

Chapter 1301: The Sudden Outburst

The vast primal universe was divided into two major camps. The human camp's meeting point was the primal secret region while the meeting point for the united forces camp was Blood Tooth Star.

90 percent of Blood Tooth Star was composed of a vast ocean; at that moment, there was an old ship adrift on the Blood Tooth Star ocean where a group of supreme existences from all over the entire primal universe had gathered. Together, they were making merry to their hearts' content, drinking the most precious wine and dining on the finest cuisine.

"With our combined strength, what can those puny little humans do to us?"

"Freedom Alliance? It's so scattered. It only became united because the two major camps were pressuring it. Wait for the exchange of blows during this war... You all will see this happening. That Freedom Alliance is definitely going to have internal conflicts, and then they will be split up for sure. They are not going to be our match at all."

The ten noble existences were seated in a dispersed manner as they talked about it brazenly. They were Shock Demon Ancestor from the demons, Father God of the automaton race, Empress of the bug clan, Devil Ancestor of the prison clan, Holy Master of the crystal clan, Black Universe Creator, E Zhou, Virtual Real Devil God, Northern Territory Alliance Master, and Space Ancestor. All of them put together represented half the number of universe supreme masters in the entire primal universe.

"If we all join forces, the marvelous combination of the various supreme true treasures will definitely unleash the strongest combat power. Even if the Freedom Alliance and human camp combine forces, we still have a chance of beating them."

"True."

"What a pity! That old fellow, Sitting Mountain Guest, refuses to join us—or rather, refuses to take any side at all! Just what is going through the mind of Sitting Mountain Guest? If he joins us, given his secretive and endless stream of methods, together with the numerous universe masters under our command, we can definitely come up with more methods. Then our chances of winning will increase by leaps and bounds."

"You are gravely mistaken if you really think so." Space Ancestor was seated within the ship while his tail extended all the way out and directly into the large ocean. "Sitting Mountain Guest and Luo Feng share a deep relationship, much deeper than any of you presume to know."

"Oh?"

"Sitting Mountain Guest and Luo Feng?"

"What relationship?"

Everyone was surprised as they looked toward Space Ancestor.

“Teacher and disciple!” Space Ancestor’s eyes swept around his surroundings as he revealed these two words.

This sudden revelation shocked all the universe supreme masters. Previously, Sitting Mountain Guest had certainly disallowed Space Ancestor from divulging his actual relationship with Luo Feng to the outside world—unless Luo Feng gained the ability to protect himself. Now that Luo Feng could protect himself, even if Space Ancestor were to reveal their true relationship, he would not be considered as offending Sitting Mountain Guest. After all, deep down in his heart, the more Space Ancestor interacted with Sitting Mountain Guest, the more fearful he was of him.

However, this time around, he was filled with dissatisfaction. He was furious! He felt that Sitting Mountain Guest, being Luo Feng’s Teacher, must have gained some benefits from this arrangement! After all, in this vast universe, a teacher-disciple relationship was the most important kind! How could Space Ancestor not feel any jealousy for Sitting Mountain Guest?

“I see.”

“That Sitting Mountain Guest. Previously, he brought up that disciple, Flame Emperor, and now, he had cultivated this Milky Way Horde Leader, who was much more impressive than Flame Emperor.”

“How loathsome Sitting Mountain Guest is! He must have gotten the inheritance from his disciple way back then! No wonder he simply refused to join us when I invited him!”

“That fellow is always the first in line for all sorts of benefits.”

“Humph.”

These supreme masters were the top-level beings of the primal universe. For countless years, they had their fair shares of fights against one another, and at the very least, they had some understanding of one another. But toward Sitting Mountain Guest, they harbored... complex emotions. They were jealous and envious of him, but at the same time, they were fearful and cautious of him. There were even times when they had to beg him for help.

No one knew how powerful Sitting Mountain Guest was; what they knew was that he had never fought anyone in a head-on confrontation. He was more inclined toward the use of other supplementary methods to tease his opponents.

On the big ship, this group of top-level existences of the primal universe was brazenly voicing their opinions about various matters. One moment, they could be discussing the war between the two major camps, the next they could be talking about Universe Ocean, and the next moment, they could be discussing other supreme masters.

Just as they were pouring out their thoughts, without warning—the streamlined, towering body of Father God of the automaton race rose to his feet suddenly.

Father God of the automaton race might always have stayed within that black sphere body, but just like the rest, he had a godly body. However, his approach involved a machine type combat method, so he usually stayed within his black sphere where it was safer and where he could unleash a much more powerful combat ability. But in the primal universe, the greatest amount of power these universe

supreme masters could unleash was limited to sixth-tier as the top level, so it was normal for him to appear in his original body.

“Everyone!”

The Empress of the bug clan let out a shocked expression.

“What is it?”

“What happened?”

Black Universe Creator, Virtual Real Devil God, and the others all looked over. All of them were very baffled over what could have caused the Empress of the bug clan and Father God of automaton race to lose their composure.

“I just received the news,” Father God of the automaton race announced in his strong and powerful voice. “The Freedom Alliance has reached a consensus internally and decided to join the human camp.”

“What?”

“Join the human camp?”

“Not good!”

One by one, their expressions changed drastically.

Previously, before the various supreme masters who traveled alone joined them, the united forces camp would never have been able to fight against the combined power of the Freedom Alliance and the human camp. However, after the various lone supreme masters joined them with their supreme true treasures—and with the Space Beast Alliance’s help—they had a fighting chance. However, this battle would be extremely trying because both sides were equally powerful.

Space Master suddenly let out a low growl. “We need to act quickly. No, we need to act now. Let’s set out now! There is nothing much to think about. We, the united forces camp, must set off right away and charge toward the human’s core ground—the primal secret region.”

“Old Beast God...”

The other supreme masters looked in the direction of Space Ancestor.

“Yes, what Old Beast Master said was right.”

“Yes.”

“Yes. We should act right away.”

They were all highly intelligent, even if Space Ancestor had not spelled it out, they would have figured things out on their own.

“Freedom Alliance has just reached a consensus, so they may not have obtained the part of the information of the inheritance from the humans... We should take the chance and strike before the two parties gather as one. If we charge our way into the human’s primal secret region right away, the

crossfire between our two camps will only last for an extremely short time. By the time the Freedom Alliance rushes over, maybe the war will already have ended.”

“Right.”

“We need to make full use of all the time we have.”

Everyone was of one mind, one thought. They were all aware that the alliance between the humans and the Freedom Alliance would bring them an agonizing war to fight. Who knew? It might even become a prolonged war—a war of attrition! The outcome would be unpredictable! After all, the humans and Freedom Alliance merged; that would mean the two most mysterious beings of the primal universe, Sitting Mountain Guest and Shi Hua Island Leader, would be there. In addition, there was also Luo Feng, who had received the inheritance of the pulse of Duan Dong River.

This war was filled with variables. No one was willing to fight such a war of attrition or a war filled with so many variables. They had to win this once and for all and as soon as possible!

“We must be fast, fast, fast, and end this war as early as we can.”

They were all very anxious. They knew that, in fact, Freedom Alliance traveled fast. One trip via god country transportation, followed by another teleportation, and they would arrive. They wanted to make it there before the Freedom Alliance. If not, ending this war was going to be extremely tough. But, they had to do this. It was the only way of settling this war that would be relatively easier and faster.

“Old Beast God, your Space Beast Alliance is going to act as planned, or...” Shock Demon Ancestor looked toward Space Ancestor.

“We can’t be bothered about other plans,” Space Ancestor decided in his low voice. “Now, we must focus all our strength and try to wipe out those humans in one swift stroke. In the end, we must capture the whole group of human universe masters.”

“Let’s go!”

“Let’s go!”

“Let’s go!”

The moment they started to act, they would act fast.

Old Beast God, Shock Demon Ancestor and the rest of the supreme masters seemed to remain on the big ship as though nothing much had changed, but those were just their avatars. Their original bodies had already started returning to their own races to give commands as they all prepared to take their troops out for war.

Merely three minutes later, in the outer space of Blood Tooth Star, within the vast starlit sky, many massive objects were gathering. At first look, there were 11 gigantic palace type true treasures belonging to the eleven universe supreme masters who were controlling them from the inside. Each of them was leading a troop of around 40 universe masters. Every palace true treasure would fetch a troop of one supreme master and 40 universe masters!

These 11 universe supreme masters were Shock Demon Ancestor, Dream Demon Ancestor, Father God of the automaton race, the Empress of the bug clan, Devil Ancestor of the prison clan, Holy Master of the crystal clan, Northern Territory Alliance Master, Space Ancestor, Black Universe Creator, E Zhou, and Virtual Real Devil God.

Previously, when the united forces of the three races fought against the humans, why had Luo Feng not captured the group of universe masters under Father God's protection? Because Father God of the automaton race had remained hidden within his black sphere with the troop, which was also where he could keep on protecting them. So even if those universe masters were attacked by the impact of willpower of that Ancient God Eye and did not have much strength to resist it, Father God of the automaton race could use his own body to resist all of it.

Now, the united forces camp would be doing likewise, and they had divided themselves into 11 troops. Each troop would be headed by a universe supreme master! The most Ancient God Eye could attack at any one time would be one troop. Even if it were to launch an attack, with a supreme master by their side to protect them, the troop would be safe.

"This war!"

"What we all have to do is charge into the humans' primal secret region. Then we will execute all our techniques together, and with one swift move, we are going to bring the human camp to total destruction. Then we have to rely on Empress Palace—belonging to the Empress of the bug clan—to swallow up the entire human camp of universe masters. Do not hold back. Act to your heart's content."

"All the universe masters."

"For our races!"

"For our future!"

"Let's go, humans' primal secret region!"

Following Father God's booming voice resounded in every corner, and the 11 massive objects representing the entire united forces camp took off. Almost at the same time, they all executed their god country transportation and left successively.

Previously, the united forces camp did not attack proactively because they were waiting for the response of the Freedom Alliance. If the Freedom Alliance had not made its choice after waiting for some time, they would have attacked the humans right away. That would anger the Freedom Alliance because if the united forces camp had really attacked the humans, the Freedom Alliance would not stand to gain anything at all. This was why the united forces camp was certain that the Freedom Alliance would join the human camp as fast as they could.

Previously, they were afraid that they would be pushing the Freedom Alliance to join the human camp, so they did not dare to make reckless moves.

Now, the moment they received this confidential information confirming about the internal consensus that the Freedom Alliance had reached—that they would be joining the human camp—the united forces camp would hold back no more.

At the same moment, in the primal secret region of the human territory, in the main palace, a group of human universe masters had gathered. They were all chatting and laughing among themselves. All of them were filled with joy.

“The Freedom Alliance has reached a consensus. Very soon, the entire Alliance will arrive. Once they arrive, we will reallocate all our universe masters. Then the united forces camp will have no chance of winning at all.”

“Haha...”

They were all waiting for the group of universe masters from the Freedom Alliance to arrive.

“The united forces camp would not have received the news already, would they? They may make use of the minor time lapse where the Freedom Alliance has to travel over to launch their attack right away, right?” Remote Lord Master suddenly said.

The entire hall fell into silence.

“Fret not.” Peng Gong Master said with a smile. “That was a top-level meeting within the Freedom Alliance. All who attended were universe masters, and besides, this concerned their personal interests. The moment they reached a decision, they notified us right away. Would they be so silly as to notify the united forces camp? Wouldn’t they be afraid that we would not hand them the information of the inheritance?”

The moment he finished speaking, Primal Chaos City Master’s expression changed drastically as he suddenly shouted, “Not good! Gather immediately! All you universe masters, brace yourself for war!”

His thunderous voice resounded throughout the entire core ground of the primal secret region to reach the ears of every single universe master.

Chapter 1302: The Surprise Attack

Upon hearing Primal Chaos City Leader’s voice, Luo Feng, Peng Gong Master, Darkness Master, and the others all knew that something was terribly wrong. All their expressions changed drastically.

“Teacher Origin just made a discovery.” Primal Chaos City Leader immediately notified the numerous human universe masters within the hall. “The united force consisting of the demons, the automaton race, and the bug clan is going to make use of god country transportation, all at the same time. Their gathering point should be around the surrounding region of one of the demon’s territories, Blood Tooth Star. Right now, they have all gathered and only need to make use of god country transportation and teleportation. Thereafter, very soon, they will arrive at our primal secret region. This leaves us with little time. We must gather all our universe masters immediately. Everyone must hide in Black Prison Tower. My brother, the task of protecting our universe masters, I will leave it to you.”

“Yes.” Darkness Master nodded.

Shua! Shua! Shua! Shua! Shua! Shua!

Numerous figures started appearing successively within the hall. They were the figures of universe masters from various races that had joined the human camp. Seeing how pressed for time they were, Darkness Master saw no need for words. With a wave, a black pyramid instantly expanded at an alarming rate and stood erected within the hall. At the same time, he shouted out his orders: “Everyone must enter Black Prison Tower right away. We are going to prepare for war.”

“All right.”

“Into Black Prison Tower.”

“Supreme true treasure Black Prison Tower.”

