

Chapter 1461: Great Extinction

All the Sector Beasts in the Land of Darkness were shocked and furious. First, that Milky Way Horde Leader had enslaved Morosa. And now, he'd killed Beddy, who had reached level five! Beddy had been a Sector Beast with the most powerful attack technique, "Destruction"! Yet he had been killed. Milky Way Horde Leader was definitely a threat to the entire Sector Beast race!

"We have to kill him."

"We can't let him get away."

"We're everywhere in the Land of Darkness. How did he get into the hinterland and kill Beddy? Even if he has the guidance of Morosa, he should have gotten lost and been unable to tell where he was upon entering the Land of Darkness."

"With help from Morosa, it's possible that he was able to reach the hinterland. All we need to do is kill him. We must surround him in a large group. We need enough Sector Beasts. Otherwise, with the help of Morosa, he can easily get away again. He killed Beddy this time. Next time, it might be Qi Ya and Long Zhuo. He'll kill us all—from the strongest to the weakest."

"He has to die!"

"We can't let him get away!"

"He killed Beddy right at where Beddy stood."

Countless Sector Beasts were transmitting their voices. The minds of Sector Beasts worked just as quickly as those of true gods, so it was easy for them to keep contact with several million voices at the same time.

Sou! Sou! Sou! Sou! Sou! Sou!

Ferocious Sector Beasts were yelling and raging, and they all rushed toward the place where Beddy had died, especially the Sector Beasts who were nearby. They rushed there even faster.

"We have to find him so he won't get away!"

Every Sector Beast understood. Milky Way Horde Leader was already more powerful than all the other Sector Beasts, and without him alive, the ultimate king of the Sector Beasts might not even be born. Besides, Milky Way Horde Leader had the guidance of Morosa, so it would be easy for him to get away... which meant they had to find him as quickly as possible. If they couldn't find him in time, Milky Way Horde Leader might get away.

That meant they would all converge on Luo Feng, even if they might be killed. When faced with a common threat, the Sector Beasts who had been born for destruction would team up and stand against the enemy.

After the silver-armored Luo Feng killed Beddy, he immediately teleported and changed direction.

“Morosa,” he said, “mark all the Sector Beasts and tell me where they’re going.”

In Luo Feng’s miniature universe, the godly powered avatar was talking to Morosa. Morosa said with excitement, “Yes, Master! Master, you’re so impressive! Beddy was already at level five, yet he was still killed by you. He couldn’t even run away.”

“Mark them now.” The avatar didn’t sound content at all.

This fight was not just about Luo Feng’s destiny; it was related to everything he guarded. For the earthlings and for his family members, Luo Feng would kill all the Sector Beasts, or he would die trying.

“I am trying to sense it.” Morosa sensed it as it was controlling the giant model of the enormous Land of Darkness.

On the model of the floating, giant oval, almost ten million spots of light were scattered throughout the Land of Darkness suddenly started to move all at once. Over one million started to converge on the area where Beddy had died. All one million-plus spots rushed in that direction. He could see that the spots of light were gathering; the density was increasing in that particular area.

The godly powered avatar looked solemn. He understood that each light spot represented a Sector Beast, and those one million-plus spots of light were converging toward the center. A million Sector Beasts were gathering in one place.

“Master, there are around 1.63 million Sector Beasts converging on you, master,” said Morosa. “All these Sector Beasts are at least at pinnacle level two, and after they burn their blood, they’re only slightly weaker than your teacher Primal Chaos City Leader. So many Sector Beasts... Master, you...”

Morosa was indeed concerned. Over one million Sector Beasts was equivalent to over one million true gods! And they weren’t ordinary true gods but true gods who used machine-type valuables at the same level as Blood Orchid Ancestor. If all those Sector Beasts attacked at the same time, even 100 true gods of void space would be annihilated.

“Only this many?” The godly powered avatar frowned.

“Master...?” Morosa was dazed.

Only this many? For over one million Sector Beasts?

“How do we get the other Sector Beasts to also converge?” asked the avatar.

“Master, you killed Beddy without even giving it a chance to run away, which terrifies many of the Sector Beasts,” said Morosa. “That’s why over one million Sector Beasts are gathering there! I’ve never seen them so serious. It would be very difficult to get more Sector Beasts to go there.”

The godly powered avatar nodded.

In the endless Land of Darkness, giant rocks were floating.

“It seems we need to get more Sector Beasts to come here. We need to make them realize that one million Sector Beasts are not enough to fight me! More will gather when they realize that.”

The more Sector Beasts, the better, thought Luo Feng. The more Sector Beasts there are, the more useful the origin will be.

Luo Feng was looking forward to it. The origin was unique.

The godly power contained in machine-type valuables by eternal true gods from the World of Jin dissipated the second it left the world. Apparently, the supreme laws had an influence on everything. However, the origin in Shi Wu Wing was in accord with the standards of the supreme laws, which was why Luo Feng was able to use it.

“Perhaps this origin is the one chance we have against the Sector Beast crisis!” Luo Feng exclaimed.

Without the origin, even he would feel hopeless facing all those ten million Sector Beasts. As for the origin, it was the maximum energies contained in the complete version of “Chaotic Golden Wings” (Shi Wu Wing) that could only be driven by eternal true gods. It was so powerful that even supreme true treasures (true god weapons) would break. Even Luo Feng would be killed by such power if he didn’t hide in Star Tower, not to mention Sector Beasts without any valuables.

“I can only perform the origin once, so I need to gather as many Sector Beasts as possible! It’s better that the Sector Beasts gather here all at once.”

The attacks from supreme beings could extend to 100 million light years. Luo Feng was able to do it. Otherwise, he wouldn’t have been able to destroy an entire miniature universe. As for destroying a miniature universe, it was like hitting its origin. The origin of a miniature universe was at the exact center of that universe, and it wasn’t able to move, so the universe would be destroyed if the origin was annihilated.

“Let’s gather the Sector Beasts and make them converge as closely as possible... I’ll then release all the energies in the origin, sweeping across everything and destroying all the Sector Beasts.” Luo Feng considered, then added, “What I need to do now is to get the other eight million Sector Beasts to come here.”

Sou! Sou! Sou! Sou! Sou! Sou!

1.6 million Sector Beasts were rushing in the same direction, all teleporting as far as possible. They were getting closer and sensing the ripples nearby. If they could sense ripples in an area, but there wasn’t a Sector Beast there, then it had to be where Milky Way Horde Leader was.

Hu!

A ferocious Sector Beast stood in space, looking around.

“I’ve already made it to the place where Beddy died, yet Milky Way Horde Leader isn’t here.”

“It’s only been a while,” said another. “Milky Way Horde Leader couldn’t have gone far. He must be around this area. It’s better for us to converge here, but we also need to keep our distance. Each of us can sense and control a particular area so that he won’t be able to escape anywhere.”

Those Sector Beasts were transmitting their voices. They had teamed up to form a fragile alliance. They kept their distance, and each was responsible for one area.

They moved inward, continuously narrowing the circle. The smaller the circle was, the less space there was for Milky Way Horde Leader to run away.

Time flew.

“Where is he?”

“Our circle is already small enough that there isn’t any space to get out. We’ll definitely find that Milky Way Horde Leader in this space.”

All the Sector Beasts were looking for him, yet no matter how they tried, they couldn’t find him anywhere. There was only one possibility!

“We spent too long getting into position. He must’ve gotten away before we could form our circle.”

“This must be the work of Morosa.”

“We can’t let him get away.”

“Even if he escapes the encirclement, he won’t be able to go far. He must still be in the hinterlands of the Land of Darkness.

“We need more of our brethren.”

“Seize him!”

The Sector Beasts kept transmitting their voices to each other, shocking the other Sector Beasts throughout the entire Land of Darkness. Those million-plus Sector Beasts were close to the area where Beddy had died, yet they still weren’t able to trap Milky Way Horde Leader?

Hua Hua Hua!

More and more Sector Beasts began to act, forming a circle that encompassed other areas. Those million-plus Sector Beasts that had already formed a circle started to teleport outward and moved forward, trying to hunt Luo Feng down. There were so many Sector Beasts, and if one of them found Luo Feng, all the others would rush toward him as well.

“Master,” said Morosa, controlling the giant model of the Land of Darkness. “There are around six million Sector Beasts coming at you, including the more than one million Sector Beasts from before. They are coming at you from all different areas, narrowing their encirclement. It’ll be very difficult for you to get out, Master.”

Sector Beasts were able to sense one another, but Morosa was far away, in the miniature universe of Luo Feng, so it couldn't locate those Sector Beasts accurately enough. It was no longer able to provide Luo Feng with a reliable route to run away.

"I know." The godly power avatar smiled. "Six million?"

Morosa looked at Luo Feng, confused. The more Sector Beasts there were, the happier its master was?

They couldn't find me before, so they're trying to look harder, thought Luo Feng. There are already six million of them, and there are only nine million Sector Beasts in total... Even if those on the periphery are coming, they can't encircle me very well.

I can't attract more by hiding. I need to kill them. I need to kill as many of them as possible so they know what a threat I am! I'll force them all to come here... Those six million Sector Beasts acting now can't trap me, and those on the periphery will become more anxious.

Hua!

The rock changed into a silver-armored man with five pairs of gleaming wings wide open.

Chapter 1462: The Invincible Luo Feng

Luo Feng teleported about the vast void space in the Land of Darkness right away.

"Morosa, mark all those who are likely to be third and fourth-stage Sector Beasts, especially those who are here to lay siege on me," ordered the godly powered avatar.

Since he was going to carry out a massacre, then undoubtedly, he had to try his best to get rid of some of the more powerful Sector Beasts. The greater the number of powerful Sector Beasts being annihilated, the stronger the trigger would be for the other Sector Beasts, thus throwing them into greater fear and rage.

"Understood." Morosa was extremely cooperative because he also desired for his master to kill all the other Sector Beasts. Then Morosa would become the final king of them all.

As for the question of whether it would feel any pity, how was that even possible?

Its foundation was entirely different. It was now completely on Luo Feng's side. After being enslaved, it yearned for all the other beasts to die, and this feeling was mutual for the other Sector Beasts, who were also after its life most eagerly.

"Master, the one nearest to you is Meng Ta! It should be at the third-stage pinnacle, but of course, there is the possibility of a fourth stage. Back then, I exchanged blows during several fights with it."

More and more Sector Beasts were rushing over to this vast region, and within a certain area surrounding this vast region, they were searching vigorously. But they did not know that among them, in

one of the regions they were in, was a particular mountain where Luo Feng had previously hidden. Back then, all the Sector Beasts had been oblivious to his presence because he was using the method of being “Invisible and Formless” to stay out of sight.

Sector Beast Meng Ta was suspended in the void space as he surveyed the surroundings while sensing for ripples. Its hideous face was filled with rage. “Where exactly is he? Where exactly is that loathsome Milky Way Horde Leader? Six million Sector Beasts are here for the purpose of looking for him to besiege him. He has no way of escape, that’s for sure.”

Sector Beast Meng Ta was just about to teleport away to continue its search when, suddenly, a wave appeared.

Shortly after, within the surroundings of a particular region, everything in space was immediately frozen. Sector Beast Meng Ta was unable to teleport even if it wanted to.

“Huh?”

At first glance, Sector Beast Meng Ta spotted an emerging figure from afar. Amid the endless dark void space, a dazzling, silver figure was walking over. On his back were five pairs of resplendent wings. He looked at Sector Beast Meng Ta and stretched out his right hand, where a miniature nine-story tower appeared out of nowhere. This miniature tower flew out of his palm right away. Above him, the Pearl of Golden Ocean also appeared.

Hong! Long!

Golden waves appeared in his surroundings within a range of one light year; Star Tower also remained suspended high in the sky, radiating bright rays. The base of Star Tower formed an endless black whirlpool that enshrouded Sector Beast Meng Ta.

“Milky Way Horde Leader!” roared Sector Beast Meng Ta, feeling a mixture of delight, shock, and anger.

It was delighted because it had finally found Milky Way Horde Leader. It was shocked and angry because it was being attacked by Milky Way Horde Leader. It was currently only a third-stage pinnacle Sector Beast, but it only needed to devour a few more Sector Beasts to cross over to the next level: the fourth stage. However, it was, nonetheless, still only at the third stage pinnacle level. It was a far cry from Beddy, who had been a fifth-stage Sector Beast. When confronting Milky Way Horde Leader, Meng Ta was like a little lamb encountering a prehistoric dinosaur. The two were on completely different levels.

Hong! Long!

