

## Super D. S 991

Chapter 991: Ghost mark, trigger!

"Ye Xuan, you are going to the Twilight Holy Land? It can be far away. If it is me, it will take several years to arrive at the transmission array of the Twilight Holy Land." The wind replied without a trace.

"Still this one answer..."

Ye Xuan's eyes glimpsed. Before leaving, she asked Yang Zhen. Yang Zhen said that it takes at least ten years. This is a speed that is really difficult.

"If it is a god-stricken person?" Ye Xuan asked again.

"If it is God's martyrdom, it is estimated that one or two years, if it is Vientiane, it is estimated that it only takes one or two months." The wind replied without a trace.

Vientiane!

This realm is too far away for Ye Xuan. After all, he is now only nine-sexually difficult, even if it is really difficult, after the infuriating, there is still God.

"Oh, I am still too far away. At least Vientiane can reach the Twilight Holy Land. Moreover, I don't know what level of power the Yin and Yang Temple is in the Twilight Holy Land..."

Ye Xuan shook his head in distress.

Now, it's been half a year since the Song Dynasty and the Song ruling were arrested. I don't know how they are.

Ye Xuan asked this question is to ask for trouble, so he did not ask much, anyway, the realm of improvement is.

In order to improve the strength as soon as possible, Ye Xuan is also taking the snow red and other people to the volcanoes, and continue to deepen the experience of the snow-capped mountains.

Falling, it is to stay in the residence to practice, and strive to break through to a real gas.

.....

However, just as Ye Xuan left the Fengxue Mountain Villa, he figured up and quietly followed him.

"Wanzhong Snow Mountain, my previous in-depth estimation is only the periphery. I hope that this time I will have a little luck, and I will encounter some really sorrowful super-sacred beasts, which will make me break through."

Ye Xuan whispered while walking deep into the snow-capped mountains.

Although he said that he had a void position within the Wanxue Snow Mountain, he had already cleaned up the area in the days when he was attacking the volcanic volcano, so he has to change direction today.

Ye Xuan's speed is very fast, but the figure behind him is not slow, but Ye Xuan has never found him.

Ye Xuan rushed to the Wanzhong Snow Mountain for a long time, and a lot of super sacred beasts were smashed along the way, but they were all hard to reach.

At this time, Ye Xuan has already stepped into the area where there will be a real gas and a super sacred beast.

However, it is at this moment.

"Hey, the gull mark is triggered!"

Suddenly a system prompts the sound, killing Ye Xuan is caught off guard.

what?

After hearing the tone, Ye Xuan also subconsciously stunned.

Ghost mark, triggered?

What do you mean?

Just as he was in a state of utter disappointment, suddenly a figure quickly swept into his perception.

"Sneak attack!"

Ye Xuan suddenly reacted and turned around is a sword.

"call out!"

A sword smashed away.

"Hey!"

The figure in the air, holding a quaint iron sword, will defeat Ye Xuan's sword mans.

To be honest, Ye Xuan was able to discover him, thanks to the eye of perception. Because Ye Xuan's eye is not seen by him, he is outside Ye Xuan's field of vision.

Don't say Ye Xuan, even Snow Red did not find it.

However, he was able to lock Ye Xuan with the corpse mark in Ye Xuan's body.

"who are you?"

Ye Xuan looked at the mysterious man wearing a gray mask in the air. However, this mysterious man did not speak, as if he could not speak, and killed Ye Xuan.

His realm is triple hard!

Ye Xuan sneered at the nose, the district is really difficult to fight, but he can't help him.

However, he found himself wrong, and the mistake was very outrageous.

This mysterious man with a gray iron mask, the strength is terrible, and the ratio of the wind that is about to break through the four realities is hard.

"call out!"

The iron man quickly fell, and the speed was amazing. He picked up Ye Xuan and took it out with a sword.

"Hey!"

Ye Xuan reacted slowly and took a shot. He was shocked by a sword, and his right hand was shattered and blood smashed out.

"Good!"

Ye Xuan was shocked.

At the same time, he is also thinking about it quickly, guessing the identity of the person in front of him.

He has seen a lot of three masters who are really angry. One of them is the blood rock lord, and the master of the volcanic volcano.

However, the breath of the blood rock lord has seen him, and the breath of the person in front of him is very strange.

"Ghosts?"

Ye Xuan suddenly thought of this name.

This ghetto is probably behind the scenes of Yang Zhenlian as a half-man and a half-ghost.

Yang Zhen has a very strong body, and this iron face is the same, so Ye Xuan guessed that this iron face person should be sent by the ghoul.

"You can find it here, you have the ability, but the three districts are really hard, but I can't help me!"

Ye Xuan is full of glory, ready to zoom in and out, directly kill this iron man.

It is at this time.

"Hey, the host triggers random missions, avoids chasing, and the time limit is one day. After the completion, reward half a Yaojin mine!"

The system suddenly prompts.

"what?"

Ye Xuan was shocked. What kind of ghost mission is Nima, even let him escape the chase of this iron man?

Why is this task, not directly killing this iron man?

Ye Xuan couldn't understand.

However, this is a random task of the system, and he can only do so.

"Hey, for a half of the gold mine, I will spare you a life, there is a kind of chasing me one day!"

Ye Xuan's heart snorted and turned around and ran.

If the random task is to kill the iron man, Ye Xuan directly uses the eye of glory, but unfortunately it is a task to escape the pursuit, this is really a pit father.

However, the reward of the mission turned out to be half a gold mine, which is a good thing.

Although it is estimated that half of the Yaojin mine is still unable to fully open the eyes of glory, he can raise some brilliant eyes, and maybe one or two skills can be used at that time.

Due to the random task of this pothole, Ye Xuan must be chased for a day.

It's just that this snow mountain is a good place, and it's not a problem for Ye Xuan to run for a day.

Although the speed of this iron man is fast, but Ye Xuan is two times higher than when he met Yang Zhen, he can control the speed.

"Calling!"

This iron man continued to attack Ye Xuan, but the attack was always evaded by Ye Xuan.

One hour.....

Two hours...

Three hours.....

Ye Xuan constantly avoids the wind and snow.

If you are an average person, you can run for three hours with all your strength. I am afraid that the tiredness is similar, let alone the consumption of infuriating. But this is a small matter for Ye Xuan, who has the blood of the \*\*\*\* of life.

This iron man is not a human being, like a robot, does not speak, chasing Ye Xuan.

Soon, it is half a day.

Ye Xuan rushed in the snow-capped mountains to avoid the pursuit of the iron man.

Chapter 992: Overlord Promise Sword!

When I started to receive random tasks, Ye Xuan still felt very pitted, but then I thought about it, this half Yaojin mine was completely white for him, and the price was only one day.

Soon, the time of day is over, and the Iron Man still hasn't chased Ye Xuan.

"Hurry, it's almost a day."

Ye Xuan, who ran for more than twenty hours, muttered in his heart.

Finally, twenty-four hours passed.

"Oh, the escaping of the killing mission is completed, and the host gets half a glory gold mine."

After a beep, there is more than half of the gold mine in the swallowing space.

Hearing this tone, Ye Xuan used the Yaojin Mine to open the eyes of glory.

"Oh, the eye of glory is up to 60%, and the host learns the Emperor's Promise Sword!"

Overlord Promise Sword!

Ye Xuan silently recited the name in his heart, and self-confidence suddenly burst into shed.

This skill must be very powerful!

"The Eye of Brilliance!"

Since the random task has been completed, then Ye Xuan does not need to continue to escape, and immediately open the eyes of glory.

Blonde, Jin Xuan's Ye Xuan, suddenly a foot.

"You are an iron guy. It's not too tired to chase me. Now, I will make you look good."

Ye Xuan angered a word, the shocking sword in his hand suddenly appeared golden light, then, Ye Xuan is raising his hand, squatting at the iron man.

A huge golden sword phantom suddenly appeared. With the fall of Ye Xuan's hand, this huge golden sword was also on the ground.

