

SWALLOWED 1221

Chapter 1221: One Was Annihilated

All six of them—Deer Bug Master, the three universe masters from Divine Eye clan, Liu Jiu Master and Luo Feng—remained silent, but no one retreated.

You've got to be kidding.

Perhaps many things would go through their minds when they just started to make choices, but once they had made their decisions, why should they flinch? From the moment they took their first steps on the path of a great being, death and crises were never far away. Perhaps they might die with much unwillingness, but not a single one would fear death. For the powerful inheritance of this ancient civilization, they would all rather give their best shot to fight for it!

"Good." Duan Dong River nodded. "Follow me."

Duan Dong River turned and walked toward another side-door of that foggy hall.

Hua!

The side-door automatically opened. Duan Dong River walked in. Although Deer Bug Master, Luo Feng, Shadow Dust Master, and the other three great beings all had doubts about where they were heading, they still followed his lead.

Following behind Duan Dong River, the group walked along a wide path for a short moment before they were completely blocked by a floodgate. Duan Dong River continued walking until he was standing right before the floodgate. Then he stopped.

"Wait a little while. The floodgates will open, and you all will continue along this corridor." Duan Dong River's gaze scanned Luo Feng and company. "So long as the six of you are able to walk all the way down this corridor in a straight line and make it to the next hall alive, you will be considered to have passed the most basic level of the selection process and can start to get connected to the inheritance."

Inheritance!

All six of them, including Luo Feng, Deer Bug Master, and Shadow Dust Master, made a shudder as their eyes lit up.

So long as they could walk all the way down this corridor and make it to the next hall alive? They would be considered to have passed the selection process and start getting connected to the inheritance?

They were all very excited, but all six were also aware that Duan Dong River's inheritance was very powerful, so the selection process would not be simple... Meaning to say, this corridor would truly be a death corridor. And amongst them, there would likely be someone who would be annihilated. Everyone had to give their utmost best.

"Six of you!"

“As you make your way down this corridor, you can use your weapons, and you can use every technique and method you know,” Duan Dong River instructed slowly. “All you have to do is to make it to the next hall alive.”

Duan Dong River turned to look at the floodgate and pointed to it. “Raise it!”

Hua!

The heavy, large floodgate rose slowly, revealing a wide, deep passageway that seemed to have no end. This made Deer Bug Master, Luo Feng, Liu Jiu Master, and the other three all frown. What dangers awaited them within this death corridor? What methods had Duan Dong River—from a great ancient civilization—deployed for his selection process? Once they failed the selection process, they would have to face the danger of death.

The easiest stage of the selection process was the one before them now. All they had to do was to stand on a magicube instrument for a short while. If they did not pass, they could leave right away.

“You, you, you, you, you! Five of you, go in.” Duan Dong River pointed at five great beings.

“Us?”

“Me?”

“All five of us go in together?”

There was an uproar. All five of them—Deer Bug Master, Liu Jiu Master, Shadow Dust Master, Sorcerer Sprite Master, and Golden Square Master—registered shocked expressions. Duan Dong River had pointed at the five of them and asked them to go in together.

Shadow Dust Master pointed at Luo Feng and could not help asking, “What about him? What about Milky Way Horde Leader, Luo Feng?”

Deer Bug Master and the other four started to get a little unsettled. They could not doubt or change Duan Dong River’s decision, but during the screening by the magicube instrument earlier on, they had noticed Duan Dong River revealing a trace of a smile when it was Luo Feng’s turn. At that time, they had found it suspicious.

Furthermore, among them, Luo Feng’s cultivation period was the shortest, at only a dozen eras. Was that not substantially short?

“The five of you will go in together, and he will go in alone,” Duan Dong River said coldly. “Why? Are you unwilling to? Then leave. Now, you are still able to leave this place alive. If you do not leave... The five of you must quickly make your way in. If you don’t enter, you may be disqualified.”

Deer Bug Master, Liu Jiu Master, and the three great universe masters of Divine Eye clan looked at one another, then took one glance at Luo Feng.

“Let’s go.”

“Let’s go.”

Five figures entered the corridor at the same time.

Hua!

The heavy and wide floodgate lowered with a loud crash. The corridor was sealed once again. By the entrance of the floodgate... only Duan Dong River and Luo Feng remained.

Duan Dong River looked at Luo Feng. "Once you enter, there will be no chance for retreat."

Luo Feng nodded, but many thoughts were rising in his mind. The other five went in together? But he was to enter alone? Why was he so special? Could it be Duan Dong River really looked at him in a different light, or was there a special form of danger awaiting him?

Was this a blessing, or a curse?

Within the corridor, Deer Bug Master, Liu Jiu Master and the three great universe masters of Divine Eye clan looked behind them at the floodgate that was once again lowered. Their expressions were slightly different than before.

"The situation does not look promising," Shadow Dust Master said in a shrill voice. His eyes flashed with a murderous glint. "If an heir was to be chosen, then considering someone like Luo Feng, who has cultivated for only a dozen eras to attain such high achievements to those like us, who have cultivated for close to three reincarnation eras to attain such high achievements, only a fool would not choose Luo Feng. I suspect that the weird magicube instrument test was not only testing our blood lineages and life characteristics; it was most possibly detecting our life spans, too!"

The five of them were shocked. That was right. No one knew what that weird instrument actually screened them for.

"It must have detected some unique characteristics," Shadow Dust Master laughed coldly. "If not, why would Duan Dong River let out such a rare smile? Apparently, he must be very satisfied with Luo Feng, but why? I think the instrument must have detected that Luo Feng has only lived for a dozen eras and has the shortest period of cultivation. Such an outstanding talent with an extremely short period of cultivation, even to the three reincarnation eras—he is unbelievable. Even if we were to compare him within the ancient civilization, I think he would still be phenomenal. With such an extraordinary talent appearing to inherit his legacy, of course he would be greatly pleased. Thus, the differential treatment!"

"Right."

"True."

"That is highly possible."

One by one, they spoke their minds. Even Deer Bug Master nodded in agreement. They were all of high positions and were clear that when it came to choosing disciples, there would never be absolute fairness. Once they set their eyes on a certain disciple, during any selection process, they would always give differential treatment.

"But what else can we do? Now that the five of us have to go through this corridor together, there is no way we can plant accidents along Luo Feng's way." Golden Square Master shook his head. "I think Duan

Dong River must have thought about that. That's why he separated Luo Feng from us. Even if we had any plans in mind, we will not be able to execute them now."

Deer Bug Master shook his head. "Let's go. Let's not think further. This is the inheritance Duan Dong River left behind. We can only act according to his wishes. We can find another opportunity to deal with Luo Feng. Right now, there is simply no chance at all... We can only move forward from here. This death corridor... There is a possibility we might not even be able to make it through."

"Breaking through the death corridor, everything can be used. Deer Bug Master, with your supreme true treasure, you have a much greater chance."

"Humph." Deer Bug Master said no more and flew ahead right away. Liu Jiu Master also transformed into a streak of light and flew ahead.

The other three from the Divine Eye clan looked at one another, nodded slightly, and also continued advancing down the corridor. The only advantage to being part of Divine Eye clan was that the three of them were of one heart! With joined hands, they would not be the least bit bothered even if they had to fight against someone like Deer Bug Master.

At the other side of the floodgate, Luo Feng could also vaguely guess that Duan Dong River's method would have caused the other five universe masters to start targeting him as their enemy and treating him with hostility. They would see him as the greatest threat when it came to the inheritance.

Hong!

A strong wave was faintly transmitted from the other end of the floodgate, and Luo Feng could not resist turning over to take a look. He could only see that heavy floodgate.

Next up, bouts of energy waves were transmitted over in a continuous stream. Apparently, some dangerous life-and-death situation was happening deep within this death corridor.

"Lord Duan Dong River, why would I be separated from the other five?" Luo Feng suddenly asked.

Duan Dong River stood with his eyes closed, his entire being seemed to become an iceberg emitting cold air. Hearing Luo Feng's question, he opened his eyes and replied, "You only need to follow my instructions. Do not question why I decided on such a selection process. If you are displeased, you may leave. If you choose to leave now, you can still have the chance to live..."

With that, he closed his eyes again.

Luo Feng could only put up with everything that he was asked to do.

The Skeleton clan was a pinnacle clan from the first reincarnation era. Within the vast Universe Ocean, there was a total of four miniature universes.

Within the first miniature universe, four towering figures were scattered in four different directions. In midair, they looked at one another. These were the four devil masters from the Skeleton clan.

Red Lark Master stood in midair deferentially as he reported what he knew to the four towering figures. "This was our personal encounter—Jittery Sea's and mine. That was indeed a terrifying inheritance. An inheritance of a super great being named Duan Dong River*Wu, who was from the ancient civilization. This Duan Dong River*Wu... based on my speculation, must be a great existence that was only second to a so-called general from endless reincarnation eras ago, even before the completion of Universe Boat. His inheritance was definitely something major, and from the descriptions of it, throughout the entire ancient civilization, every generation will only have one heir for this Duan Dong River inheritance."

"Jittery Sea?" said a towering figure. "Is that true?"

Jittery Sea Master, who was standing to the side, also replied deferentially, "Yes, that is the truth. The two of us were eliminated right from the very first stage of selection. The reason was simply because we do not belong to the same clan, so we do not qualify for the inheritance."

"Red Lark, whatever the two of you experienced, simulate a part of the memory you have into a projection for us."

The four devil masters of Skeleton clan were extremely solemn. This matter seemed very serious, even when heard in summary. It was clearly a great deviation from the norm.

"Yes." Red Lark Master replied deferentially.

A three-dimensional projection appeared in midair. From the moment they charged into the Boat of Mausoleum, the projection started to play. They saw images of Duan Dong River appearing within the hall and saying those words, and they started to get emotional. Then there was the inheritance... one line from Duan Dong River: "Not from my clan, and yet you wish to inherit something from a pulse on my Duan Dong River? Dream on! Get lost!" These words sent chills into the hearts of the four devil masters.

"How loathsome."

"Such an opportunity, but, because of those three beings from Divine Eye clan, we cannot enter."

"Loathsome!"

The four devil masters also let out ferocious roars. All were clearly furious.

"Spread this!" A hoarse voice shouted. "Let the news be spread to the three great reincarnation eras and the Two Holy Land Universes. Spread it to them all. Let the whole of Universe Ocean know. Let great beings from all over gather here. We must create chaos, create chaos within the Boat of Mausoleum so that we can destroy Duan Dong River's inheritance! In short... so long as there is chaos, we Skeleton clan stand a chance. Even if we have no chance, we can destroy it and deprive the Divine Eye clan of their chance. The Divine Eye clan and the Skeleton clan are arch enemies sharing endless hatred for one another. We cannot give them such a great advantage."

"Spread the news."

The other three devil masters roared furiously, all in extreme rage. Without hesitation, they started transmitting the news to various groups of powers within the entire Universe Ocean.

Within the deep region of the Universe Boat's internal region, on Flame Ice Continent, inside the Boat of Mausoleum.

Luo Feng stood at one end of the floodgate, feeling the bouts of energy waves transmitted from the depth of the corridor, yet he was clueless as to what was happening inside.

"Huh?" Duan Dong River suddenly opened his eyes, then whispered, "One annihilated. Four left."

Luo Feng was shocked. He involuntarily glanced at Duan Dong River.

One annihilated?

Chapter 1222: Life and death corridor

The five universe masters in there were all extremely powerful. The three from the Divine Eye Clan were all of one mind, one heart. Deer Bug Master had a supreme true treasure that he kept close to him. Liu Jiu Master was the most difficult to kill out of all plant life forms.

Luo Feng took one look at Duan Dong River, who was still standing at the same spot with his eyes shut. Although Luo Feng wanted to inquire about something, he decided to give up on that thought. It would be a futile attempt.

"Another was annihilated," Duan Dong River suddenly said. "Left with three."

Luo Feng's heart lurched. This... This life and death corridor was much too dangerous. Those universe masters who dared break deep into its internal domain—how impressive they were? Even if universe supreme masters were thinking of annihilating them, they could not be this fast, right? In the blink of an eye, two more were annihilated.

Deer Bug Master is the most powerful. The three from Divine Eye Clan are of one mind and one heart. And Liu Jiu Master is a fifth-tier universe master and also a plant life-form. Compared to the three of them, I am the weakest. Now, out of five, two have been annihilated... What if I were to go in?

Luo Feng frowned as he started to worry.

Flame Ice region, at the cabin door area of the Boat of Mausoleum.

Jittery Sea Master, Red Lark Master, and Giant Rock Master were standing at the cabin door entrance. Jittery Sea Master and Red Lark Master had both sent their other bodies back to their clan to make a report... As for Rock Giant Master, of course, he too would be making arrangements to send his other body back to where his group of power was to make a report.

"No—"

Rock Giant Master's massive body trembled.

"Liu Jiu!" Rock Giant Master suddenly let out a hoarse shout. His crazy voice was filled with anguish.

Peng!

He fell to his knees heavily, and his knees smashed the sturdy floor tiles at the cabin door area of the Boat of Mausoleum as both his hands grasped the edges of the ground. His implacable emotions could not be held back. His raving roars and strange yowls were high-pitched and mournful; there were also shouts that expressed complete hysteria, and Rock Giant Master's godly body trembled and contorted.

Beside him, Jittery Sea Master and Red Lark Master were taken aback. Both looked at Rock Giant Master in his state of hysteria, then back at one another.

"Liu Jiu Master must have been annihilated."

