

SWALLOWED 1431

Chapter 1431: The Might of Star Tower

The moment Luo Feng fought Sector Beast, he would change location without fail. That Golden Horned Beast body boarded his vessel and left right away. The team onboard Star Tower also followed suit in changing location. Furthermore, there were so many miniature universes within the Universe Ocean—where to go, exactly? At that time, Luo Feng instinctively made a move of intention, and Star Tower made its way right over to Rampaging Devil God's miniature universe!

"My Star Tower team is much stronger Golden Horned Beast. That is where my strongest combat power lies!" Luo Feng's fighting spirit was ablaze. "Twice I fought it, and twice it escaped. This time around, I will make sure it cannot escape!"

This confidence was not unfounded but based on absolute power!

Sou!

Star Tower immediately teleported and headed to the coordinates provided by Rampaging Devil God.

Sector Beast Morosa stood in the void space where the surroundings were filled with black fog. Streams of distorted light rays extended right into the void space and continued to devour the origin of the miniature universe. It was maintaining vigilance by keeping close tabs on its surroundings.

"I hope Milky Way Horde Leader and Nine Remoteness True Master do not appear here." Sector Beast Morosa prayed fervently. "I need to become more powerful, much more powerful..."

Many true god teams were now appearing in Universe Ocean, and all these teams were led by true gods with super great godly powers. While Sector Beast Morosa was helpless against them, it did not fear them. It only feared Luo Feng and Nine Remoteness.

Merely a short moment later, the space around him suddenly froze. Sector Beast Morosa was shocked.

"Huh?" Sector Beast Morosa immediately looked off into the distance. A nine-story tower had appeared out of nowhere. When he saw the tower, he let his guard down. Luckily, it was not the vessel Nine Remoteness True Master and Milky Way Horde Leader traveled about in. But it only took a short moment for Sector Beast Morosa to display a drastic change in expression.

"No!" it said when it was finally capable of reacting. This was Milky Way Horde Leader's supreme true treasure, which was highly-reputed throughout Universe Ocean: Star Tower! "How could it be you?" Sector Beast Morosa roared in fury.

One of the doors at the base level of Star Tower opened. Luo Feng, in a suit of black armor, walked out with a blade slung across his back. A tail that was swaying behind him.

"You're right, it's me again," Luo Feng said.

“You, you, you...” Sector Beast, Morosa, looked at Luo Feng. It was fuming. It knew the capabilities of this Milky Way Horde Leader before it. Even if it tried to escape, Milky Way Horde Leader would be able to trap it right away. Then it would be forced to use up a large amount of energy to execute its ultimate technique before it could escape.

Sector Beast Morosa yelled, “Milky Way Horde Leader! Don’t push it! You yourself know... there is no way you can catch me. Don’t press your luck. If I really get angry, I will make sure you regret it this time!”

“Regret it?” Luo Feng stood in the void space. Everything was within his control at that moment. If he could get some information from Sector Beast Morosa, then it was obvious that Luo Feng would be most willing to listen.

“How are you going to make me regret it?” Luo Feng pressed, purposely challenging the Sector Beast with a tinge of sarcasm. “You alone? You are not my match. My human race is a race of the primal universe. We have many true gods that can arrive at any of our race’s miniature universes at any time. You stand no chance at all.”

Sector Beast, Morosa, said in a low voice, “True. Alone, I stand no chance, but what if I were to lead a group of Sector Beasts over here?”

Luo Feng trembled at the thought of it. A group of Sector Beasts? Oh, God...

A single Sector Beast was enough to create chaos in the entire Universe Ocean. If an entire group showed up, that would be a nightmare. The true gods could also form numerous teams, but if the Sector Beasts were to follow suit, how would the true gods fight them off?

“You had better not take my words lightly,” Sector Beast Morosa said in a low voice. “I do have such an ability.”

This was the truth. The Sector Beast was the noblest life form born in Universe Ocean. After one billion Sector Beasts were born, these billion were destined to devour one another until only one remained alive. The surviving Sector Beast would be the final king, and also, the final one who truly qualified to represent destruction! The final Sector Beast who was lucky enough to survive would then qualify to be placed on the same scale as the primal universe.

Because it was fated that there could only be one survivor, these Sector Beasts were all born with the ability to detect one another’s presence. Sector Beast Morosa was no exception; after it managed to escape the best, it could sense where the other Sector Beasts were, so even if it were to get lost within Universe Ocean, it could rely on its senses to return home! Not only were they able to sense one another, but they were also telepathic and could communicate with one another’s souls. And because of this, even if a Sector Beast intended to avoid fighting, there was no way it could get its way!

Within the Land of Darkness, there were other Sector Beasts who had detected Sector Beast Morosa’s escape. But none of them were concerned. They just had to wait a while longer to devour Morosa.

“They don’t know how delicious the origins of miniature universes are, or how devouring them can help to increase power. If they knew, they would definitely come charging out,” Sector Beast Morosa

mumbled to itself. “However, this is such a precious opportunity, so there is no way I can give it up to them. These origins of miniature universes are all mine.”

Sector Beast Morosa was unwilling to share its secret. If it were to tell the others, then it would no longer be able to have everything to itself. However, if it was forced into such a dire situation by Luo Feng and Nine Remoteness—where not only was it unable to increase its power, but its power might be weakened instead—then it would, in a fit of anger, tell the numerous Sector Beasts within their nest in the Land of Darkness everything it knew. Even if the majority of Sector Beasts were unwilling to leave their nest (it was an innate characteristic of the Sector Beasts to not usually be keen to leave their nest), Morosa’s guess was that there would still be a few who were having a tough time within the nest and would be willing to leave.

Luo Feng made a mental note. Then, with a sneer, he said, “Oh? How do you intend to lead those Sector Beasts? Also... within your Sector Beasts’ nest, how many Sector Beasts are there in all? If the number is small, I won’t be daunted.”

“Hahaha. If you want to know more information, then you should go look into it for yourself. Go to the nest of the Sector Beasts. You should not behave like the two cowards previously, who only stayed around the borders. They were so afraid that they fled. Venture deep into our nest of Sector Beasts if you have the guts.”

As Sector Beast Morosa spoke, Hong, who was within Star Tower, frowned with closely knitted brows. Cowards? Of the two who had entered the nest, one of them was him, Hong!

“Since you have nothing else to say, let’s battle.” Luo Feng wanted to make a move right away.

“Stop!” said Sector Beast Morosa, its expression changing. Every single time they fought, it required a long time to restore its power. It was reluctant to fight Luo Feng any further. But the initiative rested in Luo Feng’s hands. Even if it were to divide bodies to make an escape now, Luo Feng would be able to apprehend him. So he responded right away, “Milky Way Horde Leader, let’s make a deal.”

“A deal?” Luo Feng raised a brow.

“Yes!” Sector Beast, Morosa, replied immediately. “I can swear an oath, that I will absolutely not lay a finger on your human race, and I will not devour the origins of your miniature universes. But you cannot put me in a difficult spot either. How about it?”

Luo Feng snorted. “An oath? Of what use is an oath?”

“I can issue an oath under the law, with the laws of Universe Ocean as witness whereof, I hereby issue my oath. By the time the law has been passed down... you will also be able to clearly detect it, and then you will come to understand that there is no way I can break an oath. After all, I am also a living soul that was bred from within the Universe Ocean. I trust you are aware that Zhen Jia Emperor and Dragon Rock Ancestral God are both on the Sector Beasts’ side.”

Sector Beast Morosa had long been aware of the fact that the various races of Universe Ocean had discovered the true identities of those two underlings. The various races of Universe Ocean had shunned Zhen Jia Emperor and Dragon Rock Ancestral God for quite some time.

Luo Feng nodded.

“Why did they trust that we, the Sector Beasts, would not kill them? This was all because of... oaths! Oaths under the law!” Sector Beast said.

“An oath coming from a single Sector Beast like yourself? How can it possibly represent all the Sector Beasts?” Luo Feng shook his head in disbelief.

“Of course it cannot. For those who decided to seek refuge with the Sector Beasts, other than oaths, there are other ways... In short, the Sector Beasts would absolutely not attack them again.” Sector Beast Morosa looked at Luo Feng. “If Milky Way Horde Leader is willing to come over to us, I can allow you to possess a different kind of power. And in regards to all your ‘Sector Beast crisis,’ so long as you submit yourself to us, you will be a part of us and will not be affected at all.”

Luo Feng knew what the Sector Beast was referring to. This so-called “different kind of power” was the power that Great Thunder Star Master had previously used. It was the power the Sector Beasts possessed. However, Luo Feng was aware of the fact that there was no such thing as a free lunch. Even legends of the ancient civilization had records of numerous powerful nations that had been destroyed but had never sought refuge with the Sector Beasts. From this alone, he could deduce that seeking refuge with the Sector Beasts might lead to another situation. He might even become a slave with no power of resistance at all.

“Stop your nonsense.” Luo Feng ordered coldly.

“It’s also alright if you do not want to come over,” Sector Beast Morosa continued to say. “How about me not being an enemy of your human race? Wouldn’t that be good?”

“Even if we can hide from you, we cannot avoid the other Sector Beasts from your Sector Beast nest,” Luo Feng continued in his cold tone. “Are you able to get all the other Sector Beasts to swear upon the same oath, to never make any advances on my human race?”

Sector Beast Morosa was taken aback. How was that possible...? Like the powerful “Beddy,” who could get much more powerful by devouring other Sector Beasts, how was it possible to let the entire human race off the hook?

“In that case, be prepared to meet your doom!” Luo Feng shouted.

But Luo Feng did not react immediately. He wanted to see if there was any other way to force this Sector Beast Morosa into giving him more important information.

“Loathsome Milky Way Horde Leader! You are always forcing me into corners! I will absolutely not spare you, absolutely not!”

Sector Beast Morosa finally let go of all restraints and went wild. It no longer had the patience to negotiate with Luo Feng. With a loud howl, many diagrams of engravings appeared on its body. Enshrouded by 99 diagrams of secret engravings, its body immediately exploded with a loud crash and was divided into 99 parts. Then it started to flee.

Luo Feng looked on from afar, sneering. Inside Star Tower, which was not far away, his Remote Ocean body had ten silver wings widely spread behind it as its godly power executed the third volume of Duan

Mie—Annihilation. It was also burning up its godly body to the ultimate limit and making use of Shi Wu Wings to activate this technique.

Weng!

In the vast void of space, a white fog began to fill up an area of several light years. This area of void space had long been isolated from the outside world, and an infinitely powerful restraining force enveloped this part of the void space.

At that moment, the restraining force far surpassed the force of Snowy World, causing the 99 escaping parts divided from Morosa's original body to slow down. Although its speed was being reduced, it was still flying.

"Still able to fly?" Mosha Luo Feng, in his Wu Qi God armor, looked on from afar and shook his head. He could not be bothered to use a method similar to Universe Chain. He had something more powerful. "Star Tower!"

Luo Feng made a move in mind

Hong!

From afar, Star Tower suddenly released an incomparably violent outburst of energy, which instantly enshrouded an area of several light years. The entire area was enveloped.

Hua! Hua! Hua!

The nine entrances at the base of Star Tower were like nine bottomless whirlpools, crazily devouring everything. A bout of bizarre devouring force was produced at each entrance. And when the nine different forces combined into one point, an area of a couple of light years was selected by this bizarre, aggressive whirlpool. It was even stronger than that of "single thought void space"!

Originally, it was already very difficult for the 99 divided bodies to accelerate and fly out, yet upon falling into the endless Star Tower whirlpool world, it started to reduce speed rapidly.

Suddenly, rather advancing, it actually started to fly backward.

Chapter 1432: Blood of Beast God

Luo Feng looked at the 99 bodies that flew back, and he couldn't help smiling.

He was able to create techniques at level eight now, and he could utilize the seventh level of Star Tower! The sixth level of engravings of Star Tower was top-tier level eight, and the seventh-level engravings were level nine. Once it was performed, it would create a terrifying "Whirlpool World" much stronger than "single thought void space" or Shi Wu Wing.

It was not that Shi Wu Wing couldn't rival Star Tower. The center of Shi Wu Wing contained the energies of the former master, so Luo Feng didn't want to use those energies. He couldn't fully utilize the maximum power of Shi Wu Wing.

When he used the origin to drive Shi Wu Wing, the power could be maximized, and then, “single thought void space” would be much stronger than Whirlpool World.

Currently, the seventh level of Star Tower, Whirlpool World, was definitely the supreme domain-type technique.

Hong! Long! Long!

Nine different kinds of energies had already torn the space apart, forming a terrific Whirlpool World.

“How so? How did he become so powerful? When I fought him the last time, he wasn’t powerful like this. Although that Milky Way Horde Leader Luo Feng has several bodies, the power of each should be equal.”

The 99 bodies of Morosa couldn’t resist it at all, and they couldn’t help flying toward Star Tower. Star Tower was the center of the dark Whirlpool World! The nine tower doors were stirring everything!

“Close!” The Sector Beast gave up, and all of a sudden, all the other 99 bodies became hollow. One of them immediately bulged, turning into a Sector Beast.

Sector Beast Morosa was trying to resist it. It could barely keep balance without being swallowed.

When it separated its body, each of the resulting bodies was weak, so they were easily swallowed. When all 99 were combined into one, it could barely stand still.

“What should I do? What should I do?” Sector Beast Morosa was anxious.

How was it supposed to run away without disintegrating its bodies? Luo Feng could catch it easily and make sure it would never get away. Besides, under the combination of “single thought void space” and Whirlpool World, it could barely stand straight and was destined to fly slowly. Luo Feng had created all of this, so he could easily catch up with it.

Hong!

Luo Feng, clad in black armor, walked toward the Sector Beast. He seemed to be walking casually, but he was so fast that the Sector Beast was jealous. Luo Feng was tens of thousands of times faster than it was while under the combined effects of “single thought void space” and Whirlpool World!

“Milky Way Horde Leader...” Sector Beast Morosa clenched its teeth and glared at Luo Feng. “No wonder you’re the strongest great being in Universe Ocean. I’ve underestimated you.”

“Come again! Try your luck!” Luo Feng said coldly as he walked toward him. “You can concentrate the bloody light into your eyes, right? That move is impressive. Why don’t you perform it now?”

The Sector Beast was furious. He used that move as a trump card. Even if it could temporarily suppress Luo Feng, it would do him no good, as it still couldn’t get him out of this world.