The base of Star Tower formed a dark whirlpool that completely contained Sector Beast Horde Leader under bondage. Furthermore, with Golden Ocean domain in the surroundings exerted extra pressure on it. There was simply no way it could put up a struggle to break free and make its escape.

“Milky Way Horde Leader, you are dead! So dead!” Sector Beast Meng Ta was going crazy as he roared, “Don’t even think of enslaving me!”

Hong!

With a loud roar, Sector Beast Meng Ta exploded right away.

Luo Feng observed the situation and shook his head. Every Sector Beast's pride was beyond measure; they would rather die than be enslaved. Previously, Morosa had also chosen death over slavery, but it had been suppressed by Luo Feng at the time, so it hadn't been unable to self-destruct. Hence, it had been enslaved. Of course, upon becoming a slave, its loyalty to Luo Feng came from deep within its soul. Such loyalty was heartfelt and absolute, so naturally, Morosa would always take Luo Feng's side.

"Now that every Sector Beast knows where I am..." said Luo Feng. His eyes flashed with a trace of anticipation, but just as quickly as the look had appeared, it disappeared in a flash.

"Meng Ta has discovered Milky Way Horde Leader."

"Milky Way Horde Leader has appeared in Meng Ta's area!"

"Discovered Milky Way Horde Leader?"

"Meng Ta is dead."

The other Sector Beasts, who were madly searching for Milky Way Horde Leader, were all extremely agitated. Although they had received news that Meng Ta had been annihilated, they were not the least bit shocked to learn of it. Rather, what they felt was closer to anger and hatred. After all, even fifth-stage Beddy had met its doom at the hands of Luo Feng. For another Sector Beast to be annihilated by Luo Feng was unsurprising.

Now, in the heart of every Sector Beast, Milky Way Horde Leader was a lofty wall that posed a hindrance to their path. Any lone Sector Beast that collided with this wall would have its body smashed into pieces and its bones shattered. The ultimate outcome would always be death. Their only hope was to rely on a large number of Sector Beasts to besiege Luo Feng all at once.

"Milky Way Horde Leader's whereabouts have been confirmed."

"All Sector Beasts must act in concert—at least a few thousand acting together. Any Sector Beast acting alone, or even small groups of Sector Beasts acting together, will not stand a chance against Milky Way Horde Leader when their paths cross. It must be an extremely large number of us acting as one."

"Unite."

"Unite."

When these Sector Beasts truly wanted to deal with this massive threat, which took the form of a human Milky Way Horde Leader, their level of discipline far surpassed any other soldiers.

Previously, in their search for Luo Feng, they had all scattered. Now, they realized that Luo Feng was in their vicinity (Meng Ta was one of their members, so for Luo Feng to kill Meng Ta, he had to be within their vicinity). And if they were all going to stick to their own area, then naturally, everyone could draw back and concentrate their forces so that Milky Way Horde Leader did not have even the smallest chance of escape.

Rapidly, they drew back their forces from all over! These Sector Beasts no longer searched at random. In a frenzy, they were heading toward the place where Meng Ta had been annihilated. This time, it was not

like how Beddy had been annihilated. When Beddy had met his doom, all these Sector Beasts had been scattered all over, but now, they were relatively more concentrated.

“Gather.”

“Gather.”

As they teleported, the Sector Beasts were also very mindful as they sensed their brothers’ positions and movement ripples. Naturally, they got nearer and nearer to one another. Two Sector Beasts were rapidly acting in concert, and soon, two became three, and three became six... These Sector Beasts were teleporting as the crowd grew more densely packed. They were gathering like crazy. With the first teleportation, there were 50 in the pack acting together; after the next two teleportations, 50 increased to more than 100. The next few teleportations easily brought the number of Sector Beasts over 500. Very soon, the number reached 1,000.

After killing Sector Beast Meng Ta, Luo Feng immediately teleported to the nearest void space, where there was a gushing river. Without further ado, he transformed into river water and drifted along in the direction of the flow.

“Master, the Sector Beasts were starting to form groups that are constantly emerging. Now, the largest troop already has more than 100 Sector Beasts. Oh, now there are more than 300 of them...” Morosa was sensing the ripples as he rapidly transmitted the news to Luo Feng. “The largest troop now has almost 5,000 Sector Beasts acting in unison.”

“In the area surrounding this river I’m coursing along with,” said the godly powered avatar, “which is the biggest troop?”

“Right here.” Morosa guided Luo Feng to a small region that instantly lit up and expanded on the map. “This troop has now reached a total of close to 2,000 Sector Beasts. It is the largest troop within the region near this river. There are three other troops with numbers around 800, 1,200, and 1,000, respectively.”

Within the gushing river, a ball of river water suddenly flew out and condensed into a human form. Silver-armored Luo Feng, with his five pairs of wings spread out behind him, whispered, “I shall teach you all the meaning of fear. True fear. Then, the more fearful you all get, the more you all will cast aside all inhibitions to come after me.”

Whizz!

Without delay, Luo Feng teleported toward the troop with close to 2,000 Sector Beasts.

It was said that 10,000 people constituted a sea of people. Close to 2,000 massive Sector Beasts gathered together, when seen from afar, would have appeared so densely crowded that the evil aura they exuded would have been enough to instill fear in the true gods of Universe Ocean.

“Ripples.”

Close to 2,000 Sector Beasts could all feel the ripples.

Hua!

The surrounding space instantly froze.

“Dear all,” said a silver-armored man who appeared amidst the void space. Behind him, resplendent wings were outspread.

“Milky Way Horde Leader!” Close to 2,000 Sector Beasts were greatly shocked.

“Kill him!”

“Kill Milky Way Horde Leader!”

Of the nearly 2,000 Sector Beasts, none hesitated. Every Sector Beast was executing its own attacks in the craziest manner. At that moment, every single one was blazing its body with blood light. Apparently, they were all executing their “blood burning techniques” as they threw punches in Luo Feng’s direction, bombarding him with their attacks. Countless dazzling black lights shrouded the surroundings, and, of course, Luo Feng was also enveloped within their influence.

Shua!

With a single step, Luo Feng entered Star Tower, which appeared out of nowhere.

Peng!

The attacks from nearly 2,000 Sector Beasts were so forceful that Star Tower was thrown backward upon impact. Inside it, Luo Feng nodded slightly.

“2,000 Sector Beasts joining forces,” said Luo Feng. “The might of their power is comparable to the power of a fifth-stage Sector Beast executing ‘Destruction.’ The only difference is that a fifth-stage Sector Beast is limited to being able to execute Destruction only up to a few times, while 2,000 Sector Beasts, through combined efforts, could execute the same powerful attack up to 100 times without breaking a sweat.”

It was said that normally, 33 Sector Beasts would be required for the birth of a higher-stage Sector Beast. However, if actual combat occurred, the combined attacks of seven to eight second-stage pinnacle stage beasts would be comparable to a third-stage pinnacle Sector Beast. Apparently, the process of devouring other Sector Beasts for the sake of evolution would cost a great consumption of energy. 可真正杀起来,七八个二阶巅峰界兽联合攻击即可媲美三阶巅峰了.显然吞吃其他界兽进化,在这过程中能量是有很大损耗的.

“Hiding within Star Tower?”

Close to 2,000 Sector Beasts were looking at Star Tower, feeling frustrated. By now, every Sector Beast had heard some information about Milky Way Horde Leader and knew that he had a few very impressive treasures.

“Now, he is hiding. But he cannot hide forever. The number of Sector Beasts will only continue to increase. 10,000, 100,000, one million... By then, if all of us join forces and launch a single attack, Star

Tower will shatter. Even if it does not shatter, Luo Feng, who is hiding inside, will die from the impact of that forceful vibration.”

The Sector Beasts did not continue to attack. Instead, they kept Star Tower surrounded by using their great numbers as they waited for the other Sector Beasts to join them.

“Milky Way Horde Leader is here.”

“Milky Way Horde Leader is here.”

The news spread. However, at the same time, as they were moving to surround Star Tower—

Buzz!

In the surrounding of an area of a few light years, a mighty miniature universe appeared out of nowhere. This miniature universe was filled with chaotic airflow. It was not considered very large, but its might was certainly not reduced by its size. The might of a miniature universe was determined by its origin, and the origin of this miniature universe—created using the method, “establish a universe with a single thought”—was Luo Feng himself.

More accurately, it was Luo Feng’s Shi Wu Wings!

Hua!

Endless golden waves instantly appeared within the entire miniature universe.

Luo Feng looked into the distance and could easily detect the location of any Sector Beast.

“Kill!”

This was the single thought in Luo Feng’s mind.

Hua!

The combination of the power of the origin of a miniature universe and the power of Golden Ocean had been able to suppress even the fifth-stage Beddy, not to mention these second-stage Sector Beasts. The mix of strength instantly dealt a crushing attack against 500 of the over 2,000 Sector Beasts. All at once, 500 gigantic palms emerged out of nowhere. Each palm violently grabbed hold of a Sector Beast. 500 gigantic palms, each with a mixture of power from the golden waves and the power of the origin, appeared and were instantly grabbing Sector Beasts.

Pu! Pu! Pu! Pu! Pu! Pu!

500 Sector Beasts were instantly crushed and shattered. Even the sectors within their bodies were shattered. Thus, the only possible outcome for them was death!

When unequivocal eternal true gods like Harmonious Snow executed their miniature universes with just a thought, they could kill tens of thousands of true gods effortlessly. While Luo Feng was still a far cry from them, to kill 500 second-stage pinnacle level Sector Beasts was still a breeze for him.

“Come again.”

500 gigantic palms appeared once again. Without delay, they caught hold of another 500 Sector Beasts. Over 1,000 Sector Beasts in the troop who were still alive but were instantly fearful.

A sudden grip!

Hua!

All were annihilated.

“No!”

“How is that possible?”

Their combined attacks were deadly, but alone, their defense was weak. This was the weakness of a group attack. It was also why the ancient civilization had put together a set of treasures like “Pu Luo Universe.” With tens of thousands of true gods within this Pu Luo Universe, their attacks would be strong. Undoubtedly, so would their combined defense.

These Sector Beasts did not possess any treasures. They were weak on their own. Thus, it was nature’s course that such a large-scale massacre was possible.

Peng! Peng! Peng! Peng!

500 gigantic palms appeared four times in succession, and close to 2,000 Sector Beasts were all annihilated. Not a single one was left!

Chapter 1463: The Final Excitement

In the distant original universe, Primal Chaos City Leader stood in front of the rails of the godly palace, looking at the endless space. He couldn’t have been more concerned.

“Luo Feng,” Primal Chaos City Leader whispered.

All the races in Universe Ocean were peaceful and tranquil. Only Primal Chaos City Leader knew that Luo Feng had already entered Land of Darkness.

“Please, succeed.”

He was looking forward to it; it was the only thing he could do.

The Land of Darkness.

“Establish a universe with a single thought” and “Endless Golden Ocean” were both powerful group attack techniques. When they were combined, they destroyed everything and killed almost 2,000 Sector Beasts instantly.

Actually, Luo Feng had fully prepared himself before coming to the Land of Darkness. He hadn’t comprehended “establish a universe with a single thought” before, so he’d also brought a machine-type

valuable, “10,000 Shadow Blade!” Now that he had made a breakthrough in his power, he was able to kill 2,000 Sector Beasts at once without 10,000 Shadow Blade.

“Fantastic!” Luo Feng stood in space, looking satisfied. This was his best moment since the start of the Sector Beast crisis. “All 2,000 Sector Beasts combined are only slightly stronger than a level-five Sector Beast, so no matter how powerful they are, they can’t do anything to Star Tower. And as individuals, they’re more defenseless than a level-five Sector Beasts. Haha! I’ll go after some other teams.”

There were three teams of Sector Beasts around him, and he intended to kill them all.

Luo Feng underestimated the effect of killing 2,000 Sector Beasts. This time, six million Sector Beasts were coming at Luo Feng, encircling him, and they were all confident that they could kill him. However, they were also cautious, allowing over 1,000 Sector Beasts to form groups. Yet, when they learned that Luo Feng was able to kill almost 2,000 Sector Beasts all at once so easily, they were horrified.

How was that possible? Nearly 2,000 Sector Beasts! If they had been killed one by one over time, they could understand it. Instead, they had been slaughtered with hardly a breath.

“We have to kill that Milky Way Horde Leader. If he keeps slaughtering us like that, all nine million of us will be annihilated!”

“We have to kill him.”

“Kill!”

