

Super D. S 93

Chapter 93: Imperial inspection

"It's really good, 500,000. If you kill ten, then it is five million, one hundred is fifty million, one thousand is five hundred!"

Thinking of this, Ye Xuan's eyes are also beginning to shine.

Sure enough, it is more reliable to kill the monster!

However, this flame is not a ninth-order monster, not everywhere. Otherwise, Ye Xuan will definitely rise to the tenth martial arts in this Lianyun 18 mountain range.

The environment here is rather harsh, and even worse than in the desert, so after leaving the experience, Ye Xuan left the hot spot directly.

The nine-order monster is relatively rare, so Ye Xuan left the fifteenth mountain range directly and returned to the site of the eighth-order monster. At this time, his beast and blood, Cao Cao, has already broken through the two hundred mark, and there are still eight hundred blood vessels from the thousand beasts.

However, when Ye Xuan returned to the twelfth mountain range, the sky suddenly passed a group of black shadows.

"Hey, it's a flock of birds and monsters!" Ye Xuan was surprised because there were four or five species in this group of birds.

How do different kinds of monsters mix together?

"Forget it, knock them all down!"

Ye Xuan didn't think so much, just take out the broken cloud bow and raise his hand to shoot.

"The third star of the chaotic star, give it to me!"

"Hey!"

In a muffled sound, an arrow cut through the silence, and suddenly, this spiritual arrow was divided into nine and directly shot into the flock of birds.

Suddenly, there were four or five birds in the beast and the arrow fell.

At this time, a eagle who took the lead turned around and looked at it. After a humming sound from the sky, the whole bird group was led to fly toward Ye Xuan.

More than thirty monsters, swooping toward Ye Xuan.

But Ye Xuan is also unhurried, pulling the bow directly and continuing to attack.

The chaotic star arrow has been promoted to the third weight by him, that is, nine arrows are issued at one time, and in one second, Ye Xuan can open the bow two or three times.

In other words, one second Ye Xuan can shoot more than twenty arrows.

Before the birds and monsters swooped down, they were already losing most of them. Only a few of them were strong and unharmed.

At this time, Ye Xuan was finally moved, because he found that only three of the remaining six monsters were only nine-order monsters.

"How about the three nine-order monsters, even if they come to ten, I will give you all the shots."

Ye Xuan did not evade, so he stood in the same place and constantly attacked. Suddenly, the headed eagle swooped down and the sharp claws directly grabbed toward Ye Xuan's head.

"Get out of the way!"

Facing this claw, Ye Xuan's right fist suddenly clenched.

"boom!"

The fist slammed through the claws and slammed it on the body of the eagle, knocking it over.

Taking advantage of this opportunity, Ye Xuan quickly opened the bow and directly shot a starburst. The blasting star arrow formed by the thick spiritual power bursts open in front of the eagle, and the powerful impact directly blows the mouth of the eagle.

The eagle screamed with a sharp scream, but at this time, nine cold awns flashed and directly fell into its body.

The defense of the birds and monsters is not strong, and the chaotic arrows break their defenses easily. One of them is the piercing of the heart of the eagle.

"噗通!"

This eagle was killed in an instant and then squatted on the floor.

The other five monsters saw each other and screamed toward Ye Xuan. However, they could not pose any threat to Ye Xuan. After more than ten seconds, they all smashed into five bodies.

Nearly forty demon herds were squandered by Ye Xuan, and there were three nine-order monsters.

At this time, if someone is present, I will be surprised to say that there are so many dead bodies on the floor. Is it really done by one person?

However, at this time, in addition to Ye Xuan, there are really other people.

"Hey!"

Just as Ye Xuan was preparing to swallow all the bodies of these monsters, there was a series of muffled sounds on the side. This is someone applauding.

Hearing this, Ye Xuan's nerves that had just relaxed were instantly tightened. He didn't even find anyone around.

"The little brother is good."

Not far from the sound of a man, Ye Xuan turned his head and saw that a middle-aged man in white was slowly coming towards him.

"Not good, the Qiang Kun ring is exposed again!"

Ye Xuan looks a condensed, because he just suddenly turned out to break the cloud bow, assuming that this person is here early, then he must have seen it.

The middle-aged man did not continue to approach, and finally stopped at Ye Xuan thirty meters away. He looked at the forty bodies on the ground and smiled: "The younger brother is so young, he has such strength, he does not know the little brother. from where?"

"Hello, when inquiring about the details of others, is it possible to report your name first?" Ye Xuan asked.

"Haha, forgot to forget, I introduced myself, I Ouyang Ming, Xuanyang Empire Nanlin County inspection!" The middle-aged man said with a smile.

Xuanyang Empire, Nanlin County, inspection tour?

These three words are relatively unfamiliar to Ye Xuan and rarely heard, but this does not mean that Ye Xuan does not know.

At this time, he was in the place of Nanlin County of the Xuanyang Empire, but what shocked Ye Xuan was to inspect these three words.

The middle-aged man in front of him was actually an patrol ambassador of the empire. He knew that this was a rank of the king of the county, and he was an imperial position with Wang Ping of Nanlin County.

"The trough, in the case of the official, this is too fake, the backcountry can also meet a king and a king of the ranks." Ye Xuan felt incredible, of course, his heart is also somewhat doubtful.

"In the next leaf Xuan, crack Yun Zong tutor!" Ye Xuan hugs the fist.

"Oh?"

Ouyang Ming was surprised after listening to it.

He naturally heard of the cracked Yunzong, but he has never heard of such a young tutor. However, the strength of Fang Caixuan is what he saw with his own eyes. This is beyond doubt.

"It seems that I am ignorant." Ouyang Ming laughed at himself, but his eyes showed a strange look.

Ye Xuan looked at this person and asked: "Dare to ask the inspector to make an adult, is there anything else?"

From the beginning, he has been on the alert, although the other side is an empire, but this is the wild, the killing of the treasure is obvious. And a Qiankun ring is worth the price, and the high value is enough to make people feel disabled.

The most important thing is that he doesn't know the strength of this inspection, but he feels that the other party is very strong and very strong!

"Haha, the little brothers don't have to be nervous, there is no malice underneath. Only when I saw the little brothers got the arrow, the realm is not low, just happened to meet some things, so I want to ask the little brothers to help." Ouyang Ming said.

help?

joke!

This Ouyang Ming can be an imperial patrol, the strength is absolutely extraordinary, and Ye Xuan is only the ninth heavy martial arts, can help an egg?
