

No 1 Supreme Warrior

Chapter 3786

Viola grabbed Rowan's arm tightly.

He could clearly feel that Rowan's whole body was shaking from anger. It was as if Rowan was about to snap and rush forward to curse at Stefan.

Rowan was already on the brink of losing his mind. It was too important of a moment for them to let Rowan ruin the situation with his temper.

Viola took a deep breath and said calmly, "Rowan, wake up! Otherwise, this guy might give up on facing the three-headed silver python head-on! If we end up in a muddled battle, it would be a huge disadvantage for us!"

Viola's words were like a bell that woke Rowan right up.

Rowan cursed himself for letting his anger take over. Viola was right. The situation was advantageous to them.

So what if Sandra had skills?

He was still acting too arrogantly!

A mature three-headed silver python in the outside world was capable of reaching the late divine solidifying realm. Even though the snake had been restricted by the laws of the world, it was still not to be underestimated. There was no way Sandra would be able to beat the beast alone!

Sandra's actions were basically suicidal. One of the ten participants had been crippled by Stefan. The others would definitely take a step back at such an important moment. If anyone dared to help Milos, the two of them would oppose it!

Thinking about that, Rowan suddenly had a pleased smile on his face!

So what if Sandra was strong?

Sandra had still been dragged down by his stupidity. Rowan really wondered how Sandra got the courage to challenge a three-headed silver python alone.

That was just suicidal!

Then, if Sandra ended up being crippled, things would be much easier for them.

Compared to the various internal thoughts the humans had, the three-headed silver python was much calmer.

Those humans dared to challenge it which was already enough to thoroughly anger the beast. However, the beast's senses told it that the humans were not as weak as they thought!

The beast's six cold eyes looked incredibly serious. It opened all three of its mouths as a purplish, thunderous energy condensed in it.

They heard the sound of thunder, but Sandra's expression did not change! He forced himself to ignore other thoughts.

The Violet Seven Deaths Array had been the hardest challenge he had ever won. He could feel that the battle would only get tougher. However, he was not intimidated. Such a challenge only stirred his competitive spirit. It encouraged him to be even better.

It was a world where the strong were kings. As long as he could constantly get stronger, he would be able to live comfortably!

Sandra took a deep breath before he said coldly, "Come then! Show me how strong you are!"

The moment Sandra said that, he immediately shot forward.

At that moment, the three-headed silver python started its lightning attack!

An intense purplish-gold attack started to charge at Sandra while it buzzed!

Sandra clenched his teeth but did not slow down. He continued to advance toward the purplish-gold attack. After the experienced warriors that were participants saw all of that, they started to shake their heads.

Sandra's move was truly reckless, let's not talk about whether his power could compete with the three-headed silver python, the closer the three-headed silver python was, the higher the threat was! If he fails, this move may cost him his life!

Even if Sandra was not that experienced in combat, he understood that. The reason why he continued to rush forward was naturally because he had a plan.

His goal was actually very grand, and he would only be able to achieve it through this.
