

No. 1 Supreme Warrior chapter 1701

At that point, Jackie was everyone's hope. They could only grow their strength quickly to protect themselves better amidst the recent run-ins with the Alliance Guard.

"Hahaha, I'll help myself then!"

Jackie started picking after a hearty laugh.

In the afternoon, they continued to search for spirited grass. Perhaps due to their breakthrough, Jackie and the others were delayed for a few days so they hardly met others along the way.

That caused Jackie to feel slightly worried. He was worried that quite a number of people may have been killed by the Alliance Guard after exiting the forest.

Of course, he could not be bothered about those from the Cloud Sky Sect or the Hall of Divine Royal as they were his enemies. If he met them, he would have killed them too.

In the night, Jackie and the others finally found a rather secluded cave. They left some people patrolling the perimeter to stand guard while those who needed to train did so within the cave.

Jackie's group of six experts of the first grade ultimate god-level all sat down within the cave and took out the three highly sought-after third-grade elementary-level pills. They started preparing for their breakthrough after swallowing the pills.

The vortex of Chi within Jackie's body had been helping him absorb the natural Chi around him, therefore making his fighting prowess the most stable among the group. Moreover, he had improved significantly.

Add to that, his familiarity with the circulation of Chi around his meridians, his training speed was significantly faster than the last time he broke through to the first grade ultimate god realm by a large margin.

After only one night, Jackie's body vibrated lightly and his fighting prowess had already reached the second-grade ultimate godlevel.

At that moment, only a small portion of the pill within Jackie's body was used up with a big portion of it remaining.

Almost immediately after the vibration emanated from his body, Jackie instantly restrained them. Everything happened incredibly quickly. Without careful examination, it was difficult to tell that Jackie had just broken through.

He rejoiced internally and continued to circulate his Chi. Judging from the remaining strength of the pill in his body, he might be able to achieve the third-grade ultimate god-level in one go, which also gave him the hopes to move forward to the fourth-grade ultimate god-level.

Only then did he realize the impressiveness of his martial art technique which allowed him to train his Chi vortex at all times.

As expected, after spending two full days, Jackie managed to reach the fourth-grade ultimate god realm at the very last moment. Moreover, he absorbed the powers from the pill much faster compared to his five companions, finishing up a few hours earlier.

"How was it? Was it good?"

Seeing Jackie opening his eyes and standing up, Daniello, Selena, and the others quickly gathered around him as they looked at him expectantly.

“Hahaha, it’s a completely different feeling! This is just wonderful!”

Jackie, who broke through three levels in one go, gripped his fists. The explosive growth of strength within his body brought him great joy.

With his powerful martial art technique and his terrifying combat powers, Jackie believed that he could defeat an opponent in the sixth-grade ultimate god-level without much trouble while being at the fourth-grade ultimate god-level himself.

After some time, the five finished absorbing the power from the pills one after another and got up with an expression of great satisfaction.

“This is great. Third-grade ultimate god level at last! This third-grade elementary level pill is really something!”

Nash clenched his fists with an excited look on his face.

“Yeah, we’re finally at the third-grade ultimate god-level!” Alejandro exclaimed excitedly.

It was obvious that nobody knew Jackie had reached the fourth-grade ultimate god realm.
