

Chapter 1261: Let's Split Up

Every universe master seated wore an extremely solemn expression.

The reason was obvious. There was nothing they could do to hide the truth; if Huge Axe Creator was trapped in the Land of Darkness, so be it. So long as—in their capacity as higher-ups of the human race—they did not let the news leak, nothing much would happen. But now, Huge Axe's miniature universe was starting to crumble and collapse. This was something they could not hide. A race without any supreme universe master, yet occupying what was said to be the best territory within the entire original universe and possessing the most precious inheritance within the entire Universe Ocean... Who would not be envious? Who would not be tempted?

The bugs clan, the demons, the automaton race... For countless years, they had been fighting the humans ceaselessly! When Huge Axe was around, that was the case. Without Huge Axe, would the three pinnacle races show mercy?

"We are no longer the human race we were before." Primal Chaos City Leader's gaze swept over them once. "We no longer have the protection of a universe supreme master! The severity of the situation is clear. Let's put our heads together to think about what we should do now."

"War is imminent!" Peng Gong Master, who was normally all smiles, was without a trace of a smile at that moment. Solemnly, he said, "This is for sure! And this war will not be small-scale hassles like before. This is a true war that concerns the extermination of an entire race, which is why, no matter what, we must first preserve the seeds of our race. Regardless of the outcome of the war, we must first be prepared for failure!"

"True."

"That's right."

Everyone nodded in agreement. In a war that implicated the extermination of an entire race, it was necessary to consider failure before battle.

"We need to look out for our next generation," Void Gold Master said right away. "Especially for the next generation living in our territory that displays high potential. We have to quickly gather all our members from the 1,008 universe countries who are at the universe level, domain level, and sector lord level, respectively! Then bring them over to the primal universe. More importantly, all the undying spirits and universe knights must be brought over to the primal universe. These undying spirits are the fruits of our accumulation over endless time, relying on the system of cultivation that Milky Way Horde Leader has acquired from the ancient civilization, given the large number of undying spirits of our human race, we can certainly cultivate a group of universe knights, and eventually, they will progress to becoming universe masters!"

"True."

"That's right."

“For countless years, our number of undying spirits has grown to a sizable number. We must bring them all away.”

Everyone nodded in agreement. Undying spirits were useless in wars that involved the extermination of entire races, but in the future, they were likely to become universe knights or even universe masters!

“The human territory is vast, and there are countless ordinary citizens,” Void Gold Master continued. “Wishing to bring all the humans away with us is impractical! And even if war truly happens, all the other life planets with humans—like the bug clan and the automaton race—will not mindlessly kill or seek to exterminate the ordinary humans.”

Luo Feng nodded. This was the typical line of thought.

When wars that involved the extermination of entire races happened, the killings of great beings were exceptionally brutal. The worst scenario was that the killings went out of control and the ordinary humans were implicated. Otherwise, the rampages would not usually involve the deliberate slaughter of ordinary humans! And because one party started slaughtering, the opposing party could also start to slaughter. And for most ordinary humans and demons, so long as a large batch of humans was released from the various god countries of undying spirits and scattered across the various life planets, after 100 years or 1,000 years, their numbers could rapidly proliferate.

That was why, when it came to ordinary inhabitants, so long as there was a large pool of surviving humans within the god countries and world rings that would be the seeds preserving the existence of a race, the human race could rapidly multiply. Therefore, the influence over a race would not be that great.

The truly great influence was the territory! Only with a potential territory could there be a place for breeding humans!

“The greatest trouble we face now is that we are too weak,” Darkness Master said in a low voice. “Within our race, me, Primal Chaos City Leader, and Peng Gong are considered fifth-tier universe masters. We may be able to exchange blows with universe supreme masters, but we can only ensure our survival. Anything more than this, such as restraining the opponent, is simply beyond us. If the universe supreme masters want to leave, they can do so speedily, because they are not limited by the universe laws... Throughout the entire war, we are going to be at a great disadvantage.”

“There is something I have yet to tell you all,” Primal Chaos City Leader said.

Everyone looked toward Primal Chaos City Leader instantly.

“Luo Feng, you say it.” Primal Chaos City Leader looked towards Luo Feng, causing Darkness Master, Void Gold Master, Qing Dong Master, Remote Lord Master, Long Yan Master, and the few others in the group to follow suit.

“I am going to make a deal with East Emperor Holy Land,” Luo Feng began.

This matter had to be brought into the open. And now was the crucial moment, as it would greatly help in boosting their morale.

“Deal?” Darkness Master, Peng Gong Master, Ice Mountain Master and the rest had doubts springing up their minds.

“Yes, this deal will enable the human race to lay hands on two supreme true treasures,” Luo Feng said with a solemn face, “and between the two, one is a palace type true treasure.”

“Two supreme true treasures?”

“Two?”

“Milky Way Horde Leader, are you sure you are not mistaken? Supreme true treasures?”

Darkness Master and Ice Mountain Master, who were usually very calm, were shocked beyond words, whereas the other universe masters all started to show happy expressions. This was timely help in their hour of distress, just as they were lamenting how bleak their future was—that the human race would face great losses regardless of which pinnacle race attacked them. They did not even dare consider the possibility of being under siege.

Now, learning that they were going to be given supreme true treasures, their minds were instantly put at ease! Supreme true treasure—otherwise known as “dominating clan” true treasures—would be able to turn the tables for the human race.

“Yes.” Luo Feng nodded. “This deal is about to take place very soon.”

“Inheritance?” Darkness Master suddenly said.

Silence prevailed as all the other universe masters looked over. This ancient civilization was the root of the rise of the human race! They might be in a predicament now, but to hand over the inheritance as part of the deal was something they were most reluctant to oblige.

Luo Feng shook his head. “Don’t worry. I will not do anything that will shake the roots of our race, that’s for sure. This deal was finalized long before Huge Axe’s fall, so we are not at any disadvantage to start with.”

“All right!” Primal Chaos City Leader ordered. “Stop wasting time. Now, all the universe masters, wherever you are, be it the Universe Ocean, or the original stars, all of you are to report back within the shortest time possible! And my human race, regardless of whether you are from the pulse of the dojo, the pulse of the virtual universe belonging to the division of the five pulses, or any division of the universe countries—in short, so long as you are from the human race, all undying spirits must speedily make your way to the primal universe!”

The top higher-ups merely had a concrete set of guidelines. As for the execution and detailed planning, all of these were naturally carried out by the universe knights or even the undying spirits.

The meeting ended quickly with all the universe masters speedily departing. Only Luo Feng and Primal Chaos City Leader remained.

“Luo Feng!” Primal Chaos City Leader shouted for Luo Feng.

“Teacher?” Luo Feng turned around.

“You must be extremely careful at all times,” Primal Chaos City Leader said solemnly. “These two supreme true treasures are extremely important! You also obtained a supreme true treasure from the pulse of Duan Dong River... If that is the case, we humans will at least have some strength of resistance. As for the deal with East Emperor Holy Land, you must make it quickly! Before East Emperor Holy Land changes its plans once they catch wind of the news about Huge Axe’s annihilation.”

“Mm.” Luo Feng nodded with understanding.

The humans were weak; when it seemed as though they could be the subject of bullying by any other race, the East Emperor Holy Land might seriously entertain other thoughts and change its mind about the deal.

“Don’t worry, Teacher,” Luo Feng said solemnly. “I have the Boat of Mausoleum. They are dreaming if they think they can snatch it from me by force. I will take a firm stand on this deal and will show no trace of retreat.”

“Yes, make a fast deal. I only fear a change.” Primal Chaos City Leader said.

“All right, I will get in touch with North True Star Master right away,” said Luo Feng. He also worried, as before this, the two supreme true treasures were just extra blessings of fortune bestowed upon them—to further enable their plan to rise. But now... these two supreme treasures were vital to the human race.

Earth, Luo’s family ancestral home.

“Luo Hai, Luo Ping.” Luo Feng was on the host seat as he ordered, “You two brothers will take all the core members of our Luo Family and leave right away. Take them with you to another place in the world. And—from the entire pulse of earthlings, in the name of Ping Hai Company and other transfer companies, gather around a trillion humans from the pulse of earthlings and bring them along, too.”

“Dad.”

“Dad, you mean...?”

Luo Hai and Luo Ping were both full of doubts.

“The human race is going to face a great calamity,” Luo Feng said directly. “Don’t ask any further questions. Just do as I say. Now.”

“Yes.”

Luo Ping and Luo Hai had a good shock and did not hesitate further. Calamity? The human race was going to face a calamity?

Who was their father? Someone of the highest rank among the entire human race; if he said that there would be a calamity, then it would be the absolute truth. Core members of Luo Feng’s family? A trillion

humans from the pulse of Earthlings? After such a long period of growth, the Luo Family numbered in the millions! The pulse of earthlings was a number much more exaggerated than the Luo Family's!

This was why choosing from the core members and trillions of people from the pulse of earthlings... obviously, seeds had to be preserved! With these seeds and time, no matter how much time was required, the human race could rapidly proliferate and regain vitality and prosperity like before.

Luo Ping and Luo Hai dashed out, started to mobilize the great energy of the entire Luo Family and got to work.

"Luo Feng." Xu Xin looked at her husband and asked, "What happened?"

"Huge Axe... has been annihilated," Luo Feng said in a low voice.

Xu Xin's eyes widened. Huge Axe? She was Luo Feng's wife, so she naturally would know the structure of the highest committee of the entire human race. She also knew that the entire human race only had one universe supreme master—Huge Axe Creator! Huge Axe had been annihilated? This was definitely an impending calamity, or something even more terrifying.

"I will remain on Earth and then take you all to the primal universe," Luo Feng said.

He was one of the great beings who made up the pillars of the human race! But he was also the leader of the pulse of the earthlings! Just in case, he was taking the Luo Family's core members and a trillion humans from the pulse of the earthlings. As for those who remained, even if there truly was a war, things would not be so bad for the ordinary humans. Unless the higher-ups of the human race suffered a crushing defeat in the battle and had to retreat into the primal universe after a complete loss, that was when the entire human territory had no choice but to accept the fate of a great extermination of humans! A crushing defeat!

Luo Feng had no confidence of winning the battle, but he did not believe they would lose to the extent that they had to retreat to the primal universe.

In the vast Universe Ocean, a lone vessel was teleporting amidst the chaotic airflow, advancing forward, when suddenly, some distance ahead, a broken universe appeared. It seemed to have lost half of its original size.

Within the Boat of Mausoleum, Luo Feng looked out into the distance.

"North True Star Master, I have made it." Luo Feng held the transmission token and spoke into it. He had gotten Remote Ocean body to return to Earth to make all the necessary arrangements.

As for his original earthling body, of course it would enter Universe Ocean right away to close the deal with East Emperor Holy Land. This deal had to be completed without fail, without a glitch, and the deal must be closed as quickly as possible.

"Milky Way Horde Leader, we from East Emperor Holy Land have arrived quite some time ago," North True Star Master responded.

"Very well."

Then the Boat of Mausoleum sped toward that ruined miniature universe.

Chapter 1262: Black Prison and Yan Jun

The damaged miniature universe crumbled universe eras before. It was like a sieve; half of it was gone, and the membrane had holes of all sizes on it. The density of chaos air was the same as the outside.

Hua!

Boat of Mausoleum flew in along a hole on the universe membrane. The universe was completely destroyed already, and there were some bodies and space fragments floating inside it.

"I started coming here after Huge Axe Creator died, and it's been only nine days. The news shouldn't have been space." Luo Feng sat in the control room, yet he was nervous, as the trade was so important to the human race.

Hope nothing goes wrong! he thought.

The token received a message. "Milky Way Horde Leader! We've found you. I'll come to you now."

Luo Feng was holding a token as well. He transmitted the message, "I'll wait for you here."

He glanced around. Boat of Mausoleum would be an obstacle, but he could see the outside world easily. He saw a black oval shape in the distance. It teleported itself.

Shua!

It arrived at only 10 million kilometers away from the boat.

"Milky Way Horde Leader, give me the memory stones, and I'll give you two supreme true treasures," said North True Star Master.

"North True Star Master, I believe that we both want the deal to happen. Don't waste my time." The gate of Boat of Mausoleum was open, and Luo Feng was standing at the gate, wielding a stone blade. "I'll be right here. Give me the two true treasures. Then I'll give you the memory stones."

