Chapter 981: Dragon hand

"call out!"

"Hey!"

This disciple is a few people who are mainly trained by Xue Yanzong. Naturally, he understands the sword, so this sword of Ye Xuan only kills him.

"This is impossible....."

This disciple can't believe that his strength is still above the elder Yang Zhen. Why can't he stop Ye Xuan's sword?

However, when he was still shocked, there was a flash of silver.

"The Eye of Silence!"

"Oh!"

The disciple's head was directly cut off and instantly fell.

The reason why he was killed by Ye Xuan was partly because of the snow swordsmanship and part of it because of his intention. He saw that Ye Xuan did not attack again, so he took it lightly, but he did not expect Ye Xuan to have a mysterious killing trick, even if he did not raise his hand.

Five people, one person was lost, and only four people were left.

"Lin Shidi!"

Guo Tengyi's eyes widened. I didn't expect Lin's brother, who had a hard body, to be killed in a blink of an eye. At the moment, he also quickly rushed toward Ye Xuan.

"Humph!"

Ye Xuan looked at the attack of these four people and directly lost the earthquake sword in his hand.

"The sword is returned to the sect!"

The Zhentian sword was divided into hundreds and directly killed Guo Teng.

At the same time, Ye Xuan is attacking the other three.

"The Eye of Brilliance!"

At that time, Ye Xuan's eyes and hair became golden, and the golden swords of the sword rushed toward the other three disciples who were physically difficult.

"Good!"

The three men were gloomy and knew that the three attacks were incomparable and hurriedly avoided.

However, the next moment to greet them is the two Ye Xuan.

The deity and the avatar fit in a brilliant eye, consuming about two-thirds of the upper limit of the force. In this state, if you are separated, the deity and the avatar will maintain a brilliant eye.

If the deity and the avatar each use the eye of glory, then the two bodies consume the same amount of force, which is twice as large as the fit.

This is the test of Ye Xuan Fang, which is a way to save energy.

At this time, Ye Xuan in two golden states constantly attacked the three elite disciples.

The deity and the avatar still have one-third of the power, so the three are constantly tortured by mental attacks.

"Hey!"

The battle started only two seconds, that is, a disciple was forced to fight back the golden sword, but the attack power of the golden sword was stronger than him, so he was killed by a sword.

Now, it is two to two.

As for Guo Teng, it has been smashed by hundreds of Zhentian swords. After all, the snow environment is bad and the moving speed is slower than that on land. He can stick to it.

After practicing the snow and ice, Ye Xuan can use the wind and snow method to step on the snow and run wild on the snow.

These factors have caused Ye Xuan's self-confidence to skyrocket.

"Damn, this guy's strength is really so strong!" Guo Teng looked blank.

Originally, he thought that other people exaggerated the strength of Ye Xuan. I didn't expect it to be the case. At this time, his four younger brothers were already dead, and the remaining two estimates could not last long.

Most importantly, he was also suppressed by the hundreds of Zhentian swords.

"go!"

Guo Teng took the initiative and made a decision to escape.

In the distance, Ye Xuan Yuguang swept away, and his heart was disdainful: "The blood ancestors of the ancestors, the first genius of the blood rock sect, I also had to run when I saw it. Megatron, the spirit sword trapped him! "

After receiving the instructions of Ye Xuan, hundreds of Zhentian swords were rapidly expanded and turned into great swords, and then fell unrelentingly.

"Hey!"

"Hey!"

"Hey!"

A large sword in the sky, slammed into the snow, Guo Teng was immediately blocked off the road, not a second, he is like Yang Zhen, was blocked by the spirit sword array.

God can't do it, and the next place doesn't work. Guo Teng is trapped!

"Megatron, it's good!"

Ye Xuan praised one sentence.

The giant sword of the sky, each blade is two or three meters wide, and hundreds of giant swords are smashed down, and Guo Teng all retreats. If Guo Tengru wants to leave, he must break through the giant sword.

However, Megatron is now a six-product first-order Lingbao. Although it can't stop Guo Teng's attack, it is not a problem to drag him.

When Guo Teng was restricted, Ye Xuan suddenly reached out and grabbed the void in front.

"擒龙手!"

A golden infuriating condenses into the palm of your hand and grabs a disciple.

"What, the lord's dragon hand?" The disciple was shocked.

擒龙手, but the secret of Guo Yan of the blood rock sect, Guo Hua, only Guo Tenghui, but now he is under the yoke of Ye Xuan, and immediately he is showing a desperate look.

"Ice and Snow Sword!"

"call out!"

A head flew up, the disciple was also smashed his head, the wound was instantly frozen, and a drop of blood did not flow out. His head was squatting in the snow, covered with snow, and his body was also thrown away by Ye Xuan's dragon hand.

"No, don't kill me, Master Guo is helping!"

The last **** bloodline elite disciple looked flustered toward Guo Teng.

"擒龙手!"

Ye Xuan once again found a claw and took the elite disciple down. The next moment, the latter's head was also thrown away.

Ye Xuan at the eye of glory, the strength of the infuriating has soared a lot, although the other side is a real hardship, but also can not get rid of this dragon hand.

"This dragon hand is really strong and explosive. If the repair is completed, the power will definitely increase a lot!"

Ye Xuan is excited, but he hasn't forgotten where he is now. He has quickly taken off the four people's enthusiasm.

It is a pity that these disciples who have come out to practice are not many things, but they are better than nothing.

After swallowing up the four things in the ring, Ye Xuan's cultivation was further, and because of the blood connection, the first avatar and the second corpse far away from the East China also got the same improvement.

Now, only Guo Teng is left alone.

"Impossible, why are you licking the dragon hand, this is impossible!"

Guo Teng, who was trapped in the spirit sword array, shouted loudly.

You must know that his father, Guo Hua, the chief of the blood rock ancestor, also studied for ten years before he learned the dragon hand.

However, Ye Xuan, who is only twenty-five years old, will be there. How is this possible?

The key point is, where does Ye Xuan learn to lick the dragon hand?

"Where to learn, this is not the point, the point is that you have to go to hell!"

Ye Xuan's flashing light directly allowed Megatron to restore the state of hundreds of earthquake swords, and Guo Teng also restored his freedom.

"escape!"

Guo Teng saw that he was free and turned around immediately.

"The sword is returned to the sect!"

The time of Wan Jian's return to the ancestors has not passed, and hundreds of Zhentian swords are chasing Guo Teng.

Available at this time.

Ye Xuan's deity and avatar both came out at the same time. In an instant, there were two golden palms in the void. Guo Teng raised his hand and defeated a golden palm, but was caught by the second golden palm.

Then, the avatar reached out again.

Chapter 982: Return to blood rock

Another golden palm appeared.

At this time, Guo Teng was caught by two golden palms, and it was so painful that it was like an ant.

"what....."

Guo Teng had to scream and scream, and the sound made an avalanche to the distant snow-capped mountains.

Ye Xuan stood so voluntarily, looking at Guo Teng quietly, asked: "Go to hell, apologize to my master!"

"The eye of decomposition!"

Four invisible decomposition rays were shot on Guo Teng's head. Guo Teng had a heartbreaking lung. Although he could not see it, he felt his own celestial cover disappeared.

After a while, the effect of the disintegrating eye spread to Guo Teng's brain.

Guo Tengbai turned his eyes and cut off his vitality.

At the same time, Ye Xuan is also lifting the glory state, although it is only half-opening the eyes of glory, but his combat power is already strong and explosive.

"Master, I avenge you!"

Ye Xuan muttered in an empty environment.

However, this matter is not over yet, and the **** patriarchs have let Guo Teng do this, and Ye Xuan will not let him go.

"call out!"

After Guo Teng's death, a piece of Qiang Kun rushed over, this is Guo Teng's Qiankun Ring.

At this time, Guo Teng's entire head has been broken down, and the death is even worse than the other four.

"Well? Spiritual fruit?"

Ye Xuan explored Guo Teng's Qiang Kun ring and found a baby inside.

This fruit is a bit like a human eye. Ye Xuan once saw it in the super swallowing system and needs a little swallowing point to be able to redeem it.

