## Chapter 501 The Beast-subduing Skill

The long sword, composed completely of vital energy, felt like a real one when Austin held it in his hand.

The only difference was the mutable shapes which it could assume. Made of pure vital energy, it could morph into any blade shape. When Austin channeled more of his vital energy into the long sword, it would lengthen and widen. It was a formidable weapon indeed.

Theoretically, with enough vital energy, it could even become as colossal as a giant, as long as a cultivator possessed enough vital energy.

What impressed Austin most, was that he found he had become so connected through his vital energy with this long sword. He felt like the long sword was an extension of his own arm, and he wielded it with great facility. Clearly, he had completely mastered the use of this magnificent weapon.

He observed the long sword in his hand for a moment, and then he channeled more of his vital energy into it.

Bang!

In an instantaneous bright flash, the blade of the long sword flamed with golden light as if it had been ignited.

This was another feature of the aggressive character of Flame Swordsmanship. The golden flame was fueled by the best vital energy. The power of the golden flame was incredibly vigorous. As long as the flame impacted with a target, that target would catch fire and begin burning until he or she was burnt to ashes.

After a momentary study of the unwavering light, Austin smiled with satisfaction. He knew that he had succeeded in transmitting his vital energy into the long sword, the first step of Flame Swordsmanship.

And the next step was to create a Spiritual Sword Aura in his Soul Sea. Only with the Spiritual Sword Aura could Flame Swordsmanship reveal its true power and force.

With his careful studies on how to cultivate Flame Swordsmanship and Spiritual Sword Aura in mind, Austin assumed a cross-legged seat on the floor. He emptied his mind and concentrated all of his attention on his Soul Sea where he began to refine the Spiritual Sword Aura.

The Spiritual Sword Aura was a sword-shaped aura within his Soul Sea. It asked a cultivator to concentrate all of the sword's intent or sword potential on his or her cultivation base in swordsmanship.

In other words, the Spiritual Sword Aura was the concentration of the sword's intent or sword potential into a sword-shaped aura in the Soul Sea.

After one day...

Two days...

Three days... Longer still...

Five days later, Austin, who was still in a deep meditative state where he sat cross-legged on the floor, finally opened his eyes all of a sudden.

In a seemingly instantaneous burst, the sweeping of the sword's intent, carrying an imperious air, flowed into Austin's Soul Sea like tidal waters.

The sword's intent, without the influence of any vital energy, was as pure as the very origin of swordsmanship.

Looking inside himself with his spiritual sense, Austin saw a sword shape made of a dazzling white light in his Soul Sea. This was the Spiritual Sword Aura. The high concentration of his sword potential made this Spiritual Sword Aura visible. It was pure, but aggressive, glowing with the dazzling light of murderous resolution.

had finally succeeded in cultivating the Spiritual Sword Aura.

but marvel as his mind ran wild with joy.

beasts within level ten

After a short while, he already had a rough idea of the Beast-subduing Skill's properties.

Actually, the way that the Beast-subduing Skill worked was to set up a mystical array of spiritual sense. Once the array made its way into the brain of a diabolic beast, the array would succeed in restraining the target's beast soul. Then the target would be one hundred percent under control.

"So that's how it works!" Austin sighed in sudden realization. This skill was kind of similar to the way in which he had subdued Violet.

But he had set up a direct surprise attack on Violet's beast soul. As a result of his victory then and Violet's extreme weakness, he had forced Violet to give up her dominion over her beast soul. Then he had left his spiritual sign on Violet, taking her under control.

It was obvious that the Beast-subduing Skill was better and more reliable than his own primitive method.

"All right! Go for the ancient evil ape then, my boy! The history of such an ancient diabolic beast is time-honored. You'd better treat the ancient evil ape well after you have subdued it. If it ever broke through the limits of its species one day, its power would burst forth in a huge improvement. It would then become too strong to be destroyed," the Flame Emperor said with a smile.

Although Austin was reluctant to leave, he also knew that this was not the place for him to stay. After he made a deep bow to the Flame Emperor, he followed the directions the Flame Emperor had shown him and walked towards a place next to the meadow.

There was an invisible and illusory door there which was easily overlooked.

The second he stepped through the door, he felt that everything around him began spinning. The churning feeling told him that he was being transferred somewhere else.

After a moment, the dizzying sensation disappeared. Austin felt he was standing on firm ground again. When he looked around, he found that he had returned to the ten-square-meter room on the third floor of the Emperor Library.

As his eyes swept around, he noticed that the picture hanging on the wall had disappeared. This confirmed what the Flame Emperor had said. He had decided to close the third circle from now on.

According to the Flame Emperor, there was a piece of his soul in Austin's Soul Sea. So the Flame Emperor could sense Austin whenever he came here next time. And the Flame Emperor would then transfer Austin to the third circle.

After making up his mind, he left the third floor.

When he found nobody on the second and first floors, he suddenly remembered that he had been on the third floor for five or six days. The royal members and the young cultivators of the Ghost Sect might have left already during the passing days.

