

The Supreme God

Chapter 181 Arriving At The Valley

In high spirits, 35 outer disciples stood in the courtyard, staring hopefully at Austin.

Austin was the most popular and the most prominent man among the outer disciples recently. Rumor had it that he would reclaim the title of "No. 1 outer disciple."

People always admired the strong and powerful. Being around Austin had them in total awe and adoration.

Meanwhile, for Austin, seeing his followers eager to serve him got his adrenaline pumping.

He delivered a speech before all of them, after they had declared their loyalty to him. He urged them to focus on cultivating their vital energy, and moreover, to always stay together. Austin believed that unity meant strength, and focusing more on the quality of his followers rather than the quantity was more crucial to him. This way, he would be able to focus on helping them cultivate their skills and strengths.

On that day too, he took out a large number of vital energy crystals, and gave each of them 1, 000, making him spend 35, 000 vital energy crystals in total.

He had more than 300, 000 vital energy crystals in his Space Ring, and offering 35, 000 wouldn't hurt his fortune.

But to the outer disciples, it was already a large sum of money—considering their current status and level.

Everyone was thrilled to receive 1, 000 vital energy crystals, thankful that they followed the right leader.

Austin, however, accepted them as his followers on the spur of the moment. It was a quick judgment on his part. He was not ready to spend most of his time with them, as he was used to only having Evan around and his pet, Violet.

So he chose two of the most intelligent and capable outer disciples and had them manage the team on his behalf.

The two chosen team leaders were Donald Lei and Curtis Zhang. They were at level 6 of Energy Gathering Realm and both had excellent communication skills too.

Austin asked Donald and Curtis to stay while he dismissed the others. He gave each of them an extra 1, 000 vital energy crystals as a reward and urged them to discipline the team for him.

After he was done, Austin went back to his cultivation room and began to practice Golden Sun Scripture.

He and Mindy would set off to the Mysterious Ancient Well tomorrow. According to her, it was a dangerous place, and as such, he needed to be fully prepared.

Early the next morning, when Austin arrived at the mountain pass of Sun Sect, Mindy was already there waiting for him. He could tell that Mindy attached great importance to the pure femininity blossom.

He felt a little embarrassed to have a lady waiting for him.

When she saw Austin, Mindy gave him a sweet and dainty smile, and soon after, they began to start their journey.

Their destination was fifty miles away from Sun Sect—neither too near nor too far. The twin blossoms would blossom in five days, and Mindy and Austin just had plenty of time before that.

they stopped at Peace Town to buy two horses and daily

had circled the area. It stretched for about fifty feet in radius. The surroundings looked eerie that even mosquitoes and worms would avoid sheltering in its scope.

"Every 30 minutes, the Mysterious Ancient Well will change its temperature between extremely cold and extremely hot. These two kinds of temperatures alternate. As a result, no living things thrive around the well," Mindy explained as she could tell that Austin was confused at the sight of the place.

Not until then did Austin realize that living things couldn't inhabit such an environment.

"The twin blossoms will not blossom until two days later. Why don't we put up the tent and wait here? We'll pick the blossoms in two days," Mindy offered.

Austin nodded without hesitation.

All of a sudden, he felt something. He began to use his spiritual sense to check what was going on within four hundred meters.

With the spiritual sense, he saw several people.

Slowly growing in number, they entered the valley in succession.

There were about more than ten of them.

One of them wore a blood-red cloak, which was very eye-catching.

The giant wolf on the cloak reminded Austin who he was.

He must be from the Blood Wolf Team!

It seemed that the Blood Wolf Team had gotten the news as soon as Austin had left the Sun Sect, and sent people to kill him. They were definitely on his trail.

Five members of the Blood Wolf Team had been killed in the outer mountains of Grand Desolation Mountain.

Blood Wolf Team didn't know who killed them. And because they died while carrying out their mission to kill Austin, they automatically thought it was him who assassinated them all.

Austin could tell that the man in the red cloak reached the Earth Realm.

"Seems like we can't just wait here for two days," said Austin.

Puzzled, Mindy asked him why.

He told her what he had seen.

Mindy was pale with fear when she heard that people from the Blood Wolf Team were after them. The team was well-known in Violet Orchid Empire as they had a reputation of being a cruel and brutal team of cultivators.

Upon learning that a cultivator of Earth Realm and more than ten members of the Blood Wolf Team were hunting them, Mindy was gripped by terror.

All the lively colors had left her cheeks.

The Supreme God

Chapter 182 Fighting Back

When Mindy learned that members of the Blood Wolf Team were chasing them, she could not help panicking instantly. She had heard rumors surrounding that team and was frightened.

"Austin, what do we do?" she asked worriedly.

"We have to do whatever we can. I'll take care of these guys first. You find a place to hide! I think this ancient well will serve the purpose."

Austin replied and started tiptoeing towards where the Blood Wolf Team was.

Mindy was only on the sixth level of Energy Gathering Realm. There was no way she could deal with the Blood Wolf Team, which meant in no way that Austin was going to let Mindy do so.

However, when she heard that Austin was going to fight the Blood Wolf Team alone, she was stunned and hesitant to hide. Although to the best of her knowledge, Austin was a fierce and a remarkable fighter, but the Blood Wolf Team was notorious for being bloodthirsty and ruthless savages. And it was said that their master was at the Earth Realm.

