial capital of every country is very deep.

What's more, this Ghost Religion is also related to the Seven Emperors of the Sun Dynasty.

Soon, Ye Xuan arrived at the Emperor Yandi, the area of the emperor, and the one he had ever seen.

It is said that the number of people living in the Emperor Yandi has reached 10 million. After all, it is the place where the Emperor of the Sun Dynasty and the various powerful people live. They can live in the inside, not rich and expensive.

Ye Xuan walked into the city gate and sighed at the power of the Japanese Emperor Yan, because the two soldiers who guarded the gates of the city, the Emperor's will seals have reached 60%.

60%!

What concept?

It is the realm of the deputy city owner of Tianfeng City killed by Ye Xuan.

"The No. 6 Prison is said to be the site of the Seven Emperors. However, this No. 6 Prison can only be regarded as an intermediate prison. The Seven Emperors also have a No. 3 Heaven, which is a senior half-step supreme!"

Ye Xuan thought while walking.

He inquired about the passers-by, and then went to the office of the official residence.

Chapter 763: Quota

The reason why the \*\*\*\* is so popular is because it can be used to transport the knights.

Ye Xuan's Marquis, you can make tens of thousands of Supreme Dans every month, and there are all kinds of unexpected benefits.

Male, son, son, hou, Gong, five knights, above the Marquis is the Duke. It is said that the Duke can receive 100,000 Supreme Dans every month.

As long as you can get the title, then cultivation will not be embarrassed.

Those who possess these titles must listen to the dispatch of the Sunshine Sang Dynasty when necessary.

"General Spiked General seems to be the prince of the ancient sacred dynasty. There are both official positions and knights. Just, why did I get the three thousand wolf rides, and the legendary difference is so much? I have to find my own ore and re forging."

Ye Xuan is very puzzled.

In the Treasure House, in addition to those treasures, there are many things like organ skills. Among them, there is the content of improving the strength of three thousand wolf teeth riding and ten long knife deputies.

Therefore, Ye Xuan guessed that the three thousand wolf teeth rides were not mastered by the generals of the Spikes, but samples.

However, he got the most precious dragon-shaped gold armor. This set of dragon-shaped gold armor is enough to stand up to other things, but it is invaluable.

Ye Xuan came to the office of the official residence.

"Hello, do you have anything?"

He just entered, and a waiter greeted him.

Ye Xuan did not talk nonsense, and directly took out the Marquis and the official text. He estimated that the 6th Heaven was already passing the news, as long as the order of the Marquis and the appearance were confirmed.

Soon, the person in the official office confirmed the identity of Ye Xuan.

"Zhao Pan Marquis, your identity has been confirmed, this is your Marquis order..."

The staff handed Ye Xuan something.

Only the Earl level can be settled in the Imperial Capital, and the Marquis of Ye Xuan also presented a large mansion to him.

"Thank you!"

Ye Xuan thanked one sentence and immediately prepared to leave.

However, it is at this time.

"Little brother, wait a minute!"

Suddenly someone walked over and called Ye Xuan.

Ye Xuan turned around and found that he was a white-haired old man, and his realm seemed to be higher than him.

"What is your business?" Ye Xuan said calmly.

"I am Shi Yang of the Six Emperors. I wonder if the little brothers have the intention to join me in the Six Emperors?" The old man pointed out the intention.

Six emperors?

Ye Xuan brows a pick.

Six emperors, this represents the residence of the six emperors.

In the Sun Dynasty, all the emperors who have reached the age of eighteen have to move out of the palace and develop themselves. Only in this way can they compete for the position of the prince.

When Ye Xuan was in the Imperial Capital, he actually inquired about some news.

Today, the emperor has more than a dozen children, and the day of the prince is approaching, so the princes are eager to move and start recruiting.

Among them, there are four emperors who are relatively strong, namely the Great Emperor, the Four Emperors, the Six Emperors and the Seven Emperors.

The Six Emperors, but the weakest of the four.

"The younger brother is young, and the Emperor's will has reached 50% of the body. In time, he will be able to become a capable cadre of the Six Emperors." Shi Yang said.

However, this is a bit exaggerated.

Ye Xuan's qualification is indeed good, but he thinks that Ye Xuan wants to grow up, at least for ten years.

Ten years later, the Prince may have been crowned.

He only followed the meaning of the six emperors, and he saw the pleasing to the eye, and the visitors did not refuse.

Ye Xuan naturally wouldn't believe in Shiyang's ghosts, but he glanced at him and found that there were still many people around him, presumably representing other emperors, and squatting here.

"My real combat power is not only so bad, but they are collecting people with realm. Now the days of vying for the Prince are getting closer and closer. They should all hope to recruit high-level realms. This is useful!"

Ye Xuan hesitated for a moment.

Since the other emperors did not see him, and only the six emperors gave him an invitation, he promised.

Joining the Imperial Palace is definitely good, and you can still hear a lot of news.

"I join!"

Ye Xuan nodded.

"Well, please come with me."

Shi Yang did not feel happy because of Ye Xuan's consent, and left with Ye Xuan directly.

And those who represent the emperor are sighing in their hearts.

The Six Emperors seem to be trying to withdraw from the Prince's trial. Otherwise, how can they receive only 55% of the Emperor's will?

We must know that they usually only have the level of the Duke, and the Marquis is very rare. Under normal circumstances, the Duke-level masters will reach 70% of the seals. This is a requirement.

Ye Xuan glanced at other people and silently followed up. I don't know if there are seven emperors in those who did not go forward.

However, this is not important.

"Stone predecessors, are we going to see the six emperors now?"

On the way, Ye Xuan could not help but ask.

"No, no, the six emperors are busy, I will take you to see the general manager!" Shi Yang shook his head.

Master!

That Xia Yunyi seems to be the general manager of the Seven Emperors.

"Then what is the advantage of joining the Six Emperors?" Ye Xuan asked.

"Every month, I can receive some cultivation resources, as well as some training rooms in the six emperors." Shi Yang replied.

These things, Ye Xuan is not rare, after all, his realm is not high, and the estimated things are not much.

"The trial of the Prince is coming, and the Six Emperors are not expected to take care of me."

Ye Xuan thought in his mind that his joining the Six Emperors was just a hot act of thinking. First, find a background for himself. When you investigate the things that the Ghosts teach, there may be some convenience.

Soon, Shi Yang arrived at the Six Emperors with Ye Xuan and then handed it over to the general manager of the Six Emperors.