First, the Sector Beasts were dazed. But then they were anxious and enraged. They all wanted Luo Feng dead as soon as possible!

The 1,000 Sector Beasts closest to Luo Feng were all in a panic. They had already known that all 2,000 Sector Beasts close to them were already annihilated at the same time, and there was already a consensus among the Sector Beast race.

“At least 10,000 Sector Beasts must act at the same time. Otherwise, they’ll be in danger.”

Those 1,000 Sector Beasts decided to separate after learning the shocking news. As long as they remained separated, Milky Way Horde Leader wouldn’t be able to kill many of them.

Weng!

The space was sealed.

“Too late!”

“No!”

All the 1,000 Sector Beasts were shocked. They knew it was too late for them to run away. The news that the 2,000 Sector Beasts had been killed all at once was so shocking that Luo Feng had already arrived by the time they had reached a decision.

“Milky Way Horde Leader.” The 1,000 Sector Beasts all looked ferocious. They glared at the silver-armored man walking toward them in the distance. He had five pairs of glowing wings on his back and was the greatest threat facing the Sector Beasts.

Traces of black light began to shine! All 1,000 Sector Beasts launched attacks against Luo Feng at the same time. Luo Feng only swung the Blood Shadow Blade in his hands, and a trace of a blurry blade shadow flew out. Just when that giant yet dimming blade shadow touched the black pillars of light, it easily annihilated all the pillars at the same time.

The combined attacks of 2,000 Sector Beasts barely rivaled “Destruction.” As for the combination of 1,000 Sector Beasts, Luo Feng could easily resist them!

“Die!” the silver-armored man said coldly. Then the gleaming pairs of wings on his back performed “establish a universe with a single thought.”

All of a sudden, the space around him turned into endless chaos airflow, and a golden pearl floated in front of Luo Feng. Huge, tumbling golden waves formed around all the Sector Beasts.

Hong! Long! Long!

The endless golden waves, together with the power from the universe origin, annihilated all 1,000 Sector Beasts after two shocks.

Luo Feng took a step, disappeared, and left to kill the other teams.

Inside Luo Feng’s miniature universe, Morosa was constantly sensing the situation in the Land of Darkness, and it was controlling all the spots of light on the model. It then exclaimed, “Master, you killed almost 2,000 Sector Beasts at the same time, which shocked the entire Sector Beast race. More Sector Beasts are coming for you now!”

“How many more?” The godly powered avatar looked forward to the answer.

He tried everything in his power to get as many Sector Beasts to come at him as possible. The more, the better!

“6.8 million—wait, almost 6.9 million now!” said Morosa.

“Not enough.” The godly powered avatar shook his head.

“Master, you annihilated another team. 1,000 Sector Beasts!” Morosa couldn’t have been more excited.

The godly powered avatar was staring at the spots of light on the enormous model. Meanwhile, Luo Feng’s original body was trying to kill as many Sector Beasts as possible. After only a short while, he annihilated all the Sector Beasts in a large area. Although the team of Sector Beasts near Luo Feng had already disbursed, Luo Feng had still managed to kill almost 10,000 Sector Beasts, marking a large area as Luo Feng’s own territory.

That kind of power horrified all the Sector Beasts.

“Master, more than seven million Sector Beasts are rushing toward the hinterland! More than seven million!” Morosa was excited yet worried, fearing that Luo Feng wouldn’t be able to survive this.

“Fantastic.” The godly powered avatar nodded. “However, it’s not enough.”

“Seven million already!” said Morosa. “There are only 9,200,000 Sector Beasts in total.”

“I wish they were all coming.” The eyes of the godly powered avatar gleamed.

Morosa didn’t understand why its master was doing this. It couldn’t think of any way its master could survive against so many Sector Beasts.

“Just follow my orders,” said the godly powered avatar.

“Yes.” Morosa stopped overthinking things, then said, “Master, although the Sector Beasts around you are crumbling and running away, those far from you continue to gather. They’re trying to combine ten teams into one. The number of Sector Beasts in each team is surging now. Each team has more than 10,000 Sector Beasts.”

“Oh? 10,000 Sector Beasts?” The godly powered avatar frowned.

10,000 Sector Beasts? If the attacks were powerful enough, they might even destroy the miniature universe he had just created, and such power would also be able to wipe out all the chaos air. If he used the origin, even a million Sector Beasts were nothing to him, let alone 10,000. However, without the origin, using only his own power, Luo Feng felt the pressure.

Luo Feng clenched his teeth. “10,000 Sector Beasts? So what? 10,000...”

Luo Feng wasn’t satisfied that there were only seven million Sector Beasts encircling him. Even if he was able to kill all seven million, the remaining two million were still powerful enough to destroy all the races in Universe Ocean, and he wouldn’t have the capacity to do anything about it!

“I have to get more Sector Beasts to come!” Luo Feng made up his mind. “A team of 10,000 Sector Beasts? I’ll keep killing them! I’ll kill a team of 10,000 to provoke more of them! I’ll get even more Sector Beasts to surround me.”

One versus 10,000? Luo Feng wasn’t sure about those odds.

However, he needed to put up a fight. If he was able to kill 10,000 Sector Beasts all by himself, it would terrify the entire Sector Beast race, and many of them would lose their minds. A great many Sector Beasts would be coming at him and trying to kill him after that.

Sector Beasts close to Luo Feng were all fleeing, effectively rendering the area as Luo Feng’s territory. However, outside that area, teams comprised of over 10,000 Sector Beasts were forming, and they were gathering from all around. The more teams of Sector Beasts there were, the less of a chance Luo Feng would survive.

“Encircle him.”

“Don’t give that Milky Way Horde Leader a chance.”

“We’re responsible for this area.”

Ferocious Sector Beasts flew side by side, crowded together. There were so many that they shrouded the view of the surrounding space. Each team had more than 10,000 Sector Beasts. Each was one million kilometers tall, and when over 10,000 of them got together, they covered all of space.

Hua! Hua! Hua!

Teams with large numbers of Sector Beasts soon arrived and surrounded Luo Feng at the periphery. They didn’t rush to get in.

“Huh?”

The large group of Sector Beasts now almost covered the entire region. They crowded the surrounding space—18,000 of them. All 36,000 heads turned to look in the same direction, their collective attention drawn by a ripple beside them. A silver-armored man with wings appeared with a smile.

“Sector Beasts,” the silver-armored man with wings said with a smile. “I declare, now, that you all have been eliminated from becoming the king of Sector Beasts.”

Hong! Hong!

The miniature universe and the endless golden ocean formed at the same time.

“Milky Way Horde Leader!”

All 18,000 Sector Beasts were infuriated. Luo Feng was too arrogant. All the Sector Beasts attacked at the same time, and traces of black pillars shot toward Luo Feng in the distance.

Suddenly, Star Tower appeared in front of Luo Feng out of nowhere, and he entered Star Tower.

“No matter how powerful and confident I am, I can just resist the combined attacks of 18,000 Sector Beasts,” whispered Luo Feng. “The combined attacks from 2,000 Sector Beasts can rival Destruction. 18,000 will be much more powerful than Destruction, reaching a whole new level.”

Hua!

Endless black light swept through everything, annihilating all the chaos air. The very space cracked. Nobody could have resisted this. Even the golden waves were destroyed. Eventually, those 18,000 Sector Beasts launched a combined attack, forming a giant black pillar of light that struck Star Tower.

Hong!

It was apocalyptic. The power could have destroyed ten miniature universes of true gods. Star Tower bounced back beneath that shock waves. Even the miniature universe created by Luo Feng’s “establish a universe with a single thought” crumbled.

Chapter 1464: Scimitar

“Kill!”

“Kill Milky Way Horde Leader!”

The crowd of Sector Beasts covered space, and they rushed toward that bouncing Star Tower.

They were almighty! And they were ferocious! The power was so strong that even Luo Feng felt powerless before it. Even if Luo Feng created a miniature universe and Endless Golden Ocean at the same time. Faced with the absolute power advantage, Luo Feng wasn't able to do anything about it even if they were weak at defense individually.

“I was being too arrogant.” Luo Feng remained in Star Tower the whole time. “I thought I would be able to kill all 18,000 Sector Beasts with all the skills I have. However, when there are so many more Sector Beasts, the power is totally different. I can easily kill 2,000 Sector Beasts at once, but I can't even defend myself against 18,000 Sector Beasts.”

If he was more powerful, he could have immediately found his enemies' weaknesses and killed them. That had been the case when Luo Feng had been fighting 2,000 Sector Beasts. He was just as skilled in attacks as those Sector Beasts. Besides, he also had many other techniques, so he could instantly kill all 2,000 Sector Beasts, whereas now, he was being crushed.

If their soul attacks are weaker, I can use my godly power, Luo Feng thought.

If he could turn into a godly power ocean one square light year wide and drown all the 18,000 Sector Beasts, the attacks from the Sector Beasts would be neutralized by the godly power ocean and wouldn't gather.

But Luo Feng didn't dare to use that method. Sector Beasts were creatures that were great at soul attacks, and even if they were only at pinnacle level two, they might have been just as great as Divine Eye True Master. If he turned into a godly power ocean, all those 18,000 Sector Beasts might perform soul attacks at once, hitting his godly power ocean and reaching the soul inside the Heart of True God.

Luo Feng didn't want to risk it. Indeed, he had strong willpower, yet it was only slightly stronger than Morosa. If his soul was attacked by 18,000 Sector Beasts at once, it would be obliterated.

“None of the valuables and techniques work, and godly power won't help, either. I have to create stronger blade techniques, or I need to fully comprehend the third level of Wu Qi God. Only after that do I stand a chance of winning.”

Luo Feng fled, as he was trying to create new blade techniques and the third level of Wu Qi God. He had felt “Destruction” twice when he'd fought and killed Beddy, and he had obtained some experience from that; he had even fully comprehended the fourth level of Shi Wu Wing. Luo Feng had already been able to create techniques at pinnacle level 11 during his fight with Beddy, and now, he was at level 12. All he'd wanted before was to exterminate all the Sector Beasts with the “origin,” so he hadn't had the time or energy to create blade techniques at his level or study the third level of Wu Qi God.

“I have to be more powerful in order to stand a chance.”

Under the black-striped stone pillar in the distant Universe Boat, the godly powered avatar of Luo Feng was trying to create blade techniques and comprehend the third level of Wu Qi God under the effects of time that passed ten million times faster.

He had already reached an exceptional level of power, so he could create the blade techniques easily. However, the godly powered avatar failed to comprehend the third level of Wu Qi God, no matter how hard he tried.

“What was the Godly King of Jin thinking? I’ve already reached level 12, and if it weren’t for the Sector Beasts, I could’ve become a true god of void space already. However, I’m still not able to use the third level of Wu Qi God. Is it really a machine-type valuable for true gods? Even if it was created by you, Godly King, it shouldn’t be this powerful.”

Luo Feng had spent more than three years comprehending Wu Qi God while creating blade techniques, yet he had still failed to fully apprehend it. However, with his previous comprehension and the mysteries of “Destruction,” he had created a blade technique called “Scimitar.”

When the blade was drawn, its structure was an arc, so he had given it a simple name.

Although it had taken him over three years, he was in a place where time passed ten million times faster, so it had only been ten seconds!

The Sector Beasts were forming teams of 10,000 members. The plus side was, the team had become much more powerful, but since there were fewer teams, each team was much farther from the others than before, so even after ten seconds of fighting, other teams were still on their way there.

“What are you hiding in Star Tower for, Milky Way Horde Leader?”

“Is this the number one great being in Universe Ocean?”

“I thought you were so powerful. You killed Beddy! Don’t you dare to come out?”

All the cursing and laughing echoed in the space outside of Star Tower. Luo Feng looked outside through Star Tower, which was already surrounded by Sector Beasts. The 18,000 Sector Beasts occupied the entire space outside of Star Tower, leaving him no space to fly to.

“Get out?” Luo Feng whispered in Star Tower. “Not yet.”

None of the 18,000 Sector Beasts outside could see anything in Star Tower, and they couldn’t see Luo Feng, either.

“Huh?”

Luo Feng’s eyes gleamed. After only ten seconds, he had already created the best blade technique he was able to create, given his current level of power. Although he still hadn’t finished comprehending the third level of Wu Qi God, Luo Feng thought it might take him 100 times longer to actually finish comprehending it. If he spent much more time, another team of more than 10,000 Sector Beasts might arrive.

He couldn't delay any longer! Time to fight!

