

SWALLOWED 1201

Chapter 1201: Island

The engraving reflected on the permafrost suddenly surged.

Sou!

The cyan mountain disappeared.

“This is a special transportation skill.” Sitting Mountain Guest smiled in the mountain. “It’s kind of like your Star Tower. There are lots of spaces in your Star Tower, and there will be portals from space to space. This one is similar, but it just changes the portal into a spot.”

Luo Feng was listening, but he still looked confused. He understood what it meant in a broad sense, but he couldn’t figure out the mysteries behind it.

Sitting Mountain Guest grinned and laughed. “Haha! I’ve said that only less than three can identify it out of all the great beings from the three universe eras and holy lands combined. Also, I can identify it faster than them. Even lots of universe supreme masters can’t understand it. How could you know it? The only thing you need to know is that Universe Boat has power itself. From my perspective, Universe Boat itself is a magical true treasure! Much more magical than all the supreme true treasures we know.”

“I think so too.” Luo Feng nodded.

“What do you mean, you think so too?” said Sitting Mountain Guest. “This Universe Boat has the shape of a boat, and it was clearly crafted. Most great beings think that it’s a terrific true treasure. Okay... Transportation is over.”

It was glowing outside. Time and space moved, and Sitting Mountain Guest showed up in a quiet space.

“Look outside.” Sitting Mountain Guest pointed to the outside, and the cyan stone immediately disappeared.

“A very beautiful and simple space,” said Luo Feng. He found that the space wasn’t large, and there was an island at the center of the lake. There weren’t any plants on the island, and there were only ancient, stone-built palaces. “Teacher, I can sense that the two scales are in the lake,” he said.

“I already know where the two scales come from.” Sitting Mountain Guest pointed down. “This giant lake, and the water in the lake... This is the gigantic ice mountain domain. Perhaps the two scales fell into this domain and flew here through a mysterious portal.”

“I’ll go down there, teacher.”

Luo Feng was in a hurry, so he didn’t have time to chit-chat with his teacher.

“Haha, just go.” Sitting Mountain Guest smiled and nodded.

Luo Feng flew out of the mountain in the bloody pyramid.

He went into the ice-cold water domain. He kept diving.

Luo Feng had gathered hundreds of thousands of scales in the ice-cold water domain before, so he knew that the water wasn't a threat at all. To be exact, the entire abyss couldn't pose any threat to Star Tower, and the worst it could do to Luo Feng was to trap him forever.

"It's there!"

Luo Feng sensed something stronger.

The bloody pyramid kept sinking, and the blurry golden light immediately became a giant golden hand and grabbed the two scales.

"Haha, I got them!"

He went back to the center of the mountain. Sitting Mountain Guest stood to the side with a smile.

Luo Feng was very excited, and the two scales immediately recognized him as their masters. The Extermination Godly Armor was disintegrated, and all the 8,999,999 scales floated around Luo Feng. Most of the scales were black, and a fraction of them were golden.

Hua!

They immediately combined, which made Luo Feng exclaim. It was able to create all the techniques, and they were scattered on all the scales. Defense, distant combat, and close combat—all the engravings were so delicately combined. It was incredible that someone was able to make such a true treasure.

"Not bad." Sitting Mountain Guest nodded.

Luo Feng was wearing the black-scaled armor, and the four silver wings opened. Suddenly, the color changed, and it became a silver armor. The right hand turned silver.

"Even Five Chaos Master won't be able to recognize you." Sitting Mountain Guest smiled and nodded.

"Hmm." Luo Feng was excited as well.

"However," said Sitting Mountain Guest. "Five Chaos uses this Crazy Demon Extermination Godly Armor as a palace type true treasure, and the armor is slightly damaged. This is supposed to come from Lava Ocean."

Luo Feng nodded, as he could sense that the armor was indeed a bit damaged.

"Give it to me, and I'll help you repair it," said Sitting Mountain Guest.

"Okay." Luo Feng felt more grateful.

"It's only slightly damaged, so it won't cost much to fix it," said Sitting Mountain Guest confidently.

"However, few in Universe Ocean are able to fix valuables like this. I am the only one."

Luo Feng was speechless, as his teacher was indeed very confident in making true treasures. However, he needed his teacher's help, so he needed to be agreeable.

He gave the armor to his teacher, yet his teacher didn't rush to repair it. Instead, he said, "Let's go, go to that island. This mysterious space is independent of other places, so it should be a space that belonged to some great being before."

"Okay." Luo Feng nodded.

Long ago—to be exact, before the two holy lands came into being and Universe Boat was not yet one of the three Lands of Extremis—Universe Boat had a user. The black keepsake, green keepsake, and the silver keepsake corresponded to independent spaces.

If Tilted Peak Sector and Flowing Countless Mountain looked natural, Universe Boat appeared to have been crafted.

Hua!

The mountain immediately flew to the island and stopped above the island before it gradually landed.

Sitting Mountain Guest started to walk out. "Let's go."

"Teacher...?" Luo Feng couldn't help asking, as he needed to be careful everywhere in the abyss.

Sitting Mountain Guest was already outside. "The island is safe," he said.

"Okay." Luo Feng could only follow, yet his golden horned beast body was in the bloody pyramid.

He and his teacher walked out of the mountain and arrived on the island.

The island only has a diameter of a million kilometers, thought Luo Feng. It's not large.

To them, they could walk from one side of the island to the other side in one step.

Sitting Mountain Guest looked at the palaces. Luo Feng turned around and looked at them. Both could tell that they were all the mountain stones that belonged to the island. They formed stoned palaces, and there were pictures on the walls of the palaces. There were pictures of giant boats flying in the sky, pictures of great beings fighting each other, great beings without heads floating in the sky, and lots of beings groveling.

They seemed to be telling an ancient history. The energy seemed to be from an ancient civilization. The sculptures themselves contained lots of emotions, which even affected Luo Feng's mind.

"What a terrific civilization," said Sitting Mountain Guest.

"What a terrific great being," whispered Luo Feng.

"You can tell?" Sitting Mountain Guest looked to Luo Feng.

"I can't tell much. However, that boat on the picture is clearly Universe Boat. What kind of civilization was able to build a valuable like Universe Boat?" Luo Feng exclaimed, "The builder must be incredibly powerful!" He turned to Sitting Mountain Guest. "Teacher. Were great civilizations really born here in the past?"

"Perhaps," said Sitting Mountain Guest. "Even if they were, nobody knows which universe era this one belonged to. The two holy lands have existed for a very long time, and Universe Boat was already

broken when they came into being. We can only find some traits from some ruins. The skills I use to make true treasures, I got because of some special situations. I attained them with my comprehension. Like those seven true masters of Divine Eye clan, they went to some ancient places and studied them. Like the two holy lands... They had special fighting and training skills. One of the reasons is that they are led by the ancestors of the holy lands, and second, they've been to lots of ancient places."

"Holy lands," Luo Feng couldn't help saying. "Teacher, no one has met the ancestors from the two holy lands."

"This is a secret among the universe supreme masters." Sitting Mountain Guest looked at Luo Feng. "Don't think too much. Keep practicing! When you become a universe supreme master, you'll know many more mysteries, and you'll just be wasting your time overthinking if you haven't reached that."

"Okay." Luo Feng nodded.

"Go, let's go in." Sitting Mountain Guest walked in.

He walked along and entered the palace.

Luo Feng and Sitting Mountain Guest were walking side by side, and they were looking at all the ancient sculptures. There were all sorts of pictures. Pictures of beings cheering, pictures of battle and leaders roaring... All the pictures showed that it was an ancient civilization—a mysterious and powerful civilization.

"Emotions..." Luo Feng could feel the emotions in the sculptures. He even doubted that they were famous buildings that mimicked some ancient civilizations.

After some time, Luo Feng and Sitting Mountain Guest entered the center place.

Luo Feng noticed that Sitting Mountain Guest stopped.

"Teacher?"

Luo Feng looked to all the complex characters on the giant wall in the distance. The characters were ancient and mysterious. Even though Luo Feng wasn't able to recognize the characters on the wall, he was able to understand what they meant.

"A mistake! It's a huge mistake! It cost so much! Yet all I got is death! Deaths upon deaths! Haha! I have made a breakthrough, so what! It's death in the end!"

The characters on the wall contained anger and regret, which dazed both Luo Feng and Sitting Mountain Guest.

Chapter 1202: Devil Split

Unknown words on the stone walls gave rise to strong emotions that caused Luo Feng to feel as though he was under the impact of a crazy storm. Near his ears, there was a vague, low growl that sounded—as though an ancient, great being was roaring.

“Dying one after the other, dying one by one, no one can escape. No one can! I am filled with reluctance, so reluctant!”

Soon after, Luo Feng regained consciousness.

“These words contained an emotion so strong, and also, they contained his willpower.”

Luo Feng was speechless learning about this.

“An intimidating existence that was annihilated during a reincarnation era that no one knew when, leaving behind mere words; to be able to achieve this, how powerful he must be! Besides, these words and the words transmitted by the true treasure are the same. True treasures, one by one being born, yet no one knew who created them. The primal universe? Universe Ocean, or another... Now, from the looks of it, many true treasures that have been handed down may be related to a tyrannical civilization that had been annihilated.”

Luo Feng speculated to himself, then turned to look at his teacher beside him.

Sitting Mountain Guest looked on without a word. Given his power, he would not be influenced by the strong emotions exuded by those words, but the expression on his face was vaguely sad. It took a while before he slowly shook his head. Then, looking at Luo Feng, he said, “Luo Feng, the mysterious great being who left these words behind is stronger than me. Stronger than any other universe supreme master. I suppose even Teacher Origin of the human race may not be able to defeat this great being. Only the Original Ancestor of the Two Holy Land Universes might somehow be comparable. How strong he was, yet his end was so tragic...”

Sitting Mountain Guest shook his head and continued, “As of today, our Universe Ocean is active across the three reincarnation eras and two holy land universes. But thousands and millions of reincarnation eras later, who or which race and clan could survive? This is something we do not know.”

Luo Feng was momentarily taken aback.

That was quite true. They would not be able to live that long, so long as they could live through three more reincarnation eras; nowadays, for a large number of great beings, only those from the two holy places could survive through countless years. Besides, it would be too difficult to create another Holy Land Universe for them to live.

“Teacher.” Luo Feng’s gaze was sharp as a blade, and in a light but firm tone, he said, “We may only have a glimmer of hope, but at least the Two Holy Lands are still there. We can still see hope! No matter what, we have to give it our best shot! I have only lived for merely hundreds of thousands of years. That is far too short compared to one reincarnation era; being able to reach where I am today, what about millions and billions of years...? Or even much longer than that, I am certain I can reach higher grounds! If there is no path ahead, I will make my own path. Besides, this is not unprecedented. There were great beings who succeeded before.”

Sitting Mountain Guest looked at Luo Feng, then smiled as he nodded. “Haha! I may have been slightly influenced by those words. Being young is definitely different. You are so full of vigor. With such vigor, you will be different from old fellows who have lived through endless, long periods yet have not been

able to achieve any breakthroughs. Long periods have eroded their ardor. You should put your heart into this. Who knows? In the future, I might need to get help from you.”

“Get help from...?” Luo Feng’s heart skipped a beat.

“Let’s go,” Sitting Mountain Guest beckoned. “We should take a look to see what else this great being who lived here ages ago left behind.”

“All right.”

Luo Feng followed suit.

Luo Feng and Sitting Mountain Guest were both extraordinary beings. They toured around as streaks of light, and all they required was one sweeping glance of everything around them. Everything they scanned would be remembered well and taken to heart. And, naturally, their speeds would be extremely fast.

The entire island is incomparably quiet, thought Luo Feng. It is very different from the other places in Deep Abyss. There isn’t a single plant or a single valuable on this island. Just endless palaces...

Suddenly, ahead of him, Sitting Mountain Guest took a wide stride and—sou! He arrived faraway at the third palace within its palace hall.

“Luo Feng, come here.” Sitting Mountain Guest’s voice seemed a little agitated.

Luo Feng accelerated, and within an instant, he had arrived within the palace. In that massive palace, within its huge courtyard, there were several exquisitely adorned sculptures. In the same courtyard, there was also a gigantic stone wall meant for decorative purposes. It was around 1,000 meters tall and 2,000 meters wide. The entirety of it exuded an immeasurably strong aura.

“This is—” Luo Feng said.

He knew clearly at first glance that this stone wall contained countless diagrams of secret engravings. They were so small that they would have been measured on a nanometer scale and seemed to be embedded in the stone wall. It seemed to be their nest where they all finally converged to form a strange, huge, three-dimensional diagram of secret engravings

Hong!

An aura charged at Luo Feng’s consciousness.

The stone wall that was originally before them had undergone a complete change. Now, it seemed to contain another world that was filled with countless souls like life forms from the rock race, metal race, or even the flesh and the blood type. Billions of life forms were kneeling in a certain direction, worshipping as they chanted the same utterance in unison: “Devil split... Devil split...”

Devil split!

The intermittent sounds were like a tsunami.

“Luo Feng, wake up!”

The impact of a strong godly power caused Luo Feng to wake up in shock.

“Teacher—!”

Luo Feng turned to look at Teacher, feeling overwhelmed with shock. It was so terrifying. What technique was this? He had studied diagrams of secret engravings and had meticulously studied the diagram of secret engravings of miniature universe, but when comparing the diagram of secret engravings of a miniature universe to the stone wall before him—which contained a diagram of a vast and mysterious secret engraving—it was like comparing a single blazing flame to an entire star.

