

## Chapter 1251: Blade Name Blood Shadow

The mountain of valuables was built by the three ancestral teachers, and it had many restrictions as well. Each inheritor owned a mark of inheritance, which was why they could take an embryo. Otherwise, they wouldn't be able to do that.

"Ze Ze!" Luo Feng walked on the mountain of valuables and looked around.

The traces of light were so powerful that they could instantly kill universe supreme masters. However, with the special constraints of the mountain of valuables, each embryo was suppressed.

"Spiritual force weapons! Close combat weapons! Countless special weapons! This is a machine."

Luo Feng looked around. There was an oval fortress which was as large as Universe Boat! This giant fortress had 18 levels of attack units, and the engravings on them were blank, which required users to fill them. There was also a special boat, and the boat was actually a world of manufacturing, which contained lots of conditions for making true treasures.

There was another golden embryo, which was Jie Mu Embryo. It was weak at the beginning, yet it had great potential. When it was cultivated, it could follow the path of the bug race to have a huge army, or to follow the elite path. Either way, it was much better than the Bug clan queen.

There was also a giant, human-shaped machine that could be used as armor! It could be used as a mech or a puppet! It had different uses depending on how it was reconstructed. The components inside didn't have any engravings, and they could be reconstructed in many ways.

In the ancient civilization, there were close combat, distant attacks, automaton, valuables-making, and miscellaneous techniques. The former four were the mainstream, while the fifth one was a combination of all special techniques.

Each category had many branches. Close combat and distant attacks were extremely complicated. As for the automation category, there were "sea of machines techniques," "original body techniques," and "fortress techniques." The embryos of the different techniques were different as well, and there were 72 types of embryos of automation.

"No wonder automation was so popular in the ancient civilization." Luo Feng looked at all the embryos and he was tempted. "This is too powerful. Even if someone is less strong in laws and techniques, he can still kill his enemies with these machines. Unfortunately, I can only choose one."

Luo Feng stood at the mountainside and looked at a giant stone blade. It was enormous. Even though it was plugged inside the mountainside, it was as tall as the entire mountain. There was gleaming light around the blade, and the shape was exquisite.

"There were three blade embryos. One of them is broad, one of them is thin, yet this one is my favorite." The more Luo Feng looked at it, the more he fancied it. "It looks just like the blood shadow blade, yet it has a larger handle so that I can grab it with both hands. I'll take it."

Luo Feng walked to the front, held his breath, and put his hands on the large stone blade.

Just as he touched it, a film showed up on the blade, and countless law engravings started to flow, which were much more complicated than the law engravings he saw in the iceberg.

Hong!

The entire mountain of valuables started to tremble, and the corners started to glow. The engravings were shining along with the film. There was an inheritance mark between the eyebrows of Luo Feng.

They were resonating. And then, the films and light all disappeared, and Luo Feng's life mark was branded on the giant blade.

"This blade embryo might be with me forever, until I reach the top or until I die." Luo Feng lowered his head and stroked the blade. "I'll call it Blood Shadow."

It had simple Chinese characters on the blade. He'd used lots of blades as he grew up, but with his power growing, he'd been changing his blades. Now, he had finally found a blade that he was going to use forever. Blood Shadow Blade!

Blood Shadow Blade is so powerful that I can't even measure it, thought Luo Feng. I might as well not take the blade out if I don't want to kill my enemies.

The blade embryo was the only weapon he got after he became the new generation of Duan Dong River, and it was an exceptional weapon. It could already crack the space without being driven by any techniques or godly power. Plus, it could already rival the power of a fifth-level top-tier universe master. Even supreme true treasures couldn't be this powerful without being driven. It was a valuable that was superior to supreme true treasures, and there was only one level of engraving on it!

Former generations of Duan Dong River, thought Luo Feng. Even if you despise those supreme true treasures, you can at least put some in the space of inheritance.

Other than those valuables embryos, there wasn't a single supreme true treasure. The stones of memories left by former generations of Duan Dong River had clear records. Each generation of Duan Dong River only left an embryo.

As for other true treasures? Other skills? They needed to be fought for by the following generations of Duan Dong River! After all, the juniors needed to fight to grow, and they couldn't do so if they only depended on the valuables left by the seniors.

\*\*\*\*\*

The silver-armored form of Luo Feng left the space of valuables and entered the main area of the space of inheritance. He stood in the sky.

"Come!" Luo Feng waved his hands, and a trace of light flew toward him and floated in front of him. It was an octagon token: the control center of Boat of Mausoleum.

"The former generations of Duan Dong River didn't leave any machines for me in the space of inheritance. However, this Boat of Mausoleum is a machine. And my Shi Wu Wings are a machine as well."

Luo Feng easily controlled the center of the Boat of Mausoleum. “Space of inheritance” and “Blood Shadow Blade” were the most precious objects, followed by Star Tower and Shi Wu Wing, then followed by Boat of Mausoleum.

Shi Wu Wing and Boat of Mausoleum were both machines. Boat of Mausoleum wasn't very powerful, yet he could control some dangerous components inside, so it was definitely a machine.

As for Shi Wu Wing, it was an “original-body fighting” machine! This kind of machine usually just helped its user. Shi Wu Wing would only be a mere true treasure if it didn't have an origin. The origin was like an engine, and the godly power of great beings was transformed into terrific energies through the origin; they were let out through the wings.

\*\*\*\*\*

Flame Ice region.

Boat of Mausoleum, floating in the sky, immediately disappeared. A silver-armored and silver-booted man carrying a stone blade appeared.

“Teacher Primal Chaos City Leader said that both Eastern Emperor Holy Land and Purple Moon Holy Land have great beings hidden here to catch the inheritor.” Luo Feng looked around and hid the Boat of Mausoleum and space of inheritance. “However, I'm not afraid of them now. I hope they leave me no choice but to use Blood Shadow Blade.”

Luo Feng waved his hands, and a bloody tower showed up. It was Star Tower. Luo Feng went into the tower and flew away.

He made the technique Nirvana Renaissance, and it had the power of the fifth-level universe master with Crazy Demon Extermination Godly Armor. If he used Blood Shadow Blade, which was superior to supreme true treasures...

“Although I can't fight universe supreme masters now, they can't kill me.” Luo Feng was confident. “Once I become a universe master and have more godly power...”

Luo Feng would be the most terrific universe master in the history of Universe Ocean. Universe masters only had six levels before. However, Luo Feng might have been at the seventh or even the eighth level!

## **Chapter 1252: Block Him!**

How big was the Boat of Mausoleum?

A group of super great beings with North True Star Master as their leader had been keeping the other party from East Emperor Holy Land under close watch. Not even one dared to let his guard down; even without other various means of detection, they could see the Boat of Mausoleum in the distance with their naked eyes!

“The Boat of Mausoleum has disappeared!”

“Disappeared? It was here just a moment ago, and the Boat of Mausoleum has suddenly disappeared!”

“Hurry, hurry, hurry. Milky Way Horde Leader Luo Feng must have acted. Everyone, be mindful of every single corner. Do not let him get away.”

North True Star Master and the other ten universe masters were on high alert. From their position, although they could see a big object like the Boat of Mausoleum without any visual aids, Luo Feng was now on board his crimson tower, which was extremely small—so small that it was impossible for the human eye to detect it. As for their other detection methods, they had not dared to use any of these to cover any region within the Boat of Mausoleum before. Because they were all afraid of incurring the wrath of that Duan Dong River.

“All of you better keep your eyes open.” North True Star Master tensed up right away and started giving orders. “You cannot be the least bit careless. The moment anyone discovers any palace type true treasure or any flying objects, you have to stop them! Do not ever let Luo Feng escape.”

“Understood!”

“Understood!”

One by one, the universe masters replied.

“Ancestor has already reminded us countless times!” North True Star Master shouted. “This matter is of utmost importance. And at domains even further out from the peripheral area, other groups of powers from Purple Moon Holy Land and the first reincarnation era are all laying ambush. Everyone wants to be the one to catch hold of that heir, so we must be careful not to let the other groups of power gain any advantage over us.”

“North True, we all have supreme true treasures throughout Flame Ice Region. None of the other groups of powers are as well-equipped as us. How are they going to fight us?”

\*\*\*\*\*

All were triggered with the same discovery!

The lofty Boat of Mausoleum that was suspended in midair had suddenly disappeared. Not only East Emperor Holy Land realized this, but one by one, the other groups of powers from Purple Moon Holy Land and first reincarnation era—even the various other groups of powers that were all waiting in ambush further away—started to realize what had happened. The various groups of powers that were originally as peaceful as calm waters were, at that moment, all starting to stir with excitement like bubbling water about to reach boiling point.

“The Boat of Mausoleum has disappeared!”

“The heir is about to make an appearance.”

“This is our clan’s final hope of transcending reincarnation! Catch that heir!”

“No matter how great a potential this heir has, no matter how big a threat he is! Just like how any great being who wants to grow up needs time, even if this heir has received the inheritance, there is no way his power can improve by leaps and bounds in such a short time! Once doomsday arrives, all of our clan will be exterminated. In the face of doomsday, nothing else matters! There is no need to bother about

whether we are up against East Emperor Holy Land or Purple Moon Holy Land... Holy land universe, so what? Just grab it!"

\*\*\*\*\*

"This is our final hope."

First True Master, Third True Master, Fourth True Master, Fifth True Master, and Sixth True Master of the Divine Eye Clan looked at one another. Since the competition for the inheritance began, two from their group had been annihilated. Now, there were only five true masters left in the whole Divine Eye Clan, and this time around, for the sake of catching that heir, all five of them had gathered. However, gathering too many gifted talents in the same place and at the same time could bring devastating results. Having already suffered a great loss, the Divine Eye Clan was careful to maintain a low profile this time around.

"Let's lay low and watch first. We shall just let Purple Moon Holy Land and East Emperor Holy Land battle it out! And the other groups of powers from the first reincarnation era... The fight for the heir is not that simple."

"True. To be able to receive the inheritance from the pulse of Duan Dong River, that heir must have great survival means. To catch hold of him is not easy. We shall observe the situation first and find the perfect opportunity. Then all five of us will act together. With our combined power, we will catch that heir in one swift move!"

"Yes."

Five pairs of eyes were ignited with blazing light. This time, it would be a battle major enough to change their destiny.

\*\*\*\*\*

At one point in time, the entire Flame Ice region was raging like a storm with various groups of powers laying ambush. Among them, the majority did not even know who the heir was. But that did not matter to them, all they wanted, was to catch that heir!

"If Blue Blood Knight is the one appearing, then we will catch Blue Blood Knight. If Milky Way Luo Feng appears, we will catch Milky Way Luo Feng."

This was everyone's plan.

\*\*\*\*\*

Luo Feng long knew that a gigantic net was laid to ambush him the moment he made his way out into the outside world; his human race had warned him in advance and told him to stay inside the Boat of Mausoleum for the time being if he did not have the confidence of surviving. But Luo Feng had skills and guts, so he was filled with confidence.

"Gigantic net or not, I will break through it all."

The crimson tower transformed into a stream of light and advanced at high speed!

\*\*\*\*\*

The miniature crimson tower was so tiny that it could easily escape the naked eye.

“This... flying palace! I discovered a flying palace! It is that crimson tower! It’s Luo Feng’s!” Mi Ya Master from East Emperor Holy Land immediately transmitted his sighting to the others. “He is heading toward my region now.”

North True Star Master was greatly delighted and immediately transmitted his reply. “Mi Ya, I am rushing over now.”

“Great.”

Mi Ya Master also transformed into a streak of light without further delay and advanced along the same route to welcome the oncoming tower.

Hong! Hong! Hong!

North True Star Master manipulated his supreme true treasure and advanced at a speed that was so fast it exceeded the limit of the universe laws. The acceleration was 1,000 times that of light speed, then increased to 10,000 times, then up to 100,000 times. In a split second, it soared all the way up. And yet Luo Feng merely maintained his speed at 100 times light speed.

Mi Ya Master had yet to meet up with Luo Feng. North True Star Master had already arrived!

A voice was transmitted to the crimson tower right away: “Milky Way Horde Leader, how about making a trip to my holy land with me? East Emperor Holy Land Ancestor will be most pleased to meet you.”

“Mm?”

Within the control room inside the crimson tower, Luo Feng stood with a stone blade on his back as his gaze penetrated through the obstruction posed by the walls of Star Tower to look at the outside world.

“East Emperor Holy Land?” Luo Feng whispered. “Truly worthy of being a top power. Still the first to act. That must be North True Star Master. I heard he has been obstructing various other groups within the Boat of Mausoleum for quite some time.”

“North True Star Master!” Luo Feng communicated right away via voice transmission. “I have some urgent matters to tend to back at the original universe. After I am back from there, I will make my way to East Emperor Holy Land. It won’t be too long at all. What do you think of my suggestion?”

“Seems like even to my holy land ancestor, Milky Way Horde Leader is not intending to show due respect,” North True Star Master said politely, even though he was sneering on the inside. Return to the original universe? If Luo Feng truly set foot in the original universe, all other parties would not be able to enter. Then it would become impossible to catch him.

