

Super Student 291

Chapter 291

This time, he used “Flying Needles”, these “Flying Needles” and the martial arts skills of flying needles were all prepared by Ye Lu for this trip to Japan.

“Snort!”

“Snort!”

.....

With two strikes, the two guards at the entrance both fell to the ground.

In the interior of the Hattori ninja headquarters, the current Hattori Hanzo was arranging the family’s personnel, because too many ninjas had died in China this time, and needed to replenish some of them, but of course, the maximum number of people who could enter China could only be at the “Little Master” level, and even such practitioners were strictly limited, and it was impossible to transport them in large quantities in a short time, so Hattori Hanzo had to make a detailed plan.

At that moment, a servant came running in in a panic.

“Lord Hanzo, it’s not good, someone has killed in.”

Seeing this fellow’s panicked appearance, Hattori Hanzo then said with some displeasure.

“Look at you, you don’t look like a ninja, what’s the matter, it’s worth making such a fuss.”

This subordinate hurriedly said.

“Someone has just killed someone through the main gate, and dozens of people have already died at the hands of the other party, who is extremely strong in combat, and should be a ‘Grand Master’.”

This subordinate said this because he had just seen Ye Lu use the “Fire Bomb Technique”, which only a “Grand Master” practitioner or above could use “astral energy” to leave his body.

The reason why Ye Lu used the “Fire Bomb Technique” was that both the “Ghostly Inferno” and the “Red Lotus Flame” in his body had now become very powerful, and it was no longer the same as when he had first used the “Fire Bomb Technique”, which would be exhausted after just one use.

Hearing this servant’s words, Hattori Hanzo was really moved, for he and Hattori Tamaki were the only two people in the Hattori clan who were now “Grand Masters”.

And Hattori Tamaki was at the moment guarding the Tokyo branch, where the most Hattori ninja were.

“It’s actually a ‘Grand Master’, any idea where that man comes from? Which power is it from.”

There were many sects of cultivators in Japan and the relationship between the various powers was extremely complicated, so all kinds of revenge seeking happened from time to time.

However, the subordinate said.

“It looks strange enough that I can’t sense which school it is, and the strangest thing is that the flame he uses is actually a coloured red flame.”

When he had finished, Hattori Hanzo stood up and picked up his katana, the “Haru Kiri”, a famous sword handed down from his family, with a greenish blade, like a spring rain.

When he reached the courtyard, he saw Ye Lu, who was standing among the ninjas as if he was walking at ease.

Ye Lu had just killed two “third-ranked masters” by a miraculous feat, which made the ninjas surrounding him feel a bit unsure.

“Who are you? Why did you come to our Hattori family to cause trouble?”

Hattori Hanzo looked at Ye Lu and said with a sullen expression.

Ye Luo then looked at Hattori Hanzo and said.

“It seems that you are the one who can say what the Hattori family can say, then I have to tell you one thing, I don’t kill women and children, let all the women and children in your family leave, otherwise I can’t guarantee their lives later.”

Hearing Ye Lu’s words, Hattori Hanzo said coldly.

“Don’t worry, there are no women and children here, the only ones here are ninjas, who are you anyway?”

Hearing that there were no women or children here, Ye Luo then looked at Hattori Hanzo and said with a smile.

“It doesn’t matter who I am, because tonight, all that are here are destined to have no tomorrow, so there is no point in knowing or not knowing.”

At Ye Lu’s words, Hattori Hanzo snorted coldly, and following that he turned the bracelet on his wrist.

A monster as huge as an ox appeared beside Hattori Hanzo, with a purple glow, a mouth full of sharp teeth, and two long tails, none other than “Cat Again”.

“Huh! Are there two of them?”

When he saw this cat, Ye Lu was a bit surprised and said out of the blue.

Hearing Ye Luo’s words, Hattori Hanzo was also a bit surprised, and he looked at Ye Luo and asked with a frown.

“You’ve seen the cat again?”

Ye Luo said with a nod.

“Yes, I have caught one before, but it was smaller than this one.”

Hearing Ye Lu’s words, Hattori Hanzo’s heart inexplicably tightened, as far as he knew, there were only two cats in total, the one in his hand and the one that was given to the family elite Hattori Fumimasa,

the one that the guy in front of him, who had his face covered with stockings, had seen should be the one that Hattori Fumimasa had.

“Maybe what Fumimasa said is true.”

Hattori Hanzo felt that he might have misunderstood Hattori Fumimasa before, and that what he was saying might be true.

“Well, that’s enough of the nonsense, since all here are ninjas now, I’ll be polite.”

The Hattori family was not the “Seven Star Society” of Korea, there were many experts in the family, at least not short of “Level 4” and “Level 5” clan masters, so immediately someone wielded a katana to stop Ye Lu.

Hattori Hanzo did not make a move, but watched quietly, and then he realised that Ye Lu’s fighting ability was not as strong as the servant had just said.

Ye Lu’s footwork was indeed fast and strange, and his defence was also very strong, and he had a high level of protective magic weapon on his body, but he could tell that Ye Lu was definitely not yet at the level of “Grand Master”, which was either someone whose cultivation was almost at the peak of the Grand Master level and who could “release his astral energy” through ordinary magic weapons.

Or they have a very high level of cultivation and a “magic weapon” of a similarly high level that matches their attributes, otherwise it would be very difficult for them to do so.

For a clan or an organisation, the clan will never give a high grade “magic weapon” to someone whose cultivation level is not high enough, because it is difficult to say whether such a person can keep such a magic weapon.

Rather than give good things to these people, it was better to give them to people who could use them more effectively, so basically there were no “Grand Masters” below the level of “Sixth Patriarch”.

However, Hattori Hanzo found that Ye Lu was still struggling to fight a rank four Grandmaster. If it wasn’t for the powerful flames on his body, the high level of his martial arts skills and the terrifying weapons in his hands, he would have been killed many times by now.

By now, Ye Luo’s body was already covered in multiple colors, but his eyes were glowing looking extremely excited.

Yes, Ye Lu was indeed excited, because he was using this extreme pressure to catalyze the spiritual energy in his body, this time he had taken 50 medium grade spirit stones from the Hundred Flowers Clan, and of course, he had also promised the Hundred Flowers Clan that he would help them make a pill that could change the current situation of their clan as soon as possible, that is, the Foundation Establishment Pill that would allow people to enter the Foundation Establishment Realm.

“Hahahahaha!”

After that, Ye Lu, who was drenched in blood, laughed furiously, and his combat power soared, as he knocked a “fourth level clan master” to the ground with one punch.

It was just now that the eighth strand of aura had finally formed.

“Yes! Again!”

Ye Lu happily attacked again, but Hattori Hanzo had already made his move.

“Back off, Catamaru, kill him.”

As the head of the Hattori family, Hattori Hanzo was of course very good at pretending, he felt that Ye Lu should have no more cards, so it would be easy to let his “original spirit beast” kill Ye Lu.

“I originally thought you had some powerful backhand, but is this the only breakthrough you have? If you want to fight against our Hattori family, you are still far from being able to do so.”

Hattori Hanzo looked at Ye Lu and said indifferently.

This “cat again” was the mother of the “cat again” that Ye Lu had seen before. Since there was no other “cat again” that could be matched with her, the previous “cat again” was a child born between her and another cat-shaped demon beast.

Therefore, this “Cat Again” was much stronger than the previous one, and its cultivation level alone was already at the level of “Third Order Sixth Grade”, which was enough to fight against a “Seventh Grade Master”.

Seeing that the tall “Cat Again” had started to move, Ye Lu smiled and said.

“Well, the warm-up is over, so I’ll kill all of you next, leaving no one behind!”

After saying that, the tall “Saketon Boy” suddenly appeared next to Ye Lu.

The moment he saw the “Sake Swallow Boy”, Hattori Hanzo’s pupils dilated in surprise.

## Chapter 292

It is impossible for Hattori Hanzo not to know one of the three great demons of Japan, the “Sake Swallow Boy”, which is a household name and known to all women and children, but not many people have actually seen them, because they are too rare to see.

Today, however, Hattori Hanzo had seen the “Sake Swallow Boy”, not in the hands of a Japanese man, but in the hands of a man with his face covered in stockings.

“Who the hell are you?”

Hattori Hanzo could not help but ask again subconsciously.

But of course, this was not the end of the story. Immediately afterwards, countless “Sovereign Level” evil spirits suddenly appeared around Ye Lu, thousands of them.

But this was not the end of it.

After the evil spirits appeared, Ye Lu raised his hand again.

Countless grim-faced “ghost bats” appeared, each of which was also a terrifying “Sovereign” level being, and more importantly, Hattori Hanzo had never seen a demonic beast like a “ghost bat” before.

Everyone's heart sank to the bottom when they saw these guys appear. There were only a few Sensei-level shinobi in the entire Hattori clan, and there was no chance of winning.

"Go!"

Ye Lu gave the order without hesitation, and then he looked at the "drunken boy" and said.

"Keep that cat alive, I'll use it."

The "Nine Lives Cat Demon's" bloodline divine ability was so special that Ye Lu had fallen in love with it after using it once.

"After Ye Lu finished speaking, it drew its long sword and charged at the cat again.

"Ow!"

The two masters collided with each other, and the difference between them was obvious.

The difference between the two was obvious when the cat was knocked out of the room with a slash from the "Wine Swallow Boy".

