

The Supreme God

Chapter 3501 Enjoy Your Life While You Still Can

"Alston, Austin won!

He led his men and killed a team of more than 160 people!"

At that time, Alston and his men were rushing to the field where the battle had taken place. However, all of a sudden, a slightly terrified voice came from the contacting stone in his hand.

"What? Is it true?

How could he kill a team with more than 160 people in such a short time?"

Alston couldn't help but stop in his tracks.

All his men were dumbfounded as well when they heard the news.

"What the hell is going on? Damn it!"

Alston's face darkened.

"Previously, both Jade and Hyman had chaotic magic treasures in their hands, but they were also killed by Austin.

It seems that I have underestimated this bastard.

Although he is only at the Divine Realm, he's so difficult to destroy!"

Alston murmured in contemplation.

"Alston, it seems that Austin is indeed a little different,"

Meredith nodded and said.

"Humph! I must admit that Austin is quite special in some aspects.

How could he wipe out two of my teams so easily?

I think there are two possibilities. First, Austin possesses a powerful ability to cross several realms and kill a medium-grade divine god who is above his level.

Second, I reckon there are formidable medium-grade divine gods in his team to assist him!

Well, he's definitely not playing games. I must take the situation seriously from now on.

We must kill him at all costs!

He may be talented, but I believe that no one in this area is powerful enough to defeat me!

In terms of team size and numbers of chaotic magic treasures, I'm not inferior to Austin. In terms of strength, on the other hand, I'm far better than him!

Let's wait and see. I won't let that bastard get away this time!"

Alston said arrogantly with a smug on his face.

"Yes! Austin is just a nobody. How can he defeat Alston?"

"That Austin is doomed. Alston will definitely tear him into pieces!"

"Yes, its Austin.

I do remember killing Hyman and Jade a while back. However, it's been so many days, but you haven't done anything to avenge them.

Just wait and see, Alston. Soon, it will be your turn.

But before I kill you, I will kill all your members one by one.

I won't kill you until every single one of them is dead.

But one thing's for sure. You and your team will be eradicated!

So Alston, enjoy your life while you still can,"

Austin said coldly on the other side of the contacting stone.

Then, there was a sharp crack as if something was broken into pieces. Afterwards, there was a dead silence.

Alston was furious. He furrowed his eyebrows and held his breath as if he was getting ready to bellow in rage.

The men around him were also shocked as they looked at each other.

At that moment, all of a sudden, the contacting stone in his hand glowed again, and a violent spiritual sense energy was transmitted out.

"Alston, help us!

Please!

Someone is trying to kill me. I could sense him rushing towards my hiding place as we speak!

It's... Austin!"

A voice came from the contacting stone in Alston's hand.

Previously, he had given contacting stones to a dozen of his smartest men with good bodily movement skills, and sent them to inquire about the recent news.

Moreover, the contacting stone had enabled them to communicate with each other in an instant.

"Retreat! Fall back at once!"

Alston shouted.

"Ah!"

A scream came from the other end of the line.

"It's too late. I killed him.

Do you like my gift, Alston?"

Austin's mocking voice suddenly echoed again from the contacting stone.

Then, with a loud bang, the contacting stone at the other end seemed to be shattered to smithereens again.

As Alston held the contacting stone in his hand, he trembled slightly.

The atmosphere was tense, and it was so quiet that one could hear a pin drop!

No one dared to speak.

Everyone heard Austin's words clearly.

It was the most serious provocation, as if he was slapping Alston on his face.

The Supreme God

Chapter 3502 The Huge-crowd Strategy

Austin had made himself clear, which meant that he would not stop going after Alston until either of them was killed by the other.

Originally, in this battlefield where the medium-grade divine gods competed with each other, Alston thought that he was an invincible expert and that he was destined to defeat everyone and become the most dazzling winner in the end.

No one dared to provoke him as the consequences would be severe.

However, no one had expected such a turn of events. Alston was not only provoked and challenged, but also humiliated deeply by his opponent.

What added to the shame was that his challenger was only a Divine Realm warrior! This was a bitter pill for him to swallow.

"Austin, I swear that I must kill you, or I will have to kill myself instead!"

Alston was so angry that his whole body trembled violently and he almost ground his own teeth to bits and pieces.

