

Chapter 1361: Kill! Kill! Kill!

“It’s him!” The eight-hooved beast true god recognized him right away. This great being that was transformed into a gigantic, blurry blade figure was crushing and rolling its way over. This was the law master who had stolen a true god corpse earlier on.

“He’s just a law master! No matter how impressive his close-combat dodging technique is, his law comprehension foundation is as superficial. From what we can see, the battle techniques that he can comprehend will not surpass what is expected of him.”

The eight-hooved beast true god was brimming with self-confidence. Previously, he had leaped in shock, yet the moment he determined that it was merely a law master he was dealing with, he no longer held onto any trace of worry.

His line of thinking was not wrong. The foundation determined the technique!

A universe master, being able to create a secret technique that reached the sixth-tier as the top level was already adequate enough to be regarded as incredible. Before Luo Feng, within Universe Ocean, there was no such precedence. Even Luo Feng had to rely on help from the space of inheritance to be able to create a secret technique that reached the sixth tier as the top level.

Seventh tier as the top? Generations of Duan Dong River had been so great and powerful, yet only slightly more than half managed to create secret techniques at this level. As for the eighth tier, of the generations of Duan Dong River, only two had managed to accomplish this level.

But for true gods—even an ordinary true god—being able to create secret techniques at the seventh tier as the top to the eighth tier was nothing extraordinary. As for some super true gods, the ninth tier or even the tenth tier were achievable. This was the difference in foundation. The higher one’s foundation was, the more at ease one would be when it came to comprehension.

This eight-hooved beast true god was a true god to begin with. The secret technique he executed would naturally be at a given standard.

“He must be quite a greedy one to think of attacking me. He must be eyeing the great number of true god corpses I have collected.” The eight-hooved beast god was looking forward to the outcome of their fight. “Hahaha! A young chap who is a law master and is quite impressive. He must be one of the top-tiered elites in the army and must have been bestowed with a true god armor. I would never have expected to obtain my true god armor from a law master.”

Hong!

The eight-hooved beast true god did not attempt to escape. On the contrary, he charged forward like mad.

The gigantic blade figure and the huge beast were howling as they both tore through the surrounding purple vines to charge directly at one another.

Several true gods fighting on the faraway battlefield had already noticed that in the region on the edge of the battlefield, a blurry blade figure had appeared. They all recognized it the moment they laid eyes on it. It was none other than the extraordinary talent that had stolen the corpses away.

“It’s that law master.”

“It’s that super genius.”

“That law master had the guts to come here again? No matter how ingenious he was, he was only a law master.”

“That law master dared come again? No matter how gifted he is, he is only a law master.”

“Let’s catch this talent.”

“Kill him!”

Suddenly, there were true gods flying over.

They were all aware that when the army trained and honed talents, true gods of void space were not allowed to intervene. But true gods were allowed to act, so even if talents were annihilated by true gods, they only had themselves to blame for not being capable enough!

“For the group of true gods to fly here, they will need 29 seconds,” Luo Feng confirmed right away.

The true god level battlefield was boundless to begin with; the eight-hooved beast true god was wandering around the region by the edge of the battlefield while Luo Feng’s position was in more of a remote area. Even if the ultimate speed limit in the World of Jin was very high. To rush over to where the beast true god was, he most certainly required 29 seconds.

“29 seconds. Let’s finish it out!”

Luo Feng’s gaze was focused on the eight-hooved beast true god before him.

“Haha! He is one greedy law master to not consider his escape,” said the eight-hooved strange beast.

“Given his ability to escape and dodge, I am definitely no match for its speed. But if he were to fight me upfront... I can finish him off as quickly as possible. It will be my claim to fame.”

The eight-hooved beast true god was going crazy with excitement, and his single eye was flashing colors filled with murderous intentions.

Hong!

Hong!

Two gigantic figures finally crossed paths. With a thunderous roar, the eight-hooved beast true god waved its front claw across the length of space it was in, then—

Bang!

Blades met. Luo Feng was swift as a tornado, avoiding the attack in a flash.

Dodging again! roared the eight-hooved beast true god in its heart. It lashed out a whipping blow with its incredibly fast tail, which seemed like a boneless, soft whip that was formed by connecting various knots. With a roar, it transformed into an arc that lashed out at Luo Feng. Yet, the moment Luo Feng—in the form of his blurry blade figure—touched the edge of the tail, he trampled on it and settled himself on the back of the eight-hooved beast true god.

It may have seemed as if everything was occurring very slowly, but when the two crossed paths, Luo Feng was on the back of the eight-hooved beast god almost immediately.

Hua!

Luo Feng finally brandished his Blood Ghost Blade!

Kill!

His blade rays were like water adrift with no fixed direction. In an instant, it sliced down at the long neck off the eight-hooved beast true god. However, the beast true god instantly twisted its head toward the back as it opened its bloodstained mouth, revealing fangs that immediately bit onto Luo Feng's blade.

Hong!

The blade ray that was originally like water ripples exploded in an instant, producing a terrifying penetrating force. This was the greatest blade technique Luo Feng had created: Light of Water and Fire!

"Ah!" The penetrating force of the precious blade embryo, "Blood Ghost Blade" of the pulse of Duan Dong River, immediately caused the eight-hooved beast true god to cry out in shock and fear. Its single eye widened, filled with amazement and horror as it cried, "Impossible, impossible! After his godly power was set ablaze, how could it be stronger than mine? I am a true god, and he is only a law master!"

The beast true god was wrong. So, so wrong.

Indeed, an eight-hooved beast true god's godly power was stronger than Luo Feng's godly power by one full level. However, it had never joined the army, so it did not know the unique secret technique of blazing godly power. And Luo Feng had merely executed the first volume of "Extermination," but it was more than enough to make up for the difference in godly power. The second volume of Extermination was the reason why Luo Feng could surpass this true god before him!

When it was about blazing godly power, Luo Feng was much more skilled!

Luo Feng was more powerful in the close-combat dodging techniques in the first place, so he was certainly much tougher and could easily dodge or ward off any attacks by the eight-hooved beast true god. Yet, on the other hand, in the face of Luo Feng's attacks, the eight-hooved beast true god could only attempt to bear the weight of it all with its brute strength.

Kill! Kill! Kill!

Luo Feng was going mad. Sustaining the blazing level according to the second volume of Extermination, his godly power was depleting like crazy. Even if no other true gods had been quickly approaching from afar, he would not have been able to continue fighting in this manner for long. Everything needed to be fast! Fast! Fast!

Luo Feng's entire soul seemed to have infused into the Blood Ghost Blade he wielded. Light of Water and Fire! Light of Water and Fire!

Blade rays like water carried a formidable power, and this power seemed to be faintly on the rise. Under the ultimate limit, Luo Feng's comprehension of blade techniques was unexpectedly on the rise, and yet, at that very moment, he had not noticed it at all. All his focus was concentrated on the eight-hooved beast true god before him as he tried his best to kill it in the shortest time possible.

"No, no..." The eight-hooved beast true god was stunned.

Almost instantly, over 100 blade rays were raining down on it, hacking onto it successively, causing it to weaken at an insane rate. It was flustered. It was terrified. It longed to escape!

"No, no..."

The eight-hooved beast true god was no longer holding onto any traces of desire to kill Luo Feng. It didn't care how this law master could wield such strong combat powers; it only wanted to escape and survive! However, before Luo Feng's ominous close-combat techniques, even simply escaping was too much to ask for.

There was no escape!

"I'll kill, kill, kill...!" Luo Feng was beyond insanity as a blurry, gigantic blade figure appeared. His entire being seemed to have merged as one with Blood Ghost Blade, and the blade rays were like ocean waves crashing down on the eight-hooved beast true god. With each passing second, hundreds and thousands of blade rays kept roaring away, annihilating everything in a frenzied manner.

This was a storm—a storm that would annihilate everything. There was no escape! There was no way it could be stopped! No chance of gaining an advantage over it!

Astonishment.

Not only was the eight-hooved beast true god being knocked senseless, but even the several dozen true gods who had discovered Luo Feng and were now flying over were stunned.

"How is it possible?"

"If he only had impressive skills in dodging, so be it. But how can it be that his attacks are also...?"

"Impossible!"

"How can he be so powerful? His blade must be an automaton-type treasure. It must be!"

They were all in denial, unable to accept the fact that in a one-on-one confrontation, a true god could be defeated by a law master. They could only accept one explanation... This law master must have used an automaton type treasure, and that blade was an automaton-type treasure!

Through the central operation of the automaton machine within it, the blade was able to release an outburst of combat power that far surpassed what a law master was supposedly capable of.

“This must be the case.”

On the faraway true god level battlefield, the captain, who had been silently lying low in ambush was in great shock as he watched everything happening with wide eyes.

Earlier on, when he saw Luo Feng charging out, he had shaken his head, albeit in a most discreet manner. He found this new recruit, Milky River, to be foolish and arrogant to attempt to belittle the power of a true god. After all, even a captain like himself, wielding an automaton-type treasure, might only have a small chance of killing that true god. But the time spent trying to do so would, in turn, cause him to be entrapped by the other true gods.

“He is going to die, for sure,” the captain had said.

At the time, he had been convicted. But right now—

“How—how could...?” The captain was flabbergasted. He was unable to fathom how a new recruit could be so powerful—powerful enough to suppress a true god! That was absolute suppression! Even if it was the most ordinary kind of true god, the outcome should not be far from the norm. “It must be an automaton-type treasure. Before he joined the army, he already had an automaton type treasure with him: his battle blade. That must be it. It must be. That blade must be the reason his power can soar by multiple levels. That is how he can completely suppress this beast true god.”

The brutal fighting was ongoing within the true god level battlefield. Over 1,000 true gods had noticed that, at the farthest region at the edge of the battlefield, there was another battle going on between an ordinary-level, eight-hooved beast true god from their side and a mere law master. The fact, placed right before their very eyes, was that the law master was attacking with such fervor that the true god was left with no room for retaliation.

“That blade must be an automaton-type treasure.”

“It must be.”

Almost every one of them was sure of this.

Blood Ghost Blade was a blade embryo; thus, it was extremely precious. However, it merely raised Luo Feng’s attacks by a single level—not as what everyone else had thought to be as a couple of levels. Luo Feng was powerful because of his close-combat techniques, his mastery of the first two volumes of Extermination, and his comprehension of Light of Water and Fire.

Streams of blade rays that resembled water ripples crashed into the eight-hooved beast true god like crazy. These blade rays were approaching a state of perfection. Under the influence of such endless blade rays, the eight-hooved beast true god was getting more and more helpless. It was no longer able to put up such a strong resistance.

“No—!”

Suddenly, the eight-hooved beast true god felt a sensation arising within his chest. This time around, it might really have to face annihilation.

“I am, rightfully, a true god!” The eight-hooved beast true god was roaring furiously in its mind.

Hong! Hong! Hong!

The endless blade rays enshrouded everything around them. The eight-hooved beast true god finally breathed its last breath as its life core disintegrated, and it was reduced to annihilation. Its armor and some other items speedily broke away from it, and Luo Feng quickly waved his arm to claim the armor. He also claimed the other items breaking apart from the annihilated true god.

Sou!

Luo Feng transformed into a streak of flowing light right away and escaped as far as he could. As for the area where the fighting took place, although earlier on, most of the purple vines had snapped and fallen onto the surface of the marsh. There was no longer a single trace of them to be found.

A true god was annihilated! The law master had won!

And more than 30 beast true god corpses were all his to take!

From the faraway true god level battlefield, a powerful beast true god with three sharp, golden horns, roared in rage, “After him! Get the corpses of my brothers of Nine Smoke Marsh by any means!”

Chapter 1362: Greed

“Catch him!”

“Seize him!”

All the strange beast true gods were furious. Even the true gods from Xuan Yu Mountain were shocked. For a law master to be able to kill a true god in such a short time was incredible. Fortunately for them, that law master had seized the true god bodies of Nine Smoke Marsh, so those from Xuan Yu Mountain didn’t need to worry.

Yet Nine Smoke Marsh was very anxious!

“The bodies of the brothers of Nine Smoke Marsh!” roared the strange beast with three golden horns.

“More than 30 bodies. We must get them back. We must get them back!”

“Get them back!”

“Get them back!”

The strange beast true gods were yelling. After all, there were only a certain number of true gods in Nine Smoke Marsh, so they all knew each other well; some of the dead bodies might have belonged to very close friends. It was a great being’s destiny to die on the battlefield, but their bodies would still be buried appropriately after they died. However, more than 30 bodies had been seized—and seized by a law master. How could they let it go?

“Ba Ku La, go get that law master and get the bodies of our brothers back!” yelled a strange beast true god with three golden horns.

“I’ll catch him.”

Hong!

Streaks of light flew away, racing after Luo Feng. There were 50 of them in total.