No matter how powerful Austin was, it would have been impossible for him to fight more than a dozen members of the Blood Wolf Team with only his physical strength.

At first, Mindy thought she had misheard Austin's intentions. But when she saw Austin's figure disappear into the grass and thorns like a ghost, she realized in horror that he really was going to fight the members of the Blood Wolf Team alone. She stomped her feet hard in the ground in exasperation.

"Why is that stupid boy so reckless!"

As soon as she got vital energy all over her body, she started following Austin. It was clear that she would most probably die this time; she was far out of her depth here. But she simply couldn't just go, hide somewhere, and ignore Austin's life. Although she was weak, she could at least be able to help Austin a little bit in the fight.

However, as soon as Mindy moved, Austin noticed her movement, which made him feel fuzzy inside. He suddenly stopped and turned around. When he noticed Mindy was really following him, he ran back quickly.

"Trust me, I can take care of them. And please ignore my being so blunt, but if you come with me, you will only drag me down!"

He told her decidedly. Then he used his Wind-commanding Skill to shoot himself far away within an instant so she could not follow him anymore.

Mindy stopped and stared at his distant figure in the forest. She bit her lower lip and felt annoyed by what Austin had just said.

'This guy is such a snob! How dare he treat me like a drag!' she thought to herself.

But in any case, however mad she might feel about Austin, there was no other choice and she still had to hide near the Mysterious Ancient Well with her breath subdued.

The leader stared at his enemy intensely. He had underestimated this boy until this moment.

"Well, Austin Lin, you have killed five members of the Blood Wolf Team. So we will certainly hunt you to the very end. As long as our team is active, we are not going to give up until one of us is annihilated completely." The leader told him threateningly.

Austin sneered and taunted, "Oh please! Someone else has already said that to me. Can't you guys be a little more creative!"

How come everyone from the Blood Wolf Team is so annoying. Fight if you want to fight. Kill if you want to kill. Don't act like a sissy.

Violet, let's do this!"

Austin knew that the animosity between him and the Blood Wolf Team was never going to be resolved now. Even if he killed off this group from the team, there certainly was going to be another one coming after him.

However, since things had come to this point, there was no use in flinching. Besides, Austin had never been hesitant about killing off enemies.

As soon as he shouted the order, Violet's voluminous and delicate body sprang out like lightning. Her right hand suddenly lifted up and pulled into the void. With a menacing aura, an illusory black fox claw, which was more than 20 times bigger than her own body, appeared in

midair. Its demonic power surged overwhelmingly on the team and they all felt pure, undiluted fear.

As soon as the black fox claw appeared, it slammed at the leader.

"Demonic beast! You are a demonic beast!"

Feeling the surging demonic power on the illusory fox claw, the leader realized that the beautiful woman he was slightly smitten with was actually a demonic beast.

The leader of the Blood Wolf Team was after all a good fighter who had experienced hundreds of battles. He retreated backwards quickly and brought out a black whip from his paraphernalia. He managed to block the coming illusory fox claw with the twirling whip.

As soon as Violet and the leader of the Blood Wolf Team started fighting each other, Austin immediately utilized his Wind-commanding Skill and approached the rest of the team like a ghost. The Violet Royal Sword in his hand struck out like lightning, and it was a remarkable and precise Illusory Swordsmanship that he was unleashing now.

Suddenly, several shining swords knitted over the air much like fog appears above a misty river. It was so sudden and powerful that it was completely unclear which sword light was real and which one was fake. The real swords seemed to mingle and dissolve into the fake ones like a pair of white lights.

In the face of Austin's Illusory Swordsmanship, the members of the Blood Wolf Team could not distinguish their actual enemy. All they could do now was to whip out their life-saving skills and protect themselves helplessly.

Even after that, within a moment, three or four weaker members were killed off.

The remaining six or seven were deeply frightened now, and had half a mind to flee. They felt powerless fighting against Austin. His Wind-

commanding Skill was allowing him to move so fast that they could not hit him at their own speed at all.

And his Illusory Swordsmanship had unleashed fifteen sword lights which had blinded them. It also prevented them from telling the real swords apart from the illusory ones. It was very hard to fight against such magical powers.

"Everyone gather in a group! Don't split up, and besiege him."

The Supreme God

Chapter 183 Kill All Of The Enemies

Austin began his Illusory Swordsmanship. Within seconds, five members of the Blood Wolf Team were lying dead on the ground.

Astonished by Austin's power, the other members of the Blood Wolf Team lurched forward to attack him. Since they were great in number, they were sure that they could take him down.

But in spite of being on his own, Austin was much stronger and managed to kill nine of them, leaving dead bodies splattered around in his wake. Only six more members of the Blood Wolf Team were alive.

Watching these people struggling to attack him, he couldn't help but let his lips curl up into a vicious smile. He knew how futile their efforts were. To him, fighting these cultivators who were at the eighth level of the Energy Gathering Realm was a piece of cake.

With a swift wave of the Violet Royal Sword, he sent dozens of sword-lights zooming toward the six remaining members. Each sword light was pulsing with his strong vital energy force. If the six members were cut by these sword-lights, they would be in a great deal of pain.

