

The Supreme God

Chapter 301 Hurl Questions (Part One)

In the courtyard, the leader of the Sun Sect, Theon, and six Elders of the Sun Sect, as well as the Chief Elder of the Flaming Sun Valley, Dwayne, and the head of the Blood Wolf Team, Abbott, were all around Austin.

In the face of so many masters, Austin seemed very calm and confident because he had planned how to deal with the situation.

"Glad to see you all, Leader Theon and everyone."

Austin bowed a little low to everyone. He was one of the principal disciples of the Sun Sect after all. Thus, he had to show respect whenever he saw the high-level people of the Sun Sect.

"Hum! Do you still respect us?"

asked Jaime coldly.

"Leader, these people are not disciples of the Sun Sect. Why did they break into the residence of our disciples to interrogate? This is our turf!"

replied Austin as he pointed at the scattered corpses of the Flaming Sun Valley's and Blood Wolf Team's disciples.

"This house was Evan's and Herbert's private place. However, over the past two days, these outsiders who don't even belong to the Sun Sect broke in here over and over again to cross-examine Evan and Herbert.

Excuse me, Leader. But how can it be allowed in our turf that our disciples were treated like that by a group of outsiders?

What's going on? I don't understand this at all!"

Austin exclaimed.

"Hum! This is all because of you. These people are disciples of the Flaming Sun Valley and the Blood Wolf Team. You have committed many sins. Thus, they came here to hunt you down. They want to punish you for your crimes! So stop arguing!"

yelled furiously upon seeing Austin's attitude.

made a lot of mistakes, is it good to let outsiders get their hands on

One of the six Elders of the Sun Sect said loudly. His voice was clear and his face was red.

Other Elders also nodded slightly except for Jaime.

"Son of a bitch! Stop talking like that. Since you have killed my grandson Raymond, you deserve whatever you get.

Don't try to deny it!"

Dwayne opened his eyes wide to scornfully stare at Austin.

"Hum! Austin, you killed our six Wolf Generals and a large group of members. Don't try to deny it."

Abbott added more insult as he sneered with a gloomy face.

"I don't care about the situation between you and the outsiders. However, you are involved in steward Johnson's death.

It is my duty as an elder of the Sun Sect to interrogate you.

Don't try to deny it!"

Jaime looked at Austin with extreme disgust. He had plotted to maim Austin as he thought that the man would just spend his whole life as a worthless fool.

However, Austin unexpectedly recovered from that attack a few years later and improved to a higher level quickly. That made Jaime very upset.

Jaime also found out that Austin had great potentials in him. He didn't need any competitors. Thus, he was more than eager to kill Austin.

Austin just looked coldly at the crowd after hearing all the accusations against him. Ironically, he was calm. A sneer even showed at the corner of his mouth before he said,

The Supreme God

Chapter 302 Hurl Questions (Part Two)

Ha ha ha! Deny? Why should I deny it? I always do what I think right, and I have no guilty conscience!

By the way, my pursuit of martial arts is to go forward all the way. There's no danger that could stop me. I won't regret that I have killed those guys!

I won't even deny it just because of fear!

It's not my style!

Yes! I killed the six Wolf Generals and Raymond. I also killed Johnson!

Why? Because they deserve to die.

Feel free to take revenge on me. I won't escape!

A fearless loud laugh escaped from Austin's chest while standing before the masters.

He might look skinny but then his voice was aggressive as it echoed in the courtyard.

His shocking words and arrogant remarks stunned the crowd for a moment.

"Sure enough, you murdered my grandson, Raymond. I will take revenge on you today!"

Dwayne was outraged.

"Well, you are really brave. These cases are easier to deal with now that you have admitted them!"

Sarcasm was dripping from Abbott's words as he spoke.

"Killing Johnson is a capital crime!"

We can't just punish our disciples because of one-sided remarks from others," said the red-faced Elder as he looked at Theon seriously.

"I agree! The Blood Wolf Team is totally unreasonable to pursue our disciples, Leader Theon. As the sect management, we would be sneered by the whole world if we fail to protect our disciples. More so, judge them wrongly."

said Elder Li as she agreed with the red-faced Elder.

"Leader Theon, I don't think it's good for us to conclude that Austin did something wrong this easily!"

A white-haired Elder of the Sun Sect, who had never spoken, nodded and said softly.

He was the oldest of the six Elders of the Sun Sect and Theon had always valued this old man's opinion.

In fact, Theon could also sense that this whole chaos was not generally Austin's fault.

"Hum! It seems that the Sun Sect is ready to protect Austin. Well, well!"

Raymond was the only boy we had in Cui Clan for the past three generations. However, he was killed by this disgusting man, Austin. We wouldn't mind if you really want to protect him. Nonetheless, let me warn you that we won't let this situation as it is."

said Dwayne as an evil smile cracked his lips.

"Ha ha! The core of the Blood Wolf Team is its Thirteen Wolf Generals. However, we had a total of six Wolf Generals killed by

Austin. The Sun Sect will need to pay dearly if they really want to protect this murderer.

Hum! We, the Blood Wolf Team, have no other skill except for assassination. I bet that it would be very dangerous for the Sun Sect disciples to do something as simple as going out in the future."

