

The Supreme God

Chapter 51 The 500 Vital Energy Crystals Reward

For three days, Marvin pursued and searched for Austin, but his quarry seemed to have just disappeared. No one had seen him either.

And the thought of some two dozen earth spiritual fruits made Marvin mad.

The young disciple, who was head of the practicing group, looked at the portrait of another young follower of the Sun Sect in the paper and shook his head.

"I've never seen this disciple before. Everyone, come and have a look. Has anyone ever seen him?" He was replying to Marvin and addressing his group members.

A slender girl with a lovely face came over and picked up the paper to look at the picture. Others also checked it out carefully.

After looking, they all shook their heads to indicate they had never seen the young man before.

With a forlorn expression, the group's leader returned the paper to Marvin and said, "Sorry, but none of us have seen him." Though sad to not be of help, secretly he was in awe of the unknown disciple.

His remark left Marvin looking sullen, his face long.

At the look on Marvin's face, the group was worried that he would be unhappy with their reply.

All five members of the group were well aware of Marvin's strength.

In case the two sides clashed, it was highly possible that Marvin would defeat their group, even if they had five members going against just one.

And with them in the Beast Mountain now, Marvin could beat the group for no reason at all and still be blameless.

Without saying anything, Marvin stared at the five people before him.

"Remember the face clearly, and help me tell other outer disciples in the Beast Mountain about him. If they find the man, they must report it to me.

I will offer a reward of five hundred vital energy crystals for any information on his whereabouts," Marvin declared.

That said, he handed the paper back to the leader of the group.

The group was startled by a loud thud as a black bag landed in front of their leader.

"This is thirty vital energy crystals. It will be yours if you help me spread the word to others. Otherwise, you know what can happen to you," he threatened.

There was a feeling of great relief after the five heard Marvin say he was not inclined to fight against them.

The relief was quickly replaced by glee.

Five hundred vital energy crystals as a reward!

Most outdoor disciples in the Beast Mountain fought against level one diabolic beasts and demonic beasts to get beast cores.

Only a few with great power ever attempted to destroy level two beasts.

The price of a level one beast core was usually ten or a dozen vital energy crystals.

It boggled their minds how many level one beasts they had to kill to earn five hundred vital energy crystals!

outer disciples, was hunting for another outer disciple named Austin. He was offering a reward of five

outer disciples, this was a huge fortune. Very soon all disciples in the seemed every disciple in the Beast Mountain had started

It didn't take very long for Austin's name and description to spread among disciples in the Beast Mountain.

Had Austin known this, he would have sighed at how quick he became famous.

Inside the secret cave beside the cliff, Austin suddenly opened his eyes after sitting still and cultivating himself for some time.

His vision became very clear. Apparently, he had completely recovered.

Stretching himself, Austin thought about his previous experience of being chased by Marvin like a homeless stray dog, and this made him slightly furious.

He vowed to someday make Marvin pay for all he had done to him.

Still, Austin believed all his hardships seemed to be worth it.

The young man became excited at the thought of the two dozen earth spirit fruits.

As he focused on this, he controlled the space ring that enabled the earth spirit fruits to fly out of the ring and stand in front of Austin. The fruits were round and milky white.

He counted the fruits and there were twenty-three of them.

Examining the fruits, Austin noted a soft luster in its surface.

A natural fragrance also pervaded the cave's interiors.

There was extremely dense vital energy beyond the fruit's surface that came to Austin.

Sensing the dense vital energy from the earth spirit fruits, the young man was encouraged to indulge in them.

His body accidentally absorbed some of the vital energy it gave off. It seemed equivalent to the vital energy he usually absorbed for five days.

Austin was in awe and could not help acclaim the fruits in his mind.

'The earth spirit fruit truly deserves the reputation it enjoys.'

And because of this, Austin vowed not to waste it especially because of the great effort he exerted to obtain them.

He waved his hand and the motion made twenty-two fruits return to his space ring.

He then opened his mouth and popped the one fruit left inside it.

What followed was a wonderful burst of flavor in his tongue.

The taste was superb. Austin had never eaten a fruit as wonderful as this one he had sampled.

It just wasn't the taste that amazed Austin.

Because just as he was savoring the fruit, he suddenly felt vital energy flows oozing out of the fruit as it went down his throat. And the energy flows were twice as potent as the Energy-boosting Elixir.

The vital energy flowed like a great river inside his body and soon they permeated every cell of his body.

At the same time, Austin felt pain as if the vital energy flowing inside him was too much for his body to channel, and it seemed as if these channels were stretching.

It was unexpected that the earth spirit fruits should contain such strong vital energy.

Austin certainly didn't expect it and was greatly frightened. But he quickly sat on his feet and got ready to absorb the vital energy seriously.

He started the Purple Yang Formula to its maximum and tried to direct the vital energy flows inside his body.

The Supreme God

Chapter 52 The Riot In The Grand Desolation Mountain

It turned out that some rare, high-grade and precious materials in the world often contained large amounts of vital energy.

If those with a lower cultivation base took them carelessly, they could be heavily damaged since they couldn't take in such large amounts of vital energy. The energy that couldn't be absorbed might explode in their bodies and kill them.

Now, Austin was only at the fifth level of Energy Gathering Realm.

