

The Supreme God

Chapter 511 The Union Of Five Cultivators Of The Sky Realm

Clasping tightly those two swords of vital energy, Austin launched the two rays of Spiritual Sword Auras from his Soul Sea. Within a second, the Spiritual Sword Auras flew out and merged with the two swords of vital energy.

Then Austin, without almost any effort smoothly flicked his arm to cross the two swords of vital energy across his chest.

Rumbling!

As the crowd gaped with anticipation, the golden spear radiance crashed against the two long pale golden swords on Austin's chest.

"Boom!"

A low rumble echoed throughout the valley, and extremely powerful shock waves of vital energy force spread out in rings from the center of impact in front of Austin.

A dozen spectators among the crowd nearby Austin were sent flying upside down, falling to the ground one by one, as if dumplings were being dropped into water.

The duel between the golden spear radiance and the two long pale golden swords only lasted so long before the golden spear radiance exploded into small pieces under Graham's dumbfounded stare. Graham was also blown away, creating a deep, ghastly gorge in the ground.

"What?!"

After what had been quite a while, Graham tried to regain his balance, his eyes widened with shock and his face shadowed with a frightened expression, as if he saw a ghost.

"Austin, you've broken into the Sky Realm, haven't you?" he asked in disbelief. Not only was Graham surprised, but Bruce and the three masters of the Sky Realm, who were from the Ghost Sect, all stared at Austin.

They were all speechless and in utter shock.

All five of them had just clearly sensed that Austin's vital energy force fluctuations had reached the Sky Realm.

To add to their bewilderment, the vital energy force that Austin just released was actually more powerful than theirs, which indicated that Austin's cultivation base might have been the medium stage of Sky Realm!

However, when they saw Austin the other day, his cultivation base was only at the medium stage of Mysterious Realm. Within just a few days his cultivation base had improved from the medium stage of Mysterious Realm to the medium stage of Sky Realm. The speed of his practicing had surpassed that of a genius and it was striking.

It was completely contradictory with what the five powerful men knew.

In shock, the five quickly deduced that Austin's amazing change happened due to the third floor of the Emperor Library.

"What good luck and chance he got on the third floor of the Emperor Library!"

All the five now firmly believed that Austin's breakthrough in a matter of days was because of an incredible opportunity he got on the third floor of the Emperor Library.

He had asked the Flame Emperor which grade the Flame Swordsmanship was, and guessed that it was at grade eight or nine.

The Flame Emperor told Austin that the Flame Swordsmanship was neither at grade eight nor nine, but more advanced. In addition, he also advised Austin not to ask this question for the time being, because Austin would naturally understand which grade it was when he improved to a certain level, and contacted with the advanced cultivator world.

Since the Flame Emperor asked him not to ponder on it, Austin naturally let it be.

Now that Austin had witnessed the power of the Flame Swordsmanship, he realized its grade was definitely supposed to be much higher than what he had expected.

"Hey, guys, the three of you, Austin obviously got great luck at the Emperor Library—a rare treasure.

If you don't want to lose and die a merciless death, come, join us and fight Austin with us. After we finish him, we'll share the goods we get from him."

Bruce's face filled with rage when he was forced to take a few steps back because of Austin's attack. Then he realized that he and Graham had almost no chance of defeating Austin today, let alone getting any advantage over him.

What he thought made sense. After all, everyone saw right in front of their eyes that Austin had beaten them ruthlessly just now with great ease, and didn't have to put in much effort or do his best.

Thus, Bruce reasoned that Austin probably was actually more powerful. Once Austin concentrated on giving in all his force seriously, he and Graham would not have a chance to survive long.

So Bruce thought about it for a while and decided to invite those three strange cultivators of the Sky Realm to team up with them against Austin.

"Oh? They want to gang against me?" Austin murmured, a little astonished at this action.

Then he looked at the five men intently, without uttering anything.

Based on the Flame Swordsmanship's power that he had just performed, Austin judged that even if these five masters of the Sky Realm ganged up on him, he would be able to fight with them. What was more, he had a level-ten diabolic beast ready in his beast-subduing bag.

If he failed to defeat the five men, he could take out the ancient evil ape to unleash attacks on them. In that case, none of the five of the Sky Realm could escape or survive the ordeal.

Now Austin waited to see how the three cultivators from the Ghost Sect would respond to Bruce's suggestion.

"Huh?"

"We team up against Austin and split the goods?"

Hearing this proposal, the strange-looking young man with a sand scorpion tattoo on his head stood still for a moment.

Apparently, he was the leader among the ten strange young people from the Ghost Sect.

The other two Ghost Sect's cultivators of the Sky Realm also looked at him, expecting a response.

After a moment's reflection, he expressed his views.

"All right. Let's get to work together to kill Austin for once and all!"