"Yes, I guess she must have been annihilated. It is said that wherever Liu Jiu Master is, there will be Rock Giant Master, always. For countless years—close to three reincarnation eras—Rock Giant Master had been silently following Liu Jiu Master. It seems he has very deep feelings for her. The moment Liu Jiu Master got annihilated, Rock Giant Master went crazy."

The two, on the other hand, were gloating over Liu Jiu Master's misfortune. Both of them were unable to receive the inheritance, but so what? If they had been able to go and try to receive the inheritance, they would still have faced the fate of annihilation!

"Ah, ah, ah! Ah!"

Rock Giant Master was still letting out crazy roars while waving his eight arms about. Fist after fist crashed heavily against the ground.

Peng! Peng! Peng! Peng! Peng! Peng!

The heavy impacts of the crashes brought a faint quake to the ground. As the floor of the Boat of Mausoleum was incomparably sturdy, even universe supreme masters would not be able to bring harm to it—much less the fists of Rock Giant Master. Insane, heavy punches smashed about until the surfaces of the eight fists started to shatter and crack.

"Inheritance! That detestable inheritance, that detestable inheritance was what killed you. Revenge, revenge, revenge!" Rock Giant Master was howling in pain. "I'm going to destroy this inheritance! I'm going to destroy it and kill the heir who wins it. Kill them...! Duan Dong River. Duan Dong River, it's all because of you! It's your fault, it's your fault! I am going to cut off your inheritance—sever it! I will avenge Liu Jiu!"

Soon after, Rock Giant Master turned about suddenly and charged toward the control room of the Boat of Mausoleum.

Jittery Sea Master and Red Lark Master laughed coldly as they stood aside and watched everything with indifference.

"Crazy."

"Rock life-forms are really set in stone. How rigid their minds are! And it is starting to go crazy."

Merely a short moment later, Rock Giant Master's massive figure returned.

“Can’t cross over anymore, can’t cross over anymore.” Rock Giant Master shook his head. His eyes were filled with sorrow and anguish. “I told you that I will always be with you... My doomsday is nearing, but you were annihilated before me... Liu Jiu...”

Rock Giant Master slumped into a corner at the cabin door entrance with a loud bang. There he sat, leaning against the wall wordlessly.

Jittery Sea Master and Red Lark Master felt a little fearful, so they moved further away and walked into the public square of the hall, not daring to be near to Rock Giant Master.

Outside the floodgate of the corridor.

Luo Feng stood where he was silently and could subtly feel the energy waves. Suddenly, the energy waves stopped.

“Huh?” Luo Feng felt a constriction in his heart.

Duan Dong River opened his eyes and gently nodded. “Still all right. Just two dead!” Then he turned to look at Luo Feng, “You, go in.”

Following his voice, that wide and sturdy floodgate that was shut earlier started to rise with a rumble again, revealing that deep corridor. At the end of the corridor, there was not a single figure. This made Luo Feng all the more fearful. Even with the five of them moving together, two were dead. For him to act alone, would it be a blessing or a curse?

“Either you give up, or you move forward.” Duan Dong River cast a look at Luo Feng.

Luo Feng returned Duan Dong River’s look and, without further hesitation, flew in.

Hong!

The gigantic floodgate behind him lowered with a loud crash. Then it was sealed again.

“No chance of backing out now.” Luo Feng took one look at the floodgate behind him, then lifted his head to look deep into the corridor. “I would like to take a look at what this life and death corridor has that could annihilate two out of the five of them.”

Sou!

He transformed into a beam of light and moved forward at high speed.

The corridor ran deep. Sometimes it became narrower, other times it widened. Flying for a short moment, his path ahead seemed to get even darker. Within the deep, hazy passageway, Luo Feng’s eyesight still allowed him a clear vision of his surroundings.

“Huh?” Luo Feng frowned and stopped to hover in midair.

Not far ahead, a tall figure lay on the ground. His body resembled that of a human. There was a large amount of hair on his head and neck like a lion. His neck was thick and strong, and both his eyes were

shut. Half the surface of his godly body was protected with a layer of black armor, and when Luo Feng appeared, that tall figure suddenly sat up and opened both his eyes.

With both eyes emitting faint red light, it stared at Luo Feng.

“All you have to do is to survive Cuello’s blows.” An icy-cold voice sounded by Luo Feng’s ears.

He recognized the voice right away. It was Duan Dong River.

“You cannot hide in your palace or such true treasures. If that is the case, then I have no choice but to eliminate you. You must meet the battles head-on. Hiding within palace type true treasures is not allowed. Other than that, all other weapons can be used. Two out of the five were annihilated at the hands of Cuello earlier on. I hope that you will survive.”

Hong!

The seated figure suddenly stood up. He had a body that was more than 100 kilometers tall and eyes that were icy-cold, exuding an endless, murderous aura. The corridor was approximately 6,000 kilometers wide, which was enough for combat.

“I must meet the battles head-on?” Luo Feng descended slowly. He looked at that strange existence with the name of ‘Cuello’ from afar. “Why did Duan Dong River call it Cuello? From endless eras ago until now, for it to remain, it most likely is not a life form.”

“Roar! Die!”

The monster, Cuello, let out a roar and charged over in big strides.

Shua!

It transformed into a streak of light, and before Luo Feng knew it, it had already arrived before him.

Luo Feng also followed suit and acted immediately. This monster, Cuello, left here by Duan Dong River, could annihilate two universe masters. Of course, Luo Feng would not dare to be careless. The moment he arrived, he was prepared to fight with all he had. He entered the state of the heart of Beast God right away. With a loud howl, he charged ahead. At the same time, his strongest right arm transformed into five gigantic golden blades, which he waved about while howling.

It was as though five battle blades were hacking down at the same time!

Third form of Crazy Demon Extermination Godly Armor—Extermination God!

Peng!

Monster Cuello’s head was mercilessly hacked, and its entire being seemed to become a sandbag struck into rotary motion. It was thrown backward, where it landed heavily, smashing the ground of the corridor with a great tremor.

Luo Feng was taken aback for the moment and did not follow closely after Cuello to continue with his attacks.

“What? This...?” Luo Feng was shocked. “This is the standard of what killed two universe masters?”

What a joke! Those five were extraordinary. To kill two out of five of them, at least the power of a universe supreme master would be required! And since he was only at the fourth tier before he arrived, Luo Feng had already made plans.

The moment he arrived, he would use his trump card! Then he would go along with the collision force during their exchange of blows to make use of its strength. Borrowing this force, he would make an urgent retreat! Through this very first blow, he would determine the capability of his opponent. Then he would be able to devise detailed plans.

But in reality, after a single strike... Monster Cuello was beaten right away. Without any power to resist!

Luo Feng, who had initially intended to borrow force for his urgent retreat, was dumbstruck in midair.

“What is happening? Why is it so weak? When it received one claw from me just now, the power that it displayed was so weak that even a universe master would be able to trample on it.”

Luo Feng was filled with doubts but hesitated no further. In a flash, he charged toward Cuello. Monster Cuello was already roaring as it rose to its feet, once again roaring, “Die, die, die!”

Peng!

Like a flash of lightning, Luo Feng struck it at a frighteningly fast speed. There was no way Monster Cuello could have defended himself. Right away, the blow struck his neck, causing Monster Cuello to fall flat on his face and crash to the ground with a loud bang.

“What is going on?”

Luo Feng used both legs continuously to execute a strongest secret technique, Cracking Gold. Two dazzling golden boots of light kicked at the back of Monster Cuello’s head, causing its face to “kiss” the ground twice with rumbling sounds.

“Roar!” Monster Cuello’s big, thick hands pushed against the ground to flip itself around so that it could stand up.

Luo Feng looked up in midair with furrowed brows. “Its body is quite strong. My attacks left no trace of injury on it at all. However, its ability is too weak.”

Although he could not make any sense of this, if his opponent was weak, it would be his chance trample hard on it. Luo Feng transformed into a beam of light and instantly made his way to where Monster Cuello was.

Monster Cuello was roaring while waving his fists, yet Luo Feng grabbed onto him swiftly and sent him crashing onto the ground.

Peng! Peng! Peng! Peng! Peng! Peng!

Being trampled upon repeatedly, Monster Cuello was sent sprawling on the ground or thrown against the walls of the corridor. The hair at the back of its head was grabbed by Luo Feng, who used it as a means of swinging it against the walls. For a period of time, Luo Feng moved at the speed of lightning. Repeatedly, he trampled upon Monster Cuello.

Although he was doing the trampling, Luo Feng still remained vigilant. Every single time he attacked, he made sure that he was prepared to respond to any possible violent outburst from his opponent.

“His power is soaring. Apparently, it is on the rise.”

During the trampling process, Luo Feng increasingly felt that something bad was going to happen.

He could sense that the power Monster Cuello was displaying was continuously increasing—from a senior universe knight, to a second tier universe master, to a third tier, a fourth tier... Its power was soaring with the passage of time. Where it started off easy for Luo Feng to trample on Monster Cuello, he started to find it more and more difficult to do the same.

Especially at this very moment, when Monster Cuello had almost attained the fifth-tier universe master standard. Luo Feng and Cuello would be on par with one another when it came to fighting. Yet Monster Cuello’s power was continuing to rise and surge...

Peng!

Luo Feng rolled and collided into the walls of that corridor. Then, instantly, it vanished.

Hong!

Monster Cuello’s terrifying kick crashed into the wall.

“Already at the fifth tier.” Luo Feng was forced into a tight corner. “If its power continues to rise, won’t it progress to the sixth tier. Or to a universe supreme master?”

Chapter 1223: It Got crazier

The monster Cuello didn’t know any techniques. All it had was speed and strength!

When one’s strength was strong enough, laws would back down. Cuello was an example of this. His fist could easily twist space and time, and turning it into a gleaming beam of light. This light could easily annihilate an entire solar system with a simple ripple.

Peng!

A huge golden claw scratched the fist.

“It’s stronger.”

Luo Feng turned his body. He followed the strength, yet he couldn’t walk straight. He hit the wall like a phantom, and the shockwave from his godly body immediately penetrated the wall.

Hong!

The foot slammed into Luo Feng’s chest and pressed him against the wall. The great shockwave made him tremble.

Sou!

Luo Feng clenched his teeth and tried to run away. At the same time, the godly power from his Golden Horned Beast body was transferred into the original earthling body to make it back to the best situation.

“This monster Cuello’s power is surging too fast. It’s approaching the sixth level.”

Luo Feng felt helpless. He could only reach the fourth level with the help of Crazy Demon Extermination Godly Armor, and he could barely fight a fifth-level universe master. However, the monster Cuello was more terrific than Five Chaos Master. He was being crushed!

“It consumed 8 percent of my godly body in such a short time! I can’t let this go on anymore.”

Luo Feng turned his head and roared. Cuello roared and rushed to right in front of him.

Shua!

A glowing white wing showed up, and under the strong godly power, a golden glow permeated. The light covered an area of nearly a million square kilometers. The powerful binding power slowed Cuello. Luo Feng’s wing trembled, and he retreated.

“Duan Dong River only indicated that we can’t use palace type true treasures.” Luo Feng opened silver wing. His excitement was building. “Shi Wu, we haven’t fought together for a long time.”

“Howl!” The monster Cuello was furious. Its roar twisted space, and the shockwave slammed into Luo Feng. But he didn’t move at all. The shockwave dissipated.

Hong!

The monster Cuello dashed at Luo Feng again.

“With Shi Wu Wing, I’m not so easy to mess with.”

Luo Feng’s silver wing trembled, and his body started to look bizarre. He started to fight the monster Cuello in close quarters. With the help of Golden Country, his most powerful technique, Extermination God, could reach the fifth-level. This made him nearly on par with Cuello.

They fought closely again. The monster Cuello charged recklessly, but Luo Feng produced many phantoms.

Peng!

Luo Feng bounced away with the four wings covering his body.

“His power is still surging? Top of the sixth-level? Or a universe supreme master?” Luo Feng couldn’t tell anymore, but he could sense that Golden Country’s influence on Cuello was withering away. Cuello’s power frightened Luo Feng.

He was being crushed. Even though Cuello was bound by Golden Country, he was still much stronger than Luo Feng.

Luo Feng was hit in the chest before he could dodge the attacks. The power of Cuello horrified him so much that he needed Shi Wu Wing just to protect himself.

Peng! Peng! Peng! Peng! Peng! Peng!

He couldn't resist it, but he couldn't run away either. Luo Feng was like a sandbag being kicked and punched by Cuello. Against Cuello, Golden Country was as negligible as thin air.

"He must be as powerful as a universe supreme master now!" muttered Luo Feng. "Even universe supreme masters need true treasures to wield such power, yet he's using his bare body." Luo Feng covered his body with the silver wing. "I may be killed!"

Should I get into Star Tower? he wondered. Star Tower can definitely resist the attacks, but I'll be eliminated if I enter.

"I have to stand it!" he decided. "Withstand it! Withstand it!"

Just when Luo Feng was rendered in agony and being kicked, beaten, and smashed—Cuello suddenly stopped.

Luo Feng looked at Cuello, confused. He was floating in the sky. Why did he stop?

Hong!

The monster Cuello sat down and closed its eyes.

"You've passed this round. Continue."

It was the voice of Duan Dong River!

Luo Feng was relieved. Finally, he passed this round. He looked at the monster Cuello who was lying there, not moving, then flew forward. After a short while, he saw a door. As Luo Feng flew closer, the door closed immediately.

"Huh?" Luo Feng saw three shadows.

"You survived?" Sorcerer Sprite Master was surprised.

Shadow Dust Master sneered. "Milky Way Horde Leader, you survived that monster all by yourself?"