"What if you don't?"

The towering black oval had a crack, and a portal appeared. North True Star Master stepped out. After one step, he arrived in front of the gate of Boat of Mausoleum.

One of them was behind the gate. One was in the space outside the gate. They stared each other down.

"This is the memory stone." Luo Feng held a memory stone in his right hand. "Trust me and give me the two supreme true treasures."

North True Star Master looked at Luo Feng. He was very close to him. He wanted to attack him, but he knew that Luo Feng had already been strong, even before the inheritance. During the basic inheritance, he had defeated Blue Blood Knight and Deer Bug Master to become the sole inheritor, which meant he must have created fighting techniques of a universe supreme master! And with those inheritance skills, North True Star Master wasn't sure that he could take Luo Feng down.

Besides, the gate might be closed.

“Okay!”

North True Star Master threw out a world ring.

Luo Feng waved his hands, and the red ring, which seemed to have flames on its surface, fell into his palm. His godly power sealed it, and his mind entered the world ring. He saw two towering supreme true treasures. One of them was a black pyramid, while another was a huge stick.

They kept the promise, Luo Feng thought. The deal is to have at least one palace type supreme true treasure. Easter Emperor Holy Land didn't play us, and it got me the Black Prison Tower! As for the other one, it's an attack type supreme true treasure. I haven't even heard of it. It must come from the internal storage.

He could tell that the stick was a supreme true treasure. Palace type supreme true treasures were the most precious, while attack type was inferior.

“That world ring was forged by our ancestor.” North True Star Master smiled. “Supreme true treasures are very forceful. Normal world rings might be crushed.”

“Coined by the ancestor?” Luo Feng weighed the ring and nodded. “Is there other information about these two supreme true treasures?”

“Milky Way Horde Leader, that memory stone...” North True Star Master laughed as he stared at that memory stone in Luo Feng's hands.

“Okay.” Luo Feng threw it away.

Xiu!

The memory stone flew to North True Star Master, who was greatly relieved.

“The detailed information of these two supreme true treasures?” Luo Feng looked to North True Star Master.

“One of them is Black Prison Star, as I bet you already know,” said North True Star Master. As for the other one, it's called 'Yan Jun.' When they recognize you as their masters, you'll learn their information.”

“What are the requirements?” asked Luo Feng.

“It's demanding on willpower,” said North True Star Master. “Black Prison Tower require universe masters to have the willpower of a universe supreme master. As for Yan Jun Rod, it requires a universe master to have the willpower of a pinnacle universe master, and it requires a universe supreme master to have the willpower of a pinnacle universe supreme master.”

“Okay.” Luo Feng nodded.

The worth of valuables could be discerned from the conditions for recognizing masters. Though most of them had requirements on willpower, they had different levels. Black Prison Tower had tougher

requirements than Yan Jun Rod, while Shi Wu Wing required universe knights to have the willpower of universe supreme masters—tougher than Black Prison Tower!

As for Star Tower, it required sector lords to have the pinnacle willpower of a universe knight! As for the requirements for undying fighters, Luo Feng wasn't sure. Sitting Mountain Guest said that it was impossible for universe knights and universe masters to be recognized as its master! Besides, if someone failed, they would die, which was much tougher than Shi Wu Wing!

Although Luo Feng had seen many valuables and had learned a lot about supreme true treasures, he'd never seen anything that would kill those who failed. Luo Feng had always thought that Star Tower must be more terrific and special. However, Star Tower was only mediocre up until now. As for Shi Wu Wing, it was mighty. Even the broken Shi Wu Wing was powerful. Of course, it was of the machine type, so its power could be used all at once. Unfortunately, origin couldn't be used.

"If the memory stone satisfies our ancestor, there'll be another deal," North True Star Master said, standing in space and looking at Luo Feng. "I hope that Milky Way Horde Leader won't disappoint our ancestor."

"Relax, it won't," said Luo Feng.

"Okay." North True Star Master nodded, took a step, and arrived at the entrance of the black oval. The black oval teleported and disappeared.

Hua!

The gate of Boat of Mausoleum was closed.

Luo Feng was relieved. "Everything went smoothly. I got the two supreme true treasures."

He walked back to the control palace, and he couldn't help laughing at how North True Star Master had reacted. He could tell that North True Star Master had wanted to attack him. However, North True Star Master was only an average universe supreme master, as he didn't have a miniature universe.

If you enter Boat of Mausoleum, I'll kill you, Luo Feng thought.

No matter how powerful universe supreme masters were, they would die if they entered Boat of Mausoleum. Everyone knew how dangerous it was, so nobody would enter.

At the top of Thunder Island in the virtual universe, Primal Chaos City Leader sat beside a wooden round table. A screen was floating in front of him. Lots of information was on the screen, and it all pertained to the current situations of the human race. Ever since Huge Axe Creator died, Primal Chaos City Leader had been concentrating on the news. The human race was bringing all the undying fighters to the primal universe.

However, the human territory was vast, so it would take a long time. Even if they were operating in the most effective way possible—without taking into consideration energies used—it would still take a long time. After all, they were scattered everywhere.

"Teacher." Luo Feng walked to him.

Primal Chaos City Leader saw Luo Feng, and his eyes gleamed. "How was it?"

"Everything went well. I got the supreme true treasures." Luo Feng smiled. "I've inspected them. These are both okay."

Though their conditions for recognizing masters were not as tough as Shi Wu Wing, valuables were only powerful when their power was fully utilized. For universe supreme masters, a supreme true treasure with six levels of engravings was the same as a supreme true treasure with nine levels of engravings, as the other three levels of engravings couldn't be used by universe supreme masters.

"One of them is Black Prison Tower." Luo Feng smiled. "You know how Black Prison Tower works. It's really precious. As for the other, it's called Yan Jun Rod. It's an attack type supreme true treasure, and it can also serve as armor."

When someone held Yan Jun Rod, the material would extend to cover the user's whole body, forming armor. Although it wasn't a real supreme true treasure armor, it could rival Crazy Demon Extermination Godly Armor.

"Yan Jun Rod is about strength," Luo Feng explained. "It uses terrifying strength. The better the engravings utilized, the more powerful Yan Jun Rod will be."

"Oh!"

Primal Chaos City Leader frowned and nodded. "Black Prison Tower is a perfect fit for your uncle Darkness Master. As for Yan Jun Rod, it's better for Peng Gong Master. Only Peng Gong Master is good at using Rods."

"Darkness Master? Peng Gong Master?" Luo Feng was dazed. "Teacher!" said Luo Feng. "You're the most powerful being of our race. With a supreme true treasure, you'll be a top-tier level-six universe master. You should have that Black Prison Tower. Besides, palace type supreme true treasures are used for defense, so everyone can use them."

Luo Feng wished that Primal Chaos City Leader would use Black Prison Tower, considering the status of Primal Chaos City Leader. It would be strange if Luo Feng, Peng Gong Master, and Darkness Master had supreme true treasure while Primal Chaos City Leader—who led the primal universe—didn't have one.

Chapter 1263: The Final Distribution of True Treasures

Within Universe Ocean, in the deep region of the endless chaotic airflow, a Boat of Mausoleum was at rest; in the other direction, a crimson pagoda appeared out of nowhere, where it immediately transformed in a crimson streak of light. It flew toward that Boat of Mausoleum, and, while merely inches away from the Boat of Mausoleum, it vanished into thin air.

"Golden horned beast body."

In the hall, with a stone blade on his back, Luo Feng watched the golden horned beast appear before him. They looked one another in the eye. Both pairs of eyes reflected the same steely determination.

"War!" Luo Feng whispered.

When Huge Axe Creator was annihilated, Luo Feng was aware that this period would be the most critical time for the humans; universe masters scattered all over Universe Ocean and the Original Stars were rushing back, so his golden horned beast body, which was initially deployed to the deeper region of the Universe Boat to obtain the legacy of Jie Fanzi, was naturally summoned back immediately.

After all, his golden horned beast body was holding onto Shi Wu Wings and Star Tower, which made up a total of two supreme true treasures! This was superior combat power altogether. During a war that would decide the fate of a race, such power was a necessity.

If there is war, my original earthling body and my golden horned beast body can set off for war together, Luo Feng thought.

His original earthling body had the formidable Blood Ghost Blade suitable for attacking even the toughest opponents! Even if pitted against a universe supreme master, he would still dare to take up a one-on-one fight.

Golden horned beast body had Shi Wu Wings. The godly blood stains on Shi Wu Wings could bring about extremely effective impact on willpower, especially when dealing with ordinary universe masters. It could simply wipe them out! And with the protection of 'Star Tower'... it could easily deal with an enemy force as big as hundreds and thousands of soldiers. Each had different combat personalities.

Come on, Luo Feng silently said to himself.

He had already prepared himself. Perhaps in Universe Ocean, he would be at a disadvantage when confronting universe supreme masters because his godly power was holding him back, but in the original universe, there was an ultimate limit of power. The sixth tier was the ultimate limit, and every universe supreme master would be allowed to unleash their combat power to as much as this limit allowed before the original universe would start to exert suppression.

It was a powerful suppression, so powerful that relying on Blood Ghost Blade, Luo Feng dared to fight the war. It was just a pity that he could only fight the war without being able to hold his opponent back. The initiative still lay with the opponent.

After meeting up with Golden Horned Beast, Luo Feng boarded the Boat of Mausoleum and speedily returned to the original universe. The trip to and from took him a total of 18 days.

Primal universe, Primal Chaos City, within Primal Chaos City Leader's Palace.

"Teacher." Luo Feng met with the other body of Primal Chaos City Leader that sported a more hideous appearance.

"You're back." Primal Chaos City Leader nodded.

"The other races are keeping quiet, not making any moves recently. They have yet to learn of the news of Huge Axe Creator's annihilation, I suppose?" Luo Feng asked persistently.

“Not a single movement yet.” Primal Chaos City Leader nodded. “Maybe it hasn’t been long enough, and internally, our race is keeping the secret well under wraps. When seen by any of those beneath us, the large-scale movement of undying spirits will appear as a lack of order—a messy commotion! As for those in Universe Ocean who may or may not have seen Huge Axe’s miniature universe collapsing, we will just have to depend on our luck.”

“Yes.” Luo Feng nodded.

If they were lucky, no one would pass by the place where Huge Axe’s miniature universe was for the next ten to 100 years.

If they were unlucky, then perhaps that very day, some universe master would penetrate the walls of the original universe and make the discovery.

“It will be best if no one discovers it. The longer, the better.” Primal Chaos City Leader gave a rare smile. “If we can give rise to another universe supreme master, that is ideal. You have brought the two supreme true treasures safely back, which is a contribution beyond words.”

Luo Feng nodded and could not help but ask, “Teacher, the distribution of the two supreme true treasures...?”

“Let’s go, we will talk when we get inside the virtual universe,” Primal Chaos City Leader said.

“Oh.” Luo Feng was left with no choice.

Previously, he had talked Teacher into it. But it seemed like Teacher had already made up his mind that the two supreme true treasures would be distributed to Darkness Master and Peng Gong Master. Luo Feng was in disagreement because these treasures were his contributions; of course, it made sense that they would be distributed according to his wishes, which was why teacher and disciple had both come to an agreement that the final decision would be made only after a thorough discussion with Peng Gong Master and Darkness Master.

In the virtual universe, at the long stone table before Huge Axe’s godly palace, four figures were now seated. They were Primal Chaos City Leader, Darkness Master, Peng Gong Master, and Luo Feng! The four of them were now the strongest beings of the entire human race, and they formed the four pillars supporting the race.

“Two supreme true treasures are brought back.” Primal Chaos City Leader smiled. “They are Black Prison Tower and Yan Jun Rod! The special traits of Black Tower Prison... Brother, Peng Gong, both of you should know. I feel that it is very suitable for you, my brother.”

“Me?” Darkness Master was momentarily shocked. No matter how detached and aloof he could be, he could not help but feel his heart trembling because this was a supreme true treasure they were talking about. “Brother...” Darkness Master started to speak.