Visible furious flames ignited around his body, burning the air and twisting the surrounding space near him.

With a wave of his hand, more than a dozen colorful contacting stones flew out of his sleeves and landed in front of his subordinates who were medium-grade divine gods.

"All of you, go and investigate his whereabouts right now.

Report to me as soon as you find anything!"

With a gloomy face, Alston gave out his commands to the medium-grade divine gods in his team.

The medium-grade divine gods were a little hesitant and looked at each other with furrowed eyebrows. If they indeed came face to face with Austin, it could mean their sure deaths.

Just a few seconds earlier, everyone clearly heard the news that the people who were sent out to search for Austin had already been slaughtered by Austin on the spot. There were no survivors.

They all came to the realization that it was a rather dangerous task to make any investigation on Austin's whereabouts.

"Go now! What the hell are you waiting for?"

Alston roared in anger. He was very dissatisfied with their reactions.

Those medium-grade divine gods were pressed down by the aura around Alston, making their hearts beat extremely fast. With no choice but to obey, they hurriedly left, each with a contacting stone in his hand.

"Austin, from now on, I will come after you no matter where you go! You are to be doomed and it is bound to happen sooner or later!"

Alston cursed with such resentment plastered on his face.

Meanwhile his subordinates had begun busily searching for Austin in every nook and cranny of a certain area.

Once they found something, they would immediately report it to Alston through the contacting stones that Alston had provided.

However, Austin had clearly sensed the situation and immediately found out their tactics.

"Ha ha, it seems that Alston regards me as a formidable enemy,"

Austin sneered.

"Oh? Well!

On second thought, yes. What you said may indeed be true!"

Alston was stunned at first and then began to sort everything out as he tried to pull himself together.

"You may be right. What's you said is possible."

In the end, Alston nodded and agreed to Meredith's idea. He became even more confused now.

"It seems that I have to find a way to deal with that bastard!"

Alston began to rack his brain for an idea to deal with Austin.

"Well! I have an idea! I think I will use the huge-crowd strategy!"

Suddenly, his eyes lit up as he shouted out his plan excitedly.

"Huge-crowd strategy?"

All the people around looked at Alston with a puzzled look. Was he making up words? Was that a real strategy?

"Send our men to contact all the teams in this battlefield.

Invite them all here so we can corner and kill Austin together!

At that time, all the teams will work together to form a large encirclement formation. We can carry out a thorough search for Austin. I believe that with so many people searching for him, we can definitely find him! We can no longer miss him if he is backed to a corner!"

Alston announced loudly.

"Alston, that's a good idea!

But I wonder if the other teams in this battlefield will listen to you. Well, at least we have to give it a try,"

an elder medium-grade divine god said to Alston cautiously.

"Humph! Now I can believe that Austin's points are close to two hundred thousand!

He also has three chaotic magic treasures and all kinds of treasures which are priceless. He's a fucking fat sheep!

Besides, he and his team have destroyed at least a dozen teams during this period. Their harvest is absolutely amazing.

It could be said that everyone in his team has made great progress and they have acquired a number things from their victories over the other teams.

What's more, despite his simple outward appearance, Austin is actually cruel and merciless. He deliberately revealed the location of their base camp and lured other teams to hunt them. Once I tell others about his plot, it would definitely cause public indignation and he will become the most hated enemy in this competition.

So, don't worry. All you need to do is to tell everyone about Austin and his evil deeds.

Ha ha! At that time, I will take advantage of my prestige in this battlefield to call for everyone to unite and deal with him together. I believe that most of the teams will respond to me actively!"

Alston sneered.

"Wow! That's awesome! This is such a brilliant idea!"

His men all shouted with excitement upon hearing their boss' plan.

In no time, Alston had sent some smart men to do the job.

The Supreme God

Chapter 3503 The Decisive Battle

Soon enough, under Alston's orders, his men had spread his offer to invite other teams to cooperate with him. He had one objective in his mind—to annihilate Austin and his group. He also had his men spread the rumors about Austin's wealth, and his plot to take down the other teams.

Alston smirked. 'These people are way too predictable, ' he thought. Just as he expected, all the other team leaders responded to his call.

"Humph! Austin is ruthless.