The Supreme God

Chapter 512 Evil Spirits Array

"Oh, so we have made a decision that you fight me together at the same time, right?" Austin asked.

After he heard the reply of the demonic young man with scorpion tattoos on his head, Austin did not get flustered, but smiled and respectably cupped his fist.

"Austin Lin, if you take out all the treasures and benefits that you have obtained from the Emperor Library, and give us all of them, we may let you have a share. Otherwise, you cannot leave this valley today," the young man with scorpion tattoos said in a sinister manner, while slowly stepping forward. At the same time, the other cultivators in the Sky Realm moved in anticipation to block all the possible routes Austin could use to retreat. All three of them gave off a powerful aura from their bodies.

Seeing what was happening, Bruce and Graham also went forward immediately synchronizing their vital energy force flooding out aiming at Austin. The two were now ready to fight with Austin as well.

Bruce and Graham had been slightly injured just earlier when they fought against Austin. But they both took out some healing pills and swallowed them. Instantly, they recovered and their faces looked normal, no longer having the pale hue.

Obviously, the healing pills they had taken were very effective.

"Austin, this valley is where you will lose your life!" Graham said to Austin.

He held his golden spear, with his hair flapping against the wind. A powerful vital energy force spread from his body continuously.

"Do you think you are qualified enough to say that?" Austin sneered.

Facing the five cultivators who were in the beginning level of the Sky Realm, Austin's gaze moved slightly sizing his opponents, and then his facial expression turned as sharp as a blade's edge.

Austin formed his two vital energy swords and raised them slowly. His aura, which was at the medium level of the Sky Realm, burst out completely. A slightly golden vital energy surrounded his body. His vital energy force pressure spread in all directions centered within Austin's body.

In other words, Austin's vital energy force had completely resisted the attack from the other five cultivators. It was a battle of one versus five yet Austin seemed to have the upper hand!

sighed inwardly. The strength of the cultivators at the Sky Realm was really shocking. Compared to the cultivators at the Sky Realm, the ones at the Earth Realm and Mysterious Realm were far weaker. The gap was as big as the distance between earth and heaven. The youngsters realized that they themselves had been lacking and couldn't match up.

Especially people like Leo, Garret, Wilson, Caden and Symon, who were watching the fight from afar, saw Austin's expression which was so relaxed even though he was surrounded by five powerful cultivators at the Sky Realm. They felt very inadequate in their minds.

Not long ago, they had fought on the same platform. Although Austin was better than most of them at that time, with a little higher skill than them, they were almost at the same level with Austin, or at least they were qualified to challenge Austin.

But now Austin had left all of them far behind. He was too advanced for them; it would be difficult for them to catch up with Austin now. In Austin's face, they were not even qualified to fight against him.

The cruel facts made cultivators such as Leo, Caden and others look pale and depressed.

At the center of the battle, the five cultivators at the beginning level of the Sky Realm had launched their own destructive attacks. Swift and fierce attacks by vital energy force were rushing towards Austin with a dreadful whistling sound.

Austin's gaze was as sharp as blades.

Golden flames burst out from his two vital energy swords, the flames looked like small flaming swords and formed an impermeable defensive network of swords in front of Austin's body. Pssss...

All the killing tactics were blocked by the sword radiance.

"Evil Spirits Array!"

The young man with the scorpion tattoos suddenly shouted in a slight voice, as he saw Austin was defending so vigorously.

Instantly, one black evil spirit paw appeared in front of each of the three cultivators at the Sky Realm of the Ghost Sect. Each black evil spirit paw was as big as a land of several acres. At the end of each finger of the evil spirit paws, there was an evil spirit head that had a cruel expression. The sharp teeth could be seen as the evil spirit heads opened their mouths wide.

Three huge giant paws with fifteen evil spirit heads, were surrounded by the aura of the devil spirits. The evil spirit heads making tragic howling tried to bite Austin.

The three evil spirits paws were well organized and coordinated; they had a formation of attack, defense and hiding, as if they had formed a small-type attacking array.

The Supreme God

Chapter 513 Under The Suspecting Eyes

Austin recognized at first glance that the three ghost claws were transformed by the vital energy while the fifteen ghost heads on the claws were transformed by the fifteen ghost souls.

Immediately, something came to his mind. He stretched a spiritual sense chain out from the Soul Sea and winded up five ghost souls on one of the ghost claws then dragged them back to the Soul Sea.

He planned to use the Soul-transforming Skill which he had learned from a book from the Ghost Sect in the Ghost Valley. He had used this skill before and managed to escape from the Ghost-devouring Flag.

Despite the struggle of the five ghost souls, Austin was still able to drag them back to his Soul Sea instantly with the use of his powerful spiritual sense. When the ghost souls were in his Soul Sea, he immediately transformed them.