Luo Feng would have bet that the scene he had witnessed earlier had been caused by the diagram of secret engravings on that stone wall... Whatever being created that engraving, if the technique was really executed to unleash its true potential, it would be so powerful that billions of souls would submit to it. Or at least universe masters would not be able to resist it and would be enslaved to it in an instant.

“You are quite a gutsy one,” said Sitting Mountain Guest. “The moment you arrived, you went straight to look at the stone wall filled up by that diagram of secret engravings. The engravings on this stone wall were a legacy left by an ancient existence. They are profound beyond imagination. Even I am only able to understand a tiny bit of it.” Sitting Mountain Guest pointed to somewhere far off to one side and said, “I think you should take a look at this side first.”

Luo Feng looked in the direction his teacher was pointing. There was a wall in the courtyard. On the wall were some words. The meaning was apparent with just one look. These were the last words left behind by the same great being from earlier—the same one who had left the crazy words carrying such strong emotions.

“I’ve finally achieved a breakthrough, but death shall befall me soon.”

“How reluctant I am.”

“How regretful I am.”

“But it’s too late... Everything is too late. One by one, they all died. I attained a higher level of achievement and comprehended my greatest technique, but still, I was too late. This diagram of secret engravings represented lost knowledge, during my highest peak, highest peak...”

Brief as they might have been, these words seemed to convey thoughts that sounded more sad than angry.

Looking at the message left behind on the stone wall, Luo Feng suddenly realized that the incredible diagram of secret engraving that seemed to be embedded onto the wall actually represented that great being’s highest peak.

“This is not the first time I have made such a discovery.” Sitting Mountain Guest said. “In the three most dangerous lands, some core grounds have monuments that were left by super beings from countless reincarnation eras ago. The number of monuments that I have come across so far, including this time, is nine. Some of them are very useful while the others are completely useless.”

Luo Feng nodded. He had also obtained the relic of Jie Fanzi before, so he could understand what his Teacher meant. Universe supreme masters who could make it to the core ground of the three most dangerous lands would be able to discover various relics. This was nothing strange at all.

“This being merely wanted to prove himself.” Sitting Mountain Guest shook his head. “He had no intentions of passing down any inheritance, because if he had wanted to pass down any, even if there wasn’t detailed guidance, he would have left at least a dozen diagrams of secret engravings, from bottom to top, for the later generations to contemplate and study. Yet he only left behind an extremely powerful set of diagrams of secret engravings! Even I find it impossible to cultivate. Who else can achieve the cultivation of this? The Divine Eye Clan got lucky before, to discover a set of complete inherited monuments left behind by an ancient existence.”

Sitting Mountain Guest sighed. “Why can’t I have such good luck...? Luo Feng, I told you not to look at the stone wall. Why are you looking at it again?” Sitting Mountain Guest could not help nagging Luo Feng.

At this point in time, Luo Feng’s gaze was fixated on the stone wall. What he was observing was only one of the corners of the wall; it was not like before, where he was looking at the entire diagram. In that corner—which was probably only 1/10,000th of the whole diagram of secret engravings—he could see countless miniature diagrams of secret engravings constructed around one another, to the extent that they pierced into the stone wall. There was a strange kind of feeling. It was as though the universe was the fundamental particle and fundamental particles were reassembling to construct a soul.

Those miniature diagrams of secret engravings were all very exquisite. Luo Feng was completely mesmerized by the way they were constructed.

“Gold, wood, water, fire, earth, wind, thunder, lightning, electricity, and light rays? Time and space? Fusion Laws? What nonsense. None of these—this is something entirely different. It was more miraculous, more unpredictable...”

Luo Feng was completely taken aback.

Suddenly—

“Luo Feng, wake up!” Sitting Mountain Guest shouted.

Luo Feng turned to look at his teacher. “Teacher, this time, I am not influenced by the music. I am clear-minded and awake.”

“You have been looking at it for more than three days.” Sitting Mountain Guest shook his head out of helplessness. “Would I have been standing here all this time? This diagram of secret engraving is mystical and unpredictable, but it does not conform to my path in life.”

“Ah...! Three days?” Luo Feng was shocked; his entire mind and body had been immersed within for so long. Time really flew by quickly.

“Teacher, this diagram of secret engravings is extremely profound, I think even if I had billions of years, I would still be unable to fathom it thoroughly. However, from its most fundamental structure, I realized... the flow of diagrams of these secret engravings was like a mirror of my life, showing me that my

achievement in the studies of diagrams of secret engravings have been stagnant at the universe knight limit for far too long. I feel that this is my chance for a breakthrough.”

Sitting Mountain Guest laughed. “Haha! Yes, it may not be useful to me, but studying these diagrams has been a part of you for some time. The study of diagrams of secret engravings is required to continue observing more and more diagrams of secret engravings. The more you study, the higher the possibility of a breakthrough. You were here for three days, and so I have been looking at them for three days. I, too, have comprehended some of them. From within, I have comprehended five of these diagrams. You should come take a look!”

Hua!

Sitting Mountain Guest pointed to the towering wall in the neighboring courtyard, and on the stone wall, countless fine secret engravings suddenly appeared. One after another, large diagrams of secret engravings appeared—all of which were much more profound than the diagram of secret engraving of a miniature universe. They were the five major diagrams of secret engravings, and they were etched onto five different parts of the wall.

“These five major diagrams of secret engravings, from what I comprehended, all have 1/1,000th the power of that lost knowledge,” Sitting Mountain Guest said. “With this as a stepping stone, you will be able to gain an understanding of it faster.”

Luo Feng gazed at the five major diagrams of secret engravings and could not help but feel shocked. This was, indeed, an entity capable of making supreme true treasures. His capability was intimidatingly strong.

“Stop looking, it is time to head out.” Sitting Mountain Guest laughingly said, “This island is very quiet, and there isn’t much danger around. You only need to leave behind one body with your godly power to slowly build on your understanding. Do you know... in the outside world, there is a big commotion going on. I can already sense the great waves from outside, I think there might be a fight between universe supreme masters.”

“A fight between universe supreme masters?” Luo Feng was taken aback.

“Otherwise, I would not have woken you up.” Sitting Mountain Guest laughed. “Leave a body with your godly power here. It may be weaker, but there is no one to attack it, so it will be fine. You can leave it here to cultivate and gain comprehension at ease. Let’s go. We shall go and take a look. If we make it in time, maybe we can still see the battle in action. Tsk tsk... Who knows? The ones involved may possibly be Huge Axe Creator of your human race.”

Chapter 1203: Hand over the Valuables

Luo Feng couldn’t stay calm anymore knowing that it might be Huge Axe Creator fighting outside.

“Teacher, let’s go,” said Luo Feng.

He looked around. He saw a trace of indistinct godly power flying out of his godly body, and it was condensed into a human shape. It was an avatar.

Universe knights were already able to use avatars easily. Yet it was very difficult for undying fighters to use it, as they had weak godly power. If they couldn't separate enough godly power, they couldn't even maintain the consciousness. If they separated 50 percent of their godly bodies, the godly bodies separated would be very weak, so it was uncommon for undying fighters to separate their godly power.

However, it was much easier for universe knights to perform it. When the original stars had first opened, lots of universe knights from the Hong Alliance left avatars.

"Okay!"

"Let's go now." Sitting Mountain Guest didn't hesitate.

After only a few seconds, a towering cyan mountain started to float, and it flew to the high point. Then Sitting Mountain Guest performed that giant engraving picture, which triggered the mysterious space, and it was transported out.

Only a lake, an island, and an avatar were left in the mysterious space.

The cyan mountain showed up again from the ice.

Sou!

The cyan mountain immediately flew away, and it disregarded any dangers.

"Compared to other places in the abyss, the mysterious space is a fantasy land of peace," Luo Feng complimented it. "There's no danger, and it's really peaceful. No wonder that supreme being lived there. The ways to get in and get out are extraordinary. I've seen teacher performing it, but I still can't learn it."

"You'll learn it when you become a universe supreme master." Sitting Mountain Guest looked to Luo Feng. "Oh, right—you had better put your avatar there. Don't dissipate your avatar. I don't have time to send you in there again."

"I understand." Luo Feng was smiling.

He might be able to fight some universe masters with his accomplishment on the engraving path! However, he was still too weak compared to universe supreme masters and great beings even more terrifying than universe supreme masters. Now that he had the chance to study the supreme techniques of that great being, he wouldn't waste it.

"Just an avatar. He can just live there forever." Luo Feng's eyes gleamed. "I need to study it no matter what. My techniques depend on it."

Shua! Shua! Shua!

The mountain kept getting faster and faster, and it was already 100 times faster than light speed.

"Wow." Luo Feng noticed the speed of the mountain. "Teacher, you're getting too fast, and it's already over the law operation. Some universe supreme masters might notice it."

Sitting Mountain Guest was sitting there and poured some grape wine for himself. “What else should we do? Fly there slowly? The fight will be finished before you can arrive.”

“But...”

Luo Feng had no answer. It might take them several days to get there.

Several days? The fights between great beings were very short, even for universe supreme masters. Half an hour was already a long time—unless they were pursuing one another! Chasing fights could last for tens of thousands of years, yet all-out combat often ended in no time. If they were slow, they wouldn’t be able to make it, but if they were fast, they would be discovered.

“It doesn’t matter if we’re found,” said Sitting Mountain Guest, taking the wine cup. “Come, this wine is great. It was given by a friend from the second universe era after I made a true treasure for them. Try it.”

Luo Feng laughed. He wouldn’t worry about anything if his teacher didn’t.

“The wine was created after you gave him a true treasure? I need to try it.” Luo Feng walked up.

Sitting Mountain sped up to 1,000 times faster than light speed, 10,000 times faster than light speed, 100,000 times faster than light speed...

Luo Feng only sipped twice.

Hong!

The trembling intimidated Luo Feng.

“We’re here.” Sitting Mountain Guest stood up. He waved his right hand, and everywhere around him turned transparent. The mountain didn’t block anything anymore.

Luo Feng looked out, and he could see the glowing outside. The wind was already gone, and the lava stopped. In front of the fight between universe supreme masters, the energies carried in Universe Boat were apparently weak. The ripples made Luo Feng tremble.

“I can only feel the vibration after arriving here, yet teacher senses it in that mysterious space.” Luo Feng now knew that how weak he was compared to universe supreme masters.

He stopped thinking. He wanted to figure out whether Huge Axe Creator was there or not.

“Yi?” Sitting Mountain Guest was surprised. “One side had the third true master and the sixth true master from Divine Eye clan, and the other side... It’s Brilliant Gold.”

“Brilliant Gold?”

Luo Feng had heard of him before. Brilliant Gold, a universe supreme master, was called “Brilliant Gold Devil God,” also known as “Brilliant Gold Devil Child.” He was a great being from one of the seven pinnacle races of the second universe era, the Dream-eclipsing clan. His life form changed under some special circumstances; he turned in the shape of a child that looked like being sculpted by gold. He had

13 arms, and he had 13 bodies! The Dream-eclipsing clan only had one universe supreme master, yet the Dream-eclipsing clan was still a pinnacle race from the second universe era with the power of Brilliant Gold Devil Child.

“It’s Brilliant Gold?” Luo Feng relieved. “Good, it’s not Huge Axe.”

He was afraid that Huge Axe might get hurt if he fought the Divine Eye clan because of him.

Luo Feng looked to them. In the distance, space and time were twisted, and countless meteors flew across the sky. At the center was a giant strange beast that looked like an octopus! It had 13 antennae, the strange beast appeared to be made of weapons. The 13 antennae annihilated everything.

Hong! Hong! Hong!

Countless meteors hit that strange beast. The 13 antennae were splashing all the meteors. There were two beams of light, both a million kilometers long, and the two beams stabbed the strange beast time and time again.

“Brilliant Gold Devil God,” Luo Feng murmured. “The third true master and the sixth true master.”

They were all renowned beings with famous true treasures.

Brilliant Gold Devil God was performing Brilliant Gold Beast, which was only second to supreme true treasures and could rival Crazy Demon Extermination Godly Armor! However, it was obvious that the power was much stronger under Brilliant Gold Devil God.

The third true master was named Star True Master, and he was performing endless meteors. It was a domain type supreme true treasure! It was named Star Kingdom.

The sixth true master was named Green Eye True Master, and the two green lights he used were soul type supreme true treasures! It was named Green Eye Light.

“Teacher, this Brilliant Gold Devil God isn’t using a supreme true treasure, yet he’s able to resist the third and the sixth true master,” said Luo Feng.

“No.” Sitting Mountain Guest shook his head and smiled. “First of all, Brilliant Gold only seems to be performing only Brilliant Gold Beast, yet there’s a palace type supreme true treasure in his body! Which Brilliant Gold is able to resist easily. Third true master and sixth true master didn’t use all their power either. Star True Master is only using a domain type true treasure. Sixth true master is the one doing the attacks. Besides, you should know that the third true master has two supreme true treasures.”

Luo Feng nodded.

Right. Both Brilliant Gold Devil God and the sixth true master had one supreme true treasure each! Yet the third true master had two supreme true treasures! This astounded Luo Feng. In the original universe, some universe supreme masters didn’t even have supreme true treasures. However, those universe supreme masters from the first universe era and the second universe era had a higher chance to have supreme true treasures.

