## Chapter 521 Leaving The Mysterious Nether World

Despite their mighty cultivation base of the Sky Realm, all of the cultivators from the Heavenly Dragon Holy Kingdom had been killed by Austin. Only the corpse of the man in white remained intact. The rest of them were all smashed into minced meat.

"This...is unbelievable..." Dewey murmured. He and his companions were the first to come back to their senses.

After all, Austin had kept them safe all this time, and the fight didn't involve them at all.

"Austin... These people... from the Heavenly Dragon Holy Kingdom...were...all killed..." Dewey stuttered. He was too shocked to utter a complete sentence. His eyes were as wide as saucers, and he stared at the bloody carnage of flesh and gore scattered on the ground.

The metallic tang of blood made him gag and he wanted to vomit, even though he was usually a strong-minded person.

Even Austin himself couldn't help but swallow heavily when he saw the havoc around him. He hadn't expected the battle to end so swiftly or in this grotesque massacre.

'Wow, this is the power of the evil ape.

It's so strong!' he thought.

'If I had gone to pick the soul-recovering fruits without the Flame Emperor's Beast-subduing Skill in my possession, I guess I too would have been killed like these cultivators from the Heavenly Dragon Holy Kingdom.'

Thinking of it, Austin was grateful for his luck.

"Okay. Let's leave this place now," he said with a brave, but tight smile as he turned to the people behind him.

As always, he appeared calm, as if he had not just caused the destruction of nine cultivators from the Heavenly Dragon Holy Kingdom.

"Austin..." Dewey stammered.

He licked his lips and regained a little composure. Finally, he was able to speak as usual.

"Austin, you're awesome! These people were invincible in my eyes, yet you effortlessly wiped them out. Austin, I can't admire you more..." Dewey went on and on without stopping. Suddenly, he realized something.

"Oh, by the way, what kind of monster was it?"

he asked curiously with his eyes locked reverently upon Austin's face, as he was dying to hear the answer.

Upon hearing that, Maria, Denali, Iris, and Anna all turned to look at Austin, also waiting for his reply.

They had been present the whole time while Austin was fighting against the people from the Heavenly Dragon Holy Kingdom. They had seen with their own eyes how Austin had unleashed the horrible monster.

"Ahem! Guys, don't act like groupies."

Their keen, awed eyes and curious expressions amused Austin. He shook his head with profound resignation. Patting the dust off his clothes, he prepared to leave.

"Stop talking nonsense. Let's go. If you don't want to leave, then stay," he said before he turned to leave the valley.

"Austin, come on, we're all friends. Just tell us about the monster."

Angus said it might be possible if Austin could secure several precious materials required.

He also said that it would be easier to rebuild a body for him than to rebuild a body for the Flame Emperor.

The answer came as a pleasant surprise to Austin. He kept it in mind and swore to himself that he would find those precious materials at any cost.

He would also devote more effort to reach the Basic Sacred Realm as soon as possible. Then he would return to the Mysterious Nether World and rebuild a body for Angus.

Angus realized the young man's noble intentions. Although he was not sure whether Austin could achieve it, he felt grateful as Austin was a good man.

Finally, ten days had passed.

The cultivators had entered the Mysterious Nether World almost a month ago.

Soon, the cultivators from the Violet Orchid Empire would be transferred back to the Prime Martial World.

Their explorations of the Mysterious Nether World would soon come to an end.

Before Austin had departed, Angus had gifted him with many level 7 and level 8 medicinal materials.

With nothing else to be gained from staying, Austin then journeyed to the river which flowed next to the lake where he had found the soul-recovering fruits. Two groups of people had already arrived.

One was the group of imperial members led by Bruce and Graham. The other was the nine mysterious men from the Ghost Sect.

When these two groups arrived at the river, they saw more than ten lilac colored sunflower-like plants. The fruits of the plants had already been harvested, however, and the cultivators' faces turned as dark as ink.

Obviously, someone had beaten them there and had already taken possession of the soul-recovering fruits.

Somehow, they all suspected Austin of this crime. Their gut feelings told them that these soul-recovering fruits had all been picked by him.

They gnashed their teeth in anger, but could do nothing.

After the gruesome manner in which the nine cultivators from the Heavenly Dragon Holy Kingdom had been killed, Wilson, Leo, and their companions didn't dare to antagonize Austin again.

Wilson, Leo, Garret, Caden, Symon, and the others had all witnessed the deaths of the cultivators from the Heavenly Dragon Holy Kingdom. They finally realized that they couldn't hold a candle to Austin. Even though they had some trump cards, they also knew that they were ill equipped to defeat him.

Finally, the time to leave the Mysterious Nether World arrived.

All the cultivators were prepared to be transferred.

Without warning, all of them were illuminated by streaks of mysterious light coming down from the sky.

Then their heads became dizzy and it felt as if the sky and earth were spinning madly around.

After a disorientating moment, they opened their eyes again, and they were already standing on a giant square. All of the cultivators from the Violet Orchid Empire were there.

Everyone was familiar with the square—it was located at the imperial garden of the Violet Orchid Empire.

"Ah! Finally, we're back!"

They laughed and cheered happily upon realizing that they were home.

