

Chapter 1121: Court Death

It was as if that the ancient sky were frozen, creating a horribly depressive atmosphere.

Four minds became four huge phantoms and arrived at three different locations. A being with a gigantic silver snake's head and a strange beast covered with a sawtooth shell appeared in one location. A breathtaking being appeared at another location. A giant, oval-shaped phantom was at another.

"We all know what happened already." The voice of the breathtaking being, Bug Empress, was still gentle and seductive as usual. "Luo Feng performed a supreme technique of a universe master and created a miniature universe, and all the 6,000-something universe knights trapped inside were killed instantly. He also defeated Master of Banff and went back to the Thousand Treasures River of his teacher, Primal Chaos City Leader."

"Empress, Master of Banff, you chose this!" the black oval phantom said angrily.

A hoarse voice came from the strange, sawtooth-shelled beast. "Bug Empress," it said, "Master of Banff executed that, and your alliance should bear more responsibilities."

The voice from Bug Empress sounded cold. "You've agreed to this. Besides, who could have expected Luo Feng to perform a supreme technique of a universe master? Even if it had been a universe master from your races, it wouldn't have done a better job."

The other two demon ancestors and Father God from the automaton race understood this, but they had lost too much this time. Only a few of the fallen 6,000 universe knights had multiple body techniques. Besides, Luo Feng had killed an additional 800, meaning there were around 7,000 universe knights to be resurrected! And they were at least senior universe knights! This was a terrific figure.

The issue had to do with the distribution of responsibilities, which was why the beings of the demon race and the automaton race brought up the fact that Master of Banff had fallen short, following which, they could demand more.

"Humph!" Bug Empress snorted. "We'll resurrect the universe knights of our own! Don't even think about asking us, the bug alliance, to revive more."

"Empress," said the being with the giant snake's head. "We, the demon alliance, sent the most universe knights this time. More than half of the universe knights on that original star were of the demon alliance! And more than half of the universe knights who died were from demon alliance! We contributed the most, and now, we're responsible for the most? Not fair!"

"We didn't force you to send so many universe knights," said Bug Empress. "You sent all those universe knights voluntarily, and now, it's your responsibility to bear the consequence. Besides, we agreed before that we would be responsible for our own universe knights who died."

Nobody expected that so many universe knights would die. They all thought that only few universe knights would die. They only realized that they'd been wrong after Luo Feng's Moshu body had shown up. They could still have dealt with the death toll at that point. However, the one-time massacre at the end had left them hurting. And now, they were quarreling with each other.

Even supreme beings like universe supreme masters wouldn't acquiesce easily when it came to race interests. Plus, the stakes were huge this time. Resurrecting one senior universe knight would severely injure a universe master! Only those universe masters with gigantic godly bodies like World Tree and Mountain Giant were able to revive more.

The size of godly bodies determined the number of universe knights that a universe master was able to revive! The larger their godly bodies were, the more they were able to revive! However, there were around 7,000 universe knights! The dead universe overlords alone were a huge burden to those four universe supreme masters, and there were only so many universe masters within the three alliances! They wouldn't be able to resurrect all those universe knights even if all of them were injured.

"In my opinion," said the oval-shaped phantom, "we should stop arguing and go ask Nine Remoteness Master for help! Nine Remoteness Master's Nine Remote Ocean rivals a supreme true treasure, and it's totally able to resurrect 7,000 universe knights!"

"The more one resurrects, the more serious the backlash from the universe would be!" said the silver snake-headed being. "Nine Remote Master is indeed able to withstand the backlash using his Nine Remoteness Ocean. However, most of the universe knights who died haven't been to Nine Remoteness Ocean, which means Nine Remoteness would have to come here to resurrect them. Nine Remote Ocean cannot be moved. A godly body made by Nine Remoteness Master... His godly bodies are able to revive a universe knight initially, but the backlash will be much stronger later... And he might not be able to revive one universe knight."

All of them went quiet. The universe would punish those who turned back time to revive great beings, as it was against the universe operation law. The more one went against it, the more serious the punishment would be, as it was provoking the universe origin! Of course, Nine Remoteness Ocean was able to withstand it. Unfortunately, Nine Remoteness Ocean couldn't be moved.

"We can't let all the universe masters revive the universe knights," said the oval-shaped phantom. "It'll severely weaken our alliances, but we can't take too long to revive them, as we've already made a promise. I think we can go ask those universe masters of special life forms. Our alliances have several, and the Northern Territory Alliance and the Ancestral God School have many more. Each of them is able to resurrect more than 100 universe knights, and we'll be responsible for those universe overlords, after which we can revive some universe knights."

The universe supreme masters quickly reached an agreement. It was the plan that was least costly. The responsibilities would be distributed equally; each alliance lost one pinnacle domain type true treasure, which pained those universe supreme masters.

"The plan to resurrect universe knights is settled," said the black phantom. "We need to talk about that Luo Feng now."

"We have to kill Luo Feng!" said Bug Empress.

"He has the multiple bodies technique, and he has tremendous power," said the strange, sawtooth-shelled beast in an old, raspy voice. "Even universe masters can't deal with him—unless we go kill him ourselves. However, there are only four of us. There's no way we should all go! Yet we won't be able to catch him if only one of us goes. Regardless, I agree with you, Bug Empress. We suffered great losses this

time, and our alliances will be seen as a joke to other powers in the universe! We need to kill at least one of his bodies!"

"I agree," said the beast with the silver snake's head.

"Kill one of his bodies and take his true treasures!" said the oval phantom. "Otherwise, we'll be laughed at forever."

"Luo Feng has a Moshu body," said the beast in his old voice, "and he's extremely fast. We might not be able to catch him."

"Even if he can get out of original stars," said Bug Empress, "we'll keep hunting him, and we'll kill him and seize his true treasures."

They all understood that Luo Feng killing all those universe knights had already brought shame upon them. Even if killing one of Luo Feng's bodies didn't help much, they would become a complete joke if they couldn't even kill one body of Luo Feng.

"Ask other universe masters to track Luo Feng. We'd better constraint him!"

"Dream Tea, you'll be responsible for it."

"Okay."

On Original Star Number 02933, a blurry shadow of Primal Chaos City Leader materialized in front of Luo Feng within Thousand Treasures River. The real body of Primal Chaos City Leader was more than 18 billion miles away from Luo Feng.

"Teacher, you want me to court death?" Luo Feng was shocked.

"Our alliance all cheered what you did, and I would've done the same thing if I were you," said the phantom of Primal Chaos City Leader. "However, the three alliances were the ones who did wrong first, so they couldn't respond excessively."

Luo Feng nodded. Universe masters were usually forbidden to commit mass slaughtering among superpowers. Otherwise, it would be provoking another power, which might eventually lead to war. However, the three alliances had wanted to kill Luo Feng first, so it wouldn't lead to war.

"But they need to save face!" continued Primal Chaos City Leader. "Those three alliances suffered such great losses from you. If they just let it go, they'll be ridiculed by the entire universe. They will attack you again, and a universe supreme master might arrive. To save face, they must kill you, even if they only kill one of your bodies. You can put all your true treasures with other bodies and send one of your bodies, like Moshu body, and let him court death! It'll only take a little bit of your godly power, and those three alliances can publicly claim that they killed you." Primal Chaos City Leader looked at Luo Feng. "What do you think?"

Luo Feng pondered what Primal Chaos City Leader had said. He wasn't a fool. If it weren't for the plan he already had, he would have said yes. After all, it wasn't a shame at all for Moshu body to die at the hands of a universe supreme master. Unfortunately, it would go against his "Blood Cloud" plan.

"Teacher, I won't fight them," said Luo Feng, "but I won't just walk to my own death. Teacher, you know what I'm capable of. I can certainly get out of the original star easily."

"Even if you do, they'll keep hunting you," said Primal Chaos City Leader. "Just let your Moshu body die and get it over with."

Chapter 1122: The Great Freedom

Thousand Treasure River condensed to form a blurred image of Primal Chaos City Leader, who was smiling as he spoke. "Your opponent killed you so easily, and of course, they knew that you allowed yourself to be killed on purpose. But they wanted face! You are a new and upcoming individual, so bowing down to the three top powers was not a big deal. But this time, over 6,000 universe knights were killed in one go. It is news big enough to shock the entire universe. Your fame has skyrocketed. No single great being would dare belittle you anymore, including the universe supreme beings."

Luo Feng nodded. Even if the enemies were the three great alliances, even if they wanted to kill Luo Feng, they had to admit... not one of them dared to underestimate him.

"Teacher, allowing my Moshu body out would be equivalent to asking me to watch it get killed by our opponents without doing anything to help." Luo Feng shook his head. "Courting death in such a manner is not my cup of tea. Even if they were to kill me in the future, they would have to do so with true capability."

"Since you have made up your mind, I will not stop you," said Primal Chaos City Leader. "It's just that the bad blood between you and the three great alliances will continue to intensify."

Luo Feng smiled and said, "There is nothing to fear, even if there is much hatred!" His smile carried absolute confidence. He had established a name for himself within the universe, but he had relied solely on himself to achieve all these. Of course he was not afraid of any great being!

"Good!" Primal Chaos City Leader's blurred image nodded and replied, "What should be done? You just go ahead and do it!"

"Yes." Luo Feng gave a slanted smile and right away, he started to summon his Moshu body out while his original earthling body went back into the world ring.

Shua! Shua! Shua!

Luo Feng's Moshu body flashed continuously. Being within the Thousand Treasure River domain did not cause any interference to his speed at all. Luo Feng was able to maintain a speed of a few million miles per second, and it only took him a minute or two to make it to the next nearest whirlpool tunnel. There were a total of 10,081 whirlpool tunnels on every original star, and the distance between two such whirlpool tunnels was approximately 600 million miles.

"Time to go!"

Luo Feng went through this whirlpool tunnel immediately and arrived at another original star—Original Star Number 0829.

"Hahaha..."

Mosha Luo Feng displayed his talent technique "Domain" once again, and within a mere five minutes, he went through another whirlpool tunnel and arrived at another original star.

Domain was an uncommon talent technique that only gifted ones could possess. Some could not be mastered even with due diligence. Just like the talent technique of dividing bodies—a skill that made many universe masters go green with envy. Domain allowed Mosha body to fuse with space in an instant and break away thereafter.

Why was the fusion possible? It was because the Mosha body possessed a "life crystal" with 10,081 different planes. Before its transformation, it might have reached a consensus with the space laws and thus possessed heightened senses, but it was still unable to fuse with space. Upon absorbing the essence of the "heart of space," however, this life crystal had started to undergo changes. That was when it had gained the ability to completely fuse with space.

Universe masters and universe supreme beings were unable to completely fuse with space and were thus unable to become a part of space.

About ten minutes after Luo Feng left Original Star Number 02933, a towering and winding, gigantic silver snake emerged from the whirlpool tunnel and remained suspended in mid-air.

Hong!

Limitless power spread throughout the entire original star within a split second. Unbelievable willpower shrouded the whole original star. In the brief moment, he had taken control over all of time and space on this part of the original star. The control over time and space by universe masters was always a far cry when compared to that of universe supreme beings, who were even able to bring about a temporary withdrawal of universe laws.

Of course, original stars were situated nearest the land of origins of the universe. The universe origins could not be defied or provoked; in the land of origins, not even universe supreme beings could teleport about, and one's flying speed was unable to surpass the speed of light. After all, if one were to engage in a fight with the universe origins, even the mightiest universe supreme beings would be on the losing end.

"Dream Demon Ancestor." All the universe masters, including Primal Chaos City Leader and Long Yan Master showed their respects.

"Primal Chaos City Leader, where is your disciple, Luo Feng?" Dream Demon Ancestor's voice was transmitted through space and immediately resonated in Primal Chaos City Leader's ears.