It was hard for him to absorb so much vital energy that was equivalent to two Energy-boosting Elixirs.

Fortunately, the torrent of vital energy ran slowly but steadily in him, and no longer flowed away in all sides when he practiced with the Purple Yang Formula accordingly.

With the guidance of the Purple Yang Formula, the vital energy was slowly absorbed, and Austin closed his eyes.

Four hours later, Austin woke up, his eyes bright.

He felt the strength in his body and he knew that he had reached the sixth level of Energy Gathering Realm.

The earth spirit fruit was quite effective, as he only needed one to reach the sixth level of Energy Gathering Realm.

He was even a little surprised at the speed of his improvement during that time.

Back then, he was only at the second level of Energy Gathering Realm--then the third, fourth, fifth, and now he was at the sixth level.

It took him only less than a month to break through four levels in a row.

If people had heard of Austin's cultivation speed, no one would ever believe it.

The people who could reach this speed of improvement were more than geniuses, as it was considered an incredible miracle.

It was already rare for some of these world geniuses to break through two or three levels in a year.

This case of breaking through four levels in a month was completely unheard-of in the Prime Martial World.

Austin couldn't deny that he was also frightened by the scene.

A few seconds later, he remembered where the red flames came from when the dragon had ascended to the sky.

It was in the innermost part of the Grand Desolation Mountain.

The Grand Desolation Mountain was one of the restricted areas for mankind in the Prime Martial World, for it was too vast and boundless.

No one really knew how big it was, but it was known for being extremely dangerous due to the many beasts and demons that lived there.

It was so unsafe that even the most powerful man of the human race dared not go deep into it.

It was because the deeper one got into the mountain, the higher the levels of demons and beasts they would encounter.

It was also said that diabolic beasts of the sixth or even seventh level lived there.

There were even remnant species from the ancient times that lived in the innermost heart of the mountain. They were so powerful that they possessed strengths beyond people's imagination.

Now, the great battle that was currently going on was in the innermost part of the Great Desolation Mountain.

The Beast Mountain, which was the junction of the Great Desolation Mountain and the human habitation, was a triangular terrain that protruded from the edge of the Great Desolation Mountain.

"It seems that the legends are real. The demons and beasts in the depths of the Great Desolation Mountain are really horrible," Austin muttered.

These great beasts were so powerful that he couldn't help but be scared and also in awe of them.

He suddenly felt how small he was when he witnessed a battle that shook heaven and earth for the first time.

A man like him was really small and insignificant in such a huge battle!

For the first time, Austin felt the desire to become stronger. His aspiration for power had never been this intense.

However, he realized that he still had a long way to go in the pursuit of martial arts and he was still far away from achieving his goals.

His eyes looked at the fierce battle in the distant horizon. Austin's face flushed, and he clenched his fists as he felt both dread and excitement run through him.

The Supreme God

Chapter 53 Four Powerful Animals Fight For The Treasure

At the same time, the Grand Desolation Mountain turned into a battleground for this fierce fight.

A dark, boundless forest surrounded the mighty mountain.

An enormous ape bathed in red fire trod the forest with his face towards the sky.

It was impossible to describe just how huge he was. The dreadful aura emanating from him was suffocating.

Strong and powerful as he was there were wounds all over his body.

The flesh on his body was lacerated, and he was bleeding. You could even see some of his bones through the exposed flesh.

Blood poured out of the wounds and formed a river beneath him.

A giant black bird was perched on a hilltop nearby.

He glared at the huge ape with his deep, green eyes and spoke like a human.

"Ape, why are you prolonging your suffering? Give me the treasure and you can escape death. Why do you want to lose your life because of a treasure that you don't know how to use?" he reasoned.

The huge ape stared menacingly at the black bird, his large eyes failing to conceal his murderous intent.

Because it was this black bird who had caused some of the grave wounds on his battered body.

"Huh? Do you take me for a fool? Any treasure from the fairy tomb can shake the world. How can it be useless? You are afraid that I will be more powerful than all of you and rule this mountain once I get the treasure," claimed the enraged ape.

Suddenly, two bright, red lights aimed right at the black bird shot out from his golden eyes.

When these lights flashed, everything evaporated and turned to nothing, and even the atmosphere changed.

"You are so stubborn, ape. We shall see how far you can persist," challenged the black bird.

He flapped his wings, churning up a dark fog, and an overwhelming black light began to spread from his body.

The evil black light slowly engulfed everything until even the heavens turned dark.

Slowly the black light transformed into an illusory black bird so huge that it filled up the entire sky. This surreal bird raced to the two red lights.

Bang! The illusory black bird collided with the two red lights.

Countless mountains collapsed below.

The earth burst open and the ground broke into hundreds of massive cracks, which spread like a spider's web.

But the great ape was unwilling to die in this way. Gritting his teeth, he made a decision.

He started to burn a large quantity of his pure blood.

As the blood in his body burned, the ape's terrifying breath weakened instantly.

His towering huge body shrank unexpectedly.

It continued to shrink until he turned into a mini monkey. He was so small that he could stand in a human's palm.

The burnt blood now turned into a strong, red air mass, wrapping tightly around the mini monkey.

It all happened in an instant.