“Don’t refute this,” Primal Chaos City Leader said with a nod. “Your power is comparable to mine, even though in war you may be a bit less powerful. The help that Black Prison Tower can supplement me with mainly lies in providing me with stronger defensive ability. But for you, you can put it to highly good use

in terms of attacking. In your hands, it will be able to unleash stronger powers. And Peng Gong, that Yan Jun Rod—out of us all, only you are skillful with the use of rod-type weapons to launch attacks. There is no need for you to decline any further.”

Peng Gong Master hesitated a little.

True. Out of all the strongest beings of the human race, only he was skilled in using rod type techniques, and now that the human race was facing a critical moment, he should not try to object so strongly. Yet if that was the case, would it not mean that he and Darkness would each be taking one supreme true treasure? What about Primal Chaos City Leader? For countless years, Primal Chaos City Leader had been known to be only second to Huge Axe. He was the most hopeful candidate for the next universe supreme master.

“Primal Chaos City Leader, you...” Peng Gong started to say.

“Teacher...” Luo Feng said.

He was also hesitating, unsure of how he should go about persuading. If his persuasion worked, then the previous meeting with Primal Chaos City Leader alone would have been more than enough to get him to agree with him.

“This is not just my decision. It is also Teacher Origin’s decision.” Primal Chaos City Leader finally opened up.

“Teacher Origin’s decision?” Luo Feng, Peng Gong, and Darkness were all shocked.

Suddenly, on an empty stone chair by that long stone table, a white-robed man appeared. Luo Feng and the rest quickly turned around and with great reverence, shouted, “Teacher Origin!”

Looking at the white-robed man, the tension and pressure that had been weighing Luo Feng down of late finally loosened up a little.

The human race... still had Teacher Origin!

Even when Teacher Origin was under eternal suppression, he was still able to provide humans with the original universe as their land of retreat.

“The few of you here are all quite powerful.” Teacher Origin looked towards Luo Feng and the other three. “If you all are given some time, together with the systematic guidance Luo Feng obtained from the ancient civilization, all four of you can be hopeful in becoming universe supreme masters... What a pity that time is a luxury that the humans seriously lack at the moment. But if you all are pitted against any one group in a fight, given your powers and the supreme true treasures, you all should have nothing to fear!”

“And yet, only Luo Feng has gotten the inheritance from the pulse of Duan Dong River, which is the same as saying the humans have gotten the inheritance! This time around, Huge Axe’s annihilation...” Teacher Origin’s eyes flashed a hint of grief. “Considering the numerous universe supreme masters within the original universe, I’m afraid not many could remain unmoved. My human race will come to face all sorts of attacks, be it openly or in the dark, from the various groups of powers in the entire original universe.

“There is nothing else to fear. Given your powers, even if you are pitted against a universe supreme master, under the limit set by the original universe on universe supreme masters, you have nothing to fear. My only worry is that you all will be sealed!”

“Sealed...”

Everyone’s expression changed, Luo Feng along with the rest. Yes, even if they had other true treasures—or even supreme true treasures with them—there was a possibility of being sealed all the same! Once they were sealed, if they were brought to a certain miniature universe, they would certainly be at the mercy of their captor.

And the strongest defense capable of resisting this seal: Star Tower and Black Prison Tower!

When a supreme true treasure palace was pitted against a seal, the outcome would depend on which was stronger.

“When two to three universe supreme masters join forces, first, they will surround you all so that no one can escape. Second, they will suppress you all with a seal right away.” Teacher Origin shook his head with a sigh. “Once you are being sealed, all will be too late, so you all must bear this in mind... Sealing you is very easy, but if you all are thinking of sealing a universe supreme master, that is difficult.”

Luo Feng and the rest nodded. His words were so true. Even if the space ripples were locked down and teleportation was impossible, the speed of a universe supreme master was still able to soar by leaps and bounds to reach a speed that was way beyond the limit of the universe laws! They were in total control when it came to initiating a war or not. If they wanted to leave, they could depart anytime; if they wanted to rage war, they could fight anytime.

“However, our human race does have some capital, too,” Teacher Origin said solemnly. “We have Black Tower Prison. And Luo Feng also has a Boat of Mausoleum, so we got to put them to good use... In this war, it will be better to lay low at the beginning, but the moment we start attacking, we must do so viciously! Make the other races feel the pain, fear, and hesitation. Then we shall have achieved something. At least there will be some effect on those other races who do not have much power but are just here to reap some benefits from us; this will send running.”

Primal Chaos City Leader, Darkness Master, Peng Gong Master, and Luo Feng all nodded. The nine top powers in the original universe weren’t the only groups that had to be considered! There were still various other groups like the Thorn Ring Alliance and many more. Many other groups of powers that were one notch lower in abilities might also find the human race an easy target for bullying and thus, join in the siege. That would be a terrifying notion.

“For the distribution of true treasures this time around,” Teacher Origin said, “Darkness will take Black Prison Tower, and Peng Gong will take Yan Jun Rod! As for Primal Chaos City Leader... you will take charge of the primal secret region. You shall not attack recklessly. If Primal Chaos City Leader has to attack, that will indicate that the human race is facing its final stage of desperation.”

Luo Feng, Darkness Master, and Peng Gong Master hesitated slightly.

Finally, all of them nodded. They all knew what Teacher Origin meant. Obviously, when there was the need to go out onto the battlefield, the race had to depend on the three of them, while Primal Chaos City Leader would be the last line of defense in the primal secret region!

Time passed.

The human race had always remained cautious and maintained vigilance, so it seemed like the various races in the original universe and the other groups of top powers within the Universe Ocean were still oblivious to Huge Axe Creator's annihilation.

Universe Ocean, within East Emperor Holy Land Universe.

In a remote location within the vast East Emperor Holy Land universe, Luo Feng had chosen a dilapidated universe that was nearer to the original universe to carry out their deal, but that place was much too far from East Emperor Holy Land. Even if North True Star Master were to teleport over long distances, he only managed to return to East Emperor Holy Land half a month after Luo Feng arrived back at the original universe.

Within North True Star Master's palace...

Hua!

North True Star Master stood within his palace where a lone figure was suspended in midair. It was East Emperor Ancestor, who had appeared out of thin air a while ago and was radiating cyan light.

"Ancestor." North True Star Master bowed respectfully. "I have gotten hold of the memory stone."

"Give it to me." East Emperor Ancestor looked down at North True Star Master with a glimmer of desire in his eyes.

"Yes."

With a flip of his hand, a black stone appeared in North True Star Master's palm: memory stone. With a wave of his hand, the memory stone appeared before East Emperor Ancestor, who then looked down at it in his palm. The look in his eyes changed... He had desired it so much...

Shortly after, a stream of light ray shone from East Emperor Ancestor's palm and enveloped the memory stone. Instantly, a large amount of information from the memory stone surged directly into East Emperor Ancestor's mind.

Chapter 1264: Huge Axe? Dead?

Eastern Emperor Ancestor read the enormous amount of information he had with his eyes closed.

North True Star Master was anxious. He knew how much the ancestor valued that deal, and it would be a problem if something went wrong. "Ancestor rarely shows up, yet he showed up quite a few times for

the inheritance of Duan Dong River, and he said a couple of times that he's willing to trade everything. I hope the memory stone will satisfy the ancestor!"

After a while, Eastern Emperor Ancestor was skimming through the information much faster than Luo Feng. He ignored all the experience at the bottom and started from the levels higher than universe supreme masters.

It was completely silent in the palace.

"Humph!" Eastern Emperor Ancestor opened his eyes, and his eyes glinted fiercely.

"Ancestor?" said North True Star Master.

"Damn it! That goddamn human Milky Way!" Eastern Emperor Ancestor clenched his teeth.

"Ancestor, what about this memory stone?" North True Star Master grew anxious.

"This memory stone does contain the information superior to universe supreme masters." The ancestor sneered. "And there's a lot. However, the training experience in this memory stone is less sophisticated than mine! It's just a unique way of training! It hasn't even reached my level! It's useless!" The Ancestor's voice shook the space around him.

North True Star Master said furiously, "Ancestor, that human Milky Way dares to trick us! We'll make him regret it!"

"How?" The ancestor looked at North True Star Master. "Are you going to the original universe?"

North True Star Master couldn't respond to that. None of the great beings from other universe eras—including the two holy lands—dared to trespass in the original universe, as they would die if they did.

"Then, we'll just let him have the two supreme true treasures?" asked North True Star Master.

Eastern Emperor Ancestor was thinking in silence. Perhaps North True Star Master felt distressed for the two supreme true treasures; they were nothing to the ancestor. What the ancestor did care about was that he'd been looking forward to the memory stones that contained more sophisticated training experience for so long, yet the training level in the memory stone couldn't even match his level.

His hope was gone! He couldn't just let it go! Could he simply be blunt about it with Luo Feng?

He understood that Luo Feng couldn't read the training experience superior to the universe-supreme-master level, which meant Luo Feng did want to give a memory stone recording sophisticated training experience. Yet he wasn't sure how sophisticated the training experience was.

"Perhaps it's just bad luck? Perhaps Luo Feng has memory stones that have more sophisticated training experience." Eastern Emperor Ancestor still had hope.

A token showed up on his palm. It was a communication token.

The Ancestor transmitted the message. "Luo Feng!"

Inside the city leader's palace, Luo Feng sat in a quiet palace, drinking. At one end of the palace were railings, and the entire Primal Chaos City was in sight when someone leaned against the railings.

He looked relaxed, yet actually, 99 percent of his mind was in the space of inheritance in the Boat of Mausoleum. An avatar of godly power was comprehending the path of beast god. The avatar of godly power in the ninth abyss had already crumbled, as the so-called top techniques in the ninth abyss could be found in the inheritance of Duan Dong River, and he could find more detailed and comprehensive engravings.

The best way to improve his power was to become a universe master as soon as possible. However, even if he hit the threshold and had cultivated enough, it might take him a long time to make the breakthrough—perhaps dozens of eras. If he was lucky, he could succeed in one shot, but Luo Feng hadn't reached the threshold yet.

The time in the space of inheritance was 10,000 times faster than the time outside! Luo Feng thought. One year equals one era outside! No matter how long it takes, I'll become a universe master within decades.

"Huh?" Luo Feng frowned. "The token given by North True Star Master? Why is he contacting me now? Is it something about the memory stone?"

All the three memory stones prepared for the deal had training experience superior to universe supreme masters. However, they weren't qualified to be included in the core inheritance, so it meant it was not sophisticated. At least it was weaker than Duan Dong River. Training experience at Duan Dong River's level was included in the core inheritance.

He waved his hands, and a token showed up.

A message was sent. "Luo Feng."

"North True," Luo Feng responded.

"I'm Eastern Emperor," the messaged continued.

Luo Feng was stunned. Eastern Emperor? That was the most ancient being in Universe Ocean! And judging from the size of the miniature universe, he must have been the most powerful being in Universe Ocean as well.

"I can't believe Eastern Emperor Ancestor contacted me directly and called my name. It's my honor," said Luo Feng.

The great beings from other universe eras often called him "human Milky Way." Only a few of them called him "Luo Feng."

"How are the two supreme true treasures?" asked Eastern Emperor Ancestor.

"Fantastic," answered Luo Feng. "The only thing is, one of them is an attack type true treasure. It'll be better if it's a palace type or a domain type true treasure."

“I’ve met your requirements; however, you didn’t meet mine,” Eastern Emperor Ancestor replied via a message. “Although the memory stone you gave me does have training experience superior to the universe supreme master level, there’s too little of it, so it’s useless to me.”

Luo Feng said, “Sorry. I can’t read the material superior to universe supreme masters, so I have no idea how sophisticated it should be. I can’t argue with anything you said.”

“Are you saying I lied?” Eastern Emperor Ancestor sounded furious.

“No,” said Luo Feng. “I’m just saying that the experience in the memory stone does surpass the level of universe supreme masters.”

“I guarantee you, by my reputation, that the training experience in the memory stone is lower than my level,” said Eastern Emperor Ancestor. “It’s completely useless to me. I require you to give me another memory stone, and I won’t pledge it with any supreme true treasures.”

Luo Feng was shocked. Why did the ancestor talk about his reputation? He understood now that Eastern Emperor Ancestor didn’t want to trade his supreme true treasures for memory stones anymore.

“I can’t do that,” said Luo Feng. “Firstly, I don’t know whether you’re telling the truth or not. I can’t just give you the second memory stone without getting anything in return! Besides, we had a pact before. The first memory stone requires two supreme true treasures, and the second one requires four supreme true treasures.”

