Chapter 941: Twilight Holy Land, Yin Yang Temple!

"Hey, the host breaks through, it's a hard body now!"

From the supreme breakthrough to the supreme three small difficulties, no need for anything, so Ye Xuan successfully broke through.

His breath suddenly surged at the moment of the breakthrough. Not only that, but his physique has also increased several times.

Fighting power has increased at least five times!

"The flesh is difficult, the body is trained. Now my physical defense is already stronger than the Supreme Golden Body. The Supreme Golden Body is not useful to me." Ye Xuan said in a heart.

Now, the Beastmaster's violent skill of the blood of the beast, he can use it again.

Before the fall and change twice, the blood of the beast **** was also changed twice, and the phagocytic system was upgraded to a super swallowing system, so the Beastmaster violently increased three times, reaching 60%.

However, after the breakthrough, Ye Xuan put his mind on another matter.

Megatron continued to mine, and Ye Xuan took out a round jade.

This round jade is the eternal fairy to Ye Xuan, which records the information of Yin and Yang ancestors.

Ye Xuan directly wrapped the round jade with the infuriating air, and then, on the round jade, it showed eight words.

"The Twilight Holy Land, the yin and yang temple!"

When I saw these eight words, Ye Xuan's face immediately became stiff, because the name of the holy place above was not Penglai but the dawn.

"Damn, it is not the holy land of Penglai, where is the holy place of dawn?"

Ye Xuan frowned.

The size of the Penglai Holy Land is beyond his imagination, and he wants to go from the holy land of Penglai to the Twilight Holy Land. He does not know how much time.

"Let's fall, help me ask where the Shuguang Holy Land is." Ye Xuan immediately contacted the fall.

"Ok."

The fall should have been a cry. Not long after, she replied: "The master said that there is a transmission between the Shuguang Holy Land and the Penglai Holy Land. However, if the blood rock sect wants to transfer the array, the master's realm must be at least ten. Year's time."

"What, ten years?"

Ye Xuan exclaimed.

This is still a conservative estimate of the realm of the fallen master, a blood rock elder. Moreover, this is only to the Twilight Holy Land, not to the yin and yang temple.

"It seems that the yin and yang ancestors are very big. It's no wonder that the old gods say that I am too much."

Ye Xuan was very bitter in his heart. He spent half a year breaking through the Supreme Way to the Supreme Three Difficulties.

Although the celestial saying that the Song dynasty and the Song ruling do not fit together as long as the frequency of the soul does not fit, it is impossible to successfully fit.

However, what other means are there in the yin and yang ancestors?

In any case, he has to upgrade his strength as soon as possible, and then go to the dawn of the Holy Land.

"Megatron, continue to mine blood!"

Ye Xuan immediately ordered.

Now that he has broken through a heavy body, the mining speed has doubled directly, and he has the blood of the **** of life, no need to rest, so what he thinks now is to mine overnight.

Although Megatron is a magic weapon, it can still be swallowed by blood rocks. It continuously refines bloodstone and the mining speed will continue to increase.

Three-pronged, their efficiency is unparalleled.

Ye Xuan has just entered the blood rock mine today. However, it is directly mining a hundred pieces of blood rock. If it is known by others, I am afraid it will scare each other.

One day later, Ye Xuan left with more than forty blood rocks.

"Let's fall, has my forging material been collected?" Ye Xuan asked.

"Okay, but these materials are surprisingly cheap, a piece of blood rock, I changed the material of a hundred shadowless swords." Fallen replied.

"Then we see the mountain gate!"

After Ye Xuan finished, he left the mine directly, and then put a piece of blood rock in the ring, and handed it over.

On the first day, he mined more than a hundred pieces of blood rock, engulfed twenty pieces, and the rest were half-pointed with Megatron.

However, he feels that the most profitable is to create the supreme spiritual treasure.

A blood-blooded disciple outside the blood-rock veins saw Ye Xuan, but could not help but said: "Hey, the younger brother you broke through, do you want to be promoted to ordinary disciples, or continue to be a confidant disciple to mine blood?"

If it is promoted to an ordinary disciple, then it is impossible to continue to mine blood, because the mining speed of the blood rock sergeant disciples is the same as the blood condensing speed. If ordinary disciples come to mine, I am afraid that the veins will be lighted quickly. It will not condense blood rocks anymore.

"Not for the time being, thank you brother!" Ye Xuan thanked a sentence, and then left.

If the blood-blooded disciple knew that Ye Xuan had mined hundreds of blood rocks in one day, he would probably be scared to death.

After leaving the bloodstone veins, Ye Xuan plunged toward the blood rock Zongshanmen.

The **** sect of the **** day brought them over, and many of the team were slow, so it took an hour.

Now that Ye Xuan broke through, it took only a few ten minutes to return to Xueyanzong.

"Young Master, here."

Falling in front of the mountain gate, waving to Ye Xuan, her pure and beautiful, coupled with the Fox Mei family born with an inexplicable attraction for men, but it has caused a lot of **** blood disciples.

I am well aware of the fall of this point. Fortunately, Ye Xuan shouted in my mind, otherwise Ye Xuan will become a public enemy of the people.

Ye Xuan swiftly swept the past and took over the ring of the ring in his hand. He said: "Why is the material here so cheap? A piece of blood can be exchanged for one hundred, and one of the most supreme treasures must have one hundred. Blood rock?"

After that, he just forged this hundred forging materials into a shadowless sword, a full hundred.

"Let's fall, take this one hundred and take it to the Armory Hall and sell it." Ye Xuan will pass it back.

"Well, I will go here."

The fall should be a sentence, and then the flight also ran away.

The people around him looked stunned. Ye Xuan took over the Qiang Kun ring and handed it back, and the two still silently, and finally fell away and suddenly ran away.

Is this a mime?

Ye Xuan was waiting at the mountain gate. After a while, the fall was in a helpless tone: "The young master, the shadowless sword is too bad, and it is barely the supreme spiritual treasure. The old man of the weapon hall said that one hundred will only give one hundred blood. rock."

"What, a shadowless sword is a **** rock? Is he looking at your age and pit you?" Ye Xuan was messed up in the cold wind.

Shadowless sword, but the supreme spiritual treasure, the supreme spiritual treasure again, it is impossible to rotten to only worth a piece of blood.

"Really, he took a supreme Lingbao for comparison. As a result, the shadowless sword was split into two halves by a sword..." Fall explained.

"cough....."

Ye Xuan was said to be speechless.

It seems that the shadowless sword is really bad.

Speaking of it, the technology of Wanjian Mountain Villa is really not very good. It is hard to create a sword embryo without a shadow sword, but it cannot forge a complete shadowless sword.

If you let them know how bad the sword is, then I will probably climb out of the grave and vomit blood and die, and die again.

Chapter 942: Mining blood rock

"No shadow sword, it should be regarded as a quasi-supreme spirit treasure. After all, the forged material is in the Burning Yang Temple. The weapon in the blood rock sect uses blood rock, so the point is reasonable."

Ye Xuan's heart comforted himself and asked: "Then you ask, can you get the forged drawings of the supreme Lingbao?"

"They don't sell!"

Fall and answer.

"Well, then you can get some forging materials, a piece of bloodstone material for a hundred pieces of blood rock, this sale is not lost!" Ye Xuan quickly responded.

"Well, I will go here."

Falling also feels that this sale is very profitable. As long as it is more than a few times, they will be able to make a fortune.

However, things are not as simple as Ye Xuan imagined.

"Young master, no shadow sword, star whips, long hate knife three materials, one is too low-level, blood Yanzong does not ..."

The sound of the fall sounded again.

This time, Ye Xuan really wants to cry without tears.

If the material is advanced, the blood rock sect does not have that, but the material is too low-level, and Ye Xuan is almost vomiting blood.

"How much is there?"

Ye Xuan had to give up the road to make a fortune and earn the last one.