## The Supreme God

## Chapter 522 The Wait Begins

In the imperial palace, a sea of people had collected at the huge square of the garden. Thrilled, they stood there, waiting eagerly.

It was the day when the cultivators would come back from the Mysterious Nether World. The representatives of the five biggest sects and other small sects whose disciples had broken into the top 50 in the Outstanding Talents Exchange Games were present. They were anxious to see what the outcome would be.

Even the leaders of the five biggest sects had shown up. Their presence marked the importance of the day.

There was a stage on the east side of the square, and the emperor was seated on it. He was in a pleasant mood, yet there was a little nervousness and excitement in him.

The person standing at the left of the emperor was an elder dressed in a robe with the pattern of mountains and rivers on it, while an armed middle-aged man stood on the emperor's right. The former was Randy, the Hand and the latter was Lord Protector General. Both of them were the most senior officers and the most powerful people, after the emperor.

Besides the emperor, the Hand and the Lord Protector General, the leaders of the five biggest sects also sat on the stage. Being the sect leaders, each of them also enjoyed a high status in the Violet Orchid Empire.

The five sect leaders whispered to each other, eager and thrilled to know the outcome.

The topic of their conversation was about the outstanding disciples who had entered the Mysterious Nether World. Each one believed their disciples were better than the rest.

"Davis, as far as I can tell, Leo Lv from your sect seems to have the highest cultivation base among the cultivators who entered the

Mysterious Nether World. I bet he must have a lot of harvests this time," the leader of the Bloody Hero Gang said with a smile.

He shared good terms with the leader of the Peripatetic Sect. That was the reason why he praised Leo. Besides, Leo was one of the best cultivators among the young generation of Violet Orchid Empire. After all, he had reached the medium stage of the Mysterious Realm.

Davis laughed and responded, "He caught my attention when he was a kid. He is smart and has exceptional talent in martial arts.

Apart from him, more than ten principal disciples of mine have also entered the Mysterious Nether World. I'm sure they'll not disappoint me.

In fact, Caden from your sect is also strong. Although he is not as good as Leo, he is also one of the elite cultivators of our kingdom. I bet he'll not let you down."

When he spoke of Leo, his mood lit up. He touched his long beard, with pleasure and pride written all over his face.

Suddenly it occurred to him that Austin had taken the first place in the Outstanding Talents Exchange Games. As a result, Leo won the second prize. This had kept troubling Davis.

At the thought of Austin, he couldn't help but catch a glimpse of Theon, the leader of Sun Sect. After all, Austin used to be a disciple of Sun Sect. Therefore, he was upset with Theon.

Among all the disciples of the five biggest sects who had entered the Mysterious Nether World, the disciples from the Sun Sect were the weakest because Braxton who had been the strongest disciple of the sect had been killed.

While the other four sect leaders talked to each other excitedly, Theon remained silent with a dejected expression. During the Outstanding Talents Exchange Games, apart from Braxton, the Sun Sect had also lost several principal disciples with high cultivation base.

Fully aware that the disciples of his sect were weaker than those from the other four sects, he didn't expect them to have great harvest. All he wanted was their return from the Mysterious Nether World, safe and sound.

Theon? You look sour. Oh! I see. It's because of the fact that your sect disciples who had entered the Mysterious Nether World are

'That is unbelievable.

Graham and Bruce are at the preliminary stage of the Sky Realm?'

The other princes kept thinking and were upset at the news.

'If he is telling the truth, Graham and Bruce are quite likely to get the soul-recovering fruit.

Even if another cultivator finds it, Bruce and Graham will take it away from him. No one in the Mysterious Nether World can defeat them. After all, they are cultivators who have reached the preliminary stage of the Sky Realm.

It seems that the grand prince will really get the soul-recovering fruit.'

At the thought of this, the other princes furrowed their eyebrows. They looked anxious and little dejected. They did not want to lose hope but they felt their chances were slim now.

'There is no doubt now that the grand prince will sit on the throne with the help of those two cultivators who are at the preliminary stage of the Sky Realm.' Their minds were filled with such thoughts.

"Cheer up, guys! After I become the emperor, I will treat you well, as long as you are loyal to me!"

Imagining his glory and tenure as the emperor, the grand prince burst into laughter.

"One more thing. There's no need to wait for the cultivator named Austin who lived at your residence," he said looking at the youngest prince. "I ordered Graham, Bruce and Leo to execute him in the Mysterious Nether World. He must have been killed by now. He

deserved to die after he dared to embarrass me at my wedding ceremony. He surely had it coming."

A satisfied smile appeared on his face as he mentioned Austin and announced about his destruction.

The face of the youngest prince turned pale. He had thought highly of Austin and expected him to help him take the throne. His hopes had grown more since Austin had won the championship of the Outstanding Talents Exchange Games.

But now he was informed that two masters of the Sky Realm had been asked to eliminate Austin in the Mysterious Nether World. Although Austin was a talented cultivator, he didn't think he could be a match for two masters of the Sky Realm.

'Perhaps Austin got killed by Bruce and Graham, ' he thought, feeling dismayed.

.. .

The crowd was abuzz with discussion as they waited at the square.

Out of the blue, an old eunuch strode onto the stage where the emperor was seated.

"Your Highness, the entrance to the Mysterious Nether World is going to open. Our elites will come back home soon," the eunuch said deferentially.