Luo Feng kept changing directions in the grass in Nine Smoke Marsh. He slowed down, not wanting to cause any ripples. He was fleeing the true god battlefield, and because he was changing his direction, the 50 true gods didn’t go the right way.

“50 true gods are coming after me, and they are not some mediocre true gods. Most of them have true god level armor.”

Even though Luo Feng was confident, he still didn’t want to be surrounded by all 50 of those true gods. There were, after all, 50 of them. And besides, true gods in the World of Jin were, in general, more powerful than those in Universe Ocean. Godly power wasn’t suppressed in the World of Jin, so that made them two levels more powerful. Even that mediocre, eight-clawed strange beast true god had a technique at level eight, and if he utilized all his power, he might be at level nine. When he had been fighting Luo Feng, he was already injured, so he was only at top-tier level eight. He also didn’t have true god armor to protect him, so he had been killed by Luo Feng’s blades.

“If I get encircled by those 50 true gods, it will be worse than being encircled by 500 true gods in Universe Ocean. Even if I were Boat of Mausoleum, I still couldn’t guarantee that I could get away.”

Luo Feng had to be careful.

Sou!

He changed directions without warning and moved toward the periphery of Nine Smoke Marsh.

The fight between Nine Smoke Marsh and Xuan Yu Mountain involved too many great beings. More than 10,000 true gods were involved, and Nine Smoke Marsh had sent 50 true gods to capture Luo Feng. It didn’t affect the overall power of Nine Smoke Marsh.

On the periphery of the battlefield of true gods—

Sou!

The captain was retreating. “50 true gods are trying to capture the new soldier Milky Way. Don’t capture me instead.”

He was on the opposite side as Luo Feng, so he wasn’t in any danger whatsoever. It took him several days to get back to the battlefield of law masters. He decided to pretend to be a tribal warrior and disguised himself in the great army.

“That new soldier Milky Way is too powerful.” The captain was in the army, and he recalled how Luo Feng had killed a true god. “He’s too powerful. I need a machine-type valuable to be able to rival him. More than 30 bodies of true gods. That equates to a great many military credits. He can get a machine-type valuable with those. If I can get another machine-type valuable, I can survive even incarnation-level tasks. Then I can train myself in the military, become a true god, and get a more advanced inheritance.”

His gray eyes glinted with greed. He wanted those bodies!

“How can I get them?” The captain came up with an idea. He immediately sent a message to all the 17 soldiers using his token. “Everyone.”

“Captain.”

“Captain.”

“What do you want, captain?”

“Captain.”

They all responded.

The captain kept sending the message. “Several days ago, the eight-hooved strange beast true god who was responsible for collecting bodies was killed by another true god, and at that moment, that new soldier, Milky Way, suddenly appeared and seized the body! He then got away!”

“What?”

“He got the body of that eight-hooved strange beast true god?”

“That strange beast who collected bodies?”

All the soldiers were shocked.

The captain continued. “Yes. That strange beast true god. The new soldier Milky Way seized the body and the valuables left behind, including the valuable that holds all the bodies of true gods. That strange beast true god had collected more than 30 bodies of true gods before! Now, Milky Way has all of them!”

All the 17 soldiers were all excited. More than 30 bodies of true gods! That would equate to an enormous military credit!

“The true gods from Nine Smoke Marsh are furious, and 50 true gods are now trying to find Milky Way,” the captain continued. “They want to capture him.”

“I just saw it,” one soldier replied. “Lots of strange beast true gods. I was wondering why they would be flying in the sky without fighting.”

“I’ve seen them as well,” said another.

“I saw many strange beast true gods as well.”

“I saw many strange beast true gods yesterday as well.”

The captain said, "Those strange beast true gods are still flying everywhere. Apparently, they haven't captured him. The entire Nine Smoke Marsh is blocked from the outside by true gods of void space, which means that Milky Way must be within Nine Smoke Marsh, yet those strange beast true gods can't find him. There's only one possibility. He's hiding among the army of Xuan Yu Mountain."

"That's right."

"That's right, he must be hiding in the army of Xuan Yu Mountain. Xuan Yu Mountain is an enemy of Nine Smoke Marsh. He's among an army of law masters... The strange beast true gods from Nine Smoke Marsh don't dare to go the army of law masters."

True gods were indeed powerful. However, when there were over 10,000 universe masters, even true gods didn't dare to mess with them.

"Everyone," said the captain. "Those strange beast true gods can't enter the army of Xuan Yu Mountain, but we can. We now go and look for him, and once we find him, we'll tell other soldiers. And we'll gather and fight that new soldier Milky Way."

"There's no guarantee that we can kill that new soldier Milky Way."

"The new soldier Milky Way is powerful!"

All the soldiers answered.

The captain said, "I know it will be very difficult to kill him, but he's most afraid of being exposed now! If we can threaten him and force him to give us most of the true god bodies, he can still keep a few of them. If he dares not to give them to us, we'll tell those strange beast true gods where he is, and he'll be doomed."

"That's right. We can't get enough military credits by ourselves. We might as well threaten him!"

"He will give it to us."

"He has so many bodies of true gods, and I only need one."

"We'll force him to give us the bodies!"

The eyes of the captain glinted coldly. Everything was going exactly as he expected. He hadn't even told them that it was the new soldier Milky Way who had killed the strange beast true god. The 17 soldiers under him were all cheerful and weren't afraid of Luo Feng at all.

That new soldier Luo Feng is indeed powerful, but those soldiers all have true god armors, so it's not an easy job to kill them, the captain thought. They know I might be using them, but for military credits, they'll still give it their best shot. No matter what, I'll have most of the true god bodies.

The captain's eyes glinted all the more insanely. He had wanted to befriend Luo Feng before, but under the temptation of the military credits, he now opted for another path.

After all, the best thing that could guarantee his survival was power.

“I can’t find him.”

“That law master seems to have disappeared. We can’t find him.”

All the strange beasts were scattered around different battlefields, and they were looking for Luo Feng.

“He must have been hiding in the army of Xuan Yu Mountain, among those law masters.”

“He’s got to be.”

All those strange beast true gods all figured that out, yet they didn’t dare to mess around the law master army.

Both the strange beast soldiers and the captain speculated that Luo Feng was in the army of Xuan Yu Mountain.

And they had it right.

I’ll be found no matter where I hide, thought Luo Feng. However, if I hide here, the strange beast true gods won’t dare to enter even if they know I’m here.

The tribal warriors were all yelling in anger and fighting the strange beasts. Luo Feng was one of the tribal warriors.

There seemed to be no order. However, if a strange beast true god dared to rush into the army, the tribal warriors would attack him immediately. Also, if a tribal true god raced toward the strange beasts, the law master strange beasts would attack that tribal true god at the same time as well.

It was a hidden law! Law masters could fight each other fairly. However, when it came to true gods, they would join forces against the true god.

Lots of tribal warriors gather in Nine Smoke Marsh. Strange beast true gods know that I’m here, but they don’t dare to inspect it. After the war ends, I’ll leave Nine Smoke Marsh immediately.

Luo Feng spent the days here. One month after another passed.

Luo Feng had been in the tribal warrior army from Xuan Yu Mountain for three months. With his power, it was easy for him to survive in the army. Just when Luo Feng was enjoying his time, waiting for the day when he could leave.

“Kill the bastards from Nine Smoke Marsh!” Luo Feng’s body was enormous, and his messy hair made him look like a savage. He was roaring right along with other tribal warriors. But suddenly, he slowed down.

“Huh?” Luo Feng glanced around.

A tribal warrior looked toward him.

The tribal warrior smirked and moved his lips. He didn’t make a sound, but Luo Feng knew what he was saying: “Milky Way.”

It's a soldier under the captain, Luo Feng realized immediately.

Chapter 1363: Confrontation

That red-faced warrior walked toward Luo Feng. Then, with a grin, he said, "Milky Way, you think after changing your look, with that messy hair, we wouldn't be able to recognize you? No matter how hard you try to change your looks, your godly power and aura remain unchanged. So long as you get a little nearer to us, we will be able to recognize you right away."

Luo Feng's gaze swept through the surroundings. "There must be more than one of you."

"Captain and the rest have arrived," the red-faced warrior replied via voice transmission. "They are scattered all over the place. Your power. All of us witnessed it for ourselves from the edge of the true god level battlefield. Being able to escape so easily even though you are pitted against several true gods... I honestly wouldn't have the confidence to handle you single-handedly."

Hua! Hua! Hua! Hua! Hua! Hua!

A distance away, over ten figures were approaching from the chaotic Xuan Yu Mountain's army. Luo Feng's sweeping gaze recognized one of the figures as the captain with a gigantic curved horn. The others were the batch of warriors under his command. One by one, those warriors communicated with him via voice transmission.

"New recruit, Milky Way, you are much more powerful than we expected."

"Your powers are indeed quite impressive."

"We are willing to accept you, for you to be one of us."

Even the captain was looking at Luo Feng, and he said, "New recruit, Milky Way!"

"Captain." Luo Feng looked at the captain who had looked down on him when he had just entered the Python River Army as a new recruit. At that moment, this same captain was all smiles and appeared to be so winsome.

"Previously, we did not accept you because, normally, new recruits are weak. But your power has earned our recognition." The captain said this in a most straightforward manner. "All you have to do is contribute those true god corpses and share them with us. From then on, within our little troop, all the warriors will be fully convinced of your loyalty. I will also willingly give up my position as captain... and you will take over!"

"Yes, we are willing to recognize you as our captain and serve you."

"So long as Milky Way is willing to lend us a helping hand, give us a chance for survival!"

"Milky Way!"

One after another, the warriors all looked longingly at Luo Feng. Even the captain wore the same expression, as though he really was selflessly willing to dedicate the position of captain.

Luo Feng's gaze swept across the warriors before him again as he asked, "For real?"

"Of course. This is nothing but the truth."

"We will make you our captain right away," the warriors said, speaking as though they were all of one mind.

Luo Feng smiled instead. But his smile reflected his indifference as he replied, "It's just that, whether you all live or die... What does that have to do with me?"

Instantly, the warriors all stood frozen on the spot when they heard this shocking question.

"I thought none of you were bothered about the survival of new recruits?" Luo Feng said with a sneer. "And now, we are talking about friendship in times of war?"

He had long seen through all this. What captain? What friendship? What jokes! The cruel, brutal army selection process had caused numerous warriors to be annihilated, and the more experienced warriors were used to seeing such annihilations. All they wanted was to become true gods for themselves. Who cared about this pointless position of captain?

These warriors remained under the captain's command only because he was strong and powerful. If it were for survival, they would most likely have abandoned him right away.

18 warriors, including the captain, all wore unpleasant expressions. They had not expected Luo Feng to be so detached from the situation.

"Milky Way!" The curved-horned captain transmitted his words with great anger. "There are now 50 true gods out there seeking to capture you. They have also guessed that you must be among one of the large groups of law masters of Xuan Yu Mountain. The battlefields of law masters are scattered all over, and there are quite a few under the watchful eyes of true gods hiding in the distance while sweeping the battlefields to find you. Not far from us, in the sky high above, there is already one such true god spying on you here."

Luo Feng raised his head to look up into the distant sky.

"I know," Luo Feng replied. "But it is too far away. It won't be able to recognize me."

"But we can inform it," the curved-horned captain said. "All we need to do is make eye contact with it. Right away, it will notice this area. We just have to twitch our lips, and from the shapes of our mouths, it will know what we are trying to tell it."

"Oh?" Luo Feng laughed.

"The moment you are discovered," said the captain, "that true god only needs to give a single command, and right away, a multitude of law masters from Nine Smoke Marsh will surround you. By then, you will have no way to escape at all." He stared at Luo Feng. "You are going to be annihilated! Choose! You can choose to hand over the majority of the true god corpses and bring some back safely to the military camp, or you can get nothing and die here!"

“Make your choice,” the warriors spoke up, also staring at Luo Feng.

“Milky Way, this time around, we have very slim hopes of surviving the mission. If you force our hand, we can all die together.”

“If we have to die, we will take you along with us.”

Luo Feng shook his head. “Then you can all die. I will take these 35 true god corpses back to the military camp.” With that, he turned around while roaring, “Kill those bastards from Nine Smoke Marsh!”

He immediately transformed into flowing light and charged off into the distance.

The 18 warriors, including the captain, were shocked. They had not expected up until now that this new recruit, Milky Way, could be so fearless. Could it be that he truly thought he could escape when under the siege of an entire group of top figures from Nine Smoke Marsh?

Although they were shocked, they were extremely fast in reacting! Even as Luo Feng was on the move, the 18 of them also set off.

“You want us dead, new recruit, then you shall die, too!”

“Loathsome Milky Way!”

“You deserve to die.”

“You are the one who forced us.”

Some of the warriors wore fearsome expressions with their eyes filled with madness as they charged at Luo Feng.

