

The Supreme God

Chapter 311 The Gnome

Violet measured up the little beast curiously, as if it was an incredibly powerful monster.

"Gnome?"

Austin had never heard of such a thing before.

"Yes. They're very rare. In fact, their species is almost extinct.

The other diabolic beasts said that back in the ancient times, there were many gnomes.

They are good at finding various kinds of precious natural resources because they can sense them.

Gnomes like to eat underground minerals which contain intense spiritual energy."

"Wow! It sounds like they're really special!"

Austin's curiosity had been aroused by Violet's words.

Just then, the gnome pointed at his Space Ring again.

Austin laughed bitterly. He knew that the gnome wanted to eat the crystals in his Space Ring. He had collected these crystals from the round cave, and all of them contained a large amount of spiritual energy.

But since the gnome had found two kinds of precious natural materials for him, Austin didn't want to refuse its request. He took out three more crystals and gave them to the gnome.

The gnome let out a joyful cry before swallowing the crystals immediately.

"Little fellow, we have to say good-bye now," Austin said.

He had decided to hide in the imperial capital city and help the young man fight for the throne in half a year.

He walked toward the direction of the imperial capital city with Violet.

But after taking several dozen steps forward, he realized that the gnome was following closely behind. In fact, it was walking right beside him now.

"You want to go with us?" Austin asked, stopping.

The gnome quickly nodded.

'With this gnome by my side, I'll be able to find many precious natural resources in the future, ' Austin thought to himself excitedly.

He laughed and gestured to the gnome to jump on his shoulder.

protest. In the blink of an eye, it was perched on Austin's shoulder. The three of them

was being hunted furiously by people from the Flaming Sun Valley and the Blood Wolf Team. Both groups must have cultivators

is some trace of array here, this should be the ruins of some sect. We have to be really careful. Normally, the power of array increases the deeper we go into the territory of the sect.

Violet nodded and asked, "Which way shall we go?"

Austin released his spiritual sense power and probed the area within a thousand meters. After a short moment, he pointed in a certain direction and said, "This way!"

Since Austin had spent some time on spiritual sense power cultivation with powerful crystals, he was able to sense a range of a thousand meters now.

As they walked, they found more arrays. However, these arrays seemed to have lost their power after all this time.

Along their way, Austin and Violet occasionally came across a few arrays which were still powerful but could be broken easily.

Austin guessed that these arrays might have been very powerful many years ago, but now, they had lost most of their power.

Although he could break these arrays easily with Violet's help, he didn't feel relaxed.

On the contrary, he looked more anxious. 'From looking at the ruins of the sect, it's clear that the arrays were arranged many years ago. However, they're still effective, so the sect should have been extremely powerful once. The arrays it arranged in its territory should also be extraordinary, ' he thought to himself.

After breaking another array, Violet clapped delightfully and turned to say something to Austin.

But before she could open her mouth, Austin suddenly rushed toward her and pulled her behind him. Then, he reached out lightly and released a strand of vital energy force.

At first, it seemed like the light golden vital energy hit nothing but air.

But then a shrill scream rang out. It had an incredible power similar to what the spiritual souls attacking skill released. It began to attack Austin and Violet's Soul Sea. However, its power was not strong enough, so it failed to break the defense of their Soul Sea.

Violet's face turned pale. She was shocked because she hadn't sensed any danger before being attacked.

She calmed herself down and looked carefully in Austin's direction. To her surprise, Austin was holding a faint and almost invisible figure in his hand. The figure, which was surrounded by rolling vital energy, had a pained look on its face. Its visibility decreased and it kept shrinking until it vanished completely.

"Was that a ghost?" Austin and Violet cried out simultaneously.

They looked at each other and felt a chill run down their spines.

Ghosts were formed from the spiritual souls of creatures when they died. They were like another form of being of these creatures.

Normally, without a body to attach to, the spiritual soul of any creature would be unable to exist for a long time. It would disappear in the air and become a part of the spiritual energy of heaven and earth. However, if the spiritual soul was kept in a suitable Secret Weapon or attached to some other creature's body, it wouldn't disappear.

However, the Secret Weapon to store spiritual souls was not easy to refine. And it was extremely dangerous for a spiritual soul to enter another creature's body as it was very likely to be swallowed by the spiritual souls of its new host.

In addition to these two methods, there was another way for a spiritual soul to keep on existing: finding a suitable environment.

As the valley was very cold and moist, the dissipation rate of spiritual souls was very slow. Under these conditions, they could exist for a long time and finally become ghosts.

But when a spiritual soul was transformed into a ghost, it would lose its wits and would only follow its instinct.

Ghosts were very aggressive and treated all living things as their enemies. It was hard to kill them without proper magical skill or a Secret Weapon.

The Golden Sun Scripture Austin had cultivated was a prime masculinity formula, so the light golden vital energy he released was able to suppress the ghosts. Other cultivators who hadn't cultivated such formulas wouldn't be able to destroy the ghosts as easily as he had.

The Supreme God

Chapter 312 Watch Out! Ghosts Are Everywhere

Austin was much relieved when he realized that what suddenly attacked them was just a ghost. Austin and Violet had a strong spiritual sense power, so they could perceive a ghost even before it could make a move.