Although his voice wasn't loud, the whole square became quiet instantly. Silence prevailed as all waited holding their breath.

Everyone present there had their eyes focused on the altar waiting eagerly to see those who would emerge out.

## The Supreme God

## Chapter 523 A Rich Harvest In The Mysterious Nether World

A moment later, an invisible force formed a huge gap above the altar, from which a colorful, dazzling light suddenly burst out!

Then, a thick column of light dropped from the gap, slamming onto the altar. All of a sudden, several figures fell down the column.

These were the young cultivators from the Violet Orchid Empire, who had entered the Mysterious Nether World.

Although a hundred people had entered the Mysterious Nether World, only about forty appeared on the altar.

That meant around sixty cultivators had died in the Mysterious Nether World!

After the thick column of light dissipated and the huge gap closed, the young survivals jumped off from the altar and began to search for their masters, elders, sect-mates, relatives or friends among the crowd that had gathered to meet them.

"Dad!"

Dewey abruptly shouted from beside Austin, as he had found his father. He then turned into a round meatball and rolled toward a corner of the square.

In that direction stood a middle-aged man who was even fatter than Dewey. His fat head, huge face, and oversized belly made him look like a ball.

Austin couldn't help but laugh. It seemed that this middle-aged fat man was Dewey's father. The apple did not fall far from the tree. Dewey was a copy of his father!

"Austin, the elders of our sect are over there. We should greet them."

Iris and Anna said to Austin.

"Okay, go ahead."

Austin nodded at them. Then, the two girls held hands, jumped off the altar, and ran toward the middle-aged Taoist nuns.

"Senior Sister, look! The Sect Leader, Theon, is headed our way!"

Once the leaders of the five major sects saw that the young cultivators were walking toward them, they dismounted from the spectator's platform to greet their disciples.

"Austin, I've located my master as well."

Maria displayed many things.

"Humph, don't show off before me!"

The woman sneered. But at the next moment, her eyes locked on the treasures that Maria had taken out. The woman was so astonished that she was robbed of her ability to move.

So was the middle-aged man. He inhaled sharply when he saw what Maria had collected.

Iris and Anna grinned as they unveiled their cache.

"Iris, Anna! Your trip to the Mysterious Nether World has been fruitful. Besides the hundreds of fire spirit stones, you earned grade six and grade seven elixirs, books of grade five and grade six martial arts skill, and thousands of vital energy crystals. These are enough to improve the strength of our Pure Dream Convent significantly. This is outstanding!"

A middle-aged Taoist nun praised Iris and Anna. Her voice trembled as she spoke with the effort to suppress the ecstasy she felt.

The four sect leaders of the Peripatetic Sect, the Flaming Sun Valley, the Bloody Hero Gang, and the Joy Gang were searching for their disciples among the young cultivators that had returned.

"Caden, over here!"

The leader of the Bloody Hero Gang called to Caden the moment he saw Caden.

The young boy immediately walked toward him.

"God bless, Caden, you've returned! Uh... What happened to other disciples? Were they not with you? Where are they?"

The expression on the Bloody Hero Gang leader's face changed in the next instant. He glanced at the returning young cultivators. Confusion shone in his eyes.

"Caden... Where are the other principal disciples of the sect? Why are you the only one here?"

"Sect Leader, you don't need to search anymore. The other brothers didn't survive!"

"What?! They all died?! Only you survived?"

What the hell happened?!"

## The Supreme God

### Chapter 524 Angry Sect Leaders

Blaring voices, in apparent outrage, filled in the entire area. Everyone was utterly surprised to hear the reports of those who came back alive.

"What?! Wilson, you mean you're the only disciple of our Blood Wolf Team who came out alive? What happened?" an old man in red, with white hair and beard, roared.

The others immediately recognized that he was the Blood Wolf Ancestor—the leader of the Blood Wolf Team.

"What?! Garret, there were a dozen disciples of our Flaming Sun Valley when you left, and now you're the only one back?"

the head of the Flaming Sun Valley shouted in surprise.

"Leo, our Peripatetic Sect had only a dozen principal disciples left. They were all killed except for the two of you?! I can't believe this!"

The utter surprise and outcries attracted other people's attention.

Before that, no one had noticed that among the young cultivators who had returned from the Mysterious Nether World, only one or two survived from each sect.

Among the young cultivators who came out alive from the Mysterious Nether World, only one was from the Bloody Hero Gang, one from the Flaming Sun Valley, two from the Peripatetic Sect, and one from the Blood Wolf Team!

This time, those sects had severely suffered a significant loss of principal disciples.

The Sect Leaders of the Bloody Hero Gang, Flaming Sun Valley, Peripatetic Sect, and the Blood Wolf Ancestor of the Blood Wolf Team were all shivering in total anger.

"Tell me what happened!"

they ordered in unison, furiously eager to hear the anecdotes of the survivors.

"Sir, except for a few principal disciples of our Bloody Hero Gang who died while recklessly searching for treasures in the Mysterious Nether World, the rest were all killed by Austin!"

Caden cautiously answered to his extremely furious leader.

"Sir, all of our disciples who died in the Mysterious Nether World, were killed by Austin!"

Garret told the head of the Flaming Sun Valley.

"Sir, our men were all killed by Austin in the Mysterious Nether World!"