“Is this the way East Emperor Holy Land invites its guest? By forcing the invitation upon them?” Luo Feng was still very composed and confident.

“Humph! Then blame me not.”

North True Star Master manipulated that gigantic, black, polyhedral sphere and parked it at a spot above the crimson tower. Then one of the surfaces of the gigantic black sphere suddenly cracked open to reveal a large, empty hole. An incredibly strong suction force acted and pulled on Star Tower without warning, attempting to forcibly suck Star Tower into the hole.

“Keep!” North True Star Master said, manipulating it to the very best of his abilities.

“Humph!”

The crimson tower under the attack of the suction force suddenly vanished into thin air. In its place was an even smaller Boat of Mausoleum.

A moment prior, when Luo Feng met with the attack of that suction force, he was unwilling to put Star Tower at any risk. Even though Star Tower was a supreme true treasure and should have been competent enough to ward off such attacks, Star Tower required his godly power to activate it. With the gigantic net that was set outside to besiege him, relying on Star Tower alone might be too tiring. Whereas with an automaton type like the Boat of Mausoleum, things would be much easier.

The Boat of Mausoleum had also been remodeled by Duan Dong River. Regardless of what supreme true treasure was used, trying to take it down by force was out of the question. Also, it only required a little consumption of Luo Feng’s godly power. Then he could use the various energies from the Boat of Mausoleum to activate it. Everything was simple, yet the power he could execute was strong.

\*\*\*\*\*

“The Boat of Mausoleum!” North True Star Master looked down and saw a vessel appearing. His expression changed instantly. This was a special Boat of Mausoleum that had undergone Duan Dong River’s remodeling, and it was where the Divine Eye Clan’s Second True Master and Seventh True Master had met their ends.

“Surrender to me.” North True Star Master tried his best to make use of the suction force of his supreme true treasure to take the Boat of Mausoleum into captivity.

Hong!

The suction force was useless, whereas the Boat of Mausoleum started to expand with a rumble and grew insanely big.

Previously, the Boat of Mausoleum was the size of a fist, but in the blink of an eye, it became a massive vessel around 100 billion kilometers long. And this massive Boat of Mausoleum started to take flight, advancing in a mighty manner, paying no heed and showing no response to the suction power that North True Star Master was executing over it.

“Not good.” North True Star Master was aware that it would be impossible for him to try to consume this Boat of Mausoleum with his suction power. “Block him!”

Hong!

North True Star Master continued to manipulate the gigantic black sphere and rammed into the Boat of Mausoleum with a thunderous boom. How fast was he flying that black sphere? The Boat of Mausoleum

was merely maintaining its speed at 100 times of light speed; there was no way it could evade the collision. Like Mars hitting Earth, this gigantic black sphere crashed straight into the Boat of Mausoleum.

Bang!

The Boat of Mausoleum merely gave a slight tremor. Then the impact of the collision was entirely diminished as it continued to advance in its mighty manner.

“Can’t be stopped!” North True Star Master was getting very distressed. “This—this... This Luo Feng is using his godly power to drive that Boat of Mausoleum. How can he be so powerful?”

The Boat of Mausoleum was an automaton type. To activate and drive it, a part of it required godly power. The other part of it depended on the power of the Boat of Mausoleum itself.

Furthermore, this Boat of Mausoleum had been remodeled.

Regardless of the aspect—be it defense, strength of impact, flight, etc.—it was much more powerful than an ordinary Boat of Mausoleum by ten times or even 100 times. If an ordinary Boat of Mausoleum was considered to be a normal boat, then this vessel that was remodeled by Duan Dong River himself would be considered a universe planet ship! Naturally, it was on a different level. It was not on the same scale of comparison.

“North True Star Master, let me stop him.” Mi Ya Master had now made his way over.

“Hurry! Hurry, and trap him!” North True Star Master said.

“Go!”

A massive purple light immediately sliced across the sky and started to expand. It continuously expanded as it enveloped the Boat of Mausoleum from behind! This massive purple light was, in fact, a supreme true treasure in the form of a strange and special web. It was specially designed to restrain and entrap enemies.

“Bind, bind, bind!” Mi Ya Master was trying his best to keep the situation under control.

Yet regardless of how the purple web tried to bind and restrain, block and obstruct, the Boat of Mausoleum continued to advance mightily; the purple web was only a cover over its surface like a decorative layer of cloth. It did not have any influence over the Boat of Mausoleum whatsoever.

“Can’t stop him—I can’t stop him!” Mi Ya Master’s level of anxiety reached a new high.

“Then—then just attack!” Even North True Star Master was getting fidgety.

The suction force was not working. Resistance was not working either. Neither was the supreme true treasure used to bind and trap enemies! How else could they stop Luo Feng?

“This Boat of Mausoleum can completely block off all forms of godly power.” North True Star Master was in great distress now as he immediately transformed into a dazzling streak of light. This massive, arc-like light viciously struck the Boat of Mausoleum, which merely gave a slight tremor in response. Thereafter, as though nothing had happened, it continued to advance mightily. “Useless!” North True Star Master glared after it. “Even material attacks are pointless!”

Any and every method was futile against the Boat of Mausoleum! Attempting to trap it would be asking for the impossible!

There was no trace of sentimental attachment displayed by the Boat of Mausoleum. It continued to advance at high speed, making its way far into the distance. And in the distance, there was a large crowd of super beings from the Purple Moon Holy Land and the first reincarnation era.

“Haha! This Boat of Mausoleum is very powerful indeed,” said Luo Feng. “Maybe I should just drive it like this, recklessly and haphazardly, and barge out of the Universe Boat.”

Luo Feng was carefree and at ease. Disregarding all the supreme true treasures and universe supreme masters in his path and moving ahead with such reckless behavior, this feeling was certainly refreshing. It was the charm of an automaton type true treasure.

### **Chapter 1253: A Deal**

Hong! Long!

The massive Boat of Mausoleum advanced mightily. It was unstoppable.

“What should we do, North True?” Mi Ya Master asked via voice transmission. “If we still don’t stop him and let him advance further... he will soon go beyond our area of control. In the peripheral region, there is Purple Moon Holy Land, and the group of power from the first reincarnation era; such a large group of super great beings out there! There are even as many as 20 to 30-odd universe supreme beings present!”

“I know!” North True was also very anxious.

He was aware of the situation. Luo Feng might have been an heir, but the groups of powers from the Universe Ocean honestly did not fear this heir. Without even considering those from the first reincarnation era—who did not even fear their quickly approaching doomsday and were capable of doing anything—it was just these two holy land universes. With the commands given to them by their two great ancestors, they were naturally even more fearless.

This time, East Emperor Holy Land was relying on the quantity of supreme true treasures it had! And it was also relying on the fact that the other groups were not united and that this was within the innermost control region.

There were other reasons, of course, for why other groups of powers were willing to stay on the periphery. Other than their lack of unity and strength, the more important reason was that they did not believe that an heir of the pulse of Duan Dong River could be so easily apprehended! At most, if they saw that the situation was unfavorable to them, they would charge forward with brute force.

“What should we do, what should we do?” North True Star Master was anxious and frustrated, racking his brains to thinking of ways to stop Luo Feng or to trap him.

“Go!” North True Star Master stood within the void space and with a sudden wave, a gigantic, polyhedral black sphere instantly transformed into a dazzling ray of black light. As it continued flying, the

black light ray grew thicker and larger. In terms of physical size, it was bigger than the Boat of Mausoleum.

Soon after, a loud rumble was heard as the ray of black light crashed straight into the Boat of Mausoleum. The Boat of Mausoleum trembled but was not the least bit damaged.

In his state of anxiety, North True Star Master's avatar in the Holy Land Universe asked East Emperor Ancestor for help right away.

"Ancestor, Ancestor!" said North True Star master. "That Milky Way Horde Leader, Luo Feng, is driving the Boat of Mausoleum out, but we are unable to stop him. Even our supreme true treasures are useless! What should we do now?"

East Emperor Ancestor appeared out of nowhere. "Can't apprehend him? Can't stop him?"

"No way—no way at all!" North True Star Master replied. "This Boat of Mausoleum is much more powerful than the one we obtained previously. After Duan Dong River remodeled it, this Boat of Mausoleum is extraordinary. No matter what method we try—nabbing, entrapping, bounding, or even soul attacks and material attacks—all means are to no avail."

East Emperor Ancestor was frustrated, too. What could be done? This time around, he had sent out a team of their top ten best sixth-tier universe masters to support North True! And he even gave North True Star Master several supreme true treasures. Even if the enemy had a supreme true treasure palace, by right, North True Star Master should be able to entrap him without much difficulty.

"Duan Dong River's reputation is well earned." East Emperor Ancestor frowned. "You have been following Milky Way Horde Leader Luo Feng!" he shouted. "Make sure you have him in sight at all times. This time, it is not only us. That Purple Moon is also after him... especially the lunatics from the first reincarnation era who are willing to do anything. You should make sure you follow him close enough and wait for your chance to strike... Once the perfect opportunity arrives, snatch it from Luo Feng."

"What if I fail to snatch it away?" North True Star Master asked, very worried.

What a joke! More than half of the universe supreme masters from the first reincarnation era, a handful of universe supreme masters from the second reincarnation era, and probably one or two universe supreme masters from the primal universe had turned up to lay ambush. This area alone had 20 to 30 universe supreme masters—not to mention the number of universe masters, which was similar to that of the universe supreme masters. It was chaotic to a certain degree, and regardless of how formidable he was, it worried North True Star Master that he might not be able to catch hold of Luo Feng.

"What if you fail to snatch it...?" East Emperor Ancestor hesitated for a while, then gave his orders. "You will do this..."

After he had finished listening to East Emperor Ancestor's orders, North True Star Master was in great shock.

"This—this... this is too..." North True Star Master was in disbelief.

"Just do as I say," East Emperor Ancestor instructed.

"Yes," North True Star Master replied deferentially.

But in his heart, he was mumbling his complaints as he thought to himself, Luo Feng is certainly one lucky fellow.

\*\*\*\*\*

Flame Ice region, because it was where an heir of the pulse of the Duan Dong River from the ancient civilization emerged, therefore it became the region where a great number of great beings from the Universe Ocean gathered.

“It’s the Boat of Mausoleum!”

“The heir is driving the Boat of Mausoleum out now. East Emperor Holy Land did not manage to catch or stop it!”

“Our chance is here!”

“Action time!”

In the external domain, Purple Moon Holy Land alone was not enough to fully control the situation, and the various groups of powers from the first reincarnation era were so anxious that they could not hold back at all. One by one, the universe supreme masters were all launching attacks right away. Up in midair... streams of powerful yet terrifying attacks were launched so extensively that they could easily contort and shatter an entire space. There were some who tried in vain to swallow the Boat of Mausoleum, and there were some who directly threw attacks to create a commotion! The more chaotic it was... the higher chances the weaker ones had to fish in troubled waters.

Hong! Peng! Hua!

The Boat of Mausoleum vibrated and trembled repeatedly.

“Roar!”

A gigantic beast that was longer than one light year came roaring by. Its huge, scaly wings were outspread, and its mouth opened to reveal a bottomless black hole. In one gulp, it devoured the Boat of Mausoleum.

Peng! Hong! Hong!

Almost instantly, a total of nine supreme true treasures were crashing and ramming into that gigantic beast, causing it to tremble and quiver, then collapse and disintegrate.

“Loathsome!”

From afar, Divine Eye Clan’s First True Master, Third True Master, Fourth True Master, Fifth True Master, and Sixth True Master looked furious. Earlier, they had waited for the right opportunity to strike, and when they saw how the Boat of Mausoleum was seemingly losing control over its ability of flight upon being continuously attached by various parties, they took immediate action, forming Eternal True God Beast and devouring the Boat of Mausoleum in one mouthful!

“You idiots from Divine Eye Clan! Are you thinking of seizing the heir of the pulse of Duan Dong River? In your dreams.” A huge skeleton seated on a faraway white throne let out a hoarse shout. “My Skeleton Clan had our eyes on you all long ago.”

“Skeleton clan!” The five true masters of Divine Eye Clan got even more furious.

The Divine Eye clan from the first reincarnation era and the Skeleton clan were formidable clans. When they were still living in the primal universe, the Skeleton clan was once rampant throughout the universe, defeating other clans and groups of powers one after another. Their arrogance was beyond words, but after the emergence of the Divine Eye clan, they quickly suppressed the Skeleton clan; since then, the Skeleton Clan had been kept under suppression.

The two clans had fought one another for almost three reincarnation eras. Previously, when the seven true masters had joined forces, their concerted efforts had brought about complete suppression of Skeleton clan, but now... with two fewer true masters, when the two clans faced one another in battles, it was virtually effortless for the Skeleton clan.

“What a bunch of lunatics.”