At that moment, Luo Feng, who was continuing to fly at high speed, only responded with a cold smile.

Hong! Hong!

The second volume of Extermination was fully executed! The speed attained was wicked—so fast that it quickly shook off the warriors.

“You think you can keep up with me?” Luo Feng could not be bothered with them at all.

Among the numerous warriors who were after him, the curved-horned captain was the fastest. “Milky Way, don’t you dare think of escaping!” he shouted.

The captain had initially thought that this new recruit would be worried about his situation. He had assumed that he could use this as an excuse to coerce Milky Way into handing over some of the corpses. Yet reality greatly differed from his expectations. This new recruit, Milky Way, had no intention of escaping at all.

The other warriors had not seen Luo Feng going crazy before, but the curved-horned captain had witnessed his previous actions. He knew that if this new recruit was to truly get all fired up... the other warriors would not be able to handle him at all.

Chi! Chi! Chi!

Behind the captain, a gigantic pair of black wings appeared behind the captain. On the edges of these black wings were numerous black ribbons.

Hua!

The gigantic black wings had as many as a few hundred black ribbons, and it sped across the length of space to enshroud the area ahead; no matter how fast Luo Feng was, he could not match the speed of this weapon.

Luo Feng's surroundings suddenly darkened. Looking back, he saw huge black ribbons that resembled numerous huge snakes moving quickly to enshroud the surroundings.

"Scram!" Luo Feng shouted.

He held two hammers. Because he had spent time among the many Xuan Yu Mountain law masters under a disguised identity, and he did not want that faraway beast true god who had been snooping around the battlefields to discover his identity, he had purposely chosen a pair of hammers to use as his battle weapon.

Hua!

The two hammers each made an arc. With the energy of his godly power burning up fervently, the might of the two hammers was astonishing. When they swept through the surroundings, the black ribbons were thrown back a little. Unfortunately, such a slight delay was enough time for many black ribbons to form a huge black sphere, which quickly moved over to enshroud him entirely.

"What great resilience. Such incredible power." Luo Feng could feel the power of the ribbons through his hammers and could not hold back his shock. "This captain did not execute any secret technique at all. The power of these black ribbons that appear to enshroud the surroundings is so strong. This does not make sense."

Strong powers usually involved secret techniques. Yet the ribbons' enshrouding force alone was incredibly strong.

"Could it be an automaton-type treasure?" Luo Feng quickly inferred a conclusion based on what he had seen. "I must break through it with my Blood Ghost Blade. If I hope to break through it, I need to execute my strongest blade technique. However, if I were to continue in this entanglement, I don't know how much time I will be wasting. I'm just worried that toward the end, I will be discovered by that beast true god."

The captain and his new recruit, Milky Way, exchanged moves instantly. Although the other tribal warriors around them had doubts about the reasons why these two were engaged in battle, they held back their doubts. After all, from the sidelines, the attacks that captain was executing merely seemed as though he was trying to restrain with a spiritual force weapon. The onlooker had their doubts. Even if there were past enmities, how could they be fighting at such a time? Could it be because of some victory spoils?

“Captain, your Black Cloud Wings are impressive.”

“Black Cloud Wings fly so quickly and has such great restraining powers. It is extremely adept in protecting itself, it is the absolute treasure to own for escape and survival.”

The other warriors were filled with envy.

At that moment—

Hong!

The many black ribbons shrouding the black sphere suddenly took off into the distance at a terrifying speed. A bump unexpectedly appeared on the black sphere. It was as though, there was a monster hidden within the sphere formed by the black ribbons, which was flying at a high rate of speed and forcibly pulling the black sphere along with it as it rocketed through the sky.

Chi! Chi! Chi!

Numerous black ribbons gradually tore apart to reveal an ancient battleship, and there seemed to be countless black ribbons entangled over the surface of the ancient battleship. These black ribbons kept the ancient battleship under layers of restraint, but the ancient battleship was still traveling at a speed that was continuously soaring as though it was not affected whatsoever.

It was flying at such a super high speed! And the speed was continuously soaring!

“What?” the captain roared, losing his cool. “Such a strong flying power!”

Through his Black Cloud Wings, Captain tried his best to manipulate the ancient battleship. But the ship was far too strong; it simply could not be shaken. On the contrary, the captain was tugged along to fly at an extremely high rate of speed in the distance.

“Captain,” said a voice. “I thought you wanted to bring me to see a true god? Let’s go meet him, then.”

The ancient battleship pulled the captain along with it as it zoomed high up into the sky. How powerful the driving force of Boat of Mausoleum was! If it released an outburst, would this universe master be able to block it?

Hu!

The battleship was extremely fast, and it was charging into the sky far and high above. In the outermost area of the sky above the battlefield, there was a winding and hovering beast true god.

“Stop, stop!” the captain shouted angrily. “Are you courting doom?”

“Haha...!” said a voice. “Let’s go see the true god and see which one of us is going to die.”

The ancient battleship was still advancing rapidly in the direction of the beast true god.

The captain was extremely flustered. He knew. He had stolen a true god corpse, too! Although the group of true gods from Nine Smoke Marsh were eager to apprehend Luo Feng. Luo Feng had kept himself hidden within that battleship; not a single breath could be detected from the outside. Most likely, that beast true god would not be able to verify Luo Feng’s identity. On the contrary, it would first confirm

that the captain was the first to have stolen a true god corpse. Then, they would certainly not give him a chance to escape!

“You are so vicious!” The captain was very angry, but he had no choice but to give up. The black ribbons that were pestering the ancient ship rapidly released their grip as the captain quickly detached himself from the ancient battleship. “You have an automaton-type blade, and even an automaton-type battleship? The driving force of a battleship is very powerful. Even my automaton-type Black Cloud Wings are unable to stay within my reins.”

The captain hovered in midair as he looked helplessly at that ancient battleship speeding off into the distance amidst the grasslands of the marsh. He was filled with reluctance. “I didn’t know you had an automaton-type battleship!” he said. “That was why you were able to escape!” He added through gritted teeth, “You escaped once before, but I don’t think you will be able to escape again.”

A short while later, amidst the Nine Smoke Marsh army that consisted of a few thousand beast warriors, a multitude of beasts were roaring and yelling. Then they charged toward Xuan Yu Mountain.

“Kill! We will kill you all bastards of Xuan Yu Mountain!” roared Golden Horned Beast, who resembled a huge lizard with wings.

From the army of Nine Smoke Marsh, it took off and charged at Xuan Yu Mountain.

Chapter 1364: The Demise of the Squads of Python River Army

Golden Horned Beast was with the law masters from Nine Smoke Marsh. Golden Horned Beast and the humans were from different races, so they had different auras. Even true gods weren’t able to tell that Golden Horned Beast was actually Luo Feng. Besides, creatures in the World of Jin didn’t have multiple bodies, so nobody would consider such a possibility.

Up in the sky of Nine Smoke Marsh, six true gods of void space from Xuan Yu Mountain and Nine Smoke Marsh looked down.

“That was how he got away!”

“That soldier is carrying a law master strange beast. Then neither his teammates nor the 50 true gods who went to look for him can find him.”

“He must be able to leave Nine Smoke Marsh.”

All the true gods of void space sighed.

Nine Smoke also looked down and sighed. “He has two machine type valuables. That boat must be a true-god-level machine-type valuable, but it has great power, so it must be at the top tier. He’s only a law master, so he shouldn’t have been able to get such a machine-type valuable. It seems that those in the army think highly of him.”

The six true gods of void space knew everything that was happening down there. However, they hadn't expected that this talented soldier and the golden horned beast were actually two bodies of the same great being.

True gods of void space controlled the entire battlefield, so he knew about everything. However, they wouldn't and didn't dare to meddle. Nobody dared to provoke the hidden rules in the World of Jin!

Months passed, and the war was coming to an end.

"How can you not find him?" The captain was very upset in the army of tribal warriors of Xuan Yu Mountain. "Though Nine Smoke Marsh is enormous, there are only a few battlefields where the law masters gather. That new soldier Milky Way didn't have anywhere to run. How could you not find him?"

The soldiers replied using their communications tokens.

"Captain, we really can't find him."

"We've searched everywhere."

"We can't find him."

The soldiers didn't know, but the captain had seen Luo Feng kill that strange beast true god. He knew the great potential this new soldier possessed. He planned to make friends with Luo Feng, but he chose to make attacks. He wanted military credits. He could live with failing last time, as he hadn't expected this new soldier, Luo Feng, to have a machine type spaceship. However, it had been six months, yet they still couldn't find him.

"Impossible! Go find him unless you want to die! He's our only hope to finish the task." The captain was anxious. "I can't believe it. I need to tell the other two teams."

The captain sent a message to all the soldiers. "Yu Luo, Ku Fa, I'm going to tell you something now... Several months ago, a true god from Nine Smoke Marsh who was responsible for collecting the dead bodies of true gods died. His body was snatched by the new soldier, and that new soldier now has more than 30 bodies of true gods. He was hiding in Nine Smoke Marsh."

Other than Luo Feng, all the other warriors received the message and made astonished replies!

"What?"

"Impossible!"

"That new soldier got over 30 bodies of true gods?"

"How did he survive it?"

"You can believe or not believe it," said the captain. "I've chased him for a long time, but he's really good at hiding." The captain didn't want to say too much more. He believed that under the threat of the army, the other soldiers would also look for him, so it was a great chance.

Humph! the captain thought. Yu Luo? Ku Fa? They don't stand a chance against Milky Way. The best they can do is to help me find him.

He didn't even think about Yu Luo and Ku Fa.

The strange beast and the soldiers were in Nine Smoke Marsh.

Yu Luo transmitted his voice. "We've only got around 20,000 weapons and armors, so we can only guarantee that two will finish the task. It seems that the battles between Xuan Yu Mountain and Nine Smoke Marsh are getting less tense, so it might end shortly. We have to determine whether or not Luo Feng actually has the bodies of true gods."

"Inspect it!"

"Go look for the new soldier, Milky Way."

The eyes of those strange beast soldiers gleamed crazily. The insanity stemmed from a fear of death.

The soldiers of Ku Fa were with Xuan Yu Mountain.

"We've only got a little over 30,000 weapons and armors, but this is far from enough. Without the war, we can't even hope to get 1,000 more weapons and armors. We need to look for the new soldier, Milky Way."

Ku Fa was humble and gentle, but when it came to the threat of death, he would still grasp at the last chance.

Wu He received the message from the captain.

"Over 30 bodies of true gods? Milky Way?"

Wu He was shocked. He found it hard to believe. He didn't want to believe it!

"I've been collecting military credits for a long time, and I still have a long way to go until I reach 10,000 credits. How did he get so many bodies of true gods?"

Wu He didn't want to believe it, but, based on the message sent by the captain, he felt that it might be true. Otherwise, the captain wouldn't have made up such a ridiculous piece of news.

Regret! Wu He deeply regretted his decision!

"If I had chosen to stay with him, I could have gotten at least five or six bodies from the 30 he had."

All the soldiers who were sent to Nine Smoke Marsh were looking for the new soldier Milky Way, but they couldn't find him anywhere. It seemed he had already left Nine Smoke Marsh.

Everyone's looking for me?

Golden Horned Beast Luo Feng was in the strange beast army. He'd seen some soldiers in the distance, and he had even seen Wu He twice!

Do everything you can. You won't be able to find me.

Golden Horned Beast Luo Feng occupied the swamp, and half his body was in the water. The war had been going on for a long time, and both sides had suffered tremendous losses. Naturally, neither side had restrained themselves and didn't want to continue fighting anymore. Lots of strange beasts and tribal warriors had chosen to retreat.

Finally, a soldier contacted him. "Milky Way! Milky Way, it's me. Wu He."

Golden Horned Beast Luo Feng smirked. "Oh, Wu He?" he replied. "Have you gained enough military credits?"

"No, it's very difficult to get 10,000 military credits," Wu He replied. "Milky Way, I just received word that the captain, Ku Fa, and Yu Luo, and the soldiers under them are looking for you. They want to get the true god bodies from you. They're excluding me because they think I am with you."

"Really?" Luo Feng answered.

"Milky Way, we went into Python River Army together, and we're both new soldiers. I have lots of military credits to make up for. I just want one true god body. I'm willing to exchange it for valuables. I'm willing to give you a true god armor."

Wu He was anxious. In his mind, both he and Luo Feng were new soldiers, so it should be easy for him to get a true god body for his true god armor.

"Exchange?" said Luo Feng. "In Nine Smoke Marsh?"

Wu He understood that Milky Way wouldn't want anyone to know where he was, so he wasn't willing to conduct the trade here.

Wu He transmitted his voice. "Let's go back to the camp first. We can do it in the camp."

Smart guy, Luo Feng thought.

Wu He had been collecting weapons and armor for a long time, and he was the child of North True Ocean. He might actually have some good stuff.