Dwayne and Abbott's words were full of hate.

"Why are you threatening us, Dwayne? Abbot?"

As the leader of the Sun Sect, Theon knew that it wouldn't be smart to offend the Elders of the Flaming Sun Valley and the Blood Wolf Team. Offending the two would mean putting the Sun Sect's future in great danger.

"Don't be so emotional, Leader! Please consider the interest of the whole sect!"

Jaime reminded Theon. He was actually afraid that Theon might side with Austin.

The Supreme God

Chapter 303 Drop Out Of The Sun Sect

All of a sudden, all the people present looked at Theon.

After all, he was the Sect Leader of the Sun Sect while Austin was a disciple in the Sun Sect. As long as they were in the Sun Sect's territory, Theon's attitude would determine Austin's fate.

Austin knew that Theon was caught in the middle now. He was a little touched to see that Theon cared about him to some extent.

"Ha! Mr. Xiang, don't worry.

I'll take responsibility for the death of Raymond and the other six Wolf Generals. It has nothing to do with the Sun Sect.

From now on, I, Austin Lin, am not a disciple of the Sun Sect. I'm dropping out."

There was an audible gasp from the crowd.

Austin continued, "So, Dwayne and Abbott, if you want to retaliate, you have to deal with me!

And Jaime, you bastard! Many years ago, you played a dirty trick on me and caused me to lose my intellect for three years. I'll definitely get back at you for that.

Mr. Xiang, I really appreciate your efforts to try to protect me.

Before I leave the Sun Sect, I hope that you can do me a favor.

I hope that you can protect outer disciple Evan and Herbert, and keep them safe."

Theon looked at Austin with a grave expression on his face.

"Austin, you're going to drop out of the Sun Sect?

Evan and Herbert are both our disciples, so I will protect them for sure.

However, you were reckless to say that you will leave the Sun Sect," he said after recovering from the shock.

"Thank you for your promise, Mr. Xiang.

Dwayne, Abbott, and Jaime, I guess you'll have to deal with me personally. I'm not afraid of you at all! Come on!" Austin yelled.

He had made up his mind to take all the responsibility for his deeds. He knew he could provoke them by doing this.

"Oh, wow, what a hero," Abbott said sarcastically with a sneer. "Since you've confessed to your crime, I won't spare you!"

Then, he launched a strike.

Suddenly, there was a giant bloody palm floating over Austin's head. It was at least 300 square meters in size. The stinking, bloody palm contained formidable energy that made everyone in the vicinity feel sick.

What was worse, they could hear the wails and screams of sorrowful ghosts and evil spirits who were trapped inside the palm. Any martial artist who was weak-minded would be terror-stricken to see it. He might even lose his mind.

Boom!

They crashed into each other in the air. The ferocious bloody palm shook severely as it tried to get the pagoda out of the way.

The two vital energy forces fought fiercely against each other. However, even though the Grand Pagoda was very strong, it couldn't stand the force of the bloody palm any longer and cracked with a loud thundering sound.

The vital energy force that was released from the explosion of the Grand Pagoda spread across the area, making everyone cry out in surprise.

The vital energy force was at the premium stage of Earth Realm!

Many of the people present had a high cultivation base, so they could clearly tell that Austin's vital energy force was at the premium stage of Earth Realm and not level nine of Energy Gathering Realm like they had previously believed.

How? How could it be?

Everyone present, including Abbott, was at a loss for words. They gawked at Austin like he was some kind of monster.

"How is it possible?" one man asked.

"This boy has been hiding it all this time?"

Dwayne asked in disbelief.

"Genius! We have a genius in the Sun Sect!"

one of the Elders in the Sun Sect murmured.

"Austin! It turns out that your cultivation base is at the premium stage of Earth Realm! No wonder you could kill six Wolf Generals in the Blood Wolf Team!"

Until a few moments ago, everyone had assumed that Austin was at level nine of Energy Gathering Realm. Even though his behavior was fearless and courageous, they had thought that he had nothing but guts and that he was just a nobody whose fate was controlled by others.

Now, they realized that Austin's cultivation base was actually at the premium stage of Earth Realm.

Cultivators at the premium stage of Earth Realm were considered very strong throughout the entire Violet Orchid Empire.

Finally getting over the shock, Abbott laughed.

"Well done, boy, you've hidden your true capability successfully! But unfortunately for you, I can still kill you easily!"

"Go to hell!" Austin retorted.

Once again, the giant bloody palm buzzed with energy and started to descend toward Austin.

This time, Abbott put all his energy into it without holding anything back.

The limitless vicious energy almost enveloped Austin. It was so strong that he was unable to defend himself.

He felt like he couldn't breathe.

"Oh, no! Austin is going to die!" a man yelled.

"What a pity! He is a rare genius in the Sun Sect. But he's going to die now. It's our loss!" another one said.

The Supreme God

Chapter 304 Another Grand Pagoda

When Theon, the Sect Leader of the Sun Sect, and the other Elders saw Abbott, the captain of the Blood Wolf Team, exert his whole energy to attack Austin, they were sure that Austin would be dead meat soon.

Apart from Jaime, all the senior members of the Sun Sect appreciated Austin's gift after they saw the real vital energy and cultivation base he possessed. But they thought that it was a pity that the Bloody Palm Abbott had formed was going to destroy a talent like Austin in the blink of an eye.