“Your first stone is useless to me!” said Eastern Emperor Ancestor. “Why would I lie to you?”

Eastern Emperor Ancestor was infuriated. If it weren’t for the superior training experience, he wouldn’t have wasted so much time talking to Luo Feng. He was very aloof, and Luo Feng wasn’t even worth his time. The only thing he valued was the inheritance of Duan Dong River.

“I don’t care whether you lied or not,” said Luo Feng. “If you want the second memory stone, give me four supreme true treasures.”

“Humph!” Eastern Emperor Ancestor was furious and cut off the communications.

Luo Feng glanced at the token, smiled, and put it away.

“Eastern Emperor?” Luo Feng sneered. “An old guy who can never step out of the holy land? Your reputation means nothing to me! Do you really think you can get the second memory stone without paying anything?”

Just wait and see, Luo Feng thought.

He could tell that the ancestor wanted more advanced experience. As long as he really wanted it, he would say yes.

Let’s just see who’s more patient, Luo Feng thought.

At a membrane of the original universe.

Hong!

A towering being rushed out of the membrane, and a hole appeared. The towering being had two horns on his head with bloody hair. There were green scales on his body and black scales on his chest. He had six eyes, and another pair of tiny ears were hidden under his larger, pointy ears. He was carrying a strange weapon.

Bar Lion Master looked around and whispered, "It's better to rush out from my god country out of the original universe. That giant black hole is too far. Okay, I'll head to Tilted Peak Sector now."

Shua!

He teleported himself.

After only half an hour, Bar Lion Master stopped among the chaos airflow. He saw the towering miniature universe.

"This is the miniature universe of Huge Axe," Bar Lion Master whispered. "I saw it every time when I went to Tilted Peak Sector. Why does it look different this time?"

He was far from the miniature universe, and it just started to crumble. The surface was still intact, and the space cracks were small, but the inner space had completely crumbled.

However, it felt different this time. The miniature universe had been forceful and vivid in the past. This time, however, it looked dead. Bar Lion Master sensed that something was wrong.

"Huh?" Bar Lion Master teleported himself to beside the small universe. "Ah!"

Bar Lion Master was shocked. He saw the cracks in the miniature universe, and the chaos airflow kept penetrating it. He could even see some destroyed lands.

"Huge Axe? Dead?" Bar Lion Master was bewildered.

Chapter 1265: An Alliance

Bar Lion Master was not simply an ordinary living soul residing in Huge Axe's miniature universe. Many humans who had witnessed the world collapsing and the space crumbling did not understand this meaning. How could Bar Lion Master not know?

"How could it be? How could it be that a universe supreme master has been annihilated!" Bar Lion Master's six pairs of eyes widened. "Teacher Origin of the humans was suppressed by the origin of the original universe, and for eternity." Bar Lion Master's eyes were filled with tears. "The only one truly holding the race together was Huge Axe Creator, and now, even Huge Axe Creator has been annihilated. Does it not mean that the human race will no longer be a pinnacle race?"

"The automaton clan, the demons, the bug clan, and the humans... The four pinnacle races occupy the four main territories with such pride. They even look down on us, the prison clan. Now that Huge Axe has been annihilated, that means the automaton clan, the demons, and the bug clan will act soon. There is no way they will let the humans go. Besides, that human Milky Way Horde Leader Luo Feng received

the inheritance of the pulse of Duan Dong River—something that all the powers in the entire Universe Ocean coveted. This inheritance is said to be the chance for anyone to transcend a reincarnation era. This is just great! Now the killings are going to get even crazier.”

Bar Lion Mater was quick to pick up the reality of what Huge Axe’s annihilation would represent.

Huge Axe’s annihilation was obviously a fact that could not be kept under wraps. It was just a matter of who learned about it first.

“For now, the news has yet to be spread, so it seems like the other races are still in the dark.” Bar Lion nodded discreetly. “I have to rush back and report this to my clan.”

In the homeland of the prison clan, the birthplace was a place named “Prison.”

Prison was fraught with dangers. The life forms here were born to fight and kill one another. Every waking moment, countless beings were annihilated. They were all from various races, but because their birthplace was a common “prison,” they were collectively known as—the prison clan! In this endless prison, the being with the highest status was undoubtedly the legendary Prison Clan Devil Ancestor!

Rolling mountains exuded frigid air. Layers of mountains cascaded over one another. On every layer of mountain range were countless steps upon countless steps, extending and leading up to the higher grounds, then extending and leading further up into the end of the clouds. On these steps were numerous powerful living souls of the prison clan. All of them exuded a formidable aura. The sprawling mountain range was so vast and lofty that it was known as the Prison Clan Ancestor Mountain.

Hong!

A lone figure appeared instantly and flew straight for the peak of the ancestor mountain.

The numerous powerful guards of the prison clan on the steps did not dare stop the approaching figure the moment they saw who it was. A short moment later, this figure arrived at the public square of the group of towering godly palaces.

“Bar Lion Master, what urgent news do you bring us?” the leader of guards at the end of public square asked in a low growl. “How dare you send only your avatar here!”

“Of course, this must be something major,” Bar Lion Master said solemnly.

Hong! Long!

The palace doors behind that leader of the guards opened automatically. A piercing voice that sounded like blades clashing against one another said, “Come in.”

“Devil Ancestor!” Bar Lion Master flew in without further ado.

In the palace, Bar Lion Master looked up to see that, high up on the throne, a lone figure had appeared out of thin air. This malefic figure was covered in an intricate mix of silver and black, and its entire being was like a human form. It had a long, sharp tail that resembled a scorpion’s tail, and this tail extended

out to such a length that it could encircle half of the mighty palace. Beneath the silver helmet, a pair of red eyes looked down.

This was Devil Ancestor! The prison clan's Devil Ancestor!

Under Devil Ancestor's guiding strategies, the entire prison clan was filled with internal fights and struggles that were brutal and horrifying. There was also a hierarchical caste system in place that was exceptionally strict. These crazy internal fights and struggles began at the lowest level of the hierarchy. Therefore, every prison clan great being that arose was an embodiment of absolute iron will, insanity, and cruelty. This was very unlike that of the humans, whose leaders took a friendlier and kinder cultivation approach to bringing up their ordinary humans beings.

"Devil Ancestor!" Bar Lion Master greeted with reverence.

"Your avatar is here to see me? What is it?" Devil Ancestor's voice made Bar Lion Master's heart tremble.

Bar Lion Master replied right away. "My original body is preparing to head for Tilted Peak Sector—"

"Speak up! What is it?" Devil Ancestor was getting a little impatient.

"Huge Axe! Huge Axe has been annihilated!" Bar Lion Master replied, no longer mindful of anything else. "Huge Axe Creator has been annihilated."

Hua!

A shadow flashed past, and an arm filled with black muscles covered with a silver shell instantly appeared before Bar Lion Master and caught hold of him. At the same time, Devil Ancestor's eyes shot out hazy red light which quickly enshrouded Bar Lion Master as he asked anxiously, "Huge Axe? Are you saying that the human, Huge Axe Creator, has been annihilated? Are you kidding me? Given his ability? Which is so much more powerful than you can ever imagine!"

Devil Ancestor might not be clear about Huge Axe Creator's true power, but he could faintly feel something about it, and he knew that Huge Axe was a terrifying figure.

"I certainly dare not lie to you, Devil Ancestor," Bar Lion reported. "My original body was heading for Tilted Peak Sector. In the midst of teleporting, I chanced upon his miniature universe and was shocked to discover that... Huge Axe Creator's miniature universe was starting to crack open with empty holes surfacing. A large amount of chaotic airflow was surging in, and I could even see through the empty holes and look inside where the space was collapsing. Land was cracking with broken parts floating about. Apparently, the miniature universe has started to fall apart... It is confirmed that Huge Axe Creator is dead. I know the severity of the situation; therefore, I did not dare hesitate and sent my avatar over right away to report this matter."

Hua.

The black-muscled arm released its grip and slowly retracted. On his throne, Devil Ancestor's eyes were glimmering. Then he said, "If what you say is true, then you have done a great service to the clan."

Shua!

Devil Ancestor vanished from his throne.

Merely a short moment later, within Universe Ocean, amidst the chaotic airflow that was not far from the membranous wall of the original universe, a horrifying figure appeared and stood tall within the void space. He had a huge and sharp tail that encircled his body, and his pair of red eyes gazed far off into the distance at the area that was occupied by a miniature universe.

“Huge Axe’s miniature universe.” Devil Ancestor scrutinized it.

Hong!

With one step forward, Devil Ancestor arrived at the border of the membranous wall of the miniature universe, dealing such a thunderous strike against it that a part of it collapsed and fell within the miniature universe.

“What a weak membranous wall.” Devil Ancestor took one look behind him. “It is not even capable of self-restoration. Not a trace of life at all.”

He turned around. He looked at the vast space, at the floating pieces of space that contained bits and pieces of land. The entire universe was still gradually falling apart.

“To think that Huge Axe could actually be annihilated.” Devil Ancestor’s eyes were shining.

“Unbelievable. He was so powerful. Not long ago, he even obtained a supreme true treasure. By right, given his power... there should be no one capable of killing him. When one becomes a universe supreme master, he will always be vigilant and careful. Even in the three most dangerous lands, he would not allow himself to fall into any desperate situation. And yet, Huge Axe was annihilated! Just how did he die?”

Devil Ancestor was secretly astounded.

“Whatever. Since he is dead, things are going to get interesting.” Devil Ancestor’s eyes were filled with anticipation. “Let me add some fuel to the flames. Huge Axe may be dead, but the human race still has 17 universe masters. Earlier, Milky Way Horde Leader Luo Feng received the inheritance of the pulse of Duan Dong River. With his help, the power of the human race should not be underestimated.”

Especially that Teacher Origin... though Devil Ancestor. Teacher Origin. I’m afraid he has left the human race with a trump card.

“No matter what, a race without a single universe supreme master, and yet with the inheritance of the pulse of Duan Dong River... Humph!” Devil Ancestor said to himself. “Let the demons, automaton race, and bug clan take the lead! We shall see just how sturdy a foundation the human race has. Can it hold on or not? If it cannot hold on much longer, then my prison race will be quick to catch up.”

Very quickly, under Devil Ancestor’s secret plot to add fuel to the flames, news of Huge Axe Creator’s annihilation was transmitted to the demons, automaton clan, and bug clan almost at the same time.

The original universe, amidst the quiet starry sky.

Hong! Hong! Hong!

Three streaks flashed across the void space and landed instantly. One was a huge oval, one was a sylphlike shadow, and the last one was a gigantic, silver-white snakehead.

“Dream Tea, Empress, you all should have looked into the matter already,” the shadow of the oval said.

“Yes,” the sylphlike shadow replied.

“Huge Axe has indeed been annihilated,” the silver-white snakehead also said. “This news was discovered by Fan Ye Master, who was wandering around. When the news spreads, I believe the entire original universe will learn of it very quickly!”

The shadow of the black oval said solemnly, “The humans and we three races occupy the best territorial lands within the entire original universe. These territories allow us to breed life forms with great potential, which is why we three races can remain strong and powerful all this while... especially the humans, with that Teacher Origin’s power that is extremely strong! Even though Huge Axe has never really displayed an outburst of his power, there were several times when traces of it could be detected. I trust that you all should be aware. One after the other, these two universe supreme masters are so powerful that territory belonging to the human race must certainly be extraordinary—to be able to breed living souls with such potential.”

“The fight for territory is inevitable,” the shadow of the oval said. “Besides, this time around, that inheritance of the pulse of Duan Dong River is bound to become an object of desire that various clans in the original universe will covet for.”

“True.”

“Yes, who wouldn’t desire it? This is a chance for transcending reincarnation.”

“What should we do?”

The three universe supreme masters discussed the matter among themselves. They had ideas of attacking, but, just one party attacking would be very exhausting, and they were all worried about being placed at a disadvantage upon being attacked while the others stood to gain from their losses.

“The power of the human race must not be underestimated,” the sylphlike shadow said in a voice that was incomparably pleasing to the ears. “Teacher Origin was so powerful. Most likely, he would have left his human race with some trump cards. And the Boat of Mausoleum of that Luo Feng is also extremely powerful... I’m just worried that Luo Feng does not only have a Boat of Mausoleum. He has likely brought some other treasures with him, too. So, if we are going to attack, we three races must act together.”