"You need to give me enough valuables," said Luo Feng. "Otherwise, there will be no deal."

"Sure," Wu He said, relieved. He had been afraid that Milky Way would case talking to him.

Luo Feng already had a plan. He decided to see how many valuables he could get from 10,000 military credits. Then he would ask Wu He to give him more! It was only 10,000 military credits to him, but it was a life-saving opportunity for Wu He. If the military wanted to kill him, not even his father North True Master dared to stop it.

A few days after Wu He contacted Luo Feng, Ku Fa also contacted him. Ku Fa, however, didn't have enough valuables, so the negotiations soured.

"Do you think me a moron?" said Luo Feng. "A trade outside the military camp? Haha... Then die!"

With that, Luo Feng stopped talking to him. He was being charitable. They could only live if he gave them the bodies. If they dared to try to negotiate terms with him, they would die!

The war lasted for a year.

True gods of void space showed up one by one, and the army of Xuan Yu Mountain retreated.

Hong!

The Nine Smoke Marsh returned to normal.

"Let's go!"

The army from Xuan Yu Mountain started to leave. Some of the soldiers who pretended to be tribal warriors hid at the periphery of Nine Smoke Marsh.

"We still haven't got enough military credits."

Ku Fa, Yu Luo and the captain watched the army leaving. Without the war, they wouldn't have the chance to scavenge weapons. Now, it would be difficult for them.

The strange beast soldiers led by Yu Luo all grew ferocious. "Seize them! The captain and Ku Fa must have lots of military credits. We'll seize those! Then we can have a chance to survive."

"Let's go seize some military credits!" Ku Fa bellowed as well.

"This is our only chance to survive," the captain said to the soldiers following him.

All the soldiers chose to fight for military credits. Only the stronger ones could survive and get enough military credits! And if the three teams left separately, there was bound to be internal fighting within the squads.

At the periphery of Nine Smoke Marsh, a golden horned beast was talking to three strange beast law masters. These were the friends Golden Horned Beast Luo Feng had made during the war. They then left.

"Time to get back to the camp."

Golden Horned Beast Luo Feng looked back at the endless Nine Smoke Marsh surrounded by mist. He didn't give a damn about the demise of those soldiers from Python River Army. He carried a great many military credits!

Sou!

The golden horned beast disappeared.

Chapter 1365: The Order of Purple Moon Ancestor

After leaving Nine Smoke Marsh, Luo Feng rushed to the East Army military camp. Other than him, there was also Wu He, who had secretly left Nine Smoke Marsh.

Out of the three troops of warriors led by the captain, Ku Fa, and Yu Luo—who were all designated with a mission and were still within the Nine Smoke Marsh region—only the captain had managed to obtain a true god corpse. The other warriors, including Ku Fa and Yu Luo, had not managed to gather enough military credits. They were all brainstorming possible solutions.

Should they kill amongst one another? Should they continue to hunt? Or wait to reap benefits while the others' did the job? They were all certainly going to do their best, but it was also fated that a single disaster-level mission would cause many of them to be annihilated.

“Finally, I have arrived.”

Hong!

A lone figure appeared midair. That figure was none other than Luo Feng.

Looking far off into the distance, Luo Feng could see the vast, boundless military camp. He revealed a trace of a smile as he bowed his head to look down at everything beneath. He could also see the long queue of tribal warriors and beasts who had come to join the army.

Sou!

Luo Feng flew into the military camp.

Just as Luo Feng entered the East Army military camp, many wormholes on the peripheral region of the East Army military camp, within a contorted space, were transporting great beings.

Shua! Shua! Shua! Shua! Shua! Shua!

With almost every single moment that passed, warriors continued flying out from the various wormholes.

“Let's go. The mission this time around is considered easy. We can finish it quickly, and then we can have another era worth of free time.”

“Let's go.”

“Aye. Our next mission will be at the reincarnation-level. Who knows how many from our troop will be able to survive? I hope this time, we can earn more military credits. Then we can exchange them for a few more treasures from the military point. Then hopefully, we can pull through the reincarnation-level mission.”

Batch after batch of warriors, ranging from relaxed to stern to worried state, all left.

The East Army was simply too big. With every passing moment, there were warriors leaving. And among those warriors leaving in a continuous stream, one warrior, who seemed to be an ordinary law master, stood on one of the branches of an aged yet sturdy tree in the distance.

“I am here on the orders of Ancestor. Upon being accepted into the army, I might have been assigned with missions, but I have never gone about executing any of them... Here I am instead, just waiting. I have been here for so long, yet I have never laid eyes on that Milky Way Horde Leader, not even once.”

The silver-armored warrior was very worried, yet, at the same time, he maintained a watchful eye.

“Milky Way Horde Leader is very impressive, but so what if he is that impressive? Even if he did transcend reincarnation, he merely contributed another holy land to our Universe Ocean. To us of the Purple Moon Holy Land, he is no threat at all.” The silver-armored warrior could not make sense of this situation. “Once a holy land is established, it will be an eternal existence. My Purple Moon Holy Land universe is not afraid of any great beings, so I simply cannot understand why Ancestor holds this Milky Way Horde Leader in such high regard. Even all the way here in this World of Jin... he still gave orders for us to look into his whereabouts.”

The silver-armored warrior sighed inwardly. He simply did not understand. He was filled with doubts, but this was Ancestor’s order; he did not dare defy it.

The vast Universe Ocean was mysterious and unfathomable.

In one of the two holy land universes, Purple Moon Holy Land, Purple Moon Ancestor was growing angry and dissatisfied.

“Have you discovered Luo Feng’s whereabouts yet?”

Two nervous figures knelt before him with great reverence.

“Ancestor, previously, we watched the Boat of Mausoleum entering the World of Jin, so we followed it in. Based on his point of entry, if he wanted to make it to an army, it would be an 80 to 90 percent chance that he would end up at East Army! So after I joined the East Army, I have been watching the exits of the numerous wormholes, and indeed, I have yet to discover Milky Way Horde Leader.”

“We have certainly not discovered traces of him, Ancestor. Could it be that Milky Way Horde Leader has yet to join the army?”

The two universe masters remained on their knees.

“He has the inheritance of the pulse of Duan Dong River. Even if he is in the World of Jin, he is able to break away of anything easily, so much so that he is making a name for himself.” Purple Moon Ancestor looked down towards the two universe masters and said coldly, “Not only do the two of you need to keep a close watch at the exit of the wormholes, but you also need to frequently inquire about him. The moment he gains a reputation, you will be able to find out more about him easily.”

“Understood.”

“Understood.”

The two universe masters answered with great reverence.

“Ancestor, we... Our troop’s mission...?” The double-faced universe master with four arms could not help asking.

“The two of you shall rotate,” Purple Moon Ancestor instructed with great indifference. “While one keeps watch and patrol, the other will go out to complete its troop’s mission. When the mission is completed, return to the military camp to continue searching and investigating. The other team shall go out to complete their mission. This time around, very few of our Purple Moon Holy Land have entered the World of Jin. Until the next era, there will be quite a handful of universe masters going over. By that time, you both will have a much easier time.”

“Understood.”

The two universe masters were also earnestly praying for the next era to arrive.

“Get moving, then.” Purple Moon Ancestor dismissed them with a wave.

The two universe masters took their leave in a most respectful manner.

Purple Moon Ancestor’s face was blurred. Only a pair of eyes was visible. The gaze carried only a trace of feminine grace while the most of it was filled with endless murderous intent. “I had thought that it was impossible to kill you. Yet, who knows? The World of Jin has come into existence! In the World of Jin... the number who can kill you, Luo Feng, is just too many! Luo Feng, don’t blame me. You can only blame yourself for receiving that inheritance of the pulse of Duan Dong River.”

In the virtual universe, at the peak of Thunder Island, Luo Feng met with Primal Chaos City Leader.

“Luo Feng.”

“Teacher.”

Teacher and disciple sat apart from one another.

“I just completed a disaster-level mission and have gained quite a substantial amount of military credits,” Luo Feng said. “Completing this mission means that for quite a long period of time, I will be safe. I will try my best to uncover the mysteries of the entire World of Jin as soon as possible!”

“Hmm. You are the first of our human race to enter.” Primal Chaos City Leader nodded. “Your responsibility is the greatest. Now, throughout the entire Universe Ocean—whether within the primal universe, another reincarnation era, the two great holy land universes, or other words—great beings from all over have their sights on the World of Jin. After all, the first batch to enter will be able to get hold of first-hand information and understand more about the World of Jin, which is simply too alluring.”

Luo Feng nodded. This was to be expected. In the Universe Ocean, various great beings yearned to transcend reincarnation, and also, they yearned to get hold of a supreme true treasure.

However, in the World of Jin, there were many true gods of void spaces! Obviously, there would be a cultivation method that could allow a true god to achieve a complete breakthrough to attain the level of a true god of void space. This so-called supreme true treasure was actually the standard armor of a true god, and there was simply too many of them. Even various magical automaton-type treasures existed.

The opportunity to transcend reincarnation, find supreme true treasures, and gain automaton-type treasures was too alluring. All the powerful groups in Universe Ocean lost interest in the three most dangerous lands instantly. Everyone was extremely excited as they set their sights longingly on the World of Jin. The only catch was that the chance to enter only happened once every era.

“Previously, the willpower of the primal universe origin came looking for me through Ancestral God.” Luo Feng smiled. “Apparently, it is better for me to stay put here for the time being. The longer, the better. I will make use of this advantage of being in the World of Jin. Besides... this time, I have earned quite a bit of military credits. I may be able to bring some supreme true treasures with me when I return. After one era has passed, when I get out of here, I will send some of these supreme true treasures back.”

Primal Chaos City Leader was delighted upon hearing such news.

The World of Jin was the most important battlefield! Various groups of top powers would fight for it. Yet the human territory within the primal universe represented the roots of the human race! Only by expanding their territory could human talents multiply in numbers, and there could be continuity in the outburst of great beings being born. In this way, the human race could reach the level of the other two holy land universes or even surpass them.

“Teacher, I will head for the military point first,” Luo Feng said. “At the military point, I can trade military credits for inheritance and obtain various treasures. I believe I should be able to catch a glimpse of the more profound secrets of the World of Jin. When I have gained a better understanding of the military point, I will share the information with you.”

“Get going,” Primal Chaos City Leader replied right away. “But remember, don’t take risks. The World of Jin is much more dangerous than our Universe Ocean.”

Luo Feng nodded. He might have been roaming and wandering about the World of Jin, but he maintained frequent contact and had regular conversations with his teacher. He was constantly aware of the various happenings in Universe Ocean. Right now, Universe Ocean could be said to be calm and tranquil. Obviously, various parties were eyeing the World of Jin!

East Army military camp, Python River Army camp.

Luo Feng and Wu He arrived at the military camp at almost the same time.

“Milky Way, Milky Way.” Wu He went scuttling over to Luo Feng, following from behind. The wings attached to its neck flapped continuously as it said, “I have readied the treasure. You can give me one in exchange now.”

“You have prepared it?” Luo Feng looked at him jeeringly. “There is no rush at all. I will go to the military point first. When I get back from the military point, we shall have a good talk.”

Wu He was somewhere reluctant. If Luo Feng were to go to the military point, it would mean he would understand the value of certain treasures, and it also meant that Luo Feng would mercilessly oppress him. But no matter how reluctant Wu He was, he did not dare to argue with Luo Feng. All he could do was move his hideous-looking face and smile.

“Yes, yes,” he said. “When Milky Way is back from the military point, then we’ll talk. Milky Way, don’t forget to keep one for me!”

He was most worried that this new recruit, Milky Way, would trade all those true god corpses for military credits. That would truly deal him a devastating blow. It would be the same as sentencing him to death.

Luo Feng nodded. “Don’t worry.”

Sou!

Luo Feng left the camp right away, feeling overjoyed as he headed toward the military point at the main hall.

Python River Army’s lake camp was quite a distance from the main hall, but Luo Feng seemed to be enjoying the scenery as he went along. He was in a good mood, so he strolled to the military point at the main hall.

“The military point!” Luo Feng raised his head to look at the towering, ancient main hall.

“According to the rules, before accepting and after completing a mission, I would be qualified to trade for treasures in the military point. But if I turn up here without completing the mission... then I cannot enter.”

Luo Feng softly recalled the military rules, then made his way through the doors of that broad and towering hall. The moment he walked through the main doors, there was a sudden change in time and space. It was as though he had stepped into another world.

Luo Feng was taken aback. “What secret technique is this?”

Before him was a vast world—a world that was boundless—and there were many warriors scattered all over the place. Before each of them was a golden figure.

“Compared to the virtual universe, this is much more magical...!” Luo Feng secretly exclaimed.

Sou!

A golden figure appeared out of nowhere to land before Luo Feng. Luo Feng took a close look at the golden figure before him, yet he simply could not see its face clearly. The figure was completely enveloped in golden light.