Back when he was in the Grand Desolation Mountain, Austin had dealt with ghosts. He met Ghost Sect disciples who tried to take him down by exerting Soul Collection Array. During that fight, he had to handle a legion of ghosts, and thanks to that experience, he was well-prepared to easily defeat any ghost anytime.

Austin found the most efficient way to defeat ghosts when he was trapped in Soul Collection Array. He learned to attack them with spiritual sense since this creature was a form of spiritual souls of humans after all. When a person died, his or her spiritual souls still existed and would turn into a ghost.

With this, spiritual sense was the enemy of ghosts.

Austin wasn't scared to face the ghost even they were the spirit of a dead person. He believed that he could easily beat them once he unleashed his spiritual sense.

Austin returned to his senses. His face darkened as he realized that there was not just one ghost lurking around them.

Defeating a few numbers of spirits would be a no-brainer for Austin. But as he sensed a hundred of ghosts present, Austin felt a slight doubt to his victory. If he ran out of his limited spiritual sense, he would be in grave trouble.

Spiritual sense was much more difficult to replenish than physical strength and vital energy. It would be hard for Austin to manage to fight all of them at the same time.

Aside from that, overusing one's spiritual sense would lead a damage to spiritual soul.

This scenario would be fatal to the cultivator because it was nearly impossible to restore serious injuries to the spiritual soul.

Austin hit his head due to an assault and became mentally ill three years ago. Damages brought to spiritual soul would lead to severe illness and physical damage.

Austin remembered how he suffered back then. He became fully aware of the importance of his spiritual soul and started to avoid using his spiritual sense unless badly needed.

Austin slowly turned around to see Violet's response. He knew that Violet also sensed the presence of an army of ghost. Violet was nearly shaking as she looked tense toward the situation.

Odds were not in their favor this time. After a while, the two were able to confirm their hunch. Wisps of visible white smoke suddenly appeared. It made them shiver by its cold, chilling touch. The smoke billowed out from beneath the earth as if it was awakened by the ghost's screech.

They could notice some of them while others were not visible to the naked eye. It was like a shape of a human without arms and feet. The head was obvious but it had no face. There were hundreds of them that crept out Austin and Violet.

All of a sudden, Violet activated her spiritual sense and Austin couldn't help but perceive its strong sensation. Her spiritual sense quickly aimed at the ghosts surrounding them.

On the other hand, Austin did not waste any time and used his Spiritual Sense Flying Needle. With a blink of an eye, a myriad of needles shot the ghosts around them. Each ghost howled in pain and vanished in the air as they were hit by the needles.

by the ghosts, they were able to stand up to their enemies because of their excellent cultivation base. They both possessed

"This is interesting. An array that could rebound attacks. I've never seen something like this before," Austin remarked as his eyes lit up.

Austin was amazed to the array in front of him.

However, Austin furrowed his brows when he saw the clothes of the people trapped inside the dome.

"I believe that they are from the Flaming Sun Valley. What do you think they are doing here? Is it because of me? Are they going to kill me?"

"It's kind of strange. I didn't expect to meet them here," Austin said as he was slightly worried.

"It looks like they came here before we did. I figured they aren't here for you," Violet said in a low voice as she tilted her head.

"You have a point, Violet," Austin agreed.

"From what I can see, they seemed to have trouble breaking the array. Do you want to secretly help them?"

Violet respectfully asked Austin.

"I don't want to," Austin refused as he shook his head.

"I have a grudge against the people in the Flaming Sun Valley. They would have never let go of me.

Its people want me nothing but dead. I have no reason to rescue them in any way. Besides, I think this array can trap them for just a day or two. They will help themselves out," he added.

"This array only traps them, but it doesn't attack them. So they are quite safe for now..."

But before Violet could finish her words, he sensed something different. She turned her head toward Austin and looked in a distance.

Detecting that something was approaching behind them, Austin turned around and his face darkened with what he saw.

Several ghosts flew in their direction. They must have heard the noises coming from the dome. Before the ghosts would reach the dome, they would have passed at Violet and Austin.

Austin was pissed off and gestured at Violet to leave there.

But even before they took off, the ghosts detected them and ferociously looked at their direction. The ghosts wasted no time and rushed into them.

Even though Austin and Violet discovered a good spot to hide, these ghosts still found them because they could target any living creatures.

A cold, fierce look flashed in Austin's eyes. He gradually raised his hand, closed his eyes and used the Spiritual Sense Flying Needle. All of a sudden, needles flew toward the enemies. This place filled with fearful howls by the ghosts as they vanished into thin air.

The Supreme God

Chapter 313 The Ghost Valley

The ghosts were not that strong, and Austin wiped them out effortlessly. This, however, got the attention of the four people trapped in the array. They immediately spotted Austin and Violet.

The four startled people looked at the two with a frown. Austin grew embarrassed.

There were two women and two men.

Suspicion was shown visibly on their faces. They wondered what Austin and Violet had been up to hiding there. They were clearly annoyed at the fact that they had been trapped for quite a while, but the two delinquents did not even bother to lend a hand. This led them to believe that the two were up to no good. The two were probably planning to do something to them after they broke the array. Staying alert, they stopped attacking the array and carefully watched the two.

After discussing amongst themselves, one of the two women gave Austin an enchanting smile and waved. "Hello there! Would you mind coming over here?"

The other woman also flashed a charming smile.