I did not expect this time, I was able to get one.

This spiritual result can greatly enhance his upper limit of force and recovery speed, of course, vision and so on.

"Special devouring!"

Ye Xuan said nothing, immediately use the super-phagocytic crystallization to give this ecstasy a special engulfing. At the moment, his upper limit of force is increased by 50%.

This battle, although did not trigger random tasks, but Ye Xuan's harvest is also very good.

As for the ore in the Qiankun ring, Ye Xuan was naturally thrown to Megatron.

"Hey, Megatron breaks through!"

The system prompts to sound.

Originally, Megatron was the sixth-grade first-class sacred treasure. Now it has swallowed up the ore and reached seven products. The power is also improved again, which indirectly enhances Ye Xuan's strength.

Ye Xuan took the bodies of five people and then thought for a moment.

The lord of the blood rock sect is a strong three-powered and powerful man. With his current strength, he can fight with one. But the blood rock sect is not only the blood sect, but also other elders. If he is besieged, he is still dangerous.

However, if he can't beat it, can he still run?

"Hey, take the blood rock mines first!"

Ye Xuan's flash of light flashed a door directly to the void.

He also has a void position in the blood rock sect, which is his own residence. Now, he is directly back to his room in the blood rock sect.

But what surprised him was that the house had changed its owner. When he passed through the door of the void, he found that a female disciple was changing clothes. Every inch of the female disciple's skin was accepted by him. fundus.

"Ah, you are..."

The female disciple hurriedly covered her clothes, but the next moment, she was easily controlled by Ye Xuan.

"Suit up."

Ye Xuan ordered.

"Yes, master!"

This female disciple should have a sentence.

Her appearance is not bad, her body is also bumpy, the skin is like a gel, and she has a pair of long legs.

If the average person sees this scene, it will definitely spray nosebleed, but Ye Xuan has no interest at all.

Ye Xuan watched her dress up, and then exchanged something from the super swallowing system.

*!

This is very advanced and can be turned into a person's appearance, while at the same time covering most of the body's breath.

However, this * has a flaw, that is, Ye Xuan can only be easily accommodated by the eyes of his control.

"Although it is a woman, it doesn't matter."

Ye Xuan thought of a move, this * in his hand has changed. He put this mask on, and in a blink of an eye it becomes the appearance of this female disciple, and even the hair grows out.

If other people see it, they must have thought that this female disciple has a twin sister.

Unfortunately, this * can only change the face and hair, and even the knot disappears.

However, these changes are only confined to the neck, and there is no change in Ye Xuan below the neck. It is precisely because of this that Ye Xuan uses this *, otherwise he will not use it.

"What is your name?"

Ye Xuan asked.

"Master, my name is Luo Wei." The female disciple replied.

"Well, you stay in the house, don't go out!"

Ye Xuan gave the female disciple an order, then changed a large robe and went out.

Now, he pretends to be a slap, he is going to do something, that is, robbing the blood rock!

He likes to rob this thing. After all, he has only one person, and those blood rock sects, deacons, and elders will go through the experience. The wealth they add up is definitely not a small amount.

With the eye of perception, he can clearly see how many people around him and how they are.

At the moment, he is targeting the deacon who is wandering outside. This deacon is seven-sexually difficult, just like Ye Xuan.

However, his strength is a world of difference with Ye Xuan.

"call out!"

Ye Xuan was like a gust of wind, and immediately plucked behind the deacon, and then took a picture.

"Hey!"

The deacon was stunned in an instant, and then he was taken off by Ye Xuan.

When the deacon wakes up, he will find out what his expression will be when he has nothing to do with it.

Ye Xuan dragged the deacon to the shadow and then began to swim again.

Anyone who has reached the seven-sexual physical difficulty will be stared at him. Soon, the entire outer door is all visited by him, and he has stunned more than 30 people.

Although he can use the eyes of control, the secrets of these people will be known to him, but the eyes of the fourth level can only control twenty people.

And now that it has just broken through to the triple flesh, the charm is not enough, so Ye Xuan can only use this method.

After visiting the entire outer door, Ye Xuan directly entered the inner door of Xueyanzong.

It was late at night, so not many people wandered outside.

The disciples of the inner door are almost all seven physical difficulties, all of which are the goals of Ye Xuan.

Although he and these blood rock sects were brothers and brothers, who made this blood rock lord touch his reverse scale?

Looking tonight, Ye Xuan will squander this blood rock sect.

There are hundreds of inner disciples in the blood rock sect, and there are many deacons, elders, etc. If Ye Xuan robs all of them, maybe they can break through to eight corpses.

Chapter 983: White House Down

The people in the inner door, even Ye Xuan's one blow can not stop, Ye Xuan a hand knife can stun them. In the end, Ye Xuan used the Beastmaster violent, the strength increased by 60%.

Ye Xuan's cultivation is also constantly improving.

Before he had solved five elite disciples, the elite disciples who stayed in the Blood Rocks were only three.

"It's really hard, it's too hard to get rid of them. If I break into the eight-sexual body, I can control it..."

Ye Xuan woke up and thought that he still gave up these really hard-working disciples and elders and only played the idea of ordinary inner disciples.

However, during his looting, he suddenly felt a few strong breaths.

"It's so strong, at least it's really hard!"

Ye Xuan's brows are picking up, and his expression is slightly condensed. Within his range of induction, there are three strong and powerful fighters.

So late, how can there be three such powerful elders hanging out outside?

"No, the two people in the blood rock sect are hard to beat, only two are left. How come there are three?"

Ye Xuan suddenly thought of this loophole, and immediately plundered into the sky, only to take the eye of the eye, his vision improved a lot.

He saw that these three double-powerful and powerful fighters were not the elders of the Blood Rocks, but the masters of the Lie Volcano.

"Three, please stay!"

Suddenly one person swept out and stopped them.

Ye Xuan stared at it and turned out to be Guo Hua, the chief of the blood rock.

Then, the three men followed Guo Hua to a hidden place, and Ye Xuan naturally followed closely.

With the eye of perception, he can hear the conversation of these four people across the big distance.

"Guo Zongzhu, the old lord thought about it?" asked the old man headed by Lie Volcano.

"Well, my father agreed." Guo Hua nodded.

"Well, the strength of the old lord is not weak, as long as he helps us stop the old woman of Fengxue Mountain Villa, after the event, 30%." The old man whispered.

"Three percent, the deal!" Guo Hua immediately nodded, he knows what the 30% of the old man's mouth is.

"If this is the case, let the old lord come back to the volcano with us." The old man continued.

Guo Huadao: "Then I will go to the father to go out now!"

The conversation is over soon.

Then Guo Hua left directly.

And Ye Xuan, it is a glimpse.

After he thought about it, he understood it.

"I didn't expect that Xueyanzong had a retired old lord. The strength does not seem weak, otherwise it will not be invited by Lie Volcano to cooperate..."

Ye Xuan swallowed it.

At the same time, he also guessed what blood rock sects and volcanic volcanoes are going to do. It seems that they are going to attack the snow-capped mountains in one fell swoop.

It can be known from the conversation of the other party that the old lord has the strength to drag the snow-capped mountains and snow red, and at that time, the volcanic volcano can attack the snow-capped mountains.

"No, this matter must be immediately returned to Fengxue Mountain Villa!"

Ye Xuan looks dignified. Now that he has joined the Fengxue Mountain Villa, he naturally wants to think about the Fengxue Mountain Villa.

But when he was about to leave, the sky plucked two figures. One of them was Guo Hua, and the other one was estimated to be the old lord.

"It's so strong, the breath is stronger than the windless father, but it is weaker than the snow red..."

Ye Xuan heart trembled.

It seems that this old lord is indeed qualified to fight the snow red.

"who?"

Suddenly a violent drink rang, Ye Xuan hit a spirit, turned his head and saw that the old man actually killed him.

Fortunately, he is hiding in the corner and looking at it with insight.

"The Eye of Void!"

Ye Xuan quickly broke through the door of the void, drilled in, and then the door of the void quickly closed.