As Austin walked out of the gate of the palace, he entered the spacious square. He stood in the square and checked the specific location of the soul-recovering fruit in his Soul Sea. After he had read through the information about its whereabouts, he knew the right direction to follow.

Immediately, Austin decided to activate the bodily movement skill, but he suddenly became grim-faced and stopped his activation of the skill before he could move away.

Austin sneered. His spiritual sense of the area around him told him that there were two people in the northeast of the square, hiding behind a towering tree with an extremely thick trunk. He could even hear what they were discussing from afar.

"Look! Is that Austin?"

"Yes! He is Austin! Fire off the signal flare to inform Mr. Tolkien immediately!"

They were subordinates of the royal members. After Bruce, Graham, and the three cultivators of the Ghost Sect were expelled from the third floor, they had tried everything they could to break into the small room. But all of their efforts had proven in vain.

Plus, everyone in the group of five knew that Austin was not in the room and had transferred far away to somewhere else.

So they had left the Emperor Library in dejection and decided to go to find other treasures around the rest of Mysterious Nether World.

Bruce and Graham, however, had ordered two of their subordinates to guard the square, in case Austin reappeared and needed to be disciplined.

# The Supreme God

## Chapter 502 Power of Vital Energy Sword

It took five days of waiting for them to finally see Austin at the square.

Exhilarated, a short but strong young warrior hurriedly took out a small yellow cylinder the size of a thumb from his Space Ring.

However, a shadow approached quickly even before he could apply the vital energy into the golden yellow cylinder and activate it.

This shadow appeared before him out of the blue, staring at him and smiling coldly.

"Shit! It's Austin!"

The short young warrior was taken aback and screamed in surprise.

Another tall man from the royal family was also shocked and instantly drew his saber.

Who could have thought that Austin would come to them so quickly?

"Ha! What do you want? Are you sending a secret message to others?"

The group of young men kept silent and exchanged glances. All of them were warriors at the preliminary stage of the Mysterious Realm and clearly knew that there wasn't a way for them to defeat Austin.

Therefore, they decided to do nothing to Austin and coursed to informing Bruce and Graham of Austin's presence as soon as possible.

It was then that the short young man accumulated his vital energy and wielded the vital energy force. He made it shoot out from his hand and into the golden yellow cylinder.

Bruce and Graham would immediately know what was going on once the cylinder was activated.

Little did they know that Austin's spiritual sense had been monitoring them from the very beginning.

A vital energy sword suddenly appeared in Austin's hand and merged with the Spiritual Sword Aura from his Soul Sea.

The vital energy and the spiritual sense of the swords united and made the sword of vital energy boast of horrifying speed.

It flashed a cold light.

Then the next thing that everyone saw was how the short man's hand was cut by its blaze and how the yellow golden cylinder rolled out of his bloody amputated hand. It wasn't activated!

Ah!

Only God could explain how the short man felt when he saw his hand flying away from him.

Immediately, his bleeding wrist was engulfed in flames, burning his exposed bones and flesh.

That was the last things Austin said before he raised his hand and wielded his vital energy sword one more time.

Seeing Austin's aggressive movement, the black young warrior clenched his teeth, took out a black sack from his waist, and opened it.

Thick smoke drifted out from the black sack.

A few moments later, there were already ten shadows standing before Austin. All of them were reeking with the smell of rotting flesh.

They were ten corpse generals.

Austin easily recognized them since he owned his own ten corpse generals too.

"Go and show no mercy!" shouted the young warrior in black.

Receiving orders from their master, the ten corpses jumped and pounced on Austin. The young warrior took that chance to turn away and ran for his life.

"Haha! Small tricks. You can't fool me," said Austin while laughing.

Those corpse generals had only mastered the strength of the premium stage of Earth Realm. The black warrior only used them to slow Austin down and buy time for him to escape.

He might be smart but he had underestimated Austin badly. Austin was now a warrior of the Sky Realm and his body was strong enough to destroy those ten corpse generals easily. He didn't even need to use the power of his vital energy.

Bang! Bang!

Austin hit the corpse general one by one in lightning speed. His punches sent the corpses shortly to the air and then they landed motionless on the ground.

After swatting the ten corpse generals away, Austin used his bodily movement skill and ran after the black warrior. He stretched out his hand while running and summoned his vital energy sword. He shot it towards the killer.

The black warrior sensed what Austin was doing and was shocked.

"Ferocious Ghost Order!" he shouted hurriedly.

Another cloud of black smoke appeared. A split-second after and a ferocious looking ghost materialized before Austin. It roared out loud and then mercilessly attacked Austin.

Without hesitation, Austin wielded his sword once again and stabbed the ghost.

Flames from the sword ignited the ghost and its painful roar echoed on that place. However, nothing came to its rescue and it didn't even take long for it to burn into nothing.

The vital energy sword went through the ghost's body and then attacked the black warrior with the maximum speed.

Bang!

His wound also caught fire! He jumped and tried to extinguish the flame but to no avail! Before long, he turned to ashes and mixed with the dirty ground.