With his spiritual sense, Austin already knew what they talked about.

The four planned to coax Austin and Violet into coming closer by using the two women's beauty. Then, they would ask the two what they desired, and would promise to give it to them if the two helped them out. After escaping the array, however, they planned to break their promise and deal with Austin and Violet accordingly.

The two men, on the other hand, were clearly enamored by Violet. They gazed at her with lust and laughed lewdly.

Austin knew that they were not to be trusted.

He snorted inwardly and thought, 'I didn't plan to fight you guys, but you are asking for it by plotting against me and Violet. Well, I am here to grant your death wish.'

The four had relatively low cultivation base compared to Austin. Dealing with them would be a piece of cake. For now, he decided to play along.

After they exposed their true colors, Austin would kill them one by one. After all, three of them were from the Flaming Sun Valley.

Because of Raymond and Dwayne, Austin detested the Flaming Sun Valley, and he wouldn't hesitate to kill the members of the sect.

Austin telepathically shared his plans with Violet.

Pretending to be enchanted by the woman who spoke, Austin trotted towards her and greeted her, "Hi, beautiful lady."

The woman covered her mouth with her hand and giggled while winking at him. "Hi, mister. Is this your girlfriend?" she asked, pointing at Violet. Then, she continued, "To tell you the truth, I think I've fallen for you at first sight. It's normal for a man to have mistresses, right?"

you know," taunted one of the two men as he looked at Austin and Violet scornfully.

"Ghost Valley?"

Austin and Violet looked at each other, shocked to hear the name of the valley. 'No wonder there are so many ghosts in here. It's probably why people started calling it with that name. It definitely earned its reputation.'

The four looked at Austin and Violet strangely when they saw their reaction.

The woman who seduced Austin giggled and asked him curiously, "Are you lost, mister? You don't seem to be aware of where you are."

Despite Austin's and Violet's confused expressions, the four were not convinced that it was genuine. They didn't believe that Austin and Violet were ignorant about the valley. After all, it would have taken them a day to reach the array from the entrance of the valley. If Austin and Violet only chanced upon it, then it would have been highly unlikely for them to go in that deep. Still, Austin's and Violet's expressions were so convincing that it was hard to tell if they were lying.

'Did these two idiots really enter the valley by accident and are not looking for its treasure?' the four wondered in disbelief.

"Yes, we came here by accident," said Austin.

"We don't know this place. Can you guys, by any chance, tell us the story of Ghost Valley and why there are so many ghosts here?" he inquired.

"Mister, have you heard of the Ghost Sect before?" the woman asked.

"Ghost Sect!"

exclaimed Austin as he recalled the sect.

"Okay, it looks like you have. You seem to know something about it. Because you helped us, in return, I'll tell you what you want to know," she offered.

According to the woman, the Ghost Sect was an evil sect of the Violet Orchid Empire. It was an ancient group that was known for its strong power many years ago, and Ghost Valley was its base.

500 years ago, the head of the sect decided that he wanted to put the whole Violet Orchid Empire under his rule, making the Ghost Sect the leader and all the other sects its subsidiaries.

To do this, the members of the Ghost Sect killed numerous cultivators and collected their ghosts for cultivation.

This was because they needed countless ghosts to cultivate their martial skills.

To defend against the Ghost Sect, all the sects and forces, large and small, united together to form an alliance that would resist the Ghost Sect's invasion. For a month, they fought relentlessly. They did not stop until the Ghost Sect was completely wiped out. Now, the Ghost Valley was deserted as its main residents were obliterated. What remains were the ghosts of the cultivators who had been killed by the evil sect. And such was the legend that enfolded this place.

Since then, cultivators journeyed here in flocks in an attempt to search for the hidden treasure of the Ghost Sect. Rumor had it that hidden in some of the caves were enormous amounts of treasure. Hundreds and thousands of people wanted a piece of it.

But the tragedy that took place left Ghost Valley with enormous amounts of negative energy and arrays. What was more, countless ghosts lingered about. Although many people came to search for the treasures, only a few of them succeeded.

But of course, all of it was hearsay. To this day, no one could confirm that this was indeed the home of the Ghost Sect, nor that the Ghost Sect ever did exist in the first place.

The Supreme God

Chapter 314 You Are Bringing This On Yourself

Austin and Violet were both astonished to hear that the valley was where the Ghost Sect once stood. They were also surprised to hear the story of the Ghost Sect's destruction as well.

"Thank you for telling us. I have been here for some time now but I didn't have any idea about what this place was at all. I wouldn't have known if it weren't for you."

Austin said with gratitude.

"Okay, I think this is enough. Why do you need to talk to this man so much?"

The taller man said impatiently while sparing Austin a resentful glance.

"Now that you know what this place is, you should leave as soon as possible. This is a dangerous place and if you're looking for fun, you would not find it here. Get out now if you cherish your life."

The other man shouted at Austin.

Austin was being treated rudely but he still kept his calm.

"Violet, let's leave now."

He took Violet's hand in his and they were about to leave.

"Wait a minute. I asked you to leave, young man, not her. I think we'll have some fun with this beautiful girl first."

The taller man said while staring at Violet with eager eyes.

His two female companions giggled as if they knew what would happen next. It seemed that they were used to this kind of things already.

"Oh? Why should she stay here?"

