

Super D. S 931

Chapter 931: Decomposition

In the next moment, the six flying swords were attacked by the Emperor. At the same time, the masters of the ten Extreme Jiufeng peaks also rushed over.

"The Eye of Burning!"

"The Eye of the Illusion!"

Ye Xuan's deity and avatars are used in turn, although separated by a small realm and a big realm, as long as there is effect, go slowly.

At this point, they have been in contact.

A person with a hard body is too strong, and his body is much stronger than Ye Xuan, although the latter has a 70% agility bonus, which is better than the other.

Fortunately, they are crowded!

"Boom!" "Boom!" "Boom!"

The two sides are undergoing fierce infuriating confrontation. In this respect, Ye Xuan is still slightly better. After all, his deity and avatar can block the opponent's attack. The fall can be attacked with the star whip, in addition to six flights. Sword and ten backups.

"Annoying gimmick!"

Taishanghuang also had a comet and whip. After avoiding an attack, he even reached out to try to catch the star whip.

Unexpectedly, I only heard ‘嘭’, and the left hand of Taishang’s left hand was **** and shocked.

The attack that had just fallen did not hit him, so he did not know that the star whip had this effect, so he ate it.

"good chance!"

Ye Xuan saw this scene and hurriedly reminded him of the fall, while the dawn flashed quickly.

"The Eye of Silence!"

"The demon fox flashes!"

Taishang defeated once and was found by Ye Xuan. At the moment, he saw two flashes of light, a silver light, a white light mixed with gold wires.

“Hey!” “Hey!”

Two flashes passed, and the Emperor of the Emperor escaped from the fallen fox, but it was in the eyes of the more sturdy silence. Fortunately, he was blocked by the top sacred gods in his hand when he was in the millennium.

The top grade of the Supreme God Soldier is harder than the Supreme Golden Body of the Supreme Nine Peaks. The eye of the sorrow is not able to shake it.

However, this impact is so powerful that even the emperor is shocked by his right hand.

"A good and powerful attack, if my body is recruited, at least seriously injured!" On the emperor's forehead, there was a cold sweat. Although he said that he had recruited, he used the impact to stay away from Ye Xuan.

However, he ignored a point. Now his situation is that there are tigers in front and wolves in the back.

Behind him, there are six flying swords and ten 'self-persons of the supreme nine-peak.

"Hey!" "Hey!" "Hey!" "Hey!"

Countless attacks hit him. Even though he was fast, he was inevitably hit several times. Fortunately, his body was much stronger than the Supreme Golden Body, and he was still slightly injured.

"Sure enough, I can't help you. If you want to solve it, you can't do it."

Ye Xuan's face is a condensation.

Now, he made a decision in his heart.

"Hey, the eyes of the gods are very successful!"

The system prompts.

He still has a little advanced point, which he got from killing a swallowing beast in the breeding ground of the fox sage, and kept it for spare.

Today, he is used to strengthen the blood of the Tianyan Protoss.

At the moment, the effect of all the eyes is to improve.

"fit!"

Since the advanced is only the blood of the deity, it needs a fit.

After the fit, he has once again increased his combat power by 10%.

"The Eye of Burning!"

"The Eye of the Illusion!"

This time, the Emperor is not calm.

From the moment until now, the burning eye has been tormenting his spirit, he is very painful, but endured.

At this time, the power of the burning eye has increased more than a trace, and the burning eye is too high, and can not help but utter a low-pitched call.

In this battle, Ye Xuan has spent some of his life, and the rest are at the peak.

However, Tai Shang Huang was slightly injured, and the mental injury was heavier, so the situation was not good.

His face was gloomy and his heart made a decision.

kill!

Ten Supreme Jiufeng peaks are harassing him, which is very unfavorable to him, so he must pick up his hand.

At the moment, he turned around and was directly attacking the ten people behind him. His shot speed is very fast. After all, he is a super-powerful person with a hard body. In the blink of an eye, there are countless swordsmanship flashes.

"Oh!" "Oh!" "Oh!"

A series of crisp sounds, Tai Shang Huang instantly killed six of the supreme nine peaks.

"Sure enough, my heart is hot!"

Ye Xuan hit a chill.

On the same day, Taihang Emperor had a giant palm. Not only did he kill a large number of masters in the Burning Temple and the Yinyin Palace, but even his own people had killed a lot, so Ye Xuan was quickly calmed down.

Because the other person's body is very powerful, if you want to seriously hurt the other party, only use the more difficult to prevent the decomposition of the eye.

"Let's fall, prepare for close combat!"

Ye Xuan suddenly said.

"it is good!"

When I fell, I nodded and said that I understood.

They had already discussed the countermeasures long before.

Immediately, the fall is the direct use of the secret method, forcibly improved the strength, that is, began to burn that golden hair.

This time, I had to take out the bottom of the pressure box, otherwise it would be hard to say who lost and won.

After feeling the sudden rise of the breath, Taishang's face was more dignified. It seems that he also has to come up with some real skills.

"Xuanyue Yu!"

As soon as the Emperor's right hand was lifted, he went straight to the ground.

This move, but his unique skills, if he used this trick at the beginning, Ye Xuan may have to use the eye of the void to be able to block.

"not good!"

Ye Xuan could see the extraordinaryness of this move, so he immediately moved his mind, and the next moment disappeared into the eyes of everyone, and then appeared next to Ye Xuan.

"what?"

The Emperor was shocked, and the heart said: "Transient?"

Recycling pets, this is not really a teleport, because recycling is also a distance, and the fall can only appear next to Ye Xuan.

However, it is good to use this trick to let the fall escape the sword.

The attack fell through, and the emperor was also caught up by Ye Xuan and the fall. The next step was to work hard. Because of such a close distance, the difficulty of avoiding the attack was greatly enhanced.

"The demon fox flashes!"

After approaching, the fall once again used the unique skills, a white light plundered toward the Taishang Emperor, but was blocked by a sword raised by the latter. However, the fall is not only the trick of the demon fox, but also the fox fox.

"boom!"

The waves of the wind swept away.

Tai Shang Huang thought that he had succeeded, but he was only a avatar.

At the same time, Ye Xuan finally launched a skill that he just learned.

Decomposed eye!

Two invisible energy rays hit the Taishang Emperor. These two rays are invisible to the naked eye but can be felt.

"Zizi!"

The two rays fell on the weapons of the Taishang Emperor, and when the Emperor Shangyi wanted to sneer at the attack in his heart, he discovered that his weapons began to spread into countless tiny particles.

The eye of decomposition is not a normal attack!

Chapter 932: Devouring system, upgrade?

In the blink of an eye, the top-class sacred soldier is only half of the blade, and is still dying quickly.

In this scene, the Emperor was too scared to throw away the weapons in his hand.

Available at this time.

"The Eye of Silence!"

"The Eye of Silence!"

"The comet hits!"

Ye Xuan's deity and avatar are all shot together, and the fall is also a powerful whip that has been learned in the memory of inheritance.

This time, the emperor will not fade to the skin.

"Hey!" "Hey!"

The Emperor Taishang escaped the eye of the silence, but it was the chest of another lonely eye. Not only that, but also a drop of a whip on the back.

The two powerful attacks were relatively strong, and he couldn't help but spurt a blood. His chest and back were already a mess, **** and arrogant.

After playing for so long, he was finally seriously injured.

"The strong body of the flesh is so strong that the physique is so strong that it is impossible to kill him!"

Ye Xuan was shocked.

You know, he can cut a peak into two in one attack. The attacking power of the Eye of Silence is stronger than his Sword Attack, but it can only seriously hurt the other party, which is enough to prove that the other party's physique is strong.

However, the battle is almost over.

With the two strikes, the Emperor, and the mental damage, his combat power has dropped by at least 40%.

"The Eye of Silence!"

"The Eye of Silence!"

"The demon fox flashes!"

The three cold awns are lit at the same time.

In the case of a serious injury, Taishanghuang has no ability to escape these three attacks from different directions and is instantly hit.

