

Super D. S 791

Chapter 791: attack

"Ye Xuan, not good, the left level has been attacked, the strength is not less than 5,000, speed to support!"

Six emperors exclaimed.

"what?"

Ye Xuan was shocked, and there were actually five thousand troops.

At the time of the war, each side had 1,500 initial strengths. Even if the Great Emperor occupied six resource points, it would add up to four thousand five hundred.

However, there are actually five thousand troops, which means that the great emperor used Longyun to exchange a large number of troops. After all, their old nests must be guarded, and it is impossible to go out.

"I'll go!"

Ye Xuan immediately responded, but the next moment, his insight into the eyes was to sweep something. He immediately widened his eyes and shouted at the imperial order: "The six halls, there are also a lot of spikes on the right level."

"What, how many?" asked the six emperors.

Ye Xuan paused for a few seconds, and then reported: "At least four thousand!"

"Damn, the Great Emperor and the Seven Emperors joined forces, ready to knock me out!"

The six emperors immediately responded.

The left level suffered five thousand troops, and the right level suffered four thousand troops, while the two left and right levels had three thousand troops, but they were attacked at the same time.

"Six Highness, do we all return to the main city?"

Yang Qi, who was on the side, asked the emperor.

The other six emperors thought for a moment and said: "No, if the two levels are lost, the big prince and the seven emperors can attack. When the resources are occupied, we will have no chance of winning."

"Yang Qi, you immediately took a formation to support the left level, I immediately exchanged some wolf teeth to ride to support."

"Yes!"

Yang Qi did not say anything and left.

"The Sixth Highness, there are also four thousand troops here. Are we going out of town to fight?" Ye Xuan asked.

"The right level command is given to you, you come."

The voice of the six emperors came from the emperor's order. Now, Ye Xuan is the general commander of the right level. It is to fight or stick to it, depending on Ye Xuan.

Now, Yang Qi has left, and the solitary sword is still guarding outside the city. Only Zhuo and his team stay on the wall, just controlling the two towers.

Siege, not so easy, the reason why the seven emperors' team has not attacked, is also tabooing two towers.

"Ye Xuan, what should I do now?" Zhuo general frowned.

"Zhuo General, you will stick to the arrow tower. If they attack, they will use the arrow tower to attack. I will go out and join the solitary sword, and then go to spy on the enemy's military situation."

Ye Xuan replied.

There are four thousand troops here, and four people are represented on behalf of the seven emperors, because each emperor can only control two formations, more than a thousand.

"Then you are careful!"

Mr. Zhuo reminded me.

Ye Xuan nodded silently, that is, directly down the city wall, and then went out from a secret road in the city wall.

He first got in touch with the solitary sword, and then he went alone to spy on the military.

"I don't know that the Seven Emperors sent a few Golden Armor generals to come..."

Ye Xuan guessed and carefully sneaked in the past.

The general of the Golden Armor is a master who is comparable to the 10% of the seal, and is indestructible. It is almost invincible in the secret.

At the beginning of the six emperors, there were three generals of the Golden Armor, and then the six emperors exchanged two with Longyun.

It is a pity that Yang Qifang took two formations and one Jinjia general to leave, while the other one was a solitary sword, so there was no gold armor on the right level.

"There are too many troops. It is an advantage for me. It is better to harass me first."

Ye Xuan's plan, of course, is based on the fact that the other party does not have a large number of masters.

He sneaked over and then swept away with an insightful eye, and sure enough there were four great living people.

"The black robes are also there, and the other three seem to be not strong. It is estimated that at most 90% of the seals are there. However, even three generals of the Golden Armor are brought over. Is this a revenge?"

Ye Xuan heart trembled.

The black robe is a seal of 10%, and the three gold armor generals are also the seal of 10%, adding up to four.

"No way, just try!"

Ye Xuan is also helpless, even if the six emperors exchange a lot of troops, it will take some time to get there.

For more than an hour, this can be difficult. If the four thousand troops directly launch the general attack, I am afraid that it will be difficult for half an hour.

So Ye Xuan can only lead by example and try to harass.

"kill!"

At the moment, Ye Xuan is offering a sword of the wolf.

"Long Yun Qiankun!"

"Circle crack!"

After the attack of Longyun was broken, the wolf teeth of the 80% of the body were instantly smashed into two halves. In just one second, Ye Xuan destroyed more than a dozen wolf teeth.

"what?"

The black robe woman who was waiting for the offensive command was amazed and immediately understood that someone was harassing.

"find out!"

The black robe woman drank, and she also plucked directly, controlling a general of the Golden Armor to move in the direction of movement.

In the secret world, the perception is greatly reduced, so the black robe woman can not accurately find the position of Ye Xuan, and can only rely on the direction of the attack.

Unfortunately, Ye Xuan is a random harassment. His plan is to kill one person and kill one person.

"The black robe is coming, well, Tian Quan!"

Ye Xuan released two Tianfu fists that had just been conquered. In fact, he was reluctant, but this time, they can only sacrifice them.

These two Tianquan smashed directly into the army of the wolf, while Ye Xuan, quietly left.

His purpose is not a black robe woman, but another three controllers.

As long as one person is sent out of the secret, then the four thousand army will have only three thousand troops left, and the other thousand can only watch it because no one is in control.

Ye Xuan ran while observing with the eyes of the insight, and sure enough, the black robe was attracted to the past.

"Take a seal of 10%, and the other three people do not look strong, one of them is still old friend Xia Yunyi!"

Ye Xuan's light flashes.

At the time of the first round of the Dragon War, Xia Yunyi was smashed by him and then kicked out of the secret.

After the event, Xia Yunyi received treatment, and the injury was restored. At the same time, it broke into the 90% of the body.

However, this is still in front of Ye Xuan, still vulnerable.

At this point, Ye Xuan quietly dive into the past, took a look at the black robe in the distance, and then suddenly attacked.

"Long Yun Qiankun!"

"Circle crack!"

A few powerful and fierce attacks broke through, and Xia Yunyi stunned. When he reacted, the attack was already in front of him.

Now Ye Xuan is a seal of 80%, and he has a lot of attacks on Longyun. Even if Xia Yunyi breaks through the 90% of the seal, it is not his opponent.

Fortunately, in front of Xia Yunyi, there are two long-knife vices with 90% of the seals. Ye Xuan attacked the two long-knife deputies in two halves and then went to Xia Yunyi, and the power was less than half.

Chapter 792: One husband

"Hey!"

Although the attack was less than half, it still caused great trouble for Xia Yunyi, and his hands were numb.

At the same time, he also recognized the attack.

However, he did not associate the person who killed his grandson with the person who attacked him at this time. After all, the only thing that killed his grandson was the seal, which was as weak as an ant.

"Huh!"

Xia Yunyi flew out, but he hurriedly controlled a gold armor general to rush toward Ye Xuan.

"It's a pity that I didn't send him directly out!"

Ye Xuan's heart was slightly helpless, and he hurriedly flashed his body and left the place.

The team of the seven emperors brought a full four gold armor generals. If they were surrounded, then he would be dangerous. Therefore, a guerrilla warfare must be played.

At the same time, at the moment when Xia Yunyi stabilized his body, there was a voice in his emperor's order.

"Siege!"

This voice is the seven emperors, he issued a siege order, and was also issued to the four women in the black robe.

Unfortunately, Ye Xuan also heard it.

"Siege?"

He frowned and rushed to attack, even if he couldn't stop the entire army, he would cut some.

That is going to find two black-robos women who are in trouble with the Tianquan. They are also listening to the orders. They are also taking a footstep and immediately controlling the army.

However, even if she did not get an order, she knew that she was in the middle of adjusting the tiger.

More than 3,000 wolf teeth ride, sprinting crazy, straight to the right level.

"Six princes, the right level is attacking the city!"

Ye Xuan quickly took out the emperor's order.

"it is good!"

Six emperors should be vocal.

Ye Xuan's imperial decree, unable to contact other people's imperial orders, must pass the six emperors.

