

SWALLOWED 1321

### Chapter 1321: Pei Xing Master's Wing

Inside the inner area of Tilted Peak Sector, the fire was burning.

"Listen, I'm Pei Xing Master from Purple Moon Holy Land! You should be proud that I picked you as my competitor for my first trial."

The four-faced, 16-armed Pei Xing Master opened his black wings wide. His 16 arms held eight long shuttles, each one held by two hands. The arm at the top and the arm at the bottom were holding a shuttle, respectively. The six left arms held three, while the six right arms held another three. The black wings on his back were outspread. His four faces looked in four different directions

"Pei Xing Master? I've never heard the name!" The rock giant was holding a rock hammer and roaring. "How dare you, a new universe master from Purple Moon Holy Land, challenge me, Eight Ruin Master!"

Pei Xing Master had his wing open in endless fire, and he looked relieved. "A pathetic guy facing death. Even if you're at top-tier level five, there's nothing for me to be scared of."

Eight Ruin Master was enraged by Pei Xing Master's words. He was already mad with facing the pressure of true death. How could he not be infuriated upon hearing this?

"You brat! I'll show you my power!" the rock giant roared.

Hong!

Dazzling light emanated from him. Yellow light was suddenly everywhere, covering an area of several square light years. The powerful domain started to bind Pei Xing Master, and the rock giant said fiercely, "Now, you don't even have a chance to run away! This must be your first time in Universe Ocean. I'll make it your last!"

"Kill!" Eight Ruin Master dashed toward him.

Eight Ruin Master was indeed belligerent. The power gap between them was not large, yet it was still possible that one would be killed by the other as long as one could trap the other. They could keep fighting each other for millions of years or even hundreds of millions of years, forcing each other to burn their godly power. The size of their godly bodies, the power of their attacks, and their defense all determined who could survive. Clearly, only one of them could survive!

In fact, many universe masters from the first universe era would go mad, so few universe masters were willing to meddle with them.

"You want to kill me?" Pei Xing Master smirked. "If I want to go, I can go at any time. Do you really think you can stop me?"

"Freeze!"

Hua!

All of a sudden, light pillars shot out of the black wings. The five pillars—gold, cyan, aqua blue, tan, and red—traveled parallel to each other like a rainbow. They slashed the sky and wound around Eight Ruin Master.

“Break!” Eight Ruin Master tried to break away, but the five-colored rainbow was winding around him. He couldn’t break free.

“Do you really think you can break away?” Pei Xing Master said recklessly. “I’ve been in the holy land for 18 universe eras, and I’ve been studying golden law, wood law, fire law, water law, and earth law. I created a supreme technique using these five basic laws, and I’m performing it with my valuable. Do you really think you can break away from it?”

Pei Xing Master was satisfied. When he had first gotten the wings, the laws of five colors entwined with each other but only reached the power of a top-tier domain true treasure. However, he found out that the way the five laws entwined with each other was mysterious, so he started to study them carefully, as one’s life was limitless in Purple Moon Holy Land. He fully comprehended all the five basic laws and spent more than 12 universe eras comprehending them. He had created a binding supreme technique with his valuable. Even though his other attacks were only at level four, with that technique, he had power at the equivalent of level five.

“Just more binding power!” Eight Ruin Master roared. “It only slows me down, but it doesn’t affect my fighting power. Come, brat.”

“Haha...” Pei Xing Master guffawed and dashed forward.

It was the first time that Pei Xing Master had entered Tilted Peak Sector—one of the three Lands of Extremis—so he was excited and aggressive. Once his binding technique was performed, it could rival a pinnacle domain true treasure, and he had his wings, so he could fight and flee whenever he wanted. Only a domain supreme true treasure could suppress him.

\*\*\*\*\*

In the Hong Alliance palace of Hong Alliance City, the Primal Universe.

Three universe knights organized information in a palace.

“This is the latest news.”

“Three new universe masters appeared in Universe Ocean, and all of them are from the two holy lands! It seems many universe-masters-to-be have become universe masters and started to enter Universe Ocean since the last time a group of universe masters died during the fight for the Duan Dong River inheritance.”

“It’s very important!”

“The universe masters from our alliance might meet those new universe masters. They don’t have the information about these new universe masters, so they might suffer losses. We need to send the information to Primal Chaos City Leader.”

These three universe knights were responsible for organizing information in the Hong Alliance.

Information management wouldn't fall on universe masters! That was why three universe knights had been chosen to manage these. All of them had multiple bodies, and they were responsible for gathering and filtering the information. They would eventually send it to Primal Chaos City Leader, who would process it in the end.

\*\*\*\*\*

After a while...

"New universe masters again? One at level four and two at level five? The two holy lands indeed have a large group of universe-masters-to-be waiting. Those dead universe masters from the Duan Dong River inheritance last time didn't affect the two holy lands at all."

"Spread the word."

Primal Chaos City Leader then sent the information to every universe master in the Hong Alliance through the virtual universe.

Such information was classified to ordinary beings, but universe masters had to know about it. Every time there were new universe masters, information about their power, fighting style, true treasures, and techniques was recorded and sent to universe masters at their side.

The more they knew about their adversary, the longer they could live.

\*\*\*\*\*

Hong!

A thunder giant flashed in the outer area of Tilted Peak Sector.

"Finally, I'm out of Tilted Peak Sector!" The thunder giant, Great Thunder Star Master, looked at the chaos airflow. "Milky Way Horde Leader Luo Feng?"

Great Thunder Star Master was furious. He had to show up after being provoked by a universe master.

Hong!

Great Thunder Star Master raced toward Universe Boat at top speed.

\*\*\*\*\*

On a reef of Whirling Swamp Ocean in the inner area of Universe Boat.

Hong! Long! Long!

The waves were getting stronger. The space was torn again and again. The wind was terrifying, yet it was relatively weaker on the reef. Universe masters stood everywhere. All 13 were waiting there, staring into the distance, still waiting for the pinnacle true treasures to be born. Sometimes, they would take a look at Star Tower at the center of the reef.

"Star Tower, a supreme true treasure!" said a skeleton life form in a flying animal shape, gazing at Star Tower. "When can I have a supreme true treasure palace?"

“Milky Way Horde Leader has only practiced for tens of eras. He’s already this powerful and has got several supreme true treasures. Why can’t I get one?”

The universe masters were both scared and jealous of Luo Feng, as they all craved supreme true treasures. Then they could roam Universe Ocean without fear.

Inside Star Tower, Luo Feng—who had been practicing—finally opened his eyes and looked to the outside.

“That pinnacle true treasure is still not born? There are 13 universe masters already. Wow...” Luo Feng looked down. “12 from the three universe eras and one is from Purple Moon Holy Land? That Purple Moon Ancestor created major trouble, yet this guy from the Purple Moon Holy Land still dares to show up in front of me?”

Luo Feng’s eyes glinted coldly.

Hua!

Luo Feng disappeared from the palace.

\*\*\*\*\*

Suddenly, a being walked out of the side gate of Star Tower, which was standing at the center of the giant reef at the center of Whirling Swamp Ocean. It was a concern to all the universe masters present.

“It’s Milky Way Horde Leader.”

“Why is Milky Way Horde Leader out here?”

All of them were nervous.

Luo Feng glanced around and smiled. “Don’t worry, guys. If there’s no grudge between us, I won’t attack you.” And then, Luo Feng started to stare at one universe master. It was the only universe master from Purple Moon Holy Land: Purple Pu Master.

“Purple Pu Master,” said Luo Feng.

“Milky Way Horde Leader.” Purple Pu Master was relaxed; he had pride as a great being from the holy land.

“How dare you appear in front of me?” Luo Feng chuckled.

Purple Pu Master said coldly, “Why wouldn’t I? This is Universe Boat, not human territory. Even if it was human territory, I would go there if the original universe permitted it. Milky Way Horde Leader, do you want to attack me? You’ll make yourself an enemy of Purple Moon Holy Land!”

“Interesting.” Luo Feng sneered. “Go in and provide company to Thunder Shuttle Master.”

Hong!

Star Tower suddenly started to float, and it inclined. An abyss appeared at the base of Star Tower, and it started to swallow Purple Pu Master.

“You dare to seal me?” Purple Pu Master tried to resist it, yet he was still flying toward the base of Star Tower, losing control. He roared, “Luo Feng, I have multiple bodies! Even if you seal me, all I’ll lose is one body—Purple Moon Holy Land won’t let it go easily!”

“Purple Moon Holy Land?” Luo Feng sneered. “We’re already enemies, so stop threatening me. I’ll capture every universe master from Purple Moon Holy Land I see!”

Sou!

Purple Pu Master was captured already.

All 12 universe masters were terrified by what they had just witnessed. Luo Feng was indeed crazy, but they were not surprised. After all, Purple Moon Holy Land had already spread the inheritance of how to become universe supreme masters from universe masters to all the powers in the united forces alliance. The news of this was already widely known.

Purple Moon Holy Land clearly wanted the human team annihilated! They were already enemies. The human team had more than 400 universe masters, yet Purple Moon Holy Land had fewer than 400.

Hostilities in the original universe are quite strong, thought Luo Feng. Almost all the universe masters are in the original universe. I need to seize this opportunity to punish Purple Moon Holy Land! Even now, those universe supreme masters from Purple Moon Holy Land can only wield power at level eight max, as they don’t have miniature universes. My Star Tower can also wield power at level eight, and once I perform Duan Mie, it’ll reach level nine! Although it’s not at top-tier level nine, I don’t need to worry about Purple Moon Holy Land.

### **Chapter 1322: The Killing Order of Purple Moon Holy Land**

In the middle of Whirling Swamp Ocean, the 12 universe masters on the huge reef all trembled with terror as they watched the scene before them. They were all aware of the enmity between the humans and Purple Moon Holy Land, but seeing how fierce and vicious Luo Feng could be still made them shiver with fear.

“Dear all.” Luo Feng’s gaze swept across the crowd. Then he smiled and reassured them, “If there is no bad blood between us, I will not attack you. You can put your minds at ease.”

With that, he flew towards Star Tower and right through the side door.

The universe masters on the reef looked at one another. Then, quietly, they started to discuss. Apparently, they were starting to worry. After all, Luo Feng had previously captured Thunder Shuttle Master, and now, he had captured Purple Pu Master. Could Luo Feng be scheming something as part of a plan, or did he merely want to capture them one after the other?

“It can’t be.”

“Even if we put up resistance, with his treasure that has impactful willpower, we are still unable to escape from Luo Feng. Earlier, Milky Way Horde Leader came over just to capture Thunder Shuttle Master. As for Purple Pu Master—who merely just arrived—Luo Feng came here again to catch him. The 11 of us universe masters who had been here all this while were spared from any attacks.”

“That’s right.”

These universe masters discussed these things quietly and soon came to an understanding. If Luo Feng wanted to kill or capture them all, he would have made his move way back then. There was no need for him to delay. Plus, his actions would implicate his race, so he would not be so rash as to go around making enemies.

\*\*\*\*\*

Inside Star Tower, Luo Feng looked down at the world outside. With a smile, he shouted, “Purple Pu Master!” His voice was directly transmitted to one of the sealed spaces inside Star Tower.

“Humph!” In a lonely, dimly lit space, Purple Pu Master sat cross-legged on a desolate land of soil.

“Don’t worry. I will not kill you so easily.” Luo Feng’s voice resonated through the space. “Actually, I had no intentions of being enemies with Purple Moon Holy Land, but you all from Purple Moon Holy Land have never wished well of us humans... and always try to make things difficult for us. We had not taken things to heart regarding the previous war, but after the war, Purple Moon Holy Land actually handed the inheritance over to every group of power within the united forces alliance. It is so obvious that you intend to use the united forces alliance to oppress us so that the rise of us humans will be substantially slower.”

The entire human race was very angry with Purple Moon Holy Land. If Purple Moon Holy Land had not circulated the inheritance, then with the passage of time, the human race would be able to gain power and strength consistently. With this continuity, the humans would naturally be able to join the territories of the other pinnacle races. Then, with the expansion of territories, the humans would have seen more and more generations of geniuses rising from the race. All of these would naturally form a virtuous cycle that could have brought about a period of growth, and the human race would have risen even faster than before.

But now, with the united forces alliance gaining the inheritance too—even though their version did not match up to the same level as the humans—the information was, no doubt, still detailed and rich enough. This meant that, should the humans seek to expand their territory, they could only do so under extreme difficulty. If they were unable to expand their territory, then the number of human universe masters and universe supreme masters was destined to be only a handful.

Without the intervention by Purple Moon Holy Land, before this reincarnation era came to an end, the number of human universe masters and universe supreme masters would have already exceeded the two holy lands put together! And because Purple Moon Holy Land had intervened, when this reincarnation era ended, the number of human universe masters and universe supreme masters would not even amount to half the number of Purple Moon Holy Land! How could the humans not to feel anger and hatred?

