

No. 1 Supreme Warrior Chapter 1678

Selena felt touched when she saw Daniella's agitated expression. She saw how Daniella adored Jack and was a genuinely pure, innocent good girl.

Selena smiled bitterly and said, "Don't worry, I won't give up so easily. After all, Kylie is still waiting for me to go home. No matter what'll happen, I'll try my best to stay alive as my parents are also at home, waiting for my return. I just said what I said if it ever happens."

"Sister Selena, I know it won't happen!" assured the grinning Daniella as she held Selena's arm.

The group continued their journey. Unexpectedly, they heard sounds of people fighting in the area ahead of them during the afternoon.

Jack and the others studied what happened from afar, and Jack frowned the moment he noticed that the surrounded group was Venus and several young people from the Cabello family. The people surrounding them were also members of the Cabello family.

"What's going on? Why is the elder of the Cabello family cornering Second Young Mistress Cabello and the others?" asked the puzzled Jack with a frown.

Alejandro frowned as well. "The two of us will go and see what's happening; the others can come over later!" After ordering the others, he flew forward with Jack.

Under a huge tree, the second mistress of the Cabello family, Venus, and several young people were surrounded by the Second Elder and several other members of the Cabello family. Venus had blood at the corners of her mouth and was badly wounded.

Venus looked at the man in his mid-fifties standing before her and growled, "Don't push your luck, Second Elder. I won't agree to it!"

“Haha! Do you think everything is the same way it was when we were outside, Second Mistress? We’ve been in this area for so many days, and your father and the others might’ve died a long time ago.” The Second Elder of the Cabello family laughed haughtily, looking all too pleased with himself. “Don’t you understand? Everything changed after we entered this new area. Apart from the huge size of this forest and the uncertainty of running into your father, what can he do even if we do? I’m already a master in the ultimate god-level, and your father is no match for me, even if he came. His ending would only be death by my hands.”

Venus’ expression darkened when she heard this. It was true that the Second Elder of the Cabello family had broken through into the First-grade ultimate god-level not long after he entered this area. What could her father do if he came? Could he defeat an opponent in the ultimate god-level?

Nonetheless, she would rather die than marry this old man who was her father’s age.

After all, she and her sisters were publicly recognized as the three golden flowers before they entered this realm. They never agreed to marry anyone throughout the years, even though many talented young masters pursued them. How could she marry such a disgusting old man when she had yet to meet the one for her?

She bit her sexy red lip and frowningly said, “Second Elder, our Cabello family treated you nicely when you were one of us. I never thought you’d be this kind of man!”

“Haha...! What’s wrong with me? These people are my trusted aide and I was the one who promoted them, so they’re willing to follow my lead!”