The giant black bird was petrified at first but he quickly came to his senses.

"Damn it. The monkey is going to run away. Stop him quickly," he said, panicking.

No sooner had he uttered these words than the red air mass melted into the bright red light.

It flew ten thousand miles away at a horribly high speed.

The three powerful animals were stunned.

The huge ape had risked his life to perform an extremely dangerous magic in order to flee.

'It seems the monkey doesn't want to be alive, ' they mused. "Don't let him go!"

The black bird flapped his wings and cast a spell of his own.

Turning himself into a black light he chased the monkey at high speed.

The green flood dragon and the large lion also muttered secret incantations and turned into two lights.

They chased the red air mass so fast that it was all just a blur in the sky.

Austin watched the entire battle in the sky from the depths of the Grand Desolation Mountain.

After about four hours, the clash ended. The angry sky gradually calmed.

Still reeling from this encounter, Austin was filled with emotion, his blood boiling.

"I, too, will have such powerful strength someday and join such a fierce battle," he vowed.

He was charged with this idea buzzing inside his head for a long time before he finally calmed down.

"I'm going to toughen myself and become more powerful!"

Austin made a decision immediately.

The Supreme God

Chapter 54 Coming Back Home

Being a zealous and well-prepared martial arts cultivator, Austin was about to start his training.

However, a loud voice echoed across Beast Mountain.

"I am Theon from Sun Sect. Unusual phenomena have been reported in the Grand Desolation Mountain. All outer disciples from Sun Sect

are required to leave the mountain as quickly as possible and return to headquarters. Any outer disciple who violates this direct order will be expelled from Sun Sect."

Theon?

The name sounded familiar to Austin, but he couldn't quite remember the person.

All outer disciples who were practicing martial arts in the Beast Mountain knew the name.

"Theon, the Sect Leader, has come here," somebody whispered.

Theon was the leader of Sun Sect. He controlled everything and was respected by all the disciples.

As the words were said, a distinguished, middle-aged man glided overhead. He radiated a commanding aura as he stood on a white disc that glimmered in the light as it flew past.

The expression on the faces of the outer disciples that had caught a glimpse of Theon conveyed the awe they felt for him.

He was admired and respected by both, inner and outer disciples, as well as cultivators and ordinary people.

It seemed that the battle occurring on Grand Desolation Mountain had drawn the attention of high level cultivators. It must be significant enough for the leader of Sun Sect to investigate it personally.

Long after Sect Leader Theon had flown past, the disciples were still gaping in his direction. They had the rare opportunity to see their Sect Leader, and each disciple was filled with a sense of admiration.

They wondered if and when would they acquire abilities equivalent to their Sect Leader's. Perhaps they would never achieve such a high level.

Their Sect Leader's orders couldn't be defied.

On top of that, Sect Leader was flying overhead, supervising the retreat.

Within an hour, all disciples of Sun Sect had left the mountain.

To display their capabilities before Theon, the disciples used their best skills when withdrawing from the mountain.

Austin followed orders as well. He used his martial arts to leave Beast Mountain.

However, to hide from Marvin, Austin had gone deep into the mountain to practice.

Since ordinary disciples weren't capable of protecting themselves from second-grade diabolic beasts, they couldn't risk going deep into the mountain. Austin was different. He could afford to venture into the mountain.

When it was time to leave, Austin was further away than the other disciples. Hence, he fell behind and couldn't catch up with them.

beast cores, dead bodies, organs of beasts, and spiritual

This would be a considerable fortune for him.

Just as Austin was returning those items to his Space Ring, he remembered something.

Before entering Beast Mountain, he had given his Jade Badge to the mountain keeper.

As stipulated by the rules, all disciples practicing on the mountain should report to the mountain keeper before leaving.

Then, the mountain keeper would give every disciple contribution credits according to their performance and gains.

However, an emergency had occurred this time, and all disciples training on the Beast Mountain had to retreat quickly. As such, none had thought of reporting to the mountain keeper or collecting their Jade Badge.

At Sun Sect, Merit Hall was responsible for managing the Jade Badge for its disciples.

Therefore, Austin thought he should visit Merit Hall, and ask its manager to return his Jade Badge.

The Jade Badge was extremely important to Austin because it was one of those few things that could prove his identity as a Sun Sect disciple.

Having reached the sixth level of the Energy Gathering Realm was a significant accomplishment during his training on the Beast Mountain.

Before he journeyed to the mountain, Austin had reached the fourth level. However, after a dozen days of practice on the mountain, he had climbed two more levels. This was an unprecedented achievement at Sun Sect.

Austin wasn't satisfied with his progress because he had been at the ninth level three years ago. So, he had to find other effective ways to get to higher levels.

If Austin hadn't wasted those three years, he would be a revered cultivator of the Earth Realm.

The thought depressed Austin. Now, even his gains from Beast Mountain couldn't cheer him up.

Therefore, as soon as he finished sorting his items, he started to practice his martial arts.

Austin sat down with his arms crossed before his body and concentrated. Then, he used the Purple Yang Formula.

Immediately, he could feel the vital energy flowing inside his Elixir Field.

A frown appeared on Austin's face when he felt as though there was something strange inside his Elixir Field.