Austin saw all this with his own eyes. He was filled with excitement at the thought of the formidable force of the sword.

The vital energy sword, combined with the original power of Scorching Evil Fire, could definitely do such great things.

## The Supreme God

### Chapter 503 The Soul-recovering Fruit

After Austin killed the man in black from the Ghost Sect, his eyes rested on the ten corpse generals who had been defeated by him.

The man in black was already dead, and the ten corpse generals stood on the ground. They were motionless, as they didn't receive any order to attack. The black miasmas of the corpses still loomed around. The only difference was that their blood red eyes were now closed.

Austin had subdued ten corpse generals earlier. He was quite familiar with those creatures.

Now these ten corpse generals were lining in front of him. Austin would certainly not let go of them. Their strengths were equivalent to that of ten human cultivators at the premium stage of Earth Realm. They were enough to form a small sect in the Violet Orchid Empire.

At the thought that these corpse generals could add to his force, he immediately looked for the spiritual sense marks on their heads which were left by their last owner. He scraped those off and put marks of his own spiritual sense onto them.

As soon as the new marks were in place, Austin felt that he could totally control the ten corpse generals.

"All come up here. Stand in front of me!"

Austin ordered them in his mind. The ten corpse generals dashed towards Austin in a flash.

Austin took out the corpse nourishing bag which hung at his waist and took all the corpse generals into it.

Till now, Austin had about twenty corpse generals in his corpse nourishing bag. That was equivalent to possessing twenty cultivators at the premium stage of Earth Realm. And all of them would listen to his orders.

Austin estimated that the black corpse nourishing bag could hold no more corpse generals. So if next time he had the fortune to get more corpse generals, the corpse nourishing bag would have no space for them.

the river began. There were about a dozen deep purple plants growing on the riversides. They resembled sunflowers. Each one of them had a fruit in black and white checks that was as big as a thumb.

Austin could sense the fragrance of the fruit from far away. The pleasant scent made him feel as if he had taken some magic pills and could walk on air. The indescribable pleasure made him want to give out a cry.

Austin counted them. There were around

strong spiritual sense. The huge beast emitted a powerful aura that seemed to be locked firmly on the soul-recovering fruits. Austin believed that as soon as he approached

The beast was about one hundred feet long, looking terrifying and horrible. Austin gasped in astonishment and cringed.

He could imagine how the immensely powerful huge beast could attack him and crush him to pieces. That put him under great pressure. A Mysterious Realm or even Sky Realm master would be powerless like an ant, when compared to the beast.

This was the most powerful being he had seen so far. A faint thought struck him. It might be the ancient evil ape that the Flame Emperor had mentioned to him earlier.

The ancient evil ape had the strength that matched a tenth level diabolic beast. It was equivalent to a human Imperial Realm cultivator.

Once Austin had reached the medium level of Sky Realm, he got to know that above the Sky Realm of vital energy, it was the Imperial Realm of vital energy.

"Roar!"

The beast let out a blood-curdling howl. Austin felt breathless by the strong aura emanating from the huge beast still hidden in the thorn bush. Its thunderous roar pierced through the sky and shook the earth.

The whole space reverberated at the rumbling sound and trembled vehemently. The grass on the ground seemed to bow down while stones and dust flew in all directions in the air. The ground began to shake and Austin felt as if he was in hell.

The water in the lake beside was bubbling turbulently as if it was boiling.

The next moment, the malicious, gigantic beast hiding in the thorn bush took a leap.

The huge shadow which it cast on the ground was ten meters long. The malicious and brutal aura spread like ripples. It seemed as if even the vital energy force between heaven and earth of that place would not dare to come near it. The vital energy force of that area just circled around it and formed a ring. It was a ring of tidal vital energy force and looked extremely bizarre. All this added to the already terrifying appearance of the beast.

**The Supreme God**

## Chapter 504 The Furious Ancient Evil Ape

Austin was well-prepared for what he would find, but he was still shocked by the giant shadow in front of him. He held his breath, afraid to make even the slightest of sounds, in order not to be discovered. Although he had been at the medium stage of Sky Realm, he was quite sure that he would end up spectacularly dead if he challenged this giant beast right now.

Austin had never been too cocky about his capabilities. Even though his abilities had improved along the way, he had always remained humble and respectful towards anything that was stronger than him. Modesty helps one progress, and he had benefited a lot from this facet of him.

The sun was shining bright and the giant ape could show its true features without holding anything back. The giant ape was jet black without a spot of white, and as Austin took a good look at it, its body looked hard as if it was made of solid iron, and it glittered with metal-like luster under the sun. The ape looked so overwhelming. Its muscles rippled and one could sense that it could muster a lot of power in its punches.

It finally turned towards Austin. Its face got a fierce visage and it glared at him with ferocity. Weirdly, there was a pointed black horn in the middle of its forehead. If one looked carefully, there were intricate but obscure etchings on this horn, which gave Austin an impression that the ape had been living since eternity, but its strength had never faltered.