"Hey!"

Although the iron man escaped this huge golden sword, but the sudden pressure of the next moment, instantly shattered his whole body bones and the internal organs.

Then, the iron man is as soft as a squid.

"Booming!"

The entire snow was cleared of a huge open space, all the snow melted, and the earth cracked a word of 'Emperor'.

"This is the Emperor's Promise Sword? How is it like the Kaigonggong's bones?"

Ye Xuan stunned, the original trick is a group attack skills, the power does not seem weak, relying on the earthquake to kill people.

At the same time, this Emperor's Promise Sword, also has a day of cooling time, refreshing time and Wanjian return to the same, are at 12 o'clock in the evening.

Now, Ye Xuan has another hole card.

However, the infuriating consumption of the Emperor's Promise Sword is a bit large. After using it, Ye Xuan's infuriating is already bottoming out. Fortunately, the blood of the life \*\*\*\* tree is recovering quickly.

Ye Xuan can't manage so much, close to the iron man, want to confirm whether the iron man is dead.

It is at this time.

"call out!"

The face of the iron man suddenly burst into a white light and shocked Ye Xuan.

When Ye Xuan saw it, he discovered that it was a \*\*\*\* made of energy.

"Oh, I have defeated my newly refined ghost corpse, and your kid is a bit tolerant."

The white skull suddenly spoke up.

"You are, ghouls?" Ye Xuan asked awkwardly.

"Yes, I am a ghetto."

The white bone gimmick replied: "The woman is still a defective product. If you kill it, you will kill it. Now you dare to kill my ghost body. Even if it is a fairy, you can't save you..."

"Cut, such a weak ghost, it seems that your strength is not good." Ye Xuan said very disdainfully.

"Oh, my ghosts are countless, some of them are ghosts, so powerful that you can't imagine. Wait, my pursuit of you will not stop, I will refine you into a new ghost, to make up ....."

The white \*\*\*\* shook a few times, and suddenly it burst open, leaving the glimpse of Ye Xuan.

"It seems that this ghoul is a bit tolerant, and even able to talk to me in the air."

Ye Xuan eyes a glimpse.

This ghetto is actually trying to make him a ghost, and he is simply looking for death.

The corpse and the ghost together are generally the blood of the living, the flesh and blood, etc. The people who walk this way are very ferocious.

Therefore, Ye Xuan has to be careful in the future, because he feels that the ghouls say it is true.

In the future, there will be ghosts and corpses who will continue to chase him unless he kills the ghouls or erases the ghouls.

"If I erase the ghouls mark, then the ghouls is likely to find trouble in the snow-capped mountains..."

Ye Xuan thought about it and decided to keep it. When there was a ghost corpse, it might be able to trigger the task. This is simply to give him welfare.

Then, Ye Xuan used to pick up the iron-faced man's Qiang Kun ring, but found that there was not much in it, one poor man.

"But stop, continue to break!"

Ye Xuan shook his head and prepared to continue to climb into the snow-capped mountains. This time, he must break through to the real gas.

The vast snow-capped mountains are very large, and there are many super-sacred sacred beasts, but there are not many foods that come out for food. Ye Xuan has spent two days in the snow-capped mountains.

However, there is no such breakthrough.

"Young master, the old master is back."

Falling down the airway.

"Okay, I will go back immediately."

In desperation, Ye Xuan can only break open the void and return to the snow-capped mountains.

Although he was not able to break through to a heavy gas, but now that the red is back, his reward is naturally indispensable.

The joy of returning to the red face of the snow, Ye Xuan knows that there is no strong volcano now.

This time I was able to win, thanks to Ye Xuan, so Xue Hong immediately called Ye Xuan.

When Ye Xuan came to the wind and snow temple at the peak of the snow and snow, I found that there were already many people gathered here.

"Ye Xuan, this time, my snow-capped mountains not only avoided the crisis, but also destroyed the volcano, where you have the most credit, what rewards you need, even though I said."

The snow red sitting in the first seat said to Ye Xuan.

Ye Xuan also thinks so, so he is not at all timid, said: "Old Zhuang, I need some ore."

"Well? How do you want these things?" Xue Hong couldn't understand why Ye Xuan wanted these.

Is the ore generally used to build weapons?

However, Xue Hong felt that Ye Xuan had too many secrets, so he did not ask much. He said directly: "The main business of Lie Volcano is to forge the supreme treasure, and there are many ore in the villa. I am ready to prepare." "

When she finished, it was to let Feng Wenyao take it. It didn't take long for Feng Wenyao to come back, and then handed Ye Xuan a ring.

Ye Xuan probed the Qiankun ring and found that all of them were ore, enough for Megatron to eat.

"Thank you for the old owner." Ye Xuan hurriedly thanked.

These ore are very large, not only can Megatron be upgraded, but even he can break through to the real gas.

"I must tell you things without any traces. As long as the breakthrough is difficult, I will send her to Wanhua Valley for further study." Xuehong continued.

"Thank you Grandma."

Chapter 993: Trigger again

"Thank you Grandma."

The fall of the side is also a hurried thanks.

"In order to let you break through as soon as possible, this snow king Dan gives you, after the breakthrough, I immediately let you go to Wanhua Valley without dust." Xue Hongdao.

When the voice fell, another jade bottle flew toward the ground.

Falling down and hearing, the eyes could not help but brighten, it seems that she can speed up the breakthrough.

Next, the people of Xuejia also discussed the future cooperation with Fengxue Mountain Villa.

As for Ye Xuan, he left with the fall.

When they returned to their homes, Megatron just came out of his own, and it was already a bit too much to wait to swallow the ore.

"Don't worry, let me break through!"

Ye Xuan appeased, and then began to swallow the ore, and began to improve.

"Hey, the host breaks through, it's really hard to be a hit!"

At the moment when the system prompts to sound, Ye Xuan only feels that the strength of his body has doubled up, not only that, but also the body.

"I finally broke through, Megatron, the rest of the ore is yours!"

Ye Xuanyi opened his mouth and smiled. He poured all the ore out of his brain. Megatron immediately flew past and plunged into the ocean of ore and began to devour.

"Young master, I also refine the medicinal herbs to go..." After leaving such a sentence, he also returned to his room and began to refine the snow king Dan that he just got.

This snow Wang Dan, even if it is a hard-fired or double-powered strong, the eyes are very good, but the snow red is to fall, throwing such a precious remedy by hand, enough to see her Falling attention.

After all, if you grow up in the future, you will never forget the kindness of Fengxue Mountain Villa. At that time, Fengxue Mountain Villa will naturally rise in height.

In the next few days, Ye Xuan was honestly staying here. On the third day of the fall of Xue Wangdan, she finally broke through to a real difficulty.

At the same time, Megatron also reached a level of true gas difficulty after swallowing so many ore.

Ye Xuan, Falling, Megatron, all broke through to a real gas.

"Young Master, I am going to Wanhua Valley, are you going?"

Asked about the fall.

"I naturally want to \*\*\*\* you, but also to see." Ye Xuan nodded silently.

The wind is dust-free is the big brother with no trace of the wind. It has already broken through to the four-fold real gas. It is the first genius of Fengxue Mountain Villa. With him escorting, there will be no major problems.

However, the object of being escorted is falling, and Ye Xuan is not at ease, so naturally he has to follow.

"I heard that Wanhua Valley is a female disciple. If the young master is in the past, maybe he will be fascinated by a large piece." Falling can't help but tease Ye Xuan.

"Cough, I am twenty-five years old, it is really difficult to get angry. This qualification is estimated to be visible everywhere." Ye Xuan smiled and shook his head.

No matter which world, it is the same.

Even on the earth, you have worked hard to climb to a position with a monthly salary of 10,000 yuan, but you can still have a monthly salary of 30,000, 50,000, or even 100,000 people.

Even if you climb to a monthly salary of 100,000, or even a monthly salary of one million, there are those who are born a few times more noble than you, and his old man will throw millions of dollars for him to spend money, which can not be compared.