This was the first time some of these universe masters from the various races had laid eyes on Black Prison Tower, especially those who had just joined the human camp. None of them were flustered because they understood that by hiding within a palace true treasure—with their opponent having no treasures of willpower with impactful forces—they would be very safe. The moment they were unable to resist further, they could immediately hide in the safety of the palace true treasure. At the very least, they would have no problems staying alive.

Sou! Sou! Sou!

Streaks of light flew into Black Prison Tower. No matter what, all pre-war preparations were completed. They could respond to the start of a war anytime.

“Everyone.” Primal Chaos City Leader transmitted his voice clearly and gave very detailed instructions to over 100 universe masters in Black Prison Tower. “United forces camp will attack suddenly, and my guess is, they will arrive very soon! The strength of the united forces camp far surpasses ours. But there is no cause for worry. I have another piece of good news for you all. The Freedom Alliance has agreed to join us, the human camp. So long as we can press on for a time, we are bound to obtain victory in this war.”

“Luo Feng, Peng Gong, Darkness,” Primal Chaos City Leader looked towards the trio including Luo Feng. “You are all clear on what you must do.”

Luo Feng and the others nodded with smiles. Merely fight a war to pass the time! Very simple!

Primal Chaos City Leader transmitted his orders without delay. “All undying fighters and sector lords are to leave via god country transportation right away! Leave via god country transportation right away!”

Upon receiving his orders, within an instant, all servants and patrol guards who were originally situated within this core ground immediately reacted in an orderly manner. A group of sector lords would follow one undying, and this would make up one small team. Then a few small teams would make their escape together. Within a minute’s time, several hundred god country transportation waves appeared within the core ground of the primal secret region.

Primal Chaos City Leader also nodded silently. “Let’s set off then!” he commanded.

Luo Feng and the other two nodded as well. "Yes."

As Darkness Master transformed into a streak of light and flew into Black Prison Tower, Luo Feng, Peng Gong Master, and Primal Chaos City Leader also transformed into streaks of light and flew toward the towering Star Tower that stood erected outside the palace.

In the primal secret region, there was a void space that was filled with a thin fog. With their mighty presence, 11 massive objects occupied this void space.

"We have entered the human's primal secret region."

"One more teleportation and we will arrive at the human's core ground. Let's prepare to fight a noteworthy war."

"Let's all prepare ourselves."

"Now, I shall... unify our teleportation!"

The cold voice of Father God of automaton race resonated throughout the entire void space at the same time, as though his voice transmission could transcend time to reach out to any place of his choosing.

Hua!

Soundlessly, 11 massive palace true treasures vanished from the void space.

The secluded clusters of palaces were suspended in a particular area of this void space. Behind these clusters of palaces was a gigantic vessel, the Boat of Mausoleum, while in front of them, a towering nine-story tower stood erected: Star Tower. At that moment, there was not a single sound heard from these clusters of palaces; they were already devoid of living souls.

Weng!

In a particular spot, 11 towering palace true treasures suddenly appeared. Every single palace true treasure exuded a formidable force.

"How come there isn't a single human to be found?"

"Emptiness!"

"No living soul. Not even living souls from other races can be found!"

They had just arrived, and every universe supreme master heading a troop within each palace true treasure was shocked to realize that this core ground had become a ghost town. They could not locate a single living soul, and this was the exact situation that worried them the most.

Right away, Black Universe Creator transmitted a report about the current situation. "Star Tower and the Boat of Mausoleum are there! Star Tower may be strong in defense, but it is still possible to cause it to waver. On the other hand, the Boat of Mausoleum... no matter how we attack, our efforts will be

futile. That human camp must be afraid and timid, so they have all hidden inside the Boat of Mausoleum, where they can wait slowly for the Freedom Alliance to arrive.”

“Everyone, they are hiding in the Boat of Mausoleum, so there is no way we can touch them,” Devil Ancestor of Prison Clan replied via a voice transmission. “What should we do?”

“Loathsome humans. Timid humans.”

“They just ought to die.”

“How could they have learned so quickly that we had set off? We acted so quickly. By right, they should have been taken by surprise.”

The numerous universe supreme masters were all angry and displeased.

At that very moment—

Hong!

Suddenly, from one of the side doors on the ground floor of the lofty, nine-story tower—a black pyramid that was one billion kilometers tall—suddenly flew out. The deep abyss at the bottom of the tower had already opened, and a group of universe masters stood in a circle by the edge of this deep abyss. Darkness Master, Long Yan Master, Ice Mountain Master, and many universe masters from various races could be seen. A total of 139 universe masters were gathered in one place.

The moment Black Prison Tower made its appearance, 139 universe masters launched a joint soul attack.

“Attack!”

This overwhelming soul attack swept up everything around it, and since a soul attack was intangible, there was no way the naked eye could detect it whatsoever. All at once, 139 universe masters—even those who were more skilled in close-range combats and material attacks—were all executing soul attack techniques instead.

Hua!

Right away, the intangible soul attack charged toward a round-capped palace true treasure that was nearest to it.

“Not good.”

“Beware of the soul attack!”

The united forces camp could immediately sense something amiss. However, they had charged straight into the core ground right away, which meant that they were already very close to Star Tower. Furthermore, they had thought that the great beings of the human camp were hiding in the Boat of Mausoleum, so they did not exercise vigilance against Star Tower. A while later, over 100 universe masters were launching joint attacks focused on one of the eleven palace true treasures.

A pinnacle palace true treasure was not a supreme true treasure, so it was incapable of warding off a soul attack.

“Block it!” Devil Ancestor of Prison Clan roared in rage.

Hong! Long! Long!

A big group of universe masters in his surroundings were oblivious at the beginning, but as the soul attack closed in on them, naturally they started to sense it. They, too, executed soul attack techniques with their blurred godly power and threw their attacks at their opponent.

However, it was a force of 139 universe masters on the other side while they only had around 40 universe masters with a single universe supreme master. The difference was much too vast.

This was one disadvantage of dividing forces. By dividing themselves into 11 teams, indeed, the effect of Ancient God Eye would be greatly reduced, but at the same time, once any one team was attacked by the humans, it would almost be impossible to put up a resistance over such a terrifying attack.

So the ideal situation was for 11 troops to throw out attacks together and to rain down attacks until the humans were struggling to defend themselves, eventually reaching their breakdown point. This way, their opponents would not be able to attack and, of course, they were no longer threatening.

But judging by the exchange of blows earlier on, the joint soul attack by the humans was intangible, so by the time the united forces detected it, it was already too close to them. There was no way the other teams could make it in time to render help or block the attack.

Hong!

The mighty soul attack, upon breaking apart the resistance put up by Devil Ancestor of the prison clan and his team, immediately fell and hit them hard.

Devil Ancestor of the prison clan and around 40 universe masters in his team were all hit by the impact of the soul attack.

“Ah!”

“Ah!”

“Humans!”

At that moment, yells, curses, and roars all sounded at the same time. Yet no matter how they shouted and cursed, a number of universe masters, upon being hit by the impact, fell with a crash and completely lost consciousness.

“Attack! Attack! Attack!”

It was only then that the other ten teams arrived mightily and charged toward the human camp.

“Devil Ancestor, what should we do?”

“What’s our loss like?”

Right away, the universe masters were asking persistently.

Devil Ancestor transmitted his message. “We are still doing fine. Only one unlucky fellow has been annihilated.” Then he shouted another order: “Attack!”

The universe masters under his command who had made it through this ordeal immediately roared in rage and started to execute their attacks in a frenzied manner. They threw their attacks at Black Tower Prison in the distance.

The humans' soul attack had previously been terrifying, but it had consumed quite a bit of power, and they were quite weakened. Furthermore, Devil Ancestor of the prison clan had immediately put himself before his team and resisted much of the impact from the attack. The others were only hit by the remaining impact of the aftermath. Universe masters were naturally extremely strong in soul defense; thus, only one unlucky universe master was unable to bear the force of the impact. As for the rest, though it was exhausting, they were all able to bear the impact and pull through to the end.

11 palace true treasures from the united force camp launched an overpowering attack capable of inundating everything between heaven and earth. Then, at the same time, they swept toward Black Prison Tower. Their might was so powerful that it threw the humans into a state of shock.

Sou!

Black Prison Tower, which was originally flying out of the side door of Star Tower, retreated back into Star Tower instantly.

"It's too powerful. The attack from the united force camp is simply too powerful. We are not able to block it at all." Darkness Master transmitted his reason for retreat right away.

Previously, when the human camp exchanged blows with the united force of the three races, the humans had suppressed to such a great extent that it was on the verge of collapsing. And at that time, the difference in power of both parties was much smaller than it was now.

This time around, it was 11 universe supreme masters and around 400 universe masters. The other party had over 100 universe masters. The difference in power was far too vast.

"Darkness Master continued with his report. "That palace true treasure that we attacked is now unleashing an outburst of powerful attacks, and the teams in the other palace true treasures were all comparable to one another. Primal Chaos City Leader, from the ambush we laid just now... there should be nothing much to gain. At most, we would have killed one to two universe masters, or maybe none were harmed at all."

"Then for now, we shall wait," said Primal Chaos City Leader. "Wait inside Star Tower. Wait for the Freedom Alliance to arrive."

Behind another side door within Star Tower were Luo Feng, Primal Chaos City Leader, and Peng Gong Master.

Chapter 1303: Who Let the Cat out of the Bag?

Amidst the quiet, starlit sky of the universe, an island was erected right in the middle of the mighty golden waves. This was none other than the core ground of the Freedom Alliance.

Over 400 universe masters had gathered here and were seated on numerous thrones. They had come to a consensus not long ago and were waiting for the humans to hand over part of the information of the inheritance.

Shi Hua Island Leader was seated on the king's throne as he gently swirled the wine glass in his hand. Lowering his gaze to look at the wine glass, he was smiling as he felt pleased with how things were progressing.

The great momentum at which the Freedom Alliance is progressing can be used to threaten the humans. Thereafter, I can get in touch with the humans without anyone from the Freedom Alliance knowing about it. Merely giving the information of inheritance to me as the condition in exchange for the entire Freedom Alliance to join the human camp... Oh, how easy it is to get hold of that information on cultivating to achieve the ultimate limit of a universe supreme master.

With these thoughts, Shi Hua Island Leader could not help but feel satisfied. He even started to develop feelings of self-admiration.

In fact, right at the beginning, when Luo Feng had received the inheritance of the pulse of Duan Dong River, Shi Hua Island Leader had already known that within the primal universe, there might be chaos! With the human race gaining strength and power, the conflicts with other races of the primal universe would intensify to such an extreme that there might even be the possibility of a brewing storm. Since then, he had started to devise his plan of action, albeit discreetly, and had tried to get himself acquainted with universe masters of various scattered races.

Those scattered races had low social statuses. Therefore, they would ask for nothing more if they were able to form acquaintances with supreme masters who traveled alone! This was how he had managed to get acquainted with a large group of universe masters so quickly.

The moment he caught wind of Huge Axe Creator's annihilation, Shi Hua Island Leader had been immediately aware that this was a catalyst for an imminent war, and it had been ignited long before expected! If Huge Axe Creator was annihilated... the other races would most likely start communicating with one another to prepare in the dark. Or maybe they would not react quite so soon, so he had to quicken his pace and react right away.

Everything was developing as expected...

The pressure the two major camps exerted on the scattered races had created the perfect opportunity. Shi Hua Island Master immediately made use of his social skills and relationships with the other great beings to start a round of persuasions. Soon enough, he had gathered a sizable group of powers on his side. Relying on those he had roped in, he went on to further persuade other groups of powers. Finally, he combined everyone he had roped in and established a super alliance: the Freedom Alliance.

"Be an alliance master? To me, it is pointless. What I am after is... to be truly invincible! To transcend reincarnation! The first thing I want to do is to attain what Teacher Origin has achieved. Then I will aim to transcend reincarnation like East Emperor Ancestor and Purple Moon Ancestor."

Shi Hua Island Leader's chest ballooned up with his overwhelming desire. As a supreme master who traveled alone, he was never one to be bothered by the so-called "power of alliance." He had established one because he needed to make use of it.

He had waited casually all the while, with his consciousness kept connected to the virtual universe as he waited for the humans to reply. He might have connected to the virtual universe before, but previously, he had done so via a hidden identity. However, since the negotiations between the Freedom Alliance and the humans took place, all universe masters and supreme masters from the Freedom Alliance had permission to connect to the virtual universe. This would facilitate efficient communication between both sides.

Suddenly, the leisurely and carefree expression on Shi Hua Island Master's face disappeared to reveal a heavy and furious mix of emotions. Right away, his eyes swept his surroundings as he shouted out in anger, "Everyone! Just a moment ago, we came to a consensus, yet now, the united forces camp has already charged their way into the humans' primal secret region!"

The sudden shout of anger resonated throughout every inch of space on the entire island. Over 400 universe masters who were still chatting merrily while waiting for the information about the inheritance a moment before were instantly dumbstruck.

"How could it be?"

"Why would the united forces attack the humans at this point in time?"