"Is this the mythical level-ten ancient evil ape? Huh, it does live up to its reputation! I guess ordinary cultivators would freak out with just one glance. It is a shock to look at, to say the least!" Austin murmured.

The giant ape had noticed him long back and was now staring at him with his scarlet eyes. The stare was enough to make Austin's blood

run cold. He had slightly panicked after being stared at maliciously and had felt his throat tighten.

Meanwhile, the ancient ape was measuring Austin with its bucket-like eyes. Deep in its heart, it was mocking the young man's audacity to challenge it. It was all too ridiculous. Hot, pungent stench like that of a rotten fish accompanied its each breath. A hint of a sarcastic smile rested on the corner of its mouth. For a moment, Austin thought it was almost human-like.

"What a surprise here!

Even a tiny human boy dares to have a finger in the soul-recovering fruit! This is the biggest joke ever!

Boy, you'd better not bite off more than you can chew.

But it's okay. It has been a long time since I have tasted a human's flesh and blood. Since you're knocking on my door yourself, then I will kindly accept this as a small gift to me. It's a lucky day for me, isn't?"

Much against Austin's expectation, the ancient ape could speak the human language. It was also plausible that since it hadn't had human contact since long, it had a habit to talk with itself.

"Violet, what level does an ordinary diabolic beast has to be at if it can speak the human language?"

Austin asked with a curious tone. He had so many questions about this giant beast.

even the earth trembled and the mountains rumbled with each step. In order to move faster, it crawled on all fours. Despite its giant body, it was extremely agile and moved as fast as a

still facing the beast, with the land shaking violently and the thunder-like rumbling accompanying it, Austin felt his spine chill, but he had no time to feel afraid. The arrow

wrapped over his feet, Austin called out his Wind-commanding

At the same time, he also had his defense ready. Using his mind, he controlled his spiritual sense in the Soul Sea to concentrate as many forces directed at the beast.

His hands were not idle too. He moved both hands in a certain mysterious pattern. Driven by the movement of his hands, all the spiritual sense gathered began twirling around them. One mysterious symbol after another was being formed in front of Austin.

The Beast-subduing Skill was an array made by the spiritual sense. As its name suggested, its purpose was to trap the beasts.

Austin was busy with forming one seal after another. At the same time, the mysterious symbols kept being conjured, showing no signs of stopping.

Austin didn't know before that these symbols would never stop absorbing his spiritual sense after they came into being. Their appetite shocked Austin.

However, now that it was playing out like this, there was no turning back. He had to keep pressing himself to draw the spiritual sense out of his Soul Sea continuously. He had to hold on, whatever the cost.

On the other side, the ancient ape was approaching Austin with vigorous, wide strides. Its legs were as wide as the bark of a tree and it left a massive pit on the ground with each step. Clouds of dust followed his movement.

Although the pace of the giant ape was as large as one hundred meters, Austin was quicker. He made one leap after another to keep a safe distance.

The ape tried its best to catch up with Austin, and even got tantalizingly close a few times. But Austin was deftly escaping the beast.

"Roar! Roar! Roar!"

The ape was getting increasingly furious, frustrated that it was unable to grasp Austin. Suddenly, it stopped chasing and bent its giant body a little forward. Hurling its arms backwards, it stamped its feet on the ground.

With a gust of wind, it jumped up in the air.

The wind it brought along was stronger than a Force Ten Hurricane. It blotted out the sky and the entire valley was shrouded in darkness. It catapulted towards Austin like a mountain.

Austin held his breath in awe and his face turned pale. If the giant ape smashed him under his feet, he would end up in a heap of flesh and bones. It didn't matter how formidable his physical conditions were.

Peng!

With a loud thud, the ape landed heavily on the exact spot where Austin was standing.

**The Supreme God**

## Chapter 505 Tame The Ancient Evil Ape (Part One)

The earth shook. A terrifying noise sounded with the thump of the ancient evil ape. An enormous deep pit was being formed under the monster's feet. To Austin's surprise, the pit was at least six meters wide and ten meters deep. As if that wasn't bad enough, numerous crevices formed at the center of the pit and sprawled out as far as possible to constitute a wide web of cracks. Most of the cracks were at least one meter wide.

The ancient evil ape stood steady, its monstrous body moving freely and flexibly in the spacious pit. With an arrogant gaze, it measured the young man standing before it with sheer contempt.

"Human! What a tiny creature! You're daring and defiant, young boy. The best way to end your meaningless life is to tramp you into meat paste. I'm sorry, I cannot come up with any better idea.

I pity you, boy, as nothing of you will remain intact once I bring my foot down on your weak body. Your bones will shatter into ashes and your meat will be crushed into a paste."

Then, the ancient evil ape murmured to itself, " I don't think it will taste good as it will be mingled with sand and dirt. I'm going to feel disappointed. I hate it. But this is the only way. Do you know how long I've been longing for a bumper meal of human flesh? Centuries! I miss the taste. Damn it! The meal will be ruined!