“Milky Way Horde Leader, you know that I’ll call a large group of Sector Beasts here if you leave me no choice,” Sector Beast Morosa said, glaring at Luo Feng. “Don’t push me! Let me go! And I swear that I

will never target humans in the future. If you let me go, I'll make a vow to the rules of Universe Ocean! This is my only request. Let me go now! You can never attack me in the future, but let me go now!"

"Let you go? I finally caught you, and you think I'll just let you go?"

Luo Feng was smirking on the surface, but thoughts flooded his mind. There was a large group of Sector Beasts in the nest. There was only one Sector Beast in front of him. It was indeed important to kill this particular Sector Beast; to all the races in Universe Ocean, one living Sector Beast was a disaster.

"You said you're going to lead a large group of Sector Beasts here, but you're trapped here now. How are you going to do that?" Luo Feng sneered.

"You don't understand us at all!" said Sector Beast Morosa. "Only one Sector Beast will survive in the end, and he will be the king! If one Sector Beast runs away and gets lost in Universe Ocean, other Sector Beasts can't kill him. In such an event, there will be two or more Sector Beasts that survive. Then the king will never be born!"

Luo Feng nodded.

"Sector Beasts can sense each other, and we can communicate with our minds," said Morosa. "No matter how far we are from each other."

That was the truth.

After some time, all the Sector Beasts had to return to the nest and kill each other until the final king was born.

Sector Beast Morosa said, "So you can't kill me. If you kill me, I'll send the message to the Sector Beast nest, and there'll be a large group of Sector Beasts coming this way."

"Oh?" Luo Feng answered.

"You agree?"

Sector Beast Morosa was anxious. This Luo Feng was terrifying. If he didn't kill it, it would be great. Even if it made a promise to the rules of Universe Ocean, it only meant that it wasn't going to kill Luo Feng. Other Sector Beasts would still try to kill Luo Feng.

It knew that the fewer Sector Beasts there were, the more powerful the remaining Sector Beasts would become. This Luo Feng was indeed powerful, but he wouldn't be able to resist the Sector Beasts in the future.

"Agree?" Luo Feng shook his head. "I can't kill you because you threaten me? Does that mean I can't kill other Sector Beasts if they also threaten me? Haha... I can kill you and other Sector Beasts! I'll kill as many as I can if they come. Once you're trapped in the area I control, no matter whether there is one Sector Beast or ten, they won't be able to escape it. Thank you, for letting me know that Sector Beasts can send messages through their minds."

As soon as Luo Feng finished talking—

Shua!

His force suddenly surged, and he burned his godly power to the largest extent. A blurry phantom showed up in the Whirlpool World, and it charged at Sector Beast Morosa.

Sector Beast Morosa was furious. “You’ll regret this!” it bellowed.

“Regret?” Luo Feng smirked.

Luo Feng, clad in black armor, had already driven the powerful machine-type valuable Wu Qi God. Now he took out the Blood Shadow Blade on his back. Blood Shadow Blade was an embryo, and the attack could be greatly improved by being performed through the blade. Besides, Wu Qi God itself was far superior to other machine-type valuables. When the two were combined, Luo Feng’s power surged.

“Golden Light Ocean!”

Luo Feng performed the technique, and Sector Beast Morosa—moving very slowly under the combination of “single thought void space” and Whirlpool World—couldn’t dodge it at all.

Hua! Hua! Hua!

The blade’s light shone under Luo Feng, and there were golden waves around him. The waves tumbled, striking Sector Beast Morosa relentlessly. Sector Beast Morosa, who was trying to resist, roared, “Why? Why are you so much more powerful than last time?”

The golden waves weren’t actually waves. They were waves made up of blade light, and Luo Feng’s blade contained gold law. However, the blade technique was as soft as the caress of a lover. Those golden waves looked soft as they kept patting the Sector Beast. However, they were endless. This was one of the supreme techniques created by Luo Feng, “Golden Light Ocean”!

Chi! Chi! Chi!

The waves kept eroding the Sector Beast, making it weaker. Sector Beast Morosa yelled in pain. It couldn’t believe what was happening, as Luo Feng was far stronger than last time.

“Strong?” said Luo Feng. “You’re saying I’m strong? Then it’s your glory to die by the hands of a great being.”

Luo Feng had no mercy. The blade light was unrelenting and kept consuming the Sector Beast’s power. When it was difficult to fight the Sector Beast directly, one could choose to mutually consume godly power. However, when one was at an absolute advantage, it would only need to lose a small portion of energy to consume a great deal of the Sector Beast’s power.

“Howl!” The Sector Beast Morosa roared, and the golden body immediately changed into that black, ugly figure. Both of its eyes stared at Luo Feng. “You—you’ll regret this!” Sector Beast Morosa was roaring.

All of a sudden, a trace of gleaming black light showed up all over its body. The black light turned red—so bloody that it intimidated all who saw it. The bloody light covered Sector Beast Morosa.

“Howl!”

Sector Beast Morosa roared. Long arms extended from its body. There were over 100 arms, and they were resisting the blade attacks from Luo Feng. The bloody light obviously boosted the overall strength. It was almost as powerful as Luo Feng.

The attack from Luo Feng made the Sector Beast's body sink, but it never actually slashed Morosa.

"You've indeed used all your power. Then make another move!" Luo Feng yelled. "Golden Horn of Beasts!"

All the golden waves disappeared, and the surroundings turned back to the dark Whirlpool World again. Inside, a blurry golden horn appeared. It looked as if this giant golden horn could pierce through the entire universe. There was endless power in it, and it stabbed toward Sector Beast Morosa.

It was a miracle for universe masters to create techniques at level eight. However, Luo Feng had created more than one.

Golden Light Ocean was weaker, but it was long-lasting. As for "Golden Horn of Beasts," it was only a single attack, so every time it was performed, Luo Feng needed to store enough power. Of course, it was a powerful move. However, the enemies could totally get away when Luo Feng was preparing the power. Fortunately, Luo Feng had "single thought void space" and Whirlpool World so that the Sector Beast couldn't get away.

Hua!

The giant golden horn pierced through everything. Under level-three godly power burning, Wu Qi God, Blood Shadow Blade, and the supreme technique Luo Feng performed, the skin of Sector Beast was pierced through.

The black blood of the Sector Beast flowed in the Whirlpool World.

Chapter 1433: Newborn

Hong! Long! Long!

The nine levels of whirlpool power combined with each other, and they started to swallow everything. The black blood from the blade light immediately became curves under the strength from the waves. It was immediately swallowed by one of the tower doors of Star Tower. After all, even Sector Beast Morosa itself could barely stand straight, so its blood couldn't just run away!

"Blood of Sector Beasts!" Luo Feng rejoiced in his heart. "I've studied the life structures, so I need the blood and skins of great beings. I've obtained lots of blood and skins from the World of Jin, and they're of great help. However, I keep being stuck at 89,999 times, and I just can't surpass this final step. I hope that the blood of Sector Beasts can help."

Luo Feng was looking forward to it, but then he put all those thoughts behind him. Studying blood and understanding life structures were the worries in the future, but now, the most important thing was to kill the Sector Beast!

There was a hole in the broken chest of Sector Beast Morosa. Black blood dripped, but the wound immediately recovered. Sector Beast Morosa stared at Luo Feng in the distance and roared, “Ever since I’ve entered level three, other than Bei Di, no one has been able to make me bleed! No one! Despicable creature from Universe Ocean, you’ve really crossed me. Other than Bei Di, I want you dead more than anyone else. I will kill you! Kill you!”

Thoughts flooded Luo Feng’s mind. Entered level three? There were different levels of Sector Beasts? Bei Di?

There wasn’t a true god called Bei Di in Universe Ocean. Was that Bei Di also a Sector Beast?

Luo Feng’s mind could work quickly, and tens of millions of thoughts flooded his mind at the same time, but it was actually close to the actual fact.

“Despicable creature from Universe Ocean? Aren’t you a life form from Universe Ocean?” Luo Feng sneered and rushed at Sector Beast again. “You want me dead? Then I’ll kill you now!”

Hua! Hua! Hua!

Luo Feng moved so quickly that it was as if he’d disappeared. Golden waves showed up around him, enveloping Sector Beast Morosa, who couldn’t even manage to dodge it. The endless blade waves kept tumbling, madly consuming the strength of that Sector Beast, making the Sector Beast weaker and weaker.

“No! Stop it, Milky Way Horde Leader!” Sector Beast Morosa suddenly yelled.

“Why should I stop?”

The voice of Sector Beast Morosa came out from the golden waves ocean around it. He kept yelling, ‘Don’t push me! I’ll tell you again. Don’t push me! If you keep pushing me, there’s no way to mitigate the relationship between us. We’ll literally fight to the death!’

“We’re already fighting to the death.” A voice came from the golden waves, and the endless blade waves were still weakening the power of Sector Beast Morosa, who had already lost half of its power since the beginning of this fight.

“Okay! Human!” Both the sole eyes on Sector Beast Morosa’s heads looked desperate, and it yelled, “It’s you! You took away my chance to become the king forever! It’s because of you! You!”

Luo Feng, who kept making attacks, felt something wrong.

“Burn!”

The Sector Beast Morosa yelled in agony. How painful it was! It was angrier than a warrior having his arms cut off. Black tears welled up out of both the singular eyes on the two heads of Sector Beast Morosa. It looked ferocious, mad, upset—

Hong!

Suddenly, an explosive sound came from the body of the Sector Beast Morosa, and an invisible strength rushed out of its body, blasting Luo Feng away. At the same time, gleaming, colorful light rushed out of

Sector Beast Morosa's body. The colorful light was dazzling. It contained all the beautiful colors Luo Feng had ever seen—millions of times more amazing than a rainbow. Gleaming, colorful light rushed out of the body of Sector Beast Morosa.

“What?” Luo Feng felt intimidated.

The power from the rainbow wasn't strong. However, Luo Feng could clearly feel that the control over the void space under his technique “single thought void space” was weakened, and to be exact, another willpower was fighting for the controlling right of this void space! Single thought void space was true control, and it wasn't bestowed by the original mind.

Absolute control! Under his complete control, teleportation, transportation, and the other skills were all banned. If someone wanted to fight with him for the right of control, and that person needed to know “single thought void space.” Then those with better skills would be able to control space. Or if someone became an eternal true god, and a universe could be formed with only one thought. Then it was definitely easier to get the control right. However, the colorful light coming out of the Sector Beast's body was trying to seize the right of control over the space.

Hua! Hua! Hua!

It was gleaming—breathtaking. It was as if it were the most beautiful color in the entire universe. The streaks of light formed a magical portal, and the colorful portals were trembling. Apparently, under the suppression from “single thought void space,” it seemed like it was going to crumble at any time. The colorful portal couldn't pierce through the area of single thought void space.

“Burn again!” Sector Beast Morosa yelled painfully. “Human, you're going to regret this! I've spent an eternity reaching level three, yet you pushed me back to level one... I'll avenge myself, I will avenge myself! I'll make you regret this!

Hua!

Dense, colorful light rushed out of its body again, merging with the colorful light portal. This was control over time. Luo Feng's Whirlpool World couldn't do anything about it, so only single thought void space was able to suppress it. At this moment, Sector Beast Morosa was so weak, and its force was negligible.

Luo Feng even felt that he could literally kill the Sector Beast Morosa with one move. However, the gleaming, colorful light was covering Sector Beast Morosa, but he couldn't make attacks and break the colorful portal, so he could only use one thought void space to suppress it.

“Break!” Luo Feng kept the suppression from single mind void space, and at the same time, he was also attacking those colorful light portals. The portal was trembling as if it would crumble at any time.

Hua!

Sector Beast Morosa turned into a stream of light and suddenly disappeared through the colorful portal. Just as it disappeared—

Peng!

The colorful light portals disintegrated completely. Then they turned into nothing.

There weren't battle ripples in the space anymore, and only Whirlpool World and single thought void space could maintain it. Luo Feng stood in space, finding it hard to believe. The Sector Beast still managed to run away, even while he was at an absolute advantage?

"Take it back."

Luo Feng waved his hands, and all of a sudden, both Whirlpool World, and one thought void space disappeared.

"I've failed. I've failed again." Luo Feng shook his head.

He used his best power this time for the fight. Besides, great beings like Divine Eye True Master and Primal Chaos City Leader all knew that it was the Star Tower team, so perhaps many true gods in Universe Ocean looked forward to the result. The failure last time was already a huge blow to Universe Ocean. The failure this time was definitely a nightmare for Universe Ocean.

"Under space seal and one thought void space, how did it use a technique like wormholes and teleportation to leave instantly?" Luo Feng was confused. "Although it looks like a wormhole, it was more like a universe portal!"

Both god country transportation and space transportation could transport someone from one spot to another instantly. Only universe portals were like portals; that colorful light was a portal!

Besides, after repeated fights with the Sector Beast, I've injured it twice, and Nine Remoteness also injured it greatly. However, it was able to recover so soon, Luo Feng thought. It was put in an impasse. Half of its energy was consumed, and it had used its endless bloody light for a long time. It seems it didn't want to use the last step, colorful light portal. Besides, it kept threatening me. It wanted to negotiate or threaten me, but it just didn't want to use that move.

Luo Feng could tell that Sector Beast Morosa was in agony when it was performing that colorful light portal, and he could tell the madness and craziness and desperation from the yelling.

"It also said that it was going back to level one from level three."

Luo Feng was thinking. Level three?

From level three, nobody had been able to make it bleed other than "Bei Di"? That must have meant that Sector Beast Morosa had already entered level three while in the nest of Sector Beasts. Although it had swallowed many origins of miniature universes in Universe Ocean, it was still at level three.

Level three? Luo Feng thought. It might've fought and eaten other Sector Beasts in the nest to improve its power. Does that mean only by eating Sector Beasts he can improve his power to level three? Is that a fundamental change? It said that it was going back to level one from level three. That must be the price it has to pay to perform that colorful light portal.

Luo Feng understood now. Level three meant the extent to which Sector Beasts had grown.

And to grow like that, Sector Beasts needed to swallow other Sector Beasts to grow, as they were the core energies of Sector Beasts. As for other powers during the fight, it could recover over time even if it

was greatly consumed. However, the core strength couldn't be recovered. Otherwise, Sector Beast Morosa wouldn't have gone mad.

