

The Supreme God

Chapter 3541 This Mode Of Attack Is Awesome

"Let's go!"

Without missing a single beat, Austin rolled up the Heavenly Majestic Pot with a wave of his sleeve. Then, they disappeared in the headquarters of the Flame Holy Land.

With his current cultivation base and his amazing bodily movement skill, Austin could easily go to the Heaven God Cosmos. He just walked leisurely without the help of the Reincarnation Token.

After a few seconds, Austin, along with the Heavenly Majestic Pot, had arrived at the space barrier of the Heaven God Cosmos.

He looked around and observed every nook and cranny. "The Heaven God Cosmos is truly dominated by the gods of darkness," he whispered.

Upon his inspection, Austin found there was a group of people guarding the entrance.

Moreover, there were numerous arrays created by divine gods encapsulating it.

In the past few years, the gods of light and darkness had fought for their territory in the three thousand big and small universes. Every time they would successfully dominate a place, they would send people to safeguard the land.

This place, the Heaven God Cosmos, was now governed by the gods of darkness.

"These bastards!"

the Heavenly Majestic Pot furiously interjected.

For several years, he had served as the leader of the Divine Sect. He had invested most of his time and energy during his rule. Now, to his dismay, the entire Heaven God Cosmos was occupied by these strangers. Naturally, he would be fuming.

"It doesn't matter. Let's go inside."

Austin reassured, and smiled.

He swaggered confidently towards the entrance. With his current strength, he could even fight those medium-grade divine gods of darkness, so he had nothing to be afraid of. He smirked at this thought.

In just a few steps, he had quickly arrived at the entrance of the Heaven God Cosmos.

The gatekeepers were immediately on high alert. "Who are you?" they demanded.

Getting no answer from Austin, they rushed towards him to stop him from getting any closer.

Bang! Bang! Bang!

Without saying a single word, Austin released his aura. This took them by surprise. His aura was so horrifying that it evoked tremendous damage among them—most of them were left with serious injuries.

"How dare you!

This territory is owned by the gods of darkness. Anyone who breaks in without permission will be executed!"

An enraged figure dashed out from the Heaven God Cosmos. His face had a deep scowl.

It was a preliminary-grade divine god. He shouted madly at Austin, with great force surging all over his body.

"Shut up!"

Austin raised his fist and a golden light burst out. The whole fist, like a huge golden mountain, rumbled towards the preliminary-grade divine god.

This was one of the skills that Austin had cultivated before, the Divine Golden Fist.

Now that Austin had become a divine god, he now had a deeper understanding of the ingenuity of this fist. The power it brought was much more terrifying than it used to be.

Puff!

The preliminary-grade divine god wasn't able to resist Austin's attack at all! In just a matter of seconds, he was smashed into pieces by Austin's fist.

After killing the gatekeepers, Austin strutted into the Heaven God Cosmos.

"Damn it!

Someone is coming!"

Both of them trembled against the impact. They took a few steps back simultaneously.

The medium-grade divine god was taken aback. He had always looked down upon Austin because he was just a preliminary-grade divine god. He had always assumed that he himself was more powerful.

But now, after a head-on fight with Austin, he finally realized that their strengths were almost at par.

Whoosh!

Taking advantage of his retreat, Austin arrived in front of a preliminary-grade divine god in a flash and smashed his head in a single blow.

Puff! Puff! Puff!

Austin killed five more preliminary-grade divine gods in a row.

The only adversaries Austin had left in the field was a single preliminary-grade divine god and the medium-grade divine god!

"Austin, you..."

Both of them felt cold as if they had fallen into an ice cellar.

"Retreat first!"

The medium-grade divine god knew that the odds were stacked against them. He didn't dare to continue any further. He rushed out of the Heaven God Cosmos.

Naturally, the preliminary-grade divine god closely followed behind him.

"Ha-ha, it's too late to escape now!"

In a flash, Austin caught up with the preliminary-grade divine god and broke his body with a punch.

Then, he chased after the medium-grade divine god, and stopped him in the chaotic void outside. His opponent still managed to put up a good fight for at least a few rounds but ultimately, Austin still broke him into a million pieces with a sword strike.

"Ha-ha, this is great!"

You helped me vent my anger!"

The Heavenly Majestic Pot burst into laughter.

"Let's go. Now that we have made a move, we must go and retrieve several more universes!"

Austin smiled in satisfaction.

"You're right!"

The Heavenly Majestic Pot was in high spirits.