The six emperors got the news and immediately informed the solitary sword and Zhuo.

A big fight broke out!

At this time, Ye Xuan has already avoided the army, and went around to attack from the back.

His attack is very fierce. Every time he throws a sword, he can ride several wolf teeth in two halves. The wolf ride in the secret can't be reorganized. One of them is one.

"Summer, find out the kid, I am going to attack the city!"

The black robe woman shouted.

"it is good!"

Xia Yunyi responded, and he also understood that the people who came to harass them were very strong, so they deliberately left a general of the Golden Armor and two long-knife vices.

However, in order to insure, Ye Xuan has already spared a lap, grabbed the two Tianquan squats, directly collected them, and then quickly concealed his figure.

"Damn, that kid escaped!"

This is Xia Yunyi's first thought, but he does not care so much, directly led the underarms of the Golden Armor and the Langya ride.

Ye Xuan, just to harass it, he does not have to care about so much, the siege is important.

As long as they break through a level, the seven emperors can move freely.

"Whether I am going to attack the city..."

Ye Xuan's flash of light, the defense of the battlefield on the city gate is good, and the arrow tower of Zhuo's manager should be able to persist for a while, and what he has to do now is to clear the people.

At the moment, he is Xia Yunyi who is quietly approaching the backward brigade, and then re-offering two Tianquan.

"kill!"

Ye Xuan, together with Lian Zun, killed the past from the rear.

"Hey!" "Hey!" "Hey!"

A burst of crisp sound spread, this is the sound of the wolf's teeth being cut into two halves by Ye Xuan.

"behind!"

Xia Yunyi also guessed that Ye Xuan would make a surprise attack from the back, so that General Jin Jia was behind him, and he was shrinking in the guardian of the wolf.

The black robe woman and the other three generals of the Golden Armor have already rushed toward the right level. If they are together, the gate does not know how long it will last.

Therefore, Ye Xuan must be resolved as soon as possible.

"Old guy, you played me very well that day, now I have to take some interest!"

Ye Xuan controlled two Tianquan fists and quickly broke through. The speed was extremely fast, and Xia Yunyi was shocked.

"Block them!"

Xia Yunyi controlled the generals of Jin Jia to greet them.

However, Ye Xuan immediately controlled the two Tianquan shackles, and he himself killed Xia Yunyi.

"The district is 90% closed, give me out!"

Ye Xuan shouted.

A sword light, a purple fist shadow, almost rushed toward Xia Yunyi.

Xia Yunyi's face is gloomy, and he has no ability to block these two attacks.

"boom!"

Jianguang directly hit him, and the purple fist shadow directly fell on his front, the emperor made an instant break, he flew directly out of the secret.

At this moment, he also saw the sword of Ye Xuan in the hands of Ye Xuan, and confirmed the identity of Ye Xuan.

There are hundreds of spikes around Xia Yunyi, but without the control of the imperial order, they will only attack the nearest people.

"go!"

Ye Xuan does not care too much, directly in the past will not be defended by the Golden Armor General, then reclaimed the Tian Quan, and then fell into the forest at a very fast speed.

The four thousand army, now only three thousand.

At the same time, the black robe woman had already rushed to the front of the city with the other two, but the solitary sword was swept out before them, intercepting them and preventing them from attacking the gate.

On the wall, the general manager looked at the dense figure, and directly controlled the arrow tower and began a crazy attack.

"Puff puff!"

The arrow tower is crazy, and it can shoot dozens of penetrating arrows in one second. These arrows can easily wear the armor of the spikes.

Looking at a wolf-toothed chariot collapse, the black robe woman was shocked. She did not expect that the guardian arrow tower would be so powerful, and I am afraid that I can solve at least ten wolf-tooth rides in one second.

"You, give me the control of General Jin Jia, I will open the gates!" The black robe woman shouted.

At this time there are three Golden Armor generals, plus the black robe woman is the four seals of 10%, although the city gate method is powerful, but the four seals ten joint attack, it is estimated that it does not take five seconds Will be broken.

"not good!"

Ye Xuan heard the words, his face immediately sank, immediately informed the six emperors, let the solitary sword enter from the secret passage, control the arrow tower.

There are two gates in the city gate, so they have about ten to fifteen seconds.

Before this, Ye Xuan must clean up these wolf teeth as soon as possible.

"Found, people are there!"

Ye Xuan's flash of light flashed and immediately released two Tianquan fists. His goal this time is still a 90% person.

This person's Golden Armor was taken away by the black robe woman, the defensive ability was too bad, Ye Xuan directly rushed in like a sharp knife.

"Leave things, roll!"

In the face of Ye Xuan, who is like a god-killing person, this person has no ability to change hands. He was directly smashed his arm, and the emperor's order was also crushed, turning into a stream of light and flying out of the secret.

However, his mission has been completed, and the army is pressed over. Even if I am cleared, these wolf riders will actively attack the surrounding enemies.

Chapter 793: Hold it!

Ye Xuan hastened to accept the Qiang Kun ring in the past, but unfortunately, this thing in the ring is not allowed to break through.

"If this is the case, then it can only be like this!"

Faced with this situation, Ye Xuan has only one last resort, and that is a breakthrough.

Only by breaking through, he can do his best and face the masters of the four seals.

Right now, in addition to the extra dragon gold armor, his most precious things are only those two days of fists.

Although the dragon-shaped gold armor is precious, there is no other way at the moment. At the moment, he is swallowing the dragon-shaped gold armor.

"not enough?"

Ye Xuan's light flashed, and he quickly swept the past and swallowed the two Tianquan.

"Hey, the host breaks, it's currently 8:30 of the seal!"

Realm, once again improved.

Before Ye Xuan could be tied with the black robes of the 10% of the seals. Now, after breaking through, defeating the black robes should not be a problem.

"Haha, I want to attack the city!"

Ye Xuan shouted, and the wolf ride around him was directly shocked.

Quartet is extinct!

Now, Ye Xuan is not afraid of anyone, and rushes straight toward the black robe woman.

"what?"

The black robe woman who controlled the three Golden Armor generals suddenly felt something. When she turned around, she found that Ye Xuan was rushing to her, and those who were blocking the road and riding the long knife were all relaxed by Ye Xuan. solve.

However, the black robe woman who united the three Golden Armor generals has already broken through the encirclement and rushed to the front of the city gate.

This time her task is to break through the level, as long as it can break this level, even if all the spikes are dead, it will be fine.

However, now that Ye Xuan has broken through, it is not so easy to rush.

"Long Yun Qiankun!"

"Circle crack!"

Ye Xuan directly attacked the woman in the black robe.

"Nether thorn!"

The black robe woman turned and stabbed a sword.

"Hey!"

The two infuriating pairs, the air waves directly shocked the surrounding wolf teeth.

"My eyes of the ban on the day were useless to you, now I broke through, you try again!"

Ye Xuan's light is a glimpse.

The eye of the ban, as long as you can see the other person's eyes can start.

The next moment, the shape of the woman in the black robe was a slight tremor. Although she had been guarding it before, she never knew how Ye Xuan started her, so she took another move.

"Okay, the wolf is rushing!"

Ye Xuan stabbed a sword, a giant wolf head flew past, biting the black robe woman.

"Han Kun ring, it's mine!"

Ye Xuan rushed to the past, facing a hot woman, he would not be merciful, straight out a sword, the black robe woman's wrists.

At the same time, the three Golden Armor generals also surrounded him and attacked him.

General Jin Jia is comparable to the seal of 10%, but Ye Xuan also has a dragon-shaped gold armor, so these three Golden Armor generals have no threat to him.

"The Quartet is extinct, roll!"

Ye Xuan suddenly rolled up a sigh of relief, and the three Golden Armor generals retreated two steps.

Then, he was stabbed by a sword and attacked the woman in black robe.

The eye of insight can not only see the inner environment of the black robe woman, but also instantly find out what has aura, such as the emperor's order.

"Ok?"

