Chapter 1608-1610

Chapter 1608

“Oh, speak of the devil, here they are! It looks like they did not rest along the journey here.”

When Nash heard the report, he could not help but smile bitterly then comment, “Let’s go. There! S no room for too many people here. We’ll meet them outside. And if they want to come inside and take a look, they can, but not too many of them!”

Jack nodded in agreement. He asked a few people to stay in the room to watch after the stone balls, and then he flew out of the room.

“Hahaha! Master White, Young Master Jack, you guys are working out something? We spotted these two beams of light from far far away! Congratulations!”

Harry immediately bowed and greeted Jack and Nash with a fist-to-palm salute the moment he saw them. He then congratulated them.

“The room is rather small, so I’m afraid that not every one of you could go in. Master Harry and some elders, you may go in and take a look. As for the rest, please rest outside in the square!” Jack smiled.

Harry’s eyes immediately lit up once he heard Jack’s invitation. “Yes, yes, of course! Everyone, listen, rest in the square! Elders and I will go in and take a look!” He commanded his men.

Soon, Jack and the others led Harry and the elders into the house.

“Those lights are truly from these two stone balls! Brother Jack, how did you make them glow? And about these lights, is there anything special about them?”

Harry gazed at the two stone balls that were placed on the huge table. He asked in awe.

Jack, on the other hand, shot him a dry smile. "To be honest, we've studied the lights for a while now, but could not find anything special about these lights. Please, take a closer look." He continued.

Harry's face fell and the beams in his eyes dimmed down the moment he heard Jack's words. "I thought these lights represent the auspicious signs of breaking through to the ultimate god realm. But when I noticed that these lights were still there in the sky, I felt strange. Sigh! There's not much progress, is there?" He said with disappointment in his tone.

The elder of the Pavilion of Gods and Kings chimed in, "Well! I think the progress is good! We've studied and analyzed the stone for so many days, but we found nothing at all! And at least Jack and Paul have discovered something different."

"By the way, Jack, how did you make this light appear?"

Harry finally could not hold back any longer but ask.

"Oh, actually, it's quite simple. This stone ball will actively absorb the surrounding Chi energy, and after observing this feature, Paul and I found that the two stone balls' speed of absorbing the Chi energy is the same and constant. So, we want to break such uniformity!"

"So, in the end, we took the risk. We placed our palms on the stone balls and injected our Chi energy into them. The stone balls reacted to our action and began to quickly absorb our Chi energy. And when the absorption reached a certain level, the stone balls released an expulsive force to push the Chi injector away. And then, the beams came out."

Jack smiled faintly, telling the incident from head to toe to the other party

“So that’s how it is!”

Understanding dawned upon Harry’s face. “But, you guys are bold, aren’t you? What if anything bad happened to you? If any unforeseen accident happens, it’d be a problem!” He continued

“Yup! At that time, we were shocked too! Young Master Jack directly put his palm on it and began to inject his Chi energy into it. Very risky! Fortunately, nothing bad happened to him!”

Titus immediately added.

“Well? Master Harry, since you guys are here, do you want to take out your three stone balls and try this method on them together? Since everyone is here, why don’t we study and explore the stone balls together right here?”

Jack looked at Harry and said straightforwardly.

Harry hesitated for a few seconds. After all, they had three in their hands, and it seemed to be unfair and not profitable to take them all three out.

Chapter 1609

However, Jack was already so proactive about what they got, telling himself and the others everything about it. Moreover, Jack’s combat power was so strong that even he himself would not want to be his opponent. So, if he was reluctant to take the three stone balls out at that time, the White family would be upset.

After pondering for a few seconds, he had made a decision. “Alright, alright! Let’s take them out and try them together!” He smiled.

With a flip of his palm, one stone ball appeared in his hand. He then turned to the First and Second

Elders.

After seeing that Harry had agreed to Jack's proposal, the First and Second Elder of the Pavilion of Gods and Kings also took out the stone balls they had with them. They placed the stone balls on the table.

"Come on, try and inject your Chi energy into it!"

Harry eyed the two elders once more and then walked to the stone ball. He placed his hand on it, mobilized the Chi energy in his body, and began to inject Chi energy into the stone ball.

After a while, Harry was obviously scared by the speed of the stone ball absorbing his Chi energy. The speed grew faster and faster and it began to actively suck the Chi energy in his body.

"Jack, how long is this going to take?"

Harry immediately shot Jack the question. The first and second elders who stood aside, also looked at Jack with concern in their eyes, fearing that something bad might happen to them. If these stone balls did not stop sucking the Chi energy in their body, they would be doomed by then!

"Don't worry, it's almost done!"

Jack, on the other hand, was feeling bashful.

Bang bang bang!

At the same moment, all three were bounced off by the expulsive force of the stone balls. They were flown several meters backward before they could stabilize themselves and stood still. They trembled and felt the numbness on their hands.

What followed the scene was three different colors of light beams were emitted by the stone balls and shot into the sky.

“The light! It really did appear! Only that the color is different!”

Harry exclaimed aloud.

“My goodness! Look, three more beams of light appeared in the sky!”

The Ximenes family, who was on their way to the White residence, saw three more beams of light shooting up into the sky, one after another. They exclaimed in amazement.

“Judging from the situation, the people of the Pavilion of Gods and Kings also went to the White residence! They’re fast, eh? We have to speed up! We want to get a share of good things, don’t we?”

The head of the Ximenes family ordered his men to speed up after witnessing the five different colored beams of light in the sky

In the other direction, the Hall of Divine Royal people had sent out tens of thousands of experts to the White residence. They were heading there at full speed

“Five beams of light in the sky! Freaking five! My goodness! Does this mean that five people have broken through to the ultimate god realm?”

Matthew Charles-the master of the Hall of Divine Royal-stared at the beams of light in the distant sky and sighed.

“Master, we’d better not go. The White family is too powerful! They can kill all four families at once, including three first-class hidden families like the Hunt, Church, and Norman families! These three families were removed from the prominent list right now. And we have even more enmity with the White family. So if that brat has truly broken into the ultimate god realm, we won’t even have a chance to escape by then!”

One of the elders of the Hall of Divine Royal was worried and warned Matthew in a panic.

#### Chapter 1610

“Better not go? If we don’t go, there’s no way for us to turn the tables anymore! And by then it’ll be impossible to break through to the ultimate god realm!”

Matthew stopped. With his tone upset, he criticized, “If we go back to our sea territory like a shrinking turtle, we can never break into the ultimate god realm! We could only hide within our pathetic territory and wait for death. And what if Jack and others came here and wanted to terminate us? When that time comes, where do you escape to?”

“But...but it’s too dangerous for us to go there this time! If they found out that we were there, we can’t escape either!” |

The old man lowered his head, murmuring

“We’ll hide on the big mountain a distance away from the White family when we arrive so that we’ll not be discovered by them so easily. And when the time comes, there’ll be more clans and families going there, and we’ll send a few men to blend into the crowd. In that way, we could at least find out something. It’s better than staying behind and not going. If we go, we can find out about the situation, then we can still find a way to overcome it. Otherwise, this marks the end of our Hall!”

Matthew stressed his point again.

Elder Moseley, at this time, chimed in and supported Matthew, “Master is right. I should go this time

and see what those beams of light are. Perhaps, you only need to enter into the beams of light and let the light shower you for a while, then you can break through to the ultimate god realm? Who knows. And I guess there'll be a lot of people rushing into the beams, and at that time we could seize the advantage and blend in."

"Yes, yes! What Elder Moseley said is absolutely right! Maybe those lights are some kind of magic or treasure that allows people to break into the ultimate god realm!"

Matthew's eyes immediately lit up at that thought. The ultimate god realm, how wonderful was that?

"Let's go and take a look! We should take the risk this time!"

After pondering for a short while, those elders who were somewhat scared of the perceived risk and danger clenched their teeth and their gaze turned determined. The crowd set off toward the White residence once again, flying in the sky at full speed.

"Five beams of light right now! It looks like the Pavilion of Gods and Kings have already arrived at the White residence!"

The Cabello family immediately understood the situation after spotting three more additional lights appearing in the sky. They then accelerated their flying speed, hoping to speed up their pace.

"Young Master Jack, Master White, the Zachary family are here! They said they're here to visit you."

Several young men of the White family entered the room where Jack and the others were and reported to them about the arrival of the Zachary family.

Nash's face fell the moment he heard the report. "Why is the Zachary family here too? Humph! They're close with the Hunt family and used to look down on our White family! They still have the nerve to come here?"

“Hehe, because they want to know if they can have a chance to break through to the ultimate god realm, right?”

Jack flashed a bitter smile and then studied the room again.” This room is small. If people keep coming here, I don’t think it will fit everyone!”

“Let’s move to the council room in the main hall over there!”

Nash said after giving the matter some thoughts.

“Sure!”

Jack bobbed his head, ready to keep the stone ball into his martial ring.

However, he could not. He tried again and found that he could not keep the stone ball into his martial ring anymore.

Likewise, Paul, Harry, and two other elders encountered a similar issue-they could not keep the stone ball away.

They exchanged glances with each other; their eyes were full of surprise and puzzlement.No. 1 Supreme Warrior

Chapter 1611-1613

Chapter 1611

“How’s this possible? It can’t be stored back into the martial ring!” Harry was embarrassed.” It looks like once the light appears from the stone ball, we are unable to store it back in the martial ring!”

Jack, on the other hand, also smiled bitterly. "It looks like we can only carry it around!"

After he spoke, they flew out while carrying one stone ball each.

"Jack, what about the people from the Zachary family?" Nash had no idea if he should allow the people from the Zachary family to enter. Many of the masters from the White family were outside and they were in the sky, taking care of the order. Obviously, the members of other forces were not allowed in without permission from Nash and Jack.

On top of that, some of the forces brought quite a number of people with them. They did not only bring those in the true god-level but also those in the semi-god level.

Jack thought about it and said, "Nevermind then, we would be seen as stingy people if we don't allow any of them to come in!"

He looked at the men from the White family who were here to make the report before saying, "How about this? Announce that those forces who went to the Black Windy Island with us are given a twenty pax quota if they are here for a visit as we made a promise previously. The others can stay outside or rest on the empty land at the mountain foot. As for those who did not follow us to the Black Windy Island, such as the Zachary family, they are only given three quotas if they wish to visit us! As for the Hemperly family, twenty of their people are allowed in as they are considered our alliance!"

"Alright, Young Master!" Those young men looked at each other before flying out.

Nash also nodded in satisfaction after he heard what Jack said. The way Jack handled this was extremely well. Not only would they avoid offending the forces that did not follow them to Black Windy Island but those people were also given quotas to enter and take a look at the situation.

As for the forces that followed them to the Black Windy Island, twenty people from each family were allowed to enter. This would give them a sense of superiority and those people would be delighted

because of this.

“Young Master Jack, what about the Pavilion of Divinity and the Pavilion of Soaring Eagles? Only three of their people are allowed to enter if they are here? As for the Skies Pavilion, I don’t think they dare to come!” Titus soon remembered something. He walked up and reminded Jack.

Jack was embarrassed. “I almost forgot about them. The people from the Skies Pavilion would not dare to come as they would be considered suicidal if they come over. As for the Pavilion of Divinity and the Pavilion of Soaring Eagles, they have one stone ball each. We are also waiting for their stone balls as it’s better to study the seven stone balls together. It’s obviously not suitable if they are also given a three pax capacity and I’m afraid that they would be unhappy about it!”

“I think we can give them the capacity of twenty people each. What do you think?” Titus immediately recommended it.

Jack nodded. “Alright. Housekeeper Titus, please assist me in notifying them. It really isn’t a good idea to not treat these two ancient clans the same as the others!”

“Haha... Young Master Jack, you’re too polite! We are a family, nothing is bothersome!” Titus laughed as he flew out toward the entrance of the mountain

He had never imagined that the illegitimate son of the White family that he and his granddaughter, Beth, went searching for would grow so extensively in such a short period of time. Now, even the members of the other ancient clans had to pay attention to Jack’s facial expression when they spoke.

Those young people soon flew out and looked at the master of the Zachary family. “Master Zachary, our young master has given his order. Your people did not follow us to the Black Windy Island nor have any agreement with our young master so you can’t be considered as a friendly alliance. Your people head down the mountain or rest at the plaza over there. However, since you’re here to visit us, we will allow three people to go in and have a look!”

The Fourth Elder, who was standing there to maintain the order also said with a smile." That's right. Since you're only here for a visit, there's no need for too many people to enter. It's quite nice that three of you are allowed to go in. Discuss among yourselves and see which three shall go in!"

## Chapter 1612

After hearing this, the members of the Zachary family were embarrassed while their hearts were filled with regret. If they chose to be friends with the White family and followed them to the Black Windy Island, they would have gotten into the White family's good books. Then they would not be treated differently.

However, the White family was benevolent enough to allow three of their family member to go in and observe. There was nothing they could do even if the White family did not give them face and ask them to leave.

After all, they knew about the strong combat power that was capable of wiping out four families. The most crucial point was that the White family did not suffer any huge losses in that battle.

"Thank you, thank you! We are satisfied that three of our people are allowed to enter!" The hint of a smile soon appeared on Master Zachary's face. He thought about it and said, "How about this? I shall enter with the First Elder and Second Elder. The others can just wait at the empty land at the bottom of the mountain!"

"Yes, family master!" The others immediately led their people and flew away. They knew that their family only had three masters in the peak stage of the true god-level so it was best if the three of them entered together

As the members of the Zachary family prepared to enter the White family, a large group of the Cabello family's members had also rushed over.

When Alejandro saw that the members of the Zachary family had gone down to rest and only three were prepared to go in.

Alejandro also frowned as it looked like only the three of them were allowed to enter.

At this moment, Titus also flew over and informed the Fourth Elder of the situation Jack

Said previously in private before flying in

“Greetings, Master Cabello, it’s been a long time. Haha!” The Fourth Elder laughed as he gestured politely to the other party with his hands.

“We happened to see a weird effect appearing in the sky over here so we came over to take a look. We would like to ask Young Master Jack if they had found something!” Alejandro also gestured politely with his hands. He then asked again. “I wonder if the members of the Cabello family are also given a three pax capacity to go in and take a look?”

“Haha... Master Cabello, the situation is different for your Cabello family as your family is a friendly alliance of ours and you guys have made an agreement with us previously. Our young master had said that a twenty pax capacity is allowed for forces like your family so that you can go in to take a look or study the items.” The Fourth Elder started laughing and said to Alejandro.

“Haha... Alright! Twenty pax... Twenty pax is already a lot!” Kevin started laughing loudly after he heard this. It looked like borrowing the ancient tome to Jack previously was an extremely wise choice. Apart from that, he also helped them greatly during the battle. The members of the White family really knew how to repay one’s kindness with gratitude.

“This is great. Does that mean that we are allowed to go in too?” Daniella, Helena, and the others also smiled happily. If they were only given three quotas like the Zachary family, they would not be given an opportunity to enter with their family members. However, they were given a twenty pax quota. It was enough for them, the Three Golden Flowers, the other elders, and their father to go in together.

“Jack is quite a nice young man.”

## Chapter 1613

Alejandro had a proud expression on his face as he instantly felt that he was one whole level better than the Zacharys. He immediately started picking people to go in with him. After he finished making his choice, he asked the others to rest at the empty space at the bottom of the mountain

The members of the Zachary family were extremely envious when they saw that the Cabello family had a quota of twenty pax.

The members of the Hemperly family also arrived soon. They were also delighted when they learned that twenty of their people were also allowed to enter.

More and more forces arrived. The second or third-class aristocratic families that followed the Hunt family to the Bright Snow Mountain regretted their decision when they found out that they were only given a three pax capacity.

As for those forces that followed the White family to the Black Windy Island, they instantly felt that they were in a much higher position than other forces when they knew that they had a twenty pax capacity

At this moment, many people were standing on a mountain top a distance away and were looking at the situation at the White residence. These were none other than the people from the Skies Pavilion.

“There are five beams of light now. It looks like these lights originated from the stone balls. However, I don’t see anybody flying up toward the beams of light. This means that these beams of light aren’t capable of helping a person to breakthrough to the ultimate god level!” Joel slowly guessed after observing for some time.

Lily, who was beside Joel, said, “There’s one stone ball for each dangerous area. It looks like there will be seven beams of light in the end. It looks like the people from the Pavilion of Divinity and Pavilion of Soaring Eagles aren’t here yet but I think they will arrive soon!”

“Unfortunately, we failed to snatch any of the stone balls. If not, we would be allowed to go and the members of the White family would long for us to take the stone ball out so that we can study together!” Joel curled his hands into fists and said in a bad mood. “This is all because of the people from the Pavilion of Gods and Kings. They are despicable as they secretly went to three of the dangerous areas before everybody else and got three stone balls. If they went to one less dangerous area and left one for us, we would not be in such a passive position right now. We would not be out of options and can only look from far away while others are studying the items inside.”

“That’s right. It would be troublesome if the people inside breakthrough to the ultimate god-level after they successfully finished their research. We don’t have any ways to rush in right now as many of the forces obey Jack’s words. If they are researching the stone balls together at this moment, the forces who own the stone ball would definitely stand at the same front. If we dare rush in right now, they would definitely work together to kill us!” An old man from the Skies Pavilion said with a helpless expression on his face.

In the woods on top of the other mountain, the members of the Hall of Divine Royal had also arrived as they looked forward from far away

“Hall master, it looks like there are already five stone balls. If that’s the case, there shall be two other balls and seven beams of lights shall appear!” Elder Moseley looked forward and said after he thought about it. “Should we send somebody to linger among the other forces and see if we can learn of any news?”

“We shall wait here and see how it goes. The others are outside and they also do not know what’s the situation inside is like too. We shall stay here and see how it goes!” Matthew thought about it and finally decided

At this moment, a group of people could be seen flying toward the White residence from far away

“The members of the Pavilion of Divinity are here!” Some people exclaimed after they took a closer look.No. 1 Supreme Warrior

Chapter 1614-1616

## Chapter 1614

The members of the Pavilion of Divinity immediately asked about the situation inside after they arrived. However, they obviously would not get any news from the Fourth Elder.

In the end, the members of the Pavilion of Divinity also found a place to rest. As for their pavilion master, she and nineteen other masters with high fighting prowess went walking slowly toward a hall in front of them.

“What’s the situation now?” The pavilion master of the Pavilion of Divinity immediately asked after she took a look at what was going on and her eyes were filled with expectation.

“Haha... We’ve been looking at it for some time but we did not realise anything. We touched these beams of light with our hands and they are just usual beams of light. We can’t raise our fighting prowess through these beams of lights.” Harry laughed and said to the pavilion master of the Pavilion of Divinity, Aureole.

Jack, on the other hand, said, “We’re waiting for you now and we would like to know if anything else would happen after all seven stone balls light up. Apart from you guys, we are waiting for the members of the Pavilion of Soaring Eagles too!”

“How did the light come out from the stone balls?” Aureole did not hesitate and asked curiously after she took a look at these stone balls.

Jack and the others soon informed them about the specific steps. A beam of light soon appeared in the line of sight of everybody present.

“There are six beams of light now. Did you guys discover that there was some slight fluctuation in these beams of lights and they are different now!” Soon, somebody discovered some abnormality and immediately said.

“Yes, if we don’t look carefully, we won’t realize the fluctuation. I wonder if bigger changes will happen

after the last stone ball lights up!" Nash was also extremely excited. Since there were already some reactions after the beam of light appeared from

The sixth stone ball, everybody started to look forward to the arrival of the last stone ball.

"The pavilion master of the Pavilion of Soaring Eagles arrives with the members of their ancient clan!" Just as everybody was looking forward to it, the voice of a man from the White family could be heard at the entrance.

Soon, under the expecting eyes of the crowd, Griffen slowly walked in with nineteen masters from their ancient clan.

"I discovered that there seems to be something weird about the light beams here when I was at the entrance just now. There seems to be some fluctuation? Did you guys manage to study anything? I originally planned to go to the Pavilion of Gods and Kings to research the stone ball. However, before the agreed time arrived, I saw the beams of light appearing in the direction of the White family and there were even two of them. Hence, we rushed over!" Griffen immediately asked the crowd after he entered

"Haha... What we realized is what you're seeing right now. We're waiting for you to take out the stone ball that belongs to your Pavilion of Soaring Eagles now!" Harry laughed heartily.

"How did this light emerge?! You guys are really good. We've been studying it for so many days but we failed to get any clue!" Griffen started smiling bitterly.

"Haha... This is all thanks to Young Master White and Young Master Hemperly. They are the ones who discovered this!" Harry laughed before telling Griffen the steps in detail.

Griffen immediately took out his stone ball and placed it beside the other balls. He then activated his Chi and started proactively injecting his Chi into the stone ball he obtained.

As time passed, everybody grew increasingly nervous.

The reason being, something different had happened after the sixth beam of lights appeared. They had no idea what the situation would be after the last beam of light appeared and if something different would happen.

#### Chapter 1615

“Hopefully...hopefully, there shall be some sort of hint that allows us to directly breakthrough into the ultimate god level!” Even the pavilion master of the Pavilion of Divinity could not help but curled her fists tightly. As a superior pavilion master of an ancient clan, she had always been resolute no matter how serious the matter was. However, she was really nervous this time.

Hum!

Finally, another beam of light appeared and all seven beams of lights of different colors looked extremely beautiful as they rushed into the sky.

“There are seven beams, seven beams!” Many people outside the hall witnessed the scene. Those who were resting on the floor immediately stood up. Although they had no idea what was happening inside the hall, their hearts were filled with either anticipation or speculation

“There are seven beams of light!” On the faraway mountain top, the members from both the Skies Pavilion and Hall of Divine Royal felt a tug in their hearts. However, nobody dared make a move as they had no idea what the situation inside

Was.

“There are seven beams of light and the fluctuation is so much stronger. However, it seems like nothing special is happening?” In the large meeting hall, everybody stared at the seven stone balls in front of them. It was as if they were afraid that some precious item would be released from the stone balls the next second and somebody shall snatch it away if they were distracted for a split second.

Hum!

The beams of lights hummed and in the end, gathered together.

“What’s happening?” At this moment, the First Elder of the Cabello family felt a strong absorptivity pulling on the martial ring he had on his finger.

“These lights seem to be interested in my martial ring?” Kevin looked at his martial ring and he could clearly feel that the absorptivity grew increasingly stronger. He was also extremely nervous at that moment and did not know what to do.