"impossible....."

The mouth of the emperor's blood is full of blood and can't help but open up and spit out three words. This is the last three words he said in this life.

All three attacks fell on him, his heart has been shredded, and the falling fox flash directly cut his head.

A person with a hard body is too elder, and finally died!

"噗通!"

His head fell to the ground, but the blood was not sprayed too high because the chest and back had been seriously injured.

"噗通!"

It was a muffled sound, and the body slammed on the ground.

"Huh!"

Looking at the body of this Emperor of the Emperor's dynasty, Ye Xuan and Luo Luo also breathed a sigh of relief, and the falling hair was restored.

"This old guy is finally dead, we finally reported the enemies of the master." The fall immediately beamed.

"It's really hard to deal with. If he has the supreme spiritual treasure, then we are afraid to die here today."

Ye Xuan also wiped a cold sweat.

Now, Tai Shang Huang is dead, then his Qiang Kun ring is belonged to Ye Xuan.

Ye Xuan hurriedly walked over and took off the sacred ring of the Emperor.

As the first strongest of the Emperor's dynasty, Taishanghuang does not need to hide his wealth, so this Qiang Kun ring is his whole body.

Ye Xuan brainly poured the things inside into the swallowing space, and then quickly checked it.

At this time, there is a red stone in his engulfing space.

Blood rock!

"This is blood rock, the passage to enter the Holy Land?" Ye Xuan took the blood rock out and looked at it.

With this blood rock, he can enter the Holy Land, and the landing is about to have the qualification to enter the Holy Land, as long as she breaks through to the Supreme Peak.

Now, the enemy has reported, and the blood rock has also been obtained. This is a step in the matter.

However, when Ye Xuan was overjoyed.

"Hey, find the source of engulfment!"

Suddenly a system sounds, let Ye Xuanzhen in the same place.

What is the source of devouring?

However, listening to the name alone is definitely related to the phagocytic system.

When Ye Xuan was still thinking about it, the system prompted again: "The source of devouring can be used to upgrade the engulfment system, is it upgraded?"

After Ye Xuan listened to this one, the whole person could not help but shudder.

Upgrade, devour the system?

"Young master, what's the matter with you?" The side of the landing felt the abnormality of Ye Xuan and hurriedly asked.

Ye Xuan directly ignored the words of the fall, no, or he did not hear at all.

He glanced quickly and found a strange stone in the ring of the Emperor.

The lines on this stone are exactly the same as those on the devourer.

The source of devouring!

"upgrade!"

At the moment, he replied.

Just kidding, the phagocytic system can be upgraded, and naturally it is upgraded unless his brain is shot.

“Hey, the phagocytic system is starting to upgrade, and the current progress is one percent!”

The system prompts that there is also a panel with a progress bar that has risen to one percent.

This progress bar has risen very slowly and can't rise by one percent in a few seconds.

But this is no wonder, after all, is to upgrade the system.

Even if a computer needs to reinstall the system, it will take a lot of time, let alone the phagocytic system?

Ye Xuan waited quietly for a minute, only to find that the progress bar is still in the 1% position.

It seems that the phagocytic system has not been upgraded so quickly.

"Let's fall, Master, I made a big profit this time!" Ye Xuan could not help but say.

Although I don't know where to earn it, the fall can be seen from Ye Xuan's expression. At this time, Ye Xuan's joyful emotions have penetrated into the bones.

"Congratulations to the young master!" Falling laughter.

The stronger the strength of Ye Xuan, the happier she is, the self-cultivation as a pet.

This time, it was also out of Ye Xuan's expectations, and actually got a source of devouring.

He was the first to hear the name, but he was able to upgrade the phagocytic system, but he couldn't think of it.

I don't know, what kind of function will the phagocytic system after the successful upgrade?

The source of the devour was already used by Ye Xuan to upgrade the engulfing system, but Ye Xuan quickly took out the pen and paper and asked the emperor who came here: "Have you seen this kind of grain?"

The emperor and the rest of the three looked at it, shaking their heads.

This phagocytic pattern is usually found on the body of the swallowing beast. Now there is another source of engulfing, which can be expanded in the future.

"You have to order, let the people of the entire sacred search for this symbol, and inform me as soon as there is news."

Ye Xuan said to the emperor.

"Yes, master!"

The emperor nodded, even his father's body did not look at it, just left.

Although the battle here is fierce, but here is a forbidden place, no one can enter, so no one knows that the emperor has fallen.

As the engulfing system was still in the upgrade time, Ye Xuan still entered the palace of the Emperor, and swept it with the eye of insight, and found nothing hidden.

Then he simply moved into here.

Chapter 933:

Super swallowing system

"Let's fall, grasp the cultivation, and when you break through to the Supreme Peak, we will go to the Holy Land." Ye Xuan said to the fall.

"Well, okay."

Falling also understands what Ye Xuan went to the Holy Land for, and, with their strength, is almost invincible in the blood rock continent, so it must go to a higher place.

However, the fall is now only the beginning of the Supreme Nine, and it is at least a month to break through to the Supreme Nine Peaks. This is a conservative estimate.

Now things have been completely resolved, so Ye Xuan and the fall can be closed, and the avatar can also go back to the East China to explore the pro and report a peace.

Ye Xuan stayed in the palace of the Emperor Taishang. In the following time, he also kept watching the progress bar in his mind.

In an hour, the progress bar only increased by one percent.

It seems that waiting for the phagocytic system to be upgraded is more than four days.

There are still a lot of good things in the Taihang Huangkun Ring, but it is not enough for Ye Xuan to break through, so Ye Xuan gave it all.

Falling down has the effect of the blood of the beast god, the cultivation speed is as fast as the rocket, she cultivates one day, which is equivalent to those geniuses in the imperial city to practice for more than ten days.

Soon, four days are over.

"Quick, fast, the swallowing system is now upgraded!"

In a corner of the Emperor's dynasty, Ye Xuan was sitting on the ground with eagerness. At this time, the progress progress bar in his mind had reached 99%.

Only a little bit, the swallow system was upgraded successfully.

After half an hour.

"Hey, the phagocytic system is upgraded to a super swallowing system!"

"Hey, the blood of the sword **** is all advanced!"

"Hey, all the advances of the blood of the beasts!"

"Hey, all the advances in the blood of the gods of life!"

"Hey, all the advanced blood of the twins!"

"Hey, the eye of the gods is advanced!"

A few consecutive prompts have already stunned Ye Xuan.

The phagocytic system has been upgraded to a super-phagocytic system.

Not only that, but he has also improved all the advances of his current five blood.

After the promotion, the sentimental power of Jianshen blood is 60%, and the power of swordsmanship is also 60%.

The power of the beast **** blood is advanced to four, the agile advanced is eight, the pet growth speed, pet attributes, pet expansion are all four, the beast king deterrence and the engulfing income is also five, even the beastmaster violent that has been useless for a long time, both Upgraded to six.

In the virtual state of God, it relies on the righteousness, the field, and the will of the great emperor. The supreme depends on the sword and the supreme body, so the beastmaster violent is useless.

However, if it is to the Supreme Three Difficult Realm, then the Beastmaster Rage should be able to re-create as a card.

The physical difficulty of the Supreme Three Difficults is mainly to promote the body, so the Beastmaster violent can come in handy.

The blood of the beast **** has the most advanced, and the recovery speed and detoxification ability of the life **** tree have also increased three times.

The Tianyan Protoss raised the swallowing point twice, and once this system upgrade was given, it has already been upgraded to four.

But then, it is the highlight.

"Hey, start to condense the second avatar!"

After hearing this tone, Ye Xuan's figure trembled.

Second avatar?

Before he used the double fruit to condense the first avatar, but now with the upgrade of the system, the original five-point advanced point can be upgraded once, and it has been upgraded once.

"Haha, the second avatar, now I have three lives!"

Ye Xuan's heart is already happy.

The deity, the first avatar, and the second avatar are equivalent to three lives.

Not only that, but the advanced route of merging and combining has also improved.