I can't believe that he leaked the location of his team on purpose! Turns out, he had set up all kinds of traps in secret, waiting for us to fall into the snare.

What a cunning guy! It is in everyone's best interest to hunt him down and take him out!"

"Austin has amassed lots of points already. On top of it, he has three chaotic magic treasures.

His subordinate are just as abundant.

It's a good decision to respond to Alston's call to take Austin down. After we take him out, we can get our share in the spoils."

"Come on, let's go meet Alston.

While we are attacking Austin, we can also assault his team.

Hence, our objective is to do everything we can to get more points and magic treasures."

The other teams quickly responded to Alston's call as soon as they had his offer.

The next day, more than ten teams had come to meet with Alston and his men.

There were over two thousand people in total.

So far, in this competition, the total number of survivors was roughly around two thousand.

In other words, almost all the people in this area had come to take part in hunting down Austin.

When this news reached him, Austin was taken aback.

"Seriously? Am I this annoying?"

"I can't believe that so many medium-grade divine gods want me dead," Austin muttered bitterly.

He knew that his attitude tended to rub off the wrong way to some people, but he didn't expect to be this much.

"In fact, everyone has their eyes on our points and our magic treasures.

They all want to get a share,"

Hare informed.

If he fought with those teams openly and won, I would have no problem with that.

But he used some dirty means to win. That was against the rules and regulations of the competition.

Therefore, it's necessary for us to work together to eradicate this nuisance."

Alston was making a generous speech to rebuke Austin's behavior, which provoked everyone's anger.

"I agree! I heard that brat is just at the Divine Realm.

In terms of strength, he is as weak as an ant, not even worth mentioning.

But he used some dirty tricks to get ahead. He is despicable."

Whispers and murmurs were exchanged. The rest nodded in agreement.

"I heard the news that Austin had about two hundred thousand points.

Perhaps he has more than two hundred thousand points now.

He also has at least three chaotic magic treasures with him.

Moreover, Austin's team had eliminated at least seven teams. I bet the amount of points and the treasures that they have is immeasurable.

Everyone, we can't miss on this golden opportunity.

How about this? Once we confront him, those who manage to finish off Austin and his team will get all of their points and treasures,"

Alston continued.

'What!'

Most of them got thrilled as their eyes lit up.

"Well, let's cut the crap.

From now on, all of us stay together while canvassing the area. We must find Austin,"

Alston boomed.

"Got it!"

Everyone echoed.

They all had the same goal: find Austin and his team as soon as possible and make a fortune out of it.

So, under Alston's orders, over ten teams fanned out and began to look for their target.

Each team was only about ten miles away from each other, so they could cover a larger area and watched each other's back at the same time.

Alston also gave each team a contacting stone, so that they could inform each other of their whereabouts. In case any of them would come across Austin, other teams could come and help out.

"Take action!"

As soon as Alston gave the order, all the teams quickly began their search.

The Supreme God

Chapter 3504 Take Action

At this time, Austin was quickly travelling underground.

He used his spiritual sense to communicate with the Earth Energy. Through this, he could decipher the situation from a distance.

Since he was proficient in the Earth Exploring Technique, he could perceive the situation that was much further than he could do on the ground.

Half a day passed.

Austin found a new batch of earth dragons to supplement his storage.

His previous battles had been fierce, and in consequence, plenty of his earth dragons perished along the way.

With his newfound batch of earth dragons, he found that he now had eight hundred earth dragons under his control.

The natural energy in the Fallen Divine Valley was abundant, and the Earth Energy was also copious. Earth dragons thrived in these conditions; hence, a large batch was born.

With this on his arsenal, Austin had the upper hand.

He summoned his Earth Exploring Technique as he traveled underground, communicating with the Earth Energy. Not long after, he had set up several arrays.

The arrays weren't just any regular ones—they were special.

They had some similarities with the ordinary array, but they differed in some parts. This particular kind of array Austin set up mostly consisted of Earth Energy. It was made for a specific type of topography, forming all kinds of laws that restricted each other, thus, creating all sorts of strange and terrible energy.

The ancient Earth Masters, who had attained the summit of Earth Exploring Technique, were very powerful. They could use secret techniques to communicate with the Earth Energy in a flash, instantly change the appearance of the earth and mountains, and set up all kinds of terrifying lands of death.