This was the first time Austin was using Illusory Swordsmanship and he realized that it could give off so many sword-lights. What made it

special was the fact that each of the sword-lights contained vital energy force that could hurt the opponent. It was a handy feature for fights like these where he had to go up against multiple opponents at the same time.

While the six members were busy trying to dodge the sword-lights Austin gave off, he started his Wind-commanding Skill. He took a few steps forward and stopped in front of one of the members who were holding a big knife with a scary ghost face on its hilt.

The member had just blocked one of the sword-lights with his knife when he found Austin suddenly standing in front of him like a ghost. Frightened, he tried to turn to Austin's direction to stab him with his knife.

But Austin was much faster than him.

That member of the Blood Wolf Team had barely moved when Austin punched him right in the chest with the force of a thousand pounds. His body curved inward from the impact and flew backward at the speed of a bullet, disappearing into the forest.

Austin was sure that this member was dead, so without even bothering to give him another look, he continued fighting with the others. He turned around suddenly and raised the Violet Royal Sword. His gaze was so intense that it looked like there were two sword-lights coming out of his eyes. His whole demeanor changed all of a sudden and he looked fearless and powerful.

Austin decided to take this opportunity to try the level one sword intent that he'd just learned. Until now, he'd been using his Illusory Swordsmanship moves without any sword intent.

'Now, let me practice my sword skills by fighting against you guys, ' Austin thought to himself with glee.

At that moment, the only thing in his mind was sword intent.

Inspired by the sword intent, the Violet Royal Sword began to buzz with energy, capturing everyone's attention. It was accompanied by a fog which quickly surrounded the sword like an aura.

The next moment, Austin's sword intent had full control of the Violet Royal Sword. Sword aura filled the whole area as Austin and his sword became one. They were inseparable now and nothing could divide them.

Austin was the sword! The sword was Austin!

me!" the head of the group replied coldly.

Although he had to admit that Austin was a powerful cultivator at the Energy Gathering Realm, he couldn't accept the fact that he could be defeated by someone who was a level lower than him.

"Why are you still uttering useless rubbish when you know your end is near?" Austin retorted with a sneer. Then, turning to Violet, he said, "We can take our time and kill him together."

While Austin was laughing, his Spiritual Sense Flying Needle flew above and stabbed the head of his opponent.

The head of the group couldn't help but quiver in pain.

Violet, of course, wouldn't let such a good opportunity pass by. She started her demonic force and the black fox paw charged at the long whip that the head of the squad was holding.

Since the head of the group was already in pain, he was too distracted to use his vital energy, The defense of the whip was easily broken through by Violet's black fox paw.

Taking this opportunity, Austin sent his sword at the head of the group. The sword contained both his vital energy and the sword radiance formed by sword intent. It swiftly cut off his opponent's right arm.

'No! It can't be!' the man thought to himself, horrified.

Although he had noticed Austin's sword, it had been too fast for him to dodge. He was bleeding severely from the place where his right arm used to be attached to his body.

In a mixture of pain and anger, he roared like a wild beast. In a second, his body retreated almost ten meters. Apparently, he had successfully cultivated himself with a bodily movement skill of a high level. When facing danger, he wanted to escape by any means possible.

Of course, Austin would never let him go. With a light stomp of his foot on the ground, he appeared right in front of the head of the group.

Violet was a demonic fox that could run at high speeds, so she joined them barely a second later.

The head of the group couldn't hold his long whip since his right arm had been cut off, so there was no way he could defend against the combined attack from Austin and Violet. In no time, his head was cut off by Austin's sword.

Austin had developed the habit of collecting trophies. Now that he had killed all of the members of the Blood Wolf Team, he had a good harvest this time.

Soon, he took all the wealth from the dead bodies.

He managed to collect more than ten thousand vital crystals only from the head of the group.

Since these people were robbers, they had much more wealth than ordinary cultivators. . .

After handling the Blood Wolf Team, Austin returned to the Mysterious Ancient Well and met Mindy.

"Did you manage to kill all the members of the Blood Wolf Team?" Mindy asked, looking a little astonished.

Austin explained the whole incident to her in a calm voice. The longer Mindy listened to him, the more puzzled her face looked. She took a quick glance at his bloodstained clothes and could almost not believe what she heard.

The Supreme God

Chapter 184 The Scene At The Bottom Of The Well

You mean you killed all those members of the Blood Wolf Team? Including the one at the Earth Realm?

Mindy asked. Astonishment flooded over her when she saw the calm look on Austin's face.

Although she had a dragon feminine constitution, she hadn't activated its power yet. She was currently only at level six of the Energy Gathering Realm, and a cultivator of the Earth Realm was, to her, an undefeatable enemy.

Austin, however, had killed a cultivator of the Earth Realm and a dozen his companions in just an hour. That meant Austin's power was no weaker than a cultivator of the Earth Realm, even though he was only at level nine of the Energy Gathering Realm.

A cultivator at level nine of the Energy Gathering Realm was only one step away from the Earth Realm, but there was a significant difference between the two Realms.