"My disciple, Luo Feng, left this original star earlier." Primal Chaos City Leader smiled. "Since Dream Demon Ancestor is here, Long Yan Master and I shall take our leave."

"Let's go."

Primal Chaos City Leader and Long Yan Master sped toward the whirlpool tunnel that was not far behind them and made their exit from this original star through the tunnel.

"Humph!" A grunt resonated throughout the entire original star. Dream Demon Ancestor sneered after them, enraged. "All of you nine universe masters must start heading out to the other original stars," he ordered. "Search every original star you get to and find Luo Feng."

"Understood!"

Universe masters were highly efficient when it came to conducting searches. The moment they arrived at the various original stars, they would gain control of time and space right away. At that point, scouring the entire planet was a piece of cake! Luo Feng's Moshu body and other disguises would all be rendered useless. Besides, all three alliances had each sent close to ten universe masters to conduct large-scale searches.

After all, during the opening of the original stars, there were already a sizable number of universe masters entering the stars in search of treasures. The only trouble was that flying from one whirlpool tunnel to another was quite time-consuming.

One after the other, universe masters were arriving. They all started to us "control of time and space," which shocked the numerous universe knights who were clueless about the major event that had brought about this large-scale search. However, very quickly, they all caught wind of the news of the unbelievable event that had happened on Original Star Number 02933.

Such a major event would never be able to be kept under wraps. Furthermore, the Hong Alliance had been adding fuel to the fire, hence causing the news to spread even faster.

"Luo Feng has defeated Master of Banff? With one stance of his talent technique, he killed over 6,000 universe knights, and those were all at least at the level of senior universe knights. There were even a few universe overlords! This is not a joke, right?"

"It's true! The news is already spreading!"

"Over 6,000 universe knights, all killed with one move?"

"Has Luo Feng become a universe master?"

"God..."

"Blade River Emperor? Wrong! He should now be 'Blade River Master'!"

"Back when I was in the Ancestral God School, in the virtual space above the open public square, I witnessed his fight against Bark Mirror Emperor. It happened not too long ago, probably only around 20,000 years. Since then he has become a universe master? What a miracle! What unbelievable defiance. This Luo Feng... he is so powerful."

"Over 6,000 universe knights! If I could kill over 6000 universe knights in one move, my name would be remembered throughout the universe, and countless races would come to know me and continue to spread my name. If this is the case, even if I were to be annihilated right away, I would do so with a most willing heart."

"You must be out of your mind."

The explosive news hit the billions of races like a tornado and drove countless great beings into a frenzied state. This was practically a fairytale. The unbelievable rate at which Luo Feng had risen was what made countless universe knights look up to him. He now stood on the highest pinnacle, shoulder-to-shoulder with all the other universe masters. Of one accord, they all started to address Luo Feng as "Blade River Master."

Luo Feng was indeed stepping on the three major races and had defeated over 6,000 universe knights to become a legend who shocked the universe. It was equivalent to announcing to the trillions of races, "I, Luo Feng, have officially joined the ranks of pinnacle great beings of the vast universe!"

Among the hills in Original Star Number 03129, a being wearing a blood-red battle robe and a mask, with a pair of golden horns on his head and a tail extending out from behind his robe, made himself comfortable by leaning against a mound behind him.

Luo Feng smiled. "So comfortable."

With his Mosha body, he continuously went through one whirlpool tunnel to the next at high speed. After three consecutive transfers through three different whirlpool tunnels, he decided to remain on Original Star Number 03129, where he quickly put his Mosha body back in his world ring and let his Golden Horned Beast body take the form of Blood Cloud Palace Master before coming out.

Now, Mosha body and his original earthling body are in the world ring while on the outside... there was Blood Cloud Palace Master! The renowned Blood Cloud Palace Master!

"Hahaha..."

Luo Feng leaned against the mound and laughed out loud. How carefree!

It was such a chore being on the run previously, where he also had many things to take account for. For example, taking care not to compromise any of the Hong Alliance's benefits. Now that he had a change in identity—transforming into Blood Cloud Palace Master—he did not need to worry about anything more since Blood Cloud Palace Master already was everyone's enemy! This sort of freedom to wander about anywhere in a carefree manner was satisfying.

Luo Feng stretched out his hands, and a long shuttle with red lines appeared! One end of the shuttle was thick while the other was sharp, and it seemed very ordinary. In fact, this was Star Tower in another form after being disguised by Blood Cloud Pearl. Blood Cloud Pearl was extremely powerful in its ability to use disguises, but, of course, the disguises would not be too far off the mark to be considered ridiculous. For instance, it would be impossible to disguise Star Tower as a domain type true treasure, that would not work out.

Star Tower was originally in the shape of a tower with a thick lower end and a sharp top; it was just slightly disguised into the form of an ancient, long shuttle! Henceforth, this long shuttle was Blood Cloud Palace Master's new weapon!

Luo Feng had lain in the same spot leisurely for more than an hour when a towering figure suddenly stepped through the whirlpool tunnel. He had a strong and burly built and was quite manlike except for

the fact that on his head were nine fiery-red tentacles and each tentacle was entwined with a flame. His eyes resembled flaming red rubies. He was the famous Sinking Fire Master.

Hong!

Immeasurable power was unleashed within a split second and fell upon the entire original star. Across the original star, universe knights from the various powers of the universe initially felt shocked, but the next moment, they were all discussing amongst themselves.

"Ah, a universe master."

"A universe master has arrived."

"Could it be looking for Blade River Master, Luo Feng, too?"

Obviously, they had all heard the news that at that moment, universe masters of the Demon Alliance, the Bug Clan Alliance, and the Automaton Race Alliance were conducting a large-scale search for Luo Feng. As the search went on, universe masters of the other top powers who were on the 10,081 original stars joined in the fun of watching what was going to happen. They were all curious to know whether, in the end, the three great alliances' efforts would come to naught, or if they would finally succeed in killing Luo Feng.

"Hmm?"

Sinking Fire Master stood in midair and took control over time and space in this original star to search for Luo Feng, yet he discovered another presence.

What a familiar aura! What familiar power! What familiar armor! What a familiar mask!

A hint of shock flashed in Sinking Fire Master's eyes as he exclaimed, "Blood Cloud Palace Master!"

If Luo Feng's offense was that he was too ruthless in his approach toward the three major alliances, then Blood Cloud Palace Master could be said to have created an even bigger storm. He was practically the nightmare of trillions of races within the universe—the universe's public enemy! Various universe knights and universe overlords had died at his hands. Even universe masters had been killed by him.

"I have found Blood Cloud Palace Master! Blood Cloud Palace Master is now on Original Star Number 03129!" Sinking Fire Master immediately transmitted the news to his other higher-ups of Demon Alliance, including Dream Demon Ancestor and Shock Demon Ancestor.

Chapter 1123: Fierceness

Dream Demon Ancestor was still waiting for news on that original star

"We didn't find the human Luo Feng on Original Star Number 08293."

"We didn't find the human Luo Feng on Original Star Number 08448."

The universe masters from the three alliances were adventuring the original stars, and they kept reporting back to Dream Demon Ancestor.

"Dream Tea, have you found Luo Feng?"

Inside the virtual space of Dream Ancestor Secret Region, a giant, strange, sawtooth-shelled beast emerged from the darkness and arrived at the palaces that belonged to Dream Demon Ancestor. He talked to the gigantic silver snake.

"No, we haven't."

"You still haven't?" Shock Demon Ancestor growled. "Luo Feng might've already made it back to the human territory given how fast Mosha body is."

"I think so." The giant snake's head turned around and looked at that strange beast. "After all, it's a death mission for ordinary universe knights. As for universe masters, there are only so many universe masters of the three alliances, and they're scattered everywhere. It'll take them a long time to get there, during which time, Luo Feng can run far. He must have arrived back in human territory by now."

"Dream Tea, what can we do if that human Luo Feng keeps hiding in the primal universe?" asked Shock Demon Ancestor.

"Then we won't be able to do anything," answered Dream Demon Ancestor. "The primal universe is controlled by Primal Chaos City Leader. Even if we go to the primal universe, we won't be able to rival Primal Chaos City Leader. He can control the entire primal universe."

They both went silent. It was common knowledge that Primal Chaos City Leader was invincible in the primal universe.

"That Luo Feng is being stupid!" said Dream Demon Ancestor. "Four pinnacle races have been fighting for an eternity, and no race has been able to annihilate the others. As long as there are universe supreme masters, the fights won't go too far. If Luo Feng is already able to perform such a terrific technique, it means he's already a universe supreme master."

"Perhaps he's not one yet," said Shock Demon Ancestor.

"It doesn't matter now, Shock Horn. He has the power of a universe master. Not only does he have the ultimate techniques of a universe master, but he's even created a supreme technique of a universe master! At most, one of them is an inherited technique, which means others were created by him, and he has several bodies." The giant, silver snake's head was swinging his body and sighing. "Even if we go, we can only kill one of his bodies. We can't do more than that."

"If we can't kill him for good, it won't matter."

"If he's smart enough to send one body to come here, it'll be over." Dream Demon Ancestor was a little infuriated. "However, we've all lost face. Three alliances will never let him off."

All the three alliances wanted Luo Feng dead. After all, Luo Feng made them suffer great losses. Unfortunately, they had set Luo Feng up in the first place.

Plus, Luo Feng had the Hong Alliance and the Ancestral God School to protect him. The Hong Alliance was one of the top nine superpowers in the universe! And the Ancestral God School was also secretly protecting Luo Feng. Given Luo Feng's own power, the three alliances could only kill him if they were willing to risk everything. If he was willing to send one of his bodies to be killed, they wouldn't go crazy. However, at this point, there was no chance for Luo Feng and the three alliances to ease the situation.

Suddenly, their conversation was interrupted by a piece of breaking news.

"Dream Demon Ancestor, Shock Demon Ancestor, I've found Blood Cloud Palace Leader!"

"Blood Cloud Palace Leader is on Original Star Number 03129."

"Blood Cloud Palace Leader?"

Both Dream Demon Ancestor and Shock Demon Ancestor were stunned.

"That guy showed up?" Shock Demon Ancestor said. "He dares to show up?"

"Humph! That maniac." Dream Demon Ancestor was also infuriated. "He's been missing for millions of eras, and he shows up on an original star now? Even universe supreme masters will find it difficult to kill him on an original star!"

"What should we do now?" asked Shock Demon Ancestor.

"Spread the news and let everyone in the universe know!" said Dream Demon Ancestor. "Blood Cloud Palace leader is proficient in fleeing, and our demon race alliance won't be able to catch him by ourselves. It's going to cost a lot to kill him. Besides, he's a common enemy to everyone in the universe. We can just let everyone contribute."

Shock Demon Ancestor nodded. "Okay."

"Hehe! It's been a long while. He dares to show his face?" The eyes of Dream Demon Ancestor glinted fiercely.

Blood Cloud Palace Leader appeared on Original Star Number 03129—the news was spread from the demon race alliance to all the nine superpowers in the universe.

Aside from the nine superpowers, powers like the Thorn Ring Alliance and the Nine Territory Alliance all knew about it as well.

Inside the Ancestral God Palace of the Ancestral God School, there came a furious voice: "Blood Cloud Palace Leader? Blood Cloud showed up? He dared to show up? Sky Beacon Godly Master... You'll lead the three universe masters under you. Go to the original star and kill that Blood Cloud!"

"Yes, Ancestral God."

One of the guarding godly masters, Sky Beacon Godly Master, immediately led the other three universe masters and left the Ancestral God Palace.

"It's Blood Cloud!"

The Northern Territory Alliance had the greatest number of great beings, universe knights, and races. They had suffered the most losses back when Blood Cloud Palace Leader had roamed the universe committing mass slaughters. A great many great beings, including top-tier universe overlords, had been killed. Even a universe master had died.