Wilson, gritting his teeth, replied to the Blood Wolf Ancestor.

"Sir, half of the principal disciples of our sect who entered the Mysterious Nether World were killed by Austin!"

Leo, also with a guarded tone, reported to the head of the Peripatetic Sect.

'What?

Almost all the principal disciples of these sects were killed by Austin?'

The crowd was stunned to hear the outrageous accounts of the survivors.

A chorus of condemnation was immediately heard.

"Austin, not only do you have no regrets, but you're planting a trail here! No matter how much you argue, you can't escape death today!"

the leader of the Peripatetic Sect shouted furiously.

"I can prove that Austin didn't lie.

Your disciples were killed because they attacked Austin and tried to rob his elixirs."

Just then, a bright and sweet female voice rang out, and a young woman came to Austin.

It was none other than Denali.

"Little girl, how could you defend such a vicious killer!"

the head of the Bloody Hero Gang said coldly, threatening Denali with his vicious eyes.

"Theon, your disciple is so unruly!"

the head of the Flaming Sun Valley complained to the Sect Leader of the Sun Sect.

"Ha! This disciple of our sect is very honest. I don't think she would ever lie."

Theon just laughed slightly. As Denali had taken back a lot of treasures and cultivation manuals from the Mysterious Nether World, Theon was excited and suddenly amused with Denali.

Furthermore, Denali had told him that the treasures and manuals were all given by Austin, which impressed him even more.

Theon had always been fascinated with Austin, and he had felt very sorry when Austin left Sun Sect. So this time, he stood on Austin's side without any hesitation.

"Theon, what do you mean?"

the leaders of the four sects asked in an outright frenzy. They turned even more furious when they heard what he said.

"Ha-ha-ha! Stop arguing! If you want to avenge the stupid disciples of your sects, you better come at me.

I don't want to waste my time arguing with you!"

Austin remarked, even more arrogantly.

"How dare you! Go to hell!"

The head of the Blood Wolf Team couldn't wait anymore. In a blink of an eye, he charged at Austin. He waved his right hand, and a robust vital energy force gushed out from his body and transformed into a grim-looking wolf head. It rushed towards Austin's head with its mouth widely opened.

"Hmph!"

Austin snorted, showing no fear.

He threw a punch which forced the wolf head to retreat back. Even its color dimmed and turned darker.

Then Austin reached out his right hand, and a vital energy sword with light golden flames materialized in his palm.

He waved the sword and thrust it toward the wolf head.

With a loud bang, the wolf head exploded. It turned into vital energy sparks and soon disappeared in the air. The scene—the instant defeat of the wolf head—left everyone speechless.

**The Supreme God**

## Chapter 525 Burning Blood Wolf Ancestor

After quickly breaking the wolf's head, the vital-energy sword in Austin's hand turned into a flaming sword radiance and shot towards the Blood Wolf Ancestor, carrying immense momentum and destroying everything in its wake.

Instead of trying something fancy, Austin had launched the attack directly this time, without using any superior sword skills. As a result, a thread of Spiritual Sword Aura that was condensed by level one sword intent had attached itself to the vital-energy sword.

With time, Austin's understanding of swordsmanship had deepened, and with it, the strength of his Spiritual Sword Aura had also improved. This naturally meant that the strength of the Flame Swordsmanship was enhanced.

Flame Swordsmanship was a special martial arts skill which allowed a cultivator to convert his vital energy into a sword which could then be used to attack his opponents.

Since Austin had condensed his vital energy and was now at the Sky Realm, the sword he threw was so powerful that it could have been compared to supreme swordsmanship. Like an unstoppable demon, it rushed towards the Blood Wolf Ancestor with a powerful aura.

When Austin's swordsmanship had been at the stage of sword intent, the sword attack he'd executed had radiated a few thousand beams of colorful light and dazzled everyone.

However, for some reason, at the level of sword potential, the sword attack he used felt flat compared to his previous sword attack. Those former colorful beams had completely filled the sky. This one did not.

But it did give people a different sense of his talents. The higher grade attack he executed felt much more natural, mighty and full of energy.

After reaching the extremities of splendor, it recovered its original simplicity, which followed the developmental law of things.

The strength of his sword potential, seemingly flat, was much higher than that of his sword intent.

Seeing that Austin had easily broken his wolf head by a single punch, the Blood Wolf Ancestor was astonished. The next moment, he saw a weird, long, flaming sword fly towards him with an incredible speed and a threatening sword aura. As soon as it reached near him, its power blocked the space around him.

He was scared out of his wits now. After feeling the strength of Austin's sword attack, he knew clearly that he couldn't withstand it and win.

"Ancestor, your shoulder!"

walked over

soon as he looked down, he was scared witless. Flames had  
attached themselves to the wound, and were burning his flesh and  
bones around it. A sizzling

"What the hell?"

In extreme fear, the Blood Wolf Ancestor hurriedly ordered his vital  
energy to flow towards the wounded shoulder, trying to put out the fire.  
The effort made his clothes blow up like a balloon.

However, as soon as the flood of vital energy reached the wound, the  
fire got even more serious with a flame rushing out of the wound  
suddenly as if oil had been poured on it. In the blink of an eye, almost  
half of his shoulder was burnt to ashes.