The general managerial strength of Liuhuangfu is unfathomable. I am afraid that it is not weaker than that of Xia Yunyi. However, he does not have much interest in Ye Xuan now, and directly assigned a house to Ye Xuan.

"The kid, after three days, it is the day when the six emperors choose the Prince to test the remaining five places. You can come and see."

The general manager of the Six Emperors said to Ye Xuan.

After Ye Xuan's listening, the brow was also a pick. For this Prince's trial, he also understood some.

This time the Prince will try, there will be many emperors to participate, the winner is to become the Prince of the Sun Dynasty.

Among them, each of the princes can choose ten members to assist the prince.

"The five places should have been fixed, and the remaining five places will be won by fighting."

Ye Xuan's heart guessed.

In this way, he can also go and see, if he can, then he also showed his hand, after all, his strength is not weak.

The Great Emperor, the Four Emperors, the Six Emperors, and the Seven Emperors, this is the leader of more than a dozen princes, and the four most likely to become princes.

Six emperors are also among them. If Ye Xuan can help him win the position of the prince, things like Tianbao Dibao will definitely come.

#### Chapter 764: Tianyan Protoss Blood

After the decision, Ye Xuan returned to his residence in the Six Emperors.

Now he is 5:30 of the Emperor's will, relatively weak, but as long as he is allowed to break through several times, then the second blood extension bar can be opened.

The first blood extension column is the auxiliary blood, and the second blood extension column is the physical blood.

The second individual quality blood, Ye Xuan has already been selected, is still a growing body of blood, very good.

This physique is called the blood of the gods of the gods. As long as you get something specific, you can open the eyes of the sky.

Have an eye for insight, see through all the essence of the eye; can use the eyes of the illusion of the illusion; can control the eyes of the enemy; the eye of the attack with strong attack; and the eternal that can make the key become the eye eye.....

These sky-eye effects can be turned on as long as something is achieved. In addition, there are eyes of perception, eyes of the void, eyes of glory, and so on.

The reason why Ye Xuan did not directly choose this day's eye \*\*\*\* blood, because the things needed are too precious, and the price of this blood is higher than the blood of the beast.

At this point, Ye Xuan has already drawn up a plan.

Take the quota of a Prince's trial, and then open the blood of the gods of the eye, and help the six emperors to win the position of the Prince.

The time of three days will soon pass.

When the fourth day arrived, Ye Xuan went out early because today the six emperors need to choose the remaining five people to accompany him to participate in the Prince trial.

At this time, in the martial arts field of the Six Emperors, there are already hundreds of masters.

These people are the masters recruited by the Six Emperors. The poor Emperor will also have 60% of the seals, and the strong ones have already become seven or eight.

Ye Xuan got in. He looked around and saw that the six emperors were in place, and next to him stood a young man wearing Jinlong costumes.

This young man looks quite handsome, his eyebrows are star-shaped, his body is long and slender, revealing the momentum of a superior person. Presumably he is the six emperors.

The practice of the military field is more noisy. Many people are discussing other people. This time, hundreds of people have come to compete for five places. This competition is not a general fierce competition.

When the time came, the general manager next to the six princes of Jinyi Youth was a step forward. During that time, the entire training martial arts field was quiet.

"You, the six emperors are still missing five people, these five will be elected today. The Prince's trial is of great importance. If you can help the six halls of the Prince to be in the position of the Prince, then everyone present is rewarded!" Liu Huangfu general manager loud channel.

The people present were listening carefully.

The six emperors are human qualities, they all know, so they all come to the six emperors.

However, if you want to win in more than a dozen emperors, there are still a few hurdles to go through, not so easy.

"The old man doesn't say much nonsense. I have a list here. There are five six-member guards on the list. As long as you can beat one of them, you can get a place. Of course, even if the strength is insufficient, just be It seems that it is possible for the Sixth Highness to look at it. After all, the trial is about a man of wisdom and courage, not a coward."

The six emperors' general manager said aloud, that is, five big men took to the practice martial arts field. These five people are bearded and bearded, and they are full of fortitude. They are the guards of the Sixth Highness. The great will seals have reached 70%, and the strength is good. .

After seeing these five people, most of the people present were dismissed. The Emperor will not be able to seal up to 70% of the people. The challenge of going to the top is purely to find death.

Hundreds of people, instantly reduced to more than a dozen people.

"Everyone has only one chance to challenge." The general manager of the Six Emperors reminded me, "Who is coming first?"

"I!"

The voice of the general manager of the Six Emperors had just fallen, and one person directly sacrificed the sword to get out of the crowd.

At the moment, someone recognized him.

"This is the knives Cao Leopard who just came to the Sixth Hall of the House yesterday. The Emperor's will has reached 80% of the body. Among the people present, he is the highest in his realm!"

"The savage knife Cao Leopard, I have also heard that it is said to be very famous in the third heaven."

"He won't be a problem for a place."

The mad knife Cao Leopard came out and then pointed at it, "It's you!"

The named guardian came out and still looked firm.

The prince's guards are actually dead soldiers. As long as the six emperors make an order, they will not hesitate to commit suicide immediately, let alone face a two-level opponent.

"let's start."

The general manager of the Six Emperors said that although Cao Bao's realm is high, he still has to walk in the form.

"To deal with you, you don't need a knife." Cao Leoping said, directly put the big knife in his hand, and then punched it out.

The Guardian also ignited and greeted him.

"Hey!"

The two men gaped into two realms, but the defending team member took over the punch of Cao Bao.

"The prince's guard team is really extraordinary!"

Cao Leopard flashed a flash of light. The next moment, his fist face suddenly burst into a sigh of relief, directly blasting each other.

The people present were shocked. Cao Leung clearly did not punch. Why did the other side fly out?

"This trick is a bit like my former tiger wolf roaring."

Ye Xuan's light flashes.

The tiger wolf roar has been outdated for a long time, it is Ye Xuan even the real Xuanjing is not, but this sinister boxing method is very practical.

It is a pity that he does not have the blood of the gods and the eye of the gods.

Otherwise, he can see through the instinct of the other person's body, and copy the martial arts into the phagocytic system.

"Okay, Cao Leopard won a quota!" Liu Huangfu general manager nodded.

Cao Leopard's realm is high. It's not a problem to win a quota. Now, there are only four places left.

Among the offerings in the field, except for Cao Bao, who is 80% strong, the highest is 75%.

These people are eager to move, and after Cao Leops stepped down, someone immediately jumped up.