Ye Xuan is not born noble, but he has a super swallowing system that allows him to grow indefinitely.

If he is to choose between Vientiane and the super-phagocytic system, he will definitely choose the super-phagocytic system.

Because even if he was born at the level of Vientiane, he would be an ordinary person without a super-phagocytic system. However, the super swallowing system allows him to go beyond Vientiane and become stronger.

The super-phagocytic system gives him unlimited potential, giving him the opportunity to surpass those so-called heavenly pride.

Now, he and the fall have all broken through a real gas, then they are also time to go to Wanhua Valley.

At the moment, they just found the snow red.

"Oh, the fall has already broken through, and it really didn't disappoint me." Xue Hong smiled very satisfied.

"This is all the grandma's credit."

"Good, good."

Xuehong smiled and nodded, then took a letter from the Qiankun ring and handed it to the land. He said: "I have a recommended opportunity every year, I can recommend a girl to Wanhua Valley, this year will give You, I hope you will practice after entering Wanhua Valley."

"Grandma, I will." Falling down and nodding.

Snow red is so cultivated and fallen. First, because the qualification of landing is very good, it definitely exceeds the wind and dust. Second, because it is so cute and cute, and Xuehong has no daughters and granddaughters, so it is as if it is out.

Of course, the fall also knows this, so she also regarded Fengxue Villa as her own home, treating Xuehong as a grandmother.

"Well, you will leave tomorrow, I will let you go without dust, if there is any situation, you can also go directly to Fengxue Mountain Villa." Xue Hong said.

Ye Xuan and nodded, even if he retired.

Soon, the day passed.

Early the next morning, Ye Xuan and the fall were ready to go, and the wind was dust-free, and it was already waiting at the door of Fengxue Mountain Villa.

The wind is dust-free, and the age is one year older than Ye Xuan. It has only recently broken into the four-powered gas. This time he went to Wanhua Valley because his wife happened to be in Wanhua Valley, so it happened to kill two birds.

"Clean brother is good."

After seeing the wind and dust, he shouted reverently.

The wind and dust are colder than the wind. There are not many words. He just nodded silently and said directly: "Go."

Sure enough, the words are poor.

Ye Xuan and Luo fell directly behind the wind and dust, and went to Wanhua Valley.

Wanhua Valley is quite far away from Fengxue Mountain Villa. If it is windy and dusty, it will take at least three days.

However, Ye Xuan and the speed of the fall are not slow, plus they can travel all night, at least five days to arrive.

This rushed to the Wanhua Valley on the road, the wind has no dust and did not open a few mouths, generally Ye Xuan is falling and chatting. There are also some people who don't have long eyes and super sacred beasts on the road, but they are killed by the wind and the sword.

Soon, they entered the boundary of Wanhua Valley, and in a day, they could reach Wanhua Valley.

However, it is at this time.

"Hey, the gull mark is triggered!"

The system suddenly prompts.

After hearing this one tone, Ye Xuan's figure trembled, and the ghoul was coming again?

He hurriedly turned his head and looked at it. He did not find any movements, and his movements were also surprised by the fall and the dust.

"Young master, what's the matter?" asked in the mind.

Chapter 994: Perfect level sword

"Hazard, be careful."

Ye Xuan immediately said a sentence and played the spirit of 120,000 points.

He has already heard the system sound, which means there is danger around him, but his eye of perception and the eye of insight have not found anything, which means that the other party is still outside the scope of induction.

"Danger?"

When the wind was silent, I heard this and directly sacrificed the weapon.

Although Ye Xuan has only one heavy gas, it is much lower than him. However, if it was not Ye Xuan, the Fengxue Mountain Villa would be dangerous.

Sure enough, just two seconds after Ye Xuan heard the tone, two figures swept quickly.

"coming!"

Ye Xuan reminded me of looking in both directions.

This time, it turned out to be two ghost bodies!

The ghost corpse has a strong body and can also use infuriating, which is very difficult.

This time, the ghost corpse is much faster than the iron-faced man of the day. At least it is hard to be four. Soon, the wind was clean and there was two fast-moving figures.

"who?"

The wind is raging and angry.

However, these two ghost bodies did not answer.

The four-powered ghost corpse, this is really very difficult for the former Ye Xuan, but now Ye Xuan has broken through to the real gas, the strength is skyrocketing, this is not what it is.

Looking at the woman with the iron face and the old man, the wind whispered: "One person!"

At the moment, he was killed. His opponent was the iron-faced female ghost. As for the left-handed iron-faced old ghost, it was handed over to Ye Xuan and fell.

"Is there no mission this time?"

Ye Xuan brows a pick, I feel a little pity.

"Let's fall, let's go too!"

Ye Xuan screamed, and together with the fall, he killed the iron-faced old ghost.

At that time, the two sides are fighting.

This iron-faced old ghost corpse is several times stronger than the iron-faced man of the day. Fortunately, Ye Xuan has already broken through, otherwise it is really difficult.

"The ghetto said that there are countless ghost corpses, I am afraid that they are all outside now, so it is best not to use them in a big way."

Ye Xuan thought in his heart, the next moment, his eyes are full of golden light.

"The Eye of Brilliance!"

Saiyan turned!

"Wow, young master, you are so handsome." When he saw Ye Xuan's transformation, he immediately showed his eyes.

Blonde and gold 眸, let Ye Xuan have the taste of Westerners on the earth.

"Don't be distracted, this guy is not easy to solve." Ye Xuan replied.

"Well, okay."

The fall was told to teach a meal, the mood is not beautiful, but she did not put this iron face old ghost in her eyes.

"Hey, let you see my strength after the breakthrough!"

Falling down and drinking a little, the figure flashed rapidly, and there was a golden figure that swept from her body.

"Hundreds of monsters and foxes!"

Within half a second, the fall is divided into hundreds, and these hundred avatars are exactly the same as the long ones.

"What the \*\*\*\* is this?"

Ye Xuan brows a pick, suddenly thinks of falling and possessing the memory of inheritance, breaking through to a real hardship, I am afraid I have learned new skills.

"This trick can make me divided into hundreds, of which ten are entities, but the combat power is only half of me, the rest are just phantoms." The interpretation of the voice explained.

"Ten entities, half the combat power?"

Ye Xuan stunned, this Nima is perverted.

When he was surprised, hundreds of landings were already hands-on. They waved silver wire whip in their hands, and hundreds of whip shadows hit the iron-faced old ghost.

Of course, only 11 of these hundreds of whiplashes are real attacks, and more than 90 are just virtual.

Although this iron-faced old ghost corpse has escaped a lot, but he has almost escaped a false attack.

Soon, he was wrapped up by eleven silver whip, and his body could not move.

"It turned out to be the skill of the controller."

Ye Xuan suddenly understood, just like, he likes it.

"Ice and Snow Sword!"

"Into the micro-level sword!"

A golden sniper broke through the air and instantly smashed on the iron-faced old ghost body and directly damaged it.

If it is the general four-powered strong, the words in this sword, I am afraid that it has already been split into two halves.

After the iron-faced old ghost was hit, he did not say anything, and began to break away from the entanglement of the silver wire whip, killing Ye Xuan.

"People are not human, ghosts are not ghosts, see me to overdo you!"

Ye Xuan heart angered a word, once again pulled out a sword, this iron face old ghost body also comprehended the sword potential, but the power is weaker than Ye Xuan, and once again was smashed, and flew out.

However, at this time, the fall was shot again.

"Huh!"

A gust of wind whistled, hundreds of falling hands waved, wrapped the silver wire in the hand on the neck of the old iron corpse, and with the help of their little hands, the head of the old ghost corpse was thrown up. Blood splashes.

This four-pronged iron-faced old ghost corpse was killed by Ye Xuan and Luo.

At the moment, Ye Xuan is plundering the past, picking up his Qiang Kun ring, and surely there are not many things, it is really in vain.

At this time, Ye Xuan turned his head and looked at it, and his eyes fell on the wind and dust.

