

SWALLOWED 1471

Chapter 1471: Force Luo Feng

Luo Feng and Primal Chaos City Leader left the ancestral god palace and went to the primal universe.

On a piece of land in the primal universe, Luo Feng and Primal Chaos City Leader showed up and stood shoulder to shoulder. A being was condensed in the mist in the distance, and a white-caped man walked toward him.

“Teacher!” Primal Chaos City Leader’s body shook. He took a few steps, then shed a few tears.

The white-caped Teacher Origin walked toward Primal Chaos City Leader and looked at him, “My child! You look totally different now. Seeing you in the virtual universe is different from seeing you in reality...”

Primal Chaos City Leader couldn’t help crying. Teacher Origin was the person closest to him in this world, and he had been guiding him this whole time.

“Teacher.” The voice of Primal Chaos City Leader was trembling.

“Okay.” Teacher Origin nodded. “I didn’t realize that the original mind would lift the suppression on my willpower. I need to thank Luo Feng for that!”

“Teacher Origin.” Luo Fen also bowed.

Teacher Origin had been the leader of the human race in the earliest era. Without him, the human race might not have even become a pinnacle race. Without him, there wouldn’t have been Primal Chaos City Leader or Huge Axe. And Luo Feng might have walked a different path and wouldn’t have achieved his various accomplishments.

He had made such significant contributions that he was qualified to be called the ancestor of the humans.

“I have my willpower to guard my miniature universe. Even if it’s eaten by the Sector Beasts, it can still last for a while.” Teacher Origin smiled. “My willpower is much stronger than that of other true gods.”

Luo Feng nodded. The stronger someone’s willpower was, the harder it would be for Sector Beasts to eat the miniature universe. Teacher Origin was certainly at the level of a true god of void space in terms of comprehension and conception! He was being suppressed, which was why he hadn’t made a breakthrough. His willpower had been suppressed by the original mind for a long time! That suppression was also a great way to sharpen willpower. The willpower of Teacher Origin was terrifically powerful, and could certainly rival Luo Feng, who had met with great opportunities.

“Go!” said Teacher Origin. “The Sector Beasts are coming. Don’t let me distract you. The most important thing is to deal with the Sector Beasts.”

“Okay.” Primal Chaos City Leader nodded.

Luo Feng also nodded.

Luo Feng did admire Teacher Origin. After all, he hadn't had the benefit of the ancient civilization before, yet he had still been able to create a technique like "virtual universe." Besides, Teacher Origin appeared gentle and elegant. They had no idea what he had done to break the supreme laws.

More and more great beings gathered in Milky Way Holy Land. Before, only representatives of the races had been there, but now, almost all the great beings were gathered here.

Many original bodies of true gods had gathered here, and they also had godly power avatars to be connected to the virtual universe!

In the floating godly palace in the virtual universe, Luo Feng and Primal Chaos City Leader sat up top, while other true gods were sitting around.

"Everyone." Luo Feng looked around. "The miniature universes of the second universe era have been annihilated. It's vital to know about the Sector Beasts. I have a method to know exactly where all the Sector Beasts are. I'll give you all the locations of the Sector Beasts now."

Everyone was exhilarated. They were all guarding their own miniature universes, so it was better for them to know the whereabouts of the Sector Beasts.

"Just look." Luo Feng pointed at the space in front of him. Suddenly, a giant picture with a diameter of one million kilometers showed up. There were signs of miniature universes in the picture. "This is a picture of Universe Ocean. Both holy lands and all the miniature universes are marked on the picture, and there are also other reference points."

All the true gods looked at that picture.

"This is the location of the Sector Beasts," said Luo Feng.

Tightly grouped spots of light appeared on the picture. There were so many spots that the true gods grew worried.

900,000? It sounded self-explanatory, but when all 900,000 spots appeared, they were so dense that even the true gods felt anxious.

"Please, look," said Luo Feng. "900,000 Sector Beasts in total, and the half at the periphery haven't even acted yet. About 10,000 Sector Beasts are gathered around three miniature universes, and they're consuming them. The other half are approaching the original universe."

Everything looked so clear on the picture. There were around 450,000 light spots, and they were all flying toward the original universe. Seeing those 450,000 spots of light flying toward them terrified everyone.

"How are we supposed to resist them?"

"How are we supposed to resist so many Sector Beasts?"

"We only have less than 100 true gods. If several thousand Sector Beasts swallow one miniature universe, we can only stop a few dozen of them. What should we do?"

Everyone panicked. They had been worried about it for a long time.