The flames which had attacked him took vital energy as their fuel.  
Therefore, the Blood Wolf Ancestor's idea to put them out with his vital  
energy was in vain and made the fire burn even more fiercely.

"Argh! What kind of fire is this? Help!"

The Blood Wolf Ancestor did not dare employ his vital energy again to  
put out the flames. He just patted his shoulder continuously with his

left hand. However, after trying a little, his left hand also started burning.

"Help!"

With his situation so dire, the Blood Wolf Ancestor forgot his dignity and screamed in fear. He knew that the weird fire was definitely going to burn him to ashes if no one put it out.

Seeing the Blood Wolf Ancestor suffer from this eerie, fierce fire, Wilson, and the other members of Blood Wolf Team were worried witless but they could do nothing to extinguish it.

A member of his team tried to extinguish the fire with his hand, but after patting the wound several times, his hands also started to burn. His strength was much inferior to the Blood Wolf Ancestor and therefore, within moments, his right hand was burnt to dusty bones. At this crucial moment, he took out his blade and cut his right hand off from his wrist, hoping to stop the fire from spreading over and completely burning him.

Once this happened, the rest of the people were even more frightened and did not dare try to save the Blood Wolf Ancestor.

They looked at his burnt-to-dust shoulder dumbfounded, and their eyes were filled with dread as they turned their gazes towards Austin.

Just then, a figure ran over and with a wave of his sleeve, a blast of powerful vital energy hit the Blood Wolf Ancestor's right shoulder. He was forced backwards more than ten meters before he could stand steadily. Then he became extremely excited, because the blast had somehow extinguished the fire on his body.

## The Supreme God

## Chapter 526 Become Famous Due To A Fight

It was the emperor who had come to the Blood Wolf Ancestor's rescue. He was the one who had put out the fire on the poor man. To be frank, even he was astonished at the result. Staring at Austin in surprise, he spoke on the Blood Wolf Ancestor's behalf, "You're really an amazing young man, Austin. You managed to even defeat this guy. That's very impressive indeed.

However, today is a big day. Can you let him go for my sake?"

Upon watching the emperor make the flames vanish in a second, Austin was in awe of him now. 'He is at the premium stage of Sky Realm. Of course his battle force is overwhelming.

The flames I hit the Ancestor were a combination of the power of Scorching Evil Fire and the golden vital energy from my body. They were supposed to be formidable and impossible to put out. I know that cultivators who haven't reached the Mysterious Realm can't make them disappear. Even a cultivator of the Sky Realm can't get rid of them immediately.

But the emperor put them out with only a flick of his wrist. It means that he is really powerful and I can't knock him down with my sword of vital energy, ' he mused.

"Your Highness, since you are ordering me to do so, I will surely let him go.

However, if he keeps bugging me, I'll not spare his life and I hope you will not hold me responsible for that."

Austin responded casually.

To be frank, he hadn't found much delight in defeating the Blood Wolf Ancestor. After all, he had reached the medium stage of Sky Realm, while his opponent had only been at the premium stage of the Mysterious Realm. If he couldn't have taken him in the fight, he would have been ashamed of himself.

"He will not bother you, I believe," the emperor replied with a slight smile.

At this point, the Blood Wolf Ancestor's face was pale and bloodless. And as for his right arm, only some charred, black bones could be seen. He looked more like a pathetic old man than a strong cultivator.

He couldn't pose a threat to Austin in this condition. In fact, he was in no condition to fight anyone now. Besides, he had learnt about the young man's strength and was in awe of him now. He was aware that he wasn't worthy of being Austin's opponent.

Wilson also knew about Austin's real strength from his encounter with the latter in the Mysterious Nether World. He knew that he couldn't hurt Austin even if he used his wolf wood carving.

After all, it hadn't taken much of Austin's strength to kill nine cultivators of the Sky Realm.

inside the wolf wood carving, which was considered a sacred treasure of the Blood Wolf Team. The wolf's strength was equal to a ninth-grade demonic beast which was as strong as

"Your Majesty, I am worn out after a month's journey. I would like to take my leave and get some rest now," he continued.

He had no intention of having any further conversation with the emperor because he wasn't sure whether the latter was his friend or foe.

"Fine. You may leave and get some rest."

The emperor agreed.

Austin bowed to him, turned around, and walked away towards his palace.

"Hi, Austin!"

A female voice resounded from behind him. The maid who had called him out quickened her pace to keep up with Austin.

"Why are you following me? I advise you to join your sect leader," Austin said.

The maid was Denali.

"My sect leader asked me to thank you for giving me those treasures," Denali explained.

"There is no need for that.

I presented those things to you because we are old acquaintance," Austin replied with a slight smile.

He was quite fond of her as a friend. Under that serious circumstance, she had had the guts to speak in his favor. If some other disciple had been in her shoes, he or she would have been too terrified to say anything in front of the leaders of the four sects.

"Well, you'd better go back to your sect leader and companions," Austin urged her.

He had no place for yet another maid in his life.

## The Supreme God

### Chapter 527 Bickering

Austin felt kindly disposed towards Theon, as the latter had taken sides with him and even stood up against the Flaming Sun Valley, Peripatetic Sect, Bloody Hero Gang, and Blood Wolf Team. As a result, Austin showed him great respect.