“They both know that Brilliant Gold Devil God has a palace type supreme true treasure, so they know that they won’t be able to injure him no matter what they do, which is why they’re not using all their

power,” Sitting Mountain Guest explained. “Brilliant Gold Devil God just doesn’t want to be hit like that, so he uses Brilliant Gold Beast to resist it... What is strange is that those two true masters know they can’t kill Brilliant Gold Devil God. Why haven’t they given up yet? They might be transmitting their voices. Let me see.”

Hong!

A blurry, black light permeated from the cyan mountain, and it hit the battlefield.

“Sitting Mountain Guest! Are you trying to interfere?” said an angry voice, and Luo Feng was able to sense it under the guidance of Sitting Mountain Guest.

“Are you going to join, Sitting Mountain Guest?” said another voice.

“Sixth true master, I’m just curious,” said Sitting Mountain Guest. “Why are you attacking Brilliant Gold when you know that Brilliant Gold has a palace type supreme true treasure. Why aren’t you giving up?” Sitting Mountain laughed. “I’m not going to join, as I don’t like to fight. It’s okay for me to watch. You still haven’t answered my question.”

“Humph! This Brilliant Gold has Extermination Godly Armor and the silver wing. How can we let him go if he doesn’t hand us the valuables?”

“That’s right. We can’t kill him, but two more true masters from Divine Eye clan are on their way. Even if he has a supreme palace type true treasure, we can seal him!”

“Green Eye, Star!” said a high voice. “You guys are being preposterous! Extermination Godly Armor and the silver wing are in the abyss, and I said I have them because you guys disturbed me for blocking my way and asking me questions without any manners. However, I don’t have that Extermination Godly Armor, and neither do I have the silver wing! What else can I do to make you believe it?”

“Do you really think we’ll believe in you?” the sixth true master yelled.

“Just because I’m here, I have the true treasures?” said the high voice. “Sitting Mountain Guest is there. Perhaps he has them.”

“Do you really believe I have them?” said Sitting Mountain Guest.

Chapter 1204: Huge Axe, the Fight among Supreme Masters

“Sitting Mountain Guest, you’re a top master to make true masters even in Universe Ocean. Why do you need those silver wings and Extermination Godly Armor? You can make them yourself.” The third true master sounded relaxed and casual. “Besides, you’re a lone supreme master. Why would you even want this? Instead, Brilliant Golden is carrying an entire race, and it’s highly likely that he did it.”

Sitting Mountain Guest smiled.

However, Brilliant Golden Devil God was furious.

“I’ve told you I didn’t, but neither of you believes me!” The voice got higher. “I won’t try to persuade you if you don’t. Do you really think I’m scared of you? Do you really think I’ll be scared of the Divine Eye

clan? Just come and seal me! Haha! Just come. Everyone knows how impressive it is when all you seven true masters cooperate with each other, and I do believe you have the skills to seal me. However, you can only seal me until the end of this universe era!”

“After this era, you’ll all die.”

“However, I’ll be reborn safely! As for my race, they’ll all be living in my small universe, and they’ll all be safe.” Brilliant Golden Devil Master obviously looked mad. Universe supreme masters were extremely proud, and there was no way that they wouldn’t be furious as they were bullied like this.

“It doesn’t matter how you’re trying to get away,” said the sixth true master coldly.

Suddenly, all the stars started to hit Brilliant Golden Beast! With the two green lights, Brilliant Golden Devil God needed to try his best to get out of the abyss. If he was attacked by Star Kingdom, he wouldn’t be able to make it.

They kept fighting each other.

“Teacher, Brilliant Gold didn’t seize the valuable, yet the Divine Eye clan...” Luo Feng frowned.

“Humph.” Sitting Mountain Guest snorted. “Do you really think the Divine Eye clan came here for the true treasures? They’re not even supreme true treasures. Do you really think they mean that much to the clan? They’re just using the valuables as an excuse not to let Brilliant Gold run away! And their real purpose is to fight Brilliant Gold to show their majesty!”

A phrase came into Luo Feng’s mind. “Kill the chicken to scare the monkeys?”

“Those from the first universe era are facing the ultimate death,” said Sitting Mountain Guest. “Do you really think the Divine Eye clan will just let themselves die like that, given their power? They’ll definitely struggle, and this is only the start of it.”

Luo Feng kept thinking.

Struggling?

“Are we going to wait here, teacher?” Luo Feng was hesitant. “They might fight for a long time. The other two true masters might arrive, and there will be four true masters.”

“Wait, of course,” said Sitting Mountain Guest. “We need to wait. How can we miss something like this?”

Luo Feng was afraid that the four true masters might attack Sitting Mountain Guest. However, Sitting Mountain Guest was very wise, so he was able to predict as much. Luo Feng stopped talking.

In the ninth abyss.

“Such strong ripples.”

The towering gigantic axe was moving forward swiftly. Huge Axe Creator had sensed the ripple a long time ago, yet he avoided being found. He was approaching at a speed 100 times faster than light.

“It must be universe supreme masters fighting each other.”

Although he was not afraid of fighting them, he didn't want to dash there recklessly.

Time flew. The two true masters were encircling Brilliant Golden Devil God while Sitting Mountain Guest stood aside and watched the fight.

“Who's there? Come out!” A voice came from the third true master, Star True Master.

The voice was rumbling and spreading everywhere, and it was passed to Sitting Mountain Guest and Luo Feng through the domain performed by Sitting Mountain Guest.

He looked out and smiled. “Another great being has come. Interesting, interesting.”

Hua!

The force made the stars bounce away, and a towering axe flew in. “Star True Master, you're indeed impressive. I heard that the first true master is the most powerful true master in the Divine Eye clan, and you are the second strongest one and the best in domain. This is the first time we have met, yet you can notice me. Impressive, indeed.”

“Huge Axe!” yelled the sixth true master.

“Huge Axe?” The third true master sounded cold. “Glad you came.”

“Hahaha! Huge Axe is here, too.” Brilliant Gold Devil God grinned.

Sitting Mountain Guest smiled also. “Interesting, interesting.”

Five universe supreme masters were here, and the other four looked happy that Huge Axe was here, yet Luo Feng was anxious.

“Why is Huge Axe Creator here? Is it because of me? Those two true masters are incredibly powerful, and they are fighting with each other. That Brilliant Gold has a palace type supreme true treasure. Huge Axe Creator won't be able to hold for long.”

Luo Feng was quite worried. Huge Axe was the true pillar of the human race! The only true pillar! Teacher Origin was suppressed forever and couldn't get out. Luo Feng would never forgive himself if something bad happened to Huge Axe.

The third true master and the sixth true master were indeed very happy. They were about to attack Brilliant Golden Devil God, yet Brilliant Golden Devil God wasn't easy to deal with; he had that “Black-Stoned Godly Palace.” Even though they saw Sitting Mountain Guest, he was more difficult to deal with, which was why they said directly that Sitting Mountain Guest didn't need the true treasures. They needed to pick those who were weak to deal with, and to them, Huge Axe Creator was easier to deal with, as they thought he didn't have a supreme true treasure.

“Hahaha! Huge Axe!” The voice of the third true master traveled through the space and time. “The two true treasures fall into the ninth abyss, and only you humans, we of the Divine Eye clan, and the Purple

Moon Holy Land know about it! I should have guessed that you, Huge Axe, have the two valuables! We hadn't found you, so we thought it was Brilliant Gold Devil God."

"I don't have them," said Huge Axe Creator.

"Do you really think we'll just believe you?" said the third true master. "You, humans from the original universe, dare to go against us, the Divine Eye clan. You humans deserve to die for seizing the valuables—and for that Luo Feng killing Five Chaos!"

The eyes of Huge Axe Creator glinted coldly. "Deserve to die?"

"If you die, the humans from the original universe will die out also!" said the third true master coldly. "I'll kill you, and then we'll see who will dare come up against us, the Divine Eye clan, in the future."

Luo Feng—seated in Sitting Mountain—was furious. Five Chaos had tried to kill him first, but he couldn't return the favor? Besides, that Divine Eye clan wanted to show their power and used the seemingly weak humans to do so.

Luo Feng turned to Sitting Mountain Guest and said, "Teacher, teacher, Huge Axe Creator is the only pillar of our human race. He can't die. Please, teacher, help him."

Sitting Mountain Guest shook his head. "I only care about you. As for the humans? That's none of my business."

Luo Feng was dazed.

"Just watch," said Sitting Mountain Guest. "It's not easy for universe supreme masters to die."

The two true masters were encircling Brilliant Golden Devil God, yet they tried to kill Huge Axe Creator.

"Haha, you tried to seal me before, yet you want to kill Huge Axe. Haha..." Brilliant Golden Devil God's voice was filled with contempt. "Do you really think you can do it with me here? Huge Axe, let's fight with each other and teach this Divine Eye clan a lesson... We'll let them know it's not easy to deal with universe supreme masters."

"Sure." Huge Axe Creator was holding a huge, black axe, and the black light covered his body, forming armor.

Dong! Dong! Dong!

The sounds resounded loud enough to shake one's heart. All the stars stopped moving.

A blurry, glowing figure appeared. He had a smile on his face and looked merciful. All the stars stopped, and at this moment, the man with an indistinct smile looked like the only true god in space and time.

"An idea ignites, and the eternal kingdom!"

Peng!

A star cracked, and it turned into a strange beast with four hoofs and one horn.

Peng!

Another star cracked, and it turned into a strange beast with two heads.

Peng! Peng! Peng!

All the stars cracked, and billions of strange beasts showed up. They all groveled toward that blurry man and made hoarse voices. The suppression completely condensed the space.

Luo Feng was able to feel that pressure in the green mountain, and he recalled what he had seen in the mysterious space—the supreme technique “Devil Swish,” where trillions of lives groveled. The scene in front of him looked like that, although it was elementary.

“The Divine Eye clan received the complete ancient inheritance before, so the fighting method they used was the fighting method of that great civilization,” said Sitting Mountain Guest. “It looked like the one you saw before. No wonder the third true master is the second strongest true master! This technique is impressive enough. That suppression will largely slow Brilliant Gold down so that he can’t cooperate with Huge Axe.”

“Ah! Ah! Ah—!”

Brilliant Gold was struggling. He tried to fly, but he was extremely slow. He yelled, “Huge Axe, the suppression is too terrific! That might be the ancient inheritance the Divine Eye clan got. Be careful.”

Huge Axe held the black godly axe. “Okay,” he said.

However, that floating, blurry figure was chuckling. “Huge Axe, this is the second time I have used all my strength. The last time was when seven true masters cooperate to kill Kong Luo from the second universe era. Without a supreme true treasure, you will be dead!”

One couldn’t identify a supreme true treasure if it wasn’t performed.

“Green Eye True Master!” said the blurry figure. “Attack!”

“Good,” said the sixth true master.

The blurry figure smiled and whispered, “Eternal kingdom, divided are billions of star beasts, and eternal true god when combined!”

Strange musical sounds penetrated people’s souls, and the two green lights glowed. It came from the supreme true treasure belonging to Green Eye True Master. Complex engravings showed up on the two green lights, and billions of lights shot from the strange beast transformed out of the stars.

“True god! True god! True god!” Billions of strange beasts roared, and they went toward that godly light.

Billions of stars formed the strange beast. The green godly light was the soul. The ancient technique was the center...

They formed a strange, towering beast with nine giant heads, 36 pairs of wings, 108 pairs of hoofs, and nine tails. The operation law went away under that space, and the force from the strange beast was stronger than all the universe supreme masters.

Silent!

It was silent!

Brilliant Golden Devil God stopped struggling, while Huge Axe Creator gazed at that towering beast. Luo Feng was a bit anxious, and Sitting Mountain Guest looked surprised.

“Eternal True God.” The third true master pointed at Huge Axe Creator. “Kill him.”

Chapter 1205: Huge Axe Creator’s Axe

The nine large heads of Eternal True God, be they hideous, ice-cold, roaring, menacing or growling... Every single pair of eyes was looking up at the surrounding void space in all random directions. Whatever the eyes rested on, time and space in the universe would be completely frozen. Even the power of a universe supreme master was unable to cause the frozen space to break apart.

Peng! Peng! Peng!

Eternal True God walked about the void space. Every step he took made the entire void space tremble with loud bangs. The sound made by 108 pairs of clawed hooves trampling on void space was entirely synchronized. There was total silence. Not a single universe supreme master made a move. Even Huge Axe Creator, who was holding his Godly Axe, was waiting silently.

Sixth True Master transmitted his voice over to Third True Master. “Huge Axe is merely a kid from the third reincarnation era. His stint as a universe supreme master is still quite short. If the two of us join hands, we are bound to annihilate him.”

Third True Master jested as he watched on. “He doesn’t even have a single supreme true treasure, it is certainly quite possible to annihilate him within one strike.”

In all of history, the times when universe supreme masters who had faced annihilation because of fighting and killing were extremely few. Yet Third True Master and Sixth True Master saw the possibility of killing Huge Axe.

Peng! Peng! Peng!

Eternal God Master had such a large godly body that it might seem as though he was trampling on the void space slowly. In actuality, his speed had already exceeded 100 times the speed of light, and the universe laws no longer had any influence over him. Very quickly, and most majestically, he appeared before Huge Axe Creator.