Under the pressure of the one-acre Bloody Palm, Austin frowned. He suddenly folded his arms across his chest and flapped them like a butterfly.

In a seemingly instantaneous burst of energy, another six-layered Grand Pagoda appeared over Austin's palm.

"What?! How?!"

"How could this be possible?"

"How could he form another Grand Pagoda?"

When the crowd saw Austin form another Grand Pagoda, they were shocked and began murmuring among themselves.

Most of the people gathering there might be only a little surprised, but the senior members of the Sun Sect couldn't believe what they were seeing.

The Grand Pagoda Summoning Skill was well known to everyone in the Sun Sect. All the senior members knew that the disadvantage of using this skill was that forming a Grand Pagoda would consume about seventy percent of a cultivator's vital energy.

Austin had formed a Grand Pagoda just a while ago, so he must have used up seventy percent of his vital energy already. Logically speaking, he should only have thirty percent of his vital energy left. That was the very reason why Theon and the others had thought that Abbott's Bloody Palm would definitely kill Austin.

Besides, Abbott had a big advantage over Austin in terms of cultivation base. Abbott was at the medium stage of Mysterious Realm while Austin was only at the premium stage of Earth Realm. Killing Austin, who had only thirty percent of his vital energy now, would be as easy as winking for Abbott.

However, the very fact that Austin had instantaneously formed another Grand Pagoda shocked everyone in the Sun Sect to the core.

None of them could believe that he had managed to use the Grand Pagoda Summoning Skill twice at such a short interval.

They wondered how Austin had done this.

They had been shocked enough to find out that Austin was at the premium stage of Earth Realm. Now, he had given them another surprise.

'What an extraordinary guy!'

the senior members marveled in their minds.

The truth was, Austin had replenished his vital energy with the vital energy stone in his elixir field just then, so his vital energy was back to one hundred percent now.

And he was able to form a Grand Pagoda at such a high speed because of his persistent practice.

As soon as the six-layered Grand Pagoda was formed, Austin channeled his vital energy on his palm to raise the pagoda. The next second, the pagoda shot up at the Bloody Palm like a bullet.

Bang!

The Bloody Palm rocked unsteadily when the pagoda crashed into it. This gave Austin a little time to relax and collect himself.

solution now would be to run

"Mr. Austin, do you need my help?"

Violet, who was inside his Illusion Bead, could observe everything that
was happening now, so she knew about his dilemma.

"No! You're only at the medium stage of Earth Realm. You wouldn't be
able to help me even if you came out," Austin answered.

Meanwhile, he flapped his arms again. Faint golden snakes of vital
energy began twisting around his fingers and gradually gathered on
his palm. In a flash, another six-layered Grand Pagoda appeared over
his palm.

"Look! Austin formed another Grand Pagoda!" some of the people
watching exclaimed in surprise.

It seemed that Austin had an inexhaustible supply of vital energy.

When the senior members of the Sun Sect looked at the fourth
pagoda over Austin's palm, their jaws dropped and they began
murmuring among themselves.

Austin channeled his vital energy to his palm to shoot the fourth
pagoda at the aggressive Bloody Palm.

The second the pagoda shot into the air, Austin stood on tiptoe and
exerted his Wind-commanding Skill. Then, he fleetly glided backward.

Bang!

The pagoda smashed against the Bloody Palm.

"Abbott, Dwayne, and Jaime, you'll see! I'll always remember what you did to me today! You will pay a bitter price for this in the future," Austin said with a laugh as he activated his vital energy.

With a gentle crack, a big pair of wings grew out of Austin's back. He flapped his wings and flew into the air at once.

Everyone was stunned by what they were seeing now.

Abbott and Dwayne, however, immediately reacted to the very fact that Austin was trying to escape.

Both of them activated their vital energy force and flew toward Austin.

Cultivators of Mysterious Realm could use their vital energy force to fly in the air for a while.

It was obvious to them that Austin was running away as soon as they saw his wings.

There was no way they could let him go that easily.

Austin smiled when he saw them chasing after him. He channeled his vital energy into his wings along his back. His wings sped up at once and Austin shot into the sky like a bullet.

He was far away from Dwayne and Abbott, who were still near the Sun Sect. Neither of them had been able to keep up with him.

"You take it too easy, bastard! But you have no way to run now!"

Dwayne sneered when he saw Austin picking up the pace.

His eyes flashed violently.

All of a sudden, Austin could feel a force of spiritual sense bursting into his Soul Sea.

And then, the force of spiritual sense began to attack.

The Supreme God

Chapter 305 Fleeing From Sun Mountain

Having reached Mysterious Realm, Dwayne owned the Soul Sea. Realizing that he couldn't catch Austin, Dwayne unleashed his spiritual sense to attack him.

Fortunately, Austin could tell right away that Dwayne's spiritual sense was not as strong as his.

Without hesitation, Austin threw a Spiritual Sense Flying Needle at Dwayne, piercing his spiritual sense.

A shock went through Dwayne's body. He paused in midair, a look of amazement crossing his features.

How was that possible?

His surprise was because he had hardly broken into Austin's Soul Sea when a purer and stronger spiritual sense had attacked his.