"We have just reached a compromise internally. How could the united forces attack the humans so soon?"

"Who? Exactly who could have let the cat out of the bag? Don't you all know that by doing so, we might be throwing away our chance of getting the information on that inheritance?"

"Who leaked the news?"

The universe masters on the island were all in rage instantly. The most infuriated one was none other than Shi Hua Island Leader. This could possibly foil all his fine plans.

"Obviously, there is someone amongst us who has leaked the news." Shi Hua Island Leader's stern gaze swept across the numerous universe masters. "This... This is dashing the hopes for the future of all our universe masters! This is unpardonable! Of course, I won't rule out the possibility of an accidental slip of the tongue while conversing with a disciple or friend... but right now, obsessing about trying to find the culprit is pointless. The humans are all in hiding, and the united forces camp can do nothing to them, so the situation is not worsening. What we must do now is head to the human territory right away to join forces with the human camp."

"All right."

"True."

"We will set off now!"

"Not a single universe master here can be left out. Anyone who refuses to go shall cast the most suspicion on himself."

Some of the universe masters were worried that their hopes of achieving a breakthrough to become universe supreme masters had been dashed. Indeed, they were so mad that they were gritting their

teeth to contain their anger. Exactly who was the one who had spilled the beans to the united force camp?

“Setting off.”

“Setting off.”

Soon, six palace true treasures made a mighty appearance up in the sky above the island. Then they made a speedy departure via their god country transportation.

Although they were all from the same alliance, the internal struggles among the cliques formed within the alliance were quite serious. Some scattered races were sworn enemies of one another, so of course, they did not want to work together. As a result, the over 400 universe masters were split into six teams. And with around 70 universe masters in one team, the amount of power they wielded justified their arrogance.

In the primal secret region within human territory.

The nine-story tower stood erected amidst the void space, and in the distance, 11 palace true treasures were attacking in an unrestrained frenzy. They were causing widespread destruction by reducing everything within that void space to an uncountable flow of particles, which then rained onto Star Tower with a rumble.

Peng! Long! Long!

Hong!

Star Tower was bombarded. It might have been a little shaken, but it definitely was not sent flying off its spot. This shocked the united forces camp.

“So many of us universe masters! Together with 11 universe supreme masters, we are such a powerful combination of force, yet we are unable to cause Star Tower to budge from its spot? Could it be because the over 100 universe masters within Star Tower are all helping and doing their best to stabilize Star Tower?”

“Star Tower is controlled by Luo Feng. This Luo Feng was the one who received the inheritance of the pulse of Duan Dong River. With him around, any mysterious occurrence is possible. The Boat of Mausoleum is a treasure with willpower capable of exerting impact, and he took it away.”

The united forces camp was angry, yet they were also anxious. Very soon, the attacks came to a halt because they were all aware that the attacks were a complete waste of their godly powers. The humans were successful in their surprise attack previously because what they were attacking was a pinnacle palace true treasure. Where a pinnacle palace true treasure was concerned, it had close to negligible soul defense ability. But a supreme true treasure was different. If their opponent was hiding within Star Tower and Black Prison Tower, those were completely capable of blocking all kinds of material and soul attacks.

“It seems like we are going to fight a war of attrition.”

“When the Freedom Alliance arrives, the situation is going to be even more troublesome.”

“No matter what, we cannot give up on this war. There is no way we can watch the humans becoming stronger! At the very least, we have various groups of power joining forces this time. If we still let the humans off easily with this force of ours, we will become laughing stocks!”

Behind one of the side doors within Star Tower were Luo Feng, Primal Chaos City Leader, and Peng Gong Master.

“Bombard us away?” Luo Feng laughed. “Haha! That endless Remote Ocean is one of my other bodies. Even though I had transferred it into Star Tower where I can personally control it, getting it to budge an inch is a challenge to my limits... Now that the endless Remote Ocean is within Star Tower, how heavy is Star Tower now? I really have no idea. And they seek to bombard it away?”

“The united forces camp must be extremely angry,” Peng Gong Master commented while shaking his head. “I’m afraid up until now, they are still oblivious to the fact that every move they make, Teacher Origin is watching, and we will always be a step ahead.”

“Yes.” Luo Feng and Primal Chaos City Leader both nodded.

Even within the human race itself, prior to this, Luo Feng and the rest had also been unaware that Teacher Origin was able to see almost every situation happening to them in every inch of the primal universe—not to mention the other races within the primal universe.

“Let’s wait for the Freedom Universe to arrive,” Primal Chaos City Leader said. “Then things will get so much easier.”

If there was no Freedom Alliance, the united force camp could have bound the humans quite effortlessly, and they could have sustained such bondage for eternity! All that was required of them was to leave behind over 200 universe masters and a portion of their supreme masters as permanent residents. Then the humans would have been completely suppressed. The other universe masters could then take turns to enter Universe Ocean for adventures anytime they pleased.

Seizing all the human territories, then binding the entire human camp were ways to deprive the humans of any room for development.

Very soon—the other races within the human camp would break away because those other races had to think of their own people as well. Yet this would cause the humans to get weaker and weaker, and eventually, it would be hard for them to establish a firm foothold in the primal universe. They might even have to retreat back into their original universe.

“Luo Feng, how could you be so daring as to...?” Primal Chaos City Leader took one look at Luo Feng as he sighed inwardly.

That plan was much too dangerous. Of course, the humans were in no danger at all. The one in danger was Luo Feng—only Luo Feng.

“We cannot do that. With the Freedom Alliance joining us, we definitely have an edge over the united forces camp. Luo Feng doesn’t need to take such a risk... The united force camps will never be able to

realize their goal. It is their fate.” Primal Chaos City Leader was still waiting. He was still keeping in touch with Shi Hua Island Leader via the virtual universe, who had, in turn, informed him that the Freedom Alliance would make their way over without delay.

“Huh?”

From within Star Tower, Luo Feng, Peng Gong Master, and Primal Chaos City Leader looked out far into the distance and saw six massive objects making a sudden appearance.

“They have arrived!”

“They have arrived!”

Luo Feng instantly expressed his joy, while everyone else—from Primal Chaos City Leader to the numerous universe masters within Black Prison Tower—were all very excited.

Amidst the void space, 11 palace true treasures of the united forces camp were dangerously near. They had been conversing in secret because they knew that their opponent seemed aware of their plan of a sudden attack prior to their arrival and had managed to make a clean escape before they arrived. Thus, they had been unable to achieve their goal. As a result, they were forced to carry out a most insane war of attrition.

“They are coming.”

“The Freedom Alliance has arrived.”

They all saw the six massive palace true treasures appearing from afar, and those six palace true treasures exuded such a formidable oppressive force that it was obvious that the universe masters inside were doing it on purpose.

The Freedom Alliance’s six palace true treasures arrived in a mighty manner, unleashing such an endless, oppressive force that seemed to proclaim their status as the top group of power in the primal universe through the exhibition of such might.

“Humans, we have arrived.”

“We have arrived!”

This particular area in space might have been under the influence of those supreme masters who were forcing the virtual universe to remain open. All of them had avatars within their own race’s territory. Naturally, they were still able to connect to the virtual universe. This was how the six palace true treasures—apparently each with one representative from the six major factions—remained in touch with the humans.

“Freedom Alliance, what are you waiting for?” Primal Chaos City Leader responded. “Hurry over and help us humans. With both of us joining forces, we can definitely defeat our enemy, the united forces.”

“No hurry.”

“Primal Chaos City Leader, don’t get too anxious yet.”

“You humans must hand the information of the inheritance over to us first! As agreed, before the war, you must give us a portion of it. After the war, you will give us the remaining part. So, you all must first hand over part of the information of the inheritance... After we have seen, verified, and confirmed it, we will help you without reservation. Otherwise, we are in no position to attack anyone.”

“Yes.”

“Give us our share of the information on the inheritance first.”

The leaders of each of the six major factions were of one mind.

Chapter 1304: Lightwalker Master

On an individual plane surface of the virtual universe, within an elegant and quiet hall, there were four stone chairs on one side, and six stone chairs on the other.

The side with four stone chairs had Primal Chaos City Leader, Luo Feng, Darkness Master, and Peng Gong Master. While on the other side, the six representatives from Freedom Alliance were seated on the other six stone chairs. They were also the representatives from the six major factions.

“You cannot expect us, Freedom Alliance, to help you for nothing.” Shi Hua Island Leader was the final representative from the six major factions to speak up. “You must first give us a portion of the information of the inheritance. After we have seen and confirmed that you are not messing around with us, we will promise to join your human camp and help you deal with the united forces camp.”

“Dear all from Freedom Alliance, do not worry.” Primal Chaos City Leader nodded. “Now, I will be giving every one of you here a portion of information of the inheritance.”

“All right.”

“All right.”

From the Freedom Alliance, other than the six representatives who were seated inside the hall, over 400 universe masters waited outside. They could all hear the negotiation going on inside, and the moment they heard that they would be getting the information of the inheritance, everyone grew eager and excited.

“Now, let’s begin.” Primal Chaos City Leader laughed. “Everyone, please look and study this carefully.”

Thereafter, through the virtual universe system, a message was sent out to over 400 universe masters! It contained a large amount of information. The moment these 400-plus universe masters—who had been waiting eagerly while conversing with one another—received this message, everyone instantly quietened down to look through the information carefully. Even Shi Hua Island Master was so filled with curiosity that he had to take a look for himself. Although he was a universe supreme master, he had achieved his breakthrough in a most aimless manner; he had no systematic experience to speak off.

Luo Feng, Primal Chaos City Leader, Darkness Master, and Peng Gong Master locked eyes with one another and nodded. They were very confident. Especially Luo Feng! Because this was information on the inheritance he had prepared meticulously. To make it much simpler, many important key points were omitted. Yet no matter what, even after the simplification—and some slight adjustments made by Luo Feng—what the universe masters would get to see would definitely shock them. Because this information on the inheritance was so subversive, it would make this group of universe masters from the Freedom Alliance yearn for the next part of the information even more. Luo Feng was not worried that they would not want to help the humans in this war.

“There is a lot of information,” Luo Feng relayed via voice transmission. “Even if we are to go through the virtual universe to try to achieve the fastest rate of information transmission possible, and even if it was the speed of acceptance of a universe master, it would still take quite a while.”

“Then we just have to wait for a little while longer,” Primal Chaos City Leader said with a smile. “We are inside Star Tower now. There is nothing the united forces camp can do to us... Just wait for a while. Nothing will go wrong.”

“When the Freedom Alliance joins forces with our camp, things will be so much easier for us.” Peng Gong grinned so widely that his eyes curved into smiles, too.

“Yes.” Darkness Master also nodded.

The humans were all waiting.

Time passed.

A lofty, nine-story tower stood erected amidst the void space. Surrounding it were 11 massive palace true treasures of the united force camp and the six palace true treasures of Freedom Alliance.

Hu!

A streak of light dashed across space to arrive at the same place.

“Eh?”

Suddenly, all eyes—be they of the human camp, which was earnestly waiting for the Freedom Alliance’s final reply, or the united forces camp—fell upon this streak of light. Mightily and speedily, this streak of light, which was traveling at a speed that far exceeded the speed of light, dashed into this void space and quickly came to a halt. This was a bizarre true treasure that had eight legs and looked somewhat like the shape of an altar.

This bizarre true treasure was the remarkable Ancestral God Altar.

Ancestral God Altar was a treasure that the primal universe had bestowed upon the Ancestral God School. It might not have been a supreme true treasure and was, thus, nonaggressive, but in terms of its defensive ability alone, it was not inferior to any other supreme true treasure. Being a power that the primal universe was biased toward, the Ancestral God School had certainly received a wide variety of preferential treatment.

“Primal Chaos City Leader, we have arrived.”

“We have arrived.”

“Milky Way, we have arrived.”

“We are a tad slower, but upon receiving the message you transmitted, we gathered and made our way here right away. Now, we have arrived.

One after another, news was being transmitted through the virtual universe.

“Haha! Dear all from Ancestral God School, no one is late at all! The war has yet to truly begin... We are inside Star Tower now. Dear all from Ancestral God School, some of you should come into Star Tower, too. This will be better for our combined force.”

“All right.”

“No problem. Some universe masters of our Ancestral God School shall make their way into Star Tower now.”

Looking up into the void space, the Ancestral God Altar could be seen flying toward Star Tower without a moment's pause.

In an instant, the two closed up the distance between them. A side door of Star Tower opened while a side door from Ancestral God Altar did likewise. Soon, a black ship was seen flying out of Ancestral God Altar and into Star Tower.

Inside the tower...

“Primal Chaos City Leader, Milky Way Horde Leader, Darkness Master, Peng Gong Master, Long Yan Master...”

The handful of great beings from Ancestral God School that had joined the human camp inside Star Tower all seemed to be very passionate. So, naturally, the humans welcomed them with a passion that matched theirs. Both sides seemed amicable, however...