“If this is the case!” continued the sylphlike shadow. “For those who are waiting behind to gain some benefits, we three races can deal with them together. It will not be strenuous at all. As for our three races, we have a total of four universe supreme masters, and the humans do not even have a single universe supreme master now. Exterminating them all... a piece of cake! So long as we are able to deal with the strongest few, everything will work out just fine!”

“Hmm.”

“Then what should our course of action be?”

“Of course, we must act fast! We must be so fast that they do not even have the chance to react. Especially for the other groups of powers of the original universe, since the news just got out, the other groups of powers may not know anything yet. Besides, they are scattered all over the original universe. They are still far from us. On the other hand, we happen to be near to the humans! We can be the fastest to take action!”

“Sure.”

The bug clan, the demons, and the automaton race were extraordinary, too, given that they were all pinnacle races. Their efficiency was naturally extremely high.

A speedy decision was made. Then they took action on that very day!

Chapter 1266: The War is Coming!

“All universe knights and emperors—enter Demon Ancestor Universe!” The two demon ancestors gave an order.

The war started!

All these emperors and universe knights could be future universe masters, so they couldn't be put at risk. As for those domain lords and sector lords, it would be difficult to say whether there would be a universe knight, so even if a lot of them were killed, a new group would be born in the near future.

In the virtual space of the demon race...

“Shock Horn, I'll lead this time!” said the giant silver snake. “You'll guard our race.”

“Okay,” said the strange beast with the serrated shell. “The bug race and the automaton race only have one universe supreme master, respectively, so you'll be enough! Take my keepsake. If something goes wrong, I'll be there as soon as possible.”

“Okay.”

At the same place, Shock Demon Ancestor and Dream Demon Ancestor looked at the 12 great beings in front of them.

Dream Demon Ancestor said, “This was it about the foundation of the human race. I'll lead and protect all of you! However, you 12 should be divided into four teams of three, and when it's critical, two teams should cooperate, or all of you shall cooperate with each other... To sum things up, you should make sure that you're safe. What you need to do is to assist me! I'll be the center of this war.”

“Yes, Demon Ancestor.”

All the universe masters were excited.

The union of three races—they just wanted to destroy the entire human race. The 12 of them combined already dared to approach the human race, not to mention when they were led by Dream Demon Ancestor.

Dream Demon Ancestor gave the order: “Go!”

In the territory of bug race, far away, a purple oval a trillion kilometers tall was floating in the sky. There were twisted engravings on the purple oval like the arteries and veins of a human.

Hu!

A streak of light flew toward the purple oval and flew in along a crack. Then another streak of light flew in the purple oval.

“Empress!”

Inside the beautiful palace in the huge purple oval, the six bug clan queens wearing gauze coats all saluted the bug clan Empress on the throne.

The bug clan Empress looked down and said, “We must get the inheritance from Duan Dong River. If we succeed, we can transcend incarnations! You six will all stay in my nest and lead the warriors to fight. You’ve prepared fully for this fight. Although there are only six of them, you’ll be as powerful as the 20 or even 30 universe masters of the demon race and automaton race if you cooperate with each other well.”

“The demon race and automaton race can’t compare to us,” said a bug clan queen. “If the war is a group effort, we’ll be at a huge advantage. We also use our storage and will stay in our Empress’s nest. We don’t need to worry about our safety. Instead, we just need to utilize all our power.”

“If we attack at the same time and attack only one universe master, even if he doesn’t die, he’ll be stunned and sealed.”

“That’s right.”

“If we cooperate with each other, we can reach the limit of the original universe.”

All six bug race queens were confident.

“Then we shall let the humans see how powerful our race is,” Empress chuckled. “Let’s go!”

Her smile was breathtaking, but it was cruel and ruthless.

Inside the automaton universe...

Hong! Hong! Hong! Hong! Hong! Hong!

A towering being made of steel teleported into the area and flew toward that black oval.

“Father God!”

“Father God!”

“Father God!”

The willpower was spread.

“Let’s go to the original universe. To the human territory!” said the black oval, and the metal beings all answered and flew into the portal.

The demon race, the bug race, and the automaton race were very fast. Within the same day that the prison race spread the news, they started to act.

The human race was on high alert.

Primal Chaos City in the primal universe.

At this time, Primal Chaos City had become the real center of the human race. Darkness Master, Peng Gong Master, and Luo Feng were all there.

“Brother, Peng Gong, Luo Feng! Come now!” A voice resounded at three different corners in Primal Chaos City. At the three corners lived Luo Feng, Darkness Master, and Peng Gong Master.

Luo Feng opened his eyes. “It’s begun?” he whispered.

Sou!

A teleportation.

In the main palace, three beings showed up after teleporting. They looked at each other first, then at Primal Chaos City Leader.

“Chaos, is the news leaked?” asked Darkness Master.

Primal Chaos City Leader nodded. “The news has just spread. Besides, Teacher Origin told me that his virtual universe has already detected the demon race, the automaton race, and the bug race. There will be supreme beings coming at us. We need to prepare ourselves.”

“Teacher Origin?” Luo Feng, Darkness Master and Peng Gong Master all looked surprised.

“I’ve never told you.” Primal Chaos City Leader said. “The virtual universe of Teacher Origin covers the entire original universe! Unless some universe masters given orders that are strictly enforced, the virtual universe covers almost everywhere—other than rare areas like original stars! As long as the virtual universe covers it, Teacher Origin himself is watching!”

“Ah!”

Luo Feng, Darkness Master, and Peng Gong Master looked joyful. They were happy to learn what Teacher Origin could do. What made it even better was that it would be like monitoring the entire warzone. Besides, he was monitoring the entire original universe.

“Even if universe supreme masters act and repel the virtual universe,” said Primal Chaos City Leader, “Teacher Origin will be able to tell which area it is, and he can tell where the universe supreme master is.”

“Okay.”

They all nodded.

“The news was just spread. The three races will need time to arrange everything, but it won’t take long,” said Primal Chaos City Leader. “You three will be the major fighting forces this time! Act now! There are still some pinnacle true treasures in our race. If you need them, just apply to use them.”

“Oh?” Luo Feng, Darkness Master and Peng Gong Master were kind of surprised.

“I need a pinnacle domain type true treasure.” Luo Feng smiled. “However, I’ll trade it for my pinnacle palace type true treasure.”

“I’ll need an illusion true treasure.” Darkness Master nodded.

“Okay, let’s act now. I’ll tell the other universe masters,” said Primal Chaos City Leader. “Then the other three universe masters will be divided into three teams and will follow you. They’ll assist you. Perhaps they’re not powerful individually, but when they cooperate with each other, they’ll be of great help.”

Luo Feng and the others nodded and left.

During the inheritance of Duan Dong River, lots of great beings of the Divine Eye clan died, and the Boat of Mausoleum had gained some pinnacle true treasures. There was one pinnacle soul type true treasure! However, there weren’t any pinnacle domain type true treasures, so he got it from the storage within the race.

“Most of the valuables were left by Huge Axe Creator.” Luo Feng sighed. “Shi Wu Wing has three pairs now. Although they’re merged, the power isn’t stronger. I’ll just separate them.”

Luo Feng had already had a plan. The first two pairs would be carried by his original earthling body so that it could perform Golden Country, and with a pinnacle domain type true treasure, space binding would be fully utilized.

As for the white wing, Golden Horned Beast would be carrying it. After all, the white wing was used as blades. It was already powerful enough. When Nirvana Renaissance was performed with it, it would be incredible.

Luo Feng, Darkness Master, and Peng Gong Master had soon gathered in the main palace, and there were 12 universe masters this time.

“The 12 will be divided into three teams and follow you three,” said Primal Chaos City Leader. “The team of Void Gold Master will follow Peng Gong Master; the team of Qing Dong Master will follow Darkness Master; the team of Ice Mountain Master will follow Luo Feng. Go prepare first. If the three races do anything, I’ll notify you immediately.”

“Okay.”

“I can’t wait.”

All the universe masters were belligerent. Humans were very proud.

They wanted to fight humans? Let them come!

“Luo Feng, stay here first,” said Primal Chaos City Leader.

Everyone left.

Primal Chaos City Leader said to Luo Feng, “Are you sure about the power of the Golden Horned Beast?”

“Confirmed.” Luo Feng nodded. “When he uses all his power, he can rival a universe supreme master. Compared to other universe supreme masters, he’s just not fast enough! Of course, he can’t fight as long as other universe supreme masters! However, I have lots of protection on him.”

Golden Horned Beast had Star Tower and the white wing, both of which were supreme true treasures! And the godly blood on the white wing was terrific. The fighting power of Golden Horned Beast was, indeed, incredible.

“Okay.” Primal Chaos City Leader nodded. “Don’t tell anyone about this body. This time, you, Darkness, and Peng Gong will be the major fighting powers. As for this Golden Horned body, it’ll be a safety net.”

“Okay.” Luo Feng nodded.

“Go now,” said Primal Chaos City Leader. “Once something happens, I’ll let you know. But I bet it’ll be today.”

Chapter 1267: The Supreme Masters Who Traveled Alone

In one of the secondary halls, four figures sat in silence.

At that moment, Luo Feng walked in with a stone blade at his back as his eyes swept through the hall in one swift look. This time around, those treading the same path he was taking were Ice Mountain Master, Long Yan Master, Deserted Mirror Master, and Remote Lord Master. In terms of power, Remote Lord Master was slightly inferior, but the other three were extraordinary because they were extremely ancient beings.

Ice Mountain Master and Long Yan Master had been under Teacher Origin’s guidance before, thus explaining their abilities; as for Deserted Mirror Master, he was the creator of the Universe Mercenary Alliance. That was a testimonial to his ability!

“Luo Feng.”

“Luo Feng.”

“Milky Way.”

“Luo Feng.” The four looked over and called out at the same time.

Deserted Mirror Master said in a solemn tone, “For this war, I will only leave one body behind. The other three will follow you into the battlefield.”

“This way, our team will be stronger,” Luo Feng said with a sigh. Usually, Deserted Mirror Master would reap personal benefits for the Universe Mercenary Alliance under his command, but at the critical moment, he would not go soft. When one could become a universe master, to have more than one body was something quite common. Long Yan Master also had another body.

The majority of them would have a total of two bodies. One body would remain in the god country while the other would normally go out to battle. Like Deserted Mirror, Luo Feng and Primal Chaos City Leader—who were able to own more than two bodies—such great beings belonged to a minority. Just one universe master from this genre could fight against a few other ordinary universe masters. This was also the overall power of Deserted Mirror’s Universe Mercenary Alliance, which was one of the reasons why this Alliance was slightly stronger than the Universe Star River Bank and Universe First Bank.

“Deserted Mirror Master, Ice Mountain Master, Long Yan Master, and Remote Lord Master, the four of you will attack at the same time,” Luo Feng said. “In this way, especially with the three bodies of Deserted Mirror out on the battlefield... with all of your powers combined, we can be confident of warding off even the attacks of universe supreme masters. However, such tangled warfare can get very dangerous, so it is better to fight within the surroundings of the Boat of Mausoleum.”

“Mm.”

“True.”

Deserter Mirror and Ice Mountain both nodded. They were confident but not reckless. After all, given their surroundings alone, there were already three other pinnacle races as neighbors. Any one of these races was comparable to the humans! Should the three other races decide to lay siege to the humans, with their universe supreme masters and greater number of universe masters, once the siege and fights commenced, the human race would definitely suffer a great loss. At this point, if the human race still insisted on their act of heroism, they would be courting death.

However, if they had sixth-tiered universe masters as their strength in battle, they did still have the capital for acts of heroism.

“This time, I...” Deserted Mirror said in a low voice, “am most worried that the other powers will act together! Undoubtedly, the three pinnacle races will attack. But if the other powers are to take action, too... The most terrifying ones are the universe supreme masters who move about alone. If they were to join in...”

Luo Feng, Ice Mountain, Remote Lord, and Long Yan were at a loss for words. Everyone wore awful expressions.

