Chapter 3596

“Most importantly, the warriors from that world are strangely united! The moment you offend one of them, all of them will go against you. It’s because of that everyone just bears with it unless it harms them then no one would bother tolerating all that trouble.”

Rudy clenched his teeth. He hated things like that, but there was nothing he could do about it. It was not like he could suddenly make an enemy out of all the warriors from the Swelling Tide Continent. Hence, most of the warriors were just forced to accept this!

Rudy’s hands trembled slightly as he looked at Jack and said, “Luckily, we aren’t in the front right now! Otherwise, I’d be infuriated,”

Jack raised an eyebrow as he looked at Rudy calmly. Some things could really not be avoided.

As time slowly ticked away, a whole ten hours passed. It was finally almost their turn to be tested.

When there were only ten people in front of them, Rudy was already mumbling to himself excitedly, “It really is difficult! I counted it just now. The chances of passing are almost less than one in a hundred! It’s just so hard!”

Jack raised an eyebrow, not surprised by that at all. If it was that easy, there would not be so many people trying to pass the Killing Illusion Array.

Right at that moment, some commotion could be heard from afar.

Jack looked over and saw three warriors from Swelling Tide Continent who were walking past the crowd from a distance.

They were walking incredibly quickly, and the discussions that had stopped started again, “It’s Case Olsen! Didn’t all of them go toward the level two cities already? Why are they suddenly back?”

“I think they must have admitted defeat! There is always someone stronger. Even though they were among the strongest

warriors, it would be much harder for them to keep up with their arrogant ways in a level two city. That's why they came back.

They're probably trying to form a world avatar and increase their power before they try the level two cities again."

"You're right! I think so too. They were always so full of themselves before this. They must have found themselves lacking in the level two cities, but they weren't willing to give up, so they came back here to improve themselves..."

"What do you think is at the level of two cities other than the Radiant Hall? Why have so many struggled there? I heard a lot have died inside too."

"Let's not talk about that for now! Those three are clearly here to cut the line! They're right between our two lines! They'll be here soon. We can't let them hear us!"

Everyone immediately shut their mouths.

Jack raised an eyebrow. It was the first time he heard about Case Olsen, but from the discussions, he got the gist of who that person was.

Case had a frown on and looked incredibly unhappy as if everyone owed him a lot of money. No matter who spoke, he would beat that person up properly.

Quite a few of the warriors seemed terrified at the sight of Case!

They had even deliberately distanced themselves so the three warriors could advance quicker!

There were fewer and fewer people in front, and it was quickly about to be Jack's turn.

Rudy felt incredibly uneasy about that. Sure enough, those three stood right in front of Jack. Case calmly looked at Jack as if he would slap Jack if the other party did not give way.

Case pointed at Jack, "Get lost and head to the back!"

Jack laughed. He could not believe how arrogant that man was. Even when cutting the queue, he acted like this!

Jack took a deep breath, pushing back his anger. He was rarely angered so quickly by anyone.

He looked up at Case and said coldly, “Who do you think you are? You’re acting so shamelessly, but you act like you’re in the right. Who gave you the courage to do that?”