“Ya!” With a piercing yelp that could impact a soul, Eternal True God erupted instantly, baring its sharp fangs and hooking its clawed hooves. It charged at Huge Axe Creator recklessly, claws digging into the earth.

Pa!

Wherever he passed, the frozen space would immediately crack and break apart, threatening to charge over to envelop Huge Axe Creator.

Peng!

Following a crisp bang, Huge Axe Creator was sent flying backward with both hands still holding his Godly Axe.

“You are able to ward off my attacks. You must have some skill after all.” From afar, that hazy and light-radiating shadow of Third True Master watched and smiled. Then he commented, “But luck only comes this once. The next time, you shall...”

“Truly worthy to be a member of the Divine Eye clan!”

Huge Axe Creator finally came to a halt, sent flying quite a distance away. Under his messy hair was a pair of eyes filled with battle rage. He laughed out loud and said, “Formidable. This beast true god has such a strong soul attack. I decided not to consult any background information this once, so I have given this beast true god a chance to gain the upper hand. However, being at the winning position... just this once.”

His voice so coarse yet straightforward, and it shocked everyone.

“Third True Master and Sixth True Master are going to join forces, and he is not intimidated?” said Sitting Mountain Guest in shock, watching the battle from afar.

Luo Feng relaxed a little, though. If he could make such remarks, it seemed that Huge Axe Creator was not in danger.

However, Third True Master and Sixth True Master were furious.

“What arrogance!” Sixth True Master shouted furiously. “So, starting from now, you are going to suppress us?”

The shadow figure that was emitting hazy light let out a cold laugh. “I, Star True Master, have roamed the length of Universe Ocean. Those who dared to show me such insolence were few! Furthermore, Sixth True Master and I are joining forces against you. You actually say you want to suppress us both... Haha...! A joke! What a joke!”

Eternal True God’s nine heads let out angry roars of their own, and once again charged toward Huge Axe Creator to surround him.

For afar, the wild giant with his messy hair let out a loud, rumbling roar, “Twelfth!”

Hua!

The Godly Axe was raised.

Suddenly, in the space surrounding the wild giant, many huge axe shadows emerged. Every one of them was as wide as a trillion kilometers—as though they were as big as a world! There was a total of 12 huge

axe shadows, dispersed in all directions, and beneath these 12 shadows, every spot that had been suppressed started to break open with loud cracking sounds.

At that moment, the 12 huge axe shadows each spanned a trillion kilometers. In the vast space above, Huge Axe Creator, who was standing with his Godly Axe raised, seemed as though he was the core of the universe! And with a wave of his right arm, he made a powerful slash at the space before him. Godly Axe was wielded!

At that moment, 12 huge axe shadows speedily gathered and fused with the Godly Axe, which in turn emitted an immeasurably dazzling black ray.

Eternal True God's clawed hooves trampled forward, too.

Hong!

The entire space trembled. Huge Axe Creator took a step back to regain stability, but Eternal True Master's 108 pairs of clawed hooves retreated with three continuous steps.

Total silence.

Even Brilliant Gold Devil God and Sitting Mountain Guest were shocked. Third True Master and Sixth True Master were in total disbelief.

"Your Godly Axe is a supreme true treasure! A supreme true treasure!" Sixth True Master suddenly let out a furious roar. "You actually have a supreme true treasure!"

Huge Axe Creator stood in space with his hair in disarray, yet his face harbored a look of absolute dominance. "Just got it not too long ago," he said. "You are the guinea pigs for my new axe. Your Eternal True God may be formidable, but compared to my axe... it has a long way to go."

Instead, that hazy shadow of Third True Master said slowly, "You have your supreme true treasure, but by right, you should not be able to suppress Eternal True God. Eternal True God is the combined power of Sixth True Master's and mine; it was created according to the combined power of two supreme true treasures, added to the comprehension of ancient inheritance to finally create this technique. How could you possibly gain the upper hand...? The accomplishment of your axe is impressive. Impressive... You are a worthy opponent for Sixth True Master and I to put in our best."

"Your best? Oh, you mean that was not your full force?" said Huge Axe Creator. "Come on. I have yet to show my full power, too!" Huge Axe Creator laughed, and his laughter shook the entire void space.

"Jade eyes," Third True Master commanded. "Release."

"All right, we shall let this Huge Axe have a taste of our power!" said Sixth True Master.

Sixth True Master was in a total rage. This was now a battle of pride. If their combined power still failed to suppress a single Huge Axe Creator, and they were still trampled by him... they would be considered nothing but a great joke.

At that moment—

That gigantic Eternal True God started to emit hazy, jade-green rays. Countless jade rays started to gather into diagrams of secret engravings. The entirety of Eternal True God started to transform, and two streams of purple light emerged to speedily fly into Eternal True God's body.

Eternal True God was transforming rapidly.

Luo Feng was watching from afar. When he saw the two streams of purple light emerging, he was momentarily shocked. "It's Star Hand."

Third True Master was also known as Star True Master. He had two supreme true treasures. One was Star Kingdom, the other was Star Hand. Of course, what the original names of these two supreme true treasures were, the outside world did not know... Star Kingdom and Star Hand were what Third True Master called them, so they were spread out to the masses as such.

"Third True Master's two supreme true treasures and Sixth True Master's supreme true treasures are all being used," said Sitting Mountain Guest. "Seems like they are really going all out!"

Sitting Mountain Guest put his wine-glass down. Now the battle had his undivided attention.

Star True Master grew another pair of hind clawed hooves that were extremely thick and huge. It could stand upright all by itself! The originally dense, numerous clawed hooves fused and gathered to transform into only 18 sharp claws. The nine heads now had a pair of sharp claws each, as though there was a combined body of nine great fierce gods.

Roar! Roar!

Nine heads of Eternal True God let out crazy roars. Their 18 arms were unbelievably sharp and wore a layer of purple armor.

"Three great supreme true treasures!"

"With us both joining forces, along with the combination of our secret techniques, I don't believe you cannot be subdued!" Third True Master's voice was icy cold.

Far away, Huge Axe Creator saw Eternal True Master's was getting more intimidating as time passed. All he shouted was, "13th!"

Then he raised his Godly Axe.

Hua!

In the endless space, a 13th huge axe appeared. Every huge axe shadow was like a world of its own, but this one was so massive that it could reach out to where Third True Master, Sixth True Master, and Sitting Mountain Guest were... But this shadow seemed to be in another dimension.

With a wave, the Godly Axe made a move and hacked!

In the face of the purple fists, claws, and palms bombarding him... Huge Axe Creator welcomed them all!

Peng!

An instantaneous exchange of blows got Huge Axe Creator to make a hasty retreat, Eternal True God was apparently gaining the upper hand. This made Third True Master and Sixth True Master ease up instantly.

“Impressive. Now take a look at my 14th huge axe!” Huge Axe Creator raised his Godly Axe right away.

“What, there is a 14th?”

“How is that possible...?”

Third True Master and Sixth True Master were a little caught by surprise.

When the 14th huge axe shadow appeared, it was as though a puzzle was being put together. The pieces came together, as though covering space, causing the endless space to fall into pitch darkness!

No light at all. It was pitch black!

Following closely, a loud bang was heard. Then everything in space resumed normalcy. At that moment, Eternal True God was tossing and turning backward into the distance.

Huge Axe Creator, with his hair as messy as ever, said in his deafening voice, “My 14th axe cannot even destroy Eternal True God. My 15th Axe... has just been created. Let Eternal True God try to take it on then!”

Huge Axe Creator’s command sounded: “15th!”

The endless space darkened again, but within the next instant, amidst the endless darkness... a huge axe shadow glowing with light rays appeared. The strange thing was, this huge axe shadow made every great being present—even the weakest one, Luo Feng—feel as though they were in another world.

“He... He had made it there...” Sitting Mountain Guest jumped up from where he was seated on his green mountain peak. His eyes were filled with shock. “Teacher Origin, Huge Axe... Human... The potential of the human race is truly...”

Even Luo Feng was shaken to the core. The huge axe shadow that was glowing in that endless darkness was so magical. It was as though they were all in another world. Luo Feng was deeply shaken by this strange feeling; he even felt that this huge axe might be able to exterminate an entire universe! Of course, Luo Feng was aware that this was only a misconception, but this misplaced feeling was simply overpowering.

“He...” Brilliant Gold Devil God was too shocked to react as well.

Soundlessly! With one axe!

Everything resumed normalcy in that endless space, but Eternal True God was completely shattered and collapsed apart, thereafter transforming into countless stars, two streams of jade-green light, and a pair of purple arm guards.

“He—he actually separated the three supreme treasures,” said Sixth True Master, stunned beyond reaction.

“Being able to dismantle Eternal True God... He—he... Huge Axe... Could it be that Huge Axe was also a Teacher Origin?” Third True Master speculated with shudders in his heart.

He had exchanged blows with Teacher Origin before, and back then, he was utterly defeated and fled in fear. Before Teacher Origin, there was a feeling of powerlessness. At this moment, the same feeling was creeping up on him. Back then, when Teacher Origin was eternally suppressed by the primal universe, many universe supreme masters had secretly rejoiced.

The other universe supreme masters had all fallen into a state of great shock. Everyone was going through complex emotions, with many thoughts rising in their minds. Only Luo Feng, who—although he was equally shocked and emotional—said to himself, “I have never seen Huge Axe Creator in action. I did not expect Huge Axe Creator to be so powerful. This is a great blessing for the human race!”

Chapter 1206: Bowing in Submission

“I have always lacked a suitable supreme true treasure, always lacking one!” Huge Axe Creator stood amidst the void space, grasping his godly axe as he looked into the distance. “As I don’t have a supreme true treasure with me, I have always maintained a low profile, worried that if I stood out too much because of my outstanding ability, I would bring disaster to my human race. Teacher Origin bestowed me with great kindness and chose eternal suppression in the hope that I would lead our human race well. Third True Master, Sixth True Master, do the both of you know... what angers me the most?”

Huge Axe Creator’s eyes were ablaze as two rays of light, which seemed to materialize into blades, slashed across the length of the sky. With an angry roar, he voiced his rage. “The answer is: you wanting to destroy my human race!”

“Destroy the race! Exterminate all!” he shouted. “Just you, Divine Eye clan—so arrogant that you think you can destroy my human race? When Teacher Origin was around, did you all dare make a single utterance? Today, I shall let you all know! The consequence of trying to destroy my human race!” Huge Axe Creator’s voice bellowed. His hand was already grasping his godly axe. With a roar, he shouted, “The fifteenth!”

Third True Master and Sixth True Master were angry yet shocked. They could not be bothered with anything else. Right away, they took off, escaping for dear life.

“Leave quickly!”

“Go!”

But with one strike of his axe...

Vast darkness befell, as though there was a huge axe shadow glowing with a dazzling light within the void space. Then the shadow merged with the godly axe, and soundlessly, it slashed at Third True Master and Sixth True Master.

Hong! Hua!

Numerous stars clustered in the way were sent scattered all over the place.

“Hurry! The stars! Stop him quickly.” Sixth True Master was panicking and flustered.

Third True Master, on the other hand, shouted angrily, “His attacks can dissemble Eternal True God, which is a combination of three supreme true treasures. How can my domain type supreme true treasure alone be enough to entrap him? It will not even be enough to slow him down. Quick! We should quickly escape for now. Discussion later!”

“There is no escape for you!”

A huge axe came flying through the air at high speed. It was hot on their heels.

Its speed was continuously soaring, from 1,000 times the of light speed to 10,000 times of light speed... The rate at which its speed was soaring was extremely fast, and the shadow that was encircling the flying axe indulged itself in sweeping up everything in its way, causing the numerous stars that had become meteors upon being attacked to be smashed and scattered instantly. Such an imposing domain type true treasure was simply not strong enough to restrain Huge Axe Creator.

“Hurry, hurry, hurry!”

A palace flew toward them at high speed. It was merely a pinnacle true treasure, but what Huge Axe Creator used to carve his way forward was a supreme true treasure godly axe; when coupled with his own power, which was very strong to begin with, how much faster could his speed get?

“He is closing in on us.”

“Not good.”

Traveling at more than 10,000 times light speed, Huge Axe Creator caught up in the blink of an eye.

“Hiding inside your palace? Then I shall seal it up.”

Huge Axe Creator stretched out his right hand, which suddenly expanded to a huge palm as extensive as one million kilometers. Every finger on that huge palm had an axe-head shadow encircling it, causing the surroundings to fall into a blanket of strange darkness.

“Let’s split up!”

“Hiding within the palace, there is no way we can put up any resistance. Even Eternal True God cannot ward off his attacks. This pinnacle true treasure palace... Once caught, we will be stuck in here with no power to resist. Then, I fear, we will be thrown into his suppressing type palace and be subjected to his suppression.”

“Blue Eye, you are not powerful enough. Not his match! Hurry and enter my palace!”

“Coming!”

If the opponent had a suppressing type treasure and was someone much more powerful, it was simply pointless to withdraw into passive defense.

Hua! Hua!

That palace vanished into thin air.

A man showered in purple light stood amidst the void space. He wore a suit of purple armor and was looking at Huge Axe Creator. Angrily, he shouted, "Huge Axe, we have already decided to escape. Why are you still giving chase so relentlessly? If it was just Sixth True Master before you, there is indeed the risk of annihilation. But my stars... Even if they are not as powerful as yours, they are in no danger of annihilation."