The old man plucked over, but did not find anything, he muttered: "Strange, do I feel wrong?"

.....

Ye Xuan, who took advantage of the door of the void, has returned to his residence in Fengxue Mountain Villa.

"Huh, good luck."

Ye Xuan breathed a sigh of relief.

The effect of the eye of the void will increase as the realm improves, and the journey of a few days can be crossed in an instant.

Fortunately, he has a hollow eye, otherwise he will be taken down by the old guy.

He did not expect that the old guy's ability to perceive is so strong, he has worn *, and there are shadows of the leopard blood, etc., still found.

"No, you have to tell this without a trace."

When Ye Xuan thought about it, he was ready to go out, but at this time, the falling door was suddenly opened.

"Hey, you are... young master?"

When I felt that someone was in her yard, I came out to see it, but I saw someone I didn't know.

She and Ye Xuan have a blood servant of the master and servant, naturally will not use the appearance to identify Ye Xuan.

"it's me."

Ye Xuan took off the *, the original form, said: "Let's continue to practice, the young master I have to go out immediately."

"Ok."

After confirming the identity of Ye Xuan, he returned to the room to continue practicing.

One day, she was difficult from the double-body, and broke through to the triple-body. After another day, it is estimated that it will be difficult to have four bodies.

Her speed is really likely to catch up with Ye Xuan.

After leaving the yard, Ye Xuan went to the shelter where the wind was no trace. The latter was practicing swords in his own yard. After seeing Ye Xuan, he also smiled and said: "Ye Xuan, how is my snow-capped mountain village?"

"No trace, I have something to tell you..."

Ye Xuan directly opened the door and told him what he knew.

"What, **** ancestor?"

After listening to the wind, I was very surprised. "I heard that Guo Xiaotian, the old emperor of the Blood Rocks, was a three-year-old qi, and then went out to travel, but he did not expect to have returned."

Ye Xuan's character is still decent. On the same day, he did not have the danger of swearing. He killed the wind and took the wind and snow, so the wind has no confidence in him.

"Yes, and I feel that his breath is stronger than Zhuang, but weaker than Lao Zhuang." Ye Xuan nodded.

The wind has no traces and the body is shaking.

He is twenty years old this year. It is already a double anger. He is seven or eight years younger than Guo Teng.

And his father, as the owner of the Fengxue Mountain Villa, is naturally weak, and now he has reached the four-fold truth.

As for his grandmother's snow red, it is even more powerful.

If the smell of Guo Xiaotian, the owner of Blood Rock Zongzhuang, is as true as Ye Xuan said, then I am afraid that it is also a strong five-powered.

"Ye Xuan, I will go to see my father immediately."

The wind is not traced immediately with Ye Xuan left, to find Feng Shuang Villa Zhuang main wind Wen Yao.

This is related to the survival of the Fengxue Mountain Villa, and it is believed that it is not credible.

Soon, the wind is no trace, it is to find the wind and glory, at the same time, snow red is just right, the two are talking about some things.

Chapter 984: Mission task

"No trace, so late to find something wrong?" Feng Wenyao asked strangely.

"father!"

The wind did not immediately enter the door, and then re-told the things of the party.

"What, the volcanic volcano has been drawn to a five-figure flesh-strong person, ready to sneak attack on our snow-capped mountains?"

After listening to Feng Wenyao and Xuehong, it was also a blank look.

"How did you get to know this?" Snow asked inexplicably.

Faced with this problem, the wind can only turn to look at Ye Xuan.

This kind of secret conversation, even the elders of Xueyanzong did not know, and how did Ye Xuanyuan know in Fengxue Mountain Villa?

"Is such that....."

Ye Xuan began to talk about it. From the time he entered the Wanxue Snow Mountain, he met Guo Teng, and then broke the void to the Blood Rocks. He happened to hear this.

"Breaking the void, from the Wanxue Snow Mountain to the Blood Rocks?"

The snow red and the wind and the wind are all shocked. They are the first to hear this kind of thing.

"I know you don't believe it, so you can come and try it for yourself."

After Ye Xuan finished, the light flashed.

The next moment, a void door opened beside him.

"what is this?"

Snow red and Feng Wenyao directly swept over.

Ye Xuan did not say anything, just put it in.

The three people who did not trace the wind followed up, and then they were shocked.

"This is, the snow-capped mountains?" The wind exclaimed without a trace.

"Yes, I just rely on this, from the Wanxue Snow Mountain directly to the blood rock sect." Ye Xuan nodded.

At this point, he was already with the windless three people to the place where he killed Guo Teng that day.

The three people who were shocked by the wind were shocked. The snow-capped mountains came here. I am afraid that it will take nearly a day. From here, I think of Xueyanzong. It takes at least three days to get on the road.

"The magical martial arts, this is not a fantasy, we are really in the snow-capped mountains." Feng Wenyao exclaimed, he lived for decades, and for the first time heard that it can break through the void.

"Don't say you, even I can't do it. This martial art seems to be building a bridge of secrets in two places. But this means, even the masters of Vientiane can't do it." Snow red is also amazed.

The wind is not shocked and shocked. I hurriedly asked: "Ye Xuan, where did you get the martial arts?"

"This is what I learned in my memory. When I broke through to the physical, it was difficult to open the door of the void." Ye Xuan casually compiled a lie and let the other party think that he paid a big price. .

Generally, powerful talents can leave legacy memories, such as fallen ancestors.

"It seems that Ye Xuan has had a super strong person on your ancestors." The wind has no envy and said.

"To open this empty door, you need to consume vitality, let's go back."

Snow Red immediately re-entered the door of the void and returned to the residence of Feng Wen Yao.

Now, they believe what Ye Xuan said.

"With this empty door, we can go directly to Xueyanzong, but Guo Xiaotian is estimated to have left the blood rock sect and went to the volcanic volcano. If he and the volcanic volcano Zhuangzi Zhaijin join forces, I am against the enemy." Xue Hong said with a thoughtful look.

"Mother, how do we deal with it? Now I am going to intercept the Guo Xiaotian?" Feng Wen Yao asked.

Xuehong immediately shook his head and said: "No, first of all, we don't know their route, and once I leave the snow-capped mountains, if I get into the volcanic volcano, I won't lose."

"Grandma, what do we do?" asked the wind without a trace.

After the snow red sinking for a while, the road said: "This time the Lie Volcano and the blood rock sect cooperate, if we don't know, it will be a heavy loss, and it may be destroyed. But now we have learned about this, it is better to set it down. Ambush, let them vote for themselves."

After everyone heard it, it also silently nodded. This is indeed a good way.

"So, mother, are you going to ask for a big break?" Feng Wenyue took a look.

"You are in the city of Yueyang, a few days away from our Fengxue Mountain Villa. You Yao immediately sent a few people to invite her. In addition, please call back the dust." Snow red against the wind Said.

No dust, that is, the big brother with no trace of the wind, has already broken through the three real gas difficulties, is struggling to hit the four real gas, is the first genius of Fengxue Mountain Villa.

"Okay, I will go." Feng Wenyao nodded.

At this time, the wind did not trace suddenly: "Father, please wait."

"How?" Feng Wenyao looked strangely at the wind.

"When we go to the Snow Mountain Resort, it will take nearly seven days. If there are some ambushes on the road, if you can't come back, it will be troublesome. So I think it's better to let Ye Xuan go. Directly open the eyes of the void, you can immediately return to our Fengxue Villa." Wind no trace proposed.

Hearing this, Feng Wenyao and Xuehong are also suddenly thinking of this matter, Ye Xuan can open the door of the void, from the Fengxue Mountain Villa can directly go to the blood rock.

As long as you arrive at Yueyang City, and then use the eye of the void, you can quickly return to Fengxue Mountain Villa, which can save a lot of time.

"Yes, our village has been stared at. If the master goes out, it is very easy to be killed. Ye Xuan is only a seven-figure body. As long as he is dressed up, no one will pay attention." Feng Wenyao nodded.

Ye Xuan's strength, he heard that, when the six-figure body was difficult, he severely injured Yang Zhen, who was really angry. Now it is difficult to complete the seven-sexual body. It is not a problem to complete the mission.