“This is a catastrophe!” shouted Nine Remoteness True Master. “We’ll be lucky to even get through this alive! To resist them? Even if our miniature universes are all swallowed, what can be worse than that? We can still stay alive without our miniature universes! As long as we can kill all the Sector Beasts in this era, there ought to be new true gods born on our side.”

It had only been one trillion eras since Luo Feng had risen to power. There were still several trillion eras until this universe era ended, and many talents who were cultivated in the past trillion eras had become universe masters. If there was enough time, they could certainly become true gods.

Several trillion eras... It would be easy for the original universe to breed another 100 true gods.

“As long as we annihilate the Sector Beasts,” said Nine Remoteness True Master pointedly, “there will be new true gods born! Even all our miniature universes are destroyed, we can still live in the new miniature universes. If a true god can successfully transcend incarnations, his race will live forever.”

“We have to get past this.”

“That’s right!” yelled many true gods.

However, many true gods were still worried. Major powers like the human race and the Ancestral God School could breed new true gods in the next several trillion eras. As for some of the smaller races—like the other races in the Hong Alliance or some races in the remote territories—a single true god being born was already lucky for them. Besides, not every true god was willing to see his miniature universe broken. Once a miniature universe was destroyed, that true god could never break through in the future.

“Milky Way, Teacher Origin!” The true gods of the human race wanted nothing but to protect the miniature universes of Teacher Origin and Luo Feng. After all, both Luo Feng and Teacher Origin were guaranteed to become true gods of void space and to transcend incarnations!

Thoughts flooded their minds, but those races didn’t have any other recourse. They could only do their best.

Luo Feng had one thought as well: “No matter what, let’s survive this catastrophe first!” Luo Feng had already prepared for his miniature universe to be broken. Although he was reluctant for this to happen, he was mentally prepared for it.

“Huh?” Luo Feng looked down.

Many true gods were sitting down there, and in a corner sat Sitting Mountain Guest.

“Teacher?” Luo Feng took a look, and Sitting Mountain Guest nodded mildly at him.

“Teacher’s also here.” Luo Feng sighed. Sitting Mountain Guest had never attended the meetings of the true gods before. However, this was related to all the races in the original universe now, so even Sitting Mountain Guest had come this time. His own miniature universe was threatened as well.

Time flew. Curse-filled messages were sent from the communications tokens of true gods from the first universe era and the second universe era. Those who managed to survive hid in Universe Ocean. As for their miniature universes, their races, and their friends, they were all annihilated.

Presently, the Sector Beast race was divided into two teams. Both teams had more than 450,000 Sector Beasts!

“Master.” Morosa pointed at the model of Universe Ocean. “The Sector Beasts are divided into two teams. The first team of the 450,000 is at the periphery. They were originally in the region where the miniature universes from the first universe era are. They’re scattered far apart from each other.”

Luo Feng looked at the model. More than 450,000 spots of light were gathered in that area. It looked quite dense, but actually, each light spot was over ten million light years away from the next one.

“The other team is approaching this area,” Morosa said, pointing. “Look. The second team of 450,000 Sector Beasts is not flying toward the miniature universes of the original universe, but are proceeding toward your miniature universe.”

Luo Feng looked at it carefully.

The original universe was enormous, so the miniature universes of true gods from the original universe were also scattered in different areas of the original universe. If they wanted to attack all the miniature universes, those Sector Beasts would be separated into dozens of teams, yet they now still gathered together.

The dense spots of light all marched toward the miniature universe of Luo Feng. Although they all gathered together, each of the Sector Beasts was still more than ten million light years away from its nearest comrade.

“Huh?” Luo Feng frowned. “What does that mean?”

“Those 450,000 Sector Beasts will arrive at Master’s miniature universe very soon,” said Morosa.

Time flew by. After only a short while, 450,000 Sector Beasts all converged on the miniature universe of Luo Feng from every direction.

“They want to swallow my miniature universe?” Luo Feng frowned.

He had Star Tower in his hands, which was a godly king level valuable. The godly body that seemed to belong to Godly King of Jin was over 100 million light years long, so it was possible that such a godly king level valuable could become billions of light years tall, or even taller. However, the larger Star Tower was, the more godly power it required.

If they leave me no choice, I’ll just cover my miniature universe with Star Tower and slaughter all those Sector Beasts, Luo Feng thought.

However, Luo Feng couldn’t be too far away if he wanted to control Star Tower at that size.

“Master!” Morosa was shocked as it said, “Master! The first team, the first team...!”

“Huh?” Luo Feng took a look.