"I do admire that," Deer Bug Master said with a smile.

It seemed that Golden Square Master and Liu Jiu Master were the ones who had died. Luo Feng hadn't expected a plant life form like Liu Jiu Master to die.

"Why did two of you die?" Luo Feng was shocked. "That monster is not that powerful."

Shadow Dust Master sneered. "The one you met is not that powerful. If you met one like the one we met, you would have died."

"How did you meet him?" Luo Feng couldn't help asking them.

Deer Bug Master said, "The monster Cuello we met was not very powerful at the start. However, as the fight went on, it grew stronger and stronger. Its power reached that of a universe supreme master in no time, and it kept surging... It might be more powerful than all the universe supreme masters I've ever seen."

“One punch from it did major damage to our bodies!” exclaimed Deer Bug Master. “Liu Jiu Master wasn’t able to dodge it, so he was killed instantly. He didn’t even have a chance to take out his palace type true treasure to save his life. As for Golden Square Master, he died as well, as he didn’t cooperate well with Shadow and Sorcerer. Fortunately, it stopped soon after. Otherwise, Shadow and Sorcerer would have died as well.”

“Humph!” Shadow Dust and Sorcerer Sprite sneered.

Luo Feng was shocked. Something was wrong. The monster Cuello they met was more powerful than the one he had met. The monster had started with the power of a fourth-level universe master; on the contrary, Cuello had only started with the power of a senior universe knight when it met him! And it had stopped when it reached the power of a universe supreme master.

A figure appeared. It was Duan Dong River. “You are the only four left,” he said.

Deer Bug Master, Luo Feng, Shadow Dust Master, and Sorcerer Sprite Master all gazed at him.

Duan Dong River said coldly, “That was only a small test, yet two of you died. That’s only a part of the corridor. You need to arrive at the next hall to receive the inheritance. Keep moving!”

Duan Dong River pointed to the front. It appeared there was still a long way to go.

They were all terrified. That had only been a part of it? Their only choice was to keep going! They flew carefully, moving more slowly.

Luo Feng frowned. “Huh?”

In the virtual universe, in front of Huge Axe Godly Palace. Luo Feng appeared. There were universe masters sitting beside the stone table.

Huge Axe glanced at him. “Luo Feng.”

“Luo Feng,” Primal Chaos City Leader said. “We just got the news from the Skeleton race about Duan Dong River from the first universe era. We hear that you are one of the six seeking the Duan Dong River inheritance.”

“What is it about Duan Dong River?” asked Huge Axe Creator.

The other great beings all looked at Luo Feng, anxious. Although they had received the news from the Skeleton race, they didn’t know much about it.

“I’ll show you all.” Luo Feng pointed to the sky and shared all his memories, from flying into Boat of Mausoleum to seeing Duan Dong River in the control room of Boat of Mausoleum to assessing the magicube instrument... to fighting the monster Cuello. He played all of them, but he cut out the part where he performed Shi Wu Wing.

The great beings all went silent.

Luo Feng nodded. “So, this is the case. The Duan Dong River Wu inheritance is an inheritance of an ancient civilization. It’s a great opportunity, but it’s also extremely dangerous. There will only be one

inheritor! And we might all fail... Although this is only the beginning start, there are only four of us left... This is an opportunity for us humans. I need to take it.”

Luo Feng looked at Huge Axe and Primal Chaos City Leader.

Huge Axe and Primal Chaos City Leader both nodded.

He was right. Both Huge Axe and Primal Chaos City Leader knew that Luo Feng was most suitable for this! Luo Feng was a universe knight, so he could be revived if he died! Although he might lose some true treasures, his law comprehension, techniques, and willpower would still be there, so his power could be recovered quickly.

“Luo Feng, try to get the inheritance,” said Huge Axe. “Don’t be distracted by us. If we have arrangements for you, we’ll notify you.”

“Okay.” Luo Feng nodded and disappeared.

At the same time, the news also spread to Purple Moon holy land, East Emperor holy land, and the other powers from all the three universe eras. Now, things would only get crazier.

Chapter 1224: The Ancestors

Within the vast Universe Ocean, only the two holy land universes, namely Purple Moon Holy Land Universe and East Emperor Holy Land Universe, were able to transcend and survive through the reincarnation era. Yet speaking of the longest history, strongest power, deepest foundation... naturally, the winner was the East Emperor Holy Land Universe, which had existed up until now, was still an unknown figure to all.

Within the East Emperor Holy Land Universe, there was the Endless Godly Sector, a place where 90 percent of the entire holy land universe’s undying godly spirits, 99 percent of its universe knights, all its universe masters, and all its universe supreme masters gathered. The entire place was beautiful and magnificent, peaceful and tranquil; there were countless buildings of different cultural styles, and various rare flowers and plants could be found everywhere.

“Ang! Bang! Woo! Roar! Hush! Hai!”

In the middle of Endless Godly Sector, there was a towering green tree that connected everything within the whole godly sector and was constantly transmitting sounds out in a multidirectional manner to spread the news to all parts of the godly sector.

This big tree was ancient and deep green. It was very upright and towering, and all around it, there were many vines that were like jade carvings. When the wind blew, the tree gently swayed along, giving out intermittent bouts of soul-captivating voices; many figures were currently seated cross-legged under this ancient tree. At one glance, there was seemingly no end to the sea of people.

“Boom!” With a sudden jolt, the entire big tree radiated a dazzling cyan light.

“Boom!” Then the cyan light was transformed into an endless red light.

“Boom!” The towering tree went on to emit an endless black light.

“Boom!” It was transformed into endless blue light.

“Boom!” Last of all was a dazzling golden light.

Thereafter, the entire ancient tree was encircled by layers of apertures—five layers to be exact, so dazzling and resplendent that at that point in time, the entire Endless Godly Sector could see the tree in this glorious state.

“Ancestor tree!”

“Ancestor tree has shown its five-colored light halo. Ancestor will make his appearance soon.”

“Ancestor will make his appearance soon.”

“Ancestor!”

The moment the numerous godly spirits, undying fighters, universe knights, and even universe masters—who were all originally seated cross-legged under the towering, ancient trees—saw the five-colored light halo surging out from the Ancestor tree where they were all enveloped in a surrounding so dense with airflow... they were all shocked and excited. There were even some undying godly spirits who immediately burst into loud sobs while others fell to their knees trembling in excitement.

Ancestor!

East Emperor Holy Land Universe, an existence that had been around for an eternity! Ancestor “East Emperor” was the supreme being of all living souls within the whole of East Emperor Holy Land Universe.

Yet, throughout the endless years that passed, Ancestor East Emperor was practically nonexistent, as he almost never appeared. Even many universe masters who lived through many rounds of reincarnations had never seen him in person before! Not to mention the world out of Universe Ocean... Beyond Universe Ocean, not a single great being had ever met this Ancestor of the two holy land universes.

This was why Ancestor was known as the first great being of Universe Ocean!

However, when compared with the Ancestor of the two holy land universes who had long transcended reincarnation, Ancestor East Emperor, was still a notch lower. Yet even within the two holy land universes, it was extremely difficult for them to catch a glimpse of their own ancestors. Even for this ancient East Emperor to make an appearance, the chances were so slim that it was pathetic, and every time he made an appearance, the Ancestor tree would display this five-colored light halo.

“Ancestor is going to appear soon!”

“Ancestor!”

Even all the universe masters in their own palaces were shocked and excited.

“From birth until today, I have lived through a total of 82 reincarnation eras, but not once have I met Ancestor. Ancestor is finally going to appear.” A universe master was so excited that he forgot all about his disciples and teleported himself right away to where Ancestor Tree was.

“The last time I met Ancestor was 119 reincarnation eras ago.”

“Ancestor has appeared!”

Craziness! All of Endless Godly Sector seemed to have fallen into a crazy state. This was the heart of the most ancient holy land universe—the very core of their pride. So proud of it were they that they vaguely started to look down on Purple Moon Holy Land Universe! And from the size of a holy land universe, one could also tell... their East Emperor Ancestor was much more powerful than the Purple Moon Ancestor!

It was an absolute pride, and they highly regarded East Emperor Ancestor with utmost admiration.

Numerous streams of light appeared and gathered at the bottom of Ancestor tree.

Countless great beings floated in midair. Those who dared float in midair were at least universe masters or universe supreme masters! At one glance close to 1,000 beings were in midair, scattered all around Ancestor tree. Each and every one was silently waiting, in full deference, for their almighty Ancestor.

“Ang! Bang! Woo! Roar! Hush! Hai!”

An inexplicable voice suddenly sounded loudly. Every great being present was intoxicated by this sound, including the few universe supreme masters.

Amidst a strange music... an immensely dazzling figure appeared out of thin air, high up in the sky. It wore a robe that was covered with countless green branches and leaves, and the robe was radiating an intensely hazy cyan light that was rich in vigor and life. The intense cyan-green light shone upon and enveloped the hundreds of millions of great beings waiting and kneeling beneath it, comforting them all. Instantly, those whose injured godly bodies were damaged were completely healed.

Hua!

All the living souls, regardless of whether they were undying or universe supreme masters, gave him their full attention. Then, respectfully, they all shouted in unison, “Ancestor!”

There was total silence as all the living souls looked up at Ancestor East Emperor with burning gazes.

East Emperor looked down at them all... His entire body was bathed in the intense cyan light that seemed to obscure him from clarity. Even the few universe supreme masters and few hundred universe masters could feel a supremely oppressive force come over them, albeit an invisible one.

“I heard that within the Universe Boat of the three most dangerous lands in the Universe Ocean, there has been the birth of an inheritance. This is the inheritance of Duan Dong River Wu, is this true?” East Emperor slowly articulated his question.

Several hundreds of universe masters and universe supreme masters respectfully replied in unison, “Yes.”

The news had only reached them a short while ago. There was no way anything that happened within the holy land universe could be hidden from East Emperor.

“This Duan Dong River Wu’s inheritance is a top-notch inheritance within that powerful ancient civilization!” East Emperor said. “My life... North True Star Master, you shall personally lead a team of 20 universe masters, 200 universe knights, and 2,000 undying fighters and head for that Universe Boat at the fastest speed possible. Send every member of the team in to fight for that inheritance.”

“Yes,” a man in a white robe immediately replied with deference.

North True Star Master was an extremely ancient being, and he was a universe supreme master... Of course, his status of a universe supreme master had been attained as early as when he was in the primal universe era. He existed in the same era as East Emperor. Yet his miniature universe had fallen into a state of decadence a long time ago, so he was based in the holy land universe for daily life.

“Are there any volunteers?” East Emperor looked down. “The inheritance can only have one heir. The rest who fail to be the chosen one will be at risk of annihilation.”

“I’m willing.”

“Willing.”

“I’m willing to go.”

“Willing.”

Almost instantaneously, from the sea of great beings kneeling on the ground, a large number of universe knights and undying godly spirits volunteered. As for the universe masters in midair, a dozen of them shouted out their willingness. Their number was much smaller because they were, after all, a minority group within the holy land universe.

“Let’s leave it to the Elders to discuss and finalize a detailed list of names.” East Emperor looked down and slowly added, “We must finalize the list as fast as we can, so that we can head for the Universe Boat as quickly as possible! With a force of 20 universe masters, 200 universe knights, and 2000 undying fighters, we are going for that Duan Dong River’s inheritance. My East Emperor universe must obtain that inheritance. I... need that inheritance!”

“Yes!” all said in unison, in one voice filled with excitement.

East Emperor needed it? This instantly drove the countless great beings beneath him into a feverish state of enthusiasm.

It was merely a short moment, just enough for a cup of tea. North True Star Master was on board a dazzling, polygonal black sphere and was advancing at high speed within the Universe Ocean.

“I have not set foot in Universe Ocean for a good dozen reincarnation eras. Since I am making my appearance now, I shall make sure that I seize this inheritance for East Emperor Universe.”

On the same day.

When the news reached Purple Moon Holy Land Universe, the equally mysterious Purple Moon Ancestor also made an appearance at long last, he too, gave orders to his clan to necessitate the need to obtain that Duan Dong River's inheritance.

"Understood."

"Understood, Ancestor."

"This inheritance must belong to us, the Purple Moon Holy Land. Deer Bug Master is already there. We have the greatest advantage."

"Let's go!"

"According to Ancestor's order, 1,500 undying fighters, 150 knights, and 15 universe masters shall rush over as fast as possible. Universe supreme masters will be able to rush over there quickly, as their speeds are naturally extremely fast."

The two holy land universes of the Divine Eye Clan were very similar in strength of power. When compared with one another, the result was all the crazier.

The avatars of the Seven True Masters gathered.

"This is our only chance."

"Doomsday is nearing."

"We must seize this Duan Dong River's inheritance. The previous complete inheritance that we have obtained, when compared to Duan Dong River's... Obviously, there is a vast difference in status! And from what Shadow Dust and Sorcerer Sprite reported, even after Duan Dong River's annihilation, the methods he had put into motion after all these years to seek an heir were intimidating and frightening. We can tell a thing or two about how powerful his inheritance will be."

"I suspect that the inheritance is not restricted to only universe masters. It is likely that even universe knights and universe supreme masters can be potential heirs."

The avatars of the Seven True Masters gathered in the void space to discuss with one another.

"I'm willing to go," Seventh True Master spoke up. "Even if I were to meet with any danger, I have my palace supreme true treasure! Besides, I am a universe supreme master... I don't believe that the Duan Dong River who was annihilated endless reincarnation eras ago is able to leave behind a method so deadly that it can kill me."

"I will go with Seventh." First True Master nodded slowly.