“There seems to be nothing special with this martial ring of yours? Why is it attracted to your martial ring?” Alejandro frowned as he was equally puzzled.

“Take off your martial ring now and maybe walk toward the absorptive force? Or there might be some item in your martial ring that these seven stone balls are attracted to. Why don’t you take out all the items inside the martial ring?” Jack thought about it before suggesting it to Kevin.

“Alright!” Kevin was extremely nervous as the unknown was fearful and he had no idea what would happen next.

He immediately changed his thoughts and sent all the items in his martial ring flying out after he finished speaking.

The next moment, all the other items fell to the ground and the martial ring was no longer absorbed by the weird power. Only the ancient tome flew up and went straight into the beam of lights.

“It’s that ancient tome!” Kevin inhaled deeply after he took a look. All this while, he had always felt that

this ancient tome had something to do with breaking through to the ultimate god-level as it recorded so many high-level pills, pill remedies, spirited grass, and others that were unheard of. Hence, he had always treated it like a precious item.

In the end, he discovered that the clues to breaking through into the ultimate god-level had nothing to do with the ancient tome. Instead, it was those seven stone balls discovered in the Seven Dangers that were related to it.

However, he was surprised to discover that the ancient tome was still not a simple item as it was still greatly connected to the ultimate god level.

#### Chapter 1616

“It’s that ancient tome!” Jack was just as taken aback when he saw the situation. He had also read the tome, and though he merely spent a few days on it, there was nothing special about the tome apart from some spirited grass among others.

Unexpectedly, after researching these seven stone balls for such a long period, the beams of light these seven stone balls released were able to attract this ancient tome.

Everyone was shocked as the ancient tome was absorbed in.

It flew on top of the beams of light and remained floating there.

Soon, golden light shone on the ancient tome.

Gulp!

The surrounding people became quiet, so much so that the sounds of people gulping could be heard. It was horrifyingly quiet.

Everybody wondered if something was to happen the next second.

Soon, the beams disappeared without a hint. All seven stone balls once again restored their normal state as the ancient tome fell to the ground.

Whoosh!

The pavilion master of the Pavilion of Soaring Eagles was the fastest. He rushed forward in a flash and picked up the ancient tome.

Whoosh! Whoosh! Whoosh!

Members of the other forces immediately surrounded him, afraid of him running away.

Griffen smiled embarrassingly when he realized what happened. "Fear not, everyone. I just want to take a look and see if there are any changes on this tome."

"Haha! This ancient tome belongs to me, Master Griffen. Why should you be so anxious when I'm not even in a hurry?" Kevin smiled coldly as he continued, "There are many masters from different families here. Do you think that members of your Pavilion of Soaring Eagles can escape after you take this item? You and your people might be able to run if this happened long ago, escaping with your fastest speed, but it'd be all too easy if Young Master Jack wants to kill you now, right?"

No one was foolish, and they knew Griffen had not gotten used to the current situation. He still thought that the four ancient clans were still highabove, so he wanted to take the ancient tome and see if it was some sort of martial art technique. If it was a martial art technique, there was a possibility that this guy might immediately fight his way out with the 19 other people from his ancient clan.

Unfortunately, things have changed from before.

Griffen smiled again before opening the ancient tome." Come over... Come, come... Let's study it together."

Jack, Kevin, and the others exchanged looks before they gathered forward.

"All seven beams of light have disappeared. Hall Master, we have no idea what the situation is like right now. Shall we rush in to take a look?" suggested an old man from the Hall of Divine Royal to Matthew after all seven beams of light disappeared. "If there are some precious items..."

The corners of Matthew's mouth twitched a couple times after he heard this. He wanted to rush in badly, but there were so many masters from the mainland there. It was like signing his death warrant even if more people came, let alone his own men there.No. 1 Supreme Warrior

Chapter 1617-1619

Chapter 1617

Matthew balled his fists and reluctantly replied, "Let's wait and see. We'd be crazy if we rushed in now. Let's see what the situation is like later on."

Similarly, Joel and the rest from Skies Pavilion were also puzzled as they had no idea what was happening inside. However, they could only wait on standby

On the other hand, Jack and the others stared at the ancient tome as they started reading it.

"The pill remedies and information about the pills have disappeared!" After flipping through several pages of the ancient tome, a surprised expression was written all over Kevin's face. He then continued to say, "What's written on it?"

Everybody started looking at it together, and all of them looked surprised after they inspected it.

“Dear me... It’s recorded in this tome that there were a lot of Chi on this earth many years ago, and many had broken through to the ultimate god-level. There was even another fighting prowess level and is known as the soul-penetrating level. Both the ultimate god and soul penetrating level is divided into nine grades, from the first to the ninth grade!”

“On top of that, the people in the ultimate god-level can live up to two hundred years while the person in the soul-penetrating level can live up to five hundred years!” Kevin inhaled deeply when he read this and was deeply astounded.

“My god... The ultimate godlevel should be quite terrifying! What sort of existence would the soul-penetration level be? Apart from that, a person who’s in the soul-penetration level can live for five hundred years. Oh my goodness, five hundred years!” An old man with white hair from the Lancaster family was so excited that his eyes turned red. If he was given the opportunity to reach the ultimate god-level or achieve the soul-penetration level, he could live for at least 400 years. The thought of it filled him with hope.

He was already 70, and if he failed to break through, death was the only ending left for him despite being in good health. He would not be able to live long,

After he sighed with excitement, he immediately said to Jack and the others, Bosses, please take a look quickly and see what’s written behind. Are there any other fighting prowess?”

Jack smiled bitterly before he continued to flip the tome. After looking at it for a while, he said, “I think the Chi on this earth must’ve been several times more in the past compared to how it is currently. From the records, many have entered the soul-penetration level, but to break through into the soul-penetration level, a person needs a lot of Chi. They need third-grade pills or fourth-grade spiritual grass to provide enough Chi to help them break through into the level!”

“If that’s the case, our earth had third and fourth-grade spirited grass many years ago. There must also be quite a lot of such items. Otherwise, how could so many people break through into the soul-penetration level?” gushed the old man at Jack’s explanation

The sacred lady of the Pavilion of Divinity, Melody Lawson, also frowned and asked curiously, "However, where are those masters from years ago? Have all of them passed away? Why can't we even see third-grade spirited grass, let alone fourth grade spirited grass? If those who were at the soul-penetration level had already died after their time was up, does this mean that this was five hundred years or maybe longer ago?"

"Yes. Due to some unknown reason, the Chi of this earth had thinned out, and it's unknown where those so-called masters went." Jack wore a solemn expression

"What about behind? Is anything written behind?" urged the curious Titus at Jack and the others. All of them wanted to know what happened. Where did those previous masters go? Would they still have the opportunity to break through into the ultimate god level? Jack once again took a look and said, "The records here said that our people were abandoned by others for unknown reasons. Those masters who had broken through into the so-called soul-penetrating realm disappeared within a short period. However, some people saw that some of the masters in the soul-penetrating level went toward the direction of Misty Forest."

## Chapter 1618

"Misty Forest?" Many people were baffled when they heard the term. Misty Forest was an extremely special place, and though it was not extremely dangerous, many people failed to come out after entering the forest. The deeper they walked into the forest, the more difficult it was to escape.

More importantly, flying was impossible after arriving at the deeper parts of Misty Forest. The gravitational force in the area was obviously different from the outside world.

As his expression faltered and darkened, he turned to Jack and confessed, "Lance and the others went to Misty Forest."

He still had complicated feelings toward Lance. After all, what Lily did made him shameful, and he had also punished Lily

Unexpectedly, Lily still remained impenitent and worked together with the Lagorio family to go against the White family. This was the reason the Lagorio family no longer existed

However, Lance had no idea about what happened before, and he did not know the whole story, thus Nash did not hate Lance.

Of course, Lance and those from other families had completely disappeared after they went to Misty Forest. There was a high possibility that they had long died inside.

He did not expect that the final destination these seven stone balls pointed to was Misty Forest.

Harry, from the Pavilion of Gods and Kings, then recommended, "If we're truly out of options, let's just chop off all the trees in the forest. Also, there are so many of us here, and it shouldn't be an issue for us to go in and take a look together!"

Nash smiled bitterly and immediately disproved Harry's idea, "I'm afraid that won't work. Everybody knows that the trees in Misty Forest are ancient and extremely huge. It isn't so easy to chop off any of the trees. The most crucial point is that this forest is huge, and even if the people from our forces enter the forest, it'd be like throwing a stone into the sea. You wouldn't know how long you'd need to chop the trees."

"The most crucial point isn't those trees from Misty Forest-it 's the mist. The deeper you go, the more difficult it'll be to walk into the area. If you accidentally lose your way, you won't get out." Titus also started frowning and a darkened expression appeared on his face.

As a thought occurred to him, Paul said to Jack and the others, "Let's take a look at the back part, shall we? Aren't there a couple more pages in this tome? Is there anything else written there?"

Jack also continued to flip the ancient tome. He inhaled deeply before he spoke again, "It 's said here that an absolute genius appeared here and had the martial art technique for training left from his father. He led many people in breaking through into the ultimate god level, and there were even people who

broke through into the soul-penetration level. In the end, he collected all seven stone balls according to the clues his father left him, and he found the entrance to the sacred grounds according to the beams the stone ball released...”

Aureole grew ecstatic at what she heard. “This is great. It looks like the masters in the past were forced to leave this place and headed to a place known as the sacred grounds together for some unknown reason. This sacred ground must be where those masters went, and it’s definitely much better than this place. I mean, why else would they want to go to that place?”

## Chapter 1619

“Yes, and it looks like one of the masters secretly stayed behind to train the martial art technique for the sake of his son, and he even told his son how to get to that place. He just didn’t expect his son to lead many people there. No matter what it is, we also have hopes of going there now that we have this news and these seven stone balls!” Nash nodded, and the excitement in his eyes could not be hidden.

“Everybody, please take back your stone balls for safekeeping!” Jack immediately said after he realized the importance of the stone ball, and the forces who owned the stone ball retrieved theirs.

Jack once again looked at the records at the back of the book and said, “Nothing much is recorded in the back of the ancient tome. A map with the directions to Misty Forest is drawn there, and the approximate course is there. With these directions, it shouldn’t be an issue if we follow it.”

“Haha! This is great! When shall we depart? Let’s go now! After all, I’ve already brought all the members of my family who are in the semi-god level. Why don’t we go now since all the larger forces are here?” The family master of one of the second-class aristocratic families, who made an agreement with Jack and the others, wanted to depart immediately in his haste.

“That’s too sudden. Apart from that, there are many forces or casual trainers who rushed here to be onlookers,” reasoned Jack. “Apart from that, members of the Skies Pavilion must be hiding somewhere out there and want to look at the situation here. After all, the people present aren’t the only ones who saw those beams of light!”

“We’ll listen to your suggestion then, Young Master Jack. Apart from that, we believe that you won’t leave us and ignore us. Please tell us what to do, and we’ll follow your instructions,” responded the family master from a second-class aristocratic family profoundly.

After all, they followed the White family to Black Windy Island previously, and Jack made a pact with everybody before they entered the island.

From what they saw, Jack was a very reliable person as he allowed them to enter, observe, and analyze things together. He even gave them a 20 pax capacity each, and this proved that Jack was a person who kept his promise.

“Yes, Young Master Jack. Give us your order, and we’ll listen to you!” All members of the third-class aristocratic families looked at Jack as their leaders. This caused the members of all three ancient clans present to glower in embarrassment.

“How about this: Everything has happened so suddenly, and I’m also in a hurry to take a look at the so-called sacred place. After we go out, let’s not talk about the situation here and just say that we didn’t discover anything. The casual trainers and the onlookers shall leave by then.

“Leave with your brethren after getting out, and upon returning home, discuss among your people to see how many people should be brought and how the matters at home should be arranged. Remember to say goodbye to your family members; nobody knows what’ll happen once we get there. Nobody knows if we’re able to break through into the ultimate god level, right? We’ll depart one week later and gather outside Misty Forest before entering the forest together,” suggested Jack to the crowd.

“Alright, it’s decided then. Let’s all go back, and we’ll all depart one week later. Let’s all wait outside of the forest and enter Misty Forest together once everybody has arrived. We’ll follow the directions on the map and head for the sacred grounds!” Harry nodded as he spoke, and everybody else also agreed to it.

## Chapter 1620

Since Harry said this, Aureole and Griffen naturally made no comments and agreed altogether.

Soon, the masters in the hall walked outside one after another.

Those who waited outside had waited from earlier on, and all of them wanted to know what had happened inside. They even wanted to know if anybody had broken through into the ultimate god-level or found clues about the ultimate god-level.

“Pavilion master, how did it go? How was it? Have you guys broken through?”

“Pavilion master, have you received news about the ultimate god-level? Were there any useful clues? I see that all of you have smiles on your faces, so there must be some good news, yes?”

Members of the Pavilion of Kings and Gods who did not follow them inside immediately walked forward and asked with anticipation when they saw their members coming out.

“Family master, how did it go?” Members of the Cabello family also went forward in excitement as anticipation filled their eyes.

Alejandro looked at the crowd and said, “Nothing has come out from the research. Let’s talk more when we go back.”

“What? You’ve learned nothing, even after all that?!” Members of the Cabello family felt dejected after they heard this. If they failed to learn anything after putting all seven stone balls together for research, it would be even more difficult in the future to learn anything

“Come on, let’s return for now.” Alejandro looked far away and noticed a few forces who came to take a look after they saw the heteromorphism where they were. Jack was right: It was best that they try to

keep a low-profile about what happened. They should leave this place and make arrangements on the number of people back home. One week should be enough to make the necessary arrangements.

Paul thought about it and said to Darcy, "Father, you guys can go back to make the arrangements first. I'll continue to stay at the White family with our three elders, and I'll follow Young Master Jack over later on. We can't return with you as I'm afraid that the forces that don't have the stone ball, like the Skies Pavilion and others, would think of a plan to get ours. It's better to be careful. They won't cause us trouble if they know I'm still at the White family with our three elders!"

"You're right. It's best if you and the elders don't go back. We'll be taking our leave, then!" Darcy nodded and soon left with his people.

Members of the other ancient clans and families soon left v their people. Some family members even purposely shook their heads and sighed loudly while saying that they failed to realize anything. It was as if they not hear them.

At that moment, Joel and the

Others who had been waiting for some time on the opposite mountain started frowning.

"I wonder what the situation is like. Why are these people starting to leave?" Lily was somewhat worried as she looked in front of them. She was afraid that somebody from the White family had already broken through to the ultimate godlevel.

"Be patient. I've already sent a couple of people pretending to be casual trainers there. They'll return in a short while." Joel was just as terribly anxious, but there was nothing else they could do. They could only wait quietly.

After some time, a couple of people flew back.

“How was it? Are there any clues? What did they say?” everybody asked with anticipation after they saw those people returning.

## Chapter 1621

One of the men smiled bitterly and said, “Pavilion master,” he chuckled, “I have some good news! Good news!”

“Good news?” Joel immediately frowned and pestered, “Tell me about it!”

“Haha! They failed to learn anything. I saw some of them looking very dejected,” spoke the man, his joy evident in his tone. “I think that those seven stone balls are useless, and it’s possible that it has nothing to do with breaking through into the ultimate god-level. Everybody was just wasting their time doing nothing!”

“This means that nobody broke through to the ultimate god level, yes? Well, this is indeed good news!” Joel was slightly relaxed.

However, he was slightly disappointed when he thought about how there seemed no chances of breaking through into the ultimate god-level. Would that not mean they would not have any more opportunities, too?

Was the ultimate god-level nonexistent?

One of the elders smiled bitterly and said, “Let’s go, Pavilion master. Look at the other forces; they’ve started to leave. I think it’s best if we return to our ancient clan as we’ve wasted our time waiting here. Of course, it’s good that nobody broke through to the ultimate god-level. We’d be in great trouble if any of the White family’s members broke through into the ultimate god level and came causing trouble to our Cloud Sky Sect!”

Lily, however, frowned at the news as she stood beside them. She thought about it and said, "This doesn't seem right; I have a bad feeling about it. Is it true that everybody seemed dejected at that moment?"

The men then started to ponder on it.

After some time, the previous man said, "That doesn't seem to be the case. Although many of the family masters and others sighed, they didn't seem extremely dejected. Some of the elders were even smiling!"

Lily immediately scoffed. "Hmph! I don't think they didn't learn anything. They must've learned something and pretended to say that they didn't."

"Pretended that they learned nothing? Are you saying that they purposely said that they didn't receive any information when they did?" Joel inhaled deeply when he heard this and looked surprised

"Think about it "Would they say anything if they truly received any good news? Definitely not, and they'd certainly keep it a secret. After all, there are quite a number of casual trainers, unknown or third-class aristocratic families outside who rushed over from nearby areas. It's even possible that they anticipated our arrival." Lily started to make her assumption. "After all, we can also see the beams of light, and it's quite normal for us to rush over, so they're definitely lying. If there truly isn't any useful news, every one of them should've been disappointed as some things can't be hidden, especially when there are so many people there. Hmph! How many people do they think they can lie to?"

"Honey, what you said makes so much sense!" Joel also felt that there was a high possibility of it. He thought about it and asked Lily again, "What should we do, then? We can't do anything if these guys don't say a word!"

"This is simple. Some third-class aristocratic families also sent people in, and quite a number of them have entered. How about this: Now that they're leaving, we just need to single out a considerably weaker family on their way and ask them what's going on." A calculative gleam flashed through Lily's eyes as she tightened her fists. "Kill a couple of their people. We'll surely get something then."

“That’s very smart! Seems like bringing you with me is a wise choice after all, Honey!” Joel laughed. After taking a look, he aimed at the direction where a smaller family flew away. He then led the members of the Cloud Sky Sect and secretly followed them from the other direction.

## Chapter 1622

Meanwhile, Elder Mosley from the Hall of Divine Royal also discovered the problem. They soon secretly followed another small third-class aristocratic family after they had an internal discussion.

After flying for half a day, members of the previous third-class aristocratic family were stopped by Joel and the others.

“Master Joel, what...what a coincidence! It’s such a coincidence to bump into you at such a place, no?” The people from this third-class aristocratic family faltered when they noticed a large number of members from the Cloud Sky Sect in front of them. They were extremely nervous; they were here for nefarious intentions. Why else would they encounter them in such a desolate area?

“Haha... It truly is a coincidence!” spoke the laughing Joel as he sized them up. “Master West, I won’t beat around the bushes and get straight to the point. You guys have just come out from the White family, and we’ve followed you all the way. Speak up, cause I know that quite a few of you have entered. Tell me about the situation inside.”

The family master of the West family immediately had a slightly darkened expression on his face after he heard this. He was silent for a couple of seconds before he smilingly replied, “Master Joel, it’s true that we went to the White family. They allowed twenty of us to enter because of our previous agreement!”

Joel was slightly stunned and asked with a frown, “Agreement? What agreement?”

“Before we went to Black Windy Island, aristocratic families like us made an agreement with the young

master of the White family to work together when entering Black Windy Island so that we could reduce our casualties. As for the stone ball, no matter who obtained the item, the other forces can't fight over it once it was stored in a person's martial ring..." The family master of the West family could only tell Joel the more insignificant details to dissolve his suspicion.

"I see. No wonder none of you suffer huge losses after going to Black Windy Island and not many of the White family members died. However, many of the members from my ancient clan and the Hunt family who went to Bright Snow Mountain perished. Turns out that there was such an agreement!" Joel finally realized what had happened. He then said with a smile, "Then can you tell us what you saw after you entered the White family's hall just now? Did you guys learn anything?"

Master West immediately said. "Master Joel, we did enter the hall with them, but I believe you also saw what happened. There were seven beams of light following the arrival of the seven stone balls. However, we discovered that the beams did nothing after they joined together, and it didn't help anybody in breaking through into the ultimate god-level. Everybody studied the beams of light for some time but still found nothing. That's why we can only go back to our respective homes."

"That's right, Master Joel. We were looking forward to it. All of us thought that a person's fighting prowess can be elevated and that a person could break through into the ultimate god level after those seven beams of light joined together. In the end, it was all for naught and we just expected too much," another elder from the West family immediately assented from the side.

They were not stupid. If they said nothing, the other party would surely distrust them. If they said something irrelevant, however, the other party might believe in what they said.

"Is it true? You guys learned nothing after spending so much time on it?" Joel observed these two people closely, and he obviously questioned the reliability of what they said.

"It's true, Pavilion Master Collins! Where would we have the guts to lie to you? Your Cloud Sky Sect is one of the four ancient clans, and we don't have the guts to lie to you!" spoke the family master of the West family, nodding as he did.

"Hmph. You could be lying!" Lily, who was at the side, scoffed and glanced at Joel.

Joel immediately caught what Lily meant. He grabbed the elder by his neck and held him up. The Chi on his hands surged. "Be honest, or I'll kill you if you don't tell me the truth!"

"It... It's true, Pavilion Master Collins! They really didn't learn anything, and we don't know how to break through to the ultimate god-level!"

## Chapter 1623

Startled at Joel's behavior, master west insisted on their stance at the thought of how kind Jack was to him and the others.

Joel was not one to be fooled easily, however. He snapped the elder's neck simply by tightening his grip.

Snap!

"Fifth Elder!" Many were furious when they saw this situation and some clenched their fists tightly, but they knew they did not have as many people compared to Joel and his men. They did not even have a master in the peak stage of the true god-level.

The only person with the highest fighting prowess among them was the family master in the final stage of the true god-level. How could they fight off the people from the Cloud Sky Sect?

"Hmph! You don't want to tell me?" Joel ignored the burning gazes sent in his direction as he lifted an old woman by her neck and raised her from the ground. "Tell us what you learned inside honestly. If you don't speak up, she'll be the next one to die!"

"Grandmother!" A young lady was anxious as her eyes reddened.

“W...We’re not lying to you!” spat Master West through gritted teeth.

“Hmph!” scoffed Joel as he tightened his grip and killed the old lady. “You truly are capable of retaining your composure, Master West. Then, the next one shall be him!”

Joel flickered and raised a young man in the blink of an eye. The man was none other than the son of the West family master.

Joel was inwardly unsure if the West family was lying to him, but he still planned to test them even if he killed the wrong people.

As expected, Master West eventually conceded as he gritted his teeth, “Let go of my son, and I’ll tell you what happened!”

Pleased at the confession, Joel placed the young man back on the ground with his hands still gripping his neck. “Speak up, and your son won’t die if you’re honest. Of course, if you lie, not only will I kill your son, but everybody here will die, too!”

