

Super D. S 771

Chapter 771: Chinese heritage?

"The distance is quite far!"

Ye Xuan eyes a glimpse, looking for the past along the sound, not long after, he saw three figures in battle.

"Ok?"

At this time, he discovered that one of the figures was familiar, and it seemed to be his own knives, Cao Bao.

The savage knife Cao Leopard, the Emperor will seal the body 80%, and Ye Xuan is attached to the six emperors.

It is difficult for his teammates, and Ye Xuan naturally wants to help.

At the moment, Ye Xuan is killing the past.

The two warriors who attacked Caobao, a sealed body of 80%, a 75%.

If there is only one person, Cao Leoping can handle it, but the other party is two people, which is somewhat difficult.

"Oh, no way, Long Yun Qiankun!"

Cao Leopard holding the big knife directly applied the cards. The dragon in his chest was suddenly called. In the meantime, the strength of Cao Leopard was soaring and the attack was very fierce.

"We also use!"

The warriors of the 80% of the seals drank.

They were not using the dragons and dragons of Longyun. They and Cao Leops became a tie. Now they are using Longyun, which is still in a stalemate.

Now, let's see which side of the dragon has more.

But what they wouldn't have thought was that they suddenly killed a figure on the side.

"The wolf is rushing!"

Ye Xuan's card was thrown out, and the wolf's head directly bit the body of the warrior who was 7:30.

Then, it was a very powerful round crack. In order to prevent the opponent from blocking, Ye Xuan also blessed the Dragon Fortune and attacked it to a higher level.

"Oh!"

The arm of the warrior was instantly smashed.

In this case, it is somewhat difficult to win the emperor's order, so Ye Xuan does not care so much, and directly hits a punch.

"Hey!"

The fist shadow blasted on the other side of the emperor's order, the emperor's order was broken, and the other side was instantly out.

The emperor's order is broken, but the dragons in the inside are not deducted. After the battle of the dragon, they can also make a new imperial order, but there is no one in the dragon.

Ye Xuan is not rare in this long way, after sending the other party out of the secret, Ye Xuan is the other party's Qiang Kun ring.

The other party also got a product inheritance, so this is cheaper Ye Xuan.

"It's you?"

After the savage knife Cao Leopard saw Ye Xuan, his eyes could not help but burst out of the fine mans.

Ye Xuan, but with his camp!

"Well? This person seems to be the four emperors!"

Ye Xuan recognized the other party, and the person who was sent out by him was also attached to the four emperors.

However, this does not matter.

"Kid, send him out together!"

The mad knife guest Cao Leopard drank.

"it is good!"

Ye Xuan immediately agreed.

However, the reaction of the other party was very fast. When Ye Xuan rushed to him, he even shot a fist in his chest and crushed the emperor.

The next moment, he was sent outside the secret.

He crushed the emperor's order, but lost the first round of qualifications, but the dragon's order is still in the dragon.

If Ye Xuan is down, his dragon will be taken away.

"Hey, count you running fast!"

Ye Xuan snorted.

"Kid, thank you this time."

"That inherits the Qiankun ring?" Ye Xuan asked.

"When I came, the inheritance here was gone. The two thought that I took it, so I besieged me." Cao Leopard screamed.

Ye Xuan's brow slightly condensed, sweeping with the eye of the insight, indeed, there is only one 乾戒 ring on the fangdao Caobao.

"If that's the case, then I will leave!"

Ye Xuan clung to Cao Bao and immediately left.

Originally, Cao Bao wanted to join forces with Ye Xuan. I thought about it. After all, there are a lot of inheritance here. If you are accompanied by peers, the safety is high, but the meat has to be divided into half, or the single person is good.

The size of this mystery is beyond the expectations of Ye Xuan. He has been moving in one direction, but after running for a few hours, he did not look forward to it. It is still a forest.

Ye Xuan is helpless, but he has not been in the secret for less than half a day, even if he is helpless, he can only continue.

As he walked all the way, the sky began to darken.

In the forest at night, the insects continued to scream, and the dangerous sacred sacred beasts also came out for food.

However, Ye Xuan, who has an eye for insight, can instantly identify these dangers.

“Hey!” “Hey!” “Hey!”

At this time, suddenly there were several snipers to lift off and illuminate the surroundings.

Ye Xuan’s foot was awkward and his brow wrinkled.

This seems to be a signal.

Of course, it may also be someone who deliberately issued, fascinating the past, and then robbing the Dragon and the Qiankun.

"With my current strength, I can squeeze into the front line, and with the insightful eye, whoever hides will be found out by me!"

Ye Xuan decided to take a look.

At night, it is more suitable for him to hide his body shape, and his advantage is much larger than during the day.

However, when he was approaching, he found that it was not what he thought.

Beside a dragon column, there have been more than a dozen people who have not fought and seem to be waiting for someone.

“Is it a Chinese heritage, I feel that there are not enough people?”

Ye Xuan heart guessed.

Otherwise, how could there be so many people gathering?

You know, when they came in, they were all dispersed, so there must be a lot of different camps there.

“Hey!” “Hey!” “Hey!”

They are still signaling upwards, trying to attract people.

"Ok?"

At this time, Ye Xuan suddenly stared at it and found a familiar shadow among these people.

Before coming in, Ye Xuan actually remembered the internal environment of his nine people, so he could recognize it.

"It seems to be the poison girl."

Ye Xuan's heart guessed.

Poison Po, is a master recruited by the Six Emperors, is good at using poison, has been sealed 80%.

However, if the six emperors reminded, others would consider her to be an ordinary warrior.

"It seems that I have encountered the inheritance of Chinese products."

Now Ye Xuan can be sure, they should have no way to attack the Chinese heritage, so they gather people.

At the moment, he just went out.

"Oh, one more person."

Said a warrior.

Ye Xuan walked out of the forest and looked at it.

"Young man, come over." The poisoned woman's eyes lit up and shouted at Ye Xuan.

Although Ye Xuan does not believe in other people, at this time, in this secret world, he can only believe this poison woman.

After all, they belong to the same camp.

Ye Xuan quickly went over and asked: "Is this a heritage of Chinese products?"

"I am not very sure. There was a seal of 75% in the past, but it was dead!" Poison shook her head.

"died?"

Ye Xuan brows a pick.

"Dead, killed by the strange black shadow in this cave, although the wound is not fatal, but was poisoned," said the Poison.

"Police..."

Ye Xuan paused.

Chapter 772: Cave

Compared with other people, Ye Xuan's toxic resistance is relatively strong, so his survivability is relatively high compared to other people.

He looked around and found that the surrounding people were in the 70% and 70% of the body. In addition to the poisoned woman, there were two masters of the 80% seal. With Ye Xuan, there were a total of thirteen.

The people around me saw only the sixty-five percent of Ye Xuan, so I didn't pay much attention to it. However, this secret is so big that it is very good to gather ten people.

"You, are we continuing to wait, or are we going together?"

A long-haired middle-aged man asked, he is also a body seal 80%, and a poisonous woman a realm.

"Forget it, let's go in together, it's not easy to get together so many people."

"Go in, everyone is ready for the emperor's order. If there is danger, it will be crushed directly. There is a master outside to help."

"I still quit, I am going to find other inheritance."

One person decided to give up, after all, there are still more than two days left, there is no need to die to drill this middle-class heritage.

However, at the moment he turned around, one person near him suddenly shot, severely injured him, and then took away the Qiankun ring.

"you....."

The seriously injured person pointed at the other side, but the next moment, his imperial order was crushed and sent out.

In this scene, everyone else is in the eye, no one is snoring.

"Kid, when you enter, remember to beware of it." Poison whispered.

Ye Xuan nodded silently.

This poisonous woman looks very dangerous, but at this time he is in the same camp, and the scene of the inheritance will be projected, so the poisonous woman will never shoot him. Otherwise, the six emperors will certainly not spare him. .

"There are only twelve people left now. They should not want to get together. Let's draw lots."

Long-haired middle-aged man proposed.

"Okay, draw lots according to the camp."