It was only the fault of the "Yin Yang Riao" that had raised the "Sake Swallow Boy" so well, and the fact that he was already a famous and terrifying ghost made him far more powerful than this "Cat Again".

When he saw this, Hattori Hanzo sighed in despair.

He knew that he had already lost the battle, and that either side could kill them, whether it was the dense evil spirits or the terrifying "ghost bats", let alone both of them.

"Don't worry, I won't let you get away with it."

Hattori Hanzo said and then recited some kind of incantation, then his hands quickly formed a seal, followed by a loud cry.

"Poof!"

The "cat" suddenly spurted out a mouthful of blood and fell to the ground, followed by countless demon bats and evil spirits that flooded the entire Hattori clan.

"Oh! It's a pity that this corpse is too big to be taken away!"

Ye Luo walked up to the corpse of the "cat again" and said with some emotion, there was no way, so he could only find some containers to collect as much blood of this demon beast as possible, the blood would definitely be useful in the future.

"Wine swallow, have your men find out if there is an elixir room here, the kind of thing that feeds 'demon beasts'."

While looking for a container that could hold blood, Ye Lu said to the "Wine Swallow Boy".

The "Wine Swallow Boy" was already a "Third Order Sixth Grade" ghost, so it already possessed a strong spiritual intelligence, except for not being able to speak, it did not delay communication at all.

Just now during the battle, Ye Lu saw many Hattori ninja using their “original spirit beasts” or demonic beasts.

The only thing is, the “ghost bats” are rather special and some of them are too picky, so they may not be able to use all these things.

Anyway, let’s take away all the benefits we can get first.

There was too much blood and other things to take away, and the two large storage bracelets had a lot of things to hold, so later on, many of the demon beast’s medicines were discarded by Ye Lu.

“It would be nice to have a big storage magic weapon.”

Ye Luo lamented a little.

Seeing that so many things had been wasted, Ye Luo was a little distressed. After following, the “Ghost Bat” had eaten everyone into a pile of white bones, Ye Luo took these guys and flew away.

At the beginning, everyone saw the ghostly atmosphere and the “ghost bats” flying around like dark clouds, so they didn’t dare to approach.

Only when they saw that the entire Hattori clan was not moving did they dare to go in.

“What’s going on? Is everyone from the Hattori clan dead?”

“It looks like it, but what caused this, why are there all bones?”

“Yes, it’s horrible, killing without a second thought!”

“The Hattori family are all ninjas, right, what’s this thing so powerful?”

“Let’s notify the authorities, this is so evil.”

.....

Soon, the neighbours and people in the neighbourhood spread the word about the incident, and the police and officers from the relevant departments dealing with similar incidents arrived at the scene.

However, there wasn’t much valid evidence left at the scene, the biggest evidence being a field of white bones.

“This shouldn’t be caused by man, I’m afraid it’s some kind of individual group of demonic beasts.”

“I wonder if it was someone seeking revenge, or a revenge from a demonic beast?”

“Huh! There’s a kid on this side who didn’t die, let’s ask about it.”

.....

This child didn’t know whose family he belonged to or if he belonged to the abdomen family, Ye Lu just saw him, but of course, Ye Lu didn’t move him.

At this time, this child undoubtedly became the focus of attention, and everyone began to gather around him to ask questions.

“Little friend, did you just see what happened here?”

A policeman asked.

“A ..... masked uncle, he ..... he also had birds, ate everyone and then ..... walked away .....”

The kid started stumbling over the story, and although it wasn't a very good narrative, everyone got the idea that a masked man had come to the Hattori house and then bloodied the place, and that the real culprit was a large flock of strange birds that the man had brought with him.

“Mostly other ninja clans seeking revenge, I guess.”

A policeman said as he looked around.

“Other than ninjas, or those masters who practice the Shinto way, ordinary people certainly couldn't do this, and by rough count, there must be hundreds of bodies here too, this must be the biggest tragedy in a hundred years.”

“Yes, it must be those people who did it, no one else but them has such a big hand.”

“Get the story out there, contact all the media, this is out of our hands.”

“Yes, I'll get on it!”

.....

The story started to spread as soon as it was reported on the internet and on television.

\*\*\*\*

The Yin Yang Squad.

The “judge” Abe Liuyun was sitting in his seat depressed, thinking about the events of the day, and in front of him was Abe Jingyu and the middle-aged man who had talked to Ye Luo before.

“Are you sure, that person you brought in is a Ming Jin practitioner?”

Abe Yasuyu said with a very positive nod.

“Yes, I know our rules, and I have been doing this for so many years, how could I be wrong, I am sure that he is just a Ming Jin cultivator.”

In fact, Abe Liuyun did not doubt this either, as it would not do him any good to falsify in this matter.

“However, the one you found disappeared along with the important hostage, and took away the most valuable thing we have in the ‘Yin Yang Liao’.”

Abe Liuyun looked at Abe Jingyu and said coldly.

Those medicines that were taken away by Ye Luo were the things that caused Abe Liuyun the most flesh pain.

In fact, Abe Yasuyu also had a bitterness that he could not say, he did everything according to the process, but no one expected it to end up like this.

However, at this moment, someone suddenly came in and reported.

“My lord, it’s not good, there’s just news that the Hattori family has been bloodied by a masked man.”

Hearing this news, Abe Ryuun was shocked, for the Hattori family was a ninja force that belonged to their “Yin Yang Riao”.

“Tell me, what is going on?”

He asked with a cold look on his face.

“The man had stockings on his face and everyone in the Hattori family was turned into white bones, the details are not clear yet .....”

The subordinate roughly described it.

At this moment, Ye Luo was resting at the foot of a mountain far from Kyoto City, the things he got from the “Yin Yang Riao” and the Hattori family were all laid out in front of him, and he wanted to turn them into strength as soon as possible.

But what he didn’t know was that soon the country would be going crazy with the news too.

#### Chapter 293

Ye Luo first looked at the things he brought out from the pharmacy of the “Yin Yang Riao”, these things were mainly things to cultivate “style gods”, in fact, “style gods” were the spirits summoned by the Yin Yang master using a formation, “style gods” were not gods, nor were they all ghosts, including ghosts, monsters and other things.

“This is really a treasure for cultivating ‘style gods’, no wonder it’s hidden so tightly.”

Ye Lu picked up the most protected treasure hidden in the deepest part of the “Yin Yang Riao”, and found that this item could actually raise the “Style God” by a small level.

Of course, there are restrictions on this potion, firstly, it can only be used by “third-ranked” gods, that is, “master” gods, and secondly, each “god” can only use it once in their lifetime, but this is powerful enough, because there are more than half a bottle of the potion in this vial.

“Hey, ‘Wine Swallow Boy’, I hope you haven’t used it yet.”

Ye Lu smiled as he took out one and handed it to the “Wine Swallow Boy”, who took it and ate the pill directly, and his cultivation rose again.

In fact, in the hands of He Mao Zhong Ye, the one who was responsible for training the “Wine Swallow Boy”, he did have a pill like this, but he died before he could give it to the “Wine Swallow Boy”, so this time he had to give it to Ye Lu.

After taking the pills, the “Wine Swallow Boy” quickly rose from “Third Order Sixth Grade” to “Third Order Seventh Grade”, and with its perverted level, it was estimated that it would soon be able to compete with the strong “Ninth Grade Sovereign” among the Sovereigns.

“It’s a bit of a waste, but I’ll strengthen you ghosts too.”

Ye Lu thought about it, and then called over the tougher “3rd rank 5th grade” and “3rd rank 4th grade” ghosts led by the “Wine Swallow Boy”, and gave them each a potion as well.

After all, the purpose of Ye Lu’s visit to Japan was different from the purpose of the previous visit of the “Sake-tun Boy” to China, as Ye Lu wanted to deal with the ninja clan and the “Yin Yang Liao”, while Abe Yasuhiko and the others wanted to deal with innocent civilians.

Afterwards, Ye Lu gave all the medicines he had obtained from the Hattori family to the “ghost bats”, starting with the chiefs of course, those that could be eaten and those that could not be eaten were simply thrown away, which was no pity anyway.

In fact, many of Japan’s “original spirit animals” have ghostly attributes, such as Hashime, I don’t know what fires, Aojyo-no-mori, Hyakumo-no-mori, etc. Therefore, the chiefs of these ghost bats are given to the “ghosts”.

Therefore, the leaders of these ghost bats ate a lot, but only a few of them broke through again and became “third-ranking fourth-ranking” demon beasts, while most of them remained at “third-ranking third-ranking” level, and some were “third-ranking second-ranking”.

Even with the pills made from the Yin Yuan Stone, the time was too short and this was already Ye Lu’s limit.

Ye Luo took the same approach with the other medicines he brought out from the Yin Yang Laogai, and let the “Drinking Tuna” and the ghosts it led take care of them themselves.

He wanted to take advantage of this excellent opportunity to press himself again, so that he could gather his ninth aura, but of course, Ye Lu felt that this was a luxury, because the eighth aura had just been formed.

“Hurry up and get stronger!”

At this moment, Ye Lu felt an unprecedented desire to become stronger, because he had a feeling that perhaps a great battle was coming.

They had found out that Liu Mei had been taken away by Jessica, the Holy Maiden of the Gothic Blood Clan, and was currently being held in the Blood Clan’s sanctuary.

According to the information brought by the Shadow of Death, Liu Mei will not be in danger anytime soon, but they do not know the traditions of the Blood Clan, so they are not sure what will happen to Liu Mei, but according to the rumours, a mixed-blooded Blood Clan like Liu Mei will probably be “blood sacrificed”.