The corners of Master West’s mouth twitched several times before he confessed, “The ultimate god-level exists.”

“It does exist. Go on, continue. How can a person breakthrough into the ultimate god-level? Has anyone among them broken through? Did they obtain anything like a martial art technique or other items?” Joel was extremely delighted, and his eyes were filled with anticipation. He would have let the Wests leave had Lily reminded him.

Unexpectedly, he obtained the information he wanted after he acted craftly.

“Nobody broke through into the ultimate god level, but there are some clues. There were many masters in the ultimate god-level long ago, but they’ve gone into Misty Forest.”

“We made arrangements to gather outside Misty Forest one week later, and we’ll enter Misty Forest together by then,” grumbled Master West through gritted teeth.

## Chapter 1624

“To Misty Forest one week later?” Joel was pleased with the news he discovered-excited, even. It seemed that visiting Misty Forest would give one hope of breaking through into the ultimate god-level, and it seemed to be a great opportunity for him and the others.

Master West looked at Joel and pleaded, “Master Joel, I’ve already told you everything I know. Can you release my son and let us go?”

Joel thought about it and released the young man from his grip before he said, “You guys can forget what happened today. Jack and the others won’t know that you were the ones who informed us about the situation. You guys won’t suffer any losses if that’s the case!”

Joel paused here before he continued, “Of course, I won’t suffer anything if you spill. On the contrary, the White family or the other ancient clans would think of you as a traitor, that you ratted them out. None of them will forgive you and your West family!”

Lily, who stood beside them, thought about it and said to Joel, “Honey, I think we should take several of their people with us to prevent them from acting dishonestly. It’d be better if we capture several people back as hostages.”

“You said you’d...let us go after we told you about what happened!” Master West was enraged, never thinking that they would be so despicable. Not only did they kill two of the West family’s members, but they changed their minds so quickly as well.

“Haha! That was then, and this is now!” Joel laughed out loudly and ordered, “Capture five of their people: the young master of Master West and several other elders!”

“That’s unacceptable, Honey!” Lily immediately persuaded, “Won’t it be easy for the people from the White family to find out what we did if you capture their young master and their elders? After all, won’t it look problematic if the West family members didn’t bring their young master and their elders to a place like Misty Forest?”

Only then did it dawn on Joel. “You’re right. Ah, my wife is still the smart one. How about this: let’s capture several of their patronums or grandsons of some elders. That’ll work, right?”

Lily nodded. “That’s more like it!”

Although the members of the West family were extremely unwilling to comply, Joel and the rest took several of their people as hostages.

“Haha! Thank you for your cooperation, Master West. It’s very simple: All you guys need to do is just think of a way to leave some markings for our people who’ll follow after you. If not, these people from your West family will die!” Joel and the others laughed loudly before they left.

Master West was so angry when he saw the two bodies on the ground that his voice slightly trembled, “I never expected the people from the Cloud Sky Sect to be so despicable to do something like this!”

“Sigh! We can only blame ourselves for being unlucky. Now that they’re holding our people as hostages, we can’t tell anybody about this. Otherwise, the Cabello family, White family, or any of the people from the three other ancient clans would be capable of getting rid of them with a wave of their hands!”

Chapter 1625

An elder sighed and lamented their fate.

“We’ll remember these hateful actions of theirs. We’ll avenge our people when we have the opportunity to breakthrough into the ultimate god-level or become a master!” growled Master West’s son through gritted teeth.

Master West nodded, but he then muttered, “ Yes, but there’s nothing else we can do right now apart from obeying their orders.”

“Father, how many people should we bring with us to Misty Forest a couple of days from now?” asked the son of Master West. “The forest will get more difficult to come out of the deeper we go. It’s difficult to travel both in and out of that place, and we also have no idea where those masters from years ago went to in the end. Won’t it be dangerous if we go with them? Everything is unknown!”

“You’re right, but the temptation of the ultimate god-level is really strong, and we should try our best to send more people there. Still, I think it’s best if we leave a few people in the true god-level here as it’s too dangerous. We should encourage those in the elementary and intermediate stages of the demi god-level to not go with us, but if they insist, it’ll be up to them. Of course, no one can confirm that they’d be coming back home from this trip.”

Master West said purposefully after he was quiet for some time. “After all, the ancient tome recorded that none of those masters returned after they went there, and it’s unknown why that’s so. It’s possible that there’s a place where there’s more Chi compared to this place, and nobody is willing to return.”

“Alright, let’s go back and talk about it some more.”

With that, members of the West family left and headed back home.

Meanwhile, at the White family...

Jack had already returned to his room.

Selena walked toward him and grabbed his hands, saying, "Honey, I've learned about the situation. I have to go with you this time!"

"Sigh... We're not sure about the situation over there, and it might be extremely dangerous. To be honest, I don't really wish for you to risk everything with me!"

Jack sighed before he continued, "Mother, Grandfather, your grandparents, and Kylie can't go with us as their fighting prowess is too low, especially Kylie. She's still too young. Have you made up your mind?"

"I've already made up my mind. I couldn't accompany you during your previous adventures because I was afraid I'd trouble you with my low fighting prowess. I've been training hard, and I'm already in the intermediate stage of the demi god-level. Yes, it's not that high, but it's nowhere pitiable either, so I have to go with you!"

Selena had a persistent expression on her face. "On top of that, so many experts never returned after they went there, and I'm afraid you'd find it hard to return from there, so I...must go with you! No matter how things will be after we go there, I'll follow you. I'm not afraid, even though this journey might cost me my life."

Jack was incredibly moved when he heard Selena's proclamation. "Alright, let's go together this time, and I believe we'll return. After all, Fernando is still waiting for me to rescue him. I originally wanted to leave after half a month. You'd have more time to accompany your parents and our daughter. After all, our future is uncertain this time, and I have no idea how it'll be, but Fernando didn't leave us much time."

"Yes, I understand. I saw that you've been spending your free time cultivating second grade premium pills recently. How is it going? Did you break-through?" Selena also smiled when she saw that Jack had agreed to it. She also knew that if she had not been training hard and was quite talented, Jack would not have brought her along with her newfound fighting prowess.

“There’s been some improvement, but I still haven’t succeeded in cultivating the pill,” replied Jack with a tight-lipped smile. “I don’t plan to cultivate pills for the next few days so I can accompany Kylie and the others, but I’ll resume it whenever I can and will try my best to become a third or even fourth-grade alchemist as soon as possible.”

The next few days, both Jack and Selena accompanied Kylie, Joan, and the others to stroll in the nearby town in their spare time.

As for Ben, he had no choice but to stay back as he had not broken through into the semi stage of god level. On the other hand, Fiona and the others also required his company. As for Elaine, Jack asked her to stay back and guard the White family because Ben remained.

They had also arranged for some people with higher fighting prowess to go to Misty Forest with them.

To be on the safer side, Jack left two to three members in the final stage of the true god-level to protect the White family.

Several days later, Jack and the others finally started their journey when they noticed that it was almost time.

Almost 20,000 people went with them, and they were at least in the intermediate or final stages of the demi god-level.

These 20,000 people segregated and either went up on Jack’s, Nash’s, or Kenneth’s flying sword as they journeyed to Misty Forest.

Jack and the others were able to see Misty Forest from afar the next morning, and the forest before them looked much like a boundless sea with no end in sight.

“Oh my... This is the first time I’ve seen such a huge sea of forest. It looks so beautiful with the wind drifting through!” Selena’s eyes twinkled faintly at the sight.

“Yes, the area before us is so dreamlike, blanketed in mist, but it’ll be easier to get lost in the woods the deeper a person goes with this strange mist around. The deeper we go, there’s even another mist that’s pink in color. We dare not enter that area as we can’t fly in that area. It’s a maze in there, and it’ll drain the energy out of you to just get out.” Titus explained.

“Young Master Lance and the others didn’t come out after they came to this forest, and I’m afraid that they’ve died inside. The people we sent to search for them previously dared not enter the area and could only search at some of the places out here.”

Nash, hearing this recount, sighed. “Lance and the others must’ve been curious about this forest, that they entered by mistake and not knowing the area well. Sigh... It’s been such a long time-everyone must’ve perished already.”

Jack thought about it and asked Nash, “Father, what if... What if they didn’t die? What if Lance is still alive? Do you think that he’d hate you? Would he accept me?”

His question stunned Nash momentarily before a bitter smile graced his face. “That’s highly unlikely. There are quite a number of monster beasts in this Misty Forest, and everybody needs to be careful. Lance had always had a good relationship with his mother. If he’s still alive, I think it’d be hard for him to accept everything that has happened. Of course, there’s a possibility that he had no idea about what his mother had done. Things might be different if he knew about it.”

“Alright.” Jack nodded, and the group continued to fly forward.

Meanwhile, a family master of a second-class aristocratic family chuckled in excitement as they stood on a plot of empty land outside the forest. “All we need is to wait for the members of the White family. Our people have been here since yesterday. Haha... We can hardly wait!”

Another family master from a third-class aristocratic family even said, "I've been here since two days ago! We're the earliest one to be here!"

Alejandro smiled bitterly after he heard this. "You people are afraid that forces with the stone balls would arrive earlier and go in without waiting for you guys, aren't you? All of you are here so much earlier than planned!"

"Haha... That's not the case, Master Cabello. The main thing is that the scenery here is also quite nice, and it seems like a great idea to come earlier so we get to enjoy the scenery. Apart from that, we can benefit from this trip and breakthrough to the ultimate god-level or higher realms if we're lucky. On the contrary, we might die inside if we're unlucky. Nonetheless, it's not going to be easy if we wish to come back! Let's just enjoy this sky and land while we can."

## Chapter 1627

The family master of the third-class aristocratic family smiled embarrassingly.

"I can't wait any longer. Why are the members of the White family so slow? Shall we go forward and take a look? Could something have happened?" Harry from the Divine King Sect started to worry.

After all, he knew that forces like the Hall of Divine Royal and Cloud Sky Sect were not people to be offended, especially his junior brother. Although he ran away after Jack defeated him, he would not give up so easily.

When everybody came out, they clearly stated that they did not discover any news about breaking through into the ultimate god-level. However, if the other party suspected something throughout these few days, there was a possibility that they might be able to discover hints.

"Don't worry, everything should be fine. Even if somebody wants to snatch the stone balls, they'd choose the people from our three ancient clans and not the White family. With Jack's combat power, they just can't take the stone ball from him!" Shelby smiled indifferently as she looked forward in

anticipation.

Moments later, the crowd spotted a group of people flying toward them from afar. "They're here!"

"It's Jack, Paul, and the others. They're here! We're only waiting for their stone balls!" gushed the members of the Lucas Family.

"Master, it's young master and the others!" One of the patronus from the Hemperly family was just as elated when he spotted Paul and the others. Everything resumed to its original position once more.

"I'm sorry for making all of you wait." As they stopped their flying swords mid-air, Jack and the others gestured politely with their hands to the crowd that waited for them.

Inspecting the crowd, he noticed that apart from the families they made a pact with before, the Canmore family and Lucas Family had also come forward. Apart from that, the three ancient clans were also present. The large gathering of people nearly equated to a total of 300,000 people, and it was a huge crowd of people.

"Haha... It's alright, we've just arrived anyway!" The family master who had arrived a day earlier smiled modestly. He then asked intimately, "Young Master Jack, you guys must've been tired on this journey. How about everyone resting before we continue to travel?"

"I think we should get to the area where we can't fly, and we'll then rest there," suggested Jack carefully.

Everybody looked excited when Jack planned to start the journey right off the bat.

At this moment, Kevin took the ancient tome out and took a look at the map. After looking at it in detail, he said, "Traveling in this direction will do the trick!"

“Alright, let’s go!” Jack nodded, and everybody started flying. A large gathering of people thus went straight into the forest.

## Chapter 1628

Joel and his company had waited in a mountain far away for a long time. Excitement was written all over Joel’s face when he spotted Jack and the others flying up and into the forest. “Good, that’s very good. They truly are gathering there!”

“Haha... It’s true, alright. We killed two of their people and have several hostages with us. They won’t dare lie to us!” Lily smiled coldly as she gazed at the forest before them. With reddening eyes, she muttered lowly, “I’m here, Lance, at this very forest. Please tell your mother you’re still alive. You’re still in this forest, right? You must’ve gotten lost and couldn’t find your way out, right? That must be it!”

Noticing Lily’s foul mood, Joel impatiently grumbled, “Stop sighing; your eldest son must’ve died long ago. I know about that young man, and he’s quite talented. If Jack hadn’t resurfaced and your son didn’t come to such a hellhole, your son would be the next in line for the family master title!”

“Remember the direction they flew to, and we’ll follow far behind them. By then, most of you will fly below the trees while two of us fly higher than the trees to secretly observe the directions they’re flying in. When we reach the area where we can’t fly, the members of the West family will leave markings for us. There won’t be any mistakes if we go in that direction!”

Joel smiled indifferently, and he had to admire Lily’s wisdom. He smilingly spoke, “Ninth mistress, do you know why I only brought you and not my other wives this time? It’s because you’re the smartest among them. Not only are those eight old women old, but they’re extremely dense as well. Bringing them with me is useless, and you’re the only one who can be of my assistance.”

“Is that so?” Lily purposely looked at Joel flirtatiously and said, “You have to help me in killing that young guy, Jack, once you break through to the ultimate god-level. My only wish in this lifetime is to see that guy dying in front of me!”

“Haha... Don’t worry! I’ll definitely work hard to break through so I can help kill that guy for you!”

Chuckling, Joel glanced at the hostages beside him and beamed, “Luckily, my darling thought of a way and kept several people as our hostages. Otherwise, we won’t be able to do anything to the West family if they don’t leave any markings as clues for us after they enter!”

“It’s almost time. We can start our journey now!” reminded Lily as she looked forward.

Joel nodded. With a wave of his hand, everyone flew toward the outskirts of Misty Forest.

However, after flying some distance away, they discovered another group of people traveling towards the same area from another direction.

Joel frowned when he saw this.” Quick, take a look over there. Why is there another group of people?”

Lily also frowned and spoke, somewhat baffled, “What’s going on? That’s a large number of people. D\*mn it! Had Jack and the others had some backup plan to kill us here? Had the West family informed Jack and the others, ignoring the lives of these people?”

At the same time, Matthew and the others also discovered Joel’s group flying out from the other direction

“What’s happening? Why is there another group of people? Are they the people that come late?”

Chapter 1629

Matthew frowned and looked alert, not wanting to be discovered as it would only trouble him.

“That’s impossible! Jack and the others wouldn’t leave without everybody present; they’ve all made that promise. From their attire, those should be people from the Cloud Sky Sect!”

Elder Mosley looked far away and relaxed when the sight registered to him. “I’ve inquired quite some news recently, and this Cloud Sky Sect is the enemy of the White family. Let’s go over to them! It looks like they’re also secretly following the others, and they may have several hostages from small families like we do!”

Matthew and the others relaxed when they heard what Elder Mosley said.

Matthew also started smiling. “Since they’re enemies with ours, that’ll make us allies. Haha..! Let’s get acquainted, then!”

“They’re coming! They’re coming! They’re coming toward us-be alert, everyone!” Joel was on high alert as they fast approached the empty plot of land outside Misty Forest. The members of the Cloud Sky Sect also looked forward in an extremely alert manner.

“Who are you people?” questioned Joel loudly at Matthew and the others after they stopped some distance away.

“Haha... No need to panic; we’re friends!” Matthew laughed out loudly before he started to make the introductions. “You’ve never seen us, but we’ve heard about you guys. Let me introduce ourselves. We’re forces from the sea. When Jack and the others went to Black Windy Island, we had a fight that resulted in the deaths of many of our people. Due to that, we’re the White family’s enemies. We’re here this time because of the ultimate god-level, so that makes us allies of sorts.”

Joel relaxed when he heard this. “I see. You’re our friends from the seas! It looks like you’ve quite a large number of people, and there should be about seventy to eighty thousand of you. Tsk, tsk! I’ve never realized that there’s such a large force among the seas!”

“Haha... There are many forces in our seas, and most of them obey us, the Hall of Divine Royal. However,

we've lost many masters during our battle with the White family and the other families. This reduced the number of our masters, and we aren't capable of contending with the White family now." Matthew laughed heartily. I know that you guys nurse a very deep grudge with the White family, so I think we can team up and enter this forest together."

Joel nodded. He then observed the other party's people in detail before saying, "Although you have quite a large group of people, and not many of them are in the true god-level, there's still potential. Let's go. We can't continue wasting our time here. It'll be troublesome if we lose them here!"

"That's right! Let's go, and we'll talk along the way. However, there's a small possibility of losing them. We've captured several hostages here, and some of the people traveling in front of us will leave markings for us!" spoke the grinning Matthew.

"What a coincidence! We also have several hostages with us here. Haha...! It is true that great minds think alike! We've thought of the same idea!" Joel also laughed out loudly. The group soon flew forward and entered the vast forest.

## Chapter 1630

Jack and the others had no idea at this moment that two large forces had followed them into the forest.

After the group of people flew inward for around two hours, they finally arrived at the area where the pink mist was located. Once they reached this area, Jack discovered that his Chi grew disoriented as it became difficult for him to control his Chi.

Jack and the others immediately controlled their flying sword to stop before they descended in the forest.

"This faint pink mist looks really weird but is quite pretty. They should be harmless to humans, right?" spoke Selena curiously as she looked at the mist in front of them.

“Don’t worry, sister Selena. The mist in front of us is totally harmless to humans!” answered Daniella as she walked over. “Of course, the mist is still quite thin over here and it’ll grow thicker the deeper we walk, so we might get lost or even fail to find our way out by then!”

The continuous growls from the monster beasts could be heard from the forest in front of them. From the muffled growling sounds, it seemed like these monster beasts had quite a high fighting prowess!

However, there were too many people in their ranks, and the top masters of the entire world were with them. Such monster beasts were nothing to be feared.

Turning to the crowd, Jack then spoke, “ Everybody, let’s rest for half an hour to recover your Chi. The Chi here is slightly weird, and we can only use the spirited grass to recover ourselves. Half an hour later, we’ll open the path with beams of light from the stone balls!”

With that, everyone sat with their legs crossed and rested.

After resting for half an hour, many of them had replenished the Chi in their body. Jack and the others took the stone balls out before they infused their Chi into the stone balls.

As their Chi entered the stone balls, streaks of light appeared just like what happened days ago.

However, Jack and the others aimed the streaks of light from the stone ball toward the red mist before them so as to not catch the attention of others.

One streak, two streaks, three, and four streaks...

Soon, seven streaks of lights appeared and interweaved with each other like a bright and colorful rainbow.

As the interweaved streak of light rushed into the pink mist in front of them, the mist dissipated to reveal a rather large road.

“Haha...! It looks like everything is fine after the streak of lights appeared! Let’s go!” Alejandro and the others grew increasingly excited at the revelation. With this streak of light leading the way, it would not be so easy for the monster beasts to attack everybody.

Apart from that, they could not get lost as Kevin had the map with him.

Kevin walked forward while looking at the road in front of them and started doing his research. “There’s a mountain not far away from the entrance in front of us. I have no idea how long we need to walk before we arrive at the mountain, but once we reach the foot of the mountain, we can estimate how much longer we need to walk before we arrive at the final destination based on the distance on the map.”

Based on the map, there was a mountain not far away from where they were, but they had no idea that they would only arrive at the bottom of the mountain the next afternoon.

## Chapter 1631

“We’ve finally arrived at the bottom of the mountain. Oh my ... Based on the journey, we still need to walk another seven to eight days before we can get to the final destination marked on the map. That’s so far away!” Kevin was exasperated when he looked at the huge mountain in front of him and the distance on the map.

“It really is quite far. The main issue is the gravity here is quite different, and we can’t walk too quickly. It’s quite tiring if we continue walking like this, and our walking speed might reduce greatly if this continues. We can’t estimate based on our current speed, so I think we might need to walk another ten days before we reach the destination.” Jack frowned as well. After all, delaying another day meant that Fernando had one day less, much to his dismay.

At this stage, however, he had no other option but to take one step at a time.

After resting for half a day, Jack and the others continued their journey, continuing to move forward once they got through the mountains. As they entered deeper, the originally dispersed mist behind them had slowly reconverged. It was as if nobody had ever traversed their path.

“Quickly, quickly! The mist will reconverge around half an hour later. We can’t be too far behind them. We’ll be twenty minutes behind them, so just follow the road that the mist had dispersed from!” Joel had a smile on his face as he hurried his people.

“Haha... It looks like asking the West family to leave markings for us is redundant. We only need to follow the path where there is no mist and walk forward before the mist reconverges. There’s no need to worry about getting lost!” Matthew chuckled aloud, though he stopped momentarily. “If that’s the case, Master Joel, these hostages are useless, right?”

Joel fell silent before he finally understood what the other party meant. “They seem to be useless. Kill them!”

Bang! Bang! Bang!

These hostages did not have high fighting prowess and could not use their Chi at that place, what more with flying prohibited. Surrounded by masters, they were killed.

“Haha... Let’s go. These hostages truly are useless, just like the markings left by these two small families. Haha!” Joel laughed loudly and the group continued to walk forward and followed those in front of them.

Time passed by quickly as they traveled in the dense forest, but after walking for 11 days, they arrived in front of a cave.

There were seven dented holes around this hole, and there was a sky blue-colored screen in front of the cave that shielded the insides of the cave.

“Had those masters gone inside of this place?” An old man from a second-class aristocratic family directly walked over when he saw the light screen as he was extremely excited.

However...

Thomp! He was bounced away the moment he touched the light screen and fell on the ground with a thud.

“This is impossible! He bounced away!” One of them was stunned. He then looked around. “There isn’t any mist around this area. This is so weird! Apart from that, we can actually use our Chi here.”

Jack looked at the seven indented holes and said, “Are we to place the seven stone balls in here to open the area?”

“That’s possible. It isn’t a coincidence that there’s seven indentations here. Let’s place all the stone balls in!” Paul thought about it and nodded as he spoke.

Chapter 1632

Hum!

As the first stone ball was placed into the indent, the sky blue-colored light screen trembled slightly as there was a noticeable reaction. The color of the screen also turned much darker.

“Something happened! There truly is a reaction! Haha... This is great! Since the masters entered this light screen, there must be something better inside. Otherwise, why didn’t they come out?” One of them chuckled heartily as excitement filled his eyes.

Soon, the second stone ball was placed into the second indentation, followed by the third and fourth stone ball. In the end, all seven stone balls were placed in the holes.