450,000 Sector Beasts at the first universe era area started to team up and drew closer.

“Master!” Moros was stunned. “The second team of 450,000 Sector Beasts is already close to your miniature universe, and it’ll only take a minute for them to arrive and start swallowing. As for the Sector Beasts from the first team, they’re teaming up and fighting each other. 100,000 Sector Beasts have already been killed!”

Luo Feng was terrified. He understood now that if those 450,000 Sector Beasts kept fighting and eating each other, a level-six Sector Beast would soon be born.

Should Luo Feng go and stop them? If he went, the 450,000 Sector Beasts would swallow his miniature universe! If he didn’t go, a level-six Sector Beast would be born.

The death of his miniature universe or the birth of a level-six Sector Beast—one of these two would happen. They were forcing Luo Feng to choose.

Chapter 1472: Protection

He could only choose one out of the two!

Luo Feng’s eyes revealed his choice instantly. “I have no other options!”

For everything that he wholeheartedly sought to protect, even if it meant sacrificing himself, it would be worthwhile. Besides, this was only his miniature universe. The destruction of a miniature universe would only mean that he would no longer be able to rise up the ranks. That was all.

In the virtual universe, within the floating godly palaces, the true gods of the primal universe had gathered. A map that represented everything within Universe Ocean was suspended high above them all.

Nine Remoteness True Master, Space Beast Ancestor, Shi Hua Island Leader, and all the other true gods were all staring at the map, which was densely covered with spots of light. All of them were worried.

“The Sector Beasts have divided into two groups?”

The true gods were upset. Sitting high up above them, the white-robed form of Luo Feng looked down. He did not hide anything from them. In the face of a life-and-death crisis, there was nothing worth hiding.

“Attention, all,” he announced. “Now the Sector Beasts have divided themselves into two groups, 450,000 Sector Beasts are surrounding my miniature universe, prepared to close in on my miniature universe to start devouring it at any moment. The other group also consists of 450,000 Sector Beasts, they are now at the region where the miniature universe of the first reincarnation era originally was. Presently, they are working in pairs, fighting and devouring one another. The victorious ones will continue in pairs to fight and kill... If such fighting and killing continues, evolution will happen among the

450,000 Sector Beasts. An extremely terrifying individual will emerge. If one reaches the sixth stage, then even someone like me will lose all hope.”

Sixth-stage Sector Beasts were able to divide themselves into ten million bodies. No matter how powerful someone could be, in the face of such power, the most one could achieve was to kill a single body. Under the restriction of the Invisible Law, Morosa would be forced to fight against that sixth-stage Sector Beast and be killed in that fight. The moment that sixth-stage Sector Beast finished off the others and became king, it would personally breed a great many warriors. Those warriors would be even more terrifying than the sixth-stage Sector Beast. Such a mighty army would definitely be able to wipe out everything.

“Working in pairs to catch and fight one another?”

“If this goes on, soon, one will evolve into a super Sector Beast.”

“Only Milky Way Horde Leader might possibly be able to put a stop to all of this. But if he were to head over there, the 450,000 Sector Beasts surrounding his miniature universe would immediately start devouring it.”

The true gods were all transmitting their thoughts amidst their conversations, discussing the issue with great anxiety.

Currently, everyone was at a loss. This was a pair of extremely tough choices.

The Sector Beasts were born to be arrogant. Every single beast yearned to become the king. And now, they were working in pairs as they fought and killed. It was, in fact, not a fair system. Take a second-stage Sector Beast, for instance. Normally it would be fighting against other second-stage Sector Beasts. This way, it could continue to grow and develop. But now, in a pairing system, it would be forced to fight against any variety of other pairs—even pairs of third-stage Sector Beasts. And even if it knew that it was headed for its own doom, there was no way it could avoid it.

The 450,000 Sector Beasts that were tasked to keep Luo Feng trapped by surrounding him had even lower chances of becoming a sixth-stage Sector Beast. Such an allocation of strength was unfair.

If the threat was not so significant, the Sector Beasts would absolutely not choose such a method to determine their ultimate king! But Luo Feng was much too intimidating. They were forced into submission when they faced him, so they opted for the cruelest method of killing to choose their king.

Though cruel, the method worked effectively. Luo Feng and the various races of Universe Ocean had fallen into a desperate situation.

Luo Feng looked down at the numerous true gods who were all engaged in a heated discussion.

“Luo Feng.” Seated at his side, Primal Chaos City Leader sent a voice transmission. “Needless to ask what they are all thinking. They hope that you, Luo Feng, can go and fight on their behalf... although it might cost you your miniature universe. But whether or not your miniature universe is destroyed, the other races really could not be bothered. It’s just that they do not dare breathe a word about it, lest they anger you.”