“Warrior of Python River Army, you are on a mission.” The golden figure looked at Luo Feng. “You are not allowed to trade for any items at military points.”

“My mission is accomplished,” said Luo Feng.

With a single wave, Luo Feng revealed the serpentine corpse of a huge beast true god by his side. It was a gigantic corpse close to one million kilometers long. The corpse appeared so suddenly that even the warriors afar were in for a shock. Ironically, within this military point, almost all the warriors were law masters.

Chapter 1366: Eternal True God

A true god body that was almost a million kilometers long fell on the ground, and the ground trembled. The tail of the body touched a soldier near it. Those soldiers all turned around. When they saw the body of that strange beast true god, they all exclaimed.

Weng!

The eyes of the golden being shot golden light, covering the body of the strange beast true god. He then nodded. "This is indeed a true god from Nine Smoke Marsh. The task is finished. 10,000 military credits awarded."

Luo Feng was startled. It could tell that the body was from Nine Smoke Marsh with a simple inspection? It seemed that the military indeed had astounding control over the World of Jin.

"Name your requirement!" The golden being looked at Luo Feng. "You can exchange these 10,000 military points for weapons, machines, inheritance, and anything else on the list. If you have other valuables, you can also give them to the military and get military credits. Here is the list."

A giant light screen appeared in front of Luo Feng after the golden being stopped speaking. There was a detailed list on the screen, and Luo Feng skimmed through it.

"I want the basic information about those above true gods," said Luo Feng.

"Basic information?" said the golden being. "There are only three pieces of material about the basic information. Based on the detail and level of secrecy, they require military credits equal to 100, 500, and 3,000, respectively."

Luo Feng was shocked. It was only basic information—not even a training guide—yet it required so many military credits. The military credits gained from a catastrophe-level task was only 10,000. It was easy for him to get one or even two supreme true treasures from Wu He with one true god body, possibly more. He indeed wanted to know more.

"I want the highest class," said Luo Feng.

"3,000 military credits spent!" said the golden being. "Soldier from Python River Army, you still have 7,000 military credits left, and you can only read the secret information here."

Hua!

A multitude of text appeared on the screen in front of Luo Feng. Only he could read the words; no others could see it, and neither could he see trades made by other soldiers.

"Here...?" Luo Feng whispered and started to read.

The text was tiny, and the screen was enormous. There were 100 million words on each light screen.

Based on the basic information, there were under-undying, undying fighters, law masters (universe knights), law masters (universe masters), true gods, true gods of void space, and eternal true gods.

When a life form was born in the World of Jin, they were all at the under-undying level. Generally, everyone who grew to adulthood could become undying, and some talents could become undying after they were born.

Undying fighters, law knights, and law masters were all godly body life forms! Their energies and life imprints were merged into one! When the godly power was consumed, the life imprint was consumed as well. (Some races had souls, while some life forms, such as rock beings, had other cores. All of them had life imprints.)

The more the life imprint was consumed, the more the power would tumble. 50 percent of the godly body consumed would decrease someone's power by 90 percent! That was the flaw of a godly body life form.

Once someone became a true god, they would return to the origin like a baby, returning to their real lives. Flesh and blood type life forms would still be flesh and blood, and metal life forms would still be metal. For example, flesh and blood type life forms couldn't contain life imprints in their blood and bones. Like domain lords and sector lords, their souls and bodies were separated. However, after becoming a true god, they would become a flesh and blood type of life form again. Their soul and body would be separated again!

The energies of true gods were bodies. Each inch of the body could burn and would become enormous fighting energies. The soul of a true god was hidden in a "heart of true god."

True gods, true gods of void space, and eternal true gods all had a heart of true god, which was actually a mysterious space inside the bodies of true gods. Inside that mysterious space was the soul of a true god, and the mysterious space also connected the miniature universe outside. No matter how far a true god was from their miniature universe, they could transfer the energies in their miniature universe to their heart of true god.

There were three ways to kill a true god. One: completely destroy the body of a true god, thus destroying the mysterious space, and the true god would die. Two: use soul attacks to kill the soul of a true god, and the true god would die. The third and most the common method was to attack a true gods using power beyond their defense. Then the strong shock waves would keep damaging the mysterious space (the heart of true god). Once the heart crumbled, true gods would naturally die, just as an ordinary wearing armor would be killed if hit by a hammer on his chest, as the shock waves would crush his soul.

The same rule applied. The more powerful the bodies were, the less their hearts of true god would be weakened! If the body could resist all the attacks, the hearts of true god would be perfectly fine.

Flesh and blood life forms, rock life forms, and plant life forms... This rule applied to all of them. Once someone became a true god, his body and soul would be separated. No matter how much energy a true god burned, it wouldn't affect his power, as the godly power didn't involve souls.

True gods had miniature universes, and they were transformed from god countries, not created by true gods. Then true gods needed to comprehend the birth and operation of the universe until they could control a void space!

One thought, and a void space was formed! This was the ability of a true god of void space!

True gods of void space would keep improving in power, comprehending more, until one day when they would reach a limit on comprehending the evolution of the entire universe. Then he could even create a miniature universe with one thought.

One thought, and a universe was formed! This was the ability of an eternal true god!

Miniature universes formed in this method were different than the miniature universe created by Luo Feng's inherited technique, "I Am the Universe." The miniature universe created by that technique was far too simple, yet the miniature universes created by eternal true gods were battlefields, as eternal true gods couldn't create universes that were too large.

One thought, and an area of 10,000 square light years would fall into a miniature universe! The eternal true god was the master of that miniature universe!

Other than being tiny, miniature universes were exactly like normal universes. They were so powerful that eternal true gods could easily suppress true gods of void space.

True gods, true gods of void space, and eternal true gods. It was a process of comprehension of the evolution of the universe until one could create a miniature universe with one thought.

There were four eternal true gods in the World of Jin. They were the four generals from the four armies! They managed the World of Jin, and they were superior. If a true god of void space made a breakthrough and became an eternal true god, he could leave World of Jin and fight for His Majesty the Godly King!

Other soldiers needed to be summoned by His Majesty the Godly King to go out. However, eternal true gods could go out by themselves!

"Go out by themselves?" Luo Feng exclaimed. "If that Godly King is still alive, then his eternal true gods can go out and fight for them. However, that giant, human-shaped creature was lying in Universe Ocean, so the Godly King might have died already."

"His Majesty the Godly King has died, and according to the original mind, no life forms in the World of Jin can survive outside."

"Even if a peerless talent is born and becomes an eternal true god, he might die instantly after leaving the World of Jin."

Luo Feng sighed and kept reading.

True gods of void space were the overlords of an area in the World of Jin. Eternal true gods were absolutely supreme beings, and they were great officials of His Majesty the Godly King.

However, there were still differences among true gods, true gods of void space, and eternal true gods.

When someone became a true god, his god country would turn into a miniature universe, and the structure of the miniature universe was very important. The diameter of a true god's miniature universe was 100 million light years. However, after becoming a true god of void space, there would be differences. Because of the structure of the miniature universe, some would have a diameter of 1.8 billion light years. Some would have 2.5 billion light years, and some would have 5 billion light years.

The smallest miniature universe of a true god of void space had a diameter of 1 billion light years while the largest was ten billion light years.

"Oh?" Luo Feng was surprised. "The two holy lands. Purple Moon Holy Land has a diameter of 2.1 billion light years while Eastern Emperor Holy Land has one of 3.2 billion light years."

Based on those dimensions, both Eastern Emperor Ancestor and Purple Moon Ancestor were true gods of void space!

"I'll keep reading."

Miniature universes were the foundation. They could absorb the energies outside and transform them into godly power without life imprint. Every time a great being made a breakthrough—either from true gods to true gods of void space or from true gods of void space to eternal true gods—they would only make a breakthrough when their miniature universes transformed also.

That was why, when great beings died, miniature universes would crumble.

If a miniature universe was destroyed, the great being could still live and absorb the energies outside, but they wouldn't be able to make any breakthroughs anymore, no matter how deep their comprehension was. Miniature universes, however, were very stable and they were difficult to destroy.

Only the limit-level great beings among true gods of void space could destroy miniature universes of true gods! Only the limit-level beings of eternal true gods could destroy miniature universes of true gods of void space. And nobody was able to destroy the miniature universes of eternal true gods.

However, all the miniature universes of the great beings in the World of Jin were arranged in the center of the World of Jin by His Majesty the Godly King, so no great beings were able to get there.

Chapter 1367: Wu Qi God

There were three main levels of progression: true god, then true god of void space, and finally, eternal true god. To advance from one level to the next, the difficulty level continuously increased by leaps and bounds! The number of eternal true gods in the World of Jin said it all.

Strictly speaking, there were two ways to become a true god. They were the “godly power route” and the “law route.” Between the two, the law route was most common. But if one chose the godly power route, the process would be much more difficult. And once one was successful in choosing the godly power route, the life genes at each level would be divided accordingly. There would be a total of three levels, and anyone who was able to attain the third level—90,000 times life gene level—would be regarded as a legend!

In other words, going by the godly power route, one’s life genes would have to reach 90,000 times to become a true god! The difficulty level was very high. But going by the godly power route, one could become a true god that was comparable to an eternal true god! Any true god who was able to achieve 90,000 times life gene level could easily become a true god of void space! Moving forward, becoming an eternal true god would no longer be that difficult.

Luo Feng finished looking through everything at one go, but toward the end, he could not help frowning.

The godly power route was so difficult! It required life genes to be multiplied by 90,000 times. It was almost unimaginably difficult.

“Before this reincarnation era ends, will I be able to achieve 90,000 times of my life genes?” Luo Feng was not confident of achieving this himself. “No matter what, I have got to try my best. Before this reincarnation era ends, if even I cannot reach 90,000 times life gene level, then regardless of my life gene level at that point, I will achieve a breakthrough to become a true god right.”

After Luo Feng finished looking through everything, he said, “I want to look at some inheritances.”

“You may,” the golden figure replied instantly. “This is the list of the various inheritances.”

Hua!

The screen changed. All the text disappeared. In their place was a gigantic, detailed list of inheritances. The list was divided into refined treasures, automaton treasures, close-combat treasures, and various other categories.

“5,000 military credits, 10,000 military credits, and 100,000 military credits? Tsk, tsk! This one that is worth 10,000 military credits—why must any interested warrior be from a ‘special troop’ in order to be allowed to trade for it?”

Looking down the list, Luo Feng was shocked to learn that these inheritances were, indeed, very expensive and required many military credits as payment. There were even some special inheritances that normal warriors would not be able to trade for, even if they could pay the price.

“So expensive... Huh? The second stage of the blazing godly power secret technique that a law master will be able to execute costs a million military credits?”

Luo Feng was dumbfounded. He had not expected the World of Jin to possess such a superior blazing godly power secret technique; it was comparable to the first two volumes of Extermination.

After going through the list of numerous inheritances, Luo Feng lamented the tremendous amount of military credits required.

“I want to take a look at weapons like armors,” Luo Feng said.

“You may,” the golden figure responded.

The list on the screen changed again. After every name on the screen, there was a pattern design for each weapon or piece of armor, along with the military credits required and also the power of the respective armors.

Luo Feng scanned through the list in one glance.

“True god level armors cost roughly 10,000 military credits. True god level weapons, on the other hand, vary in price. Weapons at the lower end of the spectrum cost 2,000 military credits, while weapons at the higher end cost as much as a million military credits. As for true god level battleships, the cheapest costs 50,000 military credits.”

Luo Feng looked through every item on the list. Apparently, palace type supreme true treasures were the priciest; next in line were soul type supreme true treasures, which required at least 30,000 military credits, followed by domain type, armor type, and, last but not least, attack type.

Of course, every category featured something unique. The most expensive attack type treasure cost a whopping one million military credits. The most expensive palace type treasure also required one million military credits.

“I have over 300,000 military credits, which means I can trade for a decent amount of supreme true treasures.” Luo Feng secretly heaved a sigh of relief. The prices of supreme true treasures were not overly high.

Just reading about the inheritances, seeing the weapon armor, and looking at some travel notes about the World of Jin took him a full day. Yet the golden figure before Luo Feng showed no trace of impatience.

Luo Feng’s eyes gradually lit up as he said solemnly, “I want to look at automaton type treasures!”

Coming to the World of Jin, he had three major goals. The first was to gather enough true god corpses as materials to help him become a true god. The second goal was to probe into the secrets of the World of Jin, and the third was to find a suitable and powerful automaton type treasure.

He had Shi Wu Wings and the Boat of Mausoleum. One was for additional assistance while the other was for flight during an escape. Now, what he required was a treasure as a main attack weapon in battle!

“This is the list.” The screen before the golden figure changed again.