Here, a total of ten camps, in addition to Ye Xuan and Poison Po, also have a group of two, the remaining eight are acting alone.

At the end of the draw, Ye Xuan and Poison are entering the fifth batch, with each batch being separated by half a minute.

"Damn!"

The soldier who took the first one, screamed in his heart.

He also understands that if he does not go in, he will be eliminated in an instant. He drums up and then walks in.

The second batch will enter after his thirty seconds.

The fifth batch of Ye Xuan and Poison, is not bad.

At this point, the two men walked aside and whispered.

"Kid, I heard that when you were in the 50% of the seal, you defeated a 70% of the seal. Now you have a 60% seal. Can you deal with a seal?" Poison said softly.

"Predecessors, you want to..."

Ye Xuan's brow suddenly picked and his eyes lit up.

"In addition to me, there are two seals, 80%, one third, one eighth. By the time we join forces, we will clean up all of us behind." Poison said.

"Yes." Ye Xuan nodded.

They are entering the fifth batch, and there are still many people behind them. They can give up this Chinese heritage and plunder the dragons and treasures of others.

"Booming!"

There was no small movement in the cave. It seems that someone is fighting.

"The black shadow, it should be a poisonous wind, the speed is very fast, when I am poisoned, you guard against it." Poison whispered.

Ye Xuan nodded and understood, and soon, it was their turn.

Since other people do not understand that the poisonous woman is good at using poison, she only treats her as an ordinary warrior, so she did not pay much attention.

Ye Xuan and the poisonous woman entered the cave. The anti-drug ability of the two of them was the strongest among all the people present, and the safety ability was the highest.

They carefully walked in for more than ten seconds, and then they chose a location to bleed.

"You are against the point, I will be poisoned, and those who come in will be poisoned!" The poison-pod said, it was to take out a lot of things and start to arrange.

Ye Xuan is careful to watch out and look around with an insightful eye.

In ten seconds, the poisonous woman can easily lay down several poisonous arrays, and there is usually no problem for the people behind.

"Huh!"

Suddenly a gust of wind was introduced into Ye Xuan's ear, causing him to tremble.

"coming!"

Ye Xuan reminded me that a glimpse of the eye was to see a black shadow swiftly rushing toward him.

"The wolf is rushing!"

He directly stabbed a sword, and the wolf head rushed out and directly bit the shadow.

Sure enough, this is a black cockroach about one meter high, and it has great toxicity all over the body.

Unfortunately, this poison has no effect on Ye Xuan's infuriating.

"Circle crack!"

Ye Xuan directly took out a sword and killed this poisonous wind.

This cave is very dark, and the poisonous wind likes to hide in the dark corner waiting for the prey to come in, then it can directly attack the poisonous prey.

Unfortunately, Ye Xuan has an eye for insight and strength is not weak, so this poisonous wind is not a threat to him.

In the secret world, there is also a dragon transport in the sacred sacred beast. Ye Xuan collects the corpse and dragon transport after the poisonous wind, and continues to protect the poison.

"The strength of your kid is not bad, we two people join hands, maybe you can take down the inheritance of this cave!" Poison said while setting up.

She used to be poisonous, and this Chinese heritage is obviously related to poison, so she has great temptation for her.

Ye Xuan actually thinks this way, but let's just let the rest of the people be eliminated.

"The three major poisons are finished, all of them are non-lethal poisons. Except for those who have 80% of the seals, they have been in less than three seconds!" said the witch.

Ye Xuan's eyes were swept away. Although there was nothing on the surface, the ground, the walls and the ceiling were dangerous, even in the air.

"Kid, this bottle of medicinal herbs is specially made by me. I put it up, and I have one in my mouth for the occasional need!" The poisoned woman threw a bottle of detoxification to Ye Xuan.

Although the poisonous woman is in the same camp, but Ye Xuan took out a medicinal test and found that it was indeed a detoxification, so she included a mouth in her mouth.

If it is accidentally poisoned, swallow it immediately.

Time has passed thirty seconds, then the sixth batch of people is estimated to be coming in.

"Tick!"

Poison and Ye Xuan held their breath, listening to the ear, and some water drops on the ceiling, but the sound could not cover the sixth person's footsteps.

"He is coming in!"

Poisoning whispered.

One second!

Two seconds!

Three seconds!

"If it is the sixth person, he should not be able to withstand my poison, boy, you have collected his things in the past."

Three seconds later, the poisoned woman said again.

In fact, Ye Xuan has not heard the footsteps, although he said that he has an insightful eye, but he can't wear it.

"it is good!"

Ye Xuan nodded and then quietly passed.

Sure enough, there was a man lying in the middle of the poisonous array, unable to move, and both eyes looked at him.

Chapter 773: Intentional murder

"Hey, go out!"

Ye Xuan took off his Qiang Kun ring and the emperor's order. After the thing was taken away, it was the crushing of the emperor.

This unfortunate person turned into a white light and disappeared in front of Ye Xuan.

When I came in, Ye Xuan discussed it with the poison woman. The Qiankun Ring and the Dragon Boat were once, this time Ye Xuan, then the next time is the Poison.

After another thirty seconds, the seventh batch of people came in. Like the previous one, he was poisoned by the three poisonous groups on the ground like a dead body.

This time, the poisoned woman swept the past and took off his Qiang Kun and the Imperial Order.

The two of them entered the sixth batch, and five people entered in front of them, including a master of 80%.

That is to say, there are five people behind them, one of them is a two-person team, in addition to a boxing 80%.

The seventh and eighth batches were solved by them, then the next two were the ninth batch.

"The two seals are seven and a half, and they still can't resist my poison."

The poisoned woman thought about it.

After thirty seconds, the footsteps came one after another. This time, it really was two.

"poisonous!"

Suddenly there was a low drink in the cave, but the next moment, the two fell down.

Ye Xuan and the poisonous woman are not nervous, so even if they are heard by outsiders, it is fine.

The cave, of course, is poisonous!

Now, the two teams are out, so the last one is the master of the 80%.

"The last man was the prince of the Four Emperors. I couldn't see his depth. I couldn't hide my strength. It was a master of 80% of the body. If he didn't make a move later, we would immediately shoot it!" said the Poison.

"The body is eight and a half..." Ye Xuan's eyes.

He feels that the other party should not be a seal of 85%. Otherwise, after he and the poison-pod come in, the other party can directly solve the remaining four people. Why should they let them in?

Of course, it is also possible for the other party to let these people explore the road.

After all, the temptation of Chinese heritage is greater.

"coming!"

A cautious footstep was introduced into Ye Xuan and the poisoned-in-law, letting them hold their breath and prepare for the shot at any time.

The last master of the 80% seal was very careful, because he was also afraid that those in front would hide and besiege him.

Soon, he entered the poison.

"poison?"

The person immediately responded and quickly retraced backwards.

There are many poisons in this cave, so he took the poison to understand the poison, but this poison is a poisonous woman. The general detoxification is useless.

Fortunately, his reaction was quick and he quickly left the poison.

"on!"

Poisoning a low drink, quickly rushed out.

Ye Xuan followed closely.

Both of them have already discussed it well. If the other party does not enter the poison line, they will defeat each other with Thunder.

Not only that, but they also reached a consensus, that is, the use of Long Yun Qiankun at the same time.

"The wolf is rushing!"

"Van poison palm!"

Ye Xuan and the poisonous woman also shot at the same time. Both of these two tricks have been blessed by many dragons and their power is enormous.

"Sneak attack?"

The 80-year-old master of the seal has a flash of light and can use martial arts. This means that it must be human.

At the moment, his breath is an instant skyrocketing, and the emperor's order in his arms is also a dazzling white light.

Three white lights instantly illuminate the entire cave.

"It's you!"

The 80% of the masters found Ye Xuan.

No, he is not a boxing 80%, but like the poisoned woman guessed, he hides the strength, the real realm is 8:30.

However, how about 85%?

"Hey!"

