

C26

"Holy shit, who is this?"

"So... erce?!"

The passages in the Earth Vein were very complicated. Here, in a karst cave.

A topless old man, who looked in his sixties, was brandishing a Great Hammer.

Lu Zixuan's face twitched.

This old man was like a superhuman!

"Dang!" Clang! "Dang!"

Inside the cave, countless flames were floating and there was also a huge magma pool.

That old man was standing right beside the magma pool.

The Great Hammer danced, causing a fierce wind to kick up.

He was forging a weapon.

"Who is it!"

The old man's eyes were sharp as lightning as he looked at Lu Zixuan.

"I am Lu Zixuan from the Mount Yuhua, greets the elder."

Lu Zixuan anxiously said.

He wanted to take the opportunity to build a closer relationship.

"A kid from the Mount Yuhua?"

"A Martial Warrior at the Third Rank actually dared to barge in here?"

"Kid, hurry up and leave. Even if you have a Profound Fire Ball, it's still very dangerous to stay here."

Jiang Bo said.

His Great Hammer descended once again, but his gaze was still focused on the magma pool.

"I'm warning you, kid!"

What a fierce person of his generation.

Lu Zixuan felt that it was a pity they didn't get closer to each other.

Sighing, he turned around and prepared to leave.

"Sizzle sizzle!"

"Holy shit, the Essence of Earth re!"

However...

At this time, a ball of flame emerged from the magma pool.

The flame was different from the others.

It's the Essence of Earth re!

Moreover, its grade wasn't low.

After Lu Zixuan saw this, the following words immediately stopped.

F * ck!

There is the Essence of Earth re!

Why the hell am I leaving?!

Fusion!

I have to fuse them together!

"Come here!"

Once the Essence of Earth re appeared, Jiang Bo's eyes lit up.

He extended his palm, forcefully bringing the ball of Essence of Earth re in front of him.

Then.

The Great Hammer descended even more crazily.

"Unfortunately, the Essence of Earth re has been trapped for too short a time."

About ten breaths later.

That ball of Essence of Earth re broke free from its bindings and disappeared in the magma pool once again.

Jiang Bo heaved a long sigh.

"Cough, cough."

"Elder, are you forging a weapon with the help of the Essence of Earth re?"

After coughing twice, Lu Zixuan walked over.

His eyes were filled with a crafty smile.

"That's right, but that Essence of Earth re is too hard to capture. Each time, it can only be binded for around ten breaths of time."

Jiang Bo heaved a long sigh.

The speed at which the Great Hammer was waved around slowed down.

"Emm, senior, why not fuse that ball of Essence of Earth re into the body directly?"

Lu Zixuan revealed a face of doubt.

But in his heart, he'd long since been overjoyed.

The grade of the Essence of Earth re was not low, and it was hard for an ordinary person to fuse it into the body.

But he was different.

With the system, the fusion would only take a few minutes for him!

"Fusion?"

"Is that thing easy to fuse with?"

"Eh? Why are you still here, brat! "

Jiang Bo was a little disappointed, but he quickly asked a question in reply.

"Uh, it shouldn't be that difficult, right?"

"I have once fused a ball of flame before, it seems very easy."

"Elder, you must be joking with me, right?"

Lu Zixuan pretended to be surprised.

He had a look of disbelief on his face.

The light in his eyes became even brighter.

"That ball of Essence of Earth re is a flame at the First Grade of Yellow Level!"

"Could it be compared to ordinary flames?"

"It's not like I've never tried before, but I almost burned myself to death without success."

"The flame you have fused with should be at the First Grade of Human Level, right?"

Jiang Bo said in disdain.

However, the next moment, his eyes widened.

"This is..."

"The Profound and Extreme Fire at the Fifth Grade of Yellow Level?!"

Jiang Bo's eyes widened as his face flushed red.

This

Is this for real?

He had been looking at this kid with disdain.

He had been looking down on him.

But now.

This kid actually took out a ball of Profound and Extreme Fire at the Fifth Grade of Yellow Level!