A mere touch had caused damage to his spiritual sense, which had cracked, unable to resist the attack.

Was it Austin who had released the spiritual sense?

No! Impossible! Austin had only just reached the premium stage of Earth Realm. How could he possibly own spiritual sense? Besides, this spiritual sense was too strong, even stronger than his. Could this belong to Austin, whose cultivation base was much lower than his?

After a brief moment of shock, Dwayne recovered his wits. But Austin was already out of reach. Flapping his vulture wings, Austin flew quickly towards the other side of Sun Mountain.

Both Dwayne and Abbott turned pale with fury. Without bidding farewell to the elders of the Sun Sect, they signaled to their subordinates to retreat. They walked out of the yard and left Sun Mountain in a hurry.

Both of them took the direction that Austin had fled away in. They didn't give up the chase.

The moment he arrived at the foot of Sun Mountain, Dwayne turned around and shouted a command.

"All the top fighters of Flaming Sun Valley should set out at once to chase Austin. Be sure to bring him to me."

At almost the same time, Abbott issued the same order to the members of the Blood Wolf Team.

"Elites of the Blood Wolf Team, your mission now is to catch Austin. He is wanted dead or alive!"

"Hah! Blood Wolf Team's rudeness is known to all. But I never expected that the members of Flaming Sun Valley would also be so impolite," one of the elders of Sun Sect who was offended by Dwayne and Abbott's discourtesy said. They had left without paying their obeisance or saying goodbye.

The elder who was dressed up as a nun, surnamed Li, sneered coldly.

"Hah-hah! How wonderful! Austin really impressed me. I never thought that he could get away with all of this, safe and sound!"

Satisfied and relaxed, another elder said loudly, his face aglow.

"Just look at their faces as they slink away! It's the best!"

They had bullied us to no end these past few days. I'm fed up with their surliness and arrogance.

Austin is just a disciple of the Sun Sect, but they just could not harm him.

What a relief!"

"Dwayne, Abbott," said Austin with a sardonic chuckle, "you have made an enemy of me today. I hope you won't regret it in the future.

I retreat today because I'm not strong enough yet. But if you think I'm a gutless coward who dares to do nothing more than run away, you are sadly mistaken.

Because one day I will find you and kill you with my own hands!"

He thought for a moment. Then, putting his arms around the trunk, he deftly slid down the tree like an ape.

The moment he reached land, he thrust his feet against the ground and leapt forward. He disappeared into the dark forest like a flash.

In the lush forest, Austin swooped through the thick trees at an incredible speed, like a big bat spreading its wings.

He planned to find a good hiding place to rest and think about what to do next.

As he went forward at full speed, Austin found many low-level diabolic beasts inhabiting the forest. Most of them were only at level 2 or level 3.

Austin hadn't come across any level 4 beasts yet.

In a forest filled with diabolic beasts, it was not easy to find somewhere he could rest without being disturbed.

But Austin was lucky enough.

He found a good place to settle down before dusk.

Tramping through the undergrowth, he came to a flat piece of open land. In front of him there was a three or four-meter-wide crack on the mountain.

Austin came up slowly to the edge of the crack. As he looked down, all he could see was a bottomless abyss.

He raised his head and his gaze swept rapidly over the opposite cliff. Suddenly, a dark cave attracted his attention.

The cave was dozens of meters away from the top of the mountain. It didn't look like a man-made cave. Rather, it looked like some diabolic beast had opened it with its sharp claws and great strength.

"Oh I can't believe what I've found!" Austin exclaimed as his eyes widened. It was the perfect shelter for him. Mist hovered around the cave so hiding in it wouldn't expose him even if somebody passed by.

Austin stared at the dark cave, his eyes bright with excitement. There were many dark caves like that on the cliff, but the one he had his eyes on was at the most favorable location.

Mists and fog swirled about the cave, hindering sight. So even if observed from the opposite cliff, the cave was not easy to find. It was a perfect hiding place.

Nevertheless, diabolic beasts were numerous in this boundless forest. So maybe the cave was a den of some beast. He had to be careful or he might be attacked.

To be on the safe side, Austin released his spiritual sense to explore the cave.

Just as he had expected, a beast crouching on the rock appeared in his Soul Sea.

Austin recognized it immediately.

It was a double-headed snake hawk, level 2.

"Forgive me. You'll have to find another home," Austin said as a sly smile crossed his face.

His feet tapped on the ground and his body darted towards the cave, like a lightning splitting the clear sky.

The Supreme God

Chapter 306 The Superior Vital Energy Crystal (Part One)

When Austin noticed that there was a level two double-headed snake hawk inhabited in a cave at the end of a steep and slippery cliff high up the mountain, he headed towards the direction in a rush.

Since he could use his vital energy to fly, he didn't have to toil up the steep cliff and within minutes, he could see the cave in sight. However, as he got closer to have a better look, a sudden gust of piercing wind blew out of the cave. He took a step back in caution and then peered at the cave from a safe distance. He saw that deep in the cave, in complete darkness, four green balls glinted and twinkled at him.