At the same time, when Ye Xuan stabbed a sword, the black robe woman also came to her mind. She looked at the sword and directly displayed the card.

"Netherland!"

The black robe woman flashed the blow and slid directly against the wall.

"Is this trick again?"

Ye Xuan's eyes widened. This martial art is really strange. The last time the black robe woman ran away with this trick.

However, this time, he learned to use the insight eye and the phagocytic system to transcribe it into the phagocytic system.

"Hey, Nether, copying is successful, do you study?"

"Yes!"

Ye Xuan should vocal.

Now, he also has this martial art, and catching up with the black robe is not a problem.

However, he just wanted to chase, but he thought of a problem.

If he is gone, these three golden armor generals will definitely break the city. When the three golden armor generals rush into the main hall of the checkpoint and destroy the dragon pillar, then the gate of this level cannot be closed.

At the same time, the Seven Emperors can also leave the main city and act freely.

The Great Emperor, the Six Emperors, the Seven Emperors, and even the Four Emperors who did not enter the top three, the three were actually the seals.

Their strength is very strong, so it is so troublesome to release it. After all, the level is broken by the six emperors, not the seven emperors.

"Hey, let me go!"

Ye Xuan finally decided to guard the checkpoint, not to chase the black robe woman.

He quickly took off the black robe woman's ring and quickly checked it.

"Well? Ghost teaches the saint?"

Ye Xuan brows a pick, it is no wonder that the seven emperors have so many ghosts to support the master, there is also a very high status of the Virgin.

However, a saint is a seal of 10%, then the leader is at least the seal ten, it is not known, where the ghost teaches the Lord.

Ye Xuan, no matter how much, looked at the two armies of the outside world and quickly swept out.

"Golden generals are strong, but they are not indestructible!"

Ye Xuan thought in his heart.

If the generals of the Golden Armor are indestructible, then what other weapons are needed for this siege?

It is good to use the Longyun to exchange the generals of the Golden Armor. Why do you need so many troops?

"Circle crack!"

"Zhentianquan!"

"Nether thorn!"

Ye Xuan directly grabbed a general of gold armor and pressed it on the wall to attack wildly. The other two generals of the Golden Armor were constantly attacking him, but he was hard-pressed by his life.

In three seconds, this Golden Armor General suffered numerous attacks, and after three seconds, he was finally defeated.

Then, Ye Xuan took another time to dismantle the other two Jin Jia generals, and then they entered the enemy.

"Ye Xuan, how is the right level?"

The voice of the six emperors came out.

"Owned, the seven emperors lost three Golden Armor generals!"

Ye Xuan replied.

At this time, he had already dismantled the three Golden Armor generals. The fourth Golden Armor General was still in the forest of tens of thousands of meters. Because there were no enemies, they stood in the same place.

"what?"

The six emperors were shocked again.

Ye Xuan, actually removed three gold generals, this is really abnormal.

Before the Six Emperors were converted to the Golden Armor General by Longyun, the Longyun that was consumed caused him to suffer from pain for a long time, but he did not expect that the General Jin Jia was only in front of Ye Xuan.

"Six Highness, I suggest sending the Seven Emperors immediately!"

Ye Xuan said quickly.

"Well, the right level is still under your command."

The six emperors directly agreed.

"understand!"

Ye Xuan should have said that it is to continue to kill these wolf teeth.

At this point, his insightful eyes suddenly swept over one person, which was the last person from the seven emperors to bring troops.

"Want to run, leave me!"

Chapter 794: Be broken!

"Want to run, leave me!"

Ye Xuan directly controlled only one of the Golden Armor generals to kill the past, and in a short while, the other party turned into a streamer flying out of the secret.

The Seven Emperors died one person in the first round. When they entered the third round, there were only nine people. Then, when they occupied the resource point, Ye Xuan cleared one and left eight people.

Now, except for the black robe women, all three are cleared out of the secret, so there are only four people left in the seven emperors except the black robe women.

This is a good chance to fight back!

Without the leader, this group of wolf-toothed rides is a loose sand. Within a minute, they are all smashed by Ye Xuan.

It is strange to say that the woman in the black robe who escaped did not take away the golden armor general in the forest. I am afraid that she was frightened and escaped. As a result, she was cheaper.

After Ye Xuan destroyed the fourth Golden Armor General, all the troops were annihilated, and the army where the solitary sword was hidden in the forest was also very devastating, leaving less than two hundred.

"Sixth Highness has already fully supported the left level, Zhuo, and the solitary sword. You two are sticking to the city, and I have a thousand troops to attack the seven emperors!"

Ye Xuan said to Zhuo and the solitary sword.

"it is good!"

Solitary sword and Zhuo general nodded.

Now, they have already seen the strength of Ye Xuan, even if only Ye Xuan alone, it is enough to capture a level.

After Ye Xuan destroyed the fourth Golden Armor General, all the troops were annihilated, and the army where the solitary sword was hidden in the forest was also very devastating, leaving less than two hundred.

"Sixth Highness has already fully supported the left level, Zhuo, and the solitary sword. You two are sticking to the city, and I am going to attack the city!"

Ye Xuan said to Zhuo and the solitary sword.

"it is good!"

Solitary sword and Zhuo general nodded.

Now, they have already seen the strength of Ye Xuan, even if only Ye Xuan alone, it is enough to capture a level.

At the moment, Ye Xuan is leaving directly.

The seven emperors lost four thousand troops and three people, and the losses were significant. This is a good opportunity to beat the dogs.

With Ye Xuan's current realm, it is estimated that he will be able to break the gate in ten seconds and then rush into the main hall to destroy the dragon pillar.

After leaving the checkpoint on the right side, he was the singer who had just learned to rush to the main city of the Seven Emperors.

This sacred martial arts is a gathering of infuriating temperament. Although it is impossible to attack while running, it is very good for running.

If the black robe woman is on her way back to the city, she may be caught up by Ye Xuan.

.....

This battle is another shock to the ministers and princes outside the secret.

Ye Xuan led the whole battle, not only destroyed all four thousand troops, but also able to collapse the generals of the Golden Armor, which is simply enchanting.

"The enchanting enchanting, the generals of the Golden Armor, although unmanned, but it is not so easy to destroy, he actually blasted four generals of the Golden Armor, this person is now only three princes can fight with one. "

"Looking at his route, it seems that he is going to the site of the Seven Emperors. Is it difficult to counter the seven princes?"

"It's really powerful. When the husband shuts down four thousand wolf teeth, now one person goes to the siege, and feels that the other two guards have no effect."

"The seven emperors and the great emperor united together and wanted to eliminate the six emperors, but they did not expect to be guarded by Ye Xuan. As a result, the six emperors might not win or lose."

The ministers continued to discuss.

However, it is not clear to the Emperor Yanyan that when the Seven Emperors and the Great Emperor were united, would they discuss it before entering the secret?

.....

"How about the sixth level, how about the left level?"

On the way to the site of the Seven Emperors, Ye Xuan took out a princely order and asked.

"Not very optimistic."

The six emperors said four words, but the next moment, he was exclaimed: "Not good, the left level gate was broken!"

"what?"

Ye Xuan brows a pick, the left gate of the gate is broken, then things are troublesome.

The army of the great emperor can directly kill the main hall of the checkpoint and absorb a large number of dragons on the dragon pillar.

In this way, the gates of the level can no longer be closed. At that time, the great prince can move freely.

After learning about the news from the poison-pod, the Six Emperors immediately ordered that the poison-daughter would absorb the large amount of dragons on the Longteng column and immediately take the person back to the main city.

Left level, can't be more!

The front teeth were broken, so the team of the great emperor could directly kill the main city.

Not only that, but the great prince also let Yang Qi on the way go directly to the main town, because the great prince had to go out in person.

"Six Highness, do I have to go back?"

Ye Xuan quickly asked.

"No, when the poisonous woman destroys the dragon pillar, I can leave the main city. At that time, I want these people to look good!"

Six emperors said indignantly.

