

SWALLOWED 1141

Chapter 1141: Povah God

Bu Ah felt endless pain permeating his body. It came from the improvement of his life gene. He couldn't even think straight. He could barely open his eyes. All of a sudden, even the mountain range in the distance became clear.

"I—I..." Bu Ah felt that his hearing and sight were thousands of times better. "So powerful. Impressive!" The scars on Bu Ah's face had already disappeared, and his face became clear.

He extended his thick arms and swung them.

Pa!

The armor on his body cracked. Bu Ah felt that the armor on his body was as fragile as paper. It could be destroyed if he simply tightened his muscles, which dazed him.

"I—I..." Bu Ah immediately started to search himself, and he was totally shocked. "Is—is this real?"

Bu Ah floated in the sky, and the original power in his body made him growl.

Hong!

He surged like a trace of light, then flew in an S-shaped curve. He dove and stopped when just one inch away from the ground.

"Hahaha! Haha! It's real! I became a saint! And I'm a pinnacle saint now! It's only one step away from a legend! Hahaha! The Yuan Ao Supreme God! The great Po Vah God..."

Bu Ah was exhilarated. There were billions of billions of life forms on Jue An Land, and it was a long way from level one to level nine. Bu Ah, as an example, had become an apprentice of a knight, and all he had done was to deal with minor issues for a second-level knight. He could grow only after being instructed. After becoming a knight, he would need to go through one war after another—wars among horde leaders and even wars among empires... He had been to armies and slave camps, and he had survived all of them. He successfully passed level three and level four and entered Mighty Flame Family, becoming one of its knights.

Mighty Flame Family was a family that ruled a large area, and there was a saint in the family! It was extremely difficult to progress from level three to level four! And this was the case from level six to level seven, as well!

As for becoming a saint from level nine, it was even more difficult! Once someone became a saint, he would be able to travel the sky and land and to become a great being on Jue An Land. When someone became a legend, it was an incredible achievement. It would be easy for them to establish a horde leader kingdom, and once someone became a half god, he would be able to establish an empire!

Those who were under level three didn't matter at all. It had taken Bu Ah decades to become a fifth-level knight.

"Saint! I'm now a pinnacle saint, and I'm one step away from becoming a legend." Bu Ah was thrilled. "I heard that only being blessed by God can make someone's power surge like this. Otherwise, it might take me thousands of years to become a pinnacle saint. That great being must be a god! Isn't that Povah God...?"

Bu Ah's body trembled. There were hundreds of gods on Jue An Land, and each of them ruled areas of trillions of square miles.

"Other God?" Bu Ah was terrified.

Godly wars were the norm on Jue An Land.

"I can't tell anyone, not even my wife and children. It'll be a disaster if I do so." Bu Ah clenched his teeth and smirked. He looked toward Mighty Flame Castle. "Mighty Flame Castle. The leader only became a saint around 100 years ago, and it's a long way to go for him to become a pinnacle saint. My joyful days have come. I'll rule a land, build a castle, and have tens of thousands of women living in my castle..."

Bu Ah shook his body, and the armor turned into ashes. He gathered his original power and made new armor, then flew toward that Mighty Flame Castle.

Luo Feng stood in the sky and overlooked the mountains in the distance.

"Furious Flame Mountain. The target is there." Luo Feng looked in the distance. "The Ancestral God from the Ancestral God School showed up, is it a life or a valuable?"

Luo Feng had already completely forgotten about Bu Ah who he just rescued. He only needed to get to know the world, which was why he had chosen Bu Ah, and he had compensated him by improving his life gene level.

According to the memories of Bu Ah, the mountain in front of Luo Feng was called Furious Flame Mountain, and a legend lived in there!

"A legend?" Luo Feng shook his head and smiled.

Although Jue An Land was in a universe secret region, Yuan Ao Master put too many life forms in the land, which led to overpopulation. They were only able to get a tiny portion of universe energies. Besides, Yuan Ao Master only seized life forms from weak races who had limited potential, so most of the individuals on Jue An Land were not more powerful than adult earthlings.

Level one to level three were under star traveler level. Level four to level six were star traveler level, and level seven to level nine were star level. Saints were at universe level! Legends were at domain-lord level! Half deities were sector lords! As for deities, they were undying.

More than one legend lives in this Angry Flame Mountain, Luo Feng thought as he was able to sense the power ripple. I can't let anyone go.

Luo Feng became solemn.

Angry Flame Mountain was over 600,000 miles long, and there were powerful demon beasts living in it, so no civilians were living around the mountain.

Deep inside Angry Flame Mountain, in a black castle surrounded by mountains, boiling magma flowed under the castle, and there were strange beasts living in the magma. There were golden-armored knights around the castle, and all of them were at the ninth level.

The castle was surrounded by magma. A black metal bridge was connecting the door and the outside.

A white-caped elder approached from the distance, and each step took him over 300 feet. There was white light glowing around him, and Luo Feng could tell that he was a legend. Soon, that legend walked onto the bridge.

"Open the door," shouted the elder.

"Yes."

The door opened slowly, and a flamed knight stood in front of the door. That knight was also a legend.

"Why are you here?" asked the flamed knight. "Don't you know you can't come here unless you have something urgent?"

"I do have something urgent to tell the great Povah God," said the white-caped elder as he walked inside the black castle.

Inside a palace of the castle, a gleaming undying fighter sat on the throne. Povah God looked down at the servants and was listening to his servants report to him. He felt superior. After all, he manipulated the wars and the slaughtering in his territory, making the empires more and more hostile toward each other. He would only show himself when everything went out of his control.

"You've done well," said Povah God.

The white-caped elder began to tear up from the great deity's compliment. The white-caped elder was waiting for instructions for the next step. However, he saw a blurry, golden light. He raised his head and found that...

"Where's Povah God?"

Povah God, who had previously been on the throne and emanating golden light, had disappeared. The servants and the three half deities were all dazed. Then a half deity said, "Povah God is resting now."

"I need instructions for the next step." The white-caped elder was anxious, but he answered, "Sure."

Those in the palace all left, including the half deities, as they all thought that Povah God had left for something important. What they didn't know was that Povah God was sitting on the throne all the time, but those sector lords and domain lords weren't able to see him anymore.

"Who... who are you?" Povah God gazed at the man in front of him, terrified as never before.

The dimming golden light covered an area of 300 square feet, and the power contained in the golden light petrified Povah God.

Luo Feng looked at Povah God in front of him and couldn't help laughing at himself inside.

I was so careful and performed the most powerful binding skill I have, Golden Country. I didn't expect my target to be a weak undying fighter.

Luo Feng had performed Golden Country in the sky above Angry Flame Mountain, and he immediately narrowed the range when he found that his target was too weak, which was why those half deities saw a golden flash.

"Tell me everything important in your life," said Luo Feng.

"Sure, sure," said Povah God. "I was born in..."

Luo Feng seemed to be listening, but actually, he had performed an illusion. After all, his mind and willpower were at the universe master level, and he was a spiritual force leader even though he was not good at illusion. He was a great being following the engraving path, he had created several illusion skills, which easily trapped Povah God. Luo Feng easily searched his memories.

Luo Feng could tell from the golden toad that his target was Povah God in front of him! However, he couldn't believe that a mere undying fighter could be harmful to the original universe or that Ancestral God sent him just for this! Luo Feng felt that something wrong. He could sense that Povah God was only a part of the whole.

Chapter 1142: Torch Smelting

An undying fighter who had lived for an eternity had enormous memories. Fortunately, Luo Feng's brain worked incredibly fast, though it still took him around five minutes to categorize all the memories of Povah God. Still, the result dazed Luo Feng a little bit.

"I... I didn't find anything special or worth hesitating." Luo Feng was a bit surprised.

"I became a general after becoming a saint..." said Povah God, speaking like a robot. He had lost all the light in his eyes.

Luo Feng looked at Povah God, frowning. Povah God was an undying fighter born on Jue An Empire, and he had started from the bottom. After becoming a half deity, he had established an empire. He led the empire to join wars upon wars, and after the empire fell, he started to adventure in Jue An Land alone. Eventually, he became an undying fighter.

Povah God's soul was then controlled by Torch Smelting Master God, and then he joined Torch Smelting Master God. Based on Povah God's memories, the hundreds of undying fighters on Jue An land were divided into two teams; one of them was on the Torch Smelting team, and the other was on the Mo He team. When the teams fought each other, they were led by top-tier great beings from different empires, and they were led by undying fighters.

That's all! There's nothing special in Povah God's memories. Luo Feng was confused as the memories of Povah God were normal. Now that I know his memories...

Luo Feng looked at Povah God sitting in front of him.

"Following Ancestral God's order, everyone who makes the eyes of golden toad turn red should be killed."

The dimming golden light was surrounding Povah God as well. Luo Feng moved his mind, and the power from Golden Country annihilated Povah God's godly body.

The power of Golden Country was much stronger than a universe master's control over space and time, and it was at the same level as a top-tier domain type true treasure. If it was fully utilized, top-tier universe overlords would be executed. As for a mere undying fighter... a mere slice of power could annihilate him.

There was a vast desert on the vast Jue An Land, and at the end of the dessert was a huge forest at the end of a boundless swamp bordered by mountain ranges rimmed with volcanoes. A towering palace stood at the center of the volcanoes. This was the top godly palace of the Torch Smelting camp. It was where Torch Smelting Master God lived.

The sinister aura of the godly palace and the sector lord-level demon beasts were enough to stop countless great beings.

Torch Smelting Master God was holding a scepter and standing at the high of the godly palace. He looked confused.

"Povah God died... Based on the information Povah God gave me, the enemy is someone too powerful for him to fight, and he can emanate golden domain, which was strong enough to terrify him."

Can it be other master gods? Torch Smelting Master God wondered.

He didn't expect it to be a being from the outside, as Yuan Ao Secret Region belonged to Yuan Ao Master, who had a high status in the universe. Yuan Ao Master had become a universe master at the start of the universe, and he wasn't easy to contend with. No powers were willing to mess with Yuan Ao Master.

Torch Smelting Master God found it impossible for Yuan Ao Master to have killed that one. That power must have at least come from a master god.

"Based on the descriptions, he looks like someone from Ka Vulture clan, but Ka Vulture clan doesn't have a master god. Was he turned from my enemies? Also, that golden domain is so powerful. Is that from a domain type true treasure? Or a domain type treasure!"

There were only a few dozen universe knights under Yuan Ao Master, and only three of them had been bestowed true treasures.

"Why didn't he kill Povah God right away?"

Torch Smelting Master God was irritated. Although he controlled Povah God's soul, Povah God had stopped sending messages after first contact with the mysterious being, and he couldn't get in touch with Povah God.

As for god country transportation, Torch Smelting Master God hadn't even thought of that, as he didn't want to fight a master god.

"Humph! I'll wait and see. There are over 100 undying fighters under me, and I won't take revenge this time. If you do that again, don't blame me for starting a war between master gods."

The red eyes of Torch Smelting Master God glinted fiercely.

Luo Feng floated above Angry Flame Mountain. His Golden Horned Beast body and Moshu body were checking the objects in Povah God's world ring, but none of those objects made the toad's eyes turn red.

Luo Feng waved his hand, and a golden token showed up in his hands.

"Ancestral God." Luo Feng used it with familiarity, as it was exactly like the token given by Master Sitting Mountain Guest.

Ancestral God gave a response quickly. "What is it, Luo Feng?"