The wind is dust-free, the four-fold real gas is difficult, and his opponent is the iron-faced female ghost, which is also a four-pronged realm.

The two are the same realm, but what makes Ye Xuan wonder is that the wind and dust have actually suppressed the iron-faced female ghost, which is incredible.

“It’s not the first genius of Fengxue Mountain Villa.”

Ye Xuan could not help but sigh.

Of course, this sentence is actually secretly boasting of himself. After all, he and the fall are only one of the most difficult, but the more three realms of fighting.

Seeing the wind without dust and no pressure, Ye Xuan and the fall did not intervene.

At this time, the wind-free brow suddenly picked.

"call out!"

A light blue sniper smashed out.

The female ghost corpse also realized the sword's momentum into the micro level, and it was also a sword falling.

The two swords collided in the air and stirred up a thousand waves of air.

The attack power of the two people was actually similar, but this time, the dust-free attack easily defeated the attack of the female ghost, and then fell on the female ghost.

"Oh!"

I only heard a crisp sound spread, and Ye Xuan saw that the body of the female ghost was split in two and was killed.

"This is not a micro-level sword, this is the perfect level sword!"

Ye Xuan reacted instantly.

The perfect level of swords is much stronger than that of the micro-level swords. Even the strong and hard-core powers are not necessarily comprehensible. However, this wind is actually learned in battle, it is enchanting.

The female ghost was smashed into two halves and died in an instant. At this time, the wind and dust quickly swept past and took over.

"Wow, the perfect level of swords, the dust-free brother is very good." The side of the fall can not help but sigh, although she has the memory of inheritance, it is only a micro-level sword.

Chapter 995: Hunting more than killing

In fact, even the wind and dust did not think that he suddenly realized the perfect level sword.

This situation of swords is not something that ordinary people can control. Some people do not necessarily comprehend the micro-level swords for ten years. Some people do not need a month to understand the perfect level sword. This is talent.

Not waiting for Ye Xuan to open, suddenly, the body of the two ghost bodies was sprayed with two white fog.

"Be careful!"

The wind was dusty and shouted, and it quickly retreated.

These two white mists finally blended together and condensed into a white skull.

"Oh, I didn't expect to fail again, it was fun and interesting, kid, don't let go, my pursuit of you is still going on!"

After the white \*\*\*\* opened his mouth and said a few words, he broke himself off.

"what is this?"

The wind asked without a doubt.

Ye Xuan looked at the two powerful ghost corpses and replied honestly: "It is an enemy that I had provoked before, called a ghoul, who has been chasing me."

"Ghosts and hordes?" The cold, cold face of the wind, the brow wrinkled slightly, seems to search the name in the brain, but there is no relevant memory.

"Clean brother, is there such a cultivation force in the vicinity?" asked Curiously.

"There is a place called the land of the dead. There are two sects in the world. One is called the Ghostly Emperor, and the other is the corpse. This ghetto should come from that place." The dusty face is ugly.

"The land of the dead, it sounds terrible." The fall of a fight, a little girl is more afraid of these.

Ghosts and gods, the corpse of the corpse, as the name suggests, one is dealing with things like ghosts, one is proficient in smelting.

Ye Xuan's heart secretly wrote down and continued to ask: "What about these two forces?"

"It's very strong, there are strong people in Vientiane." The wind is dusty and honest.

Vientiane is strong!

In this realm, Ye Xuan has not heard of it for the first time. Although he can now challenge several realms, he is an ant in the eyes of the gods, but not to mention the Vientiane.

"Upgrade, upgrade!"

Ye Xuan's heart secretly recited, only the upgrade, only to become more powerful, he can go to the Twilight Holy Land and kill the dead demon ancestor.

"Okay, let's go on the road!"

The wind is dusty and low.

The three began to hurry, although the next road may be dangerous, but the realization of the perfect level of the sword is dusty and the strength is skyrocketing.

Under normal circumstances, he only needs to use the micro-level sword, if you encounter a strong opponent, then use the perfect level sword to attack.

With him, security has greatly improved.

Ye Xuan thought that the ghouls would continue to send ghosts to ambush him, but what he did not expect was that they did not encounter any crisis the next day.

Soon, they arrived at Wanhua Valley.

There are only women in Wanhua Valley, there are no men, so Ye Xuan and the wind can't go in, but this does not mean they can't get close to Wanhua Valley.

When the three came to the door of Wanhua Valley, they were stopped by several disciples of Wanhua who guarded Taniguchi.

"Three, is there something?"

A female disciple who took the lead stopped the three, and behind her, there were more than a dozen beautiful girls in white coats.

Ye Xuan subconsciously swept away with the eye of insight, could not help but swallow.

He is not because the appearance of these female disciples in Wanhua Valley is too amazing, but because the strength of these female disciples is beyond his imagination.

"Nima, these people are better than the old owners of Fengxue Mountain Villa!"

Ye Xuan was shocked, and he boasted that this Wanhua Valley was really powerful. Fengxue Mountain Villa could not lift his head in front of this Wanhua Valley.

At this time, the wind was dusty against the youngest disciple, and said: "Several girls, in the dust, from the snow-capped mountains..."

"Oh, the snow-capped mountains, are you going to give someone?"

As the first female disciple's eyes fell on the body, she said: "Is it a little fox sister, a letter of recommendation?"

"Recommendation letter is here." The trotting ran over and handed over the recommendation letter written by Xuehong.

I took the recommendation letter for the first female disciple and nodded. "Well, it is indeed the recommendation of Fengxue Mountain Villa. Do you still have anything?"

"This....."

The wind was dusty, and said: "Last year, I also recommended a woman named Fengqin in Fengxue Mountain Villa. I also hope that the girl can inform her, I am her husband."

"Baoqin, well, I know, you two are waiting outside." The first female disciple nodded, even if one let the person fall into the Wanhua Valley with the fall.

"Young Master, I am going in."

"Well, remember to hide the golden tail hair."

Ye Xuan reminded me.

The qualifications of the fallen are very strong. Although she has the memory of inheritance, she does not need to join any forces.

However, now Ye Xuan is still too weak, so if you join Wanhua Valley, there is no need to worry about the falling cultivation resources. Ye Xuan's realm will also rise faster.

After a while, the female disciple who had left and left was coming back.

"Bao Qinshi is not in the valley now, she went to the northwest direction of Xingyang City to buy things, and has not returned yet." The female disciple replied.

After hearing the wind and dust, I also thanked him: "Thank you for the girl."

This time, he escorted Ye Xuan and fell to Wanhua Valley. In fact, part of the reason is because his wife practiced in Wanhua Valley. I haven't seen it for so long. Naturally, I want to love it.

"Then we are going directly to Xingyang City, or are we waiting here?" Ye Xuan asked.

"Let's find it, and by the way, bring something to Fengshu Mountain Villa."

The wind answered without a dust.

"Row!"

At the moment, Ye Xuan is following the wind and going to Xingyang City.

The power of Xingyang City is not small, and it is much stronger than Fengxue Mountain Villa. I heard that the city owner is a strong and powerful man.

Ye Xuan went to Xingyang City with the wind and dust, and there is some kind of plan. It is to see if there is a Yaojin mine to sell, and then collect some martial arts and repair the dragon hand.

This Xingyang City is one day away from Wanhua Valley, but with the speed of Ye Xuan and the wind, it only takes half a day to arrive.

On the way, Ye Xuan also used the eye of perception to help see if there are Wanhugu disciples passing by.

For the past half day, they also did not encounter any danger worthy of explanation. Soon they arrived at Xingyang City.

This abalone is from the snow-capped mountains. Now it has also joined Wanhua Valley, so Ye Xuan also needs to see her and entrust her to take care of a drop.

However, on the way they met the disciples of Wanhua Valley, which is really a coincidence.

"Several girls, who are in the dust, are the sons of Bao Qin. Where is Bao Qin now?"

The wind and dust directly stopped the female disciples of Wanhua Valley.