An ugly Sector Beast showed up in the chaos air space in the distance.

Sector Beast Morosa wasn't as confident as before anymore. It was weak, sad, and desperate.

"When one trillion Sector Beasts were born. Everyone was only at level one. I am only one of them. I've been trying and struggling and eating other Sector Beasts. I've eaten all the other powerful Sector Beasts and entered level two—and entered level three! Even Bei Di is only at level three. If I can swallow enough origins of miniature universes and reach the pinnacle level at level three, I'll be able to become the ultimate king. However, I've returned to the status of a newborn."

Sector Beast Morosa thought that coming to Universe Ocean would be a great opportunity to him, yet it was a disaster.

Chapter 1434: So Useless

"First stage of a newborn... I have regressed by one stage. What should I do?"

Sector Beast Morosa was in agony. It was a highly ambitious Sector Beast, so even within its own nest, it would be the one standing at the peak. The only thing that could instill some fear in it was the most powerful Sector Beast, "Beddy." Other than Beddy, there was nothing else it feared.

Beddy was also fully aware that only those like Morosa, who had crossed over to the third stage, were a threat to it. It kept a watchful eye over the fights and devouring activities of these third-stage beings!

"Regressing to the first stage, the powerful strength that I originally possessed would immediately disperse. I am forced to fall all the way to the first stage, though it was the pinnacle first stage!"

Sector Beast Morosa was pondering. It might have been severely injured by Luo Feng's killer moves, but the remaining amount of power still far exceeded the power range of the first stage. If it could not bear with it, it would naturally disperse. Now, it was at the pinnacle first stage. For the Sector Beasts' nest, this level of power was considered to be power at the bottommost level.

"I still have a chance, still have the final glimmer of chance..." Sector Beast Morosa said to itself. "There is only a handful of Sector Beasts within the nest that have crossed over to the third stage. The majority are in the second stage. As for those in the pinnacle first stage? Maybe there are, maybe there aren't. And even if there are, they must be hiding somewhere, living their lives quietly as they resigned themselves to their circumstances."

"My power is very close to the second stage. Besides, I am Morosa, a Sector Beast who stands at the pinnacle... Sensing a hint of my aura from afar, the others would feel scared! They are unaware of the fact that I have become weak."

Many thoughts were racing through Sector Beast, Morosa's mind, as he contemplated his action plan. For instance, when two weaker Sector Beasts were fighting one another, it could wait until the later

stage of the fight, when one party was about to emerge as victor. Then it would exude its aura from afar, scare the winning party away, and kill the losing party instead. Even the losing party in its state of severe injuries would most likely be more powerful than Morosa.

“I must give it a try and fight on. I am now at pinnacle first stage. I just need to eat one Sector Beast from the second stage. I will be able to move up to the second stage right away. Even if vying to be the ultimate king was impossible, there was still the possibility of threatening Universe Ocean.”

Sector Beast Morosa quickly pondered over the situation to come up with its plan. “If I fail, I will divulge the secret of devouring the origins of miniature universes to speedily increase one’s powers!”

“Milky Way Horde Leader... I will be back!” Sector Beast, Morosa’s two heads looked toward the primal universe before it instantly teleported and disappeared.

After the battle with Sector Beast Morosa, Luo Feng also boarded Star Tower and headed back to the primal universe. After all, he had gotten what he was after through this battle: the blood of a Sector Beast. Naturally, it would have to be brought back to the primal universe for his Remote Ocean to analyze and study. Perhaps this time, he would be able to surpass the last step and achieve a breakthrough where the life gene level of his godly body would exceed 90,000 times.

“Aye!” Standing inside Star Tower, Luo Feng, garbed in a suit of white robe, sighed gently.

Beside him were Hong and Fire Dome. The two had witnessed the entire battle. After the battle ended, Luo Feng also let them in on some detailed information, so they were clear about the entire process.

“We are in trouble.” Luo Feng shook his head. “This battle was fought by my team on Star Tower... I’m afraid many true gods of Universe Ocean have already caught wind of the news. The various races of Universe Ocean are already devoid of endurance against attacks. But this time, I have failed to kill Sector Beast. I think this might cause the various races of Universe Ocean to collapse.”

Hong said, “Luo Feng, do not overtax yourself. You have already done enough. Besides, didn’t you say so yourself? That Sector Beast has been banished back to the first stage from its original third stage. Its power is now very, very weak. The chances of it restoring itself to full power is almost impossible. Any true god who is just a tad more powerful would be able to annihilate it.”

Luo Feng shook his head. “Saying that it would be unable to restore its power, that was purely my personal conjecture. I have deduced that it will need to devour other Sector Beasts in order to advance to the second stage and eventually into the third stage. However, these are purely deductions! Although it is very easy to kill right now, it is highly unlikely for that Sector Beast to show itself when it is vulnerable. It will remain in hiding as it gradually regains its power while also thinking of ways to increase its power. When it shows up again, it will certainly be even more difficult to handle than before!”

Hong and Fire Dome both gave slight nods. Fair enough. Any living being with some degree of wisdom would think likewise. When weak and small, it was a natural reaction to go into hiding.

“Teacher, no matter what, at least for a short period of time, that Sector Beast will not reappear,” Fire Dome said.

Luo Feng nodded slightly and said with a sigh, “All right, I have to go and send out this piece of news. I truly don’t know... How would the various true gods of the Universe Ocean react the moment they caught wind of this news?”

Within an individual plane surface that solely belonged to Luo Feng, on the public square before a palace that was suspended in the air of the primal universe, more than 50 true gods had gathered together from the Ancestral God School, the human race, the various races of the Hong Alliance, and the Space Beast Alliance. The true gods were all discussing things via voice transmissions, as no one dared to make a single utterance out loud for fear of distracting Luo Feng, who was sitting before them cross-legged.

“This time, during the battle with the Sector Beast, the team on Star Tower was much stronger than the team on the vessel. It will definitely be able to annihilate that Sector Beast. Hmm. That Sector Beast deserves nothing more than death.”

The true gods were all waiting with apprehension. They all felt as though they were facing a life-and-death situation. More on point, it was a situation that made them even more nervous than a life-and-death situation! The Sector Beast was a threat to everything they had sought to protect. If there was no longer anyone who was able to stop this Sector Beast, then regardless of whether one wanted to transcend a reincarnation era—or protect one’s race or close friends—all would be futile efforts, as everything would be annihilated.

“Milky Way Horde Leader is getting up.”

“Milky Way!”

Suddenly, there was a commotion. From where he was seated in a cross-legged manner, Luo Feng stood up. His gaze swept through the numerous true gods present. Then slowly, he said, “Everyone, after this battle, that Sector Beast will not show up again so soon. At least not in this recent period of time.”

Everyone was taken by surprise.

“Milky Way Horde Leader, what you just said... What do you mean?”

“Once that Sector Beast is dead, does it mean that after a period of time, the other Sector Beasts will also come out of their nest? No matter what, so long as we can kill one, we are sure to be able to kill more!”

The numerous true gods were all engaged in discussion. They were all filled with anticipation. If they had managed to kill one Sector Beast, then it would be a great boost to their confidence.

Luo Feng pointed far into midair and drew with his consciousness. Immediately, the battle scene appeared. “All of you, take a careful look, and you will understand everything.”

Scenes of the battle between Luo Feng and Sector Beast replayed before everyone. As for the method of Whirlpool World, it was clearly made public to the audience. To Luo Feng, who was already the number one being in Universe Ocean, even if he wanted to go public about something, no one could do much to stop him.

As for the conversation between Luo Feng and Sector Beast, there was no need nor elaboration. Luo Feng merely provided a brief explanation to update the crowd.

“It had deteriorated from the third stage to the first stage,” said Luo Feng. “It is so weak that not a single true god would fear it. Any true god that is slightly more powerful will be able to annihilate it. So, that Sector Beast will not show up again so soon—at least not for this recent period of time.”

Silence prevailed.

The numerous true gods witnessed the entire battle. Everyone had complex feelings. While they marveled about how powerful Luo Feng was, they were at the same time feeling greatly shocked. That Sector Beast’s means of escape were indeed formidable. Even when trapped in a sealed space, it could actually execute an ultimate survival technique that resembled a portal to make a speedy escape in an instant. Although Sector Beast Morosa seemed to have paid a hefty price to execute this technique, it had, at the very least, managed to stay alive.

If he did not kill his enemy, then once the enemy regained all its power, it would stage a comeback!

“Everything is as expected.”

Luo Feng said no more as he turned and directly walked into the palace. All that needed to be said had been said. What had to be disclosed had been disclosed.

If the true gods of Universe Ocean were so desperate that some had decided to pledge allegiance to the Sector Beasts. That would also be the choice they made.

Amidst the clouds high up in the skies of Earth, a lone figure was seated.

“How unexpected. He did not succeed?” Sitting Mountain Guest was sitting on the clouds as he frowned. “The Sector Beast is unexpectedly quite a tough nut to crack! This Sector Beast disaster is scarier than I had expected. Now, the Sector Beasts are still growing up and are not in their final moments. In the future, though... I’m uncertain of whether this disciple of mine will be able to stop them. I have put in such immeasurable efforts...”

Sitting Mountain Guest revealed a trace of anxiety in his eyes.

Purple Moon Holy Land Universe.

Purple Moon Ancestor sat on his throne with his eyes shut as he sank into deep thoughts. He was waiting for news, waiting for news about the battle between Luo Feng and the Sector Beast.

“Luo Feng, although I really would have rejoiced over your death, it is a fact that we need to rely on you to deal with that Sector Beast! Even if you bear deep hatred for us, you also have to deal with it; for your humans, for your homeland in the pulse of the Earth, you have to deal with it... You have to win, you must win!”

Purple Moon Ancestor was chanting in his mind. I have cultivated for endless time and transcended reincarnations. Now, I have been met with a greater opportunity... I can become even more powerful, but my miniature universe must never, ever be devoured. The moment that happens, I am truly finished. Also, there is my clan to think of... This is my only worry.

Purple Moon Ancestor shut his eyes. He could “see” very clearly every single space within the entire Purple Moon Holy Land Universe; he saw the birth of numerous children and saw them growing up; he saw how they either matured whilst honing their skills in blood and fire or faltered and fell... This was his clan. The clan that gave birth to him.

A long, long time ago, he was also just an ordinary member of the clan. But later on, he continued to rise and rise until he became the strongest master of the entire clan. He established his holy land universe and was thereafter regarded as a tried-and-true ancestor of his clan.

“All of them. They are all a part of my clan. The endless years of hard work and effort I’ve spent. The paths of hard work I’ve trod... Everything and anything. The moment the Sector Beast devours my miniature universe and causes my miniature universe to collapse, then everything will ultimately come to an end. Luo Feng... If I can’t kill you, you will become my greatest threat. But this time, you have to kill the Sector Beast. You must!”

Purple Moon Ancestor was fervently looking forward to the death of the Sector Beast.

Suddenly, the numerous great beings beneath Purple Moon Ancestor transmitted an announcement without delay: “Ancestor, we have news.”

Purple Moon Ancestor opened his eyes suddenly and looked toward the crowd beneath. “Has Luo Feng killed the Sector Beast?”

“No,” someone from the crowd below replied. “The Sector Beast is not dead. It escaped.”

Purple Moon Ancestor’s expression changed drastically.

What...? This was only a single Sector Beast that had come out of the Sector Beasts’ nest, and yet Luo Feng was unable to kill it?

“Based on the information given, Luo Feng has gained the absolute upper-hand and has caused the Sector Beast to suffer a great loss of power. Yet, toward the end, that Sector Beast decided to pay a humongous price to execute just one move. It was a move that seemed to involve something that resembled a portal, through which it instantly transported itself away!”

The underlings were filled with reverence as they said, “At this moment, the power of this Sector Beast could be so harmless that none of the true gods would be afraid of it at all.”

“Nonsense!” Purple Moon Ancestor’s face was ghastly pale. “Sector Beast is weak and small. Would it let you find it? That Sector Beast will definitely hide while it restores its power!”

“Sector Beast, Sector Beast. Just one Sector Beast is already such trouble.”

“We don’t even know how many more are in the Sector Beasts’ nest!”

“This Luo Feng is just so useless!” Purple Moon Ancestor said through gritted teeth. His heart was filled with agony and fear.

Chapter 1435: To Change Sides or Not?

Just as Purple Moon Ancestor was fuming mad and gritting his teeth, within the other one of Universe Ocean’s two great holy land universes, East Emperor Holy Land Universe, East Emperor Ancestor was, on the contrary, very much at peace.

On that endless great land, East Emperor Ancestor walked about alone, looking at the numerous clansmen living on this great piece of land.

“I had not expected Luo Feng to fail in killing the Sector Beast,” East Emperor Ancestor whispered to himself. “This is only one Sector Beast that came out of the Sector Beast nest. It is highly unlikely to be the strongest. This one is already so difficult to kill... What if there were more Sector Beasts? In the near future, what if the king of Sector Beasts finally emerges...?”

“However, I should not ask for too much. I have never been the one with the best talent, yet step-by-step, I have worked my way up to become a true god, eventually attaining the level of a true god of void space... Purple Moon might have met with better opportunities, but his miniature universe is inferior to mine.”

East Emperor Ancestor shook his head with a laugh. As he recalled the various events that he had undergone over the long years of growing up, East Emperor Ancestor could not help but smile to himself.

“Facing that Sector Beast... I am definitely unable to stop it! I can only pin my hopes on Luo Feng, just like how the willpower of the origin has pinned its hopes on Luo Feng.” East Emperor Ancestor gave a light-hearted laugh. “If Luo Feng wins, I still stand a chance... If he loses, I can only say that with life comes death. Who can enjoy eternal prosperity? Even for the most powerful nations from the ancient civilization, there came the day when they all had to face destruction.”

“Luo Feng...” East Emperor Ancestor silently waited, hopeful.

East Emperor Ancestor, who had lived for eras beyond count, was most peaceful. Meanwhile, Purple Moon Ancestor, who had lived for a much shorter time, was anxious and uneasy—and thus, easily irritable.

As for the various races of Universe Ocean, in the face of such a great calamity, they certainly displayed a diverse range of reactions. In the Divine Eye Clan, in the universe of First True Master, all five true gods of Divine Eye Clan had gathered for a discussion.