"Ye Xuan, I have a longevity Dan. After refining, I can increase my life expectancy by five years. As a reward for this mission, are you willing to go to Yueyangcheng?"

Snow red suddenly took a jade bottle from the Qiankun ring.

"Longevity Dan?"

Hearing this, Ye Xuan's eyes could not help but shine.

This thing is also sold in the super swallow system, and it is very expensive, even he can't afford it now.

This one may make him break through to the eight-sexual body.

"it is good!"

At the moment, Ye Xuan is nodding directly.

Xuehong also said nothing about it. He threw the longevity Dan to Ye Xuan, and took out the paper and pen, wrote a letter and a token to Ye Xuan.

"If this is the case, then you should leave immediately. It is necessary to rush to Yueyang City within five days." Xuehong handed things to Ye Xuan and said: "Wen Yao, add more people in the wind and snow."
""

"Yes!"

Feng Wenya nodded.

Then, Ye Xuan left directly.

"Ye Xuan, please be careful." The wind no trace reminds.

"Will do."

Ye Xuan showed a confident smile.

A messenger mission in the district, isn't it for him?

He is only seven-sexually difficult. It is estimated that Lie Volcano will not send a powerful man to kill him. Of course, even if he comes, he is not afraid.

Chapter 985: Goodbye Yang Zhen

One heavy, two really hard-working people, come to a Ye Xuan to kill one, even if it is a master of triple-sexual difficulties, if Ye Xuan can't beat it, can't he still run?

Immediately, he immediately left the Fengxue Mountain Villa and rushed to Yueyang City according to the map.

Xue Hong gave him a five-day deadline, but Ye Xuan thinks this is too long. After all, people need to sit down and rest to restore their infuriating and physical strength. However, he can hurry 24 hours, and he can go to Yueyang City in less than three days.

However, it was not an hour before he left the Snow Mountain Resort, and someone followed him.

"This kid is only seven heavy and hard, can't kill?"

Three men quietly followed Ye Xuan, one of them whispered.

"Whether the mosquitoes are small, is it a knife?" The man whispered.

The three of them are Jiuzhong's flesh-hard, and they belong to the Lie Volcano Village, which is specially designed to kill the children of Fengxue Mountain Villa passing by.

Of course, even if they are not the people of Fengxue Mountain Village, they will not let go, and what they do is the thief's robbers.

At the moment, the three of them are leaning toward Ye Xuan.

"Little brother, please wait." The head of the man shouted Ye Xuan.

But he couldn't think of it. Ye Xuan had heard their conversations, so turning his head was a sword.

"Ice and Snow Sword!"

"Swords!"

Ye Xuan immediately shot, hit the three ones caught off guard.

"Oh!"

"Oh!"

"Oh!"

Three crisp sounds followed, and three heads flew, and the sound fell to the ground.

"The district is physically difficult and dares to hit my mind."

Ye Xuan's foot was the next time, and he turned back the three-person squadron and the body, and then continued on his way.

He was already using special phagocytosis to refine the longevity, but he did not break through to the eight-sexual body. This made him a little depressed. Now he has three more incomes. It is not bad.

Longevity Dan can increase the life expectancy of five years, but each person can only take it once.

The life expectancy of the warrior will increase with the improvement of the realm. The life expectancy of a serious life is about 150 years old.

However, the general warrior will have internal injuries, dark diseases, etc. These injuries are left in the early years and people fight more or less, and the accumulation is much less.

Once these injuries have broken out, even if there are still decades of life-long uselessness, it is good to live in the world of the dead, and it is good to live a hundred years.

Unless they are some recluse or ascetic, they are used to living alone, and they will live longer without a fight.

Ye Xuan had overdrafted several vitality before, but it is estimated that it will not consume so much in five years, so this longevity Dan is earned.

After solving the first wave of trouble, Ye Xuan is moving on. It is imperative to go to Yueyang City first.

Because he is in a straight line, even in the case of danger, he directly rushed the road for a day, and after another day, he estimated that he could feel the city of Yueyang.

However, just as he passed by a small town, he heard a terrible cry.

"Booming!"

"what....."

"Do not kill me....."

A sound of the road fell into the ears of Ye Xuan.

The sound came from Ye Xuan's sensory range, so he didn't know what happened in the town.

"What happened, wouldn't it be like a robber?"

Ye Xuan's eyes could not help but burst out two brilliant mansions.

He likes robbers, bandits and the like, so that he can kill and then quickly.

At the moment, he is plundering.

When he was approaching, the area of the induction was to see the people in the town escaping, and one of them was chasing them.

Among the towns, the corpses are everywhere.

"Sure enough, someone is killing."

Ye Xuan shuddered. He felt that the people who slaughtered the town were probably at least two people.

"The road is not flat, the knife is helping, and the day is dare to kill the town, seeing me marry you!"

Ye Xuan suddenly felt a sense of justice, although he said that he also did a lot of murder and treasure, but he has not done such a thing.

In the meantime, Zhentianjian was held by Ye Xuan in the right hand and then killed.

However, the closer he felt, the worse he felt. The man who slaughtered the town had a slender nail and the head was screaming, and the voice was sharp and miserable.

"Is it a ghost?"

Ye Xuan brows a pick.

Ghost spirit is formed by deep resentment after death. Bloodthirsty is like life. If you see a living creature, you will kill it.

To deal with this kind of creature, it is more effective to use the upper sword method of the Shangqing Palace.

However, Ye Xuan has encountered ghosts for the first time in recent years, and it is still very difficult.

"No matter what, kill!"

Ye Xuan is so lazy about it. He helped the people in this town to solve the crisis. At that time, he took the rewards of those who were killed by ghosts as rewards.

After he was approaching again, he found the voice of the ghost, some familiar, and seemed to have heard it.

Soon, he came to the outside of the town. After he saw the face of the ghost that was slaughtered in the town, the whole person was also trembled.

"Yang Zhen?"

Ye Xuan exclaimed.

This ghost with a long nails turned out to be the elder of Yang Zhen, who was ordered to abolish the cultivation of the blood rock sect by Guo Hua.

How can this be?

He did not kill Yang Zhen, how did Yang Zhen die?

Is it because it was too overbearing before it was abolished and then killed by the enemy and then turned into a ghost?

But the next moment, Ye Xuan is responding. At this time, Yang Zhen is still alive, not dead!

Yang Zhen, who has insights at the moment, has signs of life, so Yang Zhen is not dead, but has become a thing that is not a ghost or a ghost. As for what is specific, Ye Xuan does not know.

However, only when he exclaimed, but was heard by Yang Zhen.

Yang Zhen turned her head. After seeing Ye Xuan, the scarlet blood was suddenly brightened.

"Ye Xuan... Ye Xuan... You killed my two sons, I want to kill you!"

Yang Zhen killed a martyr who was dying next to him, and then quickly rushed toward Ye Xuan.

If she is a ghost, then she will float in the air instead of running on land.

Therefore, Ye Xuan concluded that Yang Zhen should be refining into a living corpse, because Yang Zhen has no infuriating body, but his body is ten times stronger than before.

"What day is it that you are a fairy board?"

Ye Xuan screamed in his heart and prepared to fight.

On the same day, because of the face of the wind and snow, he did not kill this Yang Zhen, so that Yang Zhen became a stranger and a ghost, and slaughtered the entire town.

Today, he will marry this Yang Zhen to sacrifice the spirit of those people.

"Wan Jian returned to the sect, out!"

Chapter 986: breakthrough!

"Wan Jian returned to the sect, out!"

Ye Xuan said nothing, directly throwing out the earthquake sword, the latter instantly one hundred points, rushing toward Yang Zhen.

But what makes Ye Xuan strange is that although Yang Zhen is not infuriating, but the body is much faster than before, even surpassing that Guo Teng, even escaped from Wan Jian, directly to Ye Xuan.

"Oh, a little bit resistant."

Ye Xuan snorted, his eyes burst into golden brilliance, and his hair instantly turned into gold.

"The Eye of Brilliance!"

"The Beastmaster is violent!"

"Peace!"