Seventy-five percent, seventy percent.

"Boom!" "Boom!" "Boom!"

Soon, the practice of the martial arts field was spread a burst of roar, the 75% of the offerings, even directly tied with the 70-year-old Guardian of the Emperor will be tied.

"It's not a prince's guard, it's a challenge."

"This is natural, there is no point, how can we protect the six emperors?"

"Oh, he seems to be defeated!"

The crowd began to gather their eyes. At that time, the two people in the field had already fallen to the bottom, and they were about to lose.

Surprisingly, this person is not a Guardian, but a challenger.

"boom!"

In a muffled sound, the seven-and-a-half offering of the great emperor's will was sent out to practice the battlefield.

The leapfrog challenge, success!

Chapter 765: Last place

The man who was enshrined in a gloomy face did not expect him to suppress the other side. It was a pity that he did not win a quota.

At this time, there are still four places.

Next, some people continue to come to the stage, but most of the realm is 75% to 70%.

After eight rounds, only three people challenged success.

Now, there is still the last place left.

"It's time to play!"

Ye Xuan's eyes lit up and jumped directly to the training field.

However, after his forefoot fell, another person landed and was a middle-aged man.

"Kid, this is not where you should come, go down."

This middle-aged man is very arrogant, because he feels that Ye Xuan's breath is not strong, it is estimated that even 60% have not arrived.

Such a realm, dare to challenge the stage?

court death!

"Where, there is a first come and come, please wait until I have finished the challenge." Ye Xuan smiled and went forward.

"The arrogant boy, the general manager, this son took the stage to disturb the order, I will help you fly him!"

The middle-aged man screamed coldly and went straight to Ye Xuan.

In the face of sneak attack, Ye Xuan directly sacrificed the spirit of the sword, shot as fast as lightning.

"Hey!"

Jian Mang directly squatted in the middle-aged man's chest and flew it.

"hiss!"

Many people present at the scene took a breath of air, they thought that Ye Xuan would be kicked by the other side.

Unexpectedly, the middle-aged man was a paper tiger, so vulnerable.

No, not that he is vulnerable, but Ye Xuan's strength is amazing.

"In this imperial capital, you can't take people by appearance, and other young emperors have young strongmen..."

Some people think in their hearts.

This blow is a very deep impression on the people around him, because if this sword is on them, it is enough to kill them.

"Oh?"

From the beginning to the end, there was no such thing as the six emperors who spoke a word. The brow suddenly picked up. Even he did not think that Ye Xuan had such strength. It was rare.

"Zhuo, who is this person?" Six emperors could not help but ask.

"This....."

The general manager of the Six Emperors took a look at Ye Xuan and thought about it carefully. He said: "It seems that it was brought back by Shi Yang three days ago."

"It is a plastic talent, I don't know if I can win this tenth place." Six emperors smiled slightly.

There are many opportunities in the Prince's trial. He wants more than just a man of wisdom and courage, but also those who have potential, such as Ye Xuan, who has become a three-level challenge.

If Ye Xuan gets an opportunity in the Prince's trial, then the strength will advance by leaps and bounds, but it will become his next big cadre.

After the middle-aged man was flying by Ye Xuan, he was also ugly, not in the crowd, and dared not to talk nonsense.

"Young people, this is the last place, you have to take good care of it."

The general manager of the Six Emperors said.

"I will."

Ye Xuan nodded.

On the training field, there was only one challenge goal left, so Ye Xuan did not choose.

The last Guardian member saw Ye Xuan also took out the weapon, and flew the middle-aged man at the same level as him, so he did not dare to care about it, but also offered a sacred sacred soldier.

"This last place is mine!"

Ye Xuan glimmered and took the lead.

Although his realm is three levels lower, there are various blood types in his body. The most important thing is that if he breaks out at full speed, the other party can't keep up with his speed.

"Hey!" "Hey!" "Hey!" "Hey!" "Hey!"

Ye Xuan's feet alternated rapidly in the practice martial arts field, and the speed was shocked by the audience.

"Hurry, this child will not be limited in the future!"

Six emperors were shocked, and at this time he had a decision in his heart. Even if Ye Xuan lost, this last place, he will directly give Ye Xuan.

However, Ye Xuan does not need it.

"Hey!"

The battle started only two seconds, and there was a figure that flew out of the ring, and Ye Xuan stood still on the ring.

Ye Xuan, win!

"Okay, the tenth place is fixed." The general manager of the Six Emperors responded and shouted.

The third level of challenge, two seconds to solve the opponent, and the other is the prince's guard team, Ye Xuan's strength is enough.

After defeating the other side, Ye Xuan also breathed a sigh of relief and won a quota for the Prince's trial. It was only the first step of his plan.

"Okay, everyone is gone, five people are left!"

The general manager of the Six Emperors said.

Hundreds of people left the practice field with some helplessness. They did not want to help the six emperors, but they did not have the strength.

Soon, there were only less than ten figures left in the practice field.

"After another seven days, the Prince will try it out. You must know the importance of the next seven days. If you have any needs, you can come to me."

After the completion of the Liuhuangfu general manager, he took out a few pieces of Qiankun Ring and handed it to Ye Xuan: "There are some contents about the trial of the Prince in the Qiankun Ring, and there is also a "Long Yun Qiankun". You should also I heard that the martial arts of Longyun Qiankun, after training, can call the stored Longyun to enhance combat effectiveness."

Ye Xuan took over the ring.

Before he killed the owner of Tianfeng City, he was not able to get the method of air transport blessing, but this is definitely stronger than the air transport blessing.

"The Prince Trial is divided into three parts. The first one is the battle of Longyun. The ten people under each Emperor's Majesty hold the Order of the Emperor, enter a secret environment, and finally rank according to the total number of Longyun."

Ye Xuan gave a rough look.

The first two steps of the Prince's trial, the princes are not personally involved, are completed by ten people, only the last link to join the battle.

"The rest of the seven days, if your cultivation is further refined, then it will be of great help to His Highness. If you need something, you can write it to me now. As long as it is reasonable, I will try my best to meet it." The general manager said.

When Cao Leopard and others brightened their eyes, they immediately took out the pen and paper and wrote down what they needed for cultivation.

The same is true of Ye Xuan, which is a rare opportunity.

"Now the second blood extension bar can be exchanged very quickly, and the Tianyan gods need the heavens and earth treasures, there is no in the sixth heaven..."

Ye Xuan is also nonsense, and begins to write down what is needed.

