No. 1 Supreme Warrior Chapter 3811-His fellow disciple grabbed the bearded man's arm, "You should stop talking so much. Did you forget what happened before? You don't need to do all this, just don't talk so much..."

The bearded man shock in anger.

His lips twitched as he thought about what had happened in the past. He was surprised to find that he had nothing else to say.

It was exactly like his fellow disciple had said, he had been taught many lessons before after running his mouth. If his fellow disciple had not helped him out of those situations, he would probably not even have been able to step into Violet City!

His lips twitched and with a reluctant expression, he shut his mouth in the end! The short argument yielded nothing, but it still stirred up a lot of discussion. After all, the bets had not all been just on one person.

Quite a few people supported what the bearded man said. They did not feel like Looney would die there, but they still thought that Zelter was still stronger than Looney.

They also agreed that long-range fighters were at a disadvantage against the golden armored fighter. Long-range fighters would be able to attack their opponents from a safe distance, but all of them had a fatal weakness.

It was a fact that they all found it hard to protect themselves the moment their enemies got close.

"The three of them should be able to survive this, but I feel like Zelter is slightly stronger. Even if he ends up getting hurt, it won't be too bad. Meanwhile, I'm not too sure about the others..."

"I agree with you. Zelter killed the steel armored fighter so quickly earlier. Even though we can't judge how much stronger he is than Looney, we can still see that Zelter is very strong. Furthermore, he uses a sword. He has the advantage in a close-range fight!"

As the others were discussing the matter, Widde entered the seventh room as well. However, compared to the other two, he had not been that quick or outstanding at all, so no one really paid attention to him.

That person who had been causing trouble earlier said again, "How boring! If this was the bronze rank, then they would have gotten injured in the first room!"

When he said that, he had deliberately raised his voice so everyone could hear him which made quite a few people frown.

This person was worse than the bearded man before. He constantly complained without end, wanting the challengers to increase the difficulty.

Someone said with disdain, "Hey! Can you think before you speak? We've already told you so many times. The warriors at the top aren't weak. Only those who stand at the top have ever dared to challenge the bronze rank. Even the black iron rank is already so hard."

"Don't you think you're being such a joke? You keep on complaining that they're not challenging the higher difficulties, so why aren't you going? I think you can't even challenge the black iron rank and yet all you do is complain!"

That person's expression darkened. Those next to him could even hear the muscles on his face tensing up.

He looked incredibly angry, "Do you know who I am? I'm telling you! I'm from a holy grade clan from Star Continent! Do you know the consequences of offending me?!"

When Jagoan heard that, he raised an eyebrow.

It was Star Continent again!

Star Continent still had not changed their ways. They acted however they wanted anytime.

Sure enough, everyone had a sudden change of expression. After all, Star Continent's warriors were incredibly persistent.

No. 1 Supreme Warrior Chapter 3812-The surroundings suddenly went quiet, but there were still those who were not happy.

A man in white robes said with a frown, "Hey, Nalym! You're only being so bold just because your brother, Nymm, is close to Jagoan! Indeed, we can't offend any warriors who hold a high position in the Star Continent, but from what I know, you aren't really that strong. You might come from a holy grade clan, but I heard you're only an outer disciple..."

Nalym was not even an inner disciple, and he was already trying to stand on top of everyone else.

Of course, a lot of people were not very happy with that. There were quite a few inner and even chosen disciples from holy grade clans around.

An outer disciple actually dared to show off like that in front of them. He naturally provoked their anger. If he was not from Star Continent, no one would have held back!

Jagoan's lips curled up as he looked at Nalym.

No wonder he was so arrogant, it turns out he was Nymm's brother. Nymm really was a loyal dog of Jagoan's hence Nalym would naturally be just as obedient as Nymm.

Jagoan raised an eyebrow as he looked at Nalym with great interest.

Warriors from Star Continent really did as they pleased. However, it was not everyone that dared to cross the line. After all, there were so many warriors from Star Continent.

If all of them showed off wherever they went, it would definitely cause a lot of trouble, and the warriors from other worlds would all be thoroughly angered.

If everyone worked together against Star Continent, then Star Continent would not be able to handle it. There were those who were arrogant, but those were all people with a certain level of skill and position.