Then, Austin, together with the Heavenly Majestic Pot, snatched back seven universes that had been controlled by gods of darkness.

"Austin, how dare you!"

In the base camp of gods of darkness, the thoroughly-odd beast and the fire-disaster beast were furious and roared as soon as they heard the news.

"This guy is too powerful!"

At the same time, the gods of light in their base camp laughed when they heard the news.

"Go and get even with Austin. I can't stand it anymore. I want to kill him myself!"

The fire-disaster beast got even more livid. It tightened its fists, and gritted its teeth.

"Calm down. I just received a message that numerous top masters of our side are about to return!"

What's more, the isolated alien spaces are going to send another batch of warriors to help us.

The people who will come back this time are truly powerful.

Let's wait a little more. We'll get even with Austin later,"

the thoroughly-odd beast said.

"Okay! I'll listen to your advice. It sounds sensible enough."

The fire-disaster beast thought for a while and nodded.

The Supreme God

Chapter 3542 Thad (Part One)

At the Headquarters of the Divine Sect in the Heaven God Cosmos, Austin and the Heavenly Majestic Pot were talking in the conference hall.

The Heavenly Majestic Pot ordered his servants to serve them the spiritual tea and divine fruit.

"You don't have to worry. I've asked three great elders to set up several brilliant arrays to protect the Heaven God Cosmos.

With the level of those arrays, no one could just break in here.

See? We've also set up some teleportation arrays just in case. If anything might happen, you can go back to the Fallen Immortal Cosmos through the teleportation arrays immediately,"

Austin told the Heavenly Majestic Pot as he finished sipping his tea.

"That's good to hear then.

By the way, it felt so great to see you kill so many divine gods from the god of darkness side.

Did you see how they scream and run away like clueless and helpless hogs? I'll tell you what! This is the best day of my life! Well, at least one of them! Those guys deserve that kind of beating!" the Heavenly Majestic Pot said as he laughed heartily.

"Well, it's a pity that I'm a magic treasure. I'm at the Divine Realm and I guess that's already the highest level that I can attain.

I assume that no matter how I hard I cultivate, I would just stay at my current cultivation level. No matter how much I want to break through and reach godhood, I'm afraid it's never gonna happen.

I'm so envious of you, Austin. You've made it.

I know it has always been your goal to be a divine god," the Heavenly Majestic Pot said with a bitter smile.

"Come on! Don't be so sad. It's not like you.

You're right. It's more difficult for magic treasures like you to attain a higher cultivation level.

But nothing is impossible. Once you give up, that's the end of it.

After saying that, Austin showed his small purple sword and the Chaotic Striding Boots to the Heavenly Majestic Pot.

The Heavenly Majestic Pot looked intently at the two items that Austin took out. His eyes quickly lit up as he discerned that they were genuine chaotic magic treasures.

"You're not lying! Are you giving these to me?!"

The Heavenly Majestic Pot was so excited that he thought Austin was going to give the two treasures in his hands. He already got up from his seat and was ready to grab them.

"I'm sorry but I can't give these to you. They are my best weapons right now,"

Austin explained as he put away the two chaotic magic treasures.

With the aid of the purple sword and the Chaotic Striding Boots, Austin could even defeat medium-grade divine gods. Even if he was now a divine god, he still needed them because he still had a lot of more powerful opponents to face.

"My point is that if I already possessed two, then I can definitely find more of them in the future.

You just need to trust me.

I will get those chaotic magic treasures so that you can become a divine god," Austin assured him.

"All right, I'll believe you.

You better not let me down," the Heavenly Majestic Pot replied with a trace of disappointment in his voice.

For a while, there was silence.

Then, without any warning, loud thumping sounds resounded.

It was as if a humongous creature was jumping wildly in space.

Everyone in the three thousand big and small universes could clearly hear these noises.

"There's no doubt that it's the evil baby! I have to go and take a look!" Austin said as he clenched his fist.

The Supreme God

Chapter 3543 Thad (Part Two)

"Brat, I'll come with you too!" the Heavenly Majestic Pot quickly said.

With a wave of his sleeve, Austin took the Heavenly Majestic Pot, instantly bolted out of the Heaven God Cosmos, and headed for the Yellow Cosmos.

A moment later, the Yellow Cosmos already came into their view.

Soon after, many people also appeared and gathered around the Yellow Cosmos. They examined the cosmos and whispered to each other.

Thump! Thump! Thump!