Suddenly, Austin heard roaring and rustling sounds. The green balls started to enlarge and the wind became even stronger. Something was moving and slithering out of the cave. Undeterred, Austin waited to see what it was. In a blur, the creature shot out from the cave, whizzed over Austin's head and circled in the air before landing in front of him. From its appearance, Austin instantly recognized the animal as none other than the double-headed snake hawk that he had been looking for. True to his expectation, the animal had two snake heads while its torso was that of a hawk. The four green balls he had seen earlier were its eyes producing a green light in the darkness of the cave.

The double-headed snake hawk felt threatened at Austin's unexpected arrival. With cautious eyes, it glared at Austin for a moment before making a loud, shrill sound of threats. Austin neither stepped back nor walked forward. For a moment, both the animal and Austin stood facing and sizing each other, gauging the opponent's strength. Suddenly, the animal unfurled its wings and flew straight towards Austin.

"Yes, come, you ugly thing. Show me what you have got," Austin murmured.

In an instant, Austin took a fighting stance and pulled out his Violet Royal Sword. He rapidly put the level two sword intent into action. Suddenly, thirty rays of sword-light emitted from the sword as Austin transferred his vital energy to it. He brandished his sword and waved its rays of light over the impending beast.

double-headed snake hawk sensed the danger at once, but it was a tad too late. In fear, it strove to beat a hasty retreat. But, since it was flying at an insanely fast speed

it could even turn around, the rays of the sword-light had already reached it. In an instant, the thirty rays of sword-light bored thirty holes into its

alleviated a lot, his vital energy was still negligent and not restored

The vital energy volume in his energy meridian seemed to be only half of what it was before while the vital energy of the vital energy stone stored in his elixir field had almost run out. To escape from the attacks of the two fighters of the Mysterious Realm, he had to consume too much of his vital energy. Plus, taking down the snake hawk had also significantly decreased his already depleted store of the vital energy. If his need of this refuge hadn't been so dire, he wouldn't have taken that risk. With little vital energy, he felt weak and vulnerable like a defenseless ordinary person.

Searching frantically through all of his Space Rings, he found some elixirs that could help him speed up his cultivation and boost the volume of the vital energy. After experiencing so many fights, Austin developed a habit that every time he killed a person, he would search over the body to see if there was anything valuable. By now, he had collected a variety of things and stored all of them in his Space Rings. Living in a turbulent world with fighters wandering everywhere, he had no options but to collect some elixirs or weapons in case they might come in handy one day.

Usually, he would just keep the elixirs for a rainy day and wouldn't take them despite they had a potent effect that they could expedite his cultivation speed and strengthen his powers. It was because regardless of how high a level the elixirs could help a cultivator to achieve, the outcome would not be based on his actual true strength. In the long run, he would experience the symptoms of a vacant, false vital energy cultivation base that would inevitably lead to crippling injuries for the rest of his life. The situation was comparable to a plant that was being pulled to grow by some external force, since the root was not mature and stable enough, the plant could therefore not sustain such an unnatural force and the plant would wither eventually.

There was a popular myth among fighters that due to the limited capabilities of most of the pill refiners, the elixirs they produced usually contained some toxic substances. As much as the elixirs would cure diseases, they also would leave some harmful residual elements in the cultivator's body. If the elixirs were taken for a long time, the harmful residues would increase and cause incurable diseases to the recipient.

Given this reason, Austin did not use the elixirs often although he had plenty of them in his Space Rings. He only used them for emergency situations, like if he got injured or if the timing was urgent, then he would take a few.

Considering that he had consumed too much of his vital energy and was being hunted by so many fighters, he felt that he should replenish his vital energy and regain his strength as early as possible. Although

the cave was a safe place to hide, without food and water, he could not survive for long. Besides, before he got back into battle, he needed to be both mentally and physically prepared. So considering the situation he was in, he took the elixirs he had.

The Supreme God

Chapter 307 The Superior Vital Energy Crystal (Part Two)

Rummaging through all his Space Rings, Austin selected the elixirs that could speed up his vital energy replenishment, and then he put the others back in his Space Rings.

Ever since he entered the premium stage of the Earth Realm, the size of the light ball in his elixir field had expanded a lot. At the moment, the inner diameter of the light ball had reached about half feet long, which was a remarkable achievement for Austin.

Once Austin transmitted his intent to the light ball, the light ball in his elixir field began to glow with warm, soft light. Then, within seconds, the light ball moved and came slowly out of his body and stopped right above the elixirs. As if the light ball was magnetic, it started to absorb those elixirs into its body. Every time it swallowed a pill of elixir, its color became brighter than before.

All these elixirs that Austin had gotten were not precious, valuable things. Their level was pretty low and they contained very little vital energy inside. In a short while, all the elixirs that were placed in front of him had been absorbed by the light ball.

Once it was done, Austin returned his light ball to his elixir field. He could now feel that the volume of the vital energy in his body had increased. However, it was still far from enough. He sighed helplessly. To replenish his vital energy quickly, he now needed to use his refining formula to absorb the vital element of heaven and earth from

the nature and in order to do that, he would consume more of the vital energy that was left and that would wear him out.

He didn't have much of a choice. So upon assessing the situation he was in, he decided to give it a try. Sitting down cross-legged, he put his Golden Sun Scripture into action. In a short while, a gust of chilly, piercing vital energy wind blew through the cave and started to warp Austin in its circle.