Blood Cloud Palace would kill anyone he didn't like—without any feud! Some great beings had once tried to butter him up and attempted to admit him into the Northern Territory Alliance, but they had been crushed and killed by Blood Cloud Palace Leader.

All in all... Blood Cloud Palace Leader was a maniac and extremely evil! He had made himself an enemy to almost all the powers in the universe.

After more than three million eras, the resentment flooded the great beings' minds when they knew that Blood Cloud Palace Leader showed up again... And the seniors from the Northern Territory Alliance weren't able to withstand that, either! Blood Cloud Palace Leader disdained the Northern Territory Alliance to its very core!

Immediately, twelve universe masters were ready to kill Blood Cloud Palace Leader.

"Maniac!"

"That maniac dares to show up again? He thinks he's safer on the original star because universe supreme masters can only fly?"

"Leave him to me! I'll kill him!"

"Me too."

"He killed me before, and fortunately for me, our alliance leader resurrected me. Now that I'm a universe master, I'll kill him for insulting and killing me!"

Space Beast Alliance, Space God Mountain.

"Blood Cloud? He dares to show up?" Space Beast Ancestor roared. "The insult he brought upon our alliance will be paid for with his life!"

"Ancestor, I'll go kill him," said a universe master.

"Me too," said another.

"That bastard. He ran away when I just arrived back then. Our Golden Horned Beast bloodline will be part of this, too."

Immediately, the Space Beast Alliance decided to send four universe masters to kill Blood Cloud Palace Leader. All the universe masters sent were exceptional ones.

The Hong Alliance: the virtual universe, Hong Alliance City, Hong Alliance Palace.

Huge Axe Creator sat at the center while the palace leaders sat at the sides.

"That Blood Cloud Palace Leader showed up after three million eras! What should we do, Huge Axe?"

"Blood Cloud Palace Leader didn't mess with us, the Hong Alliance," said Huge Axe, "and only our alliance managed not to suffer much from him. I don't think we should meddle this time. Besides, you know Blood Cloud Palace Leader. His 'Blood Cloud Palace' is a true treasure used to flee."

There were discussions about within the Hong Alliance, but nobody was willing to be a part of this event. After all, Blood Cloud Palace Leader didn't mess with the Hong Alliance, and if the Hong Alliance meddled and Blood Cloud Palace Leader took revenge, it would end badly.

"Let's see how Blood Cloud Palace Leader fairs," said Huge Axe.

On Original Star Number 03129.

On a hilltop, Blood Cloud Palace Leader, leaned against a mound, looking quite tranquil. He wore a fiery cape and mask and had a long shuttle.

"Madness...!" exclaimed Luo Feng. "Based on the news from the Hong Alliance, all the powers in the universe are going crazy. Teacher Sitting Mountain Guest, how amazing you are! All the powers except the Hong Alliance want to kill you."

Luo Feng shook his head in amazement. Even the Ancestral God School and the Space Beast Alliance, with whom he had a great relationship, were coming after him.

"Almost there. The news is widespread already." Luo Feng nodded.

He stood up immediately. He raised his head, looked around and whispered, "Perhaps all the powers have already taken action. Hahaha... Come and kill me! Just don't get killed by me instead!"

Hua!

Luo Feng, wearing a fiery cape with a pair of golden horns, flew up into the air.

Sinking Fire Master was performing control over space and time. He kept his eyes on Blood Cloud Palace Leader, and he heard everything Luo Feng said. Sinking Fire Master grew intimidated. He hadn't expected Blood Cloud Palace Leader to be this rampant.

"Blood Cloud Palace Leader is moving! He's moving! He's flying to the whirlpool closest to him!"

Sinking Fire Master immediately reported the news to Dream Demon Ancestor and Shock Demon Ancestor. The powers of the universe hadn't formed an encirclement around him yet.

Dream Demon Ancestor replied with an order immediately. "Sinking Fire Master, I order you to restrain Blood Cloud Palace Leader!"

Chapter 1124: The Might of Blood Cloud

"You want me to stop him?"

Sinking Fire Master expressed his unwillingness at once. Although he was a member of the Demon Alliance, he was not actually of demon origin. Instead, he was a leader of a strong race. Blood Cloud

Palace Master was infamous, and he had previously killed two universe masters. How strong he was... He definitely belonged to the ranks of pinnacle universe masters. Sinking Fire Master might not be weak, but upon comparing, he still lost to Blood Cloud Palace Master.

"Just to pin him down!" Dream Demon Ancestor ordered, "Besides, you still have your other bodies."

"I may have my other body," said Sinking Fire Master, "but this old fellow has not shown himself for more than three million eras. There is no way I can predict what he is capable of. If this body of mine is annihilated, my true treasures shall fall into his hands, too! Furthermore, I have a token of 'Zhen Chang Valley' with me."

Sinking Fire Master was unwilling to take the risk. He was the leader of a strong race, the entire race depended on him.

"Even if this body of yours were to be annihilated, when Blood Cloud Palace Master is killed, all your true treasures will eventually be returned to you," Dream Demon Ancestor said. "Even if Blood Cloud Palace Master survives this ordeal, whatever loss you incurred, my Alliance shall compensate half the amount! Humph! You are the renowned Sinking Fire Master. Is it possible that you cannot even protect yourself from Blood Cloud Palace Master?"

"All right!" said Sinking Fire Master. "Since Demon Ancestor has promised, I shall make my advances."

Sinking Fire Master ceased to hesitate.

Hong!

He transformed into light and speedily gave chase after Blood Cloud Palace Master.

Luo Feng and Sinking Fire Master were not that far apart—probably only a few dozen million miles away—as Luo Feng sped through space.

"Blood Cloud Palace Master, hold it!" A booming voice resonated in his ears.

"Humph!" Luo Feng sneered and continued moving forward.

The booming voice spoke again. "Blood Cloud Palace Master, I, Sinking Fire Master, would like to speak with you."

It was obvious that Sinking Fire Master did not really want to fight Luo Feng; after all, the top powers were the ones who bore deep hatred for him. Personally, he did not bear such great enmity toward him, but so long as he could pin him down, he could claim credit for his work done. Even better, if Blood Cloud Palace Master was killed, henceforth, when the time came for treasures to be split and distributed, Sinking Fire Master would naturally be able to claim his share.

"Sinking Fire Master! You think I am as foolish as you are?" Luo Feng brushed him off lightly.

"You—!"

Sinking Fire Master was so mad that he momentarily went speechless. He could not help letting out a sigh. No wonder Blood Cloud Palace Master had enemies all over the universe. He was truly a mean-

spirited character. There was no bad blood between the two of them, but in this short exchange of words, Blood Cloud Palace Master had already crudely called him foolish. Wasn't this an insult to a universe master like himself? If it were some other great being saying the same words, Sinking Fire Master would have roared in rage and prepared for battle, but as it had come from the notorious Blood Cloud Palace Master, his rage dissipated fast.

After all, Blood Cloud Palace Master was naturally cruel-natured. If not, how would he have offended the various top powers of the universe?

One flew ahead while the other gave chase behind. Sinking Fire Master was lagging far behind in his pursuit. At the same time, he was constantly reporting to Dream Demon Ancestor and Shock Demon Monster to update them about the latest situation.

"Blood Cloud Palace Master is escaping as fast as he can move," said Sinking Fire Master. "I am unable to keep up, so keeping him in view may only be temporary."

After a short moment, Luo Feng flew right into a whirlpool tunnel.

"He has entered a whirlpool tunnel that leads to Original Star Number 06231," Sinking Fire Master reported immediately.

This news from the Demon Alliance was immediately disseminated out among the super beings, and it took only a short moment for various parties to know that Blood Cloud Palace Master had entered Original Star Number 06231.

"Star River Master, we are about to arrive at Original Star Number 03129, the coordinates of Blood Cloud Palace Master's whereabouts."

"Hmm."

Six universe masters of the Northern Territory Alliance were flying together in the original stars. The leader of them was Star River Master, who had the highest status in the Northern Territory Alliance. Although there was a total of twelve universe masters from the Alliance involved in this operation, the other six were originally in the original star and were thus making their way from the various original stars they were on to join the group.

"Stop!" Star River Master ordered.

The other five towering figures halted in midair at the same time and looked toward Star River Master—a looming black space.

"Blood Cloud Palace Master has already left Original Star Number 03129 and has gone through a whirlpool tunnel to arrive at Original Star Number 06231," Star River Master announced.

"What should be we do?"

"This spells trouble."

The other five universe masters all felt that things were looking extremely bleak.

"Get the coordinates of the whirlpool tunnel leading to Original Star Number 06231," Star River Master barked out his orders. "What is the fastest route to take?"

"If we take a turn after passing by eight original stars, the time we spend on traveling would be the shortest," a universe master spoke up to answer at once.

"Then let's take off," Star River Master ordered.

Hong!

All six universe masters changed their course of flight right away.

The news spread, which indeed caused much dissatisfaction among various powers who were after Blood Cloud Palace Master's life, but they were all at their wits' end, too. Every original star had a total of 10,081 whirlpool tunnels. This was the greatest problem when it came to hunting him down for the kill. Maybe... This was what Blood Cloud Palace Master had counted on when he showed up on the original stars.

Sinking Fire Master's towering figure also went through the whirlpool tunnel and entered another original star. He had just stepped in and had yet to control time and space to conduct his search.

"Huh?"

Sinking Fire Master looked around in surprise. He could see that, at a distance of approximately 60 million miles away, an endless dark mist pervaded the air. Amidst the dark mist, an ancient palace loomed indistinctly; and in front of that palace, a lone figure stood upright. Shrouded by the dark mist, the figure seemed vague and only faintly discernible.

"Blood Cloud Palace!" Sinking Fire Master recognized the famous treasure right away.

Blood Cloud Palace was a top-tier flying-palace type true treasure! It was an entire level higher than Sky Wolf Palace. Its sturdiness was unmatched... even universe supreme beings would find it hard to cause damage to Blood Cloud Palace. It could release a dark mist over an area as far as hundreds of billions of miles away. The combination of lingering dark mist and towering palaces... That had to be Blood Cloud Palace. By making use of Blood Cloud Palace, one could continuously avert death.

"Blood Cloud Palace Master did not escape?" Sinking Fire Master was secretly taken aback.

"Hahaha! Sinking Fire Master! Why, are you scared?" The dark mist suddenly spread out to envelop Sinking Fire Master as a voice resounded, saying, "Aren't you after me? It's been a long, long time since I fought a battle. Now, I am giving you the chance to fight me!"

"Hmph!" Sinking Fire Master roared in rage. This Blood Cloud Master disregarded him without a trace of respect.

Blood Cloud Palace Master's voice was transmitted over to him. "Haha! As expected. You have no guts at all. I will leave you here, then."

Sinking Fire Master saw how Blood Cloud Palace Master continued flying away, and let out an angry roar at once. "Blood Cloud, don't make haste in escaping if you truly have the guts!" Transforming into light, he gave chase right away.

"Hahaha."

Hong!

Blood Cloud Master waved his hand and stowed Blood Cloud Palace in a long shuttle he held onto. Then he charged over with a flash.

"I shall let you taste my might," said Sinking Fire Master.

Sinking Fire Master held onto two large hammers. The nine tentacles on his head blazed with more flames as he roared.

Luo Feng charged over at high speed with his long shuttle in hands. At the same time, he sighed inwardly over the fact that out of the 100 million of races in the universe, an extremely large number of great beings—especially those of super beings—wielded hammers as their weapons.

A distance up to 60 million miles apart, yet the two dashed in each other's direction and were face-to-face in a split moment.

"Blood Cloud, time to die!" Sinking Fire Master roared.