Although no one is sure what the blood sacrifice is all about, it doesn’t sound good, so Ye Lu plans to rescue Liu Mei as soon as he finishes his business here.

The next morning, the whole of Japan and China were abuzz with excitement.

News spreads fastest on the internet and the media is always the sharpest, all the major media did their reports as soon as they got the news.

“‘The Masked Man in Silk Stockings’ is suspected to have appeared in Japan and killed a lot of people.”

“Japanese Hattori ninja tragically wiped out overnight!”

“Hundreds of Hattori ninjas turned to white bones overnight.”

“‘The Masked Man in Silk Stockings’ has made our country proud!”

.....

The Japanese media revealed the information, everyone quickly targeted the “Silk Stocking Masked Man”, because this is also a scene that many people would like to see, the previous incident of the Japanese people’s big trouble in the capital has provoked everyone’s anger, but we have the heart but no power, this time everyone feels that finally a breath of anger.

“Ye Lu, you mustn’t be alright.”

Qin Siyu muttered with extreme worry as she looked at the screen of her mobile phone, she had officially embarked on the path of cultivation at the moment, but even if her cultivation was fast, she definitely wouldn’t be able to help much in the short term.

Likewise, Long Fei Xue and the four ancient martial arts clans were also sweating for Ye Lu, who also knew about the “Silk Stocking Masked Warrior”.

“But, this is really cool!”

Long Ao slapped the table and decided to celebrate with a drink.

Not only Long Ao, but the whole capital was abuzz with excitement, especially those whose family and friends had been slaughtered by the ghosts, and they finally felt the thrill of revenge.

Many people started to build buildings for the “Masked Man in Silk Stockings”.

In no time at all, the “Masked Man in Silk Stockings” had dominated the entire internet.

Ye Lu didn’t do anything during the day, firstly because he had to recuperate and adjust his condition, secondly because the “ghost bats” still preferred Ye Lu to cause trouble, and thirdly because Ye Lu wanted to practice the “summoning technique” which was a “spell”.

The summoning technique is somewhat similar to the combination of “weapon refinement” and “spellcraft”, as it requires the drawing of a formation, which is called a “summoning formation”, and the formation can be drawn anywhere, as the function of the formation is to communicate with the “other world” through the power of the laws on the “weapon pattern”.

In principle, the summoned object is called a “contracted spirit” and has to act according to the will of the summoned person, but in reality, the contract is rather loose and a powerful summoned “contracted spirit” can ignore the sanctions of the contract.

“Alright, the formation is drawn, the next step is to see what can be summoned.”

Ye Luo drew the formation on his right hand, so that it would be easier to use, and then he started the summoning with one hand.

“Boom!”

“It worked!”

Seeing a burst of white mist, Ye Luo understood that he had really summoned something.

Following that, he saw a beautiful woman appear in front of him with no clothes on, not to mention that this woman had a great body, and what made Ye Lu somewhat strange was that she had two elf-like beast ears and a long fluffy tail.

Then, the prompt from the glasses appeared.

“Prompt: Summon one ‘Beast Ear Maiden’ from the ‘Secret Realm of Ten Thousand Beasts’, level ‘Middle Pulse Raising Realm’, enchanting call, can warm the bed .....”

Seeing this prompt, Ye Lu decided to hurry up and send this one back.

Following that, he once again concentrated his mind and started summoning.

“Go you!”

This time, another beautiful woman without clothes appeared.

“Prompt: Summon one ‘Hundred Beauty Ghost’ in the ‘Morrowind Secret Realm’, rank ‘Middle Harmonious God Realm’, can warm the bed, but this ghost will suck people’s essence, pay attention to your body .....”

Seeing the prompt Ye Lu was a bit speechless.

“Well, first a female demon, and this time a female ghost, I’ll see if I can summon a goddess next time.”

Ye Lu muttered as he sent the female demon back and summoned it again.

“Brush!”

Following that, another naked woman appeared, this woman was emitting fire-red flames all over her body and looked demonically beautiful.

Seeing this woman appear, Ye Lu rubbed his chin and nodded his head, saying.

“Alright, I probably understand this summoning technique a bit.”

## Chapter 294

The fiery red woman that Ye Lu summoned this time was called “Fire Spirit Girl”, from the “Xuan Ling Mountain Secret Realm”, and was of a higher level than the two previous ones, having reached the level of “First Grade Master”.

Ye Lu found that the summoning technique summoned something related to the way the summoning technique was used.

When he summoned this “Fire Spirit Girl”, Ye Lu used “Red Lotus Karmic Flame”, while when he summoned the “Hundred Beauty Ghost”, Ye Lu used “Underworld Ghost Flame”.

In other words, the summoning of something was not entirely according to one's own will, but was related to the state of the summoner at the time of using the "summoning technique".

Of course, Ye Luo didn't know how to explain why he had summoned a "beast-eared woman" without clothes for the first time.

"But, this thing is too energy consuming."

After sending the "Fire Spirit Girl" back, Ye Lu found that after using the "Summoning Technique" three times, his own aura was drained, of course, this might be related to the fact that he was not yet skilled in the "Summoning Technique".

At the same time, Ye Lu also discovered something else, that is, the things he summoned came from various "secret realms", that is to say, these things should have originally existed on Earth.

"Anyway, it's best not to use this 'summoning technique' in front of other people at the moment, always summoning women without clothes, it's a bit revealing of my character!"

Ye Lu cautioned himself as he rubbed his chin.

Ye Lu had been researching how to make something similar to the "Weapon Clan" flying machine.

If he had such a thing, at least he wouldn't have to worry about movement, he could just fly to wherever he wanted to go.

However, this "weapon pattern" was no longer a ready-made weapon pattern from Ye Lu's glasses, but an independent "weapon pattern" developed by the Weapon Sect, so it was difficult for Ye Lu to develop it.

In this way, Ye Lu stayed in the mountain all day, and at ten o'clock in the night, Ye Lu moved again, this time Ye Lu's target was the Miyamoto family, which had once been known as the "Sword Saint" of Japan, Miyamoto Musashi.

The ninja who had captured the head of the Four Families was a direct descendant of the Miyamoto family.

The current head of the Miyamoto clan, Miyamoto Yoshifumi, is known as the "Kinki Swordsman" and uses the famous "Hakujikuni Ansatsu", a 120cm long sword left behind by the "Sword Saint" Miyamoto Musashi, a powerful magic weapon from the Heian period.

At the moment, Miyamoto Yoshitomo is sitting at home listening to the report of his subordinates.

"The 'Yin Yang Riao' side told us that we must be extra careful, because that 'stockinged and masked man' from China might cause trouble again."

The subordinate whispered, for he knew Miyamoto Yoshifumi's temper.

He drew his "Bokuji Kokusanzan" and cut the table in front of him into two pieces, then said with a glare.

"You think I'm a fool like Hattori Hanzo?"

That subordinate hurriedly kept nodding his head and said.

“Yes, yes, yes!”

Miyamoto Yoshihide then continued.

“As a samurai, only the sword is truly a sharp weapon, yet the Hattori family likes to raise some kind of demonic beast, which is simply a disgrace to the samurai.”

However, just at that moment, a subordinate hurried in and said.

“My lord, it’s not good, that guy with stockings on his head has killed his way in.”

When he heard that the “stockinged masked man” had come in, Miyamoto grabbed the “Bokuji Kokusai” and said as he walked away.

“Put up the live broadcast, I want to show the others how our Miyamoto family is going to break the enemy.”

Hearing Miyamoto Yoshitomo’s words, the subordinates hurriedly switched on the live video synchronization.

Miyamoto Yoshihide also quickly walked to the courtyard, followed by the sight of Ye Lu who was standing in the courtyard with his face covered.

“Miyamoto Yihui, right, let all the women and children of your clan leave in a hurry, today, the end of your clan has come.”

Ye Luo looked at Miyamoto Yifai and said coldly.

Miyamoto Yoshihide, however, was not moved at all as he looked at Ye Lu and said.

“Don’t be alarmist, you think I am scared, today I will use you to pay tribute to our ancestor’s Sword Saint, Lord Miyamoto Musashi’s holy sword ‘Boji Kuni Ansatsu’.”

As he said this, he drew out the “Bokujikuni Yasuna”.

As expected, the long sword was as bright as autumn water, and Ye Lu also saw the grade of this “Bo Ji Guo An Zang”, which was a “Heavenly Rank Lower Grade” magic weapon, so it was really a good thing.

However, Ye Luo looked at Miyamoto Yoshifumi and said.

“It’s a pity that your family’s precious sword is about to be destroyed in your hands.”

Miyamoto Yoshihide, on the other hand, said with a condescending look on his face.

“Who are you to speak so shamelessly, just you can walk under my sword for three rounds and I will spare your life.”

Having said that, Miyamoto Yoshihide then waved his hand at the people around him and said.

“Stand back, all of you, and watch how I will kill this foreign brat.”

After that, Miyamoto Yoshitomo took a few steps forward and swung the “Bokujikunozuna” in his hand, and the shiny blade shot towards Ye Lu like a long curved moon.

This was the first time that Ye Lu had ever seen the “Gang Qi Outcast”, and to be honest, it was really quite magnificent.

“Snort!”

“Snort!”

“Snort!”

.....