"Okay," said Denali.

She bade Austin goodbye and returned to Theon.

Austin sauntered forward, about to leave the square.

Dewey, Maria, Iris, and Anna didn't follow after Austin; their families were here, and they wanted to spend more time with them.

"Austin, I didn't expect you to return safe and sound. You are indeed much more powerful than before. Congratulations!"

As Austin reached the edge of the square, a group of people approached him.

The head of them was Prince Reuben.

Since the young cultivators' return from the Mysterious Nether World, the ten princes had immediately instructed their men to make contact with those cultivators working for them.

After all, whether or not these cultivators had found the soul-recovering fruit was the ten princes' foremost concern.

The ten princes had then asked each of the cultivators about the soul-recovering fruit one after another, but to their disappointment, no one had retrieved any soul-recovering fruit.

The grand prince had been full of bright hope at the very beginning. He had eagerly asked the cultivators working for him about the soul-recovering fruit one after another, including Graham, Bruce and their men. But their answers proved so disappointing.

Eventually, all the princes became disappointed as they deduced that none of the cultivators had brought back any soul-recovering fruit from the Mysterious Nether World.

Although Graham and Bruce was at the Sky Realm, and was the strongest among the cultivators, they had failed too. The ten princes didn't believe that the rest of the cultivators could have claimed the soul-recovering fruit.

Now that it seemed that no one had successfully brought back the soul-recovering fruit, the competition between the ten princes had drawn to a stalemate. They would have to battle each other in another way next time.

prince had thought for sure that he would win. He had even begun imagining that he would become the crown prince

Humph! The Blood Wolf Team's power can't hold a candle to imperial power. It'll be a piece of cake to kill you," the grand prince said arrogantly as if the throne was ripe for picking.

Austin was equally enraged by him.

He was no longer even afraid of Emperor Arthur, let alone the grand prince. If the grand prince wanted to kill him, Austin would just unleash the evil ape. Austin believed that he could eliminate the whole imperial family with the help of the evil ape.

"Damn! Man, are you that sure you will be the next emperor, huh?"

You act like you don't have nine other brothers," Prince Reuben retorted before Austin could say something.

"Hah! I have to admit that this time, the competition didn't go as I expected. Bruce and Graham failed to retrieve the soul-recovering fruit from the Mysterious Nether World.

But soon, our father will hold yet another competition to decide who will be the crown prince.

I believe that with my resources and connections, none of you can seize the position from me.

You know what? I've also won half of the dukes and high ministers over to my side.

Brothers, I hope you all have a clear estimation of yourselves. You can't take me on. So stop fighting against me.

If you surrender to me now, I will spare your lives. If you don't, then I'm sorry, but I won't spare any of you once I become the emperor," the grand prince threatened in an arrogant tone.

Upon hearing that, Austin flashed a scornful smile.

"Ahem! Your Highness, I forgot to tell you something," Austin said to Prince Reuben.

"I picked three fruits while I was in the Mysterious Nether World. They sort of look like the soul-recovering fruits. Your Highness, would you please check if they are soul-recovering fruits?"

He stretched out his hand, on which rested three black and white fruits with a strong fruity flavor.

All the princes turned to look at the fruits on Austin's hand. They stood transfixed as if they were frozen. Their eyes widened, and their mouths gaped.

## The Supreme God

### Chapter 528 Fulfilled The Task

Austin took out three black and white fruits and handed them to Prince Reuben.

All the other princes, who were just standing close, instantly shifted their gazes to Austin as soon as they heard about the Soul-recovering Fruit.

Shock flooded their faces when they caught sight of the fruits on Austin's palm. Their eyes were all wide open and their mouth gaped in disbelief.

It was the Prince Reuben who recovered first. He looked dull and lifeless just minutes ago. However, his mood changed after realizing

what happened. He was suddenly thrilled and couldn't even hold his excitement well! Even his chest began to heave heavily as his breath quickened.

"T-The Soul- recovering fruit... Y-you... Austin... You are... You... You are so awesome! Goodness! Are these Are these really the Soul-recovering fruits!" stuttered Prince Reuben as he was overwhelmed with joy.

He still couldn't believe what he was seeing. He then looked at the old man beside him and exclaimed, "Milton, look at what we have here!" Looking at the old man, Austin could tell that he was at the premium stage of Mysterious Realm.

It was possible that he was a master who came from the underground world and worked for Prince Reuben.

"The fruits are authentic, Your Highness. They contain powerful spiritual energy coming from heaven and earth. They can't be fake. These are indeed the soul-recovering fruits!"

Milton's shock was clear on his face. Clearly, it seemed that this was his first time seeing such a rare and precious treasure too.

"Ha! Oh boy! Austin, you are unbelievable!

I can't believe that you really brought the soul-recovering fruits!

This is such a big surprise! How could you be this naughty? You didn't even tell me about this until now!

You gave me no clue! Ha-ha!" Prince Reuben roared with laughter.

Having confirmed that everything was real before his eyes, he was glowing with happiness as his laughter echoed in that place. He was even teary with joy!

"Soul-recovering fruits!

How could it be you who got them? You are nothing but a hateful bastard!"