Just as the five were getting anxious about the news that it was extremely difficult to kill that Sector Beast, they suddenly heard a voice from the group of universe masters who had been listening in silence. These universe masters seldom voiced their opinions, yet that day, one of them spoke up. “Teacher, we have to consider our race and think of our future.”

The five true gods, including Divine Eye True Master all turned to look over.

“Ink Dragon, what do you mean?” Divine Eye True Master asked with closely knitted brows.

Ink Dragon was a newly appointed universe master who had been to the World of Jin to hone his skills. There, he had benefited quite a bit. Also sporting a single-eyed shadow behind him, Ink Dragon Master said with much anxiety, “Teacher, we are from the first reincarnation era. Once this reincarnation era ends, if we have yet to transcend reincarnation... we will be destroyed for eternity!”

Everyone fell silent. In fact, the doomsday crisis applied to every race from the first reincarnation era.

“When it comes to us fighting the Sector Beast, so what if we win?” Ink Dragon Master asked anxiously. “In the end, don’t we still have to try our best to transcend reincarnation? The time we, Divine Eye Clan, have left is not a lot! And now that we know this Sector Beast is so difficult to deal with... if that is the case, then we should just follow the paths of Zhen Jia Emperor and Dragon Rock Ancestral God!”

“Shut your mouth!”

“Ink Dragon, what are you saying?” Divine Eye True Master and three true gods shouted angrily all at once.

Ink Dragon Master started to speak again in the same anxious manner. “Teacher—”

“Shut your mouth,” Divine Eye True Master ordered coldly.

“Divine Eye,” the three true masters started to say slowly. “What Ink Dragon says... It does make sense.”

Divine Eye True Master could not help turning around to look at Third True Master angrily. However, Third True Master also held a high position within the race, so there was no way he could ask Third True Master to shut his mouth.

“How are we going to fight and win against the Sector Beast?” Third True Master said. “It is a being that represents destruction. Even the willpower of primal origin is scared of it and has thus created a World of Jin just to seek a chance for survival, albeit however slim. The willpower of the primal universe origin had been transmitting messages via the three ancestral gods, yet Luo Feng was the Number One Master of Universe Ocean instead of the three ancestral gods. Why did the willpower of the origin choose to do so? Because the willpower of the origin also knew that if it were to rely on us, there would be no way the Sector Beast could be stopped. Luo Feng was the only reliable choice. Now, Luo Feng is merely a universe master, yet he is already above any of us true gods. When he becomes a true god, there will be hope for us to achieve success.”

Divine Eye True Master looked at him. “You say that Ink Dragon made sense, and then you say Milky Way is our hope...”

“But that is if he becomes a true god,” Third True Master said. “Up until now, he has yet to achieve his breakthrough, and who knows when that is going to happen? Just one Sector Beast, yet he failed to kill it. Can he really succeed in bringing it down? Even if he did become a true god, what we have is merely hope. To the Sector Beast, Luo Feng is the one who poses a threat to them, not us. Besides, the Sector Beasts never laid hands on Zhen Jia Master and Dragon Rock Ancestral God’s miniature universes.”

Divine Eye True Master continued listening intently.

“If we were to take the side of the Sector Beast,” Third True Master said, “then not only will the Sector Beast not attack us, but if it were to stay within our miniature universe, even Luo Feng would not be able to do anything to us. The willpower of the primal universe origin always relied on other great beings to execute its moves. See Zhen Jia Emperor and Dragon Rock Demon God? Aren’t they still alive and well? So long as we are not so silly to the extent of initiating provocation from Luo Feng, like Great Thunder Star Master did, then we will not be annihilated. We should not be bothered about the Sector Beast crisis. Instead, we should put our hearts into cultivation. We should make good use of the final moments we have to try our best to transcend reincarnation. The moment we succeed, eternal victory will be ours to claim! The efforts we put in now, the side we choose... For the sake of transcending reincarnation in the future, it will all be worth it. If we are unable to transcend reincarnation, then fighting the Sector Beast to come to such a tragic end would only prove to be a joke.”

Divine Eye True Master surveyed the surroundings. Silence prevailed. Quite a few universe masters thought this way, but there were also quite a handful who felt that they should fight the Sector Beast. Divine Eye True Master looked at every one of them, then at the other four true gods. From the looks in their eyes, he could understand the thoughts of the other parties. There were those who raised their objections, but there were also others who were agreeable.

“Although I feel that it is inappropriate to seek refuge with a Sector Beast,” Sixth True Master said in a low voice, “what third brother said has a certain degree of reason.”

“Divine Eye, you decide.”

“We will follow your decision.”

Divine Eye True Master was so frustrated and pained that he was frowning. With a wave, he dismissed them. “Leave, all of you. Let me think about it carefully.”

“The Sector Beast is truly powerful. Killing it for real is going to be too difficult! If the Sector Beast is truly able to spare us, then there is no need for us to create enmity with it.”

“Actually, I’m just worried the Sector Beast will be unwilling to take us in. After all, the Sector Beast needs to devour the origin of a miniature universe... Taking one of us in means it has one less origin to devour.”

“Even if we were to decide to change sides, it might not take us in. If I had the power of Milky Way Horde Leader and were willing to pledge my allegiance, the Sector Beast would most certainly be rejoicing and willing to take me in.”

“Milky Way Horde Leader, you must succeed,” Froth Flower True God said, standing within her own miniature universe as she looked far into the distance at the people of her race. She was silently praying for the best.

“No wonder the willpower of the origin also believed in Luo Feng. Now the Sector Beast is unstoppable by anyone. Only Milky Way Horde Leader had some possibility of success.”

The demon true gods had gathered in the primal universe. As members of the primal universe, they did not dare to change sides.

It was obvious. The primal universe and the Sector Beasts were opposing groups. Pledging allegiance to the Sector Beast would mean going against the primal universe. They had, at the very least, lived through two reincarnation eras. They did not want to be seen as enemies by the primal universe!

There were many different thoughts and emotions hovering about in Universe Ocean. After all, there was no hatred between the various races of Universe Ocean and the Sector Beast; if the Sector Beast was willing to take them in and not attack them, then on the premise of knowing that there was little hope in defeating the Sector Beasts, quite a number of races were naturally willing to change sides. And the races from the primal universe era had many different fears.

In the faraway Ancestral God Palace, the three ancestral gods were also receiving messages transmitted over from the willpower of the origin.

“Sector Beast... servant...”

“Difficult...”

“Disaster...”

Various messages were transmitted over, and after some time, the three ancestral gods opened their eyes.

“Now, there must be quite a few races that want to take the side of the Sector Beast.” The youngest ancestral god shook his head with a snort. “But those foolish fellows! How could they know...? Once they become servants to the Sector Beasts, that is when the true disaster begins!”

Beside him, the old ancestral god added, “Now that the willpower of the origin has ordered us to spread the news, it must be hoping that the true gods will think twice and not make a choice they will regret later. This is because, no matter what, races from the other two reincarnation eras of Universe Ocean were still children of the primal universe.”

“Actually, there is no need to be so worried,” Double-Face Ancestral God said. “The willpower of the origin has already informed us that seeking to become a servant of the Sector Beasts is never easy. After all, the Sector Beasts will have to devour the origins of various miniature universes in the future. If the true gods that defect to the Sector Beasts’ side are not powerful enough to be useful to the Sector Beasts, will the Sector Beasts still be willing to give up a miniature universe just to take them in?

Wanting to change sides was not easy at all. After changing sides, regret was bound to follow. And that would then be a great calamity.

The three ancestral gods immediately started to spread the news. As the Ancestral God School itself consisted of quite a sizable number of true gods, it was easy for them to spread the news quickly throughout the entire Universe Ocean. The moment the news was spread, several races who were originally still filled with uncertainty were dealt with a great shock. Although they did suspect that the willpower of the origin might be lying to them, they were still filled with fear.

They were not going to take the gamble so easily!

“The willpower of the origin is simply too easily agitated,” Sitting Mountain Guest said, sitting along the outer wall of Universe Boat with a transmission token in his hand. Shaking his head, he said, “Whether those true gods lived or died, how does it affect the big picture? When a great calamity truly occurs, the Sector Beasts will show their scary sides... Then the true gods will understand that this is a truly great calamity that they will not be able to hide from no matter how hard they try! It’s just that I am not sure when exactly this disciple of mine will achieve his breakthrough to become a true god.”

Sitting Mountain Guest expressed his worries. “That Sector Beast might have temporarily disappeared, but now that it has begun, what follows might amount in an endless chain of events, which will most likely be even more brutal and cruel. If Luo Feng still does not become a true god...”

News from the outside world was streaming in. Luo Feng was aware of everything happening in the outside world; he was also aware of the various changes, but he was still very much at peace.

It had never crossed his mind to change over to take the side of the Sector Beasts. Because, judging by the clues found within the World of Jin, not a single nation wanted to defect to the side of the Sector Beasts. Apparently, they were all worried that by siding with the Sector Beasts, their fates would be just as what the message of the willpower of the origin had predicted... an impending disaster.

“Back.”

Luo Feng stood within Star Tower as he looked outside. From afar, he could already see the immeasurable primal universe membrane wall, as the chaotic airflow was no longer able to obscure his line of vision.

This was Luo Feng’s first trip back to the primal universe onboard Star Tower since the Sector Beast first appeared. He had to send the blood of the Sector Beast back to his boundless Remoteness Ocean in order for Remote Ocean to execute its talent technique “Creation” —to study and thoroughly comprehend the diagram of its life structure.

“I hope that through this I can achieve a breakthrough and finally become a true god.” Luo Feng earnestly looked forward to achieving his goal.

Chapter 1436: The Life Diagram of a Sector Beast

Primal universe, human territory, Milky Way Holy Land.

The mighty endless Remote Ocean was peaceful without any ripples.

Hua!

A nine-story tower came flying over from the void space far in the distance. It flew all the way over to the upper skies of the boundless Remote Ocean.

“It’s Star Tower!”

“It’s Milky Way Horde Leader’s Star Tower!”

There was originally a big batch of great beings congregating within Milky Way Holy Land. Other than a few true gods, there were over 100 universe masters present. Undoubtedly, it was easy for such a big group of them to quickly notice the nine-story tower appearing in the upper skies of the boundless Remote Ocean, which also happened to be one of Luo Feng’s signature treasures.

Sou! Sou! Sou! Sou! Sou! Sou!

Numerous figures teleported over as quickly as they could.

“It’s them.”

The doors of Star Tower opened, and Luo Feng, garbed in a white robe, walked out. From afar, he looked at the numerous great beings rushing toward him. Behind him, Fire Dome and Hong appeared.

“Milky Way Horde Leader.”

“Teacher.”

A group of more than 100 great beings had rushed over and bowed with reverence, but they could not conceal the sense of urgency in their eyes. Most of them were high up the social ladder of the human race, so most certainly, they would have heard news about the battle between Luo Feng and the Sector Beast. The Sector Beast was the greatest enemy of the entire Universe Ocean. It could possibly destroy all the races. How could they not feel a sense of urgency?

“Hmm.” Luo Feng nodded.

“Milky Way Horde Leader,” a gray-skinned man said deferentially but anxiously. “We have all heard news about the battle between Milky Way Horde Leader and the Sector Beast, and we are curious about the Sector Beast calamity... Are you confident?”

The others all looked toward Luo Feng. They were unable to ask any further questions, so all they could do was ask Luo Feng if he had self-confidence.

Luo Feng looked at the group of universe masters before him. He understood that this group just required a little more faith. They were feeling helpless against the Sector Beast. There was simply nothing else they could do.

“Horde Leader...” They all looked at him expectantly.

Luo Feng’s gaze swept through the numerous human great beings. Then, nodding slightly, he replied, “Yes!”

Instantly, a handful of masters showed a spark of joy.

Fire Dome True God took a step forward and said in a straightforward manner, “Teacher still has some important matters to tend to. Everyone can take your leave now.”

“All right.”

Having received such a reply from Luo Feng, the universe masters, though not completely at ease, were now more reassured with a glimmer of confidence! One by one, they took their leave in a most respectful manner.

Fire Dome True God and Hong looked one another in the eye. They did not further impose on Luo Feng. They both knew that this time, Luo Feng had important matters to see to.

After watching everyone leave, Luo Feng’s gaze became aloof. He whispered, “The humans are insecure, unsettled, fearful, worried... yet regardless of how impressive a great being is, in the face of a Sector Beast calamity, no one will be able to guarantee 100 percent confidence. Even me. I have no confidence at all. Because no one knows how terrifying the Sector Beast will become toward the end.”

Luo Feng shook his head. The unknowns gave rise to the greatest fears. Even the documentation conducted on Sector Beasts in the World of Jin consisted of records made after the Sector Beasts entered their “growth period,” and even those were merely legends. This was why there was no detailed information to be had.

He had obtained some information from a Sector Beast that had only just entered the third stage. Undoubtedly, the information was a far cry from the information that might be obtained from the final form of the king of the Sector Beast.

“Let’s begin.” Luo Feng turned to look at Star Tower. It was suspended by the side. “I hope this blood of the Sector Beast does not disappoint me.”

Hong!

At that moment, the water of Remote Ocean beneath him started to get turbulent with rolling waves. In an instant, the rolling waves surged up to become towering waves ten million kilometers high. These massive waves enveloped Star Tower in its entirety. Star Tower was completely submerged. The height of the waves in Luo Feng’s original location also increased by leaps and bounds, reaching a height of 100 million kilometers. Compared to the diameter of the boundless Remote Ocean—which was as wide as twelve light years—this was relatively inconspicuous.

Amidst the great waves was a vacuum, and Star Tower was suspended within this vacuum.

“The blood of the Sector Beast contains a force that is the complete opposite of godly power. The slightest carelessness, and I will probably be annihilated.”

Clothed in a white robe, Luo Feng looked at Star Tower beneath him. Relying on its suction force, Luo Feng was controlling the drop of black blood, which was also suspended in the vacuum. He did not dare to use his godly power to handle this blood, as he feared that any contact made with it would cause it to be accidentally annihilated.

Previously, he had recreated Sector Beast Morosa with the help of Whirlpool World. He had directly sucked the blood of Sector Beast into Star Tower, which he had used as the storage vessel for this blood. All along, he had never come into contact with it via his godly power. Then Luo Feng had divided the Sector Beast blood into 16 portions. He feared that, should he be a little careless, he might accidentally annihilate this blood. This time around, beneath the base of Star Tower, was one of those 16 portions. It was one drop of Sector Beast blood.