The wolf's head directly bite on the thigh of this long-haired middle-aged man. During that time, the middle-aged thigh of long hair is penetrated by the fangs, and the blood is flowing.

"Hey!"

The palm of the poisonous woman was shot in the chest of a long-haired middle-aged man.

She is a master of poison, even his instinct is with toxins, this palm directly makes the middle-aged people very poisonous.

Long-haired middle-aged people screamed badly, hurriedly punched the giant wolf's head and prepared to explode.

Unfortunately, Ye Xuan and Poison have already killed one by one.

"Circle crack!"

"Van poison palm!"

The long-haired young man has two fists and is hard to beat the four hands. Although he blocked the attack of Ye Xuan, he was shot again.

He couldn't help but spurt a blood. His chest was already black, and the toxins contained in the poisonous intoxication had invaded his body.

"Hand over the emperor, or you will die within the three-party!"

The poisoned woman immediately drank.

When the middle-aged man heard it and his face was gloomy, he put his hand into his arms, but he did not choose to compromise.

As long as he crushes the imperial order, the master outside the secret will quickly heal his injury, so that the four emperors' dragons will not be added to the six emperors.

"not good!"

Ye Xuan, who saw his intentions, quickly pulled out a sword and slammed his left arm.

At the same time, the middle-aged man happened to crush the imperial order in his hand.

"call out!"

The white light flashed, the long-haired middle-aged man disappeared, leaving a broken arm.

The poisoned woman was stunned. He didn't expect the other party to choose not to compromise. This is to make fun of his own life.

At this point, the middle-aged people sent out, has passed.

Poisonous poison is very powerful, can cause death in the three interest, and then two, if the middle-aged person can not detoxify, then he will die.

However, the poisonous three's interest rate is a bit exaggerated, after all, the other party is 8:30, and the poisoned woman is the reference point of the seal eight.

Two interest!

Three interest!

Ye Xuan and the poisonous woman stayed in the same place, and the three interest rates had passed, but nothing happened.

"call....."

The poisonous woman was relieved and relieved, but the next moment, she heard a voice.

"The other party has died. You are judged to intentionally kill, immediately retire and clear the dragon!"

"Hey!"

A white light lit up in front of Ye Xuan, and the poisonous woman disappeared instantly.

"I rub."

Ye Xuan was shocked.

The emperor's ambassador's order was not crushed, but it was suddenly sent out. This means that the long-haired middle-aged man did not survive, and the poisoned woman was judged to have intentionally murdered, so it was also passed away.

Intentional murder, this will go straight out and clear the dragon.

This punishment is still good, after all, there is no life.

In fact, Ye Xuan is afraid that he and the poison-po will sit together and fly out of the secret. Fortunately, it is just a poisonous woman.

"Unfortunately, the Six Emperors also lost a member of the cadre, and also cleared the Dragon."

Ye Xuan sighed in his heart.

Fortunately, it is only the long-distance of the poison-pod, and the middle-aged man of the long-haired is the four-prince. When he dies, the four emperors have only nine people in the next round.

He hurried to the past and set off the long-haired middle-aged people. The latter concealed the strength. The real realm is 8:30 of the seal. It is also among the top among all, but unfortunately, halfway through.

Chapter 774: Top grade inheritance

Now, Ye Xuan is the last person to enter the cave, and the poison woman has been sent out, so he can only explore this cave by himself.

"Let me see how many good things you have in this product."

Ye Xuan turned and continued to go deeper.

There are many poisons in this cave, but Ye Xuan, who has an eye for insight, can easily avoid these crises.

Not long after he went deep inside, he encountered a road. He chose one of them and then encountered the second poisonous wind.

This poisonous wind is stronger than before, but it is still not the opponent of Ye Xuan. It is easily killed, then the body is swallowed and the dragon transport is absorbed.

"My dragon transport, it should be considered too much."

Ye Xuan was complacent, only when he was assigned to two people's dragons, and both of them also got one or two inheritance, so they all gathered on him.

However, not long after Ye Xuan went deep, suddenly a loud noise fell into everyone's ears.

"Someone found the top grade!"

"what?"

This sentence, but scared Ye Xuan.

Top grade inheritance!

The dragon transport on the Longyun column outside each inheritance area has more or less, the lowest grade of the lower products, followed by the inheritance of the Chinese products. As for the inheritance of the top grade, it is naturally the most.

Let's not say inheritance, the single dragon column alone, I am afraid there is a lot of dragon transport.

At this time, outside the secret.

"Oh oh, this black robes are the princes who are squatting, it is really big!"

"Is this person thin, is it a woman?"

"It seems to be very powerful, at least the master of 80% of the seal, even reaching 90%."

"I remember, it seems that the Seven Emperors are falling down?"

A group of ministers whispered in the whisper, many people even focused on the seven emperors.

The Seven Emperors took a look at the Longyun rankings not far away and found that they had reached the top. They immediately smiled: "Yes, she is my sire."

After hearing the answer, the ministers also focused their attention on the scene of the secret. At this time, the black robe woman had entered the inheritance.

Next, her strength is to shock everyone.

"This is the inheritance of the Tianquan sect of the ancient sacred dynasty thousands of years ago."

"It turned out to be the boxing of that day. The pair of Tianquan was so terrible that they were terrible. I didn't expect to be easily avoided by this black robe woman.

"Oh, she got the control method of Tianquan."

"I really made a big profit, and I got a top grade inheritance. Oh, that is a martial arts seed. Is it the secret technique of Tian Quan Zong?"

The ministers were shocked, and the same was true of the emperors.

The Seven Emperors did not expect that the black robe woman could be so agile, directly avoiding the two powerful Tianquan fists, and then get the pass-through.

"The ghost teaches the saint to be extraordinary. Not only is the bed hard, but even the strength is so powerful."

The seven emperors licked their lips and secretly said that this time the Prince tried, he must win the first.

Only the first, can become the Prince, the emperor of the Japanese Sun Dynasty.

.....

At the time when the black robe woman took down the Tian Quan Zong heritage, Ye Xuan was already deep in the cave.

"Well? The body?"

Ye Xuan glimmered and found a corpse in front of him. He was the fifth person to enter.

This person's princely order and Qiankun are still there, but the death is extremely fierce. The whole stomach is empty and I don't know what poison was eaten.

Ye Xuan saw it and immediately swept the eye with insight. Although he found nothing, he found several small holes in the wall.

In case, just in case, he still decided not to pass.

"come!"

Ye Xuan used the double space to push the corpse over, and then took down the prince and the ring.

"Hey!"

He absorbed the dragon's luck in the emperor's order, and the next moment, the body was turned into a white light disappeared.

Then he released another embarrassment and ordered him to move forward.

"puff!"

Suddenly, a small hole plucked a black shadow and instantly pierced the hole.

"this is....."

Ye Xuan, who opened the eye of insight, caught this petite voice, and he seemed to know each other.

"Swallow the beast!"

Ye Xuan's eyes widened. Unexpectedly, he even encountered a swallowing beast.

Last time, he found a swallowing beast in a ring of Qiankun, but this time, he met again.

"Advanced point, I am coming!"

Ye Xuan's eyes lit up, and released a shackle, ordering it forward.

"puff!"

The little snake swallowed the beast and drilled it again, but this time, Ye Xuan took a sword directly.

"Circle crack!"

"Oh!"

The round sniper cuts the head of the swallowing beast and the whole body hits the stone wall.

Ye Xuan hurriedly stepped up and took away the body of the swallowing beast.

"Hey, the host devours a corpse that devours the beast and gets a little advanced!"

The system prompts.

This is really an unexpected joy, I did not expect to encounter a swallowing beast in the secret, which is more precious than a mid-level inheritance.

"This is an advanced point, keep it first."

Ye Xuan thought in his heart.

Now that he has the blood of the twins, the blood of the twins is five points advanced, and you can once again condense a single body.

However, Ye Xuan has now sealed the body of the Emperor by six and a half. When the body is 10%, he will have to be robbed.

The supreme robbery is huge, and ten or so half of the Supreme will not necessarily have one person to successfully pass.