Ye Lu dodged quickly, but the speed of this kind of external astral qi was so fast and the quantity was so large that it was difficult for Ye Lu to dodge it completely, but of course, this was also related to the realm of Miyamoto Yoshifumi, this guy was a “seventh level sect master”, including the “Bo Ji Guo An Tsun”, he was a real “grand master”.

Ye Luo also felt the power of a “Grand Master” for the first time.

“Snort!”

“Snort!”

“Snort!”

Soon, Ye Lu’s body was slashed several times, and his clothes were directly shredded by the blade mane, but this blade mane could not cut through his body armor, because this armor was close to “Heavenly Grade” anyway, so it was not that easy to cut through.

“Hmph!”

Seeing this scene, Miyamoto Yoshihide snorted coldly as he looked at Ye Lu and said coldly.

“There’s a protective suit isn’t there, I’ll see how you can defend your head, die!”

With these words, Miyamoto Yoshihide once again swung his “Bokuji Kokusai” in his hand, and this time, all the darting blades were directed at Ye Lu’s head.

However, this time, Ye Lu did not dodge, but charged towards Miyamoto Yoshifumi.

“Drink!”

“Is this a desire to die?”

“Kill him!”

“Kill him!”

.....

Seeing this scene, all of them were a bit confused.

In the “Yin Yang Squad”, the “judge” also saw this scene.

“I don’t know how he managed to destroy the Hattori family last time.”

Abe Liuyun shook his head when he saw this scene.

In his opinion, Ye Lu was undoubtedly seeking his own death by doing this.

Because the video was released to the public, many other people also saw it, including some people in China who had been following the “Masked Man in Silk Stockings” and were sweating for Ye Lu.

However, just when everyone thought that Ye Lu’s head would be cut into pieces like a watermelon, a shield made of flame suddenly appeared in front of Ye Lu, which was another spell Ye Lu was good at, the “Flame Shield”.

He had tried this spell when he first obtained his “Martial Skill Ability”, but he was unable to use it at that time, but he could soon use this spell, and it was the second spell he had learned.

At this moment, the “Flame Shield” was no longer a shield as big as a fist, but a flaming round shield with a diameter of more than a foot. The fiery red “Red Lotus Karmic Flame” was already exceptionally powerful, and the external “Astral Qi” used by Miyamoto Yoshifumi was, to put it bluntly, not an entity, but just a kind of Qi.

In essence, the “astral qi” was a few notches below the aura and the “red lotus karma fire”, so Ye Lu’s “flame shield” easily blocked the flying “sword mane”.

This scene took Miyamoto Yoshihide by surprise, because in his common sense, even a “Grand Master” could not use such a defensive Qi, and this kind of Qi shield could only be used by a “Saint Level” super expert in his opinion.

However, the moment he was stunned, the arrow of the “Sunset Arrow” in Ye Lu’s hand had already struck.

“Hmph!”

Miyamoto Yoshihide snorted coldly, and then raised his hand to block the strike with his “Bokuji Kokusai”, but this action was the biggest mistake he had ever made in his life.

“Ding!”

The “Baji Kokusan” broke with a clang.

Everyone was stunned!

Chapter 295

The arrow of the “Sunset Arrow” did not stop after it cut Miyamoto Yoshitomo’s “Bokuji Kokusai”, but since Miyamoto Yoshitomo was still a “7th level Sensei”, the slash did not kill Miyamoto Yoshitomo, but only sliced his arm and splashed blood.

After that, Miyamoto Yoshihide flew backwards.

Ye Lu then looked at him and smiled and said.

“How about it, I just said it, this sword of your ancestors will be destroyed in your hands.”

Everyone didn't say anything, because Miyamoto Musashi was too famous in Japan and was truly respected as the "Saint of Swords", so this "Boji Kokusen" was also a famous sword, but it was unimaginable that such a sword had been cut off.

"What the hell is that thing in his hand?"

The crowd was surprised to see the arrow of the "Sunset Arrow" in Ye Lu's hand.

"This thing is too scary!"

"Yes, I didn't see any 'astral qi' appearing, but he just cut through the 'Boqi Guo'an Gang' with his sword, this is too incredible."

"It's not the slash that surprised me, it's that red shield just now, what is that thing, how did he get it out."

.....

In fact, even the judge of the "Yin Yang Riao", Abe Liuyun, was also very puzzled by this point.

"This should be a 'spell', is this person a 'Saint level' powerhouse? 'No relation to it, what an odd fellow."

Those who saw this scene in China certainly had a completely different attitude.

"Awesome, my 'Stocking Masked Man'!"

"It's really so awesome, it's beyond imagination!"

"Don't get too happy, can't you see that Lord 'Silk Stocking Masked Man' is already surrounded by so many experts?"

"Yeah, there are so many others."

.....

As the internet and the people around him went crazy over this, Ye Lu spoke up.

He looked at Miyamoto Yoshihide and smiled and said.

"You just said something like if I don't die under three moves you will bypass me and so on, now I will say the same to you, all the men of your Miyamoto family will die."

When he heard Ye Lu's words, Miyamoto Yoshihide laughed.

"With just you? Don't think that you can do anything with that broken sword, even ten of you can't touch our Miyamoto family."

As Miyamoto Yoshihide spoke, the other Miyamoto family members also showed expressions of disbelief and disdain.

It was a bit of a stretch for one person to try to exterminate a family even if they were powerful.

However, immediately afterwards, Ye Lu smiled and said.

“Of course I don’t have the ability to do that alone, but my brothers can do it.”

With those words, Ye Luo then waved his hand and said.

“Come out, it’s time to dine.”

In fact, since there was plenty of food in the Ghost Mound, the Ghost Bats had also bred a number of little bats, however, those little bats had not come and were still growing in the Ghost Mound, if they had all come then the scene would have been even more spectacular.

“Ooh!”

Seeing such a large number of demonic beasts, Miyamoto Yoshihide also drew a breath of cold air.

“Go on, except for the women and children, leave no one else behind.”

Ye Lu waved his hand and countless “ghost bats” rushed over, the guy who was recording the video was so scared that he dropped his equipment on the ground.

Seeing this scene Ye Lu smiled, he looked at Miyamoto Yoshifumi who was gritting his teeth and holding the broken knife, ready to fight for his life, and said with a smile.

“There is no need to look so tense, don’t worry, you can’t fight for my life even if you die, because your opponent is not me, but it.”

Then, the “Sake Swallow Boy” and the countless evil spirits appeared at the same time.

Now the “Sake Swallow Boy” himself was already at the level of a “Seventh Grade Master”, not to mention the fact that he had been fed by the “Yin Yang Liao” to become so strong.

When he saw the “Sake Swallow Boy” and the countless evil spirits, Miyamoto Yoshihide was really desperate.

He originally wanted to take a chance and see if there was any chance to kill Ye Luo, because no matter how powerful those “ghost bats” were, as long as Ye Luo was killed, everything would be solved.

However, he found out that he was wrong, he had no chance in front of the other side.

“It looks like I’m going to die at the hands of my least favourite demon and devil.”

Miyamoto Yoshihide said with a sigh.

As he did so, he kept swinging his long sword.

Numerous lights lit up, and the dancing saber aura completely enveloped Miyamoto Yoshifumi, just like when Miyamoto Yoshifumi had attacked Ye Lu before.

“Snort!”

“Snort!”

“Snort!”

.....

Miyamoto Yoshihide and the “Sake Swallow Boy” had the same level of cultivation, and at this moment, the sword in Miyamoto Yoshihide’s hand was gone, while the “Sake Swallow Boy” was just at his best condition.

Therefore, Miyamoto Yoshihide was not long in being killed without incident.

There was nothing left for Ye Lu to do with the Miyamoto family, it was a family of pure force and there was nothing of value in the family, so Ye Lu quickly took care of the situation and left with the Ghost Bat and the Sake Swallow Boy.

Soon after Ye Luo left, the people from the Yin Yang Squad arrived.

Then they saw the bones all over the ground, and the Miyamoto family had been destroyed.

“Another step too late.”

Abe Ryuho, who had rushed over, sighed as he looked at the white bones.

“I’m afraid the whole country is going to panic now.”

In fact, Abe was right, the panic had already started when the “Bokuji Kokusai” was cut off, and when those terrifying “ghost bats” appeared, many people started to get scared.

It was obvious that if Ye Lu was really out for revenge, who would be able to withstand it?

On the other hand, China’s water forces began to create public opinion that the “Masked Man in Silk Stockings” was targeting the Japanese massacre in China’s capital city, and that his target was the Japanese capital city of Tokyo.

There are many videos of the massacre in the capital city of China on the internet, so they have seen the scenes of the “evil spirits” killing people, and these evil spirits have different personalities, most of them have been trained to be extremely brutal by the “Society of the Extreme Way”, so the videos are very gory.

More people are blaming the people who caused the trouble in China, because if they hadn’t taken the initiative to provoke them, how could they have provoked such a “God of Killers”?

The “God of Killers” was another nickname given to the “Masked Man in Silk Stockings” on the internet, but with thousands of people slaughtered in two nights, Ye Lu deserved the title of “God of Killers”.

They could not admit that they were responsible for the incident, because if China caught them in the act and really dispatched experts from the “clan”, it would lead to a terrible war, and the “Yin Yang Liao” could not afford to do so.

They stated that they were obliged and confident to deal with the panic caused by the Masked Man in Silk Stockings, and they told all the people in Tokyo, Kyoto, to sleep at home and that they would take care of the matter.

However, many people were not convinced, as the Hattori and Miyamoto families were right under the noses of the Yakuza, and if they could not protect them, how could they protect others?