“This Ancestral God School is quite the sly one.” Peng Gong Master was smiling, but, in his heart, he was transmitting messages to Luo Feng, Primal Chaos City Leader, and a few others. “They have already gained the part of the information of the inheritance that we have given out. They promised to join our side quite some time ago. Previously, we sent out the news to both the Freedom Alliance and the Ancestral God School at the same time. Over 400 universe masters of the Freedom Alliance have arrived, but the Ancestral God School only sent a couple dozen universe masters. And furthermore, they arrived much later. Obviously, they are delaying time on purpose.”

“It's normal for them to delay time on purpose!” Luo Feng replied. “The Ancestral God School might be previously ranked as the top group of power, but regardless of whether or not it is newly established like the Freedom Alliance and the united forces camp, we from the human camp are now much stronger than them.” Luo Feng sneered in his transmitted message. “This is why they have to be a step slower! If it were our human race we were talking about, it would have collapsed upon being attacked—with no time to put up any resistance... Of course, the Ancestral God School would rather give up and not take

the risk. If we are able to block off the attacks at the beginning... they will stick to the original plan and join us.”

Primal Chaos City leader transmitted his message. “This is considered quite ideal. After all, they are on our side and certainly do not wish to be trampled upon—or even to be exterminated—when they are here. Getting them to transfer a portion of their universe masters into Star Tower... The Ancestral God School has agreed right away. This goes to show that they are still somewhat sincere about helping us.”

“Agreed? Humph! “Peng Gong Master was clearly displeased. “You should take a look at who they have sent over. Nine Remoteness Master, Falling Silkworm Master, Sky Beacon Master... Yes, all of them are, indeed, impressive. However, all of these are merely avatars! Those who have come into Star Tower are all avatars.”

There were only a handful of universe masters from the Ancestral God School who had avatars; the majority of them only had their original bodies.

“Entering Star Tower, their fates are in our hands and under our control,” said Primal Chaos City Leader, maintaining a cool composure. “They are expressing their sincerity in allowing a group of universe masters to come over to Star Tower. This is already quite a considerate move. You still expect them to send over the universe masters without multiple bodies? Impossible! These avatars do have godly bodies with strong godly powers, after all, and they carry true treasures with them. If there is no need, there is no way the Ancestral God School would be willing to give up all these.”

The Freedom Alliance and the Ancestral God School arrived in succession. The Ancestral God School joined the human camp right away, while over 400 universe masters from the Freedom Alliance were still occupied with the information of the inheritance.

Time went by.

“Why are they still not making any move?”

“Are we just going to wait here like that?”

“Don’t be so anxious.” An old voice was heard from amidst the other universe supreme masters.

“Previously, when the Freedom Alliance had just made its decision, we made a move right away. The Freedom Alliance would not have had time to receive the information of inheritance from the human race yet. This time around, they will want to see the information first before deciding whether or not they will join the human camp. I suppose they must be studying that information now... We must not be rash. The moment we bring forward our attacks, we will be provoking the Freedom Alliance. I’m afraid that making them angry will push them toward the human race!”

“Why? Could it be that Old Beast God still harbors hope of the Freedom Alliance joining our side?”

“Such slim hope! But if we make a move now, the Freedom Alliance will definitely help the humans. Then we are destined to fail in this war. On the contrary, if we postpone the attack... there may be a chance of a favorable turn of events. Let’s wait and see.”

Although the united forces camp was studying the situation carefully, no matter what, they came to realize that if the Freedom Alliance and the human camp really combined forces, the chances of the united forces camp winning this war were extremely slim.

The united forces camp was waiting. The humans were also waiting.

Amidst the void space, there was dead silence.

The united forces camp had 11 palace true treasures, the Freedom Alliance had six palace true treasures, the Ancestral God School had Ancestral God Altar, and the humans had Star Tower. The number of universe master gathered in this space was as many as 1,000, and the number of universe supreme masters had exceeded ten. This was as good as saying that out of all the top-tier combat powers in the primal universe, 90 percent were now gathered in this very place!

Every one of them had the power to crush and destroy a part of space and time with a flick of his finger! Every one of them could easily establish a strong and powerful race! And at that very moment, all of them were gathered in the same place. This war would surely affect the distribution of power within the primal universe for a period as long as hundreds of millions of eras.

“I’m done.”

“I’ve finished it.”

“I’m done looking through it, too.”

Six palace true treasures of the Freedom Alliance stayed close to one another, which brought about an upsurge of godly power. They were transmitting voice messages to one another via this upsurge—not through the virtual universe.

A voice, which sounded a bit cold, was transmitted. “Now, all the universe masters of my Freedom Alliance have seen the information of inheritance. Everyone, tell me how you feel... This information of inheritance. How do you feel about it?”

“It’s quite all right.”

“Not too bad.”

“It can be considered as slightly informative.”

“Very normal.”

“This is the information of inheritance from the pulse of Duan Dong River on how to become a universe supreme master? So brief and simple?”

“It is too brief.”

Various opinions were voiced. Over 400 universe masters were transmitting information to one another. The strange thing was, over 400 universe masters were transmitting voices to one another via their godly powers and exchanging information with one another—but none was communicating or exchanging information with Shi Hua Island Leader.

“Everyone, make your decision,” that cold voice continued. “To choose to join the human camp, or to choose to support me.”

“Lightwalker Master, do you even need to ask? Of course, I choose to support you!”

“I choose to support you too.”

“Haha! Everyone should already know the correct choice. Lightwalker Master, the role of alliance master of the Freedom Alliance should be yours to claim. Of course, you also have to fulfill your promise.”

“Lightwalker Master... if you fulfill your promise, of course, you will have all our support.”

“We will support you.”

Various voices spoke up, yet all these universe masters were of one mind; there was no exception to their decision to support Lightwalker Master.

“Fine. Then we shall follow the second plan that we originally devised!” Lightwalker Master transmitted his decision. “We shall continue to submit requests to the humans to demand more detailed and more plentiful information on the inheritance... If they are willing to provide information that prevails over the information I provided you all with, then we can continue to join the human camp. If they provide something that is inferior to what I provided, then the human camp is not worthy of our support.”

Chapter 1305: Perilous Situation

“Okay.”

“We’ll follow this plan.”

The universe masters from the Freedom Alliance all agreed to the plan. They had talked about it before, and this plan was based on the common interests of all the universe masters in the Freedom Alliance! Certainly, they wouldn’t object to it. After all, an alliance formed upon common interests was the most stable.

In a beautiful palace on an independent dimension of the virtual universe, Luo Feng, Primal Chaos City Leader, Darkness Master, and Peng Gong Master were looking at the six universe masters sitting opposite to them, waiting for an answer.

“The universe masters from our alliance,” said an eight-armed man who was wearing silver armor with a pair of silver horns. His eyes gleamed with golden light. “They’ll be represented by us.”

“Huh?” The four human representatives were shocked.

Shi Hua Island Leader, who was one of the six representatives, was dazed. He turned around and looked at the leaders from other divisions.

“That’s right.”

“Yes, Lightwalker Master will represent us.”

“Agreed.”

Shi Hua Island Leader was upset. His original body immediately transmitted his voice to ask the universe masters from his division. Actually, he noticed that the 400-some universe masters were transmitting their voices with each other using their godly power, as he could sense their blurry godly power. However, those universe masters didn't transmit their voices to him, and besides, transmitting voices using godly power was fast, so they reached a consensus in a few seconds.

Although he was confused, he didn't raise any more questions. Yet Lightwalker Master told the humans that he would be in charge.

“Brother Shi Hua, we all agree that Lightwalker Master will represent us.”

“Island Leader.”

“Don't blame us, Shi Hua. It has everything to do with our interests. We'll explain everything to you after the negotiation.”

Shi Hua Master was deeply upset after hearing what his universe masters said. However, he couldn't do anything about it. After all, those universe masters were the reason for his position in the Freedom Alliance, and they were closest to him. He couldn't be tyrannical to universe masters; instead, he had to treat them as brothers.

The four human universe masters looked at each other and noticed that the other five leaders, including Shi Hua Island Leader, didn't object. It seemed that the Freedom Alliance was indeed represented by Lightwalker Master.

“Lightwalker Master?” Primal Chaos City Leader smiled. “Please.”

“We've already read the inheritance information you gave us.” Lightwalker Master glanced with his golden eyes, and his voice sounded cold. “Unfortunately, we're not satisfied.”

“Huh?” Primal Chaos City Leader, Luo Feng, Darkness Master, and Peng Gong Master were all shocked.

Not satisfied?

Luo Feng frowned. This was the information he himself had summarized, and it was definitely tempting to all the powers from all three universe eras. How could they not be satisfied?

“What do you mean, Lightwalker Master?” Primal Chaos City Leader asked, frowning.

“The inheritance information you gave us is not worth the risk.” Lightwalker Master's golden eyes were cold. “If you want my alliance to help you, be more sincere. Give us more information, more comprehensive information.”

“More comprehensive?” The four human great beings gave made eye contact with each other and started to converse secretly.

Darkness Master transmitted his voice: “The Freedom Alliance is indeed greedy. They're certain that we need their help, so they are more demanding.”

“That’s right,” said Peng Gong, transmitting his voice. “There will be no end to their greed. If we give them more detailed inheritance information, they’ll think we have more, and they’ll keep asking for more.”

“Luo Feng,” said Primal Chaos City Leader transmitted his voice. “Do you think we’ve given them enough information?”

“Yes,” said Luo Feng.

“Even if we give them more, they’ll ask us for more,” said Darkness, and Peng Gong agreed as well.

The humans looked at the six leaders from Freedom Alliance. Primal Chaos City Leader said, “This is the most detailed information we humans can give to you. If you want more detailed information, sorry. We don’t have that. If your alliance wants to help us, we’ll give you the other half of the inheritance after the war.”

Lightwalker Master frowned. “Are you sure you don’t have more?”

“No more.” Primal Chaos City Leader shook his head.

Luo Feng looked at them, frowning. It was indeed disappointing that the Freedom Alliance would try to exploit them at such a crucial moment.

“If that’s the case!” Lightwalker Master turned his head and looked at the other leaders, who nodded.

Hu!

Lightwalker Master stood up, followed by the other four leaders and Shi Hua Island Leader.

“The information you gave us is too simple for us to risk it for you. Sorry!” Lightwalker Master stood up and said coldly, “Let’s go.”

Hua! Hua! Hua!

They all disappeared and left the virtual universe, including the other universe masters from the Freedom Alliance outside the palace, who had also been listening to the negotiation.

“Don’t they want the remaining part of the inheritance?” Peng Gong Master stood up abruptly and looked confused.

“Why?” Darkness Master found it hard to believe.

Luo Feng and Primal Chaos City Leader stood up as well.

“Something happened.” Primal Chaos City Leader frowned. “Why would they just leave like this? After all, they’ve only got the former part of the information, and some of the most important points are in the latter part. Don’t they want to be universe supreme masters? Why did they just give up like that?”

Darkness Master looked at Shi Hua Island Leader. “What happened, Shi Hua?”

“Shi Hua, this isn’t what we talked about,” Luo Feng added.

Shi Hua Island Leader was the only one left in the palace, and he didn't look well. He said, "Just wait for a moment. I'll tell you what happened later."

In the supreme true treasure palace belonging to Shi Hua Island Leader. Shi Hua Island Leader looked at the universe masters present. They were all universe masters he was close to, and they were the reason he had the right to be in the Freedom Alliance.

"What happened, everyone?"

"Shi Hua," a giant, green rock being. "We're indeed friends, but all of us want to be powerful. When we become more powerful, we'll have a higher status in the original universe, especially if we can become universe supreme masters and have our own miniature universes. Our races will have a place to live. Don't blame us."

"What exactly happened?" yelled Shi Hua Island Leader.

"This is what happened," said a seaweed-like plant life form. His voice echoed in the surrounding space. "Both humans and the united forces alliance tried to draw us to their sides... As soon as there was a dispute among the universe masters in our alliance, Jue Hua True God from Purple Moon Holy Land contacted Lightwalker Master. Purple Moon Ancestor is willing to provide us with inheritance information from the ancient civilization on how to become universe supreme masters from universe masters... They'll provide detailed information to us, and they said if the information the humans gave us was better, we could still help the humans. Otherwise, they require us to join the united forces alliance and attack the humans—especially that Luo Feng."

"That's what happened."

"Lightwalker Master is the middleman between Purple Moon Holy land and us! He contacted us one by one and gave us the inheritance information. We've already got most of the inheritance information, and it's ten times more detailed than the information the humans gave us. What the humans gave us is nothing compared to that."

"Tell us, Shi Hua, what should we do?"

"Tell us!"

They all looked at Shi Hua Island Leader.

Shi Hua Island Master squeezed a smile out of his face—a helpless smile. "I can't blame anyone," he said.

Shi Hua Island Leader sighed. He had planned to get the inheritance information on how to reach the limit of a universe supreme master for himself, but he hadn't expected Purple Moon Holy Land to meddle.

Speaking of being mysterious... The Eastern Emperor Holy Land and Purple Moon Holy Land were, indeed, mysterious, and nobody knew what kind of ancient inheritance they had received. It was natural for them to give out some of the inheritance.

“We want survival and power more than anything.”

“The inheritance information given by Purple Moon Holy Land is wonderful.”