Loud noises continued to resound from inside the Yellow Cosmos. These noises shook the surrounding void as if earthquakes struck them.

The sound waves that were produced spread in all directions like a raging tidal wave.

"This is not good. The evil baby will soon be born.

The sounds are getting louder and louder.

It's the sign that it will soon come out of this universe," the Heavenly Majestic Pot said in a very serious tone.

Every once in a while, the sound of the heartbeat of the evil baby would shake the three thousand big and small universes as if giving an ominous warning.

"Yes. It's definitely on its way from coming out.

There's no way to prevent that," Austin responded.

"The evil baby is full of vitality and possesses a terrifying amount of energy.

It might come sooner than we expected."

A voice spoke and reached directly to Austin's ears.

"Master Frost!"

Austin looked at the direction where the voice came from and saw three people approaching. They went near him, but their figures were still shrouded in mist. Ordinary people would find it difficult to know who they were.

The light dyed its entire surroundings with the color of blood.

Meanwhile, in another mysterious and vast universe community, there existed a huge yellow palace.

"At last!

The evil baby is about to break free and come out of the Yellow Cosmos.

It's time to face those bastards and kill them mercilessly. And after that, the three thousand big and small universes shall be ours!"

a giant said in a booming voice.

"Yes, sir!

We are at your disposal.

At your command, we will destroy everything and grant you anything!" dozens of giants who had surrounded him shouted with a burning passion.

At the same time, beyond the edge of the three thousand big and small universes, a black airship suddenly appeared in the chaotic void.

It was steadily approaching the three thousand big and small universes.

On the bow of the ship, a ferocious creature could be seen standing firm.

It emitted such a formidable aura that caused nearby space barriers to collapse.

Apparently, it was a headless creature.

Its features were so strange that its nipples served as its eyes and the navel was its mouth.

It held an old shield in one hand and a peculiar-shaped axe on the other.

The headless creature stood there, surrounded by infinite evil energy that spread to its surroundings.

An old man who wore indigo clothes suddenly emerged from the dark and came to the headless creature's side.

"What is it?" the headless creature asked as the elder appeared.

"Sir, we're almost at the three thousand big and small universes," the elder informed reverently.

The Supreme God

Chapter 3544 The Incoming Upheaval

"I see," the headless creature, Thad answered as he nodded his head.

His eyes pierced through the void and looked at the direction of the three thousand big and small universes as though he was trying to recall something.

"When I left back then, I've left some descendants there.

I wonder if they're all still alive," he murmured to himself. He let out a sigh as he gazed blankly at the distance.

After a few seconds, he released his spiritual sense to carefully perceive the situation in the three thousand big and small universes.

One day, without any notice, some creatures with special blood power in the three thousand big and small universes felt something strange.

They felt their blood boil, and it glowed as if it was being activated.

"What? What's going on? This is so weird."

The creatures were completely surprised at the abrupt phenomenon.

"It gives the feeling that it's coming from some kind of mark in the depths of our soul, like a kind of law.

It seems that a strong will is summoning us! Did you feel it too?"

Some of the bewildered senior creatures made bold assumptions.

Meanwhile in the Fallen Immortal Cosmos, Caroline was sitting with her legs crossed inside a cave located in the headquarters of the Flame Holy Land.

Her eyes were closed in deep meditation.

She focused on her cultivation and did her best to tune out all possible distractions around her.

However, out of nowhere, her delicate body trembled slightly and her beautiful face suddenly flushed aglow.

"Why does it feel like my blood is getting all wrought up?"

It seems like I'm being summoned," she muttered to herself.

Caroline was confused and overwhelmed with the unexpected disruption from her cultivation that her hands dropped to the ground.

At the same time, in the Evil Shadow World, Callum, the priest of the evil shadow race came running to the Evil Shadow King's Palace to report the unusual situation.

"My King, did you feel something strange?"

Something from the depths of our blood seems to be summoning us!" He tried to sound articulate despite his trembling voice.

"I did, Priest Callum.

What do you think is going on?"

Do you have an idea about what it means?" Evil Shadow King asked him.

"I have been observing the stars at night recently. For several nights in a row, I've noticed a bright star flying over from afar.

How can a new preliminary-grade divine god be that powerful?" Silas asked in a puzzled tone.

"What he said is true.

We suffered so many losses because of that guy.

In fact, he also killed a medium-grade divine god from the underworld," the fire-disaster beast added.

"What the hell? He has the strength to kill a medium-grade divine god as soon as he became a god? I didn't expect that such a young genius will appear among the gods of light.