True enough. The top nine powers in the original universe were, namely, the Ancestral God School, the humans, the demons, the automaton race, the bug clan, prison clan, the crystal clan, the Northern Territory Alliance, and the Space Beast Alliance! Aside from the humans, the Ancestral God School, the demons, the automaton clan, the bug clan, and the Space Beast Alliance all had supreme true treasures! The prison clan, the crystal clan, and the Northern Territory Alliance did not have any.

Because the prison clan and the crystal clan did not have any supreme true treasures and were located in more remote areas and, overall, slightly weaker, the other powers—like the humans, demons, automaton race, and bug clan—would usually engage in fights against these two groups just as aggressively, but they did not really consider two races as equals.

A must-know: Other than these nine top powers, there were also supreme masters that traveled alone, like Sitting Mountain Guest, Shi Hua Island Leader, Black Universe Creator, Virtual Real Devil God, and Demon Beast Ancestor. These universe supreme masters were born as special life forms and grew up to become universe supreme masters, so all of them were incomparably ancient, with strong powers that allowed them to be arrogant.

In fact, the Alliance Master of the Northern Territory Alliance was a supreme master who originally had been a lone traveler but was eventually roped into joining the alliance. Even so, he was only alliance master in name and would only occasionally help out in the alliance. That Alliance Master had his own supreme true treasure, but he would never use it for the purpose of helping the Northern Territory Alliance. Even if the alliance was doomed, that Alliance Master would not feel the pressure at all.

In the original universe, there were around a dozen universe supreme masters, and they all bore grudges against one another.

Demon Beast Ancestor, for example, proclaimed himself to be the “guiding figure for the demons” and the “leading figure for the space beasts.” He thought himself to be the true ancestor of both the demons and space beasts, which was why he called himself Demon Beast Ancestor. He had once basked in great glory, but later, the Space Beast Alliance and demons broke free from his control. This was one of the reasons why the demons were always so loud about the fact that the space beasts were a part of the demons. The dispute between the two races was, indeed, great.

No matter what, these supreme masters who traveled alone were not to be trifled with. Some were mysterious, like Northern Territory Alliance Master, Sitting Mountain Guest, and Shi Hua Island Leader. Some fought their way through extremely great battles of fame, like Black Universe Creator, Demon Beast Ancestor, and Virtual Real Devil God. They were all born as special life forms, and they were more ancient than any other beings!

Other than the unlucky Demon Beast Ancestor, everyone else had their own supreme true treasures that they carried around with them!

“Nine top powers and the group consisting of lone travelers.” Secretly, Luo Feng was secretly on edge. “The group consisting of lone travelers is more mysterious, as they have no need to fight for any race. They only have to take charge of themselves... And these special life forms are all extremely ancient, like my teacher Sitting Mountain Guest. This group of lone travelers certainly does not pale in comparison to

any of the top nine powers of the universe. With the inheritance of the pulse of Duan Dong River, the temptation to transcend a reincarnation era must be quite alluring to them.”

An intangible pressure within the hall kept Luo Feng, Ice Mountain, Deserted Mirror, and Remote Lord all in silence.

“Humph!” Long Yan Master said in a hoarse voice. “No matter who our enemy is, there is only one battle! We humans... are left with no other choice!”

All four pairs of eyes—those of Luo Feng, Deserted Mirror, Remote Lord, and Ice Mountain—lit up. It was true. If their enemies were to kill their way through, what else could the human race do? They could only fight through this one battle!

In three of the secondary halls of Primal Chaos City Leader Palace, three troops were waiting in silence. During the wait, a murderous intention was brewing within their hearts.

A voice resounded in all three secondary halls at the same time: “Come quickly!”

Luo Feng, Ice Mountain, Long Yan, Deserted Mirror and Remote Lord rose to their feet all at once, and with a single teleportation, they all disappeared at the same time.

Within the main hall of Primal Chaos City Leader Palace.

With Luo Feng leading the troop with Ice Mountain Master, Darkness Master leading the troop with Qing Dong Master, and Peng Gong leading the troop with Void Gold Master, three troops appeared together. These 15 powerful beings all looked at Primal Chaos City Leader.

“Everyone...” Primal Chaos City Leader’s gaze swept through them all. The eyes of all the universe masters were surging with fighting spirit as they were all ready for a bloody battle.

“The demons, the bug clan, and the automaton race...” Primal Chaos City Leader said solemnly. “Based on Teacher Origin’s speculation, the universe supreme masters of these three groups should already have met up once for a discussion, and as of just a moment ago, the three races have started to take action.”

Luo Feng, Darkness Master, and Peng Gong Master could not help but show feelings of intense craziness in their eyes. They had truly attacked the human race!

“And every one of these three troops have supreme universe masters,” Primal Chaos City Leader continued. “The moment they arrived in the starlit sky via their god country transportation, Teacher Origin sensed it... The problem is that all of them had their universe supreme beings forcing their way into the virtual universe, which is why, out of these three troops, we are unable to tell which troop belongs to the bug clan or the demons. Everything is unknown to us.”

“I trust that news of Huge Axe’s annihilation will spread within the original universe very quickly,” Primal Chaos City Leader said with a heavy heart. “I believe it will soon attract the other groups of superpowers, the groups of powers that are a notch less powerful, and even the supreme masters who

are lone travelers. Which is why this first battle must be one that can scare the various groups and instill some fear so that there will at least be some who will hesitate in attacking us. If our race is weak... it will cause some other groups of powers to be worried, as they may lose out on advantages because of being late. I'm afraid that by then, the various groups of powers and universe supreme masters will all come at us in hordes. Then our human race will really be forced to retreat from the original universe."

Everyone maintained silent.

It was true. So what if they had two to three supreme true treasures? The nine top powers of the universe, various top-notch groups of powers, and supreme masters who were lone travelers... Once all of them charged toward the human race together, it was certain death for anyone who tried to stand in their way—unless they hid in the Boat of Mausoleum throughout the entire war. But if they were to remain hidden, how would they protect their territory?

Primal Chaos City Leader's eyes were sharp. In a low growl, he continued, "I have discussed the matter with Teacher Origin. In this first battle, our human race will send out three small troops to join forces and attack one of theirs! If we join our forces, in one swift move, we will destroy this troop! Let them suffer heavy losses, and make the other groups of powers so scared that they will not be mindlessly reckless."

"Yes."

"Destroy them!"

"Launch a full attack on this one troop! Exterminate this troop!" Luo Feng and the others gritted their teeth and roared.

They were all aware that things would be tough, but they had to harden their hearts and be vicious. If they could not even destroy one troop of such, when the other powers came charging toward them, they would be facing their greatest nightmare.

"Great!" Primal Chaos City Leader said. "Now, we set off right away. As for the coordinates of the three troops, we will head toward whichever is easiest for us to access. Then we will exterminate whichever troop we find there."

"Yes."

"Let's go!"

"Let's go!"

All were shouting at the top of their lungs with rage shrouding their minds, voicing everything they had suppressed within their hearts! Now was the time for war; now was the time for their outburst!

The human race had three troops composed of super beings with the strongest attacking force, and they had speedily left Primal Chaos City to arrive at the original universe.

"This set of coordinates. We can easily arrive here within the shortest time."

The virtual universe had become the headquarters of the high command, and Primal Chaos City Leader was in control of the entire situation. This time around, the three troops had brought a large number of undying spirits, and many of these had, in turn, a large number of tokens scattered all over the universe. Therefore, they had efficient ways to get to their god country transportation.

“Let’s go!”

“Let’s go!”

“Let’s go!”

There was a Boat of Mausoleum, a Black Pyramid, and an Ancient Palace. (This was a pinnacle palace true treasure, under the limit of the original universe. It had limited attacking force. Even so, it was impossible to cause damage to a pinnacle palace true treasure.) They belonged to the three troops led by Luo Feng, Darkness and, Peng Gong, respectively.

Hong!

Amidst a dazzling golden light, time and space were contorted!

Light rays of god country shone through time and space and reached out over a slightly further distance to envelop the Boat of Mausoleum, Black Pyramid, and Ancient Palace in its golden light rays; at the same time, it transported them over to their destination.

“You all are still about 120 light years away from your target,” Primal Chaos City Leader informed via the virtual universe. “These are the exact coordinates.”

Within the Boat of Mausoleum, Luo Feng was in his suit of silver armor with two pairs of widespread silver wings and a stone blade on his back; he also carried with him a pinnacle soul true treasure to protect his soul. Given his willpower, together with the pinnacle soul type true treasure, even if ten Virtual Real Devil God were to attack, he would have no fear!

“Teleport!”

“Teleport!”

“Teleport!”

Three troops teleported almost simultaneously. Almost simultaneously, the Boat of Mausoleum, Black Pyramid, and Ancient Palace leaped over a distance of 120 light years and appeared amidst a quiet and dark sky. There was not a single star in their surroundings, only a gigantic, dark gray vessel far away within that contorted space. The moment Luo Feng and the three troops appeared after teleporting there, a boundless and powerful aura surged and spread out from that gigantic vessel, then it swept towards Luo Feng and company.

“It’s the demons!” Luo Feng. The rest took one look at that gigantic vessel, and right away, they identified the targets of their attack for this round.

Chapter 1268: Fight Dream Demon Ancestor

Inside the large ship, a giant silver snake sat on the throne with its eyes half closed. His tail was winding around the edge of the throne, and the tip extended to the palace hall. In the palace sat 12 universe masters from the demon race, and this time, they had been sent here for the war. They had been preparing for the upcoming war.

“Huh?” The silver snake gave a sidelong glance.

All 12 universe masters followed his gaze. The wall of the spaceship couldn't block the sight whatsoever. They immediately saw three palace type valuables appearing in the dark sky in the distance: a spaceship, a pyramid, and a palace.

“Boat of Mausoleum?” said Dream Demon Master. “It's a human!”

“Humans!” the universe masters screamed.

“The humans dare to emerge first!”

“Humph!”

The dark sky outside the giant spaceship was like an endless ocean. Suddenly, time and space waves were formed in the dark sky. The twisted time and space formed powerful shock waves that shot toward those three palace type valuables again and again. The black pyramid and the ancient palace immediately hid behind Boat of Mausoleum.

Hong!

The shock waves hit Boat of Mausoleum, but it was pretty stable. It wasn't affected when it was hit by all the supreme beings in Flame Ice Region. The space and time waves were like nothing to it.

Space and time waves hit the boat repeatedly while the three palace type valuables resisted them like stones among the waves.

“Look, Luo Feng.”

“It's that Dream Demon Ancestor.”

Inside Boat of Mausoleum, Ice Mountain Master, Long Yan Master, Huang Jian Master, and Remote Lord Master were all looking at the outside, holding their breath. So was Luo Feng.

In the dark waves, a blurred, giant silver snake gradually appeared. It extended as if it ran through the entire sky. To the horror of everyone, it looked more than a light year long.

“That Dream Demon Ancestor is so huge,” said Remote Lord Master.

Huang Jian Master said coldly, “Dream Demon Ancestor has the supreme true treasure ‘Dream Scale’ to protect him! Normally, great beings wouldn't endlessly extend their bodies, as it would significantly weaken their defense. However, she is a universe supreme master with an incredible godly body. It was suppressed by the original universe, so she only showed the godly power 10,000 times stronger than universe masters. Besides, she has a supreme true treasure armor! With those two things combined, she can change his godly body however he wants.”

Ice Mountain Master squinted. "It seems that she wants to annihilate us all together."

"Let's go," said Luo Feng.

Sou!

He teleported to the gate of Boat of Mausoleum. While fighting for the inheritance of Duan Dong River, he couldn't teleport in the boat. However, Luo Feng was the owner now, so he could use all the functions in the boat, so he could easily teleport.

The gate opened, and Luo Feng stood at the gate. He took a look at the sky. The silver snake was a light year long, and it rammed the boat. Its giant head hit the ship while the universe masters of the demon race showed up.

A being showed up beside the palace behind Boat of Mausoleum. It was Peng Gong Master. "Luo Feng," he said. "I'll fight him first."

Peng Gong Master was holding Yan Jun Rod, which was black and purple. There were complex engravings, while there was armor, a pair of boots, and a helmet on Peng Gong Master's body. Peng Gong Master was powerful, and he dashed at that giant Dream Demon Ancestor after an angry roar.

Dream Demon Ancestor's gigantic body raced toward the three palaces. On top of its head was the spaceship where 12 universe masters of the demon race gathered.