Huge Axe Creator did not beat about the bush. "Hand over the three pinnacle palace type true treasures of this level, and all enmity between your Divine Eye Clan and my human race will be put to an end! Otherwise... my axe technique will have one less competent opponent to train and hone itself against for further improvement."

Third True Master's terrible expression was visible even though he was wearing his purple armor, and he kept quiet for a long while.

"All right then! Divine Eye clan shall pay you due respect and give you three true treasures," Third True Master decided. "One pinnacle domain type true treasure, one pinnacle palace type true treasure, and one pinnacle soul illusion type true treasure."

Xiu! Xiu! Xiu!

Three streams of light flew toward Huge Axe Creator. With arms outstretched, Huge Axe Creator grabbed hold of the three true treasures and took a look before putting them away.

Sou!

Third True Master quickly transformed into light and departed at the fastest speed possible.

From afar, there was Brilliant Gold Devil God; within the cyan stone peak, there was Sitting Mountain Guest and Luo Feng, all of whom were a little startled.

The formidable Divine Eye clan always carried an imposing air of vigor. No one could have expected Huge Axe Creator to be so powerful to the extent of forcing two true masters of the formidable Divine Eye clan to bow in submission and hand over three pinnacle superior true treasures.

A child-like voice, crisp and clear, was transmitted from Brilliant Gold Devil God. "Congratulations, Huge Axe! Humans from the primal universe are indeed impressive. Teacher Origin was impressive. Huge Axe, you are also very impressive. Haha! Now, with a supreme true treasure in hand, Huge Axe, you have become so powerful."

"Haha... Brilliant Gold, please keep this news to yourself for now," Huge Axe Creator said from afar.

"Do not spread the news? Tsk tsk... Divine Eye clan has suffered a great loss. If news is not leaked out, I'm afraid they will not proactively spread the news. I think they can't wait for the other groups of powers to also suffer the same loss. Huge Axe, how cunning of you. All right, I will make sure that the news does not spread from me." Brilliant Gold Devil God laughed in his clear and crisp voice.

Huge Axe Creator turned his head in another direction and said to another faraway figure, "Sitting Mountain Guest, please do not spread this news either."

“Of course not,” Sitting Mountain Guest transmitted his reply.

Huge Axe Creator made small nods and then his figure blurred as he transformed into a huge axe and scraped through the sky with his speedy departure.

Brilliant Gold Devil God bade Sitting Mountain Guest farewell and took his leave, too. Then the cyan stone peak also flew toward the exit of Deep Abyss.

Within the deep abyss, the cyan stone peak was advancing at high speed.

“Teacher.” Luo Feng was still running high on emotions, and also, he had many unresolved doubts. First, he poured Sitting Mountain Guest some wine, then asked, “Huge Axe Creator of our human race is quite impressive. So impressive that he could kill other universe supreme masters?”

“Haha... of course he can!” Sitting Mountain Guest replied from where he was seated. With his wine glass in his hand, he smiled. “Way back then, Teacher Origin dominated Universe Ocean. Throughout the three reincarnation eras and two holy land universes, no one dared provoke him. Upon seeing him from afar, the other universe supreme masters would take off right away! From how you see it, if it was just him gaining the upper hand, would it be enough to make the other universe supreme beings behave like that?”

Realization dawned upon Luo Feng. Yes, if there was nothing life-threatening, Teacher Origin would not be so fearsome as to instill such fear in the other universe supreme beings.

“Huge Axe’s power may still be a little lacking compared to Teacher Origin’s power back then, but it is already very close.” Sitting Mountain Guest sighed.

Luo Feng continued persistently asking questions. “Can Huge Axe Creator kill Third True Master?”

“No, he can’t,” Sitting Mountain Guest answered directly. “Third True Master has two supreme true treasures that he takes everywhere he goes. His ability is ranked second out of the seven true masters. Huge Axe may be able to suppress and deal Third True Master with heavy blows... but he cannot kill him! Sixth True Master, on the other hand, is weaker with only one soul attack type supreme true treasure. If he is confronted by Huge Axe, there is a possibility he might be killed.”

“Since he cannot be killed, why would Third True Master bow in submission?” Luo Feng continued to ask.

“Haha...” Sitting Mountain Guest laughed out loud. “Of course he has to; Huge Axe has been hiding his true power and has yet to show an actual outburst. His normal power is already so potent that the outburst this time around will likely spark a series of outbursts as he starts to fight against other great beings. Previously, there wasn’t any other great being of such a high level to fight against him to allow him to hone and steel himself, yet he was already this powerful. Once he starts to fight against other universe supreme masters, his skills will definitely be pushed toward further improvement. He just needs to advance one more step... Then he will be another Teacher Origin! If that is the case, then now, Third True Master is right in bowing to submission earlier—so that he will not be putting himself at a disadvantage later.”

Another realization dawned upon Luo Feng.

True. He had never executed that kind of axe technique before, yet he had achieved such a high level of cultivation. Once he started actual battles to hone this skill of his, the possibility of progression to the next level was high.

“If that is the case, why did he only ask for three pinnacle superior true treasures?” Luo Feng was confused. “This is nothing to the Divine Eye clan at all.”

“Haha. How do you perceive the Divine Eye clan?” Sitting Mountain Guest shook his head. “That is a very powerful group from the first reincarnation era! Comparable to the two holy land universes! Even Third True Master was able to resist Huge Axe, albeit with much difficulty... If his opponent were First True Master, then even if Huge Axe improved his ability and power, the most he could achieve would be suppression of First True Master. Previously, when First True Master was in a confrontation with Teacher Origin, he was able to survive all of Teacher Origin’s attacks. If the seven true masters all joined forces, that would be even more terrifying.

“Humph! Furthermore, the Divine Eye Clan is nearing its doomsday. The seven true masters will surely feel an insane amount of pressure... If you really come to face a member of the Divine Eye Clan, even the power of one will be intimidating enough. How is it possible for the human race to fight and win against the Divine Eye Clan? I’m afraid other universe masters do not even dare to enter Universe Ocean anymore.

“This is a way of ending the bad blood once and for all. It is a way of gaining some benefits without making the Divine Eye Clan feel the pinch. The Divine Eye Clan does not dare to provoke Huge Axe! On the other hand, for the future of our human race, Huge Axe is unwilling to declare war on the Divine Eye Clan... That explains why we have come to this stage.”

Luo Feng nodded slightly.

True. Huge Axe of the human race was indeed impressive, but the other universe masters were weak. If there was war declared upon the human race, for their own safety, they would be highly resistant when expected to enter Universe Ocean. And if they did not dare to enter Universe Ocean to roam and seek opportunities to hone their skills, it would become very difficult for the human race to cultivate the birth of a third universe supreme master.

“Among the universe supreme masters, the difference in ability can be so vast.” Luo Feng sighed.

Sitting Mountain Guest voiced his speculation. “In fact, it is just Teacher Origin, who is a more perversely unique individual; from how I see it, Huge Axe likely received Teacher Origin’s guidance, which is why he can be so strong. Otherwise, solely based on their own ability to comprehend, it would be quite impossible for both to be so formidable.”

“Teacher Origin?” Luo Feng nodded.

Although Teacher Origin was eternally suppressed, he continued to maintain contact with the human race; however, he might be in contact with a handful of humans like Huge Axe and Primal Chaos City Leader.

The cyan stone peak entered the region that was crazily swallowing everything in the surroundings. Luo Feng had been sucked in here by that gravitational force which was so strong—even much stronger than Huge Axe's attacks. Now that he wanted to fly out from inside, he had to move in the opposite direction of that gravitational force.

Hua! Hua!

The cyan stone peak was revolving, and it created many arcs as it moved. It gradually inched its way forward and out of the deep abyss by moving in a circular motion.

"To go out, you have to resist part of the gravitational force, but you also have to borrow part of it," Sitting Mountain Guest instructed. "You have to tap the strength of gravity to get out. If not, even a universe supreme master would not be able to get out! This is the only way out. It will be a slow journey. I'm afraid it will take at least a few months, so within these few months, I shall help you in completing the restoration of your Crazy Demon Extermination Godly Armor. Thereafter, you can continue on your way. Do what you need to do."

"Yes, Teacher," Luo Feng replied reverently.

After leaving this place, his next destination would, of course, be the space of the black-striped stone pillars, where he could hone his willpower. Besides, he had gained Five Chaos's black token, so it was all the more urgent that he should head there!

Chapter 1207: Secret Engravings and Techniques

The power of the black hole of the Deep Abyss was endless.

The green mountain peak hovered in circles, then gradually advanced out. It was a bit like a sailboat borrowing the strength of reverse currents to propel itself forward in its intended direction, but billions of times more mysterious. After all, this gravitational force was much too strong even for a universe supreme master. No one would dare openly put up a resistance.

"Teacher is restoring Crazy Demon Extermination Godly Armor." Luo Feng stood at the apex of the mountain peak and looked down at the vast land below. "And part of his consciousness is controlling this mountain peak..."

Loneliness... Luo Feng sat alone, feeling lonely as various thoughts came to his mind.

Earlier, when he was watching the Huge Axe Creator's battle, all he could feel was the adrenaline rush as his excitement level got exceptionally high. Now that he had calmed down, he started to feel the distance between himself and a universe supreme master.

"In the primal universe, a universe supreme master is held down by extremely great suppression. In Universe Ocean, a universe supreme master is still under a certain amount of suppression. If there is no suppression at all, the distance between universe masters and universe supreme masters would be even greater."

Luo Feng was aware that the suppression was completely over the top. In the primal universe, if there were no fights against the universe masters, then universe supreme masters would also be able to

ensure that their orders, once given, were strictly enforced; they would also be more powerful than anything else under the sun. Even the universe origin laws would have to show due respect to them.

Yet the moment a fight happened with universe masters, everything would change!

The universe origin laws no longer drew back! On the contrary, they would exert stronger suppression, therefore making it impossible for universe supreme masters to ensure that their orders were strictly enforced. Universe masters were able to control time and space with regards to controlling domains, but universe supreme masters were in no way superior in this sense. Of course, the killing of Yuan Ao Master was carried out according to the wishes of the universe origin, which was why no universe supreme master had to undergo any suppression.

The force of godly power unleashed could be equivalent to the godly power of a universe master with a perfect life gene level. This was only a small aspect. There was also the limit on the strongest power—an upper limit restriction! This was an ultimate limit value laid down by the universe origin laws; the powers that universe supreme masters released could not exceed this restriction. Once exceeded, they would have to undergo suppression, just like how Virtual-Real Devil Master was previously bound by chains of the laws.

The ability to ensure that their orders, once given, were strictly enforced, would disappear! The ability to release their godly powers would be restricted! Even the strongest outburst of capability had an upper limit to adhere to!

And after killing a universe master, a universe supreme master had to be severely punished. His godly body would be badly injured!

There were so many forms of suppression against universe supreme masters, which was why, in the primal universe, universe masters showed negligible fear for universe supreme masters! Universe masters who were slightly more powerful than their peers would show no fear of universe supreme masters at all.

Meanwhile, in Universe Ocean, things were not the same.

In Universe Ocean, there were many miniature universes, as well as the primal universe, scattered all about. The primal universe was massive, so the willpower of the primal universe origin remained the strongest. Even laws revolving around the vast Universe Ocean would be under its influence. Other regions of the Universe Ocean were considered external, so the power that the primal universe origin could exert over them was much weaker. Thus, the limits were also much weaker.

There were only two heavy restrictions. Firstly, when universe supreme masters fought with universe masters, revolving laws no longer drew back! Universe supreme masters would not be able to be certain that their orders would be strictly enforced!

Secondly, the strength of godly power would also be suppressed at the level of the perfect gene level of a universe master.

There were only two restrictions. By relying on their true treasures and secret techniques to determine how much power they wanted to unleash was up to the universe supreme masters to decide. There was no upper limit restriction at all. Upon killing a universe master, there would be no punishment either.

Comparatively, the restrictions of Universe Ocean were less stringent and fewer than that of the primal universe, which was why, overall... universe supreme masters were all fearful and wary of the primal universe origin.

Luo Feng sat on the apex of the mountain peak, pondering the various relationships between universe supreme masters, the willpower of the primal universe, himself, and many others.

A voice was transmitted. "Luo Feng."

"Teacher." Luo Feng turned back and saw Sitting Mountain Guest. He immediately stood up. "Teacher, aren't you restoring Crazy Demon Extermination Godly Armor?"

"I'm done restoring it," Sitting Mountain Guest said with a wave.

A suit of black armor flew toward Luo Feng right away. Luo Feng was shocked and looked at Sitting Mountain Guest inquiringly.

"It..." said Luo Feng. "It has not even been two days."

"A mere restoration process. How much effort do you think I will need?" Sitting Mountain Guest studied Luo Feng's expression. "I saw you sitting over there, what's on your mind?"

"I was thinking about the willpower of the primal universe origin!" Luo Feng replied. "Universe supreme masters! Universe masters, and... me."

Sitting Mountain Guest was taken aback upon hearing Luo Feng's reply. He remained silent.

After a long moment of silence, Sitting Mountain Guest sighed. His voice was filled with complex emotions as he continued. "Primal Universe origin. For one who has not become a universe supreme master, you will still be a child of the primal universe. It will take care of you. Once you become a universe supreme master... the miniature universe starts to break away from the primal universe to survive in Universe Ocean. That universe supreme master will then become a public enemy that everyone started to target.