It was a qualitative change to go across the divide between the Energy Gathering Realm and the Earth Realm. Many cultivators at level nine of the Energy Gathering Realm hit a bottleneck which would take them several years or even over a decade before they could reach the Earth Realm. The difficulty of this process proved a wide gap of power and skill in between the two realms.

Normally, a cultivator of the Earth Realm could easily defeat a dozen rivals at level nine of the Energy Gathering Realm. However, Austin managed to defeat a cultivator of the Earth Realm, which was a marked exception from the norm.

'He is not a simple person!' Mindy thought to herself. Ever since she met Austin, she had continuously witnessed things beyond her expectation. It amazed her how fast Austin improved in his martial arts skills and how skilled he was at fighting. Now she was further shocked by the fact that he was able to kill a cultivator of the Earth Realm. Without any doubt in her mind, she believed that Austin would reach the top of the hierarchy in the near future.

With these things in her mind, Mindy couldn't help but think of how fortunate she was to become Austin's friend. A friend with such promise would only provide her with benefits in the future. With a knowing glint in her eyes, her gaze turned to Austin.

Austin didn't mention anything about Violet who had already returned into his Space Ring, and Mindy didn't ask him about that as well. Everyone had his or her own secret, and Mindy didn't think that their relationship was close enough to share everything with each other.

In the next two days, Austin and Mindy stayed near the Mysterious Ancient Well and waited for the twin blossoms to blossom.

The temperature around the well changed dramatically every 5 minutes. Extreme coldness and extreme heat could be felt alternately. They had to keep a distance from the well in order not to be affected by the strange fluctuating temperature.

An hour before the midnight of the third day, Mindy suddenly squealed.

"It's time to go into the well now. The twin blossoms are about to blossom!" Excitement was evident in her voice.

exact moment she finished what she was saying, the air around the well became turbulent, and the

Embarrassed of being half naked, Austin turned his back to Mindy and lowered his head.

However, he couldn't help but take a quick glance at the girl next to him. As he expected, her hourglass figure was partly revealed under her ragged clothes.

Mindy noticed Austin staring at her, and her cheeks quickly turned glowing red.

Despite her embarrassment, she was not in the least astounded. It seemed that she had already expected something like this.

Suddenly, something popped into Austin's mind. Mindy had acted shyly when she first mentioned the twin flowers to him. That time, he thought it was embarrassment from asking him for help, but now he realized that he might have been wrong. He wondered, 'Did she already know that things would go like this?'

"Austin, you will go and get the red flower—the prime masculinity blossom, and I will get the black one—the pure femininity blossom."

Mindy said as she tried hard to repress her shyness. After all, they had come here to get the twin blossoms.

Austin nodded in approval. They then moved towards their goals respectively at the same moment.

As they approached the plant, the hot and cold winds became more and more overwhelming.

It was then that Austin realized that the origins of the cold and hot winds were the two flowers in the pool. Both were ordinary-looking, but the power that they had amazed Austin.

When they were only several meters from the twin blossoms, Mindy suddenly let out a scream and stopped in her tracks. Her face went extremely pale, and her teeth chattered. Her body shivered like a quail in winter.

"What's the matter?"

Austin asked with concern.

"It's too cold for me. I couldn't approach it anymore."

Mindy replied with a shaky voice.

The Supreme God

Chapter 185 Acquisition Of The Twin Blossoms

Since Mindy was just a level six Energy Gathering Realm cultivator who still had a weak vital energy cultivation base, she could only get no more than three meters near the pure femininity blossom. The air around the flower was so cold, and Mindy couldn't endure it given her current state.

This was also hard for Austin, who was approaching the prime masculinity blossom from the other side. However, Austin, two levels higher than Mindy, could still resist the hot air around the prime masculinity blossom. He figured that it must be because the Golden Sun Scripture he had cultivated was a prime masculine and steadfast formula, it had helped him integrate into the hot air.

As soon as he thought of this, he started to activate the Golden Sun Scripture inside his body. The shining ball, which used to settle peacefully in his elixir field, was now continuously releasing a steady stream of pure and radiant energy throughout his body.

The energy flowed rapidly that Austin could obviously sense both of the cold inside and the heat outside his body were dispersed immediately by the pale golden light energy from the Golden Sun Scripture. The two extremes of cold and heat, from which he had suffered since he came to the bottom of the Mysterious Ancient Well, had been immensely mitigated.

Austin was surprised by the effect. It seemed that the power of the Golden Sun Scripture could resist the freezing and scorching air that had lingered for years in the ancient well. Austin was quite upset for had he found out about it earlier, he wouldn't have suffered so much.

Thinking of this, the operation of the Golden Sun Scripture had quickened. Austin could feel the constraint caused by the heat was slowly being lifted, and his movements gradually became freer. The pale golden vital energy flowing from his inside was so abundant that it even spilled over his skin, making his whole figure fully emitted with a pale golden light gleam.

On the other side, Mindy, who was trying her best to resist the cold, was stuck in an unpleasant situation. Her half-naked body and beautiful black hair were condensed in a thick layer of frost. And to make her situation even worse, the frost had started to thicken that she could almost be sculpted in ice under the aggressive cold air. The naked body was enclosed in the ice as if she had been living in a thousand-year-old ice cave.