Luo Feng nodded. He understood this point. He transmitted his reply to Teacher. "I am given no choice at all."

Primal Chaos City leader sighed lightly. True. No choice at all.

Luo Feng looked down at the various true gods and finally opened his mouth to speak. "Dear all."

The various true gods all looked up and listened intently.

"Stemming the tide of the Sector Beast calamity is of the utmost importance..." Luo Feng announced. "I will head over to the region where the miniature universe of the first reincarnation era is without further delay. And I will do my best to deal with this Sector Beast threat."

"Teacher!"

"Milky Way."

"Luo Feng!"

Right away, the human true gods were shouting. Fire Dome True God and Hong were all the more worried. If Luo Feng had chosen to set off for the other region, then his miniature universe, which was of such a massive size, would have been difficult to protect, even if there was help from the other true gods. It could almost have been said that his miniature universe was destined to be devoured by the Sector Beasts. This would sever Luo Feng's future, and he would no longer be able to progress further up the ranks.

"No need to talk me out of it," Luo Feng said. "My miniature universe is large enough. Perhaps it can endure for a much longer time."

"But those are 450,000 Sector Beasts..." Fire Dome True God was anxious.

Luo Feng shook his head. "I have no choice!"

The human true gods, who initially had been trying to talk Luo Feng out of his decision, fell silent. Even the demon and bug true gods, who would normally express some degree of gloating over another's misfortunes, all felt a sinking feeling in their hearts. It was true. There was no choice at all. Even Milky Way Horde Leader was left with no choice. They, the various races, were all the more pathetic and helpless; they could only pray that Milky Way Horde Leader would succeed. If not, they were all bound for annihilation.

"This time, as I set off, I do so without 100 percent confidence." Luo Feng shook his head. "The 450,000 Sector Beasts at the region of the first reincarnation era have been fighting one another, and many have already been annihilated. They are scattered. When I catch them in their pairs, the most I will be able to kill, along with the first two I find, would be the other two fighting against this pair. This way, even if I have to kill any, I will not be able to do so in a large-scale approach..."

The true gods below him all felt the same sinking feeling in their hearts again.

"I will do my best to deal with the Sector Beasts," Luo Feng continued. "As for protecting your own miniature universes, that will be up to you all. I cannot afford to be distracted further."

Silence.

The true gods looked at one another. Although they were all unwilling to accept such a decision, they were also aware that Luo Feng was not even able to protect his own miniature universe. It would be even more difficult to protect their miniature universes.

“Milky Way Horde Leader, you go ahead. You are already putting your own miniature universe at risk. Even if we were to lose our miniature universes, it would not be a big deal.”

“Yes. The possibility of us transcending reincarnation was originally so low that it could be regarded as negligible. With or without a miniature universe, it barely makes a difference.”

“Milky Way Horde Leader, no need to be distracted over us.”

“Against the Sector Beast crisis, we are all so powerless, but we will certainly not do anything to affect Milky Way Horde Leader.”

At this juncture, the true gods of the various races were still able to determine what was more pressing. Exterminating all the Sector Beasts eclipsed all else. Everything else could be sacrificed, regardless of how unwillingly the sacrifice was made. But with that great army of Sector Beasts laying siege and charging at them, how would their miniature universes be able to ward off the attacks? They had to accept this, and at the same time, they had to fervently pray that Luo Feng would succeed.

This was a true calamity! If they could pull through to survive it, that would be considered a victory.

Just as the true gods of various races were caught up in their discussion, Sitting Mountain Guest, who was seated in a corner as he quietly observed everything that was going on, revealed a trace of a smile. “This truly is my disciple. No one can perceive his internal struggle and hesitation! Knowing what goes through his mind, I can tell his disposition. He is acting out of his own free will. His intention to help... Even though he has become the Number One Master of Universe Ocean, his heart is still as clear as before, untarnished by all the filthiness around him.”

Sitting Mountain Guest was crystal clear. When those who were weaker made their ascent, step by step, it was still possible for others to discern what was going through their minds and to know their disposition. Then it would be possible to know what their original intentions were and, appropriately, cut off all thoughts of temptations. But the moment one became a most powerful existence... By that time, they could naturally request for and possess so much more. That was when the human heart got greedier and started to long for more. This was when continuing to maintain a clear heart became something trying.

“Luo Feng.” Sitting Mountain Guest transmitted his voice.