Instantly, there was an uproar.

"First True Master."

"Teacher!"

“First True Master, how can you be the one going? If all of us should fail, the mission of transcending a reincarnation era has to depend on you.”

“Divine Eye, do not be so reckless.”

First True Master was the most powerful great being of the entire Divine Eye Clan. If he were to take the risk and be annihilated in the process, the clan would be in deep trouble.

“Speaking of power, I am one notch lower than Ancestor. Even if I were to compare with Huge Axe Creator, I might, at most, be on par.” First True Master sighed. “But to achieve a breakthrough of a reincarnation era... For countless reincarnation eras, only the Ancestors of the two holy land universes were able to succeed! I cannot even surpass Ancestor, nor Huge Axe Creator. Who am I to even think I can succeed in transcending a reincarnation era? It’s just too difficult! This time around, I’m afraid it would be our Divine Eye Clan’s very last chance.”

“Regardless, Divine Eye, you cannot be so reckless. I will go with Seventh. We just need to deploy more universe masters and universe knights!”

“Yes, Second and Seventh. We shall place all hopes on you both.”

Soon, all arrangements were properly in place.

The Divine Eye Clan had sent Second True Master and Seventh True Master, and with them, they lead a team of 20 universe masters and 100 universe knights in their quest for the inheritance, headed for the Universe Boat... To the Divine Eye Clan, this had become a desperate fight arising from jealousy over whose clan was more superior.

Groups of powers were indeed going crazy for the inheritance, especially the first reincarnation era, as they were originally in the face of impending doomsday. The second reincarnation era and primal universe were also coveting it... This was probably what the line “a man who does not have foresight will find worry right at his doorstep” meant. This so-called Duan Dong River’s inheritance, if they were to miss it this time, would likely not reappear again for at least the next few reincarnation eras.

If the various groups of powers knew that the Ancestors of the two holy land universes had made appearances just to give orders for this inheritance, it would probably drive nearly 100 groups of powers from the three great reincarnation eras into an even higher state of fervor.

Chapter 1225: The Rhinoceros Emperor Game

The outside world was wild with enthusiasm, but inside the life and death corridor within the Boat of Mausoleum, silence prevailed.

Deer Bug Master, Luo Feng, Shadow Dust Master, and Sorcerer Sprite Master were carefully flying along the corridor at a reduced speed. By the time Luo Feng received news from his race, Deer Bug Master, Shadow Dust Master, and Sorcerer Sprite Master had already learned of it much earlier... This went to show the great importance the races and clans attached to this event.

Purple Moon Ancestor had shown up to have a face-to-face conversation with Deer Bug Master's body personally! How honorable was that? At that moment, Deer Bug Master had the highest probability of becoming the greatest hero of Purple Moon Holy Land Universe.

The seven true masters had earnestly implored Shadow Dust Master and Sorcerer Sprite Master to do their utmost best, with the promise that Second True Master and Seventh True Master would lead a big team of universe masters to render support.

"All out! We shall go all out for the slightest chance for survival!" Shadow Witch Couple went berserk.

Deer Bug Master was also going crazy from the glory he was basking in. "Purple Moon Ancestor has made a personal appearance. This might be the most glorious moment of my life. I must do my very best."

Luo Feng, meanwhile, was feeling a magnanimous amount of passion. "The human race is weaker; the number of great beings is limited. I cannot compare with any of them in terms of headcount... So I shall depend on myself, Luo Feng, and my own capability."

The four great beings flew together. Occasionally, their gazes would meet, and their eyes were filled with enmity.

As they flew ahead, the corridor started to widen, and the surroundings started to get brighter. Gradually, stone pillars started to appear on either side of the corridor. On every stone pillar, there were virtual shadows of different forms; there could be square shadows, or pyramidal shadows, or polygonal shadows. In short, every stone pillar would have one virtual shadow. Those on the left side of the corridor had shadows that were compacted together, and within these shadows, there were 1,000 different kinds of ripples. The stone pillars on the right side of the corridor had shadows that were loosely scattered and, thus, were just barely able to form a skeletal frame.

On the left, there was a total of 123 stone pillars. On the right, there was a total of 10,080 stone pillars.

"What...?"

While flying, Luo Feng, Deer Bug Master, Shadow Dust Master, and Sorcerer Sprite Master wore expressions filled with doubts. They flew slowly, and along the way, they also carefully observed the three-dimensional virtual shadows on the stone pillars. These three-dimensional virtual shadows were all immensely huge, and within them, there were innumerable ripples.

The three-dimensional virtual shadows on 123 stone pillars on the left side corresponded nicely to the three-dimensional virtual shadows on the first 123 stone pillars on the right. On the left, the three-dimensional virtual shadows were compact and complete; they were well-structured, like the Great Wall of China.

The three-dimensional virtual shadows on the right, however, only had a skeletal frame, as though many bricks of the Great Wall had been being taken out, causing the entire structure to become so shaky that it seemed as though it would fall apart.

Every three-dimensional virtual shadow had a variety of colors, emitting thousands of light rays. At that moment, the inside of the entire corridor was so dazzlingly beautiful that it looked like paradise.

The foursome, including Luo Feng, advanced together and soon arrived at the end—the area in front of the 10,080th stone pillar on the right. All the light had gathered to give form to a figure, and that figure was Duan Dong River.

Shadow Dust Master and Sorcerer Sprite Master were the first to bow and pay their respects. “My Lord.”

This prompted Deer Bug Master and Luo Feng to also bow in respect. Yet Duan Dong River did not pay attention to the surroundings. His gaze fell upon the various three-dimensional virtual shadows that were held down by the numerous stone pillars. Then, with a sigh, he asked, “Do you all see it?”

Shadow Dust Master was the first to reply. “My lord, there is a total of 123 three-dimensional virtual shadows on the left, and a total of 10,080 three-dimensional virtual shadows on the right. Between both sides, the stone pillars on the left are perfect without flaws... It seems like they contain certain mysteries about secret techniques within them. However, those on the right are all imperfect.”

Deer Bug Master added, “The first 123 virtual shadows on the right happen to correspond with the 123 virtual shadows on the left.”

“That’s right,” Duan Dong River said, looking at those dazzling three-dimensional virtual shadows that were radiating millions of light rays. Tears welled in his eyes, blurring his vision as he whispered, “This is my hometown, and this was the most popular form of entertainment during the time of my civilization. It is also a method for cultivating and training comprehension. Any major group or power, unique inheritance, and several others would frequently utilize it when they needed to test the comprehension capability of their candidates for various purposes. This was called—Rhinoceros Emperor Game!”

“Rhinoceros Emperor Game?”

Luo Feng, Deer Bug Master, Shadow Dust Master, and Sorcerer Sprite Master all listened intently.

“Rhinoceros Emperor Game was created by an ancient, strong being, ‘Rhinoceros Emperor,’ before he was annihilated. He had put his best effort into creating it. Rhinoceros Emperor’s entire lifetime can be said to be sorrowful. He was a true hero, but in the end... Nevertheless, Rhinoceros Emperor Game was remembered by all the great beings of my civilization. Of course, his powers were much stronger than mine. After he was annihilated, this Rhinoceros Emperor Game was spread to the masses. In the early stage, countless great beings merely took it as a form of entertainment. Later, they discovered that it was extremely demanding on comprehension level! And often, studying the Rhinoceros Emperor Game was beneficial in increasing one’s comprehension level! In our civilization, be it someone as young as a child just born, or someone as high up as a supreme existence, all enjoyed this game.”

“For Emperor Rhinoceros Game,” continued Duan Dong River, “there is a total of 10,081 types of basic endgames. The right side has a total of 10,080 endgames, as for the so-called 10,081st endgame... it is the scoreless game! And on the left side will be the perfectly decoded games! Once you have supplemented the first 123 endgames and have brought them to completion, you will find the solution to the game.”

All four of them, including Luo Feng, nodded their heads to indicate understanding.

“Study the first 123 decoding methods,” Duan Dong River said. “You should be able to find out its basic secret rules. If you can’t even comprehend the basic secret rules, then your comprehension level is much too low... Once you have completed comprehension of the basic rules, you can proceed to decoding. Solve the first 124 endgames on the left. When you reach the 125th endgame... you will be able to find the solution! I will give you all a longer time. Just do your best in decoding for a solution. Once the time limit is up, if you cannot even meet my most basic requirements... you will be eliminated. Of course, in this round of elimination... you will certainly face annihilation.”

Luo Feng and the other three were taken aback. Annihilation?

“Of course, you all have yet to truly come in contact with the inheritance,” Duan Dong River said. “Only after you have decoded the game up to a level that meets my minimum requirement and arrive at the next big hall—that is when you can start to get in contact with the inheritance. If you have yet to come into contact with the inheritance, then of course, there is no need for total elimination of the soul. Even if you are to be annihilated, it will just be your current godly bodies that will be destroyed; if you all have other bodies, you still survive.”

Duan Dong River informed them of all this in a straightforward manner.

“However,” he added, “the moment you all start to get into contact with the inheritance, as there can only be one possible heir, the rest of you will be facing complete annihilation of the soul. Look ahead.” Duan Dong River pointed afar, then commanded, “Rise!”

Hong! Hong! Hong! Hong!

The ground in the middle of the corridor started to vibrate; the ground started to crack apart. At that moment, four light pillars radiating colorful light emerged.

“These four pillars belong to four of you.” Duan Dong River looked toward Luo Feng, Deer Bug Master, and the other two great beings. “Once you all have comprehended the secret rules, you can start decoding the game up till the 124th stage. When you have completed the game, use your godly power to draw an outline and transmit it within this crystal pillar. If the decoding is successful, the crystal pillar will prompt you. If the decoding is not successful, the crystal pillar will not show any reaction.”

“Go now. You may have a long time, but it is limited. Within the limited time, whoever can decode up to 6,000 stone pillars will receive the inheritance from one pulse of my Duan Dong River! Of course, to be able to decode 6,000 of them... this person is bound to have a bright future, and the success achievable may be even greater than mine. But I guess that none of you here will be able to achieve that yet; just try to meet the basic requirement within the limited time for now. The one who can decode the most at the end will gain the upper hand when it comes to the inheritance.”

Duan Dong River’s gaze swept across the four of them, including Luo Feng. Then he vanished into thin air.

Duan Dong River disappeared, and in this spacious corridor, there were 123 three-dimensional virtual shadows on the left and 10,080 three-dimensional virtual shadows on the right.

Luo Feng, Deer Bug Master, Shadow Dust Master, and Sorcerer Sprite Master all felt an intangible pressure.

“Game? Entertainment?” Shadow Dust Master whispered. “I can’t believe Duan Dong River has chosen us only to use this game from his ancient civilization to test us.”

“You fool,” Deer Bug Master said in a cold voice. “You really take this as a game? Weren’t you listening? That ancient civilization—from the younger generations, to the supreme masters—almost everyone liked this Rhinoceros Emperor Game. Besides, so long as we are able to decode the game up to the 6,000th stage, we may be destined for achievements that were greater than that of Duan Dong River Wu! That would be the same as saying that breaking through reincarnation eras will be an easy feat.”

The hearts of Shadow Dust Master, Sorcerer Sprite Master, and Luo Feng burned with passion. Breaking through a reincarnation era! Enabling one’s own clan to attain eternal existence! There was no other greater glory that one could ever ask for.

“Let my human race exist for eternity,” Luo Feng hoped silently.

Deer Bug Master shared the same fervent wish. “Purple Moon Ancestor regards this with such importance; he has long ago transcended the reincarnation eras, and his power was incomparably powerful. If he holds this inheritance in such high regard... then this inheritance is apparently extremely important. I would like to see this so-called Rhinoceros Emperor Game for myself and find out just how impressive it is. I don’t believe that I am unable to decode the game up to the 6,000th level!”

The hearts of the great beings burned with passion. Shadow Dust Master, Sorcerer Sprite Master, and Deer Bug Master were self-proclaimed universe masters; their conscious minds were able to revolve at extreme speeds, and that was extremely scary, as in a mere second, there could be countless thoughts racing through their minds. Naturally, they had what it took to gain the upper hand in the game.

Luo Feng did not lose out to them in mastering the game.

“I am extremely accomplished in the decoding diagrams of secret engravings,” Luo Feng said to himself. “This diagram of secret engravings and the Rhinoceros Emperor Game are both three-dimensional, so simply at one look... one can see the various secret engravings. These two have a common point, and even though I left the space of the black-striped stone pillars many hundreds of years ago, my consciousness has remained with the black-striped stone pillars to work on my comprehension of the laws and studying the secret engravings. With a time velocity that was faster by 3,000 times, my achievement in the studies of secret engravings is now much higher than before.”

Purple Moon Holy Land Universe.

“Ancestor.”

Deer Bug Master’s other body looked up at the vast sky. Respectfully, he said, “I am comprehending a method of the ancient civilization used for testing levels of comprehension—Rhinoceros Emperor Game. I will need to decode enough stages within a limited period of time, so now, what I need is a space where time velocity is extremely fast.”

Purple Moon Ancestor knew everything that happened within the holy land universe.

“Rhinoceros Emperor Game?” said a gentle voice. “I know that game. It is very difficult and profound. You must give your best. I will send this body of yours to ‘Circle of Time,’ where time velocity can be maintained at 10,000 times. Your true body will stay here in Universe Boat to observe while your consciousness can remain in the Circle of Time to continue comprehending.”

Sorcerer Sprite Master and Shadow Dust Master also went to plead with First True Master.

Within the miniature universe, a part of space where time velocity was extremely fast could also be set up. That was where their other bodies were planted.