All right, maybe I'll pass this time. I'll catch several demonic beasts for my meal instead even though they're not that tasty. They're coarse and smelly animals. But I have no choice. I have to feed myself."

The ancient evil ape seemed less furious now. All of a sudden, it raised one of its legs and strode out of the deep pit, its dramatic movement causing the fringe of the pit to collapse again.

fur and got ready to leave. The next moment, however, it froze and its eyes widened. It just stared ahead, forgetting what it had wanted

in anger and flames appeared in

words made it feel even more irritated. The only thing the ancient evil

The ancient evil ape quickly assumed an aggressive posture, rallying its strength for a fatal attack. Its glaring eyes turned red as blood with fire in them. With another piercing roar, it suddenly dashed toward Austin with all its energy.

Austin, however, remained calm in the face of the monster's attack. Focusing his attention and energy, he slightly moved his lips to murmur a word in a measured tone.

"Seize!"

With this word, the Beast-subduing Skill Array refined through Austin's spiritual sense energy shot out toward the ancient evil ape with a noisy swish and reached the point right above the monster's head in just the blink of an eye. It followed the ape wherever it moved, whirring and flashing colorful lights. Like a fish trying to get rid of a fishing net it had been caught in, the ape kept running around in circles in an attempt to cast the Beast-subduing Skill Array off.

It let out another furious roar at the array above his head.

But this time, there was a hint of fear in its roar, too. For the first time in its life, this fierce animal was afraid to make a move. It instinctively sensed danger from this strange web shrouded in a mysterious aura. It wanted to run but it seemed impossible for it to escape the web. In a fit of desperation, it let out a series of roars to show its wrath and strength. Clenching both its fists, the ape suddenly leaped toward the Beast-subduing Skill Array and hit it with all its energy.

The air surrounded by the Beast-subduing Skill Array condensed into layers of an invisible shield. The fierce force generated from the movement of the ancient evil ape's fists momentarily broke the shield into pieces before it magnetized together again. Clusters of air seethed in the sky with an explosive sound under the monster's ceaseless attacks. As a result of the confrontation between two different kinds of energy, a huge mushroom cloud was formed in the air.

The Beast-subduing Skill Array was a special weapon. In addition to its mysterious powers, it had been refined through Austin's spiritual sense energy. Combined with the two kinds of strength, the array was practically invincible. So in spite of the ancient evil ape's violent attacks, the array remained intact.

### Chapter 506 Tame The Ancient Evil Ape (Part Two)

With a flash of light, numerous strange spiritual sense symbols darted out from the web and zoomed toward the monster's head. It happened so fast and so unexpectedly that the ape didn't realize what was going on until it was too late.

The ancient evil ape was stunned. It had no idea what this array was and how to deal with it. It kept still, staring at the web with alert eyes. Right after the monster had taken ten deep breaths, the dazzling lights of array grew brighter.

All of a sudden, all the symbols in the array zoomed toward the ape's head with a harsh whirring sound. The ancient evil ape cried in agony as it struggled against the array and threw itself onto the ground with a heavy thump. Its wretched howls of pain sounded both terrifying and pitiful.

Suddenly, the monster stood up with feeble legs, its whole body shaking.

It turned around and tried to scurry into the distance.

But after taking just a few strides, it stopped. For a long while, it stood motionless at the same spot with its arms hanging limply by its sides, as if it was waiting for something.

At this moment, Austin was overcome with a strange feeling. He felt like there was a connection between him and the huge animal. He had

been secretly calling for the ancient evil ape to stop, and it had stopped. It seemed that the monster was under his control now.

The Beast-subduing Skill Array had worked. Austin had tamed the ancient evil ape!

With this realization, he jumped with joy and excitement, a brilliant smile breaking across his face. He couldn't help but let out a roar of hearty laughter. It was indeed something worth celebrating as he had a powerful helper at the level of Imperial Realm now.

Imperial Realm level! What does that mean exactly?' Austin pictured himself bringing the ancient evil ape back to the Violet Orchid Empire. 'This ape alone can outperform the

ancient evil ape docilely returned to him. It viewed Austin as its master now as a master-servant relationship had been established between them. It would fight for him and die for him, no matter what the cost. It owed its fidelity to him and that would never change.

Having made up his mind, Austin jumped into the sky and headed for his destination at full speed. ...

A huge mountain stood alone against the grey sky of the Mysterious Nether World.

On the peak of the mountain stood nine figures, who were fervently discussing something.

"Well, I never expected this. We're not the only ones in the Mysterious Nether World! Can you believe it? I thought only people from the Heavenly Dragon Holy Kingdom could enter the Mysterious Nether World, but it seems there are people from the Violet Orchid Empire here as well. What a tiny nation it is! What are they capable of?

I can't believe how many of them are here. There are about one hundred people from the Violet Orchid Empire here, right? That's too many!

There are just ten of us from the Heavenly Dragon Holy Kingdom in the Mysterious Nether World! Can you believe that just ten of us have come here?