“This is such a strong motion. I don’t think we’d be bounced away now, right?” asked another curiously.

“Why don’t we give it a try?” An old man gritted his teeth as he flew up and rushed toward the dark-blue colored light screen.

This time, the light screen gave no obstruction as the old man rushed in and disappeared.

“He disappeared!” Many people exchanged looks and swallowed their saliva.

“I wonder what the world inside is like!” Some people started to be slightly worried.

“There’s nothing to be afraid of as we’re already here! F\*ck! This is the only chance we have to break through into the ultimate god-level and become a master of the soul-penetrating realm!” Another old man from the Lucas Family also gritted his teeth as he flew up and rushed into the light screen in a flash.

“Come, let’s go!”

“Yes, let’s go in quickly. Who knows if there is any time limit. If this can only be opened for a short period, we won’t be able to enter later!” With that thought, some immediately flew up and rushed toward the light screen.

Whoosh! Whoosh! Whoosh!

More and more people flew upward and rushed into the light screen.

“Everybody, don’t panic! It looks like only two hundred people are allowed per entry. Don’t rush! Don’t rush!”

Alejandro called out loudly when he saw how more of them rushed toward the cave’s light screen.

There were too many people there, entering like hasty ants.

Once most of them had entered through the light screen, Jack held Selena’s hand and flew in together. “Let’s go!”

The area outside the cave became vacant after a short while...but another group of people soon arrived.

## Chapter 1633

“Haha! This is the cave, alright. All of them have gone in!” Joel chuckled loudly in glee.

However, his joy faltered as he glanced at Lily, who was beside him. “Ninth mistress, what’s going on with you? Shouldn’t you be happy that we’ve found the entrance? Why do you still look so bitter?”

Lily sighed before she said, “I’ve been observing throughout the journey, but I can’t seem to find any clues regarding my son. Sigh ... My son and the others must’ve died... Sigh!”

Joel was speechless and he spoke, “I’m sure he’s been dead for a long time; you should stop thinking about it. How could he have stayed alive after entering Misty Forest?”

Lily once again sighed to herself when she coincidentally spotted a sword that stuck out on the cliff. Although half of the sword was embedded into the stones on the cliff, half of it was exposed, and it

looked familiar to her.

“Honey, quickly! Quickly! Do you see that sword? Please bring it down for me!” gushed Lily after she studied it.

“Why do you want me to take a sword that’s been there for who knows how long?” Joel did not look happy about it, but he flew up nonetheless and took the sword down before passing it to Lily. “It’s just a low-grade spiritual tool, yet you’re making a fuss over it. You truly are something!”

However, Lily’s hands that took the sword trembled slightly as she, with hope, explained, “It’s Lance’s sword. This is...is his sword! He likes this sword very much!”

“How’s that possible?!” Joel inhaled when he heard this and exclaimed, “If that’s the case, could it be that Lance and the others visited this area? Could it be that they accidentally came here? If that’s the case, it truly is a coincidence!”

“Yes, yes, yes! That must be it! Lance and the others must’ve visited this area! They must’ve come here!” Lily was extremely agitated as she failed to hold back the tears that trickled down her face.

“Sigh... You should stop crying. Take a look at the surface of the mountain; there are many traces of battle left here. They might have encountered some strong monster beast here and have perished,” comforted Joel.

However, Lily still shook her head in disbelief and said, “Impossible! My son can’t be dead. Why isn’t his body here, then? I know they’re still alive.”

Matthew hated when women cried, so he glared at Lily with impatience before he grumbled, “There are quite many monster beasts here. How can you still see the body if he’s already died? Apart from that, your son had entered this area a long time ago. It’d be very strange if we’re still able to see his body!”

“Come, let’s go in quickly and see what’s the situation inside. We’re going in if you guys don’t plan to do so!” Elder Mosley from the Hall of Divine Royal smiled coldly before he continued to speak to Lily and the others. “We were working together previously because all of us wanted to come in here. If we see any items that can help us break through to the ultimate god-level upon entering, we’d have to fight for it later on.”

“Haha! You’re right. However, if we bump into Jack, we have to kill that guy if we can break through to the ultimate god level soon!” Joel laughed and waved his hand at the members of his Cloud Sky Sect. “Come, let's go in and take a look at what’s going on inside.”

After Jack rushed into the light screen while holding Selena’s hand, he discovered a strong wave of energy that separated them instantly.

When Jack looked around him, he noticed that no one was in sight and he was alone. The place had blue skies and white clouds while trees as tall as the sky surrounded him. It looked like a completely different place.

“The Chi here seems to be extremely rich.’ Jack could not help but inhale deeply after he felt the richness of the Chi in this area. The Chi’s quality was a couple times richer compared to where the White family was. More importantly, this area gave people a feeling that one was extremely perceptive. Jack could feel that the speed of training in such a place would be increased greatly.

Chapter 1634

Roar!

Jack heard the horrifying roars of beasts from far away. They sounded so harrowing, and the faint imposing manner in the roars made Jack think that the monster beasts in this area were far stronger compared to those outside.

At that moment...

Thoom! Thoom! Thoom!

Jack heard the sounds of battle on a mountaintop not far away from him.

'What's going on? They've started fighting the moment they came in? Looks like we're not too far apart, even though everyone that entered was separated. I should see what's happening,' thought Jack as he flew toward the source of the sounds of fighting.

As the Chi was rich in this area, Jack flew swiftly on his flying sword and went straight to the mountaintop.

Of course, Jack did not fly too high in the sky as he feared monster beasts would spot him, thus he merely flew a meter or two above ground speedily.

Soon, Jack arrived at the mountaintop where the battle seemingly took place.

"Drats! How did these people get in?" A bald, burly man with straight eyebrows and looked extremely domineering seemed gargantuan as he held a humongous mace. He wore no upper clothes, and it exposed his terrifying-looking muscles that resembled a scaly dragon.

Next to him was a thin young man and looked slightly shorter than the bald man.

The thin young man looked extremely gaunt and his face had an unhealthy hint of paleness.

In front of these two people was Melody Lawson. She was knocked down on the floor, and there was a cut on her thigh. She was hurt by the thin man's sword aura, and blood oozed out from her wound.

“Who are you people?” Melody looked at the two in fright; they were frighteningly powerful. She was in the peak stage of the true god-level and was extremely talented. Her combat power was comparable to the Pavilion Master of the Supreme Clarity Sect.

She never expected to experience the horrifying strength of these two men. Her combat power was much lower compared to them, and she was no match for them after all.

“Tsk, tsk... How dare you ask who we are? Who are you, and where did you come from? From the token on you, you’re not one of our people on these sacred grounds. Speak: how did you come in? How many of you have come in? This is the entrance to the sacred grounds from the abandoned land, and we expected no visitors!” growled the burly man. His voice was loud like a great bell and sounded aggressively gruff. The meat on his face could pressure people without him being angry.

“Dummy, this woman has a nice figure and charming eyes. I wonder how she looks under the veil!” The thin man smirked and looked at Melody-who got up on her feet, struggling-with a playful expression. “It’ll be a waste to just kill her like that, even though we will. Why don’t you let me play with her for a bit? I’ve never slept with women who came from that side!”

However, the burly man said expressionlessly, “What are you thinking about? I’m worried that there’s more where this woman came from. We have to report to the management if too many people have entered. We have to kill these people! We can’t allow these people that came from the abandoned lands to enjoy our martial enhancement materials!”

“You’re right, but this woman looks so pretty...” The thin man still looked reluctant to give up as he licked his lips.

Before he finished, however, the look in Melody’s eyes changed in a flash as she immediately turned around and flew toward the bottom of the mountain.

“Haha! The young lady plans to escape, huh? Let’s see how you plan to do it!”

## Chapter 1635

The burly man laughed sonorously at the sight before he chased after Melody swiftly.

'Such speed!' Jack was startled as he watched on. The burly man's speed surpassed that of usual masters in the peak stage of the true god-level.

Of course, the man caught up to Melody in a flash and smashed forward with his hammer. "Pretty one, since you refuse to explain yourself, I'll take action!"

Melody knew that he was extremely strong, but she never thought he would be two times quicker than her and would catch up to her so quickly. She quickly turned around and as she looked at the hammer dropping down, she infused Chi into the sword in her hands before she lifted it above her head and shielded herself.

However...

Bang!

The man was too powerful as Melody dropped to the ground with an audible thud. Melody vomited blood at that moment, and it sullied her veil. A deep hole appeared on the ground, and Melody was so deeply wounded that she could not stand up.

The thin man quickly flew over and stopped the burly man when he saw what happened. "Dummy, don't kill her! What a waste! If you don't want to sleep with her, I will! Haha! Let me sleep with this woman, and you can go look around the area to see if anybody else came in!"

"You...! You're gonna die because of a woman sooner or later!" The burly man glanced at the thin man before he turned and ran straight toward the foot of the mountain.

“Haha! Seems like you’re at the mercy of my hands now, young lady. I do want to see what you look like!” The thin man laughed as he slowly walked toward Melody. He then squatted down and was prepared to unbutton her clothes.

“You... You b\*stard!” Melody horror was written all over her face, but what else could she have done when she was already immobile?

“Hmph! Shall I take a look at your face first? I’d be scammed if the upper part of your face looks pretty but the lower part is ugly!” The thin man’s hand stopped mid-air momentarily before he stretched it toward Melody’s veil. However...

Whoosh!

A shadow flashed by at this moment as the man was oblivious, and a sword pierced through his body from behind.

“You...!” The thin man turned around and looked at Jack, who stood behind him, in disbelief. As Jack pulled out his sword, the man fell to the ground.

“These two people have extremely high fighting prowess; they must be masters in the ultimate god-level. Let’s leave this place for now!” Jack glanced at Melody, who was lying on the ground. He then lifted her into his arms, much to her surprise.

After hoisting Melody into his arms, Jack looked around them and noticed two stone statues. It looked like the two men were guarding this place.

“T-Thank you, Young Master Jack!” Melody, settled in Jack’s arm, blushed a crimson color. This was the first time a man carried her in such a way, and a stranger, no less. She could feel her heart racing.

## Chapter 1636

Melody clearly knew in her heart that as the Melody Lawson , she could not have any thoughts about the relationship between man and woman. She tried to stopped herself from imagining things.

However, being held by Jack so intimately, she could not stop the thoughts from appearing in her mind neither could she not ask Jack to put her down or they would be in trouble if the bald burly man returned.

Jack thought about it and suddenly recalled something. He then put Melody down.

Melody widened her pretty eyes as she looked at Jack and said, "Do...do you plan to leave me here?"

Melody was afraid at that moment. She was at an unfamiliar area and met two masters who might have been in the ultimate god-level once she arrived. If Jack ignored and left her, she would definitely die if that burly man returned.

Jack smiled bitterly before he walked over to take down the token from the man's waist and his martial ring. He then said with a smile, "I almost forgot to take my trophies. This guy should have quite a high fighting prowess and there might be some nice items in his martial ring!"

Melody felt embarrassed before she finally relaxed.

After all, it was not the outside world and Jack did not have any obligation to save her in that unfamiliar world. It was already great if anyone could survive on their own.

After Jack kept all the items, he picked Melody up again and flew down the mountain from another direction.

"I wonder where my father, Selena, and the others appeared after they arrived. It would be quite

troublesome if they really met such a burly guy! If I didn't sneakily attack the guy just now, I would not be his opponent if we really got into a fight." Jack said with a frown on his face as he flew.

Melody thought about it and said to Jack, "Your combat power has surpassed usual masters in the peak stage of the true god level. I feel that everybody would be safe if we manage to kill that bald man!"

Jack hesitated when he heard this. He stopped as he had just flown a short distance away. "Do you think that I have hopes of killing that bald man if I work hard enough? But I have no idea what his fighting prowess is! During his fight with you, I have no idea how much power he used and if he held back his power! Would it be too risky?"

"From the conversation between those two people just now, they were sent to guard that place and nobody had entered this area throughout the years. I think that no matter what forces they are from, they must have forgotten about this place. Hence, the people they sent would not have such high fighting prowess. They must be people that are here for a show!" Melody thought about it before speaking her thoughts. "Why don't you think about it? We have no idea when the ancient tome had been written and the last batch of people who came here must have been many years ago. During that time, they were able to break through into the ultimate god level in Daxia and all of them managed to come here. This meant that the Chi at our place was still very rich. Now, so many years have passed without people entering this area and nobody would pay much attention to this so-called entrance. Hence, those who are sent here to take care of this place would be miscellaneous soldiers, right?"

Jack also nodded after he heard this. "You are right. Even if their fighting prowess is at the ultimate god level, it might not be impossible to fight them with my combat power. However, it's going to be difficult if I'm going to do this alone. We might stand a chance if there are several people here!"

## Chapter 1637

"Yes! We have no idea how big this forest is. If the burly man went back and delivered the news that many people had barged in from Daxia, I'm afraid that all the people that entered this area, including your White family, would be killed!"

Melody had a worried expression on her face. She thought about it and continued, "Hence, why don't try and see if you can kill that burly man. Then we would be safe if this is a deserted place and the

people of their forces don't pay much attention to this place. Let's see if we can try to break through into the ultimate god-level first!"

Bang bang bang!

At this moment, the sound of people fighting could be heard from a place at the bottom of the mountain.

"How about this, let me see if there's a way for me to attack the other party sneakily like just now. If that's the case, we have a better chance of succeeding!" Jack thought about it and finally made up his mind.

After all, they would really be in trouble if the burly man discovered that many people had entered and notified the masters of his forces.

Jack was sure that there were many masters in the soul-penetrating level there and not many of them were capable of defeating masters in the ultimate god level, let alone those in the soul-penetrating level.

Apart from that, the thin man's reaction was slightly slow while the burly man failed to kill Melody with his hammer attack. Hence, Jack felt that the burly man's fighting prowess might be just like what Melody had guessed which was not very high. They might be sent to guard the place because they did not have a high position in their families.

He placed Melody down and took a healing pill out for Melody to consume. "There's a small cave over there and I will leave you there for now. Your wounds will heal soon with my healing pill. I will give it a try and see if I can settle the burly man. I'll come back and look for you if I can settle him. If I don't after a long time, there's a possibility that I will not return!"

"You don't need to take the risk. This is quite a huge forest and you can hide to train well. You are so talented. There's a possibility of you breaking through to the ultimate god-level soon and you can think of a way to leave this place. I said that because I am worried about the safety of the members of our

Supreme Clarity Sect! That is why I asked you to take the risk!” Melody said embarrassingly when she saw how Jack faced death with equanimity. After all, she felt that it was a huge risk, asking Jack to kill the burly man.

“Don’t worry, I know that this is a huge risk to take but I have to give it a try. I’m also doing this for the members of the White family. After all, my wife, my father, housekeeper Titus and the others are also in danger.” Jack smiled bitterly and once again picked Melody up before rushing into the slightly hidden cave in front of them.

Moments later, Jack flew out and went straight toward where the fighting sounds could be heard.

## Chapter 1638

As she stayed in the cave, Melody started feeling a sense of regret after Jack left. ‘Sigh... Is it too selfish of me to persuade him to gamble his life like this? However, I have to give it a try in order for our Supreme Clarity Sect to obtain peace for some time!’

Melody felt slightly guilty about her actions. After all, Jack did not have a huge possibility of winning in her opinion. If the bald man did not use his full power and only used:1% of his energy previously then Jack would not be the other party’s opponent.

However, she soon shook her head and comforted herself. “Impossible, even if the bald man was a master in the ultimate god level, he would only be in the First or Second-grade of the ultimate god level. Jack still stand a chance of winning. After all, I could feel the killing intent from the bald man’s look previously. He definitely would not only use a small portion of his power under such circumstances and he would have at least used most of his strength!”

She bit her sexy red lips after she finished speaking and mumbled to herself, “Jack, you definitely have to come back alive!”

At this moment, Jack had already arrived at the place where the fighting sound were coming from.

Bang!

As he hid on top of a tree, he happened to see a master from the Cloud Sky Sect, who was in the peak stage of the true god level, being killed by the bald man. Beside them, another man from the Cloud Sky Sect and an old man from the Hall of Divine Royal were laying lifelessly on the ground.

'D\*mn it! Why are the people from the Cloud Sky Sect and Hall of Divine Royal here?' Jack frowned when he saw the situation and was speechless. It looks like the people from these two forces had thought of ways to follow them in. It was even possible that they were already following behind Jack and the others when they were in the Misty Forest.

'Never mind, it's also good that they have followed us here. It would be troublesome if all of them were left outside, especially the members from the Cloud Sky Sect, as they might take action against the members of the White family who are outside!' Jack felt much better when he thought about it that way. After all, members of so many forces had entered and it was impossible to completely keep this a secret throughout these seven days.

Apart from that, he did not have the time to ponder about that issue then. What he was thinking at the moment was how to kill the bald, burly man.

After the bald, burly man killed the old man from the Cloud Sky Sect, he curled his hands into fists and mumbled to himself. "F\*ck! It looks like more than one person has entered. What is really going on? How did they discover the entrance to the sacred grounds when it's concealed so well? Nothing has happened when the others were sent to guard this place for so many years but so many people have entered when the two of us are guarding this area. We are so unlucky! Luckily there aren't any masters in the ultimate godlevel as the abandoned area doesn't have much Chi and they haven't inherited any martial art technique. If not, it would be really troublesome."

Sounds of people fighting could be heard from many other places. The bald man thought about it and went rushing toward another area where fighting sounds could be heard.

Jack thought about it and secretly followed the other party.

“Haha... I’ve never imagined that we would bump into Master White here. It looks like even the gods are helping me!” Four people surrounded Nash and Selena under a tree.

Nash, who was in the peak stage of the true god level, had a darkened expression on his face as he looked at these four people in front of him.

He had never imagined bumping into Selena, his daughter-in-law, not long after he entered this area.

## Chapter 1639

Selena had a low fighting prowess and everybody was worried about her safety. Nash was delighted when he saw her.

However, as the two were prepared to search for other members of the White family, they were coincidentally discovered by four people who stood in front of them.

Among these four people, one of them was Joel from the Cloud Sky Sect while the other was Matthew from the Hall of Divine Royal. The other two people were masters in the final stage of the true god-level from the Cloud Sky Sect. Nash did not have any chance of winning against the combined combat power of these four people, especially when he was accompanied by Selena, who had a low fighting prowess and would only drag him down.

Nash was confident that he would still have the chance to escape if he was facing these four people alone. However, it was obviously difficult for him to escape on his own and leave Selena behind.

“Father, are these...these people strong?” Selena had never met Joel and the others. She was worried when she saw the serious expression on Nash’s face.

“They are very strong. There are two masters in the final stage of the true god-level while the other two are the sect master of the Cloud Sky Sect and the hall master of the Hall of Divine Royal. I believe you

don't need me to tell you about their fighting prowess!" Nash said with a serious expression on his face. He clearly knew that Selena's fighting prowess was nothing compared to the other party. On top of that, these four people had completely compressed the fluctuation of their bodies. Hence, Selena was unable to see the situation of their fighting prowess.

Selena's facial expression grew increasingly darkened when she heard this. She knew that these four people in front of her were not simpletons but she never expected them to be the bosses of their two enemies. One of them was a sect master while the other one was a hall master.

Selena only hesitated momentarily before she gritted her teeth and said to Nash, "Father, you don't need to care much about me, you should just escape by yourself. If you have to take care of me, the two of us would end up dead. If you escape by yourself, you might have hopes of surviving as you have an ultimate-grade spiritual tool with you! You only have to ask Jack to avenge me when you find him!"

"No way!" However, Nash had a determined look on his face. "You're my daughter-in-law, how am I supposed to explain to Jack later on if I escape alone? There's no way I will agree to this! I think I shall stall them and you can escape by yourself. I will stall them and try to buy you some time to escape. You are still young while I'm already old. It doesn't matter if I die!"

"Haha... This is such a touching scene!" Matthew started laughing loudly. "Unfortunately, do you think you are capable of stalling the four of us? If your son is here, not only the four of us, we wouldn't be his opponent even if there are four more of us. However, you...you are very much behind compared to your son!"

"Surely, Jack's wife looks stunning and is comparable to the Melody Lawson . She even looks as pretty as Helena and Daniella. I really want to try what a woman like her taste like!" Joel smirked as he was extremely happy.

"Jack's woman. Haha... You are right! I don't really like other people's wife but Jack is an exception!" Matthew also smiled coldly. As Jack killed so many members of their Hall of Divine Royal, he really wanted to know what would the expression on Jack's face be like if he learned that his wife had died in their hands and was even taken advantage by them before she died.

## Chapter 1640

“Father, you should leave now. If you don’t leave now, I will commit suicide here!” Selena gritted her teeth and yelled at Nash.

“No way, don’t you act irrationally. You are the one who should leave as I’m already at this age. When I was poisoned by the vicious Lily previously, I had already looked past life and death when I thought that I was dying. Hence, I’m not afraid of death. You’re different! You’re still young and you still have a long life with Jack. You have to survive for Kylie’s sake! Do you understand?” Nash said to Selena with a certain expression on his face as he held onto his sword and looked at the four people in front of him vigilantly.

Selena’s facial expression slightly wavered when she heard the name, Kylie. She had obviously started to hesitate.

“F\*ck me! There’s really quite a large number of people! There are six people here!” Unexpectedly, a burly man with no hair came flying over from the forest at this moment. He had a huge hammer in his hands and looked at the people in front of him domineeringly.

‘Father, Selena?’ Jack was surprised when he saw the people below him as he was hiding in the trees. He had never expected his father and Selena to bump into Matthew, Joel, and their people.

“Who are you?” Joel and the others frowned when they saw the bald man. The faint imposing manner of this person caused Joel to slightly worry.

“Who knows which small family this guy is from? Why? Do you plan to cause trouble here? You want to be a hero and rescue the beauty?” An old man from the Cloud Sky Sect smiled coldly and slowly walked toward the bald man. “Young man, bugged away if you are a tactful person. You must be suicidal to think that you can meddle with the affairs of our Cloud Sky Sect and the Hall of Divine Royal!”

“Haha... Such arrogance! I’m not here to rescue that woman, I’m here to kill all six of you!” The bald man said hoarsely and he paced over while carrying his huge hammer. With every step he made, a deep footprint appeared on the floor.

“Such an arrogant tone! You must be suicidal!” The old man appeared in front of the bald man in a flash and directly punched forward.

Fast and it was difficult for normal people to avoid his punch.

However, he was surprised to discover that his punch had missed its target after he punched forward. The bald man in front of him had disappeared.