In the end, the fall brought only thirty pieces of material without a sword, and they earned thirty more blood rocks.

"The new exchange system of the Super Devouring System can be purchased directly to the Respectable Treasure, but the Blood Rock Zong can build the Supreme Lingbao by itself, buy it from the exchange system and sell it again. It will not earn much, but it will attract attention, or it will be low-key... ..."

Ye Xuan decided to give up, or honestly be a miner.

In fact, when a miner is also good, now he is collecting 100 pieces of blood rock a day. It is 3,000 pieces of blood rock in one month, and the task only needs to turn in 30 pieces. If it is not a month, he can break through to double. The flesh is hard.

"Right, do you have the value of the sword-shaped stone?" Ye Xuan asked again, he had forgotten the sword-shaped stone.

"Not yet, the master suddenly closed, so I have to wait for a while, or I will ask other people." Shake his head and shook his head.

"Then wait, wait for her to come out and ask, the money is not exposed." Ye Xuan shook his head.

They are newcomers to the first time. The lesser they know about the sword-shaped stone, the better, the more the master knows.

Then, Ye Xuan left directly.

After a while, it will be difficult to break through to the flesh, and in order to catch up, he will return to the blood rock mine to mine.

Now he has broken through a lot of physical difficulties, and he can mine more than 100 blood rocks every day. After all, the strength of him and Megatron will continue to increase.

He once again entered the blood rock mine, then called out the avatar and Megatron to continue digging.

Megatron is a harvester, and its excavation speed is much faster than Ye Xuan.

However, Ye Xuan, who broke through to the Supreme Three Difficulty, greatly improved his upgrade experience, so he estimated that it will take several days before he can break through.

In the blood rock mine, people are mining blood rocks all the time. At this time, Ye Xuan suddenly thought of a way.

"Megatron, Wanjian is a sect!"

Ye Xuan ordered the world under Megatron.

Wan Jian is a sect, and it is a powerful move after Wei Zhentian was refining into a celestial sword.

This trick has a day of cooling, and he is not going out now, so don't use it.

Megatron got the order and immediately reorganized into a shocking sword, and then divided it into hundreds in this spacious place.

"Hey!" "Hey!" "Hey!" "Hey!" "Hey!"

Suddenly, the wind whistling in the mine.

The duration of Wan Jian's return to the sect will increase with the increase of Megatron's level. Now Megatron is only comparable to a hard body, but it can last for more than ten seconds.

After more than ten seconds, the entire mine track was smashed by Ye Xuan to the size of a football field.

"The trough, really good, ten seconds saved me for at least two or three hours." Ye Xuan swallowed himself.

At this time, Megatron also recovered into a bit shape, and then Ye Xuan glanced at it and found that the excavation had produced more than 30 blood rocks, which was really a big outburst.

"Megatron, all for you." Ye Xuan said very generously.

When Megatron heard it, he immediately smashed the past and swallowed all the blood.

From the Earth Spirit to the Earth Monarch's Megatron, the speed of refining ore is really amazing. It takes only one minute to refine a blood rock.

The blood rocks that I got before, Ye Xuan also gave Megatron all, because he felt that Megatron would break faster than him. After all, Megatron had a 40% growth rate.

On the second day, Ye Xuan calculated that they had fully exploited more than one hundred and six blood rocks.

Even if a master with a hard body is hard to mine, I am afraid that there are at most ten blood rocks, and Ye Xuan is more than ten times theirs.

Others have to rest for a while, but Ye Xuan has the blood of the **** of life, and can be mined endlessly all year round, but after a few points, he will go out and pay a few blood rocks.

In this way, Ye Xuan stayed in the blood rock mine for four days.

"Hey, Megatron upgrades!"

A system prompts to sound.

"I finally broke through you."

Ye Xuan's deity stopped and showed a gratifying smile to Megatron. He did not hesitate to cultivate Megatron.

Now, the scale of Megatron, if converted into humans, is that it is difficult to double the body.

Originally, before it broke through, it could mine two hundred blood rocks with Ye Xuan. Now, after breaking through, can at least improve one hundred?

"Good guy, come, Wanjian is a sect!"

Ye Xuan ordered.

The next moment, Megatron became a shocking sword and divided hundreds of figures.

Ye Xuan calculated that Megatron could almost break through today, so he kept the sword back.

This time, Wan Jian returned to the area to open up such a large area of three football fields.

"Eighty-seven blood rocks, give strength!"

Ye Xuan praised one sentence.

Since Megatron broke through, he will upgrade himself. At the moment, he is swallowing up all of the eighty-seven blood rocks.

Later, he used the super-phagocytic crystallization of almost a hundred blood rocks, and exchanged the second weight of the gods, and the strength was raised again.

The increase in the upper limit of force and the recovery speed of the force also indirectly led to an increase in the mining speed of Ye Xuan.

He calculated that he can now collect four hundred blood rocks in one day.

"Haha, it's really big."

Ye Xuan smiled in his heart.

Even if he is given 10,000 pieces of blood rock and he is promoted to an inner disciple, he will never do it.

Although over-exploitation of blood rocks will cause the depletion of blood-rock mines, Ye Xuan is too lazy to manage so much.

The blood rock sect has been established for thousands of years, and there are at least hundreds of blood rock mines. Even if this small mine is exhausted, it will not affect it.

Chapter 943: Random task

It took another three days.

"Hey, the host breaks through, and it is currently difficult for the double body."

On the seventh day of Ye Xuan's entry into the Blood Rock Mine, he finally broke through.

This time, the mining speed has increased again.

"At my current speed, I can probably produce 600 pieces of blood rock every day. I dig a day and a half, which is equivalent to the average number of tasks for two years..."

Ye Xuan secretly smug.

Other comrades, including Ye Xuan himself, have 30 missions per month and three hundred and sixty a year.

And he can mine six hundred blood rocks a day, as long as one and a half days, almost two years can be reached.

Suddenly a sense of superiority emerged from the heart of Ye Xuan.

Six hundred a day, then ten days is six thousand, and within a month, he can break through to the triple body.

At the same time, shortly after Ye Xuan's breakthrough, the fall came again.

"Young master, that primary sword-shaped stone, the master said that it can sell 50,000 pieces of blood rock." Fall answered.

"Well, the sword-shaped stone is in yours, you sell the cultivation resources yourself." Ye Xuan nodded.

50,000 pieces of blood rock, this is already a small number, if all is given to him, at least can break through to the triple body.

"What about the young master?" asked Luo.

"No, my young master, I am now earning six hundred bloodstones a day, self-sufficient." Ye Xuan shook his head.

"Hey, thank you, Master. With these, I can break through to the triple-body in a month."

The blood of the beast **** changed twice, resulting in a 40% increase in the speed of cultivation. Together with her own blood and charm, she fell to practice for a month, almost the other person for a year.

The most important thing is that the fall is only fifteen years old and there is no limit to potential.

Ye Xuan began to explore the blood rock. Although his blood rock collection is fast, he has to work for Megatron and fall, so he must work hard.

However, it is at this time.

"Booming!"

Suddenly a loud bang, echoing in the entire blood rock cave, the entire mine is shaking.

This loud noise also made Ye Xuan unable to stop.

"what happened?"

Ye Xuan turned his head strangely.

Before that, he used his strength to drive the group of comrades to other places, so there was no one around.

But at this moment, suddenly a huge voice entered his range of induction.

"Spider? Blood Rock Spider?"

Ye Xuan brows a pick.

With the eye of perception, he can sense that this is a creature with eight legs. There is no doubt that this is the blood rock spider that the former disciple said.

The former red disciple said that in a mine, it is not necessary to dig a blood rock spider nest for a month.

Now, there is a blood rock spider, which means that someone accidentally dug the nest of the blood rock spider.

