

# No. 1 Supreme Warrior Chapter 1674

“Haha... This is how talents are. Comparisons are odious!” said Alejandro to Kenneth smilingly. “Nonetheless, I’m already satisfied that we manage to break through to the ultimate god-level. Many martial artists died before they could even break through into the true god-level during their lifetime, let alone the ultimate god-level!”

Kenneth nodded with a smile at that. “Master Cabello is right. As a person, we need to be satisfied with what we have. I’m already very happy with what I’ve achieved now. Also, Ms. Selena is a talented individual and can be compared to the three mistresses of the Cabello family. I think she’ll break through to the ultimate god-level some time soon!”

Selena, who stood beside him, forced out a smile. After all, if her curse was not lifted, she would be living day to day. Many days had passed, and the group training took another four days. She did not have much time left. If she failed to lift the curse, she could only wait for her death.

Jack knew what Selena was thinking when he saw her small yet bitter smile, so he immediately changed the subject. “By the way, First Elder, did you see something when you broke through?”

Kenneth was stunned before he responded bewilderedly, “Young Master Jack, had you both seen it, too? I thought I was hallucinating. When I broke through, I entered a mysterious space with light balls of different sizes zipping past me...”

Nash’s frown deepened when he heard this. “This is weird? Why did the three of us see it but Master Cabello didn’t?”

Alejandro was slightly worried. “I wonder if seeing the scene is a good thing or not. The three of you saw the scene and seemed to have entered a special area, and only I didn’t! Nonetheless, my fighting prowess broke through into the First-grade ultimate god level too, no? Putting Jack aside, the two of you practiced the same martial art technique as I did! Why would there be such a difference?”

Everybody looked at each other, unable to come up with an explanation. In the end, they looked over at Titus and Lancelot, who had not broken through yet.

Moments later, Titus had started breaking through, much to his delight as he had achieved the First-grade ultimate god-level.

Strangely, he faced the same situation as Alejandro and did not see the scene nor entered the mysterious space.

Then...

“Urfh!”

Blood spouted from Lancelot’s mouth as he opened his eyes and had an unresigned expression. “Sigh, I was so close! I just had to fail!”

Lancelot failed at breaking through his fighting prowess and was also badly hurt in the process. He had no other choice but to consume a healing pill and tend to his wounds.

He wallowed in deep jealousy when he learned that the others had broken through into the ultimate god level. Six of them tried to break through into the ultimate god-level, and all five of them succeeded except for him, much to his utter frustration.
