Chapter 781: Eye of the illusion

"These are the materials of the other three members of the emperor, you see."

After the six emperors lost ten copies of the information to Ye Xuan, they continued: "In the team of the Dragon Battle, our team is estimated to be ranked third. In the ranks of the Great Emperor and the Seven Emperors, I am afraid. There are 90% of the seals. After the dispute of the Longyun, some of them have been upgraded to 95% of the seals, and even there are suspected top ten."

After listening to it, Ye Xuan was also shocked.

Suspected seal 10% of the master?

"Who is it?" asked Zhuo.

"A black robe woman, I have never heard of it. I don't know where he came from, but she also won the top-grade inheritance of Tianquan."

The six emperors shook their heads: "Not only that, but there is also one of the big emperors, and also won a top grade inheritance."

When everyone heard it, they suddenly felt tremendous pressure.

The seven emperors and the great emperor have such powerful masters, then they are in trouble.

"The opponent who tried the second level of the Prince was..."

Zhuo also asked.

"We are the first game, for the nine emperors." Six emperors replied.

The second part of the Prince's trial is a two-two battle.

In the first session, there were a total of seventeen teams. After the end of the dispute, the last five teams were eliminated, so there were still twelve.

Subsequently, the twelve teams played against each other in two pairs, and the winners could plunder each other's dragons.

"call."

After everyone heard the answer, they were relieved. The strength of the team of the Nine Emperors was not strong, and solving them was not a problem.

"You have been fortunate in the battle of Longyun, and I will not treat you badly. These ten Qiang Kun Rings are distributed according to everyone's Dragon Transportation."

When the six emperors finished, they threw out the ring.

However, what shocked everyone is that it is not Yang Qi's four seals, but Ye Xuan, who won the first stop.

Then, it was the vulture, the solitary sword, and the Yang Qi.

Because the poisoned woman accidentally killed a person, the dragon was cleared, but the six emperors also gave her a lot of things.

At the moment when Ye Xuan received the Qiankun Ring, the whole person trembled. There was not only a lot of heaven and earth treasures, but also something he was eager to get.

Illusion fruit!

"The magical fruit can open my eyes of the ban."

Ye Xuan's eyes widened.

The eye of the illusion is equivalent to a momentary illusion that allows the opponent to fall directly into the illusion.

"Hey, the host opens the eyes of the ban!"

The system prompts to sound.

Now, Ye Xuan has opened two eyes, a hole in insight, an eye of the ban.

Although the realm has not improved, his strength has improved.

And, as long as he thinks, he can break through at any time.

"Well, the second part of the trial of the Prince is after three days, let's go to rest!" The six emperors finished, but also left directly.

Ye Xuan is not nonsense, leaving directly.

But this time, he did not return to his room, but borrowed a wild bird from the kitchen of the Six Emperors.

Then he showed the eyes of the ecstasy against the pheasant.

"Hey..."

Everything that the pheasant saw in front of him changed, hitting the wall directly, and continually fluttering his wings, as if he had seen something terrible.

"The eyes of the ban are really good. Those who are not strong in their minds are easily confused. When I want to kill the enemy, it is easy!"

Ye Xuan's mouth was slightly tilted, and he was very much looking forward to the battle in three days.

"Hey, the host breaks, the current Emperor will seal up to 75%!"

.....

Three days, it will soon pass.

Three days later, the six emperors returned to the palace with Ye Xuan ten people. The venue of this competition is still in the secret.

When Ye Xuan entered the secret environment, he saw a huge downfall, and the audience in the audience near the platform was already a number of ministers of the Sun Dynasty.

Before the arrival of Ye Xuan, other princes have already come a lot.

Six emperors took Ye Xuan to sit in the audience and waited quietly.

Not long after, there were ten more figures at the entrance to the secret, which was the team of the seven emperors.

The team of the Seven Emperors was killed by a poisoned woman, so only nine people remained.

However, several of them were all wearing black robes, mysterious and mysterious.

"These are certain people who are taught by the ghost!"

Ye Xuan's heart guessed.

If Ye Xuan now has the eye of perception, it is estimated that the realm of the other party can be clearly sensed.

Unfortunately, the eye of perception has not yet been opened.

Not long after, the team of the great princes came, and there were several strong breaths in their ranks, but because they were all mixed together, it was impossible to determine who it was.

Ye Xuan waited for a while. Finally, all the 17 emperors arrived, but many of the 17 emperors were also damaged. There were only one hundred and fifty people left in the 170s.

At the same time, only twelve emperors advanced to the second round.

At this time, Wu Gonggong also suddenly plunged into the ring.

"Now, please let the twelve emperors come to power!" Wu Gonggong's voice sounded, and then the six emperors flew over.

In the second round of the trial of the Prince, each prince will choose five people to play, and the order of the battle can be decided by each prince.

The winner will receive half of the loser's luck.

There is also a ranking stone monument on the edge of the ring, and the ranking of the stone monument will be updated in real time.

Because they did not know the order of the other party's play, the Six Emperors were also before the arrival, let Ye Xuan ten people draw.

Ye Xuan draws the number six, so it is the sixth game.

Wu Gonggong now called the twelve emperors to the past and distributed the number plates.

Not long after, the six emperors came back, and secretly sent the number plate to Ye Xuan.

"Well, then the first game, the six emperors on the nine emperors, the two sides on the 1st!" Wu Gonggong shouted.

Once Wu Gonggong read the number, he could not change the order of appearance.

The No. 1 of the Six Emperors is a poisonous woman. The poisoned woman did not have a long-term luck because she had accidentally killed one person before, and her opponent was a warrior with 70% of her body.

The seal is eight and a half, and the seal is 70%, which is different from the three grades, so there is no suspense in this game.

The poisoned woman does not have a dragon transport, and the other party has it, so this poisonous woman is earned.

If she wins, she can get half of the opponent's luck. If she loses, she will not lose anything.

However, the other side wants to win, it is simply a fantasy.

After the poisoned woman came to power, she threw the emperor's order to Wu Gonggong.

"Intentional murderer, Longyun is cleared, start!"

Wu Gonggong received two imperial orders, loud.

This battle, indeed, no suspense, the other party was directly photographed by the poisoned woman.

It is a pity that the other side's dragon luck is not much, but it is better than nothing.

This Prince's trial of the second round, in fact, luck is also very important.

Chapter 782: Ye Xuan played

If Yang Qi encounters a long-term luck, then he earns it. If he encounters a little dragon, it will be overkill.

Therefore, the six emperors and the nine emperors are observing the expression of the other camp.

Nine emperors did not want to compete for the position of the Prince. All he wanted was a dragon. They practiced special exercises from an early age. They can store the dragons in the body and use them directly when necessary. The most important thing is that Longyun can also be used. Resist the robbing.

In the second battle, the six emperors sent a master of 70% of the body, while the other party was a 70% seal, and it was suppressed by the realm and won again.

Nine emperors are ranked tenth among the seventeen emperors. It is very difficult to make up ten seals and 70%. Now they have lost two games and their morale has dropped.

In the third game, the six emperors won!

In the fourth game, the six emperors won!

In the fifth game, the six emperors won!

The master of the nine emperors, Long Yun was deprived half, very tragic.

The sixth game is Ye Xuan.

When Ye Xuan joined, the realm was only 60% of the seal, but now he got the seal of 75%, which is not bad.

His opponent is only 70% of the body.

"Oh, oh, this kid, the sixth day of the temple is to give him the dragon gold armor."

"I also remember, I thought that the Sixth Highness would give the dragon-shaped gold armor to Yang Qi."

"Don't underestimate the strength of this kid. This kid was defeated by the master of the poisonous king on the same day. He seems to be defeated by the 80% of the masters. It is a good seed, and he may be able to achieve the supreme in the future."

"There is a dragon-shaped gold armor, maybe you can."

The ministers are talking in a whisper.

At this time, Ye Xuan directly became the focus. He slowly fell to the ring and looked at his opponent. His own realm is higher than his opponent. This situation is relatively rare for Ye Xuan.

"I surrender!"