Feeling the wind, his veins tightened and his pores swelled. After a moment, the vital energy wind that was generated from nature bored into Austin's body. He could only compare the feeling to a person who had finally got water to drink after being lost in the desert for several days. Austin felt a remarkable effect. The vital energy went right down to his feet and the sensation provided him with full strength and clarity.

Once Austin recovered and regained his energy, he was more aware of his surroundings. He started noticing that the spiritual energy contained in the cave was unnaturally abundant and the volume of vital energy was noticeably dense.

He remembered the cultivation room of the Energy-gathering Array in the Sun Sect. The vital energy contained in that room was also notably abundant. But in comparison, the vital energy in here was at least ten times more than that in the cultivation room.

Austin realized that the whirl of vital energy completely surrounded him, and his body could absorb them easily with no effort.

He regretted a little for not detecting the vital energy before wasting his elixirs.

But there was no taking back his actions. He diverted his attention from the elixirs and tried to investigate the source of the vital energy.

There was something abnormal about the cave. He could feel it, but he could not tell precisely what was abnormal about it.

With no one present to consult with, he called Violet.

"Violet, come out and feel this cave. The vital energy in this cave is astoundingly abundant," Austin said.

Upon receiving his call, Violet came out from the Illusion Bead. Being a fox, her sensitive nose caught the smell of the thick vital energy in an instant.

really strange. But with so much vital energy present, you could just replenish your vital energy easily," said Violet with

Violet. He had his suspicions about the place. "Do you think that they have set up another Energy-gathering Array here?" he asked guardedly.

did not reply. Like Austin, she knew nothing about the place. Out of curiosity, Austin started to explore around the cave, trying to find some clues to his speculation while

They were so engrossed in their digging that they dug so deep into the wall without being aware that they had actually dug a small tunnel of about ten feet long.

Luckily, they had plenty of Space Rings to store the superior vital energy crystals they dug out.

Later, as the number of vital energy crystals continued to soar, the original excitement they felt gradually faded. The repeated motion stiffened their muscles and they began digging out the vital energy crystals and putting them into the Space Ring more mechanically than intentionally.

"I am so exhausted, master," murmured Violet, pouting her lips.

She rubbed her ridged wrist and drew a deep breath.

"I know, Violet. Just hold on a little longer. You know we will make a big fortune. Let's dig all the vital energy crystals out of the wall. I believe there are few left now," Austin consoled Violet in a soft voice.

In all honesty, he was as tired as she was and dying to have a rest.

They continued digging, without taking a break, until when they dug about another five feet further, the superior vital energy crystal was no longer available. They seemed to have dug out all of them.

However, as they reached the end, a circular cave of about two feet in diameter suddenly appeared in front of them.

When they peeked, they saw a small pile of fist-sized crystals lay on the ground, emitting a soft, holy light. A stream of dense spiritual energy of heaven and earth filled the atmosphere. Once Austin and Violet got close to the cave, they breathed in the spiritual energy and suddenly, the heavy weariness they had felt for so long vanished in an instant and they were as strong and energetic as they were before.

"What are these?"

Austin and Violet cried out simultaneously in awe and amazement. The crystals were bigger in size than the ones they had been digging so far and as for the volume of vital energy, these crystals seemed to contain vital energy greater than the superior vital energy crystals.

Both Austin and Violet were excited and confused.

'Could these be a more valuable type of vital energy crystal than the superior vital energy crystal?' they wondered.

It was the first time they had seen such big crystals, so they did not understand what exactly these crystals were.

They however, looked like they were more valuable and precious. So they took them all and put them into the Space Ring.

Austin counted as he put them into the Space Ring one by one. There were about a hundred of these big crystals, and now they were Austin's.

The Supreme God

Chapter 308 A Strange Beast

After collecting the vital energy crystals, Austin and Violet searched around the circular cave again but found nothing. There seemed to be no more crystals left.

Using his fists, Austin punched the wall and soon, a hole of two meters deep appeared in front of them, yet nothing was found. It seemed that all the crystals had been collected by them.

So, they decided to return to their cave.

"Well, I'll try these superior vital energy crystals that can be refined next!"

It was perfect timing. He had just lost most of his vital energy, but now, he had gotten so many superior vital energy crystals that could be used directly for cultivation.

Out of those, 5, 000 vital energy crystals would be enough for his cultivation.

He gave Violet 1, 000 crystals for her cultivation and told her that she could ask him for more after she used them up.

As soon as Violet received the crystals, she returned to the Illusion Bead to focus on her cultivation.

When she had first met Austin, Austin was just a warrior at the sixth or seventh level of Energy Gathering Realm, but now, he had already reached the premium stage of Earth Realm, which made Violet feel a little upset and jealous.

She wanted to spend all her time practicing so that she could catch up with him.

Meanwhile, Austin sat cross-legged, holding a crystal in each of his hands. As he directed his strength to his hands through concentration, he felt two streams of extremely pure vital energy being directly absorbed by his body.

"The vital energy of heaven and earth is so pure," Austin exclaimed out loud.

Then, he relaxed and began to absorb the energy of the two crystals attentively.

The crystals were only the size of his fist, but they contained a lot of vital energy of heaven and earth. About two and a half hours later, Austin had absorbed all the energy of the crystals in his hands.