"Look, the humans came out."

"It seems to be Peng Gong Master."

"He's too arrogant. Does he really think he alone can fight our Dream Demon Ancestor? He's seeking death!"

The 12 universe masters gathered and looked at the fight in relief. They were fairly confident they would win this battle. After all, they had a universe supreme master. First, they would let Dream Demon Master show what she had. After all, if they meddled, Dream Demon Ancestor might be upset.

Hong! Hua!

Peng Gong Master spun Yan Jun Rod.

Yan Jun Rod quickly expanded and became 100 million kilometers long from tens of thousands of kilometers long. The head of Yan Jun Rod was incredibly powerful, piercing through layers of space, hitting Dream Demon Ancestor's body, piercing through layers of space. Dream Demon Ancestor screamed, exclaiming, "A supreme true treasure!"

Hong!

The head of Yan Jun Rod stung the giant body of Dream Demon Ancestor. Its body trembled and dropped back, but it wasn't hurt.

“I can’t believe you humans still have supreme true treasures, a supreme true treasure I’ve never seen.” The giant snake’s head looked down at Peng Gong Master, its voice resounding. “Though you have the power of a level-six top-tier universe master, it means nothing! The original universe will suppress any power stronger than that. Even supreme masters can only exert the power of the top-tier sixth level. However, my body and my true treasure armor can protect me from attacks much stronger than that, not to mention attacks of the sixth level. These attacks can’t kill me in the original universe. Hahaha...”

The humans didn’t care about that at all.

It was true. It was indeed impossible to kill a universe supreme master in the original universe. However, the real target of the humans in this war wasn’t universe supreme masters but universe masters!

“Kill! Kill!”

Luo Feng, standing on Boat of Mausoleum, and Darkness Master, in the black pyramid in the distance, spoke. That meant the other two teams started.

“Bigger!”

“Bigger!”

“Bigger!”

The black pyramid kept growing. Instantly, it turned into a giant black pyramid three light years tall. Compared to that, Dream Demon Ancestor was like a thin silver snake. That black pyramid crushed toward the giant silver snake.

“Supreme true treasure!” Dream Demon Ancestor said in a shocked voice.

“Another supreme true treasure!”

The 12 universe masters were all stunned. They were thrilled that Peng Gong Master had a supreme true treasure. Now, they were horrified! How had the humans gotten two supreme true treasures so easily? And one of them was a palace type—the most valuable kind of supreme true treasures!

Palace type true treasures usually had the ability to seal, and with supreme true treasures, one could adventure through more places in Lands of Extremis. They were very precious.

“Black Prison Tower! It’s Black Prison Tower! How did the humans get Black Prison Tower from Easter Emperor Holy Land?” Dream Demon Ancestor couldn’t believe what she saw. She didn’t think of it as a big deal when she saw the black pyramid. After all, lots of valuables had the shape of a black pyramid. However, there was only one supreme true treasure in the shape of a black pyramid: Eastern Emperor Black Prison Tower!

Dream Demon Ancestor grew incredibly greedy. “No matter how you got that, we of the demon race want that Black Prison Tower!”

Black Prison Tower pressed down, causing Dream Demon Ancestor to back away. At the same time, she gave an order: “Demon race, attack! Get the two supreme true treasures.”

The 12 universe masters of demon race were all excited after receiving the order.

“Yes, Demon Ancestor.”

“Yes, Demon Ancestor.”

“We’ve been waiting for this moment for too long. Two supreme true treasures! With these two, our power will be greatly strengthened.”

“The human race is indeed exceptional.”

“Kill! Kill! Kill!”

“Get them all!”

Prohibition Master, Sky Wolf Master, and You Mo Master... All the universe masters from the demon race roared. They all looked different, representing various clans of the demon race. They teleported at the same time and rushed toward the battlefield.

The 12 universe masters acted at the same time!

The 12 universe masters arrived at the battlefield instantly. Just when Peng Gong Master and Darkness Master were fighting Dream Demon Ancestor, they attacked Peng Gong Master.

“Magic Vine!”

“Nine Sectors of Heart!”

“Extinction Fire!”

Some spiritual force weapons were attacking by winding, and there were illusion attacks and soul attacks. There were also huge blades, axes, and claws! The 12 universe masters cooperated and attacked, especially under the suppression of the original universe, they were more terrific than a universe supreme master!

“We’re waiting for you!” Darkness Master, Luo Feng, and Peng Gong Master were in different places, yet they were all sneering.

“Dark Sinking!”

The black pyramid spread endless black engravings, covering the vast area, as well as the 12 universe masters.

Luo Feng—who hadn’t acted—opened his wings as well. The golden light covered an area of ten square light years, and his pinnacle domain type true treasure Snow Sand Ocean was used as well. White sand floated in the sky. The white sand and the blurry golden light were combined and formed an incredible bond, binding the 12 universe masters.

Golden Country and Snow Sand Ocean! When they two were combined, they immediately repelled all the pinnacle domain type true treasures. There weren’t any domain type supreme true treasures, so the combination of Golden Country and Snow Sand Ocean were invincible.

Hong!

Boat of Mausoleum immediately became bigger and charged at the 12 universe masters.

Chapter 1269: Kill Peng Gong

The 12 universe masters from the demons who were just filled with fighting spirit and confidence were instantly dealt repeated heavy blows. The lofty Black Pyramid that was suspended high up in the air unleashed bouts of black ripples that unfolded and dispersed toward them, and these black ripples easily penetrated through their armor and reached within their godly bodies to start exerting influence over their souls.

“What is happening? It seems like... No more. No more strength.”

“Willpower... I cannot focus my willpower.”

Prohibition Master and the rest of the demon universe masters knew they were in trouble. This technique of “Sinking into the Darkness” was a move meant for attacking a group, but because it was attacking all 12 of them at the same time, it could not cause them to sink completely. Yet with their entire bodies feeling void of strength and their willpower unable to focus, even if they were to consume their godly powers and battle on with gritted teeth, the power they could release seemed to be only half of what they actually exerted!

“No fighting spirit!”

“Willpower is under the influence.”

“In such a terrible form.”

They were all feeling awful when an endless golden light and snow-white grains of sand floating about started to appear within a region of ten light years around them. If Sinking into the Darkness was influencing their willpower and souls on the surface, causing them to fall under an extremely great influence, then this combination of Golden Kingdom and Snow Sand Ocean would be a material attack that placed a gigantic restraint over them! It was as though countless ropes were encircling the universe masters, binding every single one of them.

“It’s a domain!”

“That’s Luo Feng’s domain! Why does he still have his silver wings?”

“I thought his silver wings got lost when he was in the Ninth Deep Abyss. How is it possible that now—?”

Luo Feng’s wings were still around, yet, the domains of these universe masters were easily oppressed and crushed; within this region of ten light years, everything fell under the influence of the countless icy cold, snow-white grains of sand floating in the golden light. Under this restraint, their powers were further reduced.

Sinking into the Darkness and Restraining the Domain were two moves that suppressed the average power released by the 12 universe masters to only 30 percent of their battle power! Among them,

although Prohibition Master's willpower had reached the level of a universe supreme master—where the influence over him was smaller—he could, at most, unleash 60 to 70 percent of his power. As for the others who were weaker, like Sky Wolf Master, the power they could release was left with only 10 to 20 percent.

“Peng Gong Master and Darkness Master, your troops will jointly attack those 12 universe masters.” Luo Feng performed a voice transmission instantly through his domain. “Leave Dream Demon Ancestor to my troop!”

“All right.”

“All right.”

Peng Gong Master and Darkness Master responded right away.

Luo Feng stood at the front deck of the gigantic Boat of Mausoleum and dashed toward the 12 demon universe masters without further ado. Dream Demon Ancestor was growling and roaring as it swung its body against Black Prison Tower in its attempt to stop Darkness Master from using the move Sinking into the Darkness, but at that very moment...

“Luo Feng!” Dream Demon Ancestor's huge snake's head looked at the fast-moving Boat of Mausoleum and knew the situation was bad. The 12 universe masters from its clan were already under extremely strong influence. If even it was being laid siege by Luo Feng, Peng Gong Master, and their troops, would that not mean they were finished?

“Get lost!”

It had a mighty, massive body, and because it was so humongous, it could easily attack Black Tower Prison, Peng Gong Master, and the Boat of Mausoleum. With a single wave of its tail, it swung and whipped the Boat of Mausoleum.

“Come on!” Standing on the deck of the Boat, Luo Feng's eyes lit up. Where it was originally charging toward the 12 universe masters, the Boat of Mausoleum suddenly changed course in another direction.

Hong!

The Boat of Mausoleum suddenly started to expand from 100 billion kilometers to a trillion kilometers. In an instant, it had expanded to a size that was comparable to Dream Ancestor's. Previously, in Flame Ice Region, when the five true masters of the Divine Eye Clan utilized their supreme true treasures to form the attack technique “Eternal True God,” Luo Feng also expanded the Boat of Mausoleum quickly and used it to defeat Eternal True God.

This Boat of Mausoleum was an automaton treasure from the ancient civilization. In terms of dynamism and dominance, it was a notch stronger than normal supreme true treasures.

Peng! Peng! Peng!

A gigantic vessel and a large silver snake—both were around the size of one light year. Two massive creatures were colliding against one another amidst the silent, starlit sky.

“Roar!”

Dream Demon Ancestor yelled, but she was quick to realize that pitting strength against the Boat of Mausoleum was pure stupidity. The speed of the Boat of Mausoleum was not the least bit affected, whereas her massive silver snake body was sent flying into the distance, belly up.

Dream Demon Ancestor suddenly let out a furious shout. "Luo Feng!"

When the Boat of Mausoleum was expanding, Luo Feng had suddenly vanished and charged toward the 12 demon universe masters in the distance! With a huge pair of silver wings outspread, like a dazzling, sharp blade screaming through the air, he charged toward the 12 universe masters with murderous intention.

Luo Feng had originally planned to make use of the Boat of Mausoleum to deal with Dream Demon Ancestor. However, he saw that Dream Demon Ancestor had no plans to shrink into a smaller body. Instead, she seemed prepared to confront him head-on with that massive body as her way of resistance, so Luo Feng simply changed plans and charged toward the other 12 universe masters, leaving only an avatar of himself that was sustained by his godly power to control and navigate the Boat of Mausoleum.

The Boat of Mausoleum was an automaton vessel, so it was very easy to control. Duan Dong River had died long ago, so now, a mere virtual consciousness was able to control the Boat of Mausoleum. Furthermore, Luo Feng only needed to use part of his godly power to control it. Even so, the power that it unleashed was certainly not to be underestimated.

12 demon universe masters were instantly overcome with desperation. Sinking into the Darkness and Restraining the Domain!

Peng Gong Master, Luo Feng, and Darkness Master were charging toward them in the open. Yet who knew when the other human universe masters laying ambush in the dark would take action while the three were dealing blows to them? The opponents had supreme true treasures, and that Black Prison Tower, in particular, could keep them sealed and suppression.

"Quickly! Take cover in here!"

"Into the boat."

The 12 demon universe masters did not dare to make any reckless moves. Immediately, all of them hid in the huge vessel.

"Ancestor!"

"Ancestor!"

"Ancestor!"

All 12 universe masters immediately pleaded for help. If they were up against the humans one-to-one, they were certainly not weaker in comparison. Who would have expected the humans to have a supreme true treasure? This put them in a disadvantageous position, which had resulted in them being placed at the losing end right at the very beginning.

“Roar!” From afar, Dream Demon Ancestor—who had been on the losing end from the start, pitted against the Boat of Mausoleum, raised its snake’s head and screamed out in rage. It was clear that being caught in a fight with the Boat of Mausoleum was a silly move, so merely after a single exchange of blows, it reluctantly changed its strategy and shrank its godly body speedily!

From as large as one light year, it rapidly transformed into a silver snake that was 10,000 kilometers long. Previously, it had taken up such a large form because it thought it would give it an edge over its opponent—that its massive size could suppress the entire troop of great beings from the human race! Then it could get the 12 universe masters from its clan to join forces and sweep out the entire human troop.

But reality mocked it; its opponents had the Boat of Mausoleum and Black Prison Tower, which were two supreme true treasures palaces, so there was no way it could counterattack. Therefore, its initial plans added up to failure.