"Ha ha! Do you have any more ghost souls on your sleeves? Let them out now.

I'm dying for more!"

As Austin laughed, he also started employing his vital energy force to lengthen the vital energy sword. It stabbed right on the headless ghost

claw. When the sword got stuck on the body of the headless ghost, golden flames flowed from the sword to the ghost claw.

Bang!

In a flash, the whole ghost claw blazed up, turned into a black light, and vanished.

It was one of the magical effects of the vital energy sword—once transformed by vital energy, it could be shifted to any shapes, length, or width.

Austin continued this movement until he finished another two ghost claws with his sword. As for all the ghost souls on the claws, he dragged them to his Soul Sea and transformed them into nutrients for his spiritual sense using Soul-transforming Skill.

Seeing that Austin successfully smashed the Evil Spirits Array, the three cultivators of the Sky Realm in the Ghost Sect got scared to death. It never occurred to them that their magic weapon would be destroyed by Austin so easily.

The fifteen ghost souls were the most powerful part of the three ghost claws. If a cultivator was not strong enough to deal with them, they could capture the soul of the said cultivator.

Fortunately, Austin not only had a strong spiritual sense but also learned the Soul-transforming Skill of the Ghost Sect. It was the perfect weapon to deal with the ghost soul.

Aside from that, Austin also cultivated and refined some skills lethal to the ghosts. One of which was the Golden Sun Scripture—a powerful and potent element in the universe.

Without any help, they both knew that they were no match for Austin at all.

Bruce and Graham instructed the royal troops to form a defensive formation right after all the nine cultivators had left, retreating to a place far away from Austin.

Meanwhile, Austin only watched as they lost the intention to attack Austin and silently retreat.

Austin didn't care about the sudden departure of those five junior cultivators at the Sky Realm.

In fact, he was somehow relieved. He knew that despite the power he had right now, defeating the five cultivators at the Sky Realm would still be difficult.

After all, Austin had just broken through the middle-level cultivation of the Sky Realm. Although the vital energy inside him was abundant, he still lacked practical experiences and might not be able to handle his overwhelming power in a short period.

Moreover, he had just started to use the first two steps of the Flame Swordsmanship against his enemies. So, he was still exploring the proficient usage of the vital energy sword and still wouldn't be able to employ the sword skillfully.

In other words, although Austin had made huge progress in his cultivation, he was still short of certain fighting experiences with the cultivators at the Sky Realm.

Thus, he had no intention to hunt those guys down since they had already retreated. He was just relieved that they did.

Aside from the Ghost Sect disciples, Austin was also worried that if he killed the royal troops, he would have a hard time explaining it to the emperor.

After all, the emperor did treat Austin pleasantly, so he needed to endure with the regal folks out of regard and appreciation towards the emperor.

'I guess one cannot do things as he pleases in this world.' Austin smiled bitterly.

"Tin! So, you now have the cultivation base at the Sky Realm?"

You are getting cooler and cooler, you know? It's just been a few days that we parted ways, but now you can fight the cultivators of the Sky Realm!

That's awesome, Tin."

After the fight, Dewey couldn't help walking toward Austin as he asked those questions. His eyes were obviously measuring Austin up and down carefully as if the latter was a monster.

Austin saw Dewey's eyes studying him and he got extremely nervous under the latter's suspecting eyes.

The Supreme God

Maria walked up to Austin and said with a hint of jealousy, "Austin, you're so amazing! How did you make a breakthrough in such a short time?"

When she first met Austin in the residence of the emperor's tenth son, both of them were at the premium stage of Earth Realm.

But now Austin had the cultivation base of the Sky Realm. She realized that she would never be a match for him in the vital energy cultivation no matter how hard she cultivated.

"This is the third time that you have come to rescue Anna and me," Iris followed with gratitude.

With a blush on her face, Anna stared at Austin with admiration evident in her eyes. She looked like a maid in love staring at her hero for the first time.

Austin cleared his throat and with a speechless expression, he said, "Come on, guys! Don't look at me that way. This is awkward."

When he was attacked by the five cultivators of the Sky Realm, other warriors kept a distance from him, just watching them fight.

But Dewey, Maria, Iris and Anna had stood behind him in support, which touched him.

"Oh, by the way, what's going on here? Why did all these people gather in this valley?" Austin continued.

Since he had been with the Flame Emperor, he was ignorant of the event that nine cultivators of Sky Realm from the Heavenly Dragon Holy Kingdom had broken into the Mysterious Realm and targeted warriors of the Violet Orchid Empire and massacred them.

The four filled him in on the actions of the nine masters at the Sky Realm from the Heavenly Dragon Holy Kingdom.

After hearing their story, Austin understood why the warriors had gathered together in the valley.