If all you said is true, then we can't let this guy named Austin live further!

It is known that such young geniuses often carry some kind of great luck. If we're not careful enough, he might be the change maker of this war.

"So, I say we should find an opportunity to kill him before it's too late!"

a short man, about three feet high, said with urgency.

This short creature had his huge eyes on his forehead, and his whole body was covered with green-colored skin. Except for his waist that was wrapped in a red cloth, the other parts of his body were totally exposed.

"You're right. Before all of you have arrived, we are already thinking of a plan to get rid of him.

But he's a sneaky bastard, so we need to make sure that it's foolproof," the thoroughly-odd beast said in a serious tone.

"Well, let's discuss it further as soon as we enter the three thousand big and small universes,"

Thad, who had been almost silent all this time, suddenly proposed.

"Yeah, that's better."

Upon hearing his words, the other creatures nodded and didn't hurl any objection.

"I think it will also be a good idea to secretly go back to the three thousand big and small universes without being detected by the gods of light.

We can give them a nice surprise when the critical moment comes,"

the short man suggested with a wicked smile on his monstrous face.

"Yes, that makes sense.

Let them be complacent, and then we'll strike when they feel like they're gaining the upper hand," Thad said without expressing any emotions.

Soon after, they had already sneaked into their base camp hidden somewhere in the three thousand big and small universes.

At the same time, Austin had returned to the Fallen Immortal Cosmos and went directly into the headquarters of the Flame Holy Land.

"Did you see Caroline? I haven't seen her since I arrived."

As Austin returned to the headquarters of the Flame Holy Land, he found that one of his wives was not there.

"Caroline just left and went back to the Evil Shadow World.

Her father sent someone to pick her up earlier.

She told me to inform you once you got home," Ivy replied.

"I see. Well, maybe Lady Nathalie missed her daughter.

Maybe she wanted Caroline to live with her for a few days," Austin said with a smile.

The Supreme God

Chapter 3545 Slaughtering

The Evil Shadow World was also located in the Fallen Immortal Cosmos.

Therefore, Austin had nothing to worry about. It was reasonable for Caroline to go back to the Evil Shadow World to visit her parents.

Afterwards, he chose to cultivate in seclusion.

Inside the secret chamber, Austin first consolidated his realm.

Not long ago, he just broke through the Heavenly Doom and became a god, as well as fought a few more fierce battles. Although he had made massive achievements, his body had sustained injuries and his exhaustion levels were dangerously high. He really needed time to recover.

One day, two days, three days... time flew by like an arrow.

Ten days later, Austin stopped meditating and slowly opened his eyes.

"Great! My realm of preliminary-grade divine god has been consolidated.

In fact, I have experienced the Apotheosizing Doom twice, and my vital energy realm is very solid. It has stabilized and no longer fluctuate. I feel great, almost brand-new,"

Austin murmured to himself.

"Okay, next, I have to realign and improve my fighting power.

What I rely on now is mainly the two chaotic magic treasures, the Chaotic Striding Boots and the small purple sword.

Without them, it would be a challenge for me to defeat a medium-grade divine god merely by using my own strength.

Therefore, at this stage, the most important thing for me is to develop my fighting power and maximize it."

Austin began to self-train and went through his combat skills.

"As for swordsmanship, I've reached the level of compressing the energy of 1.3 billion sword attacks in one.

I am able to make the most use of it when dealing with preliminary-grade divine gods.

However, it was useless when dealing with medium-grade divine gods.

In terms of vital energy realm, I can defeat a preliminary-grade divine god, no doubt about that. It's just that I'm not absolutely sure if I can defeat a medium-grade divine god with just that.

As for the Introduction to Vital Energy Circulation, with my current level, I can easily deal with preliminary-grade divine gods. However, it is also quite difficult to deal with medium-grade divine gods.

Now, in terms of spiritual sense, since I became a preliminary-grade divine god, my spiritual sense has been as strong as that of a medium-grade divine god. With the help of the Puppet Strings, I should be able to be at an advantage when fighting with ordinary medium-grade divine gods!"

Austin said to himself quietly. He was not satisfied with the results.

"Bottom line is that I am sure I can defeat a preliminary-grade divine god, but I'm not confident that I can defeat a medium-grade divine god. My strength and power are not very stellar.

They're just so-so. I will have to significantly improve if I want to defeat them next time.

But I don't know how to improve my own fighting power,"

Austin sighed.