“Hey, trigger a random mission to block the blood rock spider tide. If a blood rock spider rushes into a bleeding rock mine, the mission fails, and the mission will succeed in gaining a little swallowing point.”

The system suddenly prompts.

Hearing this, Ye Xuan’s eyes suddenly gave a greedy light.

As long as you complete this task, you can get a little swallowing point, which is a good opportunity.

"Megatron, go!"

Ye Xuan hurriedly shouted Megatron, and Megatron changed back to Zhentianjian, and was held in the hands of Ye Xuan.

At the moment, Ye Xuan is rushing out.

Random missions are not easy to encounter. If this group of blood rock spiders rush out of the blood rock mine, then the mission will fail, and a little swallowing point will fly away.

Although his place is far from the mine entrance, but with his strength, two or three seconds is enough to rush to the hole.

However, there are some giant blood rock spiders blocking the way.

"The smaller the vein, the weaker the blood rock spider. This vein is the smallest of the blood rock, so the blood rock spider is not strong."

Ye Xuan’s light flashed.

There are ten blood rock spiders in front of the road, but there are many human bodies underneath.

Upon seeing it, Ye Xuan immediately shot.

"Flower Shadow Sword!"

"call out!"

He smashed out a sword and directly killed several blood rock spiders. The three swords cleaned all the blood rock spiders.

Then, he quickly passed away the body of the blood rock spider.

These blood rock spiders are super supreme sacred beasts, and Ye Xuan now has a hole card, that is, the beastmaster violent, so a large number of bodies are needed.

Just right, he can use this incident to collect the body of the blood rock spider.

Along the way, he smashed the ramie, and after killing dozens of blood rock spiders, he came to the mine hole.

Someone accidentally dug the nest of the blood rock spider, but there were disciples sitting in the mine, so the blood rock spider tide has not yet reached the hole.

Seeing it, Ye Xuan is also relieved.

Then, he swept it again and began to attack the blood rock spiders that rushed out.

According to past experience, this level of blood rock mines has at most 1,000 blood rock spiders.

A thousand blood rock spiders are a thousand warriors who have a hard body.

There are two blood rock disciples who guard the blood rock mine, and the one at the door has a total of three.

These three people are both hard and sick.

Three people, enough to resist this blood rock spider tide, not to mention Ye Xuan is helping.

"One hundred and sixty... one hundred and seventy... one hundred and eighty..."

Ye Xuan hunted the blood rock spider while collecting the body.

He is also very helpless, because the blood rock spider is not high in level, and he is already a double-body, so he needs more than one hundred bodies.

In addition, there are three other blood rock sects and him to blame, so he estimated that it is impossible to get together the number of corpses of the Beastmaster.

Within twenty seconds, the blood rock spiders that Ye Xuan added up to clean up are already over a thousand.

At the same time, Ye Xuan himself collected 600 bodies.

"Teacher, have you broken through to the double body?"

Suddenly a strange voice came, and Ye Xuan turned his head and looked at it. It was the blood rock sect who had kept his Qiankun ring at the entrance of the cave.

"It just happened."

Ye Xuan said with a smile.

If you have a hard body, you can become an ordinary disciple of Xueyanzong. For example, Ye Xuan broke through to the double-body in such a short period of time. How is this qualification just a confidant disciple?

The body of more than 600 blood rock spiders, whose sacred beasts were all swallowed by Ye Xuan, he estimated that the sacred beast is almost the value of a blood rock.

More than 600 blood rock spiders of the sacred beast, so that his cultivation has improved a lot.

The tide of the blood rock spider has passed, and Ye Xuan has completed the task. Although many dead disciples have died, the nest of the blood rock spider is not what he dug, so he will not have any embarrassment, but only two silent silences. Only seconds.

Chapter 944: Random task, complete!

"Strange, the random task has been completed, why not give me a reward?"

Ye Xuan is very puzzled. He wonders if there are a few blood rock spiders that have not come out and are hiding in which corner.

He fell to the ground, and with the eye of perception, he did not find other blood rock spiders in this blood rock mine.

Moreover, he also found the nest of blood rock spiders.

"Strange strange, is it in the nest?"

Ye Xuan thought in his heart.

However, just as he was about to go to the blood rock spider's lair, he found that the ground suddenly began to tremble.

"Sure enough, there are blood rock spiders!"

Ye Xuan's face was dignified and stood quietly waiting.

Not long after, there was a huge figure that caught his eye.

"Oh, there is still a blood rock spider king, younger brother, don't shoot, I am coming!"

The blood rock sect said.

The blood rock spider king is harder than the double body. Its sacred beast can be precious, so it is natural to turn to Ye Xuan.

"Ok."

Ye Xuan flashed a touch of helplessness in his eyes, it seems that this body has no chance with him.

Although this blood rock spider king is very strong, it still fights against human beings. Under the full attack of this blood rock sect, the blood rock spider is beaten, and it is killed in less than ten seconds. .

"Hey, the random task is done and the host gets a little swallowing point."

After the death of this blood rock spider king, Ye Xuan finally heard the tone.

Random task, complete!

"Hey, I got a little swallowing point if I accidentally, cool!"

Ye Xuan's heart is smug, after all, this random task is too simple, and the task reward is so rich, it is simply a white delivery.

The mission system is divided into ordinary tasks and random tasks. The common tasks are various. After completing the tasks, there are a lot of rewards. For example, Ye Xuan can now pick up several common tasks, but the reward is only a dozen pieces of blood, even A high-level task, revenge is only fifty, it is not as good as himself.

"How can I use this point?" Ye Xuan blinked.

Now, he has a lot of choices.

One is to add the swallowing point to the blood of the twins.

The twin-blood double fit can be used to improve the strength of the two, and the triple fit is 30%. If you advance again, the double fit will increase by 30%, and the triple fit will become 40%.

Second, keep the spare, because after the phagocytic system is upgraded to a super-phagocytic system, the swallowing point can be used not only for advanced blood, but also for advanced pets, for redemption and so on.

"The swallowing points required for advanced Megatron and Falling are more than one point. If you redeem it, you can't change to the current useful things, or you can improve your blood."

In the heart of Ye Xuan's thoughts, he swallowed this point and advanced the fit of the twin blood.

At that time, his breath was skyrocketing because of the strength of the 10%.

In addition, Ye Xuan thought of an upgrade route.

He set his sights on the three blood rock sects and thought: "I didn't want to use this despicable means, but I want to go to the Holy Land. I can only say sorry to you!"

The next moment, he used the eyes of the three blood rock sects.

In the double-fit state, he improved the strength of 30%, and the blood of the Tianyan Protoss was advanced three times, and the effect was strong.

Therefore, these three blood and blood disciples of the same level with Ye Xuan are all easily controlled by Ye Xuan.

In the eyes of control, he can control twenty people, and he is not in the eye. When you use it in the future, you will let the charm fall, so that God will not know it.

"Give me your best fortune!"

Ye Xuan gave orders to the three.

At this time, the group of comrades were running out, and he and the three blood rock sects were present, so there would be nothing.

Ye Xuan got the fortune of three people, including the body of the blood rock spider king and the sacred beast.

"There are three hundred blood rocks in the three Qiankun Rings, and there are about five hundred in other things..."

Ye Xuan unknowingly devours everything, and then returns the Qiankun to them.

In fact, there are still some Qiang Kun Rings on their bodies. They are from other disciples. There are more than one hundred blood rocks in them. This is to be handed over to Xueyanzong, so Ye Xuan does not dare to touch.

"You three, are you rich?"

Ye Xuan asked.

"Have!"

The three disciples nodded.

"Well, when you change your post, you will bring everything to me." Ye Xuan said.

However, when his voice fell, suddenly one person swept over the blood rock mine.

"what happened?"

An old body is affected.

Ye Xuan turned his head and saw that he came to know him. He was the red man who took him to Xueyanzong that day.

"The deacon is only a confidant disciple who dug into the nest of the blood rock spider, but it has been processed."