It was the level of his side that was broken, and the big prince who broke this level, so the great prince and he were free to act.

However, the great emperor is still far away from his main city, so the six emperors are waiting for the poisonous woman. As long as the dragon column is destroyed, he immediately goes to the left level and joins the battle.

"Six Highness, if I break through a checkpoint of the Seven Emperors, then the Seven Emperors can move freely. When he joins the Grand Emperor, isn't our main city dangerous?" asked Ye Xuan.

"No, now there are not many masters on their side. With your strength, you can break through the level. Then you have the ability to break the main city. If the level is broken, he can move freely, but he still can't easily leave the main city!" The six emperors replied.

"In this case, then I will attack the city at full speed!"

Ye Xuan, no matter how much, went straight to the seven emperors' territories.

With his strength, within the scope of the entire siege war, only three emperors can stop him.

However, the seven emperors failed to attack the right level, he was unable to move freely, so Ye Xuan could at least score a level.

.....

At this point, the level is on the left side.

"Boom!"

In a loud noise, the Dragon Teng of the left level of the Six Emperor's camp was destroyed by the poisonous woman. Then, the poisoned woman fled directly with the man and the Golden Armor, leaving the three thousand wolf rides to block. The enemy's footsteps.

"Six Highness, now you are free to act!"

At the moment when the Dragon Teng column collapsed, the Six Emperors heard a voice, Wu Gonggong.

At the moment, he directly smashed the main city and rushed directly to the left level. His speed was much faster than that of the now-defunct Ye Xuan. This is the almost invincible existence of the half-step supreme.

He is also racing against time, because the great prince can also move freely. He must rush in front of the great emperor and kill the army of the great prince.

Chapter 795: Break two levels

After the left level was breached, the army of the Great Emperor was to chase the three thousand wolf-toothed rides. After the three thousand wolf-toothed rides were completely destroyed, they immediately retreated, so the six emperors rushed.

"Sure enough, let's retreat, save the strength, the next time is the direct general attack!" Six emperors gasped straight.

If one of the two front teeth is missing, then the enemy can go through this level. The other incisor is estimated to be pulled out soon. It is really bad.

Now, the Six Emperors can only pray that Ye Xuan will succeed in the siege. At that time, the Seven Emperors will be restrained by Ye Xuan, and the Six Emperors can concentrate on dealing with the Great Prince.

after an hour.

Ye Xuan, who was in the dark and rushed to the road, finally arrived in front of a checkpoint of the Seven Emperors. He first swept his eyes with insight and found that there were only two people on this level.

"The black robe woman didn't come back. Is it because I was afraid that I would kill her halfway, and then go to another level?"

Ye Xuan eyes a glimpse.

However, this does not matter.

"The arrow tower is powerful, but now the other party has not found me, I can rush directly to attack the city gate!"

Thinking of this, Ye Xuan directly killed.

"Circle crack!"

"Nether thorn!"

"Zhentianquan!"

Ye Xuan was also killed, and the array on the city gate was attacked. Immediately, a huge boom was heard.

"Someone is attacking the city!"

The two people on the wall shouted, but when they came out, they found that there was only one person in the siege.

"It is him, fast, inform the Seventh Highness!"

Both of them recognized Ye Xuanlai. After all, they had already got news from the Seven Emperors and they had a big defeat.

However, it is useless to inform the Seven Emperors, because the Dragon Pole is not destroyed, and the Seven Emperors can only sit in the main city and cannot come out.

"First destroy a level, then go through the level to the second level and destroy the dragon column directly!"

This is the plan of Ye Xuan's heart.

As long as you go around, you can go straight to the main hall where the dragon column is located.

The reason why the army of the Great Emperor did not go may be because the level was left to the seven emperors, or the six emperors had already been killed. He was afraid that the army would not be left by the six emperors, so he retired.

"Boom!"

In a loud noise, Ye Xuan broke a city gate and spent six seconds.

The formation on this gate is stronger than he imagined, but it doesn't matter, he only spends another six seconds, and the second gate will be broken by him.

"No, he broke the city gate, let's go!"

The two warriors on the wall immediately left.

This level, even a general of a gold armor, there are only two long knife vices, even the wolf is only five hundred, how do they keep?

"Boom!"

Six seconds later, the second city gate collapsed, and Ye Xuan directly killed the main hall of the checkpoint and destroyed the dragon pillar.

"Six Highness, break a level!"

Ye Xuan quickly reported to the Six Emperors.

"Okay, another level is also please!"

Six emperors should answer.

Without further ado, Ye Xuan quickly rushed to another level of the Seven Emperors. As long as the two front teeth were broken, the seven emperors could not leave even if they could leave.

Dare to go out?

Be careful that the main city is being attacked!

Ye Xuan thinks that his speed is fast enough, but before that, he still sent the two men who had fallen under the Seven Emperors to the secret.

With the eye of insight, he directly found a secret passage in the level, and then solved the two masters with eight and a half seals.

At this time, in the main city of the Seven Emperors.

"His Royal Highness, you are now free to act!"

Wu Gonggong's voice fell into the ears of the seven emperors.

"How could this be the case, the **** Ye Xuan, who defeated my four thousand troops and broke my level. Where is he sacred?"

The seven emperors muttered.

Although he wanted to rush out immediately, find Ye Xuan, and then violently, but he did not dare.

In case Ye Xuan is different from what he thinks, instead of removing his other level, he is lurking around the main city. What happens when he goes out to attack the city suddenly?

Once the dragon pillar of the main city was destroyed, he was eliminated.

"Damn, it's damn, now I have only three people to use!"

The seven emperors roared.

In the first step, he lost one person, so when he entered the third stage, there were only nine, and the resource points were attacked by Ye Xuan. Four thousand troops went to the siege and lost three. Now the two defenders are also cleared. Going out, so with the black robe woman, he has only three available people.

Three people, at most, control three thousand wolf rides, plus the emperor's own words, it is only five thousand.

.....

At this time, after the two members of the Seven Emperors were sent out of the secret, Ye Xuan was another fang that quickly swept to the Seven Emperors.

In order to prevent the accident, the seven emperors let the two of them retreat to the main city. The checkpoint at this time is an empty city.

Therefore, Ye Xuan easily destroyed the Dragon Tengzhu.

Now, the two front teeth of the seven emperors have been pulled out. He is estimated to stay in the main city and stick to the main city.

"Six Highness, all the two levels are broken!"

Ye Xuan once again reported.

"Well, we have also received the main city from the army, and you will wait in the wild to wait for the order." The six emperors responded.

Ye Xuan nodded silently.

Now he analyzed the situation.

On the other side of the Great Emperor, a total of one person was lost. Both levels were there, but he was free to act because he broke a level of the Six Emperors.

On the other side of the Seven Emperors, the two levels were all broken and they could only hold the main city.

Although the Six Emperors had only broken a level, they also gathered troops to retreat to the main city.

In general, the great prince has the greatest advantage.

Now, you can only wait and see, and wait for the resource point at midnight.

"The great prince has too much advantage. I still go to him to spy on the military. If you meet someone who is on the trip, send it out!"

Ye Xuan thought about it, and then it was before the resource point refreshed that he rushed to the No. 6 resource point occupied by the Great Emperor.

"Ye Xuan, you have to be careful. Now our army is alone, and the great emperor has broken our level. He can personally dispatch!"

Six emperors reminded.

Now, he can only rely on Ye Xuan, as long as Ye Xuan can cut down the staff of the great emperor, then they have a battle.

Near midnight, but there is no figure at the No. 6 resource point, which makes Ye Xuan a bit strange.

"Is it true that the Great Emperor sent people to the resources of the Seven Emperors and the Six Emperors?" Ye Xuan guessed.

But at this moment, a figure caught his eye.

Finally someone is coming!

"The strength doesn't look strong, kill it first!"

Ye Xuan said nothing, directly swept the past.

Chapter 796: Prince castle

The other party apparently did not find Ye Xuan. At this moment, suddenly a sound broke.