He took out the small purple sword and looked it up and down, inspecting and admiring its appearance as well as the power it held

Peterson the Taoist Ancestor said worriedly.

"Yes, master. Don't worry. I will be extremely careful."

Austin nodded his agreement.

"Okay, I'm going to look into the situation of the Heaven God Cosmos from here."

Austin sat cross legged in the starry sky. His spiritual sense penetrated the distant void and sensed the Heaven God Cosmos.

Now, he was a preliminary-grade divine god. Without any barrier, his spiritual sense could perceive all universes within the three thousand big and small universes.

With the help of his spiritual sense, Austin could see everything. He found that a terrible massacre had just happened in the Heaven God Cosmos!

By rough estimates, there were trillions of creatures that considered it their homes. Almost all of them had been killed for no reason!

Not only the warriors, but even helpless and innocent ordinary men were also killed!

Every star and every world was filled with broken limbs and corpses, and blood flowed into a river, painted the ground red.

Countless ghosts wandered around in despair as their cries, full of desolation, filled the air.

"What a vicious murderer!"

Austin gritted his teeth in anger.

As he looked around, Austin also found that a large group of people from the god of darkness side had been stationed in the starry sky of the Heaven God Cosmos.

They were led by a dozen preliminary-grade divine gods.

There were no medium-grade divine gods with them.

At this time, Austin's killing intent soared into the sky. How could he restrain such a powerful force?

He opened his mouth and spat out something.

Whoosh!

The small purple sword flew out of his mouth and flew towards the Heaven God Cosmos.

In less than three seconds, the small purple sword had already rushed through the void and into the Heaven God Cosmos and appeared in the vast starry sky of the universe.

Boom!

The little purple sword was completely activated, emitting a monstrous purple sword radiance with tremendous energy.

Almost immediately, the purple sword waves swept towards the unsuspecting gods of darkness.

They were instantly crushed into pieces by the sword aura.

In a moment, all gods of darkness in the Heaven God Cosmos lay dead!

"Attention, everyone! Austin is now here!"

someone shouted at the base camp of the gods of darkness.

The Supreme God

"Humph! I didn't expect Austin to be very skilled in the Flying Swordsmanship.

He can even kill people across the universes in just a blink of an eye!" the short man exclaimed as they were discussing in the stronghold of the gods of darkness.

"The Flying Swordsmanship is from the Earth in the Yellow Cosmos. This sword technique has been lost for so long. I can't believe this brat is so lucky to pick it up.

His comprehension in swordsmanship is so outstanding that he even turned a chaotic magic treasure into his flying sword. Then, he incorporated it into the technique. That guy is really something," a monster remarked.

This one had a human face, a body of a jackal, and a pair of bird wings on his back.

"So, I say we should not kill Austin yet. We have to take him alive and make him tell us about the secret of the Flying Swordsmanship.

Back then, this technique was so coveted in the entire three thousand big and small universes. People would be scared by just talking about it.

We should get the technique as well as the chaotic magic treasure," the short man said with a greedy look on his face.

"Ha-ha! If we're talking about this guy, then there's something more that I can tell you.

This sneaky bastard is very mysterious.

It has come to our attention that he doesn't only possess a single chaotic magic treasure.

And on top of it, we are very positive that he holds the chaotic world tree!"

the fire-disaster beast said with a huge grin on his face.

The group consisted of about a dozen preliminary-grade divine gods as their leaders.

Upon seeing the situation, Austin immediately manipulated the purple sword to slash the divine gods abruptly.

They didn't even know where the attack came from.

With a sword aura that carried energy of 1.3 billion sword moves, any preliminary-grade divine god would not be able to survive the purple sword's vicious attack.

After just a few moments, all the gods of darkness stationed in the cosmos were annihilated by Austin.

Some of the divine gods were able to report it to the headquarters of the gods of darkness before they were all slaughtered.

"Damn it! It's that Austin guy again! He enjoys killing our people with his flying sword while hiding in the dark.

We have to do something to lure him out.

If he doesn't come out, we can't do anything to him!" the thoroughly-odd beast roared in the headquarters of the gods of darkness.

A large number of the gods of darkness' core members were also paying attention to this matter.

It was their plan all along to lure Austin out into a trap to capture him.

"We can't suffer any more losses. We'll just watch our men die if this continued.

Let's send a few medium-grade divine gods to fight against his flying sword. I'm sure that even with his skills, he will not be able to take out a medium-grade divine god without fighting face to face.