"I found a target who was an ordinary undying fighter. He was the one who made the eyes turn red. I've inspected his memories, and that undying fighter has always been living on Jue An Land. There was nothing special about him." Luo Feng reported. "Did I finish the task?"

"Hahaha! It's only been a short while, Luo Feng! You've only killed an ordinary undying fighter who was in no way harmful to the original universe! Keep killing! Kill all those who turn the eyes red."

"Then when should I stop?" asked Luo Feng, as he didn't want to keep killing.

"I'll tell you when it's done, and the universe origin will tell me, too! Go, Luo Feng! According to the instructions given by the universe origin, that Povah God is only a foot soldier. Keep searching."

The communications were cut off.

Luo Feng put away the golden token and shook his head. "The golden toad can only inspect an area of 100 million square kilometers. Jue An Land is so large, and I've only searched a small part of it after half a year! If I keep doing that, I might alert someone. Fortunately, no one on Jue An Land can escape me, unless there are some hidden supreme beings. I might as well begin!"

Luo Feng infused his Shi Wu Wings with his burning godly power.

Hong! Long!

Dimming golden light enveloped everywhere on Jue An Land—the magma, the abyss, and the islands where demon beasts lived or death ocean. They were all covered by the golden light. Even the apex of Jue An Land was covered. This was Golden Country!

Golden Country could cover an area with a diameter of 80 light years at most, and Jue An Land was obviously much smaller, so it was incredibly easy to encompass the whole land.

"Even top-tier universe overlords can be killed in my Golden Country, and even a universe master will be slowed down significantly here."

Luo Feng immediately stopped the space ripples so that no great beings could teleport themselves! It was easy to manipulate time and space in Golden Country, so a space seal was easy.

Luo Feng stood above Angry Flame Mountain and sensed everywhere on Jue An Land carefully.

"Huh?"

"Why is there a trace of gold on the sky?"

"Look! It's like the ocean is covered with a golden yarn."

Everyone on Jue An Land was thrilled. Fortunately, the golden light was inconspicuous. It covered an enormous area, so one could only distinguish the golden light by looking carefully.

"What is that?"

"Is it a master god?"

All the undying fighters on Jue An Land were shocked. The weaker ones couldn't feel it, but undying fighters could tell that there was boundless power contained in the dim glow—as if they would all be annihilated if it was let out a little bit. Little did they know, the two master gods, Torch Smelting Master God and Mo He Master, were also terrified.

Torch Smelting Master God held a scepter, and the golden light was binding him like ropes. He couldn't move at all. His eyes were filled with terror.

"How is it so powerful?" he said. "I can't even move a bit! And the space around me is sealed."

"Ah! Damn it!" Mu He Master God's scorpion tail was slashing, but the golden light didn't even give him a chance to fight. His triangular head roared. "Yuan Ao Supreme God! Are you punishing me?"

Luo Feng nodded. "Good. No hidden beings. The most powerful beings are those two universe knights, Torch Smelting Master God and Mo He Master God."

Luo Feng freed other areas and only kept the space seal around Torch Smelting Master God and Mo He Master God.

Shua!

Shua!

Luo Feng teleported twice and showed up ten million kilometers away from Torch Smelting Master God and Mo He Master God, inspecting the area using the golden toad.

"Mo He Master God didn't make the eyes red, but Torch Smelting Master God... This is the origin."

Luo Feng stood above a volcano around ten million kilometers away from Torch Smelting Master God, and the eyes of the golden toad turned red even from a distance.

Chapter 1143 The Beginning of the Plo

Standing in midair above the mouth of the volcano, Luo Feng disappeared suddenly. Then, one after another, domains connected to the Dark Continent started appearing, but Luo Feng would always appear within one million miles of a place where undying spirits could be found.

"Not red."

"Not red."

"Red!"

"Not red."

After teleporting for a few hundred times, within an extremely short time, he finished surveying the few hundred undying spirits. Out of these undying spirits, there was a total of 12 who could cause both eyes of the golden toad to turn red. Being prudent, Luo Feng immediately put all 12 undying spirits within a dim, sealed space around them to ensure that all 12 undying spirits were unable to move an inch.

"Now, it is time to go meet Torch Smelting Master God."

Luo Feng trod ahead in midair. One step forward, and he arrived directly above the towering godly palace, which was completely surrounded by volcanoes.

"Huh?" Luo Feng frowned. "There are two targets within this godly palace?"

With the golden toad, he could detect that there were two targets beneath him.

Within the godly palace, in a quiet palace hall, Torch Smelting Master God held onto his scepter as he stood in one spot. He was unable to break free from the invisible golden light restraining him.

Suddenly, there was absolute silence.

A man with dark green wings was slowly descending from the sky and landed in this palace hall, which was in the highest point of this godly palace. Yet he was completely unnoticed by the guards stationed around the entire godly palace. Torch Smelting Master God was a little intimidated when he saw the man before him.

He said, "If I may ask, why is my lord here at Yuan Ao secret region? If I am clear of your purpose of visit, I can request an audience for you with Yuan Ao Master."

"Why not address him as Yuan Ao Supreme God?" Luo Feng jested.

At the same time, he made a speedy judgment that this Torch Smelting Master God was the cause of the eyes of that golden toad turning red, and not some strange object.

"My lord, you possess such power," Torch Smelting Master God said reverentially. "You must be a universe master from other powers of the universe."

Luo Feng made no denial.

"My lord, please feel free to give me your orders," Torch Smelting Master God said. "I, Torch Smelting, will do my best to serve you."

"Let me ask you," Luo Feng began.

"Please speak your mind," Torch Smelting Master God had barely started when his eyes darkened as though he had already entered an illusion.

Luo Feng frowned as he looked at Torch Smelting Master God before him. I suppose he is only an elementary knight. Yet, I could only manage to make him fall into an illusion, I am unable to search his memory.

To search memories, firstly, one had to be good in the skill itself; secondly, both parties must be very far apart. This Torch Smelting Master God was also a universe knight, albeit a very weak one, but he was very good with aspects involving souls, so Luo Feng could at most push him into an illusion but was unable to search his memories. Luo Feng stood where he was, waiting silently for a moment.

"Finally, he cannot hold out any longer." Luo Feng smiled and nodded.

Torch Smelting Knight had finally fallen into the illusion. Of course, this merely meant that Luo Feng could carry out his interrogation. He was still unable to search his memories.

"Let me ask you, what special secret do you have?" Luo Feng asked.

With his scepter in his hands, Torch Smelting knight started speaking in a mechanical manner. "I sneak-attacked 'Stoic God' and killed him..."

Luo Feng listened with furrowed brows. Something was not right.

It did not sound as though there was anything threatening the primal universe. The primal universe was impregnated with hundreds of millions of races... Even the invincible existence, human form "Teacher Origin," was suppressed by the universe origin. To be able to be termed as something that boded ill against the primal universe, where even Teacher Origin was mobilized, this was definitely no trivial matter.

"Have you ever left Yuan Ao secret region? Has Yuan Ao Master ever ordered you to handle some important matters? Have you ever obtained any unique treasures, or met with any unique encounters? What makes you stand out from the other knights? What is special about you?"

Luo Feng interrogated Torch Smelting Master God without pause. Completely immersed within his illusionary world, Torch Smelting Master God answered all Luo Feng's questions with everything he knew. The more Luo Feng heard, the more confused he got. Then, he was struck by a sudden thought...

Shua!

A figure encased in golden light flew over. This was the other target found within the godly palace that caused the eyes of the golden toad to turn red—an undying spirit. This tall and burly life form was black all over. He merely stood in one spot with lifeless eyes. He had already fallen under Luo Feng's control, wordlessly and without any warning.

"Search his memories."

Luo Feng was unable to search Torch Smelting Master God, but he was able to search those of this undying. A moment later...

"Huh?" Luo Feng looked at the black and burly undying life form and Torch Smelting Master God. "So coincidental? This undying spirit and the one I killed previously, Povah God, are all soul servants of this Torch Smelting Master God?"

Combining the two memories, Luo Feng discovered this common ground. With a thought in mind, Luo Feng made his move.

In certain faraway lands within the Dark Continent, there were 12 "undying spirits" who could also cause the eyes of the golden toad to become red. With a single thought, Luo Feng released them from the sealed space. Then, by switching time and space, he shifted all of them into this towering palace hall.

Within this palace hall, 15 figures suddenly gathered. Now, Luo Feng was with Torch Smelting Master God and 13 undying spirits.

"Every one of them here are targets."

"Search!"

Immediately, Luo Feng went to the trouble of painstakingly searching the memories of every undying spirit present. Apart from Torch Smelting Master God, he searched the memories of all the other 13 undying spirits... Then he carefully carried out comparisons.

"There is nothing out of the norm. They are all very ordinary undying! And they crawled out step-by-step from the Dark Continent." Luo Feng analyzed this. "The only common thing was... all 13 of them are soul servants of Torch Smelting Master God."

"Torch Smelting." Luo Feng looked at Torch Smelting, "how many soul servants do you have?"

"A total of 20," Torch Smelting Master God replied. "Four have been annihilated. 16 left."

Luo Feng took one look at the 13 undying spirits standing there expressionlessly, as though they were in a coma, and asked, "All are undying?"

"There are three demigods," Torch Smelting Master God replied.

"Under the command of which undying spirit, from which empire?" Luo Feng asked.

Since he had already searched the memories of these 13 undying spirits, he was naturally familiar with the geographical location of the entire Dark Continent. According to what Torch Smelting Master God said, Luo Feng was able to locate the three soul servant of Torch Smelting Master God, who were sector lords! He searched their memories... but the results were surprising. These three sector lords were unable to cause the eyes of the golden toad to turn red, so obviously, they were not the targets he was looking for.

These three sector lords were not targets. But—out of all the soul servants of Torch Smelting Master God—every single one of the undying servants are targets. Even Torch Smelting Master God himself is a target.

Luo Feng pondered this. But Torch Smelting Master God himself does not seem to present any problems. Could it be...?

"Torch Smelting, is Yuan Ao your master?" Luo Feng asked.

"Yes," Torch Smelting Master God replied in a mechanical manner.

Luo Feng laughed suddenly. "So, it is really him..." Luo Feng continued pressing him for more information. "Do you know whether Yuan Ao Master has other soul servants?"

"Yes, there are two that I know of," Torch Smelting Master God replied in his mechanical voice again.

"Tell me their names. Where are they?" Luo Feng asked.

A short while later...

Including Torch Smelting Master God, all 14 targets were annihilated without a second thought. Luo Feng retreated from this golden kingdom and immediately teleported away from the Dark Continent. Then he proceeded to an even wider continent out of the twelve large continents: Towering Continent.

Within the mezzanine spaces corresponding to the universe space of the Yuan Ao secret region, in the depths of the limitless space debris, there was a vast, towering god country. This god country was mighty and boundless.

Suspended in midair above this god country was a gigantic continent. This suspended continent had many black chains that were all at least 60 million miles long, plunged straight into the bottomless ocean. The entire suspended continent seemed unable to float away because of these few hundred huge black chains connected to it.

Right in the core of this suspended continent, there was a vast lake. Within the lake, there was a boiling-hot black fluid. If any universe knight were to fall within this black fluid, he would be burned and annihilated within an instant.

There was an incomparably towering figure lying over there. This towering figure was like a giant sculpted out of a gigantic mountain, and it lay within the vast lake brimming with that boiling-hot black fluid.

Hua!