Then, he found himself capable of seeing his Elixir Field clearly, which was unexpected.

A palm-sized shining substance was lying inside his Elixir Field for unknown reasons.

It looked extremely strange. It wasn't made of iron, copper, jade, or timber. Austin had no idea of what this substance was.

It was hanging there in his Elixir Field, with gentle and warm lights. It seemed to have those special capabilities of calming a worried mind and cheering people up.

Besides, some ancient, mysterious, and complicated lines were seen on its surface. It must come from ancient times. Perhaps it existed even before any people had ever lived on Earth.

This was... What was it?

Austin was confused, surprised, and a bit afraid.

The Supreme God

Chapter 55 The Battle Between Spiritual Souls

Sensing the unidentified object in the elixir field of his body, Austin tried to use his vital energy to expel it, though he was hesitant and afraid. If the plan backfired, his own vital energy could be damaged.

"Bzzz..."

Whatever it was, it got stimulated from the energy and purred in a low voice, slowly getting aroused.

Then suddenly, it began to absorb the vital energy from Austin's elixir field with a frantic power that he was unable to resist. It was almost as if there was a magical suction in place.

The suction grew stronger by the second as that thing kept absorbing his vital energy. In just a short while, it had completely swallowed the vital energy that Austin had feverishly, much like a whale devouring its prey.

Austin was deeply shocked and scared. He resisted as hard as he could and tried to avoid the suction with all of his willpower, but what he did was just like a mantis trying to stop a chariot.

The scariest thing was that in just a moment, Austin had found that all of his vital energy had been sucked out of him by that thing inside of him. Now, that thing looked strange, with no definite shape, and glowing with a bright light.

Austin regretted wasting his vital energy in his desperation and felt like crying.

He blamed himself deeply for having bothered that damn thing with his vital energy. It was a risk and it hadn't paid off.

It had taken him great efforts to get back to the sixth level of Energy Gathering Realm. But now, all of his vital energy had been snatched from him in one sudden moment. Did he have to start over again?

The very thought of this was unimaginable and Austin could not help feeling a little desperate.

"No! I am never going to give in. I am going to get rid of this thing."

Without a second's delay or hesitation, he took out an earth spirit fruit, thrust it into his mouth and swallowed frantically.

Just as the fruit went down his throat, it released a large amount of vital energy into his veins, energizing him, albeit for an instant.

The object in his elixir field immediately sensed the vital energy and it created another strong suction.

In an instant, the vital energy of the earth spirit fruit was forced towards the elixir field and absorbed by that strange thing once again.

Having no alternative, and getting more and more frantic by the minute, he put another earth spirit fruit into his mouth without hesitation.

But it amounted to the same thing once more. The vital energy was immediately absorbed by that damned thing.

Then he continued to take the third earth spirit fruit...

fourth earth

He had already

behind his back, sending out a defiant message that Austin was his slave

However, Austin was in no mood for chit-chatting with the monkey at the moment. He was burning in anxiety. Deciding that the monkey had uttered enough nonsense, he thundered, "Son of a bitch! Get out of my body!"

He murmured a formula, arousing the vital energy in his elixir field to flood toward the little monkey, hoping that the overload would draw him out.

However, the little monkey turned a blind eye to the surge of vital energy, for it had no effect at all when it lashed on the little monkey.

"Haha! Ignorant boy. I am only a piece of spiritual soul right now and it is useless to try to hurt me with vital energy.

But in any case, since you're in such a hurry, I'll be a kindhearted person and send you to your death as soon as possible."

As soon as the little monkey finished his words, he disappeared from the elixir field with a glint of red light, and re-appeared the very next moment in Austin's Soul Sea.

Looking around, the little monkey was surprised to find that the Soul Sea of this man was extremely vast, quite unlike a usual cultivator at level six of energy gathering realm.

'This is unbelievable, ' the monkey told himself in disbelief.

"Get out!"

With a furious roar, Austin's spiritual soul also appeared in his Soul Sea, pouncing on the little monkey violently. He had half a mind to wring its neck there and then but was curious too.

Therefore, he hit the little monkey's spiritual soul heavily with a punch and threw him far way at once.

"This is impossible! How could your spiritual sense be so strong!"

the little monkey exclaimed. His voice was full of panic now as if something terrible had happened and he no longer looked like the arrogant bastard as before.

He had just behaved in a defiant way, talking as proudly as a cock.

Now, however, he was suddenly showing a picture of confusion and nervousness.

The truth was, although the little monkey used to be very powerful some time ago and there were very few people indeed who could match him in strength and spirit throughout the whole Prime Martial World, right now, at that moment, his strength was only at the level of Earth Realm

while the spiritual sense of Austin was surprisingly, at the level of the Mysterious Realm. Austin had already been able to release his

spiritual sense and his strength was clearly superior to the little monkey who was only a remainder of a lost spiritual soul.

In fact, the little monkey was the same great ape who had fought fiercely with the other three monsters in the depths of the Grand Desolation Mountain. During that fight, he had been almost overpowered and had to resort to a forbidden martial art at the expense of his blood essence in order to finally escape the pursuit of other monsters. This, however, had cost him.

His body was destroyed, leaving only his spiritual soul behind and he would have been obliterated very soon.