"call out!"

The man was shocked, and when he turned around, there was a giant wolf whose head opened his mouth and rushed over.

But when he wants to fight back.

"The Eye of the Illusion!"

Ye Xuan's eyes stunned, and the other party fell into a illusion, and then was directly bitten by the infuriating giant wolf's head.

The severe pain brought him back to reality.

"Circle crack!"

"Nether thorn!"

Ye Xuan made a move in an instant, and an attack was responsible for picking up the hand, and attacking the imperial order that was responsible for crushing the other side.

"Oh!"

"Hey!"

The body of the black man was pierced together with the emperor, and immediately turned into a white light and flew out of the secret, leaving a half-cut arm.

Ye Xuan rushed past and took his shackles.

However, he found something interesting in this ring.

"What is the situation, is he also a ghost teacher?"

Ye Xuan was shocked.

The object that he attacked was obviously the person on the other side of the Great Emperor, but there are also those believers that the Ghost taught. What is going on?

Difficult, the ghost teaches not only the seven princes, but also the great prince?

"It's no wonder that the Great Emperor and the Seven Emperors will unite. It turns out to be like this!"

Ye Xuan's light flashes.

Now, there are only eight people left in the big prince.

At the moment, he is occupying this resource point and then rushing to the next resource point to see if he can meet the second person.

Unfortunately, the second resource point has been occupied, and Ye Xuan has not seen anyone.

"Forget it, give up resources, and in my realm, even more wolf rides are useless."

Ye Xuan decided to give up and then went straight to the big emperor's level.

What he has to do now is to spy on the military and see how much defensive power there is at the level.

Half an hour later, Ye Xuan arrived at the gate of the Great Emperor. He swept it with an insightful eye.

There are three people in this level.

At the same time, Ye Xuan also noticed that there are still three thousand spike rides and two gold armor generals in this level.

"The strength is not very strong, but I don't know if there are big princes among the three..."

Ye Xuan blinked.

His insightful eye can penetrate into the human body, but he can only tell whether the other person is a man or a woman.

But the next moment, he reacted.

"There are no big princes in these three people, because the Japanese empire is practicing the emperor's scorpion, and the dragon's luck can be sealed into the body. My insightful eyes can see the infuriating of the operation, and you can certainly see the dragon!"

Ye Xuan suddenly remembered the huge dragon movement in the six emperors, so he judged that there is no big prince among the three.

In this case, he is uncommonly trying to attack the city!

"Six Highness, I am now at the level of the Great Prince. I feel that I can try it, is it an attack?"

Ye Xuan asked.

"The big prince is now free to move, and his strength is unfathomable, I am afraid it is stronger than me, you are careful."

Six emperors reminded.

"it is good!"

Ye Xuan nodded, and immediately killed himself.

At this time it was under the night, and his speed was extremely fast. The other party had not found him and had already looted in front of the city gate.

"Circle crack!"

"Nether thorn!"

"Zhentianquan!"

Ye Xuan began to attack the city gate.

"Not good, someone is attacking the city!"

The people on the wall reacted, but it was useless. Ye Xuan broke through a city gate and only took six seconds.

"Boom!"

A city gate collapsed.

Although the people on the wall want to control the arrow tower, the arrow tower can't shoot in front of the city gate, so they can only look at it.

"Go, we hurry to retreat!"

The three people on the wall saw Ye Xuan collapsing a city gate for six seconds, scaring the fart.

If the two generals join forces to attack the city gate, it will take more than ten seconds, and Ye Xuan only takes six seconds.

"Boom!"

The second city gate collapsed.

At the moment, Ye Xuan quickly swept the past and directly entered the secret passage, kicking the members of the three great emperors to the secret.

Subsequently, he was to destroy the dragon column.

If the dragon pole of a level is not destroyed, the gate can be repaired.

Unfortunately, Ye Xuan will not give him the opportunity to repair it.

"Hey!"

Ye Xuan directly smashed the sword, and the dragon column cracked, and then broke the ground.

Now, one of the big prince's front teeth has also been pulled out. Although he said that he could act freely, he is now rushing to the main city.

"Six Highness, the level is broken."

Ye Xuanhui reported.

"That's great!"

The six emperors were surprised and happy.

The surprise that Ye Xuan brought to him is too much. If there is no Ye Xuan, I am afraid that he has already eliminated the attack.

"Six Highness, I will go directly to the Grand Emperor's main city!"

Ye Xuan said.

He has an eye for insight, and it is very good to spy on the military. If the big prince is not in the main city, he does not mind single attack.

As long as the main city dragon column is destroyed, then the big prince is out, the rest is simple.

.....

At this time, in the palace outside the secret.

"This child really has the courage. How does he know that the big prince is not in that level?"

"Maybe he just tried his luck. After all, the six emperors are now retreating to the main city. If the big emperor's checkpoint is not broken, the great emperor can wander around and will bring tremendous pressure to the six emperors."

"Oh, he went to the main city. Is this going to defeat the great prince in one fell swoop?"

"I can't see it. Although the big prince is not there, there are still masters in the main city and five golden generals. This is not a city!"

"Not necessarily, this time the great prince is in danger. If he is accidentally broken, then the big prince will be out."

The ministers are still talking.

Now, the siege war has entered a fever, and the three emperors are free to move, but they dare not go out easily.

The only big prince who wandered outside was that he was directly attacked by Ye Xuan and then went straight to the main city, so he also rushed back at full speed.

In fact, when he learned that the 90% of the masters were out of the game, he realized that it was not good, so when Ye Xuan broke the level, he was approaching another level.

However, Ye Xuan still rushed to the front of the big prince and rushed to the front of the big prince's main city.

He glanced at the eye with insight and found that there were only three people inside.

The members of His Majesty's Majesty were killed by two in the wild, and three were killed in that level. It is supposed that there are still five left.

However, there are only three people in the main city, indicating that there are two others outside, and should be in another level.

Fortunately, Ye Xuan's insight into the eyes did not look at people with longevity in the body.

In other words, the big prince is not there!

Since it is not in the main city, then things will be easier.

Chapter 797: Attacking the main city

"If the big prince is not there, then it is a good opportunity. Now, in the three-party camp, the great prince has the strongest power. If he can clear him out, then the six emperors will win!"

Ye Xuan's eyes lit up, but he still asked for the opinions of the six emperors.

Although the Six Emperors did not understand why Ye Xuan could confirm that the Great Emperor was not in the main city, he chose to believe it!

After getting the consent of the six emperors, Ye Xuan is also arrogant, this time, he wants to attack the main city.

"come on!"

Ye Xuan hearted a big drink and rushed directly to the main city gate.

The defense of the main city gate is much stronger than the gate of the gate, but Ye Xuan knows that he can get in as long as he gives him some time.

"Circle crack!"

"Zhentianquan!"

"Nether thorn!"

Ye Xuan is not close yet, just starting a crazy attack.

At the time of the loud noise, the guards on the main city wall found Ye Xuan.

"Someone is attacking the city!"

They changed their faces and hurriedly informed the great emperor with the imperial order, but the great emperor was still coming, so they had to stick to the main city.

The main city must not be broken, otherwise the big prince will be eliminated.

At this time, a middle-aged man in black on the main city wall sinks his face, and his heart secretly said: "This is the kid who teaches us to be careful. Why is this kid, the mysterious thorn that my ghost teaches?"

He didn't want to understand, but at this time, no matter how much, he turned his head and said: "You two are guarding, I bring five Golden Armor generals to clean up this kid!"

When he finished, he turned around and left.

In the main city, there are also five Golden Armor generals, all of whom were taken out this time.

Ye Xuan is still attacking the city gate, but at this time, the side suddenly killed six figures.

"Is it out of the main city secret?"

Ye Xuan's eyes stunned and found that there were actually five Golden Armor generals in the six figures, and the last human being was also the body seal.

Now, it is a pair of six!

"Good to come!"

Ye Xuan shouted.