The warrior who is 70% of the body seal said directly, anyway, he is not able to beat Ye Xuan, it is better to admit defeat early.

Wu Gonggong heard the words and immediately moved his half dragon to Ye Xuan's imperial order.

The sixth game, win!

The hearts of the nine emperors were all cool, because the next four games, his people all lost.

All of the dragons of the rest of the squadron are cut in half, so the total length of his prince's seal is also reduced by half. It is really miserable.

Ten consecutive victories, this is a very good start, but also the morale of the Ye Xuan ten people.

Next, it is the three emperors to the eleven emperors, this side wins five games, but the three emperors still earned a little luck.

Subsequently, it was the four emperors against the eight emperors.

The team of the four emperors fell one person in the battle of Longyun, so there were only nine people, but the eight emperors were not his opponents at all, and they were directly won nine consecutive victories.

Now, there are already six emperors fighting, and there are still six left.

Under normal circumstances, the older emperor will have an advantage, so the great emperor defeated the five emperors with the result of nine wins and one loss.

The second emperor and the seven emperors are also ten-game winning streak.

As a result, the first round passed, namely the Great Emperor, the Second Emperor, the Three Emperors, the Four Emperors, the Six Emperors and the Seven Emperors.

Only the five emperors had bad luck and met the great emperor.

Ranking has been updated.

"After one round, the Great Emperor turned over and went up, ranking second, the Seven Emperors are still the first, the Six Emperors and the Four Emperors are third and fourth respectively."

The ministers are also unsatisfactory, although some of the battles are conceded, but some people with similar strengths are still very good.

Now, it is the order of the second round of battle.

The order of the battle was drawn by Wu Gonggong.

"In the second round, the Great Emperor was against the Four Emperors, the Second Emperor was against the Six Emperors, and the Three Emperors were against the Seven Emperors."

Wu Gonggong shouted out the order of the game.

After hearing the order of the battle, many people's faces changed, and the most ugly one was the four emperors.

The ranks of the four emperors are ranked at the bottom of the four emperors, and the rank of the great emperor is very strong. It is also a master with a suspected seal of 10%. Although he can admit defeat, the dragon transport is still half to the other party. This time he is afraid Big bleeding.

In the first round of the second round, the Great Emperor was obviously in a disadvantage to the Four Emperors and the Four Emperors, so the order of the field was seen.

"Put away!" "Put away!" "Peace!" "Peace!"

The four emperors looked at the big prince who was light and light, and every time he yelled a 'conceived defeat', his heart trembled once.

Originally, he was also a strong contender for the position of the Prince. But now, it seems that there is no suspense. He only seeks a little luck to resist the looting.

The Great Emperor experienced this round, and even directly surpassed the seven emperors and won the first.

Then, it was the second emperor to the six emperors.

"The second brother has two seals and eight and a half..."

Six emperors thought in their hearts, he hoped that their masters would encounter the two seals of eight and a half, so that they could plunder each other's dragons.

The first battle he sent was Ye Xuan.

At this time, Ye Xuan has jumped to the top of the ring.

And his opponent, turned out to be one of the 80% of the masters of the seal, the second emperor is trying to get a good start, improve morale, lose not too ugly.

"Damn, I actually met him!"

The gray-haired middle-aged man was gloomy, because he heard that Ye Xuan had a set of dragon-shaped gold armor, and he was practicing swordsmanship. He wanted to break the dragon-shaped gold without using the dragon. A defense is hard to climb.

The emperor's order has been thrown to Wu Gonggong. If he wants to win, he can only shoot Ye Xuan out of the ring. If he loses, he will have to give Ye Xuan half of the dragon.

"Do you admit defeat?"

Ye Xuan saw the other party's appearance, and the heart secretly said.

"Get started." Wu Gonggong said.

When the voice fell, the gray-haired middle-aged man was pre-emptive and attacked Ye Xuan.

At the same time, Ye Xuan is also clenching the sword.

"The Quartet is extinct!"

A sniper smashed away and collided with the opponent's attack.

"boom!"

A wave of swells swept open, and the dust on the platform was filled, and the two men's bodies were wrapped in an instant.

However, Ye Xuan, who has an eye for insight, can accurately find the other person's location.

"The Quartet is extinct!"

"The Eye of the Illusion!"

This time, Ye Xuan directly used a hole card.

The middle-aged man in gray clothing knows that his opponent is Ye Xuan. In fact, his heart is also very embarrassing, his will is not strong, and he is directly found by Ye Xuan in the state of mind.

The next moment, he saw a huge figure rising from the smoke.

"what?"

The middle-aged man in gray clothing was shocked. Ye Xuan Ming Ming is a personal class. How can it become a dragon?

He couldn't help but look up and looked at the huge head that had emerged from the smoke, and his heart swayed.

His heart, raised a sense of fear, shocked his hands and feet and did not listen to it.

Chapter 783: Magic array?

However, just as the gray-haired middle-aged man was shocked, a sniper smashed into the air and fell directly on his chest.

"Hey!"

In a crisp sound, the middle-aged man in the gray coat was shot and fell outside the ring.

There was a ban on the ban on the stage, and the middle-aged man in the gray suit was defeated by Ye Xuan, and he was defeated by a joint attack.

When Wu Gonggong, who saw this scene, picked up his brow, he felt that the gray-haired middle-aged man was not right, but he did not ask, and directly announced: "The Six Emperors win!"

He directly ran half of the gray-haired middle-aged man to Ye Xuan, and he was about to return the prince to Ye Xuan.

"What happened, why didn't he stop and hide?"

"It's strange, even if the naked eye is blocked by smoke and dust, with his perception, it should be able to block it."

"The kid is weird, I don't know what to do, let the other person lose sight of it for a moment."

The ministers began to talk about it.

Not only they, but none of the people present can understand what this is all about.

"puff!"

The middle-aged man in the grey coat who was shot down from the ring has returned to normal. He looked at Ye Xuan on the ring and asked: "Fantasy, when did you make the magic array?"

"secret!"

Ye Xuan smiled and walked down the ring.

The eye of this ban is his hole card, but it is a card that can be shown to others. After all, he can use the eyes of the other party to see the other person's eyes and use it silently.

The words of the middle-aged people in gray clothes shocked the people around them.

They are the same as the doubts of middle-aged people in gray clothes. When did Ye Xuan lay the illusion?

Is it when the smoke is rising?

"OK!"

Although the Six Emperors did not see it, he did not pay much attention and applauded.

Now, the strength of Ye Xuan is already convincing others.

The seal is seven and a half, and it has the strength of killing 80% of the seal, so there is also a battle with the seal of 90%.

In the heart of the Six Emperors, he did not look away. He was thinking that if Ye Xuan was trained, it would certainly be a half-step supreme invincible existence, and the probability of achieving supreme in the future is very great.

"Next!"

Wu Gonggong did not talk nonsense and immediately shouted.

Ye Xuan is the first game, the next one, by Yang Qi.

Yang Qi is a master of 90% of the seal, and also has the ability to overcome the challenge, so his opponent directly admit defeat, Yang Qi got half of the other side of the dragon.

There are not many masters under the Second Emperor's Majesty. Soon, this round is over. The Six Emperors ended up with eight wins and two defeats.

In the two games that lost, there were not many lost dragons, so he also made a fortune.

The third round is the three emperors to the seven emperors.

The current team of the Seven Emperors and the Great Emperor have some fights, so the Three Emperors are not their opponents, losing nine games.

In the end, it is still the number one in the seven emperors, the second in the rank of the second emperor, and the third in the third emperor.

"Where did the masters of the Great Emperor and the Seven Emperors team come from?"

Six emperors can't figure it out.

The strongest person he has found is also 8:30, and the big prince and the seven princes have a master who is suspected of being a 10% seal. Even if they each find a top-grade inheritance, the gap is too big. Some.

"Now, my card is Ye Xuan, but Ye Xuan's realm is too low. Even if I have a dragon-shaped gold armor, I am afraid I can only fight 95% of the seal. And, my dragon is the lowest, the seven emperors The strength is not against me, the big prince is even more unfathomable. This time, I am afraid I will be squeezed down."