Even his spiritual soul had almost fallen into oblivion. But fortunately, the six earth spirit fruits which Austin had consumed after being taken by him had saved his life in time.

What was ironic was that even though the original remainder of his soul would have vanished between the Earth and the Heavens if Austin had not saved him, he was still hell-bent on getting rid of Austin until just now.

The Supreme God

Chapter 56 The Vital Energy Stone

If one were to see things from the monkey's point of view, Austin was only at level six of Energy Gathering Realm with a weak spiritual soul, so it should have been a childish affair to take over his body. Forget about taking over his body, even defeating him should have been as easy as pie.

If it could eliminate Austin's spiritual sense, it would become the new owner of his body. With a brand new healthy body, it could start anew in its cultivation path and soon perhaps could return to the Grand Desolation Mountain and take its revenge one day.

However, it realized that it was gravely at a disadvantage when fighting with Austin's soul. To its surprise, the soul of this mere mortal was much stronger than its own. Perhaps this was because it had lost most of its former power and had been forced into Earth Realm.

Its disadvantage was noticed by Austin as well and he thought that revenge this time, would be best served hot!

Now, he could punish the little bastard for eating his vital energy. Sneering, he chided it, "Aha! Where's your confidence now?"

You were quite confident just a while ago. Was it all just banter? Can you do anything but show off and exaggerate? Didn't you just say that you can easily kill thousands of martial cultivators like me?"

It took just a short while to tip the scale completely in Austin's favour. Pinning the monkey down as the fight fell into his dominion, he punched it furiously in the face multiple times.

The violent attack it had sustained had weakened the power of the monkey's soul quickly, and pretty soon, it was in extremely low spirits.

"Try to kill me like you said just now! Didn't you say you could do that without striking a blow? Oh wait! With just a breath! Would you like to blow some air now?"

Austin teased as he continued with his beating.

He had been scared to death when this monkey had suddenly appeared in his Elixir Field, so he was giving full vent to his grudges now that he was in dominion.

Finally giving up to Austin, the monkey suddenly shouted out with resentment.

"No! This is impossible! You are very low in your refining level, but your spiritual sense is as strong as those in the Mysterious Realm. I can't believe it!

"I'm the Immortal Monkey King! I can't lose to a weak human scum like you!"

With one burst of what little energy that remained inside it, the monkey struggled and pushed Austin's soul away. The latter lost his balance and fell headlong.

After it had managed to free itself, the monkey quickly jumped into a corner and tried to gather its strength.

'Maybe I could try my Spiritual Sense Flying Needle.'

An idea appeared in Austin's mind. He controlled his spiritual power and produced a flying needle which shot towards the monkey at an extremely high speed.

The monkey was shocked to see Austin's new attack. It had never expected that Austin would not only possess a strong soul but would also have a grasp of spiritual-sense martial skills.

The vital

Austin was totally confused. He had never heard about those things in the past. The monkey continued, "The vital energy stone is an extremely rare treasure. Many martial cultivators are eager to own it but never have the chance to even see one. The amazing part of it is that it can serve as a storage space of the martial cultivators' vital energy.

You know, a martial cultivator will run out of his vital energy if he fights with others for a long time. If you could integrate such a stone into your body and reserve some vital energy inside it, you will be able to replenish yourself whenever you consume too much of your vital energy.

In other words, if you reserve abundant vital energy inside the stone, It's going to come in handy for replenishing all of the energy spent during a fight, and you won't have to worry about running out. Just imagine how convenient that could be!"

The monkey explained everything in detail. He was trying hard to please Austin.

Austin's eyes lit up with pleasure when he heard the monkey's words. If the vital energy stone really did function that way, it would be of great help to him.

"Another question, was it the vital energy stone or you that sucked away all the energy from my body?"

The monkey cleared its throat before replying with an embarrassed look. "Emm... Both, actually. My soul was hurt severely. In order to employ a kind of soul-recovering magic which requires an environment with rich vital energy, I absorbed your vital energy into the stone to heal my soul. Otherwise, I would have died.

And before you kill me, you should know... That entire amount of vital energy is still reserved in the stone. I only borrowed it a bit to nourish my soul but didn't consume any of it. If you want to use it, you can take it out of the stone any time you like."

The monkey explained cautiously, afraid that Austin would get angry at it.

After all, it had controlled the vital energy stone to absorb all of the vital energy inside Austin's body and had almost ruined his cultivation.

"You mean that all of the energy from the seven earth spirit fruits is inside the stone and I can use it at any time?"

Austin asked with a surprised look. God, those were seven earth spirit fruits he had consumed! Just imagine how much energy they could produce in total!

When he had eaten a single earth spirit fruit in the Beast Mountain last time, he had almost failed to take in the enormous amount of energy it had released into his meridians. But now, he had the energy of seven earth spirit fruits stored in the vital energy stone, and he could use it at any moment. It was such a big surprise that Austin felt like he was in a dream.

"Is there anything else about the stone? Tell me everything you know about it."

Austin commanded in an icy cold tone as he threatened the monkey with the flying needle.

"There is a cultivation method inside it."

The monkey answered with a weak voice.

"A cultivation method? What grade? What does it do?"

"I know its name is Golden Sun Scripture, but I don't know what grade it is."