He had regained about 80% of the vital energy in the energy meridians in his body.

Then, he took out another two crystals from the Space Ring, held them in his hands, and began to absorb their energy.

After absorbing the energy of six fist-sized crystals, he felt that the vital energy in his body had returned to its peak state. Vital energy could warm and nourish the body, so after it returned to its peak state, Austin felt energetic and refreshed.

When he lightly clenched his fist, he felt the strength of his body rise.

His bones hummed like the light beat of a drum.

Even though Austin had replenished the vital energy in his energy meridians, he continued to take out crystals from the Space Ring and absorb their energy one by one. The energy he absorbed now would be stored in the vital energy stone in the elixir field.

Back in Sun Mountain, he had almost exhausted the energy stored in the vital energy stone in order to shake off Dwayne and Abbott.

Now, it was time to supplement it.

took out the Space Ring,

Ever since getting the Space Ring, he had hidden it in his chest so as not to make other people jealous.

He took out the Space Ring and showed it to the beast.

"You like this?"

The beast shook its head and pointed once more at the Space Ring.

Austin realized what the beast was saying. It wanted something that was inside the Space Ring.

'That's strange. What does it want?' Austin wondered.

After thinking for a moment, he took out several bottles of elixirs, but the beast shook his head.

Then, Austin took out all the things in his Space Ring and showed them to the beast one by one.

As soon as Austin showed the beast one of the fist-sized crystals he had found in the circular cave, there was a flash of grey light. The next moment, Austin found that his hand was empty. The beast had grabbed the crystal before he even realized what it was doing!

Austin was taken aback. The beast was so fast that he had barely even seen it move. It had taken the crystal away with a flash of grey light. In fact, the beast was too fast to be perceived even by spiritual sense.

If the beast attacked him at this speed, he definitely wouldn't be able to escape.

At this thought, Austin's face stiffened. He regarded the beast thoughtfully.

The beast held the crystal in its paws, intoxicated by its success like a libertine stealthily entering the room of a girl or a hungry man seeing a table full of dishes.

After sniffing the crystal dramatically, the beast opened its mouth and swallowed the crystal as a whole, much to Austin's astonishment.

Then, it licked the corners of its mouth with its tongue, as if recollecting the pleasant flavor of the crystal.

After it was done, it looked up at Austin with pitiful eyes and alternated between pointing at Austin's Space Ring and its mouth.

Austin was speechless.

He took out another crystal and threw it to the beast. Again, the beast sniffed the crystal dramatically before swallowing it.

It begged for one more crystal before finally stopping.

Austin was pained to see the beast gulp down three of these crystals so easily. After all, these crystals were rich in vital energy and were very valuable.

Fortunately, after eating three crystals, the beast touched its belly with satisfaction and stopped asking for more.

Suddenly, something occurred to Austin.

He usually used his mind to perceive what was stored in the Space Ring.

But strangely, the beast had known that there were crystals in his Space Ring at just a glance.

"Violet, do you know what kind of beast this is?"

The Supreme God

Chapter 309 A Thousand-Year-Old Fleece-flower (Part One)

To Austin's utter disappointment, neither he nor Violet could identify the strange little beast in front of them. Neither of them had encountered or even heard of such a creature.

"Well, we have lingered in this cave for a couple of days already, and I think it's time for us to go," Austin said, giving up on studying the little beast. Although neither of them could recognize it, it seemed quite cute and adorable from Austin's perspective, and he somehow grew fond of it.

So he decided to leave it alone instead of bringing it along, and leave the place at once.

But to his surprise, the little creature suddenly hopped out of the cave. It took a few steps before looking back at the two of them. The creature then waved at him with its small paw, earnestly, which left Austin confused and amazed. It took Austin quite a while to realize what it was trying to say to them.

It actually wanted Austin to follow it somewhere which was beyond weird.

Seeing that the little beast acted so much like human beings, Austin's interest immediately peaked. But he was still not sure whether he really understood what it meant. Pointing to himself, he curiously asked, "Did you just ask me to follow you?"

The little thing nodded vigorously like an eager child who just got the attention of an adult, which had added to its cuteness. It then turned and hopped on quickly.

Austin was very much intrigued. Without thinking twice, he ran out of the cave and followed the little beast, the curious Violet on his heels. He was very eager to find out where the beast wanted him to go.

The beast sped up after they got out of the cave. Before Austin and Violet could catch up with it, the little beast suddenly jumped across the cliff and raced through the obstacle course.

The two of them had to use bodily movement skill to try to catch up with it. The little beast was incredibly fast. The fact that its size was small had only added to its agility. It was like a whizzing ball of fur in the distance. It darted in the mountains like an arrow, and at every

turn of the road Austin thought that they were going to lose track of it. They never managed to catch up with it until after an hour of playing follow the leader, when they reached a dark and mysterious forest in the mountain.

was really dark and dreary. Sunlight was unable to penetrate through the thick canopy of the towering trees. Austin felt as if they had suddenly entered a different and isolated world. The place was so cold and creepy. They had to stoop down while walking through the dense

beast in this dense jungle, but luckily it came to a

turn around and point to something

the reason why this little fellow

lifted his foot and was about to go in the indicated direction, but the beast instantly stopped him in his tracks by placing its paw in front of Austin's legs. What was more, it even made the "shh" sign by placing its finger on its lips, like a little boy silently scolding an adult to keep quiet.