Once he learned of the situation Luo Feng was caught in, Primal Chaos City Leader could not be bothered about anything else.

“Hurry. Your Remote Ocean body has to head for Huge Axe Creator’s miniature universe as fast as possible. Teacher Origin has been suppressed for eternity. This has prevented the primal universe from maintaining a perfect rate of acceleration. In Huge Axe’s miniature universe, a space can be set up to allow you to maintain an acceleration rate of 10,000 times.”

Primal Chaos City Leader personally retrieved Luo Feng’s new Remote Ocean body and headed for Huge Axe Creator’s universe.

Chapter 1226: Rule

Inside Boat of Mausoleum, all the stereoscopic phantoms glowed in different colors.

Luo Feng, Deer Bug Master, Sorcerer Sprite Master, and Shadow Dust Master all walked to the phantoms and stood in front of the stone pillars. They penetrated their godly power into the phantoms to study them.

Even though I’ve lived longer than them, my brain might work faster, Deer Bug Master thought.

Shadow, Sorcerer, and Lu Feng could feel the sense of hostility and competition in the air, though none of them spoke a word. They were the first ones here for the inheritance. They had the best chance.

Inside the miniature universe of Huge Axe Creator.

Around a section of land were whirlpools and black mist that seemed to be destroying the world. Luo Feng sat at the top of the mountain with his legs crossed, watching the whirlpools in the distance. His finger pointed to the space, and traces of godly power penetrated it and formed a complex stereoscopic phantom.

“How amazing! Such a complicated Rhinoceros Emperor Game! I’ve been trying to comprehend it for a while, but I have no idea how it works. What are the rules of this game?”

Luo Feng hadn’t played any game seriously before. While still living on Earth, he’d been trying to better his life and the lives of his family. After he became a warrior, he had never had a chance to relax. However, now that he was standing among the most powerful beings in the original universe, he started to study the most popular game from an ancient civilization. He was very curious about this game. After all, it could test—or even improve—one’s comprehension.

“What are the rules for this game?” Luo Feng said again, studying it carefully.

Although he had just started studying the game in Boat of Mausoleum, more than a day had passed outside the boat. Thanks to the speed of his brain, he could immediately finish studying the spaceship. However, he couldn’t even decipher the basic rules for the game.

“123 solved games in total?” he muttered. “123 solved games and 123 broken games. They correspond to each other. Light... Shape...”

Luo Feng studied it for more than three years.

“This is the game rule?” Luo Feng whispered, smiling a bit. “Rhinoceros Emperor Game is a stereoscopic game—like a complex engraving picture.”

“Rule number one: There are 10,081 basic elements!” Luo Feng said to himself. “Rule number two: On each micro-stereoscopic hologram, each basic element can only appear once. Rule number three: Every micro-stereoscopic hologram will change, which makes the holograms appear different from each other. No two lines of the hologram can have the same picture.”

“Rule number four...”

“Rule number five...”

“Rule number nine: In the ultimate solved game, the stereoscopic phantom formed by godly power has a perfect circle. The energies will exist forever.”

Nine rules, and all were extremely complicated. Even the mind of a universe master couldn’t remember the position of a basic element. Countless basic elements formed a micro-stereoscopic picture; countless pictures formed a small stereoscopic picture; countless small pictures formed a medium-sized picture; countless medium-sized pictures formed a stereoscopic phantom. Even universe masters wouldn’t have been able to remember them!

One needed to understand the mysteries behind the game. Just like performing techniques, one needed to understand the mysteries to truly perform it, as its complexity could not be memorized directly by the brain.

“Impressive!” Luo Feng exclaimed. “How complex the rules are! And each game formed is complete and doesn’t consume any energies? Impressive... Even the engraving of my miniature universe can’t achieve a perfect energy circle. The first round of Rhinoceros Emperor Game isn’t as complicated as the miniature universe engraving picture. However, it is exceedingly complex, and the energies last forever.

That's why it's perfect! No wonder Rhinoceros Emperor Game is so popular in Duan Dong River Wu. Amazing that someone was able to create such a mysterious game."

Luo Feng was excited. It was much easier to study Rhinoceros Emperor Game after learning the rules, and he was immediately attracted to the game.

Immediately, Luo Feng was addicted. It was interesting, challenging, and offered a sense of accomplishment. He admired Rhinoceros even more now for being able to create such a game. It had strict requirements for intelligence, and one needed to be at least an undying fighter to be able to contemplate the game.

Duan Dong River said that in the ancient civilization, everyone—including the children—loved this game, thought Luo Feng. Does that mean even children of that civilization were undying?

The idea flashed through Luo Feng's mind. Then he stopped overthinking and focused on contemplating the game.

Deer Bug master, Shadow Dust Master, Sorcerer Sprite Master, and Luo Feng were all staring at the stereoscopic phantoms.

Finally, Sorcerer Sprite Master transmitted the voice. "Shadow Dust! Shadow Dust! I've figured out the rules."

"What are the rules?" Shadow Dust Master was overjoyed. "This goddamn game! I've studied it for a long time, yet I still have no idea how the rules are."

"The rule is..." And Sorcerer Sprite Master notified him.

Shadow Dust Master was exhilarated. "Of course. Haha. No wonder I couldn't figure out the mysteries behind these phantoms. The connections between these stereoscopic pictures are so complicated. Sorcerer Sprite, we both know the rules now. How about the other two?"

They both glanced at Luo Feng and Deer Bug Master. Deer Bug Master and Luo Feng stood as still as sculptures.

"Don't worry about them," said Sorcerer Sprite Master. "We can communicate with each other and comprehend those together. We'll be way ahead of them."

"That's right. When the second true master and others from our race come here, we'll have a better chance."

From the three universe eras to the two holy lands, great beings from almost all the powers were heading toward Universe Boat. Great beings from the Heaven Clock Clan was the first to arrive.

Hong!

100,000 times faster than light speed, a broken shadow was roaming the space outside Flame Ice region. It was approaching Boat of Mausoleum at high speed. Jittery Sea Master, Red Lark Master, and the silent Rock Giant Master were all looking at that shadow.

“It’s a universe supreme master!”

Hua!

That broken shadow immediately slowed and stopped in front of the gate. The three universe masters were horrified and took a step back.

“Shadow Clock Demon Master?” The three universe masters all looked at the outside.

A black clock shadow floated outside the gate. Then the shadow dissipated. Followed by a ripple, a weird elder with long hair that had billions of small black clocks on it appeared. There were even clocks on his eyebrows and body hair. This was the typical outward appearance of a creature from the Heaven Clock Clan.

“Shadow Clock Demon Master.” The three universe masters gave a salutation.

“Ha! Skeleton race, thanks for the news!” Shadow Clock Demon Master laughed. “Three great beings from my race are rushing here.”

Three forces showed up.

“Go to that control room,” Shadow Clock Demon Master ordered. He looked at Jittery Sea Master. “You know how to go.”

“Of course,” said Jittery Sea Master. “This is the map.”

A trace of godly power flew outside his body, and a complex map was formed, leading to the center palace. It was a simple route, and it was easily understandable.

“Great.” Shadow Clock Demon Master nodded. “Then go.” Shadow Clock Demon Master took a look at the three universe masters from the Heaven Clock clan and added, “The hope of our race is borne on your shoulders.”

“Okay.”

“Okay.”

“We’ll make it or die trying.”

The three universe masters were also excited. They flew to the control room like three streaks of light.

After half a year, in front of the gate of Boat of Mausoleum...

“How are you stop us from getting in, Shadow Clock Demon Master! Do you want to fight us, the first Ancestral God School?”

“Get the hell out of here.”

“Shadow Clock Demon Master!”

Six universe masters had gathered in front of the gate. They were all universe masters staying around Flame Ice Region. They had come here after hearing the news. However, Shadow Clock Demon Master needed to take care of his race. He needed to stall any other great beings as long as possible.

“Humph!” Shadow Clock Demon Master stood there, ignoring them.

Hong!

A powerful force tore apart the surrounding space and time.

Shadow Clock Demon Master was horrified and looked toward the force. “Such a strong force!” he said. “Which universe supreme master is it? I’ve never seen you.”

Peng!

A beam of light rushed into the gate.

Shadow Clock Demon Master didn’t dare to resist it. He could tell that the palace true treasure was a supreme true treasure. Its powerful force permeated the surroundings.

An elder in a white cape surrounded with leaves landed. He glanced at Shadow Clock Demon Master.

“You are...” Shadow Clock Demon Master frowned. “Eastern Emperor Holy Land?”

“Humph.”

The white-caped elder didn’t even want to take one more look at Shadow Clock Demon Master. He waved his hands, and suddenly, 20 universe masters, 200 universe knights, and 2,000 undying fighters appeared.

“Go,” he ordered. “Get the inheritance for our Eastern Emperor Holy Land.”

“Yes!”

All the great beings rushed in. The Skeleton race had given the map to Eastern Emperor Holy Land a long time ago in an effort to befriend them.

“I, North True, haven’t been in Universe Ocean for more than ten universe eras,” the white-caped elder said, glancing at the others. “If Purple Moon Holy Land and the other powers haven’t arrived by now, they never will.”

Hong!

The white-caped elder waved his hands, and a giant black oval blocked the gate.

“Now that I’m here, let’s see who can get in.”

The white-caped elder took a step and merged with the black oval.

Chapter 1227: Malice

On the life-and-death corridor of Boat of Mausoleum.

There were six figures standing in scattered directions while observing the ongoing Rhinoceros Emperor Game.

“Any movement?” Luo Feng’s brows were furrowed, and he looked outward.

He could vaguely feel the bouts of ripples being transmitted over from the other end of the corridor. He guessed that was where he had earlier exchanged blows with Monster Cuello. The ripples produced during their battle had caught the attention of Shadow Dust Master, Sorcerer Sprite Master, Deer Bug Master, and the two other universe masters from Heaven Clock Clan. Their expressions did not look very well.

“Could it be that another great being has arrived?” Luo Feng mumbled to himself. “Duan Dong River has left the floodgate open, and for those from the Skeleton Race, who were eliminated at the very beginning, he did not kill them. Rather, he let them off unscathed. Obviously, he wanted the news to spread so that he could attract the attention of more great beings.”

The greater the number of candidates, the higher the chances of finding a great being that could accept his inheritance. Luo Feng could understand Duan Dong River’s intentions, but his actions added pressure to Luo Feng.

“Rhinoceros Emperor Game is really difficult. Although it has not even been a year here, in Huge Axe’s universe, I have been comprehending for a couple thousand years.” Luo Feng sighed. “A few decades of comprehension, yet I am still in the pondering stage. Now, I have merely passed up to the 119th stage and have instantly mapped it out onto the crystal pillar.”

From the first to the 10,081st stage, Rhinoceros Emperor Game was unbelievably demanding on one’s ability to comprehend.

Although the regulations had been summed up earlier—indicating that one only needed to decode a complete solution for the first to the 123rd stage—to achieve full comprehension and then to instantly map it out was still very difficult. Luo Feng had to fully comprehend the first 100 stages before he felt that he had made some improvement. That was an improvement in his ability to comprehend, as when he was thinking about the mapping process, his consciousness could take up a more multi-dimensional structure.

A short while later—

Hong!

A strong ripple was transmitted.

A great many figures were flying over. Luo Feng and the other five could not resist turning around to look, and what they saw brought changes to their expressions.

“So many.”

“This—this is really a lot!”

“How can there be so many?”

Luo Feng and the rest were shocked. With one look, the dense crowd of figures included at least a couple hundred great beings, and most of these hundreds of figures had similar appearances. For instance, their godly bodies were generally surrounded by green leaf vines. The majority of these figures were obviously from the same race, with only a handful who obviously were different from this race.

Shadow Dust Master's expression changed slightly. "Almost all of them are from East Emperor Holy Land Universe. Only three are from another race. East Emperor Holy Land Universe has unexpectedly sent so many over."

"Look, not all of them are universe masters! There are even universe knights and undying souls," Sorcerer Sprite Master added. "Previously, Monster Cuello had been extremely terrifying, but now, even universe knights and undying souls are able to make it pass Monster Cuello to come here alive... I think Monster Cuello must have taken into consideration the intruder's ability before showing its power."

"Yes. This news is very important. Previously, clans only brought more universe masters over to try their luck. They did not bring any undying godly spirits. This news must be transmitted to our clan!"

"If we are talking about undying godly spirits, the Divine Eye Clan has tons of them!"

Shadow Witch Couple's bodies immediately started to report the news to their clan.

But... the Divine Eye Clan acted first and sent Second True Master and Seventh True Master, who had already set off.

An icy-cold voice resounded. "The turnout is quite big this time."

Luo Feng turned to take a look and saw a lone figure that was formed by converging light rays standing in the distance—Duan Dong River. Luo Feng merely cast one brief look. Thereafter, he did not pay further heed to Duan Dong River. Every time there were newcomers, Duan Dong River would come out to repeat the same explanation. Earlier on, when the two universe masters from Heaven Clock Clan arrived, Duan Dong River also gave the same explanation.

Occasionally, Luo Feng would pay attention to the situation in his surroundings, but in doing so, he felt that it did not have the slightest bit of influence on his speed of comprehension. He, Deer Bug Master, and Shadow Witch Couple, being the earliest batch, were in an advantageous position. Even if an outstanding great being turned up later, so long as any one of the four managed to meet the basic requirement, he or she would naturally be able to get in contact with the inheritance first.

Time flew by.

In the blink of an eye, a month had passed.