Seated at the highest level, Luo Feng involuntarily turned to look at Sitting Mountain Guest.

“Teacher.” Luo Feng transmitted his reply.

“You can set off,” Sitting Mountain Guest said. “Go handle the threat of the Sector Beasts. As for your miniature universe... you need not worry. I will head over to your miniature universe right away. For the

time being, I will stay within your miniature universe. I have a treasure with me, and I will try my very best to protect your miniature universe to prevent it from being devoured.”

“What?” Where he was seated, Luo Feng was shocked. Beside him, even Primal Chaos City Leader could sense that Luo Feng seemed to have undergone a change in demeanor. He could not help turning over to look at Luo Feng.

“Teacher.” Luo Feng was shocked beyond measure. “You are saying you will protect my miniature universe?”

“Mm.” Sitting Mountain Guest continued to reply via voice transmission. “Right.”

“Teacher, what about your own miniature universe?” Luo Feng quickly asked.

“I can only protect one,” Sitting Mountain Guest replied right away.

The true meaning of what he had just said was that the moment Sitting Mountain Guest entered Luo Feng’s miniature universe to try his best to help Luo Feng, his own miniature universe would be neglected. He could not divide his attention between two miniature universes.

Luo Feng became very anxious. “Teacher, your miniature universe. The moment it gets devoured, my miniature universe—”

“Say no more,” Sitting Mountain Guest said. “It would be pointless. Even if I were to transcend reincarnation, your survival is more important! I have put so much effort into cultivating you, and you are much stronger than I ever imagined. Your potential is boundless. How can such a promising future be so easily severed...? Then all of my expectations and efforts throughout these endless years would come to naught.”

Luo Feng was taken aback.

True. He was more than willing to sever the possibility of further advancement in the future. But did he spare a thought for Sitting Mountain Guest? Teacher Sitting Mountain Guest had taken him under his wing to cultivate him. If Luo Feng was no longer able to advance, that would definitely dash all of Sitting Mountain Guest’s hopes and expectations.

“Think no more,” Sitting Mountain Guest said. “It is not a big deal if I cannot attain the void space level. You must transcend reincarnation. That is most important. In the future, you will come to learn of all the secrets, and by then, you will understand the reason why I, your Teacher, have to do all this. Go. Put in your very best effort to deal with the Sector Beasts. Your miniature universe... Teacher will protect it in its entirety, even if it costs me my life.”

Luo Feng was seated on his throne, high and mighty above all. Looking at Sitting Mountain Guest, who was seated in a faraway corner, he shut his eyes. His heart was trembling.

Maybe Sitting Mountain Guest was making use of him. Or maybe he had some other plan in mind. But for a trillion eras, as Luo Feng had grown up and matured, Sitting Mountain Guest had never once requested his help before. On the contrary, Sitting Mountain Guest had always been the one helping him! Even up until now, Sitting Mountain Guest was still helping him... Such great kindness far surpassed all the help that True Yan and Primal Chaos City Leader had ever rendered.

Luo Feng had always had this nagging feeling that Sitting Mountain Guest had some kind of plan, which was why there was always a barrier within his heart that he could not overcome. However, regardless of it all, Sitting Mountain Guest had, undoubtedly, always helped him. Even if it meant having to give up on his own miniature universe, he insisted on helping Luo Feng!

“Teacher,” Luo Feng silently said to himself, “when this Sector Beast crisis is over and everything I need to protect is safe, I, Luo Feng, will repay you for your great kindness. Even if I die doing so, I do it most willingly!”

Sou!

At the membrane walls of the endlessly huge primal universe, a lone figure penetrated through and flew out. He wore a suit of silver armor, and there were five pairs of wings behind him.

“Sector Beasts...” A glimmer of a ferocious ray of light flashed in Luo Feng’s eyes. Then he flew off and disappeared within the endless chaotic airflow.

At the same time that Luo Feng left the primal universe, outside the portal that led to Luo Feng’s miniature universe from Milky Way Holy Land, Sitting Mountain Guest—who sat cross-legged on a mountain peak—came floating over. In his eyes was peace, with no trace of happiness or sorrow. The guards had already received orders regarding his arrival, so naturally, none would dare to block his way. Sitting Mountain Guest flew smoothly, right into the portal.

Chapter 1473: Swallow Luo Feng’s Universe

Inside the miniature universe of Luo Feng, Sitting Mountain Guest flew into a dimension space that was gradually being formed. He observed the miniature universe and thought, The structure of this miniature universe is indeed exceptional.

Though he didn’t know the true structure of this miniature universe, he could still sense that it was different.