If I succeed, I'll provoke more Sector Beasts into coming here, thought Luo Feng. If I fail, then I'll just be blocked by them. I'll just hide in here, and I won't go out. With time going by, there will be more and more Sector Beasts. Then I'll deal with those seven million Sector Beasts.

It was either seven million Sector Beasts or more.

All 18,000 Sector Beasts blocked every direction around Star Tower. All of a sudden, a silver-armored being appeared from a side door at the base of Star Tower. He glanced around at all the Sector Beasts in front of him.

"It's Milky Way Horde Leader."

"He's coming out."

"Do it now!"

All the Sector Beasts in various directions wanted to take action, yet they didn't rush to do it. Each attack used all their power, yet Luo Feng could hide inside Star Tower with only one step. They wouldn't waste their energy, as Luo Feng was standing right beside the side door.

Shua!

Star Tower disappeared while Luo Feng became a godly power ocean ten billion square kilometers large, surrounding more than 300 Sector Beasts. The Sector Beasts were overjoyed to see the godly power ocean.

"Attack!"

Shua!

The godly power ocean disappeared while Luo Feng, clothed in silver armor, showed up again. He was already among the Sector Beasts.

Luo Feng glanced around the group of Sector Beasts in front of him.

"Die!"

All the Sector Beasts were stunned. They saw an enormous, blurry godly eye floating in space. It seemed to the Sector Beasts that everything had disappeared, and the terrific willpower shocks contained in that godly eye pierced their souls like blades. Suddenly, the 900 Sector Beasts closest to Luo Feng were hit directly in their souls, which rendered them in such agony that they blacked out.

This was "Godly Eye Secret Technique"!

In the past, Luo Feng had observed the operation of the universe and reached a life gene level of 100,000 times, thus becoming a true god. During that process, his willpower had also transformed, reaching the pinnacle eternal true god level.

Back when Luo Feng was only a universe master, he had used Godly Eye Technique when fighting Morosa. Morosa had experienced unbearable pain, but his combat strength hadn't been hindered.

But now, things were different. For one thing, Luo Feng's willpower hadn't been as strong as it was now. And for another, Morosa had been one of the top-tier Sector Beasts at the time, wielding exceptional willpower. As for the Sector Beasts around him, at level two, they had relatively weaker willpower.

"Godly Eye Secret Technique!"

Just as Luo Feng performed Godly Eye Secret Technique, he waved Blood Shadow Blade in his hands.

This attack represented his highest accomplishment at this moment. It was based on four basic laws: gold, light, space, and water. It also contained part of the destruction origin. All of them merged together to form this move.

Hu!

A blade light flew out. It was certainly much faster than Luo Feng's speed of flight, reaching one million times faster than light speed. The light gleamed platinum gold! It looked like a blade-shaped star but burned billions of times brighter, and it indeed had an element of Destruction. It also carried the eroding mystery of the gold.

Hua!

The gleaming blade light slashed at the 900 Sector Beasts closest to it. It was so powerful that it could rival Destruction.

The bodies of all 900 Sector Beasts that had been shocked crumbled, and the sectors inside their bodies cracked, killing them all.

"Be careful!"

"Attack!"

"Kill him!"

The rest of the Sector Beasts weren't worried. They were superior enough that their attacks could be delivered with delicate precision; even with Luo Feng flying among them, it was still easy for the Sector Beasts not to hurt their companions as they attacked Luo Feng.

Hong! Hong! Hong!

6,000 light pillars appeared at the same time.

"Break," said Luo Feng.

His blade light shone. The platinum-gold blade light struck, and after a massive sound, all those light pillars cracked and crumbled.

Luo Feng bounced away as well. However, more than 300 Sector Beasts around him were annihilated. They were still affected by the shock waves.

"He resisted it?"

“He’s only at a slight disadvantage in the face of 6,000 Sector Beasts?”

“He’s getting stronger.”

The Sector Beasts were terrified. Luo Feng was able to fight 6,000 Sector Beasts now! And as long as he remained in their midst, their attacks couldn’t be combined to fall on Luo Feng at the same time. After all, Luo Feng knew how to dodge them individually.

“Kill.”

Luo Feng used Godly Eye Secret Technique and the blade technique at the same time. He slaughtered the Sector Beasts, forcing them to run away. However, they were slower than him, and he had the ability to turn into an ocean and get among them again. They couldn’t get far.

“Milky Way Horde Leader has gotten stronger.”

“There were 18,000 Sector Beasts. After he killed 12,000 Sector Beasts, we all tried to run, but we were still hunted by him. Only 1,000 of us got away alive.”

“His blade technique is stronger than before.”

The news spread. All the Sector Beasts in the Land of Darkness were in a panic. More Sector Beasts started to hurry toward the hinterland, including those who hadn’t intended to at first.

They had to eliminate this threat! It was either Milky Way or the Sector Beasts!

Chapter 1465: Hauling in the Net

In their attempt to encircle and suppress Luo Feng, more and more Sector Beasts were stepping forth to join in the siege, and the number was getting so big that Morosa had started to tremble in fear. “Master, the number has reached 7.9 million.”

“This is quite effective,” said the godly powered avatar, revealing a smile.

“Master, even when you are pitted against 18,000 Sector Beasts in a fight, you are able to defeat them and send them into a frenzy as they try to escape. In the end, no more than 1,000 managed to escape.” Morosa was filled with admiration. “You are impressive beyond measure! Those Sector Beasts must have been scared out of their wits, but the fear instilled in them will compel them to go after your life at all costs.”

If they wanted to eliminate Luo Feng, their biggest threat, they had to annihilate his original body.

As for trying to destroy Luo Feng’s miniature universe? Even if they truly managed to destroy his miniature universe, Luo Feng would still be alive and kicking. The only edge his enemy would have gained over him was that he would not be able to become a true god of void space with the loss of his miniature universe. On the contrary, the Sector Beasts would rather hope that this Milky Way Horde Leader could quickly become a true god of void space and proceed to trying to transcend reincarnation.

“This region.” The godly powered avatar pointed toward the huge model. “Try your best to mark out all the troops here, then give me the numbers of Sector Beasts in these troops.”

“Yes, Master,” Morosa responded right away.

Numerals were being indicated on every group of consolidated spots of light.

“The nearest troop in our vicinity has a total of 12,000 Sector Beasts.” The godly-powered avatar nodded lightly. Right away, Luo Feng’s original body set off to where the troop was to annihilate the Sector Beasts.

A short while later...

“Master, many troops of Sector Beasts in your vicinity are rapidly retreating, and they were all scattering off in all directions as they escape.” Morosa promptly informed him. “Even if it is a troop composed of as many as ten to twenty thousand Sector Beasts, no one dares to fight against you anymore.”

“What a pity. I have only managed to finish off a few hundred Sector Beasts.” The godly powered avatar shook its head. “If these troops are all scattered when they escape, it will be difficult for me to pull off a large-scale massacre.”

When the Sector Beasts congregated in one area, one strike by his blade would be equal to a few hundred Sector Beasts gone. How satisfying could that be?

But now, all those Sector Beasts were disbursing in every direction. It would be much more troublesome trying to kill them.

“Now, all the Sector Beasts are gathered in the peripheral area of this region. Some troops have already reached 100,000.”

Morosa was feeling nervous because of the growing numbers. It could clearly see that the model was densely covered with spots of light that had formed many circles that surrounded a particular region. And Luo Feng was in that region.

“The number of Sector Beasts rushing toward the heart of that piece of land is still increasing!” Morosa shouted in a shaky voice. “It is almost 8 million now!”

The godly powered avatar merely observed in silence.

“Master, there are 8 million Sector Beasts there now!” Morosa’s two singular eyes dilated and became round, as if ready to pop out of their sockets.

It did not know...

In the face of this encirclement and suppression by a tremendous number of Sector Beasts, Morosa did not know how its Master intended to deal with them all. One against 10,000, Luo Feng had achieved! His combat power had definitely attained the pinnacle level of a true god of void space, but he was, after all, only a true god. While he might not have lost out to a true god of void space in terms of power achieved, he still had to rely on a series of supreme treasures like Wu Qi God, Shi Wu Wings, and Blood Ghost Blade to unleash that level of combat power.

However, this was almost approaching Luo Feng's ultimate limit!

100,000 Sector Beasts—how could he deal with so many? And how about one million Sector Beasts? One concerted attack from a million Sector Beasts was not inferior to an attack from an eternal true god. No matter how formidable Luo Feng was, he was merely a true god. The combined abilities of eight million Sector Beasts would be comparable to an attack by a top-tier great being amongst all eternal true gods.

“The ‘origin’ is the energy an eternal true god manages to bring out by relying on the complete Chaotic Golden Wings,” Luo Feng said. “A part of it had the combat power at the level of ‘the holy.’ Unfortunately, this combat power could only be used once. There will be nothing left after one use. However, it can draw the attention of eight million Sector Beasts. That is practically a miracle. It might be difficult to attract even more Sector Beasts, but I still have to try my best.”

With Morosa's guidance, Luo Feng managed to sneak attacks on the other smaller-scale troops, as well as the scattered, idle Sector Beasts. This was why there were Sector Beasts dying from time to time. This greatly angered the entire Sector Beast race, and that anger coerced more and more Sector Beasts into participating in the plan to besiege Luo Feng.

Regardless of how angry they were, their roundup plan did not show a trace of disorder. They were constantly gathering and building up their numbers. They were stationed in concentric circles surrounding the region where Luo Feng could be found. Even if they were met with sudden attacks, they maintained their positions.

“Even if hundreds of thousands of Sector Beasts were to be sacrificed, for the sake of the entire race... their deaths shall be worthwhile.”

“No one will be able to stop the birth of the final king.”

The Sector Beasts were like a well-oiled machine. They were born to destroy. When there was no external threat, they would fight one another, but when a true threat came along, they would join forces, as though they all shared one big, common brain. There would not be any forms of internal conflict, and they would not fight one another. There would be incomparably precise coordination. Every single one of them would rather sacrifice itself than allow itself to be shaken by any external threat.

Even Luo Feng's heart palpitated at their level of ruthlessness.

“Exactly what kind of life form has the Universe Ocean given birth to?” Luo Feng shuddered. “A being that represents destruction. Even in their breeding period, they are much too strong.”

A great being had to not only wield strong powers but, more importantly, have a powerful soul. The ruthless nature of these Sector Beasts ensured that none would be the least bit shaken when a sacrifice had to be made. This fact alone subjected Luo Feng to an intangible pressure.

Luo Feng was trying his best to execute any methods possible to influence the Sector Beasts. He needed to shake them up.

One after another, the Sector Beasts were dying. Yet, on the whole, they were still not bothered at all. They continued to gather. There were already more than five million Sector Beasts who had successfully joined the troops stationed around Luo Feng.

“Start advancing.”

“Start advancing.”

“Start advancing.”

The various troops of Sector Beasts had all started to advance slowly. From the Land of Darkness, more than three million Sector Beasts were rushing over at their fastest possible speed.

If these Sector Beasts continued to take risks over and over again, Luo Feng would have the means to continue to kill them all over and over again. But these five million Sector Beasts that had gathered around him were pressing in on him from all directions, albeit very slowly.

With such open and dignified mannerisms, the Sector Beasts made Luo Feng feel strangely embarrassed. He did not know where to start. They were too stable. The Sector Beasts were displaying such aboveboard behavior that it felt like a form of joint intimidation imposed upon Luo Feng.

But what could Luo Feng possibly do? These five million Sector Beasts were divided into more than ten troops. Luo Feng did not dare to put his head through the noose. Yet, no matter how he hid himself, with the circle around him was continuously shrinking in size, closing in on him. Ultimately, he would not be able to escape—unless he made himself “Invisible and Formless”!

This time around, Luo Feng’s true motive was not to escape but, rather, to execute his “Great Extermination” plan. He had already reached a juncture at which it would be impossible to hide... If he did choose to hide, what would the Sector Beasts think? They would look around and wonder, “What? We have done such a flawless job in our encirclement. How did Milky Way Horde Leader manage to disappear again?” Such a scenario would reveal Luo Feng’s greatest trump card.

Precise like a machine, without a trace of error—everything had been taken into consideration by the Sector Beasts. They continued to close in on Luo Feng most menacingly, causing his area of activity to continuously shrink as well.

“We have discovered Milky Way Horde Leader.”

“He is already trapped by us.”

A troop of around 500,000 Sector Beasts had mightily surrounded Star Tower.

Within Star Tower, Luo Feng was shaking his head helplessly. Everything was proceeding as he had planned, but without being “Invisible and Formless,” he was, indeed, only left with the alternative of being entrapped. There was simply no escape for him.