Chapter 996: Broken

A short-haired female disciple is a little surprised. "I heard that Bao Qin's sister mentioned you, the first genius of Fengxue Mountain Villa, but it doesn't look so good. It is really hard to be four."

The wind and dust heard this, and his face was a bit ugly, because the short-haired female disciple turned out to be four-way, and the age was much smaller than him.

Wanhua Valley, really amazing!

The short-haired female disciple continued: "Well, Bao Qin's sister did follow us to Xingyang City, but she was a little uncomfortable today, so she rested in the Wanhua Inn, in the Tianzi No. 4 room."

"Thank you for the girl's notice." After the wind and dust thanked a sentence, it was to leave directly.

Wanhua Inn is dedicated to the Wanhuagu disciple.

After learning about the location of Bao Qin, Ye Xuan and the wind are looking for the past.

Tianzi No. 4 Room is actually a house, but when Ye Xuan approaches, it is a place where something is wrong.

There are actually two people in the house of this house.

A petite woman put her hands on the bedside, and the man was standing behind her, her hands clasping the woman's slender waist, and she was doing the shameful movement.

"Your grandfather, won't you?"

Ye Xuan screamed in the heart, and quickly greeted the room number.

Tianzi No. 4 Room!

That's right!

There is a soundproof array in the inn, as long as the door is closed, people outside will not hear the sound unless it is killed.

However, Ye Xuan, who has the eye of perception, can clearly feel the movement inside. This is a living spring-muse diagram. Although he does not look at it with eyes, it is enough to shock him.

At this time, Ye Xuan Yu Guangyi.

The wind is dusty, it is a long black hair, handsome and handsome, but at this time Ye Xuan sees his eyes are not right, this eyes, mixed with a trace of sympathy.

"Hey!"

The wind and dust went to the front of the courtyard and knocked.

There was a soundproof array in the room, but I could hear the movement outside. When a man and a woman in the room heard the sound, the figure could not help but tremble and stopped.

"Don't worry about him, finish it!"

The young man said with some breathlessness that he continued to do things when the voice fell.

The woman was red-faced at this time, but after hearing this, she did not care too much and continued to cater to the movements of the youth.

"Snapped!"

"Snapped!"

"Snapped!"

The sound frequency in the room is very neat, but the outer leaves and the wind are not heard.

"Strange, isn't it a break?"

The wind was dusty and frowned, and knocked on the door.

Ye Xuan standing behind him suddenly felt a little tangled in his heart.

Do you want to tell the wind and dust?

If you hide it, then he is a little bit sorry for the wind, but if you tell, if the wind is clean, what should I do?

"The wind is dusty and the mind is mature. You should not do anything special..."

Ye Xuan thought about it.

However, he did not dare to guarantee that after all, the house may be a dusty wife. When you see your wife and other men doing that kind of thing, as long as it is a normal man, it will not be treated calmly.

"But it's green, green, if it's still in the dark, it's too bad."

Ye Xuan made a decision in his heart. He looked at the wind that was constantly knocking on the door, saying: "No dust brother!"

The wind and dust heard his voice, and looked at Ye Xuan with a strange look.

Ye Xuan brewed a bit of heart, said: "No brother, I have something to tell you, I hope you will calm down after listening."

"What?" The wind was dusty and asked strangely.

"This, in fact, I feel that there are two people in the room." Ye Xuan replied.

"Two?"

The wind is dusty and the face is heavy. I don't understand what Ye Xuan means.

"Well, there is a man and a woman in the room, and I am doing that kind of thing!" Ye Xuan sighed and said straight away.

When I heard this, the wind was so dusty that I was shocked and asked: "Are you true?"

"Absolutely wrong, a man and a woman!" Ye Xuan solemnly nodded.

"boom!"

The wind is clean and the words are heard, as if it were hit by the thunder, the whole person is paralyzed.

That kind of thing, how could he not know what it is?

The reason why Ye Xuan said this is definitely a basis. For Ye Xuan's ability, he still believes it. After all, Ye Xuan took him from Snow House to Fengxue Mountain Villa.

"Still!"

The wind is dusty and low, and the sword eyebrows pick up and directly enters the yard.

Ye Xuan hurriedly kept up, fearing that the wind was clean and there was nothing to do in Xingyang City.

Xingyang City is much stronger than Fengxue Mountain Villa. Ye Xuan is not afraid, but once the wind is clean, it will be implicated in Fengxue Mountain Villa.

"Hey!"

The wind fell to the door of the house without dust, and immediately went in with a kick. Then, two crisp sounds fell into his ears.

"Snapped!"

"Snapped!"

After two crisp sounds, it stopped instantly.

The wind opened the door without a dust, and immediately saw the two naked people in the room.

The two people in the room are keeping the wonderful posture at this time, looking at the wind and dust and Ye Xuan.

The most important thing is that the naked woman who is holding her hands on the side of the bed is the windless wife Bao Qin. At this time, her Zhang Da has a small peach mouth and a faint color.

"No dust?"

Bao Qin caressed the hair that was soaked in sweat and sweat, and wondered if he was over-exercised and saw the illusion.

The young man was suddenly disturbed, and he was shocked. He was soft and exclaimed: "What are you doing?"

Bao Qin returned to God and knew that he did not see the illusion. Instead, he saw the real person and hurriedly grabbed the clothes on the bed to cover his body. He was surprised: "No dust, how come you?"

The wind glared at Bao Qin, and screamed: "You are a pair of dogs and men, go to hell!"

His voice just fell, that is, to directly sacrifice his weapons, and then raise his hand is a sword. However, this sword did not have any instinct to sweep out, he finally stopped.

Because he thought that if he did it in Xingyang City, he would definitely be arrested by the city guard.

However, the young man came up with a long sword at this time.

"Waste, scare the old man, jump!"

"Hey!"

A sword fell on the dust-free chest and flew directly out.

He was also a man with a head in Xingyang City. He suddenly came in and could scare him.

I don't know, can a man not be scared when he is working?

"what are you doing?"

Bao Qin saw that his husband was flying, and rushed out, saying: "No dust, are you okay?"

"You don't need to be here to fake, you actually carry this kind of thing with me, I really blinked."

The wind blew out a blood, and took a piece of paper directly from the Qiankun ring to use the blood to write a pen.

"Bao Qin, today, I will take you off, you will not need to return to the Snow Mountain Villa in the future!"

After the wind is clean, write the book and throw it away.

Chapter 997: Brilliant eyes open

"Bao Qin, today, I will take you off, you will not need to return to the Snow Mountain Villa in the future!"

After the wind was clean, he also took a look at the young man in the house. He had to remember the face of this person. If he had the opportunity, he must marry him.

The hatred of wives, not wearing the sky!

Then, the wind is dusty and turned away, and the head does not return.

And Ye Xuan, looking at the clothes in front of him has slipped, Bao Qin, who has already been seen by him, sighed coldly and sighed with the wind.

In order to see Baoqin, the wind was dusty and rushed to Wanhua Valley from Fengxue Mountain Villa. He also rushed from Wanhua Valley to Xingyang City, but did not expect his wife to carry him and other men to do such things. I remember the Snow Mountain Villa, he is afraid that he will kill the young man directly with a sword.

Bao Qin looked at the lonely back of the wind and dust, and squatted in the same place, she did not expect that her own things were actually hit.

"Hey, this is your waste husband? It's just hard to be four."

The young man walked out from the inside and grabbed the piano directly, forcing him to press on the stone table in the yard.

carry on!

The wind from the Wanhua Inn was dusty, and the face was already ugly, but it was justifiable. After all, he actually saw his wife and other men doing that kind of thing.

If Ye Xuan is the only one, I am afraid that it has already killed the four young people who are really angry.

However, the wind can't be done without dust, because there is a snow-capped mountain behind him.

Ye Xuan chased it out, looked at him and made a movement to wipe the neck. He said: "No dust, we have to fold back, then..."