Therefore, Ye Xuan guessed that when he was sealed for 10%, there would be a chance of breakthrough.

When he breaks through, he will fit in with the avatar, and he will have a 10% strength bonus. Then he will advance to the second son's blood, and his strength and achievement will be increased to 20%.

This is Ye Xuan's plan.

Of course, whether he can live to the seal is still a problem, so keep this spare, and then say it at a crucial time.

Then, Ye Xuan continued to go deep, but the front was a dead end. In desperation, he could only go back and go in another way.

However, when he is halfway through.

"Ha ha ha, the inheritance of the poison king!"

A deep laughter came from the depths of the cave. Ye Xuan's footsteps screamed.

This voice seems to be the one who entered the 80-year-old master.

It seems that the other party has already obtained this Chinese heritage.

"The inheritance of the poison king?"

Ye Xuan heard the sound, but did not know who the poison king is, but it can be listed as a Chinese heritage, certainly a lot of wealth.

At this time, there was a strong breath in the depths of the cave, which was a breakthrough.

"Double poisoning pills, cool!"

There was another excitement in the depths.

"Double poisoning pills?"

Ye Xuan heard the name, and the brow was also a pick. He had heard of this thing.

Chapter 775: Poison king inheritor

Double poisoning heart pill, is a kind of remedy made from two kinds of highly toxic drugs, which can help people to break through quickly. However, this kind of medicinal material is very difficult to collect, and the refining is very strict. If the refining fails and the dosage is wrong, then the user will immediately die and die.

"It's a pity that I was eaten."

Ye Xuan felt helpless. At this moment, he suddenly heard a footstep, and the person in the depth came out.

At the moment, he quickly hid it.

The other party was only 80% of the body, and after taking the double poison attack, it broke through to the 80% of the body. Ye Xuan was able to defeat it with a sneak attack.

The footsteps are getting closer and closer, and Ye Xuan breathes and sighs. When the other party appears, he immediately shoots.

"coming!"

Ye Xuan heard the movement, clenched his hand in the sword, and slammed a sword in one direction.

"Huh!"

When the sound broke, a giant wolf headed toward the other side. However, the other party's reaction was not slow, and he directly escaped the wolf.

"Good guy, dare to attack me, I really don't know how to live!"

This person angered a word, the backhand is a sword to Ye Xuan.

Ye Xuan saw that the sneak attack could not be done, so he could only work hard.

There are four boundaries, but with his blood, it is not a problem to deal with.

"Hey!" "Hey!" "Hey!"

The sound of the two people colliding with each other, echoed in the entire cave, but what Ye Xuan did not notice was that a black scorpion of the size of his index finger swiftly swept toward him.

"Kid, I got the inheritance of the poison king!"

The other party snorted.

"How about that?" Ye Xuan brows a pick, do not understand why the other side suddenly said the truth.

But the next moment, he understood.

"puff!"

Suddenly a sharp thing stabbed into the foot of Ye Xuan. He looked down and turned out to be a black dice of the size of a index finger.

Ye Xuan has not heard of the poison king, but has the ability to drive poison. This warrior has been passed down by the poison king, and naturally has this ability.

"not good!"

Ye Xuan's face sank because he felt his entire foot was paralyzed.

"Hey, the host has been poisoned and started detoxification!"

At the moment, he swallowed the detoxification agent contained in his mouth.

The Poison Po was also a non-fatal method, so the detoxification Dan in his mouth was the remedy to relieve paralysis.

But even worse, it was still behind. Ye Xuan's eye was swept away and he found a lot of poison on the stone wall.

Poisonous cockroaches, poisonous snakes, poisonous cockroaches, all kinds of poisonous insects came over him.

"Kid, hand over the emperor and the ring!"

The master who got the poison king passed down coldly.

Ye Xuan's face is gloomy. He actually wants to run, but the retreat is already covered by those poisonous insects, and he can't fly and shrink into the air. How can he escape?

At this time, the poison on his body has actually been resolved, but he pretended to be paralyzed.

He looked at each other and said coldly: "Hello, do you think I am afraid of these poisonous insects?"

"Oh, I don't know how to live and die, bite him!"

The poisonous king's inheritor snorted and immediately let a poison at the foot of Ye Xuan climb onto Ye Xuan's body and then bite.

This mouth does not hurt, but this poison is a hundred pains. If you bite a bite, it will hurt your heart.

After Ye Xuan was bitten by this bite, he immediately felt great pain, but it didn't take long for the pain to disappear and disappeared by the blood of the **** of life.

"Hello, let's make it even better."

Ye Xuanyi opened his mouth and smiled, holding the imperial order in his hand.

"How can it be okay?"

The poison king inheritor was shocked.

At this time, around Ye Xuan, there are more than ten different kinds of poisonous insects, the total number is up to thousands.

In addition, the only one exit channel has been blocked by his poison, a slow passage, so Ye Xuan is difficult to fly.

The poison king inheritor was slightly surprised, and then showed a smile of playfulness, saying: "If you want to play, then I will accompany you."

Now, he controls a poisonous poison and bites Ye Xuan.

After Ye Xuan was bitten, the whole person was dizzy, but the effect lasted only one second, which was solved by the blood of the **** of life.

"How is this kid so weird?"

The poison king inheritor has some helplessness, and let a poison go to bite Ye Xuan.

However, the effect lasted only a second or two, and then Ye Xuan was alive and kicking, as if nothing had happened.

"My anti-toxicity is getting stronger..."

Ye Xuan eyes a glimpse.

In fact, he has a way to escape the cave, that is to sacrifice the dragon gold armor. The dragon-shaped gold armor can wrap him in the air, and these poisons cannot be drilled in.

At the same time, as long as the dragon-shaped gold armor is sacrificed, this person will inevitably be shackled under the sword.

"Dragon-grained gold armor involves too much. If it is recognized, it may be severely killed. If it is lighter, it may lose its qualifications. Do not use it easily."

Ye Xuan thought in his heart.

After all, he killed the city of Tianfeng City, which has both official positions and titles.

If it is recognized, then he will be charged with the crime of killing the officials of the Sun Dynasty.

Although he has evidence in the swallowing space, the background of the ghost teaching is the seven emperors. If the evidence is not recognized, then he is tragedy.

After all, the evidence was obtained from the deputy city owner of Tianfeng City, and the deputy city owner was dead, and there was no evidence of death. The evidence is likely to be said to be fabricated.

"Kid, how do you immunize these toxins?"

At this time, the poison king inheritor could not help but ask.

He was given the poison king, and the poisoned people were most afraid of those detoxification masters. Ye Xuan didn't move at all in front of his eyes, but he was able to detoxify himself. This physique made him very curious.

"When I am bitten by all the poisonous insects, I will tell you again." Ye Xuan opened his mouth and smiled.

"Oh, as you wish!"

The poison king inheritor is cold.

But how can he know that Ye Xuan has the blood of the **** of life, can quickly detoxify?

After a few seconds, all types of poisonous insects left a mark on Ye Xuan, and Ye Xuan was already immune to all the poisonous insects present.

In order to be on the safe side, he deliberately swept his eyes with insight, and found that there was no omission, and no exception was immune.

"Kid, how did you do it?" asked the poison king's inheritor.

Ye Xuan clenched the sword and smiled: "It's very simple, because I don't invade!"

"call out!"

The voice has not yet fallen, he is directly shot.

The poison king inheritor has been wary, naturally it is impossible to be hit, at the same time, he is also controlling those poisonous insects to attack Ye Xuan.

However, Ye Xuan has already immunized the toxins of these poisonous insects. These poisonous insects have no threat to him.

"Now, I see what else you have to get a hand!"

Chapter 776: Self-respect

Ye Xuan's face is cold and cold. He uses his own characteristics that he does not know that he has the blood of the **** of life, and has improved his anti-toxicity.

The disadvantages have suddenly become flat!

"Damn, this kid is not afraid of toxins now!" The poisonous king's inheritor screamed.

"Boom!" "Boom!" "Boom!"