'It turns out that they had intended to work together to deal with the nine skillful martial artists of the Heavenly Dragon Holy Kingdom, ' he thought.

"What are we going to do, Austin? Should we stay in this valley?"

Maria inquired.

"I see. Nine cultivators of Sky Realm. They are strong, so the battle is going to be tough.

But don't worry.

There is no need to waste time here. Let's get out of here," Austin replied after thinking for a while.

The truth was the nine masters at the Sky Realm were tough opponents to cope with.

But Austin wasn't afraid of them. After all, he was at the medium stage of the Sky Realm.

Besides, he owned a tenth-level ancient evil ape. He thought he stood a chance to defeat the nine cultivators of Sky Realm from the Heavenly Dragon Holy Kingdom.

Once they found out that Austin was a strong cultivator, they flooded him and tried to suck up to him in a bid to rely on his strength and have them under his protection.

Austin felt disgust and disdain for the cultivators after seeing through their ploy.

Although Austin and the spectators were from the Violet Orchid Empire, there was no love between them since they had never been friends.

Some of them had even wanted to take his life. Austin had no reason to help them fight against the cultivators of the Heavenly Dragon Holy Kingdom.

"I'm sorry, I am not interested. I have to go!" Austin replied nonchalantly.

He turned around and left, while Dewey, Maria, Iris and Anna followed behind.

Noticing that Austin was about to leave, Denali gritted her teeth and suddenly said, "I'd like to join you."

"Are you serious?"

Austin was surprised at her proposal. 'She will be safer with me than if she stays here, ' he thought.

"What? Have you got a problem with me joining you?"

Denali fixed her eyes on Austin, although nervous inside.

"If you have made up your mind, then let's go," Austin said, as he turned and kept walking.

Denali was overjoyed.

"You want to leave, you pathetic losers?"

Today all the ants and crickets in this valley are all going to die. I'm telling you that you're not going anywhere. You must die, all of you!"

Suddenly a deafening laughter throughout echoed the skies shaking the whole valley.

Thunderous sounds were heard when suddenly nine figures floating in mid-air stopped in front of the cultivators from the Violet Orchid Empire.

Overbearing vital energy force fluctuations rushed out from the nine cultivators' bodies and swept the whole valley like a river flooding the valley in high waves.

They each exuded a strong aura, and with their hands held behind their backs, they looked down at the crowd with contempt and ferocity in their eyes.

They each wore an arrogant expression on their faces, as if they were masters each inspecting his own group of slaves.

"Well, you're not stupid.

You gathered together to go against us.

Well, what a surprise! I can't imagine you lowly ants, a group of weak cultivators even dared to form a resistance against us.

Nevertheless, it is also good that you automatically gathered together, which also relieves us of the painstaking efforts we had of finding each of you one by one."

The Supreme God

Chapter 515 Kneel Down Now (Part One)

The atmosphere crackled with energy as the air thickened with mist from the presence of magic and formidable power. With the sudden increase of potent energy around him, Austin slightly shivered but held his ground as he raised his head to look up at the arrival of nine distinct figures who had hovered above him. Straightening his posture and exhaling deeply, Austin schooled his expression into one of seriousness.

Gathering his wits about him, Austin intently focused on the energy fluctuation coming in waves out of the drifting cultivators. Without having to concentrate harder, he had felt their immense potential to destroy by utilizing high-level magic. Gritting his teeth, he estimated that two out of nine were at the primary level of Sky Realm, while four of their members had reached the medium level of Sky Realm. Moreover, three of them had attained the status of the Sky Realm's high level.

Anyone with even an ounce of power in the Violet Orchid Empire knew and understood that directly facing any of them could not just result in loss, but in death. The group of nine figures who hovered ominously was a threat to everyone in that particular moment.

The two men beside him, Graham and Bruce, were just as astonished as the other cultivators of the Empire. The surprise and slight panic from the two were evident in their postures, as well as the fact that they kept nervously switching their gaze from the group and to Austin. Clenching his fist tightly, Austin realized that even two of the ones with the lowest level in the assemblage were much stronger and more powerful than Graham and Bruce, and they were both at the same primary level of Sky Realm.

If worse comes to worst and they ended up battling, Graham and Bruce would not have stood a chance against the two members from the Heavenly Dragon Holy Kingdom even if they were supposed to be ranked at the same level. 'And who was going to fight the other seven?' Austin thought and grimaced at the images in his head of a

sea filled with the crumpled bodies of his friends and the triumphant yet merciless eyes of the group staring down at him.

"Is this the true power and spirit possessed by the young generation of the Heavenly Dragon Holy Kingdom?"

Murmuring to himself, Austin scanned his eyes among the regal forms of the group which radiated authority and confidence.