This drop of blood was entirely black in color and was more beautiful than any diamond. With a diameter of around one kilometer, there was no way it could be further cut up. Undoubtedly, this was as small as it could get.

“Talent technique... Creation!”

White-robed Luo Feng looked at the drop of black blood suspended in midair. Then, with a move in his mind, Remote Ocean immediately executed the talent technique right away.

Buzz!

The surrounding space fell into the enshrouded region of this talent technique.

This drop of black blood that was originally so mysterious was rapidly being stripped of its mysterious outer layer under the execution of this technique. The internal structure was speedily analyzed by Luo Feng, and there was a continuous indication that this blood was made up of various spots of light—a total of 100,000 light spots. Each spot was then further dissected. These light spots were...

“Roar!”

A miniature Sector Beast, all black in color, with two heads, a pair of hands, and a pair of legs, standing in an upright posture, was roaring.

100,000 light spots. And upon being dissected, many superb, miniature Sector Beasts were found. Some tilted their heads back and roared. Some were bending over. Some were waving their claws. Some were in deep slumber. Some stood aside in silence...

An even deeper level of analysis found that every miniature Sector Beast was said to be the most profound Rhinoceros Emperor Game, which far exceeded any other Rhinoceros Emperor Game Luo Feng had ever comprehended. It was mysterious and unpredictable.

At that moment, Remote Ocean body entered the space of cultivation within the Boat of Mausoleum and was continuously comprehending and analyzing at top speed under an environment where time was accelerated at a rate of 10,000 times.

The life structure diagram from a single drop of Sector Beast blood was much more complex than the life structure diagram of any other true god or true god of void space Luo Feng had ever encountered!

Because of his status in the World of Jin, from the trillion of eras, Luo Feng might certainly have obtained some scales, armor, hair, and blood samples of true gods of void space. He might even have obtained samples from life forms at the eternal true god level.

What a pity! The life structure diagram of an eternal true god was simply unfathomable. It exceeded Luo Feng’s span of comprehension. Although he was able to understand the life structure diagrams of true

gods and true gods of void space, for Luo Feng—who had already attained up to 89,999 times life gene level—the help obtained was not significant. This Sector Beast was, after all, the noblest life form in all of Universe Ocean.

Luckily, it was still in the gestation stage, so Luo Feng could still keep tabs on it. If it went up by one more level, it would have become too profound, and Luo Feng might not have been able to analyze it at all.

“My talent technique can only analyze up to this level. The life structure diagram of a Sector Beast is indeed incredibly complex. True gods and true gods of void space are entirely different.”

Luo Feng’s brows were closely knitted as his consciousness operated at an extremely fast pace. At 10,000 times the rate of normal time, he had memorized a tremendous amount of information. Yet, going deeper, he realized that these were two completely different methods.

It could be understood this way: True gods, true gods of void space, and Sector Beasts were all fundamentally different in regards to their life structure diagrams! They were all composed of different structures.

Previously, Luo Feng had not attained a complete understanding of this. Universe masters, true gods, and true gods of void space were equivalent to the elements of music: do, re, mi, fa!

But the sector beast was more like the binary code of a computer language, which was made up of ones and zeros! All of them were composed of different essential elements! This could be based on one theory: a life form from Universe Ocean was essentially different than a Sector Beast.

“If I truly become a true god, then the path I take will be completely different from the average true god,” Luo Feng said to himself. “How will it help me?”

Luo Feng was frustrated. Just a while ago, he had somewhat gained a flash of comprehension (10,000 times acceleration was equivalent to more than three days). He had already realized that the life structure diagram of the Sector Beast represented another vast world. It also represented another route! That route, in turn, represented a future that was just as vast as the world the life structure diagram represented. The thing was, it was very difficult to comprehend something from it.

“I am really at my wit’s end.”

In order to create a race capable of proliferation and to study the life structure diagrams, I have already spent up to a trillion eras. Yet I am stuck at this final step.” Luo Feng shook his head, “Now, let’s comprehend first and hope that this Sector Beast blood can finally lead me to the enlightenment of my soul...”

Luo Feng thought no more and immediately immersed himself in comprehending the diagrams instead.

Peace and quiet returned to Universe Ocean.

Luo Feng’s Moshu body and Remote Ocean body went onboard Star Tower while his Golden Horned Beast body boarded the vessel and remained stationed in Universe Ocean to stay vigilance at all times while waiting for the Sector Beast to reappear. The Boat of Mausoleum was left in the boundless

Remote Ocean, where Luo Feng had left a body sustained by godly power in the space of cultivation to carry out comprehending and cultivation.

Time passed. The various races were still worried, but, in the blink of an eye, 1,000 years passed. The Sector Beast did not reappear in all that time, thus giving credibility to Luo Feng's claim that at least for a short period of time, the Sector Beast would not reappear.

Virtual universe, in an area in space that solely belonged to Luo Feng.

Amidst that lonely void space, a palace was afloat. On the public square before the palace, there was no one but Luo Feng. Clothed in a white robe, Luo Feng sat cross-legged without uttering a single word. He was looking far out into the distance at the numerous stars that filled the dark void space.

Shua! Shua!

Two figures appeared out of thin air.

"Father."

"Father."

Two stylish-looking youths walked over. Luo Feng usually forbade ordinary great beings from entering this place, even if they were his disciples. On normal days, not a single one of them was qualified to enter without permission—with the exception of days when Luo Feng wanted to give lectures. As for the other true gods, only during crucial times would they be granted the right to come over. However, there were some who could turn up here anytime they wished, such as Primal Chaos City Leader, True Yan, and... his family!

"Luo Ping, Luo Hai." Luo Feng turned around to look at the spot not far away, where his two sons had appeared. The endlessly long period of a trillion years had certainly brought many changes to Luo Ping and Luo Hai. They were no longer the same men they had been when they were young. Now, they were more determined in the journeys they wanted to take in life.

"Father," Luo Ping said. "We are here because of the Sector Beast... We are worried and would like to know more from you, Father."

"Worried?" Luo Feng took one look at his two sons, then turned away to look far off into the endless void space.

Who was not worried? Confronting a Sector Beast, even he was worried. But the other races had pinned all their hopes on him. And he... who could he pin his hopes on? No one! He had no other great beings to rely on; he only could depend on himself. He was worried that if he could not stop Sector Beast, the entire human race, the pulse of Earth, and his beloved family would perish.

Yet, because of this worry, he no longer held on to any fear!

"I... I am only allowed to do my best! I have no path for retreat!" Luo Feng was convicted. "Right down to the final hour, if I have yet to level up to the third stage of the godly power route, then even if my

godly body cannot achieve a breakthrough, I will immediately become a true god, gain stronger combat power, and fight this battle with all I've got."

Chapter 1437: Nest

He was left with no other choice. Although the best situation would be for him to hit 90,000 times life gene level while having attained the third stage of the godly power route, but in the face of an impending calamity, time was of the essence. There really was not much he could do, but becoming a true god at the second stage of the godly power route was still much better than those who became true gods through the law route.

"Father..."

A voice from the side disrupted Luo Feng's thoughts. Luo Feng turned his head to look at his sons. From the eyes of Luo Ping and Luo Hai, Luo Feng could feel the brothers' worry and unease.

"Rest assured." Luo Feng stood up and patted the brothers on their shoulders. "Your father is confident!"

Both brothers heard their father's words but still felt uneasy. Both were very aware of the news about the Sector Beast calamity. They were aware that during the calamity this time around, none of the other races would be able to stop it. Throughout the entire Universe Ocean, the only hope left was their father! Such tremendous stress! How was he going to bear it all?

"Of course." Luo Feng's hands rested on the brothers' shoulders. "If your father is to fail, then your father and his sons—as well as your mother... Let's just face annihilation together as a family. That way, at least we will all have each other's company even in the face of death."

Luo Ping and Luo Hai laughed. "Mm-hmm." They agreed, nodding their heads vigorously.

"Go," Luo Feng said.

The two brothers disappeared.

There was a trace of a smile in Luo Feng's eyes. His two sons had undergone a trillion eras of honing and training their skills, so when it came to facing death, they were unfazed.

"If I fail, everything will be annihilated."

Various scenes flashed through Luo Feng's mind. His teacher, True Yan, Primal Chaos City Leader, his good friends, Rong Jun and many others, his parents, his wife, his sons, his younger brother... and the countless heroes who had sacrificed their lives fighting the devouring beast to ensure the survival of the earthlings...

Everything, if he failed, would be reduced to nothingness.

In preceding generations before the three reincarnation eras, great beings like Jie Fanzi had long been reduced to nothingness. Perhaps, within the three most dangerous lands, there might be words left behind as evidence that these great beings had existed once upon a time.

Within the faraway World of Jin, Luo Feng's Earthling original body was within the East Army military camp. However, his godly body had started to collapse and disintegrate.

"That Sector Beast has escaped, and it is definitely not going to give up on revenge. This is just the calm before the storm... Regardless of whether I achieve a breakthrough to 90,000 times life gene level or not, the moment the final calamity occurs, I have to become a true god right away. And the moment I cross over to the level of a true god, my various bodies will merge to form my original body. Then, without a doubt, my earthling original body will have to return."

Luo Feng stood within the stone house, yet his godly power was dispelling soundlessly and continuously, returning back to the World of Jin.

A short moment later, Luo Feng's earthling original body was gone. Only the other body sustained by his godly power remained.

"Now, only my other body sustained by my godly power remains in the World of Jin." Luo Feng's other body remained in the stone house as he shook his head in silence. "I will have to put all visitation on hold for now and meet no one at all for the time being."

Within Tilted Peak Sector of the three most dangerous lands of Universe Ocean, in the core region of Tilted Peak Sector, was the Land of Darkness.

Si!

Black skin and flesh were torn apart. Blood was splattered all over. A hideous head was devouring great mouthfuls as it crazily bit and tore at its prey.

"Hahaha... Hahaha...!" Tearing and biting, Sector Beast Morosa laughed as though it had gone mad. "I, Morosa, have turned the tables. I have actually succeeded!"

Its body was marred by injuries all over, and its second head was so badly torn that only half of it remained—clear indications of the extremely ferocious fights it had been involved in.

Battles among Sector Beasts were a completely different story than combat between a Sector Beast and a true god. When Sector Beasts and true gods fought, they could make use of the opposing nature of each other's strengths to exhaust one another's power, or the Sector Beast could easily split its to escape when the need arose.

But when Sector Beasts fought one another, the situation was different. Their powers were the same. And they jinxed one another by deploying the same means of fighting. For instance, if one Sector Beast divided itself into 99 different bodies, its opponent could do likewise! There was no way either could escape from the other!

"Morosa... if you feed on me now, in the future, you will suffer the same fate—being eaten up by another Sector Beast," said a Sector Beast with a gaping hole in its chest. It howled in its unwillingness to be subjected to Morosa's brutal and continuous devouring. It, too, only had one head left, which

Morosa was presently feasting upon. "I was already severely injured before fighting you, but even so, you had such a difficult win that there is no way you can survive through all this."

"What a fool." Morosa devoured like mad as he cursed and swore. "Even though you are severely injured and might still be stronger than I am, when it comes to combat experience and techniques... you are so much more inferior."

In the past, Morosa had stood at the peak of the Sector Beasts' nest, second only to Beddy! Fighting persistently against one billion Sector Beasts to reach such a position, Morosa was definitely not short of combat experience. Even if it did lose out a little in its foundation, by relying on its techniques and experience made up for this shortcoming. Plus, its name alone could instill fear in its opponent even before the fighting began because opponents thought of the almighty Morosa of before. These factors contributed to it claiming the final victory!

"Devouring you will allow me to level up to the second stage!" Morosa bellowed. "Given my combat experience and fighting with other Sector Beasts at the second stage, my chances of winning are still high. In the future, I can still make my way back to the third stage."

"The third stage? If your first step is slow, every step thereafter will also be slow. It is fated that you can never be the final king."

The other Sector Beast, being bitten and torn apart, was drained of its power of resistance. This was because the most important vital point within its body had already been swallowed. Without this area, it was like a dry well. The Sector Beast was completely devoid of combat power.

"Previously, when I realized I was losing the battle, I had already spread news about you throughout the nest." The dying beast seemed to have gone crazy and went on to say, "I said that, you, Morosa, had returned from the outside world, but that you had regressed by one stage. Even if you finish me off, your power might be at the level of a Sector Beast who has just entered the second stage. You are still extremely weak compared to many others in the nest. Those terrifying fellows who entered the third stage at the same time as you will most certainly seek you out to kill you."

"You spread the news?" Morosa was slightly taken aback.

This was no great shock. It already expected as much.

Sector beasts were superior life forms who were born to destroy. If it had lain low and not done anything, the other Sector Beasts would never have known that it had dropped in levels. Yet, the moment it started attacking, any Sector Beast it fought against would immediately know the truth. If its opponent had won the fight, the truth about it might not have been disclosed; its opponent might have gone easy on it while basking in glory. Yet the moment its opponent were to lose the fight, the truth about might be disclosed simply as a means of revenge.

And the moment news about Morosa dropping levels was made public, Morosa would be such a defenseless target that any Sector Beast coming out of the nest would dare to attack it! This was also why it had gone crazy after being forced by Luo Feng to fall to the first stage. Morosa knew that to ascend back to the third stage from the first stage was as difficult as going to heaven.

"Afraid now?" the dying Sector Beast mocked.

“Afraid?” Morosa continued biting and tearing big mouthfuls as it continued to say, “It is fated that there will only be one final king. Since I have dropped all the way to the first stage, it is fated that I no longer have the chance to vie for the throne. My future will still be death, eventually. So now, if I have to face death earlier, does it make any difference?”

Internally, Morosa was burning with endless flames of fury. Even if it were to die, before dying, it had to take revenge on that human, Luo Feng, who had crushed its hopes!

“Luo Feng...” Morosa whispered this name silently to himself.

“You’ve ventured to the outside world. I’m afraid you have yet to learn a certain bit of news.” The dying Sector Beast was keen to grasp hold of any slightest chance to deal Morosa with a blow.

“What news?” Morosa looked indifferently at the dying Sector Beast, then took another big bite of it.

“Beddy...” The dying Sector Beast smirked. “Beddy has already attained the fourth stage. This news came from Batur before it died. Many Sector Beasts already know.”

“Before Batur died?” Morosa was taken aback. “No wonder it did not tell me!”