Although the six emperors are not reconciled, the fact is that.

However, he can spell it.

"The top three have been set, the third part of the Taizi trial will attack the city and will be carried out after seven days!" Wu Gonggong said loudly.

Then, the great emperors led their own team to leave.

Under the leadership of the Six Emperors, Ye Xuan returned to the Six Emperors.

"You, what do you think of the current situation?"

After returning to the mansion, the six emperors asked.

Ye Xuan everyone looked at each other and immediately said that the general manager said: "Excuse me, this time the Prince trial, I am afraid you are..."

"Nothing?"

The six emperors frowned.

Ye Xuan also felt that the Six Emperors wanted to give birth to some difficulties. Before he learned about the third part of the Prince's trial, he found that the third part of the Prince's trial tests both strength and strategy. Of course, luck is also very important.

In the second session of the Prince's trial, only the top three were decided and the third stage was promoted.

The third part of the siege is actually a sandbox game.

In the beginning, it was a three-legged situation. Each side had two levels and a main city, and each prince was to sit in the main city. Because the main city was captured, they would immediately lose.

Now the top three in Longyun are the Seven Emperors, the Great Emperor and the Six Emperors, each with two levels.

Take the six emperors as an example. The two levels of the six emperors are adjacent to each other. At the same time, the other side of the two levels is adjacent to the level of the seven emperors and the emperor.

To put it simply, the two princes of the Six Emperors are fighting against a level of the Seven Emperors and fighting the Grand Emperor.

Six emperors must give orders to two levels at the same time.

The three emperors themselves can only leave the main city and join the battle if they have broken a level or broke a level of the enemy.

Each main city starts with 1,500 troops. This is the initial strength. At the same time, there are some resources in the sandbox game. As long as these resources are occupied, it will increase the strength of 500 troops in an instant.

The last one to stay in the Prince can become a Prince.

As for the Longyun, which competes in the first two links, there are many ways to use it in the third link, such as directly using the dragon transport to exchange troops, and when the level is attacked, you can also consume the dragon control to defend the tower and kill the enemy.

The eighteen Ye Xuan of the Six Emperors have Longyun, then in the third session, the six emperors will get the sum of their ten people, and the dragons of Ye Xuan will not be reduced, they can still be used.

This is the last level of the Prince's trial.

Strength is indeed important, but luck and strategy are also very important. Even a master of 10% of the seals may not be able to dominate a battle.

However, the six emperors in the team, is already weak, the big prince and the seven emperors, he can now rely on, is the dragon transport he saved in his early years of war.

"Well, if you are unsuccessful, you will become a benevolent person. If it is better than Longyun, I am definitely the most!"

Six emperors thought in their hearts.

Among the seventeen emperors, he was most loved by the Emperor of the Sun Dynasty, and his strategy was not bad. He also made a lot of great efforts for the Sun Yan Dynasty. He would not lose to anyone if he was lucky.

Chapter 784: Supreme strong

"You go back to rest first." The six emperors pondered after a moment.

"Yes!"

Ye Xuan ten people nodded respectfully.

But the next moment, the six emperors called again: "Ye Xuan, you stay!"

Wen Yan, Ye Xuan's footsteps.

After the departure of the nine general managers, the Six Emperors asked: "Ye Xuan, if you give me some cultivation resources, can you make another breakthrough within seven days?"

"As long as it is enough, guarantee a breakthrough!"

Ye Xuan's eyes lit up and solemnly said.

Now he is a seal of 70%. If he breaks through once again, then the seal is 80%. At that time, even if he is a master of the top 10%, he is not afraid.

"Well, this is the best for you, and you must break through!" The six emperors did not say anything and directly threw a ring to Ye Xuan.

This time, he decided to gamble on Ye Xuan.

Of course, he also made people work for the Dragon Gold, and wanted to give Yang Qi the assembly.

Ye Xuan caught this Qiankun ring and glanced at it, and his heart immediately trembled.

These things are enough for him to break through to the seal eight!

"Thank you for your sixth appointment!"

Ye Xuan quickly thanked.

In fact, he wants to say a word to the six emperors. As long as the six emperors are willing to give him all the home, he will certainly help the six emperors to take the position of the prince.

"You can also take a break."

Said the six emperors.

"Yes!"

Ye Xuan should leave.

After he left, the six emperors also paused and then left the six emperors.

This time, he will become a man without success, so he wants to go to other emperors to borrow a dragon.

In fact, there is still a plan in his heart, that is, by the Longyun, to the robbing.

He has already been a body seal, and with the addition of Dragon Gold and Dragon, the success rate of the robbery is not low.

However, once the robbery fails, then he will be smashed.

With his qualifications, he will certainly be able to break through to the Supreme in the future, so he does not dare to take the risk and must think twice before acting.

Of course, if he succeeds in robbing and achieves supreme, then the position of the prince must be his.

.....

Ye Xuan, who received the reward of the Six Emperors, hurried back to his room.

"Hey, the host breaks through, and the current Emperor will seal up to 80%!"

At the moment when the door was closed, Ye Xuan's breath suddenly surged up and broke through.

The things that the six emperors rewarded were enough for one to cultivate into the body of the seal, which was very precious. But these things can only be broken from 75% to 80% for Ye Xuan.

"Breakthrough, now I am not afraid of the suspected top ten. If you let me understand the sword, the half step will be invincible..."

Ye Xuan sat on the bed with his knees, sinking his heart into the swallowing space.

Now, he still can't particularly devour the sword, so he has to refine his sword when he has nothing to do, but he ends up failing.

I have to say that the Eight-Dangerous Sword God really took the big fortune and was able to comprehend the sword.

He stayed in the room for seven days, but he still couldn't refine his sword. He gave up.

On the 7th, he hurriedly left the mansion and went to the training field to gather.

Six emperors and other people have arrived. After seeing Ye Xuan, the six emperors have a bright eye.
"Okay, it really does not disappoint me!"

Ye Xuan smiled and walked over.

Today, it is the last link in the trial of the Prince, attacking the city and plundering the land.

The three emperors are desperate, and it is necessary to take the position of the Prince.

On the 7th, Yang Qi and the poisoned woman also had a breakthrough. The former broke through to the 90% of the seal, and was also rewarded by the Six Emperors with a set of dragon-shaped gold armor.
This is the six emperors who have recently rushed out of work.

The poisoned woman got the poisonous king's inheritance, and she had a lot of sentiments. Together with the cultivation of the six emperors, she also successfully broke through the 90% of the seal.

As for other people, they have increased their strength more or less.

"go!"

The six emperors led ten people and entered the palace.

The ministers have already gathered, and other emperors have also arrived.

"Hey, the great emperor, the six emperors, the seven emperors, who will become the prince?"

"I feel that the mysterious big prince will win."

"I think it is the Seven Emperors."

The ministers are still talking in private.

Ye Xuan looked at the hundreds of Sun Yat-sen ministers and royal masters, and could not help but be nervous.

As long as he helps the Six Emperors to take the position of the Prince, then he will break through to the Supreme Resources, and it is estimated that he will not be embarrassed.

However, the other two emperors are not weak, and it is not so simple to laugh.

After the arrival of the Six Emperors, they stood with Ye Xuan ten people. He began to look at the ranks of the Great Emperor and the Seven Emperors.

Sure enough, the atmosphere of these two teams is much stronger than before, and it seems that they have also received many rewards.

After a while, Wu Gonggong appeared.

Not only that, but behind him, he still stood a middle-aged man in a golden coat with a golden crown.

This person is the father of the six emperors.

After he appeared, the faces of everyone in the hall could not help but dignified. At the same time, he felt a huge pressure.

"Supreme strong, the emperor of this sacred dynasty, is the supreme power!"

Ye Xuan heart shocked.

However, if you want to come, even the six emperors are already the seal ten, and the emperor is the supreme power. This is nothing.

Ye Xuan estimates that if the masters in the hall all besieged the Emperor of the Sun Dynasty, I am afraid that they will not hurt him. This is the strong man with the supreme gold body.