The reason as to why he was certain of his victory was the fact that the power of the nine figures could make the youth in the Heavenly Dragon Holy Kingdom bow their heads in submission and tremble with fear. Moreover, the mere whisper of their name could be full of pure respect and admiration. Humble people from a weak kingdom had more to lose and held more fear in their hearts compared to the former. In their eyes, they were akin to little insects who came in contact with nine elephants; small, insignificant, and powerless. Nobody in their right minds found the courage to oppose such supreme beings.

At that exact moment, the nine high-level cultivators at the Sky Realm from the Heavenly Dragon Holy Kingdom chuckled mirthlessly at the sudden realization of the meager level these people possessed. Most of the young cultivators of the Violet Orchid Empire in the valley had their cultivation base at the Earth Realm with only a few of their members having cultivated at the Mysterious Realm. 'Well, isn't this a comical scene?' some of them thought humorously.

"Most of you have your cultivation base at the Earth Realm. I cannot say I feel a little bit of pity for such useless cultivators," one of the figures spoke, indifferent at the situation at hand. Another one of them added to the former's observation and spoke with such hilarity and arrogance. "In the Heavenly Dragon Holy Kingdom, talented children who managed to cultivate right away have reached the Earth Realm at the age of seven or eight!"

Loud gasps came from the gathered cultivators as they took offense from the statement but remained quiet as their fear for them was greater. 'How arrogant of them to speak this way...' some of them silently and bitterly reflected.

"What on earth made you think you could fight me and win?" the young man in white mocked and crossed his arms across his chest, lifting his head defiantly.

Due to the taunts from the nine figures and most especially from the cultivator clothed with white robes, Austin felt a startlingly strong passion to make them silent through all means possible. Deep in his heart, a fiery purpose had started, desperately wanting to ignite and burn through the belittlement asserted by the group to him.

"The man who admitted to perishing the life of Chauncy shall be tortured first," one of the men declared, beckoning Austin with a lazy glance. "If my brothers are fully satisfied with your suffering, it will only be then that you are allowed to die."

The Supreme God

Chapter 516 Kneel Down Now (Part Two)

Turning to the rest of the crowd who were shifting anxiously between themselves, the cultivators of the land held their breath and widened their unbelieving eyes when they were suddenly being talked to. "As for the rest of you, line up and wait for your punishment!"

Another member of the nine figures stepped forward and licked his bottom lip in anticipation of the bloodshed. Surrounding his frame was the potent smell of blood and a reddish hue could be seen oozing off him if one looked closely. The intriguing scent of blood and iron seemed to transform into a large bird; a ferocious eagle, albeit curiously, its wings and body were striking red.

Shaking in their feet while hesitantly forming parallel lines, the men and women muttered among themselves, some with tears springing from their eyelids.

Looking at one another, one could practically taste the fear and anxiety in the air as they all desperately wished for a saving grace. With fists balled and resisting attitudes, even some of Austin's comrades originally refused to cooperate with the nine imposing figures commandeering them to fall in ranks. However, they reluctantly acquiesced when they caught the warning looks of Austin who had silently begged them to follow for now. 'My fellow cultivators might get into more trouble if they disobeyed.' Austin heavily contemplated while he tried to come up with a plan.

"What is going to happen to us? We cannot do anything but wait for them to punish us." Some of the cultivators murmured as they quietly discussed their horrible fates and waited. Moments of uncertainty passed by slowly. As the nine figures from the formidable Heavenly Dragon Holy Kingdom gathered in a circle, the folks gravely mused that they must have been plotting how to dispose of all of them. Time seemed to stretch indefinitely, anxiety and tension palpable in the air.

"How will we ever contest against them, anyway? Even if all of us teamed up, there is little to no guarantee that we would win. There really is no option except to wait for death to come," one of the cultivators stated numbly, resigned at the inevitable fact that their time has run out in their realm.

With no more encouraging ideas, most of the people had hung their heads in despondency and misery. Even the more hopeful ones had stomped down their earlier reservations and bit back their retorts. The people begun to feel despondent with the lack of action and looked on helplessly. "I don't really want to die like this," a short woman said despairing while moisture gathered at the end of her eyelashes. The cultivators around her felt the same sentiment, blinking back their tears as they could do nothing but to drop their gaze to the grass on the ground.

The young cultivators of the Violet Orchid Empire soon felt a wave of panic.

he began to address the frightened women. "All women, just stand aside and voluntarily take off your clothes." The tortured cries of the young girls rang in the ears of the people present, as they sobbed at the demand issued by the smirking man. Moving closer towards the line-up of women, the young man sighed exasperatedly before cockily standing with his hands perched on his waist. "I cannot wait to be intimate with these girls. Hey, how about I take several of them to the grass and leave all of you here to handle the situation?" the man asked, full of eagerness and unprecedented hunger.