One billion Sector Beasts had been born. After that, they fought one another. The stronger, more powerful Sector Beasts naturally established their footing on the peak. Morosa was one of those at the peak. Batur was another. Both Morosa and Batur bore deep hatred for one another!

Batur had died—killed and swallowed by Beddy. Yet, at the same time, the battle had also allowed Batur to discover that Beddy was already a Sector Beast at the fourth stage. Naturally, it would spread this news before it died, even though it purposely left out some of its arch enemies from the list of parties to inform.

“The fourth stage!” Morosa froze as if doused with ice water.

The first step was slow, and every step after that was also slow. To become the final king, it had to never leave the First Group, where it used to be one of the members. The thing was, it had encountered Beddy’s endless pursuit with murderous intentions, so it had decided to head out to seek its own opportunities to rapidly ascend up to the pinnacle third stage in order to battle Beddy. It had not expected Beddy to actually make it to the fourth stage.

“The final king! No more hope. I... am fated to meet my doom. Then, before dying, I must take my revenge on that loathsome human who had crushed all my hopes!”

Morosa’s other head, the one that was injured, had completely recovered. With both heads drooping low, it was crazily tearing and biting the other Sector Beast, taking big mouthfuls ferociously.

“I will transmit the news to Beddy!” roared the dying Sector Beast. “You and Beddy have been fighting for endless eras... If Beddy knows you have become weak, it will definitely come after you. You are only at the second stage, and Beddy is at the fourth. Beddy’s speed far surpasses yours. There is no way you can escape.” The dying Sector Beast roared its intentions, then sniggered.

Morosa’s other head took another vicious bite, and the dying beast’s remaining head was bitten off.

Tear! Chi! Chi!

One big mouthful followed by another. Morosa devoured and swallowed.

The single eye on each of Sector Beast Morosa's two heads flashed with icy-cold rays of light.

"Even if I, Morosa, have to die, I will first make Luo Feng pay the price!"

At the same time, it was carefully sensing the numerous Sector Beasts' positions around it, especially those that were more powerful, like Beddy. Its main concern was to stay vigilant. The moment the more powerful ones like Beddy got closer to it, Morosa would immediately flee as far away as he could.

Deep within the Sector Beast nest, a huge, black figure lay sprawled on a floating desert rock.

Who!

It suddenly sat upright and looked far off into the distance. Both hideous-looking heads looked in the same direction at the same time. The single eye on each head seemed to have some vague, colorful lights revolving within as they looked coldly into the distance.

"Morosa..." it mumbled in a hoarse voice. "You have dropped levels and returned to the first stage? From birth, you and I have been fighting and vying against one another. Previously, when you suffered a crushing defeat, you left the nest with grave injuries. Yet you return, and you have regressed to the first stage."

A pinnacle first stage, killing a second-stage Sector Beast that was severely injured... It seemed difficult.

However, Beddy did not find it strange. This was its long-time opponent Morosa! This opponent had once posed a great threat to it. But now, this opponent had painstakingly made its way back up to the second stage, but Beddy had already reached the fourth stage. Within the entire Sector Beast nest, it was currently the one and only being known to have reached the fourth stage.

Toward the later stages, the distances between the successive stages were even more exaggerated.

"How could a life form from Universe Ocean be so powerful?" Beddy said in its low, hoarse voice. "Who could cause Morosa to be reduced to such a sorry state? Could it be the one Dragon Rock and Zhen Jia mentioned...? The Universe Ocean Number One Master, Milky Way Horde Leader?"

Chapter 1438: Realization

As the most powerful Sector Beast within the Sector Beasts' nest now, Beddy was naturally concerned about the happenings in Universe Ocean. Through Zhen Jia Emperor and Dragon Rock Ancestral God, it had learned some news, and also, it was aware that Universe Ocean's Number One Master was "universe master" Luo Feng.

What a pity Zhen Jia and Dragon Rock are being ostracized by the various races of Universe Ocean, thought Beddy. I can't even find out whether this Milky Way Horde Leader has achieved his breakthrough to become a true god or not... I also don't know if this Milky Way has deposed Morosa back to the first stage in his capacity as a "universe master," or if he did so after he became a true god.

Beddy pondered. The two possibilities were greatly different from one another.

If Luo Feng had become a true god, being able to depose Morosa back to the first stage was nothing impressive, and the threat he posed was not major. But if Luo Feng was merely a universe master, yet had been able to depose Morosa back to the first stage, then when Luo Feng became a true god, how formidable would he be?

“Seems like my powers are still lacking,” Beddy said to himself. “I must increase my power as soon as I can. I need to become more powerful at a much faster rate. I used to focus more on the third-stage Sector Beasts. Now, I need to devour even the second stage Sector Beasts... If I devour a greater number of second-stage Sector Beasts, they can still equate to one third stage Sector Beast.”

Beddy’s past strategy had been very simple. Whatever threatened it, it would devour. And even if it was unable to devour its opponent, it would inflict severe injuries on it. In this way, Beddy was able to keep its position at the top of the pile!

The method was stable and practical. It could easily keep tabs on the hundreds of Sector Beasts that posed the greatest threats to it... but the method was also slow! If it were to devour and attack a tremendous number of second-stage Sector Beasts, it would level up at a much faster rate, but it also meant that he would not be able to acquire enough information about those that threatened it. There were always two sides to any coin.

Sector Beast Morosa and Luo Feng had fought one another in a battle where Morosa was defeated.

This had been the first contact between a Sector Beast and a life form from Universe Ocean and had caused much fear and unrest among the various races of Universe Ocean. The various races were aware that when there was first contact, a second encounter was likely to occur soon.

Likewise, Morosa, upon being deposed back the first stage, had returned to the Sector Beasts’ nest. When the many Sector Beasts from the nest learned this news, they all had a good shock. It made them realize that they had been mistaken to belittle the various races of the Universe Ocean. They had not expected anyone from Universe Ocean to be so powerful. Also, it drove the Sector Beasts—who had previously followed a systematic way of fighting and evolving—into a state of frenzy. Gradually, they began to lose their self-restraint!

The aged ancestral god stood by the edge of the public square before the ancestral god palace and looked far into the distance at the numerous Sector Beasts’ palaces suspended in void space.

“Milky Way Horde Leader might have defeated his first Sector Beast opponent, which, in turn, fled the scene,” he said, “but according to the news transmitted to me by the willpower of the origin, the countless Sector Beasts within their nest are bound to be affected. They will quicken their pace of evolution. There is a high probability that final battle between the Sector Beast and will likely be moved forward.”

“Yes,” The youngest ancestral god said, wearing a solemn and worried look. “Milky Way Horde Leader is the only hope for our Universe Ocean! If he becomes a true god, we still have hope... but if he has no

breakthrough, once the mighty Sector Beast army charges toward us, or if a super-strong Sector Beast comes here, we will not be able to stop them. Ultimate extermination will be our fate! What is Milky Way Horde Leader's problem? Merely a universe master, yet his level of secret technique is so magical! And his power is simply unbelievable. He has the inheritance of the pulse of Duan Dong River, and, from the World of Jin, he also acquired the inheritance of the ancient civilization. So why is he still unable to achieve a breakthrough and become a true god? To other great beings, becoming a true god may be quite a challenge. But him? He should have already become one long ago."

Double-Face Ancestral God shook his head, sighing. It was a good point. Why had there been no breakthrough for Milky Way Horde Leader to become a true god in all this time? Not only were the three ancestral gods worried, but the various races from the entire Universe Ocean were worried, too!

Back when the inheritance of the ancient civilization had yet to be handed down, becoming a true god was extremely difficult. But since almost all the races got to know about the inheritance of the ancient civilization, the level of difficulty had reduced and was now comparable to becoming a universe master.

"Luo Feng!"

In Milky Way Holy Land, True Yan Master stood before the railings at the peak of his own palace, looking out at the boundless Remote Ocean far, far away. There was worry in his eyes.

"I believe that now, you must be under tremendous pressure," said True Yan Master, "because the various races throughout Universe Ocean will be pinning their hopes on you. At this very moment, you have to hang on. You have no other choice."

True Yan was heartbroken. This disciple of his, Luo Feng... To True Yan, this disciple was his greatest pride.

Back when Luo Feng first entered Primal Chaos City because of the War of Talents, he had been taken in by True Yan as a disciple. True Yan had seen this disciple of his grow and mature at every stage of his life! True Yan also understood all that Luo Feng had gone through on Earth. Emerging out of all those miseries, he had never bowed his head to adversity. He would have rather perished with the devouring beast than have given up. True Yan Master knew Luo Feng's past and had seen how Luo Feng had grown up. He truly cherished Luo Feng as a disciple and had long treated him like family.

True Yan's family had long passed away due to the passage of time. His disciple was just like his family. In True Yan's heart, Luo Feng was nothing short of a son. Maybe Luo Feng was not aware of it, but True Yan indeed felt that way about Luo Feng. Anytime Luo Feng became stronger and grew more powerful, True Yan felt gratified for Luo Feng's success.

At this moment, though, there was nothing True Yan could do about the heartache he felt.

"You have to hang on, face up to this calamity, and fight it," True Yan earnestly prayed. "As soon as you can, quickly rise up to become a true god. That is the only way you have a hope of surviving."

True Yan could not help wishing that he could go in place of Luo Feng. But he was aware that he would only become a morsel of a snack on the Sector Beast's plate. He would be of no use at all.

“Luo Feng, if you have to die, you have to wait till you finish off all the Sector Beasts!” Purple Moon Ancestor was roaring inwardly. “Then you may die!”

“You have to become a true god! This—this should not be difficult for you.” East Emperor Ancestor stood on his ancestor tree and looked afar. His gaze penetrated the universe as he looked in the direction of the primal universe. “Even if you choose to take the godly power route, given your talent, you should be able to succeed.”

“You have to become a true god!” Divine Eye Master said, greatly looking forward to it. “I long not to pledge my allegiance to the Sector Beast!”

“You have to become a true god!”

“You have to become a true god!”

The various races of Universe Ocean, including the bugs and demons, were all filled with mutual anticipation. All were looking forward to Luo Feng becoming a true god.

Far away, at the three most dangerous lands where the Universe Boat was, within the space of the Black-Striped Stone Pillar.

“Oh, how tall.” Inside a silver vessel, Luo Feng stood in the middle of a hall. His gaze penetrated the cabin walls as he looked outside. He saw the black-striped stone pillar that stood erected, protruding into the clouds. “Finally, I am back here again!”

The black-striped stone pillar—one of the strange objects of Universe Boat. It contained a powerful impact of willpower. The closer one got to it, the more terrifying the impact was. Also, as one got closer to the black-striped stone pillar, the rate of time velocity accelerated! Ordinary universe masters could only get close to regions that were at 1,000 times the rate of time velocity, while Bei Chi Star Master, who had gotten the closest to that impact of willpower, had managed to reach a region where time velocity was as high as 130,000 times!

“Let me see for myself,” said Luo Feng, “just how high the acceleration of time at this black-striped stone pillar can be.”

Luo Feng boarded his Boat of Mausoleum and quickly closed the distance between him and the black-striped stone pillar.

“10,000 times, 30,000 times...” The Boat of Mausoleum continued to fly closer, but Luo Feng maintained a peaceful expression. His willpower had already reached the level of an eternal true god, which was much stronger than Bei Chi Star Master. “100,000 times, 120,000 times, 150,000 times...”

Space was becoming a little distorted. The time velocity was extremely fast, while the powerful impact of willpower wiped out everything around it in waves. It was as though it sought to destroy everything. Yet Luo Feng seemed as though he was basking in the spring breeze, without a trace of discomfort.

“220,000 times, 260,000 times, 290,000 times... 510,000 times, 550,000 times... Hmm?” Luo Feng’s expression was very solemn. “I am getting nearer.”

The Boat of Mausoleum had already flown extremely close to the black-striped stone pillar. However, the impact of the willpower was now powerful enough to bring a frown to Luo Feng’s face. Gradually, the Boat of Mausoleum started to reduce its speed. Eventually, it came to a halt.

Right here. This was Luo Feng’s ultimate limit. The nose of the Boat of Mausoleum was almost touching the black-striped stone pillar.

“I want to be in contact with the black-striped stone pillar, but I suppose my willpower must reach the ultimate limit of an eternal true god,” Luo Feng whispered. “I am still lacking in that aspect.”

His willpower might have reached the level of an eternal true god, but he had yet to attain the ultimate limit.

“The acceleration of time velocity here is approximately 600,000 times.” Luo Feng nodded to himself.

His purpose in boarding the Boat of Mausoleum to come to the space of the black-striped stone pillars was to borrow this unique environment, where time was accelerated, to facilitate his cultivation! The threat of the Sector Beasts had subjected Luo Feng to a tremendous amount of pressure. He needed to maximize the use of every second he had, so this place had come to mind!

“Right here, I can, once again, get into the space of cultivation.”

Luo Feng was deep in thought. The space of cultivation was originally able to accommodate an acceleration in time velocity of up to 10,000 times. If the surroundings outside could maintain a time acceleration of 600,000 times, then by superimposing the time accelerations of the two different environments, he could, theoretically, achieve a time acceleration of six billion times. Of course, this was impossible. Luo Feng, who had a deep understanding of the ancient civilization, was aware that, in an environment where time acceleration was as high as six billion times, if he wanted time acceleration to continue increasing, there would be a drastic increase in difficulty.

“The impact of willpower here is too strong. I will be affected if I start cultivating here. I shall move back a little.”

Luo Feng maneuvered the Boat of Mausoleum into retreating a bit, stopping at a region where time acceleration was at 500,000 times. Then his earthling original body entered the space of cultivation.

In the space of cultivation, time acceleration could go up to 10,000 times.

“Accelerate to 1,000 times,” Luo Feng said, trying his hand at time acceleration. The time velocity in the space of cultivation immediately soared. Thereafter, time acceleration was maintained at 1,000 times.

With an external time acceleration of 500,000 times and an internal time acceleration of 1,000 times within the space of cultivation, the overall time acceleration reached 500 million times.

Hong! Long!

Luo Feng was horrified as he looked around him. His surroundings were trembling. Heaven and earth trembled. The entire space of inheritance also trembled, and energy was consumed rapidly.

“Not good.” Luo Feng showed a slight change in expression. “Reduce acceleration to 100 times!”

Hua!