"And anything else? Don't try to conceal anything from me!"

Austin threatened mercilessly.

The Supreme God

Chapter 57 The Golden Sun Scripture

Austin grilled the little monkey, trying to get as much information as possible.

"Honest! I don't know anything else! I just got it a month ago, and I've been hunted ever since, which hasn't left me much time to study it!"

replied the little monkey, who was on the verge of crying.

"Oh really?" challenged Austin as he rolled his eyes doubtfully.

"Yes, really! I swear! Solemnly, with a Heavenly Vow! On this, the vital energy stone in your body, I have told you everything I know," pledged the monkey hurriedly.

Every cultivator was afraid to break a Heavenly Vow; if they did, by the rules of God, they would be punished.

"Well, alright. Since you've given your vow, I believe you. But, all the same, you're going to be killed by me because I've made your life so miserable, and you must harbor a deep hatred for me. If I don't kill you now, I think you will be a threat to me in the future! I'm sorry!"

commented Austin as a sly smirk appeared on his face.

Using his mind, his Spiritual Sense Flying Needle wasn't dormant and darted at the little monkey's spiritual soul.

"No, no! I don't hate you! I swear!" pleaded the monkey anxiously.

"Don't kill me! Please!" he whimpered as he watched the Flying Needle headed at him, helplessly.

As the little monkey faced his impending death, his reaction was like anyone else's, and it didn't matter how powerful he was.

Austin was unmoved by the monkey's pleading.

A moment later, the little monkey let out a loud roar as its spiritual soul was ripped to pieces within the Soul Sea of Austin. Then, the pieces became numerous spots of little red lights.

Some of the spiritual soul red lights disappeared immediately, while others were absorbed by Austin's Soul Sea.

After absorbing the pieces, Austin was surprised that he felt his spiritual sense power was enhanced quite a bit.

'Apparently, the red light transformed by the little monkey's spiritual soul improves the effects of my spiritual sense power.

My spiritual sense range was about two hundred meters, and now, it feels as though its range is beyond that.'

To determine the precise range, Austin released his Spiritual Sense Flying Needle.

'Wow, over four hundred meters!

That doubled my range and enhanced my power.

Impressed with the opening line of the book, Austin inhaled, long and deep.

While he read on, the ancient mysterious auras presented in Austin's mind one by one.

The ancient words were gorgeous, thick and glowed brilliantly, as each word shone with a golden radiance like small, dazzling micro-suns.

As the many passages of mysterious methods flowed through his mind slowly, Austin felt the great truths of the natural laws held within the tome.

Anyone sensing the ancient mysterious aura it was exuding would know how invaluable the book was.

'Wow! It appears I shouldn't underestimate the Golden Sun Scripture, ever!'

As he felt the ancient cultivation method flowing into his Soul Sea, Austin was filled with awe toward it immediately.

Austin immersed himself in the cultivation method so he could understand it with all his heart and soul.

He finally comprehended the Scripture, and he discovered three hours had slipped away.

Immense joy shone in his eyes when he opened them.

What he gathered from the introduction of the mysterious cultivation method, was that the Golden Sun Scripture was the most masculine, powerful method worldwide. Anyone grasping it would have

superhuman skills, able to know everything about the Heavens and Earth which would give him unlimited power.

Although it didn't specify clearly which grade of cultivation method it was, the introduction alluded to any disciple being able to practice it from the first stage through the God Realm with no need to change to another cultivation method halfway.

Additionally, there was a special notation that the Golden Sun Scripture could be used as general guiding principles for other masculine, powerful cultivation methods used throughout the world.

As long as a disciple practiced the methods within, there wasn't a reason to practice any other masculine methods, because it would be redundant.

'General guiding principles to other masculine, powerful cultivation methods worldwide?'

wondered Austin, deciding that the author was really cocky to write it like that.

'Hmm, the God Realm?

Which level is that realm?' pondered Austin inquisitively.

This Golden Sun Scripture contained tons of information Austin hadn't ever heard before.

He heard the highest cultivation base level someone could reach was the Imperial Realm of vital energy. He'd never heard of the God Realm.

Austin had a vague feeling that the Golden Sun Scripture within the vital energy stone might be an incredible, rare treasure.

Those thoughts made him decide to practice, immediately.

From his perspective, since he'd practiced the Purple Yang Formula, prior to this, which was the same sort as described in the tome, a masculine cultivation method, he should have no problem practicing this.

Even if this Golden Sun Scripture wasn't overly useful, at least it could blend with Purple Yang Formula he practiced before and wouldn't bring him any harm.

The Supreme God

Chapter 58 Choosing A Martial Art Skill For Free

Austin clearly knew that there was no one in this Prime Martial World that he could rely on. If he wanted to become somebody, the only way was to refine himself and win matches.

So the moment he found a formula or martial art skills that could enhance his skills, he had no plan to let it go.

After recalling the steps needed to practice the Golden Sun Scripture, he sat on his feet and focused his mind on one point and started practicing.

Once the formula was started, Austin felt his body seemed to become heavier as if he had been a part of nature and could get everything about nature.

In a matter of time, traces of vital energy started to appear in the air.

As Austin went on with his practice, the vital energy inside his body ran in accordance with some profound rules of the nature around him.