Sou!

After it had transformed into a silver snake merely 10,000 kilometers long, Dream Demon Ancestor’s speed quickly soared at such a rate that it instantly surpassed the limit of the speed of light. It moved so fast that the naked eye could not see it. Only by probing around the domain with one’s godly power could there be any hope of detecting Dream Demon Ancestor, who was moving at such a terrifying speed.

“This is what we call a universe supreme master!”

Luo Feng, Peng Gong Master, and Darkness Master were all sighing in their hearts. Prior to the battle, they had devised strategic plans because they did not feel that dealing with the demons would be easy. Just a Dream Demon Ancestor in its shrunken form, with its ability to surpass the speed of light and travel at such an unrestrained speed, it would be unstoppable. There would be no way they could restrain it. It could arrive at any critical spot on the battlefield immediately as it pleased.

“Get lost!”

The silver snake let out a roar and immediately crashed into the Black Prison Tower.

Hong! Long!

Black Prison Tower reeled backward as it was thrown off its track.

“It’s too fast.” Luo Feng and Peng Gong Master looked at one another.

After the silver snake crashed right into Black Prison Tower, it stopped, suspended in midair. The 12 universe masters who were hiding within the gigantic vessel flew over and landed on the neck of Dream Demon Ancestor. All their godly bodies were maintained at a size of around 10,000 kilometers.

“Humans!” Dream Demon Ancestor’s icy gaze swept the surroundings. “I have underestimated you all.”

“However, without any universe supreme master, the control rights of this fight lies with me! Now... I have decided that I shall deal with you all slowly, one after the other.” Dream Demon Ancestor’s gaze swept the humans and stopped at Peng Gong Master. “First on the list will be you!”

Hua!

Dream Demon Ancestor moved instantly. Its speed was so fast that it was terrifying.

Peng Gong Master, on the other hand, let out an angry growl. He was holding onto Yan Jun Rod, which suddenly expanded as large as a million kilometers. Then it mightily swept outward—all at once, time and space shattered to shards as Yan Jun Rod, and Dream Demon Ancestor’s tail crashed into one another. Dream Demon Ancestor was hit so hard that it was sent flying backward. Likewise, Peng Gong Master was forced to retreat a short distance.

“If this was Universe Ocean, do you think you would be my match?” Dream Demon Ancestor roared in rage “Full force attack!”

“Yes, Ancestor.”

“Yes.”

“Meet your doom, Peng Gong.”

“Meet your doom!”

The handful of demon universe masters on the neck of its godly body attacked at the same time. At that moment, be it a far-range spiritual weapon attack, an enlarged blade hacking from afar, a soul-enforced attack, or an illusion attack, everything was thrown over at the same time, targeting Peng Gong Master in the distance.

“Sinking into the Darkness!” Black Prison Tower flew over and once again, it unleashed endless black ripples and tried to exert its influence over the 12 universe masters.

“Suppress!” Luo Feng commanded in a low voice.

Golden Kingdom and Snow Sand Ocean exerted their influence to suppress at the same time.

“Breaking free from everything!” Dream Demon Ancestor roared.

Instantly, all its godly power surged. At that moment, the surrounding time and space trembled and eventually became contorted. Its strong godly power was trembling. Time and again, it was hit by impacts, yet it could still turn the tables on the incoming force from Golden Kingdom and Snow Sand Ocean and force its suppression over them instead. Even the black ripples from Black Tower Prison had all been completely suppressed by it.

The 12 universe masters were not the least bit affected.

Hong! Hong! Hong! Hong! Hong! Hong!

At the same time, all their attacks were directed at Peng Gong Master, who was trying his best to ward off the various hits with his Yan Jun Rod to no avail; his wits had been beaten out of him. After all, when

the 12 universe masters joined forces without being under any influence, the strength they released was truly more terrifying than what a universe supreme master was capable of!

“Hahaha... You—you are the first to be annihilated!” Dream Demon Ancestor yelled as its speed soared at a terrifying rate. Right away, it charged toward Peng Gong Master.

It was Dream Demon Ancestor! And the 12 demon universe masters under its command were all joining forces!

Even if Peng Gong Master had Yan Jun rod... there was no escape from being sealed and suppressed!

Chapter 1270: Erupt

“Do you really think you can fight us without a universe supreme master?”

“Humans, you’re dead.”

“Laughable humans!”

Under the neck of the silver snake, the universe masters of the demon race were all making attacks with all their strength. They also transmitted their voices, roaring. They appeared confident. With the help of Dream Demon Ancestor and their maximum power, even supreme true treasures couldn’t stop them.

“Hu!” Dream Demon Ancestor spun her tail.

Hua!

The giant snake tail grew several million kilometers long, like a soft whip lashing through space, as if it divided space in half. As for Peng Gong Master, he could barely resist the attacks from the 12 universe masters from the demon race.

Peng!

Peng Gong Master rolled over. He bounced away, yet his speed surged to light speed! Even though Luo Feng all fought seemingly at light speed, they were still slightly slower than light speed. Yet Peng Gong Master reached light speed and was transferred into the dark universe.

Darkness Master smiled. “Come.”

“Let’s go,” said Luo Feng.

They both surpassed the speed and entered the dark universe.

“Dark universe?” Dream Demon Ancestor was already ten million kilometers long. The universe masters around it looked tiny. “It’s useless.”

“Demon Ancestor, we can’t give them any chance.”

“Kill.”

“Kill them.”

Dream Demon Ancestor stopped resisting the attraction from the dark universe. She left the original universe and entered the dark universe.

In the virtual universe, on the long stone desk of Huge Axe Godly Palace, sat all the universe masters. But the seat of Huge Axe was empty. Although the universe masters were fighting, they could communicate through the virtual universe and cooperate with each other!

“I’ve already felt the power of Dream Demon Ancestor,” said Peng Gong Master. “I know how powerful a universe supreme master is now! If I’m encircled by Dream Demon Ancestor and the 12 universe masters again, I won’t be able to resist it.”

Darkness Master frowned. “It’s difficult to fight universe supreme masters.”

Luo Feng nodded. “It’s indeed incredible!”

After all, universe supreme masters were at a different level. The original universe presented restrictions for them. One, they could only maintain 10,000 times the gene level of universe masters; two, the limit of attacks was top-tier level six; three, if they killed a universe master, they would be punished; four, the origin of the original universe wouldn’t back down, and their privilege to make their orders strictly enforced would be taken away. However, when it comes to assisting skills—like the 10,000 times life gene level and the flying technique at universe supreme master level—they wouldn’t be restricted, as they hadn’t reached level six, even though its speed was ten times or even 100 times light speed.

Like resisting the attraction from the dark universe, these were all just assisting skills. With them, universe supreme masters were very difficult to deal with. Other great beings would be transferred to the dark universe once they reached light speed, but universe supreme masters could remain in the original universe at ten times or even 100 times light speed. This was their power!

“It’s time,” said Darkness Master in a low voice. “I’ve been using Black Prison Tower and performed ‘Sinking into the Darkness.’ I haven’t used my real power yet.”

“We haven’t either!” Long Yan Master, Huang Jian Master, Void Gold Master, and Qing Dong Master all yelled.

“Me neither.” Luo Feng smiled. Just like Darkness Master, he only used his assisting skills.

Peng Gong Master smiled. So did all the universe masters.

It was true. The human race hadn’t utilized their power yet! The fight against the demon race might only be the first fight in the entire war. First, they needed to intimidate other powers. Second, they wanted to know more about the power of universe supreme masters through that fight so they could be more experienced! That was why they didn’t show their true power. However, they had already learned enough about universe supreme masters.

Peng Gong Master smirked. “Crush them.”

“Make them fear!”

“Make the demon race regret it!”

“Kill!”

“Kill!”

“Kill!”

The 15 beings couldn't hold back anymore.

Inside the dark universe, Peng Gong Master, Luo Feng, Black Prison Tower, and Boat of Mausoleum appeared one by one. Although they were far away from each other in the original universe, they were together in the dark universe. After all, the dark universe was tens of millions of times smaller than the original universe.

They were around 100 million kilometers away from each other, yet in the dark universe, Luo Feng and Peng Gong Master were less than ten kilometers from each other! It was like nothing to them!

Luo Feng waved his hand and put away Boat of Mausoleum. Luo Feng, Peng Gong Master, and Darkness Master stood side by side in the dark universe. They were all moving forward slowly, as they would be transferred back to the original universe if they stopped. There were light spots all around the space.

“They're coming,” said Luo Feng.

“Humph! The demon race.” Peng Gong Master sneered.

Darkness Master looked aloof.

Hong!

The 12 universe masters and the giant snake also showed up in the space, and the 12 universe masters stood on the neck of the silver snake. They were all less than ten kilometers from Luo Feng. Its tail spun, and it could easily touch Luo Feng. The giant snake said, “You've been fighting in the original universe, so I thought you wouldn't want to enter the dark universe.”

“Haha! Dream Demon Ancestor.” Luo Feng shook his wings and laughed. “In this dark universe, we can easily surpass light speed. There's no limit, which means your advantage will be significantly curbed. Why wouldn't we enter? Did you really think we would just stay there and be crushed by you?”

“Significantly curbed? How arrogant!” the silver snake roared. “Do you really think you can be as fast as me? You must know, you'll still be defeated even in the dark universe!”

Hua!

The silver snake abruptly sped up.

“His acceleration speed is much faster than ours. No wonder he can move faster than light speed even in the original universe!” Luo Feng exclaimed.

“We've fully prepared!”

“Hit them hard!”

“Take them down!”

“Down with the demon race!”

The universe masters from the human race were all excited to see Dream Demon Ancestor and the others charging at them.

The giant snake body of Dream Demon Ancestor left a giant curve in the sky with her long snake tail. It slashed at Luo Feng, Darkness Master, and Peng Gong Master. The universe masters from the demon race standing on its neck were also attacking him. But Luo Feng, Darkness Master, and Peng Gong Master weren't afraid. Instead, they were thrilled.

Hong!

Black Prison Tower appeared in front of Darkness Master, and under the godly power of Darkness Master, it kept spinning. Countless engravings appeared. Light flowed, and the engravings were changed into black light, concentrating at the tip of Black Prison Tower. The tower tip turned darker, then changed into nothing before it started to shine with white light!

The black pyramid was gleaming! It hit the body of Dream Demon Ancestor, and it bounced away.

“Kill!” Darkness Master shouted, and his team members appeared.

“Kill!” Luo Feng also yelled, and his team members appeared.

“Kill!” Peng Gong Master yelled.

Hong!

12 human universe masters dashed toward the demon race with Luo Feng, Peng Gong Master, and Darkness Master. Although Luo Feng had 12 members, some of them had brought multiple bodies, so there were 16 figures in total. As for the demon race, they needed to concentrate if they wanted to use the supreme techniques, so none of them had brought additional bodies, as they would have distracted them.

The human race was encircled and at an impasse, which was why many of them had brought multiple bodies.

Dream Demon Ancestor, who was hit and bounced away, was also hit by Yan Jun Rod! “Kill!”

Yan Jun Rod struck again as if slashing the dark universe!

Peng!

Although Dream Demon Ancestor tried to fight, it dove down, and the universe masters on its body all fell as well.

“Ice Seal!”

“Nightmare!”

“Extinction 10,000 Levels!”

“Dragon Go My Heart!”

The attacks were all quick. Just when the universe masters all fell off Dream Demon Ancestor’s body when it was hit by Black Prison Tower and Peng Gong Master’s Yan Jun Rod, the universe masters from the human race all started to perform the techniques they were most proud of.

Golden Country and Ice Sand Ocean were binding the demons—especially after having lost their protection from Dream Demon Ancestor. They had a hard time resisting the siege by the universe masters from the human race.

“Luo Feng!”

“Luo Feng!”

Peng Gong Master and Darkness Master both looked to Luo Feng.

“Demon race!” Luo Feng had his four wings opened, and his speed surged in the dark universe. Besides, they were fairly close to each other, and he had been the last one to make attacks after Darkness, Peng Gong, and the other 12 universe masters.

Luo Feng put his hands on Blood Shadow Blade.

“Blood Shadow Blade, this is the first time I have used you. Demon race...”

Hua!

The blade was drawn.