The battle between the supreme powers is hard to fall unless there is a powerful supreme martial arts or a comprehension of the sword.

Ye Xuan looked at the Emperor of Japan and the light shone.

If he refines the sword, then his attack can hurt the true supreme possession of the supreme golden body, but unfortunately, he has not.

"Three of you, are you ready?"

Emperor Yanyan looked at the three emperors.

"Ready!"

The six emperors said in unison.

"The rules of the siege and the ploughing of the land, like the first link, do not allow intentional murder. The prince will break the squad and will be sent out of the secret. At the same time, the three princes can use the emperor's seal to direct the members of the sire at any time."

Wu Gonggong said.

Then, the three princes of the Great Emperor, the Six Emperors and the Seven Emperors, also followed the Wu Gonggong into the secret world.

The location where Ye Xuan and others landed was different from the previous ones, when they appeared outside a city wall.

"This is your main city. There is a dragon column in the main hall behind this main city. If the dragon column is destroyed, then you will be out of the sixth hall. Similarly, there is a dragon column in each of the two levels. The two dragon pillars are covered with green flowers, so the gates of the checkpoints will not be closed, and the six halls will be able to leave the main city."

Wu Gonggong said, he handed out 11 maps: "This is a map of the attacking and ploughing of the city. The six halls will have one day to adapt to the environment. Waiting for the war to be ordered tomorrow, then you can send troops and leave the territory to explore resources. point."

Chapter 785: Siege

After hearing the words of Wu Gonggong, the six emperors took over the map of the siege and land, which painted nine city walls, three main cities, six levels, and other locations.

"The left level is for the big prince, and the right level is for the seven princes..."

Six emperors glanced.

"Booming!"

At this time, the main city gate suddenly opened, and immediately came out of a neat army.

After everyone saw this neat army, it was also a tremor.

"The wolf ride?"

The six emperors also exclaimed.

Wu Gonggong nodded: "Yes, this time, the siege and the ground battles are invested in the wolf's teeth. Each side has 1500 woofers, and 15 of them are 90%. Three generals of the golden armor of the seal."

"This....."

The Six Emperors were shocked. He remembered that the Emperor of the Japanese Emperor had a siege and land attack, and he invested in some boulder.

Ye Xuan also looked at it with a blank look.

The Sun Yan Dynasty, really powerful!

"These cockroaches can use the emperor's seal and the emperor's order to control the battle. Your highness should be assigned by yourself. The rules are all these. I wish the six halls good luck!"

When Wu Gonggong finished speaking, he directly entered the entrance to the secret. The next moment, the entrance to the secret was disappeared.

In the secret world, the ability to perceive is greatly reduced, and at the same time, it is impossible to fly and shrink into the air, so this is the home of Ye Xuan.

"Well, I will mark some positions here, you check it out!"

The Six Emperors were not too sloppy, and they marked hundreds of positions on the entire map, because he could use Ye Zizi to contact Ye Xuan, and he was going to command.

Ye Xuan ten people have marked the location, then, the six emperors said: "Poison Po, you lead Cao Leopard and five hundred wolf riding team to the left level, laying a poison at the gate of the city."

"Yes!"

The poisonous woman nodded, even if she used the emperor to control a golden armor general and five long knife vices and five hundred wolf teeth to ride away.

Cao Leopard is only 80% of the body, and the other three are not strong, so they are assigned together. When necessary, they must use the Longyun control to defend the tower.

Fortunately, after the poisoned woman was passed down by the poison king, the force was not lower than that of the general manager of the body.

"Yang Qi, Ye Xuan, you will lead the rest of the people, and a formation to the right level, listen to the instructions." Six emperors ordered again.

When Ye Xuan heard it, he immediately asked: "You must focus on the seven emperors here?"

"The big prince is mysterious, and the power is not weaker than the seven emperors. I guess he will not take the initiative to attack. He should first go to those resource points, fill in the forces, and then break through a city."

The six emperors replied.

"Then, when will we go out and explore those resources?" Yang Qi asked again.

The resource point is very important for this siege war. If you occupy the resource point, you will get five hundred wolf teeth immediately. If you take more than a few, you can expand your advantage.

"There are a total of ten resource points on the map. If you get all of them, you will add 5,000 troops in an instant."

The Six Emperors understood the importance of the resource point, but he could not choose who to explore, so he asked: "Resources can be reoccupied after midnight every day. I am afraid there will be a big battle in the middle of the future. How do you feel? distribution?"

The five people looked at each other and then Ye Xuan took the initiative to take a step forward. "The perception in the secret is greatly reduced, but I have a special way to quickly find these resources. I will go to war tomorrow. Let me go."

"Yes, at first, it is generally the first resource point, I will go." Yang Qi also said.

Then, the skinny old vulture also said: "My body is also good, add me one."

"Well, tomorrow, you will explore resources at three sunrises, and the general manager and the lonely sword will guard the right level." The six emperors nodded.

Regrettably, his deity could not leave the main city after the war, and now he has no war, he can not leave his territory, and can only act between the main city and the level.

At the moment, Ye Xuan and others are leaving with a formation directly.

From the main city to the right level, there was only one hour of road. Soon, Ye Xuan arrived at the right level.

The right level is the same as the main city where the Six Emperors are located. There is only one wall and one palace.

"That is the defensive arrow tower. As long as you use the dragon transport, you can control the attacking enemy, but it is necessary to consume a lot of dragon transport." Yang Qi looked at the two towers at the left and right ends of the kilometer wall.

"I don't know how the power of these two towers is. It should be able to shoot the usual wolf teeth." Zhuo also could not help but say.

Everyone took the army into the right level, and then they looked around and adjusted to the environment.

Since there is no war, there is a special array on the right level of the city wall. It is impossible to jump from the wall and the gate cannot be opened. Therefore, Ye Xuan and others have no way to go out to see the city.

Wanting to capture a city, it is not so easy, you have to attack from the city gate, so everyone estimates that this Prince will try the third link, I am afraid it will take several days.

Anyway, it is not so easy to end.

Ye Xuan also adapted to the environment and then waited quietly for time.

On the left side of the checkpoint there is a poisonous woman's poisonous array, not so easy to break, after all, the poison king used to be a master of the seal of 10%, claiming to be a half-step supreme invincible, his poisonous array, less than the supreme is difficult to break. This is also the reason why the Six Emperors are so confident.

One day, it will soon pass.

Ye Xuan Shou is in front of the city gate, and there are Yang Qi and the vulture next to him. After a while, they are going to fight.

At that time, he must take the lead and go out and occupy the resources first.

"Captain Yang, later, the two of you directly took the three resources nearby to take it." Ye Xuan asked.

"What about you?" Yang Qi asked with a frown.

"I am going to see the seven emperors. Although the perception in the secret is greatly reduced, I have a special method. If the people under the seven emperors can be reduced, the threat will be greatly reduced."

Ye Xuan said.

"The seven emperors have only nine people, but they may send directly to the master. Can you cope?" Yang Qi asked.

"Even if it is a seal of 10%, I am also sure that if I occupy a resource point, I will have more than 500 troops, which is too advantageous." Ye Xuan answered.

City pools are allocated in order.

There are ten resource points in this middle territory, and there are three in each neighborhood, but the seven emperors are the first, so there are four on his side.

Ye Xuan's goal is this fourth resource point.

"Then you are careful."

Yang Qi reminded.

However, his heart is still relatively reassuring. After all, Ye Xuan also has a dragon-shaped gold armor. As long as he does not encounter the boxing master, it should not be a problem.

Chapter 786: Snatch resource points

"Well, although I want to **** resources after the war, I must be careful that the other party directly gathers troops to break through." Ye Xuan also reminded me.

Yang Qi solemnly said: "Reassure, the six halls are not at ease, and they have exchanged two formations with Longyun, and are coming."

"Two formations?"

Ye Xuan brows a pick.

A formation is a five hundred wolf rider and five long knife vices, as well as a gold armor general. You must know that this Golden Armor General is the Dragon Gold Armor, and its strength has reached 10% of the seal.

Each level has two formation guards and is generally not directly defeated.