“It’s nobody’s fault,” said Luo Feng. “They are innately strong, with boundless potential, and their tremendous numbers are enough to bring a shock to anyone. When faced with threats, they stay united. No wonder this is regarded as a crisis that even the willpower of the origin is so scared of.” Luo Feng shook his head.

“Attack!”

“Attack!”

500,000 Sector Beasts were keeping their distance away Luo Feng, but shortly after, they executed their attacks at the same time.

All at once, a powerful blow, formed by 500,000 Sector Beasts was transformed into a beam of light capable of annihilating everything. The beam bombarded Star Tower, and the impact sent Star Tower tumbling off at one million times light speed, howling as it flew off. Within the tower, all Luo Feng could feel, was some vibration, with some of his godly power being consumed.

“Indeed, this is worthy of being a treasure used by the Godly King.”

Luo Feng was safe within Star Tower. This was only 500,000 Sector Beasts. If there were really eight million, treasures like the Boat of Mausoleum would likely have been shattered and destroyed when attacked! However, Star Tower was different. Even attacks by the Godly King would not be able to do much harm to this tower.

“Milky Way Horde Leader is hiding inside Star Tower.”

“Star Tower is impenetrable. It simply cannot be destroyed.”

“We have arrived, too.”

Another mighty troop of Sector Beasts arrived, bringing the number of Sector Beasts surrounding Luo Feng to a total of nearly one million.

Time flew by. Troop after troop arrived to join the assembly of Sector Beasts. Every time a new troop arrived to join the assembly, the Sector Beasts would try to combine forces to launch an attack, and Star Tower would be tossed about like a ball at playtime. Again and again, Star Tower was bombarded and tossed far away, but regardless of how their numbers increased—from one million to two and three million, and eventually to five million—the Sector Beasts were unable to do any harm to Star Tower.

The number of Sector Beasts that had gathered was slowly increasing, and there were Sector Beasts rushing over in great numbers from all around.

5.3 million, 5.6 million, 6 million...

“This is really a great number.”

Inside Star Tower, Luo Feng looked at the outside world. The Sector Beasts had massive bodies, and with several million of them gathered in his surroundings, the entire void space was obscured. The area affected could almost have been regarded as endless.

“No matter what, they are unable to break Star Tower with their attacks,” Luo Feng said to himself. “I think they are just waiting. Waiting for all the Sector Beasts to gather before they join forces to execute their strongest attack. This is the only way they are willing to put everything to an end. If that attack is still unable to harm Star Tower, they will probably opt to force Star Tower into some other dangerous land.”

The core region of Tilted Peak Sector had many dangerous lands. For instance, dangerous lands like Three Extreme Abyss. The moment Star Tower fell in, it would not be able to come out.

The Sector Beasts would face some problems, though. For one thing, those dangerous lands were outside the Land of Darkness. If they intended to get Star Tower out of the Land of Darkness, that would require a very long time. Plus, those dangerous lands might not truly be able to trap Milky Way Horde Leader. Therefore, the Sector Beasts were not fully confident in this option. This was why they would not choose to attempt to throw Luo Feng into a dangerous land unless they were down to their last alternative.

“Master, the number of Sector Beasts has already reached 7.6 million.” Morosa was able to detect everything happening all the time, and its face was filled with worry. “Previously, a total of more than 8.3 million Sector Beasts turned up. Soon, all of them will be here. Master, how exactly do you intend to escape this place?”

Morosa was very flustered. If Luo Feng died, he would die too. Then he would not be able to become king.

“7.6 million already?” The godly powered avatar laughed. “Soon, it will be time to haul in the net.”

Regardless of how calm he usually was, Luo Feng, who was inside Star Tower, was finding it a little difficult to contain his surging emotions. Looking outside at the endless sea of Sector Beasts, he saw them looking over at his Star Tower, which was ten stories inside and out. They had surrounded and trapped him within the circles they formed. All of them wore fearsome and angry looks.

“Eight million.” Luo Feng whispered softly. “8.1 million. 8.2 million.” Finally, Luo Feng’s eyes glowed. His eyes glowed so brightly that they were frightening. “All are gathered here!”

All the Sector Beasts supposed to be involved in the roundup plan this time around had arrived. Soon, with concerted efforts, these Sector Beasts were going to launch one of the largest-scaled bombardment against Star Tower.

At this moment, Luo Feng’s eyes flashed with an incomparably crazy look. He was waiting—waiting for those Sector Beasts to finish with their collective attack. Then, amidst the chaotic waves of impact, he would execute his “origin.”

“My humans,” said Luo Feng. “The pulse of my Earth, my family, teacher... All of these. Everything that is more precious than my life itself... at stake in this one final fight!”

With slightly bloodshot eyes, Luo Feng outspread his wings behind him. The origin was now infused into the Shi Wu Wings.

Chapter 1466: Extinction

The Sector Beasts were scattered everywhere in space. There was no end to it. They were all glaring at Star Tower in the distance!

More than 8,300,000 Sector Beasts had gathered here. Apparently, Luo Feng killing Beddy and 18,000 other Sector Beasts had already made them anxious! They couldn't stand it anymore, and they sensed that if they didn't kill Milky Way Horde Leader, he would kill them all in the future! And then the enslaved Morosa would be the ultimate king. They would rather die to prevent that from happening.

"Let us attack Luo Feng altogether. All eight million Sector Beasts."

"We have to perform our greatest strengths this time... If we still can't kill that Milky Way Horde Leader, we can only push him into some of the Lands of Extremis in Tilted Peak Sector."

"We have to succeed."

All the Sector Beasts transmitted their voices using their hearts. They glared at Star Tower in the distance. They were full of grudges, as they couldn't damage Star Tower no matter how.

"Prepare."

"Prepare."

"Prepare."

Orders were given, and all 8.3 million Sector Beasts were divided into 20 teams. They transmitted their voices and rearranged themselves so that the attacks could be combined as one! All the teams started to make attacks one by one based on their distance.

Hong!

One could see that almost 300,000 Sector Beasts had bloody light burning on their bodies. Then countless light pillars shot out. At the same time, they redirected them so that they could gather with others. Soon, all the attacks from those Sector Beasts merged together. The gleaming black pillars rushed at Star Tower from the back.

"Attack!" And then, other teams also performed attacks one by one. Their attacks rushed toward the black light pillar!

Two teams! Three teams! Four teams! All the attacks rushed in the same direction and merged. They were all rushing forward as one, so that they wouldn't waste any of the energies from the combined attacks.

The black light pillar kept flying forward, moving ten million times faster than light speed. The farther it flew, the darker the color it became. And then, it became hollow!

The hollow broke the space and flew. All the attacks from the Sector Beasts merged into the hollow.

All the Sector Beasts glared at Star Tower. They were all looking forward to this. They hoped that under this attack, Milky Way Horde Leader would be killed. They didn't want to push him into a Land of Extremis. After all, there was still a risk that Milky Way Horde Leader would make his way out.

Luo Feng, inside Star Tower, faced a terrific attack. He was holding his breath, waiting. Waiting for the right moment to exercise his plan for "Great Extinction."

"Master."

Inside Luo Feng's miniature universe, Morosa was very anxious. Its master was surrounded by more than eight million Sector Beasts.

"Luo Feng..." said Primal Chaos City Leader, watching eagerly.

Only Morosa and Primal Chaos City Leader were worried about Luo Feng's safety. As for other great beings in Universe Ocean—including the earthlings, Luo Feng's wife Xu Xin, his sons Luo Ping and Luo Feng, his parents, and True Yan—none of them knew what was going on here. They didn't know that this was the moment that would determine the fate of all the races in Universe Ocean.

Luo Feng's eyes looked confident and unyielding. The destructive, apocalyptic, silent "hollow" collided with Star Tower. It was silent as it struck Star Tower. It aimed to erode and damage Star Tower, but Star Tower was indestructible; it couldn't do anything about it. The energies contained in the "hollow" burst out and splashed everywhere.

Hong!

The result was a massive, destructive clamor. The shock waves spread everywhere, and Star Tower bounced away into the distance.

"How did it go?"

"Did Star Tower crack?"

None of the eight million something Sector Beasts could see anything. The shock waves were so strong that they annihilated the space, giving them no sight. And they couldn't see anything that happened at the center of the explosion.

Just as they were feeling anxious about the result, Luo Feng was trying to control Star Tower and slow it down.

"Freeze."

Under the burning godly power, Star Tower finally stopped. It turned around. The spreading shock waves were being weakened, and the time and space around them began to stabilize. And then, the Sector Beasts in the distance could clearly see everything that had happened.

Hua!

Star Tower suddenly grew to nine light years tall. A giant being, who was also nine light years tall, stood in front of Star Tower. He wore gleaming silver armor, and the five pairs of silver wings on his back were wide open, covering the endless space.

“The fate of billions of races in Universe Ocean!” whispered Luo Feng. “The fate of the humans! The fate of the earthlings! The fate of the people I love! Everything that I guard with my life...”

Luo Feng, who was nine light years tall, opened his wings. His eyes were filled with hope as he whispered, “This is the moment!”

All eight million-plus Sector Beasts clearly saw the silver-armored giant that was nine light years tall. They were furious that Milky Way Horde Leader was still alive, yet they were joyful that he had finally stepped out of Star Tower. Also, they were amazed that Milky Way Horde Leader had become so enormous.

“Kill him.”

“Attack again!”

The Sector Beasts tried to reorganize themselves. However, Luo Feng wouldn’t give them a chance this time. Just as his body became nine light years tall, Luo Feng waved the wings on his back and infused the “origin” with his burning godly power.

“Die out!” Luo Feng whispered, but his voice sounded absolutely cold.

Either the Sector Beasts died, or everything he defended died!

Kill all the Sector Beasts!

The nine-light-year-tall, silver-armored giant waved the five pairs of gleaming wings on his back, and just as the eight million-something Sector Beasts were about to attack, they were stunned. All of a sudden, from the edge of the white wing above all the other wings, a mesmerizing light shot out.

Endless traces of blade light! They were like flowers, and they were incredibly fast. They immediately flew across a vast area, covering the region. At that moment, there seemed to be flowers raining down, falling on each of the Sector Beasts’ bodies.

Chi!

Against the beautiful flowers, the bodies of Sector Beasts were slashed easily. As soon as they were touched by the flowers, they were lacerated—including the sectors within their bodies.

Beautiful... Silent.

All of space went silent. There weren't any voices.

A mighty, eternal true god was bestowed such a top-tier machine type valuable in the ancient civilization, and he had triggered the highest level of the Chaotic Golden Wings, storing his energies in the "origin." There were tons of great beings in the ancient civilization, and to survive, that ancient being had stored as many energies in the origin as possible so that he could survive in battle longer. Even though Luo Feng had consumed some of the energies in the origin, they still rivaled all the energies in the body of that ancient being, as it had taken him a long time to store so much energy.

At that moment, they all exploded.

From the edge of the sixth wing, "White Wing," a blade of light flew out. It was so powerful that it could have rivaled the power of an attack from some of "the holy." It was certainly much more powerful than the "hollow," the combined attack from all eight million Sector Beasts. Before that terrific attack, everything was turned into empty space, including sound.

Eight million Sector Beasts were scattered across an area of several square light years. Now, they were surrounded by the endless, beautiful blade light. It was mesmerizing and perfect, and those blade light flowers were reflected in the eyes of all the Sector Beasts.

Beautiful? No! They were horrified!

All eight million-plus Sector Beasts were terrified. They were facing an attack that they couldn't handle whatsoever. It was an attack that could only happen when an eternal true god used a top-tier machine-type valuable. It was an attack that stemmed from so many energies that they were terrified and desperate!

However, no matter how desperate and terrified they were, they were still Sector Beasts! Sector Beasts who were born for destruction!

Hou!

"No."

"Kill!"

All the Sector Beasts were struggling with all their power. Some of them performed attacks, some performed Sector Light Portal, and some attempted to flee... However, Luo Feng, who was nine light years tall, waved his wings. An area of several square light years in front of him was like a beautiful picture, and it crumbled instantly. The beautiful picture, which was several square light years in diameter, was annihilated.

Everything was annihilated. Everything turned hollow.

The endless blade flowers swept across the area of several square light years, and they kept marching forward until they rushed out of the Land of Darkness. They rushed into other Lands of Extremis in the core area of Tilted Peak Sector. They only vanished after being gone for a long time.