Being devoured in one mouthful by that gigantic beast earlier had certainly dealt Luo Feng a good shock. He had been prepared to manipulate the Boat of Mausoleum into high acceleration to blast the beast into bits and pieces, but at that moment, the other universe supreme masters had rained attacks on the beast, causing it to break and fall apart.

“Within just ten seconds, 16 supreme true treasures were attacking me.”

Luo Feng was also thunderstruck while in the control hall of the Boat of Mausoleum. He had expected to find himself within an inescapable dragnet, yet it was still a shock to fall within one. After all, prior to these attacks, the universe supreme masters were still quite a distance away from him, and under normal circumstances, universe supreme masters would not stoop so low as to fight against those who were below them in terms of social status.

The only time this happened was when Virtual-Real Devil God wanted to exterminate him, but his attacks had been warded off when Double-Face Ancestral God intervened. Virtual-Real Devil God had not looked upon Luo Feng as a worthy opponent in the first place... To Virtual-Real Devil God, dealing with Luo Feng was a minor matter, or probably just a matter of convenience.

This time, it was different! More than half of the universe supreme masters from the first reincarnation era and other universe supreme masters had all made him their target, and all of them were going crazy trying to seize him.

Hong! Long!

Ah-wuuu!

“Roar!”

All kinds of noises resounded.

Be it palace type supreme true treasure or spiritual force weapon type supreme true treasure or close-combat type supreme true treasure, one after another, they all fell onto the Boat of Mausoleum. This

was a great eye-opener of Luo Feng. All the supreme true treasures of the entire Universe Ocean added up was, in fact, quite a sorry amount. Normally, supreme true treasures were owned by universe supreme masters, and that very day, almost one-third of the total number of universe supreme masters were gathered at the same place, trying to seize Luo Feng.

“It’s not working out! I cannot move this Boat of Mausoleum at all. There isn’t even a scratch to be found on the Boat of Mausoleum, much less a crack. It continues flying ahead. We cannot even get it to stop.”

All the universe supreme masters first entered a state of frenzy. Soon, the realization dawned upon them of how terrifying the Boat of Mausoleum was. Even the major clans who initially wreaked havoc on purpose because they were afraid the other groups of powers would successfully seize the heir did not dare to create more trouble.

Similar to how the gigantic beast by Divine Eye Clan had been attacked until it crumbled the moment it was formed, various groups now seemed to have a tacit understanding that no one should start creating trouble.

Suddenly, there was a surge of powerful attacks.

“I don’t believe that with so many great beings around, a single Boat of Mausoleum cannot be taken down.”

“Now that the Skeleton Clan is not creating any more trouble, we should act quickly.”

There was a frightening outburst of attacks. Three lofty, huge golden fingers appeared out of thin air and immediately grabbed onto the Boat of Mausoleum, but to no avail. The Boat of Mausoleum continued to fly ahead as it forcibly pulled the three huge golden fingers along with it...

The gigantic beast of the Divine Eye Clan appeared once again to bite the Boat of Mausoleum. Yet the Boat of Mausoleum continued to fly ahead. The driving force of flight was so powerful that it could force the gigantic beast to fly along with it, and as it flew, it was continuously expanding at the same time. That very moment, the universe supreme masters from various groups of powers were getting anxious, and everyone started attacking in their attempt to break apart that beast.

“How could the driving force of flight of that Boat of Mausoleum be so powerful? Even for a palace type supreme true treasure, while it can block off attacks from various parties, the most it could do while warding off attacks would be to remain unmoving at its spot. But this Boat of Mausoleum is able to continue flying. Its flying power is even more powerful than the total binding force of ten supreme true treasures put together.”

Joint efforts were futile. It could not be stopped! The various groups were aware... Luo Feng had no difficulty flying ahead until he was out of the Universe Boat and back into the primal universe!

“Haha...” Within the Boat of Mausoleum, Luo Feng was exceptionally at ease. He was able to bring all the pinnacle existences of the Universe Ocean to their wits’ end. Such a sense of satisfaction was simply unbeatable.

A voice transmission was directed to the Boat of Mausoleum via godly power. “Luo Feng!”

Luo Feng, who was in control of the Boat of Mausoleum, obviously knew.

“I am North True Star Master representing East Emperor Ancestor, and I would like to suggest a deal.” North True Star Master transmitted his voice message.

“A deal? East Emperor Ancestor?” Thoughts sprang up in his mind.

\*\*\*\*\*

In a faraway corner of Flame Ice region.

Faintly, time and space were contorted. This contorted space concealed a green mountain.

“The pulse of Duan Dong River... Truly worthy of his reputation!” Sitting Mountain Guest looked afar with a smile. “The previous Duan Dong River remodeled the Boat of Mausoleum to make it so powerful. Seems like I was overly worried.”

“I would really love to take a look at the inheritance of the pulse of Duan Dong River. There should be much information on how the pulse of his Duan Dong River went about refining treasures. After all, this was one of the pinnacle inheritances; it was just that, under the willpower of the primal universe... even for this disciple of mine, he may not know the truly profound part of the pulse of Duan Dong River.”

Sitting Mountain Guest gently shook his head.

Soon after, this contorted space and time resumed normality. Sitting Mountain Guest had secretly left the scene.

#### **Chapter 1254: A Suggestion from Eastern Emperor Ancestor**

Even if the universe supreme masters were using all the techniques they had, Luo Feng was still completely safe in Boat of Mausoleum. After all, after its recognizing Luo Feng as its master, Luo Feng knew all the power of Boat of Mausoleum, besides, he concentrated on the deal proposed by North True Star Master.

“A deal with me?” Luo Feng was shocked, and thoughts flooded his mind.

Who’s Eastern Emperor Ancestor?

He was the ancestor of the oldest holy land of Universe Ocean, and he was also the richest one.

“What kind of deal?” Luo Feng transmitted his voice.

North True Star Master relieved as he finally got a response as it was better than nothing. North True Star Master transmitted his voice to the surface of Boat of Mausoleum, “First, congratulations for getting the inheritance of Duan Dong River. About the deal, our ancestor said that he needs the inheritance, and inheritance you’re about to get...Of course, the ancestor doesn’t care about the valuables, memory inheritance is all that matters.”

“Memory inheritance?” Luo Feng sneered. “North True Star Master, don’t you think Eastern Emperor Ancestor is overthinking? I got the inheritance after defeating hundreds of thousands of competitors, why does the ancestor think he can just take my inheritance? Don’t even count on it.”

“We can offer everything.” North True Star Master wasn’t angry. He went on saying, “Our race has the oldest holy land out of Universe Ocean, much older than that Purple Moon Holy Land. We also got lots of inheritance, and we even know some hidden secrets of Universe Ocean, and we also have the most supreme true treasures. As long as you say yes, the hidden inheritance, the secrets and even supreme true treasures, just name your price.”

“No deal!” answered Luo Feng.

Luo Feng was indeed tempted by the offer, after all, Universe Ocean was so mysterious and there were so many unknown things. Eastern Emperor Ancestor might know the best. Secrets, supreme true treasures, they were all tempting him. However, memory inheritance was the utmost important thing in Duan Dong River bloodline, and he had made a vow, he couldn’t betray the vow.

North True Star Master said, “It’s just memory inheritance.”

“Say no more. If this is the deal, then don’t think about it,” said Luo Feng.

North True Star Master had expected this to happen. Eastern Emperor Ancestor had already told him that he didn’t have much hope, and he also said that an inheritance that only had one inheritor each generation must have a way to prevent secrets from being let out.

“How about part of the memory inheritance?” asked North True Star Master.

“Part?” Luo Feng didn’t refuse it. “Which part does the ancestor want?”

North True Star Master rejoiced in his heart.

It was good as long as the conversation was still going.

“Of course, the practice experience,” said North True Star Master. “Our ancestor wants the more complicated experience.”

“Your ancestor truly knows what’s the most valuable.” Luo Feng grinned.

Among the memory inheritance, there were ‘three techniques’ left by the three ancestral teachers, which was the core of the core; there was normal core memory inheritance, which was gathered by each generation of Duan Dong River and recorded the experience of other supreme beings; there was also ordinary inheritance, which was made up of over a hundred million memory stones, and they were all basic inheritance, and only few of them could surpass ‘true gold’ level.

Without doubt, extremely complicated practice experience was invaluable. Even the experience from great beings outside Duan Dong River would be included into the core inheritance if it was collected by Duan Dong River. That Eastern Emperor Ancestor wanted that kind of inheritance, which meant he knew how important it was.

Unfortunately, extremely complicated and sophisticated practice memory inheritance was all core, so Luo Feng couldn’t let it out at all.

“Perhaps I can trick him.” Luo Feng thought. “My race doesn’t have a solid foundation, and we don’t have enough valuables. Perhaps I can trick that Eastern Emperor Ancestor into giving me some supreme true treasures, then we humans will be much stronger.” After all, he was the only one who knew about Duan Dong River inheritance.

Which meant it was likely that he could succeed.

And there was no downside even if he failed.

Eastern Emperor Ancestor wouldn’t just rush out. The two ancestors didn’t get out of holy lands during the inheritance in Boat of Mausoleum, and neither did they show up when he was being encircled. Obviously, there was something stopping them from getting out.

Even the inheritance from Duan Dong River didn’t persuade them to get out, not to mention some supreme true treasures.

“Heng, part of the inheritance.” Thoughts flooded Luo Feng’s mind. He said coldly after making up his mind, “Even I can’t give out the inheritance of Duan Dong River.

“It’s possible!” North True Star Master secretly rejoiced as he knew a lot from Eastern Emperor Ancestor.

He immediately added, “Of course, we won’t force you to leak the information that you’re forbidden to leak... Our ancestor only wants the practice experience. Duan Dong River is so ancient, so it must’ve gathered lots of training experience of other supreme beings. You can just exchange those with my race.”

“That ancestor indeed knows a lot.” Luo Feng was shocked. Unfortunately, that Eastern Emperor Ancestor didn’t know that even the training experience of great beings outside Duan Dong River was included in the core inheritance.

“No wonder it’s Eastern Emperor ancestor, he indeed knows a lot,” said Luo Feng. “There’s indeed some experience of great beings outside Duan Dong River.”

North True Star Master got more excited.

“However, there was only inheritance of three supreme beings,” said Luo Feng.

“It might be more than three.” North True Star Master thought to himself, but he didn’t ask more questions.

“Milky Way Horde Leader! Name your price! Our ancestor wants the inheritance from those three great beings,” said North True Star Master.

“We can talk about my price later,” said Luo Feng. “Doesn’t the ancestor know that the memory inheritance that surpasses universe supreme masters is affected by the will of the original universe?”

“Haha, of course, he knows,” said North True Star Master. “However, Duan Dong River should be using something like memory stones to store the information. You’re not powerful enough to know the information, yet our ancestor has already transcended the incarnation... Just give the objects like memory stones to our ancestor, and he can see it.”

Luo Feng was dazed.

That was right.

Though he couldn't see it, the great beings who transcended incarnations could.

"Can we talk about your price now?" asked North True Star Master.

"Ten supreme true treasures! The hidden inheritance of your race! And the secrets of Universe Ocean!" said Luo Feng.

North True Star Master was shocked.

It was a huge price.

Ten supreme true treasures? Even in Eastern Emperor Holy Land, there were only few supreme true treasures as the ancestors never went out of holy land and only universe masters adventured Universe Ocean... Besides, the supreme true treasures were largely owned by universe masters themselves, so there was only a limited storage. If it was Purple Moon Holy Land, it might need to take supreme true treasures from other universe masters and universe supreme masters.

Even it was Eastern Emperor Holy Land, it might use up all its storage!

"This, this is..." North True Star Master wanted Luo Feng to cut down his price. "Our race knows a lot about secret inheritance and secrets in Universe Ocean."

"What inheritance? What secrets? Those are just additional things," yelled Luo Feng. "Do you really think the secret inheritance you know can rival mine? As for secrets? Those are just secrets a long time ago, and I just want to satisfy my curiosity. I have no problem not knowing them."

North True Star Master felt helpless.

"Ten supreme true treasures it is. Besides, I need one for each category," said Luo Feng.

North True Star Master was infuriated.

It was not that easy!

Even universe supreme masters needed to fight for supreme true treasures! The supreme masters from Easter Emperor Holy Land were relatively weak as they didn't have their 'small universes' anymore, so they rarely went out. As for universe masters, they couldn't match other universe supreme masters, so they only had a few supreme true treasures.

Luo Feng wanted ten? Didn't he understand that even the Divine Eye clan only had around ten supreme true treasures after three universe eras? Especially after the war in Boat of Mausoleum, there weren't even ten anymore because two true masters died.

"Quickly make your decision. I don't have time to say long," said Luo Feng.

"You're too demanding. I need to ask our ancestor," said North True Star Master.

"Go, quickly."

Luo Feng was certain that Eastern Emperor Holy Land could have them as even Divine Eye clan had almost ten supreme true treasures. Besides, several universe masters had supreme true treasures with them this time, so even ten supreme true treasures were still a huge price for Eastern Emperor Holy Land, it didn't need all universe masters to contribute their supreme true treasures.