Purple Pu Master, who was entrenched in the lonely space, finally spoke up. “Ancestor’s orders convey his judgment,” he said with a cold smile. “Who are you to think you can force something upon us? Humph! In your dreams!”

“Let’s wait and see,” Luo Feng said indifferently.

\*\*\*\*\*

On the same day, within Purple Moon Holy Land universe.

“Ancestor, I have done what you asked of me,” said Purple Pu Master. “Upon reaching the reef within Whirling Swamp Ocean... it was truly just as Ancestor had anticipated. Luo Feng attacked me.”

He knelt respectfully as he reported to the figure suspended in the air before him. The figure, which was faintly radiating purple light, was none other Purple Moon Ancestor.

Purple Moon Ancestor said slowly, “He already made his move?”

“Now, he is keeping my other body under captive, but he has yet to annihilate my other body,” Purple Pu Master continued to report.

His admiration for Purple Moon Ancestor was growing with every moment. There was enmity between Purple Moon Holy Land and the human camp, so the moment Purple Moon Holy Land learned about Luo Feng entering Universe Boat, based on Luo Feng’s course of action, they had guessed where he was heading.

Given the direction he was heading, all the universe masters from Purple Moon Holy Land would steer clear of the surrounding regions so as not to cross paths with him.

Luo Feng had specifically gone down to Whirling Swamp Ocean this time around just to wait for Great Thunder Star Master, yet Purple Moon Ancestor suddenly gave the order to Purple Pu Master—who was nearest to Whirling Swamp Ocean—to go feel Luo Feng out. And in response to this move by Purple Moon Ancestor, Luo Feng had gone straight for the catch and had captured Purple Pu Master.

“He just cannot keep his cool.” Purple Moon Ancestor shook his head. “After getting hold of that inheritance of the pulse of Duan Dong River, he has achieved his breakthrough to become a true god. Piece of cake. The moment he becomes a true god, adding onto the technique he received from the inheritance of the pulse of Duan Dong River, he will become even more powerful than Teacher Origin!”

Purple Pu Master, who was kneeling down by Purple Moon Ancestor’s side, was astounded.

What? More powerful than Teacher Origin of the human race?

Based on Purple Moon Ancestor’s speculation, under normal circumstances, he must have been right in assuming that, according to the path of laws, Luo Feng’s current ability was creating a secret technique at the level of a universe supreme master. When combined with the inheritance of the pulse of Duan Dong River—and after spending some time in the space of cultivation—he was indeed able to achieve a breakthrough within a shorter period of time to become a true god!

The moment he became a true god, his strength would increase by leaps and bounds. Then becoming more powerful than Teacher Origin would simply be a matter of course. By then, he could sweep away all universe supreme masters in his way!

But Luo Feng had chosen the path of godly power. He pursued something that had the highest difficulty level—something that exceeded 90,000 times life gene level—and so, he was fated to take a much longer time than Purple Moon Ancestor had speculated.

“You want to fight me?” Purple Moon Ancestor sneered. “Pass on my orders. From this moment on, all universe masters of my Purple Moon Holy Land shall avoid Luo Feng at all costs! The humans might execute some vicious moves. Even if all of you were to retreat back into the holy land universe or into seclusion in one of the reincarnation eras of the holy land universe, these are small matters not worth fretting over.”

Purple Pu Master was kneeling before him.

“At the same time, we have to make it known to all groups of top powers within the entire Universe Ocean,” Purple Moon Ancestor said in his cold voice. “Since Luo Feng was the one who initiated the provocation on my holy land, then from this moment on, we from the Purple Moon Holy Land will kill every single human universe master from the primal universe who sets foot in Universe Ocean.”

“Yes,” Purple Pu Master replied obediently.

“Go,” Purple Moon Ancestor ordered.

Purple Pu Master left in a reverential manner without further ado.

Purple Moon Ancestor stood within the void space and sneered. “Luo Feng? When all those universe masters of your human race learn about how you are provoking me, causing me to issue such a killing order, I’m afraid they will be most dissatisfied with you. You want to fight me? That old fellow, East Emperor, is no threat at all. You... are fated to be my one true opponent.”

Purple Moon Ancestor continued speaking to himself in that cold manner. “We shall see who has the last laugh.”

\*\*\*\*\*

In one of the individual plane surfaces in a space within the virtual universe.

Luo Feng’s consciousness was perpetually connected to the virtual universe. Just a while ago, he had been filled with excitement. Now, shortly after, his excited expression had been replaced by a grimace.

He had been excited because of a piece of information. His grimace was because of another piece of information.

The first piece was related to detailed information on the newly promoted universe master. The second piece was the news the Purple Moon Holy Land had made public.

From the information on the newly promoted universe master, Luo Feng saw information about Pei Xing Master, and his interest was especially fixated on the part about Pei Xing Master’s four black wings. Those four black wings could place a stranglehold over the power of the laws of the five elements, namely gold, wood, water, fire, and earth. It was unique. It was like Golden Country, which was produced by his silver wings and was also very unique. Besides, such wing type true treasures were rare in the first place.

“Shi Wu Wings has a total of six pairs of wings. Currently, I have three pairs, so I am still short of three pairs... These two pairs of black wings may be just what I need.”

Luo Feng had been growing excited and eager when the second piece of news ruined his mood.

Purple Moon Holy Land! Just after he captured Purple Pu Master, the news was made public that there was a killing order issued. Every human universe master that set foot in Universe Ocean would be killed.

Primal Chaos City Leader's voice resonated in Luo Feng's ears. "Luo Feng, come here right away."

\*\*\*\*\*

At the peak of Thunder Island, in the garden behind Primal Chaos City Leader's palace, numerous thrones were scattered about. Without differentiating between high or low statuses, the figures were appearing successively to sit on these thrones. Luo Feng, too, appeared and sat down.

"Dear all." Primal Chaos City Leader looked around and laughed heartily. "Everyone is here, so let's talk about the latest news. That Purple Moon Holy Land... has issued a killing order against our human race, saying that they will kill any human that sets foot in Universe Ocean. Actually, I am quite doubtful. Wherever did Purple Moon Holy Land find the guts to do such a thing? They only have two universe supreme masters and a bunch of universe masters. Those two universe supreme masters have yet to create their own miniature universes. And in terms of the number of universe masters, they are not even comparable to our Hong Alliance, yet they dare to challenge us? After that, I took a closer look. Oh... They are doing it on purpose. It's their way of pinpointing us, the humans, and ostracizing the other vassal races of the Hong Alliance.

"What a joke! The Hong Alliance is an alliance in its entirety. They want to fight us? How are they able to ostracize us?" Primal Chaos City Leader jested, "I can only conclude that Purple Moon Holy Land is scared! They do not dare to fight us, the whole Hong Alliance! So, to protect their dignity, they say such things!"

Darkness Master, who was standing off to the side, added in a low voice, "That's right. We humans are not scared. After some time, when our race has a few more supreme masters at the top-tier combat level, we will gain the absolute advantage."

Luo Feng merely listened, but deep down, he was full of gratitude. Teacher had called for this gathering but had not allowed the others to voice their opinions. Instead, he had said this right away, obviously to steer the crowd in the direction of a common hatred for their enemy.

If he had let them all voice their opinions freely, some might have said that Luo Feng was too impulsive and had thus made enemies for the humans instead. If this happened, there would be internal conflicts within the human race, which was something Primal Chaos City Leader, Darkness Master, Luo Feng, and the few others were unwilling to see.

"It is my fault for not telling everyone about this beforehand," Luo Feng said in a low voice. "But I don't regret it. It's only Purple Moon Holy Land, and Purple Moon Ancestor is not even able to leave his miniature universe. As for their supreme masters, they don't even have miniature universes! What is there to fear? Those from Purple Moon Holy Land have always acted in the dark. The humans shouldn't give them face! And I also think that because of Purple Moon Holy Land playing tricks behind our backs—now within the primal universe—the two camps are still in a tense situation."

"Especially the united forces alliance. With the inheritance, they are not fearful of us at all," Luo Feng said solemnly. "If this rivalry drags on for too long, without being able to expand our territory, how will the human race continue to rise? This is why we need to go to war!"

Luo Feng continued, "If there isn't a major war, the discord between the two camps will most likely become long-term. Time and again, these conflicts and crossfires would naturally help to hone the abilities of our universe knights and universe masters. In life-and-death battles, and with that inheritance of the ancient civilization, the great beings of our race will continue to emerge. Following this increase of great beings—especially when we have a few more universe supreme masters—we will be able to exterminate the two universe supreme masters of Purple Moon Holy Land by then! If they remain hidden in Purple Moon Holy Land, so be it. But the moment they step out, they will be exterminated right away."

"Without those two universe supreme masters," Luo Feng said with confidence, "Purple Moon Holy Land will no longer be a threat to our human race."

The humans had the guidance of their own inheritance. Even if the other universe supreme masters were not as extreme, they had great hopes of being able to achieve the ultimate limit of a supreme master, which was the level Teacher Origin had attained.

"True," said Primal Chaos City Leader. "For a longer period of time, our race should focus on the primal universe. Even if the honing of skills is via life-and-death battles, these must still be within the primal universe. The conflicts between the two camps will go on for an extremely long time." He nodded. "Yet this so-called 'killing order' is not a threat to us at all. Now, let Luo Feng teach that Purple Moon Holy Land a good lesson, and when our race gets stronger in the future, we will become the third holy land and become even more powerful than Purple Moon Holy Land and East Emperor Holy Land!"

### **Chapter 1323: Happy Surprise**

Contrary to what Luo Feng thought, none of the human universe masters were afraid. All of them were ambitious and aggressive, and they didn't give a damn about the killing order of Purple Moon Holy Land. First of all, the inheritance from the ancient civilization made the humans more confident. Also, they had just defeated the entire united forces alliance, so Purple Moon Holy Land was nothing to them. Besides, the main battlefield would be in the original universe in the future, and few would go to Universe Ocean. Even though Darkness Master and Primal Chaos City Leader went there sometimes, they only sent their bodies.

For what it was worth, Purple Moon Holy Land could only make threats in Universe Ocean. They were not a real threat! Even if there was trouble, it would be a learning experience for the humans.

\*\*\*\*\*

The meeting among seniors was quickly finished, and the beings disappeared from the thrones. Primal Chaos City Leader and Luo Feng were the only two left.

Primal Chaos City Leader glanced at Luo Feng with a smile. "Are you still worried?"

"Not anymore." Luo Feng shook his head and smiled.

"You shouldn't have been," said Primal Chaos City Leader. "You made a huge contribution during the fight between us and the united forces alliance. All the universe masters respect you wholeheartedly! You've helped our race a lot, and you're influential. You are certainly a leader. As long as you don't do

stupid things—like making enemies everywhere—the race will stand by your side no matter what. After all, everyone makes enemies in Universe Ocean. Beings will try to kill you even if you mean them no harm. It's okay to make enemies.”

Luo Feng nodded. It was true. The Thunderstorm Star race was very weak, so he didn't need to worry about it. Purple Moon Holy Land was powerful, yet the humans could also withstand them. Of course, if Luo Feng made enemies everywhere and led all the powers to attack humans, the humans would be upset. No matter how confident a race was, it didn't dare to make itself an enemy to all powers. If the humans lost the battle against the united forces and retreated back to the primal universe, the other races might hit them while they were down; all the powers in both the original universe and Universe Ocean would unite and suppress them. That would be a most miserable situation. Fortunately, that hadn't happened.

“Teacher.” Luo Feng recalled the information he had acquired before and asked, “Is there a universe master called ‘Pei Xing Master’ among those new universe masters?”

“Yes.” Primal Chaos City Leader looked at Luo Feng.

“His wing true treasure...” Luo Feng frowned. “Can we have some more detailed information about him?”

“Wing true treasure?” Primal Chaos City Leader glanced at Luo Feng and looked pleased. “Is his wing somehow connected to your silver wing?” He only gave Luo Feng one pair of Shi Wu Wings, and Luo Feng had found another pair. After absorbing lots of blade energies, it was only under a supreme true treasure now.

Luo Feng nodded. “It's only an assumption.”

“Okay, I'll help you check now.” Primal Chaos City Leader nodded. “There are around 400 universe masters in the Hong Alliance now, and the intelligence network is enormous. It should be easy to find. I'll tell you immediately after I get the information.”

“Okay.” Luo Feng nodded.

Every universe master had a group of friends who would send messages to each other. There were around 400 universe masters in the Hong Alliance, and everyone had many friends—even friends in Universe Ocean. It was definitely a giant intelligence network. The larger the network, the more detailed the information would be.