Ye Xuan was able to withstand the bites of those poisonous insects while fighting the poisonous king's inheritors. The strength of the two men was not much different. The movement in the entire cave was very loud and loud.

"Kid, look at the trick!"

The poison king inheritor suddenly took out a bag of poison powder and prepared to throw it to Ye Xuan.

"Poisonous powder dares to come out and dazzle, find death!"

Ye Xuan's eyes are bright, but this is his chance.

"Gravity space, wind space!"

The poison king inheritor has not thrown the poison powder, and two forces have put pressure on the poison powder package.

"Hey!"

In a muffled sound, the toxic powder packet burst open and the poisonous powder filled.

"Hey!"

These poison powders fell on the body of the poison king, and together with the clothes, instantly melted his arm.

"what....."

This poison king inheritor will not think that Ye Xuan actually has this hand.

After all, the righteousness has no effect on the people who have more than 50% of the seal, let alone the eight and a half of his body.

However, the righteousness is useless to people, but it is still useful for things.

At the moment, Ye Xuan is using double space to control this pack of poison powder, enveloping the poison king inheritor.

The screams of the poisonous king's inheritor echoed in the cave. At this time, he had already discarded the long sword in his hand, and the pain was shaking in madness.

"call out!"

"call out!"

At this moment, Ye Xuan quickly took out two swords. One sword broke the arm of the opponent wearing two Qiankun Rings, and one sword smashed on the opponent's imperial order.

"Hey!"

The poison king inheritor directly turned to a stream of light to fly out of the secret, immediately, immediately have a master to assist in treatment.

Lian Yexuan himself did not think that this battle ended so quickly, there is no way, who will let the other party die?

"I don't want to die, and I don't mean it. If it's dead, it shouldn't matter to me..."

Ye Xuan heart trembled, after all, he still sent the other side out of the secret, it is saved the other party's life, otherwise, the other party may be directly turned into a pool of blood.

At the moment, he quickly rushed to pick up two shackles to prevent the other party from dying, and then he was suddenly sent out of the secret.

Although I did not get the other side's dragon transport, but I got the inheritance of the Chinese products, this harvest has been very good.

"Hey, the host breaks through, and the current Emperor will seal up to 70%!"

Ye Xuan directly swallowed the good things inside, breaking through the realm.

Then he waited quietly for a while and found that nothing happened.

It seems that the other party should have survived or died, but is considered to be self-sufficient.

"Huh!"

Ye Xuan breathed a sigh of relief.

His dragon luck is not too small. It is a pity to be cleared. The most important thing is that if it is eliminated, the remaining two days will be wasted.

Since he was not eliminated, he also quickly found a corner to sit down, and then learned the skills of the poisonous king in the poison king.

At this point, he has gathered the poisonous insects in the only way. If someone comes in, the poisonous insects will instantly rush out and poison them.

"I didn't have a danger, but I also have to thank the poison-pod's detoxification Dan. This poisonous king inheritance is of no use to me. After the end of the dispute, give it to her..."

Ye Xuan thought in his heart.

When he was stabbed by a poisonous scorpion, he could actually sacrifice the dragon-shaped gold armor directly. However, the detoxification of the poisonous woman was to resolve the crisis of his secret exposure, so thank you.

Anyway, the vast majority of this poison king inheritance is the refining of poisons, poisonous arrays, etc., Ye Xuan has been copied into the phagocytic system, good things have been swallowed up by him, so it does not matter.

"It's a pity that if a double poisoning pill is used for special devouring, my realm may still break through once or twice!"

Ye Xuan is slightly helpless.

After the other party's body was 80%, and after getting the double poisoned heart attack, it broke through to the seal of 85%. If the medicinal medicine was given to Ye Xuan, it would make a big profit.

Subsequently, Ye Xuan left the cave directly.

Although he had the most gains in this trip, he had already found the top grade, so he had to hurry.

At the moment, he just looked at a nearby stone monument.

"The Seven Emperors are the first, the Six Emperors are the second, the Four Emperors are the third, and the Great Emperor is the fourth?"

Ye Xuan learned about the ranking.

It seems that the person who received the inheritance of the top grade should be the master of the seven emperors.

At the same time, the master who was killed by the poisonous woman was also the prince of the Seven Emperors. That is to say, only seven people participated in the second round of the Seven Emperors.

"No matter what, anyway, this is the first round. Continue to find the inheritance!"

Ye Xuan's figure flashed and left the place.

The value of the inheritance of the Chinese products is very high, and even the double poisoning and attacking pills have appeared, so the other Chinese products may be passed away.

Even the inheritance of Chinese products is like this, not to mention the value of the inheritance of the top grades. Ye Xuan estimates that when the dispute of Longyun is over, there may be many masters of 90% of the seals, even 90% of the seals.

Therefore, he can't drop too much.

One day, it soon passed. In this day, Ye Xuan found more than a dozen products, but never seen a Chinese heritage.

At this point, the time of the Dragon Battle has passed more than half of the time, about one day left.

"It's almost two days. It's estimated that there are at most 50 people in the rest. They are all masters!"

Ye Xuan is still wandering in the forest, and he is still the realm of the 70% of the body. No way, who makes his breakthrough is too difficult.

at this time.

"The second top grade was discovered!"

Suddenly a voice fell into Ye Xuan's ear, making him tremble.

The second top grade inheritance!

"Two days of two top grades, the chance is not low, it is estimated that the top grade in the entire secret is not more than five!"

Ye Xuan's eyes glimpsed, and he thought that he was close to the ranking stone, and immediately looked at it.

Today, the four emperors' dragons climbed to the top, the second was the seven emperors, the third was the six emperors, and the fourth was the great emperor.

"Pit, the sixth emperor is third!"

Ye Xuan was slightly helpless. He represented the six emperors, but did not expect to be ranked third.

However, he feels that the big prince is a bit strange. Because the great prince's team is very strong, the realm of the ten people is all over 80% of the body. When entering the secret, there is a master of 90% of the seal, but the ranking is actually bottom. It can only be said that the ten people of the Great Emperor team are very bad luck.

Except for these four people, the rest of the emperors did not enter Ye Xuan's eyes.

Chapter 777: Narrow road

"I have to hurry. If I can find a top-grade inheritance, Long Yun may be able to return the Six Emperors to the first!"

Ye Xuan quickly set off.

However, he hasn't run a few steps yet, and there is a figure that has caught his eye.

"this person....."

Ye Xuan glimmered, he found this figure somewhat familiar, he thought about it carefully.

"Is it Xia Yunyi?"

Ye Xuan brows up, Xia Yunyi, but the old man who used him as a drowning dog that day.

"It's really a narrow road!"

At this time, Ye Xuan's heart was shocked and happy, because before his strength was insufficient, he could only be chased by Xia Yunyi as a dog.

Today, however, he has the strength to fight back.

Xia Yunyi flew in the forest. Ye Xuan saw that his speed was not fast. It was not much faster than the poison king inheritor of the day. It seems that his luck is not good and he did not get any good inheritance.

"Kill you, I will be cleaned up and transported out, and this time, I will take back some interest for the time being!"

Ye Xuan is ready to take the shot.

But the next moment, he felt a little strange, because this summer cloud is running wildly in one direction, it seems very urgent.

This made Ye Xuan confused, so he decided to follow up for a while to see what Xia Yunyi wanted to do.

Xia Yunyi's speed is very fast, Ye Xuan follows him, while he wants to follow, while ensuring that he is not discovered by Xia Yunyi.

About half an hour later, Xia Yunyi got out of the forest, and at this time he had a long canyon in front of him.

At the entrance to the canyon, there are already a few figures.

"Well, there are still six people?"

Ye Xuan brows a pick, it seems that this Xia Yunyi has a special contact.

Among the six, one of them, Ye Xuan, is the guardian of the six emperors, Yang Qi.

The remaining five are the masters of the Great Emperor, the Four Emperors, and the Seven Emperors. If you add Ye Xuan, the four emperors are just two people present.