"Suppression, suppression, always have been suppressed," Sitting Mountain Guest lamented.

"Reincarnation, reincarnation... During every reincarnation era, there will be the process of the primal universe being impregnated, giving birth, then destroying every single living being. Teacher Origin of the human race is indeed impressive. He could actually..."

"Actually what?" asked Luo Feng, unable to contain his curiosity.

Sitting Mountain Guest shook his head. "Stop asking. I thought you were able to enter the virtual universe anytime you wanted. If you are strong enough to get the attention of Teacher Origin, you will be able to converse with him formally. Then perhaps, he may tell you why he did whatever he did back then. I was also making some guesses here, which may not be accurate."

Luo Feng was eager for information. Teacher Origin had dared to challenge the primal universe origin back then. If he had actually dared to, there must have been a goal he wanted to achieve. A goal that

might be over the top. But even Primal Chaos City Leader Teacher had not mentioned this to him. Why would Teacher Origin defy the primal universe origin?

Sitting Mountain Guest laughed and looked at Luo Feng. “Don’t think too much. It is too far out of your reach. You should think more for yourself. That will be more than enough! When you become a universe master... with Star Tower, you can ignore the difference in level between you and a universe supreme master.”

Luo Feng shook his head. “Even if I become a universe master, in terms of secret techniques, I am still very far away from the level of a universe supreme master.”

He had seen Virtual-Real Devil Master and Teacher Origin fight, but that had been in the primal universe, so the force wasn’t that strong. But this time, the exchange of blows between Third True Master, Sixth True Master, and Huge Axe Creator really showed him how huge a difference in level he was from universe supreme masters.

“You are wrong.” Sitting Mountain Guest shook his head.

“Huh?” Luo Feng looked at Teacher.

“Universe masters cannot create such powerful secret techniques, but the secret engravings on Star Tower represent a level of secret technique that is extremely high.” Sitting Mountain Guest laughed. “This is the precious part of a supreme true treasure. For instance, the first form of Star Tower, back when you have merely activated the first form, unleashing the power of Star Tower was insignificant. But when you activated the second form... that second level of secret engravings was a standard that miraculously matched the strongest secret technique of a universe master. You may not be able to create, but when merely activating, the difficulty level is reduced. The third level of secret engravings is comparable to the means of a universe supreme master. The fourth level of secret engravings is a grade of secret technique that only a top-notch being among all the universe supreme masters could create.”

Luo Feng nodded repeatedly. Right. Merely activating the secret engravings, compared to secret techniques of the same power, was certainly less demanding... Yet the power was, surprisingly, just as strong. Or, with a supreme true treasure as a medium, the power unleashed might be even stronger and more forceful.

“In Universe Ocean, there is a strength determination method,” Sitting Mountain Guest said. “Beginner-level universe masters’ life genes can only multiply in the hundreds, so they may not be able to create secret techniques. This is the ‘first level’ of universe masters. Ordinary level universe masters’ life genes multiply in the thousands. They can create ultimate secret techniques. This is the ‘second level.’ Above these, there are the ‘third level,’ the ‘fourth level,’ and—like Star River Master from the primal universe, your Teacher Primal Chaos City Leader, and the Five Chaos Master, who you dragged to his death—the ‘fifth level.’”

“A universe master who owns a supreme true treasure will be on the sixth level! That is also the highest level that a universe master can reach,” Sitting Mountain Guest said amidst laughter. “Why would owning a supreme true treasure make one a grade higher than Primal Chaos City Leader and Five Chaos Master? That’s because the secret engravings of a supreme true treasure represented a higher level of capability.”

Luo Feng listened intently. The six levels of categorizing universe masters... This was the first time he'd heard of them.

"A universe master at the sixth level is comparable to a universe supreme master without a supreme true treasure," Sitting Mountain Guest said with a laugh. "Of course, for someone like Huge Axe Creator, even without a supreme true treasure, he can still be stronger than any sixth-level universe master. But I suspect that the 15th axe Huge Axe executed—the one that he said he had just created—my guess is that when he got that godly axe and observed the secret engravings etched on it. After comprehension, the activated secret engravings on that godly axe were the ones that unleashed that extremely powerful axe."

Getting out of the Deep Abyss took close to three months' time.

Sitting Mountain Guest also provided Luo Feng with guidance, especially on how to carefully comprehend Crazy Demon Extermination Godly Armor. Luo Feng then realized that Five Chaos Master's Five Beasts Great Extermination was actually a move adapted from the third level secret engravings of Crazy Demon Extermination Godly Armor.

"It's like how the simple yet intelligent locals are able to learn how to use stones and rods as weapons," said Sitting Mountain Guest. "The difference in intelligence is, therefore, dependent on how one knows how to utilize weapons. Universe masters, universe supreme masters... Their weapons are true treasures! Learning how to use these treasures to the extent of creating secret techniques, based on the secret engravings of the true treasures, is how some renowned figures become widely known across the universe. They all have treasures that identify them. Like you: Although you named yourself Milky Way Horde Leader, the outside world calls you Silver Wings Horde Leader."

Luo Feng was aware of that as well.

He started to comprehend the secret engravings on Star Tower, Crazy Demon Extermination Godly Armor, and Shi Wu Wings. Then he tried to create a suitable ultimate technique.

As for his body was sustained by his godly power in that secret, hidden space, it was comprehending the diagram of secret engravings of the ultimate lost knowledge left behind by the ancient existence that was more powerful than Teacher Origin and Huge Axe Creator. And also, comprehending the six major diagrams of secret engravings that Sitting Mountain Guest had left behind. All the diagrams were mutually supportive of one another, enabling Luo Feng's rate of progress to set sail on an accelerated track.

He was able to comprehend all the other types like the defense-type secret engravings on Crazy Demon Extermination Godly Armor at an alarming rate. For the triple levels of attack-type secret engravings on the golden right arm, he was able to comprehend two levels speedily. He vaguely understood a great part of the third level, but it took him more time, comparatively, to finally understand it.

"The triple levels of secret engravings on Crazy Demon Extermination Godly Armor's golden right arm is nothing compared to those of Star Tower, yet they are still able to match the power of a strongest ultimate technique created by a universe master. Once you are able to drive this, I think your achievement in the studies of diagrams of secret engravings will more or less reach the level of a

universe master. All right, we are now out of the Deep Abyss. I will leave from here, and don't ever let such a thing happen again."

Luo Feng bowed and replied with much gratitude, "Yes, Teacher."

Thereafter, from within the endless Frozen Lake Fire, a green mountain peak and a crimson palace (Star Tower had transformed its look with the use of Blood Cloud Pearl) departed and flew off in two different directions.

Chapter 1208: Cracking Gold and Silver Wing

The fight in the abyss was momentous. However, the Divine Eye clan didn't spread the news that they had suffered in the fight, so the powers in Universe Ocean didn't know that another being close to Teacher Origin had been born! As for where the silver wing true treasure and Extermination Godly Armor, it was a mystery.

Did a universe supreme master get the true treasures and hide them? It would be a total waste.

Luo Feng didn't hear about the fighting records of Huge Axe Creator after that, which made sense, as only valuables or feuds would lead to fights.

In the abyss, in the mysterious space.

Luo Feng, wearing casual clothing, was walking on the island. He looked laid-back, yet his consciousness was studying the six pictures left by Sitting Mountain Guest. Sitting Mountain Guest only observed them for several days, yet the six pictures were already very complicated. That meant Luo Feng would be able to comprehend more if he became a universe supreme master.

"It's an opportunity of a lifetime."

"I have to comprehend them carefully so that I can accomplish more on the engraving picture path," whispered Luo Feng. "The better I am on the engraving picture path, the easier it will be for me to do law comprehension."

When he could reach the level of a universe master on the engraving picture path, he would be able to comprehend the law hundreds of times faster.

Time flew.

While the avatar of his godly body was practicing, Luo Feng was traveling through one dangerous place after another in Universe Boat and approaching the destination.

300 years passed.

In the first miniature universe of the Divine Eye clan, clouds floated through the breezy air. Five Chaos Master was on the second level of the godly palace, and he was sitting in front of the railing, looking at the endless ground.

“Five Chaos, Five Chaos.”

A shadow flew in from the distance and stopped.

Five Chaos Master smiled. “It’s An Yong.”

An Yong Master’s avatar stopped. There were seven miniature universes that belonged to the Divine Eye clan, and the universe masters from the Divine Eye clan were scattered throughout the seven universes. However, all those universe masters had their avatars in other small universes, so they were able to communicate with each other easily.

There was a feud between An Yong Master and Luo Feng, yet Five Chaos Master hated Luo Feng even more!

Before, An Yong and Five Chaos had been friends, as they were from the same race. They grew closer now.

“Why do you look so hurried?” asked Five Chaos Master.

“I received some news about Luo Feng,” said An Yong Master.

“Oh?”

The eyes of Five Chaos Master gleamed. Since he had died because of Luo Feng, he had treated Luo Feng as his true competitor. However, he hadn’t heard anything about Luo Feng after that... Even though he had contact with some powers in the original universe, Luo Feng had maintained a very low profile. Which was why Five Chaos had been suppressing a strong urge.

“I thought he wouldn’t dare to enter Universe Ocean without that silver wing. Where is he now?” asked Five Chaos Master.

“He’s in the Universe Boat!” said An Yong Master.

“What? Universe Boat?” Five Chaos Master was startled. “He dared to go to the Universe Boat?”

“Not only does he dare to go to Universe Boat, but he’s in the inner area of Universe Boat, and...” said An Yong Master. “He went into the deeper area of the inner area. After what happened between you and him, he’s been in Universe Boat all that time. He’s been adventuring through Universe Boat. However, he’s been using another identity.”

“Another identity?” Five Chaos Master was more confused.

“Cracking Gold Master!” said An Yong Master.

“What? That is him?” Five Chaos opened his eyes wide. “It’s—it’s him? That Luo Feng has another identity, and he’s been adventuring in Universe Boat? But how did he get so strong?”

Cracking Gold Master was a universe master who had made himself famous for a fight for true treasures in Universe Boat 300 years prior. No one had seen Cracking God Master since, yet his power was proven, as he dared to get into the inner area of Universe Boat. After that, Cracking Gold Master said that his name was Cracking Gold, and thus, his name had spread.

In the next 300 years, Cracking Gold Master had participated in two fights for treasures, both of which were not serious, yet his power was proven to be at level four.

“Five Chaos, he’s in Wave of Stars Ocean!” said An Yong Master. “Wave of Stars Ocean is as dangerous as God-Destroying Valley, and it’s larger. There are several places where true treasures are often seen, so there are several powers. A top-tier domain type true treasure emerged there, which led to a fight, and Cracking Gold Master interfered. It was a horrifying fight. Zi Ya Master from our universe era lost his original body... Cracking Gold Master showed his true power and got the true treasure. There are many great beings in Wave of Stars Ocean. A universe master who saw Luo Feng, ‘Xue Cang Master’ from the second universe era, yelled, ‘You’re Silver Wing Horde Leader!’ And that’s how other great beings know that Cracking Gold Master is Silver Wing Horde Leader!”

An Yong Master shook his head. He was not happy that his enemy was so renowned now.

It was unsurprising that Luo Feng was able to hide his identity. After all, great beings were able to easily alter the way they looked. As for one’s aura, it could only be remembered when it was seen by someone. Or the virtual universe could simulate that aura. But apparently, other powers didn’t have the virtual universe. As for other universe eras, even though they had virtual worlds, they couldn’t simulate the aura of universe masters and universe supreme masters. It was exceedingly difficult.

“He’s so powerful now.” Five Chaos Master frowned. “He got my original body killed when he first entered Universe Ocean, and I sensed that he’d be my mortal enemy. I can’t believe he’s at the fourth level now after such a short time.”

“What should we do?” An Yong Master looked to Five Chaos Master.

An Yong Master wasn’t afraid. He had multiple bodies, so it was difficult for him to die. However, An Yong Master was worried about Luo Feng’s power... He couldn’t believe Luo Feng was able to show such great close-combat power after such a short time.

“Let’s go,” said Five Chaos Master. “Let’s go to Universe Boat!”

“However, he’s in Wave of Stars Ocean!” said An Yong Master. “Wave of Stars Ocean is deep in the inner area... It’ll take a long time to get to Wave of Stars Ocean from the outer area. Luo Feng might be in a different place after that...”

“It’ll be more difficult later!” said Five Chaos Master. “I’ll go now. How about you?”

“Okay, I’ll come with you.” An Yong Master nodded.

“Okay.” Five Chaos Master nodded.

Five Chaos didn’t mind taking An Yong. For one thing, An Yong had multiple bodies, and he also had an enormous body so he had great surviving power, both of which made him a great helper. At least An Yong Master was better at surviving and stalling enemies than Ultimate Arrow Master.

“Humph... Luo Feng!” The eyes of Five Chaos Master glinted fiercely.

“He will die if we catch him.” An Yong Master clenched his teeth.

Facing the ultimate death, the universe masters from the first universe era could only depend on universe supreme masters. They weren’t able to get through it themselves, which was why they were crazier.

Time kept flying, and it wouldn’t stop because of anyone.

In the vast Universe Ocean, countless lives were born and died in the original universe and miniature universes. A short while for great beings might be a lifelong period for other lives.