Then perhaps, we can provoke him to show up personally," the short man suggested.

"All right. I agree with that idea.

I'm going to send my men to the universes that we have recently retaken," the thoroughly-odd beast responded as he gave urgent orders to his men.

The Supreme God

Chapter 3547 Welcome Our Ancestor (Part Two)

Soon after, four medium-grade divine gods left the stronghold of the gods of darkness and went into the respective universes.

"Good. All of the gods of darkness that were stationed in the Mysterious Celestial Cosmos were wiped out," Austin said with a contented smile.

"Well done, Austin!

Teach those bastards a lesson. They should be ready to be killed if they are ready to kill!" the Heavenly Majestic Pot yelled in excitement.

Somehow, he felt a little better knowing that Austin avenged the people that the gods of darkness killed in the Heaven God Cosmos.

"Okay then, I think I will take back another one!" Austin shouted.

He released the purple sword again and manipulated it to rush towards the Full Moon Cosmos.

In a flash, the purple sword had already entered the Full Moon Cosmos.

The sword quickly emitted dazzling purple sword radiance and released a sword aura that sent raging waves.

At Austin's signal, it instantly came for the gods of darkness.

"You will not get past me!"

Out of the blue, a medium-grade divine god appeared and deflected Austin's flying sword with his own magic treasure. He performed a secret skill that withstood the powerful attacks of the purple sword.

"What? Why is there a medium-grade divine god guarding the Full Moon Cosmos?"

The presence of the medium-grade divine god caught Austin by surprise.

Austin would have no problem bringing down preliminary-grade divine gods with just his Flying Swordsmanship.

However, it wouldn't be enough to finish off a medium-grade divine god. The furthest thing that it could achieve was to push the enemy into a stalemate.

He tried to push his luck and controlled the purple sword to attack the medium-grade divine god. But after a while, the

However, if he somehow confronted a medium-grade divine god, who was at the upper stage of his level, then Austin would definitely have a hard time.

As Austin was in the middle of an intense fight against the medium-grade divine god in the Mysterious Celestial Cosmos, there was also something going on at the Evil Shadow World, which was located in the Fallen Immortal Cosmos.

At that moment, Priest Callum was on an ancient altar.

"My King, I have figured out the general location of our ancestor.

I can feel that he is calling out to us!" Priest Callum told the Evil Shadow King.

The ancient altar was surrounded by the members of the evil shadow race.

Among them was Caroline, one of Austin's wives.

"Are you sure that our ancestor is summoning us?" the Evil Shadow King asked with a thrilled expression on his face.

"Yes. I'm pretty sure!"

Priest Callum trembled in excitement.

"Everyone, join me as we set off to welcome our ancestor back!

The return of our ancestor is such a grand event.

It indicates that our race will finally enter its period of glory!"

the Evil Shadow King shouted at the top of his lungs.

"Welcome our ancestor! Welcome our ancestor!"

Every member of the evil shadow race began chanting the words, and followed the Evil Shadow King.

Feeling a call arising in the depths of their blood, every member of the evil shadow race couldn't suppress their excitement.

Then, the Evil Shadow King and the members of the evil shadow race headed towards somewhere outside the Fallen Immortal Cosmos.

The Supreme God

Chapter 3548 Being Pursued By Premium-grade Divine Gods

The Evil Shadow King—Austin's father-in-law, and Caroline—Austin's wife were both revered in the Fallen Immortal Cosmos because of their connection to Austin.

That was why the people guarding the entrance to the cosmos didn't dare to stop them.

The Evil Shadow King and the other members of the evil shadow race left the Fallen Immortal Cosmos and moved forward.

"My King, I sense that our ancestor is somewhere in this direction. If we keep heading there, we'll be sure to meet him," Priest Callum said to the Evil Shadow King.

Priest Callum used his own blood to perform a secret skill he used to pinpoint their ancestor's call.

And so, the Evil Shadow King and his people kept moving.

Meanwhile, an abandoned continent was floating aimlessly in the chaotic void of the three thousand big and small universes.

On it, stood a tall, menacing figure.

"My descendants have sensed my call and they are now on their way here,"

the tall figure murmured to himself.

He was terrifying to look at since he had no head, his eyes were his nipples and the navel was his mouth.

It was none other than Thad.

An hour later, the members of the evil shadow race came into his view.

They were steadily racing towards the abandoned continent.

All of a sudden, Priest Callum who led the way paused in his tracks.

"My King, look!" Priest Callum said to the Evil Shadow King as he stared dead ahead with shock.