\*\*\*\*\*

After the killing order from Purple Moon Holy Land spread, all the powers in Universe Ocean sighed.

“Luo Feng is crazy. Does he really think he can fight Purple Moon Holy Land? It's a holy land! No matter how mad the fight is, and even if a group of universe masters die, they can recover after a few universe eras! Even if they're defeated by the humans, they can hide in Purple Moon Holy Land for a universe era or two.”

“That’s right. The humans need to seize the time to breed more universe supreme masters. For the great beings from Purple Moon Holy Land, they can just return to Purple Moon Holy Land, but the humans can’t do the same thing.”

All the powers sighed. They all thought the humans were bringing trouble on themselves by fighting a holy land.

\*\*\*\*\*

Tilted Peak Sector.

There was a three-level tower, and each level was dodecagon. The strange tower kept going inside Tilted Peak Sector.

“An order from the ancestor?” Pei Xing Master looked to the outside of Tilted Peak Sector and whispered, “Ancestor thinks too highly of that Luo Feng. He’s only one man, yet we all need to avoid him? Especially those who venture into Universe Boat? Fortunately, I’m in Tilted Peak Sector, so I don’t need to care about him... Luo Feng? Just wait and see. I’ve been staying in the holy land and have never come out. Now that I’m in Universe Ocean, I might have such luck in the future, and I can surpass Luo Feng.”

Of course Pei Xing Master was jealous of Luo Feng. After all, he had never been in Universe Ocean before. How could he not be jealous? He had never had the chance.

“I must look for the opportunity carefully.” Pei Xing Master kept searching in the inner area of Tilted Peak Sector.

\*\*\*\*\*

The strategy of Purple Moon Holy Land against the humans was to avoid Luo Feng, who was a terrifying handful. They only targeted other human universe masters. Now that Luo Feng was in Universe Boat, the universe masters around him all avoided him, even if they had something important to do.

The great beings from Purple Moon Holy Land in Universe Ocean were all intimidated, whereas those in Tilted Peak Sector and Flowing Level Mountain were just as relaxed as before.

\*\*\*\*\*

Only half a month after the senior meeting in the human race, Primal Chaos City Leader summoned Luo Feng and notified him that there was some new information.

“Teacher,” Luo Feng said. He had high expectations.

“A universe master within the Hong Alliance has many friends, and he’s friends with two universe masters from Eastern Emperor Holy Land,” said Primal Chaos City Leader. “After talking with him, we know that the true treasure wing Pei Xing Master has appeared in the original universe more than ten universe eras ago. It was used by a universe master from other universe eras. However, he was killed by a great being from Purple Moon Holy Land, and the wing true treasure was seized. It didn’t show up in Universe Ocean until recently.”

Now, Luo Feng understood. More than ten universe eras ago... No wonder there wasn't any detailed information about it from the other three universe eras. Only the two holy lands would know more about such ancient information.

"That true treasure wing was called 'Five-Color Cloud Wing' before," said Primal Chaos City Leader. "It's one of the best top-tier true treasure spiritual weapons. Firstly, it can change directions and accelerate its speed very fast. Secondly, it has binding power. The binding power performed before can't compare to that which Pei Xing Master performed. Apparently, Pei Xing Master performed a supreme technique using Five-Color Cloud Wing."

Luo Feng's eyes gleamed. One of the best top-tier true treasure spiritual weapons? That sounded familiar.

His Shi Wu Wing was one of the best top-tier true treasure spiritual weapons before the origin was recovered, and after it was recovered, it was one of the best pinnacle true treasures, second only to supreme true treasures. And it helped with flying?

"Another piece of information" Primal Chaos City Leader smiled and added, "Five-Color Cloud Wing stood for silver four wings during that universe era."

Luo Feng was shocked. It was easy to change the color of a true treasure. However, the Five-Color Cloud Wing had been silver during that universe era, so silver might have been its natural color.

"That's the information," said Primal Chaos City Leader. "You can decide what you want to do about it."

Luo Feng smirked. "I'll seize the chance, certainly."

\*\*\*\*\*

On a reef at the center of Whirling Swamp Ocean in the inner area of Universe Ocean.

Nobody in Universe Ocean knew that Luo Feng was in Whirling Swamp Ocean. As for Great Thunder Star Master? Even if everyone knew about their feud, nobody dared to meddle. Everyone knew that Luo Feng was incredibly powerful, so if someone actually messed with him, he would treat them as he treated those from Purple Moon Holy Land.

Luo Feng didn't kill and made enemies recklessly. If someone messed with him and brought trouble upon themselves, no powers in Universe Ocean would interfere.

"Great beings find that Great Thunder Star Master has appeared in Universe Boat."

"He was spotted twice, and he's racing here. He'll arrive very soon."

"It's going to be incredible. The furious Great Thunder Star Master and Milky Way Horde Leader, who has the inheritance from Duan Dong River. What's the fighting going to be like?"

15 universe masters had already gathered on the reef, including a level-six universe master from the Eastern Emperor Holy Land.

Inside Star Tower, Luo Feng was looking down. He could hear those who were talking outside.

"Great Thunder Star Master," Luo Feng whispered.

He had already learned about the traces of Great Thunder Star Master from the Hong Alliance's intelligence network. He reckoned that it would take Great Thunder Star Master around a month to arrive here.

Great Thunder Star Master, I'll use you to test the two techniques of my Star Tower, Luo Feng thought.

Blood Shadow Blade was at top-tier level seven, and with Duan Mie, it was at top-tier level eight.

Star Tower was even more incredible. The fifth level of engravings on Star Tower was at level eight, and with Duan Mie, it was at level nine! Even the most powerful universe supreme masters in Universe Ocean could only wield power at top-tier level nine. Most of them were at level eight, while some of them were at level seven.

With Duan Mie, Blood Shadow Blade, and Star Tower, Luo Feng could stand among the top universe supreme masters. Only a few could surpass him. Of course, one of his weaknesses was that he couldn't break the rules! No matter how powerful a universe master was, he still had to follow certain rules, like the speed limit... This was Luo Feng's weakness.

Even though Luo Feng was absolutely confident, other powers in Universe Ocean still found it foolish that he dared to provoke Great Thunder Star Master. Besides, humans still needed to deal with the more powerful Purple Moon Holy Land and those from the original universe. They all thought that Luo Feng was too crazy.

"Huh?"

Luo Feng frowned in Star Tower as an important email was sent to him through the virtual universe. Luo Feng clicked on the email.

Suddenly, he stood up and looked exhilarated. "Teacher...! He became a universe supreme master?"

### **Chapter 1324: Waiting to Capture**

"Teacher finally make the breakthrough!"

Luo Feng was excited. When he shared the inheritance from the ancient civilization, Primal Chaos City Leader was already about to make the breakthrough. With the detailed guide of inheritance and the pressure from the war, the humans all wished for Primal Chaos City Leader to make the breakthrough before the final war. However, he hadn't made the breakthrough even after the war ended. Fortunately, Luo Feng had become a universe master and had saved the war by using his endless Remote Ocean.

"Teacher craved to make a breakthrough before the war, yet he couldn't. After the war, he did."

Luo Feng in the virtual universe immediately took off for where his teacher lived.

\*\*\*\*\*

At the top of Thunder Island in the virtual universe, there was hustle and bustle. Once Luo Feng arrived, he heard all the voices—vigorous, squeaky, and hoarse...

“Wow!” Luo Feng took a look and couldn’t help being surprised. “So many are here, even from other races.”

“Milky Way Horde Leader?” said a universe master from another race with dozens of antennae. “Come, Milky Way Horde Leader. Your teacher made a breakthrough, and you, as his disciple, need to give him some great presents to congratulate him.”

Many beings from other races walked toward Luo Feng. It was a big deal when someone became a universe supreme master! In the original universe, a race would be automatically classified as a pinnacle race once there was a universe supreme master within the race. Teacher Origin had been eternally suppressed, and Huge Axe had died. There hadn’t been a universe supreme master in the human race for a long time, which worried those in the Hong Alliance. Now that Primal Chaos City Leader had finally become one, all the universe masters felt that there was now a leader!

“Luo Feng, Luo Feng.” Primal Chaos City Leader, who was surrounded by many beings, waved at Luo Feng.

Luo Feng smiled and walked forward. “Teacher.”

“I was under lots of pressure and could relax even a bit before that war, and I wanted to make a breakthrough before the war. However, I didn’t...” Primal Chaos City Leader shook his head and smiled. “I didn’t expect to make the breakthrough after relaxing.”

Luo Feng said, “Teacher, you’ve prepared for a long time, so it’s not surprising.”

He looked around, seeing how hectic the surroundings were. Luo Feng understood that the situation was very tense in the original universe, so Primal Chaos City Leader told all the universe masters in the Hong Alliance once he had made his breakthrough. Everyone was celebrating, enhancing the unity within the Hong Alliance.

The celebration lasted for more than half a day, after which the other races left one by one. Only human universe masters remained.

“Luo Feng, why did you transmit the information to us secretly and tell us to stay? What happened?” Ice Mountain Master asked.

Primal Chaos City Leader, Darkness Master, Long Yan Master, and the others all looked at Luo Feng. During the party, Luo Feng had indeed secretly sent a message to human universe masters.

Luo Feng looked around. “There will be a fight between me and Great Thunder Star Tower.”

Everyone suddenly became silent. Although the humans were confident in Luo Feng, a fight with Great Thunder Star Master was not a trifling matter.

“Luo Feng, Great Thunder Star Master is not easy to deal with,” said Peng Gong Master. “Huge Axe died because of him, so we do need to avenge him. However, we don’t need to rush it.”

“There’s a 30 percent chance I can kill Great Thunder Star Master,” said Luo Feng.

“Kill him?”

Everyone, including Primal Chaos City Leader, was shocked to their very core.

Kill a universe supreme master? Even other universe supreme masters didn't dare to claim something like that, yet Luo Feng said it—and as only a universe master?

They had, however, seen Luo Feng's plan before. They had witnessed how Luo Feng's endless godly power ocean could resist the soul attack from both the united forces alliance and the Freedom Alliance, so they at least had some confidence in him.

"30 percent?" Primal Chaos City Leader said.

"Yes." Luo Feng nodded. "But he's a universe supreme master, after all. I myself am not powerful enough to kill him, so I need the surroundings in the three Lands of Extremis, which is why I said only 30 percent! If he's arrogant, he might be hit."

Hua!

The human universe masters—including Void Gold Master, Remote Lord Master, and Qing Dong Master—were all astonished and excited at the same time. They found it too good to be true, yet they also knew that Luo Feng had both Boat of Mausoleum and the inheritance from Duan Dong River. With some special skills, he might actually be able to do it.

"If I succeed, I can get 'Great Thunder Godly Armor' from Great Thunder Star Master!" yelled Remote Lord Master.

Great Thunder Godly Armor was a supreme true treasure that belonged to Great Thunder Star Master.

"Teacher." Luo Feng smiled. "I tell everyone to stay because I can actually succeed. With any luck, all the great beings from Thunderstorm Star race will die instantly after Great Thunder Star Master is dead, and his small universe will dissipate. Lots of true treasures will appear..."

Everyone understood now.

Universe masters and those under them couldn't control their own destiny. If they lived in the original universe, their life origin was the original universe. As for those life forms from the first and the second universe era, their lives were bound to miniature universes! Once a miniature universe crumbled, all the lives bound to it would die. Of course, if a miniature universe became a holy land, the undying fighters, universe knights, and universe masters in it could live forever.

"Everyone in the race will die, and there will be countless valuables. We do need to pay attention." Primal Chaos City Leader nodded and looked to Darkness Master. "Little brother, you'll go yourself. If Luo Feng succeeds, and the miniature universe starts to crumble, you can get all the valuables."

"Okay." Darkness Master nodded and looked at Luo Feng. "Don't make me go there for nothing."

Luo Feng smiled. "I'll try my best."

Nobody in Universe Ocean could say for certain that they could kill a universe supreme master. Luo Feng was gambling as well!

\*\*\*\*\*

Darkness Master secretly left the original universe the same day, and it took him six days to get to the miniature universe of Great Thunder Star Master by natural wormholes, teleportation, and fast flying.

“Miniature universe.”

A giant black pyramid floated in the chaos city, and inside the black pyramid, Darkness Master looked at the miniature universe in the distance.

“That Luo Feng is indeed crazy. He’s trying to kill a universe supreme master. Even if he’s going to use the surroundings in the Land of Extremis, it’s still incredible.”

\*\*\*\*\*

On a giant reef at the center of Whirling Swamp Ocean in Universe Boat.

“It’s incredible.” Luo Feng stayed in Star Tower and looked down. He could hear the discussion among universe masters. “Normally, only universe supreme masters can kill other universe supreme masters during a fight. I haven’t heard of any universe masters who killed universe supreme masters.”