A wave of his hammer was, naturally, followed by a ferocious roar—a roar that seemed to have come from the primordial age of the universe. Sinking Fire Master had come to exist upon the completion of Beast God Path between fire and space. One strike with his hammer, and the stability of the space in the surroundings would be shattered like glass being cracked, shattered, and crushed beneath a tank.

"Just you alone?" Luo Feng was as tall as 600 miles at that moment, but it was likewise for Sinking Fire Master.

Luo Feng was holding on to Star Tower, which, after being disguised by the "Blood Cloud Pearl," took the form of a shuttle more than 1,800 miles long.

"Meet your doom!" said Luo Feng.

Luo Feng stared at his opponent from afar. The godly power of his entire body was already burning up and gushing in a continuous stream into the long shuttle he held. Until that very day, Luo Feng could only fully comprehend the first level of the sculpture of complicated secret engravings on the Star Tower. He might have been close to full comprehension of the second level, but he was still a little shy of completion, so he could not fully activate the power on the second level. This, in turn, would require him to consume more godly power, as the power on the first level was simply not as strong as that of the second level.

He activated the Star Tower long shuttle! With the long shuttle, Luo Feng used his ultimate technique of a universe master, "Blood Light." It was newly created. Thus, this was the first time it was being used in battle.

"Shatter!" Sinking Fire Master roared.

The might of his godly hammer was immeasurable. At that moment, it was as though the skies were falling apart as the earth shattered... But suddenly, a dazzling, blood-red light shuttle flashed by. The speed was frighteningly fast. There was no way the two godly hammers of Sinking Fire Master could block the blows.

Pu!

The blood-red light shuttle pierced right through Sinking Fire Master's chest.

Peng!

Sinking Fire Master gritted his teeth and rammed his godly hammer onto Blood Cloud Palace Master's body.

Hong! Hong!

The two rebounded in opposite directions.

How could he be so fast? thought Sinking Fire Master in amazement. So fast that I didn't have time to block his attacks.

Sinking Fire Master had expected that there would be some changes in Blood Cloud Palace Master since he had not been seen for more than three million eras. However, he had never expected that the use of a new true treasure, "Long Shuttle," would bring about such a fast speed. He may not have been adequately prepared; this was simply too fast.

Sinking Fire Master was shocked. Well-deserving of his title, this Blood Cloud Master... Given the size of my godly body, he could still cause me to lose 1 percent of it. His capability certainly falls within the pinnacle list of universe masters. Luckily, it's only this one time. I will not allow him to attack my godly body directly again.

The two continued to exchange blows, purely using their weapons to fight. The remaining power after blocking off the attacks of the weapons was certainly much weaker, but at least the injuries were purely physical injuries. There were no other weapons to help them dodge blows from one another. It was Luo Feng's long shuttle piercing into Sinking Fire Master's body and Sinking Fire Master's heavy hammer crashing down on Luo Feng's body.

Force Armor is simply incredible, thought Luo Feng. It can reduce the impact of attacks to 1/10,000, so that one blow of the hammer would practically seem harmless to my godly body. I can recover in no time. Luo Feng looked at the long shuttle he held. This is undoubtedly a supreme true treasure. I only activated the first level to drive the supreme true treasure, so the supreme true treasure was only unleashing part of its might. Nonetheless, it was already more powerful than the greatest blow I dealt during my battle with Master of Banff earlier on.

Luo Feng had prepared well for this fight. Force Armor was, after all, stronger in defense compared to Beast God Armor, so Luo Feng temporarily swapped his original earthling body with Blood Cloud Palace Master so the latter would be able to wear Force Armor! And in his hand, he wielded Star Tower long shuttle!

"Blood Cloud Palace Master, you have my respect," Sinking Fire Master bellowed. "But you are simply out of changes."

"Hahaha!" laughed Luo Feng. "Anyone can blow his own trumpet."

Luo Feng and Sinking Fire Master continued to exchange blows.

Hong!

Sinking Fire Master put in his utmost effort to ward off the blows from Luo Feng; the first godly hammer failed to do so, but the second one did, albeit to a most insignificant degree. Sinking Fire Master was completely thrown off by the force of Luo Feng's attacks.

Star Tower is simply too powerful, thought Luo Feng. To think I have merely used part of its might. Previously, when I was fighting Master of Banff, I had the additional support that my miniature universe rendered, but all I could do was suppress... Now, I'm practically trampling on Sinking Fire Master.

Luo Feng could feel the enormity of the power of Star Tower. Every pierce was so fearfully fast, and every impact was able to send Sinking Fire Master flying off into the distance. This was complete suppression and belittlement of his opponent. It gave Luo Feng a sense of unprecedented pleasure and satisfaction.

In the form of Blood Cloud Palace Master, Luo Feng was greatly at ease. As he held onto Star Tower and trampled on a universe master, Luo Feng was gleeful.

Regarding the second level of secret engravings, Luo Feng was only a finger's breadth away from full comprehension; besides, he had already comprehended the fifth form of Beast God Path earlier when he was on the original star, so he was quite accomplished in his studies of the pictures of secret engravings. Now, in his current state of mind, at the 35th exchange of blows between him and Sinking Fire Master, he had unknowingly activated the second level of the sculpture of secret engravings to its entirety in a split second.

Chapter 1125: Kill

Luo Feng was completely devoted to killing, and he was extremely stimulated. He made his breakthrough and completely understood the second level of law engravings on Star Tower. After getting Star Tower, Luo Feng had been following the engraving-picture path to understanding the mysteries behind Star Tower. He knew clearly that Star Tower was his trump card!

Luo Feng had created techniques like "Level Mountain," "Golden Mountain," and "Blood Light" because of temporary inspirations, and Luo Feng didn't even study into the second level of Shi Wu Wings even though it was easier than the second level of Star Tower.

Luo Feng kept studying the mysteries of Star Tower. It was even more difficult than creating ultimate techniques of universe masters! Until today... He roamed the universe disguising himself as Blood Cloud Palace Leader, and he was able to crush universe masters.

Hong! Long!

Boundless burning godly power flooded Star Tower, and the heaven pillars and seal stars started to shine! Its power surged! The godly power required was much more than when he had only cracked the first level of engravings, but the power was gushing!

It was the 35th time Luo Feng and Sinking Fire Master clashed!

It's little wonder he's completely suppressing me, thought Sinking Fire Master. It's Blood Cloud Palace Leader. However, I can withstand him. I can resist every attack from him, and the attacks have only consumed a little of my godly body. I can stall him until the other universe masters arrive.

Sinking Fire Master didn't feel ashamed even though he was being crushed. It was, after all, Blood Cloud Palace Leader! The same Blood Cloud Palace Leader who killed two universe masters and became an enemy to almost all the powers in the universe! It was not surprising for him to be crushed by Blood Cloud Palace Leader. On the contrary, he would have felt weird if he were Blood Cloud Palace Leader's equal.

Hong! Long!

They hit each other again like traces of light. Luo Feng triggered the second level of Star Tower. Following a deafening noise, the long shuttle of Star Tower immediately became much larger. The shuttle, which had only been thousands of miles long, immediately became tens of thousands of miles long, and Luo Feng had to become larger as well to feel comfortable holding such a gigantic shuttle.

Peng!

The long shuttle caused terrific whirlpools that dismantled the space around it, together with the lands and grassed on the original star.

Sinking Fire Master opened his eyes wide, and the antennae on his head started to burst aflame. "Impossible!" he roared and put his godly hammer ups in front of him as if to form a wall.

The shuttle stabbed the center of the hammers, and the power hit the chest of Sinking Fire Master.

Peng!

Sinking Fire Master shot back like a beam of light.

"How...?"

Although Luo Feng was thrilled by the power of the second level of Star Tower, he knew now was not the time to be thrilled. "It's time to kill him!"

Sou!

Luo Feng quickly followed him.

Sinking Fire Master was completely stupefied. The power from that attack terrified him. The hammers hit his chest, and the power immediately ravaged his top-tier true treasure armor, hitting the armor's limit. His godly body trembled.

Hong!

"32 percent of my godly body is gone?"

Sinking Fire Master was shocked. He was a universe master and had been one for an eternity. He had a life gene level of more than 1,000 times. Besides, he was also wearing top-tier true treasure armor and had a godly body more than 600 miles tall! Yet 32 percent of his godly body had been consumed with one attack.

Blood Cloud Palace Leader was indeed powerful, but the Blood Cloud Palace Leader known to history wasn't this powerful...

"Take another one!" The bloody being arrived again, and the shuttle slashed the sky, forming whirlpools that crushed the space on the original star.

Peng!

It was irresistible. Sinking Fire Master bounced away, and Luo Feng followed him like a bolt of lightning.

"How can he be so powerful?" wondered Sinking Fire Master, realizing his godly body was down to 29 percent already. He transmitted his voice, looking at the bloody being racing toward him, and said, "I didn't expect Blood Cloud Palace Leader to have gotten stronger. It's not shameful for this body of mine to die at the hands of Blood Cloud Palace Leader."

Hong!

After an explosion, the body of Sinking Fire Master was annihilated.

"Haha! True treasures of a universe master."

Luo Feng reached out his hands and took the world ring, the giant hammers, the top-tier true treasure armor, and a green bean into his world ring. Then he flew away like a trace of light.

A sense of refreshment wafted with a breeze in the sky as Luo Feng flew toward a space whirlpool in the distance.

"I... I killed a universe master," Luo Feng said.

He was still excited. Although he realized that Sinking Fire Master had multiple bodies the moment he killed him—as there were still life imprints on the true treasures—Sinking Fire Master wasn't able to retrieve those true treasures. He was too far away. Luo Feng would certainly be able to break those imprints.

"He isn't dead yet. After all, he's a universe master." Luo Feng was thrilled, and he looked at the shuttle in his hand. "Supreme true treasure Star Tower... No wonder it's a supreme true treasure! My human race doesn't even have a supreme true treasure, and one supreme true treasure can be a guarding treasure... No wonder."

It was too powerful. When Luo Feng was only able to drive the first level of Star Tower, Sinking Fire Master's godly power surpassed Luo Feng! And they had techniques at the same level. However, Luo Feng was at a great advantage with his true treasure. Sinking Fire Master was also using a pair of top-tier true treasure hammers, but the power of them was nothing compared to that of a supreme true

treasure. The supreme true treasure at the first level not only completely made up for the disadvantage Luo Feng had in terms of godly power but also gave him a great edge!

And after he cracked the second level... Luo Feng, whose godly body was only at 100 times, was able to rival the most powerful universe masters with Star Tower. The difference in godly bodies was made up for by Star Tower.

Even Primal Chaos City Leader, Star River Master, and Nine Remoteness Master didn't have supreme true treasures! Even Huge Axe Creator didn't have one, yet Luo Feng had one!

"Supreme true treasure!" Luo Feng exclaimed. "The second level of engravings were much more complicated than those of the ultimate techniques of universe masters, and they can rival those of 'I Am the Universe.' Fortunately, there are engravings already, and I only need to learn how to utilize them. I can't even imagine how terrific the third level of Star Tower will be."

The second level of engravings could rival I Am the Universe, and after the engravings were combined with Star Tower, the power was much stronger than I Am the Universe.

What about the third level?

"Haha... With Star Tower, I can go everywhere in the universe!" Luo Feng was amazed.

Suddenly.

Hong! Long!

A powerful force arrived, and the original star was controlled. The ruins were completely recovered.

"Control over space and time? Universe masters are here." Luo Feng immediately realized that they were only the first group of universe masters. They would be followed by numerous others.

"Blood Cloud Palace Leader!"

"Blood Cloud Palace Leader, don't you dare run!"

"Who are you to yell at me?" Luo Feng guffawed, and the whirlpool portal appeared. He flew toward it and went into it, leaving the original star and arriving at another.