"That person may be our ancestor !"

His voice shook as he struggle to utter his words.

Immediately, all the members of the evil shadow race looked ahead.

They saw a vast abandoned continent floating in the chaotic void.

A tall figure stood patiently on it.

"That's really our ancestor!"

"We finally found him,"

the Evil Shadow King echoed the voice of his comrade with more glee.

He didn't expect that they would really find him.

Even the Evil Shadow King had never seen the ancestor of the evil shadow race before, not to mention his people.

Thad stood there, waiting for them. The members of the evil shadow race were so shocked that they left their mouths hanging wide open.

Of course, Austin was no match against a premium-grade divine god.

Austin tried to get rid of the force and run away but failed. He was
forced to step back against his will.

Out of choice, he activated the Reincarnation Token using his mind.

The Reincarnation Token instantly flew out.

It floated above Austin's head, emitting dazzling lights.

Austin suddenly felt that he had regained his freedom.

"Luckily I got the Reincarnation Token. It doesn't let me down."

Overjoyed, Austin hurriedly made his escape.

At the same time, he filled Peterson, Morphy, Frost, Brain and Oswald
in on what happened using his spiritual sense.

Under the protection of the Reincarnation Token, Austin safely fled
into a spatial teleportation channel.

Meanwhile, the two premium-grade divine gods were left dumbfounded in the Mysterious Celestial Cosmos.

"Did I see it right?

Isn't that the legendary Reincarnation Token? !"

The short man showed untold shock on his face.

"Yes, that's the Reincarnation Token.

Otherwise, that brat wouldn't have a chance to get away from you.

Does he have anything to do with the reincarnation race?

Is he a descendant of the reincarnation race?"

the tall premium-grade divine god wondered.

"Ha-ha! You are thinking too much.

I had heard that many Reincarnation Tokens of the reincarnation race had gone missing and its chief had sent his men out to look for them back in the ancient times.

This brat must've been lucky and stumbled upon one by chance.

If he was a descendant of the reincarnation race, how could he possibly stay in the three thousand big and small universes?

It's impossible,"

the short man answered with conviction.

"Let's go. We can't let this guy escape!"

The short man rushed towards the direction of Austin.

He scanned through the space in front of him and tracked Austin down. He then pointed at the direction of the spatial channel where Austin was.

Boom! Boom! Boom!

Explosions rang out in the spatial channel. Caught off guard, Austin was thrown out of it and he coughed up blood.

The Supreme God

Chapter 3549 The Battle Between Premium-grade Divine Gods

"Brat, you have no chance to escape."

Although the short man was just three feet tall, he managed to catch up with Austin along with the towering creature.

Chills ran down Austin's spine when he realized that the two premium-grade divine gods could cross several universes in just a single stride and move at an incredible speed!

Moreover, the two premium-grade divine gods could control the law of supreme enlightenment in the space where Austin tried to hide.

Every inch of Austin's surroundings felt like a cage created by the minds of his enemies.

Without any hesitation, Austin immediately took out the Reincarnation Token.

At the same time, Austin waved his hand and two more magic treasures appeared.

They were the Layne's Ruler and the Kaleidoscopic Compass!

The Layne's Ruler could be used to seek good luck and avoid disaster. It could also break all kinds of arrays.

Meanwhile, the Kaleidoscopic Compass was a divine weapon for geomancy.

These two were undeniably rare magic treasures.

They were activated at the same time.

The Layne's Ruler pointed to the northeast and the Kaleidoscopic Compass' hanging needle also pointed to the same direction.

Without missing a beat, Austin quickly headed where the magic treasures were pointing.

Some of his trepidation melted away as he entered a space teleportation channel under the protection of the three magic treasures.

"Ha-ha, this guy has a lot of treasures!

I like them! They'll be mine!"

Greed lit up the eyes of the short man as he let out uncontrollable laughter.

Boom!

A deafening explosion forced Austin out of the space teleportation channel with just a simple wave of the short man's hand.

Blood began to drip out of the sides of his lips!

Every inch of his body was covered with blood, like something fragile that was about to break into pieces. Splotches of bright red blood would shock anyone who'd see him.

Fortunately, Austin managed to activate the Phoenix Nirvana Skill to instantly recover.

"Ha-ha! It's impossible for you to leave through a space teleportation channel right in front of me!

A cold snort rang out around them.

Slowly, a figure appeared beside Austin. With just a wave of his sleeve, the law of time wrapped around Austin's body disappeared.