To be honest, the wind is dusty and wants to kill the young man, but he is afraid that the youth will have a background.

"No!"

The wind is dusty or more rational. He understands that once he starts in Xingyang City, the consequences will be serious.

"Then secretly slaughtered the guy!"

Ye Xuan proposed on the side.

This suggestion is not bad, but the other side seems to have a big head. In the city, it is directly hurting the wind and dust, representing the other party is not afraid.

This time, the wind did not answer, but went straight out of the city.

"Let me be alone!"

The wind was dusty and long hair fluttering, and he gave Ye Xuan a lonely back and flew to a forest outside the city.

Ye Xuan did not keep up, but returned directly to the city. He quietly sneaked back to Wanhua Inn and found that the dog and the man and women were still working, which is enough.

He waited in the distance and scouted with the eye of perception.

Soon, the two were separated, and then the young man was dressed and left the Wanhua Inn.

"Let me see what background you have, dare to move your dustless wife?"

Ye Xuan glimmered and sneaked up.

The eye of perception allows Ye Xuan to maintain a distance of tens of thousands of meters from this young man. This tracking skill is simply against the sky.

Ye Xuan followed behind this young man and found him entering a big house.

"Sima family, three young masters Simaler? Dead mother?"

Ye Xuan heard the names of the two guards at the door, but he did not know what level of power the Sima family was.

Therefore, he quickly went to inquire about the news of the Sima family.

Simajia, in Xingyang City, is also a big force, the home of the six heavy gas is difficult, second only to the city government.

The Sima family three young master Simaler, the status in the family is not low, and arrogant luxury, often pull the background of the Sima family, mischievous. From the age of ten to the age of forty, as long as the person he saw, he could not escape his clutch.

Although this Sima family is strong, but in front of the superpower of Wanhua Valley, it is still a cockroach ant. Therefore, the wind-free ex-wife Bao Qin must be willing to do so.

"Is it hard to be four-way, I can't help you in the city, but if you dare to go out of town, I will kill you!"

Ye Xuan's light flashed a few times, and his eyes were full of murder.

However, he thought about it carefully, not necessarily in the city, just take the Smaller out.

After hearing about the Sima family, Ye Xuan was once again out of town, ready to see the wind.

However, he found that the wind was not in the forest, and he did not know where to go.

"I am going, leave me running?"

Ye Xuan brows a pick.

However, he has already sent the fall to the Wanhua Valley. It doesn't matter if the wind is dusty and does not leave.

"But, I will do my own thing first!"

Ye Xuan did not find the wind and dust, simply turned around and went back to the city.

Simaler of the Sima family, he felt that if he found the opportunity, he must go and swear, and then pretend to be a thief.

After returning to Xingyang City, Ye Xuan also went straight to the auction house.

"Guest, what do you need?"

A waiter greeted him.

Ye Xuan said nothing, directly handed a piece of paper in the past, which recorded what he needed.

"Oh, Yao Jin Mine, there is."

After the waiter finished reading, he smiled and said that after all, Yaojin Mine is not cheap, which is a big list for him.

This Yaojin mine is not uncommon in Xingyang City, so there is no need for an auction.

Ye Xuan used a few martial arts and changed to a Yaojin mine.

"Oh, the eye of glory is 100% open!"

When Ye Xuan received the glare gold mine in the swallowing space, the pleasant system prompt sounded.

Now, the eye of glory is finally fully opened, and Ye Xuan has another card.

"The eye of glory, summoning the \*\*\*\* of gold?"

Ye Xuan looked at the skill that he had extra, and he was embarrassed in his heart. This is another card.

The \*\*\*\* of gold, it sounds very powerful, and this skill is still stronger after the Emperor's Promise Sword.

This skill of summoning the \*\*\*\* of gold is also the same as the cooldown of the day, just like the return of the sword and the sword of the Emperor.

Three cooling skills, let Ye Xuan's self-confidence burst!

"Hey, let me try this golden \*\*\*\* of war!"

Ye Xuan blinked and did not buy anything else, but left the auction house directly.

This time, he left Xingyang City directly, set a void position in the valley one hour away from Xingyang City, and then returned to Xingyang City.

To be precise, it was outside the Sima family in Xingyang City. At this time, he had already put on a cloak and a mask. Even the gloves were put on, and the air was tight, and no inch of skin was exposed.

He stood on the roof and looked at the Sima family in front of him. His eyes suddenly burst into two golden awns.

"The Eye of Brilliance!"

At that time, his hair and pupils were turned into gold, and the Saiyan turned!

"Summon the God of Gold!"

Suddenly a golden infuriating spurt out of his body and condensed into a two-meter-high gold armor with a golden sword.

Chapter 998: Kill into Sima House

With the eye of perception, Ye Xuan directly let the Golden Armor directly lock the breath of the Smal in the Sima family.

"Hey, breath is locked!"

"kill!"

Ye Xuan immediately ordered.

The next moment, this golden armor is killed by the big sword in his hand.

"Someone is coming!"

The guards of the Sima family discovered the \*\*\*\* of gold, but only discovered it. In the blink of an eye, the \*\*\*\* of gold armor has already looted over the Sima family.

"call out!"

In the hands of the Golden Armor, the golden sword was waved, and a golden sword was descended from the sky.

Sima, who was still in his own house, looked up and saw the golden swordsman breaking the roof.

"Oh!"

"Hey!"

The golden swordsman hit the ground and instantly collapsed the house. At the same time, the Golden Armor was already plundering and lifting the body of Small.

"Bold mad, dare to swear at my horse, find death!"

A violent sizzling sounded, and several powerful four-powered strongmen greeted them.

This time, Ye Xuan is already ready to kill, so he does not limit the action of the Golden War God.

"kill!"

In the distance, Ye Xuan's light flashed and his body flashed and he personally dispatched.

"Hey!" "Hey!" "Hey!"

A golden sword was plucked out, and the four powerful and hard-working strong men did not notice the sneak attack. In an instant, two figures fell from the air and were bloody.

"擒龙手!"

Taking advantage of this opportunity, Ye Xuan immediately reached out and took the two Qiang Kun to take it. The Golden Armor also lost the body of Smaler in his hand, but he was smashed into two halves by Ye Xuan.

Three pieces of Qiankun ring to start, Ye Xuan's repair for a sharp increase.

"Bold mad, look for death!"

In the air, there was another violent drink, and a powerful master swept over.

Five weights are really hard!

Ye Xuan is a condensed light.

This time, he shot because his sensory range covered the entire Sima family, but he did not find the six-figure atmosphere. Only three five-figures were hard.

Therefore, he just came in straight.

"Three five weights are really hard, how about?"

Ye Xuan can throw away the shocking sword in his hand no matter how much.

"The sword is returned to the sect!"

Zhen Tianjian instantly split up hundreds of people and attacked the strong five-powered strong man.

Although there is no guarantee that this trick can kill each other, it is not a problem.

As long as it is dragged, then Ye Xuan and the Golden Armor are united, and the rest cannot be their opponents.

"kill!"

Ye Xuan is already violent. If anyone dares to come out, he will kill him.

The movement of Sima's family has also attracted a lot of passers-by. Some people dare to make troubles at Sima's home. This courage is not small.

Sima's home, countless swords passed, but the most conspicuous nature is Ye Xuan's golden sword, and the Golden Armor, after all, this is already the evening.

With the strength of Ye Xuan, the hard-working four-powered and powerful man is still not a problem. The five-year-old who is out of the air is also difficult to be strong, and has been stopped by Megatron.

At this time, Ye Xuan is teaming up with the Golden Armor and fighting against the four four-powered and hard-core.

"The Eye of Burning!"

"The Eye of the Illusion!"

"The Eye of Silence!"

"The eye of decomposition!"

Here, he still dare not use the wind and snow swordsmanship, after all, it is easy to be recognized.

Although these moves are single, they are very difficult.

"Hey, taste the taste of betrayal!"

At this time, Ye Xuan's light suddenly swept away and directly controlled several Sima family masters who were triple-difficult.