The giant sat up suddenly. His head was squarish with only one large eye and a mouth. His godly body wore gray armor covered with a layer of mercury-like liquid set into a continuous motion. The moment he sat up, it was as though a towering mountain were emerging out of a lake filled with black fluid. The black fluid continuously flowed from his body to return to the lake.

He was none other than the famous Yuan Ao Master!

"The misty, golden domain," Yuan Ao Master said in a low voice. "Even Torch Smelting is unable to resist? Looks resembling that of the Ka Vulture clan with an invincible power. Oh... He has fallen into an illusion."

Torch Smelting Master God was his soul servant, so naturally, they could communicate via their souls even if they were very far away from one another. Even at the very instant, he knew he had fallen into an illusion; Torch Smelting Master God was quick at providing Yuan Ao Master with information immediately.

What a pity. He quickly fell into enemy's hands and was no longer able to transmit information.

"What strong power. A top-tier universe overlord? No. He must be a universe master."

Yuan Ao Master waited in silence. Only a short moment later, Yuan Ao Master felt his servant, Torch Smelting Master God, being annihilated.

"He really is dead." Yuan Ao Master affirmed the fact in a low voice, his eyes burning with a strange emotion. "Everything is happening as expected. Once the plan is activated... the Ancestral God School—the self-proclaimed guardians of the primal universe origin—will be sure to make a move. Indeed, this move came pretty quickly. The Ancestral God School must have sent a universe master. Bring it on."

"What a great sacrifice," he continued, "but Ancestral God School coming here doesn't really mean much. Since the great being from the Ancestral God School has arrived... I should also move on to my next step: the demons... The Space Beast Alliance... The Northern Territory Alliance... They should all make their way here one after the other."

Luo Feng was oblivious to everything that was happening.

Strange, he thought. It is understandable if Yuan Ao Master did not know about me killing Povah God. But I killed his soul servant, Torch Smelting Master God. Yuan Ao Master would surely learn of it almost immediately. Luo Feng stood high up in the sky of the vast Tower Continent, with slightly furrowed brows as he considered. But Yuan Ao Master has not made a single move at all.

Yuan Ao Master might have very strong power, but Luo Feng had no fear for him.

But Yuan Ao Master did not appear...

Luo Feng felt that something was not right. If there was someone slaughtering great beings in the human territory, then universe masters of the human race would have reacted and appeared quickly. Besides, based on the information obtained from earlier investigations, Torch Smelting Master God and the other undying soul servants were already confirmed as targets. Since Yuan Ao Master was the master of Torch Smelting Master God, it was very likely that the source might be found with Yuan Ao Master!

"We shall see. I am very interested to know what tricks he has up his sleeves and what could mean harm to the primal universe."

With a thought in mind, Luo Feng made his move.

Hong! Long!

An endless, misty, golden light—bringing with it the power of Milky Way Horde Leader—landed directly on this Towering Continent with a maximum diameter of 5.1 light years. At this very moment, not one of those great beings on Towering Continent would ever hold hopes of eluding Luo Feng's control.

Chapter 1144 Yuan Ao Supreme God

Towering Continent was a relatively huge continent out of the 12 continents. There were countless beings living on the continent, and hundreds of millions of lives died during the horde leader wars, empire wars, and godly wars. These wars had resulted in generations of great beings. There were six master gods in total on Towering Continent, around 1,000 undying fighters, and countless half deities and legends.

"Seal!"

Luo Feng stood under the seven-color light membrane. His wings were open, and he looked down at the land.

The dimming golden light covered the entire Towering Continent and everyone on it... Under the boundless golden light, those half deities, legends, and saints were still able to move, but undying fighters and master gods couldn't move even a bit. Under space seal, they couldn't teleport themselves.

"Such a strong binding!"

"So powerful. Ah! The great Yuan Ao Supreme God!"

More than half of the undying fighters on Towering Continent shouted the name Yuan Ao Supreme God. These undying fighters had soul servants as well, and they could determine from their servants that the golden light was covering a vast area.

Those undying fighters had made contact with their master gods, and they knew that those master gods were this powerful. Master gods were only able to put pressure on individual undying fighters, but they wouldn't be able to affect an area of ten billion square kilometers. Only Yuan Ao Supreme God was able to do that.

"Ah, my 22 servants are distributed on different areas on Towering Continent, and all of them are covered by golden light. How large the area is! It's over one square light year. This is what a universe master is capable of."

A gleaming godly palace floated in the mist, and there were white-caped and golden-caped servants in the palace. This was the godly palace of Glorious Master God, and it was the honor of saints, legends, and half deities to serve the great Glorious Master God "Ta Wo." However, their Glorious Master God now sat on the throne and couldn't even move a muscle. He was terrified.

"It isn't Yuan Ao Supreme God... Who is it? Who is it?" Glorious Master God was horrified. "This is a universe master!"

Undying fighters were yelling, "Yuan Ao Supreme God!"

The half-deity guards were also shouting, "Yuan Ao Supreme God!"

The legend servants were also shouting, "Yuan Ao Supreme God!"

Glorious Master God Ta Wo sat on the throne, scared stiff. He couldn't scold the great beings under him. After all, those undying fighters didn't have much to do with Yuan Ao Supreme Master, but he was a soul servant of Yuan Ao Supreme God, so naturally, he knew that it didn't come from Yuan Ao Supreme God.

"Yuan Ao Supreme God."

"Yuan Ao Supreme God."

The great beings kept shouting.

Suddenly, space and time were frozen, while those undying fighters and half deities stopped talking under the increasing pressure.

In the distance, a man with four teal-blue wings soaked in golden light walked in. All the undying fighters, half deities, legends, and Glorious Master God gazed at him.

"Ta Wo," said the winged man as he approached Glorious Master God. His voice resounded in the palace. "You're a soul slave of Yuan Ao?"

"How dare you disrespect Yuan Ao Supreme God!" a legend servant screamed. "How dare you call Yuan Ao Supreme God by his name!"

Although he was afraid of this individual, he had been indoctrinated that Yuan Ao Supreme God was the almighty being deserving of awe; his belief was stronger than his fear of death, which was why he was infuriated by this stranger using the name "Yuan Ao" directly.

"How dare you call Yuan Ao Supreme God by name!"

"You!"

Peng! Peng! Peng!

All of a sudden, those who had spoken were turned to ashes. Luo Feng didn't even look at them... Those domain lords and sector lords just hadn't wanted to live, as they had dared to defy a universe master.

On the contrary, the undying fighters in the palace and Glorious Master God Ta Wo didn't say anything.

"No answer?" whispered Luo Feng. "Answer me. Are you a soul servant of Yuan Ao?"

Suddenly, Ta Wo's eyes lost all the light, and he answered, "Yes, I'm a soul slave of Yuan Ao Supreme God."

The undying fighters looked at Ta Wo in shock. They took note of his dismal eyes and stiff voice. They all understood now that Ta Wo was being controlled. They knew that Ta Wo Master God was a universe knight, and he was a great being who was able to roam the earth. Who would be able to control a universe knight so easily?

"It is! I thought Torch Smelting's news was fake." Luo Feng smiled. "Give me the names of your soul slaves."

"Ke Ya, Bu Si, Luo Ma Qi..." Glorious Master God Ta Wo answered repeatedly.

"All your undying soul slaves are targets." Luo Feng looked to the undying fighters down there. "Time to kill you all."

Luo Feng had teleported on Towering Continent before arriving at the palace. He found out that two universe knights and 49 undying fighters were targets! He searched the memories of undying fighters. There were thousands of undying fighters on the 12 continents, and they all knew each other.

Since Luo Feng had searched their memories, he knew the undying fighters and their names. He also heard the names revealed to him by Glorious Master God, and all those undying soul slaves were the targets!

The undying fighters started to beg Luo Feng for mercy upon seeing him decide to kill them.

"No, please spare our lives!"

"Great being, please spare our lives."

"Great being, we have no intention to be your enemy. Please spare our lives-we'll be grateful for your mercy forever."

"Hmm?" Luo Feng turned his head and looked into the distance. He could see that a being that had just arrived at Towering Continent.

Above an ocean, a giant arm tore the seven-color light membrane, and a being walked into Towering Continent. He was a towering being, and the sole eye on his head gazed into the distance. He was Yuan Ao Master! The legendary Yuan Ao Supreme God of the 12 continents.

Heng!

After a snort, his armor started to burn with flames, and the golden light couldn't affect him at all.

"So powerful," he said. "Even I can't control the space and time. It might be a top-tier domain type true treasure. Fortunately, I have a top-tier domain type true treasure as well. Otherwise, I would be at a disadvantage."

Yuan Ao Master's godly body started to glow.

Hua! Hua! Hua!

All of a sudden, endless flames appeared on Towering Continent.

"Ah! Flames!"

"Fire!"

"Ah! Danger!"

"Incredible!"

Just when all the lives on Towering Continent were horrified, they soon realized that those flames weren't powerful at all. Even a baby wouldn't be harmed by the flames; the golden flames were like a breeze.

"Look."

"Nothing happened."

"It's so weird."

Everyone on Towering Continent was thrilled. Even the wars were paused. Under those incredible flames, they couldn't see things in the distance. It was a miracle!

The dimming golden light didn't affect the wars on the continent, but the flames significantly narrowed the residents' vision.

Glorious God Palace.

"Please, spare our lives!"

"Mercy, please."

Just when the undying fighters were begging for their lives, endless flames arrived.

The Golden Country formed by Shi Wu Wings was fundamentally different from domain type true treasures. Domain type true treasures would clash with each other if their power were let out, as Thousand Treasures River and Floating Mountain Ocean clashed with each other on the original stars. However, if the powers were different, it would not happen.

Master of Banfu's E Luo Sector still existed in Luo Feng's miniature universe, as they had contrasting types of power. Golden Country a control over space and time, like that of a universe master, but much more powerful because it came from Shi Wu Wing's secret techniques! That was why Yuan Ao Master wasn't able to control the space and time.

"I'll kill all the targets." Luo Feng glanced around.

"How dare you!" roared the voice of Yuan Ao Master came from the endless golden flames.

The flames immediately put Ta Wo and those undying fighters under their protection. Although the domain type true treasure wasn't able to extend as far as Golden Country, it was almost as powerful.

"Yuan Ao, you can't protect them," said Luo Feng calmly.

Luo Feng's words dazed everyone in the palace. This being wasn't even afraid of Yuan Ao Supreme God? They had been indoctrinated that Yuan Ao Supreme God was supreme since they were born!

"Help us, Yuan Ao Supreme God!" yelled Glorious Master God.

"Save us, Yuan Ao Supreme God!" yelled the undying fighters.

"He won't be able to kill you," said Yuan Ao Supreme God.

Luo Feng shook his head. "What a joke."

Hong! Hong! Hong!

A golden river surged from Luo Feng's body. The flames crumbled beneath Nine Tiger River, and Glorious Master God and his three soul slaves were annihilated immediately.

"Damn you!" roared the voice from the endless flames.

Chapter 1145 A New Route

Luo Feng took a last look at the surviving undying spirits, demigods, and legendary beings who looked lifeless, shocked, and fearful. Then he turned and took a step forward... and left this Glorious God Palace.

Within the hall of the Glorious God Palace, there were two undying spirits (not soul servants), a group of demigod guards, and a group of legendary servants.

"In the presence of Supreme God, how dare he? How dare he...?"

"He-he actually killed Glorious Master God who was under the protection of our Supreme God!"

"Who is he?"