Ye Xuan is divided into two, his sword is as fast as the wind, there are dozens of attacks in the blink of an eye toward Yang Zhen.

Unexpectedly, it was still hidden by Yang Zhen.

"Mom, how can it become so strong."

Ye Xuan is very sorrowful.

With his current strength, he can almost kill the Yang Zhen on the day, but now Yang Zhen, he actually showed no way to show his cards, it is really a dog.

"Ye Xuan, I want to kill you and avenge my two sons!" Yang Zhen yelled at the sharp and miserable voice, and plucked in front of Ye Xuan.

At the same time, Ye Xuan also heard a system prompt.

"Hey, the host triggers a random mission, killing Yang Zhen in the state of ghouls, rewarding a little swallowing point!"

Hearing this, Ye Xuan is also drunk.

On that day, his random mission to kill Yang Zhen was not completed, but the reward at that time was only an advanced route to choose the blood of the beast god, which was very limited.

Now, it is rewarded with a little swallowing point, which means he can be used to strengthen other blood.

made money!

Of course, he has to complete the task before he can get a swallow point reward.

"I will be disgusting and die when I see you."

Ye Xuan, no matter what else, madly shot.

Two blonde Ye Xuan, constantly waving golden swords, the scene is very gorgeous.

But at this time, Yang Zhen, the speed is exploding, and in the blink of an eye, she plucked into Ye Xuan.

"Dead..."

Yang Zhen's mouth was wide, his hands were clawed, and he grabbed it toward Ye Xuan's deity.

At this moment, a huge sword was suddenly dropped in the sky, blocking her claws.

"Zizi!"

The sharp claws actually pierced the giant sword.

However, this powerful sword also brought some breathing time to Ye Xuan.

"The sword is returned to the sect, the sword is!"

In the sky, the giant sword of the sky fell, and Yang Zhen was locked in the air, leaving only a few small holes in the neck.

At this time, Ye Xuan's deity and avatar began to rush around the spiritual sword.

"The eye of decomposition!"

"Ice and Snow Sword!"

That small hole just happens to let the decomposition rays pass.

What makes Ye Xuan extremely shocked is that this time, Yang Zhen actually directly disfigured the ray, and both hands opened the small hole and climbed out of the small hole.

"how is this possible?"

Ye Xuan almost swallowed his tongue. This is what Yang Zhen is now. The body can be twisted into such a way, and it is drilled out from a small hole in the neck.

Oh my God!

Now, he can't care. This Yang Zhen is too embarrassing and must be taken seriously.

"It seems that this is the only way!"

Ye Xuan's deity continues to use the disintegrating eye, and his avatar is flying directly toward the town.

This Yang Zhen did not have a ring, but after he swallowed longevity, he was still able to break through, so he let the body plunder into the town, hoping to break through.

At this time, Yang Zhen has already drilled out from the spirit sword array.

"Wan Jian returned to the sect, cut her!"

Ye Xuan rushed to control the earthquake sword.

Hundreds of Zhentian swords were instantly shrunk and plucked toward Yang Zhen, but they were still fascinated by Yang Zhen.

"Ye Xuan, you can't escape, I want to drink your blood, pull your skin, pump your ribs, take your bones and feed the dog..."

Yang Zhen whispered while chasing and escorting Ye Xuan.

"You are a dog day!"

Ye Xuan swallowed his mouth and immediately ran the oil on his soles and tried to open the distance with Yang Zhen.

However, his speed after using the Beastmaster violent is still slower than Yang Zhen.

He is helpless, and Yang Zhen's strength at this time may be able to win the **** patriarch Guo Hua.

"擒龙手!"

Ye Xuan suddenly turned around and grabbed Yang Zhen, who was chasing after him.

A golden palm appeared, killing a Yang Zhen was caught off guard, but in a blink of an eye, it was broken by Yang Zhen.

Sure enough, the dragon hand does not work!

However, Ye Xuan discovered a little.

When Yang Zhen was grasped by the golden hand, the body sent out a sizzling sound, like a barbecue, and steamed out. Yang Zhen also frowned in pain, apparently causing harm to her.

"The eye of glory, does it have this effect?"

Ye Xuan brows a pick.

Before he learned the swordsmanship method, this thing has a gain effect on things like corpses and ghosts, but he did not expect that the swordsmanship in the state of brilliant eyes has the same effect.

However, this effect is not useful to him now.

The dragon hand was easily removed by Yang Zhen, and the next time it was not so easy to catch her, so Ye Xuan was not used anymore.

Soon, Yang Zhen was chasing it up.

"You an old lady, look at the trick!"

Ye Xuan turned back to be a sword. At the same time, in his forward direction, he also opened a door to the void. When he was out of his sword, he just got into it.

"Hey!"

The door of the void is closed, and Yang Zhen just kills.

"Where is it?"

Yang Zhen's eyes were big, and he looked around in a circle, but he did not find Ye Xuan.

Ye Xuan, have you escaped?

Do not!

He used the eye of the void to cross a distance and came to the town that was killed by Yang Zhen.

"Fast, quickly collect the Qiankun ring and give it to me. Don't stroll around Megatron, hurry!"

Ye Xuan is in a hurry. In fact, he can escape with the eye of the void, but the nearest positioning point is the Fengxue Mountain Villa.

Let him return to the Snow Mountain Villa, wasting a day's time, this is impossible!

After all, he wants to kill this Yang Zhen and kill the people.

When Ye Xuan was close to the town, the town was already full of corpses, with thousands of bodies, and even more difficult.

Ye Xuan's deity and avatar, as well as Megatron's three-pronged approach, quickly searched the ring and tried to break through.

Their speed is very fast, in the blink of an eye is to collect all the Qiang Kun ring, and then all swallowed.

"Ye Xuan, you have been hiding here, you are going to die!"

A miserable cry fell into Ye Xuan's ear, and Yang Zhen killed again.

However, at this time, Ye Xuan, but secretly revealed a smile.

"Hey, the host breaks through, it's currently difficult for the eight-sex body!"

Finally, broke through!

Now, Ye Xuan is not afraid of Yang Zhen.

There is still a little time in the state of brilliant eyes. He is confident that he will kill Yang Zhen.

Chapter 987: Ghost mark?

"Ye Xuan, go to hell!"

Yang Zhen just flashed in front of Ye Xuan.

At this moment, Ye Xuan suddenly shot.

"Wind and Snow Sword!"

"Hey!"

Golden Jianqi and Yang Zhen's claws collided, and the blink of an eye provoked a sharp shock. This time, Yang Zhen was shocked.

"fit!"

Ye Xuan's deity and avatar instantly fit together, and the strength has soared by 30%.

In the case of a single-on-one, it is better to fit.

"Yang Zhen, although I don't know what you are going to be, I will send you to hell."

Ye Xuan screamed, and the shaking of the sword in his hand was as fast as lightning, and he quickly took out a sword.

Yang Zhen also felt the change of Ye Xuan's breath, and immediately blocked her hands, but in the next moment, her hands were bursting with the golden sword.

"escape!"

Yang Zhen is not a ghost, so I still have consciousness. I immediately turned around and ran.

At this time, Ye Xuan's strength is not something she can do.

"Now, are you running away?"

Ye Xuan's mouth showed a cold smile and pulled out another sword. Now, look at how Yang Zhen, who has no hands, can resist.

"No... you can't kill me... I'm a ghetto..."

When Yang Zhen's words were not finished, they were stunned by this golden sword. Immediately, a violent explosion occurred and Yang Zhen's body was bursting open.

"I am dead... I won't make you better... Ghost mark..."

At the moment when Yang Zhen died, suddenly a black light broke directly into Ye Xuan's body.

"Hey, the corpse mark in the host!"

The system prompts.

Yang Zhen's body slammed down on the ground, but Ye Xuan was too lazy to pay attention to her, but was wondering what was in her.

"It seems that it is another kind of tracking mark. The ghoul is a man who made Yang Zhenlian look like this?"

Ye Xuan brows a pick and feels that he is in trouble.