Austin asked them with a cold look. Their unfriendliness didn't surprise him.

"Fuck! Don't drag your heels any longer and just leave! If you don't leave this instant, I'll send you to hell myself!" the shorter man spat at him impatiently.

The man summoned his vital energy inside from his body and now that he was at the premium stage of the Earth Realm, an invisible and overwhelming wave of strength vibrated through the air. The vibrations were starting to reach Austin and Violet.

"Well, it seems that you're bringing my anger on yourself. I won't show you any mercy." Austin said.

He decided to fight this bastard seriously.

His arrogant words left the four strangers dumbfounded. "What? How dare you talk to us like that?"

You really want to die, don't you?"

The taller man shouted at him furiously after a few seconds of silence. He lifted his right hand, which was filled with his vital energy at medium stage of Earth Realm, and stretched it out towards Austin.

At that exact moment, Austin summoned his Spiritual Sense Flying Needle and ordered it to shoot at the man's head.

Once injured, the man only had one thought in his mind: RUN! However, before he could even put it into action, a creepy sense of danger suddenly overwhelmed him.

At that moment, a red flash appeared out of the blue and slashed at the man's chest like a violent lightning.

Surprised by the sudden attack, the man injected all of his vital energy into his iron saber and used it to defend himself.

Clang!

The sounds of clanging escalated when the weapons collided with each other. The man was now seeing clearly that the red flash was actually a red dagger.

Before he could breathe a sigh of relief, a black flash appeared on his right and hacked at his throat.

With blood gushing out from him like a fountain, his head left his neck and rolled to the ground.

In just a short period of time, Austin already killed two men at the medium stage and premium stage of Earth Realm, respectively.

The two female companions just stared at Austin with terrified looks. They were afraid that he would kill them both as well.

Austin retrieved the Twin Shadow Blades and held the Violet Royal Sword in his hand. He then turned to the two women with a cold expression.

Usually, he wasn't willing to kill women. However, he had killed two members of the Flaming Sun Valley in front of them. If they were to spread the news, Austin's enemies from the Flaming Sun Valley and the Blood Wolf Team would surely flock to take revenge.

What's more, Austin could tell from the two women's expressions that they must have done many immoral things in the past.

Because of this, he didn't feel any guilt at the thought of killing them.

When they noticed the cruel glint in Austin's eyes, the two women suddenly started taking off their clothes. In an instant, two naked and attractive bodies revealed themselves to Austin.

"Please don't kill us! We promise that we will give you a really good service. We will satisfy all your needs!"

They begged him pathetically while making sexy poses with their naked bodies. They were trying desperately to seduce Austin.

Admittedly, their attractive bodies aroused Austin and it made him burn with lust.

However, his reason outweighed his desire.

"Violet, deal with them as you like."

He shook his head at her and conveyed his instruction.

"Master, you don't have to suppress yourself. Just go and have a good time! They must be really good and they will surely please you. It's all right!"

Violet teased.

"Violet! Don't be silly!"

Austin spat at her angrily. She was embarrassing him on purpose.

Violet covered her mouth with her hand as she giggled. She then summoned her demonic energy and formed a black shadow of a huge fox claw. In a flash of black, the huge fox claw crashed towards the two women mercilessly.

After the screams of despair, the two dead bodies were found several meters away.

The Supreme God

Chapter 315 Being Attacked (Part One)

Is this where the Ghost Sect is located?

Austin murmured as he looked into the deep valley enveloped in cold and humid mist. He regained his senses after killing the two men and two women who attacked him.

"Austin, there may be the treasure of the Ghost Sect down there. How about going in and searching around?"

Violet proposed with hopeful smile and eager eyes.

"The ghosts are probably the greatest threats here, but we can deal with them easily. That should not be a problem."

Austin also itched to have a go.

"Well, now that we're here, there's no reason to back down. Let's go inside and have a look."

The two of them carefully started to move down the valley. They were not going to let go of a chance to get the treasure.

Along the way, Austin and Violet came across some arrays, but their power had been greatly reduced. They had been there for a long time and that had lessened their impact.

On the other hand, both Austin and Violet had very strong spiritual sense. While they moved forward, they used their spiritual sense to constantly feel the fluctuation in the vital energy in the space ahead. Whenever they felt that there was something wrong, they would quickly take a detour. In this manner, they were able to avoid many arrays that lay in their way.

a little misjudgment, they were caught up in some arrays, but they overcame them easily and were finally able to clear the path with their joint efforts.

direction. Since they had already come down there facing all the hurdles, she didn't want to give up. She was hopeful that if they tried hard, it was very likely that they would be able to find the legendary treasure of the Ghost Sect. But she had to listen to Austin, as he had

with a frown. Although they hadn't encountered too much danger along the way, the ghosts they met had become more and more powerful in these two days. Some ghosts that were nourished by the death breath all year round, had even gained some wisdom and were really hard to deal with. They would retreat immediately when they realized that they were at a disadvantage, but they would come back brimming with energy after some rest. Luckily, Austin and Violet had strong spiritual sense and powerful crystals to supplement their vital energy and restore their spiritual sense any

Austin said in a deep and husky voice, "I'm not sure! I am not willing to go back empty-handed. Now that we're here,

Violet nodded.

look for it. Anyway, it's just an area of

began searching the vicinity for the treasure they had heard

About an hour later, Austin stopped and looked around with a puzzled frown. For an unknown reason, he felt that something was wrong.