“Luo Feng.” Sitting Mountain Guest waved his hands, and an exquisite palace showed up beside him. He stepped in and said, “I’ll stay in your miniature universe now. As for those 450,000 Sector Beasts, they’re staying right outside your miniature universe... Just sense them carefully. Once they start to attack, tell me.”

“Yes, Teacher,” came a voice in the distance.

Those 450,000 Sector Beasts weren’t making attacks now. Instead, they were just making threats! Luo Feng couldn’t ask Sitting Mountain Guest to guard his miniature universe forever. It would take a lot to guard such an enormous miniature universe, so he would just wait until the Sector Beasts started to swallow it.

In another area of the miniature universe, inside a spaceship, the godly powered avatar of Luo Feng remained beside Morosa.

“Master, there are less than 50,000 Sector Beasts in that area,” said Morosa.

Luo Feng nodded. At the moment, his original body was approaching that area. His original body wasn't moving forward, as he didn't have a specific target yet! After all, there were so many Sector Beasts, and if he attacked one of them, all the others would know, which was why he had to pick a strong one!

“Just watch them carefully, Morosa,” said Luo Feng. “Sense the power of each Sector Beast. Some eat a lot while some don't. Keep a close watch on those who eat a lot, and alert me about those who're about to reach level five.”

From 450,000 to fewer than 50,000. On average, only one out of nine Sector Beasts survived. However, powerful Sector Beasts could consume them faster, so some had already eaten more than 20 Sector Beasts, yet some found it difficult to succeed, and it might take them a long time to eat around five Sector Beasts, so the odds of them reaching level five were uneven.

“Yes,” said Morosa respectfully.

Time flew. Luo Feng could see the number of light spots on the giant model decreasing. As for those surrounding his miniature universe, nothing was happening to them. Apparently, they wouldn't make a move until he did something. Once he attacked, the other Sector Beasts would have the same reactions.

“Less than 3,000 now.” Luo Feng looked at the light spots. From 450,000 spots to less than 3,000. It was so quick. There were fewer than 3,000 that Luo Feng could see clearly. “No level five born yet?” he asked.

“Relax, Master,” said Morosa. “There's only a chance that a level-five Sector Beast will be born. However, even if one is born, it will be barely at level five. If you go there now, you'll alert the entire Sector Beast group, which is not worth it. Just wait longer, and there will be several level-five Sector Beasts.”

Luo Feng nodded. “Remember, don't let a level-six Sector Beast be born.”

“I'll be careful,” said Morosa. “It's very difficult for a level-six Sector Beast to be born. There are only 450,000 Sector Beasts in all, and only after two-thirds have granted their power to one of them would a level-six Sector Beast be born. Relax, Master. I'll alert you to all the Sector Beasts that might be a threat.”

Luo Feng nodded.

Time passed. Not only Luo Feng was anxious, but the true gods who sat in the godly palace of the virtual universe were anxious. Yet they didn't dare to bother Luo Feng.

“Master, you can go now,” said Morosa.

“Go now?” Luo Feng's eyes gleamed.

“There are now fewer than 1,000 Sector Beasts in that area, and at least three of them are at level five,” said Morosa.

Only three? thought Luo Feng. These three Sector Beasts ate and fought very quickly, and based on the number of Sector Beasts they had swallowed, they must've reached level five already. Of course, there's still a long way to go for them to become level six.

"No need to rush." Luo Feng frowned. "I can only kill a small number of Sector Beasts now, and I should wait to do that until they get stronger. Let them eat more Sector Beasts..."

The number of Sector Beasts was decreasing. 800... 600... 300...

"Master, there are only 210 Sector Beasts now," said Morosa anxiously. "There must be at least ten level-five Sector Beasts, and seven of them just entered level five. These three are the strongest."

"Oh?" Luo Feng took a look.

It was time for him to act. If he kept waiting, it would be more likely for a level-six Sector Beast to be born.

"These three!" Luo Feng located the three Sector Beasts.

Luo Feng stood with his silver wing in the endless chaos air.

I'll be spotted if I kill a single Sector Beast, Luo Feng thought. And then, all the other Sector Beasts will start to run away... However, I can teleport farther, so I might be able to kill another one, which means I can at least kill two Sector Beasts. Killing three Sector Beasts will be my limit. As for killing four, it will come down to luck.

Luo Feng's target was certainly those most powerful Sector Beasts.

"Let's go!"

Shua! Shua! Shua!

Luo Feng immediately started to teleport in long distance. He had originally been near that area anyway, and after only three minutes, he approached the Sector Beast that Morosa had highlighted.