A rolling sea of waves was upheaved in the minds of this group of legendary beings, demigods, and two undying spirits. As the two undying spirits were not strangers to the vast universe out of Yuan Ao secret region, their brief understanding allowed them to guess that this enemy must be a universe master who came from the vast universe. But the demigods and legendary beings were different. They were oblivious. They had always been instilled with various beliefs like, "no one can disobey Supreme God's commands," and, "Supreme God is invincible."

"To think, to think..."

In the hearts of these legendary beings (domain masters) and demigods (sector lords), a new seed was sprouting. They had banished all such thoughts about the Supreme God being invincible as a sudden realization dawned on them... In the vast universe, the 12 large continents were never the core. There was an even larger world beyond their continents.

"That enemy was able to match up to Supreme God. Why can't I?"

The seed had been sown, so now, there was hope of bearing fruit.

Luo Feng took a step out of Glorious God Palace. Out in the surroundings, rolling waves of Nine Tiger River were surging. With the empowerment of Golden Kingdom, the weaker Nine Tiger River was still able to cause that endless flame to disperse to naught.

"Yuan Ao Master." Luo Feng looked at the towering figure standing amidst the endless flame from afar. The towering figure from afar was glaring furiously at Luo Feng with its single eye. "Who are you? Don't sneak around. You are not from the Ka Vulture clan!"

"Haha..." Luo Feng laughed, and instantly, his fiery-red hair changed to black, while his armor and wings transformed back to their original color. This was a black-haired man with silver armor and wings.

"And you are?" Yuan Ao Master revealed a trace of uncertainty.

"Luo Feng," Luo Feng answered immediately.

Yuan Ao Master's eye was filled with shock. "The extraordinary genius from humanity that became a universe master? It has not been that long, has it? You... When did you become a universe master?"

Yuan Ao Master did not belong to any top power because he had quickly become a universe master soon after the birth of the universe. For countless years, his power naturally became very strong, so he did not need to be part of any top power and could roam the universe as a lone wanderer. Yet, because he was a lone wanderer, he was always behind time and uninformed of the latest news.

"Not too long ago," Luo Feng replied.

"Oh..." Yuan Ao Master pondered for a slight moment as a complicated look flashed in his single eye. After a short while, he said, "So, you are Milky Way Horde Leader, Luo Feng! To think so many things have happened during these few short months of deep slumber. You actually killed over 6,000 universe knights from the three major alliances with one blow. That was pretty ruthless."

"Nothing much, nothing much." Luo Feng afforded a slight smile. Obviously, this Yuan Ao Master before him must have learned about what happened on the original stars in the recent years through some intelligence channels.

"Humph," said Yuan Ao Master. Then he let out a roar. "Even if you are a universe master-even if you are from the human alliance, you cannot be so impudent! The Yuan Ao secret region is my territory. You come here and kill as you please... this is a provocation to me! However, you are a universe master, and I do not wish to pursue the matter further. Hand over a senior true treasure as compensation and leave my territory as fast as you can. We shall bury the hatchet!"

Universe masters were unable to kill each other easily unless the difference in power was quite far apart. Most of them would either negotiate or incur hatred to end things.

"A senior true treasure?" Luo Feng lightly shook his head.

"Milky Way Horde Leader, do you think that I will let you off because you are from the human alliance?" Yuan Ao Master roared.

"My apologies. There is no way we can put an end to this." Luo Feng looked at Yuan Ao Master. "I am here under the orders of the Ancestral God School to exterminate you and the various great beings under your command."

Silence.

Yuan Ao Master's single eye was filled with shock, which was closely followed by rage and an endless raging fire.

"You said the Ancestral God School?" Yuan Ao Master let out another roar. "The Ancestral God School has sent you here to kill me? Loathsome, bastard...! Detestable Ancestral God School! I, Yuan Ao Master,

have run rampant in the universe as a loner. Even universe supreme beings can forget about killing me. Why would I fear your Ancestral God School? Come, come. I am here at Yuan Ao secret region. I will wait here and see who comes to kill me. Hahaha...!"

Luo Feng raised his brows. Luo Feng could confirm that Yuan Ao Master indeed caused the eyes of the golden toad to turn red. Also... Yuan Ao Master carried with him another target that caused the eyes of the golden toad to turn red.

Two targets; one is Yuan Ao Master himself, thought Luo Feng. The other is something he carries by his side. Is it a soul servant that he carries within his world ring? Or another unique object?

No matter what it was, so long as it could cause the eyes of the golden toad to turn red, it would be a target that needed to be eliminated and annihilated. When he had been executing Golden Kingdom, enshrouding the Dark Continent to kill Torch Smelting Master God, Luo Feng had mentally prepared himself to face Yuan Ao Master.

He made quite a conspicuous entrance, as he once again landed in Towering Continent. Luo Feng had been waiting for Yuan Ao Master for some time, and sure enough, Yuan Ao Master had appeared. Everything was within his expectations, Yuan Ao Master was indeed the cause of the golden toad's eyes turning red.

Luo Feng had revealed the Ancestral God School as the perpetrator because he was aware that he could not kill this Yuan Ao Master.

Yuan Ao Master is a special life-form, thought Luo Feng. His godly body is a million miles tall, and his godly power is one level purer than mine. And he has been around since the first era of the birth of the universe. By now, he must have accumulated countless treasures. Based on what I have gathered, those would be top-tier domain type true treasures, pinnacle true treasure armor, and many other true treasures. I suppose even Star River Master would not be able to kill him!

So, earlier on, when Yuan Ao Master proclaimed that even a universe supreme being could forget about killing him, it was not empty talk. That was the truth!

Extremely powerful beings like Star River Master, Primal Chaos City Leader, and Nine Remoteness Master did not fear universe supreme beings! Yuan Ao Master might be a notch lower than Star River Master in terms of combat power, but his massive godly body allowed him to run freely and rampantly throughout the universe without fearing anyone.

Yuan Ao Master glared furiously at Luo Feng.

"Milky Way Horde Leader," he said. "I am not afraid of those bastards of the Ancestral God School at all. As for you... Humph! You must be a peripheral member of the Ancestral God School. I could not be bothered with fighting you at all. If you have any sense in you, you will know to hand over a senior true treasure as compensation and get out of my territory as fast as you can. Otherwise... I shall let you see what I am capable of."

"Oh, I am indeed curious to know what you are capable of," Luo Feng said, laughing lightly. "I would love the opportunity to measure my power against a universe master like you, who emerged during the birth

of the universe. What will it be? Do you intend to exchange blows within the Towering Continent? Destroying this entire continent brings me no heartache at all."

Yuan Ao Master snorted in an aloof manner. "Since you want to court your doom, follow me. We shall battle within the void space of the secret region."

"Very well." Luo Feng nodded.

Sou!

Sou!

One after the other, almost simultaneously, the two disappeared from Towering Continent in a flash. Golden Kingdom and Endless Flame, which were previously enshrouding Towering Continent, also disappeared instantaneously.

The billions of various life-forms on the entire Towering Continent were in a state of shock. The misty golden light and endless flames had arrived on their continent in an instant, one after the other. Now, they had vanished from the continent in an instant. This was unprecedented in the history of the Towering Continent.

A couple dozen light years away from the 12 large continents, there was a void space filled with darkness. There was only a thin, fog-like universe energy.

Two figures, one after the other, arrived at this void space.

"You are merely the errand-boy of the Ancestral God School, so I actually had no intention of making things difficult for you," said Yuan Ao Master. "You killed two universe knights under my command and various undying spirits, all of which I cannot be bothered to make a fuss over. Just that, when I wanted you to compensate me with a senior true treasure and then get out of my territory, you had the guts to provoke me into a fight? Humph! Just a young fellow with barely over 100,000 years of cultivation. Let me show you how vastly different I am from Master of Banff, the expert in using illusions."

The massive figure with a single eye glared at Luo Feng from afar. Luo Feng stood within the void space with a blade slung across his back.

"Is that so?" he said.

Hong!

The endless, misty golden light appeared, and the void space that was initially filled with darkness instantly transformed into a golden kingdom. The limitless power suppressed Yuan Ao Master, who let out a roar. Suddenly, endless flames appeared out of nowhere. There was only a fractional difference between the power of Golden Kingdom and that of the endless flames.

Luo Feng was aware, however, that his Shi Wu Wings were actually much stronger than Endless Flames! But his godly power was one level lower than Yuan Ao Master's; therefore, this made the power of the second form of this impaired true treasure Shi Wu Wings well-matched in strength with Endless Flame.

Other great beings would not be able to use two domain type true treasures at the same time, because domains are mutually exclusive, Luo Feng thought. However, my Golden Kingdom controls time and space... so it makes a perfect combination with a domain time true treasure! Right. Nine Tiger River is too weak on its own. I need to obtain a much greater domain type true treasure in the future.

Luo Feng was secretly looking forward to his treasure hunt.

With Golden Kingdom being a degree more powerful than a top-tier domain type true treasure, if he could obtain another top-tier domain type true treasure, he would likely own something that was comparable to a pinnacle domain type true treasure.

A miniature universe could be another method to consider, thought Luo Feng. Miniature Universe, Golden Kingdom, domain type true treasure... these three do not repel one another. They could be executed simultaneously.

Suddenly, Luo Feng discovered a route that was suitable for him. He had made it all the way to where he was now. Unless he had become a universe master, it would have been very difficult for him to attain an explosive boost in his power within a short period. However, Miniature Universe, Golden Kingdom, and a domain type true treasure... The confluence of these three would become a powerful stance that exclusively belonged to Luo Feng!

Star River Master may be able to execute an ultimate technique, "Dark Night," which resembles Miniature Universe because he has a domain type true treasure, thought Luo Feng, but he does not own a valuable treasure like Shi Wu Wings to allow him to control time and space. When it comes to controlling time and space, I think only a universe supreme being can surpass me, but just barely.

Shi Wu Wings... are truly amazing. Luo Feng could not help singing praises of his possession.

At least, Luo Feng had not heard of any other true treasures with such power. Besides, Shi Wu Wings were still imperfect at this point, so Luo Feng was filled with anticipation for them.

Various thoughts flashed through his mind like lightning, but his eyes were glued to his opponent in the distance—a being that was merely a slight notch weaker than Star River Master. Without using his supreme true treasure, Star Tower, what would he be capable of? Luo Feng really looked forward to finding out for himself.

"You little human kid who has cultivated for merely a few dozen eras," jeered Yuan Ao Master. "I will teach you the consequences of provoking me!"

Then, with a roar, the radiant light of the endless flames charged right before Luo Feng's eyes.

Chapter 1146 Strange Objec

Luo Feng had thick arms, and one was carrying a cardinal shield while the other was carrying a bronze and bloody hammer. The hammer was enormous, and there were nails on it.

Hou!

There were flames around the hammer, and it dashed at Luo Feng with mighty power. The space around it turned into particles.

Luo Feng's blade Absolute Guest came out of the sheath. Absolute Guest was a pinnacle true treasure blade created by Sitting Mountain Guest and was much more powerful than Blade Ghost Blade, which Luo Feng wielded to fight Master of Banff! A powerful true treasure could affect power to a large extent, and the closest power level was that of a supreme true treasure; the gap was larger.

"Dang!"

The blade hit the arm of the hammer, and the shock wave made Luo Feng take three steps back.

Yuan Ao Master took two steps back and stopped.

"You?" Yuan Ao Master growled and glared at Luo Feng. "You were at an advantage when you were fighting Master of Banff only because you performed your supreme technique! Your blade technique wasn't that impressive. How could you just resist my hammer?"

Luo Feng sneered and said, "Stop talking! Show me your true power!"