He was not the only one. Sharing the same feeling, Violet immediately walked up to Austin and searched around alertly with her spiritual sense.

After a while, Austin asked her softly with an odd look on his face, "Do you notice the stinking smell?"

"Yes. It is like something that's rotting." Violet replied. She was apparently aware of it too.

"Sure enough, it's not my illusion. Something is not right here."

Austin quickly drew out his Violet Royal Sword. He struck the withered tree which was nearby with more than thirty rays of sword-light moving at lightning speed.

Swish....

The sword-light hit the withered tree, leaving many holes on its dry trunk.

As soon as the tree was hit, it growled in a repressed voice. The cry was like the low and deep roar of a beast trapped in a cage. And an evil spirit burst from the inside.

Boom! The tree turned into fine powder with a strong explosion from the inside, and the spirit took the form of tall figure as it appeared before Austin and Violet.

On seeing the face of the figure, both of them froze. There was a strange expression on their faces—an expression of shock and horror.

The Supreme God

Chapter 316 Being Attacked (Part Two)

The figure that emerged from the tree was not a living person. Its face was dry and wrinkled, completely dehydrated. It was skinny with deeply set eyes. Two green eyeballs were fixed on them like ghost fire. It was tall and all of its bones could be seen under the skin. It was terrible to look at and would give anyone the creeps.

Austin didn't feel any vitality from it, but there was a thick death breath and the smell of a rotting corpse. However, from its bony body, Austin could feel that it had tremendous strength.

Austin and Violet realized that the rotten odor that they had smelled earlier had emanated from it. It was blocked by the dead wood, so it was not so strong.

Sensing that there was something strange about the dead tree, Austin attacked it with the sword-light. And unexpectedly, the corpse appeared before their eyes.

"What's this?" Violet asked in surprise.

"I have no idea, but I'm quite sure it's not a living person," Austin answered, shaking his head.

While they were talking, their faces turned pale. They were terrified when they saw the withered body in front of them carry a strange expression on its wrinkled face. It seemed to be grinning, but because of its wizened face, the grin seemed very strange and fierce. Suddenly a hoarse voice came from its mouth, "Ho ho...".

The growl was extremely weird and harsh. It was blood-curdling.

Listening to his growl, Violet couldn't stop shivering and hid behind Austin.

to be corpse miasma. It's extremely insidious. Once your body is invaded, it'll be difficult to remove it," Violet reminded Austin aloud. Seeing the abnormality on the back of his hand, she had thought for a while before she figured out what the gas was. She had to

"Corpse miasma?"

Austin rolled his eyes and immediately thought of the Golden Sun Scripture he had practiced from. So, he began to direct his vital energy towards his hand. The light golden vital energy progressed to the back of his hand, wrapping in that strand of black gas.

The creeping black gas, as if encountered by a powerful enemy, flew out from the back of Austin's hand and escaped into the air after giving out low, shrilling cries.

Seeing this, Violet felt relieved. Austin was not afraid of the weird corpse gas. Rather, he got rid of it, so she had nothing to worry about.

A little far away, the withered body climbed up on a few rocks. Its empty eyes stared at Austin. It didn't understand why the corpse miasma didn't work on Austin.

It had realized that it was not as powerful as Austin. For a moment, the withered body hesitated. It was not sure of what it should do.

Sadly, it was not as clever as man. So, after hesitating for a few moments, it decided to make a move again. It put on the ferocious look again, growled and rushed towards Austin. Baring its teeth and with hands that looked like claws, it was making a mad rush trying to frighten Austin and attack him.

Indeed the figure looked terrifying enough. It had great physical strength and its strange corpse miasma would have certainly scared many. However, it was clumsy in movement and lacked skills. Fighting it was like child's play for Austin.

Austin was not one to be afraid of it anymore now. So he moved in front as quick as a flash.

As the figure approached closer, Austin made a fist and the punch landed on the wrinkled face of the tall, dark figure.

The Supreme God

Chapter 317 The Base Of The Ghost Sect

The mummy retreated, and then suddenly rushed toward Austin again while bellowing.

It was clumsy and unable to move steadily on its feet. The only thing it did was move its body forward. Austin dodged, jumped to its left, and punched it on its left arm with great power.

Although every body part of the mummy was dry and very tough, it couldn't bear the force of 8, 000 pounds.

With Austin's punch, the left arm of the mummy broke off, exposing the dry muscles underneath.

A black corpse miasma with a repulsive stench was released from the exposed part of the mummy.

As more and more of this corpse miasma was released, the mummy seemed to be getting more exhausted, as if the vapor was the source of its energy.

With another bellow, the mummy turned around to escape, realizing that it could not defeat Austin.

With every movement, its heavy dry feet left footprints on the ground so deep that it looked as if it had been engraved by knives or axes.

Of course, Austin wasn't going to let it go so easily. He started his Wind-commanding Skill and leaped in front of it before thrusting his arm out at lightning speed. Bang! With a single punch, he sent the dry corpse flying backward.

The sound of bones cracking echoed. The mummy's skin tore off and a big pit appeared in its chest.

At the same time, the dense black miasma was released into the air.

In a second, the mummy was surrounded by the dense black corpse miasma.