"Mysterious Nether World was such a boring place and I have not seen a woman for a long time," the young warrior whined before facing his fellow cultivators. "Being intimate with these women never came at a better time. I really cannot wait to make my fantasies into a reality."

Rubbing his hands together with a vulgar intent, he once again stared at the dozens of young female cultivators from the Violet Orchid Empire while his vile thoughts made his grin wider.

One of the members sighed at the blatant expression on the face of one of his members. "Really?"

"Although your passion for women is admirable, you must exhibit more patience. It is no wonder that you are the expert on relationships in our Kingdom."

A young man in gray robes chastised him which made the other man rub his nape absentmindedly.

Before they could continue their talk, they noticed a slight disturbance coming from the line-up of men.

Running out of the pile of men, a man with great stature rushed out and knelt down beside the nine high-level cultivators. The man

continuously touched the ground with his forehead, imploring for the powerful men to show mercy while he spoke with rushed sentences.

Chapter 517 Kneel Down Now (Part Three)

Whilst heavily breathing, the man showed respect to the group while addressing them. "My Lords, please spare my life!"

Glancing between the men and the bewildered Austin, he asserted with all the bravery he could muster. "Actually, when Austin killed the good-looking hero from the Heavenly Dragon Holy Kingdom, I-I was there! I can testify against him."

The eyes of the man shook with desperation and his voice wavered ever so slightly. "I should have tried to stop Austin from fighting the mighty hero but—" he paused just for dramatic flair and frowned. "It was a pity that I was not powerful enough to beat him in combat."

When the man noticed the doubtful and uncaring expressions of the group, he raised his voice higher and pleaded with his hands tightly clasped in front of his teary face. "My Lords, you do not know the full truth! Actually, Austin had always been arrogant, and-and he is a mass murderer with much blood on his hands!"

"My Lords, I implore you to kill Austin at once! He is a threat!"

Grasping his robes for the pockets filled with various items and tokens, he laid down the prized objects in front of him and looked up and presenting his utmost honest expression. "And, my Lords, this is a Spiritual medicine and a Vital Energy Crystal that I obtained from the Mysterious Nether World." Rubbing his hands together in an attempt to persuade the group of men, he continued to beg. "I would like to dedicate all of them to you. Please spare my life for my loyalty to all of you."

The man down on his knees begging for mercy surprised everyone, including the nine high-level cultivators in the air from the Heavenly Dragon Holy Kingdom.

After staring at the face of the kneeling man ever since he had broken out of the line and bowed his head in front of the group, Austin soon figured out the identity of the man. The man in question was a top disciple of the Blood Hero Gang, and if his memory served him right, his name was Morris. Recalling the instance wherein they had encountered each other deep in the Medicine Valley, he remembered the same individual being a witness to his triumph over the young boy cloaked in white garments from the Heavenly Dragon Holy Kingdom. However, it was then obvious to him that Morris' story did not reflect the real event, and Austin exhaled in vexation. A lie for mercy--that was what it was, as Austin clearly thought back to what happened, wherein Morris never even attempted to dissuade him from killing the other boy in battle.

However, it was to no avail as the young man in white was uncaring to their cry for mercy. 'They can plead all they want. They are worthless to me, ' he thought coldly, his hair softly ruffled by the wind and covered his features, momentarily hiding the spite evident on his face.

Soon enough, the grounds were covered with ice sculptures, as a dozen people were all entrapped within the brutal wind and malevolent snow brought upon by the mighty cultivator.

The young man, with his robe billowing behind him, feasted his eyes on the destruction he had caused upon the land and snapped his fingers without hesitation. Within the blink of an eye, the ice sculptures crumpled into irreparable pieces as the fist-like hard hail moved with powerful precision towards the bodies encrusted in snow.

With barely a single move, the man had managed to kill a dozen men, which silenced their cries forever with their deaths.

Just from witnessing the abrupt end of a massacre, Austin promptly discovered that the young man's cultivation had reached the same Medium Level at the Sky Realm as he did. Cracking his knuckles and exhaling deeply through his mouth, he mentally prepared himself for the oncoming battle against the cultivator.

Turning towards Austin, the cold wind around him grew stronger and with a loud voice that carried over the hail and storm and he cried out. "Weakling! How dare you ignore my order!"

"I said kneel down!" the man in a white aura began as he drastically became more powerful.

After killing a dozen men by himself, the young man in white, a representative from the Heavenly Dragon Holy Kingdom, raised his hand again and a flurry of cold emitted from his body. With a shout of "Die!", an intense and overwhelming wave of ice and snow hurtled towards Austin.

The Supreme God

Chapter 518 It Was Impossible! (Part One)

The young man showed little interest in joining the fight. His eyes were too focused on the pretty girls of the Violet Orchid Empire. Stretching his pale, slender hands, he conjured up a gigantic palm of vital energy.