"Master," said Morosa, "that's Sector Beast Qi Ya! It was just as powerful as me when I was still at my peak, and I reckon it was at level four before... This time, it has eaten the most Sector Beasts, and based on my estimation, it's the Sector Beast that is currently closest to level six. It must be at top-tier level five now."

"Qi Ya."

Luo Feng immediately teleported and approached, sensing carefully.

"Hahaha!" A ferocious Sector Beast was floating in space, swallowing another Sector Beast. "You should feel honored to be eaten by me. I'll be the ultimate king!"

Sector Beast Qi Ya was brimming with confidence. It had been standing among the top beings within the Sector Beast race. Last time, Luo Feng had killed more than eight million Sector Beasts—many pinnacle

Sector Beasts included. After Beddy died, Qi Ya had been one of the top-tier beings, as it had already been at level four. Besides, they'd been eating each other, so it was the fastest for it.

"Once I enter level six, I'll have ten million bodies," Sector Beast Qi Ya announced confidently. "I'll live forever, and I can kill my enemies one by one with all my skills. Even if I am surrounded, I'll only lose one body. I can fail 1,000 times, yet those other Sector Beasts can't afford to fail once. I'll definitely be the ultimate king."

The first Sector Beast that entered level six would generally become king.

"Next one."

Sector Beast Qi Ya sensed the Sector Beast closest to it and planned to teleport and charge toward it.

Weng!

All of a sudden, the space around Qi Ya became clotted.

"No!" Sector Beast Qi Ya missed a heartbeat.

The clotted space worried Qi Ya even before it could see who it was. It had to be Milky Way Horde Leader! It was already at the top of the chain, and it had the highest hopes of becoming the king. However, on its way to becoming a king, its greatest enemy was Milky Way Horde Leader Luo Feng! If it was stopped by him, it would be doomed. However, if it could get away, there was a chance it might reach level six and become the ultimate king.

Hou!

Sector Beast Qi Ya looked with both its heads. A silver-armored man appeared, and those five pairs of wings were gleaming. Both of Qi Ya's singular eyes were glinting with resentment.

It was almost there! If it weren't for that Milky Way Horde Leader, it was likely that it would become the ultimate king. However, that plan was gone now! Based on the plan concocted by the entire Sector Beast race, once Milky Way Horde Leader came out to kill them, the most brutal situation would begin.

Milky Way Horde Leader Luo Feng had ceased caring about his miniature universe! And the first one who got attacked would be the sacrifice. Unfortunately, Qi Ya was the victim.

"Milky Way Horde Leader!" roared Qi Ya. "You'll regret it! You will!"

That silver-armored man in the distance didn't give a damn about Qi Ya. The wings on his back started to gleam, and he infused his burning godly power into the wings, forming a miniature universe in the space around them.

Qi Ya immediately started to transmit his voice through his heart to all the other Sector Beasts (except Morosa). "Milky Way Horde Leader is attacking me! He's attacking me! He's here! He's here! Destroy his miniature universe! Destroy his miniature universe! Avenge me, my friends!"

Qi Ya was filled with bitterness and hatred. It raged, charging at the silver-armored man in the distance. At the same time, the bloody engraving picture on its body started to spin as it performed the most powerful technique, "Destruction," without a second thought.

“He’s right here!”

“He’s right here!”

“Destroy his miniature universe!”

“Destroy his miniature universe!”

The resentful voice of Sector Beast Qi Ya echoed in every Sector Beast’s heart. All 900,000 Sector Beasts had agreed to this plan. They would fight each other until a level-six Sector Beast was born. Once a level-six Sector Beast was born, they were basically guaranteed a win in this battle.

“We have surrounded his miniature universe, yet he still dared to rush out?”

“That Milky Way Horde leader really doesn’t care about anything else. Not even his own miniature universe.”

“He’s risking everything.”

The Sector Beasts were furious. Milky Way Horde Leader was risking it all? Then the Sector Beasts would risk it all as well!

“Eat his miniature universe!”

In the space outside the giant miniature universe, more than 450,000 Sector Beasts surrounded it. The densely packed Sector Beasts were everywhere, roaring in anger. All the Sector Beasts teleported and approached the miniature universe.

Soon, they were close enough to consume the miniature universe.

“Devour it!”

“Devour it!”

More than 450,000 Sector Beasts all shot out curvy traces of light, penetrating the space and enveloping Luo Feng’s enormous miniature universe in the distance.