Gradually, the vital energy, led by some great strength, started to rotate around Austin's body.

Then a small vital energy cyclone formed and concentrated towards Austin's body.

At that moment, Austin's body became like a bottomless hole absorbing all the vital energy into it.

When Austin indulged himself in practicing the Golden Sun Scripture, the vital energy around his hut seemed to be at home and flooded over it.

The dry straw shook in the middle of the vital energy cyclone.

Austin did not notice anything about it and kept on practicing the Golden Sun Scripture. Everything seemed to become energetic.

He even felt like the sun himself gleaming in the sky. The spirit of the sun seemed to have made both his mind and body pure and warm.

A great amount of vital energy flowed in a special path before it entered Austin's elixir field.

Suddenly, a tiny shiny golden dot occurred at the center of his elixir field.

As soon as the dot appeared, it absorbed all the vital energy into Austin's elixir field. The more vital energy it absorbed, the brighter it grew.

After a while, the light dot had fully absorbed all vital energy.

Austin slightly quivered and woke up from the cultivating situation.

So Austin finally understood why all the outer disciples were suddenly interested in him.

But he kept his calm despite all the fuzz and the eyes looking at him.

He knew that Marvin wouldn't let him be that easy and would eventually find him himself.

Austin was waiting for that moment.

He scanned the crowd and suddenly frowned upon seeing someone.

It was a girl in red glaring at him with hatred. The girl's name was Lara Tang.

She was warmly loved in her family and was used to be flattered by everyone especially when she became a disciple in Sun Sect. She was used to being at the center of attention and it was only natural for everyone to respect her and be nice to her.

But the last time she was in the Beast Mountain, she received the greatest humiliation of her life. Austin slapped her in public.

Now seeing Austin again, she did not hide her hatred towards him.

Austin just slyly smiled and ignored her. It was such a petty issue not worthy of his time.

He scanned the rest of the crowd again and was curious that he didn't find Marvin anywhere.

He expected that Marvin would be there to look for him since he eagerly wanted to get the earth spirit fruit.

"Tin, you must have gained a lot back in the Beast Mountain, right? I was told that only the three disciples who have the greatest contribution credits during the trial can enter the Sacred Scriptures Library and choose one martial art skill for free."

Herbert whispered to Austin. It diverted his attention from Marvin for a while.

'Choose a martial art skill for free?' Austin suddenly got interested in this.

If an outer disciple wanted to enter the Sacred Scriptures Library, he needed to spend a great amount of contribution credits.

Those who didn't have enough contribution credits could not learn the martial art skill of the Sun Sect.

All the skills Austin was practicing, including Fish Swimming Pace, Cloud Swordsmanship and Roaring Tiger Fist, had cost him a lot of contribution credits.

The thought of getting one martial art skill for free had thrilled Austin.

But he was not sure what rank he could get with his current performance. Nonetheless, he was still confident that he could make it to the top three.

The Supreme God

Chapter 59 Refinement Contribution Credits

With what he obtained in the Beast Mountain, Austin was quite confident that he would get the chance to pick a martial arts skill for free.

"Attention, everyone! Be quiet and line up! We will now begin to tally the scores you have achieved in the Beast Mountain."

Everyone in Merit Hall could hear the recorder's announcement.

The announcement suddenly had all the disciples waiting for the results with great excitement and expectant faces. The majority of them exerted themselves in the past few weeks and was now hoping their efforts would finally pay off.

A supervisor from Merit Hall was very satisfied after he saw all the outer disciples quickly becoming quiet. He nodded, and said, "Very well, let's begin!"

"Farry, one level-two monster beast core, one level-one diabolic beast core. And a few low-level spiritual herbs.

Three contribution credits," was the first to be announced.

"Terence Zhang, one level-one demonic beast core, and several low-level spiritual herbs. Two contribution credits!"

"Brandi Huang, two level-two monster beast cores, one level-one diabolic beast core, and some low-level spiritual herbs. Four contribution credits.

The announcement of scores continued for the rest of the disciples. It went until all the achievements were awarded.

The spoils won by disciples were mostly level-one diabolic beast cores and level-two monster beast cores.

Sadly, the outer disciples didn't have the guts to ruffle the level-two diabolic beasts and demonic beasts.

For those who only got low-level spiritual herbs and flowers, the recorders didn't bother to count the numbers. They just gave the disciples one dedication point for any herbs or flowers shown to them.

There were no complaints from these disciples. They were well aware of the little value of these low-level spiritual herbs and flowers.

The announcement for every achievement and reward was made loudly by the recorder. Excitedly, the outer disciples came forward one by one, proudly showing what they earned in Beast Mountain.

After the announcement of how many contribution credits a disciple earned, the recorder would swipe a silver token on the Jade Badge that bore information about the disciple's identity. Then with a flash of silver light, the contribution credits received by each disciple were automatically recorded in the Jade Badge.

Those who earned high contribution credits held their Jade Badges tightly in their hands out of excitement, refusing to lay these down. Meanwhile, those who got low contribution credits were often downcast in spirit.

As the event progressed, everyone paid great attention to the proceedings. Some would occasionally discuss, in low tones, what they heard throughout the announcements.