Joy filled Austin at the return of his freedom.

"Frost! It's you!"

Anger filled the short man called Baham after he overcame his shock.

"Thank you for your help, Master Frost,"

Austin murmured.

"Don't mention it. Now that I'm here, this dwarf can't do anything to you."

Frost smiled softly at Austin.

"Frost, I didn't expect you to come back!"

A chill filled the air as Baham spoke.

"In order to kill all the gods of darkness, I have to come back."

Frost smiled at Baham.

"Don't talk big. No one knows who'll end up dead!"

Baham sneered.

Several types of laws of supreme enlightenment burst out as he made a seal with his hands. Runes appeared one after another as if they were connecting the entire chaotic void and trembled with terrifying power.

All the runes merged and emitted a monstrous divine radiance and then he turned his palms over to strike Frost.

Boom!

Tremors ran through the chaotic void as it endured the extremely terrifying pressure. Pieces of the space barrier collapsed in various places.

Waves of surging energy swept through the chaotic void, reaching a billion miles around them, and pressed down on Frost and Austin.

'Premium-grade divine gods are terrifying.

This man can probably kill hundreds of medium-grade divine gods in the blink of an eye!'

Austin thought.

"This is a piece of cake."

Unlike him, Frost wasn't impressed and just flicked his fingers to release a ball of divine light.

Boom!

The two forces collided with a deafening explosion.

Countless shining lights burned violently in the void and lit up the three thousand big and small universes.

The Supreme God

"That's amazing!

I can't believe that the mastery of the premium-grade divine gods in all the laws of nature is this remarkable!" Austin exclaimed.

He closely observed the fight between them. It left him dumbfounded.

"Go to hell, Frost!"

The waves soared high into the sky like a tsunami. A monster with a body of a jackal attached with a huge pair of bird-like wings suddenly appeared. It instantly flew towards Frost in just a split second!

"Ha-ha! Don't flatter yourself, Silas."

Brain stepped out of the void, and halted inches away from the monster's face. The two of them were tangled in an intense battle.

"Austin, you can go back first,"

Frost advised.

Without waiting for him to respond, Frost had flicked his wrists, and Austin was thrown into the distance.

Everything quickly changed. Just like that, he was back in the stronghold of the gods of light.

Frost and Brain, on the other hand, were left to fight against Baham and Silas.

The four premium grade divine gods displayed their maximum capacity. Each of them specialized in different law powers. Hence, they used it to their advantage—every time they summoned their skills, the atmosphere of the battlefield would dramatically change.

The other creatures wanted to watch the battle, but they couldn't see their movement.

Different laws of nature released by the four premium-grade divine gods interwove together, disrupting the time and space in the chaotic void.

The spectators could only see four muddled figures moving around at lightning speed. Each collision they made created a dazzling light.

Austin also unleashed his spiritual sense along with several omnipotent skills related to space and time to watch the battle between four premium-grade divine gods.

However, he eventually felt his eyes hurt and his spiritual sense didn't work due to the laws of nature that filled that chaotic void.

"Premium-grade divine gods are amazing!"

Austin commented sincerely.

As he watch them move swiftly and clash against each other, he also yearned to be as strong as them.

Just then, Kevin's voice rang out in Austin's Soul Sea.

With the aid of the Reincarnation Token, Austin could move freely again and run away with all his strength.

"You're not going anywhere!"

The massive gray hand chased after Austin, and it was slowly inching closer and closer to him.

It was difficult to escape the grasp of a premium-grade divine god.

It was because they were proficient in law of time and law of space.

When Austin was about to be seized by the grey hand, Oswald made an appearance. "Don't panic, Austin. Let me help you!" Oswald called out.

He hit the grey hand with his palm, which caused it to fly away.

"What a surprise! You've come back too, Oswald.

That's good. This is going to be more interesting."

With that, the big grey hand disappeared.

"Austin, what happened?

Why did you try to infiltrate the stronghold of the gods of darkness?"

Oswald asked worriedly.

Austin told him why he was there.

"You are looking for the evil shadow race?"

Oswald looked surprised.

"Are they Thad's descendants?"

Oswald uttered in confusion.

"Thad!

Yes, Thad is the ancestor of the evil shadow race.

I saw his statue before!"

Austin had a light bulb moment when he heard the name.

"I think I know what happened to them.

I also know where the members of the evil shadow race, including your wife Caroline are,"

Oswald informed Austin with a smile.