Unlike these proficient masters, Austin had to spend time traveling underground to set up these traps.

At the same time, more than a dozen teams were desperately searching for Austin above the ground.

There were even instances that he was directly underneath these teams. Had these groups had been more observant, they could have found his location. However, Austin managed to escape by taking advantage of Earth Energy.

His presence was blanketed by the abundant Earth Energy. Hence, the medium-grade divine gods marching above the ground couldn't perceive his proximity even though he was literally under their feet!

In fact, this was why Austin was undaunted despite the amount of medium-grade divine gods looking for him.

He was absolutely at an advantage.

On the other hand, Hare and Otis led their team to hide in the headquarters.

More than a dozen earth dragons were lurking around the base camp. They were standing guard for the members, so this place was very safe. There was no need to worry that someone would suddenly come to them.

Austin was almost done with

hundred and seventy

Among the fifteen teams, five of them have the chaotic magic treasures.

There are a total of three chaotic magic treasures in Alston's team.

Alston alone controls two such treasures, and one of his capable fighters, Lude, controls the other one.

Alston's team has the most members, and they also have the most chaotic magic treasures. Overall, they are our most formidable enemy.

My plan is to avoid Alston's team and attack the other four groups who own the chaotic magic treasures first.

Our objective is to collect the other groups' chaotic magic treasures.

This way, our team's strength will skyrocket before we face Alston's team.

We can deal with other teams easily this way."

Austin laid out his plans. Everyone was listening intently to every word he said.

"Well, let's grab the chaotic magic treasures of those four teams first. This plan is a good one!"

After discussing for a while, they all agreed.

"Great! Let's move!"

With a wave of Austin's hand, more than one hundred and sixty earth dragons emerged from the ground. They carried them from the field and disappeared into the distance.

Now, the number of Austin's team members had reached more than one hundred and sixty.

Many of them were gods of light from the three thousand big and small universes.

Not long after, traveling under the ground, Austin's team had approached a team marching on the ground.

They had more than one hundred and eighty persons. Their leader was a strong man in black with a ferocious look on his face.

Based solely on his outward appearance, he seemed to be a very tough guy.

"This is our target!

Be careful and cooperate with each other according to our previous plan!

After all, the most important thing when we take action is to do it in the quickest way possible!

Otherwise, things will be troublesome when other teams come here to assist them!"

Austin warned the others seriously under the ground before they began their sneak attacks.

The Supreme God

Chapter 3505 Consecutive Victories (Part One)

"Now, I'm going to activate the Five Elements and Four Beasts Array I set up before. As I do so, we can get out of here and finish them all when the array starts to attack. It will be good enough to distract them!"

Austin explained with enthusiasm.

Then, he focused on summoning out the Earth Energy. He waved his hand to make a formula and launched it into the air.

Within a radius of a hundred miles, the ground instantly trembled violently.

Boom! Ear-deafening sounds filled the whole space nonstop.

Five streams of thick Earth Energy spewed out from the ground from the east, south, west, north, and the center of the land like five billowing columns of seawater.

Each column of Earth Energy had a different color. They were blue, red, white, black, and yellow columns for the east, south, west, north, and central regions, respectively. Each of these varying hues represented the different locations of five most essential elements between the heaven and the earth.

The earth shook violently. The five streams of thick Earth Energy erupted and burst out like lava from volcanoes. They blasted into the air and filled the space between the sky and the ground. The whole area was instantly sealed and locked by the tremendous energy it brought.

Suddenly, four huge shadows of beasts appeared in the border zones. They were the shadows of the cyan dragon, the white tiger, the vermilion bird, and the black tortoise!

The silhouette of these legendary beasts flew skyward and roared loudly. Everything that surrounded them trembled before their presence.

The Five Elements and Four Beasts Array set up by Austin was completely activated!

This particular defense he made could not only attack and safeguard them, but it could also block the enemies' advances, seal the space, and deceive them. It could even do a whole lot of other mysterious functions.

the hell is going on

It was a chaotic magic treasure!

"I don't care who you are, and I don't need to know who you are. I'll chop you to death!"

the man roared out of sheer rage. The steel saber in his hand was shining with a bright radiance. Also, it kept emitting dazzling divine light and numerous runes associated with blade skill. They both spread into the air like countless ripples.