“Im-Impossible!” The old man was extremely shocked. He looked up and a huge hammer came smashing down at him.

“Be careful!” Joel immediately yelled loudly when the old man punched forward. He was able to see the burly man’s travel path and that man was extremely fast. He had rushed into mid-air in a flash and came crashing down at the old man with the hammer in his hands.

It was too late by the time the old man managed to realize what was happening, he exploded after being smashed by the hammer.

“His speed is too fast. This person must be a master in the ultimate god level!” Matthew looked at the token on the waist of the other party with a cold expression on his face and said, “Bloodshed Clan? We’ve never heard of such a clan! It looks like this should be a clan in this area. D\*mn it! He’s an aborigine from this area!”

Joel inhaled in fright when he heard what Matthew said and his facial expression immediately darkened. They had never imagined that they would bump into a master in the ultimate god level.

“Haha... I don’t have a high fighting prowess or I won’t be sent to such a deserted area. However, it is nothing difficult for me, who has almost broken through into the Second-grade of the ultimate god level, to kill you people!” The bald man touched his head and started laughing loudly.

Chapter 1641

“Second-grade ultimate god realm? Matthew, why don’t we fight him together?”

Joel thought about the matter and proposed.

“Fight him? That won’t do at all! Although the other party is only in the first-grade ultimate god realm, the gap between the true and ultimate god realms is too huge! With the three of us joining forces together, we’re no match to him! And even if Nash joins in and fights with us, we’re still unable to defeat him!”

Matthew’s face turned solemn and gloomy.

He gritted his teeth and spewed a few words, “Then we’d better escape!”

He immediately wheeled around and flew away after dropping his last words, storming away from the scene toward the distant sky.

“Trying to escape from me? Not that easy!”

The bald man immediately flew after Matthew while injecting his Chi energy into the huge hammer. The huge hammer shone brightly like a diamond, and he smashed out with the hammer at a distance.

In an instant, a frightening wisp of Chi was shot out. The Chi energy of the wisp carried a faint golden color.

Boom!

Matthew, who had already flown several miles away, was blasted by the attack and exploded instantly.

“What the heck? That was extremely fast!”

Witnessing the speed of the attack, Joel, who had planned to fly and escape as well, stood frozen. The confidence in his heart was instantly crushed at the sight before him. The bald man’s attack was obviously faster than them, and the range of his attack was very far as well. Perhaps, only the ultimate god-level fighter could be this powerful.

“Ma-master, what should we do?”

The face of the elder of Cloud Sky Sect blanched. He looked at Joel, who stood beside him, his eyes full of terror and his voice trembling.

It was such an arduous and tiring journey to come to the place where one could finally break through to the ultimate god realm. How could they expect to encounter a native as soon as they stepped into the land? Even worse, the native was a first-grade ultimate god-level fighter. How unfortunate was that?

“Now, now. It’s your turn!”

The bald man looked at the elder, letting out a cold smile.

“No, no! Don’t kill me!”

The old man was so frightened that he turned around and swept out in a storm, exerting his speed to the limit.

Boom!

Unfortunately, another horrifying golden wisp of Chi shot out, instantly catching up to the old man and blasting him away.

Joel was so scared that his body went cold with dread. Matthew was the freaking master of the Hall of Divine Royal! And he was one of the strongest in the sea territory. Nobody would expect him to be killed just like that.

Plus, his men were all good and strong fighters; they were killed without being able to counter the attack at all! Now, the other party's eyes were fixated on him, did it mean that he was his target right now?

Similarly, Nash and Selena were in a complete state of terror. They started to doubt whether entering the area was a wise choice to make. These natives seemed like they loathed intruders from outside.

"Hold on!"

Seeing that the bald man was ready to strike at him, Joel stretched out his hand and said desperately, "Brother, I have a question for you. You and I, we have no grievances nor grudges between us, why do you want to kill me? We've not offended you in any way!"

"Haha!"

The bald man laughed out loud instead. With a rough and coarse voice, he bellowed, "The moment you stepped into this place, you were doomed to die! You foolish people, how dare you intrude our place and take our martial enhancement resources! You are clearly seeking death!"

Chapter 1642

"My dear good brother, please spare my life! I'll give you everything that I have in my martial ring! Alright?"

Joel was frantic with fear and his face was ashen. After a quick thought, he knelt on the ground before the bald man, begging for mercy, his tone panicked. "My good brother, it was not easy for me to reach my current martial status, and we came here not to offend you but out of curiosity. We are trying to find out if there are really strong fighters of the ultimate god level. If you're willing, we'll get out of here immediately, okay? How can we exit this place?"

"Hmph! Get out of here? Isn't it good to die here instead? Besides, if I allow you to leave, there'll be more people who will find out about this place!"

The bald man snorted coldly; he raised his huge hammer and swung toward Joel, casting a martial attack.

Joel was rendered speechless at the bald man's behavior, at the same time, fear pulsed through him.

However, something quickly popped up in his mind and his eyes lit up. "Wait, wait! As long as you let me go, I'll tell you exactly how many of us have come in, which clans and families are here, and even, I can help you to lure them out and kill those guys!" He yelled in a shaky voice.

Sure enough, the bald man stopped his movement the moment he heard Joel's words. He was tempted by Joel's proposal.

After all, he did not know how many people had entered this time. In only a short time, he had encountered and killed many of them. There must be more intruders entering the vicinity. Hence, it was useful for him to spare this b\*stard and used him to lure the others.

Jack, who was hiding not far away, was speechless at the scene before him; the corners of his mouth twitched several times upon hearing Joel's ridiculous proposal. He did not expect him to betray the people of Daxia just to save himself!

"Joel Collins, what a shameless punk! You want to betray even the people of your Cloud Sky Sect as well?"

Nash's fury suddenly sprang to life. He stared furiously at Joel with malice and hatred in his eyes.

"Hahaha! As long as I can live and this man from the Bloodshed Clan is happy, he can take in the people of Cloud Sky Sect. My people and I are willing to work under them. And if they were upset with us one day and want us dead, then I'm also willing to offer our lives!"

Joel's eyes were reddened, and he laughed out loud. "Nash White, can't you see? This place is not like any place in our area! There must be many real strong people here! Bullsh\*t true god peak level fighters like us are nothing compared to any of the strong people here! I just need to live! As long as I live, there's

Hope!"

At this moment, Joel, who had witnessed the death of several strong fighters, was edged with terror and fear. The only thought in his mind was to survive this ordeal, to the point that he could sacrifice the lives of other clans and families.

"Hahaha! Good! Obey me if you want to live! I'll finish these two off first, then I'll take them back to the clan. And you shall tell us how many people have entered this place, who are they, and which families they belong to! Then we'll be able to kill these people who came in together!"

The bald man was delighted at Joel's nasty proposal. "Don't worry. Just obey and behave well, and our clan leader or elder or whatever you guys call, as long as they are happy, perhaps, they might even spare you and your sect's lives. But this also depends on your cooperation in this matter. Behave well and cooperate with us properly..."

However, just before the big bald man could finish his words, a terrifying aura came straight at him with a flash behind him.

The bald man felt the terrific danger approaching and he was so frightened that he immediately veered

to the side.

Unfortunately, he was still too slow in dodging the attack. A powerful sword attack landed solidly on his shoulder and in the next second, one of his arms was chopped off.

“Ah!”

### Chapter 1643

The bald man dodged to the side, only then did he wheel his head and look at what was behind him; his eyes filled with panic and shock. If he had not sensed the danger behind him and had been half a minute slower, his body would have been split into half and he would have died for sure.

Blood flowed out from the shoulder, and only after a brief moment, the bald man’s face turned pale.

He instantaneously took out a hemostatic healing pill and swallowed it down. The bleeding slowed down. But even so, the injury that Jack had inflicted on him was way too heavy.

“Ja-Jack!”

Joel took a sharp intake of breath as he looked at Jack. How could he have imagined that Jack would appear at this moment and give the bald man a surprise attack.

“Jack!”

Selena turned her head and took a look. It was Jack! Her eyes immediately welled up and her nose reddened; she could not help but feel relieved and happy. Just moments ago, she thought that she and Nash was going to die and that she could not see Jack again.

To her surprise, Jack appeared and sneakily attacked that big bald man, inflicting a heavy wound on him.

“He reacted pretty fast, eh? I used my fastest attack, but he could actually sense it. Sigh! I couldn’t finish him in one blow, what a shame!”

Jack sighed aloud, but soon a smile crept onto his face again. “However, I’ve given you such a big surprise—you’re heavily wounded! So, your combat prowess should be sharply reduced too!”

“You, kill him now! Aren’t you a sect master? Killing this brat shouldn’t be a problem for you, right? As long as you kill him, I will put in good words for you when I go back! This is the moment for you to take credit!”

The big bald man gritted his teeth and glared at Jack with malice and hatred in his eyes. He then ordered Joel, who was beside him, to kill Jack.

Joel almost fainted when he heard that. Him killing Jack alone? Was the bald man kidding? He knew that even if there were five of him, he still did not have the confidence to terminate Jack, not to mention he was now alone. How could he do that?

He gulped, then took two steps backward and replied, “Senior, I... I’m not able to do so. I don’t have that ability to kill him. You don’t know who this brat is, his name is Jack. His combat prowess is overwhelmingly powerful. Although he has not reached the ultimate god realm, I do think that his combat prowess is already comparable to first-grade or second-grade ultimate god level! This brat has killed many people in my clan before!”

“Ugh! What a useless shrimp!”

The bald man was upset at Joel. He looked at Jack with a stony face. “Young man, you don’t have any martial virtues, do you? How dare you ambush me!”

“Haha! There can never be too much deception in war, don’t you think so? Besides, you are so strong and powerful, why should I uphold those goddamn martial virtues?”

Jack laughed sinisterly. He pointed the long sword in his grip at the other party. “I must kill you today. Otherwise, you’re gonna be a huge threat to my White family members!”

“Hmph! I’m injured but do you think you have the ability to kill me?”

The bald man’s face was full of sweat, cold, and clammy. With one hand holding his huge hammer, he directly leaped up high and smashed down furiously at Jack.

#### Chapter 1644

The bald man had lost one arm, which made it inconvenient for him to carry such a huge hammer, however, he could not afford to underestimate the other party’s combat power. The attack of the huge hammer carried a wind whistling sound, heading straight to Jack and giving a strong sense of oppression.

“Humph!”

Nonetheless, Jack snorted icily at the attack. He then clutched the sword in his hand tightly, injected Chi energy into it, and then chopped out against the huge hammer.

Swoosh!

At once, a frightening wisp of Chi flew straight up and heavily blasted the top of that huge hammer of the opponent.

A huge explosive sound rang out as the two powerful attacks collided together.

Joel, who was standing aside, watched the scene before him in surprise. His heart could not help but leap into his throat. If Jack successfully decapitated this big bald man, he would definitely not let him go.

The bald man, although he was powerful, was injured by the blow just now. Compared to a two-handed attack, there was a huge difference in using one hand to swing the hammer toward Jack.

Furthermore, even if Jack was no match for the bald man, he would still be able to slow down the other party; that would not be a problem for Jack to do so given that he was such a powerful fighter.

After thinking momentarily, he immediately mobilized, surged his Chi energy, and went straight into the distance in a flash.

“That punk actually escaped!”

The moment Nash saw that Joel fled, he flew for some distance, wanting to go after him.

However, once he thought of how powerful Joel was, he would most likely not be able to catch up. Even if he did, he would not be able to kill him. Hence, he ceased going after Joel.

He was more concerned about Jack’s situation after all. He was afraid that Jack was no match for the bald man and worried that the bald man would suddenly strike at Selena. Hence, he decided to stay and could only watch Joel flee the scene.

“Damn, this brat, didn’t he come from that place? A peak true god-level fighter could have such strong fighting prowess too?”

The big bald man thought that Jack was definitely not his opponent, but Jack’s attack had obviously weakened his speed of smashing downward. His heart was uneasy at the outcome.

He was not a first-grade ultimate god-level fighter but a second-grade one. So, he was much stronger and more powerful than that skinny guy before.

So, in his point of view, even if he was injured, Jack was definitely no match for him.

However, from the situation right now, Jack blocked his attack and reduced his speed.

His speed of smashing downwards was descending incessantly, and soon Jack's attack could actually overpower his hammer attack and instantly blew him a dozen feet away.

Swoosh!

At this time, with a powerful stomp, Jack leaped up to the sky, flew to the front of the bald man, and swung his sword toward the bald man.

"Amazing! Judging from the situation, that bald man may not be Jack's opponent! Luckily Jack ambushed and injured him before that, otherwise, it's very unlikely for Jack to defeat him!"

Looking at the two men fighting in the sky, Nash was slightly relieved. The situation that seems like Jack was now in the upper hand.

Moreover, the blood on the bald man's arm had not completely stopped. The blood was flowing out little by little, making the color drained from his face; his face was paler than before. He was obviously getting more and more strained in the battle.

"Blade Wave!"

After fighting for a while, Jack let out a faint cry, casting out the Blade Wave. Waves of aura flying swords were shot out like long aura sword dragons flying toward the bald man. Soon, the bald man had

fallen.

Chapter 1645

“He’s finally dead!”

Staring at the corpse on the ground, Jack could finally breathe out a huge sigh of relief. If Jack had not sneakily attacked the other party and severely injure him before the battle, he was afraid it would be difficult to kill the bald man.

After taking off the bald man’s martial ring, Jack turned around and walked toward Selena, who was at the other side.

However, just as Jack extended his leg to walk away, the bald man opened his eyes at this time. A black skull flew out of the bald man’s body, rushing straight to Jack. The bald man’s body squirmed a little, completely lifeless.

“Jack, watch out!”

Both Selena and Nash were shocked at the sight of that little black skull. They immediately yelled at Jack in panic, alerting him.

Jack did not even dare to turn around and immediately dogged aside in a flash.

Right after he veered to the side, the black skull charged forward faster and in an instant, it came before Selena. Before Selena could react, the little black skull burrowed into her left cheek. Selena’s eyes widened.

“What the hell?”

Jack was completely dumbfounded. He totally had no idea what that was. He looked back at the bald man who was completely lifeless, and he was even more puzzled right now. What was that freaking attack that the bald man had cast right before his last breath?

He flickered and within a second, he came to the front of Selena. And at this time, a thumbsize black spot appeared on Selena's left cheek, like a huge black mole.

"Selena, you...how do you feel right now?"

Jack gulped and asked in a voice full of concerns. He did not know what it was.

"I...I don't know. I don't feel any pain at all. What was that thing?"

Selena looked preoccupied. She took out a mirror from her martial ring and looked at her face closely.

"Heh? What...what is this! Dear, what is this?!"

After spotting the black mole-like thing on her face, Selena was scared. Her almost perfect face was now ruined by a black lump of flesh. It ,downgraded her beautiful face in an instant; she did not look as good as before. She was basically disfigured by the huge black spot.

"Sigh! I don't know what it is either. That little skull was getting faster and faster. If I had known that the skull would enter your body, I would not have dodged it!"

Jack felt a pang of heartache and guilt when he looked at Selena's worried expression. He sighed aloud.

"Right, we should see what's in the bald man's martial ring!"

Jack suddenly thought of something, and he took out the bald man's martial ring, searching through it.

Within several minutes, he found a book from the ring. He took it out and began to look through it.

His expression grew more and more unsightly as he read through the book. "Dammit! This is a curse technique of the Bloodshed clan and it's very vicious! If the curse is not removed, the person who is struck by this curse will not live more than a year!"

"A year!"

Terror thundered down on Nash the moment he heard Jack's words. Selena, who stood beside them, was startled at the newly learned information. They did not expect that the bald man's attack was actually a vicious cursing technique.

However, after a moment of silence, Selena said with a bitter smile on her face, "A can do with a year. I'd have long gone to hell if you did not appear in time a moment ago. I should feel content to be able to see you now, and even better to be by your side for another year!"

Jack studied the book meticulously before saying, "Don't worry. I'll heal you! According to this book, there's a way to remove this curse!"

Chapter 1646

"Is there really a way? Hubby, you're not lying to me, are you?"

A bitter smile was plastered on Selena's face upon hearing Jack's words. She was afraid that Jack was only telling her white lies to comfort her.

"Yes. There's a solution to the curse. To remove the curse, we must craft a fourthgrade intermediate level pill, and...and we need a treasure from the Crystal Cloud clan."

Jack smiled dryly, and to make Selena believe his words, he shoved the book to Selena, letting her look at the content written in the book.

“Fourth-grade intermediate level pill...could we possibly find such a thing within a year? And there’s the Crystal Cloud clan. We’ve never even heard of this clan before! How could they possibly offer the treasure to help us? Besides, the natives here can’t wait to kill those of us who have intruded their place, how could they possibly help us!”

Selena’s brows puckered together, losing her spirit.

“Don’t worry, my dear. As long as there is a way, there’s hope. And we should work hard for it!”

Jack held her hand and said to her, his tone serious.

“Alright. Let’s see what else is in the bald man’s martial ring!”

Selena bobbed her head, only then she pointed at the martial ring and reminded Jack.

Jack immediately searched through the ring again. “Wow! There’s quite a few spirited stones and spirited grasses in his martial ring. There are many second-grade spirited grasses and several third-grade spirited grasses. Unfortunately, there’s no martial or cultivation technique to help us break through to the ultimate god realm. Sigh. I wonder how these people broke through to the ultimate god realm!”

He then took out another martial ring and showed it to Nash and Selena before saying, “ This martial ring belongs to another person and he’s from the Bloodshed clan as well, just like this bald man. He tried to violate the sacred lady from the Supreme Clarity Sect, but I killed him in the end. I feel like his martial level should be a little lower than this bald man’s!”

Jack rummaged through that person's martial ring as he explained to the other two. "Wow. Not bad at all! He kept ten or so third-grade spirited grasses in his ring, moreover, some of them are third-grade premium spirited grasses! Tsk tsk. These premium grasses can't be found outside! Wait! There's actually a fourth-grade elementary spirited grass!"

"What? Fourth-grade elementary spirited grass?!"

Nash gasped at the finding, and soon his face was overwritten by excitement and joy. "Since these two fellas were able to break through to the ultimate god realm, it also means that we have come to the right place, and we have a high chance to break through too! Also, the bald man mentioned that he was sent to guard this remote place, which means, in this space of theirs, the Chi energy is considered low and less dense than their other spaces. For a remote place like this, the Chi energy is already that rich and dense, I can't imagine how rich are the other places!"

"Let's go. We should leave first. I'm worried that the corpses here will attract the monster beasts of this forest. We don't know what kind of monster beasts there are in this forest. As for these third-grade spirited grasses, I can use them to craft some third-grade pills."

Jack put on a gentle smile and walked toward the front. "Melody is still waiting for me inside that cave. Since this is a remote place and the two people guarding it were already killed by me, the Bloodshed clan won't find out about this so soon. What we need to do is to find a way to break through to the ultimate god realm as soon as possible!"

Nash nodded and followed behind Jack, "I truly didn't expect that the people from the Hall of Divine Royal and the Cloud Sky Sect would actually tail behind us and sneak into this place. These two powerhouses are our enemies! But fortunately, that bald man killed the head of the Hall of Divine Royal, it's a good thing. Sigh! The only bad thing is that the old man, Joel Collins, managed to escape!"

"There's nothing we can do with Joel. It's hard for you to go after him, and I was fighting with that bald guy. So, we had to let this old man slip away."

Jack smiled helplessly; he turned to face Selena and then said, "We have to find a way to remove the curse on Selena as soon as possible. I hope a year's time is enough for us. We're practically racing against time right now!"

"Dear, don't put too much pressure on yourself. Try your best, and even if you can't make it, I won't blame you at all. Perhaps, it's my fate!"

Selena bit her rosy, pink lower lip and said to Jack in a comforting voice.

"Fate? I'm not gonna resign myself to fate! Moreover, this bald man did this to you and I certainly won't let this matter go! When I grow stronger in the future, I'll make the sh\*tty Bloodshed clan pay the price!"

Jack bellowed with a furious tone, clenching his fist.

At this moment, in the cave, since Melody had consumed the healing pill given by Jack, her injury had recovered quite a bit. Although she was not completely healed, she could stand up and walk around

The healing effect of Jack's healing pill was beyond her expectations. She did not expect that the healing effect would be this good.

"Sigh! He's out for so long. Why isn't he back yet? Did something bad happen to him? Oh no! If he dies, and the White family finds out that I sent him to fight the bald man, they will definitely hate me to death!"

The thought of sending such a powerful and talented fighter to their death due to her own selfish needs made Melody restless. She blamed herself for sending Jack to the bald

Man.

“No! I have to go out and take a look! What if Jack managed to kill the bald man but was also badly injured to the point that he couldn’t even stand up? I’m severely injured too, and I can’t fight yet, but I think I can still help to bring him here to recuperate!”

After pacing back and forth for a few minutes, Melody made a decision! Her eyes emitted a hint of determination.

However, just as she was about to exit the cave, a man’s voice rang into the cave from outside. “ Seriously? The Melody Lawson can’t even fight now? It looks like you’ re heavily wounded!”

Along with this masculine voice, a middle-aged man strode into the cave. “Well, well. I truly didn’t expect to see the sacred lady hiding in such a place to recuperate from her injuries. Tsk, tsk tsk. Who is it that could injure you, a person who is at the peak stage of True God Realm?»

“You’re one of the guardians of the Flying Eagle Sect?”

Melody stared at the middle-aged man in front of her and could not help but furrow. Judging from the token displayed on the middle-aged man’s waist, he was someone from the Flying Eagle Sect.

Besides, from the look of his clothes, it was obvious that he was not an ordinary disciple in the Flying Eagle Sect. If she remembered correctly, he should be one of the patronums.

“Oh, hahaha! Wow. I’m amazed by your memory! That’s right! I’m the head patronum of the Flying Eagle Sect. And my martial level is not high, just around the intermediate level of True God Realm!”

The other party snickered and continued, “The Melody Lawson , you’re said to be the best-looking woman in the Divinity Pavilion. But why wear a veil all the time? It’s such a waste! Well! We’re fated to meet each other here; don’t you think so? So, why don’t you let me take a look at your face?”

## Chapter 1648

The head patronum of the Flying Eagle Sect spoke, and he was about to reach out to remove Melody's veil.

Melody was startled at his behavior. She immediately veered a few steps aside, dodging the other party's dirty hand, and yelled angrily, "How dare you! I'm the Saintess of the Supreme Clarity Sect and will be the sect master in the future. How dare a stinky patronum like you offend me! Don't you know that a Saintess can't unveil her veil until she becomes the sect master?"