At this time, Ye Xuan suddenly flashed a flash of light.

So many masters, is this the last product that has just been discovered?

"Summer, it turned out to be you!"

A blue middle-aged man shouted that he contacted Xia Yunyi in a special way.

Xia Yunyi ran over and looked at the scattered people around him and said, "Is this a top grade?"

The middle-aged man in blue nodded and whispered: "Yes, this inheritance was discovered by me first, but I tried it once. I am afraid I can't get it alone, so I received some people after I received the Long Yunzhu. come."

The reason why he was not under siege was because he got a Chinese heritage, broke through to the 90% of the seal, and added a lot of dragons. The people present even joined forces and did not have the strength to clear him out.

After seeing Xia Yunyi, the other people were quite gloomy. This blue-haired middle-aged man was so strong that it is even more difficult to add Xia Yunyi.

At this time, suddenly, one person came out of the forest.

"Oh, there is another one."

Through the figure of Xia Yunyi, the middle-aged man in blue found Ye Xuan who was slowly coming out of the forest.

Xia Yunyi turned around and found that the only one who was a 70% kid was not paying attention.

He wouldn't associate Ye Xuan with those who killed his grandson on the same day. After all, that person's body was only four and a half years old, and there was too much difference.

Yang Qi, who relied on the edge of the stone wall, saw Ye Xuan, and the dawn was also a flash. After thinking about the strength of Ye Xuan, it was slightly helpless.

"Kid, this is a top-grade heritage, you can't help." Yang Qi said to Ye Xuan.

"Not always!"

Ye Xuan said.

At this time, Yang Qi suddenly swept over and whispered: "Boy, I have gotten a lot of dragons in these two days. I will give you all the dragons. You will directly crush the imperial decree and fix the dragon."

"This....."

Ye Xuan raised his brow and said: "You are not going to fight for this inheritance?"

"Inheritance is indeed important, but Longyun is more important. If the Six Emperors can become Prince, these things are nothing." Yang Qi continued.

He is thinking about the Six Emperors. After all, he is the captain of the Six Emperors.

"That's better to explore this inheritance first. If it doesn't work, just crush the emperor's order and go out." Ye Xuan suggested.

"You also saw that there are only a few people in the body of the nine seals, and the worst ones are eighty-five percent of the seals. Can you help me with this body?"

Yang Qi is very suspicious, although he heard that Ye Xuan has successfully challenged the third level, but his challenge to succeed is only 70% of the seal.

"Ha ha."

Ye Xuan smiled and turned to look at Xia Yunyi, whispered: "If the opponent is the old guy, I am sure to kill him!"

what?

Yang Qi suspected that he had got it wrong.

Ye Xuan, is sure to kill Xia Yunyi, who is 80% of the seal?

"Okay, if that's the case, then you will be with me."

Yang Qi nodded immediately. If something happened on the way, he would directly break Ye Xuan's imperial order and send Ye Xuan out, so as to prevent the emperor from being taken away, and then the dragon transport was absorbed.

Then, Yang Qi walked with Ye Xuan, and the other two forces also came together.

"Captain Yang, are you going to take him?" the blue-haired middle-aged man asked.

"This does not require you to worry about." Yang Qi did not have more nonsense, Ye Xuan at this time, is his one card.

Everyone heard the words, and my heart was cold.

However, Ye Xuan, who has only 70% of the body, has survived to this day. It is already a miracle. However, I still want to explore this heritage. I am really looking for death.

Yang Qi's strength is not dare to be underestimated, but with a burden, it makes people think about it.

"It is estimated that there is a lot of dragons on this kid. Yang Qi has already transported the dragon to him and sent it directly to the secret if necessary."

Everyone reacted. In their eyes, Ye Xuan is equivalent to a transporter.

"We have two forces in the Quartet. If so, you can say that this is the heritage."

The old man in black under the command of a great emperor looked at the middle-aged man in blue.

The middle-aged man in blue was the first to arrive here. The dragon column at the entrance to the canyon was also absorbed by him. At the same time, he also went in and explored it once.

Now that the people have arrived, the blue-and-middle-aged people are not concealing. They explained: "When I went in and explored, I was surrounded by many armored cavalry. These armored cavalry will be reorganized after being defeated, so I suspect it is a thousand years. The inheritance of the former General of the Spike."

When the middle-aged man in blue was finished, the people present were shocked.

Generals of the Spike?

"No way?"

Xia Yunyi said subconsciously.

After all, he saw the dragon-shaped gold armor of General Spike, and his grandson died in the hands of the dragon-shaped gold armor.

Chapter 778: The second dragon gold armor

"It's just a suspicion. If you don't believe it, you can go in with me and take a look." The blue-and-middle-aged man said.

"That is a general general of the wolf, how strong is the wolf riding?" the old man in black asked.

"The strength of a single wolf ride is comparable to the 80% of the warriors." The blue middle-aged man replied.

The next moment, everyone was shocked.

"General Spike General is said to have three thousand spikes to ride. If a single wolf ride is so powerful, then we enter into a dead end."

"Yes, even if we are strong, but in the face of 3,000 undead envelopes, there is no way to live, unless it is the supreme power."

"This inheritance, there is no way to get it, can you go directly from the cliff?"

Everyone's face is dignified.

At this time, the blue-and-middle-aged man said again: "No, there is a law at the top of the canyon. Even I can't break it. I can only rely on it. But things are not as difficult as you think. I roughly estimate that there are only three hundred here. The wolf is riding around."

"It's okay to have only three hundred wolves to ride, but the generals of the Generals of the Spike have the long knife deputy. Is there any in this canyon?" asked a young man.

"Yes, but it seems that there are only five, strength I guess reached the 90% of the seal. And, I still see the dragon's dragon gold armor in the depths." Blue middle-aged nodded.

"Dragon pattern gold armor?"

The people were shocked.

This thing, but enough to make these people desperate, after all, they all hope to break through to the seal in the lifetime of 10%, if you have this dragon gold armor, the chance to break through to the supreme is great.

Xia Yunyi is also true, but he is shocked that there is a second set of dragon-shaped gold armor in this world.

"It's hard to be done. The dragon-shaped gold armor that I saw before was imitation, but the defense is strong?" Xia Yunyi thought.

At the same time, Ye Xuan is also guessing in his heart.

"There are also drawings of dragon-shaped gold armor in the Treasure House. As long as there is material, I can create a set of dragon-shaped gold armor. It seems that the set of dragon-shaped gold armor in this product inheritance may be true. "

Ye Xuan thought secretly.

This set of dragon-shaped gold armor is also a must-have, because as long as he has got this set of dragon-shaped gold armor, then he can just dress out in a proper way.

"If this is the case, then don't say more, our four forces, choose a breakthrough point." The old man in black said.

Three hundred are comparable to the 80% of the wolf's teeth, the blue middle-aged people can't break through, but now there are four forces. If they break through at the same time, they will share less than one hundred each.

"Yes, after the breakthrough, the inheritance of General Spikes will be based on the ability." Xia Yunyi nodded.

To be honest, he is also very interested in this dragon gold armor.

However, it depends on who first rushed to the end and got the inheritance.

As long as someone is passed down, he can directly crush the imperial order and fly out of the secret.

Others, nothing, is nothing.

The four forces have chosen a breakthrough point, Ye Xuan and Yang Qi are on the far right. Coincidentally, Xia Yunyi is on his left hand side, adjacent to him.

"The three hundred wolf teeth riders and the five long knife vices should be masters of the royal family. It seems that the last dragon gold armor may also move..."

Ye Xuan gave himself a wake up.

"Boom!"

At this moment, there was a loud noise on the left side, and someone directly shot at the front of the dense wolf teeth.

"We are also on!"

Yang Qi, next to Ye Xuan, sipped a sentence and rushed over.

It is comparable to the 80% of the wolf's teeth, and the number has reached three hundred. If only Ye Xuan is one, it is extremely difficult to rush to the past unless you wear a dragon gold armor.

However, if you join forces with Yang Qi, there will be no problems.