"Go to hell!"

Austin expected his enemy to retaliate. He was thoroughly prepared for this. Hence, he activated the small purple sword and shot it at the back of the man's head.

As he shoved the sword, Austin waved his fist to give off rays of golden divine radiance. His fist enlarged nonstop until it was the size

of a vast mountain. The giant fist dashed and suppressed toward the muscular man with great force.

Several secret realms in Austin's body had been connected to each other as a whole. Endless chaotic energy surged within these realms like billowing water. This propelled Austin's force to the extreme.

The strong man was receiving attacks from the front and his back. He was frightened out of his wits.

He raised his hand to block the purple sword from behind; he felt that compared to Austin's approaching fist, this small sword was definitely much more dangerous and lethal.

Every move made in the battle was decisive, and they were already at a critical moment.

Otis and Hare decided to join the fight. They rushed out from the underground, and activated the chaotic magic treasures. They used these items to take down the muscular man.

The rest of Austin's team also came out of hiding, looking for their own targets to fight.

There were a total of three chaotic magic treasures from Austin's side being used at the muscular man in black simultaneously.

Three hundred earth dragons also joined their battle. Austin, Otis, and Hare used all kinds of secret skills to attack the man.

The Supreme God

Chapter 3506 Consecutive Victories (Part Two)

Caught off guard, the muscular man in black completely lost the opportunity to fight and got panicked.

Such an attack was far beyond his ability to cope with.

The nine-ringed steel saber in his hand couldn't exert much force under the joint suppression power brought by his enemies' three chaotic weapons.

He warded off several strikes from his opponents before he gave up completely.

"Ahhhhhh!"

The muscular man in black fell down as Austin gave a powerful blow at his head when he was preoccupied. His brain blew up, causing him to die instantly.

The nine-ringed steel saber fell into Austin's hands.

"Kill all of them!"

As soon as the strong man died, Austin led his team members to slaughter the man's subordinates mercilessly. Their enemies fell down like lifeless puppets one after another.

"Austin appeared!"

"Hurry up, let's go there!"

The other teams nearby felt something strange. They quickly rushed towards Austin's place.

"Let's retreat!"

Austin sensed that the other teams found out what was going on so he quickly ordered his men to retreat.

"Where is Austin? Where is that bastard?"

Three teams nearby rushed to the battlefield, ready to support their allies. But it was too late, as Austin had already left. They saw not even a soul on Austin's side.

"Austin killed our boss!"

Only half of the muscular man's team members were left alive. They all cried and shouted in miserable voices, despair written on their faces. Most of them were still in a state of shock since everything happened so fast.

Their team had suffered a tremendous loss.

"What the hell? They were all killed!"

Austin murdered the leaders of these two teams. On top of it, the chaotic magic treasures in their hands were taken away by that bastard. This is unbelievable!"

Soon enough, Alston received this report. He was taken aback.

"Damn it!"

I should have thought of this before! Austin's main purpose is to hoard the chaotic magic treasures!"

Alston instantly figured out his tactics.

"Among the teams, how many of them still have chaotic magic treasures?"

He slammed his fists madly.

"Apart from our team, there are two other teams that have chaotic magic treasures,"

a subordinate communicating between the teams answered.

"Hurry up! Inform the two teams and ask them to see me immediately.

We cannot let Austin rob the chaotic magic treasures from them!"

Hurry up!"

Alston ordered angrily.

"Yes, sir!"

A medium-grade divine god standing next to him immediately took out the contacting stone. He contacted the other two teams that had the chaotic magic treasures.

With Austin's growing power, they couldn't afford to lose any of the chaotic magic treasures any more.

In the distance, Austin traveled underground with his people and targeted another group owning a chaotic magic treasure.

With hundreds of earth dragons lurked underground in this entire area as his scouts, Austin knew exactly what Alston ordered his team to do.

"Ha-ha, you realized it too late,"

Austin sneered and smiled coldly.

The Supreme God

Chapter 3507 The Team Became Stronger (Part One)

"Boss, we have been ordered to go back and meet other members in no time!"

On the ground, a medium-grade divine god in the team targeted by Austin suddenly reported to their leader.

"Oh? But why?"

