Chapter 3590

Hearing that, the tiger was stunned.

Was it mistaken?!

This guy wanted to kill it?

On his own with no help?

Even though the tiger could not tell how strong the man was, it did not change a thing.

The Black-scaled Tiger ruled over the whole of Chaos City. Unless a few of the strongest warriors attacked it together, there was no way they could kill it!

That man that had come out of nowhere actually said he wanted to kill it!

It was such a joke. That person did not know his place!

“Brat, do you know what you’re saying? You want to kill me?! Just you alone? Do you not know who I am?” The Black-scaled Tiger started to suspect that the man did not even know how strong it was.

Jack said calmly, "You're the Black-scaled Tiger. Your natural-born technique is already at the upper ultimate god rank. You're the king of the beasts in Chaos City, and you benefited a lot from the battle just now."

The Black-scaled Tiger glared at Jack. Since the brat knew everything, why was that man challenging it, even saying he wanted to kill it?

Could that man really be that confident?

The Black-scaled Tiger could not help but feel alarmed. However, after thinking for a few moments, it felt amused.

How strong could the man be?

Could the man use an upper ultimate god rank technique?

Just as it was thinking, Jack's hands moved, starting to form seals. The Soul Burst Rings slowly appeared.

The tiger was alarmed. That man was for real.

He was not bragging about wanting to kill it!

Jack did not want to waste too much time there.

After dealing with the tiger, he still had other things to do.

The Soul Burst Ring quickly spun in the air. Even the surrounding space was getting distorted. The Black-scaled Tiger began to use its own technique as well. A black vortex started to condense in front of its massive mouth!

The vortex seemed to swallow everything as it shot right at Jack.

Jack did not panic, pushing his hands forward as the Soul Burst Rings shot forward incredibly quickly. The black vortex clashed with the Soul Burst Ring in the air.

The two forces clashed with each other, and the black vortex tried to swallow up the Soul Burst Ring. However, the Soul Burst Ring was a storm god rank technique.

The upper ultimate god rank technique was no match for the Soul Burst Ring at all!

The black vortex immediately shattered into pieces upon contact. The power did not even last for that long before it was destroyed by the Soul Burst Ring!

The tiger's eyes widened in shock.

It suddenly found itself unable to react when it witnessed what just happened. His skill which no one had been able to beat before had actually been defeated so quickly. Right after that, a gust of wind was felt. After destroying its natural born technique, the Soul Burst Ring did not slow down at all. It charged right at the Black-scaled Tiger.

The tiger shook in fear, not daring to look down on the technique at all!

It turned around, wanting to or at least avoid the attack. Yet, it had been too confident earlier, not believing that Jack would be difficult to go against at all.

Right behind the tiger was the cave it dug for itself. It went right into the cave the moment it fled!

The Soul Burst Ring shot in as well. Right after that, a massive explosion in the cave could be seen. The cave was completely swallowed up by rubble.

Jack could vaguely hear the tiger crying out.

The tiger had been completely buried, unable to even move, but it was already too late for regret.