When he was holding it in his hand, he could feel a burning sensation on his palm, which indicated that the energy it contained was of strong and of prime masculinity. It was heating up like a burning coal.

It just so happened that the Golden Sun Scripture Austin was practicing at that time was of prime masculinity as well. It was such a weird coincidence.

The fleece-flower kept struggling to free itself, its human-like face contorting as it concentrated on squirming. But Austin was gripping it so tightly that its escape was simply impossible.

"My gosh! It's a thousand-year-old fleece-flower!"

exclaimed Violet, who had been observing it for some time.

"You know what this thing is?" Austin asked, his voice filling with complete excitement.

"Of course, and I'm sure about it! It's a real treasure, both magical and very rare to find!"

Violet almost shouted excitedly, like she had discovered some exciting new animal. She stared at the fleece-flower intently with her eyes as round as moon, as it writhed in Austin's hand. Based on her reaction and utter fascination, one could deduce that she was in fact telling the truth.

"I have lived in deep mountains and forests for a long time, long enough to have an extensive knowledge about many rare and valuable herbs. For all I know, this fleece-flower has already shape-shifted and taken a human form, and is able to develop cognitive skills. It usually takes a thousand years for a fleece-flower to develop and change into such a treasure," Violet continued to explain.

"You have refined at the premium stage of Earth Realm now, my master, soon you will make it to the Mysterious Realm. And when you are close to a breakthrough, taking this fleece-flower could rather increase the probability of success by thirty to forty percent," she added enthusiastically.

The Supreme God

Chapter 310 A Thousand-Year-Old Fleece-flower (Part Two)

What? Is it really that amazing?

Austin was glad and excited to hear this piece of information.

"Believe me, master. We should carefully store it for future use. You'll never know when it might come handy," Violet urged.

"But I'm afraid that we must keep it in a bottle or a box made of jade, for it has the cunning ability to escape other types of containers except the ones I have initially mentioned," she warned seriously.

Austin was again surprised with this fact. On second thought, this was nothing strange since precious things always required extra care. So he took out from the Space Ring a jade box and placed the fleece-flower in it.

Beside them, the little beast who had been quietly watching the unfolding events looked quite happy and satisfied, seeing that Austin had caught the fleece-flower. It suddenly jumped up and down in front of him, like a dog who suddenly got excited over a piece of bone.

Now, it was clear that this little beast had led them all the way here to find this valuable herb. Austin wouldn't have been able to find this herb if it weren't for the insistent little beast. If it were ever discovered by other cultivators, they would definitely come scrambling for it like hungry wolves out for sport, just like how they went crazy and scrambled for the celestial energy ginseng found in the Grand Desolation Mountain not long ago.

From Austin's point of view, this thousand-year-old fleece-flower could actually be more valuable than the celestial energy ginseng.

After walking on air for a while, the little beast suddenly waved at Austin again.

Austin got excited with the beast's action, but he thought twice and asked it doubtfully, "What's the matter? Are you going to lead us to another treasure?"

The little beast gave a smart nod in confirmation, then immediately dashed towards another direction.

after it again. Another hour later, they came upon a waterfall. The scenery was simply breathtaking. The waterfall seemed like a fine piece of silk from the

A few feet away from the waterfall, the pool was covered by eerie vapor. And amidst the cloud of vapor, flashes of lightning were bolting down, which were a bit hazy but clear enough for Austin and Violet to see. The lightning sizzled and

towards them. One could even get soaked, as if torrents of rain had poured down of them, if they stayed in the area even longer.

of these were caused by this unimpressive stick. And he was indeed wrong about it because it was certainly nothing even close to

quickly took the stick from the beast, and was momentarily stunned when he felt its weight. Although it was thinner than an adult's arm,

with one arm now, so logically he could hold

The black stick was surely something more than met the eye. Austin could hardly carry it since he had underestimated how heavy it was.

But damn! It could be three to four thousand pounds!

Moreover, Austin felt a stream of electricity surging through him as soon as he touched the stick, as if the energy of thunder and lightning condensed in it was resonating with him. This resonance had produced more thunder and lightning surrounding the stick, and had started producing such lights around Austin.

He still had no idea what this stick could be and in what way he could use it, but one thing was for sure--it was not just an ordinary toy, but another rare and extraordinary treasure.

After racking his brains trying to figure out how to use the stick, Austin finally decided to put it in the Space Ring. He promised to check it out sometime in the future when he could get more information about it.

Having placed the treasure away, Austin turned and looked at the little beast. It was almost dancing like it was quite pleased with itself because of what it did for him.

'What on earth are you?' Austin was now eager to know more about it. After all, no common beasts of his knowledge seemed to have a keen nose for locating rare and powerful objects in this world.

"Well, master..." Violet suddenly said, "I might actually know what it is."

Violet fixed her eyes on the beast with her brows knitted together, as though she was confirming her wild guess.

"Oh? What is it then?"

Austin asked anxiously after saying nothing in amazement for a while.

"It is probably a gnome!"