“I, Luo Feng, already have power at level nine! I’m even top-tier among universe supreme masters. Only my speed can’t exceed the limit. I can totally create a miracle.”

Luo Feng was aggressive. It was possible that he could do it in one-on-one combat. However, if it was one to two or one to three, there wouldn’t be any hope, which was why he only provoked Great Thunder Star Master. If Zhen Jia Emperor and Dragon Rock Ancestor also came, Luo Feng would definitely leave and spread the word that Great Thunder Star Master was a coward.

\*\*\*\*\*

Days passed.

Hong! Long! Long!

The whirlpool in Whirling Swamp Ocean grew increasingly terrifying, and the wind was getting stronger and stronger. The wind on the reef was milder, and the 15 universe masters stood there, waiting.

“Great Thunder Star Master will be here in a short while.”

“Yes.”

“Just wait and see. A fight between Great Thunder Star Master and Milky Way Horde Leader! What a show to look forward to.”

None of those universe masters wanted to miss it.

Just as they were chatting, a giant bolt of lightning slashed the sky above the darkness of Whirling Swamp Ocean. It arrived on top of the reef from the space in the distance. The universe masters who were originally relaxed were all excited.

A voice came from the sky. “Human brat! Give me Thunder Shuttle Master!”

The giant bolt of lightning from the sky formed the shape of a towering thunder giant. A giant ball of lightning was spinning on its chest. He gazed down with an icy expression.

“Great Thunder!” said a cold voice.

A silver-caped and silver-winged young man walked out of the side door of Star Tower. He extended his left hand, and Star Tower immediately shrank and fell onto his palm. He sneered and looked up at the thunder giant, who was standing still, “Great Thunder, Thunder Shuttle Master’s life is in my hands, now. How dare you still be so reckless in front of me?”

“Humph!” The thunder giant in the sky looked down and snorted, trying to suppress his fury. “Tell me, what must I do before you will let Thunder Shuttle Master go?”

“Easy,” said Luo Feng. “Kneel and grovel in front of me and beg for my mercy. Then I’ll spare Thunder Shuttle Master.”

The universe masters from the other races were all shocked. Luo Feng was insane!

“Bastard!” the thunder giant roared. “You dare to insult a universe supreme master? You deserve to die!”

Luo Feng looked up at the thunder giant in the sky. “Insult you?” he said. “If I were powerful enough, I would have tortured and killed you 1,000 times!”

Great Thunder Star Master looked down. He immediately understood that the humans knew the three who had been involved in Huge Axe’s death. That was why Luo Feng insulted him like this.

“It seems you’re not going to give me Thunder Shuttle Master,” said Great Thunder Star Master, looking down.

“I didn’t mean to in the first place!” said Luo Feng coldly.

“Thunder Shuttle...” Great Thunder Star Master said in the sky. “I’ll avenge you.”

All the universe masters already hidden in the palace true treasures grew excited after hearing him say this. They all understood that Great Thunder Star Master no longer planned to rescue Thunder Shuttle Master. Instead, he was going to fight Luo Feng.

“Human brat, I’ll show you how stupid it is to challenge a supreme master!” Thunder giant roared.

His right leg, which was 100 million kilometers long, turned into a great bolt of lightning, striking toward the reef. It was so powerful that the space the lightning passed through was shattered into particles.

### **Chapter 1325: War Under the Ocean**

“Great Thunder Star Master is really out of his mind.”

“He must have treated us as nonexistent for him to be able to attack all the way here.”

The universe masters who had hidden in their palace true treasures were all scared out of their wits. Quickly, they started to manipulate their palace true treasures and flew off in all directions to avoid him. Even if they were all hiding in their palace true treasures, even in a head-on confrontation, they would still be able to survive the attack and just be merely affected by the waves of the attack.

The humongous lightning bolt was earth-shattering, and it had crashed down toward Luo Feng, who was right in the middle of the reef.

Hong!

Snake-like electrical currents appeared like rolling waves.

“Roar!” Upon being bombarded by the lightning bolt, a gigantic, single-horned lizard standing in the middle of the reef looked up at the sky above. “Great Thunder! If you are truly capable enough, then bring it on!”

With a thrust of his four hooves, the gigantic, single-horned lizard charged straight into the endless Whirling Swamp Ocean at its side.

“A body-transforming beast god?” The thunder giant looked down from the sky above and sneered. “Merely the technique of a universe master, and yet you dare to show off before me.”

From the sky high above, the thunder giant charged down at the endless Whirling Swamp Ocean in an instant. After creating a splash of icy-cold water, the thunder giant dove into the ocean.

Sou! Sou! Sou! Sou! Sou! Sou!

Universe masters from the various other races, who had fled far from the scene to hide and watch the war, boarded their palace true treasures and flew back to the reef.

“Milky Way Horde Leader has transformed into a Golden Beast God and fled into Whirling Swamp Ocean. Great Thunder Star Master is in hot pursuit and has charged into the ocean too.”

“It is extremely dangerous within Whirling Swamp Ocean. That Milky Way Horde Leader is simply out of his mind.”

Fifteen universe masters from various races were watching the ongoing war, but no one could clearly see what was happening, they could only rely on the energy ripples detected to judge the situation.

\*\*\*\*\*

At the ocean bed of Whirling Swamp Ocean.

“Haha...” Great Thunder Star Master was moving at a high speed within the endless ocean water, and he was brimming with confidence. “That human chap! You think you are my match in this Whirling Swamp Ocean? How wrong you are!”

As a universe supreme master, Great Thunder Star Master was not foolish. He was aware that the only threat Luo Feng could use against him was his extremely strong ability to survive. Because Luo Feng had the Boat of Mausoleum, no matter how dangerous the environment was, so long as he hid in it, he could pass through the worst. This was why if they were in extremely dangerous environments like the core ground of Universe Boat, he would never get involved with Luo Feng.

Whirling Swamp Ocean was one of the dangerous lands in the internal region of Universe Boat. But when compared to the core region, there was a vast difference in the level of danger!

“I have a supreme true treasure godly armor on me and possess the godly body of a universe supreme master,” Great Thunder Star Master told himself. “Relying on these, all the other whirlpools in the entire Whirling Swamp Ocean will not be able to harm me. The only threat I face now will be the core of this Whirling Swamp Ocean—the core whirlpool, which is the birthplace of many pinnacle true treasures.”

How vast the Whirling Swamp Ocean was! The only place that could annihilate Great Thunder Star Master was the core whirlpool of this ocean.

“So long as I avoid that place, I will not be in any danger.” Great Thunder Star Master was very confident.

Sou!

The thunder giant moved extremely quickly—so quick that it far exceeded 100 times the limit of light speed. Soon, he caught up with Luo Feng, who had transformed into Golden Beast God. Golden Beast God was trying its best to advance in the direction of the core whirlpool. Apparently, it wanted to take the battle to the core whirlpool.

“You, young human chap! You want to take the battle to the core whirlpool? You want me killed by the core whirlpool?”

Great Thunder Star Master came crashing all the way to end up in front of Golden Beast God. With one kick, a large lightning bolt went crashing down to hack onto the body of Golden Beast God. Golden Beast God was thrown off-balance as he retreated backward.

“So foolish! My speed far exceeds 100 times light speed. If I want to fight, I fight. If I want to leave, I leave. Why would I be so silly as to enter the core whirlpool?” Great Thunder Star Master laughed loudly. He was, indeed, very arrogant.

On the outside, he may have seemed arrogant, but in his heart, Great Thunder Star Master was exercising extreme vigilance.

In the entire Whirling Swamp Ocean, the only place that posed a threat to him was the core whirlpool, which was not too far away! Only this one place! But Great Thunder Star Master understood that most of the time, a downfall might not be due to the dangers on the surface, but rather, due to accidentally falling into the ploys of malicious manipulators. This Luo Feng had, after all, received the inheritance of the pulse of Duan Dong River. Who knew what special techniques he was capable of?

“I must be vigilant,” Great Thunder Star Master reminded himself.

“Roar!” Luo Feng let out a roar, and the head of the Beast God turned to look at Great Thunder Star Master. In a low voice, it taunted, “How timid you are! Could it be that you dared not fight me by the edge of the core whirlpool?”

The moment one fully completed the Beast God path to become a universe master, then most certainly, he would be able to transform into a Beast God! Not only was Luo Feng in the godly body of a Beast God, but even his Crazy Demon Extermination Godly Armor had transformed into Beast God form. His original body was protected within his Crazy Demon Extermination Godly Armor, which, in turn, took on the form of a Beast God. This Crazy Demon Extermination Godly Armor would then be like a pinnacle

palace true treasure, where only the core whirlpool of Whirling Swamp Ocean could destroy this Golden Beast God. Other places would pose no threat to it at all.

“You really think I’m as foolish as you?” The thunder giant gave an angry roar.

With a step forward, he suddenly raised both arms high up and joined them together. The moment his lightning arms were joined, countless lightning bolts appeared in an entangled mass. Then, together with his raised arms, he let out an angry shout and charged at Luo Feng.

It as though the universe was hacked in two.

“Roar!”

Luo Feng, who was in the form of a beast god, also roared. Without any intention of dodging, he leaped forward instantly to meet the approaching thunder giant.

Pa! Pa!

A gigantic lightning bolt that resembled a whip of lightning lashed out at the fast-approaching Golden Beast God.

“Ripping the sky with one claw!”

In mid-flight, Golden Beast God suddenly extended its right-hand claws with a wave, in preparation of confronting the approaching lightning whip. Every claw on its right hoof was as sharp as battle blades. Or, more accurately, every claw was a battle blade—Blood Ghost Blade!

The right-hand claws of Golden Beast God waved about without restraint, and the claws were naturally doing the same. A streak of blade light appeared. It was weak when it first appeared, but shortly after, it grew bigger and thicker, to the extent of being able to sweep through everything within heaven and earth.

Hong!

A miniature universe appeared and enveloped the huge lightning whip that was hacking at Golden Beast God. The miniature universe cracked open to reveal a thin blade ray that sliced through the lightning whip, causing it to disintegrate in an instant. The blade ray then skimmed across Whirling Swamp Ocean, easily slicing through the ocean as though it were as soft as tofu. It reached the thunder giant, where it continued on its streak of attack and swiftly sliced through its body.

This was Luo Feng’s self-created blade technique—Nirvana Renaissance!

Peng! Peng! Peng!

The thunder giant was forced to retreat a few steps back, creating ripples in the surrounding ocean water. He looked at Luo Feng, feeling a mixture of confusion and shock. Did Luo Feng just execute an eighth tier as the top level combat power?

A moment ago, the continued consumption of Luo Feng’s godly body had been to sustain the constant execution of Extermination. Furthermore, with the unique characteristic of Blood Ghost Blade, Luo Feng was able to attack with a combat power that reached the eighth tier as the top level! The strength of

this force—even with a supreme true treasure armor as protection—meant that Great Thunder Star Master would still feel the pressure. His combat power was only at the eighth tier as the top level!

“Impossible! Ah!” The thunder giant let out a roar of rage. “Even if you have the inheritance of the pulse of Duan Dong River, you still have to die today!”

Without warning, numerous arms started appearing from around the thunder giant’s rib cage; where he originally only had two arms, now he wielded a total of 36 arms. Thunderstorm Star was originally a race that originated from Thunderstorm Star Planet. The moment the thunder giant became a true god, because his source of origin had designed his body, he would return to his true form, which was the most dazzling light sphere in the core of his body.

His arms, head and all other body parts were gathered and pieced together with his godly power, so of course, he could have any number of arms he desired.

“Take this blow of mine!” the thunder giant bellowed.

Every arm held a strange, triangular cone, making a total of 36 triangular cones. Every single one of them was a pinnacle true treasure. This formed a complete set of pinnacle true treasures, “Universe Imperial Cone,” which was quite compatible with this thunder giant.

“Roar! Bring it on!” Golden Beast God bellowed as he went head-on with thunder god again.

Pa! Pa! Pa! Pa! Pa! Pa!

Streaks of golden rays of lightning shot out from every sharp cone. A total of 36 golden rays of lightning converged in a single moment to form a huge golden cone!

The claws on Golden Beast God’s right hoof waved wildly, and the blade ray was swept up with everything else!

Soundlessly, the miniature universe enveloped the golden cones at the point where both were colliding against one another. Both were annihilated at the same time, and the strong after-effects swept up everything in the surroundings.

Golden Beast God suddenly released a small tower. “Go!”

The small tower expanded rapidly. Golden Beast God roared as he attempted to charge forward again.

“Star Tower!” Great Thunder Star Master saw Star Tower flying toward him, and his eyes reflected his greedy desires. He did not dodge the approaching Star Tower.