The time velocity was immediately reduced to 100 times. The surroundings seemed to stabilize, but the energy stored within the space of inheritance was still being consumed rapidly.

“Still too fast. Reduce to ten times.” Luo Feng was forced to reduce till time acceleration was only at ten times. Then, instantly, the entire space of inheritance regained its peace and quiet. “The space of cultivation can only accommodate an acceleration of ten times, yet the amount of energy consumed is still so much greater than the normal time region with an acceleration of 10,000 times. Given the energy reserve in the space of inheritance, it should be easy to maintain.”

After a series of adjustments, Luo Feng finally substantiated that the space of cultivation could allow time acceleration to be maintained at a rate of 20 times. Adding on the 500,000 times from the outside, that equated to 10 million times. The consumption of energy was going to be massive, but, given the accumulated amount within the space of inheritance over countless eras, sustaining it over a long time should be possible.

“I must cherish every passing second. I hope that I can achieve my breakthrough before the Sector Beast crisis!”

Luo Feng left a body sustained by godly power in the Boat of Mausoleum as his earthling original body departed without further delay.

Time passed.

Year after year went by. The body sustained by godly power that remained in the region of the black-striped stone pillar was cultivating like crazy in an environment where time acceleration was maintained at 10 million times.

Luo Feng’s original body, on the other hand, was walking all over the place, seeking inspiration. First, he roamed Tilted Peak Sector, where he arrived at the core region. He even ventured further down, where he could catch a glimpse of the Land of Darkness from afar. Then he proceeded elsewhere. He even found some inheritances left behind by other true gods who had tried to transcend reincarnation eras.

Then he went back to tour around the Universe Boat again while looking around very thoroughly. He was so thorough that he managed to discover traces left behind by some ancient great beings that were used to control the Universe Boat. He also visited Flowing Countless Mountains, where he realized that there were also traces of great beings from the ancient civilization to be found.

Lastly, Luo Feng returned to the primal universe, where he walked along the borders and even visited territories belonging to the other clans and races like the bugs, the demons, and the automatons. He also visited the regions where the weaker races resided. He saw the births of life forms as well as the withering of life forms. He also saw the fighting and annihilation of lives, as well as the destruction of a planet.

Regardless of evil or good—everything that transpired between the billions and trillions of races on the universe—Luo Feng simply watched from the standpoint of an onlooker, observing everything from the side without intervening.

He observed the budding life forms. He observed the birth of a new planet. He observed the destruction of a single traveler star and to the destruction of an entire galaxy by a super black hole.

Luo Feng firmly believed the primal universe bred billions and trillions of life forms with the supreme path of life gestation. From the countless factors he observed, he had to be able to find the key to opening the door to the third stage godly power. Something that seemed as simple as a baby growing up and withering away with age was something Luo Feng meticulously pondered. He investigated every trace left behind under a time acceleration of 10 million times.

Something that seemed as simple as the operation of the celestial realm also fell into Luo Feng's scope of exploration.

Silently, Luo Feng's willpower was gradually changing.

"Earth."

Luo Feng stood in outer space as he looked towards the blue planet far into the distance. Beneath his gaze, time was flowing backward. Earth orbited rapidly around the sun in a counterclockwise direction. Everything on Earth was in continuous change.

"This is the past. What about the future?"

Under his gaze, the entire solar system was undergoing a change again as various scenes were continuously changing.

Scenes from the past were very clear when time was reversed, yet when it came to the future Luo Feng witnessed, every scene was still constantly changing. Past events had already happened, so it was impossible to change or reverse any of them. On the other hand, the future was an unknown filled with countless possibilities.

"Roar!"

The various scenarios all seemed to be heading toward the same outcome. 30,000 years in the future, the solar system would be destroyed, and all life forms would be annihilated. This would mean the Sector Beasts had destroyed everything. 60,000 years later, the solar system would be destroyed, and all life forms would be annihilated. 110,000 years later, the solar system would be destroyed, and all life forms would be annihilated.

Destroy!

Destroy!

Still destroying!

But there was one outcome to the contrary that was extremely dazzling, in which Earth would become even more developed, and where countless starships would head toward Earth. Even after tens of thousands of eras or hundreds of millions of eras, Earth would still exist... This outcome represented the fact that Luo Feng had killed the Sector Beast.

Looking at all the possibilities the future had in store, Luo Feng merely observed peacefully.

“Hmm?”

Suddenly, Luo Feng’s expression changed.

“The sun!”

Luo Feng’s eyes lit up. Under his gaze, from the past of the ancient civilization to the future, the Earth was still orbiting around the sun. Even with the various possibilities the future had in store, Earth was still orbiting around the sun, round after round, eternally and without end. It might have seemed repetitive and cumbersome, but it was following a rule—a rule that no one could violate.

“The Earth!” Luo Feng’s gaze turned to focus on Earth.

From the endless past to the future, Earth, being a life planet, was constantly attracting strange life forces from extremely vast distances to breed life. This life force was intangible, but traversing the primal universe whilst looking toward the future, Luo Feng could vaguely discern clues that prompted him to believe that Earth was, indeed, the core of the surrounding region—the place where all life was bred.

“Earth revolves around the sun. The sun is the core... But for the life gestation system, within the vast region, the Earth is also the core... A celestial system. A life system. All these systems are different, yet they form the perfect combination...”

Luo Feng’s gaze swept through the various scenes, which depicted the path of the countless stars in orbit. Then another scene appeared. It was a scene of his own life structure diagram—which was very complicated—and also, the life structure diagram of the Sector Beast.

“Different... yet connected...”

Beyond space, beyond time, originating from the supreme universe laws, everything would head toward the same ultimate destination. Universe oceans, true gods, true gods of void space... Sector Beasts.

All life forms, even those that were complete opposites but were bred by Universe Ocean, were destined for a common endpoint.

Chapter 1439: Breakthrough, Chain Reaction, Legend

Right before him, he could see countless paths that planets and worlds were once found operational—paths outlined by traces of life forces attracted by life planets. His was already a perfect life structure diagram. When compared to a Sector Beast’s life structure diagram...

“They are poles apart. Yet connected somehow.”

Luo Feng stood in outer space, in the area surrounding Earth, deep in thought.

His other body—sustained by godly power and left in the region of the black-striped stone pillar—was laboriously pondering under an environment where time acceleration was maintained at 10 million times. Miraculous brightness was flashing across Luo Feng’s mind as though he was about to be enlightened. Originally, he had found the study of universe masters and true gods to have nothing in common with the study of Sector Beasts. Yet now, between these two schools of life diagrams, which had previously seemed so incongruous with one another, Luo Feng seemed to have found their common ground.

A single picture could be judged differently by different people. Considering the past, when looking at these life structure diagrams, Luo Feng might have felt that they were simply opposites of one another. There was no other perspective from which he could rethink the situation.

But at the moment, after seeing the diagrams from a different point of view, Luo Feng managed to find a commonality between these two endlessly complicated life structure diagrams.

“Life structure!”

Luo Feng stretched out his right palm. His palm was constituted of countless bouts of godly power, and all of them contained soul imprints. Naturally, he was so well-informed that he had everything under control. He was also able to analyze it all in the most detailed manner.

“Combination!”

With his conscious mind, Luo Feng gave his order, and his life structure started to change.

He had achieved 89,999 times life gene level, which already considered to be the ultimate perfection for a life structure diagram. But at that moment, Luo Feng was like a superb sage; with just a few strokes, he could make a picture come alive! Similarly, his changes to the life structure diagram were very simple. Many detailed structures were still the same as they had been, but the overall framework underwent a peculiar change. Also, following the changes in life structure diagrams, Luo Feng was gaining a clearer grasp of the commonality between the school of universe masters, true gods, and true gods of void space, and the school of Sector Beasts.

The process of alteration in the overall framework of Luo Feng’s life structure diagram seemed simple, yet suddenly—

Pa!

An extremely small portion of the complex life structure diagram suddenly fell apart like a melon dropping from its branch upon ripening. Then it very rapidly started to detach itself from the entire life structure diagram. This was not within Luo Feng’s control, but rather, something like a natural reaction.

When changes were happening to Luo Feng, parts of his life structure diagram automatically started to show signs of detachment.

“What...?” Luo Feng was shocked, but the thought of stopping these things never crossed his mind. Instead, he watched on.

The extremely small parts of his life structure diagram that were rapidly detached were also going through changes internally. The internal structure seemed to be subjected to a domino effect, where the first change sparked the start of a chain reaction. From a structure diagram that Luo Feng could understand to something else, it transformed rapidly into another structure diagram that was so mystical that even Luo Feng could no longer comprehend.

Buzz!

The extremely small portion of life amazingly took on the form of a naked Luo Feng, seated cross-legged with a smile on his face.

Pa! Pa! Pa! Pa! Pa! Pa!

The moment this extremely small portion of the life structure diagram transformed into a naked Luo Feng, the change extended to the other parts of this life structure diagram. Suddenly, many Luo Fengs started to appear; there might be a Luo Feng roaring in anger, or a Luo Feng with a warrior’s pose, or a standing Luo Feng who was deep in thought, or a Luo Feng curled up in bed, or a Luo Feng deep in slumber, or a Luo Feng laughing out loud... All manners of appearances, one by one, were being born.

To describe it all would have taken an eternity, but all these chain reactions happened in the blink of an eye. Luo Feng’s entire life structure diagram had suddenly transformed into 100,000 spots of light, and every spot was a miniature, naked Luo Feng. These 100,000 miniature Luo Fengs, though not physically connected to one another, were still indistinctly associated. Putting all of them together would form Luo Feng’s life structure diagram.

“100,000 light spots...” Even though Luo Feng was the creator, he had never expected to see such a chain reaction happening when he reorganized his life structure diagram.

Earlier, when he had been analyzing the Sector Beast, the life structure diagram of a Sector Beast had also been comprised of 100,000 spots of light, and every one was a miniature Sector Beast. Each miniature Sector Beast itself was the most complex life structure diagram possible.

At this moment, it was likewise for Luo Feng. His life structure diagram was also made up of 100,000 spots of light, with each one being a naked Luo Feng. Each miniature Luo Feng also contained an extremely complex life structure diagram. But, of course, there was a difference between the miniature Luo Feng and the miniature Sector Beast; even Luo Feng himself felt that he was more profound than the Sector Beast!

100,000 spots of light were coming into existence successively. Such a chain reaction seemed to indicate that everything would fall into place. It appeared that success was near at hand.

Weng! Weng! Weng!

After the first trace of godly power on Luo Feng's right palm changed, it was as though the process was contagious. There was no need for Luo Feng to give another command. Right away, the change in godly power started to spread rapidly. It was like a drop of black ink spreading out rapidly in water. From Luo Feng's arm, a trace of golden light rapidly started to emerge. Shortly after, this golden light spread out and began filling his surroundings like crazy!

Luo Feng's palm very quickly became a hand that radiated an endless, dazzling, golden light which, at the same time, moved on to spread through his entire body. Because the godly powers he had before and after the changes all contained Luo Feng's life imprints, under some guidance, this much more superior life structure diagram—which had attained ultimate perfection—had a deadly attraction for other godly powers. It was just like how a magnet would attract other metallic elements. It naturally attracted the other godly powers around it and caused them to change in a most unrestrained manner.

Hua!

In less than five seconds, Luo Feng's entire body, including his hair, was radiating golden light.

At the very moment the transformation of his godly body reached the point of completion, it was as though there was a nuclear fusion—as though a massive explosion had gone off within the solar system. The power released was ten million times greater than the power produced when a universe master self-destructed.

The moment Luo Feng's godly body was approaching the final stage of transformation, his entire body naturally released an outburst of a trillion light rays! A trillion light rays, shining upon a trillion light years...

Hua! Hua! Hua!

The golden light that surged out of Luo Feng's godly body was not subjected to any restrictions,. Therefore the speed at which it traveled at was comparable to teleportation. In an instant, it was shining upon the entire solar system. Then it moved on to shine upon Milky Way Holy Land, which was not far away, then over to the entire Milky Way Galaxy, and then to the entire Ganwu Universe. This golden light was advancing at top speed, soundlessly transcending time and space. It was unstoppable.

Hua!

A trillion lights penetrated through the human territory to shine upon territories of other races like the bugs, the automatons, and the demons. It then reached out further to shine upon even the most deserted and darkest regions of the primal universe, where no life was able to survive. At that very moment, even the willpower of the universe origin would not have been able to exert any influence over the might of this golden light.

Hua!

A trillion lights finally penetrated through the membrane walls of the entire primal universe, charging toward the endless, chaotic Universe Ocean...

At that moment, Luo Feng was the very core of the primal universe. A trillion lights surrounding him, shining upon the entire primal universe and even spreading out beyond to the surroundings of the primal universe.

The numerous life forms of the “pulse of Earth” who lived on the planet nearest to Luo Feng experienced the influence. Every single Earthling—whether in the sunlight or the dark, in the vast land outdoors or the halls indoors, a powerful earthling who had become an undying or a babbling, newborn infant—at that very moment, every single one’s head was raised in the direction of the golden light.

Nothing material could block the golden light. It transcended time and space, shone into the eye of every living soul, and eventually penetrated into the very soul of every living life form. Within their souls, a lofty golden figure appeared, and they all had a clear view of the face of this figure.

This was Luo Feng, whom they most admired. To the earthlings, who regarded and worshipped Luo Feng as their highest spiritual leader, they were naturally able to recognize him. Even toddlers who might not have known the name of this lofty golden figure would always remember what he looked like in that moment. Upon growing up, after all the memories of childhood had faded, these children would never forget that lofty, golden figure.

“It’s... the great, noble Luo Feng!”

“Luo Feng, the hero!”

The numerous earthlings were greatly taken aback. When the golden light shone upon them and reached deep within their souls, they felt the desire to grovel and kneel before it. It was as though they were seized by a sudden impulse. Whether they were the high-and-mighty undying fighters or the weak and tender youths, all of them went down on their knees.

Within Milky Way Holy Land, a trillion golden lights enshrouded the region where over 100 universe masters lived. There were even some who were true gods, but regardless of whether they were warriors, servants, or true gods, the golden light enveloped them all and directly penetrated their life imprints. Within their souls, a lofty, golden figure appeared.

Respect arose from the depth of their souls. The fundamental distance between different levels of life was the reason why these life forms at lower life levels, in spite of themselves, were compelled to bow and kneel.