"Previously I managed to complete mapping out the first 100 stages. I felt as though things were brightening up, and I was cheering up over the fact that I had made marked improvement. Now, I have fully comprehended the first 123 stages. I am left with this 124th stage."

Luo Feng cast a glance at that 124th endgame that was quite a distance away. Then he focused all his attention on the crystal pillar before him and started to try decoding! The first 123 stages were fully comprehended, but because the solutions were already publicized, there was no difficulty at all. All he

had to do was comprehend the solutions thoroughly. At that moment, he was facing the first true attempt at decoding.

It was not like before, where he just had to look at the outcome of the decoded game to comprehend it. This time, he had to look at the endgame to decode the game. Obviously, he felt terribly bothered.

Once!

Twice!

Luo Feng tried to map the layout, even for those basic elements that he was unclear of, he mapped them based on his gut feeling. With the passage of time... Luo Feng's mind got clearer, as though his mind was sketching from tens of thousands of dimensions that were combining with one another, and very quickly, the basic elements were determined. This was his first attempt at decoding, and suddenly, he felt that he had gained new experiences on top of the knowledge he had learned from his previous comprehension.

Half a month passed.

Weng!

A three-dimensional virtual shadow of a cone was forming within the crystal pillar. From the outside, no one could see it. The three-dimensional virtual shadow was perfect, suspended in midair. Not the least bit of godly power could be dissipated.

A bout of ripples was immediately transmitted to Luo Feng's consciousness: "The 124th stage has been decoded to perfect completion."

Luo Feng was secretly happy. Finally, he had managed to succeed in his first attempt at decoding...

"I shall move on to the 125th stage."

Time passed.

When the group of great beings from the East Emperor Holy Land Universe arrived, Luo Feng and company could feel the ripples caused by battling of supreme great beings from the outside world. And since those were ripples caused by battles in the outside world, to have that amount of power, the battles must have involved universe supreme beings.

It was the fifth month since great beings from East Emperor Holy Land Universe arrived.

Hong! Hong! Hong!

The terrifying ripples were transmitted across the different layers within the Boat of Mausoleum, with their power weakening while traversing layers. When it reached the life and death corridor, where the comprehension of Rhinoceros Emperor Game was ongoing, even the undying godly souls were able to detect the ripples.

For the majority of great beings, like Luo Feng and Deer Bug Master, the amount that they detected was naturally much stronger.

“That loathsome East Emperor Universe!” Deer Bug Master’s eyes flashed with a glimmer of rage as he looked coldly at the universe masters, universe knights, and undying godly souls of East Emperor Holy Land from afar. “That North True Star Master actually blocked the doorway. He actually blocked the cabin doors. Humph! North True Star Master is in an advantageous position only because he has many supreme true treasures. That is why he dares to show such arrogance.”

The three reincarnation eras knew very little about North True Star Master. But for someone who had lived for a long time, Deer Bug Master knew a lot about North True Star Master.

Incomparably ancient, North True Star Master was one of the few remaining universe supreme beings of East Emperor Holy Land Universe. East Emperor Holy Land Universe had been around for a long time and had therefore received countless ancient inheritances. North True Star Master may not have owned a miniature universe, but even relying on the ancient inheritances, his battle power was still considered quite strong among all the universe supreme beings.

Taking the field this time, East Emperor Holy Land Universe was putting in its 101 percent best; North True Star Master had the other universe supreme beings loaning their true treasures to him, so he had brought along a whopping four supreme true treasures! The four supreme true treasures were palace type, domain type, close combat attack type, and long-range attack type, respectively.

Once he blocked the door, great beings from the Purple Moon Holy Land who arrived later would not be able to charge their way in.

Deer Bug Master was furious and grumbled his displeasure. “Loathsome.” Then, pushing North True Star Master out of his mind, he put in his best effort into studying the secret techniques.

Battles in the outside world were ongoing. Purple Moon Holy Land and East Emperor Holy Land were really fighting each other to life and death, and both parties were amply prepared. As North True Star Master was first to arrive, his blocking of the entrance of the cabin doors had really left his opponent with no way out.

This time, North True Star Master could arrive earlier due to certain reasons. One, he had an attack type supreme true treasure to help him pave his way. And two, the clan had a more detailed map of the Universe Boat, so he could find an even nearer shortcut.

The difference in arrival time of both Purple Moon Holy Land and Divine Eye Clan was not that far apart. Merely three days.

On the third day of battle between Purple Moon Holy Land and East Emperor Holy Land...

“North True! Scram!”

“North True, you think you are able to stop the three of us?”

“Get lost!”

“Eternal True God! Go, get him away.”

At the cabin doors, Purple Moon Holy Land and the Divine Eye Clan joined forces. The three universe supreme masters were doing their best to lay siege to North True Star Master. The universe supreme masters of the Divine Eye Clan... Every single one of them owned a miniature universe. The power that each possessed was extraordinary. Furthermore, Second True Master and Seventh True Master were also skilled in concerted moves.

North True Star Master might not have been afraid, but he could only hold out for that short moment before he was blasted away.

Luo Feng and a couple hundred great beings were hard at work, trying their best to comprehend the Rhinoceros Emperor Game, and, not surprisingly, Luo Feng and Deer Bug Master were the few who were faster.

As for the other universe knights and undying godly souls who had come over, their speed of comprehension was much slower—especially a handful of undying godly spirits, who, although they were already briefed by the other universe masters of the same race about the rules of the Rhinoceros Emperor Game, were still unable to grasp a full understanding of it.

Hong! Hong! Hong!

From where Monster Cuello was, there were bouts of energy ripples being transmitted over.

Luo Feng was aware of it. Most likely, this would be another large batch of newcomers.

“So many have come, but in the end, only one can receive the inheritance.”

Luo Feng sighed. Madness, the clans had all gone mad.

After a long while, a mighty group of a couple hundred figures flew over. At first glance, a majority consisted of undying godly souls from Purple Moon Holy Land! As for the overall number of universe knights and universe masters, Purple Moon Holy Land seemed to have the same number as the Divine Eye Clan, which was also similar to East Emperor Holy Land Universe, or probably only short by two. But if Deer Bug Master was added to the headcount, then Purple Clan Holy Land would, on the contrary, be at an advantageous position.

“This is the most basic rule.” Deer Bug Master took one look and started telling the latecomers discreetly.

Hazy light rays started to gather.

The light rays gave form to a green-haired man. He had eyes that were peaceful like the ocean, and as his gaze swept the 1,000-plus candidates present, he said, “Those who have come later, this is the last test before moving on to the next hall. It is a test on your comprehension. This is my hometown. It is a game that is most widely spread. It should not be seen simply as a game, but rather, as an important means to help you hone and cultivate your comprehension. He can test and increase your comprehension, and he is given the name—Rhinoceros Emperor Game!

Duan Dong River gave a slow and elaborate introduction.

“Let’s begin. Within a limited time, those whose decoding progress has reached my minimal requirement may enter the next hall.” Duan Dong River scanned the room with a cold look. “Do not underestimate this Rhinoceros Emperor Game... The four who came the earliest—humph! Up until now, only the human was able to perfectly decode the 124th endgame. The other three are still too slow. If this goes on—humph...!”

Duan Dong River shook his head and laughed coldly. Then he vanished into thin air.

The moment his words were heard, almost simultaneously, over 1,000 candidates present—from the Divine Eye clan, the Purple Moon Holy Land, the East Emperor Holy Land, and the other groups of powers—all looked over at Luo Feng!

Luo Feng’s expression changed slightly, too. “That loathsome Duan Dong River. This is pure malice. How could he? How could he utter such words?”

“Attack this human! So that he cannot focus on comprehending!”

“Attack.”

“Attack this human.”

Deer Bug Master and Shadow Witch Couple stood afar wordlessly with distant looks on their faces. As for the Divine Eye clan, Purple Moon Holy Land, and East Emperor Holy Land, all three had sent two to three universe masters out almost at the same time to launch attacks on Luo Feng. Duan Dong River might have given instructions for them to work on comprehending, but he did not forbid killing during the process of comprehending.

Chapter 1228: Extermination

The Divine Eye Clan, Purple Moon Holy Land, and East Emperor Holy Land had a total of eight universe masters launching attacks at the same time, all of them were blazing their godly powers, then either directly, or transformed into a roaring beast, a huge axe that could hack and shatter everything, countless threads entwined together... various attacking methods they deployed, all directed towards and enveloping Luo Feng alone.

“This detestable bunch of idiots!” Luo Feng was so angry that he was grinding his teeth.

Then, right away, his godly body trembled.

Hua!

Crazy Demon Extermination Godly Armor suddenly expanded. Soon after, it condensed into a beast god—a gigantic, single-horned lizard! It was just like Yin Tuo’s Golden Sulphone Armor and Five Chaos Master’s Crazy Demon Extermination Godly Armor, which could also transform into beast gods; their actual bodies would hide within the beast gods’ bodies. Usually, a protective armor that could expand outward and then condense into the form of a beast god was much more valuable than ordinary pinnacle palace true treasures.

“Roar!” The single-horned lizard let out a piercing roar. No matter how strongly the eight varieties of attacks connected with it, it did not show even a trace of damage.

“Divine Eye Clan, Purple Moon Holy Land, and East Emperor Holy Land!” the single-horned lizard roared with rage. “To think you all could be shameless to such an extent!”

The great beings from the Divine Eye Clan scoffed. “Shameless? What a great joke! With the impending doomsday, this precious Duan Dong River’s inheritance is our only hope for survival. For this inheritance, nothing we do could ever be shameless enough!”

A three-faced elder with eight arms from Purple Moon Holy Land sneered and said, “Luo Feng, you humans want this inheritance too? You are merely a weak little race with a single universe supreme master. How ridiculous!”

The single-horned lizard shot him a look of indifference. Weak? They must have been unaware of the power of Huge Axe Creator.

A cold, gloomy great being from the Divine Eye Clan glared at Luo Feng. “You think you can disregard us just because you have an armor treasure? Everyone, time to take action. Let’s exterminate this greatest threat in our way.”

“Sure.”

“Even if we don’t manage to kill him, we should ensure that he cannot focus on studying the Rhinoceros Emperor Game.”

Suddenly, the eight universe masters continued to besiege Luo Feng. Previously, they had stood afar and merely executed their techniques with their godly powers, so the might of their attacks was not very forceful. But this time, the majority of them were fifth-tiered or at least fourth-tiered universe masters. All of them were executing their killing moves—be they soul attacks or close-range attacks.

“Roar!” The single-horned lizard continued to roar furiously. “A bunch of bastards! You all don’t even dare to go through a round of fair comprehension.”

“What is fairness?”

“You weak human! You are not qualified to ask for fairness. You are too weak!”

“Haha! What a joke you are.”

Amidst all the jests and jeers, they rained attacks on the single-horned lizard without holding back whatsoever.

Hong!

The single-horned lizard reeled back and hit the sidewall, colliding with one of the stone pillars that sported a three-dimensional virtual shadow. This caused the stone pillars to tremble, but they were indestructible. Thus, the eight universe masters grew even more rampant in their attacks. Beneath their onslaught, Luo Feng was rendered helpless with no room for retaliation.

Crazy Demon Extermination Godly Armor, when expanded into a beast god, has extremely strong defense abilities! he thought. It is comparable to a pinnacle palace true treasure... yet its combat power is still at a fourth-tier standard. Out of the eight, six are obviously stronger than me, and I am only on par with the other two. The most terrible thing is that those two are not taking me on one by one—they are all ganging up on me.

Luo Feng was in a panic. He was sustaining the stability of the single-horned lizard by consuming his godly power. Although he was trying his best to put up a fight and evade their attacks, he was still being crushed. Amidst all this fighting, he had to ensure that he was maintaining the stability of the single-horned lizard. This alone, kept him distracted.

The efficiency of comprehending suddenly fell.

“Loathsome!” growled Luo Feng. “Duan Dong River is simply watching all this happen?”

Luo Feng was furious. He was also confused as to Duan Dong River’s true intention. For Duan Dong River to have made such a comment earlier on, it was as if he wanted to make Luo Feng a public enemy! The fact that Luo Feng had a relatively short cultivation time was well-known throughout Universe Ocean, and he was part of the first batch that went in to receive the inheritance for this round. When he had been at the magicube instrument, he had been able to make an impression on Duan Dong River, and he was also the first to successfully comprehend the 124th stage of the Rhinoceros Emperor Game.

Various factors were at play. How could the Divine Eye Clan, Purple Moon Holy Land, and East Emperor Holy Land watch while Luo Feng was about to receive that inheritance? Of course they would use their most devious means to stop him!

“Roar!” The single-horned lizard let out a furious roar, and four hooved feet suddenly stomped onto the ground as it dashed across the shadows and flew toward the other end of the passageway, where another group of undying godly spirits were.

“Not good.”

“Take cover, everyone!”

Those undying godly spirits all had a great shock. They were implicated in a battle between universe masters!

In fact, from the start of the siege, no one had yet to be annihilated because no one knew what rules Duan Dong River would impose. Since it was a one-time selection of candidates, Duan Dong River would most likely not want to see any killing among his candidates, which was why the eight universe masters made the smart move to control hold back while attacking Luo Feng. This was also why all the combat that had been going on did not implicate any of those undying godly spirits.

But now, Luo Feng had charged his way in amongst the group of undying godly spirits. Once the fighting started, even if efforts were put into controlling the situation, even a minor implication would most likely cause an undying fighter to face annihilation.

Peng!

A dazzling, heavy hammer appeared, seeming to fill the whole space between heaven and earth; it hacked the back of the single-horned lizard, causing it to buckle to its knees. Bouts of invisible waves were produced in succession, and the undying godly spirits who had already tried their best to escape at lightning speed were still implicated. Two unlucky ones eventually faced annihilation and were reduced to nothing but ash carried away on the wind.