Luo Feng knew exactly how powerful Yuan Ao Master was, despite the fact that he shouted like that. He had been suppressing Yuan Ao Master using Golden Country and Nine Tiger River at the beginning! As a matter of fact, Yuan Ao Master was indeed stronger than Luo Feng.

When he was fighting Master of Banff, Master of Banff used Floating Mountain Sea to suppress Luo Feng, and Luo Feng was only using Blood Ghost Blade. That was how Master of Banff was able to be at an advantage. However, Luo Feng was the one at an advantage now. He had better true treasures, and he was able to rival Yuan Ao Master even without I Am the Universe.

"How rampant you are!" Yuan Ao Master roared. "Well, you're indeed qualified to be rampant, as you've been only training for a few dozen eras. However, you need to learn that nobody cares how long you've been practicing. I'll reveal my true power now!"

Hong!

The godly body of Yuan Ao Master was surrounded by flames that were like nebulas. The flames were so powerful that even Nine Tiger River under Golden Country crumbled instantly.

"So powerful!" Luo Feng looked to the flame whirlpool in shock. "It can rival the supreme technique 'Dark Dight' of Star River Master."

Hong! Long! Long!

The breathtaking and shining flame whirlpool shrank and concentrated on that gigantic hammer. The fire on the hammer surged. All of a sudden, the hammer was emanating endless force, as if it were a pinnacle domain type true treasure.

"Burn!" Yuan Ao Master roared.

Hong!

The huge hammer looked bloody under the flame, and the bloodstains seemed to be triggered. An evil force permeated that drilled into Luo Feng and started to attack his body.

"Kill! Kill! Kill! Die!"

The roaring resounded in Luo Feng's mind.

"Humph!" Yuan Ao Master sneered. To him, although Luo Feng was a peerless genius in the human race—even in the universe—he had only practiced for a few dozen eras, and his mind might be his disadvantage. The hammer might not be a threat to real universe masters, but it was likely to work on this human genius! It could at least daze Luo Feng and put him in danger.

Peng!

The hammer arrived in front of Luo Feng.

Hua!

Golden light shone, and it was sharp and cold! It hid the hammer directly.

Luo Feng was blasted away like a beam of light and didn't stop flying for thousands of kilometers, yet Yuan Ao Master stood in the sky, dazed.

"He resisted it? And his godly body isn't weakened, either?" said Yuan Ao Master.

"Hahaha, is this your move, Yuan Ao Master?"

Luo Feng laughed on the outside, but inside, he was shocked. Even though he had Nine Tiger River and Golden Country, he was still at a severe disadvantage... That move was indeed terrifically powerful. Although it was less powerful than the trump card of Star River Master, it was only slightly weaker. However, it was different from when he was fighting Star River Master. He had Golden Country, Nine Tiger River, and Absolute Guest. He didn't have Star Tower, but Luo Feng had only lost 2/10,000ths of his godly body.

That Yuan Ao Master might've already lost 1/10,000th of his godly body already, Luo Feng thought. I have Force Armor to protect me.

"Good," said Yuan Ao Master. "Incredible. No wonder you're a peerless genius in the human race. It's been less than one era since you fought Master of Banff, but your power has surged again! You're not even injured at my hands. I originally considered consuming you to death, as I have a large godly body, but now, you're qualified to make me use that!" Yuan Ao Master glared at Luo Feng.

Luo Feng was surprised. Use that?

"Haha! Everyone can bluff," said Luo Feng. "Don't you have a supreme true treasure?" Luo Feng opened his four wings and stood on Nine Tiger River, looking at Yuan Ao Master in the distance.

"Humph! I've only used it once in Universe Ocean since I got it. This will be the first time I use it in the original universe." Yuan Ao Master waved his hands, and the hammer disappeared, after which a strange black object showed up in Yuan Ao Master's hands. The black object was mighty.

"How powerful." Luo Feng confirmed that the black object was one of the targets using his golden toad. "That's a target? That strange object?"

Luo Feng was shocked. He had killed some undying fighters and universe knights since coming here. It had always been living beings that made the golden toad's eyes turn red! And he was supposed to kill all of them.

Ancestral God asked Luo Feng to find out what was happening here. Luo Feng surmised that... the origin might be that strange object!

That strange object looked like a giant piece of black wood, and one side was broken. The grains on the wood looked odd—like half-circles winding with each other—and the entire black wood was strangely powerful.

So powerful! I've seen many valuables, but the only two things that can overpower this are a fully utilized Star Tower and Five-Color Aurora Lake, Luo Feng thought. I have Star Tower in my hands, but I can't fully utilize it, and it can't trump this black wood now.

Although Yuan Ao Master had launched some attacks, that black wood was already more forceful than the true treasure maces and the pinnacle true treasure that Double-Face Ancestral God used.

"I killed a universe master with one attack." Yuan Ao Master stroked the black wood. "This is a valuable I got in Universe Ocean after lots of efforts and dangers. I'll use it to rip you into pieces. I'll take your true treasures by destroying this body of yours, and it'll be your punishment. As for the Ancestral God School? Haha! I'm not even afraid of Ancestral God! Just come!"

Demon race territory in the distance.

Inside Dream Ancestor Secret Region, a giant silver snake was floating in the space where the palaces of Dream Demon Ancestor. He looked up in a certain direction in the universe.

"A ripple... It's that ripple," said the silver snake slowly. "It's in Yuan Ao Secret Region. Did Yuan Ao Master get a strange object? What a moron. How stupid is he to bring that object back to the original universe. Doesn't he know the original universe doesn't allow that kind of strange object?"

The silver snake made an order immediately.

"Sky Wolf, You Mo, go to Yuan Ao Secret Region. I'll go there if you run into dangers."

"Yes."

Sky Wolf Master and You Mo Master took the order. Both of them had lived for a long time, and Sky Wolf Master was a pinnacle universe master with great surviving skills. So was You Mo Master. The two universe masters were only scouts.

The Northern Territory Alliance.

"That strange object! It's rare for it to show up even in Universe Ocean, and it shows up now? Though it still can't rival a supreme true treasure, it's very close already. Even pinnacle set true treasures can't rival

that. I'm sure that the universe supreme masters in the original universe have already heard. I'll send two universe masters there to see, and I can get there immediately."

Soon, Northern Territory Alliance sent two universe masters.

Meanwhile, the Ancestral God School sent three universe masters. The bug race sent one universe master, and the space Beast Alliance sent two universe masters.

The superpowers in the universe all sent universe masters, and the universe supreme masters behind them were observing the situation closely. On the contrary, the automaton race and the human race didn't send anyone, as Huge Axe Founder was in Universe Ocean while Father God was in another universe.

Chapter 1147 Nine Remoteness Master

With Golden Kingdom, Luo Feng had absolute control over time and space. Thus, he could feel the attraction and detect that black piece of wood.

Due to certain factors, the black piece of wood was cracking. The splinters that broke off were distinct. This could be a valuable that was a naturally occurring treasure at the true treasure level. It could be big or small, and it had limitless power.

"I have never heard of such a strange object," Luo Feng mused. "Due to special reasons that might put the universe at risk, life forms like Yuan Ao Master, Torch Smelting Master God, and Glorious Master God needed to be exterminated. But this black piece of wood is nothing but a dead object. How can it cause harm to the primal universe?"

However powerful a true treasure like Star Tower was, it would not be powerful enough to bring harm to the primal universe. This kept Luo Feng on his toes.

"Human kid," Yuan Ao Master snorted at Luo Feng. His single eye was filled with smugness as he gloated over Luo Feng's situation. "Regretting? Afraid? But too late. Out of the countless great beings of the primal universe, you are truly the first to have a taste of it. Don't blame me if you lose your armor, wings, and weapons. Hahaha...!"

Suddenly, Yuan Ao Master roared, "Burn and destroy!"

He was using the same technique, which was also the only ultimate technique that Yuan Ao Master comprehended! The same scene unfolded. The glaring, magical, gigantic whirlpool of flames resembling a nebula whirlpool enshrouded Yuan Ao Master and added strength to his aura, which instantly skyrocketed.

"I'm not going to fool around any longer." Luo Feng stared and executed his ultimate technique while shouting, "I Am the Universe!"

Hong!

Luo Feng's godly body consumed his godly power at an unparalleled speed while the endless golden light that had been enveloping this part of the secret region suddenly changed... Chaotic airflow

appeared to fill the air, drifting randomly and filling every space possible. At that instant, this ubiquitous presence changed the surroundings of an area with a diameter of one billion miles to a world of chaotic airflow.

"Chaotic airflow?" Yuan Ao Master laughed with great delight. "You are finally executing your ultimate technique. Great."

"Great, my ass!" Luo Feng roared.

Peng! Peng! Peng!

Within the gigantic, egg-like Miniature Universe, chaotic airflow was everywhere. In terms of power, the Miniature Universe was much stronger than Golden Kingdom! Luo Feng made use of this technique in one of his previous battles, so even though Master of Banff had the E Luo Sector... he still could not stop Luo Feng from forcefully massacring over 6,000 universe knights.

At this moment, Luo Feng shouted, "Miniature Universe empower! Golden Kingdom empower! Nine Tiger River, attack!"

Other than Star Tower being an ultimate technique, the three techniques—namely Miniature Universe (which was the shrinking of the universe), Golden Kingdom (which was the absolute control of time and space) and Nine Tiger River (which was the domain of a domain type true treasure)—were all techniques of different types, so they did not contradict or repel one another. Within a split second, the three superimposed over one another! With this superimposition, solely Golden Kingdom and Nine Tiger River were enough to take down Endless Flame, much less with the addition of the powerful Miniature Universe.

Hong! Long! Long!

A crushing force, and the vast, flaming domain surrounding Yuan Ao Master completely collapsed. Under the double empowerment of Miniature Universe and Golden Kingdom, Nine Tiger River had immeasurable power, allowing it to run rampant in its attacks.

Yuan Ao Master was roused into action.

"Hahaha! What a delight, but... you must still meet your doom!" Yuan Ao Master roared.

With a sudden crashing sound, his godly body started to expand. Within a split second, he reached a massive one million miles—the true size of his godly body.

A gigantic Yuan Ao Master one million miles tall was now grasping a piece of black godly wood that was also several million miles long. The endless power brought about by Burn and Destroy was completely gathered on this black godly wood, which brought about winding threads of black airflow.

Peng!

One straight blow!

From one fragmented end of the black godly wood, splinters flew directly to meet with the blow Luo Feng dealt!

That one blow... Even with double empowerment, Nine Tiger River was still crumbling under the impact inch by inch. Its waves parted to either side, as it was unable to ward off the endless firelight and the black airflow winding around the black godly wood. At that moment, the black godly wood was continuing to expand and lengthen... It crashed directly at Luo Feng.

"Miniature Universe, gather!" Luo Feng shouted.

Suddenly, the seemingly disorganized Miniature Universe's chaotic airflow gathered around the Absolute Guest blade in Luo Feng's right hand like a tornado. Wielding the power that he obtained after fusing whatever existing power he had with this endless chaotic airflow, Luo Feng slashed ruthlessly at the black godly wood that was charging towards him.

Peng! Peng! Peng!

The power was sky high... Luo Feng was thrown back a couple thousand miles. It was the same situation for Yuan Ao Master, who was also forced to retreat a good couple of hundred miles because of the frightening impact of the collision.

"Impossible!" Yuan Ao Master's single eye was filled with insanity as he looked at the godly wood in his hands. Letting out an uninhibited roar, he shouted, "Go and die!"