Ye Xuan holds the sword and follows the back of Yang Qi.

Yang Qi is the master of the 90% of the seal, the strength is strong, he also holds the imperial order in his hand, and occasionally uses the dragon transport blessing, each sword can fly two or three wolf teeth.

Although Ye Xuan is almost the same, it is not a problem to fly a wolf in a sword.

At this time, he used the eye of insight to copy all the martial arts of Yang Qi and others into the phagocytic system.

"Captain Yang, go to the right, there is less."

Ye Xuan suddenly reminded him that this was discovered by his eye.

Only someone has made a breakthrough first. In fact, there is not much advantage. If you break through first, there will be more wolf teeth riding in the past.

In this way, it is cheaper Ye Xuan and Yang Qi.

"it is good!"

Yang Qi temporarily believes that Ye Xuan, plunging to the right, countless wolf teeth to catch up, but was shot by two people one by one.

The defense of the spikes is very strong. Even if they are forcibly dismantled, under the control of the royal masters, they will quickly reorganize and continue to join the battle.

If you compare the progress of the four forces at this time, the seven emperors of Xia Yunyi are the fastest, because they do not hesitate to use the dragon.

Followed by Yang Qi and Ye Xuan, followed by the black princes and young people of the Great Emperor, and finally the twin middle-aged people of the Four Emperors.

Because there were a lot of spikes in the middle, the parties did not understand the progress of others, but Ye Xuan found this with his insightful eyes.

"The two of the seven emperors are using the dragon luck and they are going to rush out!"

Ye Xuan reminded me.

"what?"

Yang Qi was shocked. The next moment, his breath was also skyrocketing.

This time, fight!

Wherein it is the ones of the two long-selling halo singers, which are more than the two long ji seri.

Just as Yang Qi began to bless a lot of dragons, Xia Yunyi and the blue-shirted middle-aged people had already rushed out of the encirclement. At this time, in front of them, they were the five long-knife deputies.

Behind the five long-knife vices, there is a mouth-watering dragon-shaped gold armor. At the same time, there is a dragon ring on a table next to the dragon-shaped gold armor.

"come on!"

The middle-aged man in blue clothes shouted, and the breath suddenly doubled up. He wanted to use his own strength to force the five great emperors who would seal the body.

At the same time, Xia Yunyi also blessed the Longyun, followed by the middle-aged person in the blue suit.

When the disposed middle-aged man in the blue suit governments entered the scope of the long knife deputy, the five long-knife vices also directly killed the past.

And that Xia Yunyi, but no one blocked it.

At the same time, Yang Qi has already been killed from it, and Ye Xuan follows closely.

"Don't think about the past!"

Yang Qi directly consumed a lot of dragons and was ready to intercept him before Xia Yunyi.

"roll!"

Xia Yunyi did not care so much, turned and shot on it. Although he and Yang Qi are in a different realm, he is the first step, so Yang Qi did not intercept him.

"The dragon gold armor is really controlled!"

Chapter 779: Gain inheritance

"The dragon gold armor is really controlled!"

Ye Xuan's eyes were condensed. He used the insightful eye to discover that there was a strange energy inside the dragon-shaped gold armor, so he first helped to deal with Xia Yunyi.

"Damn!"

Xia Yun screamed with anger, resisting hard, and struggling to rush to the dragon gold armor.

At the same time, the other two forces also broke through the siege of the Langya ride and killed it.

"stop!"

The old man in black under the great emperor shouted.

At this point, Xia Yunyi has already plucked into the front of the dragon-shaped gold armor. Just as he reached out and prepared to accept the sacred ring, the statue of the dragon-shaped gold armor suddenly moved.

"Hey!"

The dragon-shaped gold armor slammed out and slammed it on the shoulder of Xia Yunyi and flew it.

The power of this boxing is huge, and the strength of the force directly penetrates Xia Yunyi's bones. If it is in the chest, Xia Yunyi will probably die in an instant.

Fortunately, this dragon gold armor is controlled by the royal master, so it will not kill.

"what?"

Xia Yunyi himself was stunned, and when he saw that things were coming, he found such a thing, it was a tragedy.

Not only was he shocked, but even other people.

Only one punch was made, and none of the people present could stop it.

The seal is ten!

This dragon-shaped gold armor is comparable to the 10% master of the seal!

"Damn, it's a big loss!"

The middle-aged man in blue has already given the person who set the level a thousand times. He did not hesitate to use the dragon to block the five long-knife vices, but he did not expect that he turned out to be a white mouse.

"Haha, you are finished!"

The old man in black robes laughed and suddenly rushed toward the middle-aged blue man, as did the young man with him.

In the face of the five-year-old long-knife deputy, the blue-and-middle-aged man has had tremendous pressure. Now, with these two people, he has no way to resist it.

"Hey!"

The middle-aged man in blue directly smashed his imperial order and turned into a streamer to leave the secret.

"Origin!"

The black robe old man's face sank and the other party left, so the closest person to the long knife deputy was the two of them.

Sure enough, when the middle-aged man in the blue costume disappeared, the long knife deputy would just turn around and look at him, and then they would kill the past.

The black robe old man is not willing to inherit this superior, so he immediately turned around and shouted: "Resolve them together, and then discuss the distribution method!"

After listening to the twin middle-aged people, they also looked at Yang Qi.

"it is good!"

Yang Qi saw that the dragon-shaped gold armor was only guarding the table, and did not attack other people. He immediately replied.

However, before this, I still have to solve Xia Yunyi.

Xia Yunyi was beaten by a dragon-shaped gold armor. Just now, he had just stabilized his body shape and a figure was swept to his side.

"Old guy, first collect interest!"

When Xia Yunyi didn't have much defensive ability, Ye Xuan took out his sword and slammed his arm directly.

"Oh!"

One arm was thrown up, and Ye Xuan quickly took off the ring.

Although Xia Yunyi failed to break through the 90% of the seal, he also found a lot of inheritance. There are many things in this ring, and the strength of Ye Xuan has soared.

"Old guy, try this trick!"

At this time, Ye Xuan suddenly shot a palm, this palm is the great sorrow that the only talented Xia Yunyi used, but also the one that hit Ye Xuan seriously injured that day.

"what?"

Xia Yunyi was shocked. This trick is his stunt, and how can Ye Xuan?

"boom!"

Xia Yunyi got his body and flew again. This time, he flew directly to the range of the wolf.

The range of activities of the Spike is leisurely. Here are the range of five long-knife vices, so they can't get in, but now they can shoot.

"Hey!"

Still not waiting for Xia Yunyi to land, there is a wolf tooth to stab a knife, stabbing the emperor's order on the chest of Xia Yunyi.

At the moment, he is turned into a stream of light and disappears without a trace.

"Okay, we quickly solve these five long knife vices!" The old man in black robe shouted.

"Row!"

The brother of the twin middle-aged also agreed.

One person, still not a problem.

At the moment, all five people are using Longyun Qiankun, and it is necessary to quickly solve the five long knife vices.

If it is normal, the twin middle-aged and young people can't actually deal with it, but they have gotten a lot of dragons, enough to kill the five long-knife vices.

"My strength can't be exposed too much, and then burst out when I grab the ring later!"

Ye Xuan thought while attacking the long knife vice.

If it is better than Longyun, then his dragon luck is actually the highest of the six.

Don't forget, other people are using Longyun now. Who will put his cover in the eyes?

In the most powerful Yang Qi, the first to defeat a long knife deputy, however, he did not go to help.

"Kid, I will try my best to hold the dragon gold armor later, and you will quickly take the ring!"

Yang Qi whispered to Ye Xuan.

Ye Xuan stunned and nodded immediately.

Xia Yunyi, who only took the Qiankun Ring, only had a body seal of 80%, and Yang Qi's strength was much better than that of him. Together with the Longyun blessing, blocking a punch should not be a problem.

In the meantime, Yang Qi is rushing away with the leaf-shaped golden armor of Ye Xuan.

"You are not trustworthy!"

The old man in the black robe saw it and immediately rushed.