However, the world is so big, it is not so easy to meet a person. As long as Ye Xuan's realm is enough, you can erase this gull mark. Of course, he can also ask other experts to help.

Therefore, Ye Xuan did not care much.

"Hey, the host succeeded in killing Yang Zhen, completing random tasks and rewarding a little swallowing point."

The system prompts again.

Now, Ye Xuan has two points to swallow.

If you have three more points, he can condense a detachment. Of course, he can also be used to strengthen other blood.

"Save first, use it if necessary."

Ye Xuan is full of joy, and the use of two points of swallowing points can be more. Now, he has collected all the bodies and buried them. After all, this matter has something to do with him.

Immediately, he just left.

.....

However, when Ye Xuan left the town, in a certain place in the holy place of Penglai, a young man with a knee-high on the stone bed suddenly opened his eyes.

"Death..."

The young man muttered: "Although it is only a defective product, but no one can kill, the iron face ghost body, to kill the kid."

Then, in another distant place, a man with a gray mask got up and left the cave.

.....

Ye Xuan, who still does not know that he has become the target of killing, is rushing to Yueyangcheng.

One day later, he finally arrived at Yueyang City where the windless grandmother was located.

"The big grandmother with no trace of the wind, in the Xuejia of Yueyang City, is said to have two strong five-powered strong, and the wind-free big brother is also here."

Ye Xuan thought in mind, it was into the city of Yueyang.

After inquiring, he quickly knew the location of the snow house and quickly rushed over.

"Who is here?"

A snow house guard stopped Ye Xuan.

"I came to see you in the snow house, Xueqing, I am from Fengxue Mountain Villa." Ye Xuan directly reported his own coming.

"What about the snow-capped mountains, can you have a token?" The guard of the snow house.

He stayed at this snow house for more than ten years, and he also knew the relationship between Xuejia and Fengxue Mountain Villa.

"Have!"

Ye Xuan directly handed over the tokens of Fengxue Mountain Villa and handed him the red letter.

"Well, you come in with me."

After the guards verified it, they took Ye Xuan into the snow house and waited in a hall.

Not long after, there was an old woman with white hair coming in with a few people.

"Snow red predecessors? No, they are twins!"

Ye Xuan brows a pick, he found that the old woman is exactly the same as the old snow-covered village of Xuexue Mountain, even if the hair is white.

However, the breath is different.

After the old woman came in, she went straight to the mountain and asked: "What happened to Fengxue Mountain Villa?"

The letter that Fang Caixuan handed over just showed that there was a big problem in Fengxue Mountain Villa. As for the specifics, Ye Xuan personally answered.

"Snow Qing's predecessors, this is the case..." Ye Xuan hurriedly said things out.

"In short, it is the two volcanic volcanoes who have five five-pronged anger, ready to sneak into the snow-capped mountains?" The old woman understood it in an instant.

"Yes, so the old Zhuang owners want to ask the seniors to go over, they will count on the plan, set up an ambush, wait for the volcanoes to vote for the net."

Ye Xuan nodded.

"In this case, it is not too late, I immediately convened a man and rushed to Fengxue Mountain Villa."

When the old woman finished, she was prepared to go on and convene a master, and in one fell swoop, the volcano was dried up.

"Predecessors are slow..."

At this time, Ye Xuan suddenly stopped her, no nonsense, directly use the eye of the void.

A door of the void was opened, and then he himself wore the past.

He has already left a void position in the Xue family, and there are also wind and snow mountains, so no matter where he is, he can transfer it, which is very convenient.

"What is this means?"

The old woman and a group of Xue disciples behind her were shocked. They curiously passed through the door of the void and found that the temperature around them was instantly reduced.

"Here, is it a snow-capped mountain village?"

A group of Xue disciples are amazed.

At this time, in front of them, there are already a few figures, and the snow red and Feng Wen Yao are in the snow-capped mountains.

As early as Ye Xuan arrived in Yueyang City, let the fall to inform the snow red.

"sister."

Snow red saw Snow Green coming over and rushed to meet.

"Sister, what is going on?"

Xue Qing began to think that she had entered the illusion, and she could use her realm to make her illusion, which is not the fault of Ye Xuan's eight-sexual body.

"Sister, this is Ye Xuan's secret technique, which can directly connect with my Fengxue Mountain Villa and Xuejia, but at the expense of vitality."

Xue Hong explained one sentence: "The volcanic volcano is estimated to be working in the near future, and then I need my sister to help."

"Well, my Snow House hasn't had any big moves in recent days. I can immediately arrange to sit in the town of Fengxue Mountain."

Chapter 988: coming!

"Well, my Snow House hasn't had any big moves in recent days. I can immediately arrange to sit in the town of Fengxue Mountain."

Xue Qing directly agreed, and then she turned her head and said a few words to a middle-aged woman behind her, and then the beautiful woman quickly passed through the door of the void and returned to the snow house in Yueyang City.

The master of the snow house, together with the masters of the snow-capped mountains, if the people of the volcanic volcano really want to come, then it is self-investment.

At that time, you can wipe out the volcanic volcano and pick up two grievances.

Through Ye Xuan's empty door, Xue Jia adjusted a lot of masters, plus Xue Qing and her husband, a total of two five-figure masters, and five four-way real hardship.

The strength of the volcanic volcano is similar to that of the Fengxue Mountain Villa. Even if you add the old emperor of the blood rock, there will be only one master who is five hard and hard. However, the Fengxue Mountain Village has added a five-fold real gas.

This battle, Fengxue Mountain Villa can not be defeated.

The people of the Xue family are hidden in the snow-capped mountains, and they do not leave the house, because there may also be spies in the volcanic village.

Now, just wait for the people of the volcanic volcano to come to the door.

"Young Master, I broke into the five-figure body."

"Young master, six heavy bodies are difficult..."

"Seven heavy bodies are difficult."

"The eight heavy bodies are difficult..."

While waiting for the volcanic volcano to attack, the sound of the fall continued to ring in Ye Xuan's mind.

In just five days, the fall is directly to the eight-sexual physical difficulty, and it is still difficult to go to the nine-figure body.

This speed, but the snow red, snow blue and other people gave shock to the five bodies.

At this time, in the wind and snow temple on the peak of the snow and ice.

"This time, I am a treasure in the Fengxue Mountain Villa. Within seven days, it is difficult to break through the two flesh and the eight-figure body. This qualification is absolutely unprecedented."

Snow red couldn't help but say to Xue Qing beside him.

To be honest, Xue Qing was also scared.

"That snowflake, even if it was dust-free at the time, I am afraid it will take half a year to fully refine, and the little girl actually spent only seven days, which is ten times better than dust. Sister, How are you going to train her?" Xue Qing asked.

"If she can break through a bottle of Snow Dan, it will break through to a hard time, then I can't teach him to the Windy Mountain Villa. I will send her to Wanhua Valley..." Xue Hong answered.

Wanhua Valley is the hegemon of this area. It is said that there are powerful people who are distressed. However, Wanhua Valley is very strict, and only accepts female disciples. Fengxue Mountain Villa once entered the Wanhua Valley.

The snow flashed and flashed, and whispered: "Wanhua Valley, this is a good removal, but the disciples we sent are only the bottom. Otherwise, how can Lie Volcano dare to provoke you?"

However, it is at this time.

"Booming!"

Suddenly there was a huge sound in the distance, and the two old people turned out.

"coming!"

After hearing this huge movement, Xue Qing and Xue Hong both frowned, and the Lie Volcano was finally shot.

"go!"

At the moment, the two old people are dispatched. Of course, Xue Qing and her husband must first hide and wait until the real war, and then suddenly kill.

Presumably, the same is true of the Lie Volcano.

"The mothers of Fengxue Mountain Villa are all coming out of Laozi."

A huge bang, echoing in the snow-capped mountains, disturbed everyone.

"Young master, come back soon, Lie Volcano Zhuang came to die." The landed quickly reminded.

At this time, Ye Xuan, who is in the snow-capped mountains, is also rushing to use the eye of the void and returning to his place of residence.

In these few days, he has been in the snow-capped mountains, but unfortunately, the realm has not improved, it is still difficult to be eight-sex.