"Double fit, increase strength by 20%, triple fit, and increase strength by 30%?"

Invisible, Ye Xuan's strength has improved a lot.

If the deity is combined with the first and second avatars, then his strength will rise by 30%.

"Okay, that's great. I will leave a detached person to accompany my loved ones in the East, and the deity and another avatar will go out."

Ye Xuan immediately made a decision.

Although the strength of 10% is quite good, but friends and relatives still need to take care of, leaving a detached person in the East China, can accompany their loved ones, but also be a way to leave for themselves.

If the deity and the first avatar hang in the future, then the second avatar is the deity, at least not degenerate.

"Hey, the second condensate is successful!"

The system prompts.

At the moment, Ye Xuan is calling this second avatar.

"The first avatar and the second avatar don't matter. It's the second avatar to go to the East."

Ye Xuan directly listed the second avatar as the first avatar.

"Hey, Gemini blood connections are successful!"

The system prompts again.

This time, I made Ye Xuan a confused.

What is the meaning of the twin blood connection?

But the next moment, he just understood.

After the success of this pair of blood connections, then in the future his deity will swallow the treasures of heaven and earth, and the avatar will also gain income and improve the same cultivation.

That is to say, even if Ye Xuan devours the Tiandi Diba at this time, the second avatar that is rushing to the Eastern Continent will also be upgraded, although the distance between the two is 100,000.

To put it simply, three people share one data, and the other two sides are updated from time to time.

"Haha, it's cool in the future!"

Ye Xuan is already laughing and laughing, and the surprise that he brought to him after upgrading the system is too much.

In the future, even if his avatar is acting separately, he can directly devour the heavenly treasure, and he does not need to save it to the deity. If the deity understands the sword, the other two avatars are not fit, and the sword can also be used. This is the blood connection.

The blood is upgraded, but the system's tone continues.

"Hey, redeem the system upgrade!"

"Hey, the forging system is upgraded!"

"Hey, pet system upgrade!"

"Hey, start the mission system!"

"Hey, open the magic weapon system!"

With five prompts, Ye Xuan couldn't help but start looking at the upgraded new system.

When the original redemption system was on the Tianshui continent, even if it was useless, you could only redeem some small things, equipment, and you need to build it yourself.

But now, after the upgrade of the redemption system, it can be directly redeemed to the gods, and even the supreme treasure can be.

The previous currency was engulfed and crystallized, and now there is a new currency called super-phagocytic crystallization, because the new system is called the super-phagocytic system.

However, Ye Xuan's net worth is not even a supreme spiritual treasure.

Forging system was originally able to forge weapons, armor, etc. as long as there are forging drawings. Now, after upgrading, there are a lot of tricks, such as weapons can be quenched with different fires, and can be strengthened to create a resonance set.

The resonance set is a lot more powerful than the original.

At present, Ye Xuan can create a sword **** suit, a beast **** suit, and so on, but one of them is called a brilliant suit, which has caused Ye Xuan's attention.

These suits are based on the blood. The sword **** suit and the beast **** suit are naturally corresponding to the blood of the sword **** and the blood of the beast god, but the brilliant suit is the suit of the eye of the gods of the gods.

The eye of glory is a very powerful eye. After use, the infuriating will turn into gold, and it will temporarily acquire a variety of powerful skills.

This brilliant suit is used in conjunction with the brilliant eye, which can greatly enhance the effect of the brilliant eye.

It is a pity that the materials of these suits have not been heard by Ye Xuan. It is not that he is ignorant, but rather too rare.

Next is the pet system.

Ye Xuan's beast **** blood can make Ye Xuan have several pets, but he feels that it is useless and needs to be refined.

His first pet was called Megatron, but at that time it was burnt by the eternal flames of Jiang Tian.

The second pet is the fall of mysterious blood.

Chapter 934: Megatron, magic weapon!

After the pet system is upgraded, the pet can be upgraded, but the upgrade needs to swallow the point, which is the original advanced point, or it can be regarded as the body of a swallowing beast.

However, after Ye Xuan saw the new features of the pet system upgrade, the whole body was also a tremor.

resurrection!

The pet system has an extra resurrection function!

"Heaven, you can actually resurrect your pet."

Ye Xuan's eyes widened and he hurriedly swept the panel and found that the No. 1 pet Megatron was shown to be resurrected.

"Hey, due to system upgrades, the system hosts a chance to resurrect pets at once!"

The system prompts.

Upon hearing this, Ye Xuan was so excited that he wanted to kiss the super devouring system. He even gave away a chance to resurrect the pet. He didn't think so.

"Young Master, you smiled and stayed behind." The fall suddenly appeared, looking at Ye Xuan's look, could not help but vomit a sentence.

"Haha, fall, come and meet your companion."

Ye Xuan suddenly laughed a few times. The next moment, he used the opportunity to resurrect the pet.

"Hey, Megatron resurrected successfully!"

When this reminder sounded, Ye Xuan's shoulder was already a green stone with a fist size.

"Oh oh..."

At this moment, the little stone suddenly slammed and extended the small arms and calves.

"Megatron, I haven't seen you for a long time!"

Ye Xuan was about to cry out. When he was in Shangqing Palace, his strength was not enough. In order to protect him, Megatron was burned to death by Megatron's inexhaustible flame.

Now, it is finally resurrected.

Megatron was also happy to hug Ye Xuan's face and bowed very embarrassedly.

"Come, give you something delicious."

Ye Xuan took out a piece of ore from the Qiankun ring.

Megatron did not say anything and swallowed it directly.

The Megatron of the year was only a sacred beast of the divine level, but after swallowing this ore, its level was soaring.

God's dilemma!

Virtual state!

The **** of the gods!

Virtual God!

Supreme Holy Beast!

In just a few breaths, Megatron was promoted to the Supreme Holy Beast.

After all, this ore is the material for the top-class sacred soldiers, and it is nothing to let Megatron go to the sixth-order sacred beast level.

You must know that there are still 40% of pet growth in the blood of the beast.

However, one piece is not enough for Megatron to eat.

"The ore is all for you, but this blood rock can't." Ye Xuan simply dumped all the ore and let Megatron eat.

Ye Xuan also discovered a point. After the resurrection, Megatron, the speed of refining ore is not a little bit faster. Is it a change?

He glanced at the panel and found that Megatron was no longer a soil, but a landlord.

Sure enough, something happened!

However, the change of Megatron did not change the blood of the beast god.

Soon, Megatron swallowed all the ore, and changed it from earthen to the landlord. The refining speed was amazing, and in just a few breaths it was upgraded to the eighth-order supreme beast.

"What a lovely stone, what is the young master?" The falling one grabbed Megatron.

Ye Xuan explained it quickly.

"The landlord? Didn't think that the earth can change, can it fight?" asked curiously.

Not waiting for Ye Xuan to open, the Megatron in the hands of the slender jade is suddenly rolled into a small storm, and then quickly expanded.

Then it became a green dragon.

"Roar!"

Megatron snarled in the sky.

"Wow, it looks so good."

Falling down to the big, beautiful eyes, she is also very eager to have such ability, but unfortunately, she is just a three-tailed little fox.

"After the pet system is upgraded, you can also advance your pet, but you need to spend a lot of swallowing points. Where can I go to find a swallowing beast?"

Ye Xuan is very helpless.

The Megatron change should be advanced, from the earth to the landlord, but after the change, the question mark is displayed on the pet panel.

Obviously, the falling blood is much more noble than the Megajun of Megatron.

Megatron and the Fall have played, and Ye Xuan has focused on the newly opened mission system and magic weapon system.

The mission system, similar to the sectarian calendar, can get some benefits as long as the tasks are completed, and some rewards are not available for the redemption system.

However, ordinary tasks are naturally not good enough. In addition to ordinary tasks, there is also a kind of random task.

This kind of random task requires a specific situation to be triggered, and the reward is rich after completion.

"Random missions, is it possible to reward swallowing points?"

Ye Xuan's eyes are shining.