When Austin saw her in that state, he was frightened and almost panicked. He knew that Mindy's life would be in danger if he didn't do something.

With his leg pressed on the ground, he moved to her side immediately. He grabbed Mindy's hand up and continuously transported his vital energy to her body to help her get warm.

Before Austin came to her rescue, Mindy was trying her best to resist the cold air around her. The formula that she cultivated was of pure femininity, same as the blossom she wanted to obtain. Still, her strength was too weak to defend herself against the flower. She started to feel that her blood and flesh were gradually being frozen to ice. The cold had penetrated into her heart, making her dazed, and her consciousness slowly fading.

'Am I going to die?'

Mindy uttered to herself, with her last thoughts blurred.

All of a sudden, her right hand touched to something warm, just when she was on the verge of completely losing her consciousness. Then, a stream of heat poured in her body like a ray of early spring sunshine hitting the ground. When the ice began to melt, the temperature slowly increased, and the tactile sensation began to flow back to her body.

that, all the spirits of the heaven and earth contained in the blossoms

Austin suddenly realized what she said and nodded.

"In that case, I'm going to refine this prime masculinity blossom here too."

To have obtained a precious material like that, Austin decided to refine it first, even without knowing how much spirits of heaven and earth it contained. 'Don't let me down.' Austin prayed.

After a while, Austin and Mindy each found a place in the bottom of the ancient well and sat with their legs crossed. They occupied two corners separately, as to not affect each other while in the process of refining their respective blossom.

After sitting down on the ground, Austin suddenly recalled one thing. The freezing and scorching air that had been raging at the bottom of the ancient well became tranquil, slowly calming the atmosphere. The two different breaths of air, femininity and masculinity, now began to merge together and neutralize gradually.

What's more, the temperature at the bottom of the well also slowly returned into its normal state. Austin knew that these were all because the pure femininity and prime masculinity blossoms had been plucked by them.

Austin held the prime masculinity blossom in his hand and felt that it was almost the same with any other wildflower. The only unique thing was when holding it, he could feel a stream of warmth emanating from it.

'Hope you won't let me down!' Austin repeated in mind.

He took a deep breath and placed the blossom in front of him.

As soon as his thought arose, the fist-sized golden sphere in his elixir field buzzed and came out through his body. Hanging right above the prime masculinity blossom, the golden light shined on the precious blossom with a wisp of hot golden sunlight.

Since Austin had discovered that the sphere inside his elixir field could shine through his body and directly absorb the essence of elixirs and herbs, he reduced the way of taking them with his mouth.

If the elixirs and herbs were taken with the mouth, it would enter the body from the mouth, pass through the throat, and end up in the intestines and stomach. After they were digested, the essence of the medicine would be absorbed by the arteries and veins of the body.

When taking elixirs and herbs in that way, their potency would somehow be wasted, and its supposed effect on the body would not be maximized.

But if it were attracted and absorbed directly by the golden sphere coming out of his elixir field, all the essence of the medicine would be restored in the elixir field, minimizing any waste along the process.

The Supreme God

Chapter 186 Earth Realm! (Part One)

The glowing sphere made of pure vital energy flew out of Austin's elixir field and rushed towards the prime masculinity blossom immediately. It was almost as if it knew what he was thinking. It stopped right above the blossom, and its gleaming golden rays shone like a small sun, irradiating the blossom directly.

At the same time, as if triggered by the light shining on it like a solar cell, the blossom immediately erupted a strong stream of masculine vital energy much like an active volcano. The energy rose up ferociously, spread like a vast expanse of water, and surged onwards like ten thousand galloping horses.

Austin's sphere voraciously took the energy flowing from the blossom into itself as if it had been starved for ages. It was acting like a bottomless pit that could never be filled.

In one sudden outpouring of bliss, Austin's eyes got filled with amazement and admiration. The powerful masculine vital energy bursting from the blossom was exactly what he needed to cultivate the Golden Sun Scripture and he had not found it till now. What was extremely fortunate was that the blossom seemed to contain so much energy that it was beyond Austin could imagine. Going by his calculations, he wouldn't have to worry about where to find energy anymore in the future.

The energy kept on flowing out of the blossom in a steady stream, and the sphere kept on absorbing it desperately. The more energy it absorbed, the bigger it grew; like the energy was physical somehow. Initially, the sphere was about the size of a fist, but now, it was expanding slowly at a pace visible to a naked eye.

Also, it had been giving out a faint light at first, but now it was flashing with a dazzling golden brilliance, so much that even Austin did not dare to look straight into it, afraid that his eyes might get burned.

The golden sphere that had flown out of Austin was actually condensed and accumulated masculine vital energy which had coagulated when he was refining the Golden Sun Scripture. It shared the same origin with his own vital energy, and thus, both of them were getting stronger together.

his vital energy growing more powerful and aggressive. It was running

going to let this precious gift go to waste. He stepped forward, picked it from the ground and thrust it into his mouth without any hesitation. In one split-second, he felt that it was taking over his body, and he hurriedly informed the vital energy stone he had integrated with himself to get ready. The stone awakened immediately

go, Austin suddenly felt a tickle running through his meridians and his bones began cracking at the same time.

sign

Gathering Realm, this

Obviously, jumping into another realm was something that could only happen on very special occasions and not through seeking. Austin was thinking that it must be the impact of that masculine vital energy he had taken from the blossom. Time and tide wait for no man. Austin was specifically aware that he must seize this opportunity, and if he missed it, he might have to wait for a long time before the next one came.