The grand prince's face grew furious as he came out of shock and realized what was happening. He was suddenly turning purple with rage as he glared at Austin. This turn of event was like a slap on his face.

He was more than sure earlier that he was the one who would win the throne. He was even boasting about it. However, Austin came in with the soul-recovering fruit! How dare this man shame him!

"My dear queen, you can be saved now," said the emperor emotionally. He then turned to Prince Reuben and smiled.

"I didn't expect you to get these for me. It's really a surprise that someone was able to find the soul-recovering fruits in the Mysterious Nether Word and bring them back to me.

Well done, Reuben! Let's go to Doctor Hua's place and have him make the soul-recovering pill immediately. The top priority now is to cure the queen.

Other things can wait."

The emperor was trembling in excitement as he held the soul-recovering fruits in his hands. With one wave of his hand, he dashed to the queen's palace.

Prince Reuben felt overjoyed at the emperor's praise. He was so carried away with his achievement and felt light-headed. He almost jumped and laughed out in joy!

It was just that he still needed to behave in the presence of the emperor that he controlled himself. Thus, he looked rather composed as he followed the emperor behind.

"Your Majesty, I believe that my mother will recover from the illness as soon as Doctor Hua gets the soul-recovering fruits and refines the pill."

Prince Reuben didn't waste a chance to impress the emperor.

"Ha! Of course, she will! Her illness can only be cured by the soul-recovering pill in the first place.

You have made an outstanding contribution to this, Reuben. You have done a great job!"

praised the elated emperor.

"It is my honor and my duty, Your Majesty," responded Prince Reuben immediately.

The other nine princes were all dejected as they watched Prince Reuben win the favor of their father.

The grand prince looked worst among them. He had worked so hard for the past few years just to get the throne. He had recruited people to form cliques and actions. He had built his networks by his own effort. He even gathered a large group of masters from the underground world of martial arts.

All his efforts went in vain in the end. It was still Prince Reuben who got the upper hand. It wasn't even hard to see that Prince Reuben would be the next emperor.

That was a heavy blow against his ego. He couldn't just accept all these things easily. He stood there dumbly as his eyes lost their luster. He then muttered to himself insanely, "How could it be possible? It should have been me! I'm the rightful one to get the throne.

Austin!

You ruined all!"

The grand prince's expression suddenly turned murderous. He firmly gazed at the direction where Austin fled and then screamed, "Austin, I swear that I will make you pay!"

# The Supreme God

## Chapter 529 Trouble Stirs In Austin's Palace

After leaving the square, Austin headed straight to the Royal Palace where a large number of palaces were located.

Austin's palace was located in that area too. Since he had been away from home for a long time, he went straight to his palace.

As he approached his residence, he found over twenty men near the closed door. Some of them kicked the door aggressively shouting, some spitted on the door and some even threw stones into the yard.

'What's going on in there? They are not my men.

Who dared to send them to stir up trouble in my palace?' he wondered.

Austin stood still and kept observing the mob. They acted in a bossy, rude manner.

The door opened, and out came a middle-aged man, followed by dozens of guards.

The man who took the lead was Mike. Before Austin had entered the Mysterious Nether World, he had asked him to take charge of his palace.

"Guys, what's your business here?" Mike inquired with a little frown.

His voice was full of caution as if he was afraid of those people.

Austin was baffled. 'All those guys are at the eighth or ninth level of the Energy Gathering Realm except one of them who is at preliminary

stage of Earth Realm. Mike is a cultivator of the Earth Realm. Why is he behaving like this?'

"Hmm. How dare you ask us? Send your men to clean up our master's yard. From now, you will assign servants to tidy our master's palace. And you will also send a dozen maids to serve our master," the guard at the preliminary stage of the Earth Realm spoke in a domineering manner.

It looked like he was the leader of those people.

"What? But I already sent people to do the cleaning this morning."

There was exasperation and resignation in Mike's voice.

"Our master, Soren, said that your men need to come over there to do the cleaning twice in a day—in the morning and in the evening—from today onwards.

Besides, you need to pay us five thousand vital energy crystals daily instead of a thousand from now," the guard continued scornfully.

"Five thousand vital energy crystals every day!

You're going too far. We've already paid you a thousand vital energy crystals daily for a month. When do we stop paying you?"

Mike responded indignantly.

"You speak too much. You should be thankful that our master allows you to live here instead of kicking you out. Now what? You got a problem with that?

Our master said you either pay vital energy crystals or move out of here. If you defy him, our master will take care of you in person. At that time, all of you will be dead or badly injured. That's all I can tell. It's your decision now, old man," the guard snorted and raised his chin with contempt all over his face.

"The emperor granted this palace to our master. Who has given your master the authority to throw us out?" Mike snapped, trembling with anger.

that slap from Austin.

Austin was getting impatient and wanted to stop him before he could finish his words.

And another slap landed on the guard's face. Another deafening sound echoed around. The guard tried to dodge it but he couldn't move an inch due to Austin's strong power.

As a result, he could do nothing but watch Austin's hand fall on his face.

This time the left side of his face started to swell up and he was thrown into the air by the impact.

Blam! He fell on the ground over thirty meters away from where he had been. He moaned in pain while covering his puffy face.

"Tell your master to get his ass over here and apologize to me by kneeling before me. Otherwise, he will be in a lot of trouble," Austin warned gravely.