It suddenly collapsed onto the ground as if it had used up all its energy.

Then, without warning, it started to cry out again and again.

'Oh, no, this isn't good.

It's asking its friends for help!' Austin thought, horrified.

Austin and Violet exchanged meaningful glances. They were both thinking the same thing.

It had been easy for them to fight one mummy. But if they had to face dozens of these things, they would have a hard time defeating them.

"Violet, let's go. It's very risky for us to stay here. This place is too dangerous for us," Austin said to Violet.

Violet nodded, but before they could run toward the exit of the valley, they heard bellowing sounds coming from the surroundings.

Austin and Violet saw three mummies appear from three different directions. One came from a crack in the ground, another crawled out of the trunk of a dead tree, and the last one appeared from behind a wall. These three mummies growled in low voices and tried to surround Austin and Violet.

Seeing the three mummies, Austin and Violet did not feel frightened. On the contrary, they let out a sigh of relief. It was a good thing that there were only three of them.

It wouldn't be difficult for Austin and Violet to defeat three mummies at the same time.

But when the three mummies rushed toward them, Austin realized that while two of the mummies were as strong as the one they had destroyed, the third one was much stronger. In fact, it was almost twice as strong as the one they had destroyed. The black dense miasma it was releasing was much denser and had a stronger stench.

As they were having this conversation in the dark fog, one of them suddenly raised his voice.

"One of our corpse soldiers is facing some cultivators," he said.

"You're right. There are cultivators nearby.

That means we can get more resources soon!"

Everyone in the tunnel looked excited.

But a moment later, their expressions darkened.

"Shit! The corpse soldier is giving off a signal for help. It seems that one of these cultivators is really powerful. Let's go outside to take a look," one of the men said.

"Don't be hasty. I think this is a good opportunity to test the corpse general we have made, isn't it?" a second man said.

"That's a good idea!"

The other people nodded in agreement with the second man.

At this time, Austin was going head to head with the tall mummy.

He wasn't scared of the black corpse miasma being released by the mummy at all. He just kept punching continuously with the force of 8,000 pounds.

The muscles of the tall mummy had begun to tear off and some of its bones were broken. Its body kept releasing black corpse miasma here and there, like a leaking tank.

The dense black corpse miasma was as smelly as the stench from a rotten body, which could make people feel ill.

A few minutes later, Austin's punches had hacked the whole body of the mummy into pieces. The black corpse miasma it was giving out faded off into nothingness.

Finally, the mummy collapsed motionlessly onto the ground. It couldn't attack Austin any longer.

Austin let out a sigh of relief.

He felt exhausted after taking down the mummy with just his physical strength. This particular mummy had a lot of strength. Austin estimated that it must have had about five or six thousand pounds of strength.

Just then, a small figure appeared on Austin's shoulder with a flash.

It gestured to Austin as if trying to express something to him.

It was the gnome!

The gnome was the one that had led Austin and Violet to the Ghost Valley.

However, ever since they had entered the Ghost Valley, the gnome had disappeared. It had probably gone someplace else to look for treasures.

Austin had met the gnome only a while ago and wasn't attached to it, so he hadn't worried about it much when it had disappeared. He had been more focused on fighting the mummies and getting out of the Ghost Valley in one piece.

In fact, he had forgotten about the gnome altogether and hadn't expected it to show up now.

The Supreme God

Chapter 318 Breaking Into The Nest Of The Corpses

The gnome showed up on Austin's shoulder and made a gesture with his hand. Austin saw him point towards a shabby building on the east.

While looking at the foundation of the building, he realized that it must have been some kind of splendid palace in the past.

However, it was now only left with a fragmentary foundation.

"You mean there are treasures inside that building?"

Austin guessed while still looking at the gnome.

When the gnome heard this, he nodded vigorously. His legs pushed on Austin's shoulder and he rushed to the east like lightning.

"Aha, this guy seems to be loyal to his friends. It seems that he has no intent of monopolizing the treasures. I think he wants to bring us to him instead."

Austin said to Violet. They moved to follow the gnome.

Suddenly, the place where Austin and Violet stood just moments ago started shaking as if there was a small earthquake.

With a big boom, the earth was torn forcefully into two parts. A half-meter gap appeared on the ground and a figure that was wrapped in a dark fog rushed out like lightning. After a little while, it settled on the ground.

A pair of scarlet eyes appeared in the dark fog. There was no humanity in those eyes and it was only filled with mighty cruel and bloodthirsty eagerness.

The scarlet eyes scanned the surrounding but didn't find any targets. There were only four moribund dry corpses that had been attacked and were disabled.

"ARGHHH!"

With a deep and furious roar, the figure reached out a pair of steel-like claws. It grabbed the four moribund dry corpses with its claws and one by one, tore them into pieces like they were paper.

Then, it opened its big mouth filled with fangs and sucked the corpse miasmas that were floating around in the air and inhaled them all.

It also sucked the dark fog that was surrounding it. A large, dry and powerful corpse with blue veins suddenly appeared.

There was a layer of dark fog on the skin of the corpse. It was like black ink was poured into it, releasing the scent of cold and gloom.

Its eyes were red like that of a beast and it was filled with blood thirst.

When the corpse exposed its body, it sniffed the air several times with its dry nose. Then, after several deep roars, it trudged down towards the direction of Austin and Violet. . . .