The original phagocytic system is called the advanced point, and can only be used for advanced blood. Now the super-phagocytic system after the upgrade is called the swallowing point. In addition to the advanced blood, it can be used for redemption, as well as pet advancement and so on.

Ye Xuan did not expect that now it is possible to directly complete the random task to get the swallowing point, which is cool.

However, the random task only has a few lines of explanation, and does not say where or how to trigger, it is random.

As for the newly opened magic weapon system, Ye Xuan is not clear, he quickly looked at it.

"Hey, the host can currently refine the magic weapon, the magic weapon is a shadowless sword, and the Megatron is an instrumental spirit. The fit is 100%. Is it refining?"

When Ye Xuan was aiming at the past, the system prompt sounded.

"Is it awesome?"

Ye Xuan took a moment and hurriedly read the explanation of the system.

The magic weapon system requires an artifact and a spirit. The artifact can be a weapon or something else. And the spirit, it must be a self-aware thing, such as Megatron.

"The magic weapon, will be able to strengthen without limit, the host is not dead, the magic weapon does not die?"

After Ye Xuan finished reading, he couldn't help but swallow.

Infinite reinforcement, that is, it can grow like Megatron, but the host behind does not die, the magic weapon does not die, this is a bit against the sky.

"If I let Megatron be a good spirit, then as long as my three bodies don't die, then Megatron will not die?"

This is the understanding of Ye Xuan.

At the moment, Ye Xuan called the Megatron and asked him.

There is telepathy between the owner and the pet, although Megatron does not speak, but it is agreed.

"Okay, then I will make you a magic weapon!"

Ye Xuan nodded directly and directly collected Megatron.

"Hey, start to refine the magic!"

"Hey, the magic weapon is a successful refining!"

When the system sounds down, Ye Xuan has already taken out the Zhentian sword that was changed from Megatron.

Chapter 935: Magic weapon, shocking sword!

The Zhentian Sword is a light green long sword. The blade is translucent and emits a faint green light. It is similar to the Fenglong that Ye Xuan once got.

Not waiting for Ye Xuan to open, this Zhentian sword suddenly collapsed and turned into a green stone.

Megatron!

"Haha, I made Megatron a sword." Ye Xuan looked at Megatron in his hand, and his mind was moved, and he was restored to the appearance of Zhentianjian.

Zhentianjian, now is the magic weapon of Ye Xuan, as long as Ye Xuan is not dead, then Megatron will not die, it is invincible.

Ye Xuan quickly swept the panel and found that the realm of Megatron was forced to ascend to the super supreme sacred beast. After all, the material sword of the earthquake sword is a supreme spiritual treasure.

In the future, Ye Xuan can use the ore and other things to strengthen the earthquake sword, and the realm of Megatron will also increase.

After making Megatron a magic weapon, Ye Xuan discovered another point. There is still a skill in this earthquake.

Wan Jian returned to the sect!

This sword is returned to the sect and can only be used once a day. It seems to be a very powerful skill.

However, although the name is Wan Jian, but now only a hundred swords.

At the moment, Ye Xuan is standing up directly and throwing the siren sword in his hand.

"The sword is returned to the sect!"

At that time, the Zhentian sword is divided into hundreds, and hundreds of Zhentian swords dance like lightning in the air. If there are enemies inside, they will be twisted into pieces in an instant.

"If I had a battle against the Emperor before, I would have this move, and the other party might be directly shredded by Wan Jian."

Ye Xuan looked at the hundred swords that fluttered in the air, and the mind was once again moved.

Spirit Swords!

In the next moment, hundreds of Zhentian swords hovering over the palace were quickly enlarged and turned into giant swords.

"Hey!" "Hey!" "Hey!"

A giant sword suddenly fell, inserted in the leaves around Ye Xuan, hundreds of great swords, directly put Ye Xuan around a tight air.

This is the spiritual sword array, a means of defense.

Ye Xuan looked around with an ant that was afraid of not coming in, and immediately applauded.

"Very good, Megatron restored the prototype."

Ye Xuan is very satisfied.

At the moment, the giant swords of the earthquake are disappearing one by one, leaving only one earthquake sword. Then the earthquake sword changed again, and according to Megatron's own ideas, it became a green pony.

"Young master, you are so good now, if you are so powerful a few days ago, we don't have to play so fiercely."

The eyes fell and praised.

Ye Xuan can not be nodded.

However, if his phagocytic system has been upgraded to a super-phagocytic system on that day, even Wan Jian's return to the sect does not need to be used, and the blood can be used to clean up the Emperor.

After all, after the upgrade of the phagocytic system, all his blood is advanced.

Now, the upgraded system and the newly opened system, Ye Xuan has experienced it all over again, but there is still a system that has not been opened, causing Ye Xuan's attention.

Blood Fusion System!

"The host still lacks a battle bloodline and cannot be turned on!"

This is the reason why the blood fusion system has not been turned on. After Ye Xuan saw it, the eyes were released again.

Now he already has five blood vessels, the blood of the sword god, the blood of the beast god, the blood of the **** of life, the blood of the twins, the blood of the gods of the eye, the blood of the two gods, the two blood vessels, but the blood of the battle is still one.

It seems that only a combination of six blood vessels can open this blood fusion system.

"I don't know, is it the fusion of the blood of the battle and the blood of the battle, or can it be casual?"

Ye Xuan also can't understand, but he understands that this blood fusion system must be very powerful.

Unfortunately, the blood of the battle is not expensive, but the expansion column of the battle blood is too expensive to die. Ye Xuan only hopes to be able to buy the battle blood in the three realms of the supreme.

As for the new battle blood, he was already selected, and after the phagocytic system was upgraded to a super-phagocytic system, the blood was updated a lot, but since the extension bar could not afford it, he only took a cursory look. .

.....

The system has been upgraded, and Ye Xuan can't just sit still like this. The fall has not yet broken through to the middle of the Supreme Nine, so Ye Xuan wants to take advantage of this opportunity to go to several other high-level dynasties.

"Let's fall, let me go out."

Ye Xuan said to the play with Megatron.

"Ok."

The fall fell gently.

It's just Ye Xuan's deity. The first avatar still stays here to learn the sword-shaped stone. If Ye Xuan's deity is in danger, then he can immediately receive the pet space from the landing and Megatron, and then release it by the deity.

However, on this **** rock continent, Ye Xuan is almost no rival.

On the **** rocky continent, there are four great pilgrimages, three in addition to the Imperial dynasty.

The goal of Ye Xuan is the Qing Yu Sheng Dynasty, which is closest to the Emperor.

If it is to say strength, this Qingyu dynasty is still better than the Imperial dynasty, but the things in the national treasury will definitely be much more than the Emperor's dynasty.

Ye Xuan rushed all the way, only spent five days, from the Emperor's dynasty to the emperor of the Qingyu dynasty.

The emperor of the Qingyu dynasty is also the supreme Jiuyi Peak, and there is also a strong person in the imperial city.

"With my current strength, I can directly kill it. I don't need to control it. However, it is good to insure."

Ye Xuan's eyes swept directly to the outside of the Imperial City.

Not waiting for the defending general to open, Ye Xuan directly controlled him.

"Adults please!"

The defending general directly took Ye Xuan in.

The soldiers who defended the city were also very surprised. They have been guarding the Imperial City for so long, and they have seen Ye Xuan for the first time, but they dare not ask.

After successfully entering the Imperial City, Ye Xuan also said directly: "Take me to find your emperor!"

"Yes!"

The defending general was respectful.

With him leading the way, Ye Xuan did not need to find it himself. Soon, he came to the emperor's place.

Among the solemn and magnificent halls, one official bowed respectfully, and a dragon-chair was sitting on a middle-aged man, the emperor of the Qingyu dynasty.

However, Ye Xuan went straight in.

"General Hong, who is he?"

After the emperor saw the defending general, he asked very strangely.

Now, at the time of the Shang Dynasty, the defending general did not go to guard the imperial city. What are you doing here?

Ye Xuan is too lazy to talk nonsense, directly to the emperor to control the eyes.