Moreover...

He had a fucking casual look on his face!

Jiang Bo was perplexed!

He was puzzled!

I'm joking with you?

The truth is you are joking with me, okay?

"Elder, what's wrong?"

Lu Zixuan was secretly delighted.

Begging me!

Begging me!

Begging me, I will help you forge the weapon!

"Cough cough!"

"That Lu Zixuan, right?"

"Is it easy for you to fuse with the Profound and Extreme Fire?"

"I'll help you draw out the Essence of Earth re. After you fuse with it, can you help me forge the weapon?"

Jiang Bo coughed.

He forced a smile and asked.

"It's indeed quite easy for me!"

"Since the elder has given the order, I will definitely do it!"

Lu Zixuan laughed in his heart, but his face was filled with righteousness.

F * ck, I finally succeeded.

Was it that easy to put in so much effort to make the plan?

"Haha, boy, you're not bad at all!"

"Wait for me, I'll draw that ball of Essence of Earth re up here!"

Jiang Bo laughed loudly.

He turned around and brought the Great Hammer directly to the side of the magma pool.

"Come out!"

Jiang Bo growled, sprinkling out a handful of medicinal powder.

"The Flaming Flower?"

"What a waste. F * ck, what a waste!"

"What a reckless fellow!"

Seeing the medical powder, Lu Zixuan's mouth twitched.

The Flaming Flower!

That was a kind of herb at the First Grade of Yellow Level.

It could attract some flames.

But directly sprinkling it out like that was too much of a waste!

If it was refined into a Flaming Pill, it could be used for more than ten times!

The medicinal effect would also be several times stronger!

"I have to get the Flaming Flower from him later."

"Shame, shame on that kind of waste!"

"I must stop it!"

Lu Zixuan muttered at the side.

"It's out!"

Over here, within the magma pool, eight or nine balls of Essence of Earth re appeared.

Some were strong and some were weak, and the grades differed.

Jiang Bo's face was filled with excitement, as he directly bound that ball of Essence of Earth re at the First Grade of Yellow Level over.

"Motherf * cker, so many?"

"Mine!"

"All mine!"

Lu Zixuan was also stunned.

He never thought that there were so many balls of Essence of Earth re here.

Then, he became excited.

His eyes were blazing.

"Hurry up and fuse them. I can only hold them for ten or so breaths."

Jiang Bo said.

It was extremely difficult for him to bind the Essence of Earth re as well.

"Don't worry!"

"Leave it to me!"

Lu Zixuan nodded.

His spirits were suddenly roused, and he felt like a hungry wolf had just caught sight of food.

"Ding!"

"Congratulations to host 'Lu Zixuan' for obtaining the Essence of Earth re at the First Grade of Yellow Level. Do you want to fuse it with the Profound and Extreme Fire? The fusion requires 47010 points of Exchange Value. "

"Fuse!"

It required many points of Exchange Value to fuse with the Essence of Earth re at the First Grade of Yellow Level.

However, Lu Zixuan had a lot of points of Exchange Value on him.

He immediately chose to fuse them together.

"Ding!"

"Congratulations to host 'Lu Zixuan' for successfully fusing with the Essence of Earth re!"

"Ding!"

"Congratulations to host 'Lu Zixuan', the Profound and Extreme Fire has been levelled up to the Sixth Grade of Yellow Level!"

"Levelled up?"

Hearing the system beep, Lu Zixuan was overjoyed.

"Kid, you succeeded?"

Jiang Bo asked in astonishment.

In a blink of an eye, he succeeded?

Previously, Jiang Bo only held onto a sliver of hope and wanted to give it a try.

However, he never would have expected that the kid succeeded so easily!

Was this a human?

"Yeah."

"Senior, let's bring the rest of the Essence of Earth re over here as well."

Lu Zixuan nodded and said, disapprovingly.

Anyway, he used nearly 50,000 points of Exchange Value.

"Alright!"

Jiang Bo was speechless, and nodded his head numbly.