Hu!

They were instantly dispersed upon annihilation.

“Dead!” The single-horned lizard took one look behind him.

“Two undying fighters have lost their lives!”

The eight universe masters laying siege against Luo Feng were also shocked. They temporarily stopped to observe the movements around them. Shadow Dust Master, Sorcerer Sprite Master, and Deer Bug Master also watched with great eagerness. The three of them had yet to intervene with any matters that concerned Luo Feng since the group of great beings had arrived. Since the three of them—representing the Divine Eye Clan and Purple Moon Holy Land—were the most hopeful candidates for the inheritance, the two groups of powers naturally would not be willing to let them take the risk.

There was silence for a moment. The single-horned lizard and the eight universe masters laying siege on it all watched, waiting to see if the deaths of the two undying fighters would arouse any action from Duan Dong River.

Chi! Chi! Chi!

Suddenly, from the stone pillars with three-dimensional virtual shadows—123 on the left and 123 on the right—there was an outburst of black and white lines. A total of 246 light rays were converging in midair in an instant. They transformed into a single beam that had a spirit of its own, swimming about like a water snake. This ray of light immediately swept toward the universe master from East Emperor Universe who was dealing strikes at Luo Feng with his huge hammer.

The ray of light ray extremely fast. It exceeded 100 times light speed, surpassing the limit allowable by the Universe Law.

Shua!

All the great beings felt a quick and forceful wave.

“Ah!”

A roar of reluctance was heard as that lofty universe master holding his godly hammer was annihilated, leaving behind some true treasures on the ground.

Hundreds of rays of light began to cover and wind about the godly hammer, the armor, and some other true treasures. Then they swiftly were sent to one of the nearest stone pillars with a three-dimensional virtual shadow. The godly hammer, armor, and other true treasures instantly disappeared into the pillar.

Silence resumed within the passageway. A long time later, hushed voices began to speak.

“Fog Creator Master is dead?”

“Fog Creator Master...”

“Fog Creator Master of East Emperor Holy Land Universe...!”

Every great being present was taken aback. Even Luo Feng felt a shudder in his heart. This was simply terrifying. Originally, he had thought that even if Duan Dong River were to mete out punishment, it would probably be something like deploying his monster-like subordinates, like Cuello. But much to his surprise, the numerous stone pillars along the passageway contained secret techniques, which could be activated even after their masters had been annihilated countless reincarnation eras ago. One strike, and Fog Creator Master was exterminated!

Fog Creator Master had been a special life-form that lived within East Emperor Holy Land Universe. He was skilled in techniques like the trapping of enemies, and furthermore, he was originally a living soul composed out of a mass of fog. Even after he had been condensed into human form, killing him was still extremely difficult. He had spent innumerable reincarnation eras cultivating his achievements in secret techniques, so even though he was just a living soul made up of fog, he was able to execute extremely strong attacks. In terms of power, he was definitely comparable to Primal Chaos City Leader! And in terms of the ability to protect himself, he was a notch stronger!

This life form had lived through incomparably long ages. He had been a being that could roam Universe Ocean without restraint. Even universe supreme masters found him to be extremely difficult to exterminate. And in a single stroke, he had met with annihilation?

“Horrifying!”

“This is just too scary.”

“Fog Creator Master is exterminated—just like that.”

Some of the weaker undying godly spirits showed fear in their eyes.

Luo Feng, on the other hand, discreetly let out a sigh of relief. Duan Dong River was indeed impressive. Although a thunderous technique would have probably been enough to frighten this bunch, Duan Dong River was vicious, executing instant extermination and plundering the treasures immediately.

“Previously, when we were laying siege on human form Milky Way, Lord Duan Dong River did not stop us at all,” said the gloomy and cold man from the Divine Eye Clan. “This time around, it must be because undying godly spirits were implicated, so Fog Creator Master had to die.” He added in an aloof manner, “So long as we do not implicate any great beings around us, we should be fine.”

“True. We were fighting for so long, yet he did not stop us. He did not punish us!”

“Let’s get moving.”

“We are the three groups of powers with the greatest advantage now. We must not let Luo Feng be the ultimate candidate to accept that inheritance. We must restrain him first. As for we three groups of powers, we shall just have to rely on each other’s abilities.”

"I propose that all undying godly spirits and universe knights temporarily go into the palace true treasure," the gloomy and cold man said immediately. "We already know the rules. Now we just have to familiarize ourselves with how to play the game. Let them stay within the palace true treasure to work on comprehending the game first. This will ensure that they cannot possibly be implicated in any way."

"Good idea."

"I second that."

The three groups of powers—the Divine Eye Clan, Purple Moon Holy Land, and East Emperor Holy Land—hesitated no longer. With the universe masters taking charge and all universe knights and undying godly spirits under their command, all were sent into the palace true treasure for the time being.

Luo Feng was in the form of a single-horned lizard as he stood where he was, looking at the other seven figures in the distance.

"Fog Creator Master is already dead! Do you all seek your deaths too?" The single-horned lizard let out a low growl.

A man from East Emperor Holy Land Universe whose entire body was surrounded with vines and green leaves retorted with a jest, "Fog Creator Master's main body was annihilated, but he still has his other body kept alive! All of us surrounding you can divide our bodies. So long as we can destroy you so that you are unable to lay hands on the inheritance... does it even matter if our main bodies are annihilated?"

"That's right. So long as this human is dead, our deaths are worthwhile."

"I came here, originally, with no intentions of getting that inheritance. So long as I can remove all the obstructions in the way for my clan's members to be able to get that inheritance, annihilation is worthwhile."

The seven universe masters were all mentally prepared. If they were to be annihilated, they would do so most willingly—not to mention that they were willing to be exterminated in the passageway, which would only mean the extermination of their bodies. Their divided bodies would still be kept alive.

"You weak little human, dream on! This inheritance... You will never get it."

Seven figures surrounded the single-horned lizard and charged toward it at the same time. They were all prepared and would rather give up their chance of comprehending the Rhinoceros Emperor Game just to ensure that they had this human under control—so that they could destroy him!

Chapter 1229: Ice Cliff Fortress

Within the life-and-death corridor of the Boat of Mausoleum, there were many towering figures. They were either plant life forms, blood and flesh life forms, or rock life forms. They bore all sorts of appearances and wore different kinds of armor and robes, of which the Divine Eye Clan, Purple Moon

Holy Land, and East Emperor Holy Land were the top three strongest groups. Every single one of them possessed powers that exceeded ten universe masters combined.

There were also several other universe masters scattered about. These universe masters were at areas that were extremely close to the Flame Ice Region. Thus, they were able to rush over in the shortest time possible. They might be powerful, but they did not dare meddle with how the top three powers were dealing with human form Luo Feng.

“Poor human.”

“Unlucky fellow.”

“That human Milky Way was pretty fast in comprehending the Rhinoceros Emperor Game. Duan Dong River has made it known so directly. If the two of us are also fast in comprehending the Rhinoceros Emperor Game, will it be publicized? Or will we be mobbed?”

“Even if we did decode the game, let’s hide our ability for now and not let it show in the crystal pillar. It’s not too late to show after some time, when the number of great beings in here gets bigger. By that time, our clan’s great beings will have become stronger.”

“True.”

Although they could see that Luo Feng was being besieged, they showed no trace of pity at all because deep down, they all coveted that inheritance... If Luo Feng—the most hopeful candidate for the inheritance—was out of the way, that works to their advantage.

“That loathsome bastard!”

The same moment the horned lizard’s sharp claws clashed with that huge grinder with a loud bang, its tail transformed into a dazzling arc of light with a sudden lash. Then, just like marks made by a battle blade, it slashed toward that single-eyed special life form of the Divine Eye Clan.

Although those surrounding Luo Feng at that moment belonged to the three groups of powers, not all of them were clansmen of these three groups of power. For instance, Fog Creator Master, who had been killed by Duan Dong River through the use of an activated secret technique that the stone pillars contained, was not from any of these clans. He was a special life-form.

Some top groups of powers would have subjects under their command.

For instance, the primal universe had humans. Thus, the human race formed the Hong Alliance with a couple of universe masters under its command. Say, in the future, the primal universe faced destruction... Luo Feng and all of humanity would have to enter the miniature universe. At that time, an even smaller part of their space would have to be divided out for their subjects. At least, as individuals, these universe masters were still able to continue surviving independently.

These universe masters would naturally be of a lower status compared to the people of the human race, and in situations that involved greater risks, they would be the ones sent to deal with the situations, regardless of the dangers they had to face! Of the great beings who were dealing with Luo Feng this time around, the majority were subjects of the top three groups of powers with the abilities to divide

bodies. Although they were subjects, they did not fall short in terms of combat ability and were able to put up a tough fight against the toughest opponent.

Luo Feng was besieged by the seven great universe masters.

“Milky Way, you are really quite good in struggling. This armor of yours works really well... Losing that pair of silver wings, you unexpectedly gained this worthy armor. But what use could there be for you to put up a struggle? Fighting against us at full force, even if you managed to stay alive, how much effort would be left for you to commit to the Rhinoceros Emperor Game?”

“Give up. It is better to back off early.”

They were at an overwhelming advantage, as Luo Feng was, after all, still weaker in terms of godly power. And even if he was not inferior in many other areas like knowledge of secret techniques, when it came to comparing godly power, he barely made it to the same level of power as the weakest one among all seven great universe masters. The moment they laid siege on him, he would have no choice but to be trampled upon; relying on his Crazy Demon Extermination Godly Armor, he was able to expand and take the form of Beast God. That was how he gained an extremely strong defense ability that allowed him to pull through all the attacks.

“This will not do.” Luo Feng was fighting at the speed of lightning whilst in the body of the single-horned lizard. He was filled with anxiety. “This cannot go on. I need to maintain the Beast God’s existence at all times, but it is consuming too much godly power. As time drags on, too much of my godly body will be consumed. And in Universe Ocean, the rate at which my godly power replenishes is slow. Moreover, even if I am not worried about using up my godly power, to continue fighting in this manner, the efficiency of studying Rhinoceros Emperor Game will be greatly reduced. I can’t be bothered with so much.”

Luo Feng gritted his teeth.

As there was a large number of universe masters present, to the extent of two universe supreme masters amongst them. Luo Feng had not wanted to take Star Tower out. But, forced into a corner as he was now, he had no other way out. His comprehension of Rhinoceros Emperor Game was too important.

The besieged, single-horned lizard was fleeing helter-skelter as the seven great universe masters launched attacks brazenly. Suddenly—

Hong!

From within the single-horned lizard’s body, a crimson tower emerged, and the single-horned lizard speedily disassembled itself to enter the crimson tower. Then this crimson tower sat itself on the corridor’s ground and moved no more.

“A palace true treasure!”

“How dare you hide within your palace true treasure. You really think we have no way to deal with you?”

“Foolish fellow. Hiding within a palace true treasure is actually the best way to court death.”

The seven universe masters surrounded the crimson tower and looked at what was in the middle of their circle. Then they looked at one another and started to laugh.

“Who shall make the first move?”

“Who is willing to make a move?”

“This is an opportunity. You should take it.”

“I think it is better for you, Wind Wolf Master, to do it. Your sealing true treasure is one of the best among the pinnacle true treasures. We will be more certain that we can seal him inside the tower.”

At that moment, within Star Tower, Luo Feng could clearly hear every word of the conversation going on outside. He was inside the control hall of Star Tower and did not dare slacken to the slightest degree. He carefully observed the outside world, listened to every sound, watched the universe masters in conversation with one another, and could not help letting out a snort of laughter.

“You all must be kidding,” he said. “Sealing? You all are thinking of sealing me in here? Even the best out of all the pinnacle palace type true treasures... This is a sealing type supreme true treasure we are looking at. There is no possibility of sealing this type of supreme true treasure at all.”

Outside, Wind Wolf Master sneered. “All right, leave it to me. With my treasure... he will only be able to escape my seal if his palace is also the best out of all pinnacle true treasures. Otherwise, he will not be able to escape at all... Once sealed—”

Wind Wolf Master continued no more. He was worried that Duan Dong River would catch wind of their conversation and attack him.

Once sealed, there would be no chance for Luo Feng to get into contact with the crystal pillar. Therefore, there would be no chance to receive the inheritance.

Previously, two candidates who were undying godly souls were implicated and subsequently died, therefore leading to the annihilation of Fog Creator Master.

Wind Wolf Master was also worried because sealing Luo Feng within the tower would deprive Luo Feng of any chance of receiving the inheritance, which would also lead to Luo Feng being annihilated. After sealing Luo Feng, it was no big deal if Luo Feng was annihilated. However, if he had spoken too much before the sealing took place to have provoked Duan Dong River into killing him, then he would have been so wronged.

“Human!” Wind Wolf Master held out his palm, and instantly, a dazzling tri-color tower shaft appeared suspended in midair. He snorted while looking at the crimson tower. “Seal!”

Wind Wolf Master’s godly power burned up to activate his true treasure; the next moment, the tri-color tower shaft flew over to station itself directly above crimson Star Tower. A hole appeared at the bottom of the tower shaft, and an intangible yet powerful suction energy was exerting its influence over Star Tower. It started to pull on it like crazy.

Hong! Long! Long!

The force acted strongly over Star Tower, causing Star Tower to shake slightly.

When Wind Wolf Master saw how Star Tower merely trembled slightly without even leaving the ground, he gritted his teeth and growled, "Seal!"