He had planned to check on how Mindy was doing when he was done in here, but now he had to drop the idea. Instead, he sat down on the ground with his legs crossed.

Taking a deep breath to pull out his vital energy, he stretched his right hand and opened his palm. All the five Energy-prevailing Elixirs appeared on it, and he shoved all of them into his mouth in one single go.

To be honest, he had no idea how much energy those Elixirs contained and how much help he could get from them, but with the vital energy stone integrated successfully in his body, he was sure that he could handle them. As a matter of fact, he wasn't afraid of any medical pill or elixir of strong effect. With the vital energy stone, whenever there was too much for him to stand, the surplus would get stored into it automatically.

Everyone knew that Energy-prevailing Elixirs could help fighters make a breakthrough and jump into the Earth Realm, and therefore, there was no doubt this intake was going to improve his chances. Austin had five of them in his pocket, and had left them there for a rainy day. Now was the moment he had been waiting for, and therefore, he did not hesitate to empty his pockets this time.

After putting the Elixirs into his mouth, Austin immediately concentrated the whole energy and murmured the Golden Sun Scripture silently in his mind. Meanwhile, he guided all of his vital energy across all of his meridians at once, trying to throw himself into the next realm.

Driven by the tremendous force, the vital energy started running through Austin like a powerful current pouring down from the cliffs, and all his meridians got buffeted by those strong waves of energy again and again. As time passed by, those meridians became wider and wider, preparing for a qualitative leap into the Earth Realm.

The Supreme God

Chapter 187 Earth Realm! (Part Two)

As all the meridians were widened, they emanated a faint golden glow, and Austin could feel his crystal veins undergoing a significant change. Compared to his old ones, they were getting improved greatly both in terms of flexibility, and on capacity, which meant that his cultivation base was expanding and rising.

The next moment, the air surrounding him seemed to shake and a brute, powerful wave of energy started rushing out from his body.

Bang-bang! The environment of the well seemed to change and the air struck the walls like a furious dragon looking for a way to escape.

It threw stone and sand in all direction and darkened the sky, reducing visibility.

Right now, Austin's vital energy was dashing as far as three meters around him, and the ground under him had been shattered into pieces. After the initial impact of his vital energy, it created one more crack about a meter deep and half a meter wide. The cracks kept on appearing and spread around Austin like a spider's web.

When he was finally able to open his eyes, two beacons of golden light shone out of them, and he looked full of energy and malicious power.

Then he tried to gather his vital energy, and felt an aggressive power running all over him.

He had made it! He had reached the preliminary stage of the Earth Realm!

The most important aspect of this realm was that Austin had now broken away from the restrictions of Energy Gathering Realm, and the biggest accompanying change was that his vital energy could now fly out of his body and attack his enemy by itself.

Now, whenever Austin had to fight with other people, he wouldn't have to get close to them and hand-to-hand combat would be an ancient history to him now. He could materialize his vital energy and conduct an attack from a distance. It really was an impressive skill to get!

It was indeed out of his expectations that the prime masculinity blossom could help him breakthrough and jump into the Earth Realm. He really had gotten blessings from Heaven this

He turned to look for Mindy and found her standing in a corner, looking back at him. It seemed that she was also done with the pure femininity blossom

girls and her skin was tanned earlier. Although she was healthy and full of a wild sexy charm, there had been a lack of feminine beauty

around her. Her face looked beautiful, and

Austin couldn't help but gaze at her face without blinking for quite a while. Her brows looked like willow-leaves, and her bright eyes were shining and breath-taking; her nose was of high-frame and grace, her

lips were as red as cherries. With her snow-white skin, no one would have forgotten her even after a single glance at her.

Mindy had changed from head to toe, and she was a real beauty now, even though she hadn't been bad before.

Although she couldn't see how or what she looked like now, she could tell from the amazed expression on Austin's face.

"So..." She asked cautiously, "how do I look like now?"

She stroked her hair, waiting for Austin's reply, but she didn't realize just how stirring her movement was.

"Wow, I... I..." Austin was unable to find a word to describe her at that moment.

He swallowed several times with his eyes fixed on Mindy, shining out of amazement and admiration.

Mindy puckered her face in a smile as his eyes became hazy with lust.

"Hurry, we'd better get out of here as soon as possible!" she interrupted the weird atmosphere.

Austin came to himself immediately and nodded. There was going to be several days' worth of time for him to enjoy her beauty.

Since both of them were at the Earth Realm now, a simple, single tap of their toes would be enough for them to leave the well. Two shadows of a figure erupted from the well and landed on the ground within moments. It felt great to have so much energy within their bodies.

The Supreme God

Chapter 188 Mindy's Past

Mindy, let's go back to Sun Sect now, Austin said.

They had just left the Mysterious Ancient Well, and Austin thought that he should begin to make preparations for the Top Ten Outer Disciples Ranking Challenge.