Even though Five Chaos Master and An Yong Master went to look for Luo Feng, they were too far from him. And they didn’t know where Luo Feng would go in the future, so it would be very difficult for them to find him... Even if they could, it would be a long time later. However, it was nothing to Five Chaos Master, who had lived for almost three universe eras.

The 620th year of Luo Feng entering Universe Boat. In the virtual universe, in the palace at the apex of Thunder Island.

“Black-striped Stone Pillar!” said Primal Chaos City Leader in surprise. “You’re going to that Heavenly Pillar to sharpen your willpower? There are lots of other places for you do that, and they’re closer to you. Why would you choose that?”

“Yes.” Luo Feng nodded. “There are indeed lots of places for me to do that. However, the closer it is to Celestial Magic Pillar, the faster time will pass, and then I can save more time! 10,000 years in the area beside Celestial Magic Pillar is only one year outside. I will have enough time to sharpen my will and comprehend laws at the same time.”

“I can’t understand your decisions now!” Primal Chaos City Leader exclaimed. “However, I can’t understand your improvements, either. Now that you’re arriving at Celestial Magic Pillar, I won’t say anything more.”

Primal Chaos City Leader was indeed amazed. This disciple of his had gained his fame after the fight in Wave of Stars Ocean, and the human race was thrilled—including Primal Chaos City Leader. They thought that Luo Feng lost the silver wing and had kept a low profile, yet they didn’t expect him to be more powerful.

Primal Chaos City Leader and Huge Axe Creator were most amazed as they knew that Luo Feng hadn’t become a universe master yet.

He was at the top-tier level even before becoming a universe master? This was insane! Primal Chaos City Leader and Huge Axe Creator fought Luo Feng in the virtual universe, and they realized that even though Luo Feng’s godly power was only as strong as a universe master—with a life gene level of 100 times—his techniques were powerful!

The technique Luo Feng simulated in the virtual universe using Crazy Demon Extermination Godly Armor was already a merged supreme technique! Not even Primal Chaos City Leader or Five Chaos Master had stronger techniques.

But after that, Luo Feng claimed that he was following the engraving picture path!

Even though he was only a universe knight, he had created supreme techniques of universe masters! And he was able to drive the third-level technique of that true treasure.

“I’ve been comprehending the six engraving pictures in the past several hundred years, especially after the fight in Wave of Stars Ocean. I reached the universe master level on the engraving picture path and created a universe master-level supreme technique, ‘Cracking Gold,’ and I’m able to drive the third level of Crazy Demon Extermination Godly Armor. Although my godly power is relatively weaker, I’m at the top-tier fourth level universe master. If I can become a universe master and get some godly power, I’ll be at a top-tier fifth level universe master, and I’ll be able to rival teacher Primal Chaos City Leader.”

Chapter 1209: Swallow Hawk Master

Among the top-tier great beings, the difference in godly powers was highly insignificant. They were more particular about which true treasures were suitable for them and which secret techniques were more powerful!

Except for Luo Feng. In terms of true treasures and secret techniques, he did not lose out to these top-tier universe masters, but he was one notch weaker in terms of godly power. Therefore the power he could unleash dropped by one level.

“I know you have your own plans, having just lost your wings true treasure yet gaining another valuable armor that is secondary only to a supreme true treasure. You are merely a universe knight, but when it comes to studying diagrams of secret engravings, you have achieved the level of a universe master.” Primal Chaos City Leader laughed while shaking his head. Then he entrusted Luo Feng with instruction. “I will not stand in your way, but you must maintain your vigilance at all times. If you meet with dangers you are unable to handle alone, inform me or inform Huge Axe.”

“Understood.” Luo Feng nodded.

To Huge Axe and Primal Chaos City Leader, he was indeed a unique individual. Treasures emerging in an endless stream? Powers improving mysteriously?

Primal Chaos City Leader looked at Luo Feng, with a trace of hope in his eyes. “Given the rate at which you are improving now, to truly become a universe master, you just need to hone your skills a little bit more. Then you will be my equivalent.”

Since Luo Feng’s outburst in the Wave of Stars Ocean battle hundreds of years before—the battle that shocked him and Huge Axe—Primal Chaos City Leader had personally approached Luo Feng for a friendly exchange of skills, as well as to have a proper conversation. Thereafter, Huge Axe had brought Luo Feng to see Teacher Origin, who had also had a discussion with Luo Feng. Teacher Origin might have been kept under suppression for eternity, but he was still able to execute Virtual Universe, a powerful secret

technique, so naturally, he would be able to interact and communicate with Primal Chaos City Leader and Huge Axe...

The results of that conversation led Teacher Origin and Huge Axe to determine that... before the rise of Luo Feng, Primal Chaos City Leader had been the next promising individual hopeful of becoming a universe supreme master. Following in his stead would be Darkness Master and Peng Gong Master.

But now, the possible order of promising candidates for universe supreme master might have changed to Primal Chaos City Leader, Luo Feng, Peng Gong Master, followed by Darkness Master!

The two great life forms, Teacher Origin and Huge Axe, were highly in favor of Luo Feng.

Since then... this would naturally make Primal Chaos City Leader pay more attention to this disciple. If both Teacher and disciple became universe supreme masters, they would become a highly talked about celebrity pair in Universe Ocean. Furthermore, Teacher Origin was Primal Chaos City Leader's teacher, and Primal Chaos City Leader was Luo Feng's teacher. Wouldn't that be three generations of universe supreme masters coming from the same branch? Think of how greatly Primal Chaos City Leader would look forward to seeing this happen.

With high hopes, Primal Chaos City Leader said with a smile, "Besides, given your comprehension of the universe revolution, when you have become a universe master, you will not have to wait long before you try to become a universe supreme master. But with regards to this, I have no suggestions. After all, the path of every universe supreme master is different. Even I am still searching for mine."

Luo Feng was truly awe-inspired.

Yes. It would not be difficult for him to become a universe master because he was leading in terms of achievements of secret techniques, and his path of law comprehension was smooth-sailing. In addition, he had already comprehended the Heart of Beast God, so in the future, succeeding at the beast god path would be a breeze! However, if he wanted to become a universe supreme master, that would be much more difficult... because every universe supreme master had to follow a different path.

Studies of diagrams of secret engravings, studies of beast gods and such—all had predecessors. Therefore, he had to give up on all these. So long as there were predecessors, he had to abandon those paths. That said, his path would become very narrow.

"Haha, too far away." Primal Chaos City Leader finished with a laugh. "You still have quite a long way to go. I think it is better for you to put your heart into cultivating to become a universe master for now."

"Understood." Luo Feng replied.

"If there is trouble or danger, remember to tell me or tell Huge Axe! Now, you not only belong to your Earth branch or to yourself; you also belong to us—the human race!" Primal Chaos City Leader jokingly added, "Go ahead, I am not worried about you going over to the black-striped stone pillar. That is the territory of the three old fellows."

"Yes, I understand. I will take my leave now."

Luo Feng retreated immediately, his figure disappearing into the shadows.

The space of the black-striped stone pillars was one of the few major domains within the Universe Boat that was free of danger. Dangers due to great beings fighting one another were not counted, as places with great beings would always be grounds for resentment and feuds. The entire space was supported by 16 black-striped stone pillars that were all 1,000 light years tall; other than the frozen space near the black-striped stone pillars that disallowed teleportation, there would be no trouble teleporting within the other regions in that entire space.

And...

The black-striped stone pillars were natural monuments! These 13, 1,000-light-year stone pillars all have extremely profound black secret engravings etched onto them. The level of their secret engravings was very high... and they contained resentments and feuds that even universe supreme masters could not comprehend. However, it was just like the powerful lost knowledge of that ancient being that Luo Feng found in that hidden secret space. If there were no step-by-step instructions to follow and no gradual increase in difficulty level to aid in comprehending those secret engravings, then the diagrams of black secret engravings found all over those stone pillars would be incomprehensible!

Every black-striped stone pillar was extremely powerful—more powerful than any supreme true treasure. Its length of 1,000 light years made this apparent. Up until now, there was no great being who could touch a black-striped stone pillar with their bare hands; the closer one got to a black-striped stone pillar, the more terrifying the impact it had on one's willpower. Even a universe supreme master was unable to stand before a black-striped stone pillar.

Regardless, this was a natural, ancient monument that was easily found. The level of secret engravings was extraordinarily high and distributed all over the 1,000-light-year stone pillar, and there were as many as 16 such pillars. Naturally, it would attract hibernating old fellows to entrench themselves here.

There was safety, an allowance for teleportation, fast time velocity, and monuments around... Various factors made this a good resting and cultivation place for great beings who were tired from roaming the depths of Universe Boat.

There was fog spreading out, and there seemed no end to it.

In his silver armor, Luo Feng teleported twice over short distances. The fog was thinning, as the space of the black-striped stone pillars was from a highest to a lowest point, where the boundary of the surroundings was filled with thick fog. But the surroundings of the middle area where the 16 black-striped stone pillars were dispersed at random did not hold a trace of fog.

There was another saying: The boundary between areas that allowed and disallowed teleportation was where fog would be so thin that it might seem negligible.

Xiu!

A stream of silver, rainbowlike light flashed across the void space.

“Haha! After traveling for the past 620 years, I finally arrived at this space of the black-striped stone pillars.” Luo Feng had transformed himself in a stream of rainbow light and was full of smiles, happy and carefree. “However, my two teachers, Sitting Mountain Guest and Primal Chaos City Leader, were right.

Battles are indeed the best when it comes to honing skills. Since I entered Universe Boat, I have been wandering about, gaining experiences from a large number of dangerous lands, getting involved in several life-and-death battles, and I finally achieved a breakthrough in my battle at the Wave of Stars Ocean.”

Although he was not a universe master, when it came to studying diagrams of secret engravings, he had an achievement at the level of a universe master! After his battle in the Wave of Stars Ocean, he had spent time creating a series of strongest secret techniques of universe masters. This was comparable to the strongest secret technique of a miniature universe and was an attack secret technique. Most importantly, it was something he created himself and was evidence of his capability.

Earlier on, when he advanced with the identity of Cracking Gold Master, he had created this set of strongest secret techniques and named it after his identity: “Cracking Gold”.

Cracking Gold was a secret technique he created with his own hands. However, his strongest move was the triple levels of secret engravings on the right arm of Crazy Demon Extermination Godly Armor. He had specially named it Extermination God.

“Huh?” Luo Feng turned his head to look off into the distance.

Although he was transformed into a stream of silver, rainbowlike light while flying at high speed, he was also unleashing Snow Fire Sector. Snow Fire Sector was one of the true treasures he had obtained during his current venture in Universe Boat. It was a top-tier domain type true treasure! It was the cause of that battle in Wave of the Stars Ocean, where several great beings fought one another to vie for its ownership.

“I have actually run into someone from the Hong Alliance.” Luo Feng laughed.

“Milky Way Horde Leader!”

A stream of deep green rainbowlike light flew over. It was quite fast, but Luo Feng could still clearly make out the face of the other party with his naked eye. It was Swallow Hawk Master, a universe master of a different race from the Hong Alliance. Swallow Hawk Master held a relatively high position within the Hong Alliance because he was extremely powerful, and he belonged to the same level as Ice Mountain Master. Usually, he would be roaming the internal domain of the three most dangerous lands with various means that he carried along with him. He was remarkably skilled at keeping himself alive, and also, it was extremely difficult to provoke him.

“I heard that Milky Way Horde Leader has gotten a new domain true treasure that enshrouds you with endless blue flames. The moment I discovered a sight like this from the domain I was previously in, I suspected that it was you, Milky Way Horde Leader, so I rushed over here. With one look, I have proven to myself that I was right. Haha! Fancy running into a fellow member from our Hong Alliance in the internal domain of Universe Boat. What a delight!”

Deep green all over, the bird-being stretched and spread out its wings. The top of its head sported golden feathers, and it communicated with the direct use of the human common language via voice transmission. Within the Hong Alliance, it used more of the human common language for conversations.

“Being able to meet Swallow Hawk Master, this is indeed something delightful,” Luo Feng exclaimed with joy.

“I heard about what happened to you, Milky Way Horde Leader,” said Swallow Hawk Master. “The other bodies of Ultimate Arrow Master and Five Chaos Master were annihilated, one after the other. Later, you moved about as Cracking Gold Master... All this while, you have been continually pushing yourself for improvement. I’m afraid I am no longer your match.”

Luo Feng smiled. What the other party was saying was true. Besides, this was a super great practically licking his boots. Of course, he found it pleasurable.

“Swallow Hawk Master, you are too modest!” Luo Feng laughed.

“May I ask, why has Milky Way horde leader come to this space of the black-striped stone pillars?”

Swallow Hawk Master was beside Luo Feng, and the two transformed into streams of rainbowlike lights. Using their godly powers as a medium, they conversed with one another.

“I am here to borrow the strength of the black-striped stone pillars to sharpen and hone my willpower,” Luo Feng replied right away.

“Oh?” Swallow Hawk Master was surprised. “Sharpen and hone your willpower? From the three reincarnation eras of Universe Ocean and Two Holy Land universes, not many have specially chosen this place to sharpen and hone their willpower. Most of them are here just for a temporary break, or to comprehend the secret engravings on the black-striped stone pillars. I have been here for quite some time. There are certain things I think I should tell you first, Milky Way Horde Leader.”

“Swallow Hawk Master, please speak your mind,” Luo Feng said.