The leader asked in confusion. He was a short middle-aged man.

"According to the information that was provided to us, Austin focuses on those teams who have chaotic magic treasures. Two such teams

have already been attacked, their leaders were killed, and their chaotic magic treasures have been taken away as well!"

the medium-grade divine god replied, providing as much information as he could.

"I see. Then, let's go back and meet with the others, and then we will decide what to do next. Prepare to leave!"

The leader wasted no time and made the decision immediately after hearing the latest news and all the information that he needed. His facial expression changed a bit. He realized that if this Austin guy was really out there hunting teams with chaotic magic treasures, his team might face danger if they went forward like this.

Then right at that moment, something happened unexpectedly.

Boom! Boom! Boom!

The ground under the leader's feet shook violently and then suddenly broke apart, tearing down the middle.

Austin, Otis, and Hare, along with the hundreds of earth dragons, rushed out and attacked him in a frenzy.

Austin, in particular, came from behind without being noticed, taking advantage of the leader being distracted by the attacks from the earth dragons.

The result was the same.

The leader's defense only lasted for a few seconds. He was slain mercilessly in a little less than a flash.

"There is another team with chaotic magic treasures!" he told his members as they traveled rapidly beneath the ground.

At this time, Alston suddenly came to his senses and realized the gravity of situation. "Damn it!

There is another team with chaotic magic treasure. Let's hurry and get there before Austin and his team arrive. We must stop Austin today! We might end up regretting it if we are not careful.

Don't forget to inform the nearby teams to hurry up and make sure to provide assistance!

Don't waste any more time. Go now! Inform all the other teams immediately!

Tell everyone to go there and deal with Austin with all their combined efforts!"

he roared loudly before he rushed away with his people, heading to where Austin and his team were also going. It seemed like there was going to be a bloodbath today.

Soon, all the teams received their orders.

In no time, all the teams and people had gathered and rushed towards the same place.

Under the ground, Austin sensed what Alston's intention was. He was a bit surprised.

'Oh?

I can't believe that Alston has found out about our strategy. He has figured out our plan.

Well, it seems that I will have to change my plan.

I'll have to give up on that team with chaotic magic treasures for the time being, '

Austin thought to himself.

At the thought of this, he changed his route and retreated, leading his team back to their headquarters.

"Let's have a rest first, and then we can launch a real big hunt!"

The Supreme God

Chapter 3508 The Team Became Stronger (Part Two)

Austin announced delightfully. He was filled with a renewed fighting spirit.

"Sirs, have a look at these! I am sure you can refine these three chaotic weapons."

Austin called Keysley, Magee, and Bernie aside and gave them three chaotic magic treasures.

Austin handed out a nine-ringed steel saber, a golden halberd, and a black whip.

Keysley and the other two were overjoyed at the sight of them.

In the outside world, any chaotic magic treasure would cause a fierce fight among the medium-grade divine gods or even the premium-grade divine gods. They were all eager to own a chaotic magic treasure.

But now, Austin was giving them three chaotic magic treasures. They could not feel more grateful for his kindness and generosity.

Ultimately, the three of them picked their own weapons. Keysley chose the halberd, Magee chose the steel saber and Bernie chose the black whip.

"Sirs, you'd better hurry up and refine them as soon as possible. We have a real terrible fight at hand!"

Austin said promptly.

"We agree! Let's do it!"

The three of them took the chaotic magic treasures they had chosen and went to cultivate in seclusion to refine them.

At the same time, Alston's team and all the other teams who responded to his call, had gathered in one place.

However, much to their disappointment, Austin didn't show up there at all.

"What? Where is Austin? Didn't you tell us that he would come here in no time? Where is he? Where is that son of a bitch? And I don't see a single living person here, let alone anyone well equipped."

"Alston, it seems that the information they gave you is wrong."

"Alston, you are right. Thank you for providing fresh perspective on
this. You are truly a great leader!"

Finally, all the teams agreed with Alston and their morale was boosted
once again.

Afterwards, Alston gathered the leaders of each team to discuss and
reorganize their plans and strategies.

Meanwhile, in the headquarters of Austin's team, they had made
significant progress.

"Ha ha, finally, we made it!"

Keysley, Magee, and Bernie had completed their cultivations and
laughed loudly after they successfully refined the three chaotic magic
treasures that had acquired during the previous battles.