The next moment, these Sima family masters are shot against the four people who are in the air.

"Hey!" "Hey!" "Hey!"

The attack on the road was gone, and the people of the Sima family would never have thought that their relatives would suddenly attack, but they were caught unprepared.

“Hey!” “Hey!”

Two people were attacked by these sneak attacks, directly hit hard, and even a few mouthfuls of blood came out.

Taking advantage of this opportunity, Ye Xuan quickly issued a sword.

"The Eye of Silence!"

"Oh!"

"Oh!"

In the two crisp sounds, the two Sima masters who were hit hard by their own people were directly killed by Ye Xuan and fell from the air.

Now, it is two to two!

At the same time, those Sima masters who were controlled by Ye Xuan immediately rushed over and took off the two Qiankun Rings and then threw them to Ye Xuan along with their own.

"why?"

After the other two saw the behavior of these people, they were also eclipsed. Can these people be Ye Xuan's people?

impossible!

One of them changed his face, because there is a shot, his son.

"Bastard!"

"Kid, I want you to die!"

Two more violent screams sounded. Now, the other two of the Sima family, who are both hard and strong, have also come over.

However, Ye Xuan has already accepted those shackles.

"Hey, the host breaks through, it's really hard to be a double!"

The system prompts.

With this reminder, the strength of the body of Ye Xuan instantly skyrocketed and the strength increased.

Ye Xuan, who suddenly surged his strength, directly killed two other Sima masters who were four hard-working. Under the siege of him and the Golden God of War, the two died in an instant.

"Baby, I killed you!"

A five-fold, hard-working white-haired old man screamed, because his son died in Ye Xuan's hands.

However, at this time, Ye Xuan has already broken through. Even if it is five-way, it's hard to be angry.

As for the other person, it is handed over to the Golden War God.

"Hey!" "Hey!" "Hey!"

The rumbling sound of the battle, I am afraid that spread throughout the Xingyang City, Ye Xuan estimated that there will soon be a master.

So, he set himself a time.

Two seconds!

If the opponent is not killed within two seconds, then he will break open and leave.

At this time, Ye Xuan's opponent, which is the five-powered old man, has a very strong attacking power. When he falls with a sword, Ye Xuan does not use the eyes of the silence or the snow sword, but it cannot be stopped.

However, Ye Xuan also has a skill to weaken the attack.

"The eye of decomposition!"

Two disintegrating rays hit the attack. The next moment, the attack of the old man was weakened by 30%.

"Humph!"

Ye Xuan screamed coldly, and a silver sniper broke through the air, directly smashing the other's sword, and forced the old man to go.

However, this is the last time Ye Xuan used the eyes of silence, because the rest of the force is only enough to open the door of the void.

"Hey!"

The old man quickly took out a sword and blocked the eyes of this silence.

But the next moment, he saw Ye Xuan's body broke through an oval mouth, which was two meters high.

Then, Ye Xuan plucked in.

At the same time, Zhentianjian has been collected by Ye Xuan. As for the gold armor, Ye Xuan does not matter, but it is made up of his infuriating.

Chapter 999: Iron face

"Hey!"

The door of the void was closed, leaving a group of fierce Sima masters.

"Gap, find, be sure to find him!"

.....

At this time, Ye Xuan has appeared in the place where it was previously positioned.

This time, he made a small profit, and did not say that the wind and the dust have solved the enemy, but also broke into the double real gas, it is not bad.

The most important thing is that his identity is not exposed, no one knows where he came from, and no one knows how he left.

"I have no flaws at all. Even if the Sima family checks it, it is impossible to find the Fengxue Mountain Villa. However, if Bao Qin knows that Small is dead, I don't know if I will talk."

Ye Xuan thought about it.

Today, Bao Qin and Small sneaked into the wind and hit the dust, and Simaler died in the night.

However, in order to disguise, Ye Xuan even killed a number of four powerful and powerful fighters.

There is no evidence at all, and it is impossible for Sima to find the Fengxue Mountain Villa. Because, Ye Xuan does not intend to tell the wind what he is doing today.

Even if the wind is clean and the Semale's death is known, it will be regarded as a cause of Smale's sin and will be punished by Heaven.

There are a lot of martial arts in the martial arts that he got, so Ye Xuan can just copy the super-phagocytic system to repair the dragon's hand.

"Hey, the dragon hand repairs up to 30%!"

"Pit is only 30%!"

Ye Xuan has no choice but to recover.

However, the more difficult it is to fix, the more powerful the dragon is, and it will be a big killer at that time.

Now, he is also revenge for the wind, as for the dust-free family affairs, he can not manage.

The woman of her own is taken up, and it is still voluntary. It is unlikely that the wind will be accepted.

Anyway, like the wind, no dust, no trace of the wind, the handsome level is also catching up with Ye Xuan, there are many girls in the snow-capped mountains in the crush.

"Well, since the wind has gone away, I have to do my own thing."

Ye Xuan eyes a glimpse.

What he wants to do most now is to find a place to upgrade, because it has fallen into Wanhua Valley, and it is probably faster than him to improve his speed. He can't fall.

However, it is at this time.

"Hey, the gull mark is triggered!"

Suddenly a system sounds, letting Ye Xuan's body suddenly tremble.

The chasing of the ghost corpse is coming again!

"I have gone, luck is really a back, just flew here, and I actually met a ghost."

Ye Xuan screamed in his heart.

The ghosts of the ghouls are very numerous, and they are constantly looking for his traces, so it is normal to be found.

I found it, but at this time, Ye Xuan's status is not very good. His swordsmanship and summoning gold gods are used. Only once, the Emperor's Promise Sword, if a powerful ghost is coming, then he will have to run.

Soon, there was a figure that crossed his perception and he hurriedly felt it.

Five weights are really hard!

Although he said that he was only fighting with the five powerful and difficult players, but the body of this ghost is not ordinary, it is better than the old man who played with him.

However, Ye Xuan is not afraid.

"Come on, even if you can't beat you, can I still run?"

Ye Xuan came out with a shocking sword.

The realm of Megatron is also a level of serious anger, and the increase in Ye Xuan's infuriating is much higher than before.

Fighting a five-powered ghost corpse with his own strength will not necessarily defeat.

"Huh!"

In the sound of a gust of wind, finally a figure reflected in the eyes of Ye Xuan.

After the iron man male ghost body, the iron face female ghost body, the iron face old ghost body, turned out to be a small iron ghost.

At this time in front of Ye Xuan, turned out to be a small ghost of a height of one meter four.

This little ghost is wearing an iron face. I don't know if it is a man or a woman.

"Good guy, such a small age, it turned out to be five heavy gas, and the ghoul is really a bit resistant."

Ye Xuan swallowed himself.

"Hey!" "Hey!" "Hey!"

After seeing Ye Xuan, this iron-faced demon corpse raised the wooden sword directly in his hand and launched an attack against Ye Xuan.

However, what makes Ye Xuan even more shocking is.

The attack of this iron-faced little corpse was incomparably strong, and he actually realized the perfect level sword.

"I am a fairy board, a perfect sword, a wool, and withdraw!"

Ye Xuan suddenly turned around and ran.

Just kidding, now his temperament has not recovered to the state where he can use the glorious eye. Without the brilliant eye, with his micro-level sword, he can beat this iron face.

So, you can only run!

"Boom!" "Boom!" "Boom!"

The attack of the iron face ghost corpse fell to the ground, causing countless smoke, at this time, Ye Xuan has escaped to a kilometer.

At the moment, the iron face of the little ghost is to start chasing Ye Xuan.

In the state of brilliant eyes, Ye Xuan can use the Emperor's Promise Sword and the Summoned God of War, but he can't use these two skills without opening the eyes of glory.

Therefore, he was delaying the time, and after the recovery was restored, he directly used the eye of glory and used the Emperor's Promise Sword to dry the iron face.

The four-fold sacred article has improved Ye Xuan's recovery speed by at least twice, but the brilliance of the brilliant eye is too great, so it takes a little time.