The claws on the hoof of Beast God—who was actually Luo Feng in his transformed body! And the triangular cones of Great Thunder Star Master! A head-on confrontation between the two entities commenced, and power met with power!

Peng!

At lightning speed, Star Tower, lofty like a towering mountain, crashed onto the head of Great Thunder Star Master, who was making no attempt to dodge. Great Thunder Star Master’s entire body was sent

crashing down. There was a dent in his skull as part of it sank in from the blow he had received. Yet with the flow of lightning, his skull seemed to recover in no time.

“Eighth-tier as the top level combat power!” Great Thunder Star Master was shocked and gazed at Star Tower.

“Great Thunder!” Beast God Luo Feng roared as he charged forward like a lunatic.

Alternating between his left and right hooves, he was clawing his way forward. Blood Ghost Blade was, at times, a sharp claw on his right hoof; at other times, it would be a sharp claw on his left hoof! Golden Beast God was incomparably brutal and fierce, as he was clashing against Great Thunder Star Master in an all-out faceoff. He refused to lose!

At the same time, Star Tower was exchanging blows with Great Thunder Star Master. Every hit was like a full-fledged attack dealt by a universe supreme master. His attacks carried power at the eighth-tier level!

Within a fleeting moment, it felt as though two universe supreme masters were attacking at the same time. Such an impact sent Great Thunder Star Master retreating backward.

“How could he be so strong?” said Great Thunder Star Master. “Even for a universe supreme master to execute such force at the eighth-tier level... Firstly, he must have a secret technique, and secondly, he must have a suitable true treasure. This Luo Feng, be it at close range or through the manipulation of Star Tower, is able to unleash such powerful force. He—he is only a universe master! This inheritance of the pulse of Duan Dong River is simply too powerful.”

Great Thunder Star Master was forced to retreat upon being attacked.

As he looked on, behind him was the core whirlpool of the Whirling Swamp Ocean. After all, the reef was near to the core whirlpool to begin with. Right at the beginning, when Luo Feng entered Whirling Swamp Ocean, he headed straight in the direction of the core whirlpool, so the distance was reduced even more. At that moment, the battle was brought right next to the core whirlpool as they continued to fight. The strangulation power of the whirlpool was so strong that it had already spread its influence all over the surroundings.

“How can a mere universe master wield such terrifying combat power?” Great Thunder Star Master said. He was jealous and angry at the same time, but he still maintained a cool composure. “Behind me is the core whirlpool. I can’t go on fighting now. If I continue to fight, I will definitely be at a disadvantage.”

Therefore, he made up his mind very quickly.

“Hahaha... Young human chap, this inheritance of the pulse of Duan Dong River is indeed impressive if it can even allow you to achieve such combat power, where I am unable to do anything to you. I shall stop here for now. While I have annihilated Huge Axe, you have killed my Thunder Master in return. Calculating the difference, I am still the winner. Haha...”

While still laughing with great arrogance, Great Thunder Star Master immediately accelerated and prepared to make a speedy departure.

### **Chapter 1326: Terrifying Great Thunder Star Master**

Great Thunder Star Master thought he couldn't gain anything even if he kept fighting Luo Feng. On the contrary, he might suffer losses if he wasn't careful enough. He immediately decided to leave, and just when he started to flee, endless and dimming golden light spread, covering an area of more than one square light year.

Snowy sand floated. It was as if it were another dimension. The sand floated around the ocean but was immediately annihilated when it got close to the core whirlpool. Apparently, it couldn't cover that terrifying area.

Golden Country and Snow Sand Ocean! They were performed at the same time!

Under "Duan Mie," the power was incredibly strong, and it bound Great Thunder Star Master.

"Humph!" Great Thunder Star Master looked aloof. The binding affected him, but he could still be 100 times faster than light speed. It would just take him more time.

"Suppress!" Luo Feng's beast god suddenly yelled.

Star Tower, which was trying to strike at Great Thunder Star Master like a mountain, suddenly started to spin. It started to give out a dimming light, and there were engravings on the surface of the tower that looked like screw threads. The light on the screw-thread engravings kept spinning, and Star Tower pressed against Great Thunder Star Master! In terms of speed, even great beings couldn't compare with weapons.

Weng!

Star Tower had lost its ferocity before. Instead, it kept pressing down, trembling. Star Tower immediately fell on the head of Great Thunder Star Master.

"Huh?" Great Thunder Star Master, who was trying to flee, was like a mouse being suppressed by a giant rock. He couldn't move. "Heavy! Too heavy!"

Great Thunder Star Master felt the full impact of the pressure being exerted by Star Tower. It wasn't just weight, but suppression. When Star Tower fell on him, it was as if they were combined; the weight from Star Tower became his weight as well. It felt as if he were carrying a miniature universe! It was so heavy that he couldn't walk at all.

It was like Remote Ocean!

Remote Ocean couldn't move by itself, and it was staggeringly slow! Now, Great Thunder Star Master was slower than endless Remote Ocean!

"Impossible, impossible!" Great Thunder Star Master yelled, and lightning burst from his body. The thunder light ball at the center of his body suddenly exploded and reached its maximum power. Great Thunder Star Master could only fly slowly—slower than 10,000 kilometers per second. "No, no, no!" he roared, trying to speed up.

Ten thousand kilometers per second was his limit. The more he sped up, the stronger the pressure from Star Tower became!

\*\*\*\*\*

Luo Feng was quite satisfied.

“I’ve already fully comprehended the fourth and the fifth level of engravings on Star Tower. The fourth level is called ‘Hit.’ The fifth level is called ‘Suppress.’”

Luo Feng didn’t bother coming up with mysterious names. However, the fourth and fifth level of engravings on Star Tower excited him. The main function of Star Tower before was hitting, and it was at level four. The fifth level was at level eight. Under Duan Mie, it was at level nine! Under such powerful suppression, even Great Thunder Star Master found it difficult to move.

If you have a helper you can collaborate with, you can blast my Star Tower away, Luo Feng thought. If we were somewhere safer, you could keep fighting me. After all, maintaining attacks at level nine consumes a great deal of godly power, and I kept performing Duan Mie, so it consumes much more. You have a larger godly body have more advanced godly power, so you’ll definitely have an advantage if we’re stuck in a long fight. Unfortunately for you... I set you up! Everything’s going as planned. Die, Great Thunder Star Master!”

Thoughts flooded Luo Feng’s mind. When he controlled the fifth-level engravings, and when Star Tower suppressed Great Thunder Star Master, a giant object appeared from the ocean. The ancient ship showed up and raced toward Great Thunder Star Master.

“No!” Great Thunder Star Master felt that he was being pressured by Star Tower and couldn’t get away. He used “Universe Imperial Cone” to attack it, but even his own body was constrained by the suppression, so he couldn’t move Star Tower at all. He was incredibly slow.

Boat of Mausoleum, which was ten billion kilometers long, charged at him. He was slower than 10,000 kilometers per second, so he couldn’t avoid it at all!

“Humph!” Luo Feng’s beast god watched.

He was doomed! Great Thunder Star Master was definitely doomed! His godly power could maintain suppression at level nine easily. Great Thunder Star Master was being hit by Boat of Mausoleum, which couldn’t be moved even by a large group of universe masters. This terrifying ship could definitely push Great Thunder Star Master into core whirlpool, which was exceedingly powerful.

There was a tranquil portal at the very center as that at the center of a tornado. Sometimes, there would be true treasures emerging from the core whirlpool. However, Great Thunder Star Master would be crushed and killed before it could reach the center of the core whirlpool. Even universe supreme masters needed supreme true treasure palaces to survive the core whirlpool.

\*\*\*\*\*

Star Tower was for suppression, Boat of Mausoleum was for pushing, and the core whirlpool was for killing.

Luo Feng stared at that thunder giant and delighted in his life withering away.

“You made me—you made me do this!” Great Thunder Star Master suddenly roared in anger. “Luo Feng! Luo Feng! You made me do this! You did this! Drop dead!”

Luo Feng sensed that something bad was going to happen.

“Quick, push him!” Luo Feng drove Boat of Mausoleum with all his power, making it as fast as possible.

At that moment, Great Thunder Star Master had gone completely insane. After that roar, there was black air everywhere on his giant body, surrounded by lightning. Black air emanated outward, making him howl in agony.

That mysterious black air looked harmless, but Luo Feng’s instincts told him otherwise.

Danger, danger, danger! Every part of his godly power was screaming as if it had encountered a terrifying being. Dodge!

Luo Feng rushed into Boat of Mausoleum. Star Tower was suppressing Great Thunder Star Master, so he could only hide in Boat of Mausoleum.

Great Thunder Star Master was insane. “You want to kill me?” he roared. “You can die first!”

The endless black air surged out of his thunder body, and it slashed the surrounding space. Its speed was limited like a domain true treasure, covering the area after it was performed. It spread toward Luo Feng instantly and started to pierce Golden Horn Beast Luo Feng.

“This is nothing, nothing,” Luo Feng told himself. “I can totally resist it. My Crazy Demon Extermination Godly Armor is also in the shape of a beast god, like a pinnacle true treasure palace.”

Although Luo Feng was fearful in his heart, his godly power was terrified, as if at the mercy of all-consuming flames.

His godly power was terrified of the black air; it wasn’t influenced by Luo Feng’s mind. Luo Feng’s logic told him that nothing existing in Universe Ocean that was this horrifying. After all, he was very powerful, and the beast god formed by Crazy Demon Extermination Godly Armor was like a pinnacle true treasure palace. Crazy Demon Extermination Godly Armor needed to be broken before his godly body could be hit! However, no supreme masters were able to break a pinnacle true treasure palace.

Hu!

The seemingly ordinary black air enveloped the entire Golden Beast God.

How did Crazy Demon Extermination Godly Armor form a beast god? It was via godly power! That was why there was godly power burning on Crazy Demon Extermination Godly Armor.

Chi! Chi! Chi!

The black air and the golden beast god kept consuming each other.

As the black air completely enveloped the Golden Beast God, the godly power maintaining Crazy Demon Extermination Godly Armor was suddenly consumed at a fast rate! The black air was consumed as well, but there was too much of it, and it was coming from every inch of the godly body of Great Thunder Star Master.

“Hold it, hold it, hold it...” Luo Feng tried to transmit his godly power as much as possible to maintain Crazy Demon Extermination Godly Armor, but it was consumed faster than it was being supplied. It was like a ball of flames being extinguished by water.

As for Crazy Demon Extermination Godly Armor, it was disintegrated as soon as the godly power was fully consumed.

Hu!

The horrifying black air twisted into a weird shape, enveloping Luo Feng. Godly power and black air kept consuming each other!

“Hahaha...!” Great Thunder Star Master roared recklessly. “You made me do this! You made me do this! You’re only a universe master, and you don’t have much of a godly body or godly power! We’re not even at the same level. If you were a universe supreme master, you would be able to last longer... However, you’re only a universe master. Even if your godly power were 1,000 times more, you would still die in the end. Hahaha... Once you die, all your true treasures, including Star Tower, will be mine. Even if you have multiple bodies, they won’t make it in time to save you.”

Great Thunder Star Master was furious and excited at the same time. Just as he stopped shouting—

Hua!

Luo Feng’s godly body in the distance was already annihilated. He had no idea how to deal with black air like this. Even the memory stones from the Duan Dong River inheritance didn’t have any records of such black air! Or if there was, it had been covered by the original mind.

Luo Feng had no idea how to resist or attack it! And without an attack, he could only use his godly power. As for his original body, at 100,000 kilometers tall, it was already annihilated.

Hua! La!

The four silver wings, Crazy Demon Extermination Armor, a world ring, and Blood Shadow Blade all floated.

This greatly excited Great Thunder Star Master.

However, the enormous spaceship, Boat of Mausoleum, didn’t stop at all! Rather, it still slammed into Great Thunder Star Master.

### **Chapter 1327: Death of a Supreme Master**

In the palace of Boat of Mausoleum, Golden Horned Beast Luo Feng stood on his four hoofs. He looked outside and was terrified. “What’s that black air? It’s like the opposite of godly power—like water and fire, or light and dark. It’s exactly the opposite to godly power... I have never heard of power like this.”

Such helplessness intimidated Luo Feng. He was indeed powerful, yet he could do nothing to resist it. The black air wasn’t even recorded in the inheritance from Duan Dong River, or it had been recorded but was covered by the original mind.

“Perhaps... Perhaps that’s why the original universe wants the three dead.”

Luo Feng suddenly understood it. If every universe supreme master had that black air, it wouldn’t be a secret, and he should know about it. At least there should have been some records about it in the inheritance from Duan Dong River. Apparently, that black air was extraordinary, as Great Thunder Star Master didn’t even perform it at first and chose to run away. He only used it when he was almost hopeless.