Cao Bao was the first to finish writing and handed it over.

"Well, I can get all these things you need." The six emperor generals nodded.

The other three are also lions, but the things they need are very precious for them, but for the six emperors, it is really a slap in the face.

Finally, when Ye Xuan handed over the list to the six emperors, the latter's brow could not help but pick one.

"Young people, these things you wrote, the old man only heard the same..."

Chapter 766: Eye of insight

"Young people, these things you wrote, the old man only heard the same..."

The general manager of the Six Emperors was somewhat surprised. With his experience, he only recognized one type. He began to doubt whether Ye Xuan was scribbling.

At this time, the six emperors came over and glanced at them.

"These things, even in our national treasury, are estimated to be only two or three!" Six emperors were shocked, and he did not know how Ye Xuan learned the names of these things.

However, there is one of them, but he has it in the ring.

"Although I don't know what you want these things to do, I think you are very unusual. This hole fruit is of no use to me, just give it to you. In addition, Zhuo, you give him millions of sacred, sure. Before the prince's trial, the emperor will be sealed up to 60%." The six emperors were very generous to throw a crystal clear fruit to Ye Xuan.

The Lingling Fruit is the necessity of the Tianyan Protoss to open a heavenly eye. This eye is called the Eye of Insight, and has the characteristics of letting the host never forget and see through all the essence.

If combined with the phagocytic system, Ye Xuan can copy the other's martial arts at a glance and then practice.

"His Royal Highness!"

Ye Xuan thanked.

The duke's title can be zero hundred thousand for one month, and one million for the tenth time.

Million Supreme Dan, enough for one person to practice in the body of the seven, but for Ye Xuan, it is estimated that only 60% of the body can be broken.

"Well, let's go back first, things will be sent to you in person." The general manager of the Six Emperors said.

Then, Ye Xuan five people are leaving directly.

After they left, there were only six emperors and six emperors left in the training martial arts field.

"Zhuo, how do you think?" Liu Jingzi suddenly asked.

The general manager of the Six Emperors hesitated for a moment, saying: "The strength of Caobao is close to the five selected by the Sixth Highness. However, the qualification of Ye Xuan is quite good. If it is passed down, it may not be weaker than others."

"I hope that he can make a difference, and it will be a big help in the future. Only the other three princes are much stronger than me."

Six emperors have no choice but to sigh.

In fact, he also has no confidence. After all, he is the weakest of the four emperors.

.....

After leaving the training field, Ye Xuan returned to his yard.

"Hey, the host breaks through, and the current Emperor will seal up to 60%!"

When Ye Xuan stepped into the gate of the yard, he swallowed the million million Supreme Dan and broke through.

"There was finally a breakthrough."

Ye Xuan's eyes lit up.

This royal family is powerful, although the emperor has left the palace to develop himself, but it is not comparable to the average person.

Fang Caixuan was there, and found that the realm of the six emperors was probably not lower than that of Caobao.

But the six emperors are still quite good, Ye Xuan understands that the six emperors may not be hidden, his strength should be the strongest among the people at the time.

However, the most important thing is still behind.

"Hey, the host fusion is good for the eyes of the gods!"

"Hey, the eye of insight opens up!"

Two reminders sounded, and Ye Xuan opened the insightful eye of the cave spirit that the six princes gave him.

"The eye of insight, enhance the line of sight, see all the illusions, the most important thing is that you can directly copy the enemy's martial arts with the phagocytic system!"

Ye Xuan's eyes stunned. If he defeated him with enemy martial arts, it felt so wonderful.

He took a mirror and found that his eyes did not change, but as he moved his mind, the scene in front of him changed.

At this time, he actually had the function of perspective, directly penetrated the house, and could see the movement in the surrounding courtyard.

One of the courtyards in the next courtyard was dedicated to practicing martial arts. Ye Xuan glanced at it and directly saw the trajectory of the true gas flow in the other side.

"Hey, empty copying is successful, do you learn?"

The system prompts.

"no!"

Ye Xuan was shocked. As long as he stared at it, he could learn directly. This skill is too abnormal.

Of course, you must look at the integrity.

"Well? The use of this insightful eye actually requires force. It seems that the blood of the gods cannot restore the power quickly. This is a tragedy."

Ye Xuan is slightly helpless, because if he can't quickly restore his strength, he needs to be careful to use it. If it is overused, I am afraid that the eyes will be tired and unable to open.

But he can't manage that much, because the blood has been merged, and it is impossible to redeem.

"Hey, the host learned the dragon!"

Ye Xuan learned the Longyun Qiankun given by the Liu Huangfu general manager. This martial arts can use the air transport stored in some objects.

Before Tianfeng City was in the hell, there was air transport on the top of the head, but when it came to this outside, it was necessary to have the air transport in something, such as the imperial order that the Prince would get when he tried it.

Of course, the royal family can directly seal the dragon transport in the body and use it when necessary.

Then, Ye Xuan began to understand the content of the Prince's trial.

"The Prince's trial, the first two links are completed by the remaining ten people, and occasionally the trial will allow killing and plundering the dragon."

Seeing this, Ye Xuan's eyes are bright.

.....

Seven days later, it quickly passed. In these seven days, Ye Xuan took the time to go to the Wuxue Pavilion of the Six Emperors, and copied all the martial arts in the phagocytic system.

This time he participated in the trial of the Prince, the round crack, the spikes, the spike sword, the dragon gold armor, these four must not be used, otherwise they will be recognized.

The first three are fine, but once the dragon gold armor is exposed, then he is in danger.

The husband is not guilty and bears his sin!

The dragon-shaped gold armor can withstand the power of 20% of the thunder, and those half-step supreme can be very good. If it is not critical, he will not be exposed.

Seven days later, the Six Emperors sent someone to call Ye Xuan.

Today, they must go to the palace to participate in the Prince's trial.

At the same time, Ye Xuan also saw the five people who were appointed by the six emperors. These five people are not universal.

Among the five, there are six generals of Zhuoguan, and the other four are the solitary swords, the vultures, the poisonous women, and the six-prince's own guard captain, Yang Qi.

This is the first detachment, and the second detachment is Ye Xuan, headed by Cao Leopard.

"It's so strong, the breath is not weaker than the general manager."

After Ye Xuan saw these five people, he was shocked, because his realm is far worse than the five.

After seeing Ye Xuan five, the five people only glanced at it. Among them, the solitary sword could not help but ask: "Zhuo, how can there be a 60% seal?"