...

Eastern Emperor Holy Land.

In the main palace of North True Star Master.

"Ancestor." North True Star Master looked at Eastern Emperor Ancestor.

"Three?" Eastern Emperor Ancestor wasn't angry at all, instead, he looked glad. He nodded, "If Luo Feng really has the training experience of three ancient beings, I can totally give him ten supreme true treasures! However, we can't just say yes like that. We need to talk to him."

Supreme true treasures?

It had nothing to do with Eastern Emperor Ancestor. The storage in the holy land or the deaths of several universe masters were nothing to the ancestor.

The training experience of those ancient supreme beings were truly valuable to him.

"However, I need to see whether the memory inheritance is actually worthy or not," said Eastern Emperor Ancestor. "I don't want him to fool us with fake inheritance and take ten supreme true treasures, otherwise we'll be a joke."

North True Star Master felt hurt.

Ten supreme true treasures! There were only around a hundred supreme true treasures in Universe Ocean! Only the ancestors of the two holy lands would be willing to make a deal with ten supreme true treasures.

### **Chapter 1255: A Deal is a Deal**

Overhead, there was the endless lava ocean, and underneath, there was the endless black morass. One was burning hot; the other was icy cold.

This was the dangerous Flame Ice region. At this moment, it had become the craziest of battlefields where numerous universe supreme beings of exalted ranks were using their supreme true treasures and thinking of all ways possible to stop that Boat of Mausoleum. Yet the Boat of Mausoleum continued to advance at high speed. Fortunately, the numerous universe supreme beings were capable of easily accelerating to a speed that exceeded 100 times the speed of light. Therefore, they were able to catch up far enough to hover around its surroundings.

"No need to talk about seizing it. We cannot even stop it."

"What should we do if we cannot stop it? Does it mean the three of us shall just have to follow it like that, so wherever the Boat of Mausoleum goes, we follow?"

Various groups of great powers were starting to grow anxious yet helpless. North True Star Master had already summoned the ten universe masters under his command and arranged for the siege on the Boat of Mausoleum with the combined power of these ten universe masters; East Emperor Holy Land's attacks were indeed powerful and dynamic, but North True Star Master was still depending on a domain type supreme true treasure to establish contact with the Boat of Mausoleum for sustaining voice transmission with his godly power.

"Milky Way Horde Leader, Ancestor has made up his mind," North True Star Master said.

A voice was transmitted from within the Boat of Mausoleum. "Oh?"

North True Star Master gritted his teeth in silence. How detestable. He had lived for countless years as a universe supreme master, and never had he seen anyone who possessed ten supreme true treasures at once! Even the two great ancestors... before they transcended their reincarnation era, never did they own as many as ten supreme true treasures, and they had to finally transcend reincarnation before they were acknowledged as the greatest contributors to their clans! That was also when they gained control over their clans' fate!

Unquestionably, they became the ancestors of the entire clan!

Therefore, the common treasures belonged to the clans—even valuables belonging to universe masters and universe supreme masters. So long as ancestors gave the command for them to contribute their valuables, they had to obey. This was because, if not for ancestors, the entire clan would not be able to survive through three reincarnation eras. This went to show that even the two great ancestors were not able to depend on their own abilities to gain ten supreme true treasures.

"What a lucky fellow that human is." North True Star Master's face was twisted with displeasure. The moment he recalled East Emperor Ancestor's orders, he felt even more jealous.

First, he had gained what was said to be the most precious inheritance within the entire Universe Ocean! Now, merely taking out some of his inheritance, he had gotten himself ten supreme true treasures.

\*\*\*\*\*

"My ancestor has agreed to the exchange of ten supreme true treasures." North True Star Master transmitted his message via his godly power.

"Promise?"

Luo Feng stood up from his chair swiftly, and with eyes shining brightly, he paced the hall.

This was a crucial moment! It was also an extremely important moment for the fate of humanity!

If this was his own inheritance he was talking about, the experience he could offer from all the cultivation he had achieved from that ancient civilization would bring about a turning point for the fate of human race. However, a turning point of such a nature entailed a kind of change that would gradually unfold over a long period of time. After all, great beings required long years to slowly cultivate, and no one could guess when the next universe supreme master of the human race would arise.

But a supreme true treasure was able to bring about a fundamental change to the ability of a human!

What the human race lacked was a supreme true treasure! If ten supreme true treasures could be given to them, a few of their top-tiered life forms—especially Huge Axe Creator—could be equipped with two or three supreme true treasures. Then he would certainly be able to run rampant throughout Universe Ocean, just like Teacher Origin had before he was suppressed. As for Primal Chaos City Leader, Darkness Master, Peng Gong Master, and a few other top-tier figures, if they owned some supreme true treasures, they could be like Deer Bug Master and the few others who reigned predominance when they were within Universe Ocean. They were fearless even in the face of universe supreme beings.

With such a superior power, the human race would become stronger!

Luo Feng's mind was churning at high speed. "The coming negotiation will be crucial. East Emperor Ancestor will not foolishly hand over ten supreme true treasures right away. This negotiation will determine the fate of humanity."

"Ancestor might have promised," North True Star Master started to say, "but Milky Way Horde Leader, we need you to be clear about one condition. After all, we are talking about ten supreme true treasures... Within Universe Ocean, not a single group of powers would be able to take ten supreme true treasures out so readily. Our Ancestor has to practice vigilance too, so I will need to first verify the authenticity of the inheritance that Milky Way Horde Leader has given; once I have verified that everything is real, I will hand over ten supreme true treasures right away!"

"Verify?" Luo Feng snorted coldly. "How do you verify?"

"Of course, East Emperor Ancestor will personally take a look at the inheritance because only Ancestor will be able to confirm the authenticity," North True Star Master said.

"North True, are you taking me for a fool? This is a memory inheritance; one look at it, and you can learn all about it. If East Emperor Ancestor were to look at it, he would be able to learn all about it. By then, should he decide to change his mind about giving me the supreme true treasures... what could I do?" Luo Feng was furious. "And verifying its authenticity based on what you have just mentioned is solely dependent on East Emperor Ancestor's judgment. I think you are taking me for a fool."

"Let's talk things out," North True Star Master quickly replied. "No matter what, we have to verify the authenticity. If not, what if you have given us something fake? By just handing over ten supreme true treasures, what would we from East Emperor Holy Land—"

"All right!" Luo Feng said curtly. "Since you all are so worried, let me suggest something. If you are not agreeable, then we shall call off the deal."

"What did you have in mind, Milky Way Horde Leader?" North True Star Master replied.

Luo Feng was firm and decisive. "The proposal I have is simple. I have an inheritance of the ancient civilization that includes the cultivation experiences of three ancient existences, and the three different sets of cultivation experiences are stored in three different memory stones. Your side will first hand over three supreme true treasures as collateral! I will give you one memory stone in exchange. Your East Emperor Ancestor will look and judge, since you say that he will naturally be able to tell if the stone is real or fake. Whatever he decides—real or fake, I simply can't be bothered to ask—but the bottom-line is... if you want the next memory stone, you have to give me another four supreme true treasures in

exchange for it! As for the last memory stone, you will need to use the remaining three supreme true treasures in exchange for it.”

Luo Feng was in a strong position. He paused, then added, “This is my only proposal. If you find it agreeable, then we have a deal. If not... so be it.”

“This—this... this is asking for too much,” North True Star Master immediately said. “Three supreme true treasures as collateral? Milky Way Horde Leader, if the memory stone is not the real thing, then isn’t it like our three supreme true treasures will be gone for nothing? No, this is definitely not acceptable.”

“I think it is better for you to first ask East Emperor Ancestor.” Luo Feng sneered unfeelingly. “I believe three supreme true treasures may be massive to the other clans, but to East Emperor Holy Land... they are nothing much. If you are so stingy with such a small price, then you can forget about this inheritance.”

\*\*\*\*\*

North True Star Master was negotiating with Luo Feng while reporting the situation to East Emperor Ancestor. This deal was highly influential, so North True Star Master did not wield such authority to act as he pleased.

But for East Emperor Ancestor... as one of the greatest existences throughout the Universe Ocean, he would not fall under Luo Feng’s influence easily. He instructed North True Star Master decisively.

“For the three memory stones,” he said, “the first one will have one supreme true treasure as collateral. I will use this to verify the authenticity of the memory stone. For the second round, we will use five supreme true treasures to exchange for the next stone, and for the third round, we will use four supreme true treasures to exchange for the final stone.”

\*\*\*\*\*

The negotiation process had both sides speaking with gritted teeth. They both took firm, resolute stands... Various means were deployed, all of which served to sound out each other’s baselines.

Between them, North True Star Master played the role of the messenger.

The deal between Luo Feng and East Emperor Ancestor was finally settled.

The terms of the deal were: For the first round, two supreme true treasures would be used as collateral, and out of the two, one was to be a palace type supreme true treasure. The reason Luo Feng made such a request was because if he wanted to wander and roam in the three most dangerous lands within Universe Ocean, a palace type supreme true treasure would be urgently required, which made it extremely precious.

For the second round, four supreme true treasures would be used to exchange for the next memory stone.

For the third round, four supreme true treasures would be used to exchange for the final memory stone.

The venue for exchange: within Universe Ocean, inside the degenerated and dilapidated Miniature Universe No. 00921. The time: Further notice would be provided upon Luo Feng's safe return to the primal universe.

\*\*\*\*\*

Inside the Boat of Mausoleum.

"Hahaha..." Luo Feng could hold back no longer and let out a hearty laugh. "Two supreme true treasures! With these two supreme true treasures... if Huge Axe Creator, who already has a godly axe, is equipped with a palace type supreme true treasure, he will have no trouble dominating Universe Ocean. He could be invincible."

Luo Feng was very satisfied with this outcome. Huge Axe Creator might have been powerful, but he had yet to be considered invincible. Since his godly axe was an attack type, it was lacking in terms of ability to defend. This was partly why Huge Axe maintained a low profile despite being such a powerful figure.

"But there is something strange. Throughout the entire Universe Ocean, only the two ancestors from the two holy lands are able to see the information stored within the deeper level of the memory stones." Luo Feng tried to address his own doubts. "East Emperor Ancestor has already come looking for me. Why is Purple Moon Ancestor so quiet?"

"When he realized that he was unable to catch me, did it not occur to him to strike a deal with me?" Luo Feng speculated.

However, Luo Feng did not know much about these two ancestors. After all, for countless reincarnation eras, it had always been these two ancestors who stayed on. These two ancestors must have met with various extraordinary opportunities to make it so far. Now that East Emperor Ancestor had volunteered to fall under his mercy, Luo Feng would not feel any pity if he had to deal a vicious blow. But Purple Moon Ancestor made no move... so Luo Feng was careful to not make a reckless move.

"No matter what, only the things that are served on my plate are mine to devour," Luo Feng said to himself. "I will first settle the deal with East Emperor Ancestor and get those two supreme true treasures first."

The fact that Huge Axe Creator took a long time to obtain his godly axe spoke much about the difficulty involved in obtaining a supreme true treasure.

Star Tower had been a gift from Sitting Mountain Guest, yet the process of getting it to recognize him as its master was the one time he was brought close to meeting his doom.

The pair of white wings had been discovered only because Shi Wu Wings had sensed it.

And Blood Ghost Blade... Actually, Blood Ghost Blade was only a blade "embryo" and did not own any secret technique of its own. Luo Feng had injected it with the technique known as Nirvana Renaissance. Even though it was only a blade embryo, it was stronger than any other supreme true treasure! This was a piece of treasure that he had obtained with his own ability. After all, he had fought against numerous great beings and had undergone various selection processes to finally emerge as the heir to that inheritance.

\*\*\*\*\*

The Boat of Mausoleum wandered about. At times, it would even head toward the dangerous areas on purpose. For instance, occasionally, it would charge its way into the lava ocean. Or occasionally, it would charge its way into a windstorm.

Deep within the internal domain, even pinnacle palace true treasures could be torn apart, but with his Boat of Mausoleum, Luo Feng dared venture into dangerous regions! This was because he was clearly aware of the power of the Boat of Mausoleum, and he had a detailed map of the Universe Boat, so he dared to roam about haphazardly just to force the universe supreme beings hot on his heels to give up.

“Loathsome!”

Amidst the endless black whirlwind floated a palace with a sharp peak. In the palace, five true masters of the Divine Eye clan were roaring as they looked out to see the Boat of Mausoleum leaving far off into the distance.

“Escape, escape, escape!” Even First True Master, who was usually composed and poised, could not hold back his rage and shouted furiously, “Give up! We will give up! It is pointless to continue chasing after him. I do not believe that this human, Luo Feng, can hide in his Boat of Mausoleum forever. The path of a great being shall always be fraught with life and death encounters to steel and hone one’s skills... I have never heard of any single great being who could steer clear of any battles and yet still become a seasoned and well-trained universe supreme master.