"You think I fear you?" said Luo Feng. "You are the one dying today!"

Luo Feng flapped his wings. Then, under the oppression of Miniature Universe, Golden Kingdom, and Nine Tiger River... he was completely on the winning end. In his grasp was Absolute Guest blade, which, together with the power gathered from Miniature Universe, dealt another ferocious blow with the determination to annihilate Yuan Ao Master with one swift slash.

Peng! Peng! Peng! Peng!

Both exchanged blows at lightning speed. All the blows were executed at full force.

Suddenly, the vast Miniature Universe dispersed without a trace. The nine-second limit for maintaining one execution was up, and although he was able to continue maintaining its execution, Luo Feng did not feel like continuing with this battle.

"Yuan Ao Master is Yuan Ao Master," said Luo Feng. "I salute you! I shall not stay any longer."

With that, Luo Feng transformed into light and made a speedy escape. However, the surrounding space had been sealed much earlier. There was no way he could teleport.

"You want to leave? Dream on!" Yuan Ao Master roared his murderous intent to hunt Luo Feng down.

"Haha! You think you can catch up with me?" Luo Feng laughed out loud.

With the double obstruction posed by Golden Kingdom and Nine Tiger River, Yuan Ao Master's speed was a far cry from that of Luo Feng's.

Seeing Luo Feng escape, Yuan Ao Master was helpless. He was at his wits' end. He had already realized that the aura of Luo Feng's godly body was obviously weakened by one notch, and his guess was that

Luo Feng might have lost one-tenth of his godly body! In his case, although he had executed his ultimate technique about a dozen times, the amount of his godly body consumed was merely two out of 1,000.

Continuing to fight under such a situation, he would definitely be able to exhaust Luo Feng to his death! What a pity that Luo Feng had Golden Kingdom to empower his Nine Tiger River...! Luo Feng held full control.

If Luo Feng had been able to fight, he would have, but if not, he would still dare to put up a struggle. However, it seemed to him that he might lose his life in the fight, so he made a speedy decision to escape.

"That human, Luo Feng!" shouted Yuan Ao Master. "Good for you that you are fast, but I don't believe all the other universe masters of the Ancestral God School are equally fast. I shall wait here at my territory, and what can the Ancestral God School do to me?"

Yuan Ao Master let out a resounding roar, and during his roar, Luo Feng flew out of the area under sealed space. Within an instant, he had disappeared from sight.

"How could that Yuan Ao Master be that powerful, and what exactly is that black godly wood?"

Luo Feng was in one of the void spaces of the Yuan Ao secret region.

"In terms of technique," said Luo Feng, "he loses to Star River Master by a great deal, but that godly wood... In terms of attack power, it does not lose out to Star River Master's attack power. No wonder he mentioned earlier that he annihilated a universe master with a single blow at the Universe Ocean. I have already mobilized all three techniques—Golden Kingdom, Miniature Universe, and Nine Tiger River—and yet, I am still on the losing end."

Luo Feng was consciously aware that he was not able to win. Even with Miniature Universe, Nine Tiger River, and Golden Kingdom, coupled with the Golden technique executed with Absolute Guest blade, the combined power was barely comparable to that of the second stage of Star Tower!

Using Star Tower was not a consuming process for his godly power, but Miniature Universe used up a good one-tenth of his godly body!

If I had not executed Miniature Universe just now, I would have been at an absolute disadvantage! thought Luo Feng. I would probably have been blown away from a distance, and my godly body would have sustained severe injuries.

With the empowerment of Miniature Universe, he was able to alleviate his disadvantage by a little.

Keeping each attack at maximum force, every execution would consume ten percent of my godly body. Just a few executions and I will be a goner.

Luo Feng shook his head in silence. Not a match.

Luo Feng flipped his hand and retrieved a golden token. "Ancestral God."

"Luo Feng."

"Ancestral God, Yuan Ao Master is a target, too!" said Luo Feng. "And he has a piece of black godly wood... which is also a target! The black godly wood is very powerful, and with Yuan Ao Master holding it, I am unable to ward off his attacks at all. To eradicate him is simply beyond my capabilities."

"You have done well," said Ancestral God. "When Yuan Ao Master utilized that black godly wood, I had already learned of its origins. The true origin lies with that Black Wood, I have already deployed Nine Remoteness Master and two other universe masters. They will be gathering at Redbud Island first. You should quickly head over to meet them. God Country Transportation will send you there right away."

"Nine Remoteness Master?" Luo Fen repeated immediately. "I will leave right away to go meet them."

Standing in void space with a cyan light by his side, Luo Feng's soul servant operated God Country Transportation. From there, three figures were seen walking out.

The one in the lead was a middle-aged man garbed in a magnificent black robe. There were black engravings on his fair and pale face, and he exuded a devilish charm... He was different from Primal Chaos City Leader and different from Darkness Master. Throughout the universe, his existence was one that was terribly self-conceited and overweening with arrogance.

"Milky Way Horde Leader," said this devilish, middle-aged man as he looked at Luo Feng to acknowledge his presence.

Luo Feng returned his greetings. "Nine Remoteness Master."

The two looked at one another.

"Interesting," said Nine Remoteness Master. "This young fellow I encountered back then has become so powerful in the twinkling of an eye." He turned behind and said, "You should know these two beside me."

Luo Feng took one look and smiled. "This must be You Nan Master from the Thorn Ring Alliance, and this must be Anaconda Master from the Ancestral God School."

Through the virtual universe, he had already read up on the more renowned universe masters from various top powers within the universe. It was a natural reaction to memorize some prominent information about these numerous universe masters so he could at least know what some of these universe masters were skilled in. In times of battle, such information would enable him to be well-prepared and to know what to be cautious about.

"That's right." Nine Remoteness Master nodded. "These two here are also peripheral members of the Ancestral God School and belong to my Nine Remoteness branch. You are also one of my Nine Remoteness Branch, so the four of us are actually closely related."

"Milky Way Horde Leader." You Nan Master and Anaconda Master greeted at the same time.

You Nan Master was a bald man with bone wings, while Anaconda Master was a giant boa constrictor whose godly body took the form of a winding spiral and had flashing mirages all about its surroundings. Both looked toward Luo Feng with kind intentions.

"Nice to meet you both," Luo Feng said with a smile.

Nine Remoteness Master nodded and said, "This concerns matters pertaining to Yuan Ao Master. We of the Nine Remoteness branch will be appearing as representatives of the Ancestral God School."

Chapter 1148 Nine Remoteness, Ocean Eye

"Ancestral God School?" Luo Feng sensed something. "Nine Remoteness Master, have powers outside the Ancestral God School come?"

"Yes." Nine Remoteness Master nodded.

You Nan Master had his bone wing open, but he had a gentle voice as he said, "Not just Ancestral God School. All the powers that have universe supreme masters will send universe masters here. All the superpowers in the universe might send universe masters here."

Anaconda Master had a hoarse voice. "We have Milky Way Horde Leader to lead us," he said, "and we can arrive there as quickly as possible using god country transportation. Other powers might need some more time. After all, it's a place that belongs to Yuan Ao Master, and only a few left keepsakes there."

"Why are they coming?" Luo Feng couldn't help asking.

"Because they know that strange object," answered You Nan Master.

"How?"

"Strange objects can only be born in the three lands of extremis," said You Nan Master. "They all look natural—like wood or grass. They're all naturally bred, and they're all powerful. They are the closest to supreme true treasures. Also, there's one difference between them and supreme true treasures. For supreme true treasures, the users need to study the mysteries behind them to wield their power, and if they can't, supreme true treasures won't wield their real power."

Luo Feng nodded. He was only able to use the second level of Star Tower, but the second level of Star Tower was already mighty enough.

"Strange objects are different," You Nan Master continued gently. "There are no engravings on strange objects, and any great being is able to wield their maximum power. Supreme true treasures not fully utilized are at the same level as strange objects. Only supreme true treasures fully utilized can overpower strange objects. You can imagine how precious they are."

Luo Feng nodded.

The pinnacle set true treasure that Double-Face Ancestral God used and the pinnacle true treasure maces that Star River Master used were both inferior to that strange object. Even the second level of Star Tower was barely at the same level as that black wood, and the black wood could be wielded at its strongest immediately. Who wouldn't want that?

"However, there's a downside to strange objects," said You Nan Master. "They are rejected by the universe. Both the original universe and miniature universe rejected strange objects. It seems the strange objects can affect the stability of the universe origin once they're in one. They seem to be aligned naturally against the universe origin."

Luo Feng now understood. Naturally against the universe origin... No wonder Ancestral God said something harmful to the original universe was going on here.

"Unfortunately for Yuan Ao Master, he's a loner," said You Nan Master. "Although he's free to be a loner, nobody shares secrets with him. Besides, it's rare that strange objects are born, so even for me, I just learned the secret from Ancestral God." He smiled. "Yuan Ao Master doesn't know that the black wood is rejected by the original universe, which is why he brought it back to the original universe. It's okay that he doesn't use it, but if he uses it, the power from that black wood clashes with the universe origin. Other great beings aren't able to sense that, but universe supreme masters can clearly sense the existence of that black object."

Luo Feng nodded.

"That black wood can't be brought back to the original universe," continued You Nan Master, "but most of the great beings adventure in Universe Ocean, which is why they keep the black wood in Universe Ocean and preserve them all by themselves. Apparently, they are already second-class supreme true treasures, how can the powers not go mad for them? The universe supreme masters will come here by themselves if they don't know that other powers know about this secret."

Luo Feng now fully understood the story.

"It's been a long time since Yuan Ao brought that strange object back," said Nine Remoteness Master slowly. "That strange object is rejected by the original universe, and the power merges with his body, which is why the original universe starts to reject him. This time, Yuan Ao Master needs to be eradicated as well."

Luo Feng was shocked. "Merge with his body?"

"Strange objects are special, evil, and powerful," said Nine Remoteness Master. "Few great beings are able to resist their temptation."

"Who can resist a second-hand supreme true treasure?" Both You Nan Master and Anaconda Master exclaimed.

Luo Feng nodded. It was almost impossible to get a supreme true treasure, and no universe masters in the universe were known to have supreme true treasures, not even Primal Chaos City Leader and Star River Master. Even some supreme masters didn't have supreme true treasures! Who didn't want a strange object that was only slightly inferior to a supreme true treasure?

"They're nothing to me." Nine Remoteness Master shook his head and smiled. "Every time I fight, I'm prepared for my bodies to die, so I don't carry any important true treasures."

Luo Feng was unable to suppress a laugh.

"Let's go," said Nine Remoteness Master. "Our Ancestral God School is the quickest, and it'll take around half a day for the other powers to arrive. I'll deal with that Yuan Ao Master, and I'll see how powerful that Yuan Ao Master can be with that strange object."

"Let's go."

"Sure."

Luo Feng smiled. "I haven't seen Nine Remoteness Master attack."

Sou!

The four supreme beings disappeared.

Four beings stood in the space and looked at the 12 floating continents.

"How can we get him to come?" asked You Nan Master.

The easiest way is to use godly power to cause an explosion on one of the continents, and then Yuan Ao Master would come. However, You Nan Master and the others were all of high status, and they wouldn't do such a thing if those ordinary lives didn't mess with them.

"Leave it to me," said Luo Feng.

Shua!

Luo Feng opened his wings. Boundless golden light permeated, and a golden space with a radius of 18 light years was formed. It was Golden Country. The Golden Country enveloped all the 12 continents, which made Nine Remoteness Master and the others look to Luo Feng in shock. Such a large area! Even a top-tier domain type true treasure couldn't cover such a vast area.