Two universe masters tens of billions of miles away from Luo Feng were furious, but they could do nothing about it. They had to report it.

"Blood Cloud Palace Leader entered Original Star Number 08625."

Sinking Fire Secret Region had a diameter of 800,000 light years. It was the center of the Nine Huo Race, and their leader, Sinking Fire Master, also lived there. Every 10,000 years, a group of peerless talents would be led to the Sinking Fire Secret Region to receive the best training.

Inside Sinking Fire Secret Region, a giant mountain range hundreds of millions of miles long floated in space, and suddenly, an eye on the mountain opened.

"What a pity!" Sinking Fire Master exclaimed. "I chose Li Volcano as my body, and it was destined to move with difficulty. Otherwise, my Nine Huo original body wouldn't have been killed so easily."

He had gotten lucky while adventuring through the universe as a sector lord and had been bestowed with a second body by the universe. He had bred another body, ultimately choosing the gigantic Li Volcano.

However, the larger a godly body was, the less flexibility it had. This one was so inflexible that it was too difficult to fly. It couldn't even move at its own discretion. Like World Tree, although it could move, it remained on that island.

The Li Volcano body of Sinking Fire Master was a 60 million miles long, and it was difficult to even move it—not to mention going to that original star.

"Regardless, that Blood Cloud Palace Leader is indeed powerful," he said. "Impressive. He suppressed me the whole time, and his shuttle dismantled the surrounding space and turned it into whirlpools. Is that a more powerful technique?"

Sinking Fire Master felt that that attack was different the ones he had encountered in the past. "Perhaps a universe master will die this time. He killed two universe masters before. Will he kill a third this time?"

Chapter 1126: Zhen Chang Valley

On Original Star Number 08625, in the vast sky above the ocean, Blood Cloud Palace Master flew through the air at high speed. He wore his blood-red battle robe, blood-red mask, and his curved, golden horn. Meanwhile, in his world ring, his original earthling body was dealing with the loots of his victory.

Within his world ring, clad in black armor with a lone horn on his forehead, Luo Feng stood on the vast ground and looked at the loot before him—a true treasure which was pair of gigantic godly hammers, a top-tier true treasure which was a piece of simple, unsophisticated armor, a true treasure which took the form of a green seed, and a world ring.

"Crack them!"

Luo Feng looked at the true treasures and world ring before him and divided out five streams of godly power at once, of which two went directly into the true treasure godly hammers, and two went into the true treasure armor and green seed respectively. The last one went right through the world ring.

Peng!

Luo Feng was not about to waste any effort on the world ring. He forcibly destroyed it right away. A loud bang sounded, followed by a large quantity of materials, valuables, and several true treasures falling from the world ring that broke apart. The scene was like a cluster of fireworks exploding in the sky, raining down on the land. In a split second, his surroundings were completely piled with mountains.

"This Sinking Fire Master was really one unique character, collecting these few true treasures and branding each and every one with a life imprint. Even those valuables—more than half of them were branded with life imprints." Luo Feng shook his head.

Hua! Hua! Hua!

His godly power was further divided into more streams, which dashed for those true treasures and valuables to penetrate them. The impact of his godly power was continuously felt. It had been said that with true skills, one could mold a thick metal rod into a fine sewing needle. With brute force, he cracked open the imprints. One after another, he continued, until finally, with his godly power, he completed the cracking of all the imprints.

One of his bodies took the identity of Blood Cloud Palace Master, an ancient existence known to the vast universe, and roamed the original star seeking adventures. The other body was working hard at cracking all those life imprints of the true treasures and valuables that were Luo Feng's winnings.

"What great satisfaction," he murmured. "Cool!"

Luo Feng felt a deep satisfaction that came from the bottom of his heart. When he first set foot off Earth and entered the universe, feeling jittery and frightened, he had spent his efforts striving and fighting. Every moment had been filled with pressure, and he always felt as though he could never gain control of his own destiny—much less control or guard the fate of his fellow earthlings. Until now, when Luo Feng had finally gained a foothold for himself.

"Throughout the universe, I may not be the strongest!" he said. "Universe supreme beings are all much stronger than I am. Those who were comparable to me were aplenty. They were all universe masters at the pinnacle level. Even though, with Star Tower, I may at most be comparable to them. But at least... I am ranked within the pinnacle list of this vast universe!"

Joy abounded deep in his heart. Setting foot on this path of a great being... was it not all for the sake of seeking greater freedom? For the foothold he had now?

"My battle records this time round indicate the truth of what Primal Chaos City Teacher has said, that I have become a universe master."

Luo Feng continued to forcibly crack those life imprints as he waited expectantly.

I believe, thought Luo Feng, after Hong Alliance's internal discussion, very soon, I will be qualified to become a palace master of the Hong Alliance Palace! By then, just as Huge Axe Creator promised earlier, the day will come when I can sit alongside them. That will be the day I can claim back planet Earth. After an endless fight... 180 million years... Soon.

The other great beings all felt that Luo Feng had only undergone around 100,000 years of cultivation, yet, the amount of time that Luo Feng had personally experienced was, in fact, 180 million years. If one's willpower was not strong enough, such long years would only bring one to a mental breakdown and ruination.

Pu! Pu! Pu!

The life imprints of the treasures were continuously cracked and cleared, one after the other. After a short moment, the life imprints of the ordinary true treasures were also continuously cracked and cleared, one after the other. Soon, even the life imprint of the one and only senior true treasure found in the lot was cleared.

After a good half an hour or so, upon consuming a tremendous amount of godly power, the pair of gigantic godly hammers and the top-tier armor were completely cracked.

"Not a single item here belongs to Sinking Fire Master anymore." Luo Feng carefully looked through the loot and concluded that all that was obtained from Sinking Fire Master had been completely "laundered."

"Huh?"

Luo Feng's gaze came to rest on a mountain where a tremendous amount of materials were piled up. His godly power immediately locked down on one of the objects among the lot: a piece of a purple crystal pillar that was slowly floating upward. The entire crystal pillar was filled with diagrams of secret engravings. It was faintly different from the rest, and the diagrams confirmed Luo Feng's doubts.

"Zhen Chang Valley?" Luo Feng frowned, then laughed. "My luck is not that bad after all."

During the opening of the original stars, the Disambiguation Temple was one of the greatest treasures that had appeared. However, there was quite a handful of treasures that were one notch lower than the Disambiguation Temple, one of which was Blade River Luo, whose birth was already completed. There were also some treasure temples that might have shown up but had yet to open up. The Disambiguation Temple was one that had yet to open its doors... and Zhen Chang Valley was also a place with hidden treasures. Although it had appeared, it had not opened.

Luo Feng also knew of such information, so he recognized the crystal pillar as a token of Zhen Chang Valley with one look. It was said that there was a total of nine tokens and when the births of all nine tokens were completed, Zhen Chang Valley would officially open!

Only those with the tokens were allowed to enter Zhen Chang Valley! Otherwise, no entry was allowed.

While the original earthling body in the world ring was cracking life imprints and found the token of Zhen Chang Valley, Blood Cloud Palace Master was flying about in a disorderly manner, fleeing to another original star as he was being pursued in a frenzy.

At this point, news of Sinking Fire Master's body being killed was fast spreading out to the higher-ups of various top powers of the universe.

"Sinking Fire Master's Nine Huo body has been killed, and his true treasure was taken away!"

"Sinking Fire Master has already released the news, saying that Blood Cloud Palace Master's power is now much stronger than it was three million eras ago, and he has changed his true treasure weapon to a true treasure long shuttle."

"Even Sinking Fire Master cannot fight him off. We must be vigilant, and if we are not confident of surviving, we had better not fight Blood Cloud Master alone."

Therefore, universe masters decided to move about mostly in twos and threes. Of course, there were still some who went after Blood Cloud Palace Master alone. They either had humongous godly bodies, true treasure armor that was extremely strong, or flying-palace type true treasures. Some who were universe masters already ranked in the pinnacle list. In short, only those who were extremely confident dared to act as individuals.

"Going after me?" Luo Feng was speeding through the air as he laughed out loud. "Every original star has a total of 10,081 space whirlpools that allow me to change my route in any way I like. Even if the universe top powers were to each send out several universe masters, how many could they come up to? Besides, all of them were not strong enough to stop me at all."

In the name of his "Battle to Fame" plan, Luo Feng allowed Blood Cloud Palace Master to come out of hiding and wander about leisurely. On the one hand, he could test the power of this supreme true treasure. Secondly, Blood Cloud Palace Master's presence served as a good diversion. The three alliances would grow so infuriated that their attention would be diverted away from Luo Feng. After all, compared to Blood Cloud Palace Master, killing Luo Feng was merely an internal fight among the four pinnacle races. Blood Cloud Palace Master was the true cause for the rage felt by the various powers of the universe.

"Goal achieved," Luo Feng mumbled under his breath. "Time to return to my god country. How do I make my way back?"

All this time, Luo Feng had been flying about in a spontaneous manner. There were times when he was near a whirlpool tunnel that led to the outside world, yet he did not go through it, as he understood that such an obvious route would likely lead him straight into the ambush set by a great being just outside the whirlpool tunnel.

Just as Luo Feng was thinking about how he should leave the original star to return to his god country, he arrived at a whirlpool tunnel. Luo Feng stepped right through it without a second thought.

"Blood Cloud Palace Master, don't you dare escape!"

"Blood Cloud Palace Master! Take up my challenge if you have the guts."

Three universe masters had been hot on his heels, but they were too far behind to stop him. Most unwillingly, they watched Luo Feng make his escape into the next original star—Original Star Number 08605.

Original Star Number 08605.

Luo Feng had just stepped into this vast universe when he caught sight of six faraway figures. They were actually less than 60 million miles away from him. The leader of the group was a distorted, dark void while the other five towering figures all exuded extraordinary auras. Luo Feng recognized them at first glance.

"The Northern Territory Alliance!"

"Blood Cloud Palace Master!" all six figures all seemed to shout at the same time.

"Hahaha!" one of them laughed. "Blood Cloud Palace Master, we were just preparing to head over to the other original star to hunt you down. To think you actually came running here on your own! Now we meet."

"We just got lucky," said another.

"Blood Cloud Palace Master, what a route you have chosen—to run into our path so coincidentally! You have been hopping around different original stars, and we are also changing routes all the time. Now, we finally run into one another."

These six universe masters of the Northern Territory Alliance would not be easy to handle.

Along the way, these universe masters had been constantly receiving information stating that Blood Cloud Palace Master had made his way to a certain original star, or that Blood Cloud Palace Master had just moved on to another original star...

The speed of change was extremely fast. Of course, this naturally led to the six universe masters of the Northern Territory Alliance having to constantly change their routes. After all, it would be futile for them to always be chasing him from behind; they would never have been able to catch up. Instead, they had to intercept from the front! But to do so... they need luck. There were simply too many space whirlpools. No one knew which one Luo Feng would go to. Just a slight change in direction would make a great difference in distance.

Luo Feng could not be bothered with those voices. The six universe masters before him, five of them might be quite powerful and well-known, but with Star Tower in his hands, they were no threat to him. What truly caught his attention was the leader of the group—the dark void life form.

"Star River Master?" Luo Feng spoke up.

"Blood Cloud Palace Master," the dark void transmitted a voice in acknowledgment. "You and I... For the first time, we meet face-to-face. Twice previously, I hunted you, but each time I got to you, you escaped. This time, I have had better luck... I actually ran into you."

Hua!

All at once, endless starlight enshrouded the entire original star while a powerful force bound all corners together by enveloping the area. This was none other than a top-tier domain type true treasure.

"You can forget about escaping," the looming, dark void said. "I heard from Sinking Fire Master that you are very powerful. I would like to see for myself... if you are able to escape from me alive. My guess is, you should still be able to make your escape from our siege this time."