And those Violet Orchid Empire guys came to the Mysterious Nether World ten days earlier than us! How could they do that?

They must have obtained most of the valuable things in the Mysterious Nether World. Damn it!"

"Take it easy, dude. Even if they did come here earlier than us and obtained most of the valuable items here, it doesn't matter. We can just kill them all and take every single one of the treasures in their hands. Isn't that the best way to solve the problem? The people from the Violet Orchid Empire came here alive, but they'll stay here forever as cold corpses. Isn't that interesting? They came here earlier than us just to find the treasures in the Mysterious Nether World and make it easier for us!"

"You're right, that's a good idea. We'll wipe out them from the world. None of the people from the Violet Orchid Empire shall leave here alive!"

### Chapter 507 Massacre The Martial Artists in Violet Orchid Empire (Part One)

Sitting atop one of the several peaks of the Mysterious Nether World, nine young martial artists from the Heavenly Dragon Holy Kingdom were discussing how to kill all the martial artists of Violet Orchid Empire.

"Everyone. Learn and remember what this man looks like. He's the one who killed Chauncy."

One of the young men, clad in white, warned everyone. Then he waved his right hand and a virtual human form appeared in front of him. The figure looked extremely lifelike, and there was an emphasized clarity about his features.

If Austin were here, he would have been highly surprised, because this hologram of a figure looked exactly like him.

"I got a message from Chauncy as soon as I entered the Mysterious Nether World. This is the man who killed him and we need to get revenge.

The Deputy Island Owner hopes that you all can catch him alive. However, if that is not possible, you are welcome to kill him.

He wants to see this man at his feet, dead or alive.

If you do that, the Deputy will reward you honestly. I don't have to remind you all just how rich we are at Snowy Island, do I?"

"All right. By the way, I heard that Chauncy, who was the first person to enter the Mysterious Nether World, was also the only personal disciple of the deputy island owner. Is that true?"

Another man asked.

"It is true. The deputy island owner loved Chauncy so much that he not only brought him up but also let him be his personal disciple.

You see. What happened was, one day after Chauncy entered the Mysterious Nether World, the deputy found that his spirit Jade Badge had been broken.

nine martial artists' cultivation base had already reached the Sky Realm, so the limit on their flying abilities had extended further. . . .

Very soon inside the Mysterious Nether World, martial artists of the Violet Orchid Empire began to get slaughtered, and several female martial artists were gang-raped.

Inside the Empire, the strength of the 100 young martial artists who had entered the Mysterious Nether World was classified into three levels.

The first and the weakest group were in the majority, with most of them at the medium or premium stage of the Earth Realm, like Dewey and Maria.

Secondly, there were a small number of people who had reached the Mysterious Realm, like Leo and the others.

Finally, there was a very small number of people who had made it to the Sky realm, like Graham and Bruce from the imperial royal family, and the three people from the Ghost Sect. However, this group of people remained very low-key, and very few contestants knew their real cultivation base.

Therefore, most of the people in the Violet Orchid Empire were no match for the nine masters who had come from the Heavenly Dragon Holy Kingdom.

Very soon, news of the massacre spread among the martial artists of the Violet Orchid Empire.

Almost everyone came to know that there were nine powerful masters from some other country inside the Mysterious Nether World with unfathomable strength who were going on, slaughtering the martial artists of Violet Orchid Empire. It was said that even people from the premium stage of the Mysterious Realm were all defeated in one move when faced by these masters.

After they heard the news, everyone began to feel frightened. All the martial artists from Violet Orchid Empire began to form teams now, trying to find a chance at defeating these masters through strength in number.

Two days later, almost all of them had voluntarily come together to form a troop of about sixty people. There were still people who were spread about right now, but a majority was in the group now.

Even the ten people from Ghost Sect joined the team this time. Although their three masters had reached the Sky Realm but they knew that they couldn't beat the nine guys on their own. So they decided to get an opportunity of doing the same by coagulating with the larger group.

Of course, so far, only Austin knew that these ten people were disciples of the Ghost Sect. No one else knew their real identity because they had concealed their abilities till now.

The disciples from the imperial royal family soon became the leaders of this team, owing to their superior strength.

## The Supreme God

### Chapter 508 Massacre The Martial Artists in Violet Orchid Empire (Part Two)

Especially, when Bruce and Graham showed their cultivation base of the Sky Realm, every single martial artist from Violet Orchid Empire was shocked and even Leo, Caden, Wilson, and a few other disciples who were known to be outstanding did not dare to disagree with them.

In this way, a group of 60, led by Bruce and Graham, formed itself in face of such powerful opponents, and began preparing to fight the nine martial artists of the Heavenly Dragon Holy Kingdom. . . .

Austin was utilizing his bodily movement skills to move in a prairie inside the Mysterious Nether World.

Ever since he had taken the ancient evil ape down and got the soul-recovering fruit, Austin had started to search for Dewey and his other friends.

At the same time, he had also been using his vital energy from time to time to try and jump into midair, hoping to learn the skill of flying in the air.