“Plus, Purple Moon Holy Land won’t fight for territories against us in the future, yet if the humans become stronger, it will be a threat to us.”

“Besides, we’ll be at an advantage if we join the united forces alliance.”

“No matter what—the present, the future, and the benefits we receive—we made the right choice. I think you can understand, Shi Hua.”

All the universe masters looked at Shi Hua Island Leader.

Shi Hua Island Leader sighed. “Did Purple Moon Holy Land mention me?”

“We mentioned you before,” said the plant life form. “However, Purple Moon Holy Land didn’t want to give the inheritance information on how to become limit universe supreme masters, so we didn’t tell you that in case something happened.”

Shi Hua Island Leader forced another smile. “It seems you already knew about it.”

“This was one of our plans,” answered the plant life form.

“For what it’s worth, our plan is for the common interests of all the universe masters in the Freedom Alliance.”

In the palace of the virtual universe, Luo Feng, Peng Gong Master, Darkness Master, and Primal Chaos City Leader were still baffled.

“If they still want the inheritance information, they won’t give up,” said Primal Chaos City Leader. “The Freedom Alliance was formed not only to tackle this difficult situation but also to gain enough power to reap benefits. Don’t they want to become universe supreme masters? Don’t they want to get inheritance information?”

“That’s right.”

Luo Feng and the other three were waiting; Shi Hua Island Leader sat there with his eyes closed for a long time before he opened them again.

Luo Feng and the other three were shocked. They were powerful enough to infer something from the expression on Shi Hua Island Leader’s face. He looked helpless now.

“The Freedom Alliance decided to join the united forces alliance.”

Shi Hua Island shocked them all with his first sentence. Luo Feng and the other four looked forlorn, as they knew things would now become difficult for them.

“Impossible!” yelled Luo Feng. “It’s impossible that they gave up inheritance information.”

“What if they already have information that is ten times more detailed?” Shi Hua Island Leader looked at Luo Feng.

“What?”

Luo Feng was dazed. Ten times?

In Universe Ocean, the first universe era, the second universe era, and the original universe era, none of the powers could get such detailed information except the humans. Perhaps only the two holy lands had it; there was the possibility that the holy lands had meddled in the situation. However, the two holy lands were outside the power struggle, and they didn't have any conflicts with humans. Why would they even meddle?

“It's Purple Moon Holy Land.” Shi Hua Island Leader sighed. “Purple Moon Holy Land gave the Freedom Alliance information in exchange for dealing with the humans. Especially you, Luo Feng.”

“Me?” Luo Feng opened his eyes wide while Primal Chaos City Leader, Darkness Master, and Peng Gong Master looked at Luo Feng.

“Purple Moon Holy Land?” Luo Feng found it hard to believe.

Chapter 1306: Bloodbath! Luo Feng's Insanity! (Part 1)

Thoughts flooded Luo Feng's mind, and he couldn't think straight.

Purple Moon Holy Land? He hadn't been in Universe Ocean for a long time, and the only enemy he had made was the Divine Eye clan, yet the two holy lands weren't his enemies. They must have had some unpleasant encounters with Eastern Emperor Holy Land! However, Purple Moon Holy Land fought for the inheritance just like all the other powers in Universe Ocean, but they didn't try their best. Eastern Emperor occupied the most important and the most central area, trying to take Boat of Mausoleum by force. On the other hand, powers like Purple Moon Holy Land all waited outside, and they didn't contact Luo Feng during the fight. Neither did they try to make a deal with him.

“They didn't try to negotiate with me, and it's been outside the power struggle all the time. Why did they...?” Luo Feng immediately held grudges against Purple Moon Holy Land.

How could he not? The humans had been in a wonderful situation before, yet with Purple Moon Holy Land meddling, it was in danger now.

I have several bodies, Boat of Mausoleum, and Star Tower, thought Luo Feng. That Purple Moon Ancestor should understand that no matter how horrifying the battle is, I'll survive. If he wants to force me to give out the inheritance, it'll be impossible. Why is he against me and humans? Besides, if he really wants the inheritance, he should at least try to negotiate with me.

Luo Feng was speculating. Purple Moon Holy Land... They didn't seem to care much about the inheritance from Duan Dong River, especially Purple Moon Ancestor. He didn't seem to desire the Duan Dong River inheritance very much. Why was he against Luo Feng and the humans?

It was baffling, and Luo Feng felt that Purple Moon Ancestor must have some other purpose.

What does this Purple Moon Ancestor want? He's willing to give the inheritance information from ancient civilization to the Freedom Alliance for them to gang up on me and the humans?

Luo Feng sensed that there must be many factors unknown to him.

Inside the palace, after Shi Hua Island Leader finished talking, he said, "I failed you this time. However, since I obtained some information from you, I won't do anything during this battle." He left after he finished speaking.

Luo Feng, Darkness Master, Primal Chaos City Leader, and Peng Gong watched him leave without stopping him. They understood that if they gave Shi Hua Island Leader the information on how to become limit universe supreme masters, he might actually help the humans. However, one universe supreme master couldn't change anything. Otherwise, they would have used that to draw supreme masters to their side a long time ago.

"Prepare for the war," said Primal Chaos City Leader.

"Okay."

Luo Feng, Peng Gong Master, and Darkness Master nodded with solemn faces.

Inside the palace of the Freedom Alliance, controlled by Shi Hua Island Leader.

"Shi Hua, we wronged you this time. We hope you understand."

"Brother Shi Hua, Lightwalker Master brought each of the universe masters lots of benefits, which is why we followed him this time. Once the war is over and we get the inheritance, Lightwalker won't have any power to command us anymore. The alliance leader of the Freedom Alliance is you."

"That's right. We support you, Shi Hua."

The universe masters on the division of Shi Hu Island Leader kept consoling him, as they knew he was deeply upset.

"All right, I understand your reasoning. You didn't do the wrong thing." Shi Hua Island Leader looked around, and he saw the exit of the palace. He couldn't help sighing. Although these universe masters were in his division, they weren't his slaves, which was why they all stayed at the exit to prevent him from going to the humans and turning them over to the humans.

They were all at the exit. Once they all utilized their power—and with lots of them having multiple bodies—they could rival eight or nine universe supreme masters and burst out of the palace.

Shi Hua Island Leader transmitted his voice. "Prepare for the battle."

Even though his plan had failed, he didn't want to antagonize them. After all, there were many divisions in the Freedom Alliance, and no powers were willing to bow to another. Nobody could control everyone. He was leading a division and was the only universe supreme master, so other powers were convinced of his reputation.

Besides, the other universe masters followed Lightwalker Master because he had the inheritance information given by Purple Moon Ancestor. Once they had the inheritance information, they wouldn't follow Lightwalker Master anymore. After all, many universe masters were actually foes of Lightwalker Master.

"Hahaha!" Prison Race Devil Ancestor guffawed. "I can't believe the humans are so stupid that they even wrong you, Freedom Alliance. Once your alliance cooperates with us, we'll have more than 800 universe masters and more than ten universe supreme masters, accounting for almost 80 percent of the top powers in the original universe. Those humans are not our match. They'll definitely lose!"

"That's right, they'll lose."

"They're nobody. If we attack them all at once, they'll be crushed, and lots of universe masters will die."

The united forces alliance and the Freedom Alliance got close to each other and transmitted their voices using their godly power. They were all cheerful and confident, of course. More than 800 universe masters and more than 10 universe supreme masters! Nobody could resist such a power in the original universe.

"Those cowards from the human race. They hide in Star Tower, and we can't hurt them."

"Encircle them!"

"Encircle Star Tower!"

"That's right, encircle! Encircle Star Tower completely! Once they exit Star Tower, we'll attack them! They won't be able to resist our attacks!"

"Unless they hide in Star Tower forever."

"If they want to hide in Star Tower forever, we'll encircle and suppress them forever. We only need one-third of the universe masters and universe supreme masters to guard this place. Then they won't have any power to fight back, and we can take this chance to rob the human territory."

"Without their territory and trapped forever! Unless they go back to the primal universe... However, without the resources from the original universe, the humans won't have a future, so they'll be a threat no more."

In the towering nine-story Star Tower, the true treasure palaces from the united forces alliance and the Freedom Alliance floated and started to move. They surrounded Star Tower like a giant oval with Star Tower at the center, enveloping it entirely.

"More than 800 universe masters and more than ten universe supreme masters!"

The universe masters and the three ancestral gods from the Ancestral God School were all terrified.

"Such terrific power."

“The humans don’t even stand a chance!” They were all panicking.

“Don’t panic!” the old Ancestral God growled. “Even though we of the Ancestral God School want to help the humans, we’ll be attacked by the hundreds of universe masters if we appear from Ancestral God Altar. Many of us will die. We must stay in Ancestral God Altar and defend ourselves. As long as we stay in Ancestral God Altar, all the material attacks can be neutralized. With the three of us combined, along with the help of the mind of the original universe, any soul attacks can be defended by our blurry godly power.”

“That’s right. We don’t need to worry about our safety, but we can’t help the humans. I think the humans will understand why we do this.”

The three ancestral gods and the universe masters made up their minds immediately. They all hid in Ancestral God Altar and didn’t appear! Saving their lives was their top priority. After all, it was an alliance of more than 800 universe masters and more than 10 universe supreme masters. Who dared to resist that?

Everyone in Star Tower was worried. The 100-plus universe masters staying in Star Tower could see those true treasure palaces surrounding them clearly, as their view outside was unobstructed.

“Surrender, humans!”

“Give us the inheritance from the ancient civilization!”

“The inheritance to evolve from universe masters to limit universe supreme masters—give it all to us! Once we confirm it, we’ll retreat. Otherwise, you humans won’t be able to thrive in the original universe anymore! The human territory won’t belong to you anymore!”

“Give us the inheritance!”

“Give us the inheritance!”

The voices spread into Star Tower.

The 100-plus universe masters in Star Tower, especially universe masters of other races, all panicked. Primal Chaos City Leader, Luo Feng, Darkness Master, Peng Gong Master, Long Yan Master, Huang Jian Master... All the universe masters looked around and realized that even if they gave a strict order, those universe masters of other races wouldn’t make attacks at the exit. After all, they wouldn’t be willing to die.

“They seek to force us to give out the inheritance?” Primal Chaos City Leader looked cold.

“Only in their dreams.” Luo Feng stared outside as well.

These races all regarded the humans as a huge threat, but once the humans gave out the inheritance, the bug race, the demon race, the automaton race, and the others would grow more powerful as well, which meant the humans wouldn’t be a threat to them in the future—even if they were stronger. The other races had two choices. One, they could receive the inheritance and retreat. Or two, they could

knock the humans out of the original universe. Both choices were acceptable to the united forces alliance.

“Luo Feng!” Primal Chaos City Leader looked at Luo Feng.

“Luo Feng!” Darkness Master looked to Luo Feng as well.

“Milky Way!” added Peng Gong.

All the human universe masters looked to Luo Feng. They already knew the plan, and they also understood how strong it was. However, under the current circumstances, only Luo Feng’s plan was likely to work.

This plan involved a gamble that would risk Luo Feng’s life.

Luo Feng’s eyes glinted coldly. “Leave it to me.”

“Be careful,” Primal Chaos City Leader said, concerned.

“Don’t worry.” Luo Feng looked at all the towering true treasure palaces outside. “They want to kill me?”

Though he sounded relaxed, it was an alliance of more than 800 universe masters and more than 10 universe supreme masters.

“Larger, larger, larger!”

Luo Feng’s power immediately surged. At the same time, the towering Star Tower became larger. 100 billion kilometers tall, a trillion kilometers tall... It kept expanding and growing, and it collided with all the true treasure palaces.

Chapter 1307: Bloodbath! Luo Feng’s Insanity! (Part 2)

17 palace true treasures from both the Freedom Alliance and the united forces alliance surrounded Star Tower that stood erected in the dark and quiet void space. They remained at a distance of around 100 billion kilometers from Star Tower... and Star Tower was originally at a height of 100 billion kilometers and a width of ten billion kilometers. That meant that it was completely encircled by the 17 palaces and forced to be nailed to its current spot.

“Hand over the inheritance!”

“Hand over the inheritance!”

The morale of the united forces was high and mighty, and they were filled with absolute confidence that they were in an extremely advantageous position.

“Big, bigger, bigger!” Star Tower suddenly expanded and shot from a height of 100 billion kilometers to a height of a trillion kilometers. Within a fleeting moment, the base diameter of Star Tower also soared from ten billion kilometers to 100 billion kilometers. The massive size brought Star Tower crashing into the 17 palace true treasures stationed all around it.

“The humans are escaping!”

“Be careful. Star Tower suddenly expanded. The humans might be thinking of ways to escape!”

“Stay alert, everyone. Northern Territory, we are going to rely on your ability to keep them captive.”

“They won’t be able to escape.”

Countless star points suddenly appeared out of thin air within the surroundings of the void space, and all of them seemed to be connected by faint rays of light. At that moment, an area encompassing several light years was completely enshrouded by these countless star points. This was the supreme true treasure “Xi Qu Starlight River,” a domain type supreme true treasure owned by Northern Territory Alliance Master.