The eye of the gods and the blood of the gods, after two upgrades through the advanced point, the phagocytic system upgraded to a super swallow system, and once again improved, so the effect is much stronger than before.

Ye Xuan just used the eye of control once, and successfully controlled the emperor of the Qingyu dynasty.

"Ah, it turned out to be an adult."

Under the control of Ye Xuan, the Qing Yu Emperor hurriedly stood up.

Chapter 936: Rushing the high sacred!

The group of civil and military officials are still bowing, they can not turn around, can only listen to the ears. Soon, they felt that the emperor had been turned away, so he could only continue to squat.

Just, what makes them surprised is why the messenger is only the mid-ninth?

However, they did not think much, this must be because their realm is too low.

In this way, Ye Xuan turned to the emperor when he was in the DPRK, and let him take the treasury.

The treasury of the Emperor's dynasty was taken by the Emperor Taishang to change the blood rock, but he did not use the blood rock to enter the Holy Land, was killed by Ye Xuan, blood rock and sword-shaped stone also fell into the hands of Ye Xuan.

However, this Qingyu sect did not do this. They knew that even if they sent people into the blood rock sect, they were only the lowest-ranking people. It was better to develop on the blood-rock continent.

Ning is a chicken head, not a phoenix!

Ye Xuan let the emperor of Qingyu enter the state treasury, but the gate of the Treasury has just been opened, and there is a strong atmosphere to cover it.

"Imperial, now you don't go to the DPRK, what do you do in the Treasury?"

An old voice sounded.

Ye Xuan turned to look at it and found a Tsing Yi old man plucked over.

"See the father!" The emperor hurriedly said hello.

If it was before, Ye Xuan would definitely be scared, but he saw the Queen of the Qing Dynasty, but he did not agree.

"Who is this kid?" The Emperor of the Qing Dynasty rushed over and put his eyes on Ye Xuan.

At this time, the emperor should be right in the dynasty, can bring a young man to the state treasury, what is it to do?

"Don't ask, your son is already under my control. If you know each other, just turn around and leave."

Ye Xuan said with a calm look that with his current strength, there is no need to fear each other.

In this world where the strong is respected, the heavenly treasures belong to the strong.

"what did you say?"

After hearing Ye Xuan's words, the Qing Yu Sheng dynasty was too old, and he turned his head and saw that his son suddenly fell next to Ye Xuan. This means that what Ye Xuan said is true.

It is incredible that the Supreme Jiufeng Peak is controlled by a young man in the middle of the Supreme Nine.

"No, you are not the mid-ninth!"

The Qing Yu Sheng dynasty Taishang Emperor exclaimed.

"But it is you who are looking for death!"

Ye Xuan's light flashed, and the next moment, there were two figures beside him.

Fall!

Megatron!

"Young master, do you want to charm him?" asked the stranger of the Qingyu Holy Emperor.

Ye Xuan nodded. The next moment, he used the burning eyes directly against the old man.

"Charm!"

Falling is also a matter of words, directly using charm.

Two mental attacks directly infiltrated the old man's head.

"You are looking for death!"

The old man was shocked and hurriedly punched a punch.

But at this moment, suddenly a giant shield stood in front of Ye Xuan and blocked the fist.

Although Megatron was refined into a magic weapon, it can still be shaped, and it has the hardness of the supreme Lingbao.

"Megatron, lock him!"

Ye Xuan shouted.

"Hey!"

"Hey!"

Upon hearing this, Megatron directly decomposed and turned into an armor, which was attacking the old man in a split.

"roll!"

The old man is crazy to punch, but with his realm, he can not destroy the supreme spiritual treasure.

In a few crisp sounds, the old man put on the armor of Megatron, and now he is incapable of moving.

"What is this?"

The Qing Yu Sheng dynasty was shocked by the Emperor, but he was a strong man with a hard body. He could break the mountain with a punch and his body was so powerful that he was blocked by a strange thing. How is this possible?

"The Eye of Burning!"

"Charm!"

The Qing Yu Sheng dynasty was too imposing to be a target, and his willpower was constantly weakened.

Ye Xuan has not tried to control a strong person who is physically difficult. Although he has crossed a small realm and added a big realm, Ye Xuan's Tianyan Protoss blood is already powerful, and he has advanced three times to control the physical strength. The person should be able to do it.

"Budget, where did you come from?" The Qing Yu Sheng dynasty was overwhelmed by the Emperor.

In just two seconds, he has been suffering from the pain that has never been seen for decades. His willpower is strong and he can't stand the torture.

"The Eye of Burning!"

"Charm!"

"The Eye of the Illusion!"

It was another round of spiritual assault. At this time, the look of the Emperor of the Qing Dynasty was too strong.

"In the eyes of the illusion?"

Ye Xuan immediately beamed his eyebrows. It seems that the spiritual power of the Emperor of the Qing Dynasty has been weakened by him.

"The eye of control!"

This time, Ye Xuan directly used the eyes of control.

"Hey, take control of success!"

When the system prompts to sound, the set of green armor that Megatron changed is an instant fragmentation, and then reorganized into a shocking sword suspended in the air.

"See the host!"

The Qingyu Holy Emperor Taishang Emperor knelt down on one knee.

"well!"

Ye Xuan was very satisfied and nodded. Now, he has a servant who is physically difficult.

At the moment, he took the other party's Qiang Kun ring and swept his own punch.

When I found a lot of good things in the inside, I immediately laughed: "Thank you, Master."

Originally, she estimated that it was a month to break through to the top of the Supreme Peak, but now, time can be shortened a lot.

"Go in."

At the moment, Ye Xuan is the commanding emperor and directly enters the national treasury.

The treasury of the Qingyu dynasty is really a lot of things, but it is not enough for Ye Xuan to break through to the Supreme Peak.

"God down and look for this pattern."

Afterwards, Ye Xuan was letting the emperor look for the devouring plaid.

Then, Ye Xuan quickly left the Qingyu Holy Dynasty and went to the next goal.

The entire **** rock continent seems to be the back garden of Ye Xuan, no one can stop him.

Half a month later, Ye Xuan swept the remaining two high-level sacred sects, one of which was the high-level sacred prince, or the Orc lion emperor.

After looting the four high-level sacred rites, Ye Xuan's realm was as expected, and it was upgraded to the Supreme Peak.

At this time, in a corner of the blood rock continent.

"Although it has reached the peak of the Supreme Nine Peaks, it has not yet reached the peak of the Supreme, and it is impossible to cross the body."

Ye Xuan is a headache. Even if all the sacred dynasties in the entire blood rock continent are looted, I am afraid that I can't reach the peak, so he gave up.

"Young Master, in a few days, I can break through to the Supreme Nine Peaks."

The sound of the fall sounded in Ye Xuan's mind.

"Well, you continue to practice, this young master went to visit those intermediate sects." Ye Xuan replied.

This time, he did not intend to rob the intermediate dynasty, but went to the treasury of the intermediate sacred pilgrimage to see if there was a source of devouring or swallowing the beast.

Chapter 937: Blood Rock Zonglai

The swallowing point can be used for advanced blood, advanced pets, and can be used for redemption. The source of engulfing is a necessity for merging blood, of course, it can also be used to exchange treasures and so on.

In short, the super-phagocytic system has three currencies, super-phagocytic crystallization, phagocytosis, and phagocytosis.

The battle blood extension bar is very expensive, and if you can get the swallowing point, it can replace a lot of super swallowing crystals.

Unfortunately, the devour of the beast is not easy to see, Ye Xuan has even turned more than a dozen intermediate pilgrimages, and there is no road or treasury.

"Young Master, I have broken through the Supreme Nine Peaks."

Just as Ye Xuan was ready to continue to travel around the country, there was news from the fall.

"Okay, I will go back soon."

Ye Xuan nodded, and immediately broke through the void, and sent it several times in a row.

His virtual position is full of four, easily crossing dozens of sacred dynasties and returning to the Imperial dynasty.

"Young master, can we leave?"