"Oh, this kid's strength is okay, can be more three-level challenge." Zhuo said with a smile, while the heart of the dark road Ye Xuan really live up to expectations, within seven days to break through the sixty percent of the seal.

Chapter 767: Longyun battle

"Oh."

After the solitary sword smashed Ye Xuan's eyes, he regained his gaze. This genius saw him more, but he did not know what happened on the way.

Not long after, the Six Emperors arrived, and at the same time, a golden winged Dapeng fell.

"You, let me enter the palace with me!" The six emperors stood on the back of the golden-winged Dapeng and said to the ten people underneath.

Ye Xuan ten people flew up.

The Prince's trial is finally about to begin!

The Six Emperors House was near the Imperial City, and the Golden-winged Dapeng flew as soon as they arrived. When they arrived, there were already hundreds of people underneath.

In addition, there are a group of officials of the Sunshine Reign on the steps, but did not see the Emperor of the Sun Dynasty.

"The master is so much!"

The man next to Ye Xuan couldn't help but say.

With so many masters gathered together, the breath is very scary. At this time, Ye Xuan's heart can't help but jump.

These masters are actually quite good. After all, there are real supreme powers in the palace.

"Oh, the sixth is coming."

When the six emperors took Ye Xuan to fall, there was a Jinyi youth who came over. He was the fourth emperor.

In the harem, the three thousand Jiali is not exaggerated. The harem of the Sunshine Sage can be more than three thousand beauties, so it is not difficult to have more than a dozen emperors.

Although the four emperors are the emperors of the six emperors, the mothers of the two are not the same person.

"Four brothers!" Six emperors hurriedly said hello.

The four emperors swept the ten people behind the six emperors, whispering: "The sixth man, your people seem not very good, it is better to help me, how?"

Zhuo's six people are still okay, but the realm of Ye Xuan's four people is not enough, because the worst one of the four emperors is the 80%.

"Four brother, you are really joking." Six emperors said with a smile.

The implication is to let the six emperors do not dream.

The Great Emperor, the Four Emperors, the Six Emperors and the Seven Emperors are the four most likely of all the Princes to become Princes.

Among them, the great emperor is mysterious, and the four emperors and the seven emperors are more troubled in private. The six emperors remain neutral, but it does not mean that he does not compete.

"Ha ha ha, fourth brother, Prince Trial can not only rely on strength alone, luck is also very important."

There was a hearty laughter not far away.

The crowd turned around and saw another young man coming over.

"Old seven, your fourth brother, my luck, is still very good." Four emperors laughed, but the dawn was a few flashes, because he has a lot of masters, have been secretly solved by the seven emperors.

At this time, Ye Xuan also fell on the seven emperors.

The grandfather of Tianfeng City, Xia Yunyi, is the general manager of the Seven Emperors. On the same day, Ye Xuan was labeled as a dog. He is still fresh in his own memory.

This hatred can not be reported!

"Ok?"

Through the figure of the seven emperors, Ye Xuan really saw Xia Yunyi, which scared his heart.

Although he was wearing a dragon-shaped gold armor on the same day, he changed his voice, but he was afraid that the other party would recognize it.

The three emperors were chatting on the surface, but in reality they were dark and turbulent. They were all laughing in the knife. Among them, the four emperors and the seven emperors were sarcasm, and the six emperors were smiling and watching.

There are still many emperors around, but the power of these emperors is not strong. All they have is to join in the fun and plunder some dragons. Some people want to insert a foot. If you are lucky, it is not a problem.

However, the mysterious big prince did not appear.

Not long after, everyone arrived one after another, a total of seventeen emperors, one does not fall, all come.

Seventeen emperors, this represents one hundred and seventy people, but it is difficult for the general prince to recruit 80% of the masters. They can only look at luck and see if they can have an adventure in the secret.

Everyone waited for a while, and immediately, one person plunged into the sky.

"be quiet!"

A male duck-like voice fell into all the ears, and everyone was quiet.

"It is the red man next to the father, Wu Gonggong!"

The emperors recognized it at a glance.

When the emperor of the Yan Dynasty was a child, it was Wu Gonggong who took care of it. Many of the emperors in the heart of the Emperor of the Sun Dynasty were not as important as Wu Gonggong.

"You are the emperor, please accept the emperor's seal and the emperor's order!"

Wu Gonggong's hand waved, there are seventeen squares of the Emperor Yin and the Qiankun ring slowly flew into the hands of the various emperors.

The six emperors took over the emperor's seal and glanced at it, which wrote a six-character.

Then, he just sinks his mind into the ring of the Qiang Kun, takes out ten emperors, and gives it to Ye Xuan.

"Every piece of Emperor's seal is connected with ten emperors. At this time, there are no dragons for the ten emperors, and the value of the dragon's seal is equivalent to the sum of ten emperors. You immediately confessed to the Lord. If the emperor's order is destroyed in the secret, then you will immediately send it out, and there will be a master to treat the injury for you."

Wu Gonggong said.

These are all known to everyone present.

The trial of the Prince is to constantly pluck the dragon and finally to rank.

At the moment, everyone is acknowledging the lord's order, and then they find that this prince is unable to receive the shackles and can only be brought close to him.

"In the battle for the first pass of the Prince's Trial, there is a lot of inheritance and longevity, and everyone can also \*\*\*\* other people's imperial orders."

When Wu Gonggong finished speaking, he gave up the road. The gate of the palace behind him has slowly opened.

The entrance to the mystery has appeared.

"This is the secret of my Japanese royal family. There are many inheritances and opportunities in it. After you enter, you will be sent to every corner. You must be careful. If necessary, you can use Longyun." The six emperors whispered.

Ye Xuan ten people silently nodded.

All the emperors have their own accounts.

At this time, Wu Gonggong added: "This long-distance battle will be semi-closed. Only the scenes of the inheritance will be seen. In addition, this time, no murder will be allowed. The intentional murderer will go out directly and clear the dragon. "

Although it is said that only the scene of the inheritance will be seen, but this does not explain what, since Wu Gonggong said that it is not allowed to kill, then the royal family must have a way to see things in the secret.

Ye Xuan's eyes glimpsed, and it seems that he can't show his talents at this level. However, he captured a key point in Wu Gonggong's remarks.

Intentional murderers will go straight out, but the casualties of the two men are inevitable, so this rule should not allow murder.