However, while the internet and public opinion were buzzing, Ye Lu didn't stop there, as he made a long journey through the night towards Koga City, far from Kyoto.

In Koga is one of the two most famous ninja schools in Japan, the Koga Ninja group, which is extremely influential in Japan and was one of the main forces behind the previous massacre.

In the centre of Koga is a mountain 664 metres above sea level called Mount Iidao, and at the top of it is the dojo where the Koga ninja live.

At this moment, Ye Lu, the God of Kill, is standing at the entrance of the Koga Ninjutsu Dojo.

## Chapter 296

"The Koga ninja are well known in Japan and have been known to be as powerful as Sasuke Sarutobi, the first of the Ten Warriors of Sanada.

The Koga ninja are a rare group of ninja who decide on a matter by democratic vote, and at the moment, these 53 families are gathered in the council hall for a meeting.

This is the first time in many years that all 53 clans have gathered together.

Although the fifty-three clans are on an equal footing, there are still priorities, with the strongest, the Sarutobi clan, and the Kirigakure clan taking the lead.

It was Sarutobi Rikuten, the head of the Sarutobi family, who presided over this meeting.

He waved his hand to the crowd and said.

"We have all gathered here today to address one main issue, and that is that we 'Koga ninja' may be facing a test, that 'God of Killers' from China may be locking onto us tomorrow, whether we war or peace, let's all decide."

The "Masked Man in Silk Stockings" had destroyed the Hattori family and killed the Miyamoto family, the events of the past two days had become so big that the "Koga Ninja Ryu", who were originally ninja, must have known about it.

Even though the Hattori and Miyamoto families were much weaker than the 53 Koga clans, they were still very strong ninja groups, and to have their clans exterminated was a shocking thing to hear.

So, after Sarutobi Rikuten finished speaking, everyone was silent.

Following that, one of the family heads thought for a moment and said.

"I think the other side is only one person, even if he is strong, how strong can he be, so I advocate fighting him to the end, and also to grow the prestige of our Koga ninja."

"Yes, let's show them what we are capable of."

"That's right, we Koga ninja are not intimidated."

Hearing everyone's speeches another clan master waved his hand and said.

“I don’t think it’s that simple, to wipe out the Miyamoto family in such a short time, I feel that those weird bats on the video are definitely not simple, I’m afraid they are extremely powerful in battle, we’d better think long and hard.”

“What do you mean we should take the long view, do you mean we should run away?”

“Not run away, I mean, should we pull back the team that stayed in Tokyo, that way I feel a little more certain.”

As a result someone immediately raised a negative opinion saying.

“No, what’s the need, we’re not a small power like the Hattori and Miyamoto families, the Hattori family has been getting weaker and weaker since they broke away from the Iga, while the Miyamoto family, clinging to the shade of their ancestor, the ‘Sword Saint’, has refused to learn Ninjutsu properly, only pursuing martial arts one-sidedly, how can their two families compare with us? How can they compare, our ‘medicine’ is the best in the world.”

.....

This man was right, and Ye Lu had come for this.

“The Koga ninja were the best at using all kinds of drugs, including those to enhance their cultivation, control their actions, anesthesia, change their physical appearance, all kinds of things.

Ye Lu wanted to come here to see if there was anything he could use, even if he didn’t have the finished product, he could still have the raw material, as he could make his own pills anyway, but of course, more importantly, he wanted to raise the cultivation level of the “drunken boy” or those “ghost bats” again.

“The Yin Yang Liao would definitely not let him go on killing like this, and sooner or later he would have to fight with them.

Ye Luo looked at the sky and then chose to go straight in.

He quickly released the “Ghost Bats”, “Drinking Tuner” and countless other “evil spirits”, and then let these guys go in quietly from the air and the surroundings, so as to reduce some casualties, and Ye Lu did not want to fight these guys to the death.

He didn’t want to fight these guys to death, but he couldn’t stay idle either. What he needed most now was to fight, but of course, against a force like the Koga ninja, he felt it was better not to take too many risks.

“The good thing is that both storage rings are basically empty, so if there are any good things this time, I can take a little more with me.”

Ye Luo looked at the door opened by the “Wine Swallow Boy”, then slowly walked in.

The “Ghost Bat” and the “Wine Swallow Boy” were very efficient, and when Ye Lu walked in, he saw that there were corpses everywhere, the ninjas who were guarding outside had basically been hit.

This is no wonder, although the “ghost bats” are not large, but they are real “Sovereign” level demonic beasts, with their numbers several, even a dozen, dozens of them attacking a person, even if their

cultivation level is higher than them, it is useless, not to mention that although the “Koga ninja” are many, but there can not be too many “Sovereign” level practitioners, suddenly attacked, of course, they are caught off guard.

After thinking about it, Ye Lu decided to go and find what he needed first, as the battle looked like it would take a while.

With the help of his glasses, it was easy to find out what these buildings did, so Ye Luo quickly located the pharmacy.

He quickly walked over to it, then used his “Sunset Arrow” arrow to cut a hole in the door and went inside.

Sure enough, the warehouse was huge, and there were simply too many things inside.

“Holy shit! No way, how many years does it take to accumulate this much stuff!”

Ye Lu was also shocked by the various medicinal herbs collected in this large warehouse, it was only a pity that he didn’t have such a large storage magic weapon or magic treasure ah, otherwise he would have been rich if he took it all away.

“There’s something to do now, let’s find the ones I can use first.”

Ye Luo muttered, and then headed deeper into the warehouse, because how big a warehouse is, the things inside must be classified, Ye Luo had to start looking for the most important places first, and then in so on, because the space of the storage bracelet was really too limited.

And outside, there were endless screams and the sound of fighting.

At this moment, Sarutobi Rikuten and the “Koga Fifty-three Clan” were completely shocked by the scene before them, because, before anyone could come to a conclusion, a bloodied ninja rushed in from outside.

“No ..... it’s not good, there are monsters and ghosts .....”

He fell to the ground before he could finish his sentence, followed by the sight of a hideous-looking “ghost bat” lying close to the back of his head.

“Jie Jie Jie .....”

Seeing that the people saw him, the leader of this “ghost bat” looked at them and smiled strangely.

The smile was so terrifying that it sent shivers down the spine of the people, and then the leader of the “ghost bat” flew out of the door.

The people in the room looked at each other for a second, then they drew their weapons and rushed out.

Then, they were stunned by the scene outside.

Outside, the ghosts led by the “Ghost Bats” and the “Drunken Boy” numbered in the tens of thousands, especially the “Ghost Bats”, which were not only large and fast, but most importantly They are an air

force! In battle, they can move in and out freely, and they can gather and disperse as they wish. A squad of dozens of Ghost Bats would defeat even a high ranking Grandmaster.

“It seems that we have underestimated our opponents!”

If they had known that the other side was so terrifying, they would have fled earlier, for although they all admired the spirit of not giving in to defeat, there was no point in holding on to a game of certain death, and now it was over.

“Let’s go, all of you, charge the ‘Drinking Tuna’ and try to kill it.”

Sarutobi Rikuten knew the situation very well, they couldn’t find the leader of the “Ghost Bats”, but it was obvious that the leader of those ghosts was the “Sake Swallow Boy”, as long as the “Sake Swallow Boy” was destroyed, at least these ghosts wouldn’t go to the next house to kill.

The masters of these ninja families were all battle-hardened masters, and when they heard Sarutobi Rikuten’s words, they rushed forward together.

A vicious battle broke out in an instant.

The “Sake-tuned boy” was no fool, so of course he would not go forward by himself, but countless evil spirits went up, and the “ghost bats” also took advantage of the opportunity to rush up, as the others were largely cleared out.

The houses were mostly wooden, so when one caught fire, all the other houses caught fire too, and soon the sky was lit up by the flames.

Sarutobi Rikuten looked up and saw a handsome man sitting in the middle of the fire, looking down at them from the top of the main tower, the highest in the dojo.

At the same time, news of the burning of the Koga Dojo in Iidao Mountain began to spread.

## Chapter 297

By the time the “Yin Yang Ryu” learned of the news, the Koga ninja dojo had been burned to the ground.

“Send someone to the ‘Iga Division’.”

Abe Ryuun immediately realised that the “Masked Man in Silk Stockings” was targeting the four ninja families that had participated in the “Capital Massacre”, first the Hattori family, then the Miyamoto, and this time the Koga ninja’s headquarters, so the Iga ninja were the only ones left.

“I’m afraid this is going to be a problem. If word of this gets out, it’s going to cause panic throughout the country.”

Just now the “Yin Yang Riao” had issued a statement, and now one of its own ninja groups had been destroyed again, and it was the famous “Koga Ninja” group.

However, it was not for the Yin Yang Ryu to stop this. The fire at Iidao Mountain could not be hidden, and soon everyone around knew that something had happened.

“The headquarters of the Fifty-Three Clans of Koga have been destroyed.”

“This is too horrible, who else can stop this devil!”

“Didn’t the people from the ‘Yin Yang Riao’ say that they told everyone to rest assured that it was okay.”

“Reassured of what? How can you be reassured like that.”

“Yes, it’s better to evacuate Tokyo.”

.....

While everyone was talking, the “Yin Yang Riao” people were also pulling people to the “Iga Ninja” group’s location.

The other thing is that Ye Luo is contacting the people of the “Shadow of Death”.

“If we can avenge the ‘Capital Massacre’, we are willing to provide free help.”