Yet regardless of whether they were the weakest life forms—meaning those at universe level of Milky Way Holy Land—or the superior true gods, none was able to go beyond him. Even the true gods knelt as though seized by an irresistible impulse. They were not kneeling to Luo Feng, per se, but rather, their life origins were kneeling to the birth of the noblest life form. This collective show of respect was an act that was purely instinctual.

“It’s Luo Feng,” said True Yan, also spotting the lofty, golden figure.

At this moment, Luo Feng was no longer Luo Feng. He had come to represent the most supreme life form—the greatest and most perfect life form. True Yan was so overwhelmed by his emotions that he could not help but weep. He knew that there was hope for the various races of Universe Ocean because his disciple had survived. There was hope for them all to stem the tide of this calamity.

“It’s Milky Way Horde Leader!” The numerous universe masters and even the true gods were all greatly shaken.

“It’s Teacher.” Fire Dome and Luo Feng’s other disciples were stunned yet excited.

The golden light shone. It shone over a trillion light years; it shone over the entire primal universe.

No one was able to stop it. Even the willpower of the primal universe origin had to temporarily retreat because of the supreme universe law of Universe Ocean. This supreme law enveloped the golden light. Because the golden light contained the supreme laws, it could surpass time and space, as well as all material obstacles. This was how it could make all other life forms kneel before it.

Regardless of good or evil, weak or strong, be it Luo Feng’s enemy or even his family, Primal Chaos City Leader, Peng Gong, Dream Demon Ancestor, the many Father Gods of the automaton race, the few dozen true gods from the entire primal universe—all were down on their knees. They were deeply touched from deep within their souls as they knelt. It was not a situation in which they, beings with lower social statuses, were compelled to kneel by one who was above them in social standing; it was more of a way of showing their respect for the greatest life form born under the supreme law.

In hundreds of millions of races as well as countless planets, god countries, and universe secret regions, blood and flesh life forms, automaton life forms, plant life forms, energy life forms—all kinds of life-forms—the low and the weakest link to the highest and strongest masters, all were showing their respect in their own ways. They were kneeling and groveling, and all these were representative of their life origins showing respect.

Gradually, the golden light that had spread over an area of a trillion light years dispersed. The supreme law no longer worked any influence over the trillions of life forms. Once again, the willpower of the primal universe origin moved to enshroud the entire universe.

The millions and billions of races within the entire primal universe, regardless of whether they were weak or strong, could no longer see the golden light. Everyone was now awakened, but in their souls, their life cores would be eternally imprinted with that lofty golden figure.

Chapter 1440: True God

The true gods of the Ancestral God School were gathered at the Ancestral God Palace.

“So unbelievable. Even we true gods cannot help but kneel?” Cold Whale True God roared in his deep voice. “Milky Way Horde Leader was merely a universe master previously. Even if he has now begun on his breakthrough to become a true god... we are true gods too. So why is it that even when he is umpteen light years away, we are still kneeling to him as if we have no control over our own bodies?”

“Not to mention you true gods,” said the aged ancestral god. “Even we three ancestral gods, who have always been favored by the willpower of the origin, had gone down on our knees when the golden light penetrated through time and space to shine upon us...” The aged ancestral god shook his head.

“So ridiculous.”

“So unbelievable.”

The many true gods, including Nine Remoteness True Master, found this very difficult to understand. After all, they were true gods! And they all had their own miniature universes. In terms of social status, even the willpower of the origin had to show them due respect. Their orders, once given, were strictly enforced because this was what they were entitled to. Even the willpower of origin was unable to make them fall to their knees and bow down to it! However, just moments ago, regardless of how far apart Luo Feng was from them, every single one of these true gods of the primal universe had gone down on their knees.

“What an exaggerated yet unbelievable sight,” Double-Face Ancestral God said. “It’s unquestionable. Milky Way Horde Leader must have started his breakthrough to becoming a true god!”

“Yes, he must be starting to transform into a true god!”

“What a commotion, with the entire primal universe bowing down to him...! How impressive is his might! It must be an exceptionally unique breakthrough.”

There was no dissenting opinion among these various true gods of the Ancestral God School. Everyone had taken the reason for these exceptional happenings to be Luo Feng starting to become a true god.

Luo Feng was described as “starting” to become a true god because there was a process to becoming a true god. First, he had to expand his god country into a miniature universe. Then his godly body had to undergo a breakthrough at the most fundamental level. And these steps, naturally, required some time.

The group of true gods from the Space Beast Alliance were all speculating.

“How did Milky Way Horde Leader become a true god? What a commotion he created, bringing the billions of races of the entire primal universe down to their knees so involuntarily...”

“Even if it was the legendary godly power path he had taken, I have seen for myself, when I was in the World of Jin, the inheritance of the ancient civilization. I do not recall seeing any documented records describing such a scene when one becomes a true god via the godly power route.”

“True. Regardless of law route or godly power route, this situation is unprecedented.”

They were filled with doubts. What could have happened to Milky Way Horde Leader for him to create such a great commotion? Such an occurrence was unheard of.

Within the human territory, Void Gold True God said amidst sighs, “No wonder Milky Way Horde Leader had yet to become a true god all this while. Given his exceptional talent, he would have become a true god in the billionth era. Yet, all this while, he had not. He had merely maintained his status as a universe master and become the Number One Master of Universe Ocean. Milky Way Horde Leader chose an extremely difficult route—a route that even someone like Milky Way Horde Leader, with his exceptional talent, would need to painstakingly cultivate for billions of eras. Today, he finally arrived at the path to

breakthrough, and the moment he succeeded, his success reverberated throughout the entire primal universe, where the billions of races fell to their knees before him. Even true gods had to kneel before him.”

Void Gold True God lauded Luo Feng’s achievement. “If Milky Way Horde Leader succeeds, all the various races can be hopeful of stemming the Sector Beast crisis!”

“Haha...”

“Milky Way Horde Leader. His power must be so incredibly profound now.”

“Impressive.”

Amongst themselves, the humans had long ago placed Luo Feng on a pedestal, where they looked up to him with high regards. Luo Feng’s breakthrough this time around had such a massive impact that it was soul-awakening. Even the numerous true gods were brought to their knees. Other races may have been a little jealous, but the humans were incomparably excited and thrilled because they belonged to the same race. When Luo Feng made such a great achievement, they, too, would naturally stand to gain endless benefits.

In the future, if Luo Feng did transcend reincarnation, then the entire human race could exist for eternity.

The billions of races within the primal universe were in frantic discussions. The same went for the ordinary life forms on countless planets. They did not know who Luo Feng was, but that lofty golden figure was imprinted within the core of every living soul. Thus, it was unforgettable. On the other hand, the higher-ups of those races would most certainly be able to recognize that this was the Number One Master of Universe Ocean: Milky Way Horde Leader Luo Feng!

“Milky Way Horde Leader has finally achieved a breakthrough.”

“The billions of races from Universe Ocean have hope now.

“Now, we can be hopeful of pulling through the Sector Beast crisis.”

All the weaker races were filled with excitement and anticipation.

There was a miniature universe not too far away from the primal universe. It was Sitting Mountain Guest’s miniature universe.

Sitting Mountain Guest flopped down on the peak of one of the mountains amidst the rolling mountain range. He was a sorry sight, but there was a trace of relief on his face.

“Almost. Almost...” Sitting Mountain Guest shook his head while feeling thankful. “I almost knelt too!”

Earlier on, Sitting Mountain Guest had been in his own palace, carving on a piece of rock when the golden light suddenly shrouded his surroundings. At that point, Sitting Mountain Guest’s expression had changed drastically, and with great perseverance, he had immediately fled to where a universe channel

was. Within his palace, there was a universe channel that connected his palace to his miniature universe. With great difficulty, he had resisted that golden light and made his escape through the universe channel to return to his miniature universe.

“What is going on?”

Sitting Mountain Guest frowned as doubts filled his mind. He was shrouded by the golden light, and it had imprinted a lofty, golden figure on his soul. Without question, he was able to recognize his disciple, Luo Feng.

“What is wrong with Luo Feng? Why is he kicking up such a storm? The ordinary true gods were all unable to put up any resistance and knelt right away. Even for me, if I had stayed a moment longer, I think my will would have submitted to that golden light, too.” Sitting Mountain Guest frowned. “That golden light does not contain the willpower of the origin; rather, it contains the supreme law!”

The willpower of the origin did not scare Sitting Mountain Guest at all. The willpower of the origin only had the ability of thoughts. By itself, it did not pose much of a threat. But the supreme law was a totally different story.

The supreme law dictated how everything operated within the entire Universe Ocean, such as why the primal universe forever went through the cycle of destruction and birth, and why there was the birth of Sector Beasts. Why must the true gods transcend reincarnation after they had finished undergoing three reincarnation eras? Everything and anything had to follow the laws! The supreme law did not have any ability of thought, no trace at all. It was merely a set of rules to be adhered to. Yet it was above all else.

“Luckily, the supreme law was only there to guide the life origin of living souls,” Sitting Mountain Guest said to himself. “Life forms of the lower class naturally hold great respect for the life forms of the higher class, and they will definitely admire those higher-class life forms... The supreme laws merely served to guide and reinforce so that every single life form, including true gods, would obey their instincts and bow before the golden light. Luckily, it’s only for guidance. If it were to force us to go down on our knees, even I myself would have to kneel.”

Sitting Mountain Guest sighed. He was not afraid of the willpower of origin. Because the willpower of the origin was restricted by laws, it had to fulfill the requirements of various regulations and restrictions. But the Universe Law of Universe Ocean was different. Even though he had much understanding about a great many secrets, when it came to the supreme law, his understanding was patchy.

“My disciple... Could it be that he finally achieved his breakthrough?” Sitting Mountain Guest was filled with doubts. “No doubt, he has taken the godly power route. For such a long time, he did not break through. I suppose he set high targets for himself since he has great ambitions to attain the third level of the godly power route. However, no matter what, the third level of the godly power route should not lead to a commotion of such extent. Even the supreme law has descended to offer its congratulations!”

Sitting Mountain Guest could tell that this had been a means of congratulating Luo Feng. This achievement was simply incredible, so even the supreme law was here to send its congratulations. Also, it was the cause of the billions of races bowing before him to express their best wishes.

Within the solar system in the human territory, all the golden light had dispersed.

Luo Feng regained normality.

“Huh?” Luo Feng was in a daze. “Just now...”

A moment ago, he had felt as though he had seen every single being in the primal universe, had traversed countless secret grounds, and had every single living soul dropping and kneeling to bow before him. Very quickly, Luo Feng thought no longer.

“My life gene level.” Luo Feng could distinctly feel the fruitful outcome of this breakthrough. Clenching his fist, he could feel the tremors of his godly power. This delighted Luo Feng. At his level, his grasp of control over his strength was extremely precise. Previously, he could even verify that his godly power level had reached up to 89,999 times. That was how high his degree of precision was.

“100,000 times! A full whole 100,000 times. No more, no less. My life gene level has actually gone up to 100,00 times.”

Luo Feng was seriously shocked. God! This was simply unbelievable.

The godly body was divided into three levels. 30,000 times to 60,000 times constituted the first level. 60,000 times to 90,000 times would be the second level. 90,000 and any limit that was almost 100,000 times constituted the third level.

The inheritance of the pulse of Duan Dong River documented that no one had ever attained a level of 100,000 times. There was also no precedent for anyone achieving 100,000 times within the records of the World of Jin. It was noteworthy that these were records, meaning to say that in the ancient civilization, the pulse of Duan Dong River, and the World of Jin, no one had ever heard of a being with 100,000 times life gene level. This was only a legend!

Even to the ancient civilization, it was only a legend. There had never been anyone who had managed to achieve it! There were no records of it at all!

“I—I did it...” Luo Feng stammered, in a daze. He mumbled to himself, “First, I reached 89,999 times. Then I did a thorough study on the school of universe masters, true gods, and true gods of void space, then on the school of the Sector Beasts in order to find the commonality between these two schools... Could it be that, throughout the ancient civilization, no universe master was able to achieve this? Right. It seems like in the records of the World of Jin, the records on Sector Beasts were also legends, and the Sector Beasts present in the records all seem to have been very powerful. Those were Sector Beasts in their growth stages.”

At the moment, Luo Feng did not understand why he could have attained 100,000 times. This was because he lacked exposure to relevant knowledge!

After all, even the pulse of Duan Dong River and the pulse of the World of Jin had never seen any great being who managed to achieve 100,000 times in life gene level via the godly power route. Since no such occurrence had ever been discovered, naturally, the exact cause was unclear. Luo Feng had succeeded, but he could only arrive at some vague speculations to explain his success.

“Time for my breakthrough.”

Luo Feng took a stride forward.

Sou!

Immediately, he teleported back to Milky Way Holy Land. Amidst the vast Milky Way Holy Land, high up in the sky above the boundless Remote Ocean, Luo Feng, who was fully clothed in a white robe, appeared out of nowhere.

“Boundless Remote Ocean, recombine!” Luo Feng looked down at the Remote Ocean beneath him.

Hong! Long!

Endless fog instantly rose to surround Remote Ocean. Thereafter, his life gene level rapidly skyrocketed from 89,999 times to 100,000 times. However, this time, the breakthrough he achieved no longer featured the supreme law appearing to congratulate him. Following this breakthrough, his godly power increased in quality while his body naturally shrank a little from the previous diameter of 12 light years to a diameter short of 11 light years.

Hua! Hua! Hua!

Boundless Remote Ocean was swallowing like mad. In the vast void space above, the shadow of the ocean of laws of the primal universe started to emerge according to the primal universe law. A tremendous amount of ocean water appeared out of thin air and fell continuously upon the boundless Remote Ocean.

In the past, Remote Ocean needed to rely on the talent technique Creation to automatically recover in order to gradually increase in size. Yet at that moment, it had reached 100,000 times.

A limitless godly body! Which could absorb to its heart's content!

The boundless godly power water descended from high above and meshed with the boundless Remote Ocean. This caused the Remote Ocean godly body to continuously increase. At the same time, Luo Feng's Remote Ocean body, Mosha body, and Golden Horned Beast body—which had been stationed about Universe Ocean, patrolling the grounds—were rushing back.

The moment of the final breakthrough, the various bodies would combine. These other bodies would then dissipate to nothing. If they did not make it back in time, wouldn't the treasures they carried with them be at risk of being lost?