Strange objects aren’t allowed in the original universe, thought Luo Feng. Yuan Ao Master was killed because he had a strange object, and the strange object was banished from the original universe. That black air is owned by Great Thunder Star Master, which also makes the original mind want him dead. Besides, why did they want Huge Axe dead?

Thoughts flooded Luo Feng’s mind. He sensed that Universe Ocean wasn’t as simple as he had believed. Great Thunder Star Master, Zhen Jia Emperor, and Dragon Rock Ancestral God... They must have held a great secret.

Luo Feng’s mind worked very quickly. He was staring at the outside and driving Star Tower with his godly power to suppress Great Thunder Star Master. Both his original body and his Golden Horned Beast body could drive the true treasure.

Hong! Long! Long!

Boat of Mausoleum, flying swiftly, crashed into Great Thunder Star Master.

The ten-billion-kilometer Boat of Mausoleum was enormous! It would take Great Thunder Star Master more than a day to fly that far at his speed.

Hong!

It was a horrifying strike.

“Ah!” shouted Great Thunder Star Master. “He has another body! Goddamn human!”

Great Thunder Star Master became desperate. He had thought that he had killed Luo Feng and that the true treasures and valuables wouldn’t be a threat anymore without being controlled. Even though he had suffered a huge loss, it could have been made up for through all the valuables.

Even if Luo Feng had another body, it couldn’t do anything to help if it was in the original universe. However, Luo Feng’s Golden Horned Beast body was in Boat of Mausoleum!

Luo Feng was very careful and didn’t dare to be reckless. Though he was confident, he still had a back-up plan. His two godly bodies wouldn’t come up together usually. His original body would do the adventuring while his golden horned beast body would stay in Boat of Mausoleum. Even if his original body was killed, his golden horned beast body could come out and save the day.

This backup plan had helped Luo Feng dodge a bullet this time. If both of his bodies had come out, both of them would have been killed by the black air, and all his valuables would have been seized by Great Thunder Star Master.

Luo Feng secretly rejoiced. “No matter how confident I am, I need to have a backup plan.”

“No, no...!” said Great Thunder Star Master.

He was suppressed by Star Tower, and the towering Boat of Mausoleum kept pushing him to the core whirlpool. He wasn't able to resist the power from Boat of Mausoleum at all, and he kept being pushed backward. He was already in the core whirlpool...

“I have fought until now,” said Great Thunder Star Master. He was in agony. “I risked everything to transcend incarnations! I'm not meant to die here! It shouldn't be this way! No! I should die at the hands of a universe master!”

With that unwilling shout, Great Thunder Star Master was pressed into the core whirlpool by Boat of Mausoleum. The tearing power from the core whirlpool in Whirling Swamp Ocean kept hitting him, and his thunder giant body was torn apart quickly. Even with the supreme true treasure armor weakening the attacks, the power still damaged his body through the godly armor.

After only a short while, the last roar came: “I'm not willing!”

Everything went silent. The base of Boat of Mausoleum opened, and a giant entry appeared. Even in the core whirlpool, Boat of Mausoleum was still steady as a rock. It swallowed all the valuables from the dead Great Thunder Star Master and Star Tower.

The giant gate at the base closed, and Boat of Mausoleum flew out.

Sou! Sou! Sou!

Blood Shadow Blade, the silver four wings, and Crazy Demon Extermination Godly Armor all flew into Boat of Mausoleum through the side gate.

\*\*\*\*\*

In the main cabin at the base of Boat of Mausoleum, a golden horned beast walked through the hallway. Just as he was walking, the godly power from Golden Horned Beast extended out of his body and formed a human shape. Soon, an earthling original body was formed. The earthling original body had 90 percent of the godly body while the golden horned beast only had 10 percent.

“For what it's worth, I'll leave a body in Boat of Mausoleum so I can at least take the true treasures back.”

Luo Feng felt fortunate. He would be more careful after that fight.

Luo Feng and Golden Horned Beast walked to the handrail and saw the large number of objects in the bottom cabin: Star Tower, valuables left by Great Thunder Star Master, and parts of the body of Great Thunder Star Master.

“Come.” Luo Feng waved his hands.

Blood Shadow Blade, Star Tower, Crazy Demon Extermination Godly Armor, and the other valuables flew and merged with the original body.

“No wonder it's a universe supreme master. He even had a body after he died.” Luo Feng smiled and looked down at the pieces of the body.

Universe supreme masters were of a completely different life form than those under them. Life forms determined power, and different life forms had completely different levels of power. Only because of the suppression created by the rules could only wield godly power at 10,000 times that of universe masters.

If there wasn't for suppression, even with the environment, he couldn't have killed a universe supreme master so easily with Boat of Mausoleum and Duan Mie.

"Let me see what valuables I got." Luo Feng started to check his trophies.

\*\*\*\*\*

At that moment, weird things were happening in different areas in the three Lands of Extremis.

"It's dangerous in the front. Let's..."

In the deep area of the inner area of Tilted Peak Sector, six universe masters were carefully looking at the front. One of the masters was talking. Suddenly, a great being from the Thunderstorm Star race fell without warning. His godly body was intact, yet it was lifeless.

The other five universe masters were all shocked.

"He died?"

"How? How did he die without any signs? Nobody attacked him."

"Did the miniature universe he lived in crumble? If a miniature universe crumbles, all the lives bound to it will die. Did Great Thunder Star Master die?"

"I heard that Great Thunder Star Master fought Milky Way Horde Leader, Luo Feng. Could it be...?"

\*\*\*\*\*

At that moment, six universe masters from Thunderstorm race were found to be dead in Universe Ocean, and lots of powers started to contact the 15 universe masters who were watching on the reef of Whirling Swamp Ocean.

On the central reef of Whirling Swamp Ocean, the 15 universe supreme masters were in their palaces, watching the fight anxiously and feeling the ripples of power.

One message after another was sent.

"Did Great Thunder Star Master die?"

"Did you see something?"

All 15 universe masters were talking to their friends and the leaders of their races.

"No, we can't see anything. Luo Feng is fighting Great Thunder Star Master. They're fighting at the bottom of Whirling Swamp Ocean, so we don't dare to go down. The surroundings were shaking before, yet it's quiet now."

“We didn’t see anything. Are you saying that several universe masters from Thunderstorm Star died without being attacked? Yes, Luo Feng and Great Thunder Star Master were fighting at the bottom of the sea. Great Thunder Star Master must have died. Otherwise, there’s no explanation.”

“Ancestor, go to the miniature universe of Great Thunder Star Master. If he dies and his miniature universe crumbles, lots of universe masters and universe knights will be dead instantly! Those valuables don’t have masters now... There’s also storage in the race of Thunderstorm Star. Quick! The humans are still in the original universe, and it’ll take them a long time to arrive there. The miniature universe of our race is close to that one. Quick! Go there now!”

At the same time...

Hong! Long!

The giant spaceship emerged from the core whirlpool of Whirling Swamp Ocean. It covered the sky and land, and it raced forward confidently and recklessly.

Those 15 universe masters who were communicating with their friends and races were all dazed. Then they started to notify others.

“Ancestor, I see it! Boat of Mausoleum! Boat of Mausoleum! Boat of Mausoleum just flew out of Whirling Swamp Ocean... I can’t see Great Thunder Star Master! Great Thunder Star Master must have died! In—incredible! A universe supreme master just died! How did Luo Feng do it?”

“It’s Boat of Mausoleum, and I can’t see Great Thunder Star Master. I don’t see him.”

\*\*\*\*\*

Lots of powers knew instantly, and quite a few powers immediately figured out that the small universe of Great Thunder Star Master had crumbled. All those valuables would be masterless. Many universe masters and even universe supreme masters took off there. They all thought that even Luo Feng hadn’t really expected to win, so humans wouldn’t have arranged anyone outside the miniature universe of Great Thunder Star Master.

\*\*\*\*\*

Endless air permeated. The black pyramid was floating. Inside it, Darkness Master stared at the giant miniature universe in the distance

Suddenly, an email was sent to him through the virtual universe. There were only six words in the email: “Great Thunder is dead. Starting collecting!”

Darkness Master opened his eyes wide and was dazed for three seconds. Then he bellowed, “He really killed a universe supreme master! This nephew of mine is impressive! Hahaha... Crumbling small universe, here I come.”

Darkness Master flew toward the miniature universe in Black Prison Tower. When he was approaching, he saw that the surface of the small universe was already cracked.

**Chapter 1328: Power and Prestige**

Within the miniature universe that was starting to degenerate and collapse, the floating continent was cracking. Cracks appeared in space, creating a scene depicting the imminent end of the universe, but it was, in fact, only the initial stage of the collapse. All living souls that had originally been in this miniature universe had been quietly annihilated. Only numerous floating godly bodies could be seen.

“All my fellow humans. All my fellow humans, come. All of you should come here.”

A black pyramid could be seen flying at high speed. The dark hole of the deep abyss at its base had opened, and it was swallowing without restraint, sucking in treasures it found along the way and even some universe masters and the godly bodies of universe knights. Because on these godly bodies, there might be treasures like godly armor and the like.

Scour and collect! Scour and collect as wildly as possible! No matter how composed Darkness Master was, he was still incomparably exhilarated.

“Thunderstorm Star race only had one universe supreme master. In terms of treasures and wealth in its treasure vault, it is at most comparable to us humans. Should there come a day when we are able to exterminate a top power like the Divine Eye Clan... the wealth we gain will truly be something impressive.”

The humans were, indeed, very poor. Before Luo Feng had met with all his great opportunities, Huge Axe Creator’s supreme true treasure was the only one the human race had. Likewise, Thunderstorm Star race also had only one supreme true treasure. Yet, with the passing of time, the pinnacle true treasures that Thunderstorm Star race had in their possession started to outnumber that of humans.

“By causing our Huge Axe to be annihilated, you have brought yourselves to this sorry end,” said Darkness Master.

At times, the black pyramid would be advancing at high speed. Other times, it would teleport. Then finally, it managed to scour and collect everything it could find within the entire miniature universe. Thereafter, Darkness Master, who was feeling incredibly satisfied, left. He left behind a “clean” yet utterly defeated miniature universe.

\*\*\*\*\*

Not too long later, a stream of golden, flowing light flashed by and dashed into this utterly defeated miniature universe.

“Nothing! Nothing! Everything is gone... who was it? Reaching here before us to scour the entire miniature universe so thoroughly that not a single valuable is left.” A great being from another race, whose body was radiating golden light rays, was hovering within the miniature universe. He felt utterly helpless as he lamented, “I rushed here as fast as I could. Scouring and collecting things would take some time. Could it be... the moment that old fellow, Great Thunder died, his miniature universe was scoured, and everything was taken? Alas... It looks like this was likely done by the humans.”

Thereafter, he helplessly transformed into a streak of light, teleported a few times, and charged directly out of the miniature universe. At that moment, two more streaks of flowing light appeared outside.

“Rampaging Devil God, you actually beat everyone to it!”

“Rampaging Devil God, you cannot be taking all the treasures and wealth in the treasury vault for yourself.”

The two streaks of flowing light came to a halt. Both were pinnacle palace true treasures, and they were speaking up at the same time.

Rampaging Devil God, who was about to leave, let out a howling cry. “I just arrived not too long ago, too. Everything in the treasure vault of the Thunderstorm Star race has already been taken away. I have taken nothing at all.”

“Rampaging Devil God, you are a lone traveler. Is there any need for you to take everything for yourself?”

“Rampaging Devil God, don’t lie. How long ago has it been since Great Thunder Star Master was annihilated? Scouring the entire miniature universe to collect the valuables would require a long time, yet you say you have found and taken nothing at all? Who would believe that?”

Rampaging Devil God flew into a rage immediately. The feeling of being so grievously wronged was unpleasant.

“You two are fools! I said I have taken nothing. That means I have taken nothing! Why should I even lie about it? I have no time to continue this pointless talk with you. I’m leaving!”

Rampaging Devil God howled again. Then, in a flash, he vanished. This Rampaging Devil God had a strange temper. He liked to swallow rocks and metals. A huge amount of the essence of rocks and metals had condensed onto his outer-shell, forming a golden covering. Furthermore, he also had a supreme true treasure, “Bloody Sea Devil Armor,” which, by right, should be radiating an endless bloody light. Yet Rampaging Devil God had instead made Bloody Sea Devil Armor become golden in color. Generally, all places he passed by would be enveloped by a golden hue. The effect was remarkably dazzling.

“That savage fellow, Rampaging, would not stoop so low as to lie. Could it be that he truly did not take anything?”

“Maybe it is the humans! Luo Feng lured Great Thunder Star Master into a battle. Maybe he had devised a plot that succeeded in the end, annihilating Great Thunder Star Master... Then the human race could scour the miniature universe thoroughly and collect everything they found. This would be a sizable amount.”