“The people from Death’s Shadow were quick to agree, and immediately started to act.

Ye Lu asked them to take the “Ghost Niche” and the “Sake Swallow Boy” into Tokyo, but the “Ghost Niche” was easier to deal with, and the “Sake Swallow Boy” was a bit of a problem.

In fact, before that, Ye Lu had already shot a group of “ghost bats” to Tokyo in advance.

When the people of Death’s Shadow saw that the “Sake Swallow Boy” had already reached the level of “Seventh Level Master”, they were shocked.

“This ghost and I have established a contract, so there will be no betrayal, but it is a problem to convey and respond to my orders, so I need you to send a good person to cooperate with me.”

Ye Luo said as he looked at the people of Death’s Shadow.

The distance from Kyoto to Tokyo was so far away that it was definitely impossible to use that kind of flute, and Ye Lu felt that the other party must have other flutes, so if he opened up the ability of the “Sake-Ton Boy”, then it would definitely cause unnecessary trouble.

Therefore, Ye Lu decided to use the mobile phone to control the “Sake Swallow Boy”, but the problem was that it was easy to get the “Sake Swallow Boy” to answer the mobile phone, but it couldn’t speak and the reply was a big problem, so it needed a person to help.

“Don’t worry about that, our ‘Shadow of Death’ will definitely cooperate fully, we’ve wanted to get back this scene for a long time, but unfortunately our power in Japan is too weak, and you know it’s hard to send in a large number of experts.”

Ye Lu nodded, then gave a careful explanation, including a long chat with the “Wine Swallow Boy”, before letting them leave.

“Do you have to deal with the Iga Ninja and the Yin Yang Ryu next, are you sure about that?”

Ye Luo made an “OK” gesture and said.

“Don’t worry, I can handle it, it just takes a bit of time, by the way, let me confirm one thing with you, that ‘Yin Yang Squad’ is very proud, right, I mean, they are very concerned about their reputation, right?”

The head of the Shadow of Death in Japan nodded and said.

“Yes, very proud, they are different from ninjas, who basically do whatever they can to get what they want, and can often endure humiliation, but these ‘shinigami’ are very dignified, even more so than those samurai who would commit harakiri at the drop of a hat.”

“Another thing I want to remind you is that most of the ‘Iga ninja’ will run away. For the ‘Iga ninja’, there is no sole master and there is no such thing as allegiance, they will follow whoever is strong, so although they are strong So although they are powerful, they have no sense of propriety.”

The man in charge was right, and at the moment the Iga ninja were preparing to leave.

For example, the Hattori ninja that Ye Lu had killed earlier, including Hattori Hanzo, were all part of the Iga ninja.

In Iga, there is a temple called “Iga Shikonin”, and the main hall of this temple is surrounded by forty-nine Yamabushi houses, and a large building including the temple is the headquarters of the “Iga Ninja”.

“As one of the two most famous ninja groups in Japan, the Iga ninja have many disciples, but the three families that control the power of the Iga ninja are the Hattori, Momiji and Fujibayashi clans, also known as the three Iga shinobi.

However, the Hattori clan, one of the three, had already established itself, so the Momiji clan and the Fujibayashi clan were the only two left, and at the moment, they had already made a quick agreement and were hurrying to talk.

But the Yin Yang Riao would not let them do so. Now that the three families had been destroyed, if the Iga ninja ran away again, public opinion would be overwhelmed and things would be really bad.

So they had to hold on to the Iga ninja as the last straw.

Therefore, the Yin Yang Riao sent many of their strongest men to the Iga 49th House, where the Iga ninja were located, and they were going to bring back the Hattori, Miyamoto, Koga ninja and Iga ninja from Tokyo, as there were actually more ninja in Tokyo than in the various headquarters.

However, before they could act, news had arrived from Tokyo that those spooky “ghost bats” had appeared in Tokyo’s most famous “Kabukicho”, and that the number of casualties had not yet been determined, while the whole of Tokyo was in chaos, with traffic jams and panic.

“Sir, Tokyo is in chaos, and I’m afraid the ninjas in Tokyo will not be able to return, and I’m a bit worried that the guy will really attack Tokyo, and the whole country will be in a panic.”

The news was quickly relayed to the Chief, the head of the four leaders of the Yin Yang Rao.

At the moment, the Magistrate was guarding the place where the Iga ninja were, while the other two leaders, the Second Magistrate and the Master, were somewhere in the small secret world, guarding the body of Haruaki Abe, who had been unconscious for centuries.

It is said that it was someone from China who struck him, and it was because Abe Haruaki was suddenly struck that there was a huge lack of heritage in the Yin Yang Liao, and so far there has been no more “Saint” level super masters in the Liao.

The situation was similar to that of the four ancient martial arts clans, except that they had developed much better than the ancient martial arts clans and had many ninja following them.

When he heard the report from his subordinates, the “chief”, who was also the head of the “Yin Yang Riao”, the head of the Abe family, Abe Liu Feng, nodded and said.

“In that case, let them stay in Tokyo, I hope they can solve the crisis there, but if things get too big, the ‘shrine’ will take action.”

But, having said that, Abe Ryuho felt that this time it would not be easy to handle.

He had seen the “ghost bats” on the video, but they were so small and stealthy that they could hide anywhere and were very difficult to detect.

Of course, what he doesn’t know is that something much, much more terrifying has arrived in Tokyo before dawn, and that it is the Sake Swallow Boy and his army of ghosts that will be the strongest force in this battle.

Ye Lu brought out all the medicines that could be used to improve the fighting power of the “style ghosts” from the “Iidoyama Dojo”, not with the bracelet of course, but with the ghosts of the “sake swallow boy”.

Then, Ye Lu fed all these things to these ghosts overnight.

The “Wine Swallow Boy” had been forcibly raised by a small level, so these medicines were definitely useless to it, but they were a great tonic to the other ghosts.

At that time, in order to slaughter the city in China, the “Society of the Extreme Way” tried to find very high level evil spirits, some of them were only a small realm lower than the “Sake-swallow Boy” at that time, and now many of them have reached the level of 5th or 6th level master, these guys are absolutely terrifying.

The answer to the question of how to deal with the Iga ninja asked by the Japanese head of the Shadow of Death was already known to Ye Lu, and that was to “kill them directly”.

## Chapter 298

“There were thousands of Ghost Bats, and they were all at the Sovereign level. All of them should be able to destroy the Iga ninja, but there was no doubt that the Ghost Bats were bound to suffer a lot of casualties.

Therefore, Ye Luo was not prepared to do anything brutal.

Moreover, the “Yin Yang Riao” would definitely not stand idly by this time, so the Yin Yang masters would definitely take part in the fight, and since the “Sake Tun Boy” had been sent away, Ye Lu needed a new high-end combatant.

Ye Lu had a plan for this, and that was to use the “summoning technique” to summon a helper.

In the description of the “Summoning Technique”, it was written that the “Summoning Technique” could summon a summoned beast of higher realm and stronger combat power than oneself, but of course, whether the summoned beast could be controlled or not was a matter of opinion.

This is why it is also called “Blood Summoning”.

“Blood Summoning requires two kinds of blood, one is the summoner’s own blood and the other is the blood used for the “sacrifice”, one cannot be used without the other.

Of course, the amount of both depends on the summoner’s own allocation. One can use a lot of “sacrificial” blood, which has the advantage of doing less damage to the summoner himself, but the need for “sacrificial blood” will be great, or the other way around, using more of his own blood, but the problem is that he will suffer more damage.

Ye Lu wanted to use the first summoning technique, and the blood he wanted to use was the blood of that “cat again”, and Ye Lu’s storage bracelet was now full of stored blood.

However, this could only be done at night, so all Ye Lu had to do now was to practice the “summoning technique”.

“Brush!”

Finally, it wasn’t a woman this time, a huge monkey appeared.

“Name: Wilderness Vajra, Rank: 3rd Order 2nd Grade, Source: Secret Realm of Ten Thousand Beasts, Profile: OK in terms of force, but a bit silly in personality .....”

Seeing this monkey appear, Ye Lu was still very happy, at least what he summoned out this time was another rank higher than before.

However, right after that, this gorilla ran over and hugged and kissed and nibbled on Ye Lu.

“Shit! It looks like a female vajra, but this is too enthusiastic.”

Ye Luo hurriedly sent this one back again, because maintaining these summoned beasts to stay on earth also consumed stamina and aura, and he still had to use these for his next summoning.

“Again!”

Then, he started a new round of summoning, this time using a “Heaven Stealing Pill”.

“Brush!”

Another huge demonic beast appeared, this time a green, sinuous, coiled python with a sharp horn on its head and a mouth full of sharp teeth.

“Not bad this time, it’s a ‘Jiao Long’, or a ‘Third Order, Third Grade’ demonic beast, really the effect is good after using the ‘Heaven Stealing Pill’, so let’s do it again while we still have the stamina.”

Ye Luo started his third summoning while he had not exhausted his stamina and aura.

In this way, Ye Lu practiced his “summoning technique” while feeding the “ghost bat” and quietly watched the development.

Perhaps because it was the middle of the day, in just a few hours’ time, the story of Japan’s chaos spread throughout the internet.

The whole of Japan was shocked, not so much because of the damage done to the population, but for several reasons.

Secondly, there was no practical solution.