After all, many creatures in the Snow Mountain are hidden and hibernating.

Now, it is just a good opportunity to upgrade.

"Ye Xuan, go, play!"

The wind rushed over without a trace.

"Young Master, I will go too."

Falling down to sacrifice her weapons, this is the Chinese version of the supreme Lingbao that Ye Xuan directly exchanged for her, the name is silver silk whip, which can be long or short, can be thick and thin.

With this silver wire whip, the fall can also compete with the two strong and hard-core strong, after all, she has already realized the sword!

"Okay, together!"

Ye Xuan nodded.

The snow and ice of the Fengxue Mountain Villa has been opened, and the people of the Lie Volcano Village can only forcibly break through the battle. During this time, the masters of the Fengxue Mountain Villa gather directly to prepare the hard volcano for hard work.

Ye Xuan and the fall are also behind the wind without a trace, came to the foot of the snow-capped mountains.

At this time, in addition to the wind and snow, there are already hundreds of strong volcano masters wearing orange-red clothes. These people are all powerful and difficult.

In the blood rock sect, there are more than a dozen elders who are really hard-working, and there are hundreds of volcanic volcanoes, which is enough to prove the strength of the volcanic volcano.

Ye Xuan followed the wind without a trace, and came to the snow red behind him. He hurriedly swept through the eyes of the insight and found a familiar voice.

"The predecessor of the snow, that is the old master of the blood rock, Guo Xiaotian!"

Ye Xuan hurriedly reminded me and told Xue Xiaotian how to look like Xue Hong.

"Hey, is it really hidden in the team of Fengxue Mountain Villa, want to attack?"

The snow red snorted and immediately told people to tell the snow master who was hiding in the snow-capped mountains.

If Ye Xuan did not inform him in advance, he really could not find Guo Xiaotian hidden in the volcanic volcano team.

At that time, Guo Xiaotian suddenly broke out the strength of five real gas, at least able to kill two quadruple flesh.

After that, Fengxue Mountain Villa will be directly uprooted by Lie Volcano.

"Old ladies, I have had enough, today is the day of the demise of your snow-capped mountains!"

"Hey, you are a firewood, first broke my wind and snow and said!" Snow red cold shouted.

The two people's grievances, both sides are also well-informed, and they have reached the point where you live and die. Over the years, the two people who died because of grievances have lost their knowledge. Today, they must be divided.

Chai Jin's flash of light flashed, then angered: "Breaking!"

In the meantime, a hundred masters who are really hard-working are attacking Qiqi, attacking against the big snow and ice, and even more people, directly into the big snow storm.

The wind and snow are big, it is the snow-capped mountains*, even if it is a six-powered master, it is not so easy to attack.

Once the wind and snow bursts, it is very dangerous. There are countless wind blades and snow blocks that will slam to the enemy. At the same time, the temperature will drop sharply, which is much lower than the snow-capped mountains.

However, the squalor of the volcanic volcano cultivation can resist the snow, they are just approaching, the snow on the ground is melting into the water.

Chapter 989: Sniper

When the people who saw the volcano volcano began to break up, Feng Wenyao could not help but ask: "Mother, when do we shoot?"

"No hurry, this is a big event in life and death. Let them break some people first. If the wind and snow are broken and repaired, it will be resurrected if the person dies." Xue Hong replied.

The wind and snow squad is working at full capacity, and numerous wind blades and ice blades are attacking the people of the volcano, but the volcanoes are all masters. They are clinging together and easily survive the first half of the road.

As for the second half of the road, they are a bit difficult.

"Hey!"

An incomprehensible man suddenly made a scream, and the people around him stared at it and found a petite creature biting the person's leg.

"Ice and snow, everyone is careful!"

Someone recognized it.

Ice and snow are arrogant, the super-supreme beast that is domesticated by Fengxue Mountain Villa. Although the realm is not high, it is poisonous. Even if it is not fatal, it can be paralyzed by people who have been bitten for a while.

One, there is nothing to these people in the volcanic volcano, but the Fengxue Mountain Villa can not only domesticate one.

"what....."

"My feet can't move..."

"Everyone is careful, there is a mysterious ice giant..."

A miserable scream sounded, and I did not expect that such a thick snow would hide such a crisis.

Although the people of the volcanic volcano will melt where the snow will be, they are all defending against the wind and the blade of the air, who will notice the foot?

In the blink of an eye, there are more than a dozen people in the middle.

"Huh!"

There were a few unlucky people, and the ice blade swept by the wind and snow smashed their heads and splashed blood.

The old lord of the volcanic volcano Zhuang Chai entered a face and said: "Go ahead!"

They have not lost the snow, but they have lost their hands. This is not a good sign.

Fortunately, the three strong and difficult people have come a lot, and they have opened the way, and those hidden crises are no longer a problem.

In the snow-capped mountains, Xuehong looked at the fierce volcano masters who broke the battle. He said: "The second half of the wind and snow is still the super supreme sacred beast. We are not easy to domesticate. Wen Yao, let people close the wind and snow, prepare Play."

"Yes!"

Feng Wen Yao should have a sentence, and immediately signaled in one direction.

The icy ice and snow burst suddenly stopped, and the people of Lie Volcano saw it and immediately rushed up.

"Snow maidens, are you going to give up resistance?" Chai Jin's light fell on Xuehong.

"Do not talk nonsense, the grievances of my Fengxue Villa and your Lie Volcano, you should understand today."

The snow red eyes on the crutches suddenly moved and fell on someone in the volcanic volcano team. "Guo Laozhu, Lord, should we meet for the first time?"

"Ok?"

When this was said, the people on the side of the volcano volcano all showed their sorrow.

Guo Laozong?

This snow red, I actually know that they invited Guo Xiaotian?

"How is this possible, how is the news leaked?" Chai Jin was shocked. He sent someone to ask Guo Xiaotian, very hidden. How did the people at the Snow Mountain Villa know?

However, since things have already been revealed, Guo Xiaotian does not need to hide any more.

"Yes, it's me." Guo Xiaotian slowly walked out of the crowd and said, "How did you find out?"

Faced with this problem, Xuehong would not say that Ye Xuan had overheard it. He explained: "I have a lot of wind and snow in the Fengxue Mountain Villa. Even if the Volcano Volcano is out of the nest, it will not be so easy. They dare to dare. Directly killing, obviously it is dependent, so I guess it is cooperation with Xueyanzong."

"So?"

Some people don't believe in Chai Jin. Since they know that there are two strong five-figure strong people on their side, why is Xuehong still a calm look?

Not only that, but even the people of other snow-capped mountains are the same, as if they knew they would kill.

"In this case, then we have nothing to say, but later, we will change, kill!"

After Chai Jin slowly finished, he took the lead and rushed over. The big knife in his hand was already hungry and thirsty. He wanted to drink the blood of his children.

At that time, the masters of the hundred volcanic volcanoes swept past and continued to attack.

At the same time, the 100 masters of Fengxue Mountain Villa are the same.

"Boom!"

A sword and a knife slammed, and the air was rolling, just like the New Year's Eve.

At this time, Ye Xuan in the camp of Fengxue Mountain Villa was also shot.

90% of the ice and snow swordsmanship, into the micro-level sword, the blood of the sword, etc., which makes Ye Xuan's attack power stronger than the two really difficult masters.

However, what he hates most is the long-range war, because even if someone is dead, he can't get any benefit.

However, the long-range warfare is generally only the opening. As time goes by, the masters of both sides will gradually close the distance, and then the team battle.

Ye Xuan is mixed in the crowd and constantly attacks.

"The eye of insight!"

At this time, his afterglow swept away and found that Xue Qing and other Xuejia masters had already been killed from the back of the volcanic volcano.

Now, the people in the volcanic volcano are like a piece of ham being pinched.

"What, ambush?"

The old lord of the volcanic volcano, Zhai Jin, was shocked. After he saw the old woman who led the way, it was instantly understood.

"Snow Green, the people of Xueyangcheng Xuejia!"

Chai Jin's face changed dramatically.

It is no wonder that Fengxue Mountain Villa is a 'I am not afraid of you'. It was originally prepared.