A blood rock sect replied.

"Very good, how is the casualty?" asked the red dress deacon.

"The initial estimate is that there are forty miscellaneous disciples." Blood Yanzong disciple replied.

"Alright, not too much." The red dress deacon nodded.

There are tens of thousands of comrades in Xueyanzong. It's not a bad thing to die for forty. After all, these disciples are voluntarily coming in to mine blood.

At this moment, the red deacon suddenly felt that it was wrong. He fell on Ye Xuan and found that Ye Xuan was wearing the costumes of the comrades.

"Well? Is it you?"

The red dress deacon recognized Ye Xuan, but after he felt the breath of Ye Xuan, it was also the color of the face.

Double body is difficult!

In less than a month, from the nine robbery to the double physical difficulty, this kind of thing should not happen to a comrade.

"Kid, how did you cultivate recently?" asked the red dress deacon.

"Responsible adult, I was a strange encounter before eating a natural treasure, the accumulation of drugs in the previous period, and finally broke through to a hard body after the hard to refining." Ye Xuan casually compiled a lie.

"It turns out that you can now rise to the ordinary disciples, you don't need to mine blood rocks any more, you come with me." The red dress deacon said kindly.

However, Ye Xuan said in a sad heart: "Tragedy, is this forced to promote me to a normal disciple? If I continue to stay here, the other side will certainly have doubts..."

Therefore, he can only agree.

In fact, this does not matter. After all, the official disciples can also come to the blood rock mine. At that time, they can mine the blood rock, but in the name of sitting in the town. Of course, there are mining restrictions. If the defendant sends it, it will be punished. .

"Thank you for the deacon." Ye Xuan said with respect after a sentence, it was to follow the red deacon.

Chapter 945: Ordinary disciple

Soon, this red deacon was registered for Ye Xuan. From now on, Ye Xuan became an ordinary disciple of Xueyanzong.

However, before this, Ye Xuan took over a task.

"Hey, the host completed the task of becoming a normal disciple of the blood rock, rewarding a Kaiyuan grass!"

After he received the identity token, he also heard a system prompt.

Kaiyuancao is just a treasure of heaven and earth. It is not very precious. In the refinery hall of Xueyanzong, you can buy one strain of twenty blood rocks.

"Ye Xuan, you are the ordinary disciple of my blood rock sect today, but your realm is still too low. If you want to earn the treasure of heaven, you can go to the task of killing blood rock spiders." The clothing deacon said to Ye Xuan.

"Xie Deacon is pointing to the maze." Ye Xuan thanked.

Immediately, the red deacon is leaving directly.

"Pit."

Looking at the back of his departure, Ye Xuan also showed a look of embarrassment. He knew that the red deacon was kind, but it was not a good thing for him.

The blood rock mine was just opened up soon, and it was able to mine many blood rocks. If he was only a servant disciple, he could mine there without limit.

But now that he is an ordinary disciple, he can only apply for a mine in the town. Once the blood rock spider tide breaks out, he will shoot.

At the moment, Ye Xuan is looking at the mission system.

In the blood rock sect, there are quite a few tasks in the town. In his current realm, the labor cost of sitting in the mine is calculated by day, ten blood rocks a day.

There is a task in the history of the blood rock sect, and there is such a task in the mission system, so if Ye Xuan goes to sit for a day, he can get twenty blood rocks.

However, this speed can not match the mine hole he was in before.

You know, he can mine six hundred pieces a day, and it is only a pity to take two rewards on both sides of the day.

“Well? Is there a clearing task?”

Ye Xuan discovered his own mission system, and after he became an ordinary disciple, he had several new tasks.

The task of clearing the Qing dynasty is the blood rock spider. The blood rock caves around the blood rock sect have a lot of blood rock spider tides, but they are sealed by the blood rock masters.

Blood rock spiders can promote the coagulation of blood rocks, so the blood rock master did not directly clean it up, but chose the seal, which can also leave a place for the disciples in the door.

Mining bloodstone can collect 600 pieces a day, but if you kill these blood rock spiders, you can have more than 600 blood rock spiders in a day.

"Haha, it turned out to be a normal disciple."

Ye Xuan opened his mouth and smiled.

Immediately, he went to the blood rock sect.

"Teacher, you are a double-body, and the task you can pick is here." A blood-blooded disciple handed a booklet.

"The bloodstone rock cave of the 666th, the bottom is estimated to have 1,300 blood rock spiders, and there are hundreds of them that are more difficult than the double body..."

"The blood rock cave of the 871th, the bottom of the guarantee is estimated to have 800 blood rock spiders, and there are hundreds more than the double body is difficult..."

"The 410th mine, the bottom of the estimate is estimated to have four hundred blood rock spiders that are more difficult than the flesh, and fifty are more difficult than the triple body..."

Ye Xuan glanced.

He is a double-body, difficult to get the same level of tasks, and a higher level of tasks.

These tasks are also time-limited, and the task requires a certain blood rock.

"Senior brother, I have to pick up the task of the blood and rock cave of 666." Ye Xuan said.

The blood rock sect had swept a bit and said: "Teacher, this task is not difficult, and it must be cleaned up in one day. Are you sure you can finish it?"

"Try it."

Ye Xuan nodded.

The one thousand blood-stained spiders, which are hard of the flesh, have no threat to him at all, even if it is difficult for the hundred double-body.

He took the task, entirely because of the number of the blood rock mine Geely, six six six.

"Okay, it takes five hundred blood rocks to take the task." The blood rock sect also did not say anything and reached out directly.

The original blood rocks have been swallowed up by Ye Xuan, but when he came to the training hall to pick up the task, he first went to the fall and took a thousand pieces.

The sword-shaped stone was sold to her master and she was given 50,000 blood rocks. These blood rock leaves were given.

Although he can take the 50,000 blood rocks to break through, he still has to think about it. After all, it is only fifteen years old. If the qualifications of the fall break out, they will be seen by the blood sects and ordered to focus on training. Still afraid that there is no heaven and earth treasure?

You must know that there are more than a dozen apprentices in the fallen masters, and there are still no days for them to fall.

Ye Xuan took five hundred blood rocks and took the task of the 666th mine.

"Okay, the task requires at least one thousand blood-rock spiders with one body and one hard body, and fifty blood-rock spiders with two heavy bodies, and bring them back. The extra ones are returned to you. If the mission is completed, five hundred blood rocks Refunded, not accomplished together with the body of the blood rock spider confiscated." The blood rock sect disciple said.

Ye Xuan also understands that the blood rock spider body required by the mission, he is greedy, but he can kill more.

As long as he kills all the blood rock spiders in the mine, he can at least get 300 blood stone spider bodies that are more difficult than a single body, and fifty blood rock spider bodies that are comparable to the double body.

At the same time, it also refunded 500 blood rocks, as well as rewards for the calendar and mission system.

This task is still profitable for the average person. There are too many blood rock spiders in it. It is a waste of time if you can't get into it. When you lose your blood, you will lose your home.

"This is a map of the blood and rock cave of the 666th. You have a half-day time to hurry. If you don't come back to the mission two days later, you will be treated as a mission failure." The **** sect of this experience hall reminded me. .

If the mission fails, there will be a master who goes in to count the number of blood rock spiders. If you have less, you will have to fill up a lot of corpses and lose five hundred blood rocks.

"it is good!"

Ye Xuan nodded, and immediately received the mission order, and then left the calendar hall.

Half a day's journey, enough for a two-pronged disciple to rush to the 666 blood rock mine.

However, Ye Xuan is not an ordinary disciple.

Although Ye Xuan is only a double physical difficulty, but he has eight times of agile advancement, no more than three hours, Ye Xuan is rushed to the 666 blood rock mine.

"Who is here?"

A violent drink fell into Ye Xuan's ear. In front of him, there was already an old man wearing a blood rock sect.