Luo Feng looked on from afar but maintained his vigilance because—Star River Master's reputation aside—in terms of power, status, and reputation, he was not any inferior to Luo Feng's teacher, Primal Chaos City Leader!

This was definitely one of the top-ranking individuals on the list of universe masters! Even a universe supreme being would have been unable to tackle Star River Master. All these facts were evidence of his astonishing prestige of a top-ranking universe master.

Chapter 1127: Star River Master

"However, this is how I can see the gap between me and the pinnacle universe masters."

Aggression was burning in Luo Feng's heart, and he gazed at the leader in the distance. He completely ignored the other five universe masters. He only had eyes for Star River Master.

"You're not running!" came a voice from the dark void.

Luo Feng gazed at his opposition. "Neither are you!"

"Hahaha..." A guffaw came out of the dark void. "Interesting. No wonder almost everyone in the universe wants you dead. You're indeed bold and arrogant."

"Stop talking!" Luo Feng yelled, and his eyes glinted fiercely. "If you want to fight, fight me now. Time's precious."

He was replacing his teacher Sitting Mountain Guest as Blood Cloud Palace Leader, so he needed to be qualified. Blood Cloud Palace Leader was a wicked and rampant being roaming the universe.

"Blood Cloud Palace Leader, you live up to your reputation."

All of a sudden, an arm-shaped substance extended out of the dark void, and a mace-shaped true treasure weapon appeared in the hand. At the same time, another arm-shaped substance showed up. This hand also held a mace-shaped weapon. Both maces were bronze, and the periphery was gold.

"This true treasure of mine is named 'Kun Ye,' and it's a top-tier pinnacle true treasure," said Star River Master.

Top-tier pinnacle true treasure? thought Luo Feng.

Luo Feng understood that there were gaps even between valuables at the same level. The true treasure Star River Master was using now was only second to supreme true treasures, and it must have been as powerful as the mace-type weapons that Double-Face Ancestral God had been using. His status was self-explanatory based on the true treasure he was using.

The other five universe masters spread out without meddling. They believed in the power of Star River Master!

"Take three attacks," said Star River Master. "If you can, I won't stop you. Here's the first move..." Star River Master started to move right after he said. He raced toward Luo Feng like a black phantom. "Come on!"

Luo Feng dashed toward him holding the shuttle and shouted, "Blood Light!"

Luo Feng's godly body surged to 6,000 miles tall, and he performed his most powerful technique. His burning godly power flooded the shuttle.

Hua! Hua!

The shuttle twisted the space around it and formed whirlpools. The power was so strong that the other five universe masters were intimidated.

Star River Master held the maces, which looked like bolts of lightning.

Pi! Pa!

Two black beams of light gushed forth and hit the shuttle. The black void holding the two godly maces bounced away, and Luo Feng stepped back.

"This is the first move. Screen." The maces emanated powerful energy. "I've looked down upon you. After all, it's only an ultimate technique of universe masters, and it's not enough to suppress you. I can tell that you're a pinnacle universe master. Take my second move. It's a supreme technique of universe masters created by me."

As the voice went into Luo Feng's mind, Star River Master started to move again. The black phantom charged at him.

Hong! Long! Long!

The maces turned the space into darkness.

"A miniature universe?" Luo Feng was shocked. It looked like a miniature universe, but there were some differences.

Hong!

The maces smashed toward Luo Feng like two worlds.

"Break!" Luo Feng growled.

He raced toward the maces, and the shuttle of Star Tower also stabbed toward the maces.

Peng!

Luo Feng felt his body trembling, and the shock waves hit his Force Armor. However, the power was neutralized by his Force Armor. Luo Feng dove away from the shock wave.

"This is the first ultimate technique of universe masters I created, Black Night," said Star River Master. "It seems that the shuttle in your hands is also a pinnacle true treasure. Otherwise, you would only be at a slight disadvantage."

Luo Feng looked at the dark void in the distance. A pinnacle true treasure? What a joke. A race could have many ordinary pinnacle true treasures; as for pinnacle domain type true treasures and pinnacle soul type true treasures, a race might have several! However, a supreme true treasure was superior! The disadvantage he had because of his godly body and techniques were almost made up for by the shuttle of Star Tower.

His first move is an ultimate technique of universe masters, and his second move is a supreme technique of universe masters... What about the third move?

Luo Feng was confused. Could there be a more powerful one? That didn't sound right. Supreme techniques of universe masters should be the best that Star River Master could do.

"You're qualified to take my third move," said Star River Master. "My supreme move."

The other five universe masters collectively held their breath. They transmitted their voices in private.

"Look! The supreme move of Star River Master."

"We get to see it again."

"Last time Star River Master performed it, he killed a universe master in Universe Ocean, and the other two universe masters fled."

They were all excited, as Star River Master wouldn't perform this move unless it was absolutely necessary.

The original star was trapped in darkness again, and a dark power permeated through it. At the same time, a completely different power arose from his maces! The maces started to shine! They were shinier than 10,000 stars combined! One of them was dark, and the other was bright...

Hua!

Luo Feng felt despaired when he handled it. He tried to banish the negative mood. It was not a soul attack; rather, it was an attack so perfect that it could only be awed and even made its oppositions. Of course, Luo Feng's willpower was strong enough for him to recover from those feelings immediately. He stabbed with his shuttle again.

Hong!

The space trembled!

Hong! Hong! Hong!

The light river hit the shuttle, and the shuttle resisted the river. The shuttle was as stable as a mountain. However, Luo Feng could still feel his godly power trembling even after the power being weakened by his Force Armor... Luo Feng bounced away beneath that power, and he could barely stop in the distance.

Everything dissipated. The original star returned to peace again.

"1/500th of my godly body is gone?" said Luo Feng.

He was astonished. He first used the shuttle to resist that move, and he used Force Armor to withstand it again. However, 1/500th of his godly body was still gone! If he used Blood Ghost Blade instead of Star Tower, the power would have been two levels more powerful. One attack could destroy 50 percent of his godly body?

He was shocked to his very core, but what he didn't know was that Star River Master was even more shocked.

"What...!" Star River Master was terrified. He was already a pinnacle universe master, and he had a supreme technique of universe masters. He had created two supreme techniques of universe masters and had combined the two into one in Universe Ocean. It looked simple, but it took a long while when he combined the two as one.

This attack! This was the move that made him awed by the entire universe, and that meant he did not need to be afraid of universe supreme masters! He'd always known that only a few universe masters in the universe could rival him.

"A great amount of my godly power was consumed because of that move, but his godly power is hardly gone?" Star River Master was shocked.

He didn't know that Luo Feng had the supreme true treasure, Star Tower, in addition to his pinnacle true treasure Force Armor! If Star River Master knew that he had failed because of a supreme true treasure, he would have felt relieved.

A voice came from Blood Cloud Palace Leader in the distance. "What is that move?"

"River in Black Night," said Star River Master.

"Incredible. Impressive," said Blood Cloud Palace Leader.

Luo Feng really was impressed. He took three moves, and the second move was Black Night. Luo Feng could tell that the third move, River in Black Night was a combination of Black Night and River, and their power led to a tremendous attack.

The only supreme technique he knew was "I Am the Universe," and it had been bestowed to him by the universe! He couldn't create any. Yet his opposition had created several of them, and he was able to combine them.

"No wonder! It's Star River Master!" Luo Feng exclaimed.

"Go," said Star River Master. "You're able to take my supreme technique without being severely injured!"

At the same time, he took back his Star River and flew away.

"Star River Master."

"Star River Master."

The other five universe masters followed Star River Master reluctantly after glancing at Luo Feng. They knew they wouldn't be able to injure Blood Cloud Palace Leader given that he was able to resist the supreme technique of Star River Master, and now that Star River Master had left, they would follow him as well.

"Star River Master," Luo Feng whispered. He had finally witnessed the top-tier universe masters!

Sou!

He disappeared like a streak of light.

Chapter 1128: Fence

A piece of news came when the universe masters were searching for Blood Cloud Palace Leader on the original stars... Star River Master from the Northern Territory Alliance had fought Blood Cloud Palace Leader, and Blood Cloud Palace Leader had only suffered from a slight injury even under Star River Master's best moves, and Star River Master had left voluntarily. All the universe masters searching the original stars were shocked.

"Impossible!"

"Star River Master utilized all his power? Though I could survive that, I would be severely injured. That Blood Cloud Palace Leader's power barely changed at all?"

"How can he be that powerful?"

"Did Blood Cloud Palace Leader hide in Blood Cloud Palace? No? He withstood the supreme technique of Star River Master?"

They couldn't believe what they heard, and the more they learned about that fight, the more hopeless they became. Gosh! Star River Master used his best true treasure to perform his most supreme technique.

Blood Cloud Palace Leader was able to withstand that without even being severely hurt? A sense of hopelessness flooded almost every universe master's mind—even for beings like Sky Beacon Godly Master, who were confident that they were Star River Master's equals.

"Let's go."

"Let's go back."

"Just go? Just like that?"

"What else can we do? If Star River Master can't deal with Blood Cloud Palace Leader, then no one else can. Even universe supreme masters are only slightly stronger than Star River Master. In the original universe, the power of universe supreme masters was heavily constrained... What could universe supreme masters do? Heavily injure Blood Cloud Palace Leader?"

"Let's go."

The universe masters gave up one after another. They all felt helpless.

"I can't believe Blood Cloud Palace Leader is this powerful."

"Although Blood Cloud Palace Leader was always powerful, he wasn't as insanely powerful as this. When hunted by beings like Star River Master in the past, he would have definitely run away without putting up a fight."

"It's much more difficult to kill him now."

Some universe masters chose to leave. This was how the universe worked. Power determined someone's destiny!

No matter how crazy, evil, and reckless someone was, if he could become a universe supreme master, no powers would dare to mess with him, and instead, they would try to butter him up! Like lone universe supreme masters such as Sitting Mountain Guest and Virtual-Real Devil Master, they all had weird tempers and might kill anyone at any time. No powers dared to go after them. Why?

One didn't even need to be a universe supreme master. Someone at Star River Master was already attractive enough for all the powers in the universe. Obviously, Blood Cloud Palace Leader was hardly injured by the supreme technique of Star River Master. Apparently, he was almost at that level.

"Don't mess with that maniac."

"Don't mess with him. We can't kill him, he's great at fleeing, and he doesn't have any inhibitions. Unless we try to seal him, no powers will be willing to make such sacrifices to do that. After all, Blood Cloud Palace Leader is only an individual. He's not related to any powers."

One fight determined his status. Blood Cloud Palace Leader had gone from a common enemy among the powers in the universe to someone no one was willing to mess with. Actually, there were powers who wanted to admit him, but based on their experience, Blood Cloud Palace Leader might kill those who approached him. He was a maniac!

Inside Luo Feng's god country.

Luo Feng's original plan was to take a tour on the original stars for a longer time, but he didn't expect all those universe masters to leave. And Luo Feng went out without being noticed.

Hong! Long! Long!

The waves were churning like thunder, tumbling through the boundless Remote Ocean. Above the Remote Ocean, at the center of his god country and inside the godly palace, Luo Feng looked down at the god country.

"I came back. It's done."

Luo Feng smiled. He felt relieved as never before. He recalled the series of incidents starting from Virtual-Real Devil Master coming after him—which triggered him to kill Heavenly Flower Knight—but he didn't expect him to hide in a flying-palace type true treasure. That had led to a bigger incident in which he had killed 8,000 universe knights, fought a universe master, and killed more than 6,000 universe knights with his miniature universe. After Blood Cloud Palace Leader showed himself, it had led to a larger disturbance, distracting everyone.

"I've achieved my goal."

I'm at the same level of Master of Banff, Luo Feng thought, and I performed a supreme technique! I am a universe master! And I am a universe master who's a handful.