"The time for the Dragon Battle is three days. After three days, you will all be sent out. Well, the Grand Emperor's team will go in." Wu Gonggong suddenly turned his head and looked at the eleven people in a corner.

The great prince is very cold, and the age is estimated to have reached 35 years old. He stood there and watched the ten-person team he had left entering the secret.

Then, it was the team of the two emperors, then the three emperors.

These people are very fast, and in the blink of an eye, it is the turn of the six emperors.

Chapter 768: Preemptive

"Remember, life is important!"

When the six emperors entered Ye Xuan and others, they reminded me.

Although it is said that it is impossible to kill people, there may be dangers in the inheritance place, and if it is seriously injured, the combat effectiveness will be greatly reduced.

Ye Xuan's ten people all mentioned the spirit of 120,000 points and then entered the secret.

The next moment, Ye Xuan discovered that the person who entered the secret before disappeared, and himself appeared in a forest.

Beside him, there is a stone monument with seventeen rankings, seventeen emperors, ranked in order.

At the moment, Ye Xuan is trying to fly the air. Sure enough, as he expected, the air-conditioned flight can't be used, and the shrinkage is not effective. However, this secret is still his home.

Then, he used a hole in the eye to sweep through the circle. Although there are a lot of trees around, the eye can see through the trees directly.

Coincidentally, Ye Xuan saw a person.

However, Ye Xuan sees his internal environment, not his face, so Ye Xuan does not know who this person is.

"It doesn't look strong!"

Ye Xuan's eyes swept away and passed directly.

Although the dispute of Longyun has just begun, it is always good for yourself to reduce the number of people.

The middle-aged man who was stared at has not found Ye Xuan, ready to go in a direction, hoping to meet a heritage.

But at this time.

"call out!"

A sound broke through the air, and the middle-aged man trembled and turned his head to see a cold man.

"Hey!"

The middle-aged man has a long sword, but the powerful impact directly shocked him.

Then, a black shadow hit, directly slamming his left arm, and the 戒 戒 ring suddenly fell into the hands of the shadow.

"what?"

The middle-aged talent just reacted, and this shadow was crushed by the shadow of the emperor. The next moment, he and his broken arm were directly transmitted to the secret.

.....

Beyond the mystery, there are other princes' teams entering the secret one by one.

But at this moment, suddenly one person sent it out and shocked them all.

"What, so soon someone has sent it out?"

Everyone was shocked. The 17 emperors have not yet entered, and some people have been eliminated. This is too fast.

At this time, the five emperors swept past and asked: "Wu Tongfang, who made it?"

The middle-aged man resisted the pain and shook his head and asked: "I didn't see it clearly. The other party is very fast, but the other party only has 60% of the body!"

How is it possible to send a 60% seal to a secret person?

After the six emperors heard it, his face was also shocked.

Ye Xuan in his team, isn't the realm of the seal 60%?

Among all the princes present, I am afraid that only one person in his team has a 60% seal, so the Six Emperors guessed that the person who sent the middle-aged man was Ye Xuan.

"Good guy, resolute and fierce, reduced an opponent!" Six emperors smiled.

However, I was shocked by the seven emperors and the four emperors around, because they also knew that there was a 60% kid in the six emperors.

"I thought that the old six brains were pumped out. It turned out to be hidden!"

Four emperors thought in their hearts.

.....

In the secret.

After Ye Xuan crushed the other's imperial order, he couldn't help but reveal a smile.

I didn't expect the battle of Longyun to just begin. He made a profit. There are still a lot of things in this ring, and the harvest is good.

"The eye of insight is really good, otherwise I can't find him."

Ye Xuan is very satisfied. I don't know if I can get the necessary items to open other eyes in this secret.

He casually found a direction to move forward, and from time to time to sweep with the eyes of insight, check around, by the way to see if there is a heritage.

"Roar!"

After Ye Xuan advanced for a few minutes, suddenly a giant scorpion fell into his ear, and he immediately swept through the eyes of the insight and found a huge figure.

"It's not human, it seems to be the ultimate sacred beast."

Ye Xuan eyes a glimpse.

The body of the sacred beast is still very precious, so he immediately killed the past.

When he arrived, he found that the only Supreme Holy Beast was a golden bear.

With Ye Xuan's current realm, even if he is not afraid of the 80% of the masters, let alone the sacred beast.

He held the sword and the sword, and he smashed it out and directly killed the only sacred sacred beast.

However, when he was ready to devour the body, he discovered that there was an energy spreading from the body.

"This is, Longyun?"

Ye Xuan's eyes suddenly condensed and hurriedly took out the emperor's order.

Sure enough, these strange energy is the dragon transport, Ye Xuan uses the emperor's order to absorb all of these dragon transports.

"The original killing monster also has a dragon."

Ye Xuan is very satisfied. After all, he has also learned the dragons and dragons, and can use the dragon transport to bless and enhance combat effectiveness.

When Ye Xuan absorbed Longyun, the ranking of the 17 emperors was also changed. The six emperors are currently the first.

At this time outside the secret, the 17 emperors have already entered a palace, and together with them are the civil and military officials of the Sun Dynasty.

"The members of the Six Emperors are the first to break the ranking and rank first!"

"It's amazing. It's estimated that your Majesty's members have killed a quasi-sacred beast."

"In the secret world, everyone's perception is reduced, and the mystery is terrible. It is not easy to be able to be thoughtful and to be a supreme sacred beast."

"It's just the first time. It's still worth watching."

Indeed, the starting rankings are useless and may not be able to laugh all the way to the end.

At this time, the members of the seventeen emperors have entered the secret, a total of one hundred and seventy.

No, there are only one hundred and sixty-nine people. One person is not lucky. Ye Xuan has been transferred to him, and then he is directly out of the secret by Ye Xuan.

In the secret, Ye Xuan has been running all the way for more than ten minutes. On this road, he did not encounter anything special.

However, just in the thirteenth minute of his entry into the secret.

"Hmm? It's hot!"

Ye Xuan's footsteps suddenly changed. He felt that the problems around him suddenly rose. Now he is showing the eye of insight and found a strange thing in front of him.

"In this mystery, my perception is weak, but fortunately I have an eye for insight..."

Ye Xuan sighed in his heart, and he guessed that the weird thing ahead might be a heritage.

He rushed past and when he arrived, he found this strange thing, the so-called Long Yunzhu.

Long Yunzhu, contains a lot of dragon transport.

But what caught Ye Xuan's attention was not the Long Yunzhu, but the things in the big pool next to the Long Yunzhu.