"Hey, Tin! How many did you harvest? Will you be getting the first prize? Well, I have confidence in you," Herbert said.

while talking to his friend.

diabolic beast cores. Other than that, all he collected were low-level spiritual herbs with little

He laughed before boasting, " I guess I made the right decision. These two sun rock herbs happened to be on the side of a very slippery cliff. I just got that inspiration and sort of had a hunch that they might bring me good luck. So, I took the chance and crossed the cliff to get them despite the dangers."

With a smug smile, Herbert looked at Austin.

What Herbert did, risking his life, to get the herbs was truly courageous, and Austin admired him for it.

Inhaling deeply, Austin shook his head in resignation as he admitted that luck was truly on Herbert's side.

"Anthony Pang, five level-two monster beast cores, three level-one diabolic beast cores, two level-one demonic beast cores. Ten contribution credits."

The recorder made the announcement.

Every disciple stopped discussing Herbert's good luck as soon as they heard the words.

A loud hiss broke the silence.

The disciples gasped in surprise and turned to look at outer disciple Anthony Pang, who stood in the middle of the Hall. Ten contribution credits were the highest score recorded so far.

Anthony felt the admiring glances boring into him. He could not help but feel proud of his achievement.

Then he cast a disdainful glance at Herbert, as if to challenge him.

"Huh! Every dog has its day. You're the lucky dog. But with me here, there's nothing for you to brag about.

Only those who win with real strength should enjoy the real glory," he spat.

"You..." Herbert began to sputter.

"How can you say that?

What's the big deal if you get a few more contribution credits?"

The remark had pissed Herbert off.

But eventually, it was Austin's turn to hear his score.

All eyes were on him as he walked calmly towards the recorder and brought out the beast cores from his chest one by one.

"Fifteen level-two monster beast cores, fifteen contribution credits."

Even the recorder was surprised by the number of beast cores presented by Austin on the table.

The crowd quickly broke into an uproar. With shocked expressions, they looked at Austin, unable to believe what they saw and heard.

The Supreme God

Chapter 60 Meet The Old Enemy

Austin had an ordinary appearance and looked no different from any other disciple, but he had managed such a dazzling achievement!

The other disciples had paid great attention to Austin previously because Marvin had posted a reward of 500 vital energy crystals for clues about Austin.

But they hadn't expected that Austin had such hidden strengths and that he was so powerful.

Herbert was one of them. He looked at Austin dumbfounded.

Not long ago, he had smugly boasted that he had taken Austin's first prize.

But now, it seemed that Austin's contribution credits were twice as much as his!

"Tin, you surprise me. Your score is so much higher than mine. Oh, my God."

complained Herbert as he looked at Austin helplessly.

Austin reclaimed his Jade Badge. The other outer disciples stepped forward, one after another, to exchange cores they had gathered for contribution credits.

Most of them had got just a few credits.

These outer disciples, who adventured in the Beast Mountain, had joined Sun Sect two or three years ago. Most of them were at the fourth level of the Energy Gathering Realm.

Considering their strength, if they wanted to kill a first-level diabolic beast or a second-level monster beast, they needed to cooperate with several outer disciples. Only then would they be likely to kill the beast.

Therefore, presenting three or five cores of first-level diabolic beasts or second-level monster beasts was an excellent harvest for them.

Given their current strength, these outer disciples didn't dare to attack second-level diabolic beasts.

Soon after, another person startled everyone once again.

It was Lara. Since she took out sixteen beast cores, she earned 16 credits.

gained the most contribution credits among the outer disciples who had participated

the person from the Merit Hall, who was responsible for recording the contribution credits, also felt the strange atmosphere

Austin was now at the sixth level of the Energy Gathering Realm. He had grown by a level since he entered Beast Mountain!

The power of his spiritual sense had doubled, and his practice of the Wind-commanding Skill had significantly improved.

Besides, he had the vital energy stone in his body, which had stored a huge amount of vital energy from the seven earth spirit fruits.

With these changes, Austin felt more confident about battling against Marvin.

He had even dared to challenge Marvin while they were at Beast Mountain. Now that his strength had improved significantly, his confidence increased.

Even if he couldn't win against Marvin, Austin was confident that he could escape unharmed.

Therefore, he was in a very calm mood. He waited patiently to see what Marvin's next action was.

Seeing Austin's calm expression and smile, Marvin became enraged. A cold expression reflected in his eyes, and he became more aggressive. Marvin's gray robe fluttered as the vital energy surged through his body.

No one had been able to frustrate him as much as Austin.

Marvin thought of the 23 earth spirit fruits in Austin's hand and became more bothered.

All the disciples could feel the fierce strength emanated from Marvin. They were envious of him.

No wonder he ranked fifth among the outer disciples. The momentum he showed had made some outer disciples, who were at a lower level of cultivation base, feel suffocated.

"Austin, you were once the topmost ranked outer disciple. But today, you are doomed to die!"

said Marvin slowly.

Since Marvin's return from Beast Mountain, he had made every effort to investigate Austin.

"Austin? The once topmost outer disciple?"

"Austin, Austin ... Ah, is it him?"

Hearing what Marvin had said, all the disciples were stunned. Then they remembered a legend that had spread widely among the outer disciples.