When I saw that Ye Xuan came back, I asked directly.

"Ok."

Ye Xuan nodded.

It was already half a year since the Song Dynasty and the Song ruling were taken away by the Yin and Yang ancestors, so Ye Xuan did not want to stay for a moment.

Now, the strength of their group is very strong, whether it is Ye Xuan himself or not, they have the strength of the single-headed body.

Megatron is even more powerful. Because it is a fusion of the Supreme Lingbao Shadowless Sword, it is already the level of the supreme Lingbao.

Coupled with the Lingbao system, it is now immortal, unless Ye Xuan's deity plus two avatars.

However, Ye Xuan left the second vest in the East China, and there was a day in the East China. Although it could not be said that 100% would not be a problem, 99% still exist.

After they have sorted it out, they are ready to go.

However, just at the moment they were about to leave, there was suddenly a strong breath that entered the circle of Ye Xuan's induction range.

"It's so strong, the breath is several times stronger than the hard-lined people in each country."

Ye Xuan swallowed it.

At this time his nerves are already tight. It is reasonable to say that there will not be such a strong talent pair on the blood rock continent, so he guessed that this person should be from the Holy Land.

This is a young man in red, about 30 years old. He directly plunged over the Imperial City of the Emperor's dynasty and shouted: "Where is Wu Gaoyi?"

This sentence fell in the ears of everyone in the Imperial City, so that everyone is surprised.

Wu Gaoyi, who is it?

"Bold, dare to swear at the Imperial City?"

A general without a long eye screamed and ran with a small team.

"Noisy."

Unexpectedly, the young man in the red dress gently swung a few times, and a few knives smashed the team in an instant.

Just kidding, the district is supreme, and dare to challenge the strongest of the three difficult ones?

Others may not know who Wu Gaoyi is, but Ye Xuan knows.

Wu Gaoyi was the Emperor of the Emperor's dynasty who was killed by him and the same day.

At the moment, the emperor quickly swept up and respectfully said: "I have seen the ambassador, my father is out."

"After another seven days, the team of my blood rock sect will pick up. If it is a mistake, the consequences will be conceited." The young man in red clothes shouted.

"No, my father has given blood rock to a genius of my royal family." The emperor shook his head.

Then, Ye Xuan and the fall were flying up. At the same time, Ye Xuan still held the blood rock in his hand.

"Well, then I will leave with me now." The red-haired youth nodded slightly and was ready to leave with Ye Xuan directly.

The emperor hurriedly pointed to the land and said: "The ambassador, her qualifications are good. Only 15 years old this year has already broken through to the Supreme Jiufeng Peak, reaching the standard of Xueyanzong, and also invited the adults to bring her."

The blood Yanzong's income standard is to break through to the Supreme Jiufeng Peak before the age of twenty, and it is only fifteen years old, which is absolutely in line with the requirements.

However, there are quite a few treasures in this world that keep people looking good. It is impossible to judge from the outside.

"It's fifteen years old. It's not bad. You have finally had a genius in the emperor's dynasty for so many years."

The young man in red nodded slightly, even if he took out a piece of purple spar and threw it to the land: "Hold."

Falling to catch the piece of purple spar, the next moment, the purple spar is a big radiance, full flashing fifteen times.

"It is indeed fifteen years old. This qualification is even in my blood rock, it is not bad." The red youth is very satisfied.

The truth he said, after all, the place where life falls is the **** rock continent, not the holy place.

If you have grown up in a holy place since childhood, I am afraid that it will be difficult to get through the flesh.

At this time, the red-shirted youth fell on Ye Xuan again and said: "However, he can only enter the blood rock sect by virtue of blood rock. He must also work in the labor service for three years or get through the physical difficulties. Promoted to a disciple."

Labor service, for three years?

Ye Xuan's brow was picked.

The labor service hall is obviously a place where the hard work is waiting, and it has to wait for three years?

However, it does not have to be three years to become a disciple. After all, there is still a way to break through.

"Well, my blood rock squad's team arrived seven days later, go!"

The young man in red is one of the hands, grabs Ye Xuan and falls, and flies directly into the distance.

This **** rock continent is one of the ten bloodstone ancestors, and it is not taken seriously, so the red-shirted youth is guarded by one person.

As for the entrance to the Holy Land, it is not on the **** rock continent, but on a small island on the edge of the blood rock.

The red-collar youth caught Ye Xuan and fell, and spent five days returning to the island.

They have not yet fallen, this island is just opening.

"The owner is back!"

Ye Xuan looked at the small island and swept it with the eye of insight. It was eclipsed.

On the coast of this small island, there are hundreds of beautiful women, and the strength is not weak, at least the nine robberies.

"These are my wife and sister. You should stay on the island for one night. Don't run around. If you delay the time, you will be conceited. I will send you to the Holy Land tomorrow, and I will be escorted back to Xueyanzong by the team of Xueyanzong."

The red-shirted youth directly dropped Ye Xuan and the fallen, and then entered a palace under the crowd of hundreds of beautiful women.

"The trough!"

Ye Xuan has been shocked to the five bodies, this red youth is an ordinary disciple of the blood rock sect, but on this blood rock continent, it is the king to dominate, so uncomfortable.

"Really, it seems that it is not a good thing." The whispered softly.

This sentence, almost scared Ye Xuan, but fortunately, the fall is directly in his mind, and there is no opening.

If you are heard by the red-haired youth, then you will be in trouble.

Chapter 938: Entering the Holy Land

"Don't talk nonsense, this person is probably a master of double physical difficulty or triple physical difficulty."

Ye Xuan reminded.

Although he also feels that this red-haired youth has a lot of wives, even if he is three in a day, he will have to go for a month.

"Young Master, I won't say it, but if it's just that the double body is difficult, we should be able to deal with it." Fallen curiously asked.

Hearing this, Ye Xuan also nodded. "I and you plus Megatron, can indeed fight with the double flesh, but the triple flesh should not work unless we break through."

"Hey, I still go to practice. If there is no heavenly treasure, I guess it will take at least three months to get through a hard body." He whispered his mouth.

In three months, this is already a very horrible number. It took the entire Emperor to spend a full decade, and spent a lot of heaven and earth to break through a difficult body.

"Do not worry, Tiancai Dibao waited until the Holy Land, the young master gave you." Ye Xuan vowed.

In his hand, there is a sword-shaped stone.

Before he gave the sword-shaped stone to the Lord of the Burning Temple, he later learned that the sword-shaped stone is very precious and more valuable than the Supreme Lingbao.

If the secret of the sword-shaped stone is said, then the young man in red may directly kill the treasure. Therefore, after thinking about entering the holy land, Ye Xuan will find a chance to sell the sword-shaped stone.

It is a pity that the sword-shaped stone is an enlightened thing. If it is swallowed up, it will not have much value.

At this time, Ye Xuan and Luo Fang were just looking for a place to spend on this small island.

Since the phagocytic system was upgraded to a super-phagocytic system, there has been an additional mission system.

This mission system is quite good, but it is a pity that Ye Xuan is now in the **** rock continent. The tasks here are very low-level. It is nothing more than the task of killing, hunting the supreme beast, searching for materials, rewards are also some bargains, what is the best God soldiers and the like, so Ye Xuan is too lazy to waste time.

However, after the Holy Land, the mission is tempting.

After completing the task, you will be cherished by the ore, super martial arts, and even those essential items that open the eyes of the sky. But for Ye Xuan, the most tempting nature is the swallowing point.

Ye Xuan and fell on the island for a day.

The next day, the red youth was looking for it.

"The team of my blood rock sect will arrive soon, and the two of you will come with me." The red-shirted youth said to Ye Xuan and Luo.

Ye Xuan and the two quickly rushed up and entered the palace of the red youth.

The Holy Land is actually a huge mystery, a lot more than the blood rock continent. The entrance to this mystery is at the bottom of the palace.

Soon, Ye Xuan saw the entrance to the secret.

"Come in."

The red-haired youth took Ye Xuan and fell into it.