Inside, filled with hot magma, the temperature is extremely high.

## Chapter 769: Inheritance

Ye Xuan once again looked at the eye with insight and found that there was a ring in the bottom of this hot magma.

He doesn't care so much, he takes out the imperial order directly and absorbs the dragon transport on the Longyun column.

Then he walked to the hot pool and reached in.

hot!

This is Ye Xuan's first reaction. When he took out his hand, he found that his skin was red. If he had another one, his flesh would be melted, and the bones would not be left behind.

"A high temperature, my realm is not enough, I am afraid I can't resist it. If it is a dragon gold armor, it can be..."

Ye Xuan thought in his heart, but here, in the secret environment of the Japanese Yan Dynasty, if the dragon-shaped gold armor appeared, it would be terrible if it was seen.

So in order to be on the safe side, Ye Xuan decided to give up.

However, he only gave up half.

"There may be other people around, let them take it, and then I will take advantage of the fisherman."

Ye Xuan thought, and then it was a circle with insightful eyes. There was no one nearby, but he could make a point.

"Boom!" "Boom!" "Boom!"

Ye Xuan began to attack the ground madly. The bigger the movement, the farther it was transmitted. As long as someone approached, he could find it along the temperature.

After a while, Ye Xuan was hiding in a dark corner, converging and waiting for others to find it.

Sure enough, as he expected, in his line of sight, there has already been a figure swiftly swept over.

"The speed is not fast, it is estimated that the top seal is 75%!"

Ye Xuan looked at the figure and swept to the hot pool.

When this person saw that the Longyun on the Longyun column had been taken away, and then combined with the surrounding appearance, it was guessed that there was a big battle here.

He is still more cautious. He has checked around for a while. In the secret, the perception is probably only one-fifth of the outside, and with Ye Xuan's astringent breath, he could not find Ye Xuan.

He walked over to the pool and explored and found that he was able to resist.

At the moment, he jumped in with a bang, and it took a long time to take out the ring that was under the pool.

"Remove?"

Ye Xuan, who used the insightful eye to see the situation, immediately killed it.

"call out!"

A cold mangling flashed, followed by a crisp sound.

The 75% of the master's response was fairly fast, and the attack was blocked with a long sword. But at this time, Ye Xuan had already bypassed the forest and swept it out.

"The Quartet is extinct!"

Ye Xuan once again smashed a sword. Although the power of this move is not as good as a crack, but the round crack is still useless. After all, he used this to kill the Tiancheng City Lord.

The 7-and-a-half-year-old master blocked a sword, but could not stop the sword. He was directly cut off by an arm. When the arm of the sword flew up, Ye Xuan had already plucked him. In front of.

"Oh!"

Another is a crisp sound, the other's wrist was smashed, and the 戒 戒 ring fell into the hands of Ye Xuan.

This master is already desperate, his right arm is smashed, his left wrist is also smashed, what battle does he take?

When he reacted, Ye Xuan had already tore his clothes and took out the emperor's order hidden in his chest.

"Thank you for your luck, go out!"

Ye Xuan will absorb a small amount of dragons on the emperor's order, and immediately crush the emperor's order. The next moment, this master is turned into a white light and disappeared in front of Ye Xuan, and was sent outside the secret.

Ye Xuan remembers that this person was a member of His Majesty the thirteenth emperor. It was a pity that he was hit by him.

"Despite the fact that there are not many Longyun, but it is better than nothing, let me see what is in the two Qiankun Rings."

Ye Xuan muttered to himself, he first looked at the other side of the ring, but there is not much in it.

However, the other party's pick-up from the hot pool has a lot of good things.

"The inheritance of Yanxiaomen a hundred years ago..."

Ye Xuan brows a pick, the vast majority of things in this Qiankun ring are martial arts, but also a small amount of heaven and earth treasures, all of which are fire attributes.

He is also unkind, directly transcribed martial arts into the phagocytic system, as for the treasures of heaven and earth, all swallowed.

Some of them, Ye Xuan used a special phagocytosis, because many can enhance physical fitness.

The half-step supreme is to force the emperor to seal up and strengthen the physique, but this is not a self-contained body. In the future, after the seal is 10%, it will be robbed. Everyone's emperor will have the same degree of envelopment. To achieve supremeness is to rely on one's own body and other abilities.

"Unfortunately, the upgrade experience is more than once, and I have not been able to break through."

Ye Xuan shook his head in sigh, and then left the place.

His luck is still quite good. Both of them will be out of the game, and they will have a heritage and a lot of dragons.

At the same time, he also understands that the inheritance of Yan Yanmen, which he has obtained, is the inheritance of the products, in addition to the inheritance of Chinese and Shangpin.

The top grade is inherited, even if the emperor is afraid that it will be heart-warming.

"Every inheritance is indeed dangerous. I can't even get the inheritance of the next product. I'm afraid it's not so easy..."

Ye Xuan has some helplessness.

He is now only 60% of the body, while the worst of others have 70%.

Although his fighting strength is strong, but the infuriating has always been his weakness, and here is not free to use the dragon-shaped gold armor, so if he finds the inheritance, I am afraid that he can only take the dragon.

However, with his strength, in the face of the 80% of the seal, there is a battle, and it can be kept next to the inheritance.

He continued to linger in the forest, and he had the insightful eye, and the insight was probably unparalleled.

After more than half an hour, he met another inheritance place. This time, there were several weird trees beside the Longyun column.

"What about the tree?"

Ye Xuan's flash of light, even without the insightful eye, he can also see the extraordinariness of these trees. After all, the internal environment of these trees is different from that of ordinary trees, and they are constantly twisting branches, which seems to be very dangerous.

"There is a dragon ring next to the Longyun column."

Ye Xuan's eyes condensed on a dragon ring next to the Longyun column. At this time, he checked around and found that after others, he suddenly shot.

"The Quartet is extinct!"

Along the road, the mansions went straight through the air. Ye Xuan directly attacked the tree magic through countless trees.

The average person can't find the few tree demons. After all, they don't have the ability to see through, let alone attacked by so many trees.

"Oh!" "Oh!" "Oh!"

Ye Xuan's sword directly cut off hundreds of trees and squatted on a tree.

The tree demon was badly hit, but it did not find Ye Xuan, only silently slammed this attack.

Seeing it, Ye Xuan's light is bright, it seems that he is outside the attack range of these trees.

Chapter 770: Controversy

"The Quartet is extinct!"