"No, Austin, you go ahead. I have something more important to deal with. I've waited for years for this, and the day has finally come."

Mindy shook her head as she looked to the northeast. Determination was written all over her face. It was obvious that she had made a significant decision.

"Something more important?"

Austin was confused by Mindy's words.

"Austin, you've done me a great favor this time. I'd like to share my past with you."

Mindy found a clean, flat rock not far from the well, and gestured for Austin to sit on it.

"My name is actually Mindy Zhang, not Mindy Wu," she began.

She stared blankly into the distance, her mind swamped with painful memories. Austin listened to her story quietly.

"I came from Valley Town. It is a remote town, no match for Peace Town in scale or prosperity.

There were two well-matched clans in Valley Town, the Zhang Clan and the Li Clan.

On the surface, the two clans were on good terms. But in private, they were business rivals. As they were equally matched in strength and power, neither of them dared to openly start a fight.

But after a while, the peaceful facade was shattered.

As luck would have it, the head of the Zhang Clan found an ancient book called 'Elixir Foundation' in a cave. The book was a down-to-earth and easy to understand introduction to pill refining. Valley Town was backward in everything, including cultivation, so all the natives looked forward to becoming pill refiners.

the Zhang Clan decided to have the youths of the clan study pill refining so that there would be more pill refiners in the clan. After all, pill refining is a respected

next day, a man and a woman arrived at a

now and then, light clouds floated across

Birds were singing in the trees. Dogs were barking as they smelled strangers. At the entrance to the village, a few children were playing under a big tree.

The villagers looked at the two strangers with curious expressions on their faces.

The man and the woman came to a stop outside a house in the east of the village. The house had a small courtyard with bamboo fences on all sides.

A middle-aged woman was watering the plants in the courtyard. There were vegetables and fruits.

The man and the woman were none other than Austin and Mindy. They had come here to look for Mindy's family.

They had both reached the Earth Realm and demonstrated a mastery of bodily movement skill, so they were capable enough to handle anything that lay ahead of them.

They approached the courtyard so quietly that the woman watering the plants didn't notice them at all.

Mindy's eyes reddened at the sight of the woman. Obviously, she knew her.

"Nanny Wu!"

Mindy called out in a choked voice.

Shocked to hear the familiar voice after so long, the woman dropped the watering can in her hand. The watering can hit the ground and water spilled onto her shoes.

Paying no attention to any of that, she turned around to look at Mindy.

"Mindy, is that really you? Am I daydreaming?" she murmured.

"Nanny Wu, it's me."

Overcome by emotion, Mindy immediately ran toward the woman and threw herself into her arms. She burst into loud sobs, and at this

moment, she seemed like the little girl that she had been seven years ago.

The woman patted Mindy's back to console her, but she was in tears too.

Austin was touched when he saw the affection between them. He stood outside the fence, not wanting to disturb them.

The Supreme God

Chapter 189 Revenge

Nanny Wu was Mindy's wet nurse who had been employed to feed Mindy her own breast milk when Mindy was a tiny baby, and she was also the only person who had accompanied Mindy while running away from the Li Clan that fateful night.

After Mindy joined the Sun Sect, Nanny Wu had retired to live in this remote village.

When Nanny Wu heard that Mindy was planning to go back to Valley Town to get revenge, she couldn't help but feel worried. Even though Mindy assured her that Austin would help her, she was still not convinced. After all, Mindy was a weak girl who might not be able to fight against so many powerful foes, and Austin looked too young and too thin to be able to fight them too.

However, since Mindy and Austin had both already reached the Earth Realm level, Nanny Wu finally accepted Mindy's decision.

In the past when Nanny Wu lived with Mindy's family, she had heard about a few warriors and knew that the warrior of the Earth Realm was the most powerful one in Valley Town.

To Mindy's surprise and excitement, it turned out that there were several other members of her family living in this village.

When the Zhang Clan was attacked by their enemies, many of her family members hadn't been at the scene and had managed to escape as soon as they found out. In the past few years, Nanny Wu had secretly contacted as many of them as possible and called them to live in this village so that they could avenge the Zhang Clan one day.

Knowing Mindy had made up her mind to get revenge, Nanny Wu called all the remaining members of the family to help Mindy.

There were 17 members in total. Eight of them were young and their cultivation bases were on the third or fourth level of Energy Gathering Realm.

The other nine were middle-aged and their cultivation bases were on the fifth or sixth level of Energy Gathering Realm. Since they were living as a small family in this remote village, the cultivation bases of the family members were less than impressive because most of them were only at the level of Energy Gathering Realm. Their family master was the only one whose cultivation base was on the level of the Earth Realm.

These 17 family members had been hiding in this remote village and working hard to improve their martial arts skills for the past few years. They wanted to get revenge one day and rebuild their big family in Valley Town.

When they found out from Nanny Wu that Mindy had reached the level of Earth Realm, they looked at Mindy with their eyes full of worship.

In particular, the eight young men who were of the same age and position as Mindy showed great admiration for her. A few years ago, they had all been on the level of Energy Gathering Realm, but now, their cultivation bases were far behind Mindy's.

