

No 1 Supreme Warrior

Chapter 3696

After all, this problem he was facing did not seem like it was possible to overcome at all. Even if Yolanda was incredibly skilled, he could not stop himself from panicking.

Just as he was thinking about it, his clone suddenly shot forward. The clone was holding the gray sword in hand, and the soul attribute was frantically surging around the sword.

Yolanda could clearly feel the power of the Broken Soul Blade behind it. The clone must have used the Broken Soul Blade while Yolanda was distracted, merging the technique with the sword.

The slash that was coming at Yolanda contained incredible energy.

If Barne was the one standing there, he would probably not even be able to move after the energy locked into him. After all, Soul Sky was already at the storm god rank. Normal warriors were not able to handle it at all.

Yolanda suddenly felt like the situation was unique. He had only ever used the Broken Soul Blade on his enemies before. He had never felt how it was to be locked into the Broken Soul Blade.

At that moment, he clearly felt how powerful the technique was.

Yolanda took a deep breath, not wanting to clash with his clone head-on. After all, Diana had just told him that continuing to fight like that would waste a lot of true energy. The moment they were completely spent, they would just be sitting ducks. There would be no way to turn the tables.

He could not allow such a situation to happen. Yolanda activated the laws of space under his feet, disappearing from the spot immediately.

He wanted to distance himself from his clone. When he appeared again, he was a distance away from where he was. However, Yolanda never expected the clone to disappear as well. Yolanda saw that and was immediately on high alert! There was something wrong!

Could the clone also use the laws of space?

The moment Yolanda thought about that, he suddenly felt a breeze behind him. He did not even think about it as he immediately rushed forward. At the same time, he pierced his sword backward.

The two swords clashed together, and the dense soul attribute exploded outward, causing shockwave after shockwave. Yolanda used that force to distance himself from the clone behind him.

At that moment, Yolanda's eyes were wide in disbelief. He was thankful that he had reacted in time. Otherwise, that strike would have opened up his back.

That was not the most terrifying part. He knew very well the destructive capabilities of the Broken Soul Blade. If a wave of that energy seeped into his body, he would lose his mind from the pain. Then, no one would be able to save him, and he would definitely lose.

It could use the laws of space. It was using it with such familiarity as well.

The clone was no different from Yolanda!

Even though the clone had managed to use the Broken Soul Blade with the same amount of power, Yolanda had thought that the clone was just able to replicate himself and the attacks he had. He did not expect the clone to even have his mastery and control of the laws of space.

Suddenly, he lost some of the hope he had. The difficulty of the water-killing array had greatly exceeded Yolanda's imagination.

It was an opponent just like him. All of his techniques belonged to his opponent as well. If that was the case, he did not seem to have a chance at winning at all.

Yolanda was out of ideas at that moment. He could not figure out how he could handle the clone. It was like an impossible question was right in front of him.

Yolanda took a deep breath, 'Could the water killing array be here as an insurmountable wall that the challengers will never be able to get past?'
