### Chapter 829: Extraordinary Medical Skills and Noble Medical Ethics!

The others present were also stunned.

What was going on?

Director Eugenice had only read a few examination reports. Why did he suddenly kneel down?

At this moment.

Eugenice looked at Yang Luo as if he was looking at a god. He was so excited that he was trembling.

He took a few deep breaths and said, “Mr. Yang, you are a God, you are The God!

The examination report showed that the various organs in Mr. Carlton’s body has regained their vitality!

Furthermore, his vital signs have completely stabilized. Some of his hidden illnesses have even been cured!

I can be sure that with Mr. Carlton’s condition, living for another ten years is not a problem at all!”

The other doctors nodded in agreement with Eugenice.

After hearing Eugenice’s words...

Flora was completely stunned. She looked at Yang Luo in a daze, her heart already in turmoil!

The medical report of Carlton's body was right here!

She had also seen with her own eyes the examination that Eugenice and the others had done for Carlton. It could not be faked!

In other words, this kid had really helped Carlton extend his lifespan by ten years!

It was too terrifying!

This kid was really too strong!

She took a deep breath and bowed deeply to Yang Luo, "Mr. Yang, your medical skills have already reached the peak. Flora admires you to the extreme!

Your medical skills have far surpassed mine. Even our Sect Master can't compare to you!

Looks like our spiritual medicine is still much inferior to your Chinese medicine!

I was suspicious of you previously. I hope you can understand!"

Yang Luo smiled faintly and said, "Miss Flora, your attitude is much better than those guys from Country Sakura's Medical Saint Sect.

However, every medical skill in this world has its own unique charm. We can communicate with each other and take advantage of each other's strengths, but there's no need to fight fiercely.

After all, no matter what kind of medical skills we learn, we still have to prioritize the patients and save the dead and heal the injured.

Miss Flora, what do you think?"

"What you said makes sense. I've learned something!"

Flora said respectfully, "Mr. Yang, if you have time to come to Country Golden Tower in the future, you must contact me. I will receive you with the highest etiquette!"

Yang Luo nodded and said, "I'll go to Country Golden Tower to take a look when

I have time."

Eugenie also sighed, "Mr. Yang, not only are your medical skills extraordinary, but you're also a noble doctor. You're a role model for us doctors!"

The other doctors and nurses present nodded, full of admiration for Yang Luo.

Flora suddenly thought of something and asked, "Mr. Yang, will you participate in the Medical Dao Competition soon?"

"Yes, I will."

Yang Luo nodded, "I want to meet the famous doctors in the world and see if they can inspire our Chinese medicine."

Flora said helplessly, "Mr. Yang, if our Spiritual Physician Sect encounters you, we will admit defeat!"

Yang Luo said in amusement, "Why would you admit defeat? We can exchange pointers."

"No, no, no!"

Flora shook her head repeatedly, “Your medical skills are too amazing. There’s no need to compete at all.”

As she spoke, Flora took out the bank card and returned it to Carlton, “Mr. Carlton, I’m sorry that I didn’t manage to help you. I’ll return this money to you.”

After knowing that he could live for another ten years, Carlton was very happy.

To him, ten years could do too many things. It could even lead Laurel to another level!

After all, to big shots like them, life was much more precious than money!

He teased, “Dr. Flora, although you didn’t cure me, you also made me jump around for three days.

Therefore, accept this money. Just treat it as me befriending you.”

He was a businessman and a successful one at that!

Otherwise, their family would not have developed Laurel Corporation into the three largest cosmetics companies in the world.

He naturally knew that building a good relationship with these Divine Doctors was worth more than earning money!

Claude also joked, “That’s right. Our chairman doesn’t lack money. Please accept it.”

“Then... alright.”

Flora nodded and continued, "Mr. Carlton, if anyone in your family is feeling unwell in the future, you can contact me at any time."

"Alright!"

Carlton smiled and nodded. Then, he said respectfully to Yang Luo, "Mr. Yang, please give me an account number. I'll get our family to transfer three billion ' USD to you now as payment for this time!

Although this money is far inferior to your saving grace and ten years of lifespan, it's still a token of my appreciation!"

"Alright."

Yang Luo did not argue and directly reported an account to Carlton.

After all, he had established a sect now. There would definitely be many places where he needed to spend money in the future.

Then, Carlton took out his phone and made a call.

Actually, it was impossible for ordinary people to transfer such a large sum of money.

However, to these world-class big shots, it was completely a small matter.

Hence, not long after, Yang Luo received the transfer.

After the transfer was completed...

Carlton thought for a moment and said, "Mr. Yang, I still don't think three billion dollars is enough.

How about this? I'll transfer my shares in the Atlantis Hotel in Dibai to you.

I'm the largest shareholder of that hotel. With this share, you can enjoy dividends every year.

I'll sort out the contract tonight and personally deliver it to you tomorrow."

"Atlantis Hotel?!"

Su Qingmei exclaimed, "That's one of the six most high-end hotels in Dibai.

The annual profit can reach nearly billions of dollars!"

"Is a hotel that good?"

Yang Luo looked surprised.

Su Qingmei said, "Other hotels might not be so profitable..."

However, Atlantis was one of the six most high-end hotels in Dibai.

On the other hand, Dibai is a city that's as rich as a country. It's also a tourist attraction. That's why it's so profitable."

"I see."

Yang Luo nodded in realization and said, "Mr. Carlton, you've already paid a lot. Forget about the hotel shares."

"No, we can't let it go!"

Carlton shook his head repeatedly, "As long as I can be friends with you, these money and shares are nothing."

Yang Luo said helplessly, "Up to you."

After that, everyone stayed in the hospital for a while before leaving.

Carlton, Claude, Maria, and the old butler personally sent Yang Luo, Su Qingmei, and the others to the Athena Hotel.

After getting out of the car....

Carlton said to Su Qingmei, "Miss Su, the other directors were still hesitating if they should cooperate with Hua Mei Biomedical these few days.

But now, I've decided that Laurel will cooperate fully with Hua Mei Biomedical.

There's no need for their approval. I have the final say.

I'll personally bring people to Country Hua to implement some of the subsequent cooperation matters with you."

"Mr. Carlton, a pleasure working with you!"

Su Qingmei extended her hand.

"Happy cooperation!"

Carlton smiled and shook Su Qingmei's hand.

Then, after chatting for a while, Carlton and the others left.

Yang Luo and the others walked into the hotel.

Su Qingmei sighed, "Yang Luo, it's all thanks to you this time. Otherwise, our

Hua Mei Biomedical's cooperation with Laurel Corporation would definitely not have been so smooth."

Yang Luo smiled and said, "I only did what I could. As for what happens after that, I still have to rely on you."

Su Qingmei said, "You've even helped me solve the most difficult obstacle. If I still can't do it well, I can really find a piece of tofu and use it to kill myself."

"Hahaha..."

Yang Luo, Xu Ying, Bujie, and Prajna all laughed out loud.