“Right, if he wants to become a universe supreme being, he has to succeed in this reincarnation era. He has to experience the life-and-death encounters to steel and hone his skills. He has gotten the inheritance of the pulse of Duan Dong River, so if he truly wants to steel and hone his skills, he has no other choice but to exchange blows with a universe supreme master or subject himself to risky adventures within the three most dangerous lands! Unless he does not want to become a universe supreme master. If not, he has to undergo life-and death-encounters, which he will have many chances to experience in the future!”

The various groups of powers were reluctant to give up.

\*\*\*\*\*

In the virtual universe, on a lone plane before Huge Axe godly palace.

“The various races have to give up in the end, haha...” Huge Axe Creator laughed heartily. “Luo Feng is truly brimming with confidence. I have told him about the dangers lurking in the outside world and asked him to inform us in advance when he has finished receiving the inheritance. I shall personally escort him to safety. I certainly did not expect him to say nothing before directly maneuvering that Boat of Mausoleum and charging his way out alone.”

“The Boat of Mausoleum is indeed extraordinary,” Primal Chaos City Leader said, also nodding.

Suddenly, a figure appeared.

“Luo Feng,” Primal Chaos City Leader said in surprise.

Huge Axe Creator rose to his feet to express his welcome.

“Teacher, Huge Axe Creator,” Luo Feng said with a smile. “I have a piece of good news for both of you.”

### **Chapter 1256: Let’s Set off for Tilted Peak Sector**

Other than the two holy land ancestors, Huge Axe Creator was known to be one of the top great beings within the whole Universe Ocean, and Primal Chaos City Leader was even more composed by nature with a steady disposition. While the inheritance of the pulse of Duan Dong River was able to send these two into disarray and get them all worked up, the deal with East Emperor Holy Land that Luo Feng had now appeared to inform them about also came across as a shock to both of them.

“Ten supreme true treasures!” Primal Chaos City Leader could not help but exclaim. “No matter how powerful one is, seizing ten supreme true treasures is an impossible mission.”

“Up until today, no one has ever independently seized ten supreme true treasures,” said Huge Axe Creator. “Even for Teacher Ancestor, I think it would also be too difficult to achieve. After all, when a universe supreme master wields his power with a supreme true treasure, even Teacher Origin will not have the confidence of complete annihilation. Especially if the universe supreme master is hiding in a palace type supreme true treasure, he will be safe even if he is confronted by another great being of Universe Ocean. The very thought of killing another great being to steal his supreme true treasure is simply unrealistic.” Huge Axe Creator nodded. He looked toward Luo Feng with an expression filled with approval and admiration and said, “Luo Feng, you have created a new record.”

“Impressive,” Primal Chaos City Leader said, burning with passion.

Luo Feng replied right away, “I am not the impressive one. The impressive one is the inheritance of the pulse of Duan Dong River.”

Indeed. If a universe supreme master hid within his palace type supreme true treasure, then no one would be able to force his way through. Not even Teacher Origin could achieve that. Only certain unique environments within the three most dangerous lands or some techniques of ancient civilizations could bring them to annihilation. Fortunately, palace type supreme true treasures were rare. This was why Teacher Origin could become such a strong deterrent force!

“Not ten of them at one go—that’s too exaggerated,” Luo Feng explained. “That East Emperor Ancestor is not so foolish. Even for his own East Emperor Holy Land, taking out ten supreme true treasures would be a massive responsibility to shoulder. He would never give ten of them to me without seeing that inheritance for himself.”

“That’s fine.” Huge Axe laughed with gaiety. “Just the collateral for the first part of the deal, we can secure two supreme true treasures, one of which is a palace type supreme true treasure... With these two, our human race will gain more clout; we may be powerful enough, but the moment we are besieged, we are in deep trouble. Nothing much to say for now. We must first make this palace type true treasure ours. With it and my godly axe working hand-in-hand, I will truly be fearless. Anytime I am confronted with a siege, I will not have a trace of fear. I will have the guts to fight ten—or even more than ten—universe supreme masters all by myself.”

Luo Feng could not help bursting into laughter.

Huge Axe Creator was certainly...

“Indeed, I am desperate for this palace supreme true treasure.” Huge Axe said, “Regardless of whether it is your sharing with and teaching us about your experience with the ancient civilization’s various systems of cultivation, or this supreme true treasure, your contribution to the race is boundless! This palace type true treasure... is a great favor that I owe you.”

“My intention was to contribute it to the race in the first place,” Luo Feng replied.

He already had Star Tower. Why should he make such a specific demand for this, then?

It was really just for Huge Axe; having wandered about Universe Ocean, he had deeply felt the cruelty as various groups of powers fought one another. When different clans crossed paths, the best case scenario would be cruel killing because of a true treasure. On the flip side, the killings could be as terrible as mindless slaughter—even without the temptation of a true treasure involved!

However, the stronger a group was, the less inclined the others were in daring to advocate provocation. If one’s race had a top great being of Universe Ocean, then that race was certainly on a different level of prestige. The moment other races crossed paths with any human great beings, the first to come to mind would be Huge Axe, and none of them would dare stir up trouble. He was the pillar holding up the race!

“This time, there are two supreme great treasures.” Huge Axe looked at Luo Feng. “One for me and one for you.”

“No, the other one is for Teacher,” Luo Feng said and looked toward Primal Chaos City Leader.

“Me?”

Primal Chaos City Leader was slightly taken aback. Huge Axe was the pillar of support for the human race, so giving him a supreme true treasure would greatly benefit the race; besides, Huge Axe had contributed greatly to the human race. It was a given that he was a deserving recipient of the supreme true treasure. Everyone would peacefully accept this decision. And Luo Feng’s contribution was equally great. He was the one who earned the supreme true treasures, and with the inheritance of the pulse of Duan Dong River, his future was limitless, so if he were to be given a supreme true treasure, everyone would unanimously agree, too. But giving it to Primal Chaos City Leader?

“Luo Feng, you should take this,” Primal Chaos City Leader said solemnly. “This is a supreme true treasure.”

“Yes, you should have it,” Huge Axe agreed with equal solemnity. “We cannot have you constantly contributing without any reward.”

“Teacher, I have the inheritance of the pulse of Duan Dong River... Do you think that as an heir to the pulse of Duan Dong River, there won’t be any weapon being prepared for me?” Luo Feng jested.

The moment he said this, Huge Axe Creator and Primal Chaos City Leader looked at one another with the same thought in mind. True, what Luo Feng said made sense. The inheritance of the pulse of Duan Dong River would indeed prepare the most suitable weapon for its heir. And the power of this weapon would certainly be quite superior.

“Supreme true treasure?” Huge Axe Creator asked with some surprise.

“Mm.” Luo Feng nodded.

The categorization of weapons within Universe Ocean was very defined. So long as the secret techniques of true treasure weapons could attain the level of a universe supreme master or beyond, all of these would be supreme true treasures! Supreme true treasures topped the ranks in Universe Ocean. Even for any extremely formidable true treasure—for instance, one that exceeded the level of a universe supreme master—giving it to universe supreme masters would be a waste of a resource. The weapon would be beyond their capability to wield, and they would struggle to get the treasure to unleash its full power.

This was why the blade embryo, Shi Wu Wings, and others were still considered to be supreme true treasures according to the categorization system of Universe Ocean.

“This will not do.” Primal Chaos City Leader shook his head. “This is an opportunity that is hard to come by. A great being with two supreme true treasures—what about it? It means you will be safer. If you receive that inheritance, I believe you will be able to make it into the ranks of universe supreme masters. It is only a matter of time.”

“Teacher, let’s take it, as I am the one who got this supreme true treasure, and then I handed it over to you,” Luo Feng said with a chuckle.

Primal Chaos City Leader was momentarily shocked.

“It’s a deal, then.” Luo Feng stood up. “I still have to make my way out of the Universe Boat, and that will take me almost 1,000 years. No rush, no rush.”

Shua!

Luo Feng vanished into thin air.

Primal Chaos City Leader and Huge Axe Creator looked at one another.

“Look!” Huge Axe Creator sighed. “At the very beginning, who could have been worried that this Luo Feng—who was rising so rapidly, like Flame Emperor did—would be as selfish as Flame Emperor? A selfish but talented and powerful great being will, on the contrary, be a threat to his race. The truth? Luo Feng is indeed remarkable. He is much stronger than Flame Emperor and has met with more mysterious and magical opportunities and encounters, yet, he turned out to be a much better person compared to the majority of universe masters from our race.”

“True.” Primal Chaos City Leader also nodded in agreement.

Great beings always considered themselves first. This was typical. The choices made at critical moments would explain certain problems.

This time, Luo Feng unexpectedly dedicated the second supreme true treasure to Primal Chaos City Leader... Certainly, this was a gesture that touched Primal Chaos City Leader deeply.

\*\*\*\*\*

The Boat of Mausoleum had shrunk to the size of a walnut, roaming about through the vast Universe Boat fraught with dangers. But, of course, it was heading in the direction that would lead to the outside

world. Once it entered a domain that allowed for teleportation, it would carry out extensive teleportation to cover a more substantial distance as it made its way outward. Even so, the estimated time required to finally make it out of the Universe Boat would still be close to 1,000 years.

“Teacher has been showering me with so much kindness,” Luo Feng said to himself. “When I make it out of the Universe Boat, I will be able to seize that white pair of wings very soon. And the reason why I am able to seize them—in fact, the source of everything—is because from the very the beginning, Teacher bestowed me with that pair of Shi Wu Wings. Thus, I am able to obtain the white pair of wings. So now, dedicating this supreme true treasure to Teacher is something I should do.”

Shi Wu Wings were comprised of a total of six pairs of wings. It was an automaton type treasure.

The attack power it could execute was extremely strong, especially after conversion by the origin. This automaton type treasure could usually allow a great being to skip grades in battles due to the increase in power. Therefore, in the ancient civilization, it was an extremely popular type—almost comparable to close-range combat type treasures! However, the nearer one progressed toward the peak, the more difficult it was for an automaton type to advance because the closer one got, the more the stringent requirements would be expected of the automaton treasure; without even considering skipping grades in battle, creating an automaton type treasure that was compatible with oneself was extremely difficult.

Of course, in the context of the ancient civilization, Luo Feng was merely considered to be at an ordinary level. That was why owning Shi Wu Wings would greatly benefit him.

“It’s just a pity that even after adding on the white pair of wings, I still only have three pairs,” Luo Feng said to himself. “Where are the other three pairs? For countless years, Shi Wu Wings has been broken up. The white pair of wings is damaged while the other five pairs are all severely impaired. Thus, their powers are greatly reduced. For the other five pairs of wings, every individual pair only has the power of an ordinary true treasure, so if any of them were seized by universe masters or universe supreme masters, they will likely be casually tossed into some treasure vault or bestowed to universe knights.”

Luo Feng thought about it for a moment. That was what Primal Chaos City Leader had done when he got hold of a pair of wings. He had handed them over to Luo Feng right away. And the second pair had been obtained from Tian Yang Knight.

If any of the wings were really thrown into some treasure vault by random great beings or carried about by some universe knight within a certain miniature universe, then there was really nothing that Luo Feng could do further.

“I will have to depend on my luck, then,” Luo Feng told himself. “Out of the six pairs of wings, the white wings are the sharpest and strongest. Most importantly, they bear the ‘origin.’ Even if I did have the other three pairs, it would be meaningless.” Luo Feng consoled himself in this fact.

\*\*\*\*\*

Getting out of the Universe Boat required close to 1,000 years.

Luo Feng continued to comprehend and cultivate Extermination and Dong Hua. Even with an increase of 10,000 times in time velocity, up until now, he had merely completed a thorough comprehension of the first volumes of Extermination and Dong Hua; these two sets of knowledge were highly profound—even

in the first volume. Luo Feng knew what must be done, but he was still unable to grasp the mysteries within them.

\*\*\*\*\*

In the blink of an eye, almost 1,000 years had passed.

In one of the broken caves within the vast and quiet Universe Boat...

Sou!

A crimson pagoda flashed by. Shortly after, it executed repeated teleportation and immediately charged out into the vast chaotic airflow.

“Hahaha... Finally, I’m out of the Universe Boat.”

“Piece of cake, isn’t it?”

“After being in a rush for such a long time!”

Within the crimson pagoda, Luo Feng laughed heartily. This crimson pagoda was actually Star Tower in another form. After he had shaken off the group of universe supreme masters that were after him, he had flown for more than 100 years before switching over from the Boat of Mausoleum to continue his flight on Star Tower. Because the Boat of Mausoleum was incapable of taking another form and was too eye-catching, once the other great beings caught sight of it, they could quickly guess that Luo Feng must be inside the Boat of Mausoleum.

That was why Star Tower was transformed to take on a new look: a crimson, three-storied pagoda!