The list on the screen contained very few choices. Only a few dozen choices remained on the list like lonely souls, and yet, all these were true god level automaton treasures. Obviously, those automaton-

type supreme true treasures that were of higher levels were not shown at all. Luo Feng supposed that was because his power was still not enough.

“86 kinds?” Luo Feng looked through carefully.

There were so few kinds left on the screen. For every kind shown on the screen, there were matching pictures and simple introductions.

“Black Cloud Wings!” Luo Feng’s gaze quickly fell upon one of the automaton-type treasures.

Black Cloud Wings: True god level automaton (Ordinary). 150,000 military credits required for exchange. (Python River Army warriors allowed to own this power.)

Strength: Skilled in escaping, extremely high defense ability, skillful in restraining and entrapping enemies.

Weakness: Attack power on the weaker side.

Earlier on, in Nine Smoke Marsh, the captain had used this Black Cloud Wings to deal with Luo Feng. The restraining power was indeed powerful to the extent of being scary. Luo Feng supposed that if he had not used Boat of Mausoleum and had instead chosen to use Blood Ghost Blade, he would most likely have to execute Extermination if he wanted to break free of the restraining power of Black Cloud Wings and make his escape.

“And this is only a true god level automaton treasure of ordinary standard?” Luo Feng was amazed.

At first glance: 100,000 military credits, 100,000 military credits, 120,000 military credits, 120,000 military credits, 130,000 thousand military credits... 150,000 military credits... 300,000 military credits... one million military credits... three million military credits...

Further down the list, the prices of different automaton type treasures increased by leaps and bounds. The increase was soaring at a staggering rate. Even true god level weapons could reach a price of one million military credits, not to mention automaton-type treasures.

“Regardless of how good the treasure is, if I cannot afford it, what more can I do?”

Luo Feng was not so overly ambitious as to look right to the most expensive treasure. Instead, he contemplated the list of automaton-type treasures that fell within the range of 300,000 military credits to 350,000 military credits.

Very soon, he locked down his target. It was a huge blade that required two hands for a firm grip. It was extremely intimidating, yet beautiful.

Misty Blade: True God Level automaton (Ordinary). 320,000 military credits required for exchange. (Python River Army warriors allowed to own this power.)

Strength: Upon transformation of godly power via the inner core of Misty Blade, an extremely strong attack power will be produced.

Weakness: Consumption of godly power is extremely high.

“I need something with strong attack power, and besides, my main weapon is the blade.” Luo Feng was a little tempted as he continued to look at it. “It is only a true god level automaton. Before reincarnation, it will be more than enough for me. The moment I transcend reincarnation, this blade will obviously lose some importance. By that time, it would also be good if it is left for my human race. It’s just that... its functions kind of coincides with that of Blood Ghost Blade.”

Luo Feng continued reading on. One by one, he looked down the list. The further down the list of automaton type treasures he got, the more unique and precious they became. Luo Feng even came across an automaton battleship that was comparable to his Boat of Mausoleum, and an automaton battleship which had a self-initiated attack ability.

“The last piece.”

Luo Feng held his breath. The last one was the most expensive true god level automaton. It was named “Wu Qi God.”

Wu Qi God: True God Level automaton (unique item). This item was personally created by His Majesty the Godly King. There is only one. 30 million military credits required for exchange. Only true gods or law masters who have been sealed with a title have the authority to trade for it. Reminder: Python River Army warriors are not allowed the rights to trade for this.

Strengths: 1. Extremely strong defense. His Majesty the Godly King chose precious and rare materials to make and further refine this Wu Qi God. Even eternal true gods could not damage it. 2. Extremely strong attack force. Possesses incomparably strong attack power. 3. Extremely fast in dodging. Wu Qi God’s body structured determined its extreme agility.

Weakness: Extremely strong power requires an alarming amount of godly power. Godly bodies of ordinary true gods will be consumed to nothingness in the blink of an eye.

Gentle reminder: Since its creation by the noble Godly King, there has been no great being qualified to trade for Wu Qi God with military credits. Its power has merely been speculated and has not been tested. However, for the noble Godly King to stoop to the level of creating a true god level automaton type treasure, it must be powerful. Also, any creation by the hands of His Majesty the Godly King could never be of inferior quality. The conditions of exchange were personally determined by His Majesty the Godly King.

(Wu Qi God was an automaton treasure that resembled the form of a monkey with a streamlined body and an agile tail. Just by looking at the picture, one could feel how dynamic Wu Qi God was and how fast its speed of movement must be.)

“Wu Qi God?” Luo Feng felt the temptation stirring within his heart.

To Luo Feng, who had a very deep understanding of the ancient civilization, he was clearly aware of the value of Wu Qi God. It represented the ultimate perfection of a single-body type treasure! Shi Wu Wings also belonged to this category of single-body type treasures. Only one great being could control it, and it would mainly focus on its role in the form of assistance. On the other hand, Wu Qi God could be

regarded as perfection; minus the weakness of consuming godly power too quickly, it was perfect in all other ways.

30 million military credits! Luo Feng bellowed in his heart. Where am I going to find such an exorbitant amount of military credits? And... even if I did have 30 million military credits, I am not qualified to buy it. I must be a true god or law master who has received a seal to have the authority to trade for it. And ever since its creation by His Majesty the Godly King, no one has managed to trade for it.

Luo Feng shook his head and lamented. The World of Jin had a far-reaching history. His Majesty the Godly King had disappeared a long, long time ago. From this, it could be speculated that the creation of Wu Qi God would certainly have happened a long time ago. The World of Jin had such a systematic selection process for choosing great beings, and yet none had ever managed to conquer Wu Qi God and claim it. This showed how difficult the process was.

“Receiving a seal?” Luo Feng frowned, mumbling to himself. “What does it mean by receiving a seal? I must be a true god or law master who has received a seal before qualifying to trade? A sealed great being seems to be someone with a much higher position than a warrior from a special troop.” He looked at the golden figure in front of him. “I would like to know more information related to receiving a seal.”

“500 military credits required,” the golden figure said.

“This requires 500 military credits?” Although he was reluctant, Luo Feng was clearly in no position to bargain. “All right.” He could only nod.

Hua!

The screen before him changed into a detailed, written introduction.

Being given a seal meant that a great being was outstanding to the point of perfection. And upon reaching this level of perfection, one would be qualified enough to be “sealed” by being given a “Jin” name, representing the utmost glory! Every great being that had been bestowed with a seal held on an extremely high position. In the World of Jin, the only great beings who had been bestowed with a seal were the four major generals, who had total supremacy over all the true gods of void space.

“Sealed with a ‘Jin’ character?” Luo Feng was taken aback.

The previous Duan Dong River had been sealed with a “Wu” character! Jin...? Wu...? His Majesty the Godly King?

Luo Feng nodded discreetly as he continued watching.

The requirements for receiving a seal were very stringent. Of course, the moment one became a prominent eternal true god, he would be rewarded with a seal right away! As for true gods of void space, the number who could possibly be rewarded with seals was, instead, only one in a million! As for true gods? In the long ages since the day of Wu Qi God’s creation, in the whole World of Jin, not a single true god had been sealed.

Chapter 1368: Sealed

After Wu Qi God was created by His Majesty the Godly King, no true gods were able to be sealed. As for law masters, nobody ever got close to being sealed.

Once someone became a sealed great being, his status would be greatly changed.

First of all, he would be close to the four generals. Also, he would receive a great many benefits, like Wu Qi God, which were invaluable. However, it was almost impossible. The requirement was so strict that it stopped countless talented great beings in World of Jin, yet lots of talents from all the armies would desire to get sealed.

“Huh?” Luo Feng read all the material and frowned.

“Trying to get sealed... How can that be?” Luo Feng looked at the golden being in front of him and said, “Are there any tasks that can help me get sealed?”

The golden being said coldly, “Yes.”

“What tasks?” asked Luo Feng.

He wanted to try. He was very confident. After all, he was an inheritor of Duan Dong River.

“Soldier from Python River Army, you’re a law master,” said the golden being. “There are only two ways for you to be sealed.”

Luo Feng listened carefully.

“The first way,” said the golden being. “You need to satisfy two conditions. As long as you satisfy these two conditions, you’ll be sealed. The first condition is that you need to follow the godly power path to become a true god, and your life gene level needs to reach 90,000 times. When you’re done, don’t become a true god first. Let the four generals test it. Second, there are 10,081 games in the basic game of Rhinoceros Emperor Game. If you can solve all of them, you’ll meet the conditions. If you can meet both the conditions, you’ll be sealed immediately. Besides, you’ll have lots of privileges. Your status will be higher than all the ordinary sealed great beings, and you’ll be equivalent to four generals.”

Luo Feng was dazed. It was insane.

“This is too...” Luo Feng didn’t know what to say. “Who made these conditions?” Luo Feng couldn’t help asking.

“The great His Majesty the Godly King,” said the golden being.

It was crazy. Godly power path... 90,000 times life gene level... Even in the ancient civilization, that was very difficult—not to mention in the World of Jin, where all the valuables were controlled by the army. The soldiers couldn’t get the incredible opportunities, yet they still needed to reach a life gene level of 90,000 times...

He was following the path, so that condition was still acceptable. However, 10,081 games of Rhinoceros Emperor Game in a row? Was His Majesty the Godly King insane?

Though there wasn't any time limit, it was madness to expect a law master to solve all 10,081 games. None of the inheritors of Duan Dong River could do that when they were law masters. Such a peerless talent might become the new Godly King in the future.

Both conditions are insane, Luo Feng thought. If someone can satisfy both conditions, it'll be easy for them to become eternal true gods, and they'll have the brightest future and will stand among the top beings of the entire ancient civilization. Insane! His Majesty the Godly King really thinks the true god level machine Wu Qi God is that incredible.

Luo Feng shook his head. There were many powers in the ancient civilization, and Jin was only one of them. Once that kind of peerless genius was found, all the powers would try to seize him.

"There are two paths, right?" Luo Feng asked, looking at the golden being. "What about the second path?"

"The great Godly King knew that the first path was too difficult," said the golden being. "So he left the second path so that all law masters can apply for sealing tasks. When the task begins, they'll know the requirements. They'll be required to complete a task, and once they complete it, they'll be sealed."

Sealing task? Luo Feng thought.

For every era, there would be a military task, and it was the only task. If he wanted to take another task, he needed to wait until the next era!

"What's the death rate of the sealing task?" asked Luo Feng.

"For every era, there will be soldiers applying for the sealing tasks," said the golden being coldly. "Lots of soldiers from all the armies will participate in the sealing task, and the death rate is around 90 percent. Only 10 percent can live, and nobody has managed to complete the sealing task."

Luo Feng gasped. In the endless era, nobody had been able to finish the task! 90 percent of the participants died, while only 10 percent of them managed to survive. Of course, they had failed the task as well.

"What's the task about?" Luo Feng couldn't help asking.

"Soldier from Python River Army, as long as you apply for the task, you'll know when the next task period arrives," said the golden being. "By the way, train yourself well before taking on that task. Go through some incarnation-level tasks first."

Luo Feng nodded.

The giant lake was tranquil. A strange beast floated in the sky, and his wings were shaking. He looked into the distance anxiously. He was waiting for someone.

Wu He floated in the sky and kept whispering to himself. "Why hasn't he come? He just went to one arms spot. He should be here. Don't turn all the true god bodies into military credits. Milky Way, my life depends on you. I have lots of valuables, and if you want me to give you valuables, I'll give them to you..."

Wu He was worried.

Suddenly, his eyes gleamed. A being appeared, teleported, and arrived in the area.

“Milky Way, Milky Way.” Wu He’s wings shook, and he flew toward him.

Luo Feng took a look and smiled. “No need to rush it. Let’s go down first.”

“Okay, okay,” said Wu He.

Luo Feng dove and arrived on the island down there, followed by Wu He.

Wu He looked around. “This island is so well-designed. Everything’s so simple and natural, yet there’s something special. I won’t be able to do that. Only you can. Even my father can’t do such a good job as you.”

“This was designed by the soldiers who lived here before.” Luo Feng waved his hands, and a stone chair flew toward him and landed in front of him. Luo Feng sat down and said, “I’m lazy, so I didn’t change anything.”

Wu He was dazed, then said, “That’s right. You’re right, Milky Way. We need to focus on improving our power. Power is all that matters.”

Luo Feng looked at Wu He and said, “Stop flattering me. You’re really bad at it.”

Wu He felt awkward. He was the child of Northern True Ocean, so he didn’t need to flatter anyone; he wasn’t very experienced.

“I’ve kept your share.” Luo Feng looked at Wu He. “Don’t you worry about that.”

Wu He relieved.

“But you need to show your sincerity,” said Luo Feng. “Show me your valuables.”

Wu He said, “Just wait and see, Milky Way.”

Hua!

An armor covered with green scales showed up on the ground. “This is a true god armor I brought, and it’s better than the armor from Python River Army.”