Now, there are already 2,500 wolf teeth riding on the side of the Six Emperors. I don't know how many wolf teeth have been changed by the Great Emperor and the Seven Emperors.

"Ye Xuan, Yang Qi, vulture, you are going to start the war, you are ready!"

At this time, the emperor of Ye Xuan's arms suddenly heard the voice of the six emperors.

"Yes!"

Ye Xuan three should be vocal.

They can get in touch with the six emperors by virtue of the emperor's order.

At the same time, the imperial order of this Guanzhong is also very important. It can also capture the dragons of other people. Once the imperial order is broken, the people will fly directly out of the secret.

When there are few people, then there are fewer people who control the tower, and the disguise weakens the strength.

Therefore, the six emperors ordered that the left side of the city pool besides the poisoned woman, everyone must not leave. After all, Cao Leopard and others are not strong, and it is not as good as the long knife deputy, and it is better to control the arrow tower and the wolf teeth.

"The hour has come, the battle against the city, the beginning!"

Suddenly, a loud noise sounded in the sky.

Ye Xuan heard the words and opened the gate directly.

"Captain Yang, I am leaving!"

Ye Xuan said that he was directly rushing in one direction.

Now, it is to race against time. Whoever takes the resources first will have an advantage.

Yang Qi looked at the direction of Ye Xuan's departure, and secretly praised it because Ye Xuan's speed was very fast, and he was not slower than the 90% of the seal.

"Hey, this kid is really extraordinary." The skinny old man laughed.

.....

After leaving the right level, Ye Xuan went straight to the seven emperors' territories. He was on his way at full speed, hoping to find a resource point first.

First occupy the resource point, the main city will immediately get five hundred wolf teeth ride.

Therefore, it can account for more.

"The perception in the secret has dropped dramatically, but I have the insight, my advantage is the biggest!"

Ye Xuan ran all the way.

The three main cities are not far away. You can reach the adjacent checkpoints in a few hours. However, the map given by Wu Gonggong only roughly marks the location of the resource points, which is not specific.

But this is not difficult for Ye Xuan.

"If Yang Qi and the vultures have occupied their three most recent resource points, and I have one more, then there will be five more troops."

Ye Xuan thought, that is, directly to the dragon gold armor. This is the first time he has won the Dragon Gold Armor after he entered the Imperial Capital.

Although he has an eye for insight, it is good to wear it just in case.

He ran all the way for more than an hour. Along the way, he constantly looked around with insightful eyes and found that there was a quasi-sacred beast, which made him scream that if you have a good eye, you can directly control these quasi-supreme Holy beast.

at this time.

"Ok?"

Ye Xuan suddenly swept to a place, immediately stepped in the footsteps, and then rushed in that direction.

This is a cave, it looks ordinary, but Ye Xuan's insight into the eye has seen aura flow.

He looked at the map transcribed by the phagocytic system and found that the vicinity of the resource point of the seven princes was more.

"Is luck so good?"

Ye Xuan had some doubts and immediately rushed over. He cautiously entered the cave and saw a dragon column.

"Sure enough, it is a resource point!"

Ye Xuan brows a pick, hurriedly absorbed the dragon transport on the Long Yun column, and then a table next to the Long Yun column lit up the blue light.

The seven emperors are red, the big prince is white, and the blue is six princes.

Occupation success!

"Six Highness, I have occupied a resource point, No. 4!" Ye Xuan immediately used the Emperor's Order to get in touch with the Six Emperors.

"It is good!"

The six emperors immediately responded.

But the next moment he responded, the three resource points closest to his blue side, marked on the 8th, 9th, and 10th.

"Ye Xuan, have you been to the seven emperors?" asked the six emperors.

"Well, the occupation."

Ye Xuan nodded.

Now that he has occupied this resource point, he will not be occupied again today. At this time, in the main city of the Six Emperors, five hundred wolf teeth have been brushed.

Wait until 12 o'clock in the evening when the resource points will be refreshed, and then you can continue to occupy, and then there will be five more spikes.

The main city where the six emperors were located was only five hundred wolf-toothed rides, but now it is more than five hundred in an instant, reaching a thousand.

"It's beautiful, so be careful to come back."

Six emperors reminded.

"understand!"

Ye Xuan nodded.

Although he answered this question, he did not want to leave.

On the 4th, near the four emperors, the four emperors will definitely send people first. Ye Xuan estimates that some people are looking for the fourth resource point.

It's not so easy to find things in the secret. Ye Xuan is also thanks to the insightful eye, otherwise it is not so easy to find.

"Hey, let me come to a poisonous king's venomous gods!"

Ye Xuanyi opened his mouth and smiled. Although the poisonous king passed down to the poisonous woman, he had already transcribed into the phagocytic system, so he would.

After a few seconds, this cave is full of crises. If it is a careless, even the masters of the 90% of the seals will fall.

After leaving the cave, Ye Xuan is hiding around the cave. Instead of going to the next resource point, it is better to keep the guard and let the seven emperors reduce their staff.

The seven emperors were originally one less. If there is one less, then there are only eight people left. The number of people is small, and even if there is a large amount of troops, there is no way to control them.

Ye Xuanchun guarded, after more than ten minutes, there was a figure that caught his eye.

"coming!"

Ye Xuan holds a spiked sword and blinks.

This figure is very fast, at least 90% of the body, he directly rushed into the cave.

At the moment, Ye Xuan is directly diving into the past.

"what?"

There was an exclamation in the depths of the cave. I don't know if the other party discovered that the resource points had been occupied, or found a poisonous array.

"kill!"

After hearing this voice, Ye Xuan did not hesitate to kill him.

The poison is arranged by him, fighting inside, but this increases his strength in disguise.

"not good!"

The people inside heard the movement and immediately drank a low sentence.

At this point, Ye Xuan had already rushed in wearing a dragon-shaped gold armor.

"boom!"

A sniper came face to face, but was defeated by Ye Xuan, and Ye Xuan came to this man's costume.

Chapter 787: Teammates out

"A black body, are you a ghost teacher?" Ye Xuan asked subconsciously.

He remembered that there were three black robes under the arm of the Seven Emperors, one was a woman who was suspected of being a feudal body, and two of them were nine and a half.

After hearing Ye Xuan's words, this person's body shape is unstoppable. Although he did not answer the question, the body has already answered Ye Xuan.

"court death!"

The black robe sipped and smashed toward Ye Xuan.

He recognized the dragon-shaped gold armor, and Ye Xuan's emperor's order was in the dragon-shaped gold armor, and it was difficult to crush and defeat Ye Xuan.

Therefore, it can only be forced to break through.

"Haha, I want to pass by, leave a road to buy money!" Ye Xuan laughed and greeted him.

This cave is full of colorless and odorless poisonous mist. The other party is actually poisoned. However, even if it is not poisoned, Ye Xuan has a way to clean him up.

"The wolf is rushing!"

Ye Xuan armed with a spike sword, a sword stabbed, a giant wolf head flew past.

"Nether thorn!"

The black robe's face sank, and a man with a dagger was stretched out from under the black robe, licking the head of the wolf.

"puff!"

The wolf's head was pierced and instantly dissipated.

Ye Xuan is slightly surprised. This person, like Yang Qi, has only 95% of the seal, but the strength is probably much stronger than Yang Qi.

However, this is not enough to see in front of Ye Xuan.

At the same time as the head of the giant wolf dissipated, a fierce round sniper broke through the air, and the shoulders of the black robe were cut open instantly, and the blood burst out.

The black robe is dignified, but fortunately he responds quickly, otherwise the blow will cut his entire arm.

However, the fate is still behind.

The black robe felt that something was wrong. He glanced at the light and found that the blood on his shoulder had solidified. Not only that, but the muscle tissue on his shoulder was all paralyzed.

"poison?"

The black robe was now reacting, but it was already late. * At the moment he was injured, he was irritated and paralyzed him.

"It's late, the wolf is rushing!"

Ye Xuan used the Longyun Qiankun to stab a sword again. The wolf's head directly bit the black robe. The next moment, he plunged to the side of the black robe, and then the sword was picked.