Any of the normal warriors might speak arrogantly, but they never dared to cross the line.

Nalym's earlier actions had definitely crossed the line. He was merely taking advantage of his brother's position amongst the warriors of Star Continent to act that way. A mere outer disciple was actually bold enough to run wild in front of everyone.

Nalym scoffed as he said in disdain, "So what if I'm an outer disciple?! Star Continent is ranked amongst the best of second-grade worlds. Even if I'm an outer disciple, I'm still stronger than regular outer disciples!"

"Don't you look down on me! If you face me head-on, you might not be able to beat me. Also, what if I'm acting like this thanks to my brother? If you dare to, then go ahead and offend me! You'll end up being targeted by the whole Star Continent. You won't be able to stay in Violet City anymore!"

Arrogance was written all over that guy's face.

He wanted to show that he could stand over everyone else! Everyone started to look at Nalym in annoyance. He really did deserve to be beaten up!

Jagoan lowered his voice and said in disdain, "Isn't this guy afraid of being beaten up? Even if this is a restricted area, there are other places too. If he ends up angering everyone, will everyone end up going against Star Continent? This guy is really crossing the line!"

Nalym's words had angered quite a few of the people there.

Someone said unhappily, "Quit talking so much. If you want to see the bronze rank challenge, then someone will definitely be able to do it! That person is inside Violet City as well. You know him!"

Nalym raised an eyebrow as he looked over in confusion, "Who? Jagoan? Don't you know? He's already left Violet City. Even if he could challenge it, it won't be now."

Jagoan already left Violet City?

Jagoan was quite curious when he heard that.

He had thought that Jagoan would stay behind to go against him. Even though he had already changed his looks and was not recognizable, Jagoan still hated him deeply.

No. 1 Supreme Warrior Chapter 3813-Jagoan would not forsake any chance to go against him. However, Jagoan did not mind it, he was actually looking forward to it. As long as they dared to, then all of them would pay a painful price. Yet, Jagoan had unexpectedly left Violet City.

Where did Jagoan go?

Could it be a level one city?

Jagoan had a feeling that Jagoan probably left Violet City because of him.

“It’s not Jagoan,” That warrior had a look of mockery on his face as he spoke to Nalym.

That person felt like Jagoan might not actually dare to challenge the bronze rank. Even though Jagoan was a warrior at the peak, bronze rank was not something to be trifled with either. It was a matter of life and death.

Even the warriors at the top would be very careful when choosing their difficulty!

Nalym frowned and said unhappily, “Who else could it be? Any of the warriors that stand at the top would have already gone to the level one city. There won’t be anyone else left in Violet City.”

That person laughed and deliberately raised his voice a little, “Jagoan! Who did you think I was talking about? Of course, it’s Jagoan!”

When that person said that, there were waves around the place.

Everyone’s expressions changed.

The day before, they did not know who Jagoan was. However, in just a matter of hours, everyone in Violet City had already heard of Jagoan. After all, Jagoan managed to get ten Life Points in the Capture Hall!

He even managed to kill a beast that even ten people working together may not be able to kill.

His skills were horrifying!

Quite a few people even saw Jagoan as a complete monster!

Most of the people present would just be an ant in front of Jagoan. Even Jagoan had not been able to do anything about him, and one of his fellow disciples had died while the other was heavily injured.

The one that did not die only survived because Jagoan had not killed the person. Even though he survived, it might have been better to die.

He had lost all his strength and even his mobility. To a warrior, that was basically hell!

After the news got out, everyone started to respect Jagoan, except for the warriors from Star Continent.

Quite a few people were quite happy as well. After all, Jagoan had slapped the warriors from Star Continent viciously on the face.

That person mentioning Jagoan was like a completely humiliating blow targeted at Star Continent. Star Continent's honor had been trampled all over!

Hearing this, Nalym was furious.

He looked at that man with clenched teeth, "Shut up! Who's Jagoan? I never heard of him before! He won't be able to challenge the bronze rank!"

He obviously knew who Jagoan was, and had a deep impression of Jagoan, but he had never seen Jagoan before. He knew about what Jagoan had done to Star Continent.

If Nymm had rushed on the stage back then, he would have lost his benefactor. After all, with Jagoan's skills, one more person would not make much difference to Jagoan.