Chapter 946: Fall through

"Deacon, I took the task of clearing."

Ye Xuan replied, and at the same time lost the task in the hand.

"You can take this task. It seems that your strength, the number of blood rock spiders underneath, you know, you have one day, if you haven't come up after one day, you will see the mission failed, you must hand in the proceeds."

The deacon said.

"understand!"

Ye Xuan nodded, and at the same time swept with the eye of insight, and could not see the deacon.

"I heard that the deacon of Xue Yanzong is at least six-sexual, if every mine has such a strong person..."

He swallowed the swallow, and in the booklet he turned over, there were thousands of bloodstone mines. If there was a deacon in each mine, wouldn't there be thousands of six-sexual bodies? Strong?

The most important thing is that the blood rock sect is still not in the holy place, that is, the sect that does not enter the stream.

The red-dressing deacon took Ye Xuan to a blood-rock mine cave trapped by the formation. This is the 666th blood rock mine.

"After that, I will open the battle, you will go in immediately. I will be here, I will inform you if you want to come out." The red deacon said.

Ye Xuan nodded silently.

The next moment, the formation was broken, and he quickly swept in.

The blood rock mine is tens of thousands of meters below the bottom, so he keeps falling, but the blood rock spider likes to stay next to the blood rock crystal wall, so there is usually no blood rock spider at the hole.

Soon, Ye Xuan fell into the blood rock mine.

It has just landed, and within the scope of his perception of the eye, there are already hundreds of blood rock spiders.

"come on!"

Ye Xuan's flash of light flashed and instantly called the avatar and Megatron.

And he is holding a Supreme Lingbao that is redeemed in the redemption system. This Supreme Lingbao is several times more than a shadowless sword.

Megatron immediately became a fort, and then began to madly shoot at the surrounding blood rock spiders.

Although it has been refined into a magic weapon, Megatron has not lost the ability to deform, but the attack power is even stronger.

Ye Xuan and its peers, plus the avatar, so their killing speed is very fast.

"call out!"

"boom!"

A burst of roar, sounded in the blood rock mine hole, the red dress deacon outside heard the sound, but also satisfied with the nod.

"Not bad, no wonder dare to jump straight, it looks very strong."

Since the blood rock mine always emits red light, he can't see the scene in the bottom, only listen to it with his ears.

.....

Ye Xuancai just landed in less than ten seconds, and the surrounding blood rock spiders were destroyed.

"Three hundred bodies, cool!"

Ye Xuan cleaned up the battlefield again.

The deity, the avatar and Megatron, his killing speed is very fast, he estimated that with his ability, it takes less than ten minutes to clean up this blood rock mine.

At that time, after the task is handed over, there are at least three hundred **** spider corpses with one heavy body and fifty double physical bodies.

As for the reward of the experience hall, it is five hundred blood rocks, and the rewards in the mission system are similar, and the value is also about 500 blood rocks, which is much faster than his own mining of blood rocks.

The general disciples do the task of clearing the scorpion, all of which are slow and slow, afraid of being attacked by the blood rock spider hidden by the wall, and Ye Xuan has the eye of perception, which is completely a radar function. After Ye Xuan falls, nearly half of the mine He can feel the movement of the hole.

Most importantly, the sensing range is centered on himself, and as he moves, the sensing range will continue to move.

Therefore, the sneak attack of the blood rock spider is useless to him.

"Four hundred... five hundred... six hundred..."

Ye Xuan kills and counts the number.

At this time, he was separated from his own avatar, and Megatron was the same.

One minute after he entered the blood rock mine.

"Well? This blood rock spider is bigger than the ordinary one. It seems that it is difficult to have a double body."

Ye Xuan suddenly felt that something wrong with a blood rock spider, and now he killed the past.

The rank of blood rock spiders is still relatively easy to distinguish, that is, according to size.

At this time, the blood-rock spider in front of Ye Xuan is the level of the two-sexual body, which is bigger than the one with a heavy body.

"Hey!"

After seeing Ye Xuan, the blood-stained spider, the six big eyes were just a turn and fell on Ye Xuan's body.

What Ye Xuan hates most is the creatures such as cockroaches and spiders, so he attacks directly.

"Cold weather!"

A sniper went through the air.

"Oh!"

This blood rock spider was cut directly into two halves, and the wound was cold and cold.

This is what Ye Xuan got from the three **** literary disciples before. It is a high-quality martial art. Although it has not yet reached 10% of the fire, the power is several times stronger than the flow shadow sword.

"Super supreme martial arts, but only excessive, the supreme three small and difficult is the sword, but I have learned for so long, but still can not understand the sword, if I have an intermediate sword-shaped stone just fine..."

Ye Xuan thought about it, but walked over and collected the body of this blood rock spider.

If you understand the sword, even if you use ordinary supreme martial arts, it doesn't matter, but the sword is not so easy to comprehend. I heard that no one has ever understood the outer door of Xueyanzong.

Fortunately, there is something in the phagocytic system called Wu Jiandan that can speed up the understanding of the sword and wait until the super swallowing crystal is enough. Ye Xuan will exchange it.

Then, Ye Xuan continued to kill.

Three-pronged, no more than five minutes, all the blood rock spiders were all killed by him.

A total of 1,400 blood rock spiders with a hard body and sixty-two double-body flies are more difficult than those estimated by the auditor.

The task is to hand over a thousand one-of-a-kind and five-fold double-body, and the rest is to return to Ye Xuan.

"Hey, the host completed the task of clearing the bloodstone mine hole and obtained three sources of Dan."

After Ye Xuan killed the last blood rock spider, the system was prompted.

The mission system has a benefit, as long as the task is completed, the reward will be directly given to Ye Xuan. The task of the experience hall is to ask Ye Xuan to pay.

"Three sources of Dan, all swallowed!"

These three sources are Dan, which can be bought in the refinery hall of Xueyanzong. It is about five hundred blood rocks.

Ye Xuan did not say anything, directly swallowed things, and then added some super-phagocytic crystals.

At the same time, another silver bell sounded in his mind.

"Young master, I broke through, and now it is a hard body."

This is the sound of falling.

"Good, keep working hard!"

Chapter 947: be questioned

"Good, keep working hard!"

After hearing the news of the breakthrough, Ye Xuan satisfactorily nodded.

The reason why he did not take the 50,000 blood rocks that fell was because the exchange system was upgraded according to his own realm, but he could not be exchanged for good things because of the double physical difficulty.

However, if you fall, you can take the blood rock to the Blood Rock Zong Refining Medicine Hall to buy the cultivation resources of the four-sexual body and even the five-sexual body.

Otherwise, Ye Xuanyuan will be so stupid, give all the blood rocks to the land, do not swallow it and then exchange the drug for the fall practice?

"Well, after the breakthrough, my refining speed is much faster. Within a month, I have the confidence to break through the triple flesh."

Falling down.

It's less than two months before entering the blood rock sect. If you break through to the triple-body, it's absolutely okay for the fallen master to look at it. At that time, the fallen master may fully cultivate the fall, and then there is no shortage of cultivation. Resources are gone.

Now, Ye Xuan has completed the task of clearing the house, but if it goes up now, it will not be easy to explain.

Even the strong three-body hard-core, can not solve all the blood rock spiders in this blood rock mine within ten minutes.

If it is difficult to be a double-bodied person, even a leader in the same class will take at least a few hours. After all, the infuriating and physical strength is not unlimited.

Therefore, he simply dug for two hours of blood rock underneath.

There are Wanjian Guizong, he directly collected more than two hundred blood rocks, which is a good income.

Two hours later, he plunged into the mouth of the blood rock mine.

"Come out? How?" the deacon asked.

"Deacon, the blood rock spiders underneath have been cleaned up by me, one is not left." Ye Xuan replied.

The red deacon was amazed, saying: "Two hours, clean up the mine, your strength is probably difficult to be in the triple body."

