Chapter 97: Imperial Capital

"Yes, it is the embers of the beast god. This time I went down, just interrupted his resurrection ceremony. Fortunately, I arrived in time, otherwise things would be troublesome."

Ouyang Ming said, hurry and sit down, take a medicinal medicine from the Qiankun ring and start healing.

After a while, his temperament also began to turn, and the injury was suppressed.

"This time it was beyond my expectations. I didn't expect it to be practicing magic, but to prepare for the ceremony. If I slow down one step, he will be able to resurrect a real wolf." Ouyang Ming is loose. Take a breath.

"The real thing?"

When I heard this word, Ye Xuan's heart trembled. Isn't this a more powerful realm than the real spirit?

"This time, thanks to you, if he is successfully resurrected, then my Xuanyang empire is really going to fall into the heat. Although I did not catch him, but this time I will report to the empire, send experts to investigate. "

"If you don't want to be late, I have to leave for the emperor immediately, but before that, I will give you something."

Ouyang Ming said that he took a token from the Qiankun ring and handed it to Ye Xuan, and then continued: "After a few months, Xuanyang Emperor will hold a big competition, no more than twenty-five. I can come to participate. I just stood out in a big competition. I was only patrolled by the emperor. If you are interested, you will take this token to Nanlin City to find me after the year."

Ye Xuan took the token and glanced at it. There were only two words on it, Ouyang.

It turned out that this is the great creation of Ouyang Ming!

Although this is somewhat different from what Ye Xuan thinks, it is only one step more. As long as he shows amazing talent in this competition, he may be able to be seen by some officials in the DPRK, or even by the emperor.

“Thank you for Ouyang!” Ye Xuan hurriedly thanked the token and collected it.

However, at this time, the ground suddenly began to vibrate, and more and more intense.

Ouyang Ming’s face changed and said: “It’s not good. It’s definitely that the black man called the monsters around him. Go, I will send you out!”

Sure enough, just as his voice fell, there was a black figure in the distance.

Wicked herd!

Ye Xuan did not dare to neglect. Although his strength is strong, he still has to be cautious in the face of hundreds of monsters. He is following Ouyang Ming.

There is a strong spiritual real, his safety is still very high.

Then, next, Ye Xuan is to see what the real world is.

Ouyang Ming, who was running wildly, suddenly took a big knife from the ring of Qiang Kun and then squatted at the front of the monster group.

call out!

A huge sniper cut through the air, and instantly plunged into the monster group, splitting dozens of monsters into two halves, and then bursting open.

"boom!"

The broken limb was broken, and this explosion directly killed dozens of monsters.

"Is this the true spiritual powerhouse? An attack is like a missile. This is a man-made bomber!"

Ye Xuan's heart is extremely shocking. If he has such strength, the speed of brushing is absolutely first-class.

However, at this time they were coming to them, but there were thousands of monsters, so he did not dare to stay and hurriedly followed Ouyang Ming.

There is Ouyang Ming, the real spiritual powerhouse, Ye Xuan has no chance to even shoot, and Ye Xuan probably counted it. On this road, Ouyang Ming killed at least 3,000 monsters.

This group of monsters is also chasing after, but they did not follow the two people to leave the Lianyun 18 mountains, so Ye Xuan is safe.

However, when Ye Xuan left the Lianyun Eighteen Mountains, it was already daytime, and they ran all night.

"Ye Xuan, I should go. If you are interested in that contest, come to Nanlin City to find me."

After leaving the Lianyun Eighteen Mountains, Ouyang Ming also said to Ye Xuan.

"Ouyang adults, I will go!" Ye Xuan nodded.

This is a once-in-a-lifetime opportunity. How can he not go?

"Okay, then let's separate it here." Ouyang Ming finished, just turned around and left, he must immediately report to the royal family to the emperor.

The embers of a beast ***** can command such a huge monster army. If they rise, the entire Xuanyang empire will suffer.

Fortunately, the black man did not seem to want to make a big noise, so did not let these monsters rush out of the Lianyun 18 mountain range, otherwise Ye Xuan and Ouyang Ming probably still have to run.

Looking at the back of Ouyang Ming's departure, Ye Xuan also quietly stayed for a while.

"Hey, there are so many corpses along the way, you can't waste it." Ye Xuan suddenly showed a smile, and then suddenly swallowed the treasures of the heavens.

"Hey, the host broke through to the ninth middle of the martial arts!"

Originally, he had to upgrade a few tens of millions, and after swallowing 100 million Tiancai Dibao, he made a direct breakthrough.

In this way, he was sure to go back, because last night to kill them, but there are ten-order monsters from the eighteenth mountain range.

However, for those bodies, Ye Xuan has to go back once, and those bodies are worth at least 100 million.

However, what made him helpless was that this time, the scale of the monsters was too large, which caused the attention of many human warriors. When he went back, he had already seen a lot of people collecting the materials of the monsters.

"No way, only change the charge!"

In desperation, Ye Xuan had to change a black suit, although it was said that it was a big day, but in order not to let other people see him, he could only do so.

After changing the black clothes, Ye Xuan only showed two eyes. He looked at the body of the land and suddenly plucked out.

"Let me see if anyone can keep up with my speed!"

Ye Xuan thought in his heart and plunged directly to the side of a monster, and then swallowed it.

There are several human warriors around who collect the material of a nine-order monster. They see that the body of a monster has disappeared, and it is also awkward.

"Big brother, I didn't read it wrong? The body disappeared?"

"Disappearing a fart, it is absolutely a ring, kill, kill him!"

"A Qiankun ring, the cheapest one has ten pieces of spar. If we get it, we won't have to go through the blood of the knife in the future, kill!"

At that time, the human warriors were madly rushing toward Ye Xuan.

"Hey, want to kill me, are you ready to die?"

Feeling the movement behind him, Ye Xuan suddenly turned and took out the broken cloud bow.

The Golden Eagle Bow is too conspicuous. If it is used out, it will definitely cause some trouble. Moreover, killing these warriors who are not even the eighth in the martial arts, need to use the spirits?

In the blink of an eye, the warriors of the were shot by the spiritual arrows.