When Nalym heard the news, he refused to believe it was real. It sounded like the stuff of legends. However, the truth was still the truth. He had to accept it whether he wanted to or not!

The moment that was said, there was laughter all around.

That person who mentioned Jagoan looked at Nalym in disdain, "Do you think we're all idiots? You don't know Jagoan? Then why are you so angry? Jagoan's skills have been spread throughout Violet City. If he doesn't have

the skills to challenge the bronze rank, then there won't be anyone else who would be able to in Violet City!"

Jagoan himself actually stood not far away from them. It was just that no one recognized his altered looks.

Read No. 1 Supreme Warrior Chapter 3814

No. 1 Supreme Warrior Chapter 3814-Seeing this, Jagoan raised an eyebrow.

That person was basically rubbing salt into Nalym's wounds. Or rather, the whole Star Continent.

To the warriors of Star Continent, Jagoan's name was basically taboo at this point. After all, they had lost out to Jagoan greatly!

Hearing all the laughter from everyone else, he knew it was absurd for him to say he did not know Jagoan as well. However, he refused to admit it!

Jagoan would suffer the retribution of Star Continent eventually. That guy will suffer a tragic end. They would do everything that he had done to Jagoan and Rowan right back at Jagoan.

They would be even crueler than Jagoan!

Nalym took a deep breath and said with a cold look on his face, "That guy is surely a bit skilled, but he won't dare to show himself anymore! He might have already left the place! Star Continent isn't to be messed with!"

Jagoan scoffed nonchalantly. That dog sure was funny.

Did Nalym think that saying all that would raise his standing?

Sure enough, someone immediately shot back at him.

"Stop trying to flatter yourself! If Jagoan was too afraid to show himself or too afraid to offend all of you, he would never have crippled Jagoan on the stage and killed Rowan! Do you think you're anything in Jagoan's eyes?! Stop trying to flatter yourself. Do you think we're blind? You think we'll listen to anything you say?"

Nalym's teeth clenched in anger. He wanted to rip everyone there apart.

If it was anyone else, they would have just shut up after knowing they had lost the argument. However, Nalym was not someone who knew his place like that.

He was just as stubborn as the bearded man, and he would not allow anyone else to praise Jagoan. He could not accept others insulting Star Continent either. It was even worse than insulting him. That was because Star Continent was his most reliable backer.

He would not allow them to be insulted!

Nalym shouted out, "All of you, shut up! I'm telling you, so what if he's strong?! He will definitely pay a painful price! His power will be taken away as well. Then, we'll hang his body around the city walls for all of you to see! We'll show you the consequences of offending Star Continent!"

Nalym had practically shouted all of that through clenched teeth.

It was obvious how much he hated Jagoan. However, the others did not believe him at all. It was pointless no matter what he said.

Someone rebutted with a scoff, "You would have to catch him and have the skills to kill him first. Don't forget, this is the Whirling World, not the outside world. No one here is older than sixty days."

"If you want to capture Jagoan, you would have to either be stronger than he is or catch him off guard. However, the chances are very slim. It's not like Jagoan is an idiot. Do you think he doesn't know what all of you want to do? Furthermore, didn't he already say that you can try and go against him at any time? We still don't know who would pay the price!"

Nalym's face was completely red.

He was so angry his whole body was trembling. However, there was nothing he could say.

Jagoan had really said that they could come at him as long as they dared!

However, Nalym refused to believe that they would not be able to deal with just one person with all their numbers!

As long as they worked together, even the most powerful person in the Whirling World was nothing. Jagoan was nothing to scoff at either.

Jagoan was already getting reinforcements. Jagoan would pay before too long!

Nalym was panting loudly as he glared at everyone there viciously.

They were all just weeds. They would definitely witness Jagoan's downfall. Then, no one would ever insult Star Continent again!

No. 1 Supreme Warrior Chapter 3815-Nalym scoffed and finally shut his mouth, no longer arguing with the others.

Jagoan never bothered to speak up the whole time. If he did just because of Nalym's words, it would flatter Nalym too much.

Jagoan scoffed as he looked at Nalym in disdain. If it was anyone else being targeted by Star Continent, he would have pitied them and felt like there was no way they would be able to survive. However, they were targeting Jagoan.