The purpose of the “ghost bats” was to create a disturbance, so the small group of “ghost bats”, under the command of their leader, divided into small groups and started to cause trouble everywhere, and the “ghost bats” were small and could fly, so it was too easy to escape, which made the plan to capture the “ghost bats” almost useless.

Thirdly, there is the pressure and public opinion from China. The Chinese netizens have been promoting the idea that Japan must be made to pay in blood, so the “Masked Man in Silk Stockings” will definitely cleanse Tokyo in blood.

On the other hand, the mood in China is completely different, most of them are in the mood of revenge, as tens of thousands of innocent people were involved in the “massacre”, and everyone is looking forward to the “Masked Man in Silk Stockings” to avenge the death of these brothers and sisters.

The company has been following the development of Qin Siyu, and Long Fei Xue and other people are also a bit emotional, especially Qin Siyu, she did not expect Ye Lu to save Lin Danni so quickly, but also in Tokyo, Japan to make such a big noise, this is simply unimaginable.

\*\*\*\*

“The main hall of the Iga Forty-nine Houses.

“The patriarch of the Momiji clan, Momiji Denpong, and the patriarch of the Fujibayashi clan, Fujibayashi Takeshi, were accompanying the judge, Abe Ryuun, who had come from the Yin Yang Ryu.

“Lord Ryuun, are you sure you’re alright?”

Momiji Dengfeng looked at Abe Ryuun and asked with some uncertainty.

Abe said indifferently.

“What? You have us to help you, do you have anything to worry about?”

Abe Liuyun was a rank eight Grandmaster, and the two who came with him were also rank eight Grandmasters, plus Baili Dengfeng and Tenglin Wu, making a total of five rank eight Grandmasters, and counting other experts, there were more than ten Grandmasters alone.

Although the number of Sovereign Masters was not too large, the Iga Forty-nine Houses were most skilled in firearms, which were their own “magic weapons”, and large “magic weapons” could even kill Sovereign Masters.

In particular, the main clan’s “courtyard cannon”, when activated, can kill any “junior clan master”.

“The Iga ninja were even more adept at these weapons, including the use of various “magic weapons”, which was why Abe Ryuun had some confidence.

This is why Abe Ryuun was confident that these large long-range weapons would be able to kill the “ghost bats” in large numbers, and that the situation would no longer be as passive as before.

And in close combat, Abe Liuyun and his “8th level clan master” experts, even if the “Wine Swallow Boy” came, they felt that they could also break through the evil ghosts’ defense line and kill them together.

Throughout the day, Ye Lu did not take any action, he was doing two things: practicing his “summoning technique” and drawing the “weapon pattern” for flight.

It was not until almost twelve o’clock in the night that Ye Luo adjusted to his best condition and went to the woods not far from the main gate of the Iga Forty-nine Courts.

Ye Lu found a larger clearing, then took out the blood of “Cat Again” and began to draw the summoning formation, and in order to achieve the strongest effect, Ye Lu gritted his teeth and used all his blood.

A huge blood formation was formed, and then Ye Lu took three “Heaven Stealing Pills”, and then used the arrow of the “Sunset Arrow” to cut his palm and fuse his blood into the blood formation.

“Alright, it’s a matter of victory or defeat!”

After all this, Ye Lu gritted his teeth and began to summon.

The entire blood formation lit up with a demonic blood light, and the blood of the “cat again” began to fly into the air as if boiling, and then disappeared, but the red light did not disappear, but grew stronger and stronger, and then a huge demonic beast appeared in the disappearing blood formation.

It was a terrifying beast that looked very much like a tiger, with two pale golden horns on its head and a pair of huge black wings on its back.

“Name: Fierce Beast Poor Beast, Grade: Third Order Eighth Grade, Source: Secret Realm of Ten Thousand Beasts, Introduction: one of the Four Fierce Beasts, fierce in nature, most like to eat human flesh, the most evil and vicious demonic beast .....”

Seeing the introduction of this guy, Ye Lu smiled, the result of this summoning made him too satisfied.

This “Poor Qi” just appeared and turned its head to look at Ye Lu with a cruel gaze, and showed its teeth, looking like it was ready to bite Ye Lu to death.

Ye Lu was so frightened that he subconsciously raised his hand in a defensive posture.

“Holy f\*ck! It looks like I’ve gone too far and created something that I can’t handle at all.”

However, when the “Poor Qi” saw the “Sunset Arrow” in Ye Lu’s hand, an extremely frightened expression suddenly appeared in his eyes, and then he meekly lowered his head, looking very scared of the “Sunset Arrow”.

“Hahahahaha, Brother Poor Qi, go on, kill them all for me!”

Seeing this scene, Ye Lu laughed out loud, and then, the ferocious beast “Poor Qi” fiercely flapped its wings and rushed towards the “Iga Forty-nine Courts” with a harsh aura of lightning.

Chapter 299

“In the Forty-Nine Houses of Iga, everyone had been in position since the evening, including Abe Ryuun and his two clansmen, as well as Momiji Denpong and Tenglin Takeshi, the five great masters of the hall, and the hall’s cannon was on the roof of the building where these five men were located.

The cannons of the other 49 Houses were also set up, and the plan was that as soon as the Masked Man in Silk Stockings dared to show himself, the cannons would be fired in unison and the Masked Man in Silk Stockings would be blown to death, including the one of the “Sake-tuned Boy”, which was a special ‘magic weapon’, not an ordinary cannon.

However, everyone waited until almost midnight, but Ye Lu still hadn’t arrived.

“Could it be that he’s not coming today?”

Someone looked outside where there was no movement and said.

“It shouldn’t be, but whether it comes or not, we can’t let our guard down.”

At that moment, everyone suddenly saw a red light rise in front of the main gate, followed by a terrifying and hideous beast rising from the sky and rushing towards the “Iga Forty-Nine Houses” with such speed that it was unbelievable.

“Quick, fire, try to kill it.”

The moment he saw the “poor beast”, Abe Ryuun also panicked, because he also did not expect such a powerful demonic beast to appear.

At the same time, he drew his katana from his waist with a serious expression, because he felt that the “Iga Forty-nine Houses” guard cannon would not be able to handle this terrifying beast.

Sure enough, when he saw the flying cannonball, the poor man’s tail flicked violently and the cannonball was drawn back.

“Boom!”

The cannonball landed at the exact spot where the cannon that had just fired it was located. Although it did not go straight through the cannon barrel, the huge force still broke the cannon frame apart.

The cannons from the other forty-nine courtyards followed, and although they were not as powerful as the main cannon, there were so many of them that it was certainly not as easy to dodge them.

However, with this kind of power, there was no need to dodge such a powerful thing, as the “poor man” charged straight ahead and opened its mouth full of sharp teeth.

“Hoo!”

A terrifying flame erupted, it was clearly not an ordinary flame, it could burn almost everything, as soon as the flame passed, one of the courtyards of the “Iga Forty-nine Houses” was burnt to ashes, only the “magic weapon” and the stones that could not be burnt remained.

“It’s too strong!”

When he saw this scene, Abe Liuyun’s eyebrows furrowed, because he did not expect Ye Lu to have such a technique, of course he also knew this “psychic technique”, but he could not summon such a terrifying demonic beast, so he did not cast the technique, but looked at the surrounding people and said.

“Whether we live or die, we have to try!”

Bai Di Deng Feng and Teng Lin Wu exchanged a look and followed, also drawing their weapons at the same time.

As the five men rushed out, Poor Qi was on a rampage destroying things everywhere, as the destructive power of this creature was just sky high.

He was frantically refining the “medium-grade spirit stones”, as he had to keep the Poor Man’s power here, at least until he could take care of the highest combatant.

At the same time, the “ghost bats” were on the move again.

“The first batch of Ghost Bats were the elite Ghost Bats and the strongest batch of Ghost Bats that Ye Lu had, and they took advantage of the chaos to sneak inside the Forty-nine Courts in order to destroy the firearms, as Ye Lu was more worried about the cannons than the people.

The other part of the “ghost bats” surrounded the “Iga Forty-nine Courtyards” to prevent anyone from escaping.

Ye Lu was not worried about the support troops coming from Kyoto, as Iga was further away from Kyoto than Koga, and there was no time to reinforce them.

In the Iga Forty-nine Houses, five rank eight Sovereigns had already confronted the poor man.

“Go!”

Abe Ryuun did not use the Yin-Yang technique but waved his sword first and sent a strike.

A white light slashed at the Poor Man’s body, but these beasts were all thick-skinned and thick-skinned, not afraid of this slash at all.

“Boom!”

The ground was smashed into a large crater in an instant.

The power of this strike was extremely terrifying.

“Fall!”

At this time, Abe Liuyun’s new strike arrived, a lightning bolt suddenly streaked past, followed by the falling thunderbolt, it was the “Falling Thunder Technique” of the Yin Yang Art, which was said to be able to destroy all evil spirits, but obviously could not destroy Poor Qi, Poor Qi did not even dodge and directly resisted this strike, followed by “Ow!” A roar of fury.

Immediately afterwards, a huge shadow appeared behind Poor Qi, while Poor Qi himself charged towards Abe Liuyun with his mouth wide open.

Seeing this scene, the two men, Bai Di Deng Feng and Teng Lin Wu, had a tacit understanding and quickly fled while they could, as they felt that they had no chance of winning this battle.

However, what they didn’t know was that they didn’t really need to defeat Poor Qi, as long as they could hold him back.

Even though Ye Lu had taken three “Heaven Stealing Pills”, he would not be able to hold out for long.

“Baka!”