"Impossible, how do they know that my volcanic volcano is going to do it today, and their intelligence can't be so fast."

Chai Jin couldn't believe it. After all, it took almost five days from the Fengxue Mountain Villa to Yueyang City. The time was wrong.

But how could he understand that Ye Xuan's eyes of the void directly saved the people of Xuejia for a few days and arrived at Fengxue Villa in an instant.

Now, the volcano is in crisis.

"Go, kill it!"

Chai Jin made a quick decision and shouted.

In the face of the siege of Xuejia and Fengxue Mountain Villa, they can only turn to the snow home and then flee.

However, this is not so easy.

"It's time to shoot, fall, let's go!"

Ye Xuan gave a low drink.

Now that the fall has broken through to the eight-sexual physical difficulty, like him, the combat power is so strong that if the two join hands, it is not a problem to deal with a triple-figure.

Those masters, they have no way to deal with them, but it is really hand-to-hand to deal with one heavy and two heavy gas.

"The Eye of Brilliance!"

"Ice and Snow Sword!"

"The Eye of Silence!"

Ye Xuan is not separated at this time. After all, this can improve the strength of 30%, and he does not want to expose too many secrets.

In the state of brilliant eyes, he is amazing, and a sword can kill a powerful man. And the fall, is to continue to cooperate with Ye Xuan, the ring of the deceased to Ye Xuan.

Chapter 990: The volcanic volcano, all destroyed!

It's not been a few seconds before the three parties competed, and the people of Lie Volcano were fallen.

Xue Qing and her husband were responsible for stopping Guo Xiaotian and Chai Jin. As for Xue Hong, they directly pulled out the sword in the crutches and rushed in the ranks of the Lie Volcano.

In general, the Fengxue Mountain Village has a five-fold physical difficulty than the Lie Volcano Village.

This extra person is enough to subvert the entire battle.

However, at this time, in the sky, there is still one person watching the whole battle.

This is a man with a gray iron mask, burly, he looks at the bottom, exactly, is locked on a person.

The person locked by him is Ye Xuan!

However, at this time Ye Xuan did not notice him because he was outside the scope of Ye Xuan's induction.

At this time, Ye Xuan is constantly killing the enemy with the falling, and the souls of their swords have reached four.

Three ones are really hard, and one is really hard.

"Go, Wan Jian is a sect!"

Ye Xuan finally came up with a card, this move is his strongest attack.

At that time, the Zhentian sword is a hundred people, attacking the enemy.

These earthquake swords are all entities, even if it is a triple-powerful strongman, it is difficult to resist.

At the moment, it is the best time, because the master of the volcanic volcano has been dragged, as for other people, can not stop the sword for more than ten seconds.

This string of swords swept into the crowds of the volcanic volcano, and several people were killed in the blink of an eye.

"Young master, catch it."

Falling down is responsible for the long whip in the hand to throw the Qiankun ring to Ye Xuan.

The people in the volcanic volcano have been killed and they have been killed. Although they have not brought many good things to come this time, Ye Xuan has killed a lot of people. If they are added together, it is still very impressive.

Finally, after Ye Xuan received the eighth Qiankun ring, he also heard a tone.

"Hey, the host breaks through, it's currently difficult for the nine-sex body!"

This time, the final battle was to let Ye Xuan break through to the nine-figure body. It is only a step away and it can be difficult to break through.

However, at the time of his breakthrough, the entire situation has also changed.

The ancient emperor of the blood rock sect, Guo Xiaotian, and the volcanic volcano Zhuang Laozhuang, the master of Chai Jin, both were detained. The rest of the people are scattered, but it is difficult to escape the ice and snow mountain and the master of the snow family.

"Do not let one person go!"

Snow red shouted.

This time, but they will take a good chance to fight the volcano, she will let this time?

As long as these people are all fallen, the volcanic volcano can be easily taken. When the children of Fengxue Mountain Villa go out, they do not need to be afraid of being stared by the people of Lie Volcano.

"Oh, young master, I broke through!"

At this time, the fall suddenly passed through the air to Ye Xuan.

After the latter heard it, it was a white eye. He finally broke through to the nine-figure body, but fell into the battle. He even broke through to the nine-figure body in the battle. It is really a human being, and he is mad.

"This is also good, the higher the qualifications of the fall, the more attention is paid to Fengxue Mountain Villa. The Tiancai Treasures I upgraded can be used by myself. In the future, there will be a supply of wind and snow mountains, which will also reduce the pressure on me."

Ye Xuan thought about it.

After the breakthrough, his strength rose and immediately followed most of the masters who chased the volcano.

However, he never found the figure that stayed in the sky. I didn't find it, I won't find it now, because the other party has already left.

There are three masters of snow red and three real hardships. The people in the volcanic volcano were killed and they could not be defeated. In one minute, they were all fallen, and there was no one left.

The volcanic volcano is half dead!

"Wen Yao, with me, I went to the volcano!"

Snow red immediately ordered.

"Yes, mother!"

Feng Wen Yao answered immediately, and then some people immediately went to the volcano.

As for Xue Qing and others, it is for the snow red to sit in the snow-capped mountains.

Lie Volcano Village is more than two days away from Fengxue Mountain Villa. However, it is estimated that there will be one day to arrive at the realm of Xuehong and others.

One day later, there will be no more volcanic volcanoes here, only Fengxue Mountain Villa.

As for Ye Xuan and Falling, it is to stay in Fengxue Mountain Villa and clean up the mess.

The battle was thanks to the help of the Xue family. Otherwise, the snow-capped mountains would suffer a lot.

Of course, the biggest hero is naturally Ye Xuan. Without the reminder of Ye Xuan, Fengxue Mountain Villa is not in a hurry to find a snow house.

Ye Xuan estimates that when Xue Hong and others come back, he will definitely have a big reward.

After cleaning up the battlefield, Ye Xuan and Luo are also returning to their residences to wait for the good news. At the same time, there is no trace of the wind.

"Let's fall, break through, Grandma said that as long as you break through to a heavy gas, then you will be sent to Wanhua Valley." The wind said nothing to the fall.

When I heard this, I asked some strangely: "Where is Wanhua Valley?"

"Wanhua Valley is the overlord of our region. The birds in the valley are fragrant, and the heavens and the earth are at least several times that of my snow-capped mountains. It seems that there are still powerful people sitting in the town." The wind explained without a trace.

"God is difficult?"

Ye Xuan brows a pick.

It is difficult for the flesh to strengthen the flesh, and it is difficult to strengthen the infuriating spirit. It is difficult for the gods to strengthen the gods.

However, after strengthening the dilemma, not only will the gods be promoted, but the body and the infuriating spirit will be greatly improved, which is an overall improvement.

"Yes, I have six children who joined Wanhua Valley in Fengxue Mountain Villa. Their qualifications are top notch in my Fengxue Mountain Villa, but after entering Wanhua Valley, they are unremarkable and have no action."

When the wind is finished without a trace, it is to drop your eyes on the body. "If you can break through to the real gas at the age of fifteen, this qualification is enough to get the attention of Wanhua. The future will be better than I am." The flower valley is much stronger."

When I fell, I was also squinting with big eyes and laughing: "Okay, then I will practice hard and fight for the hardships within half a month."

"cough....."

Upon hearing this, the wind was almost drowned by the saliva. From falling to the snow-capped mountains, it has been less than a month, and the growth of the fall is obvious to all.

In a month's time, it is difficult to break through the double flesh and become a real hardship. If I go out, I am afraid I will be beaten to death.

But in general, anyway, it is just to let the fall concentrate on cultivation.

"No trace, have you heard of the Twilight Holy Land?"

At this time, Ye Xuan suddenly asked.

"Twilight Holy Land?"

Hearing the name, the wind has no traces, so he doesn't understand why Ye Xuan suddenly asked this question.

However, he naturally heard of the Twilight Holy Land and immediately nodded: "I heard that."

"If I want to go to this Twilight Holy Land, how do I go?" Ye Xuan asked.

This sentence, but the wind has no trace.

Twilight holy land, can be far away!