They would definitely have to pay the price for that!

Ever since they entered Violet City, he had been by Jagoan's side the whole time. He knew very well what kind of person Jagoan was.

Jagoan had never been someone who likes to brag. He would accomplish anything he said he would do. It meant that Star Continent would definitely pay the price if they went against him.

They would eventually find out who would be the ones crying in the end.

Jagoan glanced at Jagoan and saw that Jagoan was completely calm the whole time. It was as if he was not the one being talked about. Suddenly Jagoan felt a lot of respect for Jagoan. If he was the one being discussed, he would not have been able to be so calm.

Jagoan had already switched his focus back to the scroll at that moment. Nalym was nothing in his eyes. He was just a bug at most.

At that moment, the three challengers had already composed themselves and walked into the sixth room.

There were two steel armored fighters in the sixth room, and they would attack at the same time.

Every challenge was increasingly difficult. However, before they had been transferred over, they were already mentally prepared. They knew what they would face as well, so all of them were quite calm.

Zelter used Phoenix Cry again! It was not that easy dealing with two steel-armored fighters at the same time. However, both the fighters fell to Zelter before it took too long.

Zelter took another deep breath as he looked at the energy crystal in the sixth room.

Only by destroying all the energy crystals would they be able to face the golden-armored fighter. Otherwise, the golden armored fighter would be practically invincible with the support of the energy crystals. Only someone in the divine solidifying realm would be able to face the golden armored fighter.

Zelter took a deep breath, "There are four more!"

In the other space, Looney had killed the two fighters as well. The fighters had been controlled by the wall of ice too.

Before too long, they were quickly killed by his Sealing Blizzard. However, just like Zelter, Looney did not dare to relax. He would only be facing stronger opponents after this.

In particular, were the second and third rooms. They would be facing the silver armored fighters, which would be much stronger.

Just like before, Looney took out a dagger and struck the energy crystal before he tidied up his clothes and left the sixth room for the next challenge.

The Killing Hall erupted in discussion again, "The first four rooms are honestly not that hard. No matter how many there are, they're just steel armored fighters. However, the second and third rooms are different. The silver armored fighters are there."

“Those fighters are stronger than the steel armored fighters in terms of strength and speed! In particular, their speed will cause Looney a lot of difficulty unless he has a speed-type technique. After all, the silver armored fighters are very quick, and Looney is a long-range attacker. As long as they get close, he will definitely die!”

Jagoan agreed with that analysis as well, but Looney had to have thought about it before signing up.

He should have already figured out a plan against it as well. There was no way a warrior like Looney would make reckless decisions.

No. 1 Supreme Warrior Chapter 3816-The discussions in the spectator area flowed.

The three of them entered the next room, and even though the next battle was not too easy, it did not affect them that much.

There were three steel armored fighters in the fifth room. After a heated battle, all three of the fighters fell.

After destroying the energy crystals, all three of them walked to the corridor. This time, none of them dared to barge inside. All of them recovered their true energy in the corridor and made sure they were in their best state before they entered the fourth room.

The challenges would only get harder, but the three of them were already prepared.

Before they signed up, they had witnessed others challenging this. All of them knew what they would be facing. The fourth room was not that easy for them. However, thanks to their skills, they had already managed to defeat three steel-armored fighters.

They wondered what the designer was thinking back then. The fourth and fifth rooms had the same number of fighters.

It meant that they would be faced with the exact same challenge. There was no time limit to the Killing Hall. It meant that, the moment someone had

entered, they could stay there for days or months. Of course, normally, no one would bother wasting their time there.

Unless they lacked a lot of confidence in themselves, these situations would never happen.

After they managed to get back to their best condition, what they would be facing was going to be a challenge that was twice as hard. The three of them entered the third room at practically the same time.

The opponents waiting for them inside were not going to be the steel armored fighters that they were already familiar with, but silver armored fighter that was both quicker and more powerful.

When all the spectators looked at the screen, they had a serious look on their faces. Before this, it had just been appetizers and warm-ups.

The true challenge was about to begin.

If they could not kill the silver armored fighter, then they would not need to bother with the later challenges. After all, the second room had two silver armored fighters inside, while the last room was the golden armored fighter.

Looney took a deep breath, his face was incredibly tense.