Luo Feng didn't need to know how far the energies went—the energies that had been stored in the "origin" for so long and had been suddenly let out all at once. The only thing he needed to know was

that those 8.3 million Sector Beasts that had previously been invincible were completely wiped out under that awesomely beautiful attack.

It was like using a towel to wipe something up. Everything was wiped out, and no one was left alive!

It was so powerful that even Luo Feng was thrilled, even after learning a lot about the ancient civilization and speculating about other aspects. However, the most significant factor for him was being happy and excited.

Luo Feng's giant, nine-light-year-tall body shuddered with exhilaration.

"Teacher." The first thing Luo Feng did was to connect to the virtual universe using his godly powered avatar in the original universe. "I did it! I did it!"

Luo Feng couldn't have been more excited.

As for the less than one million Sector Beasts scattered throughout the periphery of the Land of Darkness, they could clearly sense that all eight million-plus Sector Beasts were killed all at once. They were first dazed, then horrified.

Chapter 1467: Catastrophe

The 450,000 Sector Beasts were scattered, teleporting and moving forward from the main mountain of Tiled Peak Sector. Luo Feng knew that he couldn't stop them now. No matter how powerful he was, he didn't have ten million bodies, and the best he could do was kill one or two Sector Beasts. As for the other Sector Beasts, they could certainly make their way into the vast Universe Ocean.

"Kill!" Luo Feng's eyes gleamed.

Although he couldn't stop them, he would still try to kill as many as possible!

Shua! Shua! Shua!

Luo Feng kept teleporting, moving closer to one of the Sector Beasts. A blurry miniature universe was formed, and a giant palm was formed by chaos air, crushing the poor level-two Sector Beast. After a short while...

"Ai!"

Luo Feng stood at the top of Tilted Peak Sector, looked around the region. He shook his head. "I can't stop them."

The first 450,000 Sector Beasts rushed out, and so did the second batch of Sector Beasts. Luo Feng tried everything he could, but he was only able to kill five Sector Beasts. Compared to the 900,000 Sector Beasts, it was nothing.

“All 900,000 Sector Beasts have rushed out of Tilted Peak Sector and entered Universe Ocean.” Luo Feng looked solemn. “It’s going to be a huge problem now. They really stuck together and all rushed out. I’ll have to see what I can do about it.”

Luo Feng shook his head and started to teleport, hurrying back to the original universe.

Luo Feng didn’t have enough options. He had known that there was a chance the remaining Sector Beasts would rush out after his mission. But he didn’t have a choice! If he hadn’t slaughtered all those Sector Beasts but let all of them fight each other, it would have only taken a short while before a Sector Beast at level six was born.

Beddy had been at level five. Level-six Sector Beasts had ten million bodies, and it was very difficult to kill them. That would be a real catastrophe!

He had to act in advance. He had killed more than eight million Sector Beasts all at once, and that had been the best-case scenario, although this “best-case scenario” was still a disaster to all the races in Universe Ocean.

This was indeed a disaster he had never encountered before. Yet now, there was still a chance they could survive this. With Luo Feng’s power, he was able to fight 10,000 Sector Beasts by himself. As for the Sector Beasts, there weren’t even any level-five Sector Beasts. It was likely that they could survive that catastrophe.

Luo Feng was teleporting, and he teleported faster than Beddy at level five! While all the Sector Beasts were scattered and rushing toward the races of Universe Ocean, Luo Feng was rushing back, as well. He knew that he couldn’t stop all 900,000 Sector Beasts, so he held a meeting with all the races in the virtual universe.

On the floating godly palace, true gods sat down, while Primal Chaos City Leader and Luo Feng sat at the top. Below sat many true gods. All the true gods from all the powers in the original universe had gathered here, such as the demon race and the bug race. Clearly, the only chance they could survive this was to side with the humans.

“Everyone.” Golden-caped Chaos and white-caped Luo Feng sat up top. The white-caped Luo Feng looked down. “I’ve been to the Land of Darkness by myself.”

Everyone was stunned.

“The hive of the Sector Beasts?”

“How did it go, Milky Way Horde Leader?”

Everyone was worried. Nine Remoteness True Master, Space Beast Ancestor, and the others were all looking at him. As for the other true gods, they were quite worried.

The white-caped Luo Feng said, “It’s a good news, bad news situation. The good news is, the number of Sector Beasts in the hive is decreasing. When I entered the hive, there were over nine million Sector

Beasts, and even the weakest one was as powerful as the Sector Beast that attacked us in Universe Ocean.”

What Luo Feng had just said terrified and shocked all the true gods below. Even Luo Feng was intimidated, not to mention them.

“However, the ways of the universe are fair,” said Luo Feng. “We have a chance to survive. Fortunately, I obtained a valuable that could only be used once! I attracted more than eight million Sector Beasts to surround me, and I killed all eight million at once.”

“What?”

“More than eight million Sector Beasts at once?”

“What kind of valuable was that?”

All the true gods were shocked. Luo Feng, however, was indifferent. He didn’t care what those true gods thought—shocked, suspicious, craving that valuable, or speculating whether Luo Feng was able to use that valuable again. In all of Universe Ocean, Luo Feng was definitely the top great being! And he was much more powerful than everyone else. The human race was also definitely the top race!

“The bad news is,” said Luo Feng, “900,000 Sector Beasts survived in the Land of Darkness, and all of them have left the Land of Darkness. They were approaching Universe Ocean... I myself am not powerful enough to stop all 900,000 from leaving. I think in at least one day, there will be Sector Beasts arriving at the miniature universes from the first universe era.”

“A day?”

“900,000 Sector Beasts in Universe Ocean?”

“Well...”

All the races were flabbergasted. It was a complete nightmare. All the races in Universe Ocean were panic-stricken from only one Sector Beast, and now there were 900,000 of them?

“The first universe era is doomed, and so is the second universe era.”

All the true gods now realized the truth. They were from the original universe, so they could use the original universe and the universe portals of their respective miniature universes to help them all. However, those from the first and the second universe era were left helpless.

Even the original universe was terrified by the prospect of facing 900,000 Sector Beasts. What were they supposed to do?

“Everyone,” said Luo Feng. “I’ve already given you the news. Go prepare yourself. I’ll also spread the news to the first universe era and the second universe era. They should at least know about it in advance.”

The news spread immediately.

It was not just Luo Feng; the other true gods from the original universe also spread the news. The first universe era, the second universe era, Purple Moon Holy Land, and Eastern Emperor Holy Land all received the news.

“This...”

All five true masters of the Divine Eye clan gathered. They looked at each other, wanting to say something, but they didn't know where to start.

“We're doomed.”

“We're doomed.”

“900,000 Sector Beasts. Just one Sector Beast is able to swallow miniature universes in a short time. If there is a large group of Sector Beasts, our miniature universes will be annihilated instantly, which means everyone living in our miniature universes will be killed as well.”

All five true masters were heartbroken. They would have rather died than let their entire race go extinct. However, there was nothing they could do about it now.

“You four!” Divine Eye True Master yelled. “Leave your miniature universes now and get as far away as possible so those Sector Beasts can't find you. Then you four can survive. As for me, I'll try to approach the Sector Beasts to see if they're willing to accept me. If they are, there's a chance our Divine Eye clan can survive.”

“Divine Eye, I'll do that. You four can leave.”

“Teacher!”

The five true gods started to argue. No matter what, the true gods who ran away would be able to survive, but those who chose to stay might actually die! Even if they could succeed, the individuals would have a tragic destiny. The original mind had already sent a message through the Ancestral God School, stating that turning to the side of the Sector Beasts was a pathetic thing to do.

“I'm one of the eight great overlords in Universe Ocean, so I'm of the greatest use!” yelled Divine Eye True Master. “This is my final decision.”

The other four true gods looked at each other in pain.

“Yes.”

After only several minutes, the other four true masters left their miniature universes and started to flee.

Inside Purple Moon Holy Land, Purple Moon Ancestor was stunned by the news.

“9... 900,000 Sector Beasts?” He was walking in the palace by himself. As for the other great beings, he had already told them to leave. “What should I do? If hundreds of thousands of Sector Beasts consume my miniature universe at the same time, I won't be able to resist for long.”

Purple Moon Ancestor couldn't have been more anxious.

“If my miniature universe is destroyed, I won’t have any chance anymore. All my hope will be lost. As for my race, they’ll be gone forever. Why is Milky Way Horde Leader so useless?”

The first universe era, the second universe era, and the two holy lands received the news.

The first universe era and the second universe era had lost all hope, as it was difficult for them even to help each other, so there was no way they could resist 900,000 Sector Beasts all at once! As for the two holy lands, they were relatively large, and they were much more resistant, so it would take a long time. When it came to the miniature universes of true gods, they could be easily finished in a short time.

“Fortunately... Fortunately, I’ve chosen to side with the Sector Beasts.” Nine-Headed Demon Master sat on the throne, feeling relieved. “Although I am now only a slave of the Sector Beasts and have lost my freedom, my fate in the future could be worse. But at least it will be better than theirs. They’ll soon die, but my race can live much longer. In the future, I can even try to transcend incarnations. If I can transcend incarnations, there might be a miracle so that I can escape from beneath the control of Sector Beasts.”

Nine-Headed Demon Master was looking forward to it.

In the space outside the miniature universe of Nine-Headed Demon Master...

Shua!

A winged, silver-armored man appeared. It was Luo Feng, who was rushing back from Tilted Peak Sector as quickly as possible. He had taken a detour and passed by the miniature universe of Nine-Headed Demon Master.

Luo Feng looked at the miniature universe in the distance and smiled coldly. “Sector Beasts need to ask their slaves questions face to face.”

Only Sector Beasts could communicate via their hearts; their slaves couldn’t do that. Morosa had to meet Nine-Headed Demon Master, Dragon Rock Ancestral God, and Zhen Jia Emperor directly anytime it needed to ask them questions.

“I won’t give you any chance to leak any information.” Luo Feng knew that Nine-Headed Demon Master would be staying in his miniature universe, waiting for the Sector Beasts.

“Die.”

Blood Shadow Blade showed up in his hand.

“Destruction,” when performed by a level-five Sector Beast, was strong enough to destroy a miniature universe, and Luo Feng’s supreme blade techniques were already just as powerful as Destruction.

Chapter 1468: The Cruellest Moment

Luo Feng looked afar at Nine-Headed Demon Master's miniature universe. On his body, he wore Wu Qi God, which was instantly propelled to reach its ultimate limit, and the powerful force was directly transmitted to Blood Ghost Blade in his grip.

"Destroy!"

Blood Ghost Blade lit up!

An incredibly dazzling, white-gold, arc-shaped blade of light—almost as long as one light year—flashed mightily across the void space and slashed the membrane wall of the distant miniature universe. Soundlessly, a crack appeared on the membrane walls of the miniature universe. Then the blade of light flew off horizontally toward the origin of the miniature universe.

The origin would be right in the middle of the miniature universe.

"Huh?" On his throne, Nine-Headed Demon Master's expression registered a drastic change. He was greatly taken aback. "What is—?"

The mighty blade of light was incredibly fast. Its speed far exceeded 100 million times light speed. It was important to note that the speed at which the Godly King's corpse drifted was suspected of being able to greatly exceed 100 million times light speed. The attack speed of that blade of light was naturally much faster. Even though the diameter of the miniature universe was quite large, it was estimated that it would not take more than half a day to fly to where the origin was.

Everywhere that the blade light passed by, a crack would appear on the surface, and a great number of life forms living within those spaces would be annihilated.

"What a terrifying blade of light!" Nine-Headed Demon Master was shocked and furious. "It must be Luo Feng. It must be him!"

The Sector Beasts would not attack him. And the other great beings from the various races of Universe Ocean were simply incapable of achieving something like this. Only Luo Feng could possibly accomplish this. The only thing that Nine-Headed Demon Master had not expected was that Luo Feng would be so terrifying.

"I cannot let him destroy the origin." Nine-Headed Demon Master absolutely would not allow such a thing to happen.

Shua!

Nine-Headed Demon Master teleported right away. He boarded a golden battleship, which quickly expanded to a length of one light year. Then it appeared in the peripheral void space of one of the surfaces of the affected spaces, blocking the path on which the white-gold blade of light was advancing.

"I am not going to believe that you can destroy this true god level treasure!" Nine-Headed Demon Master said through clenched teeth.

Even a true god of void space would be unable to destroy a true god's weapon, let alone a battleship especially able to block off material attacks.

"It's coming." Nine-Headed Demon Master held his breath with apprehension.

Hong!