His only weakness was his inability to control space and time, which might lead to some suspicions. However, it didn't matter. He was able to perform Golden Light and Miniature Universe, which showed Luo Feng had the power of a universe master—at least according to the powers in the universe. Besides, Luo Feng had several bodies, which meant he was extremely difficult to kill.

"Regardless, that Star River Master is indeed strong!" Luo Feng exclaimed. "If I didn't have the shuttle of Star Tower, that attack would've destroyed half of my godly body."

He used the long shuttle to resist it. And then, the power was weakened by Force Armor, yet he had still lost 1/500th of his godly body. Two moves could kill him!

"I have a weaker godly body compared to the pinnacle universe masters, and I don't have a stronger enough weapon." Luo Feng frowned. "Blood Ghost Blade is not enough to fight universe masters."

A body of Sinking Fire Master had a pair of hammers which was a top-tier true treasure. And he wasn't even a top-tier universe master.

The Flame God Halberd that Flame Emperor used was a top-tier pinnacle true treasure, which was at the same level of Force Armor!

Primal Chaos City Leader had three bodies, and the most powerful one was the one fighting in Universe Ocean, and even the one in the original star was the one wearing Thousand Treasures Coat and holding a true treasure stone staff. Thousand Treasures Coat was only a domain type true treasure at the same level as the true treasure of Star River Master... As for attacking true treasures, they should be similar.

My weapon isn't good enough, thought Luo Feng. Okay. Teacher said if I killed ten top-tier universe overlords or one universe master, he would make a pinnacle true treasure for me. I need a top-tier pinnacle true treasure like Flame God Halberd.

He didn't need a domain type pinnacle true treasure. After all, a top-tier pinnacle true treasure weapon was also highly valuable.

Luo Feng took out a stone token.

"Teacher."

Luo Feng's consciousness entered the token and started to pass the message. The token was an ordinary true treasure made by Sitting Mountain Guest for communications, which made Luo Feng admire Sitting Mountain Guest even more. Blood Cloud Pearl was used for disguise while tokens were used for communications. Those, plus Force Armor and Star Tower, all had strict requirements for those who used them. The true treasures made by Sitting Mountain Guest were largely different from those born in the universe.

A message was conveyed immediately. "Haha! Disciple! I've already heard what you did on the original star. But my question is, why did you fight that Star River Master? You've intimidated all the powers by doing that, and they won't want to encircle you anymore."

Luo Feng was rendered speechless. If this was the case... No wonder teacher ran when he came across beings stronger like Star River Master. His teacher was certainly able to create a body to resist Star River Master.

"I didn't think of that," said Luo Feng. "Besides, I wouldn't have been able to run away."

"That's right. You're not good enough for that." Sitting Mountain Guest, while in disguise, was extremely proficient in escaping. "Why're you contacting me?" he asked.

"Teacher, I killed a body of Sinking Fire Master," said Luo Feng. "It should be counted as killing a universe master."

"You're oversimplifying things, my disciple," said Sitting Mountain Guest.

Luo Feng was speechless. Things were not going as he'd expected.

"Of course it doesn't count," said Sitting Mountain Guest.

"Killing a body should be as difficult as killing a real universe master," Luo Feng tried to argue.

"Of course it's not," said Sitting Mountain Guest. "Blood Cloud Palace Leader is known for his fierceness. If it weren't for having another body, ordinary universe masters wouldn't even dare to fight you in the first place. As for those who have multiple bodies, they have the guts to take risks even if they're not strong enough. Do you really think Sinking Fire Master would fight you if he didn't have another body?"

Luo Feng said nothing. He knew he was right. Most of the universe masters chasing him were in groups, and those who acted alone had security.

"No one is such a fool," said Sitting Mountain Guest. "It's not as easy as you think to kill a universe master. He only risked it because he had multiple bodies." Sitting Mountain Guest laughed. "It won't be so easy to get your teacher to make a pinnacle true treasure for you!"

Luo Feng pouted, but it seemed there was nothing he could do. "Teacher, I killed the body of that Sinking Fire Master and got some true treasures, but I can't exchange them. If I give them to my race, my identity will be exposed."

Luo Feng was concerned about this. The valuables obtained by Blood Cloud Palace Leader were stolen goods, and true treasures with great fame could be identified easily. It would be difficult to exchange them.

"That's right," said Sitting Mountain Guest. "I'll handle it. Come here to exchange for a true treasure. Here are the coordinates of my place. Just come here."

The coordinates were sent.

Luo Feng looked forward to it. It had been a long time since Sitting Mountain Guest first became his teacher, but he had never been to his home yet.

"Sure," said Luo Feng. "I'll be there as soon as possible."

Luo Feng organized his true treasures, left his god country, and took off for the home of Sitting Mountain Guest.

Chapter 1129: The True Treasure Vault

At an extreme end of the universe, in a deserted domain that was more than nine billion light years away from humanity, Luo Feng first used God Country Transportation to reach a place nearest to the coordinates he was given. Thereafter, he relied on teleportation. It took him two days, and finally, he arrived at his destination.

"Teacher, you have been staying here?"

In his silver armor and silver wings, with his ghost blade slung behind him, Luo Feng stood amid the dark of space. At one glance, it was pitch black everywhere, without a trace of light, without a single star. There was absolute silence and cold.

"Void land of the universe?" Luo Feng said to himself.

When the universe evolved, galaxies started popping up, positioned slightly apart from one another. A great quantity of galaxies would form a starfield. The distance between starfields was expansive, and the distance between star sectors was much greater.

As for the human domain and other domains... there would be an immeasurable, vast void—a pitch-black space that existed between them. Within the universe, these void spaces had diameters ranging from a few hundred million light years to a few billion light years, all of which were in complete silence and darkness. With Luo Feng's powers, his eyesight could not see even the slightest trace of light... one could never imagine how frighteningly immense this void space was.

"My dear disciple, do come in already," a voice sounded near Luo Feng's ears.

Luo Feng turned right away.

Hua!

A dazzling, elegant, exquisite bridge appeared. The entire bridge seemed to be made of transparent crystal stones and bathed in gold. Luo Feng flew over immediately and landed on the bridge and made his way to the other end. The walk along the bridge enabled him to feel the intense change of space at once.

"Huh?" Luo Feng immediately checked the universe coordinates and was shocked to discover that with every step he took on the bridge, he moved ten million light years.

From this end of the bridge to the other, the universe coordinates had shifted 1.2 billion light years. At the other end of the bridge, was an exquisite-looking lake where all kinds of fish frolicked in the water.

"This isn't right," said Luo Feng.

He turned to take a look behind him. Previously, the bridge had only seemed to be around 300 feet long, but he had traveled 1.2 billion light years. The lake before him was also of a diameter: a few hundred feet... But according to what his godly power sensed, this was neither a lake nor were those fish in it. It was a domain type true treasure that wields extremely strong power!

Walking along the lake, he saw flower beds and grassy patches.

"This isn't right," Luo Feng repeated, taking a closer look.

Those stalks of grass were actually huge, ancient trees with little stones adorned around them. They were actually metallic materials that were as big as a star level.

"Amazing. The control of universe space is unbelievably incredible," Luo Feng mused to himself as he walked.

His teacher's residence was very quiet. As for that exquisite palace and lake, they were actually a flying palace type true treasure and a domain type true treasure, respectively. As for the other items, they were various sorts of precious materials.

Entering the palace, Luo Feng came to a garden where he saw Sitting Mountain Guest holding a stone and caressing it with his eyes closed.

"Teacher." Luo Feng went to him and bowed deferentially.

Sitting Mountain Guest opened his eyes and put the stone aside. Smiling at Luo Feng, he commented, "You made it here quite fast."

"Teacher, this place is too deserted. Otherwise, I would have arrived much earlier." Luo Feng also smiled. "Teacher, why have you chosen such a place as your residence?"

"The quiet." Sitting Mountain Guest said. "And this void space is of a diameter that is more than 100 million light years. Although it is devoid of anything and incomparably deserted, it is unfit for humans to live and multiply their numbers, but I am a lone wanderer, so this place, on the contrary, is good for me. Besides, this is only one of the many places where I live when I am in the primal universe. Oh yes, where are those stolen goods you took?"

"What do you mean by stolen goods?" said Luo Feng.

Luo Feng had no other alternative but to take everything Sinking Fire Master owned, the pair of godly hammers, his armor, and the green seed.

Sitting Mountain Guest looked. "What are you after?"

"A pinnacle true treasure blade," Luo Feng replied.

He took out a pair of godly hammers that were top-tier true treasures. Their powers could be combined when required. There was also the armor, which was also a top-tier true treasure, and the green seed, which was merely an ordinary soul type true treasure (to the humans, it was worth 60 true treasure points, which was close to the value of a top-tier true treasure weapon).

"Not enough." Sitting Mountain Guest looked at Luo Feng. "I will not take advantage of you. I will definitely offer you a price that is 30 percent less than what you would need to pay to exchange for a true treasure within the race. But this, this is obviously not enough."

"Add in this ghost blade." Luo Feng took out ghost blade that was slung across his back. Since he was going to trade for a blade, this ghost blade would no longer be required.

Sitting Mountain Guest still shook his head.

"Teacher." Luo Feng said, glaring.

"I only have this one pinnacle true treasure blade," Sitting Mountain Guest said. "Although it may not be a pinnacle true treasure of the highest grade, these few true treasures you have here are really still not enough."

Luo Feng frowned. The true treasures he had with him were all in use, and those that were being used were stored in the treasure room at Blood Cloud Palace. Sinking Fire Master might have owned several ordinary true treasures, but Luo Feng had categorized those and returned them to Blood Cloud Palace. After all, he did owe the treasure room in Blood Cloud Palace quite a few pieces of treasures.

Oh... right! Within Sinking Fire Master's world ring, there is one senior true treasure and a token of Zhen Chang Valley.

"Add these two." Luo Feng took out a green and gold medallion and the crystal token of Zhen Chang Valley.

"A token of Zhen Chang Valley?" Sitting Mountain Guest looked and laughed. "Well, I have been quite bored recently. Heading to Zhen Chang Valley for an adventure sounds good. All right, add on these two. We can barely make it now."

"Teacher, you are really going to Zhen Chang Valley?" Luo Feng eyes widened.

The birth of Zhen Chang Valley was a treasure the level of Blade River Luo, and it was yet to be completed. Luo Feng had a disambiguation mirror stone, so he was looking forward to the Disambiguation Temple more. He was not as eager to get into Zhen Chang Valley. Just to get a pinnacle true treasure weapon... going to Zhen Chang Valley was not a great deal! But this was a pinnacle true treasure weapon... and it was comparable to Blade River Luo.

"Why? Am I not allowed to?" Sitting Mountain Guest stood up. "Life is long. We have to find some pleasures to get us by." Sitting Mountain Guest walked afar as he shouted, "Still not coming? Don't you want you true treasure blade?"

Luo Feng hurriedly followed behind.

They came to a palace hall that was decorated in a unique manner. All the walls within the hall were filled with a large quantity of sculptures, and every sculpture was engraved with many different patterns. There was a pattern that depicted a scene of two great beings fighting a battle on the vast plains. There was also a pattern that depicted a scene of a great being killing a large number of other great beings... The patterns all exuded some kind of ancient aura and power, causing the entire palace hall to be enshrouded in a strange atmosphere.

"Feels as though I am on a battlefield." Luo Feng was in the palace hall, feeling his heart set ablaze as he felt the impulse to fight and kill. He was appalled as he realized, "My willpower can feel the influence."

"This palace hall is filled with true treasures," said Sitting Mountain Guest. "Including the decorative items, all of them are true treasures. Majority of them are, however, just ordinary true treasures."

Luo Feng's eyes scanned everything around him.