To avenge their dead family members, they had worked day and night for the past few years to develop their martial arts skills. They had all made great progress. Since they were hiding in such a remote village,

they hadn't been able to obtain any helpful martial arts materials, so they'd gotten this far purely on hard work.

But their peer, Mindy, had already reached the level of Earth Realm. In the remote Valley Town, a warrior of Earth Realm was really rare.

In the entire Zhang Clan, the master was the only one whose cultivation base had reached the Earth Realm. But it was said that their master had been heavily wounded during the attack and had gone missing soon after. No one knew whether he was alive or dead.

That meant that Mindy was now the most powerful person among the remaining family members, and so any hope of avenging the Zhang Clan rested on her shoulders.

Mindy became the leader and the other 17 members stared at her with excitement and worship in their eyes.

ran into the meeting

"Master, someone sent a package and said that it's your birthday present!"

"Ah? My birthday present?"

Lanny was surprised. His birthday wasn't until two weeks later.

After pondering over it for a few moments, Lanny smiled.

"I see. One of my friends must have sent me this present half a month in advance to give me a surprise."

"Dad, as our Li Clan is becoming richer and more powerful, there are more and more people who want to flatter us. I'm sure the birthday present must have been sent by someone who wants to get into our good books," a quiet young man commented, smiling. He was Lanny's first son. He wasn't excellent in martial arts practice, but he was a man of great wisdom.

"Hah hah, whoever sent this is a sincere person, so it would be impolite for us to refuse him. What's the present? Let me have a look!"

Lanny was very happy.

The servant quickly ran out of the meeting hall.

After a while, he walked back in holding a square package. On the tightly stitched package, the word 'Longevity' was written in a big font.

"Open it up!"

Lanny ordered.

"Yes, master." The servant began unwrapping the package.

After he uncovered several linings of the package and was about to unfold the last one, eight arrows flew out of the package and into his chest.

The impact of the arrows flung the servant's body back against the door of the meeting hall. At the same time, the package in his hands fell onto the floor.

There was a crack as his body hit the door and he was dead before he could so much as let out a cry. There was deadly poison painted on the arrows.

The whole meeting hall erupted into chaos.

"Who did it? Who! Who did it?"

Lanny got up in a fit of rage and slapped the back of his chair with his right hand. Immediately, the chair, which was made of ironwood, dissolved into a fine powder, leaving wood chips all over the floor. There was strong vital energy emanating from Lanny.

The other members of the Li Clan were also astonished by what had happened just now.

The Supreme God

Chapter 190 A Crisis For The Li Family (Part One)

The package was still lying intact slap bang in the center of the hall. It seemed to be bulging with something.

Thanks to what had happened just now, everyone in the hall now clearly knew that whatever was inside it, it certainly wasn't a birthday present. It had to be something special and sinister.

Lots of people looked at the package with curious gazes, wondering what could have been sent with death packed along with it.

"You! Come here and unwrap the package. Let me see what's in it."

Lanny ordered a servant who was standing beside him.

Even though the servant had witnessed a man die just by touching the package, he did not dare to disobey Lanny's order. He clearly knew how atrocious Lanny was. And besides, Lanny was quite angry after seeing that arrow, and therefore, if the servant disobeyed him, what waited him was certain death anyhow. Therefore, he had to walk towards the package.

The servant kicked the package hesitantly but nothing special happened this time. He then stretched out his hand to unwrap the package. This time, no poisoned arrow shot out from it. Instead, something rolled out from the package when it was unwrapped. Something bloody, something hairy. A head!

Everyone in the hall had been gazing at the package and as soon as they saw what was inside, they all stood up and exclaimed in surprise.

The head was familiar to them all.

"Benson!"

"Brother Benson!"

"It is Benson!"

No one in the hall wanted to believe what he was seeing, but it was as clear as day.

kill the lot of them. I have searched for them in vain for a long time; it is really a big surprise

Lanny gnashed his teeth in anger.

"Everyone, listen to me carefully. Finding out this surviving supporter of the Zhang Family is your task and our top priority. We must spare no effort and leave no stones unturned in trying to find them out. We will kill all who remain of that family!"

"My lord, some bad news."

Just as Lanny had ended his words, a member of the Li Family, who was of middle age, rushed into the assembly hall and shouted from the gate itself.

"What is the matter?"

That man had always been sober and composed, but right now, he looked fluttered, which was why Lanny had a bad feeling.

"Three of our gambling houses, two whorehouses, two grain stores, and one pawnshop in the town have been burned down."

"What?"

Lanny was shocked at the news. He felt desperate as if his world had frozen around him.

The stores which the man had mentioned were the most profitable stores of the Li Family, and they had all been destroyed in one go. Lanny was struck with fright.

"Call out all the people of our family! We are going to find the remaining people of the Zhang Family and kill them all!"

Lanny's voice was full of anger now and echoed in the meeting hall furiously.

One-third of the Li Family's stores in Valley Town had been destroyed by a dozen men clad completely in black. The men had broken into those stores, killed off any members of the family who happened to be inside, and burned the buildings down.

When the family sent out people to find the perpetrators, they went into hiding without leaving any trace at all.

This event caused a great uproar in Valley Town. The people of the Li Family searched for these killers in every nook and cranny and upturned every house, but always drew a blank.