Austin and Violet followed the path of the gnome and ran towards the palace relics.

corpses here. The situation is not good for us. It would

"No. We are already here. I will never fall back. The gnome also worked hard to bring us here. There are a lot of good things inside this cave. I can't just let them go. It was said that wealth was always accompanied by risks. You can't make any achievements because of being afraid."

Austin gave her a confident smile and the gnome also nodded his head earnestly.

Violet gritting her teeth and decided, "Well, we better start searching around then. But please be careful and remember not to wake up the corpses that are in a deep sleep. With so many corpses in one place, we will be exhausted if we fight them all."

The two exchanged a short glance and sneaked forward quietly.

It felt as if the sleeping corpses would open their eyes very soon. Inside of the cave, there were a lot of dry corpses scattered around. Austin, Violet and the gnome were all very careful, light-footed and quiet in crossing over the corpses.

They passed through some forks with great length along the road. They could clearly sense the strong corpse miasmas and movements in those forks. They walked carefully because they were afraid to wake the dry corpses.

Whenever they pass the forks in the road, Violet will unconsciously move closer to Austin because there was some sense of security when he was near. The gnome also quietly crouched on Austin's shoulders and didn't even move one inch. Austin was curious about his actions because he didn't expect the gnome to be afraid of the corpses.

Fortunately, the three were all well defended so there was no sense of exposure while they were on their journey.

After a while, Austin and Violet found themselves inside a huge secret cave. The secret cave has rows of wooden frames with various boxes in it.

Austin and Violet cheered and rushed toward the wooden frames to open the boxes one by one.

Both Austin and Violet's face clouded after opening the boxes. They couldn't help but swear.

The boxes were exuding a faint fragrance of elixirs so Austin and Violet thought that there must be a large amount of valuable elixirs and herbs inside it. However, when they opened the boxes, Austin and Violet found that the boxes were empty inside. All of its contents were nowhere to be found!

Austin and Violet were pissed. They never expected that their efforts would lead to nothing.

The place was definitely a storehouse of elixirs and herbs made by the Ghost Sect. The rows of wooden shelves could be added up to about a hundred and each shelf had three layers with about six boxes on each layer. However, the boxes were now empty and all the elixirs and herbs were gone.

All the boxes had been opened and the original contents were already taken.

It was so hard to find this place. At first, they looked at the boxes and thought that their efforts would finally yield good results, but then the situation turned sour and Austin and Violet fell into a bad mood.

After searching for a while, there was still no good news. Austin and Violet sighed in defeat.

Fortunately, in addition to the secret cave, there was still another room to be searched. The both of them didn't hesitate to go further. They continued with their journey immediately.

Suddenly, a loud sound came from one of the caves beneath the ruins.

"Damn it! According to the message sent by our corpse general, the man and the woman somehow broke into our corpse storage warehouse!"

"What? No way! Our corpse storage warehouse was completely hidden! There was no chance for it to be discovered by outsiders."

"Maybe they broke in by accident? Whatever! It doesn't matter! The most important issue here is that the corpse storage warehouse was the treasure house of our Ghost Sect in the past. There is still some wealth from our Ghost Sect stored there until now. Even if we already consumed the elixirs and herbs in the boxes during the refining of the corpses, there are still some mineral resources in there. Most importantly, the secret books of our Ghost Sect were hidden there!"

The Supreme God

Chapter 319 Sacred Weapons

With the gnome leading the way, Austin and Violet continued to explore deeper into the cave.

As they walked, Austin roughly estimated that they had come across over a hundred mummies along the way.

It looked like the cave was a hideout for mummies but he still was curious and wanted to know why there were so many mummies in here.

He observed the mummies closely. From the shabby clothes they wore, Austin deduced that they were warriors.

But the question was: did they die there or were their bodies moved there after their deaths?

A number of doubts crossed his mind. Was the formation of these mummies just a coincidence? Or could it be that the warriors in question happened to die in a cold and humid cave, and became mummies after a long, long time?

Or was it someone else's doing?

Austin and Violet felt their blood chill as they laid eyes on the sleeping mummies scattered on the ground.

After they went ahead for about a kilometer, they found themselves in another hidden cave.

Rows and rows of weapons sat on parallel racks in the hidden cave. Every one of the weapons on display was spiritual weapons of different grades—low, medium, and high.

Austin owned many spiritual weapons but one could never have enough treasures. Even if he didn't use them himself, he could always sell them to make more money.

The sight of so many weapons excited Austin to no end. "No matter what else happens, it's been a worthwhile trip!" he exclaimed ecstatically.

What they had found before had only been empty boxes, the medicinal pills and elixirs having been pillaged. Their latest discovering had erased any disappointment that they previously had.

Even if this would be all they found in their exploration of this cave, they would still be quite satisfied in the end.

Austin scanned the rows of spiritual weapons and noticed something that excited him, something that made him rush towards it.

single stride, Austin went over to the corner of the cave where a single weapon rack stood,

flash of dazzling light, the wall cracked open, astounding Austin. The crack left on the wall was approximately one meter deep and

on the strike

Once he had tested the power of the sword, Austin was very pleased. The sword was definitely made for him. He thought that he would use this sacred weapon to replace the Violet Royal Sword he had now.