Luo Feng stood inside Star Tower and observed how the united forces alliance was not bothered at all when the base of the massive Star Tower crashed into them. Apparently, they were worried about any unexpected moves by the humans who had just taken a befuddling course of action. They must have been worried enough for Northern Territory Alliance Master to resort to using his domain type supreme true treasure Xi Qu Starlight River.

“Escape?” Luo Feng stared outside and sneered. “You all should be the ones wanting to escape. What a pity. There is no escape for you all, even if you try. Endless Remote Ocean... Attack!”

Even before Luo Feng manipulated the expansion of Star Tower, he had already begun manipulating his endless Remote Ocean, preparing those boundless waters behind every side door of Star Tower’s base story. The moment Star Tower expanded, with a single intention in mind, the mighty ocean waters of his endless Remote Ocean would surge out of Star Tower in a frenzied, insane onslaught!

All around the bottom story of Star Tower, there was a total of nine side doors. This base was the entrance to the deep abyss of Star Tower. Everything that was sucked and absorbed into Star Tower would enter through this main entrance.

“Be careful. The humans may escape. Stay vigilant, keep watch over every single corner. Do not let the humans escape.”

The united forces camp was worried that the humans might escape. Suddenly, from all nine side doors at the base story of the towering Star Tower...

Hong! Long! Long!

At that moment, Star Tower was at a towering height that exceeded a trillion kilometers, and the height of every side door was at a few tens of billions of kilometers.

Shortly after, the ocean water started gushing out of the nine side doors wildly. The palace true treasures that were mere inches away from Star Tower—which had already suffered a collision with Star Tower earlier on—were instantly drowned by that insane outburst of ocean water.

Hong! Long! Long!

When the godly body of a universe master expanded, it could reach a height of one million kilometers or even ten million kilometers in an instant. When a true treasure expanded, its size could reach ten billion kilometers or even 100 billion kilometers in an instant... and the rate of all these expansions was not restricted to any limits such as so-called “light speed.”

Remote Ocean was, itself, a godly body. And it was one of Luo Feng’s four main godly bodies. The new, endless Remote Ocean body was merely an avatar created by making use of the talent of his Remote Ocean. The highest peak that this avatar could attain was only up to 1,000 times life gene level, but the true endless remote could attain the perfect gene level of a universe master.

The ocean waters surged out, expanded in fleeting moments—especially the deep abyss at the bottom of Star Tower, where a tremendous amount of ocean water rushed out all at once.

“Big, bigger, bigger!” Luo Feng was trying his best to control it with his consciousness. At that moment, he was urging the Remote Ocean to expand.

In an instant, Remote Ocean reached a maximum diameter of 300 billion kilometers with a terrifying depth of 30 billion kilometers. Of course, the actual volume of the Remote Ocean at its current level must have actually been 80 billion kilometers, but at that moment, it grew to an extremely massive diameter of 300 billion kilometers. Its godly body had purposefully expanded to a great volume.

In only an instant, Star Tower expanded to a height of one trillion kilometers and collided into the 17 palace true treasures. Thereafter, the endless Remote Ocean suddenly expanded and spread out, thus allowing its godly body to expand a little more. Since it was large to begin with, growing larger—around ten times its current size—was effortless.

“What is happening? Why is there ocean water all over the place?”

“What has happened?”

“What—what is happening? This... Is this a domain type true treasure?”

The united forces camp was not worried at the moment. They had the ultimate advantage of being a group with strong capability; thus, they were quite confident. Yet the sudden appearance of ocean waters confused them. Was this endless ocean a domain? But Northern Territory Alliance Master had just executed “Xi Qu Starlight River.” Theoretically speaking, other domains would not be able to appear.

“It’s not a domain! It’s a godly power!” Northern Territory Alliance Master replied via voice transmission. “That endless ocean and my Xi Qu Starlight River do not go against one another, so it is not a domain. Besides, I can sense an extremely strong godly power... this endless ocean water should be an endless godly power! It must be something like Nine Remoteness Master’s Nine Remoteness Ocean! The entire ocean has a maximum diameter of 300 billion kilometers. Its smallest diameter is 30 billion kilometers.”

“Godly power? Yes, being a little more thorough now, I can feel it too. It is definitely a godly power. Every drop of ocean water is a drop of godly power. Such an endless and massive godly body... Only someone like the Ancestral God School’s Nine Remoteness Master could possibly own one.”

“Nine Remoteness Ocean?”

“No, this is not the Nine Remoteness Ocean. I know the aura of Nine Remoteness Ocean very well, and I have met with Nine Remoteness Master on several occasions. The aura that this godly power exudes does not belong to this.”

“This... This is Luo Feng’s aura!”

“Shock Horn, what did you say?”

“It’s Luo Feng’s aura, there is no mistaking this. I have fought him before. I exchanged blows with him. This is the aura of his godly power!”

“Milky Way Luo Feng’s godly body?”

“Luo Feng also has a godly body like the Nine Remoteness Ocean?”

The sudden news dealt a shock to over 800 universe masters and over 10 universe supreme masters. Nine Remoteness Ocean was very well known in the primal universe, and Nine Remoteness Master was known to be its sole master. He owned all of it—no one other than him. And Nine Remoteness Ocean was said to be a godly body that was a supreme true treasure; no one could do harm to it. The amount of godly power that its massive godly body swallowed every passing moment far exceeded the godly power absorbed by the entire godly body of any other universe master... Who wouldn’t be jealous?

However, the restrictions that such a massive godly body would face were apparent, too. Moving about was extremely challenging! Nine Remoteness Master had relied on his talent technique to create his avatar, and this avatar was only one-tenth of his godly power gene level. The volume of his godly body was not out of the ordinary. This caused Nine Remoteness Master to lose out to Primal Chaos City Leader, Star River Master, and some other existences in terms of capability.

“Luo Feng’s maximum combat power is only at sixth-tier as the top level! How can he possess such a massive godly body?”

“That’s right. Previously, Luo Feng revealed that he had a golden horned beast body and an earthling body, which both had combat power at sixth-tier as the top level. With such powerful bodies... how is it possible for him to own another godly body similar to Nine Remoteness Ocean?”

“The universe is vast, but such an out-of-this-world occurrence is simply impossible.”

“Besides, the gene level of Nine Remoteness Ocean is extremely high. Golden Horned Beast is just another body created from a talent technique. It would be impossible for it to breed such a formidable body.”

While the united forces alliance was still in shock after learning that this vast ocean was another of Luo Feng's bodies, some universe masters of the other races who had joined the human camp were equally taken aback.

"Hesitate no more," Primal Chaos City Leader ordered via voice transmission. "All universe masters will start attacking with concerted efforts."

"Attack? Primal Chaos City Leader, if the united forces alliance retaliates, there is no way we can put up any resistance."

"True, Primal Chaos City Leader..."

Obviously, none of the other races were willing to sacrifice themselves.

Primal Chaos City Leader's gaze swept the surroundings. Ever so coldly, he said, "Fret not. All their palace true treasures are within Remote Ocean... and Remote Ocean is where endless godly powers bind together. Their attacks will be blocked and consumed by the godly power of Remote Ocean! This is why they will never be able to successfully attack any of you. Meanwhile, on the other hand, you all can attack to your hearts' content. Not only will Remote Ocean not put up any resistance, but it will, on the contrary, join you all in attacking your opponents."

"Ah!"

"What the humans mean to say is..."

Universe masters from the other races, as well as the group of great beings from the Ancestral God School—who were in Ancestral God Altar, which was parked beside Star Tower—also received the same voice transmission. They were all shocked out of their wits. They understood the human's intentions. They actually intended to allow Luo Feng to depend on this Remote Ocean to block all the attacks coming from the entire united forces camp.

Insane! It was beyond insane. Did the humans think they could simply rely on a ridiculously massive godly body to ward off the combined attacks of over 800 universe masters and over 10 universe supreme masters?

"Too dangerous."

"This... This is too dangerous."

"Luo Feng is as good as courting his doom."

The other races found it hard to believe, as this was no different than Luo Feng sending himself to the face of his enemy! Perhaps if this endless Remote Ocean was pitted against a single opponent, or pitted against ten opponents, it could proudly stick its nose up at its opponents, and still, no one in the entire primal universe would be able to do anything to it. But this time around, it faced a combination of over 800 universe masters.

Instantly, over 100 universe masters from different races looked toward Luo Feng in his silver armor and silver wings.

"Everyone," Luo Feng ordered in a low voice, "let's not waste time. We shall attack the nearest target!"

Having said his piece, Luo Feng pointed to the nearest palace true treasure, which was in an environment enveloped by endless ocean water. Whirlpools were starting to appear in the surroundings. These whirlpools parted to give way to a passageway that led deep within the palace true treasure, where Dream Demon Ancestor of the demons and the troop he led were stationed. There was a total of around 40 universe masters inside this palace true treasure.

On the human's side, adding on the Ancestral God School, they had a force of around 200 universe masters! Luo Feng, Primal Chaos City Leader, Darkness Master, Peng Gong Master, and the three great ancestral gods, in particular, were all capable of unleashing extremely strong combat powers.

All the humans were brought together to join forces and attack that palace true treasure. Naturally, they were in an advantageous position!

The moment the humans made the slightest move, the united force camp would know their intentions.

Northern Territory Alliance Master's aged voice resounded. "The humans are simply insane. They actually think that they can rely on a single Remote Ocean godly body to stop us all, then concentrate all their combat power to deal with one palace true treasure! They think they can use this method to attack and destroy the palace true treasures one by one! So crazy! Too confident! What arrogance. They think that merely one ocean with godly power is able to resist over 800 universe masters and more than ten universe supreme masters? All universe masters, all supreme masters—execute your soul attacks altogether, all of you! Direct them all around that ocean with godly powers. Altogether, as one team, execute your soul attacks!"

The united force camp grew wild with emotion and excitement.

"So many universe masters, so many universe supreme masters... With all their soul attacks accumulated, I don't suppose Luo Feng will be able to block off every single attack all by himself? I am going to bring this extraordinary talent to meet his doom. I am going to annihilate him right now!"

"Luo Feng, annihilate."

"Luo Feng, annihilate!"

"Attack!" Northern Territory Alliance Master commanded via voice transmission.

Chapter 1308: Bloodbath! Luo Feng's Insanity! (Part 3)

Dream Demon Ancestor, Shock Demon Ancestor, and Father God from the automaton race... Those from the united force were all elevated.

They were all looking forward to the end, and they all thought that it was impossible to kill Luo Feng. After all, as powerful it was as Luo Feng, as long as he didn't look for his own death, nobody was able to kill him as he had Star Tower and Boat of Mausoleum.

However, Luo Feng seemed to be suicidal now! How could they let such a great chance go?

More than 800 universe masters and more than 10 universe supreme masters! Some of the universe masters even had multiple bodies, so there were around 900 godly bodies of universe masters! And with the universe supreme masters numbering in the teens, all the blurry godly power made an attack at once. It amounted to the combination of 1,000 godly bodies of universe masters. What level of power was it?

Universe masters were ranked from level one to level six. As for universe supreme masters, they could only use the godly power of universe masters with life gene levels of 10,000 times even in Universe Ocean, as they were suppressed by the mind of the original universe. Therefore, ordinary universe supreme masters could only wield power at level seven, and those lucky enough to get supreme true treasures could reach level eight, like Father God from the automaton race!

Huge Axe Creator—before getting the supreme true treasure—had been at level eight! After acquiring the supreme true treasure, he had been able to wield more power with the engravings on the supreme true treasure, at which point he had reached level nine!

At level seven were the mediocre universe supreme masters. Level eight was the ordinary level. Level nine: Both Huge Axe Creator and the first true master from the Divine Eye clan were at this level. Level ten was Teacher Origin's level!

Teacher Origin had roamed Universe Ocean in the past, and nobody had been his match, which was why he was at level ten! This was the definitive limit of a universe supreme master. In the three universe eras, nobody except Teacher Origin had reached that level.

Although no individuals couldn't reach this level, numbers could help. And at this moment, more than 800 universe masters and more than 10 universe supreme masters were making attacks at once, which was as powerful as 1,000 godly bodies of universe masters. How terrific that was!

An average universe master was at level four. More than ten universe masters could reach top-tier level six. The combination of 100 universe masters could reach level eight! And the combination of 1,000 universe masters exceeded level nine, nearly reaching level ten!

"The combination of 1,000 godly bodies of universe masters should reach level ten. Luo Feng, you'll die trying to resist it all by yourself."

"You're dead."

"Even the most powerful universe supreme masters in Universe Ocean can only wield power at level nine. Now, almost 80 percent of the top-tier power in the original universe has been combined... 80 percent of a universe era, and it reached level ten already. Even if you have a supreme true treasure to guard your soul, your godly power is inferior to a universe supreme master. You're dead!"

"Die!"

"Die, Luo Feng!"

"Die."

The united forces alliance looked forward to seeing Luo Feng die. All 17 true treasure palaces made attacks at the same time.

“Blurry Godly power!”

“Attack!”