"Hehehe! Of course, I know! And I know that if the veil is removed before you become the sect master, you'll have to kill the other party. Oh right! Being the sacred lady in your sect means you can't enjoy any romantic relationship at all for the rest of your life, right?"

The middle-aged man laughed sinisterly. He flickered and, in a flash, he appeared at the entrance of the cave, blocking it. "But, I'm gonna look at your divine face' today no matter what! I wanna see what the Saintess of the Supreme Clarity Sect looks like!"

"You dare?"

Rage flowed through Melody like lava as she looked at the evil grin on the other party's face; she gritted her teeth and clenched her fists, staring at the middle-aged man angrily.

"Haha, why not? This is not Daxia anymore! After entering this place, nobody knows how to get out anymore. Besides, everyone is so scattered and none is with you. Do you think you're still the high and almighty Saintess of the Supreme Clarity Sect? The situation in this martial world has already long changed! Nobody knows who's gonna reach the ultimate god realm first!"

"Hehe, besides, you can't even use your Chi energy now, right? Even if I kill you right here right now, nobody will know! And you don't even have the slightest ability to counter me! So, what exactly gives you the courage to talk arrogantly in front of me right now? C'mon, don't be shy, let me see your 'divine face?!'"

His eyes were full of greed and evil excitement. With a flicker, the middle-aged man charged toward Melody.

However, just at this time, a silhouette flashed over and appeared in front of Melody. A powerful punch was blasted on the defenseless middle-aged man, sending him a few meters backward.

Bang!

A dull thud rang out, and in the next second, the middle-aged man actually smashed heavily on top of the stone wall of the distant cave.

A mouthful of blood spurted out from the man and his face instantly blanched. He then plopped heavily onto the ground and spewed out another mouthful of blood again.

“Young-Young Master Jack!”

After the middle-aged man finally registered that the punch was from Jack, he was so scared that his voice was edged with fear. He knew that the man before him was terrifyingly powerful. Even twenty of him would not be able to defeat him.

“I didn’t know that the Flying Eagle Sect is rearing such a brute!”

Jack’s face was icy-cold, and his eyes were filled with killing intent.

“Thank God! Jack, I thought you were dead! I’ m so glad that you came back!”

Melody, who initially thought that she would die in that b\*stard’s hand, burst with joy when she saw

that the figure that came to her rescue was Jack. She almost jumped into his embrace out of happiness.

However, when she thought of her status and identity, she ceased her action and smiled shyly at Jack instead.

“Don’t worry. I won’t die. I’ve killed that guy!”

Jack returned a faint smile to Melody, then he turned to the middle-aged man from the Flying Eagle Sect.

“Young Master Jack, it’s a misunderstanding! I ...I’m not a pervert! I...I just want to see...see what the Saintess looks like!”

The middle-aged man finally climbed onto his feet as he stammered in pain and explained. “After all, the Saintess has been wearing a veil! And many people are curious about her look, not only me! I was being reckless and impulsive. I just wanted to see how she looks like!”

“Humph! What a nice script you’ve written in such a short time! Do you think I don’t know what evil scheme you have in your mind? You, shameless sc\*mbag, trying to take advantage of her when she’s heavily injured!”

Chapter 1649

Melody was so angry that she wheeled to Jack and demanded, “Young Master Jack, please do me a favor and kill this b\*stard!”

At this moment, Nash and Selena entered the cave, walked over, and stood behind them.

“Master White, Selena, you guys are here too!”

Melody's eyes were filled with surprise when she saw the two enter into the cave.

"Yes. Thanks to Jack! He killed the bald man, otherwise, we won't stand a chance to live!"

Nash nodded. He then turned to the patronum of the Flying Eagle Sect and said, "We were outside the cave and overheard all the outrageous things you said to the Saintess of the Supreme Clarity Sect just now. Tsk tsk tsk. A patronum of the Flying Eagle Sect? One of the greatest Four Ancient Clans? Shameless!"

The patronum's face grew more and more unsightly, and the corners of his mouth twitched several times. With his fists tightened, he flickered and charged toward Nash, trying to rush out of the cave.

Nonetheless, his martial level was only at the middle stage of True God Realm; he was no match for Nash at all! Nash gave the patronum a smack on his chest, directly blasting him backward and smashing him onto the ground. The patronum was squirming involuntarily; he could not even stand up on his feet right now.

Jack pulled out his treasure sword and handed it to Melody who stood beside him. "His life is yours now!"

"Thanks!"

Melody nodded gratefully and approached the middle-aged man. She swung the sword in her grip, the middle-aged man stopped squirming, laying lifeless.

"Guys, let's all take a rest for a while. I took out the two men who were guarding this cave. We'll set off after the Saintess is completely healed of her injury!"

Jack spoke his thoughts.

“Hmm... Since the entrance is here, then the others won't be too far away from us. So, we can afford to rest and set off after, and we'll still be able to catch up with them!”

Nash thought about it and then said.

“What's on Selena's face?”

Melody soon found out the black lump of flesh on Selena's face. The black color has completely diffused into her facial skin and it looked like a birthmark. Compared to a moment before, the black spot had actually grown a little larger.

“Sigh! That bald man is from the Bloodshed Clan and many of them practice the art of curse

Jack breathed out a huge sigh and started to narrate the incident in detail to Melody. Another huge sigh was let out by Jack as he thought. “Sigh. It's all my fault! Although the bald man was pretty much dead at that time, he was still at his last breath. I truly did not expect that under such a tough situation, he would use his last breath and cast a curse technique! If I had just killed him right after he fell onto the ground and make sure he was dead then such thing won't happen at all!”

“Honey, please don't blame yourself. After all, you didn't know the Bloodshed clan would practice such an evil curse art!”

Selena, on the other hand, smiled bitterly. “Let's work together, shall-we? It'd be best if we can remove the curse, but if we can't, it's okay too. After all, my wish of seeing you and being by your side is granted. I'm happy and contented.”

“I'll definitely try my very best to remove the curse!”

Jack tightened his teeth, and his eyes were filled with determination.

Seeing that the sky had turned dark, the group rested for the night. The next morning, Melody 's injuries were completely healed, so the four of them set off and walked out of the cave together.

Chapter 1650

The quartet soon left the cave and advanced forward.

“The bald man killed the master of the Hall of Divine Royal. It’s a good thing!”

Nash chuckled as he recalled the scene. “The only thing I regret was letting Joel, that old man, escape!” He said to the other three.

A bitter smile crept onto Jack’s face upon hearing Nash’s words. “Whether those two die or live, they’re not the biggest threat to us. The biggest threat to us right now is those who have the strength of the true god peak level and have entered this place! Because it means that their forces are already infiltrating this place! And if they break through to the ultimate god realm earlier than us, that’d be problematic!”

“Hehehe!”

Melody, however, covered her mouth with her hand and giggled. “They must not have thought that even if they break through to the ultimate god realm, they’d still be no match for you, right? After all, you killed two fighters of ultimate god-level yesterday. Furthermore, those two people were already in the ultimate god realm and must be very stable, yet they were killed by you. So, how could those who have just broken through the ultimate god realm be your opponent?”

“Well, that’s not wrong at all, but then I’m afraid that those people will make a move on our White family! Now that everyone is so scattered and some of them don’t even know where to go. It’s hard to gather everyone now. The situation would be better if I’m with them, but now...” Jack smiled helplessly.

Nash, who was on the side, said to Jack, “ Jack, in fact, you don’t have to worry about these things. Sure, it’s a good thing that you’re concerned about whether the White family will be in danger, and this is what you should feel as the young master of the White family. But it’s useless for you to think about that now. Rather, since everyone is so scattered and it’s an opportunity to train them and let them progress!”

Selena bobbed her head in agreement. “Yes, they can’t always be protected under your wings. They have to grow up someday. They have their own path to walk. And maybe the first to break through to the ultimate god realm would be our First or Second elder, who knows?”

“That’s true!”

Jack finally beams, free of worries. He then flew in the direction of a fighting sound coming from ahead.

After flying for a few minutes, Jack and the others spotted that around ten disciples of the Supreme Clarity Sect were surrounded by a group of people from the Cloud Sky Sect. Gloominess surged through the atmosphere among the female disciples and several of them were badly injured.

“Damn, they’re from the Cloud Sky Sect! Why are they here?”

A female disciple of the Supreme Clarity Sect, who was also a patronum, seethed. This female patronum had broken through to the late stage of True God Realm. Although the breakthrough was not long ago, to have such strength was considered excellent!

“They have more people than us! We only have a dozen or so with us but they have more than thirty people! Worse still, they have several fighters of true god late-stage and two of true god early stage. Ugh! We’re in trouble!”

Another female disciple of the Supreme Clarity Sect stressed sullenly; her face was unsightly and she further tightened the sword in her grip.

“Hahaha! Why can’t we be here? Our master is smart and wise. After knowing what you girls have gone through, he asked us to tail behind until we are here. Heh! Didn’t you, the female disciples of the Supreme Clarity Sect, always feel that you’re above the rest? High and almighty. Humph! And now you want to live? Sure! We can spare your lives with one condition!”

Among the male disciples of the Cloud Sky Sect, there was a male disciple whose martial level had already reached the late stage of True God Realm. He could not help but laugh sarcastically while eyeing at these delicious female disciples before him with an evil and playful look in his eyes.’

“Really? You are willing to spare us?”

A female disciple’s eyes immediately lit up when she heard him as if she finally saw a glimmer of hope.

“Of course, it’s for real! We’re the disciples of the Cloud Sky Sect, we will keep to our promises!”

That man nodded with an evil grin plastered on his face.

“Brother Moo, this is not a good idea! These women, all of them are so f\*cking good-looking! It’d be such a waste to let them go! Are you sure?”

## Chapter 1651

Next to Brother Moo, stood a male disciple from Cloud Sky Sect. His forehead tightened and seemed unhappy about Brother Moo’s suggestion of letting the ladies go.

“Spill it! What’re your terms?”

The patronum of the Supreme Clarity Sect asked the other party, biting her pinkish lips.

The man, who the others addressed as Brother Moo, snorted coldly before saying his terms, "It's simple. Except for that fat b\*tch, all of you ladies will take off your clothes and dance here in front of all of us! Then we will spare your lives, how about that?"

"Aha! Brother Moo, that's an excellent idea! Hahaha! A good one! I, too want to witness what is hiding beneath these noble and pretentious ladies of the Supreme Clarity Sect. It would be fun to see them dance, haha!"

The male disciple from before laughed out loud upon hearing Brother Moo's terms and conditions. Excitement and anticipation were burning in his eyes.

"Dream on, you b\*stards! We, the disciples of the Supreme Clarity Sect, would rather die than do such a thing!"

The female patronum was so angry after hearing the terms that her face immediately turned white. The request from these donkeys were simply too much.

"We won't do it! I have always known that the disciples of Cloud Sky Sect are shameless and without dignity, but I never thought that you would be this shameless!"

The female disciple, who beamed at the idea of the other party letting them go just now, shook with fury and disbelief. Initially, she thought that the other party would only ask for the martial resources that they had collected such as spirited stone or grass, then they would be spared. However, little they expect for the other party to ask them to do such a thing. If that was the condition, she would rather die!

"Hahaha! Well. If you don't agree to our terms, you'll not only die in a moment but also you will be played with before you die. So, tell me, are you sure you don't want to accept our proposal?"

The man croaked deeply with an evil grin and a sinister yet confident look on his face.

"I-I don't want to die! I accept your

Terms!"

The chubby female disciple raised her hand and surrendered herself after thinking about the suggestion.

Those male disciples of the Cloud Sky Sect almost spewed mouthfuls of blood when they saw that the voice belonged to the fat female disciple.

"F\*ck off! You make me sick even when you're with clothes on, not to mention you without the clothes. Eww, gross!"

Brother Moo shot the chubby disciple a deadly glare and tightened the sword in his hand. With a sarcastic tone, he said, "Humph! These cheap sluts don't know what's good for them. Since they are not willing to dance for us, then we'll make them do it by force!"

"Ya! Make them do it!"

Another male disciple, who had long waited for the ladies to dance for him, stepped forward and rushed toward the women in a flash.

Swoosh!

However, just at this moment, a deadly sword aura flew from the side and halved the man, killing him alive.

"Initially, there were no grudges nor hatreds between the Supreme Clarity Sect and Cloud Sky Sect.

However, I declare that from today onward, Cloud Sky Sect will be the enemy of the Supreme Clarity Sect!”

Melody stared coldly ahead and announced in a heatless tone.

Chapter 1652

“Heh! What a snobbish attitude! Who are you to declare such...!!”

The leading male disciple of the Cloud Sky Sect-Brother Moo-clenched his teeth, turned around, and said in a huff.

However, he only finished half his sentence when he turned and saw who the speaker was. He took a sharp intake of breath and his eyes widened. The speaker was the Saintess of the Supreme Clarity Sect, and as the Saintess, she was indeed able to declare such a decision.

“Sacred lady... Oh my goodness! It’s our Sacred Lady Melody!”

Hopes bloomed among the female disciples of the Supreme Clarity Sect when they saw that the orator was the sacred lady of their sect. Their eyes reddened at the scene before them; they felt like they were lucky survivors from a holocaust knowing their sacred lady had come to their rescue.

“Wait, Young Master White is here too! Thank God!”

Some of them noticed the person standing next to Melody, it was Jack. They were full of hope now. Furthermore, Jack and Melody seemed to have a pretty good relationship, and as long as Jack decided to help them, none of those b\*stards from the Cloud Sky Sect would live through the day.

“Greetings, Young Master Jack and Sacred Lady Melody!”

The Cloud Sky Sect disciple chuckled awkwardly before putting on a smile on his face and said, “We were just joking with your disciples just now. Don’t take our jokes to heart. Besides, since a long time ago, the Four Great Ancient Clans and the Eight Great Hidden Families have a tacit agreement, each going their own way without interfering with the other and no hatred should be harbored between the ancient clans and hidden families, right?”

“Oh, you were just joking with them?”

Melody sneered and peeked at the injuries on the female disciples before continuing, “If I had come a little later, they would have died. Do you really think no one could hear you when you spewed those shameless words?”

When the last word fell, Melody injected her Chi energy into the sword in her hand.

Buzz!

As the Chi energy flew into the sword, the sword shook violently, emitting a buzzing sound, and the trembling of the sword grew stronger and stronger.

“R-run!”

The Cloud Sky Sect disciples naturally knew how powerful Melody was. When they saw that Melody was ready to slit their throats, they were terrified and turned around to escape.

“There’s quite a few of them. Let me help you!”

Seeing those guys trying to escape, Jack flew forward and swung his arm, chopping out two consecutive sword auras in the distance.

Boom boom boom!

With the two of them joining forces, those disciples of the Cloud Sky Sect were no match for them. In less than half a minute, they were all eliminated.

“Freaking strong! They’re invincible!”

“Right? Young Master Jack only swung his sword for two times and most of them are already killed!”

Some female disciples of the Supreme Clarity Sect looked at Jack admirably as though they were worshipping God.

When Melody saw that her people were worshipping Jack as if he was a powerful being who descended from heaven, she did not know whether to laugh or to cry. Normally, they would not behave like this, but now, each of them had turned into Jack’s huge fans; even worse, some of them were drooling over Jack and wanted to devour him as though Jack was a perfectly roasted juicy drumstick.

“Let’s go. We have to try to find our White family members as well as the people of the Supreme Clarity Sect!”

Jack frowned as he continued to fly forward with his people.

“A third-grade intermediate-level spirited grass!”

After flying for a short while, Jack spotted a third-grade intermediate-level spirited grass; he then flickered to the front of the grass and plucked it off. It was hard to find such treasure outside that piece of land, and he did not expect to be able to find such a treasure after roaming for only a few minutes.

Chapter 1653

Roar!

However, just as Jack was about to pluck that spirited grass, a horrifying flaming tiger sprinted out. With its jaw widely opened, it pounced onto Jack and spat a fireball out of its mouth toward Jack.

“Go to hell!”

While everyone was worrying for Jack, he abruptly stopped moving, then with a swift flicker, he appeared above the gigantic flaming tiger and smashed its head with his fist.

Boom!

A dull thud rang out, and the gigantic flaming tiger crashed heavily on the ground, forming a deep pit on the ground’s surface.

The cracks spread out of the deep pit and reached three meters in length, revealing the extremely powerful strength of Jack.

The colossal tiger struggled and squirmed for a few seconds in the deep pit, then laid lifelessly.

Swoosh!

After terminating the tiger, only then did Jack fly over and plucked the spirited grass.

“My goodness! His strike is so decisive and accurate! Moreover, I feel like this monster beast at the very least possessed the strength of true god peak level. Did he just finish it with a punch?”

Staring at Jack's back, Melody's eyes were in a trance.

A female disciple, on the other hand, could not help but frown, and pulled Melody to the side before saying, "Saintess Melody, I know it'll be safer for us to travel with Jack and his group. I also know that we have more people than he has, but...but we won't be able to attain any benefit if we follow him. That man is a second-grade alchemist, his spiritual power is incomparably strong, and his ability to sense and sniff out treasure is definitely more powerful than ours!"

Here, she paused before continuing, "It's indeed a lot safer traveling with him, but he will get his hands on the treasures faster before we could even have time to react. If this continues, we'll not be getting any benefits! Besides, it's not just spirited grass, what if there's some kind of treasure or martial technique out there that can help us break through to the ultimate god realm? And if there's only one of it, what happens then?"

Melody's forehead puckered together upon hearing the disciple's words. What she had said indeed made sense. Although Jack was kind to them and had saved their lives, he was still a member of the White family after all.

And if there was only one martial technique that allowed one to break through to the ultimate god realm, she did not think that Jack would let her have it when that time came.

"Let's do this!

Melody was silent for a moment, then she finally bobbed her head.

When Jack flew back to the crowd, Melody approached Jack, her movement awkward. "Young Master Jack, thank you for saving my life. Now that my injuries are completely healed, I think we should move separately. I'm going to find our sect master and the other disciples!"

Jack stood frozen for a moment, not fathoming why Melody would propose such an idea out of a

sudden. However, after looking at the spirited grass in his hand, realization dawned upon him.

He smiled at Melody before speaking, "All right. You are from the Supreme Clarity Sect after all. After you've met with your people, please let them know about the Bloodshed clan as well, so that everyone will be extra careful in this place. Those natives don't seem to welcome outsiders like us!"

"Sure, thanks for reminding me! Then, we shall take our leave!"

Melody nodded. There was some reluctance in her eyes, but she still departed from the group with her people.

"Saintess Melody, Young Master Jack saved our lives and he doesn't even mind that we're weak. He's not afraid of us being a burden to him, why don't we join him? He has such high combat prowess; wouldn't it be safer for us to travel with him?"

After some moment of thinking, several disciples of the Divinity Pavilion popped the question to Melody, their faces unhappy.

"It would indeed be safer for us to travel with him, but we're from the Supreme Clarity Sect after all. We have our own path to travel. Besides, if we continue to travel with Jack and his group while finding a treasure or a method that allows people to break through to the ultimate god realm, it would be difficult. The peaceful and harmonious relationship between us and them will be shattered by that time."

The disciple, who had called Melody aside and told her this theory, stood out and explained to the others before Melody could open her mouth.

#### Chapter 1654

Several female disciples were feeling sullen in their hearts, obviously desired to travel with their idol-Jack, but they also understood the situation; what Melody and the other disciple said made sense, after all, they were not from the same clan, so if they kept following Jack around, their sect master would definitely be unhappy about this.

“Why did they leave?”

Selena could not help but frown at Melody’s departure, her expression confused. “Wouldn’t it be safer for them to travel with us?”

Nonetheless, Jack returned Selena a bitter smile. “We are from different clans after all. We’re the White family and they belong to the Supreme Clarity Sect. Not to mention that people from the Four Great Ancient Clans have always looked down on hidden families like us. So, it’s humiliating for them to follow us and hide under our wings for protection. On top of that, if we travel together and find the treasure that leads to the ultimate god realm, we will fight each other to obtain the treasure. By that time, there’ll be no more peace and harmony between us!”

Selena finally grasped the underlying reason for their leaving. “Oh! So that’s it! They can’t compete with you in finding treasures and grabbing them. No wonder they left!”

“Hehe. Let’s go! We have to find our people. Also, it’d be inconvenient for us to travel with a group of women, plus, when we want to discuss something, we have to be aware of their presence. So it’s better for us to travel separately. They’re not the White after all!”

Nash put on a smile and expressed his thoughts.

After traveling in the sky for a while, Jack and the others found another third-grade premium spirited grass, and Jack remembered clearly from the ancient tome that the spirited grass was an auxiliary material needed for making a third-grade premium alchemical pill!

“This is great, this is so great! The Chi energy in this place is exceptionally rich and dense. So, third-grade spirited grass is common here but not outside. It’s almost impossible to find a third-grade spirited grass outside!

Jack’s spirits brightened; hope bloomed inside his eyes. “With sufficient spirited grasses and materials,

I'll have more chances to practice creating third-grade pills. Only with the opportunity of having enough material to keep creating the pills, will I have the possibility of success and be able to keep improving myself!" He tightened his fists and spoke.

Selena's forehead creased as she heard Jack's words. "But, Dear, now you're not able to refine a second-grade pill yet, and we need a fourth-grade pill to save my life. Not to mention about the treasure of the Crystal Cloud Clan; they're unlikely to hand it to us easily. Sigh! I feel...it's too difficult and a year is too short. Time flies."

"Second-grade pill is almost done, just that I have no time to refine it these few days. Don't worry, Dear. What we have to do now is to breakthrough to the ultimate god realm as early as possible, and then we'll collect more spirited grass and materials that can create pills. The more we gather these items, the better chance we have! Only in this way do we have hope to succeed!"

Jack smiled gently. He then led the people to continue flying forward.

"Master White, we finally found you! Oh my god, I'm so happy!"

After gliding in the air for a while, Jack and the group ran into several people, it was Kenneth, Titus, and some of the White family members.

"Great, great! It looks like the others are not far away from here! Let's continue to find our people! And there are sounds of fighting everywhere in this place, it looks like there are quite a few monsters here.

Also, people are starting to grab treasures!"

Nash bobbed his head in satisfaction as he said.

"Yes, there are too many treasures here. Just the presence of the third-grade spirited grass itself has made a lot of clans and families fighting each other for it. We ran into some people from the Divine King

Sect grabbing spirited grasses, but they were no match for us at all! Hahaha! And the third-grade intermediate spirited grass is ours in the end!”

