Despite Jimmy's confession, Case felt it was too surreal.

'How? Who was that guy? That guy was just an insignificant man in Case's eyes. All he knew was to brag!'

Case took a deep breath. He felt like his eyes were about to catch fire.

"Tell me everything again!"

Jimmy could do nothing but repeat everything. Case was finally sure that he had not been hearing things, that everything he heard was indeed true. He gritted his teeth as his eyes widened in anger. He felt like his whole body was burning.

That guy who came out of nowhere was causing him trouble at every front! He was getting more and more troublesome as well. Case thought that he would just be dealt with easily, but he was actually so strong. Even stronger than Jimmy!

Jimmy frowned as he grabbed Case's arm.

"Case, we should forget about anything else for now. The main thing we have to do is focus on figuring out how to get rid of this guy. He's a seed of disaster and is an enemy. As long as he gets the chance, he'll seek revenge on us. We can't give him that . chance!"

Case's eyes lit up.

Jimmy was right, this guy would bring disaster. They could not let him stay alive!

Case needed to properly plan everything out.

He needed a perfect plan to make sure this guy was killed in Cloud City!

At that moment, George had completed 94 seals in Cloud valley. The space did not have night or day, and he was not paying attention to the passing of time. He did not know how long had passed and was only focused on constantly forming his seals.

Thankfully, he used a storm god-rank technique, which made it a lot easier for him to control the energy. He had so much

experience with him as well, so he could quickly identify any mistakes. Through his constant hard work, not a single seal had a flaw.

After an unknown amount of time passed, the last seal was finished. At that moment, George had 96 avatar seals glowing in a faint golden glow within him.

George took a deep breath, finally opening his eyes.

After all his hard work, the world avatar he formed was close to perfection. His avatar was able to unleash its full force. He could finally exit!

George slowly got up, but at that moment, his bones made snapping sounds.

Having sat for what seemed to be a long time, his body was completely stiff.

George smirked. After working so hard for the past few days, he finally had his reward. A world avatar with a storm god rank technique meant that he was practically unbeatable in the Whirling World.

Once he left Cloud Valley, he finally realized that the entrance and the exit were in the same spot.

Noise filled his ears once again, and George felt like he had just returned to civilization.

There was a huge crowd in front of him as everyone talked about the order they took the Killing Illusion Array, lamenting their failures.

All of that no longer had anything to do with George. He had passed that step, moving on to the next stage.

George smiled as he tossed all those thoughts aside. His next objective was the fog battlefield. He did not know if those people would be waiting for him there. The moment that thought flashed in his mind, an unkind voice was heard.

George turned around and saw a familiar face. There was Case, with Octavius and Jimmy behind him.