“The space of the black-striped stone pillars is very safe, and there are ancient monuments with secret engravings which are very profound,” Swallow Hawk Master said. “That’s why there’s always a group of great beings entrenched here. Especially the three beings who are the strongest among them all. The three existences are all universe supreme masters! One is a lone wanderer, and the others belonged to different races; they are Bei Chi Star Master from the first reincarnation era, Blood Orchid Ancestor, and Rampaging Devil God from the second reincarnation era.”

“This I know.” Luo Feng nodded.

“I want to tell you about the temperaments of these three,” Swallow Hawk Master began. “Bei Chi Star Master has a remarkably good character. So long as you treat him with respect, nothing will go wrong. But Blood Orchid Ancestor is a plant life-form... It is spread all over the place. You must stay as far as one million kilometers away from it. Otherwise, you may be in danger of annihilation. These two are still all right—one of a good temperament, the other being extremely evil—and are easy to deal with. The most troublesome one will be Rampaging Devil Master.”

Luo Feng nodded. He had also heard things about Rampaging Devil Master, including that it was very dangerous and difficult to deal with. But the space of the black-striped stone pillars was the territory of these three old fellows, so he must be vigilant and be certain not to offend any of them.

Chapter 1210: Before the Black-Striped Stone Pillars

Rampaging Devil God was a universe supreme master from the second reincarnation era.

There was a great deal of information on the universe supreme masters from the three reincarnation eras and two holy land universes in Luo Feng's mind. The universe supreme masters could be sorted into different groups. There were some skilled in dealing with souls, some skilled in annihilating material subjects, and some possessing supreme true treasures or not contributed to their differences. And among all the universe supreme masters within the Universe Ocean, Rampaging Devil God was an extremely frightening existence. He dared to name himself "Rampaging." That said something about his guts.

Regarding his personal ability, he was only considered to be a universe supreme master of normal standard. Yet he was considered terrifying simply because he had that supreme true treasure.

He was a unique life form, and it was in his nature to like swallowing stones, metals, and hard materials as such. He had been born with that extremely hard outer shell! It was said that there was too much essence of rocks and metals coagulated on the outer shell over his godly body, which was why the degree of hardness of this outer shell was unbelievable. Adding on his supreme true treasure armor, it was certainly enough to allow him to run rampant throughout Universe Ocean; that armor was very unique and was named Blood Ocean Devil Armor. Other than the normal defense ability, this Blood Ocean Devil Armor was able to create a surrounding that was filled with the impact of an insane willpower where one seemed to have fallen into "Hell of Blood Ocean."

"When Rampaging Devil God is battling other universe supreme masters," Swallow Hawk Master said. "There is nothing outstanding about his performance. Yet against us universe masters, he does have an absolute advantage. Once he goes crazy, his supreme true treasure will let out an outburst of willpower, and that impact will be so strong that even universe supreme masters will be slightly affected. As for us, universe masters, I'm afraid we will be so overwhelmed, instantly... that we will not be able to put up any form of resistance at all!"

Luo Feng nodded solemnly.

"And he is very temperamental. There is no way we can predict his capricious moods." Swallow Hawk Master was flying as he elaborated amidst sighs. "He is also a loner. Thus, he is not afraid of getting into trouble, which is why, the moment anyone sees this Rampaging Devil God, they would rather make a detour and avoid crossing paths with him!"

"If not for Bei Chi Star Master, several other universe masters, as well as myself, would already have left this place. Bei Chi Star Master's character is extremely likable, and he has spent a very long time comprehending the black-striped stone pillars, so his knowledge is more comprehensive. Bei Chi Star Master tends to share what he has comprehended with everyone, which is always so rewarding for us all.

"Universe supreme masters who are willing to share and guide us are very, very few, so we are all reluctant to leave because of Bei Chi Star Master. Wherever Bei Chi Star Master chooses to reside, Rampaging Devil God will also be more respectful in his behavior. The most detestable thing about him is that... Rampaging Devil God likes to change his looks—especially when he meets newcomers who

have never seen him before, much less know his life aura. Meeting Rampaging Devil God in his changed appearance, they will not recognize him at all. They will not have the slightest degree of vigilance... The moment they do something to anger Rampaging Devil God, even for something very minor, I'm afraid annihilation is their only fate."

Two streaks of rainbow-like light swept across the void space.

As he flew, Luo Feng gradually got a better understanding of the situation.

The space of the black-striped stone pillars had a total of 16 black-striped stone pillars. Blood Orchid Ancestor had stationed himself by the Number 9 black-striped stone pillar a long time ago, while Bei Chi Star Master had stationed himself by the Number 2 black-striped stone pillar, also on a long-term basis. As for Rampaging Devil God, he did not fix himself to a certain stone pillar and liked to wander around randomly in his disguised identities. If one could recognize his aura, then nothing much would happen; on the other hand, not being able to identify him or his aura would mean that danger was near.

"Right ahead will be the Number 2 black-striped stone pillar. It is the place where the majority of great beings in all of the space of black-striped stone pillars gathered." Spreading his pair of wings, Swallow Hawk Master flew up into the sky at high speed and headed towards the Number 2 celestial magic pillar.

Flying alongside him was Luo Feng, who took a glance at where they were heading toward. It was a towering height that knew no bounds—so tall that it extended all the way past the limits of the field of vision and bore through the foggy atmosphere. As for the base of the black-striped stone pillar, it too had penetrated into the bottommost endless fog.

Hu! Hu! Hu!

A tremendous amount of gigantic rocks orbited the black-striped stone pillars, continuously revolving around the pillars like Earth around the Sun. These sizable rocks tirelessly circled the black-striped stone pillars. Also, amidst the dense and endless ocean of rocks, there could be seen black-tipped architecture that sported some extremely eye-catching and exquisite sculptures. Those were the space chambers.

"I have obtained a black token from Five Chaos Master, but I do not know which space chamber this black token corresponds to," Luo Feng said to himself. "There are 16 black-striped stone pillars here. Every black-striped stone pillar has some space chambers in its surroundings. The only problem is, I can only detect a sensation if I am close to the space chamber that corresponds with my black token."

"Seems like I have to try my luck with these 16 black-striped stone pillars one by one."

In the midst of flying, Swallow Hawk Master was observing Luo Feng. As they approached the Number 2 black-striped stone pillar, the powerful impact of the willpower got stronger.

"Kill!" "Kill!" "Kill!"

It was as though an army of millions and billions of soldiers was roaring in battle. To reach them, for great beings who had just become universe masters, they would need all of their might to resist the impact of such strong willpower. But Swallow Hawk Master realized that Luo Feng was unshaken, and his face seemed to tell how effortless this was for him.

“This Luo Feng... His cultivation time is short, yet his willpower is so powerful.” Swallow Hawk Master was shocked. “I have spent a long time cultivating myself. And I also had to spend an extremely long time honing my willpower to reach this high level before I could easily overcome it. How can he resist the impact so easily?”

“Swallow Hawk Master,” said Luo Feng as he pointed into the distance. Several great beings seemed to be entrenched on the gigantic rocks orbiting some of the black-striped stone pillars. “At a single glance, I can already see a handful of great beings. Where the Number 2 black-striped stone pillar is, exactly how many great beings are there?”

“Close to 100,” Swallow Hawk Master replied right away. “As you can see, they are all at different distances from the black-striped stone pillar. Some are further; some are nearer. This all depends on the willpower of the individual great beings... If your willpower is stronger, you can naturally choose a spot nearer to the black-striped stone pillar to rest. In the deepest area, you will find Bei Chi Star Master.”

Sou! Sou!

Two streaks of light speedily flew toward the black-striped stone pillar.

What did it really mean to say that the black-striped stone pillar was as tall as 1,000 light years? The entire solar system, when compared to it, was merely a small dot. The closer you got to it, the loftier it felt. That formidable aura was so strong that it made Luo Feng shudder. This was indeed worthy of being known to all as a treasure more unique than a supreme true treasure. Until that very day, no universe supreme master dared to go near it—much less to touch it.

“Milky Way Horde Leader,” Swallow Hawk Master could not help saying. “The nearer we are, the stronger the impact of that willpower. My usual meditation area is in the deeper region, and that area is near to my tolerance limit, so I can use it to hone my willpower all the more. If it gets overbearing for you, do let me know beforehand.”

“That’s good. I can take the chance to test my limit.” Luo Feng laughed.

The two flew toward the inner region. Swallow Hawk Master continued to closely observe Luo Feng. From his point of view, Luo Feng had merely cultivated for slightly more than ten eras. Even if he were to start honing his willpower from his moment of birth, how strong could he become? Yet Luo Feng’s expression was natural and relaxed. Obviously, the impact of the willpower did not exhaust him at all, much less push him to his limit.

“Swallow Hawk Master, as we get nearer to the stone pillar, time velocity is also continuously changing, Luo Feng commented. “The time velocity here is already as fast as 200 times more. What about the place you usually go to when honing your willpower? How many times faster is the time velocity over there?”

“The nearer we are, the faster the rate of acceleration of time velocity,” Swallow Hawk Master said. “The time velocity in the area where I hone my skills is around 1,100 times. For someone like Bei Chi Master, whose willpower is extremely terrifying among all the universe supreme masters, he has cultivated for a period longer than one reincarnation era. According to him, the place where he cultivates has a time velocity that is as fast as 130,000 times more.”

Luo Feng was dumbfounded. It was no wonder even Rampaging Devil God had to give credit to Bei Chi Master. This gentle-tempered existence from the first reincarnation era who did not mind sharing his experience and knowledge with others was simply too powerful for words. Solely his willpower alone could be so terrifying. If he were to venture into the studies of illusion, the amount of fear he could instill in other great beings would be out of the world. Even executing something as simple as a soul attack, when coupled with his willpower, would result in an invincible soul attack.

This great existence also had an extraordinary perspective on life. Even when he was nearing his doomsday, he was still able to cultivate quietly; at times, he would openly share his comprehensions. Other times, he would simply exist in peaceful silence.

“Swallow Hawk Master?”

“By his side... that silver-armored, black-haired human? That must be Silver Wings Horde Leader Luo Feng.”

In the surrounding area of the black-striped stone pillar, several universe masters had also noticed that Swallow Hawk Master and Luo Feng were making their way toward the inner region, much deeper in from where they were. These universe masters were secretly in shock... To be able to venture further and deeper in, obviously the willpower of Luo Feng was much stronger than theirs. They were in disbelief that someone with such a short cultivation period could have a willpower that was so strong.

Amongst them, there were some who were very powerful and had strong fighting abilities, but that did not mean that they had terrifying willpower. After all, out of almost 100 universe masters, only a fraction of them honed their willpower for the long term. The majority of them were only there for a short break. The area they were at was merely a safe transit stop.

“That is my cultivation place.” Swallow Hawk Master was flying at high speed and soon landed on a piece of gigantic rock that was speeding through the air. Luo Feng landed likewise.

“Milky Way Horde Leader, you are able to resist the impact of the willpower of this place. You have earned my admiration.” Swallow Hawk Master was impressed.

Luo Feng laughed. Luckily for him, he had gone through the honing process within the space of the wings.

Given his past—before the time spent in the space of the wings—if he were to be in this space that he was in now, he would have likely been sprawled on the floor with his entire body trembling, gritting his teeth while perspiring profusely. But now, he could only feel exhaustion, nothing else!

“Oh, there is still quite a number of universe masters ahead.”

Luo Feng was surprised to see that a distance away from where they were, at an area nearer to the black-striped stone pillars, there was, indeed, a handful of great beings on the gigantic rock.

“Yes, although there are close to 100 universe masters gathered here, more than half are just here to take a temporary break and not intentionally here to hone their willpower for cultivation. The ones who are here with the intention of honing their willpower normally would be of a relatively higher standard

in regards to their willpower, as compared to their peers. There are also some whose willpower has reached the pinnacle level of a universe master. As for those who passed the bottleneck and achieved a breakthrough... their willpower is now comparable to that of a universe supreme master!”

“Look! That—that—that... Those 19! At an almost similar distance away from the black-striped stone pillars, these 19 universe masters have reached the ultimate limit of a universe master’s willpower. If they want to make further progress, they will have to pass the bottleneck of a universe master. And thereafter, they will undergo qualitative changes to attain willpower that is comparable to that of a universe supreme master.”

“Look, deeper in...” Swallow Hawk Master explained. “Other than Bei Chi Star Master, standing even closer to the black-striped stone pillars as compared to the 19 universe masters, I can see two other great beings. Actually, there are three! These three universe masters... all have a willpower comparable to a universe supreme master. These three are, respectively, from the two holy land universes and the first reincarnation era.”

Luo Feng lamented. He was afraid of being at a comparable standard as the other 19 universe masters!

No one would have expected to find three universe masters, whose willpower was comparable to that of universe supreme masters within this space of the black-striped stone pillars. Throughout the entire Universe Ocean, how many can be found?

“Right,” said Swallow Hawk Master. “Out of the three universe masters, there is one from the Divine Eye Clan. You previously annihilated the Divine Eye Clan’s Ultimate Arrow Master and Five Chaos Master. That places great enmity between you and the Divine Eye Clan, so you had better practice more caution.”

“Oh, what is he called?” Luo Feng asked.

“Divine Eye Clan... Clear Eye Master!” Swallow Hawk Master said solemnly.

There was a slight change in Luo Feng’s expression. “It’s him!”