The six major seals are the last combat power of the main city. As long as they are cleaned up, the big prince will have no play.

"Kid, let me stop!"

The middle-aged man in black clothes drank and stabbed a sword toward Ye Xuan.

call out!

Jianmang flashed, Ye Xuan easily escaped, but he recognized this move.

Nether thorn!

"Sure enough, the great prince also has a relationship with the ghost teaching!" Ye Xuan suddenly screamed and directly returned.

call out!

The same is a sneak thorn.

"Good guy, it really is the ghost of my ghost teaching, look at this trick!" Although the middle-aged man in black does not understand how Ye Xuan learned the thorns, but now is not the time to care about these.

He slammed out a palm, and a huge palm print was shot toward Ye Xuan. It seemed that the power was even stronger than the Tiantian fist passed down by Tian Quan.

"Hey, the copy of the Nether is successful, do you learn?"

"Yes!"

Ye Xuan immediately answered in her mind.

"Hey, the host has learned the Nether Palm!"

As soon as I learned what I learned, Ye Xuan immediately took a shot.

Nether palm!

"Boom!"

Two huge palm prints collided and then dissipated.

"What, even the Nether Palm?"

The middle-aged man in black was shocked again. At the same time, the five Golden Armor generals were already surrounded by Ye Xuan, holding Jin Jian Qi Qi to Ye Xuan.

"Oh, there is no soul, let me roll!"

"The Quartet is extinct!"

In a crisp sound, the five Golden Armor generals were all shaken back by a powerful impact.

At the moment, Ye Xuan actually has three choices.

First, the thief first smashed the king and first cleared the middle-aged man in black.

Second, the five gold armor generals will be killed first.

Third, while fighting, destroying the formation on the city gate.

After Ye Xuan thought about it for a while, he made a decision.

The strength of the middle-aged man in black is only stronger than that of the black-robed woman, and the five golden armor generals do not pose a threat to him. After all, he wears a dragon-shaped gold armor.

So he decided to break the city gate first!

"Long Yun Qiankun!"

"Circle crack!"

Ye Xuan evaded the attack of the middle-aged man in black while attacking the gate.

As long as the city gate is broken, he does not need to fight with the top ten masters of the five major seals, and directly rushed in to destroy the dragon pillar.

"Damn boy, go, keep it for me!"

The middle-aged man in black was screaming in his heart, and immediately transferred two gold generals to stay in front of the city gate.

No, this is useless.

Although the city gate is important, in this smashing battle, the generals of the Golden Armor will still be destroyed, so Ye Xuan is only implementing the second and third plans at the same time.

"Boom!" "Boom!" "Boom!"

The two gold armor generals stayed outside the city gate, facing Ye Xuan's attack, they were difficult to defend, but Ye Xuan's speed was very fast, there will still be an attack on the city gate, destroying the big city.

"Mixed things, the big prince will come back soon, have the courage to continue!" The middle-aged man in black is drinking.

Ye Xuan heard the words, the heart is also a trembling.

He didn't know if the person said it was true or not.

Now that the main city has been attacked, the great emperor must be on his way back, just don't know when it will arrive.

The middle-aged man is now saying this, it may just be a bluff.

However, if the big prince really comes back, then he will become a trap of the beast.

Although the Great Emperor is also a seal of 10%, but the royal family are practicing the Emperor of Heaven, this Emperor Tianyi is the supreme martial arts, the combat power is superior, coupled with the Dragon Fortune, his attack will not be an opponent.

If he was cleared out of the secret, then the six emperors must have lost.

"Oh, I don't believe it!"

At the moment, the victory is in sight, Ye Xuan decided to gamble once, if it can solve the big prince, then the victory belongs to the six emperors.

"Damn, this kid is indifferent!"

The middle-aged man in black is roaring in his heart, and he does not know where the big prince is now and how long it will take to arrive.

He is also afraid that he can't keep the main city!

At this time, Ye Xuan suddenly looked at it.

Eye of the illusion!

The middle-aged man in black is thinking about something else and instantly falls into the environment, but his mood is extremely high and he reacts instantly.

"This middle-aged man is stronger than the ghost who teaches the saint. Is it the ghost teacher?"

When Ye Xuan saw the eye of the ban, it blinked, and the heart couldn't help but mutter. He originally wanted to end the battle with the eye of the ban, but he did not expect to be unlocked instantly.

It seems that we can only continue to attack!

"Booming!"

A loud bang spread, and Ye Xuan evaded and attacked.

After a few seconds.

"Hey!"

A golden armor general of the defensive gate suddenly collapsed.

General Jin Jia's defensive power is extremely strong, but it is controlled by the imperial decree after all, and will be disintegrated as long as it is attacked by certain attacks. Disintegration is not a destruction. If there is no special formation, Ye Xuan can reorganize the Golden Armor and fight for himself.

Chapter 798: Evacuation

Now, there are only four of the five Golden Armor generals.

In order to defend, the middle-aged man in black has to adjust another general of the Golden Armor.

"Hey, I see how long you can hold!"

Ye Xuan sneered.

He is faster than the middle-aged man in black, and he also has a dragon-shaped gold armor, so the middle-aged man in black can only attack him with the palm of his hand, and the speed of the palm is generally slower than the sword. So Ye Xuan has not had a trick yet.

He felt that giving him another ten seconds, he could collapse the main city gate.

After a few seconds.

"Hey!"

The second Golden Armor general collapsed.

General Jin Jia, only three left.

The middle-aged man in black is gloomy, watching Ye Xuan's attack continue to fall on the main city gate, but he has nothing to do.

Not only that, but his degree of danger has soared.

"Now a general Golden Armor will help you, I see how you block me!"

Ye Xuan drunk, suddenly turned to attack the black middle-aged man.

"Circle crack!"

"The wolf is rushing!"

"The Nether Palm!"

At this time, the middle-aged man in black knows badly. If he is cleared, then the city gate will fall.

"Netherland!"

The middle-aged man in black quickly left his hand to leave.

However, Ye Xuan did not catch up with this, but quickly plundered the two golden generals who defended the city, grabbing a fat meal.

"Hey!"

The third gold armor general collapsed.

Then, Ye Xuan was rushing to attack the city gate.

"If you don't come back, the main city will be broken!" The middle-aged man in black had to go back and tried to stop Ye Xuan.

at this time.

"Boom!"

Suddenly a loud bang spread, the array on the main city gate was broken, and the gate was directly collapsed by Ye Xuan.

This time, the middle-aged man in black is nervous.

There are two main gates in the main city, and there is one at the end of the wall passage. However, it has been destroyed by Ye Xuan, and he has no way. If the big emperor does not return during this period, they will lose.

"Haha!"

Seeing the collapse of the main city gate, Ye Xuan laughed three times, a sword-like flying around a golden armor general, and then swept in.

As long as you break through this door, then the victory is the six emperors. When the six emperors become princes, the benefits must be great. Breaking through the supreme is just around the corner.

However, it is at this time.

"I will be there soon. How is the situation?"

Suddenly a strange voice fell into Ye Xuan's ear. Ye Xuan turned his head and saw that the emperor in the middle of the black man's arms was shining.

This voice is the great prince!

"Damn, the big prince will arrive soon!"

Ye Xuan heart trembled.

Can't it be done, let him give up this door now, and then leave?

"His Royal Highness, he has broken a city gate!" The middle-aged man in black rushed back.

"After five seconds!"

The big prince's sentence made Ye Xuan completely give up.

In five seconds, he couldn't break the door of the main city. If the big prince came back, he might be blocked in the passage of the city wall.

"go!"

Ye Xuan did not dare to neglect, directly cast a ghost, and instantly plucked the wall passage.

During the use of Nether, his infuriating can only be condensed at his feet, unable to attack, so he passed by with the middle-aged man in black.

"What, Nether!"

The middle-aged man in black was shocked again. He began to wonder if Ye Xuan had already entered the ghost teaching, otherwise how could the ghosts teach a few extremities?

"Damn, you must stop him!"

