Chapter 89: Experience mission

The score of 30,000 cracked Yunzong is equivalent to 300 million silver. In the battle with Fan Yue, Ye Xuan has just swallowed up the tens of thousands of cracked Yunzong points. Now, if you come back to this 30,000, you can definitely break through. The ninth medium-term martial arts.

In the evening, Zhou Cang called Ye Xuan to his yard.

"Ye Xuan, for the teacher, I don't know what I have done in my life. I can accept you as a disciple. Come, this is 30,000 points. I also told the teacher before. You can take the martial arts of the Yunyun sect. go with."

Zhou Cang is very generous and has to give Ye Xuan some points cards.

"Xie Shifu, the disciple must be well cultivated." Ye Xuan smiled and closed his mouth and hurriedly collected these score cards.

This time, he made a big profit. Not only did he get the points of 30,000 Li Yunzong, but he was able to learn all the martial arts in the Li Yunzong.

You must know that every ten martial arts is worthless, and the price is calculated in billions.

"Well, let's go first." Zhou Cang was satisfied and nodded.

Ye Xuan took advantage of 30,000 points and hurried away.

For him, Zhou Cang is also under the blood, and the cracked Tianzong's bet has not been sent, he himself posted it first. The reason why he came up with so much at the same time is that he wants Ye Xuan to practice in the cracked clouds in these days.

"The fifteen-year-old martial art is the ninth heavy. Hey, if I get this body, I can definitely break through to the true spiritual world before the age of 30. I can even ask for the real thing in my lifetime. It seems that it is time to prepare the last thing. ""

Zhou Cang Shuangyu issued two fine mansions, and then disappeared into the yard.

.....

However, at this time, Ye Xuan, who knows nothing about it, has gone to the refining pharmacy, and all of the 30,000 points have been converted into Tiancai Treasures, and then went to the Wuxue Pavilion, which will only have eight doors and ten products. A copy of the study was taken out.

As before, Ye Xuan hid these things in the devour space, and when they need it, they swallowed them instantly, which can hide their strength.

As for the ten martial arts, Ye Xuan did not use it for a while, so he did not learn much. He only learned a body of martial arts, in case he needed it.

He is now the ninth heavy martial art. It is ok to use ten martial arts, but at most it lasts for half a minute. After half a minute, his spiritual power will consume light.

What makes Ye Xuan's egg hurt is that this ten-piece martial arts, he spent a hundred points to devour points to learn. Therefore, he still has more than 500 points to swallow points, plus the cultivation resources worth 300 million yuan.

Today is the third day after the two comparisons, which is exactly the new month. Therefore, Ye Xuan went to the refining pharmacy to receive 2,300 points of Tiancai Dibao, and received it in the devouring space.

At this time, he suddenly remembered a problem, that is, there is no need to save 300 million in the space of engulfing space, as long as it swallows 200 million, leaving 100 million to devour space.

In this case, the 200 million heavenly treasures can be turned into spiritual power and can enhance a lot of strength. If he can't solve the trouble, he will swallow the last 100 million things and break through.

After breaking through to the ninth heavy martial arts, there are more and more natural treasures and sacred weapons, so Ye Xuan is also trying to make money, otherwise the strength will stay here forever.

Although he can receive more than 2,000 points of precious items every month, he can't stay in the cracked Yunzong all the year round. In this case, he needs one or two years to break through.

Therefore, he must take a task and go down the mountain to experience.

At this time, he has already arrived in the calendar of the Yun Yunzong.

"Lead mentor, what task do you want to pick?" The deacon of the calendar hall asked with respect and respect, now the whole cracked Yunzong knows that Ye Xuan has become a mentor, and he is no exception.

"Let me consider....."

Ye Xuan is now the ninth heavy martial art. He is qualified to take over the nine-product mission. He rummaged through the nine-question mission and then locked in a material task.

This task was issued by the elders of the Refining Medicine Hall. What is needed is a snake python called a flame ., At the same time, the mission also shows that this blaze lives in a hot spot deep in the 18th mountain range of Lianyun.

"Nine-order monsters, one thousand five hundred points, good, this is it."

At the moment, Ye Xuan took the task.

This task is not bad, both the money to take, at the same time you can collect the blood of the demon animal, but also go to Wanjincheng and Lianyuncheng.

After picking up the nine-character mission, Ye Xuan was ready to go back to the yard to pack his bags. However, he returned to the bamboo forest and bumped into a person.

Guan Lan!

After the comparison between the two, the relationship between Guan Lan and Ye Xuan is also close, and they are also friends. But the strange thing is that Guan Lan is always uncomfortable when he stays with Ye Xuan.

Ye Xuan's eyesight is not bad. Naturally, this is discovered. Now he can be sure that this language is like him.

"Do you want to go down the mountain to do the mission?" asked Lan Yuwen.

"Yeah, I took a nine-question mission and went to the Lianyun 18 Mountain Range. It is estimated to be one month." Ye Xuan walked over and said as he walked.

Guan Lan has hesitated for a moment, then he said: "Then you wait, I will pick up a task and go with the opportunity."

"Oh, okay." Ye Xuan did not think about it.

"Ok."

Guan Lan lightly sighed, then she trot left, Ye Xuan looked at her back, revealing a confident smile.

He used to be a former man, but a big man, the goddess is far from him. He did not expect to come to this world, the woman is constantly.

In addition to Liu Er, he also carried Xue Qingqing's fake marriage contract, and then came to a secret language that secretly loved him.

"I heard that the world can be married with three wives. Hey, Xue Qingqing's girl is too small. This is a good thing to accept." Ye Xuan looked at the back of Guan Lan, and smirked.

It didn't take long for Guan Lan to run back.

She received an eight-character mission, which was also released by the elders Xie. It was also used to hunt the monsters to take materials, and together with Ye Xuan, went to the Lianyun Eighteen Mountains.

Subsequently, they were separated from the split Yunzong.

After the disciples saw the two people who had left together, some people felt sorry for shaking their heads, while others felt that Ye Xuan and Guan Yulan were very good.

This time, the destination of Ye Xuan and Guan Yulan is the Lianyun 18 Mountain Range. However, due to the peers of Guan Lan, Ye Xuan can only go horse riding.

They spent a few days rushing to the ninth mountain range of the Lianyun 18 Mountains and then began to go deeper.

"Ylang, what is the monster you want to hunt?"

After entering the Lianyun 18 Mountain Range, Ye Xuan also turned around and asked.

The other one immediately, Guan Lan answered: "The eighth-order monster beetle tiger's fangs."