He took a look at Luo Feng, but Luo Feng didn’t seem to care. Wu He wasn’t surprised. He knew that it was impossible to exchange a true god body with a true god armor.

“This is a true god ship I brought from Northern True Ocean.” Wu He took out the real deal.

Sou!

An ancient golden ship landed on the ground. Luo Feng took a look at the ship, then looked away again.

Wu He grew anxious. “This... This ship is a true god level ship.” Luo Feng didn’t seem to be interested.

Actually, Luo Feng was quite pleased. Just as I expected, he thought. He’s a child of Northern True Ocean master, so it’s normal for him to take a supreme true treasure palace out to flee, but I can’t just let him

go. He might have something better. This spaceship is worth at least 50,000 military credits! This is a good deal.

"I, I..." Wu He got anxious. "These are all the weapons and armors of law masters I gathered in Nine Smoke Marsh. They're all here." Wu He took out a bracelet on his claw.

Luo Feng took a look and still didn't seem to care.

Wu He grew even more anxious. "Are these enough, Milky Way?" He looked at Luo Feng.

Luo Feng took a look. He was still a ferocious strange beast. His face was covered with scales, and he still looked fierce. Yet his eyes appeared weak.

"No," Luo Feng whispered.

Luo Feng didn't care. He didn't believe that Wu He would only take these valuables out, particularly coming from Northern True Ocean. The master of Northern True Ocean was strict and had only allowed Wu He to bring this many out. He could still ask Wu He to go back to Northern True Ocean to get more valuables.

There was still a long time until the deadline. Wu He could totally go back to Northern True Ocean and come back. Northern True Ocean was enormous, so Luo Feng needed to make the best use of it.

"Milky Way." Wu He clenched his teeth and stared at Luo Feng. "I did bring a valuable out when I came here. I can give you that valuable, but I will need my ship back."

Luo Feng's eyes gleamed. It seemed that Wu He had something more precious than the ship.

Luo Feng's eyes gleamed as he gazed at Wu He. "Bring it out."

Chapter 1369: Luo Feng's Automaton Type Treasure

Wu He was being watched by Luo Feng. Left with no other alternative, Wu He, through gritted teeth, finally had to reveal the most important treasure he had brought along with him when he joined the army this time around. And Luo Feng, who saw the treasure appearing on the piece of empty land, immediately showed his great pleasure.

A moment later, the deal was completed.

"Milky Way, I shall not further impose on you." Upon obtaining a true god corpse, Wu He left without further ado.

"Yes, yes." Luo Feng nodded and smiled, maintaining a friendly disposition.

Wu He transformed into a streak of flowing light and, with one teleportation, departed.

Luo Feng could not resist shaking his head as he sighed. "He is truly worthy to be a child of the master of Northern True Ocean. Quite extraordinary, indeed. This deal is definitely worth it!"

The deal this time around had cost Luo Feng one true god corpse. As for Wu He, the price he had paid consisted of a true god level armor, a large quantity of law master weapon armors, and... an automaton-type treasure!

This automaton-type treasure was named "Seven Searing Flying Armor," and it was pretty average in most aspects. However, it was most skillful in survival and escape, as it was very adept at changing directions and dodging. To have traded for it at the military point would have cost 120,000 military credits. On the other hand, if one wanted to trade it in at the military point in exchange for military credits, the treasure would only earn 100,000 military credits. This showed how corrupt the military point was.

100,000 military credits was enough to turn a hopeless situation into an advantage. Thus, one could stay alive. Furthermore, it was impossible to gain military credits if one had not completed the assigned mission. In fact, by gaining the true god corpse from Luo Feng, Wu He had not only managed to stay alive but had also gained 10,000 military credits.

Wu He had been quite careless in his considerations. Originally, he had thought that by bringing various treasures along with him, he could weather a disaster-level mission no matter what. Yet, when the mission had begun, he had been stupefied.

First, it was the great melee, where he had merely managed to accumulate a partial amount of military credits. Then, after the series of melees...

Wu He was aware that when the final battle between Xuan Yu Mountain and Nine Smoke Marsh came to an end, both parties would be extremely vigilant. The idea of closing in on a few thousand law masters and killing them all by the edge of Nine Smoke Region was a pipe dream. As for the three other troops headed by the captain, Ku Fa, and Yu Luo, every troop had managed to obtain at least a portion of weapons and armor. But Wu He was alone. With the other three troops moved about in groups, the moment he got involved with them, he was bound to be eliminated.

The most terrible thing was that before he completed his mission, there was no way he could trade for anything at the military point. Therefore, he was unable to use Seven Searing Flying Armor to trade for military credits.

His only recourse had been to turn to Luo Feng for help.

After the deal with Wu He, Luo Feng still had over 30 true god corpses in his possession, so he was in no hurry to get to the military point to purchase treasures. Meanwhile, the warriors from one troop were continuously trying to establish contact with Luo Feng's transmission token.

"Milky Way, please! Help me just this once. I will never, ever forget your kindness. I am willing to give you all the other treasures I have with me to trade for one true god body."

"Milky Way, so long as you are willing to help me, from this moment on, I will only listen to your command. If you ask me to kill Captain, I will charge out and kill him without hesitation."

"Milky Way..."

They had not given up trying to get Luo Feng to spare them a true god corpse. At the moment, Luo Feng was in the military camp, and everyone could forget about trying to kill him. Instead, they had to keep their heads bowed obediently if they wanted to strike a deal with him.

Luo Feng's reply was curt and straightforward. "I only have one condition," he said. "Use a treasure that is worth 100,000 military credits to exchange for one beast true god corpse. If you do not have any treasures worth 100,000 military credits... then I can't be bothered about whether you live or die!"

Previously, these warriors had been indifferent to Luo Feng's survival. Why should he concern himself with their fate, now?

Of course, if they could offer a treasure that was worth 100,000 military credits, it was still worth considering whether or not he should deal with them. He was, after all, here to fight for the future of his race.

Luo Feng was filled with greed, yet these warriors were wallowing in poverty. There was no way poor soldiers would own treasures worth 100,000 military credits. The captain would certainly have such treasures, but he had already managed to seize a true god corpse. That was why Luo Feng spent his time cultivating and waiting. But after one full year, not a single deal had been successful.

"Milky Way, you're too greedy."

"Luo Feng, you really don't deserve to live."

"Loathsome...!"

Unable to get what they wanted, the soldiers were furious to the extent of hatred. But Luo Feng wasn't bothered in the slightest.

"As if I care whether you all die or not!" he jeered.

It was the third year after Luo Feng finished his military mission, and once again, he was at the military point to exchange the Seven Searing Flying Armor and the other 33 true god corpses for military credits. Then he began trading for treasures.

He mainly spent it on an automaton type treasure "Golden Claw God," which used up 400,000 military credits! The remaining military credits were used to purchase a domain type supreme true treasure (true god level), which cost him 30,000 military credits. Golden Claw God!

Luo Feng stood in a big hall within a gigantic stone house on his own island. The hall was empty except for a golden sculpture that stood erected. Luo Feng was looking very carefully at this golden sculpture.

"Golden Claw God?" Luo Feng said softly. "A single-body type automaton treasure. It can be considered to be in the same category as that most mysterious Wu Qi God. However, it has much lesser power."

This so-called less power was a matter of relative comparison with Wu Qi God.

After all, this was an automaton type treasure that he had spent 400,000 military credits on. It surely must have been more powerful than Black Cloud Wings and the few others.

“Defense, attack, speed... strong in every aspect.” Luo Feng nodded slightly. “It is complete.”

Being strong in every aspect meant that it might not be invincible in all aspects, but it did not have any shortcomings.

Deep in his heart, Luo Feng was eyeing up Wu Qi God. That was why he got a simplified version of Wu Qi God: Golden Claw God. In his heart, he was inclined toward such automaton-type treasures without shortcomings. Previously, he had not had enough military credits. After giving up Seven Searing Flying Armor, he had finally accumulated enough military credits.

“Let’s try using it.” With a move of intention, the golden sculpture flew swiftly to land on Luo Feng’s body.

Hua!

Golden light began flowing in an instant. It enshrouded Luo Feng in his entirety. Right away, he transformed into a lofty, golden monster wearing a mask. This golden monster took the form of a human, had a pair of claws in place of hands, and also a pair of claws for legs. Its head was triangular, and it exuded a wild, fearsome aura. Because he was wearing Golden Claw God, it had forced his Python River Army’s standard armor into a temporary retreat. The two would never be able to coexist.

Luo Feng felt as though he had transformed into a supreme true treasure armor.

“Blazing godly power!” Luo Feng made a move in his mind.

Hong!

Blazing godly power rapidly integrated into the golden claw god armor, and powerful energy coursed through every secret engraving found in this Golden Claw God. Yet the result was... uncontrollable! Apparently, the internal secret engravings were much more difficult; Luo Feng could only stop his godly power from blazing further so that he could first comprehend these secret engravings carefully.

Given Luo Feng’s level of secret technique, he had to study for more than three days to finally comprehend how to control this entire Golden Claw God. Very quickly, a great amount of blazing godly power was infused into Golden Claw God, which then coursed through the countless lines of secret engravings. The precise union of godly power and secret engravings finally gathered at several points of the entire Golden Claw God armor—namely, one point on the back, two points on the shoulders, and two points on the knees. There was a total of five main centers.

Energy conversion!

Si! Si!

Golden filaments of tenacious energy were speedily transmitted to every inch of the entire Golden Claw God. The golden energy and Golden Claw God were so compatible that there was a sudden outburst of energy.

“Just as I thought,” said Luo Feng, delighted. “This is definitely something quite extraordinary. Simply one conversion, and the energy is increased by two levels. My ninth-tier attack, if executed with Golden Claw God... Will it become an eleventh-tier attack?”

Luo Feng felt how truly impressive this automaton-type true treasure was.

“With this treasure...! I was already standing at the peak of Universe Ocean. With this Golden Claw God from the ancient civilization, who within Universe Ocean can be my match?”

Luo Feng was extremely satisfied. In terms of combat power, he was now even stronger than Teacher Origin had been back when he was at Luo Feng’s current level. Of course, this was possible for him for two reasons. One, Teacher Origin had not known of the secret technique of blazing godly power, and two, Teacher Origin had not had an automaton type treasure.

With the influx of various powers from Universe Ocean entering the World of Jin, the combat power of the entire Universe of Ocean would also increase in its entirety. However, only warriors from special troops were qualified to trade for automaton-type treasures, and the amount of military credits required was costly. Within a short period of time, various groups of powers from Universe Ocean who had intentions to trade for automaton-type treasures would face great difficulties.

After obtaining Golden Claw God, Luo Feng put great effort into studying it—even to the extent of specially wearing Golden Claw God in the space of inheritance within the Boat of Mausoleum for cultivation.

Time and again, cultivation had caused Luo Feng to sigh. His emotions were running high. No wonder the ancient civilization had records that expressed great compliments for automaton-type treasures. Other than the beings that stood at the peak of the ancient civilization, ordinary great beings would also be able to make use of automaton-type treasures to release outbursts of power that far surpassed their own. A complete Golden Claw God could enable the power to soar by two levels.

“This is only for single-body automatons. For those in groups, with thousands of true gods up to millions of true gods controlling the automaton type treasure...” Luo Feng sighed.

Large-scale wars were like that. When millions of true gods were controlling a single automaton-type treasure, they would dare to go after an eternal true god!

Time passed.

It was the 5,600th year since Luo Feng first arrived at the World of Jin, and Wu He had secretly gone to Luo Feng’s island.

“Milky Way, Milky Way! Did you know? Captain and the others are back.” Wu He seemed to be gloating over their misfortune.

“Oh?” Luo Feng was surprised. Half an era had passed. He had almost forgotten about the captain and the other troops. “How are they?”

“How else can they be? Of course, they are in a mess.” Wu He’s hideous head was swaying about. “More than half of all their troops were killed. Even Yu Luo has died! Ku Fa made it back alive, though.”

“Yu Luo is dead?” Luo Feng was shocked. Yu Luo was a leader in that troop; it should not have been difficult for him to accumulate enough military credits.

“Who knows? I heard the battle was very intense,” Wu He lamented. “From the start, this might have been a disaster-level mission, but it should not have been severe enough to claim so many lives! I also heard that Captain had been way too vicious, forcing Ku Fa and Yu Luo to finally enter a state of frenzy. Yu Luo died, and Ku Fa barely survived. And in the meantime, Captain seems to have gained quite a lot.”

Those experienced warriors had suffered a severe loss this time, but Luo Feng and Wu He—the two new recruits—showed no traces of sympathy.