“After such a long wait, I am finally out of the Universe Boat.” Within Star Tower, Luo Feng was in high spirits as he looked out at the endless chaotic airflow. “For such a long time, I did not dare to continue cultivating and comprehending the laws, as I was afraid that I would accidentally become a universe master. Then I would not be able to get the white pair of wings to recognize me as master.”

Cultivation and comprehension were concepts that were difficult to explain. When comprehending the heart of Beast God, which involved a secret technique of an extremely high level, it was inevitably easy for him to accidentally become a universe master. Or easy for him to achieve a breakthrough. Or even to experience a temporary pause for a short period at a certain threshold—like when he had been stuck at the threshold of a universe knight for a short period. But, unquestionably, even if he were to get stuck at a threshold, it would not be for long. Mainly because Luo Feng had accumulated a sizable amount of experience!

“Before I return to the original universe, I shall first head for Tilted Peak Region where I will seize that white pair of wings. Let’s set off! For Tilted Peak Region! Space of the Wings!”

Luo Feng manipulated Star Tower, and amidst the endless chaotic airflow, he started teleporting to advance toward his destination.

**Chapter 1257: Get Back the White Wing**

It was far from Universe Ocean to Tilted Peak Sector. However, when using teleportation and natural wormholes, it took much less time than traveling inside Universe Boat.

Hua!

The water was tumbling in Tilted Peak Sector, and there was a bloody tower floating above the waters.

“It’s Tilted Peak Sector.” Luo Feng, in the body of Golden Horned Beast, was looking down in Star Tower. “It’s only been tens of thousands of years since the last time I came here. Only tens of thousands of years... The white wing hasn’t found a master yet.”

His Shi Wu Wing had already had a spirit! The white wing also had a spirit! If they were combined, only one of the spirits could survive, and with Luo Feng’s affirmation, Shi Wu would definitely be the only one that survived. The spirit of the white wing would be annihilated, which was why the white wing had gone crazy the last time Luo Feng was there.

“It can’t find a new master after countless universe eras, so it would be impossible for it to find a new master in only tens of hundreds of years!” Luo Feng smirked.

Shua!

The bloody tower teleported and dived into the waters. It teleported itself several times in the water. With the supreme true treasure, he went straight toward the cave.

\*\*\*\*\*

Traveling along the dark cave and passing nine light screens, the bloody tower entered the wing space.

Hong! Long! Long!

Blade storms filled the entire space. The bloody tower shrank to the size of a speck of dust, and it approached that gleaming light wing.

After almost a month, it finally reached the area in front of the light wing.

“White wing.” Golden Horned Luo Feng saw the core of the light wing, and the scratches and blood on it.

The bloody tower kept approaching it. Now, the mind attack from the white wing was nothing to Luo Feng.

Weng!

A ripple came from the white wing and was passed to Luo Feng through Star Tower.

“Space Beast!” said an ancient voice.

The Golden Horned Beast pretended to be surprised and said, “Who are you?”

“I am the spirit of the wing true treasure!” said the ancient voice.

The Golden Horned Beast made a surprised voice. “The spirit of the true treasure? Then what’s that mind attack and the blade storm?”

The ancient voice continued, but Luo Feng secretly smirked.

To get the white wing back, Boat of Mausoleum was separated from Star Tower when it arrived at the periphery of Tilted Peak Sector. Boat of Mausoleum was hidden in the chaos airflow around Tilted Peak Sector with the earthling original body and Shi Wu Wing while the Golden Horned Beast came to take the white wing!

Luo Feng knew for certain that once the two valuables were merged, the spirit of the white wing would die. So if the white wing saw Luo Feng coming, it would do everything it could to prevent Luo Feng from taking ownership over it, and it might even kill itself along with Luo Feng. Even though the white wing was only an object instead of a life form, it shouldn't have terrifying skills.

However, to make sure everything went smoothly, he allowed the Golden Horned Beast to go first!

The white wing only knew that he was human; it didn't know he had a Golden Horned Beast body.

Humph. After you recognize me as your master, you won't be able to do anything about it, thought Luo Feng.

\*\*\*\*\*

The Golden Horned Beast pretended to be incomparably excited to find a supreme true treasure, and he was talking with the spirit of the white wing. The spirit of the white wing rushed to recognize the Golden Horned Beast as its master, so he didn't lie to him the way he had lied to Luo Feng. Instead, it told the Golden Horned Beast the conditions directly.

"I'm more powerful than you think!" said the white wing. "And because of that, the requirements are very high. If you're a universe knight, you must have the willpower of a universe supreme master! And if you're a universe master, your willpower must surpass that of a universe supreme master. If you can't meet the conditions, tell the other great beings in your race to come. I've been lonely for too long, and I want to get out."

The white wing tried everything to persuade the Golden Horned Beast.

Luo Feng sighed.

Wow! It was being so nice! It had been very sneaky when his original body had come in, yet now, it was so passionate.

"How! Are you being serious?"

"Of course I am," said the white wing.

"How!" The Golden Horned Beast looked extremely excited. He roared, "It's great! I arrived here easily and withstood that mind attack because my willpower is at the universe supreme master level. Also, I'm a universe knight, so I meet the conditions!"

\*\*\*\*\*

The spirit of the white wing was exhilarated. The thing it was most afraid of was being retrieved by Luo Feng, as that meant it would die.

The whole process was very smooth under the guidance of the white wing.

“Seal your godly power on the wing, and then I’ll recognize you as my master.”

The white wing was very cooperative. It wanted to leave the wing space more than anything, and it wanted to tell the new master that a human possessed another part of this true treasure. It wanted the new master to use it to kill that human. After that, it would swallow the spirit of Shi Wu Wing.

“I am the true spirit of the wing true treasure. That goddamn thing took so many energies from the origin... It has to die.”

The spirit of the white wing hated Shi Wu’s guts. It was instinct.

\*\*\*\*\*

“Succeeded!” the Golden Horned Beast yelled.

“Master, the wing is also damaged,” said the spirit of the white wing. “It needs to absorb some precious materials to recover or swallow some pinnacle true treasures.”

After the white wing being taken, the blade storms also disappeared, and the wing space became ordinary. Teleportation was possible now.

Shua!

The bloody tower reached the entrance after one teleportation.

The spirit of the white wing was thrilled. “Finally! The legendary Universe Ocean...”

\*\*\*\*\*

The bloody tower left Tilted Peak Sector and entered the deeper area of the chaos airflow. The Boat of Mausoleum, in the size of a walnut, approached it and sucked it in.

The Golden Horned Beast was sitting inside Star Tower.

“I can feel it. The strong attraction. Master, it’s that human. The human who has the component.” The white wing felt the calling. “I used to be a mighty true treasure, but after that bloody war, it was dismantled, and the human got the other components. I can feel the attraction. He’s nearby.”

The Boat of Mausoleum showed up beside Star Tower, and a human walked out. He was wearing a silver wing and silver armor with a stone blade on his back.

“The spirit of the white wing.” Luo Feng looked at the white wing on Golden Horned Beast.

“You...!” The spirit of the white wing immediately understood. It could feel the absolute command—that it had to do anything the human wanted. “Ah! I should’ve let out all my energies! Damn human!”

The spirit of the white wing roared, realizing that it would die soon.

“In case anything happened,” said Luo Feng coldly. “Now, it’s time for you to die.”

Actually, a single thought from Luo Feng could annihilate the spirit of the white wing. However, he preferred for Shi Wu Wing swallow it, as he could learn more.

“Merge!”

Luo Feng used his godly power to control it.

Hua!

The pair of white wings and the four silver wings floated in the sky at the same time and started to integrate. The components connected to one another, and the origin was transferred to the bottom silver wing. After all, the silver wing was complete, so it didn't need to worry about an energy leak.

The power spread when they were being integrated.

“Such strong power...” Luo Feng held his breath. “This machine type valuable must be better than the machine type valuables used by universe supreme masters.”

Luo Feng saw that the restructuring process was extremely complicated. The power stopped spreading, and the giant six wings were floating.

The bottom four wings were complete. The top two wings had sharp edges, and there were lots of engravings on the edge, making them keener. According to the spirit of Shi Wu, the complete Shi Wu Wing had six pairs. The other five pairs were like blade backs and blade bodies, while the white wing was like the edge.

“Come.”

The six-winged true treasure flew toward Luo Feng and merged onto his back.

Hua!

The six wings shone! Without any godly power, the true treasure slashed the space in the control room easily.

“Even without the origin, it can rival a supreme true treasure!” Luo Feng exclaimed. “If I use my Nirvana Renaissance, it might only be weaker than my Blood Shadow Blade... If I use the origin... Unfortunately, I can't use the origin yet.”

The origin was like an engine. It was used to store energies.

When great beings used the complete six wings, the godly power should infuse the origin, which would transfer the godly power into something more aggressive—energies in the form of blade storms! The energies could be stored in the origin, and in an actual fight, it could use the storage before using the godly power.

However, the stored energies belonged to the former master instead of Luo Feng. He could infuse his godly power into the origin and transform it into blade storms, but it would be much weaker! When he used the origin, he had to expel the energies from the former master. The two kinds of godly power were at different levels, so they couldn't be stored in one place.

Once it exploded, it would be used up at one time, but Luo Feng couldn't utilize even one-tenth of it.

The only way he could use it was to infuse his godly power to expel the energies left by the former master. When the former energies were expelled all at once, it would be extremely powerful, so Luo

Feng didn't dare to use the origin. He only used his godly power to drive Shi Wu Wing, making Shi Wu Wing work like an ordinary supreme true treasure.

### **Chapter 1258: Godly Blood**

Luo Feng wouldn't use the origin for no good reason.

He had two thoughts on the "origin." One idea was to use the energies stored in the origin to repair the complete wing true treasure when he got the other three pairs in the future! Just like how Shi Wu Wing absorbed a great amount of energies to repair its damage. Even though machine type valuables could repair themselves, they needed energies, after all.

However, his energies weren't good enough to repair a supreme valuable like Shi Wu Wings. This was one thought. Another thought was to use it as a trump card!

Each blade energy was more terrific than attacks from universe supreme masters and could crack a top-tier palace type true treasure! If all the hundreds of millions of energies exploded through the white wing's edge, even a supreme true treasure would be cracked!

As for universe supreme masters, they wouldn't be more doomed! Of course, he could only use it once!

I'll try to find the other three pairs of wings and absorb the energies, thought Luo Feng. The energies left are enough to make attacks.

Actually, the energies were enormous. Some of them were enough to kill a universe supreme master. However, he couldn't use them effectively.

\*\*\*\*\*

The bloody tower left Titled Peak Sector and rushed to the original universe.

Shi Wu Wing transferred a ripple. "Master! The wing is damaged, so when it's triggered by your godly power, it'll be significantly weaker and will hinder the overall power. It has to swallow some precious material for repair, usually the main material for pinnacle true treasures. Directly swallowing pinnacle true treasures is fine as well, but it's too costly. And, more importantly... There are three godly bloodstains on the white wing, and they affect the overall power as well. However, after the three wings being combined, it's easier to expel the godly blood. But when it's integrated with the sixth pair of wings, it'll drive them out."

Shi Wu Wing talked about it a lot on the way back to the original universe. After all, it had to suppress the bloodstains while being damaged, so it wanted the problem to be solved as soon as possible.

"I'll collect some material when I get back, but I don't have enough material with me now," Luo Feng told Shi Wu.

He did have some true treasures. During the inheritance, lots of great beings were killed. However, the great beings who left before the basic inheritance took away the supreme true treasures and pinnacle true treasures! They saw the deaths of the two true masters from the Divine Eye clan, so they knew that

not even palace type supreme true treasures could protect them. They also knew that only one could survive the basic inheritance, so almost none of them brought any true treasures.

However, lots of true treasures had been left by some great beings who were killed by the monster Cuello, the universe masters who got killed for trying to kill undying fighters, and the great beings from the Divine Eye clan who got killed. The two supreme true treasures and a precious true treasure were given to Thundercoat Devil God by Duan Dong River, while the other true treasures were left in Boat of Mausoleum and became Luo Feng's. Which meant Luo Feng's biggest gain was the true treasures left.

"They came here just for the inheritance, so they're prepared for death. Lots of them didn't bring true treasures!" Luo Feng exclaimed. "There are only a pinnacle domain type, pinnacle palace type, and pinnacle soul type true treasures! As for ordinary pinnacle true treasures and top-tier domain type and palace type true treasures, there are only 12 of them. Those weaker than them aren't even worth mentioning. They're not enough for Shi Wu Wing to recover."

These valuables might be what a universe supreme master could have. Those who went for inheritance rarely carried precious true treasures except those like Seventh True Master who tried to use Ice Cliff Fortress to save his life.

Shi Wu transferred a ripple. "Master."

"Huh?" Luo Feng listened to it.

"There are four bloodstains on the sixth wing," said Shi Wu, "and after an eternity, a bloodstain was driven out, forming a drop of godly blood."

For the sixth pair of wings, under the influence of the bloodstain, the infusion of godly power would be negatively affected. He hadn't checked the sixth pair of wings. (The complete wing true treasure has six pairs. Luo Feng got the first two pairs, and the white wing was the sixth pair of wings, so he still needed the third, the fourth, and the fifth pair).