Kenneth narrated the previous encounter with a warm chuckle.

Titus, who stood beside Kenneth, interrupted, with his forehead puckered. “Master White, I’m not sure why and how it happened, that the people of Cloud Sky Sect, Divinity Pavilion, and Gods and Kings Pavilion are here too. We met several of them on our way here, and of course, we killed them!

“Yup. It’s pretty complicated right now. Take that mountain over there as the center of this place, and I guess several different entrances are nearby here as well. Also, there’s a native clan called Bloodshed clan living here.” Nash bobbed his head as he spoke.

#### Chapter 1655

Nash then told the episodes that had happened to them to the White family members, sparing no details.

“What? How could these people of the Bloodshed Clan be so abominable? They dare to actually cast a curse on our Young Madam Selena!”

Rage pulsed through his vein and his fists tightened as Kenneth looked at the lump of black flesh on Selena’s face.

Selena was famous for her beauty, and the existence of such a big black spot on her face had practically destroyed her perfect face. It made everyone angry just thinking of it.

The most frustrating part was that there was only one year to remove this curse; if it was not removed, Selena would die. This newly learned information made them explode with rage.

“There’s nothing we can do right now. We don’t know how strong this Bloodshed Clan is; their weakest disciples are probably in the ultimate god realm, and they certainly have a few more men who are in the soul-penetrating realm. We don’t have the fighting ability to go against them right now even if we want to!”

A bitter smile crept onto Nash’s face as he spoke. The White family members then continued to search for spirited grass.

By the evening, Jack and the group had found several third-grade spirited grass. Although they had not found a fourth-grade one, they were satisfied with their findings. After all, these spirited grasses were all of the third-grade premium level!

Of course, during their search for the spirited grasses, they ran into the disciples of the Flying Eagle Sect; these disciples wanted to snatch the spirited grasses from the White family members, however, Jack spotted them and killed them within seconds. The White family had gradually grown stronger and bigger as they found several other family members.

At night, the group lit a bonfire outside a cave, while Jack stayed inside the cave to refine the second-grade premium pills.

In their scavenging journey-inside and outside, they had found many second grade spirited grass. So, Jack had more than enough material to refine the second grade premium pills.

After one failed refinement, Jack finally finished refining the second-grade premium pills at his second attempt. And right now, he was a second-grade premium advanced-level alchemist!

Jack made several more pills over the night and distributed them to several White family members who needed the pills. The next morning, the group left the cave and continued their adventure.

The crowd continued searching for treasures, and after gliding for a while, they found that there were more than a hundred people ahead flying toward them.

“It’s the Third Elder and the others! It’s them! Finally, we found them!”

Kenneth’s spirits were flying high that he could barely conceal his excitement upon seeing the Third Elders and the other members. He laughed out loud.

Similarly, when Lancelot spotted the crowd, he almost jumped for joy! He and his group quickly flew over to Jack and the others.

“Master White, it’s so great to finally reunite with you all!”

Lancelot looked at everyone, his eyes sparkled with excitement, and he was almost paralyzed with bliss.

Nevertheless, the excitement lasted for only a brief moment before his forehead knitted together.

“Master White, there are truly abundant treasures in this forest! This forest must be a treasure-hunting hotspot, and I suspect that there is already someone who has broken through to the ultimate god realm!”

## Chapter 1656

Awkward expression crawled over everyone’s faces upon hearing Lancelot’s words; the comers of their mouths twitched several times at the news. Someone had already broken through to the ultimate god realm that fast?

“Lancelot, is that true? Who is it? And what did that person use to break through? Was it some spirited fruit?”

Nash reacted first; he stepped forward and asked.

“Master White, it’s not some spirited fruit but a martial art technique! I heard that person is Master

Zachary! Just on the second day after he and his men entered this place, he found a martial art tome and acquired the technique in it. And very soon, he broke through to the ultimate god realm! He became arrogant and egotistical after breaking into the ultimate god realm. To get spirited grass and resources, he killed many people from the Ximenes and the Cabello family! Sigh! Especially the Lucas Family, they were very close with the Canmore family in the past!” Lancelot replied.

A young man chimed in, his tone fearful, “We saw it from afar, so we immediately wheeled around and flew away! Also, we found out one thing about the ultimate god realm! Once one broke into that realm, the Chi energy that he uses will carry a hint of gold color! And the attack power of this golden Chi energy is apparently several times stronger and more violent than our Chi energy!”

“Yup, we’re aware of this!”

Nash bobbed head, showing that he was listening, and a bitter smile plastered on his face.

“You knew about this? How did you guys know? Did you guys meet some strong person with true god peak level who had also broken into the ultimate god level?”

Lancelot was startled at Nash’s reaction. “Hold on. This...what happened to Young Madam Selena?” Only then did Lancelot notice the black spot on Selena’s pretty face; he frowned and said immediately.

“Sigh! It’s a long story!”

Nash had to start over again, narrating the incident to the rest of the White family members.

“Oh my, are there indigenous people here? Holy-moly! Those people should be the ones who came in a long time ago, right? Doesn’t that also mean that Bloodsh\*t Clan, whatsoever, might even have people with the power of soul-penetrating level?”

Lancelot was surprised after hearing it.

“Yup, they must have people of soul-penetrating levels, but not all of them have such powerful cultivation; it’s not possible that they are all of the ultimate god level. Those natives, who settled down here a long time ago, will have their offspring and their offspring were definitely not born with strengths of ultimate god level. The soul-penetrating level allows people to live up to 500 years, and I guess the earliest people who came in here are already long gone. Unless...unless there’s a higher cultivation level!”

Jack guessed after giving the matter some thoughts.

“You’re right. There may be many cultivators of grandmaster or martial artist level among the younger generations. If every one of them were of ultimate god level, then it’d be truly troublesome. It looks like those natives hate the outsiders. Luckily, Young Master Jack had killed two of them! Hehe. If it wasn’t for Young Master Jack’s powerful fighting prowess, those two natives would have returned to their clan and reported to their master on us! And we’d be in big trouble!”

Lancelot and the others were overwhelmed with emotion at this moment. This place, this forest, was indeed full of opportunities to break through to the ultimate god realm!

“Oh, right. Young Master Jack, we obtained a few third-grade spirited grass in the past two days. Please take a look and see if there are any suitable grasses for you to use for alchemy. If there is any, keep them all!”

Chapter 1657

Lancelot’s eyes suddenly lit up as some thoughts crossed through his mind. With a flip of his palm, he took out several third-grade spirited grass.

“Thank you!”

After assessing the spirited grasses carefully, Jack picked two of them and kept them into his martial ring. “I’m a second grade advanced level alchemist, and I’ll proceed with the creation and refinement of third

-grade elementary level alchemy after a few days.”

“Young Master Jack, you were able to kill two fighters of the first-grade ultimate god level, so this also implied that we won’t have to fear for the Canmore family when we run into them?”

A young fighter of the White family asked

With excitement beaming in her eyes.

“It’s hard to say. Everyone is in a race against time now. The breakthrough to the ultimate god realm itself may be more difficult, but once you make the breakthrough, your Chi energy will become richer and stronger. not to mention that there are a lot of third-grade spirited grasses here. So, if Master Zachary uses spirited grasses and trains himself desperately, he could break into the second or even third-grade ultimate god realm easily!”

Jack flashed a dry smile, and explained, “Besides, it’s true that I killed those two people, but I killed them separately, and it was a sneak attack. So, according to my own analysis and estimation, if I were to run into individuals of the first-grade ultimate god realm, I might stand a chance to defeat them, but if the opponent were of second grade, I’m not too sure about the outcome. I might be the one who will be killed!”

Jack paused for a few seconds before continuing in a confident tone, “However, if I break into the ultimate god realm, they are nothing to me!”

Nash patted on Jack’s shoulder; his face full of satisfaction. “Everyone is racing against time. Before this, those who were at the late stage of True God Realm did not have sufficient resources to train and reach the peak stage. Now, with abundant spirited grasses here and an environment full of Chi energy, it’d be easier for those people to train and cultivate. This is to say that they will be able to break through to the peak stage of True God Realm faster than before. And if they obtain the martial technique and break into the ultimate god realm, then I’m afraid that...

Speaking then, Nash chuckled aloud. "But, in my opinion, my son is the most talented and promising fighter! I have faith in you! Once you break into the first-grade ultimate god realm, your combat prowess could easily surpass anyone else, even those who are in the second-grade ultimate god realm!"

"Hmm. Let's go. We don't know when we'll obtain the technique to break into the ultimate god realm."

Jack breathed out a long sigh and said, "If.. if Master Zachary shared the technique to his people of the true god peak level and let them cultivate, then by that time the Canmore family will have more than one fighter of the ultimate god level! The moment we and the other prominent clans and families stepped into this piece of land, we are all destined to face the constant changes and shifts of overall combat strength among clans and families. The situation is ever changing, And it's hard to conclude which clans and families will grow faster and be the strongest among all!"

Boom Bang Pow!

At this very moment, in the sky not far away from them, a terrifying battling sound pierced through the air, accompanied by a deafening roar of a monster beast.

Jack hopped into midair to take a look, and he was shocked at the sight. "Someone from the Cabello family is being chased by a monster beast!"

"We have to help that poor Cabello. The Cabello family has a good relationship with us. Besides, Young Mistress Cabello is close to Young Master Jack! Hehe!"

As soon as Lancelot heard Jack's exclaim, he expressed his thoughts with a playful smirk on his face.

CHAPTER 1658 WIP

After Lancelot finished speaking, he flew up with a smile and came to a big tree.

After he clearly saw the huge ape monster in front of him, he couldn't help swallowing the saliva fiercely. Looking at this, the terrible breath of the monster was already comparable to the feeling of heaven and gave him a strong sense of oppression.

"No way! This monster is almost dozens of feet tall. This power and speed are too scary!"

Nash also flew up. After looking at it from a distance, his face was called a gloomy face. He immediately looked solemnly at Jack, who said, "Jack, this monster is too powerful. I'm afraid you may not be its opponent!"

Jack frowned and then said, "Even if I can't beat it, it should not be difficult for me to hold it. After a moment, you take the people of the Cabello family to go first. If you see the mountain far in front of the right, we can gather there!"

After thinking about it, Jack did a flash and flew out with a flying sword.

Although they are far apart, he has seen several familiar figures from the Cabello family in the distance. It is impossible for him to die!

"Be careful!"

Nash looked at Jack's back and felt a little worried.

"Run, everyone!"

Alejandro swept out with a sword in front of him. His gray face, his eyes were full of horrible blood, and he shouted at the Cabello people in front of him.

"Roar!"

The huge ape monster roared directly, and the sound was called a resounding from the world, and it immediately punched it below.

"Master, help me!"

Several people from the Cabello family, flying a little slowly, were directly hit by huge fists, exploded at once, turned into a piece of flesh and blood, and fell from the air.

"Boom! Boom!"

The attack of Alejandro and Daniella has fallen on the huge monster. However, the body of this monster is not only extremely tall, but also hard and similar, so that the attack of the two left only two small openings on the other side.

Two cuts, each 20cm long, such a wound, if it is replaced by a smaller monster, it must be extremely terrible.

However, for this huge monster comparable to heaven, it is nothing at all.

Elsewhere, there are many wounds, with blood penetrating from there little by little, and the pain from the body angered the monster in front of it and made it roar terribly again.

"Roar!"

After killing several Cabello family people with one punch, the huge monster suddenly squatted high and jumped directly into the sky nearly 100 feet high. Then he smacked his fist and hit Daniella below.

"No, Daniella , run!"

Seeing the monster go straight to Daniella, Alejandro was shocked and shouted immediately. He stopped, And terrible sword spirit went straight to the monster and cut it over, trying to attract the monster's attention and attract the monster to himself.

Unfortunately, after the sword gas fell on the giant ape, it was completely ignored by it. There was no dodge and carried it down. The huge fist was still straight to Daniella.

"No!"

Seeing the huge ape fist, it was getting closer and closer to Daniella. Alejandro's eyes turned red, and tears almost flowed down. Before that, dozens of Chu people had been killed by the giant ape. Now his daughter is going to die in the hands of this beast. Alejandro's heart It's really dripping blood.

"No!"

Daniella looked up and looked at the huge fist. Her eyes were full of fear, scaring her face.

"Jack, let's see you in the next life!"

CHAPTER 1659 WIP

At this moment, a figure in her mind appeared again. It was a handsome figure with a man's perseverance on her face. Although he usually looked serious, he always appeared at the most dangerous time and saved her.

Unfortunately, I will never see this figure again.

Just when the fist was getting closer and closer to her, only more than ten meters, Daniella saw a dark shadow flashing, and directly punched the opponent.

"Who is it? Isn't it to kill you to fight against this monster?"

Seeing this figure, Daniella's mind came to such an idea. The only thing she could be sure of was that her father was quite far away. Obviously, he didn't have time to rush to help, but she didn't know who the sudden person was.

The next second, Daniella actually found that this figure was so familiar. Soon her heart trembled slightly, because this figure was completely integrated with the figure she wanted to see the last side in her heart.

"Jack!"

Alejandro in the distance also felt like a dream. He rubbed his eyes, but Jack unexpectedly appeared at this time.

"Ah!"

Jack clenched his teeth and his fists surging. He looked less than the monster's fist.

"Go!"

Jack insisted that he felt this terrible pressure for the first time. This monster is comparable to the first grade of heaven, and its combat effectiveness must be comparable to the combat effectiveness of the second grade of human monks. Let's not talk about anything else, at least this strength must be

comparable to the physical strength of the second grade monk of human beings.

He turned back and shouted at Daniella, gritted his teeth, and his eyes were full of a kind of madness.

"You, be careful!"

Daniella knew that if she would stay, she would certainly only drag Jack down. She flew quickly to her father's side and looked back from time to time.

She and Alejandro were shocked. Jack, the guy, temporarily blocked the terrible punch of the great ape.

"Miss Three, run!"

There was an elder who flew quickly with Daniella, and finally came to Alejandro and others.

"Dad, what about Jack? He is definitely not an opponent alone!"

Daniella looked worried. Jack's appearance saved her, but she did not want Jack to die here to save her.

Alejandro gritted his teeth: "We must believe him. He lets us run away, just run!"

"But..."

Daniella looked at Jack. At this time, Jack was obviously about to be unable to hold on.

"Go, not that much, but!"

Alejandro gritted his teeth and shouted.

"It's a 'Don't!"

Daniella was very helpless, but she still turned around and reluctantly followed Alejandro and others to fly forward.

"Bang!"

After a while, Jack finally couldn't hold on. The other party's powerful force hit him to the ground and hit a deep pit.

CHAPTER 1660 WIP

"Master White, why are you here?"

After flying for a while, Alejandro and others finally met Nash and others.

Nash frowned and pointed to the mountain in the distance and said, "Let's go. I believe my son. He will definitely hold the monster. He said, let's wait for him at the foot of the mountain over there. As long as he is not dead, I believe he will catch up soon!"

"Unse father white, Jack is alone. I'm worried..."

Daniella bit the sexy red lips and frowned.

"Don't worry, we can't help much if we stay! Let's go!"

Nash smiled and said.

"Sister Selena, is this on your face?"

Just after flying forward for a while, Daniella found the black spots on Selena's face. She asked slightly in a little consternation. She could see that this is definitely not an ordinary black spot. If it is just an ordinary black spot, it is impossible to grow on the face of the practitioner. According to Jack's magical medicine, it is impossible. There is no way to solve it for Selena.

"Let's talk as we go!"

Selena smiled bitterly, and everyone flew into the woods and went straight to the direction of the mountain.

"Grandma's, a heavenly monster, really not simple! Too powerful!"

After Jack was bombarded on the ground, he almost didn't spit out a mouthful of blood.

He stood up, shook his numb wrist, and rushed straight up again.

"Roar!"

Jack's punch was followed, which made the already angry ape even more angry, and the violent atmosphere emitted from his body was also more obvious.

"Bang!"

Jack took another punch and was bombarded out by the ape again. After a hard time, he stabilized his figure.

"Good boy, since you have suffered so much injury, I might as well add some more to you!"

Jack turned his palm, carried the sword, injected the reiki into it, and then chopped it out with a sword in front of him.

"Wave Sword!"

With Jack's soft drink, a reiki flying sword appeared, and flew out to the huge ape, forming a sword dragon.

"Roar!"

When the giant ape saw such a terrible attack as Jack, his huge arms kept waving, and soon hit a flying sword into powder.

However, there are too many flying swords. There is still a part of the flying sword, which directly landed on the great ape, blowing up the openings on its body again.

However, these openings caused by Jack to the great ape are obviously much greater than the kind of damage caused by Alejandro and others before. The wounds look like they are shocking, and blood keeps flowing from there.

"Roar!"

## CHAPTER 1661 WIP

The great ape roared and shook it directly. The aura on the palm converged into a light red aura light ball. After the light ball appeared, it flew straight to Jack.

"This beast still knows how to attack like this!"

Jack didn't dare to be careless at first glance, and another wave sword was stretched out. After a long time, it blocked the opponent's attack.

After blocking it, he looked at the distance again, and he was relieved. At least Alejandro and his people have now flown far away. It is not so easy for the great ape to catch up with him. As long as he persists for a while, Selena and others are safe.

Of course, the premise is that they will no longer meet more powerful monsters. In this forest, there are many treasures, but there seem to be many powerful monsters, comparable to Ultimate God Realm monsters, but I didn't expect that there were also them.

"There is no need to fight with the beasts. If I delay for a while, I can escape. This guy is bulky. Although the speed is not slow, I have a sword and just fly in the other direction. It is full of injuries. If it keeps bleeding, I'm afraid it won't continue to chase me after chasing him!"

Jack soon thought of something, and a smile on the corners of his mouth aroused a smug smile. Seeing the giant ape punched again, he directly flashed to the other side, and then a sword on the back of the great ape, leaving a wound again.

"Roar!"

The great ape roared, and the injured became more and more angry. He suddenly slapped Jack again with a backhand.

"Boom!"

Jack immediately stepped back and took another sword. A terrible sword spirit flew out, but it was patted by the great ape.

One person, one animal, fought for several minutes, and Jack also found the opportunity from time to time, leaving shocking wounds on the ape.

Jack could feel that the great ape seemed to be exhausted. Judging from its attack speed, it was obviously not as good as before. He believed that as long as he persisted for a period of time, he might consume the great ape.

However, at this time, it was obviously not easy. Although he was not hurt, the aura in his body was consumed a lot because of constant attacks. Similarly, he should be vigilant at all times. This feeling is not good. If you don't pay attention to it a little, he will be firmly formed by this ape. If so, that will be troublesome.

After all, his body is not comparable to this great ape.

It is estimated that the time is almost enough. Jack no longer continues to waste time here. He directly controls the flying sword and turns to Selena and others to escape in the opposite direction.

Seeing Jack want to leave, he was not a very big ape with great wisdom. He thought that Jack's reiki had almost been consumed. He had been injured. Naturally, he chased Jack without thinking about it.

"Boom!"

Jack kept flying in front of him. Behind him, a huge object kept beating the ground, and deep pits appear one by one. Many tall and incomparable trees were also directly broken by the waist. The great ape rushed across, destroying everything under his feet all the way, which seemed very violent.

However, Jack has the help of the best spirit weapon, and the speed is naturally fast. In addition, the blood flowed on the ape, the speed of the ape is getting slower and slower.

Finally, the great ape could only look at Jack, gradually opened the distance and disappeared in front of its eyes.

"Ha ha, kung fu, it's kung fu!"

"It's mine!"

Jack flew forward. When the reiki was almost recovered, he continued to look for treasure. Unexpectedly, he was just about to take a detour to Selena and chase him in the direction, but heard a fight coming from the front.

"How to do it?"

When Jack heard these two words, even his breath became a little short. Is there a skill that breaks through to Ultimate God Realm that can attract the crowd in front of him to compete?

CHAPTER 1662 WIP

The word "kung fu" made Jack's heart boil with blood. He flew along the voice and found that there were many masters here to grab it.

Among them, there are several elders of small families, in addition to several elders of the Lucas family and several elders of the Canmore family.

In the middle position, there is an ancient stone platform. Above the platform, there is a light blue light ball, in which there is an ancient book floating in it, obviously mostly a skill.

"It seems that this forest is indeed a good treasure hunt place, and it is really good!"

Jack is about to fly out in a flash.

However, at this time, in the other direction, the head of the Canmore family, rushed out of the woods next to him and went straight ahead.

"Ha ha, the skill is the skill, this skill should also be our Canmore family!"

head laughed, not fast enough.

"Don't think!"

There is an old man in the late stage of the Lucas family's realm. His cultivation is quite good. Seeing that he is very close to that skill, he did not expect that at this time, master would suddenly kill him.

He immediately turned around and was about to stop the other party.

"Looking for death?"

eyes were slightly condensed, with a little disdainful color. With a grip on his fist, the aura poured out, with a faint golden color.

"Boom!"

A strong man who was about to break through to the peak of the realm was blown out by Zhuge Master, hit the ground heavily, spurted blood out, and died.

"Sky-level cultivation!"

Many people exclaimed one by one when they saw this situation.

And master also knew that his combat effectiveness would scare everyone. Instead, he stopped without worry and put his back on his back and said, "Ha ha, you never thought that Zhuge Hongyun would be the first person to break through to heaven-level cultivation, right? However, I'm sorry, I want this skill. For our elders of the Canmore family, we can have another strong man with Ultimate God Realm!"

"It's a 'Don't!"

However, what Zhuge Hongyun never thought was that at this time, someone dared to rush out directly against the skill.

"Can't you find death?"

Seeing that the other party was getting closer and closer to the skill, Zhuge Hongyun was so angry that he immediately shouted softly and glared at the front.

However, Jack did not intend to stop. He flew directly to the photoball, grasped it hard, crushed it, and took the skills inside in his hand.

CHAPTER 1663 WIP

"Did, don't you hear that I am on the Ultimate God Realm?"

Zhuge Hongyun gritted his teeth and felt that the guy in front of him was too disreheing.

"Jack?"

At this time, Jack also slowly turned around, and Zhuge Hongyun also recognized the people who came.

"Zhuge, this thing is a masterless thing. Now I have grabbed it, so that's mine!"

Jack smiled faintly and looked at Zhuge Hongyun in front of him and said.

"Ha ha, little brother Jack, I really didn't expect it, it's really you!"