Because of this, six members in Austin's team now had control of the chaotic magic treasures.

Moreover, in the past few days, there had been a number of gods of light from the three thousand big and small universes secretly joining Austin's team.

This made the number of his team reach more than one hundred and ninety.

"Finally, we can start our slaughter freely!"

Austin announced with a smile.

The six chaotic magic treasures proved their worth being extremely terrifying during fights.

"Ha ha, I like this young man! He really didn't disappoint me at all. He even went beyond my expectations.

I didn't let him find any treasures especially magic treasures on purpose.

But look at him! He still managed to obtain so many chaotic magic treasures with his own strength.

In terms of talent, intelligence, thinking ability, or luck, he is good at all of them! This competition has really brought out the best in him!"

In the sky above the Fallen Divine Valley, a pair of huge eyes watched Austin. Joyful laughter could be heard from the owner of this pair of eyes.

The Supreme God

Chapter 3509 Austin Showed His Face

"Everybody! Austin's tactic is to always catch us off guard.

Therefore, we should reduce the distance between teams to five miles only.

In that way, we can decipher each other's location through our spiritual sense.

Looking for Austin and his team should go smoothly.

As soon as we see him, we will attack him together and rip him into bits,"

Alston announced loudly for all the teams to hear.

"Five miles is a safe distance.

We can easily look for each other and Austin can't pose a threat to us."

The rest nodded in agreement.

"Let's get started," Alston ordered.

Taking his orders, groups of people began to make their way towards the location where Austin and his team were.

As advised, they merely kept five miles between each other. They advanced slowly and carefully.

Austin's team, on the other hand, were fifty miles away from them.

"Everyone, the decisive battle has officially begun!"

Austin announced in the stronghold.

"Keep this in mind: since we are outnumbered, we can't fight them head on.

So we should ambush them.

Once we launch a surprise attack, we will reduce a portion of their team, and then we'll leave immediately,"

Austin laid out his plans to his team.

"I've never heard such a fighting strategy before. That sounds interesting!"

They all agreed to Austin's amazing strategy.

"So, be prepared. Each time we assault the enemy, we must be quick. Once we put down some of them, leave the battlefield immediately.

We can't let the enemy's main force stop us, or we will be in trouble,"

Austin warned.

"That's it. I'm going to activate the geography arrays I made to attack enemy.

As soon as they panic, we can begin attacking them,"

Austin notified.

When he was done informing them of his plan, Austin stomped the ground hard with his right foot to summon the Earth Energy.

Then, the earth rumbled and tremendous Earth Energy poured forth from the ground.

Alston analyzed.

"Well, you have a good point.

It's indeed improbable for an Earth Master to participate in this competition,"

Meredith responded as he thought what Alston said.

"Don't panic, everyone. Let's fight these things together!"

Alston boosted his team's morale.

Upon hearing this, the medium-grade divine gods launched fierce attacks on the earth dragons and magic beasts with their magic treasures or secret martial arts skills.

Golden lights soared into the sky, and the earth shook.

The distance between teams was five miles. Everyone in the teams watched each other's back.

With their teamwork, Alston and his people prevented the four magic beasts and the earth dragons from eliminating all of them.

"Ha-ha! I knew it. Although these damn things appear formidable, we can handle them without any difficulty."

Alston laughed proudly.

It made sense. All after, the joint attacks of numerous medium-grade divine gods were powerful.

"Ha-ha! I was scared!"

"I was almost freaked out by these things just now! It turns out that they are just so-so."

The other medium-grade divine gods also felt relieved and relaxed.

When the Five Elements and Four Beasts Array was activated, they were immediately intimidated with its grand display of power.

At that moment, the ground where a team was standing instantly collapsed.

A group of people rushed out of the ground with a determined and passionate look on their faces.

It was Austin and his men.

"Move!"

Austin was the first one to take action. He activated his purple sword and ran straight towards the enemy. In a few seconds, he had already put down four medium-grade divine gods.

Hare, Otis, Keysley, Magee, and Bernie activated their chaotic magic treasures at the same time.

The powers of their weapons were formidable.

Behind them were over one hundred people in Austin's team. They charged at their enemy with their full might.