The emperor's order on the chest of the black robe was picked out, and at the same time, his left arm was worn by the ring.

"Thank you for your luck!"

Ye Xuan will absorb a large amount of dragons from the other emperor's order and then directly crush it.

"Do not!"

The black robe man's eyes widened. How could he think that he was crushed by the emperor's order in less than two hours?

Unfortunately, this is the truth.

"Hey!"

The black robe became a white light and flew out of the secret.

The seven emperors were reduced by one person, only eight people were left, and the black robe was still 95% of the body. The seven emperors lost a lot this time.

Ye Xuan hurriedly put away his Qiang Kun ring, and sure enough, there is a lot of heaven and earth treasure inside.

However, there is nothing in the inside about ghost teaching, but Ye Xuan can be sure that the other party must be a ghost.

"Ghosts are stronger, I am afraid I can't create a supreme strong, so the emperor of the Sunshine Sage may know, but it won't break."

Ye Xuan's heart is guessing.

Then, he directly driven the imperial decree, saying: "Under the Sixth Hall, a seven-and-a-half-year master of the seven emperors was sent out by me."

"What, really?"

The six emperors exclaimed.

"Well, I am going to the third resource point now." Ye Xuan said.

"Okay, be careful!"

The six emperors are a little excited.

A master of 90% of the seal was actually cleared by Ye Xuan. Not only that, but Ye Xuan also occupied the No. 4 resource point, which was too much for the expectations of the Six Emperors.

After leaving the cave, Ye Xuan looked at the map and then plunged to the nearest No. 3 resource point.

The farthest resource No. 4 sent a master of 90% of the seal, so the third is not expected to be the suspected ten-year-old black robe.

Ye Xuan rushed for more than ten minutes. With the eye of insight, he quickly found the third resource point.

Unfortunately, the third resource point has been occupied and the other party has long since left.

However, this does not matter, because Ye Xuan is only to explore the road, first remember the road of the third resource point, and then come back after twelve o'clock.

Then, he was looking for the past in the second resource point.

Sure enough, the second resource point has already been occupied, and then Ye Xuan went to the first.

The resources of the first, second and third resources were all occupied, but within the expectations of Ye Xuan, what he did this time was the spying work. First remember the location of the resource points, and find it next time.

Just when Ye Xuan was ready to go back, the emperor's order in his arms suddenly turned up, and there was an anxious voice from the six emperors: "Ye Xuan, not good, the vulture is out!"

"what?"

Ye Xuan was shocked.

The vulture, not with Yang Qi, first to occupy the three resource points near his own side, how come out suddenly?

"It's a big prince. He invaded our territory, but the bald eagle was out after occupying the resource."

Said the six emperors.

Ye Xuan's brow wrinkled and thought: "The bald eagle is a 90% body seal, and it's a good way to get him out of the game. I'm afraid at least 90% or 10% of the seal."

The rhythm is a bit too fast when I send out 10% from the beginning.

"What should I do now?" Ye Xuan asked.

"You come back first, to support the poison Po, I am afraid that the big prince will attack directly." Six emperors said.

"it is good!"

At the moment, Ye Xuan is leaving directly and rushing toward his own territory.

It has now passed two or three hours, and ten resource points are estimated to have been occupied. Although I don't know that the Great Emperor and the Seven Emperors each accounted for a few, they ended up with four.

Four resource points can instantly increase the number of troops of the six emperors by two thousand.

At this time, the six emperors have already let people divide the two thousand forces into two teams and guard the two incisors on the left and right sides. There are now two thousand wolf teeth and ten long knife vices and two gold armor generals on the left and right sides.

Ye Xuan had to admire the Sun Yan Dynasty. If so many wolf-toothed rides were brought to the battlefield, it would be a very horrible fighting force. After all, the Wolf-toothed ride would be reorganized.

After more than an hour, Ye Xuan returned to the left level to support the poisoned woman.

Now, in this case, let's look at the situation first, and it's best not to take action.

The black robes who were previously sent out of the secret by Ye Xuan had no time to contact the Seven Emperors. The Seven Emperors only knew that he was out, but did not know who was out.

However, Ye Xuan estimates that the seven emperors will think that it is the hand of the great emperor. After all, there are not many masters of the six emperors, unless the seven emperors send people to the fourth resource point, because there is blue light.

Ye Xuan guarded the checkpoint on the left side and waited for a few hours.

At about 10 pm, the Six Emperors suddenly asked: "Ye Xuan, do you think we are going to grab resources?"

Chapter 788: Eliminate again

In another two hours, the resource points will be refreshed. Whenever someone grabs the resource points, they will get a lot of troops in an instant.

However, now the neutral zone is too dangerous, and the Six Emperors do not know if anyone is crouching beside their three resource points.

"Six emperors, this time I went out with Captain Yang, we all have dragon-shaped gold armor, it is not easy to eliminate!" Ye Xuan replied.

"Okay, then you go to the 8th, Yang Qi 10, immediately after the occupation, go to the 9th meeting!"

Six emperors should be vocal.

This time, he chooses to be conservative, and it is good to occupy three!

At the moment, Ye Xuan is quickly leaving the left level, while Yang Qi is leaving from the right level.

In fact, Ye Xuan hopes that someone will lie in the No. 8 resource point, when he can find the other party first, and then send it out of the secret.

Soon, he arrived at the No. 8 resource point, and sure enough, he did not expect it. There was actually a person here.

"I still have half an hour before the refresh time, let me solve you first!"

Ye Xuan said nothing, quietly dive into the past.

The only vulture was eliminated at the 8th resource point, so this person is probably the one who eliminated the vulture.

Ye Xuan approached with a little darkness, and when he was only a kilometer away from the other, he suddenly shot.

"Long Yun Qiankun!"

"The wolf is rushing!"

In order to insure, Ye Xuan blessed the Dragon Fortune. This attack combined with a sneak attack will surely make the other party unprepared.

"Boom!" "Boom!" "Boom!"

The head of the giant wolf broke a large number of trees and bit the other side.

The man was shocked, but did not respond, directly biting the head of the giant wolf.

Ye Xuan instantly rushed out, and then a slap in the face.

"Oh!"

The black man's arm was cut off directly. His face was sinking, and the dragon's fortune forced the wolf's teeth to smash.

"withdraw!"

The other party does not care about his broken arm, and turns around immediately.

Ye Xuan rushed up, took the other party's Qiang Kun ring and swallowed it, and quickly chased it.

"Want to go, have you asked me?"

Ye Xuan shouted, crazy shots, recruits have blessed the Dragon Fortune, the power is huge.

"Damn!"

The black man roared because he didn't even see Ye Xuan's shadow, but he could feel that Ye Xuan had only 80% of the seal.

When the body was 80%, he put his body in a 90-and-a-half run, and he didn't even think of it.

"He is very fast, but it is not Yang Qi's voice. Who is it?" The black man couldn't figure out the situation.

However, he found that Ye Xuan's speed was even faster than him. The most important thing was that Ye Xuan's attack was very fierce, and he had to use Longyun to resist.

"Boom!" "Boom!" "Boom!"

The two people collided with the real gas, and the trees were shocked.

However, when Ye Xuan was about to catch up with him, suddenly there was a burst of noise falling into his ears.

This is, the wolf ride!

"Good guy, even with a lot of spikes to ride out."

Ye Xuan heart trembled.

I just don't know if the other party has brought a long knife deputy or a generals of gold armor. If there is a general of gold armor, then it will be troublesome.

"Hey, even if there is a general of the Golden Armor, I also have a dragon-shaped gold armor. I can't beat it. Can't I still run?"

Ye Xuan sneered in his heart and continued to catch up.

"Booming!"

Hundreds of wolf teeth came out and there were two long-knife vices with 90% of the seals. The black man teamed up with these shackles and countered Ye Xuan.

"Just kidding, in the face of absolute strength, these are furnishings!"

Ye Xuan was angry and mad at the front.

"Long Yun Qiankun!"

"Circle crack!"

Blessing the dragon's round crack, the power is huge, a sword can be used to smash the armor of the wolf in two, even the long knife can not pick up, can only be smashed.