With that, they too left.

Thereafter, great beings of several groups arrived in succession, but what was left for them was only a desolated miniature universe.

\*\*\*\*\*

On the peak of Thunder Island in the virtual universe, a group of universe masters of the human race had gathered. As for Luo Feng, he had previously focused all his energy on the fight, so he had not divided his attention into entering the virtual universe.

“We are not sure if Luo Feng succeeded or not.”

“Killing a universe supreme master required some luck. No one can say for sure whether success is possible.”

Primal Chaos City Leader, Long Yan Master, Void Gold Master, Deserted Mirror Master, and the others were all seated on their thrones, feeling nervous and perturbed as they waited.

A short moment later, a message appeared before Primal Chaos City Leader. With a light tap, he read the mail and soon revealed a look of surprise and joy.

“Great Thunder Star Master...” Primal Chaos City Leader looked around at the numerous universe masters who were all waiting in anticipation. “Is dead!”

“Hahaha...!”

“What madness...”

“Simply unbelievable!”

The human universe masters were going crazy with joy. A universe master killing a universe supreme master was a miracle! It was a great tragedy, of course, for Great Thunder Star Master, who had been annihilated—as well as for his Thunderstorm Star race. But Luo Feng and his human race could not have been more excited and exhilarated.

“Darkness Master is now in Great Thunder Star Master’s miniature universe collecting all the items that are now without masters,” Primal Chaos City Leader said in a leisurely tone. “This is great for us since our race is currently lacking these.”

\*\*\*\*\*

Great Thunder Star Master’s annihilation had far-reaching effects!

A universe supreme master had been annihilated just like that? Throughout the entire Universe Ocean, it was rare for universe masters from the three reincarnation eras and two holy lands to be annihilated. Even if they were, normally, it would happen within the core regions of the three most dangerous lands or because of environmental reasons, but the cases of annihilation by other great beings were so few that they could be counted on two hands.

“We must clarify!”

“Clarify the cause of Great Thunder Star Master’s death!”

“If we do not know his cause of death, maybe we will be the next in line.”

At that point in time, various groups of powers and even supreme masters who traveled alone were in a frenzy. They were all heading toward Whirling Swamp Ocean to investigate.

In the next seven days following the battle between Luo Feng and Great Thunder Star Master, there had been two universe supreme masters arriving successively to conduct some thorough investigation. In the half a year following the battle, the number had increased to 22 universe supreme masters. Based

on the traces of battle left behind, they tried to deduce how Luo Feng had annihilated Great Thunder Star Master. Without clarification, how could they have peace of mind?

“Judging from the position, this battle must have happened around the area by the core whirlpool. Great Thunder Star Master must have worn his supreme true treasure godly armor as self-protection and had intended to charge and kill via a head-on confrontation. Even for a universe supreme master, this might not be possible. So we can almost be sure that... it was the core whirlpool that brought about the annihilation of Great Thunder Star Master. But the question is, why did he not dodge? This is the key point. We can only say that Luo Feng must have staged a ploy to prevent Great Thunder Star Master from leaving the core whirlpool.”

“Milky Way Horde Leader Luo Feng must have a secret ultimate technique.”

“He must have a technique that he is exceptionally skilled at. For instance, there are abilities to restrain or limit. And this ability of his is likely from the inheritance of the pulse of Duan Dong River. He must have gained a ‘restraining type’ unique treasure. The chances are very high.”

\*\*\*\*\*

Time passed.

The death of a universe supreme master would always seize the attention of various groups of top powers and keep them on their toes!

They had guessed that Luo Feng knew a “limiting type” method, but if the universe supreme master he was pitted against had a restraining type means, too, then that universe supreme master would have the ability to come and go as he pleased. How could he be annihilated?

This limiting type means that Luo Feng used—no one knew what it was. Even more than before, these various groups started to exercise more vigilance whenever Luo Feng was involved. If a being was able to kill a universe supreme master, regardless of how he achieved it, he definitely could not be treated lightly. They had to be vigilant!

“Purple Moon Holy Land is in trouble.”

“When fighting the humans, Purple Moon Holy Land enlisted the help of other groups of powers within the primal universe to suppress the development of the humans. They even issued a killing order on all humans before. Now, Luo Feng is merely a universe master and yet is able to make use of some secret special means to annihilate a universe supreme master. When he becomes a universe supreme master, I’m afraid he is going to be more intimidating than Teacher Origin. If this goes on, it seems like Purple Moon Holy Land is going to suffer quite a loss!”

“Purple Moon Holy Land is already an eternal existence to begin with. There is no need for it to suppress the humans. Now, it has incurred the wrath of a great enemy.”

“You all think too highly of the humans! Great enemy? Purple Moon Holy Land is, after all, a holy land universe. Even if it is temporarily at a disadvantage, they are an eternal existence. After a few reincarnation eras, they will still be as strong and powerful as ever. Besides, to this day, no one can say for sure whether or not the human race can live past three reincarnation eras.”

\*\*\*\*\*

The aftermath of Great Thunder Star Master's annihilation lingered on, and Luo Feng, whom the various groups of top powers in the entire Universe Ocean had placed so much focus on, suddenly disappeared!

For over 300 years, not a single great being could find a trace of Luo Feng. He had completely removed himself from the scene. Even so, he remained recognized as one of the most terrifying existences, and the memories of him were etched deeply in the minds of great beings from various groups of top powers in Universe Ocean.

Universe masters would have to escape and hide, if possible. If not, it would be better to surrender obediently and banish all thoughts of resistance.

As for universe supreme masters, they still would need to practice some vigilance. It was best to steer clear of dangerous environments, lest an accidental lack of vigilance cause one to lose everything and become "Great Thunder Star Master—the Second."

Pa!

Within Star Tower, a drop of blood hovered in a fixed spot in one of the individual spaces.

"Great Thunder Star Master carried with him quite a fair amount of treasures and precious materials," said Luo Feng. "The top-notch materials are almost used up, and there are two pinnacle true treasures swallowed, too. But there is just enough to help Shi Wu Wings produce one more drop of godly blood."

Luo Feng turned to look to his side at the wings on Golden Horned Beast. At the moment, only one more patch of the bloodstain left from its previous injury remained.

Luo Feng turned to look at the outside world through Star Tower. From where he was in the vast Universe Ocean, he could already faintly see the immeasurably huge primal universe.

"Primal Universe, I am back." Luo Feng revealed a trace of a smile.

He changed the form of Star Tower and secretly made his way out until he had exited Universe Boat! For this long period of time, he had spent his time on cultivation, immersing himself in the study of the "godly power genes." At times, he made use of his talent technique of the endless Remote Ocean within the primal universe to "create" and conduct experiments.

Over 300 years... This length of time was, in fact, more than 300 eras. The number of experiments he had performed equaled more than 80,000. There may have been the occasional rewarding outcome, but the course of studying had led Luo Feng to believe that such a path was extremely difficult.

"I will head back first to rejuvenate my godly body. Then I will go send some congratulatory gifts to Teacher."

A glint of eagerness flashed in Luo Feng's eyes. Teacher Primal Chaos City Leader had always bestowed great kindness upon him. This supreme true treasure armor Luo Feng had seized from Great Thunder Star Master was the first gesture of gratitude he wanted to present to Teacher after he had gained power and prestige. After all, even Darkness Master and Peng Gong Master had previously received supreme true treasures from him.

## Chapter 1329: "It"

The time and space of the primal secret region—the power center of the human race—were already transformed. Under the control of the new true god, Primal Chaos City Leader, even the laws were already changed. At least the enemies couldn't get to the center in a short time through god country transportation or teleportation.

After Huge Axe died, the humans had much weaker control over space and time, which was why the united forces alliance had been able to reach their center in a short period of time.

Hua! Hua! Hua!

Waves appeared in the endless Remote Ocean standing in the space. A being showed up on the waves.

"I'm back."

Luo Feng stepped on the waves, and the godly power immediately supplied his original body. The godly power also went into Boat of Mausoleum and supplied the golden horned beast. Both bodies recovered instantly. To the endless Remote Ocean, such godly power was nothing.

"The godly power path is indeed complicated and mysterious." Luo Feng waved his hands, and a world ring flew out. The endless waves tumbled and swallowed the world ring.

Lots of special materials gained from Universe Boat by Luo Feng in the past 800 years were hidden in that world ring. There were 92,083 kinds of rock material, as well as flames, gases, liquids, metals, and so on. Other than those lifeless objects, pieces of the dead body of Thunder Shuttle Master and Great Thunder Star Master were also in the world ring.

There were many routes on the godly power path. Endless Remote Ocean had the inherited technique Creation, which could analyze life genes and create life forms! Naturally, analyzing life genes was the most effective. Before he had gone to Universe Ocean the last time, Luo Feng had put many objects from the original universe in Remote Ocean for it to analyze.

Luo Feng had a simple method. Endless Remote Ocean could analyze the life forms! His godly power then stayed in the space of inheritance to further study them. Once he had made some breakthrough during the studies, he would use his endless Remote Ocean for testing again.

"Unfortunately, the creatures I prepared last time are already rotten." Luo Feng shook his head. Some creatures only have a lifespan of around 1,000 years, so they had already aged to death during the course of study.

"Teacher!" Luo Feng shouted on the waves of endless Remote Ocean.

Shua!

A being showed up beside Luo Feng. It was Primal Chaos City Leader. He wore a golden cape, and his eyes looked as if they had recorded the birth and death of a universe. He appeared very calm, which amazed Luo Feng, as his teacher and Huge Axe had two different auras. Huge Axe was more adventurous and intrepid, while Primal Chaos City Leader was more conservative and reserved.

“Congratulations, Teacher.” Luo Feng noticed the improvement in the power of his teacher.

“Still not as impressive as you,” said Primal Chaos City Leader. “I just became a universe supreme master, yet you’ve already killed one. Few in Universe Ocean have killed universe supreme masters.”

“It’s luck,” said Luo Feng.

“You said before the fight that you had a 30 percent chance of winning.” Primal Chaos City Leader shook his head. “It’s not about luck.”

Luo Feng stopped arguing. He waved his hands, and Star Tower appeared beside him. An armor giving out cyan light flew out from the side gate at the base. An ancient force permeated from the armor, which shocked Primal Chaos City Leader. “Great Thunder Godly Armor?”

Luo Feng nodded and said, “Yes. Teacher, you just became a universe supreme master, and I just killed that Great Thunder Star Master. This Great Thunder Godly Armor is my gift to congratulate you on becoming a universe supreme master.”

“You don’t even have a supreme true treasure.” Primal Chaos City Leader shook his head. “This Great Thunder Godly Armor would be very useful to you. Keep it for yourself.”

Luo Feng was dazed. “Teacher, I have several supreme true treasures, so I really don’t need this one. I came here to give you the armor. Please take it.”

Primal Chaos City Leader frowned and said, “Stop arguing with me. You know how I am. If this were an attack type or palace type supreme true treasure, I would’ve taken it already. However, you don’t have a supreme true treasure armor. You’re adventuring through Universe Ocean now, yet I’m guarding the primal universe and won’t go out for a while. I don’t need Great Thunder Godly Armor! You do!”

Luo Feng was anxious. “How... However... even Darkness Master and Peng Gong Master have a supreme true treasure. But you...”

He was indeed grateful. But he also had several valuables, so he didn’t need this supreme true treasure. As for survival skills, almost nobody in Universe Ocean could compare to him. He had already planned to give Great Thunder Godly Armor to his teacher.

“It’s different for Darkness and Peng Gong,” said Primal Chaos City Leader. “That was during the war. Besides, you have both the attack type and palace type supreme true treasure, which is why I allowed that to happen. As for Great Thunder Godly Armor, I don’t want it. End of discussion.”

Luo Feng was dazed, but he had to acquiesce. He realized that his teacher was just balancing the power and rights in the human race. A great being like this wouldn’t accept gifts from others for no reason—even from his own disciple. If it was a valuable valueless to his disciple, he would accept it, yet it was a supreme true treasure armor that was vital to his disciple, so he couldn’t accept it.

I’ll adventure through Universe Ocean, Luo Feng thought. I’ll keep going on adventures, and if I get new armor, my teacher won’t have any excuses to reject it.

Luo Feng understood that it was very difficult to get another supreme true treasure armor.

“Teacher, this is a set true treasure Great Thunder Star Master left after he died, Universe Imperial Cone.” Luo Feng pointed to Star Tower, and a set of valuables flew out of the gate at the bottom of Star Tower and floated on the waves. There were 36 triangle cones.

“Universe Imperial Cone?” Primal Chaos City Leader’s eyes gleamed, and he exclaimed, “This is a very powerful set true treasures, only second to supreme true treasures. I’ll accept this valuable. Thank you.”