Of the warriors who had made it back alive, some bore hatred for Luo Feng. There were even some who would curse and swear angrily when they flew across Luo Feng’s lake island. They only acknowledged him in regards to his impressive ability to move and dodge. They did not fear him, but if they were to see how Luo Feng killed true gods, they would likely not have dared to disregard him anymore. A pity. Only the captain had managed to personally witness such a situation, but he would never publicize such a matter.

Of course, there were some who hated Luo Feng and also some who simply could not be bothered with him. But there was also a final portion that would take the initiative to get acquainted with Luo Feng.

“Let there be an uproar then. I am just a passing traveler. I just hope that before I leave the World of Jin, all of you are still alive.” Luo Feng was not concerned about these warriors at all; during this quiet period, he had gone to the military point to apply for a mission to receive a title.

Receiving a title was dangerous, yet there was a 10 percent chance of survival at the very least. Luo Feng self-assessed that he was absolutely within the top 1,000 of the most top-notch elite warriors, so his chances of surviving were high enough. Furthermore, he had the ability to divide his body. This mission to receive a title... Why not give it a shot?

Time flew by. In the blink of an eye, an era had passed since Luo Feng first stepped into the World of Jin. Time flew by just like that.

Chapter 1370: The Second Era

The massive humanoid life form still lay within Universe Ocean. On the other hand, great beings from various groups of top powers from Universe Ocean, who had stayed low and kept the peace for almost an entire era, had already arrived.

Sou! Sou! Sou! Sou! Sou! Sou!

One after another, streams of flowing lights in an array of colors cut across the void space. Then they all flew through the lips of the humanoid life form and right into its body.

Amidst the void space of the miniature universe, World of Jin, numerous palace type true treasures were suspended. They belonged to various groups of powers that came from the three reincarnation eras and the two great holy lands of Universe Ocean. In terms of what the first era was about, it could

be seen as merely sending troops in to probe and explore. And this time around, it would be the very first large-scale entry.

The numerous palace true treasures resembled shimmering stars in the sky, and amidst them, there was a nine-story tower.

Remote Ocean Luo Feng looked around as he said, "The World of Jin is fraught with dangers. Everyone, please follow closely behind me upon entering. I will bring you all directly to the doorstep of the East Army military camp. That is when you all can join the army right away... I trust that you all are clearly aware of the dangers of joining the army. There is no need for me to say anything more. After entering the army, you can only count on yourself."

One after the other, universe masters spoke up.

"Of course."

"Milky Way horde leader, sorry to have to trouble you so."

Remote Ocean Luo Feng nodded. This was his new Remote Ocean body. As this new Remote Ocean body had attained the perfect life gene level, its godly body would naturally be as powerful as his original earthling body and golden horned beast body.

"Luo Feng." Standing beside Remote Ocean Luo Feng, was none other than Primal Chaos City Leader, who was transmitting his words. "This time, a total of 36 universe masters are entering, and all of them come from the other races in my Hong Alliance. They are, after all, not humans... You just need to guide them along in the beginning. Thereafter, you can wash your hands of them. Protecting yourself is of the utmost importance."

"I understand." Luo Feng nodded with a smile.

"Oh, the colors are changing."

Remote Ocean Luo Feng looked out at the miniature universe of the World of Jin in the void space far away. The external membrane walls of the World of Jin were turning white, which was apparently the time when hindrances were at the lowest. This was when they could enter.

"We can go in now!"

"The color is changing!"

"We can enter the fourth most dangerous land."

"Into the World of Jin!"

One after the other, the numerous palace true treasures that were originally suspended in the void space outside World of Jin penetrated the membrane walls of the miniature universe and landed within the World of Jin.

At the same time, there were also numerous streaks of light emerging from the miniature universe of the World of Jin. These were obvious signs showing that the first batch to enter the miniature universe way back then were still surviving.

Sou!

A silver battleship flew over rapidly. It was the Boat of Mausoleum.

“Let’s go over,” Remote Ocean Luo Feng said.

Very quickly, the Boat of Mausoleum and Star Tower closed the distance between one another. At the same time, the cabin doors of the Boat of Mausoleum opened.

“All of you, step over.” Remote Ocean Luo Feng ordered.

Without further ado, the numerous universe masters from the Hong Alliance left Star Tower and entered the Boat of Mausoleum. Only Remote Ocean Luo Feng and Primal Chaos City Leader remained behind in Star Tower.

“Huh?” Primal Chaos City Leader discovered right away that Remote Ocean Luo Feng’s godly body was rapidly weakening. In merely a short period, his godly body was weakened to such a degree that it was only left with around 80 percent. “What is happening?” he asked.

“While I was in the World of Jin, quite a substantial amount of my godly body was consumed. I need to take the chance to replenish it,” Remote Ocean Luo Feng said with a laugh.

Previously, when he was after that beast true god, he had executed the second stage of Extermination, and under such circumstances, the amount that would be consumed was alarming. Although he managed to kill that beast true god, a large portion of Luo Feng’s godly body had been consumed. Fortunately, there was Golden Horned Beast body to supplement whatever amount was used up. That was how he could maintain an optimal state.

In the World of Jin, replenishing godly power was extremely tough. One era had passed, but he merely replenished a small part that had been consumed. And at the moment, within the Boat of Mausoleum, his original earthling body and golden horned beast body were close. Naturally, their godly powers could be transmitted to one another, thus helping him in replenishing his godly power.

Within a dazzling golden battleship, Rampaging Devil God was bragging to his old pal, Bei Chi Star Master.

“Haha! Now I am learning the secret technique of blazing godly power, and I also have a series of attack type supreme true treasure. Even if I am in Universe Ocean, I am able to release an outburst of combat power at tenth tier as the top level. This is definitely comparable to Teacher Origin when he was at my current level! Now, I can trample on you in any way I like. Take a look at this. This is my newly-acquired supreme true treasure battleship!”

“You are so ruthless, but you are also very impressive.” Bei Chi Star Master forced himself to listen to Rampaging Devil God sing his own praises.

“Hahaha...” Rampaging Devil God was very satisfied with himself.

He was a lone traveler. He had earned himself a powerful treasure. How could he give up the chance to show off?

Hong!

A battleship was flying at high speed, and it was so fast that it crashed into another spherical palace true treasure with an impact that sent the palace true treasure flying into the distance.

“Who dares crash into my Divine Eye Clan’s palace?”

The great being who was within the spherical palace true treasure was furious and transmitted his roars of displeasure.

“It’s me, Rampaging. What can you do about it?” Rampaging Devil God behaved in accordance with his name—going on a rampage without any fear.

Instantly, the Divine Eye Clan ceased all activities at hand. Earlier on, Rampaging Devil God had planned to collect more supreme true treasures from Universe Ocean. However, as more and more information about the army was being revealed and transmitted to various groups of powers within Universe Ocean, his plan had been declared a failure. Thereafter, Rampaging Devil God actively showed off his possessions to let the whole of Universe Ocean know that now, he, Rampaging Devil God, was very powerful.

Even for the Divine Eye Clan, the moment they encountered this lone traveler, Rampaging Devil God, they could only hold back their anger and take a detour around him.

“Go!”

Luo Feng stood in the halls of the Boat of Mausoleum. Behind him, there were 36 universe masters from the Hong Alliance, all at Luo Feng’s beck and call.

Sou!

With a one-word command, the Boat of Mausoleum flew toward the World of Jin right away.

Within a battleship gloriously coated in black, a large number of universe masters were gathering. The total was close to 100.

“Ancestor has given orders!”

“This time, my Purple Moon Holy Land has entered the World of Jin. Our first goal is to solicit the help of their army and kill Milky Way Horde Leader, Luo Feng! So long as the army strikes with a soul attack to annihilate Luo Feng, his other bodies will all perish without a trace of hope for resurrection.”

“As for us need to first look into his whereabouts.”

A double-face, four-armed man in black armor let out a low growl.

The group of universe masters beneath were all listening in solemn silence.

“The universe masters from the Hong Alliance have already set off! Let’s catch up with them!”

Hong!

The black battleship followed closely when the Boat of Mausoleum was flying toward the World of Jin. It, too, flew toward the World of Jin.

Earlier on, during the first era, the number of incomers had not been many to start with, but the majority of them would fail to survive. Those who could live through one era within the World of Jin were few. This was why many groups could only gather information about the World of Jin from other sources. They did not have any of their great beings in the World of Jin, so they were still heavy-hearted with fear—worried that the information they gathered was inaccurate.

This was the reason why, in this second era, from various groups of powers from the entire Universe Ocean, a total of more than 1,000 universe masters had set off for the World of Jin!

Comparatively speaking, this was not a big number. Especially for the first reincarnation era; its number of universe masters was already more than 2,000. They were facing their impending doomsday, so if they were to learn of detailed information about the World of Jin, then most likely, from the first reincarnation era alone, more than half the number of universe masters would have charged their way in. Yet, at the moment, there were only about 600 universe masters from the first reincarnation era making their way into the World of Jin.

It was expected that, come the third era, the influx would hit a new high.

“We’ve lost it.”

The moment Purple Moon Holy Land’s black battleship entered the World of Jin, it realized that the Boat of Mausoleum had teleported itself away very quickly.

“Although we have lost sight of it, the landing site of the group of universe masters from the Hong Alliance, led by Luo Feng, was obviously within the region under the jurisdiction of the East Army of the World of Jin. Luo Feng likely joined the East Army. But just as a precautionary measure, we have close to 100 universe masters, so 20 of us shall head to the North Army, 20 shall head to the South Army, 20 shall head to the West Army, and the rest shall go to the East Army!”

The black battleship of Purple Moon Holy Land had started to take off.

Purple Moon Holy Land Universe already had two universe masters entering previously. A period of one era was enough time for these two universe masters to obtain a general map of the World of Jin, which allowed the World of Jin to be certain of the positions of the four major military camps.

The large-scale entry made by the various groups of top powers from Universe Ocean, was on the contrary, almost unnoticeable. It was as though a basin of water was poured into a vast ocean—so insignificant that it could not create even the slightest ripple.

At the East Army military camp, within Python River military ground, an external voice was transmitted: "Milky Way, Milky Way."

Luo Feng walked out of his stone house and looked up into the sky where the hideous beast, Wu He, was suspended.

"Milky Way, the other warriors are prepared to set off to accomplish their military mission for this era," Wu He said right away. "And, from the previous era, there are nine new recruits who just joined the army. They will be executing their military missions with us too. Let us set off too!"

Wu He was now very willing to join Luo Feng's group in action.

"Nine new army recruits?" Luo Feng was taken aback. Warriors who had joined during the current era, upon receiving their missions, naturally should wait for the new era to come before embarking on their first mission. But the entire Python River Army was so big for his small troop to take in nine warriors. That was a tad too many.

"Every era, Python River Army is distributed with a handful of warriors," Wu He explained. "Our team had just completed a disaster-level mission and incurred quite a loss, so this deployment was mainly to replenish our team."

"Oh. Let's go, then." Luo Feng nodded. "But Wu He, I need to tell you in advance, this time around, I will not be taking part in the mission with you all."

"Not joining us?" Wu He felt doubtful. However, he was not worried. Following the completion of a disaster-level mission, the troop would not be assigned with tough missions for a long period thereafter.

"I have something else to do," said Luo Feng, and he did not elaborate further.

When it came to his mission to receive a title, he simply did not want to say much.

First, he would head to Basic Inheritance Island, the gathering point. Obviously, the captain and some of the older warriors would treat him with hostility, but a portion would be friendlier. As a side note, he knew the nine new recruits would be especially curious about him.

When Luo Feng arrived at Basic Inheritance Island, he paid no heed to the captain or his company whatsoever. He approached the nine new recruits right away and said, "New recruits, here is a reminder for you all. Ku Fa is quite good. You all can choose to follow her. As for that captain, unless you have a death wish, you had better not choose him."

The new warriors were greatly taken aback.

"Milky Way!" The captain's expression reflected his displeasure.

Luo Feng shot him a look. "Am I wrong to say that?"

All six troops could feel the enmity between Luo Feng and the captain.

In fact, even before the captain had been coveting Luo Feng's many military credits, the two had been at odds with one another. The captain had witnessed firsthand how Luo Feng had become more

powerful—and also, how Luo Feng had obtained such a great amount of military credits when he was on his previous mission. He had easily been able to trade for an automaton-type treasure.

Compared to the past century, Luo Feng's power was indeed much stronger than before. This was why, deep in his heart, the captain was still somewhat fearful of Luo Feng.

Captain turned his head and gave his orders without further ado. "Let's go receive our military mission."

After spending almost a day's time shuttling about the military camp, Luo Feng finally arrived at the Great Evil Hall.

Hong!

A beam of light enveloped the warriors of all six troops in an instant. The other warriors received simple missions; Luo Feng, on the other hand, received a mission to receive a title.

"Huh? Godly King Valley? The place where His Majesty the Godly King lived in the past?" A trace of surprise flashed in Luo Feng's eyes as he realized, "The mission to receive a title will be found there!"