There were many display cases and shelves in the hall, and on them were knives, blades, strings, ropes, shuttles, maces, hammers, axes, clocks, pagodas, boats, balls, flowers, grass, cloths, medallions, statues, cubes... all sort of items, strange and bizarre, numbering as many as a few thousand, scattered throughout the hall.

"All these all true treasures?" Luo Feng was taken aback.

"All of these are. Even the items used to contain things are." Sitting Mountain Guest smiled. "Ordinary true treasures were made easily and effortlessly, so to me, they do not really have much value. Like that transmission token, ornaments, decorative ornaments, and many others... All of these are just ordinary true treasures."

Luo Feng went speechless at such wonders. Even Craftsman Master would not be able to make such statements. Only Sitting Mountain Guest was qualified enough to dare say that ordinary true treasures were made so effortlessly.

"So, which is mine?" Luo Feng asked.

"In that corner." Sitting Mountain Guest pointed to a faraway corner.

Luo Feng looked to where Sitting Mountain Guest was pointing and saw the seemingly ordinary blade in a corner of the room. He walked over right away. The scabbard was a dusty gray, and on it were some sculptures that looked beautiful. The moment Luo Feng reached out to touch it, he felt the presence of an evil spirit that was so overwhelming that it invaded his body instantly.

Hong!

Within the vast, black space, a blade several tens of thousands of miles long hung suspended horizontally in midair. The blade was slowly being drawn out of the sheath, and the frightening evil spirit seemed to continuously invade Luo Feng's willpower.

Clang!

The blade was completely unsheathed. A murderous intention whirled up in the air and spread all over. At this moment, Luo Feng's life imprint stored within his godly power was completely branded onto the blade.

"The blade shall be called... Absolute Guest!" Luo Feng whispered.

"Use this for now," Sitting Mountain Guest said. "This blade should be more than enough for you. Of course, what would suit you best would be a pinnacle true treasure blade that is made with your Golden Horn World Stone as its core... All the limitless essence of gold in the world within your body converge to form a Golden Horn World Stone. Once made into a weapon, it would be the most suitable one for you. The materials required were exceptionally more than usual, and you are still unable to provide me with those yet."

"Golden Horn World Stone?" Luo Feng's eyes lit up. So, Teacher did have his plans.

"Golden Horn World Stone is the convergence of the limitless essence of gold in the world within your body that was trillions of miles large. It is an extreme limit of the 'metallic materials' within the primal universe. At least, within the primal universe, it was one of the top-tier metals. Only at Universe Ocean can you find something better than that. But... judging from your body, using Golden Horn World Stone to make a weapon would be the most suitable for you."

Luo Feng immediately asked, "What are the materials I need?"

"After you have killed a universe master or ten top-tier universe overlords, then we shall talk about it," Sitting Mountain Guest said. "This pinnacle true treasure blade, 'Absolute Guest,' is one treasure I expended a lot of hard work and effort to make. Don't let it down."

"Hmm." Luo Feng nodded.

"All right, you should get going." Sitting Mountain Guest was not one to hold Luo Feng back.

"Yes."

Since Teacher had said so, Luo Feng gave a bow and left quickly. Looking on until Luo Feng was out of sight, Sitting Mountain Guest returned to his seat in the garden and picked up the same piece of stone. Looking down at it, he sighed softly. "When is the time I can further improve...?"

Luo Feng had barely returned to his god country and was just getting started in familiarizing himself with the pinnacle true treasure blade Absolute Guest, which was extremely powerful. It was then that he received mail from Primal Chaos City Leader, who was in the virtual universe.

"Luo Feng, Blade River Master, regarding what happened on the original star, why didn't you come to me? Don't you know that the universe masters of humanity have not taken a break because of you? Come over here as soon as you can."

The moment he read the mail, Luo Feng's eyes lit up and his heart started beating faster and faster. Of course, he should have guessed that what happened on the original stars would cause the higher-ups of humanity to commence with urgent meetings to discuss his actions. Now that Teacher had summoned him, it seemed a concluding decision had been made.

"Teacher called me Blade River Master?" Luo Feng could not be bothered with anything else and immediately let his consciousness connect to the virtual universe.

Chapter 1130: Meeting of Six Tycoons

At the apex of Thunder Island in the virtual universe.

The giant, round graphite table was surrounded by endless airflow. There were six gigantic stone chairs around the table, each with complex sculptures on it. On the table were also numerous sculptures.

"Teacher," said Luo Feng.

"Take a seat." Primal Chaos City Leader sat down and pointed to the second chair on his left-hand side. "Sit there."

"Sure."

Luo Feng sat down and took a look at the stone table in front of him. He was curious as he never knew there was a place like this in his teacher's palace, and it was floating right above the palace of Primal Chaos City Leader. He glanced at the sculptures on the stone table. One of the pictures depicted three great beings saluting a great being, one depicted a great being doing mass slaughtering, and one depicted how two great beings attacked a group of great beings... The sculptures were abstract, but Luo Feng could tell that one was Primal Chaos City Leader.

"And there's my chair." Luo Feng sat down after he noticed the sculpture on the back of the chair. There were several scenes in the sculptures. One of them depicted an individual facing thousands of beings. Another depicted a huge oval enveloping all those thousands of beings, and they all died under that dome...

"You should've figured it out by now." Primal Chaos City Leader looked at Luo Feng with a grinning face. "The seniors of the human race decided that you're the 19th universe master of the human race."

Luo Feng couldn't help be overjoyed at first. And then, he was a bit confused.

"The 19th one?"

That meant the human race had 18 universe masters in total before Luo Feng became one. That meant the human race had a great number of universe masters comparatively. The bug race and automaton race might only have fewer than ten universe masters, and the demon race might have around the same number.

"Yes." Primal Chaos City Leader nodded.

"But according to my information..."

Luo Feng looked confused. He had the access authority of a top-tier universe master, and he should have been able to get information about the universe masters of the human race and other powers in the universe. Based on the information he had on hand, there were only 15 universe masters in the human race. Why was he the 19th?

"You know of 15, right?" Primal Chaos City Leader smiled. "Each power has some secrets, and there are some hidden universe masters within our race. There are 18 universe masters in total in our human race, excluding you. There are five from the virtual universe company and Huge Axe Dojo, three from the Universe Mercenary Alliance, three from the Universe First Bank, and two from Universe Star River Bank."

Luo Feng listened carefully. What Primal Chaos City Leader had just said was different from what he knew. He knew there were only four in the virtual universe company, so apparently, one was in the shadows the whole time.

"Of course, if we include you, there are six in total, now." Primal Chaos City Leader smiled. "You're the first disciple of mine to become a universe master. Hahaha...! I have an edge at this in front of my brother now."

"Brother?" Luo Feng couldn't help asking. "You have a brother?"

"Two, actually," said Primal Chaos City Leader. "They are both universe masters, and there are lots of other brothers who are not universe masters."

Luo Feng nodded. He also had lots of brothers.

Wait! If there are brothers, there must be a teacher!

Primal Chaos City Leader had two brothers who were universe masters, which meant that teacher had three disciples who were universe masters? Who was he?

"Let me introduce you to the universe masters of my virtual universe company." Primal Chaos City Leader smiled. "The first one is Long Yan Master. He's an elder in my virtual universe company, and he's been a universe master for a very long time. You've met him before."

Luo Feng nodded.

"The second one, also my brother, is Ice Mountain master. He's very aloof, but he's great at handling the important issues."

Luo Feng knew of this Ice Mountain Master, too. He was a great being proficient in close combat, and he was one of the pinnacle universe masters as well. He was only slightly weaker than Primal Chaos City Leader, and he might have been stronger than Flame Emperor.

"The third one, also my brother, is Darkness Master. He's rarely involved with the issues of the human race, and he hardly ever shows up. Few know of him, and he's a very low-key disciple of our teacher. Without letting anyone know, he has become a universe master." Primal Chaos City Leader smiled.

Luo Feng was startled. Darkness Master... He'd never heard of him.

"Even the powers of the universe don't know about him," said Primal Chaos City Leader. "Of course, Darkness Master is well-known in the Universe Ocean! And he's a terrifying universe master... Haha. The powers in the universe don't even know that Darkness Master is of the human race when they run into him in the Universe Ocean."

"The fourth one is Remote Lord Master," said Primal Chaos City Leader. "He's the youngest of the five universe masters in the virtual universe company before you joined. And he's a disciple of Darkness Master."

"Ah." Luo Feng was startled.

Remoteness Lord Master was also a reckless universe master who was great in killing and combat. Of course, he was weaker than Ice Mountain Master and Primal Chaos City Leader, but he was also a strong universe master. He was at the same level as the previous Blood Cloud Palace Leader. And he was a disciple of Darkness Master.

"My brother's disciple became a universe master, and now, my disciple has also become a universe master." Primal Chaos City Leader smiled. "From now on, there will be six universe masters in the virtual universe. Okay, I'll call the four of them here now. The universe masters of the virtual universe should gather first."

Luo Feng nodded. There were several groups in the human race, and the virtual universe was a group itself. However, the group had significant power, as Primal Chaos City Leader and Ice Mountain Master were both top-tier universe masters. Long Yan Master was not much weaker. As for Darkness Master, he was mysterious and probably rivaled Primal Chaos City Leader.

Although Remote Lord Master was a youngster, he was also powerful. Luo Feng was as strong as Remote Lord Master, without Star Tower, of course.

Luo Feng sat there and waited.

A being walked in. He was lanky and had a horn on both of his ears. There was an eye between the eyebrows, and he wore scaled navy armor. He didn't wear his Remote Lord Bayonet, as he was in the virtual universe.

Luo Feng recognized him immediately and stood up. "Remote Lord Master."

"Luo Feng." Remote Lord Master looked fierce, but he was still smiling when he saw Luo Feng.

"Remote Lord Master," Luo Feng said again, smiling.

"Uncle." Remote Lord Master bowed to Primal Chaos City Leader to show respect but didn't bow low. After all, he was a universe master.

"Sit," said Primal Chaos City Leader.

"Interesting..."

Another being walked in. That towering body and the dragon tail... It was Long Yan Master.

"I haven't seen the universe masters from the Huge Axe Dojo that upset for a long time." Long Yan Master sat down and gave Luo Feng a nod. "Luo Feng, you were really impressive on that original star when you killed more than 6,000 universe knights in one strike. We calculated that each alliance lost at least one domain type pinnacle true treasure."

Luo Feng shook his head. "I could've done better. I should have fought Master of Banfu for a longer time so that more universe knights went into the zone."

Long Yan Master and Remote Lord Master were at first dazed, then started to guffaw.

Suddenly, a sense of coldness permeated. It was a silver-haired man carrying a blade on his back. He wore ancient armor with bloodstains on it, and he was the most handsome universe master in the virtual universe company. It was Ice Mountain Master.

Ice Mountain Master nodded at Primal Chaos City Leader and sat down. He glanced at Long Yan Master, Luo Feng, and Remote Lord Master, and they all nodded at him.

So cold, Luo Feng thought.

Suddenly, a being walked in from the distance, and before they could see clearly who he was, a wicked, dark force permeated. He wore a black coat outside and silver and black armor inside. He was bald, and his skin was like jade. There were complex black engravings on his head, and he gazed at people like a snake extending his tongue. Even space and time were affected by him, trapped in a strange atmosphere.

"Brother," said Primal Chaos City Leader.

"Brother," said Darkness Master.

Luo Feng was startled. He suddenly realized the difference between his teacher Primal Chaos City Leader and Darkness Master. Primal Chaos City Leader looked peaceful and tranquil while Darkness Master was endlessly dark and wicked. They had exactly the opposite aura. And their power was at the same level.

No wonder, thought Luo Feng. He's Darkness Master.

Darkness Master stood in his chair and looked at Luo Feng. "Brother, is this your disciple, Luo Feng?"