At that moment, he had already replenished all his true energy and was back to his full strength. However, he still hesitated at the door, mainly because he had not composed himself yet. The second and third rooms were very important.

If he got injured in either of those rooms, it would affect the final challenge in the end. He had looked at a few bouts before he signed up, and he had an estimation of the silver armored fighter's strength. However, it was just an estimation. Its actual strength might exceed his expectations.

Jagoan widened his eyes as he looked at the images on the scrolls.

Due to the angles, he could only see Looney's back, and not Looney's expression. However, even from his back, it was obvious that Looney was feeling quite anxious. Even warriors at that level would be wary when facing these challenges. Danger and opportunity existed together. If he was not careful, he would lose his life.

Jagoan sighed, “I suddenly find myself not admiring him anymore. The stronger you are, the more dangerous the challenges you face will be...”

No. 1 Supreme Warrior Chapter 3817-“If you want more resources, than you’ll have to face even more danger. For someone like me, I wouldn’t even dare to challenge the Killing Hall. However, to these warriors, they are chances for them. If they hesitate and waste the chance or let it slip, they will regret it their whole lives. However, the moment they sign up, they will be facing incredible danger...”

Jagoan had never been someone to lament how life went.

He liked to live in the moment and take things one step at a time. However, he found himself constantly lamenting how life went at that moment.

Jagoan looked over at Jagoan, feeling quite similar to Jagoan.

Looking at that, he felt something too. He felt both thankful and a bit bitter. Various feelings surfaced in his heart.

The two of them suddenly felt like they were in a melancholic mood.

After hesitating for a few seconds, Looney finally summoned up his resolve and walked into the third room.

The silver armored fighter had silver armor all around its body. The shiny armor had all sorts of runes on it as well.

After stepping into the room, there was suddenly a rumbling behind him. Looney looked back, and his heart skipped a beat.

The doors to the few rooms before this had never closed. However, the moment he stepped into the third room, a mechanism had completely sealed the room off. Unless he killed the silver armored fighter and destroyed the energy crystal, he would never be able to walk out of the room.

Looney took a deep breath, and he had an incredibly serious expression on his face.

The silver armored fighter aimed its silver sword at Looney’s forehead.

No matter which kind of fighter it was, the challengers will always be the ones to start the battle. As long as Looney did not move, the silver armored fighter would not attack either. However, the moment he did, there would be no stopping.

Looney had his silver crystal in his palm. Back when he picked out his techniques, he had chosen a long-range technique without any hesitation. That was because he felt like long-range techniques made it more likely for him to stay alive.

Everyone else said that long-range warriors were useless in close-range fights and that long-range warriors would immediately be at a disadvantage the moment a close-range warrior got closer.

Every time he heard those discussions, Looney would be full of disdain.

Were long-ranged warriors all idiots that would just let their opponents get close?

As long-ranged warriors, the main focus was always to maintain a distance between them and their opponents. Only then would they be able to attack.

Anyone who wanted to attack them would have to pay a painful price!

With that in mind, Looney had experienced many large battles before. Plenty of his fellow disciples had died, but he was still alive.

Some of those fellow disciples had even mocked his choices, but they were all dead now!

Looney took a deep breath, pushing those thoughts aside. He needed to prove his skills. He would prove that long-range fighters would still be able to triumph in the end as long as they were strong enough.

Looney started to form seals with his hands, and countless icy blue seals danced in the air, floating in the air like a blue flower.

Looney had countless shards of ice surrounding him as if he was the king of ice.

With a wave, those shards and the seals gathered around his hand. At the same time, the silver crystal in his hand let out a radiant light. The ice and seals that were around his hand flowed into the silver crystal!

The silver crystal immediately started to brighten even more. It was like the surroundings had turned into a blue sea. In the earlier rooms, the silver crystal had merely let out a blue glow.

Compared to this time, the light was like a firefly compared to the moon. It was completely different!

Read No. 1 Supreme Warrior Chapter 3818

No. 1 Supreme Warrior Chapter 3818-There was a gale of howling wind, and the silver armored fighter attacked! It raised its silver sword and charged forward at an incredibly quick speed!

Seeing this, Looney frowned.

A blue cyclone started to form beneath his feet, surrounding his legs.