"Hey!" "Hey!" "Hey!"

The iron noodle corpse keeps chasing Ye Xuan, and he does not carelessly. As long as he has the opportunity, he will definitely kill Ye Xuan.

However, Ye Xuan on the land runs as fast as a madman, and can also subtly evade the attack of the iron face.

In the long escape from the pursuit, Ye Xuan finally recovered to the use of brilliant eyes, but for the sake of insurance, he ran for a while.

After a while.

"Well, little boy, dare to chase your grandfather at a young age, courage is really fat!"

Ye Xuan angered a word.

"The Eye of Brilliance"

"The Beastmaster is violent!"

The blond hair and the golden cymbal became the characteristics of Ye Xuan, which was very conspicuous under the night.

"Overlord Promise Sword!"

At the moment when Ye Xuan turned, he suddenly looked back and fell down directly.

Overlord Promise Sword!

A golden giant sword slammed down, although there was no scorpion in the iron face, but there was a strong impact with the golden sword.

"Hey!" "Hey!" "Hey!"

A burst of crisp sound spread, the powerful impact from the sky cover, directly shattered the bones of the iron face of the ghost.

"Hey!"

The earth burst open, and a big 'presence' appeared.

However, let Ye Xuan be surprised.

"Hey!" "Hey!" "Hey!"

The wind rang again.

Ye Xuan stared at it, and the iron-faced ghost in the smoke was able to attack him.

Chapter 1000: Take away

"What, not dead?"

He couldn't help but exclaim, and the next moment, he found the body of the iron face, and seemed to have something different from him.

It was a small beating flame. The small flame was slowly growing. At the same time, the injury of the iron face was slowly recovering.

"what is this?"

Ye Xuan did not figure out, but he did not have time to think about it, and hurriedly raised his hand and took out a few swords.

"Hey!" "Hey!" "Hey!"

The golden swordsmanship and the attack of the iron face of the little ghosts collide, but the perfect level of the sword, plus the five realities of the real gas, is not something that Ye Xuan can resist.

"Hey!" "Hey!" "Hey!"

A few swords rushed toward Ye Xuan, but in desperation, Ye Xuan could only avoid it.

Now, Ye Xuan's three big cards are cooling, he is already poor.

"Grandma's, the eye of the void!"

Ye Xuan decided to escape. This is not because he is jealous, but because the iron face is too troublesome.

Of course, a large part is because he killed the iron face of the little ghost, I am afraid that there is no benefit, then what is the strength of the white and the iron face?

"Hey!"

The door of the Void was closed, and the Iron Man's corpse lost its target of killing.

This time, Ye Xuan directly crossed the day and came to the door of Wanhua Valley.

"What is the flame that can cure the damage of the ghost body? The iron face ghost I encountered before did not seem to have this thing."

Ye Xuan thought with amazement.

In fact, what he didn't know was that the flame was called a ghost, which was made by ghosts and then planted in a living body. This is a powerful place for ghouls.

The Ghosts and Taoists walked together and smashed the corpse, and they went along with the ghosts, so his ghosts were stronger than the average.

.....

After fleeing the pursuit, Ye Xuan was looking for a mountain rest outside Wanhua Valley. After a few hours, his three cards were again available.

Although the tree of life can restore physical strength, he always wants to sleep, otherwise the mental stress is too great.

If it is strictly speaking, he has not closed his eyes for more than a week, and he is taking a rest near Wanhua Valley.

This time, he slept for a full day and recovered his energy.

"Hey, Wan Jian returned to the sect to cool down!"

"Hey, the Emperor's Promise Sword cools and recovers!"

"Hey, summon the \*\*\*\* of gold to cool down!"

When he woke up, the system immediately prompted, and now he can go out and hang out.

"Now my strength is restored, even if I meet the little ghost, I can kill, don't let me see you again."

Ye Xuan is not afraid of the little ghost who only comprehended the perfect level of swords, but he will not take the initiative to find, this is a waste of time.

At the moment, he is once again breaking open the void and returning to a hidden place in Xingyang City.

The Sima family in Xingyang City was slaughtered, and the ancestors of the Sima family were furious and vowed to find the murderer.

However, this is already the night before.

Moreover, as long as Ye Xuan does not actively expose the Saiyan people, how can the other party know that he was the one who broke into the Sima family that day?

"There are a lot of ways to upgrade, you can kill monsters, kill people, but I have a super swallow system, you can redeem things to sell..."

Ye Xuan said secretly, he is walking towards the auction.

He had already had a plan long before.

If you want to make money, you can buy a drawing of the middle-class Supreme Lingbao, and then batch-forged the middle-class Supreme Lingbao to sell.

However, there is a limit to the demand for this thing, so he thinks it is simpler to sell drugs. The medicinal herbs can be refining and consuming, and they are consumed very quickly. The medicinal herbs selected by Ye Xuan this time are Wu Jiandan.

"Understanding Jian Jian, who is able to quickly understand the sword and improve the skill of the sword, is definitely very popular!"

Ye Xuan thought, just entered the auction house.

Coincidentally, the waiter who received him turned out to be the one the day before yesterday.

"Hey, the guest officer is you again, please inside."

After seeing Ye Xuan, the eight-hearted waiter saw Ye Xuan, and immediately smiled. The last time Ye Xuan bought a Yaojin mine and made him earn a lot. Now Ye Xuan is coming again, naturally it is Ye Xuan. As a pro-grandfather.

The last time because of something to do, so Ye Xuan went very fast, not long after the Sima family had an accident, but he felt that this waiter should not doubt, after all, there are thousands of people in Xingyang City who are really hard to beat.

"I am going to sell some high-quality medicinal herbs,"

Ye Xuan said directly.

Then, the waiter led Ye Xuan into the box and then invited a supervisor from the auction house.

The head of the auction house is triple-hard and hard.

"Hello, what high medicinal herbs do you want to sell?" asked the head of the auction house.

Ye Xuan said nothing, directly exchanged a Wu Jian Dan from the super swallowing system, of course, this Wu Jian Dan is only a subordinate.

"This is Wu Jiandan, which can enhance the ability to understand and speed up the sword and the martial arts."

Ye Xuan explained.

"What, and what kind of medicine?" The head of the auction house is very surprised.

"If you don't believe it, you can take one or two to try."

Ye Xuandao.

The head of the auction house will suspiciously detect the nature of Wu Jiandan and find that there is no poison, so let the waiter beside him: "You take a look."

"Yes, supervisor!"

The waiter nodded, but here is the biggest auction house in Xingyang City. Ye Xuan could not poison him here, so he swallowed it directly and took out a long sword.

"Supervisor, I feel that I have a wonderful connection with my sword. The sword seems to be integrated with me." The waiter said with a blank face.

"Is it so amazing?"

Some of the heads of the auction house did not believe it.

"You can also try."

Ye Xuan took out another Wu Jian Dan. The auction house supervisor himself swallowed the test. Indeed, he also seemed to establish a wonderful connection with the sword in his hand.

"A wonderful miracle, this state can really speed up the sentiment..."

The head of the auction house was shocked: "Little brother, how much can you supply this kind of remedy?"

This Wu Jian Dan is only a subordinate. It is good to comprehend the micro-level sword, but if you want to comprehend the perfect level sword, you need the middle level Wu Jian Dan.

Intermediate Wu Jiandan, Ye Xuan himself can not afford to buy, so can not sell.

However, the demand of this lower level Wu Jiandan must be great. After all, Xing Yang City does not have the physical body of the Jianshi, but at least 10,000 units.

"This Wu Jian Dan, which I happened to get, there are more than 5,000. Do you want it all?" Ye Xuan asked.

Five thousand is the total amount that he can exchange for all the super-phagocytic crystals.

"Five thousand?" The director of the auction house was surprised and immediately nodded like a chicken and glutinous rice. "Well, I want it all!"

"That price..."

Ye Xuan's eyes are slightly stunned.