"The godly blood must be the blood of the former owner of this wing true treasure."

"It contains endless power. Master, you can't use your godly power to cover it," said Shi Wu. "You should firstly drive it out and then use your Star Tower to withhold it."

"Sure."

Luo Feng grew excited. Godly blood? The godly blood of a supreme being who could damage the complete Shi Wu Wing? The willpower alone was mighty, and such a drop of godly power could be put to great use.

Under Luo Feng's control, a drop of scarlet blood showed up on the white wing, and there were drops of black blood around it. It fell on the floor of the control room of Star Tower. The floor sank like a bowl, and the drop of godly blood flowed and formed an oval.

"Normal valuables can't hold the godly blood!" Luo Feng exclaimed. His godly power couldn't hold it.

When great beings trained themselves, their bodies would be energized after becoming undying, and his life imprint was sealed on each trace of his energy.

After becoming a universe supreme master, all the bodies were combined as one, and the energies would be materialized again. They could burn their flesh and blood to fight. The flesh and blood had more functions.

The energy contained in this drop of blood was enormous, and the mental pressure is strong, Luo Feng thought. Universe Ocean nowadays might not be able to fully utilize the energies in this drop of godly blood. However, it's not difficult to turn this drop of godly blood into a soul type valuable. All I need to do is bind the mind attack in one direction.

If the crushing willpower spread, only the best universe masters could hold the willpower. If it was concentrated in one direction, it would become a laser; only the mind of a universe supreme master could barely resist it.

"With this mental crushing alone, those universe masters who have weaker willpower will be in agony." Luo Feng smiled. "Even the minds of universe supreme masters can't resist it if they're attacked suddenly."

The godly blood could be energized! It could be used to compromise supreme true treasures! It could be used to crush minds!

Luo Feng couldn't do the first type, and the second type would be a waste, so the third type was the most suitable. And he had a teacher who was best at making true treasures in Universe Ocean!

These are just my ideas; they might not be fulfilled, thought Luo Feng. I'm not able to make a valuable. I'll go back to the original universe, find Master Sitting Mountain Guest, and listen to what he has to say.

Master Sitting Mountain Guest was the expert on it, so he could fully utilize this drop of blood.

Ze! Ze...!

A drop of blood from a supreme being of the ancient civilization. A supreme being who could damage the complete six wings that were stronger than supreme beings. What an amazing being it was! No wonder even a single drop of blood contained such power.

\*\*\*\*\*

Luo Feng used his mind for communication. "Shi Wu, I don't have many true treasures, and the precious material within the human race isn't enough. So I'll leave the Golden Horned Beast with you. You can go to the deep area of Universe Ocean and get the valuables left by Jie Fanzi. Jie Fanzi is a lone universe supreme master. When he went to try the incarnations, he might only take supreme true treasures that are actually useful, or some valuables like pinnacle palace type true treasures. Jie Fanzi might leave more valuables there than the valuables left by the killed great beings from the Divine Eye clan."

"Okay. Quick, go!" Shi Wu was excited.

They separated halfway. Golden Horned Beast wore Force Armor and Shi Wu Wing to fly to the deep area of Universe Boat. He was also carrying Star Tower! With Star Tower, it was easy to get the valuables left by Jie Fanzi...

As for the original earthling body, he was wearing Crazy Demon Extermination Godly Armor. He was carrying the Blood Shadow Blade and Boat of Mausoleum and went back to the original universe!

These two bodies were Luo Feng's main bodies. The original body had Blood Shadow Blade, so he was more powerful. As for the Golden Horned Beast body, he had Shi Wu Wing, which carried the origin that was Luo Feng's trump card. These two weren't even afraid of universe supreme masters.

\*\*\*\*\*

Soon, Luo Feng arrived back at the original universe, and the seniors of the human race knew about it.

Outside the Huge Axe godly palace in the virtual universe, the 19 universe masters and Huge Axe Creator gathered there and were celebrating.

"Luo Feng came back to the original universe! He's safe now." Peng Gong Master laughed. "Beings from the other universe eras and the two holy lands couldn't enter the original universe. Besides, even universe supreme masters can't use their power thoroughly in the original universe. With Luo Feng's power, he's able to fight them now."

"We humans will be booming now." Primal Chaos City Leader was excited.

"Yes."

"We'll be the number-one power in Universe Ocean in the future," said Void Gold Master.

The seniors in the human race were all exhilarated. They feared that something might happen to Luo Feng when he came back. Fortunately, he arrived home safely! They could all see a thriving future for the human race.

### **Chapter 1259: Do Not Come Here**

On the long stone table outside Huge Axe's godly palace, Huge Axe Creator and 19 other universe masters gathered.

Huge Axe Creator's gaze swept over the surroundings as his powerful voice boomed, "We are here first to welcome Luo Feng and congratulate him on his safe return. Second, we are here to discuss the plan for our human race: 'Rise in the Universe Ocean!'"

Rise! Hearing this word, everyone, including Luo Feng, Primal Chaos City Leader, Blackness Master, Void Gold Master, and Deserted Mirror Master, held their breath in excitement.

Yes. Time to rise!

In the original universe, the human race was considered a pinnacle race, but in the vast Universe Ocean, there were so weak that if they were in the first reincarnation era or second reincarnation era, with only one universe supreme master leading the entire race, they would never qualify enough to be ranked as a pinnacle race. Even the seven supreme universe masters of the Divine Eye Clan were not worth a mention, as the pinnacle races from the first or second reincarnation era, on average, would have at least three to five universe supreme masters.

The only presentable great being from the human race was Huge Axe, who was, alone, an extremely powerful being! The other universe masters, within the Universe Ocean, were weak in power and small in number.

“This time around, the plan is to rise in Universe Ocean.” Huge Axe Creator was filled with excitement and expectation. “Milky Way Horde Leader shall lead; everyone else must cooperate! We must breed more undying fighters, more universe knights, and more universe masters from our pool of humans... And from there, we can bring up more universe supreme masters!”

“Yes!”

“Yes!”

“Yes!”

One by one, clear and resounding responses were heard. The group of universe masters from humanity were full of hope for the future of their race, all of them filled with motivation. Furthermore, they had heard Luo Feng’s preaching and were clearly aware that the ancient civilization had a systematic way of cultivation which was very useful. It would certainly be able to bring about developmental changes to the human race’s capabilities.

Besides, Luo Feng was very knowledgeable about the ancient civilization, and he was an heir of the pulse of Duan Dong River! He was the most suitable choice as leader. To choose someone who did not know much about the ancient civilization would be folly.

“I, Luo Feng...” Luo Feng also stood up and looked around. “Will do my utmost best! For we humans... to truly dominate Universe Ocean! And become the top power of Universe Ocean!”

“Dominate the Universe Ocean!”

Everyone was going through an emotional moment, even Primal Chaos City Leader and Huge Axe Creator felt tremors in their hearts, least to mention the other universe masters, who were all burning with passion. There was a saying that went, “A soldier who did not want to become a general was not a good soldier.” Amongst close to 100 powers in Universe Ocean, did any not covet after the status of first within Universe Ocean? It was a luxury that existed in their wildest dreams, not in reality.

In the past, who would have enough clout to make such a remark? Not a single being would dare say so! No clout!

Even when Teacher Origin was still around, he alone was very powerful. No one had ever mentioned anything about the human race daring to dominate Universe Ocean or daring to become the top power! After all, in terms of power, when compared to the two holy land universes, the human race was far too inferior.

The two holy land universes had several hundred universe masters! (The human race only had 19, including Luo Feng.) And they even had universe-masters-to-be; because there was a limit to the number of universe masters the holy land universes could accommodate, they were not able to provide them with godly powers to achieve their breakthroughs. That was why, even if several universe masters from the two holy lands were to be annihilated, their vacancies would be filled up very quickly.

Speaking of supreme true treasures, sixth-tiered universe masters of the two holy lands had quite a few! The human race? Not even one! Previously, even Huge Axe Creator himself did not have one. Luckily, he had since gained his godly axe.

Huge Axe Creator's powerful voice was heard again: "My human race will see the rise of a few hundred, or even 1,000, universe masters, and we will see the rise of a dozen universe supreme masters! The two holy land universes shall not be able to hold a candle to us humans!" How far we make it all depends on us. We are the heroes of our race. Let's work hard, everyone, for the future of our race."

"For the future of our race!"

"For the future of our race!"

One after the other, the universe masters let out shouts of excitement. All of their hearts were trembling.

Their hearts trembled because this goal was massive—so massive that in the past, they would not have dared make such claims. They would not have had the clout to do so. Yet now, Luo Feng had gained the inheritance of the pulse of Duan Dong River. This ancient inheritance gave them the confidence to desire to be the first in Universe Ocean. The human race would benefit greatly, and this would bring about an earth-shattering change.

\*\*\*\*\*

When the discussion ended, the other great beings left successively. Only Huge Axe Creator, Primal Chaos City Leader, and Luo Feng remained.

"Luo Feng." Huge Axe Creator was filled with anticipation. "We have to trouble you during this period."

"Anything for our race," he said.

"Yes, for our race." Huge Axe nodded.

There were two reasons why Luo Feng had started all of this after his return. Firstly, there were too many systems within the inheritance. The cultivation process was massive. Teaching and transmission of consciousness through the virtual universe was just too slow. Secondly, to cultivate the great beings who were going to take charge of the humans' future, many "items" were required. For instance, ice mountains that contained law engravings. These could only be found within the space of inheritance, so Luo Feng had to bring them back.

"This time, our plan to rise will consist of two parts," Huge Axe Creator said with a smile. "The first part involves cultivating the individual power of our race's great beings. This will require time. The second part involves our supreme true treasures. You just returned to the original universe. When do you intend to make the deal with East Emperor Holy Land?"

"I intend to set up the main framework for the various systems of cultivation within Primal Chaos City first," Luo Feng said. "I think I will take around ten days to half a month to complete everything. Then I will get in touch with East Emperor Holy Land."

"Mm." Huge Axe smiled. "If I had known that you will be able to get these supreme true treasures, I would not have taken the risk and headed for Tilted Peak Sector, I am now rushing back from the core

land of Tilted Peak Sector, but this core land is extremely dangerous, so I will need some time to rush back.”

“All right,” Huge Axe said. “You and your Teacher shall make the arrangements for matters regarding cultivation then.”

Luo Feng and Primal Chaos City Leader departed without further ado.

\*\*\*\*\*

In the primal universe, Primal Chaos City, on the high grounds within City Leader Palace, Luo Feng, and Primal Chaos City Leader stood by the railings where they had a bird’s eye view of the countless buildings within Primal Chaos City.

“Luo Feng, this plan to rise is extremely important,” Primal Chaos City Leader reminded him. “The inheritance of that ancient civilization must never ever spread beyond our land. You will be leading the entire cultivation system, so you must be vigilant and take measures to prevent any leaked information.”

“That is a given.” Luo Feng smiled. “With more and more great beings emerging within our human race, the other races and powers will naturally start to suspect something... which was why I chose Primal Chaos City as the cultivation land! It is safest here, where no other great beings would dare intrude. Besides, there are some things that even if a spy manages to catch a glimpse of, he will never be able to steal. For instance, the 300 ice mountains that I have prepared!”

“Also, based on the different degrees and giftedness of individuals, I will prepare a more personalized cultivation method.”

\*\*\*\*\*

The entire cultivation system was massive and complex. Other than the areas that involved items that Luo Feng had to prepare, there were also many other training methods that were placed within the virtual universe. Therefore, Luo Feng specially brought 12 memory stones back and placed them within the core area of the virtual universe that was located within the Primal Chaos City Leader Palace for the purpose of receiving the tremendous amount of information from the memory stones.

Virtual universe, Primal Chaos City... would be the main places allocated as the two major cultivation lands.

Those in contact with confidential information were either the core higher-ups of the human race or the spiritual servants, and regardless of who it was, the amount of confidential information that every individual could get in touch with was only the tip of the iceberg. Only what the virtual universe acknowledged could truly become a system. And, of course, only Luo Feng knew the most.

\*\*\*\*\*

Original universe, Milky Way Galaxy, Luo Feng’s godly palace.

“I just returned from the original universe.” Luo Feng held his transmission token and spoke into it. “North True Star Master, fret not. The deal will take place soon.”

A message was sent from the virtual universe. It was from Primal Chaos City Leader: "Luo Feng, quickly get to the virtual universe!"

"Huh? What could be so urgent?"

When Luo Feng laid eyes on the mail that Primal Chaos City Leader sent, he found it to be blood red in color, representing a message of extreme urgency.

Shua!

From where he appeared in the virtual universe, Luo Feng saw Primal Chaos City Leader standing right ahead of him on the apex of Thunder Island.

"Teacher."

Primal Chaos City Leader wore a heavy expression. The moment he saw Luo Feng, he said right away, "Let's go. To Huge Axe's palace."