"Yuan Ao!" shouted Luo Feng. "Yuan Ao! Yuan Ao! Yuan Ao! Yuan Ao! Yuan Ao! Yuan Ao...!"

Luo Feng's voice blasted throughout every inch of space on the 12 continents, and all the lives on the continents were terrified.

A roar.

"Human Luo Feng!"

A flame flew out of a continent, and he arrived at a space only a million kilometers away from Luo Feng and the others.

"You still dare to come?" The towering Yuan Ao Master's eyes were glinting with madness. He sneered and said, "No wonder Milky Way Horde Leader still dares to come. He has helpers now! I'll see who they are. Oh, two nobodies. Wait... Isn't this Nine Remoteness Master? The mighty and well-known Nine Remoteness Master. Nine Remoteness, are you going to battle me with those three? I won't care."

Nine Remoteness Master looked to him. "Don't worry, I myself am enough."

"I admit that you're incredible and have a boundless godly body," said Yuan Ao Master. "I'd rather deal with Primal Chaos City Leader and Star River Master than you. And I certainly won't confront you if I don't have the strange object. However, I'm not afraid you right now." Yuan Ao Master laughed. "I'm not even afraid of universe supreme masters."

"Really?" Nine Remoteness Master moved, and the space around him was completely sealed.

"Come." The forceful black wood showed up in Yuan Ao Master's face, and the sole eye was glinting with madness.

Luo Feng, You Nan Master, and Anaconda Master were all watching.

Nine Remoteness Master dashed at Yuan Ao Master like a trace of light and screamed.

Hua! Hua! Hua!

Nine Remoteness master turned into an ocean, and the water charged at Yuan Ao Master. Meanwhile, Yuan Ao Master performed his supreme technique "Burn."

Hong! Long! Long!

The water was churning and formed a huge ocean whirlpool, covering Yuan Ao Master.

"Nine Remoteness, Ocean Eye," said You Nan Master.

Luo Feng held his breath.

"Nine Remoteness, Ocean Eye" was a legendary supreme technique, and it could only be performed by Nine Remoteness Master.

Hong! Long! Long!

The ocean formed a giant whirlpool, and it expanded. All of a sudden, it was like a star exploding, and it shrank to the size of a neutron. The whirlpool shrank, and the godly power exploded! It was a technique at the cost of self-destruction. Luo Feng knew that as well.

Miniature universe! Of course, Luo Feng's technique was an inherited technique, while the one Nine Remoteness Ocean used was created by him based on the characteristic of Nine Remoteness Ocean.

Peng! Peng! Peng!

The whirlpool shrank to the size of an earthling's fist before it was completely gone. Yuan Ao Master, who was only the size of a fist, looked horrendous. The power from the whirlpool had turned the space around it into particles, and the particles were like water in a huge pot. Everything went away.

Yuan Ao Master returned to the original size after that.

Luo Feng looked forward to wielding that after becoming a universe master!

Chapter 1149 Being Trampled On

Yuan Ao Master who shrank into the size of a fist, then suddenly underwent explosive growth. At the same time, he let out crazy and wild laughter.

"Hahaha! Nine Remoteness, the legendary Nine Remoteness! Fearsome Nine Remoteness... His legendary ultimate technique 'Nine Remoteness Ocean Eye' is famous throughout the Universe Ocean. Many top powers are afraid of it. But I have the godly wood! Nine Remoteness poses no threat to me at all. Haha... In the primal universe, the universe supreme beings' powers can only be so strong-at the very most, slightly higher than Nine Remoteness's legendary ultimate technique. Who can take me down? Bring it on, human! Luo Feng, You Nan, Anaconda! You three fellows, come here... Let me trample on you."

With a stern expression, You Nan Master said, "Let's go."

Luo Feng nodded, and Anaconda Master also gave a slight nod with its gigantic snake's head.

Sou!

They transformed into light and flew away at high speed. With the large, black godly wood in his hands, Yuan Ao Master stood within the void space as he looked at the three beams of light escaping. He let out unrestrained and wild laughter.

"Escaping is all you are capable of? Haha! Ancestral God School! Haha! You are unable to do anything to a universe supreme being. I have this godly wood; its power is almost the same as a universe supreme being. I am not afraid of you. Haha...!"

Afar, the three beams of light made their way out of the sealed space of that domain and immediately vanished from sight.

Within the quiet void space of Yuan Ao Secret Region, a continuous, mountainous region hovered in midair. And within this mountainous region, there was a waterfall. Luo Feng, You Nan Master, and Anaconda Master stood by the pond beneath the waterfall.

Hua!

A dim ray of light appeared, and a lone figure walked out. It was Nine Remoteness Master in his magnificent black robe.

"Nine Remoteness Master," Luo Feng, You Nan Master, and Anaconda Master all said, looking over.

"Very powerful." Nine Remoteness Master shook his head and said, "My strongest technique, together with a self-destruction attack. If he did not have that godly wood, my attacks would give him severe injuries. However, he was able to rely on the black godly wood to ward off my attacks and retaliate. This rendered 90 percent of my attacks useless, as he could easily ward them off. From how I see it, the attacks earlier on only made him lose one 1/1,000th of his godly body."

Luo Feng, You Nan Master, and Anaconda Master fell into momentary silence.

Being able to cause Yuan Ao Master to lose 1/1,000th of his godly body was considered quite a feat. Previously, when Luo Feng had fought against Yuan Ao Master, he had not been able to hurt him at all; on the contrary, Yuan Ao Master might have consumed some of his godly body, but that was because he chose to execute his strongest technique, which caused him to use up some of his godly power. If Yuan Ao Master were to execute his ultimate technique with the empowerment of the black godly wood, he might be at a disadvantage, but there was no doubt he could ward off Luo Feng's attacks without consuming his godly body.

"Nine Remoteness, within the primal universe, in terms of attack techniques, probably only a universe supreme being can surpass you," Anaconda Master said.

"If even you are unable to," You Nan Master said, "what can we do?"

Luo Feng was also frowning. Since becoming Milky Way Horde Leader, Luo Feng would engage in idle chats occasionally with his teacher, Primal Chaos City Leader, to obtain a deeper understanding of the powers of universe masters. Based on what he already knew, universe masters could be categorized into the levels of elementary, ordinary, pinnacle, and top-tier.

To be considered top-tier, one's life gene level, true treasures, and techniques had to reach the pinnacle stage. Numerous existences in the universe, like Ice Mountain Master and Void Gold Master, could all be pulled into this category. However, Star River Master, Primal Chaos City Leader, Nine Remoteness Master, and a few others were the cream of the crop and were more outstanding than the rest.

For instance, Star River Master's technique had achieved the perfect combination of two supreme techniques. As for Nine Remoteness Master, every time he divided out another body, its life gene level would likely only be able to reach 1,000 times, but as for the supreme technique that he could execute... Once he self-destructed, he was able to converge all the energy of his entire godly being to bring about a mass explosion in an instant! The explosive surge in power was certainly alarming.

That was why Star River Master, Primal Chaos City Leader, and Nine Remoteness Master were considered the cream of the crop-and could be regarded as the most powerful universe masters within the universe today!

Of course, Nine Remoteness Master's flaws were obvious. Each body could only execute its most powerful attack once. Once execution was completed, another body would be required. God Country Transportation would then send another one. By that time, the enemy would have long fled the scene. So, relatively speaking, Star River Master and Primal Chaos City Leader were more intimidating.

Primal Chaos City Leader's supreme technique's sustainability was not as good as that of Star River Master, while Star River Master's godly body remained a mystery. All that was known was that he could execute his supreme technique repeatedly and sustain it for a long time. Naturally, this made Star River Master a tad stronger than Primal Chaos City Leader when it came to being a deterrent force in the vast universe.

Above the rank of a supreme universe master was the universe supreme being!

The primal universe had a strong binding force over the powers of supreme universe beings, and all of them were under this constraint, allowing the powers that these universe supreme beings unleashed to be a notch stronger than those of Star River Master and Primal Chaos City Leader. That was all! Of course, their merits were obvious, too... They could repeatedly and continuously execute a technique without having to worry about consumption of their godly bodies because the amount of godly body being used up would be nowhere near the limit designated to a universe supreme being.

"In a head-on battle, no one within this primal universe would be able to kill Yuan Ao Master," Nine Remoteness Master said.

"What can we do?"

"The few of us will not be able to shoulder the weight of this responsibility."

Nine Remoteness Master's eyes scanned the crowd of three, including Luo Feng. Then he said, "Hold it! Let's continue this conversation when the others have arrived."

"Right."

"That's all we can do, for now."

The first to arrive was Sea Lotus Master from the bug clan. The number of universe masters in the bug clan was pathetic, but every single universe master wielded a power that was so frighteningly strong. Universe masters of the bug clan... even the weakest one was of a pinnacle level. They were not only skilled in soul type techniques like creating illusions but could also rely on the bug soldiers under their command to execute material techniques, which were not easy to deal with.

Hong! Long! Long!

An area in space collapsed. Space particles rolled about like countless grains of sand in an endless stream. A dazzling golden Mother Nest was suspended in void space, surrounded by 1,000 strong and burly bug soldiers. Every one of them exuded staggering power and could be regarded as top-tier universe overlords. Under the control of the consciousness of a universe master, this power would be even more intense.

Hua!

Innumerable blades converged and swept across the vast sky.

Yuan Ao Master stood at a towering height of one million miles.

"Hahaha, Sea Lotus... it's futile. All those techniques of yours are completely useless."

His hand still held the black godly wood that was a few million miles long. It swept across the void space in a frenzied manner, crushing anything in its way. It was unstoppable and met blows dealt by the bug soldiers head-on, blocking off the bug soldiers repeatedly.

From afar, Nine Remoteness Master, Luo Feng, Anaconda Master, and You Nan Master watched the fight as bystanders.

Sea Lotus Master's escape technique was resolute. When he knew he could not beat Yuan Ao Master, he was quick to flee the battlefield after gathering his bug soldier warriors. Thereafter, he joined Nine Remoteness Master and company.

"Nine Remoteness, you did not help me," lamented Sea Lotus Master-a captivating beauty with frail wings that lightly trembling and pretty eyes looking at Nine Remoteness Master.

"You saw how powerful he was," Nine Remoteness Master said, shaking his head. "There was no way I could help you."

"What are you Ancestral God School fellows prepared to do?" Sea Lotus Master asked.

"How about you all from the bug clan?" Nine Remoteness Master rebuked.

"I have to report everything to our Queen, then wait and see. Our Queen is the one who decides what should be done."

Nine Remoteness Master laughed. "We shall wait and see, then."

When the various top powers reached the Yuan Ao Secret Region, those who immediately went to confront Yuan Ao Master suffered great losses. Fortunately, universe supreme beings of the various top powers knew that Yuan Ao Master had a strange object, so the universe masters they sent forth were not the strongest in power. Rather, they were extremely skilled in life-saving techniques, so not one being was annihilated.

A battle raged in the midst of the void space. It was a fight in which Sky Wolf Master and You Mo Master from the demon clan joined forces to fight Yuan Ao Master.

"Haha! Look. Sky Wolf Master and You Mo Master are here."

"The two of them alone are life forms that would be trampled on."

"Haha!" laughed Yuan Ao Master. "Sky Wolf. You Mo. The two of you want to fight me? What's your worth?"