At this time, another elder of the Canmore family, who was at the peak of the real world, laughed first:  
"When you are outside, your combat effectiveness is the highest, and everyone respects you. That's because you have to be respected. After all, even our masters, perhaps even the masters of the four ancient sects, are not your opponent so everyone listens to you!"

At this point, the old man paused and then sneered, "However, after we enter here, the situation is different. Especially since our master is now a strong man of Ultimate God Realm. Do you think we still need to give you face?"

After listening to this, Jack sneered in his heart and ignored the other party. Instead, he looked at Zhuge Hongyun: "Zhuge Master, what do you think? Are you elders right?"

master showed his hands: "Isn't this an obvious fact? This world is so cruel. Whoever has a hard fist has the right to speak. Haha, let's not talk about anything else, Jack. Before that you said that our Canmore family did not go to Windy Island with you, and there was no bullshit agreement, so when you go to your White family, let's only three people in. Other people who have a good relationship with you can enter. Go to twenty people, in this regard, I have already seen you unhappy!"

master smiled coldly and continued, "However, what else can we say if we knew you were good at the beginning? But now, the times have changed. Zhuge Hongyun is lucky to be the first strong man to break through to the heavenly level of cultivation. No matter how powerful you are, you can't be my opponent. If you are funny, you'd better hand over your skills.

"Zhuge Jiazhu, are you too inhuman?"

There was an old man from the Lucas family who couldn't stand it any more. He couldn't help but say, "This time, you can come in here and break through to the Ultimate God Realm. Jack has made great contributions. If they hadn't found this place, they could have come in with those of our forces who had not received stone balls. In this case, do you have a chance to break through to the Ultimate God Realm?"

Another second-class family owner couldn't help but say: "Yes, Zhuge Master, you can enter here and break through the current cultivation. Master Jack has a lot of credit. If you don't appreciate it, just forget it. Isn't it good to say such a thing?"

"Ha ha, what's not so good about this?"

However, Zhuge Hongyun laughed: "I can enter here, which is also my life. I'm lucky, I'm lucky, can't I?"

At this point, he pointed directly to Jack and said, "Today, I will not only grab the skill, but also kill this boy. This boy's talent is amazing. If he gets the skill, it may not be a few days later, he can break through to the cultivation of heavenly grade. At that time, the cultivation of heavenly grade. I'm afraid it's hard for him to be his opponent!"

"Yes, yes, the master is so right. Grab the skills for us. At that time, more people in our Canmore family will break through to the Ultimate God Realm. Haha, in the future, our Canmore family will be the masters here. At that time, do you family's dare not listen to us?"

The old Zhuge parents at the peak of the real world laughed, his eyes were full of excitement, and obviously they had begun to look forward to a better future.

"It's really beautiful!"

Jack said with a cold smile, "Have you forgotten the strong people who entered here many years ago? Even if some people have died after many years, will their descendants practice in such an environment, will there be fewer strong people in heaven and strong people in the soul world? Still want to dominate here, dream!"

#### CHAPTER 1664 WIP

Hearing this, Zhuge Hongyun's mouth immediately twitched a few times fiercely. Unexpectedly, he forgot about this matter and forgot about it. There are many predecessors. Now their descendants are also breeding here. I don't know how many forces there are.

However, he soon laughed again and said, "I don't care. Anyway, I am the first to break through the people we come in with. In the future, no matter what the ancient sect or your family forces, you must obey my words. I want to establish a big force!"

Jack smiled coldly: "The idea is very beautiful, and the reality is very boney. For example, if you can't get through this skill!"

While Jack spoke, his palm turned so much that he directly included the skill into the commandment.

Of course, he also glanced casually at it. The ancient book said that Ao Longjue sounded good, but he didn't know what the skills were, but it was definitely the skills that could break through to the heavenly level.

"Is it? I really didn't expect that in the face of me, a strong man with Ultimate God Realm, you didn't take the initiative to beg for mercy. In this case, I'm welcome!"

Zhuge Hongyun felt a little surprised. With a clench, the faint golden aura on it surged, and then he flashed to Jack's front of him and hit Jack angrily.

"Young Master Jack is powerful, but in the face of the strong cultivation of heavenly level, I'm afraid he is not the opponent. The aura of this Ultimate God Realm is obviously different, not only the color is a little different, but also the fluctuation of the aura is not the same. This seems to be only one step away, in fact, in fact, There is a big gap!"

There was an old man of the Zhou family who couldn't help sighing in his heart that if Master Jack chose to escape, he might have a chance to escape with him with the help of the best spiritual weapon.

However, this guy looked like this. Not only did he not choose to escape, but he actually wanted to fight with the other party. Isn't it looking for death?

In the face of the opponent's unreciated punch, Jack did not dare to be careless. Although he almost killed a monster comparable to heavenly grade before, Zhuge Hongyun in front of him is also a Ultimate God Realm. Once he is careless, he may kill himself.

Jack's fist was full of aura, and one punch was directly bombarded with the opponent.

"Boom!"

As the fists of the two people bombarded together, a terrible roar sounded directly, and a powerful

wave also emanated from the junction of their fists, and the surrounding fluctuations made the leaves on the ground fly with them.

"Well, what's the reason to bombard our master?"

The elder of the Canmore family, after seeing this scene, hummed coldly and his face was full of complacency.

However, the next second, his smile completely solidified, because the scene of Jack being bombarded did not appear in his imagination. The person who was bombarded was Zhuge Hongyun, the owner of their Canmore family.

"No way!"

Not only him, but also the onlookers around him were also surprised. The boss with an open mouth almost petrified on the spot.

"The Zhuge master of Tianyipin was actually blown away?"

Someone swallowed the saliva for a long time before he said such a word in a trembling voice.

"Impossible!"

CHAPTER 1665 WIP

master flew out ten feet backwards, which barely stabilized his figure, and his heart surged into waves. He looked at Jack incredulously. He thought that he had broken through to the Ultimate God Realm, and Jack would definitely not be able to beat him. However, the person who was blown up was himself.

Jack looked at his fists, but his eyes were a little more surprised: "It seems that your combat effectiveness, which has just broken through, is really not good. It's really not comparable to the monster of that grade! It's a little far!"

"Ye, Master Jack, what do you mean? Have you fought with the monster of Ultimate God Realm before?"

The old man of the Lucas family beside him was once again surprised by Jack's words. He was a monster with extremely powerful physical strength, and his ability to resist attacks was far from comparable to human beings.

I'm afraid that a monster with a celestial level and one product can be subdued by several human monks.

"If I don't think it's troublesome, I'll kill the monster!"

Jack looked at the other party and answered truthfully. The expression was called a plain one.

However, his plain sentence shocked everyone present again. Jack actually said, "It was troublesome, so did he let the monster go?" This breath is too big.

"Impossible! Boy, you must be lying!"

Zhuge Hongyun immediately clenched his fist and glared at Jack and said, "Huh, bastard, do you think I will be afraid of you and let you go? Dream, I just underestimated you. You don't know at all that if we are strong in Ultimate God Realm, the aura in our bodies, if displayed, is not small for the improvement of martial arts combat effectiveness!"

Zhuge Hongyun said, and directly took out a sword, which was actually the best spiritual weapon.

"The best spirit weapon?"

Jack's eyes lit slightly when he saw it.

"Ha ha, boy, do you think you are the only one? This best spirit weapon, I got in this forest, may be much better than the one in your hand. Well, with this treasure and my current cultivation, I don't believe it. I can't kill you!"

Zhuge Hongyun smiled, and he was obviously more sure of holding the best spirit weapon.

"Your sword is good, but it seems that it is relatively small, and it is obviously suitable for women to use?"

Jack couldn't help laughing.

Zhuge Hongyun's mouth twitched slightly. This treasure is indeed suitable for women and obviously for women. However, of all his weapons now, the highest level is the best spirit weapon that he only got yesterday.

He gritted his teeth and pointed his sword at Jack: "Well, this sword is really not easy to use, but it can improve my combat effectiveness. I killed you later. The sword in your hand is naturally mine!" Haha, don't worry, I will use your sword to kill your White people, including your father and your women!"

Jack also sneered: "I'm afraid you don't have that opportunity. The sword in your hand is quite suitable for my wife. If such a gift is given to my wife, I believe she will like it!"

Jack said, injecting reiki into the sword in his hand, and the sword made a soft sound of sword, and Jack's somewhat obscure momentum was also climbing up little by little. For Zhuge Hongyun's ungrateful guy, he would never be soft.

## CHAPTER 1666 WIP

"Ha ha, you still want to grab the sword in my hand?"

After Zhuge Hongyun listened, he was listening to a big joke and quickly injected the reiki into the sword. One sword was cut at Jack in front of him: "Flying dragon cut!"

With Zhuge Hongyun's soft drink, in front of him, a large sword spirit flying dragon soon appeared.

After the appearance of the flying dragon, it actually carried a faint golden color, giving people a sense of hegemony.

"Ha ha, boy, just wait to die. This is our master's most powerful move. Coupled with this time, his cultivation and the increase of this sword, humph, see if you are not unloaded?"

The elder of the Canmore family laughed again, his eyes were full of madness.

"Wave Sword!"

Jack smiled coldly and also injected reiki into the sword and cut it out in front of him.

"It's a 'Don't!'"

A reiki sword with a handle appeared and rushed out in front of him, like a terrible sword dragon. From a distance, it looked like two sword dragons impacting together, to divide them into height and bottom.

"Boom!"

A terrible roar sounded. Unexpectedly, Zhuge Hongyun's attack, whose cultivation had reached the top grade of heaven, was only a few seconds deadlocked in front of Jack's attack, and gradually defeated by Jack's attack, and then completely defeated.

"No, it's impossible. Is my attack not as good as his attack?"

Looking at his sword-spirited dragon being defeated little by little, Zhuge Hongyun shook his head one after another, his face was full of incredible color, and he could not believe it at all. After breaking through, he was still not Jack's opponent after the help of an excellent spiritual weapon.

"Boom!"

The terrible roar continued to sound, and Zhuge Hongyun's sword spirit flying dragon was finally defeated by Jack's attack, turned into powder. Jack's attack was still one-third of the flying sword left. He rushed straight to him and had already reached his face in a blink of an eye.

Seeing the flying sword coming straight, Zhuge Hongyun was scared and stood on his head. Seeing that he had no time to perform martial arts again, he could only grit his teeth and quickly condensed a thin reiki light mask outside his body.

After the reiki mask was condensed, Zhuge Hongyun's heart was also relieved.

He believes that with his own reiki mask, it should not be a big problem to block Jack's next attack. After all, the reiki he has cast now is different from the previous reiki, but it is more or less gold, so that the mask on his body now looks like a kind of Light golden yellow.

"Boom!"

Just after his reiki mask was condensed, the terrible attack fell on his mask and made a terrible roar.

"Click!"

The first flying sword was resisted. However, Jack's second flying sword fell directly in the same position and directly broke it. A crack appeared, which spread constantly and finally dissipated.

"No!"

Zhuge Hongyun's eyes were big. He never thought that after Jack launched an attack, after such a long distance, he could easily control the flying sword so that the flying sword could attack at the same point. This can only show that Jack's spirit is really too powerful, at least harder than him. Too much harm.

"Boom!"

A flying sword with a handle fell directly on Zhuge Hongyun's body, and he flew out backwards.

CHAPTER 1667 WIP

Zhuge Hongyun kept spitting blood in his mouth. Finally, on his chest, he was directly bombarded out of a blood hole and hit the ground. His eyes were still filled with fear before he died. He lay there, but he did not move.

"No way, Zhuge Hongyun was actually killed?"

"Yes, looking at this, Master Jack did not lie before. He really has the ability to skip the level to kill the enemy. Moreover, he can actually kill the strong man of heaven and grade at the peak of his real real

world!"

The people around them were shocked one by one. This scene was unexpected by them.

"Gul!"

Several people of the Canmore family looked at each other one by one and swallowed the saliva fiercely.

And the elder of the Canmore family before, who also thought of something first, turned around and went straight ahead to escape.

He is not stupid. With what he said before, I'm afraid Jack will not let him go.

"It's a 'Don't!"

However, a sword spirit caught up directly, and the speed was so fast that he was killed in an instant.

In addition, the Canmore family members also failed to escape, and were directly killed by Jack.

The other family members turned pale with fear, because they didn't know whether Jack would continue to attack them. After all, everyone has been in for two days, and they got some three kinds of spirit grass or something more or less. In case Jack wanted to kill them and rob the treasure on him, then I'm afraid none of the people here can escape.

"Ye, Master Jack, can we go?"

There was an old man of the Lucas family, who had been helping Jack speak before, and finally

summoned up his courage and asked Jack softly.

Jack looked at each other's party and nodded gently: "You go!"

"Thank you, Master Jack!"

The people around them, one by one, breathed a sigh of relief and quickly prepared to fly forward.

"Wait!"

However, as soon as they flew not far, they heard Jack's voice again.

The people who had just flown out not far away took a breath one by one, scaring their backs to get a little cold. Could it be Jack that he could not go back on his word so soon?

"Ye, Master Jack, what else can I do with that?"

Everyone looked back at Jack in a little fear. As long as Jack did not kill them, at worst, he would hand over the three pieces of spiritual grass he got. Almost at this time, everyone thought so in their hearts.

Jack smiled and reminded everyone: "By the way, I also said before, in the world we came in, there are strong people who came in before, their descendants, etc. They are considered indigenous people here now. There are many strong people, and even sent two people to guard the entrance here, but no one knows what's the reason. The people we came in did not appear at the entrance. I guess it was caused by the formation time being too long. Everyone was just separated. But those people are not friendly to us. When you meet your masters and yours, you must tell them, be careful!"

Speaking of which, Jack paused and then continued to say, "However, those two people were killed by me. Now this forest is basically safe. Everyone try to find resources and improve their cultivation!"

"Thank you, Master Jack, for reminding me!"

After listening to it, everyone was relieved one by one. Originally, they thought Jack regretted it, but unexpectedly reminded them kindly, which made many people's hearts, and their manners, have to look up at Jack again.

Jack smiled and then flew down to get his own trophy.

CHAPTER 1668 WIP

"There are really three kinds of spirit grass in Zhuge Hongyun and Najie!"

Jack brought all the treasures in the other party's Najie. After he brought Zhuge Hongyun's Najie, the harvest actually showed a satisfied smile on his face.

It seems that after Zhuge Hongyun became a strong man of Ultimate God Realm, he was afraid that he robbed many other people's things, but he did not expect that he would die under Jack in the end, but instead, Jack got a lot of benefits.

"Go, there is a skill. They went to find the rhyme of poetry!"

What makes Jack most excited is naturally that he can break through the heavenly level of cultivation. Zhuge Hongyun's skill can be completely given to Nash and them to practice. In addition to this set, he also has a set of skills in his hand, which can be called perfect.

Nash and others finally came to the foot of the mountain the next morning, and also met a lot of spiritual grass along the way. Fortunately, the monsters they met were not particularly powerful. In addition, with the help of Alejandro and others from the Cabello family, they came here very safely.

But along the way, Daniella and Alejandro and others were all very worried. After all, the monster's body was too strong and very anti-ant.

"This mountain is too big. Waiting at the foot of the mountain, and it's also very wide. If we wait here, can he find us? Besides, how many days will it take?"

After a while, a man from the Cabello family couldn't help asking, "In case, in case Jack was killed by the monster, we don't know that it's impossible to wait here all the time, right?"

Hearing this, Daniella was so angry that she stared at the other party fiercely: "What are you talking about? Jack is not going to die. Even if he can't kill the monster, can't he escape?"

The man immediately smiled bitterly and said, "Miss Three, don't be angry. I'm just saying that in case, in case, Master Jack was in danger to save us. Naturally, I don't want him to make any mistakes!"

"It must be all right. I said it would be fine, so it would definitely be fine!"

Daniella pouted and sat down under a big tree: "We'll wait here, at least five days!"

Alejandro and others are ashamed, five days, which is a little too long. After all, if Jack is alive, he can't have not caught up for so long.

"So, you are here!"

Unexpectedly, at this time, Jack stepped on the flying sword and finally found them.

"That's great. I knew it. You'll definitely be fine!"

Seeing Jack coming, Daniella immediately got up, smiling: "You fought against the monster to save me. If you die, I'm afraid I will feel guilty in my life!"

"Don't worry, the monster was almost consumed by me. I don't want to waste time. I just left."

Jack jumped off the flying sword, then put away the flying sword and said to everyone, "Guess, who did I meet later?"

"Who did you meet? It's not my sister, is it?"

Daniella frowned and guessed.

"No, I met the old guy Zhuge Hongyun and killed him and several Canmore family members."

CHAPTER 1669 WIP

Jack shook his head and came to Selena. Then his palm turned over, took out the smaller sword, and handed it to Selena: "Wife, this sword is just for you, just suitable for women, or the best spirit weapon!"

"Is it?"

Selena's eyes lit up, happily took over the sword, and looked carefully: "It's really good-looking, or the best spirit weapon, husband, you're too awesome!"

Daniella, beside her, was vaguely envious when she saw the love of the couple. Although Helena broke up with Jack, many people know that they are not lovers.

But her relationship with Jack, but now no one knows about them, which makes her heart a little sour.

At this time, Jack took out a skill and handed it directly to Nash: "Dad, this skill I got from Zhuge Hongyun. I took a look. This skill can not only be cultivated to the heavenly nine products, but also to enter the soul world. Haha, you take it!"

"Mys!"

Hearing this, everyone took a breath of cold air. Unexpectedly, Jack got such a powerful skill.

However, think about it, Zhuge Hongyun can break through to the heavenly level of cultivation, naturally because of this skill, and Jack killed him. How can such treasures be unwanted?

"That's great. Let's copy two more copies later. The elders, the elders, the second elders and the third elders can all practice. If they can break through to the heavenly level of cultivation, it would be perfect. Our White family must walk ahead!"

Nash laughed and his eyes were full of hope.

"That's great. If I can break through to the heavenly level of cultivation, I will have a longevity of 200 years!"

After Ye Wu crazy listened, it was a happy one. Now he is in his seventies and has long been looking forward to such a day.

"I found that after Zhuge Hongyun broke through to the Ultimate God Realm, his whole person looked several years younger and in good spirit!"

At this time, Jack said with a smile, which made the people here more excited one by one.

Alejandro and others beside him, that's called an envy, opened their mouths, but were embarrassed to open their mouths.

Jack has seen through the other party's thoughts and smiled at Alejandro and said, "Master Cabello, when the time comes, I will give my father this skill. Come and copy it. After all, we are also friendly forces. Last time, thanks to your marrow washing psychic water, it was my father-in-law, mother-in-law and my mother who could successfully practice and become a practitioner!"

Hearing this, Alejandro's heart was ecstatic and immediately said, "How can this be good?" Well, thank you!"

"Ha ha, we can still trust the Lord Cabello family. We entered here together mainly for heavenly skills. I don't want our two families to grab them for the sake of skills or something. We have skills and practice together. Maybe we can help each other in the future. After all, we are not very clear about the specific situation in this!

Nash laughed and said to Alejandro.

"Yes, yes, yes, we must help each other!"

Alejandro nodded one after another. The people of the White family were actually willing to take out such treasures and share them, which made him grateful.

Jack looked at the sky and then said, "Let's go. For the safety of the next road, let's find a bigger cave first, hide in it and practice well for a period of time, and see if we can strive to break through to the sky-level cultivation as soon as possible!"

CHAPTER 1670 WIP

Jack and others found a more remote cave, let several people patrol outside and leave guard, and others hid in it, and several of their masters of the peak cultivation in the real real real realm began to prepare to try to break through to the heavenly level of cultivation.

Nash originally wanted to copy a copy of the skill to Jack, but unexpectedly, Jack still had one in his hand.

Jack sat down cross-legged and carefully looked at the skills in his hand.

In front of this skill, it is described very powerfully. As long as you practice this set of skills, you can make your body very powerful. You will nourish the body with reiki all the time, and even a reiki whirlpool will appear in your own body, so that the whirlpool will keep rotating, even if it is not practiced in the future. When sleeping, the whirlpool will also keep rotating, and a little bit of initiative helps the practitioners absorb the aura between heaven and earth.

However, the only drawback of this skill is that ordinary people really can't practice, and they need people with relatively strong mental power to practice, because when this small whirlpool is condensed, it is not something ordinary people can do for the control of spiritual power.

Because he couldn't wait to break through to the heavenly level of cultivation first, Jack did not look at the content behind this skill, but thinking that the skill was very powerful, he was ready to practice this skill.

As soon as his palm turned over, he directly took out a second-grade elixir, then swallowed it, closed his eyes, and according to what was said in the technique, he began to let the aura emitted by the elixir step by step, flow along a specific vein route, and pulled it to the center of Dantian little by little.

Because it is a new skill, which is completely different from the previous practice, Jack dares not be careless. When tractioning these auras, he is also very careful and afraid of making any mistakes.

The energy of the second high-grade elixir is obviously very pound. At the beginning, because Jack's

speed of traction of reiki was a little slow, the energy in his body made him feel a little uncomfortable and blushed.

"What's wrong with Jack? Will he have no problem with his skill?"

Someone soon found Jack's face turned red, his face was solemn, and there were bean-sized sweat on his forehead and began to drip down.

"No way, he should practice my father. After all, Zhuge Hongyun has tried this skill before. It shows that this skill must be good to practice. I don't know whether it will be difficult to practice this skill he is practicing now. I heard that some powerful skills, although powerful, are also very complicated to practice, which is not something ordinary people can practice!"

After Daniella saw this scene, she couldn't help frowning and worrying.

Listening to Daniella, Selena also frowned slightly, and she was also worried about Jack. If something went wrong with this skill, she heard that if she was slightly injured or her cultivation would be regressive. In serious cases, I'm afraid she would go crazy and directly become insane. Son.

However, with the passage of time, Jack's face gradually improved, because he was becoming more and more familiar with the vein route, and the speed of traction of reiki was obviously several times faster than before.

Seeing Jack's face returned to normal, everyone's heart was slightly relieved.

Time flies, unconsciously, it has passed three days.

In Jack's Dantian, there is now a small whirlpool. However, the whirlpool seems to have some erratic, which makes Jack's heart worry, and he has to use mental force to assist the rotation of the whirlpool and keep its center of gravity.

Another day passed, and the whirlpool was a little bigger than before. Jack withdrew his mental strength little by little, and unexpectedly found that the whirlpool could still rotate independently, and the aura of the whirlpool unconsciously added a faint golden yellow.

”