The leaders in the palaces gave orders one by one.

The old beast god, Space Beast Ancestor from the Space Beast Alliance, sighed. He was at least an acquaintance to Luo Feng. However, the current situation had to do with his fundamental interests. As for Sitting Mountain Guest? He couldn't change anything, as it was an action taken by the entire alliance.

Space Beast Ancestor gave the order. “Attack.”

The universe masters under him started to make attacks, including Golden Horn Master.

It was silent.

All the universe masters from the human team were watching closely. Many were even staring at Luo Feng. They wanted to see how Luo Feng would come to an end! The peerless genius from the human race... Would he become stronger in the future and reach the level of Teacher Origin or even transcend incarnations?

Or would he die?

The universe masters present—even the three ancestral gods with the mind of the original universe—couldn't guarantee that they could resist the soul attacks from more than 800 universe masters and 10 universe supreme masters! Like Primal Chaos City Leader and Darkness Master, they were certain that they would die if they tried it!

Primal Chaos City Leader stared at Luo Feng. “Luo Feng...” he said.

He had been worried before. However, Luo Feng was confident. Besides, Luo Feng had handled the soul attack from more than 100 universe masters of other races.

But that was only around 100 universe masters. It was way more powerful this time!

Luo Feng was confident that he could resist it. Primal Chaos City Leader didn't want the humans to be forced back to the original universe, so he agreed to it.

“Luo Feng.”

Darkness Master, Peng Gong Master, Ice Mountain Master, Void Gold Master, and Long Yan Master all gazed at Luo Feng.

The fate of humanity depended on this! Would the humans be forced to leave the original universe? Would the human territory be occupied and all the life forms within it be slaughtered? Or could they still prosper in the original universe? This was the moment!

“Attack!”

“Attack!”

“Kill Luo Feng!”

“Die, Luo Feng.”

All 17 true treasure palaces performed blurry godly power attacks. The ocean water was everywhere, covering all the palace true treasures, so the great beings only needed to attack the water! When the universe masters and universe supreme masters attacked Remote Ocean, they were effectively attacking the soul!

Hong!

The attack was silent, but blurry godly power at this level was too strong, so even the space around the godly power was turned into particles. As for those from the human team staying in Star Tower, they all felt the space tremble.

“Luo Feng!”

“Luo Feng!”

They all looked to Luo Feng.

Primal Chaos City Leader’s eyes turned red, and his godly body trembled. He was worried about the fate of humans and Luo Feng. Was Luo Feng still alive?

Luo Feng, clad in silver wings and silver boots, had his four wings open. He stood still, as if frozen in place.

“Luo Feng? Luo Feng...?”

The human universe masters all stared at Luo Feng, holding their collective breath.

All of a sudden, Luo Feng—standing still as a sculpture—turned his head and smiled at Primal Chaos City Leader, Darkness Master, Long Yan Master, and the other universe masters... He smirked. He showed his white teeth, and he had a bright smile.

The brightness of his smile inspired the human universe masters. They all felt that the future looked more promising.

“Luo Feng!”

“Luo Feng. Hahaha...!”

The human universe masters rushed forward. They were all excited, and some of them even had tears in their eyes. They were all exhilarated. Even Primal Chaos City Leader had tears in his eyes. Universe masters of other races on the human team were also thrilled. They were not as elated as the humans, but they were still amazed by how strong Luo Feng was.

It became cheerful in Star Tower. The human universe masters were all joyous. It was a moment that determined humanity’s fate!

If Luo Feng hadn't been able to resist it, he would have died, which would have meant humans that the humans would need to retreat back to the primal universe. Then, under the suppression of the powers in the original universe and Universe Ocean, the humans would never be able to prosper. In addition, the ordinary humans in the human territory would have been slaughtered.

But if Luo Feng could resist it, it would be a disaster for the united forces alliance! It meant the united forces couldn't even touch Luo Feng.

"That Luo Feng resisted it?"

The three ancestral gods and universe masters in Ancestral God Altar were also thrilled. They were all top beings, so they knew precisely what that meant.

That had been an attack from almost 80 percent of the power in the original universe! Yet Luo Feng was able to resist it.

"The united forces alliance is in big trouble!" Double-Face Ancestral God said with a grin. "The humans will definitely win! Let's see how badly the united forces alliance will lose!"

"We can make attacks now. Their attacks will be blocked by the endless waters. We can defeat them one by one. Haha..."

"We'll definitely win."

Ancestral God School chose to stay in the altar before, yet they changed their plan immediately.

The united forces alliance was dead silent.

All its universe masters and universe supreme masters were dazed. They had been confident that the blurry godly power could kill any universe masters, even if they had a supreme true treasure to guard their soul. They carefully sensed the water around them as they desperately desired to feel its binding power receding. However, the water was still powerful, suppressing all the true treasure palaces. And the godly power was still burning and forceful, which meant Luo Feng was still alive!

"He's still alive?" Shock Demon Ancestor, in a true treasure palace, found it hard to believe. "How can Luo Feng still be alive? Even if he has a soul supreme true treasure, his godly power isn't able to resist an attack at this level. Teacher Origin even killed a universe supreme master before. How did Luo Feng survive? It's impossible, impossible!"

Bug Empress was also shocked to her very core. "He was unlikely to survive. He should be dead now. Dead."

She was great at soul attacks, so she knew how powerful that attack was. It was certainly at level ten! Beings in the original universe couldn't reach level ten, and even in Universe Ocean, only Teacher Origin could reach that level of power. Teacher Origin had been invincible, and he had been great at soul attacks. Even universe supreme masters with their godly bodies needed a soul supreme true treasure to survive Teacher Origin. (Although they could only wield the power of universe masters with a life gene level of 10,000 times, they were immensely strong at defense.

As for universe masters, even one who had a powerful mind and a soul type supreme true treasure would certainly not be able to survive Teacher Origin! An attack at level ten could definitely kill all universe masters!

“How did he survive?”

“How?”

“Damn it.”

“We’re in big trouble now.”

The united forces alliance was in unprecedented danger.

Chapter 1309: Capture

“How did he survive?” Luo Feng looked outside. He could feel the strong emotions from his godly power ocean—the emotions from universe masters and universe supreme masters from the united forces alliance.

“Why can’t I?”

“Too late to regret it!” Luo Feng’s eyes glinted coldly.

The combination of around 1,000 godly bodies of universe masters was indeed incredibly powerful. Actually, Luo Feng had accepted the worst situation—the Freedom Alliance joining the United Forces Alliance—when proposing that plan. He had prepared for a soul attack at this level. As for material attacks, he wasn’t afraid of a long battle with his Remote Ocean godly body.

The only thing he was worried about was a soul attack. Luo Feng was worried, as were Primal Chaos City Leader and the others, which was why he let those 100-plus universe masters of other races attack him first. That attack had already reached level eight.

Luo Feng had proposed the test because he believed that he had perfect godly power, and his mind was at the universe supreme master level. Plus, he had Star Tower to protect his soul! He deemed that he was able to resist a level-nine attack. Besides, he had obtained the three techniques from the inheritance of Duan Dong River. And Duan Mie could accelerate the burning of his godly power, making him stronger, so he could resist a level-ten attack.

The idea sounded good, but Luo Feng wasn’t certain.

What happened? he wondered. I didn’t even use Crazy Demon Extermination Godly Armor, and I only used Star Tower to guard my soul! How come an eighth-level attack was so weak?

Luo Feng was astonished that a level-eight attack was nothing to him. He then summoned the new Remote Ocean body (at 1,000 times life gene level). He let Star Tower guard the new Remote Ocean body and asked those universe masters to attack him again. His new Remote Ocean body was able to resist a level-eight attack easily with Star Tower!

“My new Remote Ocean boy was able to resist that? If the endless Remote Ocean body is stronger, it means it can resist a level-nine attack. With Duan Mie, I can even resist a level-ten attack.”

Luo Feng was overjoyed, but he was amazed as well. He speculated that he could only barely resist a level-ten attack.

Based on his calculations, Remote Ocean and Duan Mie (which improved Luo Feng’s godly power defense to universe-supreme-master level) and Star Tower could barely resist a level-ten attack.

The new Remote Ocean body and Star Tower could barely resist a level-eight attack. However, it was much easier than he thought. The new Remote Ocean body, guarded by Star Tower, was able to resist the level-eight attack without any problem.

“My Remote Ocean body is much more powerful, and it must be thanks to Star Tower.”

Luo Feng immediately realized that this was one of the distinctions of Star Tower.

Star Tower was an exceptional supreme true treasure. It had higher requirements for recognizing a master than all the known universe supreme masters. Even Shi Wu Wing had lower requirements! It was far more demanding than other supreme true treasures. Sitting Mountain Guest had created the earthlings just for master recognition, and only after an eternity was the proper master, Luo Feng, born. How could a true treasure be mediocre when it had such incredible requirements?

Luo Feng had always thought that Star Tower was special, yet he hadn’t been able to find it until he strove to the limit of his abilities, using it to guard his soul. He now realized how extraordinary Star Tower was at guarding souls.

My Remote Ocean godly power ocean was burning around all the 17 true treasure palaces, thought Luo Feng. I also performed Duan Mie, so it maintained the maximum power. Star Tower also guarded at the center of my endless Remote Ocean to guard the soul! It endured a soul attack and resisted it easily. I only experienced difficulty after I slowed down burning and stopped performing Duan Mie.

He was fully prepared. And Star Tower gave him a happy surprise.

One side was exhilarated, while the other side was horrified.

“Stop wasting time! Make attacks now!” Primal Chaos City Leader pointed at the nearest palace true treasure.

The universe masters of other the races glanced at Primal Chaos City Leader. Wasting time? The other races were still calm. On the contrary, the human universe masters were all thrilled, hugging Luo Feng, some of them even tearing up. The human universe masters were the ones wasting time.

“Attack.”

“Attack!”

All the universe masters from the human team, including those in Ancestral God Altar, created blurry godly power attacks.

Sou!

A being appeared above Remote Ocean. It was Luo Feng, dressed in black and carrying a blade. He held Ancient God Eye in his left hand, shedding light upon the true treasure palace. It created a portal, and the “mind shock” swept through the palace true treasure uninhibited.

Hong! Long! Long!

The soul attack followed.

An old voice was transmitted. “Beware, Dream Tea!”

The powerful mind shock arrived right after the voice. Dream Demon Ancestor resisted it easily, yet 90 percent of the universe masters under her were down. Only three still stood.

“Mind shock!” Dream Demon Ancestor was worried.

Hua!

Dream Demon Ancestor whipped her tail and returned all the universe masters into her world ring.

Hong! Long!

The master of the Northern Territory Alliance saw it with Xi Qu Starlight River. He was startled and transmitted his voice to all the true treasure palaces. “Be careful. We didn’t kill Luo Feng, so we’re at an absolute disadvantage. Once the human team makes soul attacks, every team will be in great danger. Once the human team draws near, the universe supreme masters had better put their universe masters away.”

“We don’t have a universe supreme master on our team.”

“Neither do we.”

The teams from the Freedom Alliance were all anxious. There were six teams in the Freedom Alliance, and only one of them had a supreme master: Shi Hua Island Leader.

“Get close to other teams quickly! The more universe masters, the safer it will be,” Northern Territory Alliance Master said, transmitting his voice. “Gather with the teams that have universe supreme masters.”

“Remote Ocean is everywhere, and it has incredible binding power. It’s trapping us, so the palace true treasure can’t fly at all.”

“We can’t fly.”

“The godly power ocean is trapping us!”

All the teams were worried, including the universe supreme masters. They only felt they were being resisted when controlling the true treasure palaces. The godly power ocean was binding the palaces, making them incredibly slow—only 1/100th of light speed. Little did they know that the godly power ocean was burning and performing Duan Mie to stop them, so it had strong resistance.

Luo Feng still wasn't satisfied with the resistance. He transmitted his voice, saying, "Ancestral gods, please use Five-Color Aurora Lake!"

"Okay."

Hong!

Auroras appeared in the sky, sweeping across the sky and striking Xi Qu Starlight Lake. Both Five-Color Aurora Lake and Xi Qu Starlight Lake were domain supreme true treasures! They hit each other, and Xi Qu Starlight Lake backed off. Soon, Five-color Aurora Lake and Xi Qu Starlight Lake occupied areas of the same size.

"Golden Country!" Luo Feng shook his four wings, and the dimming golden light spread. It aided Five-Color Aurora Lake in suppressing Xi Qu Starlight Lake, shrinking it further! 80 percent of the area was controlled by the human team.

Golden Country wasn't strong enough, so it couldn't help Five-color Aurora Lake any more than that.

"Humph." Luo Feng smiled. It was enough.

If he let Primal Chaos City Leader teacher use the valuable Palm Universe left by Teacher Origin, it would be much more effective than his Golden Country, but it wasn't the time yet... He wanted to leave it to the end in case the united forces alliance still had a trump card.

"Uncle Darkness." Luo Feng looked at Darkness Master beside him.

Darkness Master smiled. "Is it our turn? I can't wait any longer."

"Let's go claim our prey." Luo Feng moved his body and flew out.