The middle-aged man in black also showed his gloom, keeping up with Ye Xuan.

In fact, Ye Xuan still has a little bit of heart, he can't be scared off because of the big prince's sentence.

Therefore, he wants to turn around in the surrounding forest to see if the big prince appears after five seconds.

If not, he will quickly go back to the city.

If the big prince really came, then he quickly left, hide, and wait for the next attack.

However, it is right for him to give up the siege. In less than five seconds, the big prince appeared in front of the city gate.

However, Ye Xuan was swept by the eye of insight, so the Great Emperor did not find him, only saw the remains of three Golden Armor generals.

In the secret world, the perception is greatly reduced. In five seconds, it is absolutely enough to keep Ye Xuan away from the big prince.

"Fortunately, go fast, otherwise you have to face the big prince!"

Ye Xuan's heart trembled. In fact, he really wanted to fight the great emperor.

Although the great prince has cultivated the supreme martial arts, don't forget that Ye Xuan has an insightful eye.

However, even if Ye Xuan learned the supreme martial arts, what can he do?

He didn't dare to use it in the secret. After all, there were many ministers watching it. Even the Emperor of the Sun Dynasty was also there. If he learned to dare to use it, he would certainly be arrested and smuggled, and it might hurt the six emperors.

Besides, the Great Emperor will be martial arts, and the strength is extraordinary. Otherwise, why should the actions of the three emperors be restricted after the war?

Therefore, Ye Xuan can't take this risk.

"This guy has been chasing me, the big prince may be able to keep up, no, he must stop him!"

Ye Xuan's light flashed and his footsteps suddenly changed.

The next moment, his infuriating is burning quickly.

"Long Yun Qiankun!"

"Circle crack!"

"The wolf is rushing!"

"The Nether Palm!"

Ye Xuan madly attacked, and the middle-aged man in the black clothes who played the gloom was extremely fast, but he was still hit by the Nether Palm.

If it is normal, Ye Xuan will definitely win the pursuit, but now is a very moment, the movement of this palm has been noticed by the great emperor, he must leave.

"Netherland!"

Ye Xuan quickly swept away.

The middle-aged man in black was in the ghost of the ghost of the ecstasy, and spewed a blood, and he was seriously injured by this palm.

At the same time, he also lost the trace of Ye Xuan.

Not long after, there was a figure that swept over, it was the great prince.

"Is it okay?"

The big prince asked frowning.

"Nothing, just lost!" The middle-aged man in black shook his head.

"But it."

The big prince looked at the front. Fortunately, he rushed back. If he was slow for another half minute, he would probably have to be eliminated.

Although the three great emperors are now free to act, they are all held back.

The three emperors are basically guarded in the main city, but the six emperors are more than Ye Xuan.

In this secret, Ye Xuan has no opponents except the three emperors.

.....

Outside the secret.

The entire palace was boiling.

"It's so exciting. If the big prince is slower for a while, the kid will attack."

"Yeah, that kid is too enchanting, even if there is no dragon gold armor, one person is enough to attack the city."

"Now the great prince can't move around anymore. If this kid finds an opportunity to attack the city directly to destroy the dragon column, the great prince will lose."

"Haha, one person has actually held down two emperors at the same time. This kid is too powerful."

Chapter 799: Seven emperors, eliminated!

Now, the attention of the ministers has fallen to Ye Xuan. Who makes Ye Xuan almost dominate the entire siege war?

The princes who originally loaned Longyun to the Six Emperors saw that the Six Emperors were jointly attacked by the Great Emperor and the Seven Emperors, and their faces were all iron and blue.

Now, they look relaxed, because now the most likely to win is the six emperors.

If the six emperors become princes, then these sponsors will certainly get a lot of benefits.

At the same time, the emperor of the Japanese Yan Dynasty also looked at it with a smile, thinking:
"Now, the old seven forces are insufficient, the boss is pinned, how should the sixth six respond?"

He did not expect that this siege war was so wonderful, more intense than the one that was decades ago.

In retrospect, he himself stood out among many princes and became a prince.

.....

After avoiding the big prince, Ye Xuan did not leave, but quickly rushed to another level of the great emperor.

There are five people on the side of the big prince, three in the main city, then there may be two other levels.

As long as the two men are solved, the two front teeth of the great emperor are all gone like the seven emperors.

Soon, Ye Xuan arrived at this unbreakable level.

At this point, the level has already gone to the sky, and the great emperor has long commanded to send the troops away.

Ye Xuan is also unpretentious and quickly destroys the dragon pillar.

Now, in addition to the six emperors and a checkpoint, the seven emperors and the great emperor are gone.

"Six princes, what should I do now?"

After breaking through the second level, Ye Xuan quickly returned to the front of the Great Emperor's main city, and then contacted the six emperors.

"Ye Xuan, you will be holding the big prince there, and tomorrow I will send the Seven Emperors and knock him out!"

The six emperors replied.

"it is good!"

Ye Xuan should be.

From the strength point of view, although the six emperors did not have many wolf teeth riding, but he still has nine people, the vultures are out of the beginning, so he can directly control the nine thousand troops.

Three of the great emperors were in the main city, and the other two were in the wild. They did not know where they were stationed. At the same time, they also damaged four gold generals.

There are only four people left on the side of the Seven Emperors. Adding up to four thousand troops is not enough.

Today, Ye Xuan only occupied a resource point, and the remaining nine were divided by the Great Emperor and the Seven Emperors.

But now Ye Xuan is in the main city of the Great Emperor, the big prince can not send people out, so if you want to occupy the resources, you can only stay in the two outside.

Soon, it was at night, near midnight.

"Go out for a lap and prove that I am still there!"

Ye Xuan, who was hiding in a forest outside the main city, suddenly swept out and then attacked the gate at a distance.

"Come back?"

The big emperor's face sank and directly killed the city, but the next moment, Ye Xuan had already run away.

In these few hours, Ye Xuan has harassed countless times, making the great emperor very angry.

Now, he simply does not return to the main city, and he stands outside the city gate.

"I rubbed, it seems that I was irritated."

Ye Xuan swept his eyes with insight, and smiled helplessly.

After a while, the resource point was finally refreshed.

Prior to this, the Six Emperors were already on the checkpoint of the Seven Emperors, and another level was guarded. If the Seven Emperors dared to go out, then the Six Emperors would directly go to the main city.

As a result, the resource points are almost all occupied by the six emperors.

"Ye Xuan, we have nine resources."

The voice of the six emperors was heard in the emperor's order.

After all, the entire neutral zone is the army of the six emperors. If someone dares to come out, they will immediately touch these alarms, and then the generals of the Golden Armor will immediately pile up.

As for the last resource point, it should have been occupied by two members of the great emperor in the wild. However, it does not matter, nine resource points, so that the six emperors increased, and four thousand five hundred troops came out.

"Ye Xuan, you continue to guard, I am going out of the night to knock out the seven emperors!"

The six emperors suddenly said.

"it is good!"

Ye Xuan should be.

It seems that this battle has come to an end.

The seven emperors were forced to stick to the main city, and many people were abolished by Ye Xuan. The generals of Jin Jia also lost four. Even if he used the dragon transport to exchange troops, his own dragon sports would be greatly reduced. Six emperors.

The Six Emperors were ready to attack the city at this time, but he did not need to bring too many wolf teeth to ride, but called for ten Golden Armor generals.

Originally, they only had five gold generals, but for insurance, the six emperors deliberately used the dragon to change five.

Ten Golden Armor generals, together with the powerful six emperors, are enough to capture the main city of the Seven Emperors.

Tonight, it is destined not to be calm.

In the early hours of the morning, the six emperors had already led the ten golden armor generals and rushed to the main city of the seven emperors.

"Six brothers, you are still here!"

The seven emperors stood at the wall and said to the six emperors underneath.

"Old Seven, it's over, let's go down to fight!" Six emperors said faintly.

"It is good!"

The Seven Emperors should have a sentence, that is, with the final strength, out of the main city.