After Austin took the sword into his Space Ring, they went to check the other spiritual weapons in the cave. There were a great variety and number of spiritual weapons. And though Austin was already very rich, he couldn't resist the temptation to get them all.

There were at least thousands of them in number, and different types of spiritual weapons. There was a full range of the weapons the world had to offer: sabers, spears, swords, halberds, disks, and beads. Besides that, there were also all kinds of jewels and a few rare spiritual weapons like streamers and flags. Treasured armours were also plenty.

The large number of Secret Weapons in the hidden cave surprised Austin and Violet. They exchanged glances and then split up to gather the weapons. They had soon stripped the cave of all articles, leaving it rather bare and empty.

Austin and Violet had chosen some high-grade clothes, wristbands, and round-shaped breast protectors from the armor-related spiritual weapons, and put them on.

These treasured armors could defend attacks from an opponent and protect them from being hurt.

It could save their lives if they got hit.

"We haven't reached the end of this cave. There might be more hidden caves ahead," Austin said.

After having gathered all the spiritual weapons, Austin looked towards the passage that headed deeper into the cave. His eyes glinted with great anticipation and joy.

Austin, Violet, and the gnome set out on the passage that led them into the depths of the cave, with the hope of finding more treasures in the exploration.

... .

At the same time, behind the huge rock at the entrance of the cave from where Austin and Violet had entered, appeared a tall, strong, dry, scary-looking mummy. Corpse miasmas loomed like a black shadow as they followed him. The mummy sniffed the air and then, his red, bloodshot eyes locked firmly on the rock.

The next moment, the mummy pushed off the ground and bumped into the rock with the intensity of a massive grenade. He used his body to clear the way instead of his hands.

The rock rumbled and crashed, sending pieces of rock flying in all directions. As the dust settled, a huge, human-shaped hole appeared in the rock.

The mummy managed to force his way in.

Once he entered the cave, the mummy let out a howl that echoed through the hollowness of the cave. He wasted no time and moments later, he had set off in their direction, hunting them with the speed of a blowing whirlwind.

Now that the mummy had detected Austin and Violet's scents, it was easy for him to chase his targets.

The Supreme God

Chapter 320 Ghost-devouring Flag

The tall corpse followed the tracks that Austin and Violet had made, and entered the cavern behind them. People who were inside another cavern instantly felt where the corpse went.

"The corpse general we sent in has found the whereabouts of the two intruders. They have intruded into our corpse storage warehouse.

All our standby resources are stored in the depths of that warehouse. Those resources are our backup plan to rebuild our sect and get our revenge.

If the intruders find them, we're going to be in a hell of trouble," one of them remarked in a concerned tone.

"You're right. We need to kill these two intruders as soon as possible.

Even if they don't take the resources, we can't let them leave this place.

If they go and tell about us to their friends, our base will be exposed and there are going to be hordes of people here to steal our resources.

There's no way our leaders will let us off the hook in that case. Look what happened to the Tomb Owner! If we don't stop them, that's what's going to happen to us."

"Well, I don't think we have too much to worry about. The corpse general has already found them, and will wake up the sleeping corpses in the corpse storage warehouse. They shall deal with them.

There are hundreds of corpses there. I don't think the intruders will be able to survive their onslaught."

Upon hearing that, the rest of them felt much relieved. After all, even a cultivator at the Mysterious Realm wouldn't be able to deal with hundreds of corpses easily, let alone steal things from right under their noses.

They guessed that the two intruders were cultivators with little cultivation base and were here to look for treasures after hearing about the story of the Ghost Sect.

After all, cultivators at the Mysterious Realm were all supposed to be quite wise and cautious and would not try to come here just after hearing a few stories.

and check on them?" one of them asked.

Right now, we'd better hurry up and refine the Ghost-devouring Flag.

Meanwhile, Austin and Violet had reached the depths of the cavern by that time and found a smaller cavern.

They couldn't help but laugh out loud at the sight that greeted their eyes.

There were loads of vital energy crystals and various kinds of precious ores in there, theirs for the taking.

Almost one third of the vital energy crystals in here were superior vital energy crystals.

They were all piled up on the ground, forming several hills. Judging by a glance, each of these hills rose up to more than a hundred feet. Austin looked around and guessed that a single crystal hill contained at least four million vital energy crystals.

Austin and Violet stood in front of these vital energy crystals, and reached out their hands to touch them, smiling from ear to ear.

The gnome was very excited too. He jumped off Austin's shoulder and bounced about like a child.

Austin estimated that there were more than ten million vital energy crystals in the cavern and at least five or six million superior vital energy crystals.

'Jeez!'

To be frank, Austin was actually quite rich at the moment, but what he was seeing right now was a fortune that he had never dreamed of. His heart started beating rapidly.

He and Violet looked at each other with surprise and delight in their eyes.

At this moment, the gnome stood before Austin, and held his head high. He looked as proud as a peacock. Evidently, he was trying to remind Austin that full credit went to him for finding this place. He pointed to Austin's Space Ring, giving him a wink.

Austin immediately got his point, and took out two of the divine vital energy crystals he had gotten from the previous round cavern. Divine vital energy crystals contained even more energy than superior vital energy crystals. He gave the crystals to the gnome and stroked his head.

The gnome took the divine vital energy crystals and swallowed them without hesitation in delight. After that, he patted his belly, satisfied with his prize.