Darkness Master carried Black Prison Tower and flew out as well. As for the universe masters of other races and the human universe masters, they all stayed in Star Tower.

Northern Territory Alliance Master performed Xi Qu Starlight Lake, and it only occupied part of the area. He was from the united forces alliance, and it could only protect their eight palaces. As for the other three palaces and six palaces of the Freedom Alliance, it couldn't protect them.

Especially the Freedom Alliance! For one thing, the godly power ocean burning under Duan Mie had incredible resistance. For another thing, they couldn't speed up under Five-Color Aurora Lake and Golden Country. They couldn't reach 1/100th of light speed, and the true treasure palaces were billions of kilometers away from each other, if not farther. After all, the base of Star Tower was 100 billion kilometers long, so the palaces around them were far from each other.

"Material attack."

"Use a material attack to blast away the godly power ocean."

"Damn that godly power ocean! Blast it away."

The teams in the true treasure palaces were all horrified. They all attacked the ocean around them.

Hong! Long! Long!

The attacks were consumed by the godly power ocean once they left the palaces. After all, the entire ocean was godly power! The godly powers continued being consuming, and the ocean kept surging!

At that moment, Luo Feng carried an Ancient God Eye while Darkness Master carried Black Prison Tower. Their speed wasn't constrained, and they reached light speed and entered the dark universe in no time. They then went back to the original universe from the dark universe, arriving directly in front of the true treasure palace that had originally been more than ten billion kilometers tall.

"Uncle Darkness, drive Black Prison Tower to capture our prey," said Luo Feng.

He stared at the palace belonging to Freedom Alliance that held more than 70 universe masters.

Chapter 1310: The Sudden Increase in Strength

No matter how composed Darkness Master was, at this moment, he too was unable to contain his emotions. Throughout the entire Universe Ocean, who could capture over 70 universe masters in one go?

"Rise!"

Holding his breath, Darkness Master held out his right arm. Instantly, that black pyramid flew out from his palm and started to grow at a crazy speed. In a blink of the eye, it had transformed into a lofty tower that was a 100 million kilometers tall. At the same time, a deep abyss also appeared at the base of the pyramid. The black pyramid took aim at the black, disc-shaped palace true treasure before it right away.

Luo Feng watched and smiled. In his palm, another Ancient God Eye appeared. Now, there were two Ancient God Eyes—one with Moshu body, the other with his original body.

"Go!"

Luo Feng positioned his palm to face the disc-shaped palace true treasure, and the surrounding godly ocean water automatically parted to give way to a route. In fact, even if there were occasional interferences, Luo Feng's willpower would not be greatly affected.

Hong!

The invisible impact of his willpower swept toward the disc, which contained a total of 72 universe masters. After being hit by this bout of impact from his willpower, 65 universe masters lost consciousness. Only seven remained awake. They had extremely strong willpower and were the true elites of the entire team. These seven universe masters had a total of 11 godly bodies.

"It's the impact of willpower!"

"Block it!"

"Bai Er, what should we do?"

The seven universe masters with their 11 godly bodies were panicking. The other universe masters who had weaker willpower were all knocked out, so there was no way they could render any help. With only seven left, how were they going to resist? Plus, the other palace true treasures of the Freedom Alliance were at least ten billion kilometers away. Help would not arrive as quickly as they needed it.

“Black Prison Tower is swallowing.”

“Block it!”

“Hang on! If we are sucked into Black Prison Tower, we are finished!”

The seven universe masters were in a heightened state of panic and were losing their minds with every passing moment.

No matter how insanely they fought, their efforts to resist were futile. Previously, they’d had many universe masters, so they could wipe out the godly ocean water obstacles that surrounded them. With concerted efforts, they had overcome the obstacles placed in their way by Five-Color Aurora Lake and Golden County. But now that they were left with only seven universe masters, manipulating their palace true treasures to move was difficult. Now, they were facing the danger of being sucked into Black Prison Tower.

If it was only being swallowed by Black Prison Tower, perhaps they could still put up a fight to counterattack.

But there was also the annoying godly ocean water in their surroundings, which was dealing them multiple blows and pushing them steadily toward their doom. This godly ocean was pushing their palace true treasure in the direction of Black Prison Tower!

“No, there is no way I can block it.”

“I’m unable to block it! No, no!” These universe masters, albeit most unwillingly, were annihilated.

...

In the faraway core ground of the Freedom Alliance—on the island that was seated in the middle of the endless golden waves—over 400 universe masters and Shi Hua Island Leader had all left their godly avatars.

“We are unable to block it.”

“We are hit by the impact of the willpower. Only seven of us, who are barely able to resist it, remain. And we are also under a double oppressive force by Five-Color Aurora Lake and the godly ocean water. Now, with Black Prison Tower swallowing... we are unable to put up further resistance. The palace is heading toward that Black Prison Tower now.”

“Everyone, please save us.”

On the numerous thrones, especially those in one particular section, various godly avatars of universe masters sat. None made a single move. They had all lost consciousness. Only the seven who could resist the impact were left, and they were all extremely worried.

“We are too far away. There is no way we can make it there in time.”

“We are facing double obstructions by the godly ocean waters and Five-Color Aurora Lake. The hindering force is far too great! It is simply impossible to accelerate—simply impossible to reach light speed, not to mention about entering the dark universe. How, how?”

Groups of universe masters in the other palace true treasures might not be facing any fatal risks, but seeing how their fellow alliance members were being attacked, they could not help but worry and panic about facing the same fate.

Suddenly, the seven universe masters, who had been anxious a moment ago, showed looks of despair as they said, “We are being swallowed by Black Prison Tower!”

“All 72 of us universe masters have been swallowed by Black Prison Tower.”

Instantly, everything in the surroundings quietened down. 72 universe masters? Heavens! It was just a short moment of peace and quiet. Then, soon enough, those universe masters from the Freedom Alliance who had managed to survive the ordeal grew even more anxious.

“It was that item with impactful willpower. It was that item with impactful willpower! If not for that, with over 70 universe masters combining forces, even if we were temporarily trapped in the godly ocean waters, that Black Tower Prison will not be able to swallow us all.”

“True. So long as that treasure is around, our advantage of having greater numbers will no longer exist. Over 70 universe masters... In an instant, 90 percent were knocked out, and only seven are left to continue resisting.”

“What should we do?”

“If we had known this earlier, we would not have divided ourselves into six teams. If we were all combined in one team, with over 400 universe masters gathered together, I think at least a few dozen universe masters would be able to resist the impact of being hit by that willpower. Also, with Shi Hua Island Leader around, we would not be taking such a passive approach.”

“Who could have expected Luo Feng would come up with this endless godly ocean water to trap us?”

The Freedom Alliance was filled with apprehension. Earlier, they had decided on splitting up into six teams for two reasons. For one thing, there would be six major factions to deal with the human camp; for another, if they planned to join the united forces alliance, even if any of these six teams were hit by the impactful willpower, at least only part of the alliance would be affected. If they all congregated at the same place, it would mean that their combat power was straight away reduced by 90 percent.

“Hahaha!”

At that moment, even Darkness Master, who was usually so composed and aloof, could not contain his emotions any further. He broke into hearty laughter. That huge, black pyramid shrank rapidly to land within his palm.

“Over 70 universe masters, all captured in one swift move!” Darkness Master stood amidst the mighty godly ocean water and could not help gloating. “Comparing all the universe supreme masters in Universe Ocean, I suppose there won’t be many who have achieved such a great feat.”

Then he looked toward Luo Feng, who was by his side.

He knew that to be able to achieve something so great, there were, of course, many unique factors. For one, they had a strange object like the Ancient God Eye. With its impactful willpower, they could deprive opponents of the advantage of greater numbers. Secondly, with the godly ocean waters and the Five-Color Aurora Lake intertwining and surrounding the enemy, there was no way the opponent could escape. Thirdly, Luo Feng had been—unexpectedly—capable of blocking a soul attack that was jointly launched by over 800 universe masters and over ten supreme masters! This had rendered the united forces alliance helpless before Luo Feng, so they could only struggle within his Remote Ocean.

Darkness Master looked at Luo Feng. “Luo Feng, we have you to thank this time around.”

“Luck,” said Luo Feng. He shook his head. “A combination of various factors allowed us to make it this far. Not one could have been left out. As for my Remote Ocean... moving it about is extremely tough. If the united forces alliance had been able to escape, I think it would have been very difficult to come by another opportunity like this.”

Moving the vast Remote Ocean was indeed extremely tough. If enemies were far off, there wasn’t much Remote Ocean could do. If they had managed to escape this time, they would have had no trouble making it further than this area—a few light years away—unless the humans remained hidden within this area under the influence of the Remote Ocean. If not, once they left this area of influence, without the protection of Remote Ocean, they were bound to be trampled on!

“That’s why!” Darkness Master said in his cold voice, “we need to make good use of this opportunity. Make them fall into your remote ocean, then, in one swift move, capture as many as we can! That way, the number of universe masters in our human camp will greatly increase.”

“True.” Luo Feng nodded with a solemn expression. “Such an opportunity is hard to come by. We must capture as many universe masters as we can.”

Within Black Prison Tower.

Upon being captured, the 72 universe masters from various races heard a voice the moment they fell into that endless dark space, “Dear all from Freedom Alliance, do not worry. So long as you do not treat us as your enemies, and express your willingness to help us, we, humans, will not harm any of you.”

“We are willing to help the humans.”

“We are willing to help!”

“We are willing to join the human camp.”

Many universe masters of the various races were already in great despair, which was why, when they heard the voice, they immediately shouted to express their willingness. Joining the humans’ side was what they had originally intended to do in the past; it was just that Purple Moon Holy Land had offered

them more appealing terms. This was why they had decided to help the united forces alliance. Yet, no matter how great the potential benefit, nothing mattered more than being alive.

All of them surrendered. Even those who had other bodies and were thus not facing any life-threatening danger were willing to surrender to the humans! After all, they were unwilling to give up the godly bodies that were mainly used in war. Furthermore, they were also unwilling to give up on the various true treasures they had spent countless years accumulating!

Because Five-Color Aurora Lake and Golden Country were joining forces to keep Xi Qu Starlight River suppressed, the united forces alliance and the Freedom Alliance were unable to promptly learn of each other's situation. Northern Territory Alliance Master then crossed the distance to directly contact Shi Hua Island Leader, who updated him on the situation.

"The humans have combined the powers of a treasure with impactful willpower, Black Prison Tower, godly ocean water, and Five-Color Aurora Lake when fighting us. They have already captured one of the Freedom Alliance's teams."

"What...?"

This piece of news shocked Northern Territory Alliance Master. The humans' main power was still fighting the united forces alliance. Godly powers were bombarding one another as the battle raged on. So, what was happening here was only for show. The real deal was over at the other side.

Northern Alliance Master quickly transmitted a voice message. "Everyone! The human camp is using a combination of various true treasures, the treasure with impactful willpower, Black Prison Tower, godly ocean water, and several others. They have already captured one of the teams from our Freedom Alliance. Proceed with the utmost caution. Do not let the humans get their way."

With a move of intention, he transmitted the message via the conscious mind. He had to send the information to every other universe supreme master.

A move of intention was a unique method used by a universe supreme master. To reach the level of a universe master from a normal ordinary great being, they all had to rely on the primal universe origin. Everything about them—for instance, their godly powers—was dependent on what the primal universe origin bestowed upon them, which was why there were numerous laws of the universe origin that they were unable to resist no matter how strong they were. The reason was simply because the source of their strength originated from the primal universe origin.

As for universe supreme masters, they would have their own universe! They relied on themselves! As a result, they could easily resist the beckoning of the dark universe and easily exceed the speed of light to continue to remain within the space of the primal universe. They could also glide across vast stretches of time and space to land somewhere far away.

Of course, they had weaknesses too. For instance, the talent technique given by the primal universe, the ability to divide bodies, along with some other talent techniques, would all be taken away. The primal universe would no longer bestow any kindness to them. They would have to depend on themselves in all aspects.

“Not good!” Father God of automaton race also transmitted his thoughts. Anxiously, he said, “We cannot allow the humans to capture universe masters from the Freedom Alliance as they please. There are many universe masters in the Freedom Alliance. If they are captured by the humans, I’m afraid they will quickly switch sides over to the human camp. By then, the human camp will increase in strength. Even without this godly power of ocean water or any other devious means, they will not fear us at all.”

“Hurry.”

“We shall leave this area under the influence of the remote ocean right away. And we will do our best to help the Freedom Alliance, one team at a time. The more teams we help, the fewer teams the humans capture! The Freedom Alliance has a total of six teams, and one of them is headed by Shi Hua Island Leader, which means the humans will be able to capture as many as five teams. That means over 300 universe masters... Once they are all captured, the number of universe masters in the human camp will soar to more than 500, which makes up more than half the number of universe masters in the entire primal universe! By then, for all eternity, we will no longer be able to suppress the humans.”

“Hurry.”

The united forces alliance was growing anxious, but they were also clear that understanding what to do was one thing; whether they could achieve it or not was another story altogether.