"Don't stop guys! I'll join you later after having fun with these beauties," he jeered, swinging the huge palm he had conjured towards the girls.

The palm was a powerful concentration of vital energy force at the medium level of Sky Realm and there was nothing the girls could do as it grasped them tightly.

"G-Go away!"

Denali screamed, trembling in fright. She looked quite pale and terrified standing next to Austin, like a frightened animal.

The young man stared at her lewdly as he held two girls in his giant palm. His indecent stare caused Denali to fold back and whimper like a scared puppy.

The young man could not help but feel enraptured by Denali. She was, after all, the most beautiful one among all the women and there was nothing a perverted, but also skilled cultivator like him wanted more than a delicate beauty.

There was no denying that he was strong. The huge palm of concentrated vital energy he had conjured was proof enough. Denali was merely at the preliminary level of the Earth Realm and she was doomed the moment the young man set his eyes on her. The palm he conjured was an oppressive, paralyzing force that wrapped around her, suppressing her movements to the point that all she could do was scream.

"Martial skill of ice? Ha, that's no big deal."

Austin muttered to himself as he watched Denali struggling against the energy that bound her in place.

The paralyzing ice attack may work against the girls but it should be nothing for someone like Austin.

But force alone was not enough to bring down a cultivator at the same level, so, besides that, he also used vital energy force to make the strike more powerful.

As he raised his golden fist, Austin struck down.

And as he did, a bright, golden flash of light blinded anyone who could have been watching.

BANG!

The huge palm of concentrated vital energy exploded the moment Austin brought down his fist.

The perverted young man, too shocked by the sudden turn of events, failed to notice Austin who hurriedly took the girls just as the palm holding them exploded.

The poor, poor girls looked scared out of their wits. They were pale, had difficulty breathing, and were constantly clutching at their chests just to ease up their tension.

It took quite a while for the two to calm down but once they did, they immediately showed their gratitude by relentlessly bowing to Austin and mumbling about how they owe their lives to a hero such as him.

"What?" Everyone present was rendered speechless, stunned at everything that just happened.

"Oh my god! So you are the alleged strong cultivator of Heavenly Dragon Holy Kingdom! Seriously? Look at you, such a loser. How dare you be so rampant in front of me?"

Do you remember your disciple? He was worse than crap! All it took from me was a single pound to kill him.

Oh? Why the long face? You look mad. Are you not happy?"

Hey, maybe you'll be happy if I send you to your disciple to keep him company!"

The jeers pushed Austin to the brink of losing his cool. Now, with his body practically overflowing with powerful energy, he was truly on the edge.

Licking his lips, Austin's eyes burned with wrath while his hands itched for violence. Using his anger as a weapon, he rushed forward.

"What? No! It is impossible!"

Words uttered as the two, strong cultivators' strikes were easily absorbed by Austin.

With the force of their attacks, Austin should've been on the ground screaming in pain but he continued flying all over the place. For the first time since the start of the fight, they felt fear.

"D-Damn it! H-How dare you confront us!" they stuttered. "You're going to pay for this!"

But it seemed it was the perverted young man that would be paying this time around.

Of course, he did not know that, so he stupidly flew towards Austin, not knowing he was soon to meet his doom, "Be careful! That guy's at Sky Realm!"

Once the dragons were of a certain distance from him, Austin kicked his left leg hard on the ground, springing himself up as he flew through the air. It seemed as if he decided to meet the dragons halfway.

Truth be told, Austin felt no fear at all. Why would he when he knew just where this fight was going to go?

At that moment, if one looked up at the dark sky, they would see nine, snow-white dragons converging towards a single, solitary dot. However, that dot would then begin to glow a radiant gold. This gold energy would surround Austin, encapsulating him like an aura of fire and power. Once he got close enough, he reached out his hand where a potent fire burst forth.

BANG!

The nine dragons exploded upon impact, Austin's fire was too powerful for their bodies to handle. The scene caused his opponent's face to blanch. With all the big talk he was dropping earlier, this was surely not something he expected.

Just as he was beginning to think that this might've been a huge mistake on his part, Austin suddenly appeared right next to him.

It happened so fast, he swore he wasn't even finished blinking when Austin suddenly appeared in front of him.

At that time, his brain still hadn't completely caught up with everything that had happened. He was still in denial, still trying to come up with excuses as to how Austin was able to completely obliterate his dragons so easily.

No. No, it just couldn't be. Maybe his eyes were wrong and what he saw was also wrong? There was no way his nine dragons could've been slain mercilessly like that.

"Y-You!" he screamed, stumbling backward when Austin appeared right in front of him. First he was shocked, and then scared, and then furious, "You! Why don't you just go to hell?!"

Austin looked terrifying: his face was covered in blood while his eyes blazed red in fury.