A sniper slammed into the air, and a few rounds came down to solve a tree magic. In less than half a minute, all the tree demons were all dead.

Then, Ye Xuan swiftly swept past, absorbed the dragon transport on the Longyun column, and got the ring.

"The inheritance of the Cangsen sect two hundred years ago."

Ye Xuan's eyes are bright, because this Qiankun ring has a lot of heaven and earth treasures.

"It's almost a bit to break!"

He felt it, as long as he had another inheritance, he could break through to the seal six and a half. By the time he is fighting, I am afraid that he can squeeze into the line among the 100 people.

Of course, other people may also suddenly break through after inheritance.

"Although I only got two inheritances, I can break through as long as I get one, not too bad."

Ye Xuan's figure left the place. He has an insightful eye and a huge advantage. He must hurry.

After half an hour, he found another inheritance, but this time, it seems that someone has gotten ahead.

"Booming!"

There was a loud noise in front of him, and Ye Xuan swept away with a hole in the eye and found that two people were fighting.

"The strength is not weak, the emperor will be estimated to have 80% of the seal!"

Ye Xuan eyes a glimpse.

He was thinking, would you like to insert a foot in the past.

"First hide, let them play almost, I will go out again." Ye Xuan is planning.

It's the favorite thing about Ye Xuan.

Through the insight of the eye leaf Xuan can see that the two people in front of the battle at the entrance of a thing, and there is a dragon column outside the cave, apparently a heritage.

There is also a benefit to the eye of insight. You can see the internal environment of the two people through ordinary things, but you can't see through the ring, so his attention has always fallen on the extra ring.

"Oh? With the people who passed the ring, the strength seems to be stronger!"

Ye Xuan observes and approaches, and the perception in the secret is low, the other party can't find it.

When Ye Xuan was only close to 3,000 meters, one of them was smashed by the other party, and then turned into a white light, and was sent out of the secret.

When Ye Xuan saw another person disappearing in an instant, it was time to understand the shot.

"The Quartet is extinct!"

A sniper smashed away, the man who was passed down to the Qiankun ring had just slackened and was scared by this sneak attack.

"Hey!"

He hurriedly blocked it with weapons, but it was shocked and shocked into the stone wall.

At the same time, Ye Xuan rushed out of the forest and madly shot.

At the same time, Ye Xuan also saw his face, turned out to be one of the seven emperors.

"Kid, you are looking for death!"

The gray-haired old man screamed and rushed to the pocket and began to fight back.

"Haha, member of the Seven Emperors, give me out!"

Ye Xuan laughed in the heart.

He once used him as a water dog and played Xia Yunyi. He is a member of the Seven Emperors. Although this old man is not Xia Yunyi, Ye Xuan regards him as Xia Yunyi.

However, the more four levels of challenge are not so easy.

"Hey!" "Hey!" "Hey!"

The swordsmanship of the two began to swell, and Ye Xuan was not afraid of fighting.

"Kid, I know you, you are a member of the Six Emperors!" The old man in gray recognized Ye Xuan.

"and then?"

Ye Xuan eyes a glimpse.

"Nothing, just ask you out of the secret!" The gray-haired old man sneered.

"Then see who is going to go out!"

Ye Xuan's eyes glimpsed. From now on, he and the other party have already played more than a dozen rounds. If this is the case, it is difficult for him to defeat each other.

"It's not so much, it's a dragon!"

He made a decision in his heart. At this time, strength is more important. It is only two martial arts, and not many people will recognize it.

"The wolf is rushing!"

The head of a giant wolf rushed to the old man in the gray coat. The old man in the grey coat broke out with a sword, but he was unable to shake it up, so that he was bitten by the head of the giant wolf.

After the spikes are punched, it is a circular crack with strong cutting ability.

"Oh!"

Ye Xuan suddenly broke out, hit the other side by a surprise, the gray shoulders of the old man's shoulders were cut off, blood splashing.

"Damn!"

The gray-haired old man roared and watched another giant wolf bite his head.

Locked by the heads of two giant wolves with good mouths, the gray-haired old man couldn't move.

"The empty palm!"

Ye Xuan swiftly swept past, one palm passed through the head of the giant wolf, and slammed into the gray old man. The next time the latter was bombarded, at the same time, the inheritance of the Qiankun Ring and the Emperor Order were also taken away by Ye Xuan.

"not good!"

The old man in the gray coat changed his face, and even if he was taken away, if the emperor ordered it to be taken away, it would be over.

Although he only encountered the first inheritance, he did not get much luck, but the emperor ordered him to fall into the hands of Ye Xuan. He was afraid to go out.

"Hey!"

After a crisp sound, the emperor's order of the gray-haired old man was crushed by Ye Xuan, and then turned into a white light to fly out of the secret.

"call!"

Ye Xuan sighed with relief, but fortunately the other party did not use Longyun Qiankun in time, otherwise he would have to waste a lot of luck.

"It's still a legacy, but it's not bad!"

Ye Xuan's eyes lit up and he heard a tone in his mind.

breakthrough!

Now his degree of closure has reached 65%.

He began to explore the inheritance of the Qiang Kun ring, but found some surprises.

“All of them are ore. It seems to be a sect with forging as the main business. It’s not bad. It seems that the three thousand wolf rides can be improved.”

Ye Xuan's mouth is slightly tilted.

He has three tens of thousands of spikes to lift the drawings, as long as there is material, you can use the phagocytic system to upgrade it.

"Hey, the spike ride is successful!"

"Hey, the long knife will be promoted!"

Using these forged materials, Ye Xuan will upgrade the three thousand wolf teeth and the long knife.

"The strength of the long knife deputy has almost reached 60% of the will of the emperor, and there are about 40% of the three thousand wolf teeth."

In this regard, Ye Xuan is still quite satisfied.

After all, this is just a legacy. If you get the inheritance of the Chinese product or even the inheritance of the top products, these upgrades will be more.

"In less than two hours, I got three dragons that were passed down from the bottom. Others estimated that I got one at most?"

Ye Xuan’s confidence suddenly skyrocketed.

Although it is impossible to recover quickly, the eyesight of the insight is not much, and there is nothing to use it once in a while.

He began to search for a place of inheritance.

In two hours, I got three inheritances, but the time of the Longyun battle was three days, and maybe he would be hit by the product.

after an hour.

"Boom!"

A movement caused Ye Xuan's attention. He subconsciously swept away with the eye of insight, and did not find anything wrong.