The dazzling, white-gold blade of light slammed and crashed right into the golden battleship. There was a sudden vibration as the arc-shaped blade exploded right away and transformed into an endless shock wave that swept outward in all directions. Suddenly, all the surfaces in the surroundings seemed to become bubbles that burst and disintegrated into nothingness in split seconds. The countless life forms in these spaces were annihilated before they even had the chance to react.

At the same time, the battleship, upon being struck, was overwhelmed by the tremors and thrown far into the distance at high speed.

“Huh?” Luo Feng’s brows furrowed as he stood suspended in the void space outside the miniature universe. “Seems like I still need to get in there.”

Luo Feng drove Star Tower right into the miniature universe, crashing into its membrane wall to cause it to fall apart. Then, right away, he charged inside. Teleporting repeatedly, he made his way deeper into the miniature universe at top speed.

“Freeze.”

Nine-Headed Demon Master, in its tumbling battleship, immediately realized that Star Tower had forced its way in and was teleporting about. It became so frightened that it wasted no time in manipulating the space in his miniature universe so as to prevent Luo Feng from teleporting.

“Humph!” Luo Feng merely snorted coldly. If he hadn’t been rushed for time, he could have flown over at high speed to where the origin was and smashed it to nothingness with one strike! But now, with 900,000 Sector Beasts entering Universe Ocean, time was not a luxury he could afford to waste on Nine-Headed Demon Master. All he could do was execute his trump card.

“Establish a universe with one single thought!” A sharp glint flashed in Luo Feng’s eyes.

At present, Shi Wu Wings, with the “origin” as its core, would bring its energy to undergo a transformation. Then it would execute the fourth level of establishing a universe with one single thought. It was considered to truly be an automaton-type treasure!

Buzz!

A vast miniature universe was born instantly with a diameter as wide as 10,000 light years! When the origin was not being used, Luo Feng would find it an arduous task to execute this move, and the miniature universe would not be able to get so big. But at this moment, it could reach a diameter of 10,000 light years.

At times when there was no origin, the might of the miniature universe that Luo Feng displayed exceeded the might of a miniature universe of a true god, not to mention now.

“Move!” With a single teleportation, Luo Feng covered a distance of close to 50,000 light years.

His Shi Wu Wings were the core of this miniature universe. When the wings changed location, the miniature universe naturally changed, too. The so-called “universe membrane wall” was, in fact, not

worth a mention. Regardless of whether it was the primal universe or the miniature universe of a true god, it was only a small matter when the membrane walls were bombarded and broken, as they would soon be naturally repaired.

The membrane walls were only the equivalent of a boundary! This was the boundary that the power of the origin could influence. The power of the origin could spread into areas within this boundary, but outside this area, the power of the origin could not affect anything.

When Luo Feng teleported, his miniature universe naturally followed suit.

Shua! Shua! Shua!

Every time he advanced, it was a distance of 50,000 light years, so within a short time, a few million light years had been covered. This only enhanced Nine-Headed Demon Master's fear. He was no longer bothered about his miniature universe, as he had quickly boarded his battleship and escaped. But he knew that if Luo Feng caught up with him, it meant certain death.

"Destroy."

Luo Feng wielded his Blood Ghost Blade. The dazzling golden blade light sliced through the faraway origin that was set amidst a vast, chaotic setting. The origin was trying its best to resist, but it was still being bombarded and blown apart. All of the space within the entire miniature universe had collapsed, and all the living beings were annihilated. Only Nine-Headed Demon Master was alive—panicking and escaping in a frenzied manner.

"Escape?" Luo Feng retracted the miniature universe that Shi Wu Wings had created and teleported quickly, chasing after Nine-Headed Demon Master.

In less than two minutes...

"Milky Way Horde Leader," Nine-Headed Demon Master said, trying to explain himself. He was filled with fear within his battleship. "I was left with no choice. I did not want my entire race to be annihilated, and I also..."

Luo Feng gave him a look of indifference.

Star Tower appeared and remained suspended high above. Right away, from the base of Star Tower, an endless darkness shrouded Nine-Headed Demon Master. An infinitely huge miniature universe appeared.

After confining Nine-Headed Demon Master in Star Tower, Luo Feng speedily made his way back. On the way, he made use of "Divine Eye technique" to force Nine-Headed Demon Master out of his battleship, thereafter annihilating him without much difficulty!

Divine Eye technique was an attack on the conscious mind. A palace-type treasure, even one as strong as Star Tower, would not be able to put up a defense against such an ethereal kind of attack on the conscious mind.

Primal universe, the territory of the humans, Milky Way Holy Land.

Numerous gigantic doors of universe passageways were scattered all over the surroundings of Milky Way Holy Land as they remained suspended in void space. Every door of a universe passageway represented a miniature universe.

“Rise!”

“Rise!”

Various true gods were there. Some were gigantic, green plant-type life forms. Some were true gods in the form of long, winding beasts. Some were towering, mountain-type life forms. All the true gods from the primal universe had arrived at Milky Way Holy Land and constructed their universe passageways amid the surroundings. This way, help could arrive at any miniature universe in the fastest possible time.

In the past, true gods had not dared to enter other miniature universes because the moment they entered another miniature universe, their lives—and their deaths—would be under the control of the other party.

But now, things were different! The power of the origin of a miniature universe was limited, it was still inferior to Luo Feng’s technique of establishing a universe with a single thought. In the past, true gods had not owned automaton-type treasures; many had not even owned palace-type supreme true treasures, which naturally made it easy for the power of the origin of a miniature universe to kill a true god. Even with a palace supreme true treasure, true gods were still easily suppressed for eternity, and escape was impossible.

But now, the true gods were more powerful, and they also had automaton-type treasures. Even the power of the origin of a miniature universe would not be able to exert any oppressive force.

“Milky Way.”

“Milky Way Horde Leader.”

“Milky Way Horde Leader.”

When Luo Feng appeared, all the true gods who had constructed universe passageways greeted him right away. There were even some who naturally responded with traces of deference. Within Universe Ocean, it had always been the great beings with physical power who reigned supremacy! With Milky Way Horde Leader’s power, he would undoubtedly gain great respect. Moreover, he now represented the hope of the various races. Who would dare ignore his presence?

“Attention, all.” Luo Feng looked around at the large group of true gods. “In the face of this crisis, all of us from the primal universe must unite. It is very rare for humans to have huge godly bodies, but most of you here do have huge godly bodies. When it comes to confronting the Sector Beasts, we will need to rely on any help all of you can render.”

It was true. Among the human race, those who became true gods were those who were almost universe masters a trillion centuries prior. There was also a portion of newly appointed true gods who had emerged after that. These were talents like Fire Dome True God.

Because humans normally had small godly bodies, even if they had the ability to divide bodies, it was hard to come by individuals with large godly bodies. As for the other life forms—like the mountains and the trees and plant types—they were naturally endowed with exceptionally large godly bodies.

“We will all try our very best.”

“We shall fight this battle to our deaths.”

One by one, the true gods responded. Luo Feng nodded gently. His expression did not ease up a bit. There was simply no way to find these responses reassuring.

“Luo Feng.” Suddenly, streams of flowing light were seen from a distance. Instantly, the lights descended, and Primal Chaos City Leader, Nine Remoteness True Master, and several other true gods appeared.

“Teacher.” Luo Feng approached the group to extend his welcome.

“Just as you have expected,” Primal Chaos City Leader said solemnly, “the Sector Beasts have started to attack the peripheral miniature universe of the first reincarnation era. Such a vast and mighty sea of Sector Beasts... There is simply no way we can stop them.”

Luo Feng remained silent. Of course, he knew. By relying on Morosa, he knew everything about the Sector Beasts. Yet, even if he knew, what could he do about it?

“Milky Way Horde Leader, please save my Skeleton race.”

“Milky Way Horde Leader! Oh, please save the people of my Rampaging Clan.”

“Milky Way Horde Leader...”

One after another, the true gods were begging for help.

When news broke about miniature universes from the first and second reincarnation eras being attacked, the true gods from these two reincarnation eras went into a frenzy and went about begging for help. Even those whose miniature universes had yet to be attacked were starting to seek help. However, the human race, as well as the various races from the primal universe, did not send out a single army to help!

“Sorry. There’s nothing I can do. Dear all, there is no stopping this. It is better for you to all run for your dear lives.”

Luo Feng replied most courteously, but the cruelty embedded in his words made everyone from the first and second reincarnation eras despair. Regardless of whether it was Luo Feng, Primal Chaos City Leader, or Nine Remoteness True Master, there was only rejection. No grounds for discussion!

“This is the cruelest moment for all of Universe Ocean,” Nine Remoteness True Master said in a low voice.

Even Primal Chaos City Leader could only say, “This is... a calamity!”

Luo Feng merely looked into the void space far in the distance. He knew that in that direction, there was another miniature universe belonging to the Skeleton Race, and at that very moment, it was being devoured. There was nothing he could do about this.

He could only watch it all happen, and there was nothing he could do.

“Skeleton Master, what will become of our Skeleton Race?”

“Almost finished.”

Outside a particular miniature universe, a few thousand Sector Beasts were scattered all over the place, and a black fog shrouded the whole region, with streams of distorted light rays penetrating the void space. At the moment, these few thousand Sector Beasts were devouring a particular miniature universe altogether, causing its origin to be devoured at an extremely fast rate—so fast that the true gods of the Skeleton race were filled with fear. A few more minutes was all that would be required, and the entire miniature universe would be completely devoured.

“I am Skeleton Master! One of the eight heroes of Universe Ocean,” announced Skeleton Master. “I am willing to pledge my allegiance to you, Sector Beasts, but please, I beseech you all to let my Skeleton race go.”

And with that, Skeleton Master sincerely expressed his willingness to seek refuge with the Sector Beasts.

Chapter 1469: Release Teacher Origin

A ferocious Sector Beast gazed at the skeleton life form in front of it. “Skeleton Master? Stop!”

All the thousands of Sector Beasts were able to communicate via their hearts, and they all stopped eating right away.

“According to our plan, we should at least take one slave. Zhen Jia and Dragon Rock don’t know any new information at all.”

“Just take this Skeleton Master.”

“Take him.”

All 900,000 Sector Beasts transmitted their voices and reached a consensus.

“If you’re willing to side with us,” said the black, ugly Sector Beast, “I’ll give you a chance.”

Skeleton Master looked a bit bitter, but he still showed gratefulness. “Yes,” he answered respectfully.

All of a sudden, a bloody engraving picture started to show up in both the singular eyes of the Sector Beast. The two bloody engraving pictures were spinning. Skeleton Master watched the two engraving pictures in the Sector Beast’s eyes, and his soul was mesmerized by them.

“No!”

“Ah!”

“Father!”

The space within one miniature universe started to crumble. The origin of that miniature universe was almost gone, so naturally, all the spaces within the miniature universe started to fall apart and be annihilated. Soon, the origin completely disappeared, and all the spaces were broken like shattered glass. All the life forms in the miniature universe perished.

“Sector Beast, Sector Beast, Sector Beast!” A man with three pairs of black wings hiding in the space in the distance raged. His miniature universe had just been destroyed, and so had his race.

“You’re so useless, Milky Way Horde Leader!” Golden Armor True God from the second universe era roared. “We put our trust in you. Our race will be gone first, and you humans will go extinct, too!”

He didn’t run away. Instead, he chose to stay in his miniature universe to share in the fate of his people.

His race was gone, and his miniature universe was gone. There was no chance that he could transcend incarnations. After the next universe era, he would still die. It was better for him to die now than to die alone in the future.

“I am Divine Eye True Master, one of the eight great overlords, and I used to be the strongest great being in Universe Ocean. I possess a great amount of information, and I’m willing to side with you.”

Divine Eye True Master made a request in the space to Sector Beasts.

Side with us? thought the ferocious Sector Beast.

The other thousands of Sector Beasts swallowing this miniature universe all stopped.

“Okay.” The Sector Beast nodded. “I’ll give you this chance.”

Divine Eye True Master was relieved. Traces of black light burst out from the Sector Beast’s body and penetrated the body of Divine Eye True Master. The armor and other valuables on the body of Divine Eye True Master didn’t stop it whatsoever, and he didn’t even try to resist it.

“Swallow.” The Sector Beast immediately started to absorb him.

Even if a true god had been resisting, it would have only taken a Sector Beast a short time to swallow him, let alone Divine Eye True Master, who wasn’t resisting it at all. After only a short while, half of the godly body of Divine Eye True Master was gone.

“This is...!” Divine Eye True Master was shocked.