He stared blankly at the young man and then raised his fist, "No... no... NO!" the young man screamed as Austin struck him down with thirty-thousand pounds of great force.

The Supreme God

Chapter 520 Kill Them All

The young man in white clothes didn't expect that Austin would break his unique skill, Ice Dragon Eradication in one blow.

With this move, he had killed several famous warriors in the Sky Realm in the Heavenly Dragon Holy Kingdom. He had thought that even if he could not kill Austin, it would be enough to make Austin struggle with striking back.

So, when Austin reached him at supernatural speed, he realized what had happened and was horrified.

With his strength, he could have battled Austin. However, he had underestimated Austin from the very beginning. He had been so careless that Austin had gotten close to him in an instant.

"Shit! But it's not that easy to kill me."

Seeing that Austin's air splitting great force fist was headed for him, the man in white roared.

He opened his hands, and all the cold air and snow around his body were absorbed in an instant. Within the blink of an eye, his body was encased in three thick layers of solid ice.

His body looked like a statue of ice and snow or a person wrapped in amber. The sparkling light of the snow drifted between the layers of ice, sacred and inviolable.

"Boom, boom, boom!"

The next moment, with thirty thousand pounds of force and lightning-fast speed, Austin punched the ice cocoon.

However, what surprised Austin was that his air splitting fist did not leave a mark on the ice cocoon.

It certainly did not break through the ice and kill his enemy.

"Shit! What a hard ice shield," Austin could not help but exclaim.

"Little boy, your physical strength is good, but it is not enough to break my Real Ice Armor!"

Well, Austin had to admit that there was some truth in the man's words. It seemed that thirty thousand pounds of force was a threat to warriors who were in the Mysterious Realm, but to warriors who were in the Sky Realm, it was insufficient.

So Austin stopped his attack and smiled coldly.

"Oh, really? You believe I can't kill you?" he scoffed.

Austin summoned both swords of vital energy and held them in his hands.

The swords burned with a golden flame. He swung the swords at the man in white.

This time, the power of the Scorching Evil Fire in Austin's body burned a large amount of its vital energy. A beam of horribly high flame poured out from the swords and formed a thick layer of fire.

It seemed that the two vital energy swords had turned into two fire swords.

Only Dewey, Maria, Iris, Anna, and Denali, who were close to Austin, were encased by a strong force sent out by Austin in time to avoid fainting.

With a buzzing sound, a colossal figure, ten meters high, appeared before them. It was so tall that it half blocked the sun in the sky. The figure cast a large shadow across the valley.

Austin did not expect that this ancient magic roar had such power. It seemed that only the warriors in the Sky Realm could withstand the power of the roar. The warriors in the Mysterious Realm and below would be significantly affected.

As soon as the evil ape appeared in the valley, the eight people from the Heavenly Dragon Holy Kingdom were terrified.

"What kind of monster is this?"

Someone screamed right away.

"Boom!"

However, he was answered by the evil ape's fists, which were bigger than the grinder plate. The force from the evil ape's fists was aimed at the eight men from the Heavenly Dragon Holy Kingdom.

As the two fists passed, the air collapsed. The scene became even more chaotic as the air exploded like a series of loud firecrackers. A rising mushroom cloud could be seen.

"Bang!"

The first to bear the brunt was a master in the Sky Realm from the Heavenly Dragon Holy Kingdom. He could hardly breathe as he was punched to pieces. There was no room for resistance and struggle.

Then the evil ape bent its legs slightly as it prepared to jump. Its limbs looked like stumps of a towering tree.

Then, like a flying steel chariot, it rushed toward the sky.

"Bang! Bang! Bang!"

With three punches, the sky in the valley tore and collapsed. The three masters in the Sky Realm from the Heavenly Dragon Holy Kingdom, were hammered to death. Their blood and bones flew toward the sky, before scattering on the ground like gravel!

"Oh, what is this? What kind of monster is this?"

"Run!"

The remaining masters in the Sky Realm from the Heavenly Dragon Holy Kingdom were horrified and let out a heart-wrenching cry of desperation.

The ancient evil ape was so terrifying that they had no chance of fighting back. Only one side was slaughtered!

However, they could not escape the evil ape.

"Bang! Bang! Bang! Bang!"

The warriors in the Sky Realm from the Heavenly Dragon Holy Kingdom, who were pretentious and aloof, were blown up. In the valley, above the sky, there was a burst of bloody sparks like fireworks. It was the end of their life. The last glory that came out before it fell into the abyss.

When the last warrior from the Heavenly Dragon Holy Kingdom was slain, Austin put the ancient evil ape back into his beast-subduing bag.

Finally, as the flesh and bone residue from the warriors from the Heavenly Dragon Holy Kingdom was scattered on the ground, the whole land was dyed red. Silence filled the valley.