Seeing that Momiji Dengfeng and Tenglin Wu had actually slipped away, even Abe Liuyun, who was always cultivated, could not help but curse.

However, Poor Qi’s attack had already arrived.

“Boom!”

Abe Liuyun was sent flying far away, he was far below Poor Qi in terms of strength, while the other two Yin-Yang masters immediately launched their Yin-Yang techniques to block Poor Qi.

However, it was a pity that only three of them were killed before the terrifying beast lasted for a while, but it was Momiji Dengfeng and Tenglin Wu who managed to escape, because although there were many Ghost Bats on the periphery, the battle line was too long and the difference in level between these Ghost Bats and the opponent was a bit far.

“Damn you! I’m exhausted!”

Ye Lu said as he fell to the ground with a thump! He felt that his current state was not in the “weak stage” but it felt even weaker than the weak stage.

“This skill is going to drain me sooner or later.”

Ye Luo muttered helplessly, but, to be honest, he really liked this skill, but it was a pity that the level of “Poor Qi” was too high and he did not have the opportunity to establish a contract with this creature, otherwise he could have established a contract and summoned it next time.

It was hard to find such a tough demonic beast.

“Alright, little ones, let’s go clean up the mess together!”

These “ghost bats” were not good birds to be honest, similar to the Poor Qi, they were also bloodthirsty and liked to eat people.

It didn't take long for the weakness caused by the "Heaven Stealing Pill" to set in, and Ye Lu fell to the ground, no longer wanting to get up.

The "ghost bats" were now overjoyed.

Led by the leaders of the Ghost Bats, they started with the weakest ones and killed them with surprising efficiency, with thousands of bodies lying on the ground in an instant.

The rest of the masters could not withstand a group attack, and the "ghost bats" were so cunning that they did not fight each other to the death, as there was no rescue force anyway, and a large group surrounding a single person could exhaust him.

In this way, it took a lot of time, but Ye Lu finally took out the headquarters of the Iga Ninja.

At the same time, in the national capital, Tokyo, a battle broke out against the Tokyo branches of the Hattori, Miyamoto, Koga and Iga Ryu clans.

However, the battle in Tokyo was a little different from the one here, where Ye Lu's ghosts did not have an advantage, because apart from the Iga ninja who had moved some of them out of Tokyo, the other three ninja groups were still very strong in Tokyo.

So this time Ye Lu sent out the ghosts he had collected from the "oni mound", which were of a lower cultivation, not to fight but to cause trouble.

The purpose was not to fight, but to cause trouble. These ninja groups were not the only ones in Tokyo, the more powerful "shrine" had a bigger power in Tokyo.

"All right, the show of Ten Thousand Demons haunting Tokyo has begun!"

Ye Lu said while lying on the ground and turning on his mobile phone.

## Chapter 300

He didn't turn on his mobile phone to control the "Wine Swallow Boy", he had already explained to the "Wine Swallow Boy" that if he encountered anything unexpected, he should just follow the arrangements of the "Death Shadow" people.

He didn't know what was going on in Tokyo, so it would be better to let the Shadow of Death people take command, as they not only had more people, but also had more combat experience than Ye Lu.

He turned on his mobile phone to check the situation in Tokyo, Ye Lu knew that good people would definitely post all kinds of news on the internet, and the media would not let go of this report.

Sure enough, the internet had already exploded, as the whole of Tokyo had been thrown into chaos, with the 2,048 Heavenly Realm ghosts that Ye Lu had collected haunting the whole of Tokyo, it was hard not to be chaotic.

The real battle is between the four ninja clans, and Ye Lu's strategy is to "fight to the death".

All the ghosts are charging upwards, even if they can't kill them all, they want to consume as many of them as possible.

He and Hattori Hanzo had always been at odds, so when he heard that the Hattori family's headquarters had been destroyed he was not sad, but had become the new head of the Hattori family in all but name, but unfortunately his happiness was not over for three days.

"How dare they fight their way to Tokyo, where the hell did these things come from?"

Hattori Tamaki muttered with a depressed look at the ghosts surrounding them attacking like mad some depressed, these ghosts were not afraid of being beaten to death at all, many of them were only attacking and not defending, risking their lives to pull each other into hell, this kind of terrible fighting style made all these ninjas feel chilled to the bone.

These ghosts are the true deadly warriors.

If, Hattori Yusei knew that these ghosts were in fact the ones they Japanese themselves had painstakingly collected everywhere, I wonder how he would feel.

It would have taken him a long time to catch them, even with the "ghost mound".

Tokyo had fallen into the most chaotic moment, even the shrine side didn't know what to do, as there were close to a thousand places in the city, and the terrible chaos caused by this, the streets were full of cars and people who didn't know what to do.

The factories and many other establishments were no longer working, and at the behest of the Shadow of Death, "ghost bats" had infiltrated the electrical system and destroyed the city's electricity, which is the backbone of a city, and when the whole of Tokyo was plunged into darkness, the city's fear was at its limit.

Around the city, more people are pouring in, people who want to save their loved ones or friends, as Tokyo is also a city with a large transient population.

While Tokyo was in complete chaos, China, especially the capital, was in a frenzy, more so than the Olympics, and the media had been dispatching reporters to Tokyo since the "Masked Man in Silk Stockings" began appearing in Japan, and the media were now reporting live from Tokyo.

"This is the Tokyo branch of the Hattori family, which was said to be one of the major powers during the massacre in Kyoto, and now, following the destruction of their headquarters near Kyoto, their Tokyo branch has also been destroyed. Their Tokyo branch has also been destroyed, and it looks like the 'Hattori ninja' will be removed from the world."

The reporter sighed outside the Tokyo branch of the Hattori family.

They didn't have to worry, it was retaliation from China.

"As you can see from here, can't you, the whole of Tokyo has been plunged into darkness, except for the flames emanating from those battles, and I guess this is the darkest day ever in the whole of Tokyo."

As she spoke, a fire suddenly appeared on camera, high up, very high up, on top of Tokyo Tower, the tallest landmark in the city, to be exact.

The fire was so large that it looked like a giant torch from afar.

On top of the fire was a glowing plaque, also of unknown material, on which were written four large, shiny letters: "Blood for Blood".

Although many people did not know or understand the meaning of the four Chinese characters on the sign, they all knew that it was in Chinese characters and understood that it was a warning from China.

The sign was made by Ye Lu, who had never thought that the people of Death's Shadow could do such a good job.

The whole of Tokyo was plunged into darkness, with only the four bold letters on the Tokyo Tower displayed there.

"Do you know what those four words mean?"

"Not really, it seems to mean Blood for Blood."

"I know this one, it's a Chinese 'idiom', it means that if you have a grudge you have to be ruthless in your revenge."

"It looks like we've really offended China! Who's offended them?"

"Who else, the yin and yang masters of the 'Yin and Yang Squad'."

"They're the ones who said they'd protect us last time."

"Yeah, those unreliable guys."

.....

Almost everyone blamed the "yin and yang squad" for what happened in Tokyo, but of course, they were the ones who started it.

The first thing that happened was that the Iga Forty-nine Houses were known to everyone, and then he did it again.

He used his glasses to hack several major Japanese media outlets, including of course the official website of the "Yin Yang Riao", and then left an identical message, a message about a treaty war.

"Gentlemen of the Yin Yang Squad, I am the Chinese martial artist 'The Masked Man in Silk Stockings', and I am here for your massacre in the Chinese capital. If I lose, I will voluntarily withdraw from your country, if you lose, the whole squad will commit harakiri to thank you for the slaughter of the city, for the sake of the lives of your countrymen, please make sure to give a reply within twenty-four hours."

This was Ye Lu's long-planned method of dealing with the "Yin Yang Squad".

"Unlike those ninja clans, the Yin Yang Liao were powerful, but they were also too involved with other forces, such as the shrine.

However, to be honest, Ye Luo didn't have much confidence that he could succeed in the one-on-one fight, but he had already checked out the other party's details.

Although the “chief”, Abe Liufeng, was very strong, he was not yet at the level of a “Saint”, he was at the primary level of a “Level 9 Master”, so Ye Lu felt that he should still have a chance.

“The eighth strand of aura has finally grown to full strength, come on, let’s fight to the death!”

After the message was released, Ye Luo began to quietly wait for the other party’s reply.

At this moment, the news had already reached the inner circle of the Yin Yang Liao, and several senior members of the Yin Yang Liao were studying strategies to deal with it.

“Sir, is there a conspiracy going on with that stockinged and masked man?”

A guy dressed as a yin and yang master asked as he looked at Abe.

Abe Ryuho did not answer immediately, he was also calculating this matter.

And the other guy said.

“Maybe not, because the other guy has always acted alone, he is strong enough to destroy the ‘Iga Forty-nine Houses’, I think he has terrifying strength, maybe he thinks he can beat the ‘sir’.”

His words immediately drew dissent, with many retorting.

“That man can do it because of those weird ‘bats’ he brought with him, I guess, he’s not necessarily much stronger in person.”

“That’s right, Sir is a genuine direct descendant of Lord Seimei, so how could he not be his match.”

“However, the other side only said it was a ‘solo battle’, which means it’s normal to bring your own spirit beast to battle, and he’ll definitely bring those bats to battle then.”

.....

Hearing everyone’s words, Abe Liufeng thought for a moment and said.

“Okay, let’s do this, first ask him about the rules of the duel, and then, investigate carefully what happened this time when the ‘Iga division’ was destroyed.”