"Just a little bit more."

"Fog Creator Master, your sealing true treasure's suction force is not enough."

"Add a bout of power, put in your very best."

The other six universe masters were urging him on out of anxiety.

Fog Creator Master was furious. He turned and shouted, "I have been putting in my best since I arrived! If my power is still short of that little bit, what can I do? To be able to put up such resistance, this human's true treasure is also a pinnacle true treasure that is one of the best. If any of you have something better, why not give it a shot?"

"I'll do it," a hostile man with a single-eyed shadow behind him volunteered.

Luo Feng was looking at the outside in a relaxed manner as he thought to himself, They must be kidding if they are thinking of swallowing Star Tower without it putting up any resistance. The other party must be using a supreme true treasure to make that possible! Otherwise, if both were sealing type... is it possible for a pinnacle true treasurer be able to seal his Star Tower?

Sealing failed. Those universe masters would only think of his crimson tower as one of the best pinnacle true treasures. They would not have considered that it might be a supreme true treasure.

Seeing how the universe masters failed one after another, Luo Feng did not dare to lose vigilance. He was afraid that these guys were capable of other means on top of sealing.

A dozen great beings from the Divine Eye Clan, Purple Moon Holy Land, and East Emperor Holy Land had gathered here, and everyone was filled with anxiety. Earlier, the seven universe masters who had laid siege to Luo Feng had failed and had gone to the extent of borrowing true treasures from other great beings. Yet none had succeeded, even by force.

"This human has too many valuables. His armor is a treasure, and this tower true treasure, I think, is one of the best pinnacle true treasures that are hard to come by. To swallow it, I think only a supreme true treasure could achieve that."

"True."

"That's right."

"Seems like we have to turn to a universe supreme master for help."

"Right. Only a universe supreme master would have the means to."

"Divine Eye Clan, out of the three of us, only your clan has universe supreme masters present here."

“We will all be looking to you to complete the task.”

Everyone was frowning, even Deer Bug Master, Shadow Dust Master, and Sorcerer Sprite Master had noticed everything that was happening.

Shadow Dust Master sent the news to Second and Seventh True Masters of Divine Eye Clan via voice transmission. Out of the various great beings, there were certainly a handful whose powers transcend them all. “True Masters, we are at our wits’ end. I think only True Masters’ intervention will be able to deal with Luo Feng.”

This time around, the representatives from the Divine Eye Clan included, other than universe masters, Second True Master and Seventh True Master, who decided to join in the game. However, since the moment they had arrived, they had been silently comprehending the Rhinoceros Emperor Game without intervening in this matter. Right then, the universe masters were no longer able to find ways to deal with Luo Feng. These two true masters were their only hope, now.

“Shadow Dust, Sorcerer Sprite, we have just arrived,” Second True Master explained via voice transmission. “However, Duan Dong River has already set the rules which forbade us to attack any other candidates. We either don’t attack at all, or we meet our doom.”

“Ah!” Shadow Witch Couple were shocked to learn of this.

At the same time, Second True Master also transmitted this news to notify the other universe masters of the top three strongest groups of powers.

“What should we do now? Do we really watch helplessly while Luo Feng receives the inheritance?” Deer Bug Master replied via voice transmission.

East Emperor Holy Land and Purple Moon Holy Land were adding to the pressure and urging on the side.

Second and Seventh True Masters looked at one another. As their gazes met, they quickly came to a decision.

“I have a palace supreme true treasure, Ice Cliff Fortress, that has the ability to seal.” Seventh True Master gritted his teeth as he transmitted this information. “However, this supreme true treasure recognizes its master and has very stringent requirements on willpower. If a universe master were to use it... this universe master must have the willpower of a universe supreme master. All of you from the Two Holy Lands, your universe masters have lived through countless years. There are a few who have willpower that matches that of universe supreme masters. You just have to nominate one of these few and let him interact with the supreme true treasure to get it to recognize him. Then this universe master will be able to use Ice Cliff Fortress to seal Luo Feng.”

“Then who shall it be?”

Purple Moon Holy Land and East Emperor Holy Land took some time to ponder this question because the great being to be sent as a representative would face a high chance of annihilation.

“Humph. The Divine Eye Clan has provided our supreme true treasure. How could it be fair to ask us to send one of us out there?” Seventh True Master transmitted his question angrily. He was also very anxious. If not, he would not have been willing to put his supreme true treasure out in the open. And he

was also prepared for the moment when Luo Feng was sealed; he would seize back his supreme true treasure to prevent Duan Dong River from taking it away from him.

“All right, East Emperor Holy Land will go.”

Soon, one universe master stepped out from the crowd.

“Very well,” Seventh True Master transmitted his order. “With a supreme true treasure, unless that human Milky Way also has a supreme true treasure, there will be no escape for him!”

Chapter 1230: Clenching One’s Teeth

It was Huang Ke Master who came forward. He was from Eastern Emperor Holy Land. He had multiple bodies, and others had discovered that his comprehension abilities were inferior, so he would have loved to come forward and make some contributions to the race.

“Seventh True Master, that Ice Cliff Fortress...” Huang Ke Master stood aside and waited for Seventh True Master to take the supreme true treasure out.

All the other universe masters were looking at him.

“Haha, do you really think I’m foolish enough to just give it out like that?” Seventh True Master glanced at Huang Ke Master and smirked. “After all, it’s a supreme true treasure. If you take it and refuse to return it in the future, what can I do? I have a suggestion... You give us a supreme true treasure or some pinnacle true treasures. After we finish dealing with that human Milky Way, we’ll give each other’s true treasures back.”

“Humph! What if that supreme true treasure is taken by Duan Dong River?” Huang Ke Master said coldly.

Seventh True Master shook his head and transmitted his voice. “Those pinnacle true treasures are useless to me. A supreme true treasure at risk of being taken by Duan Dong River is worth all those pinnacle true treasures. Besides, we might be killed because of this inheritance—especially us universe supreme masters. We don’t have multiple bodies, so if we’re killed, we’ll be dead forever. Do you really think I’ll take it?” He sneered. “This Ice Cliff Fortress of mine is very valuable. It’s up to you. I’ll ask for supreme true treasures directly if you’re not sincere.”

There were over ten universe masters from Eastern Emperor Holy Land, and they were all elites within Eastern Emperor Holy Land. Two of them had supreme true treasures! As for the universe masters from Purple Moon Holy Land, two of them had supreme true treasures as well. Seventh True Master might lose a supreme true treasure, so Eastern Emperor Holy Land didn’t want to risk it.

The Divine Eye Clan and Eastern Emperor Holy Land made the deal immediately.

“Okay, let’s do it!”

“We agree.”

The Divine Eye Clan selected eight top-tier pinnacle true treasures, three of which could rival Crazy Demon Extermination Godly Armor.

“This is Ice Cliff Fortress,” Seventh True Master said.

He waved his hands. An iceberg appeared in the sky, and there was an exquisite fortress beside the iceberg. The transparent, breathtaking iceberg could have been qualified as a piece of art.

Huang Ke Master’s eyes were gleaming. He tried to make the true treasure recognize him as its master

Star Tower was still standing in the hallway.

Inside the control room, Luo Feng observed the outside carefully. However, the great beings outside were all using their godly power to transmit their voices, so he couldn’t discern their plan. When he saw them all take out true treasures—especially when he saw Seventh True Master take out Ice Cliff Fortress—Luo Feng immediately realized their plan.

“Ice Cliff Fortress? The famous supreme true treasure that belongs to Seventh True Master?” Luo Feng felt intimidated. “It seems they want to use a sealing palace type true treasure to take my Star Tower.”

Supreme true treasures versus supreme true treasures; it was difficult to speculate which one was more powerful.

Star Tower is extremely powerful, thought Luo Feng. Nobody in the original universe was able to take it. However, that’s only in the original universe... Star Tower hasn’t competed with Ice Cliff Fortress yet. If he takes it from me, I’m doomed. If he can’t take it from me, I’ll be okay, but Star Tower will be exposed! Because if even Ice Cliff Fortress can’t take it, they’ll all know that this bloody tower is a supreme true treasure.

Thoughts flooded Luo Feng’s mind. “What should I do? What should I do?”

Luo Feng frowned and kept contemplating. Either case was bad for him. He gazed outside and thought hard about it.

“Hmm...” Luo Feng noticed the crystal and stone pillars. His eyes gleamed. “Okay, I’ll try that.”

Just when Huang Ke Master was trying to make Ice Cliff Fortress recognize him as its master, the bloody tower flew over above a crystal pillar while the base of the tower sunk. It immediately became much taller, and it hit the top of the hallway. The crystal pillar was inlaid into the base.

“Haha! Do you really think that’s going to help?” Huang Ke Master laughed with Ice Cliff Fortress in his hand.

He threw Ice Cliff Fortress and used his godly power to drive it. Suddenly, Ice Cliff Fortress started to float and turned to face the bloody tower.

Hong!

Ice Cliff Fortress immediately had an incredible absorbing power on Star Tower and made the bloody tower shake. It seemed to work, but it didn't.

"How is it possible?" Huang Ke Master was horrified and furious. He glanced at Seventh True Master.

"Impossible. Unless it's a supreme true treasure."

"No."

A man from the Divine Eye Clan frowned and said, "It's not a supreme true treasure! Rather, that human Milky Way just moved his true treasure and merged it with the crystal pillar. That crystal pillar was left by Duan Dong River. It's connected to Boat of Mausoleum. If we want to seal that human, we will have to break that crystal pillar."

"Ah!"

"This has never happened."

"How is it possible?"

Everyone was dazed.

Luo Feng sat in the control room, smiling.

Star Tower was a sealing type true treasure, which was why the base could be cracked and had the power to absorb everything. With the help of Blood Cloud Pearl, its shape could be altered. At this moment, the base of Star Tower was stuck tightly to the crystal pillar. Even if Star Tower wasn't a supreme true treasure, it would have to be separated from the crystal pillar before it could be taken away.

If the base of Star Tower or the crystal pillar was broken, they could be taken altogether. However, apparently, the stone pillars and crystal pillars left by Duan Dong River were invincible.

"This rarely happens," Luo Feng whispered. "When other great beings are being absorbed, their only choices are to use their burning godly power to resist or to hide in their palaces. There are rarely objects that can't be moved by supreme true treasures—even in the three Lands of Extremis."

In the three Lands of Extremis, there were many environments—lava, winds, and lakes—and there were no objects available to be used to protect oneself. It was like an ordinary person holding a tree during a tornado; when the tree broke or the human let go, he would be blown away.

Some supreme beings were so powerful they didn't have anything to hold on to! Even in the three Lands of Extremis, there were a few objects that even universe supreme masters couldn't break. Boat of Mausoleum and black-striped stone pillars were exceptions.

As for the natural objects in Tilted Peak Sector and Flowing Countless Mountain, they could be easily broken. Which was why there were few objects that could be clung to by great beings.

However, Luo Feng was in Boat of Mausoleum, where even the ordinary ground could resist the attacks from universe supreme masters! As for the stone pillars and crystal pillars, those were used for inheritance, so they were unbreakable.

Boat of Mausoleum was an exception, and great beings just tried to use a seal palace type true treasure to absorb Luo Feng, so they immediately understood the mysteries behind this.

“Damn it.”

“What a lucky guy.”

“Even though supreme true treasures are powerful, they can’t just break that crystal pillars, not to mention crack a pinnacle true treasure. We can’t do anything now.”

“Ah, that crystal pillar the human Milky Way clung to is the crystal pillar he’s using himself! Even if he stays there forever, he can still study the Rhinoceros Emperor Game!”

All the great beings had already figured out the mysteries. They were all furious, yet they couldn’t do anything about it.

“Ah!”

“We can’t just kill him.”

“Huang Ke Master, give Ice Cliff Fortress back to me,” said Seventh True Master.

Huang Ke Master was hesitant at first. He made eye contact with other great beings, and he gave back the true treasures anyway.

The three powers were all upset.

“We can only use the simplest way now.”

“Attack it!”

“Material attack, soul attack! It’s only a pinnacle palace type true treasure. It might defend itself against material attacks well, but it’ll be less efficient against soul attacks. I don’t think he can still study Rhinoceros Emperor Game when his soul is affected! We can even kill his soul!”

“Okay.”

“Let’s attack him together.”

The seven universe masters started to attack Luo Feng again. However, Luo Feng was sitting in Star Tower and not being affected by the attacks.

“Ah!”

“Soul attacks can’t penetrate it even a little bit. His palace type true treasure is very special. It must be made of some special material. Godly power can’t penetrate it at all.”

The seven universe masters immediately figured it out. Some materials could indeed block godly power—such as Force Armor, which could weaken all sorts of soul attacks to 1/10th. Crazy Demon

Extermination Godly Armor could weaken soul attacks to 1/100th. As for Boat of Mausoleum, it could completely block a soul attack.

Star Tower was a supreme true treasure. If it was put inside someone's body, it could guard the soul. Outside, it could easily resist all sorts of soul attacks. As for material attacks, some shockwaves passed inside, as no supreme true treasures could perfectly block shockwaves. However, with the protection of a supreme true treasure, material attacks couldn't break valuables.

"That true treasure can completely block soul attacks!"

"What a true treasure. Second only to a supreme true treasure!"

"Damn it!"

"Then we'll use material attacks!"

"It's only a top-tier pinnacle true treasure. Under the shockwaves, he won't be able to study the game."

The seven universe masters could only hit that Star Tower again and again, like a blacksmith hitting the iron repeatedly, making Star Tower shake.

Of course, the shaking was fake; those attacks were nothing to Star Tower.