After the previous battle, he had only four thousand troops left on the side and two gold generals.

Although there are still four people in his majesty, only the black robe woman can play.

Behind the six emperors, there are ten golden armor generals with ten seals, and their strength is disparity.

"Six brothers, let me fight for you. If you win, I will quit myself!" said the Seven Emperors.

"It is good!"

The six emperors agreed.

Although he said that he has exchanged a large number of dragons, he has a lot of luck, and it is not a problem to deal with the seven emperors.

The two quietly looked at each other, each holding a long sword.

"Six brothers, offended!"

The seven emperors shouted and directly operated the Emperor Tianyi of the Japanese royal family.

At about the same time, the Six Emperors are also running Huang Tianyi.

A big fight, start this!

The seven emperors knew that they couldn't beat the six emperors. After all, the six emperors also had a set of dragon-shaped gold armor, and his chances of winning were probably less than 10%.

However, losing will also lose a little glory.

The two emperors, all of them have become the seal of the ten, but the strength is much stronger than the black robe woman, plus the supreme martial arts emperor, the two are almost invincible in the half step.

It is a pity that the Six Emperors are above the top of the realm and the Longyun, and they are much stronger than the Seven Emperors, so the Seven Emperors will soon be defeated.

"boom!"

A loud bang spread, and the seven emperors were shaken by a sword of six emperors.

"I lost!"

The seven emperors were unwilling in the eyes, but as a superior, the king was defeated, and he still understood this truth.

Losing, is losing.

At the moment, he turned his head and told one person to directly destroy the dragon pillar in the main hall.

"The seven kings of the main city of Long Tengzhu are broken, and the seven emperors are eliminated!"

Chapter 800: Ferry!

"The seven kings of the main city of Long Tengzhu are broken, and the seven emperors are eliminated!"

Wu Gonggong's voice rang in the sky. Then, all the people on the seven emperors turned into streamers and left the secrets, including the seven emperors.

And those forces are quietly standing in the same place, motionless.

Now, the three-legged trip has become a double world.

"Ye Xuan, the seven emperors have been eliminated."

The six emperors passed the emperor's seal and got in touch with Ye Xuan.

"There is nothing wrong with the big prince here, no one is coming out!"

Ye Xuan replied.

"Okay, if that is the case, then we will wait another day and attack the Great Emperor's main city after tomorrow afternoon!"

The Six Emperors were in a very good mood at this time. Now he has eliminated the Seven Emperors, then the opponent has only one big emperor, and the great emperor is restricted by Ye Xuan, so he can move freely in the secret.

At the moment, he sent a master to search for the two men outside the big prince.

It took him a day to finally find the two men and send out the secret.

In a few hours, the resource points will be refreshed again. By the time the Six Emperors occupy ten resource points, they will add up to five thousand troops.

At the time, along with the previous ones, there were tens of thousands of troops.

The ministers outside the secrets began to talk again, but looking at this situation, the outcome is already very obvious.

The great emperor insisted on staying for a long time. As long as the six emperors were over, the great emperor could not stop it. Then the position of the prince was the six emperors.

.....

After a while, it is noon. When the six emperors occupy ten resource points, they will immediately send troops.

However, it was at this time.

Ye Xuan, who was observing the eye in the forest from time to time, suddenly felt that something was wrong.

The heavens and the earth are gathering rapidly and gathering in the main city of the Great Emperor.

"How is this going?"

Ye Xuan was a bit stunned and hurriedly asked the emperor to ask: "The Sixth Highness, the heavens and the earth began to gather in the main city of the Great Emperor."

When the six emperors heard it, they suddenly responded and exclaimed: "Ye Xuan, fast, siege, the great emperor is going to rob!"

what?

Ye Xuan was shocked.

In the siege of the land, in the battle, to the robbery?

But if you want to come, the big prince is now the end of the strong, and if he goes on, he will lose.

However, Ye Xuan would not have thought that the Great Emperor would choose to go to robbing at this critical time.

You must know that the Supreme Robbery is very dangerous, so many people deliberately suppress it.

Ten of the ten seals of the semi-steps of the supreme robbery, can have a breakthrough to the Supreme is not bad.

At this time, the big prince actually wants to rob, it is simply looking for death. After all, once the sacred robbery is disturbed, it is likely to be smashed.

"Six Highness, I really want to attack the city?"

Ye Xuan asked subconsciously.

Now the great emperor is arrogant, if he is disturbed by him, he is smashed by a soul, and the master of the Japanese sacred prince is not going to kill him.

"Attack, no one is stopping you, this represents the default, attack!" Six emperors did not want to say.

After such a reminder, Ye Xuan was suddenly awakened. If the royal family did not want him to disturb the emperor to cross the road, then Wu Gonggong would definitely appear.

It does not appear now, which means that the royal family can attack the city by default.

"kill!"

Ye Xuan's eyes widened and rushed straight out.

Although the great emperor is likely to fail, but if it succeeds, then the six emperors will not be able to attack the main city even if there are more troops.

"Booming!"

The voice of the siege was deafening and disturbed the masters of the main city.

"His Royal Highness is robbing, fast, all killing, can't let him disturb His Royal Highness!"

The middle-aged men in black clothes drink, and the next moment, they rush out from the secret road of the main city.

Before the Great Emperor's camp was destroyed by Ye Xuan, four gold armor generals, now they only have two fighting bodies with 10% of the fighting power, but they still have a lot of long knife vice.

This is a critical moment, they must stop Ye Xuan from entering the main city, and must be successfully stopped.

After all, the great emperor was robbed by the Dragon Teng column.

At this time, outside the secret world is already open.

Everyone did not think that the Great Emperor would choose to break through in this link, the whole palace was boiling up, and everyone's eyes were gathered in the Emperor of the Sun Dynasty.

"I actually chose to rob at this time, what did he think?"

The Emperor of the Sun Dynasty sacred eyes.

His son, not only the seventeen, but more than twenty, but there are still a few adults, so they still live in the palace.

The emperors who had robbed the Prince of the year and there were many robbers, but almost all of them fell. It is normal to die in the royal family.

However, the great prince is his first son, he is still more concerned, so he also gave the great emperor a set of precious dragon gold armor.

"He has accumulated a lot of dragons and his strength is not weak, plus the dragon-shaped gold armor, it should be able to break through!"

Think about the heart of the Sun Dynasty.

However, what he is thinking about now is whether or not to let Wu Gonggong go to suspend.

If you go to suspend, then it is too unfair to the six emperors. If you don't suspend, the one-year-old emperor is disturbed and killed by the Supreme Thunder. It is also a tragedy.

"The emperor, how is it decided?"

The ministers and the emperors think so.

.....

In the secret.

Ye Xuan once again attacked the city, but this time the garrison force was much weaker than before.

"The Nether Palm!"

The middle-aged man in black madly attacked Ye Xuan, but all were escaped by Ye Xuan.

Ye Xuan also no matter what else, continue to attack the city.

The supreme robbery is to condense the strength of the heavens and the earth on the top of the head. After the cohesion is completed, there will be a robbery.

As long as you have survived, you will condense the golden body. If you have not supported it, you will be scattered.

Ye Xuan is also very embarrassed in the heart, roaring the big prince so shameless, breaking through at this key point, is this not clear that the royal family wants to pause?

Fortunately, the Japanese Yan Dynasty did not seem to come out, so he continued to attack.

Soon, the first city gate collapsed, and Ye Xuan quickly swept in and attacked the second city gate.

He was also very helpless. He had already collapsed a gate before, but it was fixed. Otherwise, he has already rushed into the main city.

"Booming!"

Ye Xuan's attacks all fell on the city gate.

"Quick, stop him!"

The middle-aged man in black clothes drank, and at the same time, he was killed by a general of the Golden Armor. Not only that, but there were more than a dozen long knife knives coming in.

However, at that time, five middle-aged men in black with five gold armor generals couldn't help Ye Xuan, now one, how is it enough?

"Annoying guy, roll!"