He gave no explanation.

\*\*\*\*\*

It was an endless darkness beneath the glimmer of the starry sky. On a floating piece of land, several figures appeared by the long table before Huge Axe's godly palace.

Luo Feng and Primal Chaos City Leader were the first to arrive.

"Teacher, what is going on?" Luo Feng asked persistently.

"You will know in a while," Primal Chaos City Leader said in a dreary tone.

Luo Feng secretly heaved a sigh of relief. It seemed like although the matter was extremely important, it was still within their control. If not, Teacher would not have waited for every single universe master to arrive.

Soon, the 19 universe masters were all gathered again.

Hua!

A lone figure appeared out of nowhere and positioned himself in the host seat. It was Huge Axe Creator.

"Dear all," Huge Axe Creator said.

His gaze swept through all 19 universe masters. Everyone looked over. They had all been summoned here with a note of urgency.

"I met with some trouble." Huge Axe Creator looked at the 19 top-notch beings of the human race, and, in a low voice, he continued. "I was at the core ground of Tilted Peak Sector and met with trouble. The previous battle against Yuan Ao Master... That map that got leaked... must have been a fake."

"The map is fake?"

Luo Feng was shocked.

He had personally made the trip previously, and with Ice Mountain Master's help, he managed to seize a portion of that map.

"It was a trick," Huge axe Creator said solemnly, "but the opponent did not expect my power to be so strong, which is why they suffered a loss. But during the fight, I was extremely unlucky to have fallen into the Land of Darkness of the core ground."

"Land of Darkness!"

Everyone, including Luo Feng, revealed expressions of shock and anger.

The most detailed map of the human race that was shared by all had been mainly contributed by Luo Feng, so naturally, he would be the one who knew it the best.

The Land of Darkness was a most terrifying domain within the core region of Tilted Peak Sector! Compared to it, other regions within the Universe Boat, like the so-called Flame Ice Region and God-Destroying Valley, were merely child's play. Every being knew that any place within that core region was much more terrifying than Flame Ice region. Moreover, they were now talking about the Land of Darkness, which was well-known even to the other places among the core region itself. The danger it contained, though extremely terrifying, was still considered mid-range within the core region.

However, of those who had fallen into the Land of Darkness, none had ever emerged again! It was a prison of despair!

"The Land of Darkness," said Huge Axe Creator. "Although those who have fallen into it were all universe supreme beings, I have never heard of any who made it out of there." Huge Axe Creator's gaze swept through the 19 universe masters, and he solemnly continued, "Firstly, the number of universe supreme masters who have fallen into the Land of Darkness was very few to begin with, but the small number cannot explain much about the place. Secondly, I am different from any ordinary universe supreme master.

"I am not trapped in the Land of Darkness, unable to get out for the time being, but so long as we keep mum about this, no one besides us will know. I need time to slowly figure a plan to get out. During this period, my human race must maintain a lower profile." Huge Axe Creator was very solemn as he instructed, "Teacher Origin has been suppressed, and I am trapped... There is no universe supreme master to lead our race for the time being! This is very dangerous. Make sure this news does not leak out."

One by one, the universe masters replied.

"Understood."

"Understood."

Everyone was clear about the severity of the situation. Without a universe supreme master in the lead, this news spelled great trouble.

"I am giving my best now," Huge Axe Creator said with a serious expression. "No distractions. If there is nothing important, do not contact me." Then he vanished into thin air.

Before Huge Axe's godly palace, 19 of the top beings of the human race were seated around the long table, looking at one another with hearts filled with worry. The Land of Darkness! What if Huge Axe Creator was unable to return forever? What should they do? Without a universe supreme master in the lead, the human race would meet with a lot of trouble in the future.

"The news about Huge Axe being trapped must not be leaked out beyond us," Primal Chaos City Leader spoke up. "This news will be classified as confidential, top secret!"

Luo Feng and the others nodded solemnly.

Suddenly—

Just as Primal Chaos City Leader, Darkness Master, Luo Feng, and the rest were feeling frustrated, Huge Axe Creator suddenly reappeared in the host seat by the long stone table. In his eyes, there was shock and anger as he roared repeatedly, "Remember, do not come to the Land of Darkness! Do not come here!"

Hong!

The figure disappeared.

Hua!

All 19 of them, including Luo Feng, jumped to their feet as they felt something ominous.

"What's wrong?"

"What did Huge Axe Creator meet with?"

"Why did he disappear after saying that?"

Everyone was panicking. Merely a few seconds later, Void Gold Master's expression betrayed shock and fear as he said in a piercing voice, "Huge Axe's miniature universe is starting to fall apart! Huge Axe... was annihilated!"

"His universe is falling apart?"

"Huge Axe was annihilated!"

Everyone grew frantic. Luo Feng, Primal Chaos City Leader, Darkness Master, and the rest rose to their feet. One by one, they all fell into a state of momentary shock from the sudden news that had just hit them. This was a nightmare—a nightmare for the entire human race! Luo Feng, Primal Chaos City Leader, Darkness Master, Void Gold Master, Peng Gong Master, Remote Lord Master, Qing Dong Master, and the rest were worried, furious, and dumbfounded.

The only universe supreme master of humanity who was capable of leading the race had fallen! The skies had truly collapsed over humanity!

**Chapter 1260: Humans**

Huge Axe universe was one of the two miniature universes owned by humans. Teacher Origin had been suppressed a long time ago, so the primal universe didn't change completely. Not many humans lived in the primal universe. Instead, the peerless talents and great beings gathered in the primal universe. As for Huge Axe universe, it had changed completely, so many ordinary life forms lived there.

"What happened?"

"The sky is cracked!"

In an area in Huge Axe universe, the families of Huge Axe Dojo and the elites were all panicked. The peaceful sky suddenly had a giant crack in it. The sky started to collapse. Space trembled, and there were occasionally space cracks. Some unlucky humans lost half their bodies or were even annihilated.

Hong! Long! Long!

The land started to crack.

"Quick, quick! Everyone, gather! Don't act alone!" An emperor looked anxious and put the humans inside his world ring by teleporting time and time again.

Inside the space were 12 universe knights and 399 emperors who could perform teleportation. They were all putting the human elites back into their world rings, and "Hong" was one of them.

"Brother, the space is crumbling. Quick, take the elites of our race and go to the main space. Be quick!" The voice of Hong's brother, Tie Bi Knight, was still echoing in his ears. He was a disciple of Huge Axe Creator.

"Yes," said Hong.

One teleportation after another, he put a great many human elites into his world ring, but Hong was worried, anxious, and terrified.

"The keepsake left by my teacher now has no owner," said Hong, horrified. "This is left by my teacher with my teacher's life imprint on it, yet it doesn't have an owner anymore. This miniature universe belongs to my teacher, but now, it's starting to crumble. Did Teacher really die?"

Hong grew even more anxious. He knew how important his teacher Huge Axe Creator was to the human race, as he was their only universe supreme master! He was the cornerstone of the human race! Yet the cornerstone was gone now!

\*\*\*\*\*

They were all fleeing.

Hong put the most important elites in the world ring one by one. As for those less important, before they could even take half of them, they heard an order: "Go to the main space now. Otherwise, you will no longer be able to leave!"

"Everyone!"

"Everyone! Quick!"

The universe knights and emperors took a look at the humans who were being crushed. They were screaming.

“Help us!”

“Help us, Nuo Fan He clan!”

“Take us, please!”

“Take my child!”

However, those emperors and universe knights didn’t hesitate, as they were carrying the most important elites. If they weren’t decisive enough, they—along with those elites—wouldn’t be able to make it.

Shua! Shua! Shua!

From the crumbling area, Hong and the others fled to the main space. After only a few seconds, the crumbling spread to the portal.

Hong saw three towering beings after entering the main space. They were Void Gold Master, Lan Cang Master, and Ancestral Tree Knight.

“Quick, quick.”

Void Gold Master and Lan Cang Master were both universe masters from Huge Axe Dojo, while Ancestral Tree Knight was a top-tier universe overlord, so they could survive even if the miniature universe crumbled and the chaos air flow penetrated the miniature universe. However, many universe knights and undying fighters couldn’t survive in Universe Ocean.

“Come in.”

“Gather!” Void Gold Master gave an order. He teleported again and again and took away all the emperors and universe knights!

Hong arrived at the main space and was taken into the world ring by Void Gold Master. Everything changed.

Almost 1,000 humans stood on the plain. They all looked horrified, as they couldn’t believe what had just happened.

“Brother.” Tie Bi Knight stood beside Hong and transmitted his voice to him. “Did the keepsake our teacher gave you change?”

Hong nodded. “Still an object without any owner.”

“Same here...” Tie Bi Knight looked upset. “Did teacher just...? He’s so powerful. He’s a universe supreme master!”

“The spaces in the miniature universe, including the main space, started to crumble.” Hong also looked upset. “Teacher...”

\*\*\*\*\*

Inside the main space of Huge Axe Universe, Void Gold Master, Lan Cang Master, and Ancestral Tree Knight stood in the sky, and the membrane of the miniature universe already showed cracks. The chaos airflow penetrated the small universe. It was the purest chaos airflow, unlike that of the primal universe.

“Quick, let’s go to other spaces and see whether we can save more or not,” ordered Void Gold Master.

“Yes.”

“Let’s go.”

They separated and teleported to one space after another.

It was urgent, so they saved the elites first. The elites were those selected from the original universe! They had great potential, so they were saved first. And then, the families were saved. Those families were of the universe masters or universe knights of Huge Axe Dojo.

Hong! Long!

The land with a diameter of 100 billion kilometers started to collapse, and the space fragments were detached. Some of the space fragments contained lands where humans were struggling. When they saw the towering Void Gold Master show up, they were excited.

Void Gold Master teleported and moved forward, trying to save those humans on the space fragments.

\*\*\*\*\*

On the independent dimension of the virtual universe.

On the two sides of the bench in front of Huge Axe Godly Palace, the universe masters sat down, looking solemn. Each of the universe masters could feel the terrifying pressure.

“Void Gold, how’s Huge Axe Universe?” asked Primal Chaos City Leader.

Void Gold Master sighed. “We could only save the undying fighters, universe knights and the important elites. As for the others, we can only save part of them. Lan Cang, Ancestral Tree Knight, and I are still saving them, but only a small number can survive.”

“Elites are the ones that really matter.” Primal Chaos City Leader nodded. “Huge Axe Universe started to crumble, and those who die are only a small loss to us humans. However, if we can’t cope with it well, we’ll suffer billions of times worse!”

Luo Feng was horrified. What should they do?

“Without question, the death of Huge Axe is catastrophic to us,” said Primal Chaos City Leader. “The map is fake. Who set this whole thing up? Why did Huge Axe die so quickly in Land of Darkness? These are all mysteries... I know that you all want to figure it out and avenge Huge Axe. However, for us humans, we need to put it behind first!”

“Finding out the murders and means of revenge—these are things to do later. Do you all understand?” Primal Chaos City Leader looked around the universe masters present.

“We do.”

“The fate of humans is the most important now!”

“Though we all want to figure it out, we’re not powerful enough. Even if we figure out who, we can’t do anything about it.” The universe masters all nodded.

They were all the top seniors of the human race. They had Huge Axe Creator protect them before, so things were easy for them, yet Huge Axe Creator was dead now; they needed to deal with everything themselves. They needed to think from the standpoint of the entire human race.

“Okay,” Primal Chaos City Leader said, relieved. It was important to stick together. “Huge Axe died. The small universe started to crumble, and lots of beings within our race know about it. As for other races like the bug race, the automaton race, and the demon race, they all have spies within our race, so they’ll know about it in no time! Besides, great beings go on adventures in Universe Ocean, and it won’t take a long time for them to know that Huge Axe Universe has crumbled.”

“Okay.” They all nodded. They understood that within the human race, some spies had their souls controlled. And in Universe Ocean, it wouldn’t take long for the universe masters to notice that Huge Axe Universe had crumbled. Then they would all know that Huge Axe Creator had died!

“A universe supreme master is extremely important to a race,” said Primal Chaos City Leader. “They can control a vast area, and they can show up in lots of places in no time. They can revive universe overlords, as well. Without a universe supreme master, a race can’t even protect itself. We occupy an important territory, so there’s no way the other races will not be tempted.”

The bug race, the demon race, the automaton race, and the humans... These four races occupied the best area of the universe! Beings born in this area had greater potential! Just like the desert area Sitting Mountain Guest lived in couldn’t breed any living beings. Even though the original universe was enormous, some territories could breed lots of great beings while others couldn’t, which was why there were struggles. The four pinnacle races occupied the best four areas.

“Besides, territory struggles never end,” said Primal Chaos City Leader. “Luo Feng received the Duan Dong River inheritance. That was okay when Huge Axe was here, but now, Huge Axe has died... Who doesn’t want the inheritance of Duan Dong River? We must prepare for war! Remember, when Huge Axe died, we humans were forced into a different era. A more difficult era!”