After Ye Xuan and the fall, the whole person couldn't help but hit a spirit. They looked around and found that the Holy Land and the Blood Rock Continent were no different.

However, the strength of the heavens and the earth in the Holy Land is at least ten times that of the **** rock continent.

Their foothold is on the edge of a cliff, and the front is an endless grassland.

"My blood rock sect is in the holy land of Penglai, although it does not flow, but it is a huge thing for you. You are coming in with blood rock, you can choose not to enter the blood rock sect." The red-shirted youth said to Ye Xuan.

"I choose to enter."

Ye Xuan nodded.

Just kidding, the heavens and the earth in the Holy Land are so full of energy. If you cultivate in it, the speed of cultivation is at least ten times that of the outside world. I am afraid that there are many strong people in the body. He is alone in the Holy Land to find death, or to find a place to find out. Say this holy place.

However, Ye Xuan learned from the words of the red youth.

I am afraid there is more than one holy place.

The holy place where Xueyanzong is located is called the Penglai Holy Land. It is not known that the yin and yang ancestors are not in this holy place of Penglai.

"The messenger, don't know if you have heard of the yin and yang ancestors?"

Ye Xuan asked.

"Yin and Yang ancestors?"

The young man in red was wrinkled. He didn't know why Ye Xuan asked this question, but he still replied: "I have never heard of it. Has he appeared in the **** rock continent?"

"Yes, I had the privilege of seeing him six months ago. He should be a holy place. When he left, he should have brought a man and a woman." Ye Xuan immediately nodded and immediately took out the portrait.

"Oh, this is the predecessor."

The red-collar youth suddenly recognized it and said: "The **** rock continent is under my blood rock ancestor, but there are many strong people coming. This predecessor is one of them."

"The ambassador can know who this predecessor is?" Ye Xuan's eyes immediately lit up.

He had been guessing that the yin and yang ancestors came from the Holy Land and confirmed it now.

"It is not clear that the **** rock continent has even surpassed the high-ranking people in Vientiane. They usually come to the blood rock mainland to explore and excavate, and occasionally help to expand the territory. I have also had the privilege of seeing several faces, and this predecessor in your mouth. I guess it is even stronger than the Vientiane, which is not something I can touch."

The red-shirted youth shook his head and asked: "Why, are you looking for this predecessor?"

"Compared, more powerful than Vientiane?"

Ye Xuan swallowed and swallowed, it seems that things are in trouble.

He did not expect that the yin and yang ancestors were so powerful.

Vientiane has the ability to change the island, even if 10,000 Ye Xuan is not its opponent, and this yin and yang ancestor is even stronger than the Vientiane, and Ye Xuan suddenly feels tremendous pressure.

Ye Xuan slowed down his emotions and replied: "No, it was only the day that I had the privilege of seeing the predecessor. I didn't expect the predecessor to be so strong."

"Oh, indeed, the predecessor is the strongest person I have ever seen." The red-shirted youth thought that Ye Xuan had a relationship with the yin and yang ancestors, but did not expect that he had just had a side with him.

For the sake of his own ruling and Song ruling being taken away by the yin and yang ancestors, Ye Xuan is still not prepared to be wary.

"Is that brother heard about the old days?" Ye Xuan continued to ask.

"The sky is old?"

The red-brown youth frowned and said: "No."

This answer is also to make Ye Xuan somewhat strange. Just when Ye Xuan was preparing to take out the portrait of the old fairy, there was a scream in the sky. Ye Xuan turned around and saw a **** giant. The bird swept over.

"The team of my blood rock sect is coming," said the red-shirted youth.

When the voice of his voice fell, the **** giant bird plunged over their heads.

So fast!

Ye Xuan swallowed his mouth, because of his perceptual eye, he found a breath that was many times stronger than the red youth.

"Oh, is the No. 10 Blood Rock mainland coming two people this year?"

A red-haired old man swept down and said something strange.

Chapter 939: Blood rock

"Deacon, the qualification of this little girl meets the standard in the door." The red dress said respectfully.

The red-haired old man locked his eyes on the falling body and said: "It turned out to be a little fox. This is the first time I saw it."

After he finished, he also took out a spar of test age, and tested it once again.

"Fifteen years old, not bad, is the best in the history of the mainland on the 10th." The old man in red is satisfied with the nod, and looks at Ye Xuan, said: "How old are you?"

"Twenty-four."

Ye Xuan answered honestly and handed a piece of blood to the past.

"If you have blood rocks, you can go to the labor office for three years." The red-haired old man took the blood rock and said: "You two, go to the back of the blood rock bird."

Ye Xuan and the fall of the news, also followed the red old man flew up, when they came to the back of the blood rock bird, found that there are already many people on the top.

These people are very young, and some have reached the level of physical difficulty.

"Oh, our **** rock continent is too low-level, these people should come from other bloodstone continents." Ye Xuan sighed in his heart.

He learned from the mouth of the emperor's sacred prince that there are more than one piece of blood and rock, and there are still many. These geniuses directly gave Ye Xuan tremendous pressure.

The blood rock bird began to fly. This red-haired old man is only a deacon of Blood Yanzong. He is responsible for picking up newcomers in this area every year. Ye Xuan's **** rock continent is not the last, so they have to turn around.

Next, Ye Xuan and Luo Yu were on the back of the blood rock bird for another seven days, and then received more than ten people before flying to the blood rock.

During the time on the back of the blood rock bird, Ye Xuan heard many things from the surrounding population with the eye of perception.

For example, the blood rock bird under their feet was cultivated by the blood rock sect.

For another example, the blood rock sect is built on a blood-rock vein. Those who have not reached the entry criteria for blood rock sects have to enter the labor service for three years. In the past three years, they have been going to mine blood.

"Blood rock can be used to forge the sacred treasure. If you give Megatron, it will definitely greatly enhance the strength of Megatron. And now I have to be sent to mine bloodstone. By consuming the space, I am afraid I have to make a big profit." ""

Ye Xuan's eyes are full of light.

It is not allowed to wear the Qiankun Ring to enter the bloodstone veins. The Blood Rocks will issue the Qiankun Ring to prevent people from stealing blood. However, Ye Xuan's devour space can't be found, and by then he can do things like stealing chickens and dogs.

Thinking of this, Ye Xuan was excited because he found a way to make money.

After another week, the blood rock bird finally arrived at the Blood Rock.

The red-haired old man jumped to the ground and immediately saw a disciple greet him.

"Well, the person who has reached the entry standard and I come, the rest follow him to the labor office." The old man said.

"Young Master, my qualifications should be ok, I will help you out when I get there." Falling in my mind said.

"No, I can come out by myself, you will practice it." Ye Xuan directly refused.

"Well, then, let's go first." He laughed and then left with the old man in red.

Looking at the back of her departure, Ye Xuan showed a sad look, because every time it was like this. When he fell in the Emperor's dynasty, he was directly recruited as a tribute, and he only became a squad leader.

At this time, he looked around and found that more than 30 people, like him, had to be sent to the labor office.

"You guys are coming with me," said a **** disciple of Blood Yanzong.

The people who stayed with Ye Xuan are all supreme, but they are all over the age of twenty, so they must stay in the labor camp for three years, or break through to the Supreme Three Difficulties.

Ye Xuan was mixed among these people, followed the red disciple to the labor office to register, distributed some things and accommodation.

"Now you are the comrades of my blood rock sect. I must have known you. The main task of the labor service hall is to mine blood rocks. Every person must hand in 30 blood rocks every month. One piece a day, if found to be lazy, will be bleeding Yanzong." The disciple said.

"Brother, if we have a few pieces of blood rock?"

Someone asked.

"More will be handed over, but it will be recorded. Everyone has a blood rock every day. It is 30 pieces a month. If you take more blood, such as forty, then you will get a blood rock." As a reward, it is also one tenth." The red disciple explained.

After listening to Ye Xuan, she couldn't help but sneak a blank eye.