Say good to solve the five dragon-shaped gold armor first, but Yang Qi and the two suddenly turned awkward, this can only say that they are too naive.

In the face of such a heritage, credit can be thrown.

"Snapped!"

Yang Qi has already entered the scope of the dragon-shaped gold armor. In the meantime, the dragon-shaped gold armor is rushing toward him and punching out at the same time.

"boom!"

Yang Qi directly consumed all the remaining dragons and took the punch.

The strength of this dragon-shaped gold armor is comparable to that of the human body. However, Yang Qi only has two levels of it plus the dragon's blessing. Blocking a punch is not a problem.

When Yang Qi took advantage of this punch, Ye Xuan had already crossed them and took the ring.

The table where the Qiankun ring is placed has a method, and Ye Xuan's righteousness is useless, and can only be grasped by hand.

"Damn!"

Others looked at Ye Xuan and caught the Qiang Kun ring in their hands. Their hearts were already open.

Ye Xuan did not expect that he would be able to pass on the Qiang Kun ring so easily. He wanted to explode once. He did not expect that things suddenly changed.

At the moment when Qiankun reached the hand, he quickly probed and found that there were not many things inside.

Wan Nian Shen, he has.

He also had a method of forging the wolf, the vice-knife, and the dragon-shaped gold armor.

This Qiankun ring is not useful to him at all.

At the moment he got the Qiankun Ring, the dragon-shaped gold armor was also in a stiff shape, and Yang Qi's light flashed, and the dragon-shaped gold armor was directly received from the ring.

Chapter 780: The third set of dragon gold armor

When Yang Qi took down the dragon-shaped gold armor, the other side also quickly solved the two long-knife vices.

In desperation, Yang Qi shouted: "Go, go out of the secret!"

When he finished, he smashed his own imperial order, and Ye Xuan hesitated and smashed it.

The two successively turned into a streamer and flew out of the secret.

In a blink of an eye, they appeared in the place where they entered the secret before.

At this point, there are already a lot of people gathered here.

"Okay, great!"

The six emperors applauded and walked out of the hall.

The cooperation between Ye Xuan and Yang Qi was only perfect. Afterwards, it was the inheritance of the General of the Spike and the Dragon Gold. This is really good.

"His Royal Highness!"

After Yang Qi left, he immediately saluted.

"It's free."

Six emperors said with a smile.

Although Yang Qi and Ye Xuan consumed a lot of dragons in order to get this inheritance, the seven emperors, the four emperors and the big emperor also consumed a lot of dragons.

Among them, the seven emperors lost the most, at this time he was so angry that he was gnashing his teeth in the corner.

"His Royal Highness, this is the Dragon Gold Armor!"

Yang Qi hurriedly took out the dragon-shaped gold armor that he had just received.

The next moment, the audience is awkward.

Dragon Guardian's defensive power is amazing, and it can withstand the power of 20% of the thunder, which has a huge temptation for them.

We must know that some of these ministers have already reached the top ten of the seals, but they can only suppress the realm and dare not break through, because once the breakthrough fails, they will be smashed by the supreme thunder.

Ye Xuan was slightly helpless, but also took out the singularity of the singularity, handed over the past, said: "His Royal Highness, this is the inheritance of the generals of the fangs!"

Unexpectedly, the six emperors ignored the dragon-shaped gold armor and directly took over the leaves of Ye Xuan.

"The forged drawings of the Spike, the long knife, and the dragon gold armor, well, with them, I can build a strong army."

The six emperors are overjoyed.

He understands that the highest value in the secret is the inheritance of this general.

"Oh, unfortunately, not only did Mao get it, but also wasted the last day." Ye Xuan sighed in his heart.

He does have a lot of thoughts, but the three hundred wolf teeth riders and five long knife vices will be controlled by the royal master, he can not grab control.

At the time, several other people seemed to be defeating the long knife deputy. If he continued to stay, he would probably be besieged, so he could only follow Yang Qi.

However, it is at this time.

"Ye Xuan, this time you made a great contribution, this dragon-shaped gold armor will give you." The six emperors suddenly said.

what?

Hearing this, Ye Xuan doubted his own ears. He thought that the Six Emperors would definitely accept the Dragon Gold, but who knows, even gave him directly?

"His Royal Highness, you are..." Ye Xuan asked a little blankly.

The next moment, he just understood why the Six Emperors did not want to, because the Six Emperors themselves had a dragon-shaped gold armor.

After seeing the six emperors wrapped in dragon gold armor, the audience was shocked.

"With?"

Ye Xuan brows a pick, but wants to come, too, the six emperors are the son of the Emperor of the Sun Dynasty, and the character is correct, loved by the Emperor of the Sun Dynasty, and it is nothing to get a dragon gold armor.

At this point, in the corner.

"What, he actually has a dragon gold armor?"

The seven emperors widened their eyes. He also knew that the six emperors had dragon-shaped gold armor. If the six emperors did not show up, he was still in the dark.

"The **** old man is so eccentric."

The seven emperors roar in their hearts, not only that, but also the four emperors and so on. Suddenly, the eyes gathered on the six emperors, envious, awkward, and hateful.

"Haha, Ye Xuan, take it."

The six emperors took the dragon-grained gold armor and laughed.

Now, as long as there is material, he can create a dragon-shaped gold armor, and Yang Qi will have it.

The most important thing is that the six emperors look at Ye Xuan is very unusual, I want to use this set of dragon-shaped gold armor to set up Ye Xuan.

"Thank you, Your Royal Highness!"

Ye Xuan hurriedly collected the dragon gold armor.

Now, he can finally wear the dragon-shaped gold armor justifiably. As for the extra set of dragon-shaped gold armor, he can leave it to others.

"You two will go back to rest first," said the Six Emperors.

"Yes!"

Ye Xuan and Yang Qi respected and held the boxing, and even after being led by an eunuch, they left the Imperial City.

After Ye Xuan returned to the Six Emperors, he directly found the Poison, and then passed on the poison king to her.

There are still two links, and they have to work together.

One day after the battle of Longyun, Ye Xuan returned to his place of residence.

When he entered the secret world, he only had 60% of his body. When he left, he had already reached 70%, and he was about to break through.

He felt that no one could stop him if he tried this prince.

"After the battle of Longyun, there will be a few days of rest. At that time, the Six Emperors may give some rewards, so that I can directly break through to 75%."

Ye Xuan thought in his room.

In fact, he still has a way to go, that is, directly devour the dragon gold armor.

However, the dragon gold armor is very precious to others, and it is only a material for the phagocytic system.

If you devour it directly, you don't have much experience. It is enough to break through the estimate. So Ye Xuan first keeps the dragon-grained gold armor. If the next link is necessary, it will be swallowed up.

After all, he also has the forged drawings of the dragon-shaped gold armor. As long as there is material, he can build it himself. First improve the strength, help the six emperors to win the Prince's trial and then say.

Soon, the day passed.

The battle for the dragon has finally come to an end.

The six emperors returned to the mansion and immediately recruited Ye Xuan and others.

"The dispute over the Longyun, we are temporarily ranked third, the first is the seven emperors, the second emperor, the fourth is the four emperors."

The six emperors directly reported the rankings and said: "Yes, our team has not broken, and there is still a big improvement."

When he finished, he focused his attention on Ye Xuan.

Ye Xuan, who has the dragon-shaped gold armor, is probably the strongest of these people. After all, he plundered the most dragons, more than Yang Qifeng.

Others may not know, just looking at the eyes with envy, but the six emperors have witnessed Ye Xuan defeated the poisonous king inheritor of the Six Emperors, which is the master of the 80% of the seal.

The battle for the Longyun, the solitary sword, the vulture, the Zhuo general and the captain of the pro-guard, Yang Qi, all successfully broke through to the seal of 90%. Although the poisoned woman was worse, she also got the inheritance of the poison king, and the six emperors promised. Next she will be promoted to 8:30 of the envelope.

As for the other four people, Cao Bao broke through to the seal of 85% and the other three did not gain much.