Primal Chaos City Leader could feel the passion of his disciple, and he had already upset his disciple by rejecting the armor. He wanted to make Luo Feng feel better by taking Universe Imperial Cone.

After the congratulatory gift, Luo Feng told his teacher, “Teacher, I need to ask you for a favor.”

Primal Chaos City Leader nodded. “Just say the word.”

“My Remote Ocean has the power of ‘Creation,’” said Luo Feng. “I need billions of creatures and objects from the original universe, alive and lifeless. I need them all. Even though I prepared some last time, the original universe is enormous. Only with the power of the entire Hong Alliance can we gather enough material.”

Primal Chaos City Leader nodded. “This concerns you becoming a universe supreme master. Rest assured, I’ll tell the entire Hong Alliance. Even if we search every inch of the original universe. We’ll prepare all the materials, valuables, and creatures. How do I give them to you?”

“Just put them in the endless Remote Ocean,” said Luo Feng. “Especially those creatures. There are billions of life forms in the universe, and those from the weak races have short lifespans. I might need to practice for tens of millions of years or even more... Those creatures might die during the period. I’m thinking that we should capture as many as possible so that they can keep breeding. Then I’ll have infinite sources to study.”

Primal Chaos City Leader nodded. “Okay. It’s so simple. I’ll prepare some world rings and let them live there. Do you have any requirements for their power?”

“From the weakest to sector lords,” said Luo Feng. “The more powerful a life form is, the more difficult it is to analyze them. I might need a long time to study a sector lord.”

“Okay, I’ll go arrange it now.” Primal Chaos City Leader was careful.

“Don’t capture too many,” said Luo Feng. “Just capture a few of them for them to breed. I’ll study them, and I won’t hurt them. I need as many kinds of life forms as possible, but I only need a few from each kind.”

Luo Feng was worried that some races might go extinct because of him. After all, there were many universe knights in the Hong Alliance, and when they acted, they might annihilate an entire race. That was why Luo Feng said that he only needed a few from each.

“Teacher!” said Luo Feng. “I’m going to Universe Ocean now, and please don’t tell anyone where I’m going.”

“Do you mean...?” Primal Chaos City Leader understood it immediately. “You want them to think you’re still in Universe Boat?”

“That’s right.” Luo Feng nodded. “If someone knows that I came back to the original universe, then other powers will know that I’ve left Universe Boat. I’m afraid that Pei Xing Master might get away. Though it’s unlikely that he can get away, I don’t want to risk it! After all, if he enters Purple Moon Holy Land, I won’t be able to do anything about it.”

“Okay.” Primal Chaos City Leader nodded. He now understood why Luo Feng had chosen to meet him in endless Remote Ocean. Endless Remote Ocean belonged to Luo Feng. Nobody would know that Luo Feng’s original body had already been back to the original universe if Luo Feng showed up here. “I won’t use Universe Imperial Cone until you kill Pei Xing Master.”

Luo Feng shook his head and smiled. “It depends on my luck. I still can’t be sure whether the wing of Pei Xing Master is exactly the one I want. I’ll leave now, teacher.”

After saying goodbye, Luo Feng left the human territory and entered Universe Ocean, heading toward Tilted Peak Sector.

\*\*\*\*\*

It would take a long time to get to Tilted Peak Sector. No great beings were able to find the periphery of Universe Ocean, and anyone could get lost if they fly too far in Universe Ocean.

In an area where nobody from the three universe eras and two holy lands had ever been...

Hong!

In the endless chaos air, an enormous object started to fly at high speed—a million times faster than light speed, then ten million times faster than light speed. The speed limit was nothing to it, and its volume was larger than that of a miniature universe. The giant object was in the shape of a human.

The human-shape object, which was larger than a miniature universe, was flying in a straight line at a steady speed, flying toward the original universe.

### **Chapter 1330: Coincidence**

That enormous thing was flying, yet nobody noticed it.

In the inner area of Tilted Peak Sector, a white boat flew by, and Luo Feng was sitting it. That white boat was Boat of Mausoleum, which had changed its size and color. It was a machine type valuable, so it could change its appearance. However, it still had to be in the shape of a boat.

“Okay, I understand it. Rest assured.”

Luo Feng’s mind answered in the virtual universe. His target was Pei Xing Master, so he needed to locate him first. After all, Pei Xing Master wouldn’t just stay in one place and not move.

“Pei Xing Master was found 11 years ago,” whispered Luo Feng. “It’s Ice Flower Rock World in Tilted Peak Sector. It might take me around 80 years to get there. That Pei Xing Master is indeed adventurous. I’ve been in Tilted Peak Sector for 200 years, and I still haven’t found him. I can’t believe a new universe master can be this mad.”

Luo Feng failed to imagine the passion and ambition of a universe master who had been suppressed for 18 universe eras and finally got the chance to enter Universe Ocean.

Don't disappoint me, Luo Feng thought. I chose you over the valuables left by Jie Fan Zi.

He then smiled awkwardly. He had already traveled several times to the green keepsake space where the valuables from Jie Fan Zi were left. The first time, he had entered Universe Boat and fought Five Chaos Master. He had gotten trapped in the ninth abyss, yet he had put away the valuables from Jie Fan Zi because of the inheritance from Duan Dong River. The second time, he had gone to get the white wing, and after getting it, he had separated his two bodies. However, Huge Axe had suddenly died, so Luo Feng had summoned his golden horned beast body.

This was the third time. He had been flying in Universe Boat for 400 years, and he had suddenly learned about Pei Xing Master.

"There's a saying from my home planet, Earth: 'Good things are a long time in coming,'" Luo Feng whispered. "I failed several times. Can there be some surprising gifts in the green keepsake space of Jie Fan Zi?"

Actually, he didn't care much about that keepsake space. To him, other wings of Shi Wu Wing were obviously much more important than the valuables left by Jie Fanzi. He turned around the second he learned about Pei Xing Master.

"Perhaps there is a happy surprise." Luo Feng smiled, closed his eyes, and kept practicing.

\*\*\*\*\*

Ice Flower Rock World of the inner area of Tilted Peak Sector.

The white boat was flying in the sky.

"Huh? Nothing?" Luo Feng sat in the hall of the boat. He had four wings on his back. "When I sensed that white wing, it was dozens of light years away from me. Yet now, I can't sense anything? Either that wing isn't the one I want, or he's not in Ice Flower Rock World anymore."

Luo Feng frowned. He looked at the outside world. There were giant flowers growing in Ice Flower Rock World. The flowers looked beautiful, but there was a sense of killing hidden in them. The entire space was made up endless flowers.

"What should I do? I can't find them anyway." Luo Feng frowned.

It was very difficult to track a great being in the three Lands of Extremis. After all, it might take someone several eras for a great being to wait for a valuable to be born. Even though the intelligence network of the Hong Alliance was impressive, there hadn't been any updates on Pei Xing Master's traces.

"Hmm." Luo Feng's eyes gleamed. "Perhaps I can do this..."

Luo Feng smiled. He had a thought, and a being showed up, which was a golden horned beast. It was carrying a pair of white wings.

When I was looking for Heavenly Yang Knight on the original stars, I only had one pair of wings, thought Luo Feng. I could only sense the white wings when I was close enough to Heavenly Yang Knight. With two pairs of wings, I can feel it dozens of light years away in Tilted Peak Sector—even with the waters and wing space in the middle. Apparently, the more wings I have, the stronger than summoning will be. If I combine all three pairs of wings, the detection distance will be far!

The detection distance of one pair was less than ten billion kilometers. The detection distance of two pairs was dozens of light years.

What about three pairs? Hundreds of light years? Thousands of light years?

No matter how dangerous the inner area of Tilted Peak Sector was, Pei Xing Master had been in Ice Flower Rock World 90 years ago, and a universe master wouldn't be able to go too far. Luo Feng should be able to sense it.

White wings, Luo Feng thought.

The pair of white wings merged with the back of the earthling original body. Just as they merged, the four silver wings and the white wings integrated like gears, forming six perfect wings after connecting with each other.

Weng!

The six silver wings on Luo Feng's back suddenly shook.

Luo Feng's eyes gleamed, and he looked exhilarated. "The summoning! That direction!" Luo Feng looked at a direction in the distance, as he could clearly sense the summoning coming from there! "Other wings of Shi Wu... There they are!"

Luo Feng was thrilled. It didn't matter whether those wings belonged to Pei Xing Master or not. There was a summoning, so there were wings in that direction.

"Let's go!" Luo Feng drove Boat of Mausoleum and raced toward along that direction.

Luo Feng understood that the sensing was mutual, and if the other side ran away, it would be a trouble for him. However, the other side didn't know where the summoning came from. A great being in the three Lands of Extremis would only think of it as an opportunity, so they wouldn't run! Besides, Luo Feng was closer to the exit, while the other side was farther away. Even if he was trying to run, Luo Feng could stop him!

Luo Feng dashed toward the other side with his craving for those wings.

\*\*\*\*\*

The waves were tumbling and sweeping through the area. The space was annihilated every time it was hit.

A strange, three-level tower was on the waves.

"That direction..." All four faces of Pei Xing Master looked confused. "My wings?"

The black wings on his back were trembling.

“Summoning! Something’s calling me!” Pei Xing Master was excited. “Am I really that lucky? I’ve stayed in the holy universe for 18 eras, and my chance comes right after entering Universe Ocean?”

In the holy land, Pei Xing Master had heard a great deal about the dangers and opportunities in the three Lands of Extremis! He’d been expecting the chance for a long time, especially after hearing that a brat who had only practiced for fewer than 20 eras had obtained the Duan Dong River inheritance that even the ancestor wanted.

“Humph! With my power, as long as I don’t meet a universe supreme master, I’ll be safe.” Pei Xing Master was very confident. He had fought quite a few universe masters before, and even universe masters at top-tier level five couldn’t hurt him. “It’s in the inner area, so universe supreme masters shouldn’t be here. Even supreme masters need to show some respect for Purple Moon Holy Land.”

Pei Xing Master’s interest was piqued. He flew in that direction with his palace true treasure. The farther he flew, the more confident he got.

“Haha! The valuable summoning me is also flying toward me. It must be carried by a universe master, and that universe master also senses the summoning.” Pei Xing Master was content. “Based on his speed, he must be a universe master instead of a supreme universe master.”

Pei Xing Master grew more excited after confirming that the individual on the other side wasn’t a supreme universe master.

\*\*\*\*\*

They could feel each other, and they were racing toward each other as fast as possible.

“Only the stronger one can win. The stronger one will get the valuable.” Pei Xing Master was growing more and more excited. “I just left the holy land, and I’ll be renowned in Universe Ocean!”

Universe masters from holy lands thought differently, as they had eternal lives. Some loved adventures, some loved killing, and some wanted to be renowned in Universe Ocean like Pei Xing Master. It was quite normal for universe masters to have such thoughts.

“Sheesh... They’re coming really fast. Great!” Luo Feng accelerated his Boat of Mausoleum. The wings on his back were shaking vigorously, and the calling was getting stronger and stronger. “It saves me time. I’ll kill you instantly.”

Sparing this being’s life? Luo Feng didn’t even consider it.

Since the Purple Moon Holy Land had already given a killing order, he didn’t need to show any mercy to their beings.

\*\*\*\*\*

More than 20 years passed, and they got closer and closer to each other. The calling was driving both of them mad.

“Incredible, incredible.” Pei Xing Master felt that the four wings were trying to fly away. The summoning made Pei Xing Master’s godly body tremble. “What kind of valuables have such strong summoning? Are my wings parts of a supreme true treasure?”

Pei Xing Master was excited. Ah! he thought. Could I have such a great chance, too?

“If even that human Luo Feng can get the Duan Dong River inheritance. Why can’t I get a supreme true treasure? The individual on the other side only has a component, so he might not have realized how precious it is.”

Pei Xing Master’s heart was racing. They were drawing closer to closer to each other.

In the sky above the mountains, two traces of light flew toward each other—one from the left and one from the right.

“Here it comes.” Pei Xing Master was ready to attack. “I’ll stay in my true treasure palace first. I just entered Universe Ocean, and I rarely show my true treasure palace. Few know about it. If I show my palace, he’ll know that I’m good at binding and that he won’t be able to get away if he’s trapped. He might fly away now.”

“I’ll show my true self later,” said Luo Feng. “He might run away if he sees my face. Though I can trap him with Golden Country and Snow Sand Ocean, it’ll still take me a lot of time. I might as well save some time. Such a competitor! I might just give him a quick death.”

Luo Feng stayed in the white boat and didn’t leave.

They kept approaching each other.

Just when the two true treasure palaces were only a billion kilometers away from each other—

Hong!

Pei Xing master with four faces and 16 arms had his four black wings wide open and appeared in the space. He thought it was close enough.