To put it simply, every month, you have to dig up 30 pieces of blood rock, more than ten pieces, you will get a piece of blood rock as a reward. If you have more than one hundred pieces, you will get ten pieces of blood rock as a reward.

"It's really dark, how much I will dig tomorrow." Ye Xuan snickered in his heart.

There is room for phagocytosis, he just needs to leave a blood rock to turn in every day.

Soon, he returned to his place to rest.

The fall has been taken away by the red-haired old man. With her qualifications, someone should accept her as a disciple.

It didn't take long for the fall to send back the news.

"Young master, there is an elder who accepts me as a disciple." The joyful voice of the fall sounded in Ye Xuan's mind.

"Elder? Yes, what is the realm?"

Ye Xuan brows a pick.

"The master told me not to ask more..." answered the answer, "but the master directly gave me a thousand pieces of blood."

A thousand pieces of blood rock!

After Ye Xuan listened, he almost swallowed the throat. Others worked hard to dig a day in the blood and rock veins. I am afraid that one or two pieces will be handed over, and the land will be directly received by a thousand.

You must know that even if you are the first-class sacred treasure of quality, you need a hundred blood rocks.

If the comrades are able to mine four blood rocks every month and turn in 30, then you can get a blood rock reward every month, one year is twelve.

Want to buy a supreme Lingbao, nine years!

"Young Master, do you want it, as long as you break through to a hard body, you can be promoted to a formal disciple." Asked.

"For the time being, I will go to the blood rock and veins tomorrow. You will go to the Tianmu Dibao to cultivate yourself, and then get some forging materials for me. The young master will build the supreme spiritual treasure." Ye Xuandao.

"it is good!"

.....

Soon, it was a day passed.

This is the first day that Ye Xuan stayed in Blood Rock.

It is hard to imagine that the forces like Blood Rocks are not influential in the holy land of Penglai. How strong will the top forces in the Penglai Holy Land be?

Chapter 940: Hard body

The next day, Ye Xuan went to gather early. These newcomers, who are newcomers, need to go to the bloodstone vein to mine blood.

The red disciple of yesterday also arrived on time.

"Well, you 35 people, follow me to the bloodstone veins, set off!"

When the red disciple finished speaking, he took the lead and plunged in one direction.

They flew for an hour and finally saw a pink light beam.

"That is a vein of my blood rock sect, the smallest, when you only allow weapons to enter the blood rock mine," said the red disciple.

"Senior brother, is there any danger in the blood rock mine?"

Someone asked with concern.

"Yes, there is a super-sacred beast called Blood Rock Spider, which is harder than a heavy body. Be careful when you cut the stone wall, because sometimes you will dig into the nest of this blood rock spider. But don't worry, blood rock. In the mine, I sent my disciples to sit in the town. If there were blood rock spiders, they would be killed by them." The red disciple replied.

When you heard the danger, the people present were not calm.

You know, they are still only supreme, and the worst of the blood rock spiders is comparable to a hard-skinned master. If you really dig, you will die.

"The probability of digging into the nest of blood rock spiders is not high. It may not happen once a month. If someone really touches it, then ask for more happiness." After the red disciple finished, it was in the pink light column. next to.

The pink beam of light came from a huge hole, the blood rock mine.

Then, Ye Xuan and others were handed over to the Qiankun ring and received a new ring. And Ye Xuan is also coming out with a supreme **** soldier, pretending to look like.

"Well, you will come by yourself every day, remember that you must dig up 30 pieces of blood rock every month." The red disciple said, he turned and left.

There are also several disciples of the Blood Rocks at the mine entrance. They are responsible for keeping Ye Xuan's Qiang Kun ring and identity token.

Then, Ye Xuan jumped to the blood rock mine with the new Qiang Kun ring.

This blood rock mine has just been opened up soon, so it is not very big. Ye Xuan has not yet landed, but it has sensed hundreds of people, all of whom are coming to mine blood.

Most of these people are armed weapons and attack the stone walls. Of course, there are also some people who practice their fists and feet, so they use their fists.

However, the hard strength of this stone wall is beyond the expectations of Ye Xuan.

This mine is pink, but it is just ordinary rock. The real blood rock is dark red, not these pink rocks.

Ye Xuan glanced at him and found that his perceptual eye could cover the entire blood rock cave.

In order to insure, he also directly searched for a mine without a person and started mining.

"Megatron!"

Ye Xuan directly called Megatron, and said: "Look at you!"

Megatron immediately reorganized into a drill bit and sneaked into the depths of the mine.

And Ye Xuan, also directly took out a new shadowless sword.

"Flower Shadow Sword!"

"Hey!"

The stone wall in front of him burst open, but the defense of the stone wall was beyond his expectations. His sword actually broke into a distance of one meter.

He turned to look at Megatron and found that Megatron had drilled five meters.

"Megatron, half of the person who got it." Ye Xuan said to Megatron.

Since the normal attack is not strong, then try something else.

Ye Xuan's light flashed and a silver light shone.

"The Eye of Silence!"

"boom!"

The stone wall burst again, this time, breaking the distance of five meters.

"I didn't expect that even the eyes of silence would not work. If so, try the eye of decomposition!"

Ye Xuan once again, two decomposed rays plucked out.

"Zizi!"

The disintegrating rays hit the stone wall, and the stone wall began to rapidly turn into fly ash.

"Fast decomposition speed!" Ye Xuan was shocked. In a blink of an eye, the stone wall in front of him was a lot more spacious, at least broken down by hundreds of square meters.

However, at this time, Ye Xuan thought of it again. Will the decomposition of the eye break down the blood rock?

Just in time, Megatron in the head suddenly lost a piece of blood rock.

"When others attack the stone wall for an hour, I am afraid I can only cut one meter. I am fast."

Ye Xuan thought about it, and then he put the blood rock on the ground.

"The eye of decomposition!"

It is also two decomposition rays, this time directly on the blood rock.

At this time, his mood is also very helpless, because blood rock is not easy to get, in case the decomposition of the rays to break down the blood rock, it is a tragedy.

Fortunately, this blood rock is not a general thing, and it has not been broken down by the decomposition of radiation.

After seeing this scene, Ye Xuan's mood did not know how to describe it. After all, the blood of the Tianyan Protoss was advanced three times.

But this news is at the moment, it is a good news.

"Since it can't be broken down, it's easy to do."

Ye Xuan's light flashed, and the next moment, he called the first body in the body.

Then, the deity and the avatar attack together, and at the same time use the disintegrating eye, the efficiency doubles.

The eyesight of the disintegrating eye is lower than the eye of the silence, but the blood of the **** of life cannot be restored. Therefore, Ye Xuan is mining and looking for it in the super swallowing system.

"With, the gods can improve the recovery of strength and strength!"

Ye Xuan found a good thing in the new exchange system.

Unfortunately, his current super-phagocytic crystallization is not enough, so he had to devour the blood rock he got.

"This **** article, the first weight actually needs ten blood rocks to be able to redeem, it is really a pothole." Ye Xuan slightly helpless.

Now, he still lacks nine blood rocks to be able to redeem the first weight of this god.

However, fortunately, Megatron is here.

"Small day, first mine nine pieces of blood rock for me." Ye Xuan said to Megatron.

Not long after the mining of Wei Zhentian, he took a piece of blood rock, but it was also good luck. The second blood rock, Ye Xuan is fully waiting for half an hour.

Ten pieces of blood rock are also the time for Ye Xuan to spend a whole morning.

"Hey, the host has learned the gods!"

The system prompts.

It is worthy to spend ten pieces of blood rock to exchange this god's article. Ye Xuan just learned that the ceiling of Philip has doubled.

"The recovery speed of Philip has also improved a lot, and the efficiency is fast." Ye Xuan was overjoyed.

If it is a day, he can collect at least 30 blood rocks.

The most important thing is that if you have some blood rocks, he will be able to get through the flesh.

By then, mining speed can at least double.

It took another half day.

When Ye Xuan swallowed the twentieth blood rock, he finally heard the system sound.

"Hey, the host breaks through, it's a hard body now!"