He knew that when the martial artists' cultivation base reached the Mysterious Realm, they could fly with the help of their vital energy, but the distance that they could cover was very short, and the speed with which they flew was also very slow.

The speed at which Austin could move by using his Wind-commanding Skill was much faster than that, and therefore, even after he had reached the Mysterious Realm, he had not tried this ability.

However, his cultivation base had reached the Sky Realm now, which meant his speed would have also increased. Now, he was repeatedly trying to fly up into the air, as he wanted to know how long he could fly, and just how fast.

After activating his vital energy and letting it flow over his entire body, Austin leaped onto the top of a large tree, then kicked the tip of a tree with his toes and shot into the air straight like an arrow.

As soon as his body left the treetop, his vital energy immediately jumped into operation and he felt a sort of lightness over himself. Feeling excited, he used his vital energy to resist the gravity of the earth and tried to fly forward.

"It worked!"

Holding the two flaming swords made out of vital energy, Austin rushed into a dense forest nearby and slashed at the trees.

"Swoosh..." "Swoosh..."

More than a dozen towering trees, all of them so thick that it would have taken four or five people to fully encircle them with their arms were slashed from the middle due to his sword aura.

"Boom..." With an earth-shattering noise, a fire began to engulf the dense forest and quickly spread over its entire area.

In the blink of an eye, the whole forest was engulfed in flames.

Inside the forest, birds started flying about and animals started running away. The whole area had become as active and noisy as a pot of boiling water.

Looking at the unrelenting scene in front of him, Austin also marveled over how destructive the swords made out of vital energy could be with the help of the source energy of the Scorching Evil Fire.

After putting the two swords of vital energy away, Austin suddenly widened his eyes.

"Oh! What a coincidence!

I hadn't expect them to be here, too."

As it happened, Austin's spiritual sense suddenly sensed that a few people—Dewey, Maria, Iris and Anna—were close-by.

## The Supreme God

### Chapter 509 Austin's Location

Four people stood at the entrance to a valley with hesitation written all over their faces.

"Do you think we should go inside and meet these people?

I heard that there are members of the royal family inside, with Bruce and Graham in the lead. Should we? Should we not?

We have several secret manuals about martial arts with us. What if Graham and Bruce give us a hard time and force us to give them those secret manuals?

On the other hand, if we don't join them, we might have to face the nine masters of the Heavenly Dragon Holy Kingdom alone. In that case we would be killed instantly because we don't stand any chance of defeating cultivators at the Sky Realm," Dewey pondered with a troubled look on his face.

The remaining three of the group were Maria, Iris and Anna.

Since the four had discovered some martial skills inside, they had wasted no time in leaving the Emperor Library to avoid the members of the royal family.

Recently, they had heard the news of the nine cultivators at the Sky Realm who were from the Heavenly Dragon Holy Kingdom and were slaying warriors of the Violet Orchid Empire.

Therefore, they had agreed on joining the group of cultivators from the Violet Orchid Empire to survive.

But when they arrived at the valley where this group was staying, they came to know that Bruce and Graham had become the leaders of this group. The four wavered in their decision now.

After all, they had offended the members of the royal family inside the Emperor Library. They were unsure and worried that these people would get back at them and force them to hand over the secret manuals about the fifth-grade or sixth-grade martial arts.

None of the four was willing to give up those manuals since they meant a lot to them and would help them immensely.

However, Bruce and Graham had a cultivation base at the Sky Realm, while Dewey, Maria, Iris, and Anna were all at the Earth Realm.

It was impossible for them to knock down such powerful opponents.

As a result, the four were in a dilemma, not knowing what to do.

"Got any ideas?"

Dewey asked his friends, pacing back and forth anxiously.

"Stop acting like that. It's so annoying."

Maria whined at his incessant pacing and anxiousness.

"Where is Austin?"

four, stand up!

Austin is," Graham ordered

And at the same time, an overbearing burst of vital energy gushed out of his body and hit at the four.

They only had the cultivation base of Earth Realm, and undoubtedly could not stand such a blast.

All of a sudden, they felt like they were being pressed under a huge mountain and were unable to move. What was worse, they started to have difficulty breathing normally and couldn't activate their vital energy. A few minutes later, their faces turned red.

Overwhelmed by this violent vital energy blast, Dewey somehow managed to take a deep breath. Once he felt better, he berated in an exasperated tone, "What are you doing? You've gone too far."

"Really?"

I don't think so. You annoying brats dared to steal our treasures.

Tell me, where is Austin hiding?

And turn in all the things you got from that palace," Graham responded sternly, with another surge of vital energy force emerging from his body and overwhelming the four.

Dewey and the three girls couldn't take it anymore. They stepped back several steps, and as for Iris and Anna with even lower cultivation bases, blood had seeped out from their mouths now.

As the four's faces turned deathly pale, their vital energy forces seemed to be suppressed, and they had trouble even lifting their fingers.