When the silver armored fighter charged over, Looney used his speed technique to pull away from the fighter before he quickly started to form seals!

At the next moment, a massive ice wall appeared in front of the silver armored fighter. The fighter showed no emotion at all, attacking the ice wall the moment it appeared!

It swung the sword in its right hand, and there was a clear crack from within the wall.

The silver armored fighter had sliced the wall in two. The wall had no time to recover at all.

When he was facing the steel armored fighters, the walls had been incredibly important. The steel armored fighters had not been able to break through the ice wall, and their weapons had been stuck inside. They had not been able to pull them out at all. Yet, that ice wall had been sliced in two just like that.

The sword aura had completely gone through the ice wall. The wall immediately shattered after that! When the spectators saw that, all of them hissed!

Those that were only here for the first time even covered their mouths in surprise. The silver armored fighters really were not comparable to the steel armored fighters.

The ice wall that had been able to stop the steel armored fighters every time had been shattered by the silver armored fighter in just one blow. That left a lasting impact on everyone!

Looney clenched his teeth. His heart skipped a beat when he witnessed that!

After the silver armored fighter shattered the ice wall, it did not slow down at all as it continued its attack!

Looney frowned, immediately using his silver crystal.

The blue cyclone completely enveloped Looney as it brought Looney away incredibly quickly. Thankfully, the room was quite large. It was enough for them to fight however they wanted to. Otherwise, Looney would have not been able to escape the silver armored fighter for that long.

Since he was a long ranged attacker, getting into a close-range fight was just suicide! So, no matter what happened, he needed to make sure to always maintain a distance from his opponent.

Even against the steel armored fighters, Looney had constantly paid attention to his positioning. He never allowed himself to be within thirty meters of them.

The silver armored fighter was at least twice as fast as the steel armored fighters.

Looney used the silver crystal and frantically tried to pull away. Even though he was safe temporarily, anyone who paid attention would notice that the silver armored fighter was actually moving faster than he could retreat.

If Looney was just running without a plan, then the silver armored fighter would catch up before too long. If that happened, then he would be doomed.

Naturally, Looney knew that he could not let things go on like that.

He immediately formed seals to use Sealing Blizzard again.

Two massive ice walls appeared in front of the armored fighter again. Just like before, the fighter showed no emotion as it slashed away.

Everyone heard a crack, and the first ice wall was completely shattered!

There was a large crack on the second wall as well. The silver armored fighter had only managed to shatter the first wall but failed with the second one. The ice wall then quickly recovered all the cracks.

That was the scary part about the Sealing Blizzard!

Read No. 1 Supreme Warrior Chapter 3819

No. 1 Supreme Warrior Chapter 3819-As long as Looney's true energy was not completely spent, he would be able to constantly regenerate the ice walls.

At that moment, the fighter slashed again.

This time, the second wall was not spared as it was shattered as well. However, Looney had already achieved his goal.

The ice walls had not been able to completely stop the silver armored fighter as well as stop it from getting back its sword, but it had managed to delay the fighter's attack and gave Looney some breathing space.

Taking that chance, he quickly pulled away as much as he could from the silver armored fighter!

However, even so, the situation did not seem great for him. After all, they were not in the vast wilderness. They were in an enclosed room with specially made walls. The moment he stepped into the room unless the silver armored fighter or Looney died, then no one would be able to enter!

Quite a few of the spectators all frowned. The few of them that knew Looney started to get worried.

The silver armored fighters were really difficult to deal with. If Looney did not have any stronger techniques, then he would die!

That bearded man suddenly felt vindicated, "See, I was right! I don't have to tell you which one of them is stronger now, right?! It's plain for all to see. Who said that Looney could be ranked in the top fifty of the above-average warriors? If he has the ability to do that, then I should be there too!"

“He’s struggling to deal with even one silver armored fighter. I feel like he’s going to get killed by it the next second! How could he be among the top fifty?! What a joke!”

The bearded man’s fellow disciple immediately grabbed the bearded man’s arm and looked at the man in exasperation. It was the same thing again.

This guy never watched his mouth. Even though it sounded reasonable, he was not the only one there.

Some people were close to Looney, as well as Looney’s fellow disciples. There was no way they would let the bearded man criticize Looney just like that.