"Thanks deacons praise."

Ye Xuan thanked him for a word, but his heart was constantly spit.

Is it difficult to triple the body?

What a joke!

If he is full of firepower, even the four strong and hard-core strong have to avoid the edge.

Then, the red deacon is going to check it down. Sure enough, there is no blood rock spider in the bloodstone mine.

"Good, the mission is completed, give me the prescribed body."

The red deacon is satisfied with the nod.

Then, Ye Xuan gave the body of one thousand and fifty blood rock spiders to him.

"The quantity is correct, the mission is complete!"

The red deacon also gave Ye Xuan a token with a number of 666. Ye Xuan only needs to hold the token back. In addition to the 500 bloodstones that can be obtained, he can also get another Five hundred blood rock rewards.

After thanking Ye Xuan for a sentence, he left here. Now the 667 blood rock mine crisis has been lifted, and there will be many comrades who come to mine blood rocks.

And Ye Xuan, after leaving, is also using the eye of the void directly.

A void door appeared, Ye Xuan wore the past and returned to his residence in Xueyanzong.

"Other people, go for a long time, go back for a long time, plus the clearing task, at least a day, and I only spent more than two hours back and forth, now it is too outrageous to hand in the task..."

Although Ye Xuan thought this way, he still walked toward the calendar hall.

Anyway, this is his strength, is it difficult to have a mission token with a fake?

"Brother, let me pay the mission!"

Ye Xuan walked into the experience hall and said to the former blood rock sect.

The blood rock sect saw Ye Xuan and browsed: "Is it you? What mission are you coming to?"

Ye Xuan is also nonsense, directly handing over the task token.

"The 666th mine hole? How is this possible, you just picked it up soon!" The blood rock sect was shocked.

"Oh, if the brother does not believe, you can check if the task token is true."

Ye Xuan said with a smile.

Even if he doesn't say it, the blood rock sect will check it again.

However, after checking the five times, the blood rock sect found that the token was indeed true.

Three hours, the average disciple is probably still on the way, and Ye Xuan has already returned, as long as the individual will not believe it.

However, the token is true, what can he say?

Soon, this blood rock sect was taken out of five hundred blood rocks. This is Ye Xuan's previous assignment.

In addition, there are five hundred blood rock rewards.

If the task is not completed, then the five hundred blood rocks will be returned to the practice hall, and the bodies of those blood rock spiders will be taken away by the deacons who guard the mine.

"Thank you brother, I will continue to pick up the task." Ye Xuan replied.

"Okay, look at it."

The blood rock sect had not slowed down, and directly crossed the task of the 666 mine hole and handed the booklet to Ye Xuan.

Ye Xuan swept a bit.

"Now I can't afford that Wu Jian Dan. I am afraid I still have to do a few tasks. It is better to pick up a difficult one..."

Ye Xuan thought about it and took another task. This time, he took the Samsung mission, which corresponds to the triple physical difficulty.

"Teacher, are you sure you want to pick up this task?" asked the blood rock sect.

"Not bad!"

Ye Xuan nodded.

The task he received this time was estimated to have 2,000 blood rock spiders, one of which was 1,500 in a hard body, four hundred in a double body, and one in a triple body.

This task is the most difficult one in the entire Samsung mission. And he himself is nothing more than a double flesh.

"To take the task, you need a thousand blood rocks!"

After the **** literary disciple finished, Ye Xuan took out a thousand pieces of blood rock directly.

"The task is limited to one and a half days. You have one day to hurry, that is, two and a half days. The task is completed by two hundred **** spiders with two heavy bodies and fifty triple-difficult bodies."

Blood Yanzong disciple reminded.

"understood."

After Ye Xuan responded, he left the experience hall directly.

There are thousands of foreign disciples in the blood rock. At this time, there are dozens of people in the experience hall. After Ye Xuan left, they also began to secretly discuss.

"This kid, it won't be with a deacon..."

"This is for sure, otherwise how could it be possible to complete a clean-up mission in such a short period of time?"

"This is not necessarily, did not see him pick up the most difficult task in Samsung? That task, even I am not sure to complete!"

The speaker is a disciple who is about to break through to the four-sexual body.

"The speed of completion is so fast, there will definitely be elders to explore. If the task is not completed, the deacon will give him the completion token, and he will definitely be punished."

"But how did he get back and forth in a few hours? Is the token already in his hands?"

"Well, it must be like this. The task must have been done by the deacon. He has already got the token."

"But if you are guilty, don't you need to be so obvious?"

The disciples around can't figure it out. If you cheated, and colluded with the 666 deacon, why not wait a day later?

In the end, Ye Xuan is amazing, but it is still a big deal, just see if this mission can be completed.

Chapter 948: Blood Rock Spider King

After leaving the experience hall, Ye Xuan is starting again.

"This mission is ten times more difficult than before, but the rewards are also very rich!"

Ye Xuan's light flashes.

After completing the mission of the auditorium, you can get two thousand blood rocks and the bodies of those blood rock spiders.

However, the reward in the mission system is a large number of super swallowing crystals, enough Ye Xuan to buy that one Jianwu Dan.

Not only that, after this time, the body of the Blood Rock Spider should be enough to get together once the Beastmaster is violent.

The sacred beasts of the blood-rock spiders were all swallowed up by Ye Xuan, and they have been refined a lot.

At the same time, don't forget that there is an advanced route in the blood of the beast **** that devours the proceeds. The current advanced level is five. As long as the corpse or the sacred beast is swallowed, the income will be 50% more.

Ye Xuan estimated that if he gave him all the bodies this time, he would be able to break through to the triple body.

The mission was far away, so it took Ye Xuan to arrive in more than four hours.

After seeing Ye Xuan, the deacon of this blood rock mine, he was also surprised: "Well? Why is it just that the double body is difficult?"

Ye Xuan also expected that the deacons would doubt his realm, but he lazily explained that he directly handed over the mission order.

"Dare to take the one of the most difficult tasks in this Samsung mission. It seems that you have some skills." The caretaker's eyes glanced and nodded slightly.

Speaking of it, the people in this holy place have different visions.

If it is on the **** rocky continent, the average person looks at Ye Xuan with ridiculous eyes, and then scorns: "The fool, the two parts of the body are difficult to take over the task, it is really not self-reliant, let the old man roll!"

However, the guard of the guard did not say so.

However, this can be said to be true. After all, there are countless geniuses in the Holy Land. Even the Supreme level has realized the genius of the sword. What does this count?

"Well, I will open the array, go on, the mission time is one and a half!"

The guard deacon directly opened the formation, and then Ye Xuan got into it.

After entering, Ye Xuan fell as fast as before, and the red light instantly drowned his figure.

This time, the size of this blood rock mine is bigger than before. After Ye Xuan's landing, only one hundred blood rock spiders were felt. However, among the one hundred, there are blood rock spiders with two levels of physical difficulty. .

"The first avatar, Megatron!"

Ye Xuan quickly summoned the avatar and Megatron. After the emergence of Megatron, it quickly changed. This time it turned into a small fighter.

"There are so many tricks."

Ye Xuan spit in the heart, and then it was directly swept out.

This task is the hardest one in Samsung, but Ye Xuan is still not eye-catching.

"Cold weather!"

When Ye Xuan went out with a sword, he was able to easily kill one or several blood rock spiders.

"Hey, the proficiency of the cold weather is improving, and it is currently 70% hot!"

"Oh, the proficiency of the cold weather is improving, and it is currently 80%!"

"Oh, the proficiency of the cold weather is improving, and it is currently 90% hot!"

Ten minutes later, Ye Xuan's cold weather was raised to 90% of the fire. At the same time, his deity killed nearly five hundred blood rock spiders.

However, it is almost always a **** spider with a hard body.

In the following way, the degree of danger is greatly improved, because it is a blood-stained spider with two heavy bodies, and even triple-body is difficult.