The black man brought three hundred wolf teeth and two long knife vices. He thought he could win a resource point, but he unexpectedly met Ye Xuan, a hard guy.

"It's him!"

At this point, the black-clothed talents know who is chasing themselves, and they are rewarded by the six emperors with a set of dragon-shaped gold armor!

Just kidding, Ye Xuan, who has a dragon-shaped gold armor, even if he is standing there and slashing the wolf teeth, I am afraid that it will not break the defense.

"go!"

No matter how many people in black, they directly urged the emperor to control the spurs and long knives to encircle Ye Xuan, and he escaped.

"Want to go, leave me!"

Ye Xuan is like a sharp knife. He directly splits the wolf's teeth and runs straight to the black man.

"Damn!"

Seeing so many wolf teeth can't stop Ye Xuan's footsteps, the black man's face is already sinking to the bottom of the valley, and he suddenly smells a dangerous atmosphere.

"Hey!" "Hey!" "Hey!"

Ye Xuan shot very fast, took out more than ten swords in one second, and blocked the black man's retreat, causing the black man to turn, so that Ye Xuan pulled close.

The speed of the black man is still fast, otherwise he will have been caught up by Ye Xuan. He treated the injury and immediately grasped the sword and suddenly folded back.

He knew that he might not escape, so he wanted to cooperate with the wolf and the long knife to clear Ye Xuan.

However, he underestimated Ye Xuan's dragon.

"Want to fight for a fight, the wolf!"

Ye Xuan smiled coldly and directly stabbed a sword.

"Give me broken!"

The black man is drinking, and he also has a sword.

"boom!"

Two real gas hits, the air waves swept, but Ye Xuan was even better. The big wolf head with a lot of dragons was directly bitten on the black man.

"The Eye of the Illusion!"

"Circle crack!"

"call out!"

The cold mangling flashed, and the other arm of the black man flew up. Now, he has no ability to break away from the wolf's head, let alone escape.

Looking at the black man who was like the lamb to be slaughtered, Ye Xuan quickly swept away and picked out the other's imperial order.

When the Emperor's order fell to Ye Xuan's hands, the black man was already desperate. He knew that he was going to be out.

"Thank you for your luck!"

After Ye Xuan absorbed the dragon transport in this emperor's order, it was directly crushed.

"Hey!"

This black man turned into a streamer and flew out of the secret.

At the same time, Ye Xuan also recognized him. This person is a master of the great emperor, but he only wears a black suit, because now it is night, wearing black clothes is easy to ambush the enemy.

Although it said that it consumed a lot of dragons, the other side's dragon transport was twice as much as it was consumed.

"Booming!"

At this time, Ye Xuan suddenly heard the movement behind him, and the black-skinned rider and the long knife will still be killed.

"Is it automatic attack on the nearest enemy..."

Ye Xuan, regardless of the other, directly entered the enemy army, not more than ten seconds, more than two hundred wolf teeth riding and two long-knife vices of 90% of the seal, was completely destroyed by him.

Not only that, he also discovered a secret.

"The wolf ride of the siege war, can't be reorganized?"

Chapter 789: Black robe woman

"The wolf ride of the siege war, can't be reorganized?"

Ye Xuan's eyes are a glimpse, but I want to come too. If I reorganize, there will be too many troops.

However, Ye Xuan himself will also be ignorant, he tried to control these spikes, but found that he could not control and could not receive the devour space, so he could only help but return.

This time, the Great Emperor was also planted, not only lost three hundred wolf teeth riders and two long knife vices, but also lost a master of 90% of the seal.

Soon, Ye Xuan returned to the No. 8 resource point and waited carefully.

The No. 8 resource point is in a cave in a canyon. The blue light flashes in the cave. When the twelve o'clock arrives, the blue light disappears directly. At the same time, the dragon has appeared on the dragon column.

Ye Xuan said nothing, absorbed the dragon transport, and then raised the blue light on the table.

Occupation success!

"Ye Xuan, is the resource point on the 8th occupied?"

Asked the six emperors.

"Occupied."

Ye Xuan Ying said: "In addition, the 90-and-a-half-year-old master of the ancestor of the great prince was eliminated by me, and there were three hundred wolf-toothed riders and two long-knife vices."

In addition, the head paused, and then the six imperial sons were shocked: "Great, Ye Xuan is beautiful!"

Since the beginning of the war, Ye Xuan has given many surprises to the six emperors.

First occupied the No. 4 resource point on the side of the Seven Emperors, and eliminated 90% of the seals of the seven emperors. Now it is incredible to knock out the 90% of the seals of the Great Emperor.

"Six Highness, I am going to the No. 9 resource point and meeting with Captain Yang!"

Ye Xuan said, immediately set off.

"Okay, be careful!"

The Six Emperors once again reminded that although the resources are important, under the current circumstances, Ye Xuan is more important than the resources.

.....

Not long after, Ye Xuan rushed from the No. 8 resource point to the No. 9 resource point. The No. 9 resource point was empty, and he quickly rushed to occupy it.

Then, Yang Qi also rushed over and the two met.

"Ye Xuan, awesome, actually cleared the two masters of the two seals and went out." Yang Qi couldn't help but see Ye Xuan.

"Haha, let's go back."

Ye Xuan smiled.

The two rushed toward their own city.

Now, the six emperors have taken up seven resource points and got 3,500 wolf teeth.

In addition, the original one thousand five hundred and six emperors used the dragon to exchange a thousand wolf teeth ride, and they had a total of six thousand wolf teeth.

When Ye Xuan and Yang Qi returned to the right level, they rushed to the meeting.

Now, ten resource points have been occupied, so today there may be people who send troops to attack the city.

However, the six emperors still have no bottom, so they decided to keep a day.

Keeping one day, but it does not mean that they will not go out. The six emperors directly ordered the solitary sword to lead a thousand wolf-toothed riders, ten long-knife deputies and a golden armor general out of the city and hide.

As for the left level, don't worry, because there is a poisonous array there, and there are three thousand troops. It is not so easy to break.

This night, very calm, Ye Xuan was on the wall, no strangeness was found.

The Six Emperors did not hear the news, which means that the left level is also safe.

However, at the dawn of dawn, Ye Xuan on the wall suddenly saw the eye with insight and found the same.

"Someone!"

Ye Xuan immediately said.

Yang Qi, who was next to her, was a bit stunned. He didn't understand how Ye Xuan discovered it. He looked in the direction of Ye Xuan, but he didn't see anything.

"Captain Yang, I am going out alone to see the city." Ye Xuan said.

"Then you are careful."

Although Yang Qi is somewhat worried, but Ye Xuan also has a dragon-shaped gold armor, the strength is probably stronger than him.

"Boom!"

On the right side of the gate, the gate suddenly opened a hole, and Ye Xuan went out and glanced at the eye with insight.

At the eleven o'clock in the direction of eleven o'clock, there was a man squatting. It seems that he should be the person of the seven emperors.

"Hey, is it a spy, seeing me clear you out of the secret!"

Ye Xuan sneered, then quickly dive.

In the mystery, the perception is greatly reduced. Although the other party is convergent, Ye Xuan can determine his position with an insightful eye.

After Ye Xuan approached, he discovered that it was not him but her.

"Is it a woman?"

Ye Xuan has some accidents. His insightful eyes can see the internal environment of the human body, so he can see that the other party is a woman.

Among the three forces, in addition to the poisonous woman, there is a black robe woman under the seven emperors.

Moreover, this black robe woman is the master who is suspected of being a sealed body.

Just then, the woman in the black robe suddenly moved.

"Spook out the military, want to go back?"

Ye Xuan's eyes lit up and quickly chased the past. At the same time, he took out the emperor's order and told the six emperors to let him transfer Yang Qi, so that the solitary sword led a golden armor to come over.

If the black robe woman can be sent out of the secret, then there is no threat to the seven emperors, after all, there are only seven people left.

At the moment, Ye Xuan is a fast pursuit.

The black robe woman was very fast, so Ye Xuan had to work hard. As a result, the other party also found him.

"Ok?"