Yuan Ao Master held onto his black godly wood and stood as a towering figure in the midst of the void space like an undefeatable entity, seeking attention wildly and with no inhibitions. The black godly wood in his hands would occasionally exhibit a sudden immense growth, which was when he would wield it in a frenzied manner, slashing about insanely.

Yuan Ao Master was aware that he could not possibly kill all these fellows with their hidden trump cards. As such, he could not be bothered using his supreme technique. Every single attack was only a display of his ultimate technique. With Yuan Ao Master's massive godly body, he could rely on it to naturally replenish all that he had consumed from the use of his ultimate technique. No matter how long a fight was, he would never feel the toil.

"Haha! Using my ultimate technique, I could trample on both of you."

Yuan Ao Master waved his black godly wood once again, and for the next few moments, either Sky Wolf Master could be seen being hurled away or You Mo Master could be seen retreating in midair.

Sky Wolf Master and You Mo Master were in a rage.

"Bastard!"

"Loathsome Yuan Ao...!"

They had both realized that while they were exchanging blows with Yuan Ao Master, the commotion had attracted a group of onlookers who watched comfortably from afar without lifting a helping hand. The group included universe masters such as Nine Remoteness Master, Sea Lotus Master, and Golden Horned Master, who represented the Ancestral God School, the bug clan, and the Space Beast Alliance respectively. Sky Wolf Master and You Mo Master wanted to salvage some dignity!

Initially, Yuan Ao Master's power was comparable to theirs, so even if he were to use his ultimate technique to fight them, he would still be able to surpass them by a notch without breaking a sweat! But now, with that black godly wood in hand, he was trampling them without reservations.

"We are not going to fight on further."

"Nine Remoteness Master and company must have failed to gain any benefits, either. Let's go."

"Let's go."

The moment Sky Wolf Master and You Mo Master came to a decision, they immediately acted. The next moment, Sky Wolf Master returned to his Sky Wolf Palace while You Mo Master transformed into an endless black airflow and made a speedy departure.

In the middle of the void space, Yuan Ao Master let out hearty laughter. "Hahaha... I have driven away the Ancestral God School, the bug clan, the Space Beast Alliance, and the demons. I know all of you want this godly wood, but with me holding on to it, you can covet it all you want. Even bringing a universe supreme being here would be pointless. Hahaha..."

Time flew by, and batches of great beings came. Various top powers within the universe had arrived, but every single batch met the fate of being trampled on. Eventually, they would all flock to Nine Remoteness Master and company, where previous groups had gathered.

"Humph." Sky Wolf Master, who was pitch-black from head to toe, looked at the human form of Luo Feng in the distance. With four hooves suspended in midair above a mountain peak in the secret region, his eyes flashed with a trace of ferocious hostility as he shouted, "Human Luo Feng!"

Sitting cross-legged on a rock, Luo Feng seemed to sense his glare from afar and looked over. His eyes met those of Sky Wolf Master.

"Sky Wolf." Luo Feng gave a light-hearted laugh, then he turned around and no longer bothered himself with Sky Wolf Master.

Luo Feng's eyes scanned his surroundings. Whether standing, sitting cross-legged, or sprawling on the ground a ways away, the various universe masters from different races and clans were all getting suspicious.

Strange. Why are the universe masters representing humanity still not here? Of all the top powers, only the automaton clan and the human race are missing representatives. I need to ask Teacher!

Right away, Luo Feng connected to the virtual universe with his consciousness.

Chapter 1150 Seal

In the virtual universe, Luo Feng went to Thunder Island to visit Primal Chaos City Leader.

"Teacher." Luo Feng saw a golden-caped being the second he arrived.

Primal Chaos City Leader smiled. "Luo Feng, why are you here?"

"I've been waiting for the universe masters of us humans in Yuan Ao Secret Region, but I didn't see any of them, and that's why I'm here," answered Luo Feng.

"Yuan Ao Secret Region?" Primal Chaos City Leader looked confused. "Why are you in Yuan Ao Secret Region? And why are you waiting for the universe masters of us humans? What do you mean? Are you saying they should be there?" Primal Chaos City Leader was confused, but he realized that something was going on.

Luo Feng was dazed. "Didn't Huge Axe Founder give an order?"

The universe masters of the superpowers in the universe had arrived except for those from automaton race and the human race. Theoretically, universe supreme masters would stay in the territory of their race, as they were the most intimidating and greatest power. Even if they went to Universe Ocean, they would come back soon. After all, universe supreme masters were pretty efficient in fighting and killing, so they usually stayed within their races' territories.

"Huge Axe is not in the race now, he's in Universe Ocean," said Primal Chaos City Leader solemnly. "What happened? Tell me."

"This is the case. Double-Face Ancestral God came to find me..." Luo Feng elaborated on what happened. He finished in no time. "Only the automaton race and the human race are missing in Yuan Ao Secret Region," said Luo Feng.

"A strange object?"

Primal Chaos City Leader was shocked. The human race wouldn't have known if Luo Feng hadn't told him. After all, the powers of the universe wouldn't leak the news. They wanted as few powers there as possible.

"Fortunately, we have you now." Primal Chaos City Leader smiled.

"Teacher, what should we do?" asked Luo Feng.

"This is not just a power struggle," said Primal Chaos City Leader. "That strange object is rejected by the original universe! Which is why the owner, Yuan Ao Master, is also rejected by the original universe, so even universe supreme masters who kill him won't be punished."

Luo Feng was surprised.

"Besides," said Primal Chaos City Leader. "If we get the strange object out of the original universe, we'll make contributions. Like us humans, if we make a contribution, the original universe will favor us in a short period of time, and the universe energies beneficial to us humans will be improved. As a result, human babies born during that period will have more potential. Everyone knows that it's impossible for one power to own it, so what you're going to do is to take your uncle Ice Mountain and ask him to pair with you. You and your uncle will be enough."

"Sure." Luo Feng nodded.

Ice Mountain Master. He was one of the three disciples of Teacher Origin, and all the three disciples of Teacher Origins were incredible. Ice Mountain Master might have been slightly weaker than Primal Chaos City Leader, but the gap wasn't significant.

After all, he was a disciple of Teacher Origin!

In a remote territory of Yuan Ao Secret Region, a green light shone from a rock of the mountain range.

Luo Feng and a silver man with bloody armor and a bloody blade flew together, and the moment that silver-haired man showed up, he attracted the attention of all the supreme beings on the mountains.

"Ice Mountain Master."

"You're here, Ice Mountain."

"The human race sent Ice Mountain and Luo Feng?" Immediately, the spotlight was on Ice Mountain Master.

Ice Mountain Master glanced around and nodded at the great beings he was familiar with, like Nine Remoteness Master, Golden Horn Master, and Canthus Devil Master.

Ice Mountain Master... He was a disciple of Teacher Origin! He had great power! Nine Remoteness Master could only use his supreme technique once with one of his bodies, but Ice Mountain Master could use his supreme technique continuously, even though that technique was slightly weaker. He was an incredible universe master.

The great beings arrived one after another. Soon, the nine superpowers had all arrived, except the automaton race. Even the Nine Territory Alliance sent two universe masters! The Nine Territory Alliance shouldn't have known it, but it seemed they had been informed by a lone universe supreme master.

"Nine Territory Alliance."

"Flame Emperor and Jue Feng Master."

"Why're they here? The Nine Territory Alliance isn't a superpower. Though they have more than ten universe masters as well, they don't have a universe supreme master. Did some lone universe supreme master tell them?"

The other eight powers were all confused and looked to the two in the distance. Flame Emperor was built with scales on his body and had a horn on his head. He emanated power. As for the other one, it was a strange beast with a rocky body and looked like a lion with nine heads. The eyes on his heads were scanning his surroundings. He was Jue Feng Master, and he was at Flame Emperor's level.

The Nine Territory Alliance was a second-class power, but the universe masters sent were both powerful, at least more powerful than Sky Wolf Master and You Mo Master. Flame Emperor! Jue Feng Master! They were both top-tier universe masters!

"Flame Emperor!" Ice Mountain Master glanced at him and snorted. "You dare to come where we humans are!"

"Why not?" Flame Emperor glared at Ice Mountain Master.

"I would definitely crush you if the other powers were not here," Ice Mountain Master said.

He was being extremely hostile, and Flame Emperor glared at him. Ice Mountain Master was the first one to become infuriated when everyone learned that Flame Emperor had betrayed the humans.

Ice Mountain Master took out his blade, and Flame Emperor resorted to fleeing with his Force Armor! Even after an infinity of time, Flame Emperor knew that he was weaker than Ice Mountain Master, so he could only promise himself, "Humph! Someday I'll outpower you and make you annihilate in the universe."

"Flame Emperor," said another voice.

Flame Emperor turned his head around and smiled. "Oh? This must be the peerless genius, Milky Way Horde Leader Luo Feng."

"I'm surprised to see you here, Flame Emperor," whispered Luo Feng.

"Haha... My Nine Territory Alliance shouldn't have known," Flame Emperor laughed. "However, Sitting Mountain Guest instructed us to come here. It's our honor to work for Sitting Mountain Guest."

This surprised Luo Feng. Teacher Sitting Mountain Guest?

All the other powers were shocked, too. "Sitting Mountain Guest?"

All the lone universe supreme masters were handfuls, while Sitting Mountain Guest was the most difficult one to deal with. He rarely fought other great beings, but the special skills he had were already enough to drive the powers crazy.

Sitting Mountain Guest was connected to lots of superpowers. He had a good relationship with the Nine Territory Alliance, and lots of powers speculated that Sitting Mountain Guest was connected to Flame Emperor as Sitting Mountain Guest publicly helped Flame Emperor several times. Sitting Mountain Guest was close to the Ancestral God School as well.

"It's been a long time." Nine Remoteness Master looked around. "The automaton race still hasn't arrived. It seems Father God is in his universe and doesn't know about it. We won't wait!"

"Okay."

"We'll wait no more."

The powers here still regarded the Ancestral God School as their leader, and the Ancestral God School was represented by Nine Remoteness Master. Actually, the other powers all assumed Father God was staying in the universe of the automaton race.

"There are nine powers here," said Nine Remoteness Master. "I think everyone is aware of the power of Yuan Ao Master. Everyone, give a suggestion of how to deal with it."

The universe masters spoke up.

"Yuan Ao Master has a strange object, which puts him at the same level of Star River Master. In the original universe, even universe supreme masters can't kill him, let alone us. What should we do?"

"We can't kill."

"There's no other way."

"There's only one way."

"That's right."

"Only that move."

All the universe masters nodded.

Nine Remoteness Master nodded. "It seems everyone's reached a consensus. It's impossible to kill Yuan Ao Master directly. There's only one way. Seal him! Seal him and send him to an individual universe. Then we'll kill him."

All the powers nodded.

Luo Feng understood as well. It was difficult to kill even ordinary universe masters-except for universe masters like Star River Master and Yuan Ao Master while wielding the piece of black wood. As for those more powerful or those with great true treasures, even universe masters like Star River Master found it difficult to kill them. For universe masters like Star River Master, and even those like Ice Mountain Master, it was impossible for universe supreme masters to kill them.

What could they do? Seal them!

It might be impossible to kill them, but it was possible to suppress them and suck them into a sealing type true treasure. It was impossible for a universe supreme master to break a top-tier sealing type true treasure.

Then they would be sent to places like the primal universe. Primal Chaos City Leader was invincible in the primal universe and was able to kill even a universe supreme master using the primal universe origin, not to mention Yuan Ao Master.