In just a few seconds, Austin and his people had destroyed half of their enemy's team.

"It's Austin!"

"Austin finally showed up. Come on, let's fight together!"

"Austin, you son of a bitch. You're dead meat!"

In the distance, people from other teams immediately spotted Austin and bolted towards him.

"Austin, you can't get away this time!" Alston uttered with untold hatred.

He located Austin in a blink of an eye and shot towards him like an arrow.

The Supreme God

Chapter 3510 Have A Good Time

Looking at the people rushing towards them from all directions, Austin quickly barked out his order.

"Retreat!"

Whoosh! Whoosh! Whoosh!

Every member of Austin's team was well prepared and quickly dove into the ground.

Two hundred earth dragons waited for them beneath the ground.

Boom! Boom! Boom!

One by one, Austin and his team mounted the earth dragons, fleeing far away as fast as they could go.

All of them were confident they wouldn't be chased down. The Fallen Divine Valley made flying or hiding underground incredibly difficult after all.

Unlike any of the others, Austin was proficient in the Earth Exploring Technique. Gathering earth dragons and putting them to work was a piece of cake for him. As a result, his team could freely come and go from under the ground.

There was no doubt that Austin's ability to communicate with the earth and take advantage of the Earth Energy greatly helped him. It was the ultimate trump card to ensure their upper hand during the battle.

"Austin's team seem to have all gone underground!"

"What's going on? That's impossible!"

Due to the Fallen Divine Valley's special rules, flying and hiding underground are both impossible.

How did they make it look so easy to escape underground?"

Several medium-grade divine gods came from afar in response to Alston's call, thinking they could successfully catch him. But the opposite of their expectations slapped them in the face. All of them could do nothing as they watched Austin disappear with his people and were unable to locate him at all.

Everyone could only stare down at the ground in shock at where Austin and his team disappeared into.

"I see!"

No wonder Austin can mysteriously appear and disappear to continuously launch sneak attacks on our people. Seems like he can freely hide underground even in the Fallen Divine Valley!"

Alston's eyes lit up when the realization dawned on him.

At the same time, something was happening at the distance.

"Where's Austin?"

Aggression rolled off in waves from a team that appeared in front of Austin's allies.

However, the land behind the team suddenly cracked open, and a group of people filled with murderous rage rushed out.

"Die!"

They were none other than Austin's team.

"Watch out!"

of death!

Cold sweat broke out throughout many medium-grade divine gods as they desperately tried not to tremble with fear!

Dozens of miles away, the ground cracked open.

Boom! Boom! Boom!

Austin and his team rushed out of the ground, observing Alston's troops from afar.

Only ten miles separated the two groups and both of them could clearly perceive the other's existence.

"Ha-ha! Alston, how's it going on your side? Did you have a good time looking at the brilliant work I left for you?"

To be honest, I should thank you.

You gathered so many people together and saved me lots of time from having to hunt them down one by one!"

Mockery filled Austin's cold laughter and could clearly be heard by Alston and his men.

"As for all of you..."

Originally, I had no problems with any of you and may have to spare you.

But now that you're here to support Alston, I have no choice but to kill you all!

If you want to blame anyone, you can push the blame to him. He invited you to join a terrible party!"

Austin's taunts continued to echo in their ears.

"Argh! Austin! Damn you!

Stop spouting shit! You can't deceive everyone! You're the one who created all these tragedies!

Everyone! Listen to me! Go after him!"

More anger filled Alston because of Austin's arrogant claims. Like a crazed man, he rushed towards Austin.

"Go! All of you!

There's no turning back for any of you now. He'll never let you go anyway!

Let's fight together! I refuse to believe that we won't be able to kill him with more than a thousand people chasing after him together!"

Alston turned around and roared at the medium-grade divine gods behind him.

Despite his fury, most of the medium-grade divine gods paused for a moment to exchange hesitant looks with each other.

"Alston's right. It's impossible that Austin will spare our lives after what we've done to him.

Besides, we have so many people here. What do we have to be afraid of?

Wouldn't we be turned into a joke if this story spreads in the future?

Let's catch up and assist Alston!"

Finally, all the medium-grade divine gods reached an agreement and closely followed behind Alston. Murderous intent filled the air as they shot towards Austin like shooting stars.