The black robe woman was a little surprised. She guessed that Ye Xuan should be like her, wanted to investigate and then hit her.

"If this is the case, then solve you first!" The black robe woman flashed a glimmer of light, suddenly offering a black long sword and folded back.

"Circle crack!"

"Nether thorn!"

The two blessings of the Longyun attack slammed together, causing a huge shock in an instant. Now, even if Ye Xuan does not inform the Six Emperors, Yang Qi will probably bring people out.

"Sure enough, the ghost teaches people, come again!"

Ye Xuan drank a word, crazy shot.

He has a lot of air traffic, which is enough to consume. If he can get the air traffic of this black robe woman, then he will make a big profit.

"Boom!" "Boom!" "Boom!"

The two are really angry and violent.

The solitary sword that was kept outside the city had been instructed by the six emperors. Now that he heard the movement, he immediately took a golden armor general.

"Kid, your strength is very good, now let you taste this trick!"

The black robe woman snorted and slammed out a punch.

Purple fist shadow, rushing toward Ye Xuan.

"A strong and powerful power, is this the Tiantian boxing in this top-class inheritance?" Ye Xuan's eyes widened. Fortunately, he only used the insightful eye to record the other's instinct. It's down.

"Hey, Zhen Tian Boxing has been successfully copied, do you study?"

"Yes!"

Ye Xuan said nothing, answering directly in his mind.

"Hey, the host has learned to shake the heavens!"

The system prompts.

Quasi-supreme martial arts is a transition in the imaginary martial arts and supreme martial arts, so there is no proficiency at all.

Ye Xuan directly learned this Zhentian boxing, and then also punched a punch.

"Zhentianquan!"

"Booming!"

Chapter 790: Conquer the heavenly fist

The two purple fists are against each other. Although the realm is quite different, Ye Xuan also has the blood and power of the King of Fighters, so the power is not much weaker than the other.

The two fists dissipated and the black robe woman was shocked.

This is the martial arts she got from a top-grade inheritance of Longyun. Why is Ye Xuan?

However, she can't manage that much.

"Tianquan, now!"

The black robe woman showed another card, which is the 90% of the two seals she received in the Tianquan Zong heritage.

Ye Xuan, suddenly became a pair of three!

"Hey, I have already expected it!"

Ye Xuan's heart snorted, and he thought of it when he saw that the other person was a woman. After all, the six emperors gave him a copy.

However, this day, the boxing is a bit restrained, because it is a boxing method, which can cause damage to him through the dragon-shaped gold armor.

It hurts him. This is nothing. He is afraid that the emperor will accidentally break, so he will be eliminated.

Therefore, it is better to temporarily withdraw.

"Kid, you are the killer of the Six Emperors, so that's it, then I will send you out!" The black robe woman finished laughing, together with the two Tianquan mad attack Ye Xuan.

Ye Xuan was beaten and defeated, but his afterglow swept away and found that his reinforcements had arrived.

"I will help you!"

The solitary sword screamed and killed with a golden armor general.

The black robe woman heard the words and her face changed.

Ye Xuan is awkward, and now with a gold general and a 90% master, she is probably not an opponent.

At the moment, she is ready to turn around and leave.

"good chance!"

Ye Xuan's light flashed.

Eye of the illusion!

The black robe woman shuddered and illusory.

What makes Ye Xuan strange is that the eyes of the banned ban are instantly lifted by the black robe woman.

"How come, her mood is so strong?"

Ye Xuan was shocked. He wondered if there was too much gap in his realm.

Since the eye of the ban is not working, then forcefully leave each other.

"Circle crack!"

Ye Xuan madly out of the sword, blocking the retreat of the black robe woman.

The solitary sword just happened to be killed, and the woman in the black robe shot, while the lord under his control, attacked the black robe woman.

The woman in the black robe was gloomy and knew that the big thing was not good. She thought about it and decided to use the card.

"Netherland!"

Suddenly, the speed of the black robe woman is skyrocketing, directly abandoning the two Tianquan fists to escape, faster than the Golden Armor and Ye Xuan.

"Can't catch up!"

Ye Xuan brows a pick and screams at the lone sword: "Take two heavenly fists!"

The solitary sword smashed and immediately controlled General Jin Jia to block a Tian Quan, while the other one was blocked by him.

Ye Xuan swiftly swept over, and a slap in the face of the Tianling scorpion.

"Thousands of God!"

Ye Xuan's thoughts were incarnate and infiltrated into this Tianquan box, forcibly eradicating the black robes of women.

Now, this Tianquan fist is controlled by him!

"Ok?"

What was revealed in the original Tian Quan was the smell of a woman in a black robe, but now it has become Ye Xuan.

When he just wanted to ask, he found that Ye Xuan rushed to another Tianquan, and forced him to control it again.

I felt the two women in black robes who were not controlled by themselves. They screamed in a big face: "Boy, this account will be recovered!"

This time, she really lost her wife and lost her soldiers. She consumed some dragons and did not say it. She also lost two hundred and a half days of the boxing fists. It is really a mistake.

"If you go fast, or send you out!"

Ye Xuan snorted, just to see the black robe woman left his sight, this is no possibility of catching up.

At this time, the solitary sword asked in a blank voice: "You have conquered these two heavenly fists?"

"Not bad!"

Ye Xuan nodded.

Fortunately, this black robe woman has just received the inheritance of the Tian Quan Zong, so it is not good to control these two Tianquan fists, so he was forced to use the gods to kill the remnants.

"Great." Lonely sword admire.

At this time, Yang Qi also killed with a gold armor general, asked: "Ye Xuan, is it okay?"

"Nothing, that person is a black robe woman under the seven emperors. The strength is detected. It is indeed a seal of 10%!"

Ye Xuan shook his head.

"Sure enough, it is a seal of 10%, but fortunately they do not have dragon-shaped gold armor, otherwise it will be difficult to entangle." Yang Qi breathed a sigh of relief, he stunned two stunned Tianqi squint, sighed that Ye Xuan is not an ordinary person.

Ye Xuan's strength is already very powerful. Now, with the addition of two Tian Quan who can receive the Qiankun ring, he can already be rampant here.

Then, Ye Xuan and Yang Qi returned to the city, while the solitary sword continued to carry a golden armor outside the city.

After learning about the harvest of Ye Xuan, the Six Emperors were also overjoyed, but this time it was in the war, so he could not leave the main city, otherwise he would come over and give Ye Xuan a big hug.

Originally, he did not have much confidence. But this day, his confidence was overwhelming, and the reason for his sharp increase in confidence was that Ye Xuan had made several great achievements.

This time, he might be able to force the two emperors to become princes.

.....

At this time, outside the secret.

After a group of ministers saw this battle, they all boiled up.

"The eyes of the Six Emperors are really powerful. This sub-district is 80% sealed. It is even possible to fight with the top 10% of the seals. The future is boundless."

"Not only that, but he actually reversed the two Tianquan fists. Did he cultivate the gods?"

"Before he won the inheritance of General The General, it is not unusual to have a million-year-old god. It is only in such a short period of time that he has learned to read the gods, and it is amazing."

The ministers are full of praise for Ye Xuan.

The Emperor Yanyan, who was sitting on the dragon chair, was also slightly blind, and seemed to be very optimistic about Ye Xuan.

Only the ministers outside saw it. There were already two huge armies, gathering, and then forced to go to the six emperors.

.....

Days, it started to light up.

Today is the second day after the war. I don't know if the Seven Emperors and the Big Emperor will have big moves.

"Ye Xuan, you pay attention to some, I feel that there will be big moves today." The voice of the six emperors passed from the emperor's order.

Ye Xuan, who stood on the wall and glanced at the eye of insight, said: "Good!"

The six emperors here mainly defended the seven emperors, so he was allowed to guard the right level. At 12 o'clock yesterday, they occupied three resource points. After the war, they occupied four, a total of seven, so they added five hundred troops. .

Don't underestimate the five hundred forces. If no one is guarding the checkpoint, the five hundred troops will be enough to rush in.

However, at 12 o'clock noon, just one day after the start of the war, the situation finally came into being.