They hadn't expected that Bruce and Graham would be so fearless and embarrass them in front of the others.

The ten wicked young cultivators from the Ghost Sect joined them.

Austin was the only one who had reached the third floor in the Emperor Library. Everyone knew clearly that the most valuable secret manuals about martial arts had been hidden on the third floor and believed that Austin was much more likely to have gotten his hands on them.

Considering the fact that the secret manuals on the second floor were all about the seventh-grade martial arts, they speculated that the ones about the eighth-grade martial arts would be on the third floor.

For the cultivators in the Violet Orchid Empire, eighth-grade martial arts skills only existed in legend and were never seen.

They were convinced that a person who had mastered the martial skills of that grade could rule the entire Violet Orchid Empire.

Therefore, Bruce, Graham, and the three cultivators of the Sky Realm from the Ghost Sect, all wanted to know Austin's location.

That was also why Graham and Bruce were forcing Dewey and the three girls to tell them where Austin was regardless of the presence of so many warriors from the Violet Orchid Empire.

The two only had one thought in their mind and that was to find Austin and take the secret manuals about eighth-grade martial skills from him.

At this point, Austin was standing in front of the valley. He had sensed what was going on inside the valley through his spiritual sense.

He sneered in contempt.

'Looks like Bruce and Graham are dying to know my location, ' he thought.

## The Supreme God

## Chapter 510 Making A Move

Graham suppressed Dewey and the three girls with his Sky Realm vital energy, and now the four of them couldn't move at all.

"If you're smart, tell me where Austin is and give me all the things that you got from the hall. Otherwise, today I will teach you a lesson you will never forget.

Come on! I'm not that patient!"

Graham urged, pacing impatiently.

"If you want to know where Tin is, just find him by yourself!

Besides, we got those things from the hall by chance. That means we are lucky. Why should we give them to you? Are you going to rob us in broad daylight?

Even if you work for the imperial family, you are going too far!"

At such a critical moment, Dewey surprisingly showed strength of character and backbone and refused to yield to Graham.

Maria, Iris and Anna all looked dissatisfied with Graham's demands.

"You're all so stubborn!

I'll tell you why you should give everything to me.

Austin injured the imperial cultivators and robbed the treasures that belonged to the imperial family. That is a blatant provocation of the imperial family and a public challenge; he therefore, committed a capital offense.

Since you're his companions, you should be regarded as accomplices and an accessory to his crimes.

Hmph! Anyone who dares to challenge the authority of the imperial family commits a capital offense and must be sentenced to death!

"I'll teach you a good lesson that you will never forget and dare not offend us again!"

Graham said with an absolutely arrogant and condescending attitude. He summoned his vital energy force and formed it into a wall before violently pushing it towards Dewey and his friends.

Graham didn't use any special skills when he released the vital energy force wall, because He didn't think it was necessary to use any special skills to deal with the four, and he was confident that his vital energy was enough to suppress them to death.

The vital energy of the Sky Realm cultivators was indeed astonishing and powerful!

Even the ancient evil ape alone had the ability to smash the imperial cultivators into meat pies with a punch. So Austin laughed mockingly when he saw Bruce and Graham quick to start their attack.

"You're about to die! How can you still have the strength to laugh?"

Graham was short-tempered. He couldn't wait anymore when he saw that Austin was not afraid, but had the gall to laugh in such a situation. He waved his right hand, and a bright golden spear appeared in his palm.

"Go to hell!"

Graham shouted and rushed towards Austin with a momentum of vital energy force, with his spear aimed like a beam of golden light towards Austin. Where it passed, deep furrows appeared in the ground, like a furious python winding its way forward.

As Graham had been in a rage before releasing his vital energy force, his thrust contained a level ten spear intent!

Obviously, Graham had put a lot of efforts on his martial arts cultivation, and now he had comprehended a level ten spear intent. It was an incredible achievement among the young cultivators of the Violet Orchid Empire.

Seeing that Austin wasn't affected by the Sky Realm vital energy force they had released, Graham and Bruce realized that he might have something special about him.

Before, when Austin showed up and blocked the vital energy force wall, he had only used about twenty percent of his vital energy force, so nobody figured out that he had reached the medium stage of Sky Realm.

From looking at the vital energy force stream, Bruce and Graham thought that Austin was only at the medium stage of Mysterious Realm.

The golden spear-lights were fast approaching. However, Austin didn't dodge but stared at them calmly, not even blinking his eyes.

"You have no chance of survival!"

Graham shouted with a vicious grin. He suddenly shook his arm, and the spear hit toward Austin's head like a golden dragon, emanating a powerful energy.

"Tin, be careful!"

"Tin, watch out!"

"Austin, get out of there!" "Ah!" Dewey and the three girls shouted in fear.

Iris and Anna were afraid that they would see Austin's head smashed in the next second, so they covered their eyes.

"Phew! Phew!"

With two faint sounds, two swords with flame clusters appeared in Austin's palms.

They were all about three feet long and each of them was emanating with a strong vital energy force. These were two vital energy swords.