"Cold weather!"

"Cold weather!"

"Cold weather!"

Ye Xuan constantly kills the blood rock spider. He estimates that in five minutes, the blood rock mine can be cleaned up.

I have to say that it is a wise choice to exchange the blood of the **** of life.

"Cold weather!"

"Hey!"

A blood-stained spider with a triple-sexual difficulty level was flying by Ye Xuan.

In the depths of the blood rock mines, almost all of them are blood-stained spiders of the triple-sexual level. The defensive power of the blood-rock spiders is amazing. Therefore, Ye Xuan's cold scorpion cannot kill them at once. After all, the hands are just ordinary. Supreme Lingbao only.

In desperation, Ye Xuan had to use the cards.

"The Eye of Silence!"

"The eye of decomposition!"

The two major attacks are all out, but if you say the effect, the eye of decomposition is stronger here than the eye of silence.

A blood-stained spider with a triple-bodied body needs only one decomposition of the eye, and the body of the blood-rock spider is decomposed, leaving only a sacred beast.

"I wipe, forget it!"

Ye Xuan sneaked a sentence, but he wants to collect the body, the body is broken down, and also receives a wool?

Therefore, we can only harvest with the eyes of silence.

Fortunately, he has already been exchanged for the third weight of the gods, and the ceiling of the force and the recovery speed of the power have improved a lot. It is not a problem to pack up all the blood rock spiders in this mine.

However, it is at this time.

"Well? A big one, is it a blood rock spider king?"

Ye Xuan's brow suddenly picked, and the heart secretly said.

The estimate in Blood Rock is not necessarily accurate, which means that he has an extra income.

At the moment, he is plucking in the direction of the suspected blood rock spider king.

After he saw this huge blood rock spider, his heart was also determined. This is the blood rock spider king who is comparable to the four-sexual body.

The blood rock spider kingdom is not fixed. A blood rock spider group may have a king. At the same time, this king will be stronger than the blood rock spider of the same level.

Even if a **** sect disciple with a four-sexual physical difficulty is here, he may not be able to break his defense, and he will probably be swallowed up.

At this time, this blood rock spider king directly flew toward Ye Xuan.

"Cold weather!"

Ye Xuan took out a sword, but the accident was that he did not break the defense of this blood rock spider king.

Since it can't be broken, then use the card!

"The Eye of Silence!"

A silver flashed over.

"Hey!"

Only heard a roaring sound, echoing in the entire mine, the blood rock spider king could not stop this blow, and was directly bombarded.

"A strong defense, it only shattered the carapace."

Ye Xuan is a bit strange.

However, the eyes of silence at this time are not his strongest attack.

At the same time that he discovered the blood rock spider king, it was already let the avatar and Megatron rushed over.

The Blood Rock Spider King stabilized his body shape and immediately rushed toward Ye Xuan.

"The Eye of Silence!"

"The Eye of Silence!"

Ye Xuan used the eyes of the two silences and flew it again.

At the same time, the avatar and Megatron also arrived.

"fit!"

Two Ye Xuan swayed, combined into two, the strength instantly increased by 30%.

At the same time, Megatron also became a shocking sword.

However, when Wan Jian was returned to the last mine, it was wasted.

In order not to damage the body, Ye Xuan did not use the eye of decomposition to deal with the **** spider king of the four-sexual body.

Chapter 949: Sword

"Cold weather!"

"The Eye of Silence!"

After the fit, Ye Xuan, the strength of the skyrocketing, coupled with the earthquake sword, so his attack has been able to break the defense.

Not only that, but the eye of the silence of the power of 30% has been raised, and the blood rock spider Wang Shuo directly called.

Within ten seconds, the blood rock spider king fell on the floor, and the turbid blood like magma flowed to the ground.

At the same time, Ye Xuan's enthusiasm is also bottoming out.

"I finally solved it. If there is no Zhentianjian, it is really difficult to pack it." Ye Xuan breathed a sigh of relief.

His power is all used to use the eyes of the silence, after the bottom of the force, in fact, can not kill this blood rock spider king.

However, fortunately, there is a shocking sword, so that Ye Xuan's attack is barely broken.

After the death of Blood Rock Spider King, Ye Xuan walked over and then collected his body.

After that, directly devour the sacred beast.

"Hey, the host breaks through, it's currently difficult for the triple body!"

The long-lost system prompt finally sounded.

The value of this sacred beast of the four-sexual body is probably higher than the sum of all blood-rock spiders in the entire mine.

Now, he can already buy the Wu Jian Dan.

However, he still cleaned up the entire mine.

"Hey, the host completes the task of asking the blood rock mine!"

The reward for this mission is a lot of super swallowing, but now Ye Xuan has changed Wu Jiandan.

It was still too early to complete the mission, so Ye Xuan sat down on the knees.

Not only that, but the second avatar in the East is the same.

The sword-shaped stone has been burned by him in the super-phagocytic system, so the second avatar is always enlightened.

Now, the three avatars at the same time, together with a Wu Jian Dan, may be able to comprehend the sword. As for Megatron, it is going to mine blood rock by itself. After all, it is upgraded by ore.

Time, bit by bit.

One hour.....

Two hours...

Three hours.....

Ye Xuan sits for seven hours.

Wu Jiandan can make him understand the sword more quickly, but don't forget that there is a connection between the deity and the two avatars.

This one is Wu Jian Dan, which is equivalent to three times the effect!

Finally, in the eighth hour.

"Oh, 90% of the swordsmanship has become a sword, and the host has learned the sword. It is currently in the micro level!"

The system prompts to sound.

After hearing this tone, Ye Xuan was also unable to help himself.

Really realized?

He did not think that a Wu Jiandan let him realize the sword potential. Originally, he did not have hope, just try to exchange one.

In his estimation, at least dozens of people must be exchanged for continuous use to realize the sword.

Unexpectedly, one will become!

"Right, the deity and the two avatars also have effects. My one is Wu Jiandan, which is equivalent to three. No, it should not be three, but three times the effect!"

Ye Xuan brows a pick.

A Wu Jian Dan, lasting twelve hours, before he thought he was taking one, which is equivalent to feeling thirty-six hours.

But now it seems that the effect is three times higher, not the duration is three times the previous one.

This is the same as the swordsmanship of the blood of the sword god. It is 10% higher, and the comprehension ability is probably several times before.

"Haha, the blood of the twins is really cool!"

Ye Xuan couldn't help but burst into laughter.

The triple flesh is difficult to comprehend the micro-level sword. Now, even if he only uses one branch, the realm is still the double flesh, and I am afraid that he can also kill the blood-rock spider king.

At the moment, he just stood up, and then took out an ordinary Supreme God soldier and glanced at the stone wall in front.

This sword, nothing is useless, just a simple infuriating attack.

"call out!"

Jianqi did not enter the stone wall, and instantly broke out a crack of 100 meters deep.

"Sure enough, now I am afraid that I can kill the five strong physical hardships, even if the six-sexually difficult person faces this sword, I dare not care!"

Ye Xuan thought in his heart.

Of course, if he is allowed to use martial arts and Zhentianjian, even if the six-figure physical hardship is in front of him, it is also vulnerable.

However, to learn the sword, you must know how to hide. After all, this is a card.

"The triple flesh is difficult to comprehend the micro-level sword, hasn't it appeared in the whole blood rock or history?"

Ye Xuan's confidence suddenly burst into shed, but he didn't want to be exposed, because there were more people in the world who were jealous, and there would be a few people who were extremely distorted. If they were jealous of a certain master, then he would die. It is.

Therefore, it is absolutely necessary not to easily expose the sword.

The task time limit is still half a day, but Ye Xuan does not want to stay in the following, so he went back directly to the hole.

"Well, come out and recover?" The deacon's deacon asked strangely.

"No, deacon, I have wiped out all the blood rock spiders inside, this is the body needed for the mission!"