The bearded man had already forgotten all about him offending others before. He was just someone who enjoyed running his mouth and liked to prove that he was right. He just wanted everyone else to agree with him.

The squinty-eyed man looked at the bearded man hatefully.

If they were not in a restricted area, he would have made the bearded man pay a painful price.

The squinty-eyed man’s gaze was too sharp. Even the bearded man had managed to feel it. He turned around to see the squinty-eyed man looking at him with an incredibly frosted expression as if the squinty-eyed man wanted to rip him apart.

The bearded man scoffed, unable to control his temper, “Am I wrong? Don’t look at me like that! Are you not allowing me to speak the truth now? I’m not trying to insult him! I’m just telling things as they are. Is there a need to look at me like that? It’s not like I’m wrong! Don’t think I shut up earlier because I was afraid of you! I just didn’t want to get into any arguments!”

The bearded man’s fellow disciple was incredibly exasperated.

He felt helpless having to deal with the bearded man. It was not like he could stop the man unless he covered the man’s mouth. However, with the man’s temper, he would just get shoved aside if he did that!

Right at that moment, there was a loud sound coming from the scroll.

Everyone immediately looked over causing the fight to be paused for a moment.

Read No. 1 Supreme Warrior Chapter 3820

No. 1 Supreme Warrior Chapter 3820-Just as everyone was distracted by the quarreling, Looney activated the silver crystal once again. Three massive ice walls appeared in the air. Those ice walls did not obstruct the fighter right away.

Looney took a deep breath as he started to form seal after seal.

The three walls started to let out a cold glow that formed a small whirlpool. All the seals that Looney formed were being pulled into the whirlpool, and all of them were absorbed into the ice walls.

With a cracking sound, the ice walls merged into one the next moment. There seemed to be a faint glow coming from it as well.

Looney clenched his teeth and used the silver crystal again.

At that moment, the silver armored fighter was already thirty meters away. If they gave the fighter any more time, it would start to close in, and Looney would slowly be on the defensive!

Looney narrowed his eyes as he pushed forward. The wall of ice was suddenly between the two of them!

Just like before, the silver armored fighter did not hesitate to strike out. The sword sliced right into the ice wall.

The sharpness of the sword started to cut into the ice wall without any emotion.

Everyone could hear the constant cracking of the ice, and the ice wall was falling apart at a perceptible speed. It was as if it would be shattered to dust at the next moment.

At that moment, everyone held their breaths.

They could all tell that Looney probably did not hold back that much with this. If the ice wall failed to stop the silver armored fighter, then Looney would be in a really bad spot.

Looney frowned as he continued to stare at the ice wall. The ice was still being cut. However, unlike before, the slash remained sharp, and the sound of cracking caused everyone to feel anxious. It was as if the ice wall would be shattered to pieces at any moment!

The ice wall continued to crack, but it was also frantically trying to regenerate. There was a blue glow around the ice wall.

After two seconds, the sword was still cutting down, but the ice was regenerating faster and faster.

Slowly, it was starting to regenerate faster than it could be destroyed. The silver armored fighter realized something was wrong as well, and it quickly pulled its sword out.

Unfortunately, the silver sword had already been sealed by the ice wall at that moment. The silver armored fighter had not managed to budge the sword at all no matter how it pulled. At the same time, a howling wind that contained ice shards shot over!

The wind covered everywhere, and surrounded the silver armored fighter. The fighter immediately abandoned its weapon and tried to strike the wind with its fist. Yet, without its sword, it had lost a lot of its power. On top of that, the winds were just too fierce!

In just a few moments, the fighter was completely surrounded.

Looney frowned as he used his silver crystal.

At that moment, the silver crystal was glowing incredibly brightly. It slowly floated into the air as it let out a radiant light to create a massive blizzard that assaulted the silver armored fighter from all sides. The blizzard obstructed all sight, but they could still see a figure struggling within it.

It tried to strike out with its hands to break through, yet, the blizzard got more and more intense as time went on.

The fighter was completely enveloped, like a wild beast in a cage, unable to get out at all!

The countless shards of ice stuck onto the silver armored fighter.

After sticking to it, the shards of ice started to let out an incredibly cold aura. The aura had a strange sharpness to it that stopped anyone from circulating their true energy.