“Don’t fight it,” said the Sector Beast furiously. “I have to consume almost all your godly power before I can convert it into the power of Sector Beasts. Only after that will you be our slave.”

Divine Eye True Master was hesitant, but he took the risk.

Soon, all his godly power was devoured. Just before he died, Divine Eye True Master finally understood what had happened. He smiled bitterly and whispered, "Catastrophe!"

Then he was completely annihilated, and only some valuables were left floating.

"Idiot." The Sector Beast smirked. "Eight great overlords? We have Skeleton Master to be our slave already. There's no need for any other slaves."

Then it opened its mouth and swallowed all the valuables left by Divine Eye True Master after he died.

Sector Beasts weren't able to use any of the weapons used by true gods! Their power was exactly the opposite to that of true gods, so they couldn't use them. However, they could still use them in the form of a disguise, such as holding an axe. They could use them as inanimate objects, but they couldn't enlarge them or drive the engravings on them.

Everyone in Universe Ocean was in a daze.

Inside East Emperor Holy Land, East Emperor Ancestor stood in the ancestral tree and looked at the people under him.

"What should we do now, ancestor?"

"Let's go outside."

"Let's go and kill those Sector Beasts."

East Emperor Ancestor shook his head. "No need to struggle. Let's wait for our final destiny."

All the people under him were in despair, but they couldn't do anything about it.

"Ah..." East Emperor Ancestor shook his head. The best he could do was to use his willpower to guard the origin to help resist the swallowing power of the Sector Beasts. His willpower was already at the pinnacle eternal true god level! Once he used it to guard the origin, it would indeed slow down those Sector Beasts to a large extent. And besides, the origin of his miniature universe was more powerful than that of Purple Moon Ancestor.

"Huh?" East Emperor Ancestor was shocked. "They stopped?"

He could clearly tell that those Sector Beasts outside had stopped swallowing the origin.

"I've got a great opportunity," said Purple Moon Ancestor, "and I haven't been truly powerful yet! Is this the end for me? No! I can't!"

Purple Moon Ancestor stood in the origin of his Purple Moon Holy Land and looked around. He yelled in agony.

Suddenly, he looked stunned and joyful. "They stopped?"

The Sector Beasts were marching forward, all the while passing along messages.

“It’s too difficult to swallow the origins of the two holy lands. East Emperor Holy Land has the strongest resistance. Purple Moon Holy Land has a weaker resistance, but it’s still much stronger than the miniature universes of those true gods. If we keep swallowing, it’ll take a long time for us to finish them. The two holy lands didn’t have any effect on us, so let’s let them go first. Time is very important, and we need to seize the moment. Luo Feng is our greatest enemy now.”

“Let’s keep going.”

“Destroy the first and the second universe era first.”

The Sector Beasts stuck together, working as a team. One miniature universe after another, all the races from the first and the second universe era were annihilated. There were many calls for help, and many swearing messages were sent to the original universe, yet the races in the original universe, including Luo Feng, didn’t say anything about it.

Calls for help, grudges, and curses—all kinds of messages were sent.

Everyone in the original universe was terrified. One race after another was being annihilated.

“Ancestral God School.”

Luo Feng and Primal Chaos City Leader showed up in the ancestral god secret region. They two were the leaders of the original universe. After the Sector Beasts destroyed the first and the second universe eras and started to advance toward the original universe, they came to the Ancestral God School.

Sou! Sou!

They both headed toward the ancestral god palace. The three ancestral gods sensed that they had arrived, so they let go of the seal so that they could teleport.

“Ancestral gods,” Luo Feng and Primal Chaos City Leader said, stepping into the ancestral god palace.

The young ancestral god, the old ancestral god, and the double-faced ancestral god were all sitting on their thrones.

The old ancestral god said, “Milky Way Horde Leader and Primal Chaos City Leader, this is the most crucial moment. The Sector Beasts might arrive in one or two days. This is a very vital time, so why are you two here? I’ll ask some great beings from the Ancestral God School to go to Milky Way Holy Land later.”

“The Sector Beasts are coming,” replied Primal Chaos City Leader, “and there are too many of them. They’ll consume the universe origins quickly. Milky Way Horde Leader and I came here because we hope that the original mind can let Teacher Origin go! If Teacher Origin doesn’t have his willpower to guard his miniature universe, his miniature universe will be swallowed instantly.”

Normally, for miniature universes of true gods, it would take thousands of Sector Beasts a few minutes to devour the origin. However, the primal universe didn't have the willpower of true gods to protect it, so it would be instantly annihilated.

"Please, original mind, let go of Teacher Origin," said Luo Feng.

"Let Teacher Origin go?" The three ancestral gods looked at each other.

Normally, they would've rejected the request of Luo Feng and Primal Chaos City Leader. After all, Teacher Origin had provoked the original mind, and that was why he had been suppressed. The original mind wouldn't just let him go so easily. Yet this was a special moment—a moment that would determine the fate of all the races in the original universe.

"Let us contact the original mind first," said the old ancestral god.

"Good."

"Let's wait."

Primal Chaos City Leader and Luo Feng answered, but they were clearly under pressure! If Teacher Origin couldn't be released, the primal universe was destined to be annihilated.

Hong!

An invisible force showed up as the original mind had arrived. All three ancestral gods had closed their eyes and started to listen to what the original mind wanted to say. After a long time, they all opened their eyes and looked at Luo Feng and Primal Chaos City Leader apologetically.

That look dazed Luo Feng. The answer appeared to be "No!"

"Is the original mind willing to release Teacher Origin?" asked Primal Chaos City Leader, looking pale.

Luo Feng also stared at the three ancestral gods.

The three ancestral gods looked at each other, and then the young ancestral god said, "The original mind has told us everything. There's no way Teacher Origin will be released. However, the original mind will stop suppressing his willpower. He can then condense a godly powered avatar in the primal universe so that he can guard his miniature universe with his willpower."

"Why would it do that?" Luo Feng frowned. "If it's not suppressing his willpower anymore, why doesn't it just let him go?"

Teacher Origin was suppressed, including his willpower. He couldn't even condense a godly power avatar outside. Otherwise, he wouldn't have let Primal Chaos City Leader be in charge of the primal universe. Teacher Origin used his technique "virtual universe," which spread everywhere. That was how he sensed everything. However, his original body and his willpower were both still suppressed.

"Milky Way," the old ancestral god said with a sigh. "Teacher Origin was very powerful before, and now that he's obtained the inheritance of the ancient civilization, he's even more powerful! If he gets out, he'll be at your level with the help of a machine-type valuable. With his power and yours, the original universe will stand a much better chance. The original mind would've let him go if it could do that. To

tell you the truth, Teacher Origin broke the supreme laws before, and he was restrained by the supreme laws, and that was why the original mind suppressed him and didn't have a right to release him. If you can solve the problem of the Sector Beasts, you will have made a great contribution, and only after that can Teacher Origin be let go."

Chapter 1470: Release Teacher Origin

A ferocious Sector Beast gazed at the skeleton life form in front of it. "Skeleton Master? Stop!"

All the thousands of Sector Beasts were able to communicate via their hearts, and they all stopped eating right away.

"According to our plan, we should at least take one slave. Zhen Jia and Dragon Rock don't know any new information at all."

"Just take this Skeleton Master."

"Take him."

All 900,000 Sector Beasts transmitted their voices and reached a consensus.

"If you're willing to side with us," said the black, ugly Sector Beast, "I'll give you a chance."

Skeleton Master looked a bit bitter, but he still showed gratefulness. "Yes," he answered respectfully.

All of a sudden, a bloody engraving picture started to show up in both the singular eyes of the Sector Beast. The two bloody engraving pictures were spinning. Skeleton Master watched the two engraving pictures in the Sector Beast's eyes, and his soul was mesmerized by them.

"No!"

"Ah!"

"Father!"

The space within one miniature universe started to crumble. The origin of that miniature universe was almost gone, so naturally, all the spaces within the miniature universe started to fall apart and be annihilated. Soon, the origin completely disappeared, and all the spaces were broken like shattered glass. All the life forms in the miniature universe perished.

"Sector Beast, Sector Beast, Sector Beast!" A man with three pairs of black wings hiding in the space in the distance raged. His miniature universe had just been destroyed, and so had his race.

"You're so useless, Milky Way Horde Leader!" Golden Armor True God from the second universe era roared. "We put our trust in you. Our race will be gone first, and you humans will go extinct, too!"

He didn't run away. Instead, he chose to stay in his miniature universe to share in the fate of his people.

His race was gone, and his miniature universe was gone. There was no chance that he could transcend incarnations. After the next universe era, he would still die. It was better for him to die now than to die alone in the future.

“I am Divine Eye True Master, one of the eight great overlords, and I used to be the strongest great being in Universe Ocean. I possess a great amount of information, and I’m willing to side with you.”

Divine Eye True Master made a request in the space to Sector Beasts.

Side with us? thought the ferocious Sector Beast.

The other thousands of Sector Beasts swallowing this miniature universe all stopped.

“Okay.” The Sector Beast nodded. “I’ll give you this chance.”

Divine Eye True Master was relieved. Traces of black light burst out from the Sector Beast’s body and penetrated the body of Divine Eye True Master. The armor and other valuables on the body of Divine Eye True Master didn’t stop it whatsoever, and he didn’t even try to resist it.

“Swallow.” The Sector Beast immediately started to absorb him.

Even if a true god had been resisting, it would have only taken a Sector Beast a short time to swallow him, let alone Divine Eye True Master, who wasn’t resisting it at all. After only a short while, half of the godly body of Divine Eye True Master was gone.

“This is...!” Divine Eye True Master was shocked.

“Don’t fight it,” said the Sector Beast furiously. “I have to consume almost all your godly power before I can convert it into the power of Sector Beasts. Only after that will you be our slave.”

Divine Eye True Master was hesitant, but he took the risk.

Soon, all his godly power was devoured. Just before he died, Divine Eye True Master finally understood what had happened. He smiled bitterly and whispered, “Catastrophe!”

Then he was completely annihilated, and only some valuables were left floating.

“Idiot.” The Sector Beast smirked. “Eight great overlords? We have Skeleton Master to be our slave already. There’s no need for any other slaves.”

Then it opened its mouth and swallowed all the valuables left by Divine Eye True Master after he died.

Sector Beasts weren’t able to use any of the weapons used by true gods! Their power was exactly the opposite to that of true gods, so they couldn’t use them. However, they could still use them in the form of a disguise, such as holding an axe. They could use them as inanimate objects, but they couldn’t enlarge them or drive the engravings on them.

Everyone in Universe Ocean was in a daze.

Inside East Emperor Holy Land, East Emperor Ancestor stood in the ancestral tree and looked at the people under him.

“What should we do now, ancestor?”

“Let’s go outside.”

“Let’s go and kill those Sector Beasts.”

East Emperor Ancestor shook his head. “No need to struggle. Let’s wait for our final destiny.”

All the people under him were in despair, but they couldn’t do anything about it.

“Ah...” East Emperor Ancestor shook his head. The best he could do was to use his willpower to guard the origin to help resist the swallowing power of the Sector Beasts. His willpower was already at the pinnacle eternal true god level! Once he used it to guard the origin, it would indeed slow down those Sector Beasts to a large extent. And besides, the origin of his miniature universe was more powerful than that of Purple Moon Ancestor.

“Huh?” East Emperor Ancestor was shocked. “They stopped?”

He could clearly tell that those Sector Beasts outside had stopped swallowing the origin.

“I’ve got a great opportunity,” said Purple Moon Ancestor, “and I haven’t been truly powerful yet! Is this the end for me? No! I can’t!”

Purple Moon Ancestor stood in the origin of his Purple Moon Holy Land and looked around. He yelled in agony.

Suddenly, he looked stunned and joyful. “They stopped?”

The Sector Beasts were marching forward, all the while passing along messages.

“It’s too difficult to swallow the origins of the two holy lands. East Emperor Holy Land has the strongest resistance. Purple Moon Holy Land has a weaker resistance, but it’s still much stronger than the miniature universes of those true gods. If we keep swallowing, it’ll take a long time for us to finish them. The two holy lands didn’t have any effect on us, so let’s let them go first. Time is very important, and we need to seize the moment. Luo Feng is our greatest enemy now.”

“Let’s keep going.”

“Destroy the first and the second universe era first.”

The Sector Beasts stuck together, working as a team. One miniature universe after another, all the races from the first and the second universe era were annihilated. There were many calls for help, and many swearing messages were sent to the original universe, yet the races in the original universe, including Luo Feng, didn’t say anything about it.