Ye Xuan had already put the prescribed things in a ring, and handed it over.

"what?"

The caretaker took the shock and took a look at it, and sure enough, the number was correct.

In the Qiankun Ring, there are a total of two hundred **** spiders with two heavy bodies and fifty triple-difficult bodies.

The guards' eyes were bright, and the look of Ye Xuan's eyes was also a little more appreciation.

"It turned out to be a breakthrough..."

The guard at the guard found that the breath of Ye Xuan had reached the level of the triple physical difficulty, so it was calm.

However, he went on and checked it again. It turned out that a blood rock spider was gone.

"Task is complete, this is the task certificate!"

The guard deacon handed things to Ye Xuan.

After thanking Ye Xuan for a sentence, he left directly. After disappearing into the vision of the caretaker, he directly broke the void and returned to the Blood Rock.

Then he went to the auditorium.

From his previous assignment, it was only half a day, and now he is coming to the task again. If the group in the morning is still in the morning, I am afraid it will be scared to death.

"Senior brother, let me pay the task." Ye Xuan said, it is the vouchers after the completion of the task, that is, a token was handed over.

"you again?"

The blood rock sect was shocked. He took the task token and checked it several times. It was still true.

"Are you really done?" The **** sect disciple couldn't believe it, and asked with a blank face.

"My brother, I happened to break through." Ye Xuan said with a smile.

At this time, the blood rock sect disciple discovered that Ye Xuan had broken through to the triple flesh.

"Okay, the mission is completed, a thousand pieces of blood rock are returned, and another two thousand blood rocks are awarded." The blood rock sect disciple handed things to Ye Xuan, and then Ye Xuan quickly left.

Chapter 950: trouble

After Ye Xuan left, the blood-blooded disciple also thought about it carefully. Finally he muttered: "No, this must be weird. You must inform the elders."

In one day, two tasks are completed in succession, which is too fake.

Ye Xuan also saw his expression, so he decided not to pick up the task for the time being.

However, it was not long before he left the auditorium, but several people greeted him.

Ye Xuan saw that these people are not weak, at least the four-sex body is difficult, so it is retreating.

However, what he did not expect was that these people actually went straight to them.

Come on, a total of three.

"You are Ye Xuan?" A long-haired youth was cold and cold.

Ye Xuan is very surprised because he has no friends in Xueyanzong and only knows who is falling down. But why is the other party looking for him?

"Yes, what's the matter for the brothers?" Ye Xuan nodded, but he already felt three hostility, and the three might not be good.

Seeing that Ye Xuan admits, the long-haired youth's eyes are also a glimpse. I opened the door and said, "What is your relationship with the fallen sister?"

Falling?

When I heard the name, Ye Xuan was a bit surprised.

"Why should I answer you?" Ye Xuan asked, he saw that the three were looking for trouble, so they didn't have a good look.

"Great courage!"

The long-haired youth has not yet opened, and one person behind him is taking a step forward and wants to give Ye Xuan some lessons.

However, when he shot, he thought of the rules of the blood rock sect, so he stopped again.

"You better answer my question, otherwise you are in the blood rock, staying soon!" Long hair youth said coldly.

"I will wait and see."

Ye Xuan sneered and turned away.

He already knows what these people are looking for for him. Only then did he communicate with him. He said that some brothers have come to find her recently.

It seems that those brothers in the inner door want to pursue the fall, and the three people in front of them should be the dog legs of a certain brother in the inner door.

"Want to go?"

Long hair youth flashed, and quickly stopped Ye Xuan.

"What, do you want to do it?"

Ye Xuan did not take it for granted.

Although he said that he was only three-sexually difficult, the long-haired youth in front of him was a five-figure body, and the other two were also four-sexual.

However, he is not afraid of the other party.

If he shot, the three would probably be killed by him in an instant.

The other two saw Ye Xuan's fearless appearance, and they also rushed to the long-haired youth to cast their gaze.

"Afraid of what, arrest him in front of Guo brother!" Long hair youth shouted.

When I thought that I had Guo brothers supporting me, the other two were immediately shot. They shot left and right toward Ye Xuan's shoulders, ready to take Ye Xuan forcibly.

Available at this time.

"The Eye of Burning!"

"The Eye of Burning!"

Ye Xuan's eyes flashed twice quickly, and the two men's hands stopped. Then, the two were instantly controlled by Ye Xuan.

They are only a higher level than Ye Xuan, and Ye Xuan's eye-eyed protoss blood, but advanced three times, plus the original one is a four-level blood.

The two quadruple bodies in the district are difficult, and he does not want to move.

After the two men were controlled, they suddenly stopped, and then they turned and slammed toward the long-haired youth.

"what?"

The long-haired youth was shocked. He didn't expect his two dog legs to suddenly shoot at him. What happened?

"Hey!"

"Hey!"

Two fists, like two meteors squatting on the shoulders of the long-haired youth, the long-haired youth was suddenly bombarded.

This scene, suddenly, not only did the young people of Changfa not think of it, but even the disciples who watched the opera around did not expect it.

Two dogs, suddenly pounced on the dog owner, what is going on?

The long-haired youth's legs alternated rapidly, quickly stabilizing the figure, and shouted: "What are you doing?"

"Zhao Shixiong, sorry, you don't want us to be seen as human beings, we don't want to hear you again," said the body-famous disciple.

"what did you say?"

This long-haired youth did not figure out for a while. Is this a joke? He has always been very caring for these two younger brothers. When did he not look at them?

"The lost way, good." Ye Xuan standing behind the back slightly smiled, and then left.

The long-haired youth browsed and said: "Waste, what did you do to them?"

"Zhao Shixi, what do you mean by this?" Ye Xuan suddenly revealed a very innocent look, asked.

"Do you cultivate the martial arts that control others and control them?" Master Zhao yelled.

"Zhao Shixiong, you don't want to swear, even if I have practiced, can you control two brothers who are higher than me under your eyes?" Ye Xuan's mouth tilted slightly, he no longer talk nonsense, and turned around and left.

"you wanna die!"

Brother Zhao was unwilling to humiliate and rushed straight toward Ye Xuan.

At the moment, the other two were quickly blocked in front of Master Zhao.

"You two, give me away!" Brother Zhao shot a fist and flew the two.

The first difficulty in the Supreme Three Difficulty - the flesh is difficult, the repair is the flesh, so the suppression on the realm is relatively large.

Listening to the whistling wind, Ye Xuan Yu Guang swept and found that the two had already been shot by Zhao.

This Zhao brother dared to start in the blood rock, because the brother of Guo, who has the inner door, supported.

However, Ye Xuan does not want to cause trouble, but does not mean that he is afraid of things. Since the other party is looking for death, he naturally wants to give the other party a color look.

However, just when he is ready to shoot.

"stop!"

An old voice screamed, and Zhao's body trembled and stopped.

Almost all of the young people in this outer door, this old voice, shows that at least the deacon.

If he is a deacon, he is not afraid, but if he comes to an elder, then he will be tragedy.

When Zhao's brother turned his head and looked at it, he saw a white-haired old man wearing an elder costume coming over.

Elders!

He sighed with relief, because if the fist hits, it is on the face of the elders, which is challenging the authority of the elders.

"What are you doing?"

The elder came over.

"I have seen elders!"

Immediately say hello to the disciples around.

Ye Xuan also watched him approach, and his heart was a bit stunned. Because of his perception of the eye, he did not find out where the elder appeared.

This shows that the strength of this elder is already strong enough to cover up, the atmosphere of cover up, and ordinary disciples, so Ye Xuan did not notice.

In the face of this elder, Dr. Zhao swallowed and swallowed, "I told the elders that this person trained a martial art to control others and gave control to my two younger brothers."

"Oh? Is it controlled?"

The red-haired elders picked up their brows and then set their sights on the dog legs of the two brothers Zhao, but they did not find anything strange.