He was in no mood to waste time on those people. He turned around and walked into the yard of his palace.

"Let's get inside first.

And about those guys still standing there, ask our men to break their hands and legs before letting them leave," Austin said to Mike coldly.

He would show no mercy to those who bullied his men in his palace.

Mike followed the order. He instructed thirty guards of Austin's palace to surround those guys who were about to leave and beat them up.

Soon screams were heard in front of the door. Austin's crew had been bullied by those guys, and they were angry at them. After getting their master's order, they punched those provocative guards to their heart's content to get even with them.

The moment Austin got inside, all of his guards, maids and servants ran to him with great delight. They were about to kneel before him but he stopped them with a wave of his hand.

He felt uncomfortable with those practices and rituals. He even detested them. It was troublesome to him.

With rapture evident on their faces, they greeted him, "Master, you're finally home!" They were cheerful to see him again.

Tears of joy filled up the eyes of several servants.

Apart from delight, a trace of anger and mortification was visible on their faces. It was apparent that they had suffered a lot during their master's absence.

Austin observed his servants discreetly and detected their emotions. 'It looks like Soren's men have dropped by here often and have been hard on them, ' he surmised.

Evan and Herbert made their way to Austin the moment they were informed of their friend's return.

"Tin, you're finally back!" they exclaimed with joy.

"What happened to both of you?" Austin asked with furrowed eyebrows.

The bruises on their faces caught his attention. It was evident that the two had been beaten up.

Herbert's right arm and foot were wrapped in thick bandage, which suggested that he had been badly hurt.

"You must avenge me. Look at me. I was a handsome young man, but now I look like hell.

It is all because of Soren. He sent people here and stirred up trouble. I was upset with what his men did and fought with them. As a result, I ended up like this," Herbert whined.

'Soren again, ' Austin thought, fury rising in his eyes.

# The Supreme God

## Chapter 530 Pick A Quarrel Again (Part One)

"Mike, what's going on?"

Austin asked seriously as he quietly sat in the audience hall.

Upon hearing his question, Mike immediately filled him in on what occurred without missing a single detail.

According to his story, the warriors who were currently residing in the Royal Palace were all supported by the royal household, and were all in-debt in them.

But it was not long after Austin entered the Mysterious Nether World, when a man who went by the name Gloomy Mountain Ancestor, whose real identity was Soren, proudly barged into the Austin Palace and started demanding a thousand vital energy crystals every day. He also required them to send their servants to do all the chores in his house.

Mike, Evan, and Herbert refused his unreasonable demands which were out of the blue, and decided to teach him a lesson instead and drive him away. However, when Soren started attacking them, the men realized that he was at the premium stage of Mysterious Realm.

Since the most powerful among them who were currently in Austin Palace was at the medium stage of Earth Real, they suddenly realized that they were no match against someone of Soren's caliber. They were like kids trying to fight a grown man.

In the end, every last one of the members of Austin Palace was beaten to a pulp. Some were killed and others were in critical condition.

More than 60 guards were easily killed by Soren's attacks.

Cornered with no chance of retaliation, Mike had no choice but to give in to the mad man's unreasonable requests in order to save the rest of the men and to ensure a short-lived peace in the Palace.

Austin was already about to explode with anger and fury, and revenge was already formulating in his mind as he listened to Mike recounted the events.

He already knew that Soren was after him, hence the sudden surprise visit.

People who were living in the Austin Palace—Ivy, Sue, Evan, Herbert, and Mike were Austin's relatives and best friends, and each of them were significantly important to him. And they were placed under grave danger because of him.

What he had done was way beyond forgivable, so Austin had already decided to kill the

royal household for help? They won't refuse you," Austin asked confusedly. Prince Reuben had ingratiated him for a long time, so he

the Austin Palace, their guards

"Go and surround this place. Kill everyone and anything who breathes in the Austin Palace. Don't spare anyone, not even their fowls and dogs."

One of the leaders of the team was an old and sullen-faced man clad in black. Gathering his vital energy between his hands, the old man placed his palm on the gate which crumbled right before his eyes. It was as if the gate was only made of biscuits which easily cracked and disintegrated.

Bang!

The Austin Palace's heavy door flew into the yard which created a thundering and booming sound.

"What the hell is going on?"

The servants who were busy doing chores hastily ran over to see what had happened, as well as the guards who were patrolling the area.

As soon as they got out of the palace, they were surprised that their house was surrounded by hundreds of guards armed for battle. Fear suddenly took hold of them.

The ten leaders all emitted an overwhelming vital energy force, which froze the servants in place, effectively preventing them from moving and escaping.

"Bang!"

"Bang!"

"Bang!"

The servants didn't stand a chance to withstand the pressure and were forced to kneel on the ground, along with the successive sounds of crackling. They fell like dominoes one by one.

Most of Austin's guards and servants were only at the Energy Gathering Realm. They wouldn't stand a chance and resist the attacks from the ten masters at the Mysterious Realm. They were so strong that even the pressure from their vital energy force was able to kill all of Austin's guards and servants.

Although they were pressed down on their knees flat on the ground, they still looked firm and unyielding. Even these enemies were overwhelmed by just how loyal they were towards Austin. In the face of death, they still remained determined out of respect for him.