Chapter 1474: The Last Fight with the Sector Beasts

Chaotic airflow was drifting all about. The vast land was continuously condensing, then extending and expanding. On this vast piece of land, there was an exquisite palace. This palace belonged to Sitting Mountain Guest.

“It has been nearly 20 days now.” Sitting Mountain Guest sat in a relaxed manner. There was a wine decanter on the crystal table next to him, and he was leisurely holding a wine glass.

It had been close to 20 days since he’d arrived at Luo Feng’s miniature universe. Without a break, he had waited for that very moment when the Sector Beasts moved in to start devouring Luo Feng’s miniature universe. There was a reason he had waited so long. In fact, it had only taken a short time for Luo Feng

to fly over to the region of the miniature universe of the first reincarnation. It was mainly because the Sector Beasts needed a long time to fight and devour.

Normally, it would take trillions of eras before the evolution of the ultimate king could occur. Now, due to their fast-shrinking numbers, every time one devoured another, they would require some time for digestion. As for crossing levels—for instance, going from the third stage to the fourth stage, or the fourth stage to the fifth stage—such progress would require a great deal of time.

Hong!

An invisible power instantly spread throughout the entire miniature universe.

“Huh?” Sitting Mountain Guest’s expression changed. “Have they started devouring?”

Theoretically, when Sector Beasts were devouring the origin, life forms within the miniature universe would not be able to detect anything. But with 450,000 Sector Beasts devouring at the same time, the violent vibration they caused in time and space would be more than enough to affect the entire miniature universe.

In Luo Feng’s miniature universe.

Hua!

100,000 planets were revolving around the core of nothingness that they kept surrounded. That nothingness was also continuously revolving as it devoured, and its strong devouring power was causing the chaotic airflow in the void space outside the miniature universe to form a gigantic whirlpool.

Suddenly, another strong power penetrated through the void space and fell directly into the middle of this origin. There, it began devouring the power of the origin the best it could.

“It’s here.” A godly powered avatar condensed and took form in the middle of the origin. It was Luo Feng’s godly powered avatar.

“Block it!” Luo Feng’s willpower was rendering support to the origin as it tried its best to mount a resistance.

Hong! Long! Long!

The entire origin was trembling. The 100,000 planets that were originally revolving so peacefully started to release an outburst of light rays and began to revolve in a crazy manner. As for the whirlpool brought about by the core of nothingness, it also produced a formidable gravitational force. In the face of the swallowing power of 450,000 Sector Beasts, it instantly started to collapse.

It was like a game of tug-of-war!

From where he was, Luo Feng was pulling inward, while the 450,000 Sector Beasts were pulling outward. However, with just one touch, the entire line of Sector Beasts collapsed.

“What?” Luo Feng was shocked. “How is that possible?”

450,000 Sector Beasts in the space outside Luo Feng's miniature universe were astounded. Both sides were shocked. No one had expected such an outcome.

"How could it be so easy?"

Luo Feng carefully sensed his own origin. 100,000 planets were revolving around the core of nothingness. Everything was gathered within the whirlpool of that nothingness. By sensing his origin, a sudden understanding dawned upon Luo Feng.

"100,000 Heavens? The 'Beginning of the Origin'? So, this is what they turned out to be."

Luo Feng instantly understood the mystery behind these two things. For ordinary true gods—even those from the pulse of Duan Dong River, Godly King of Jin, and generations of great beings—their universe structures might have been considered magical, but they were not flawless. If they ever encountered Sector Beasts that intended to devour their origins, they were destined to be devoured. Even with their willpower rendering a certain degree of support, it would only mean the devouring process would be slowed down. That was all.

But for Luo Feng, the situation was different.

The structures of Beginning of the Origin and 100,000 Heavens were the understanding of the most mystical life structure diagrams that Luo Feng managed to derive after comprehending at a life gene level of 100,000 times. They represented his final comprehension. They had the same effect as the structure diagram of 100,000 life genes level!

Both shared a common feature: complete with nothing lost!

Luo Feng's godly power could even be transformed into a Sector Beast's power. Even if his miniature universe were to be subjected to violent vibrations, even if the numerous planets within his origin were shattered, so long as he still had his "Beginning of the Origin," he could rapidly regenerate another 100,000 Heavens. It was immortalized. It was the beginning of everything. It was complete and without any leakage. This was a miniature universe that was complete, in its entirety, at the point of birth. Since it was so complete, without anything being lost, it would certainly be untouchable to those who attempted to devour it.

As for the other miniature universes, the moment they were born, they were unbefitting of being considered complete and free of leakage. Naturally, they could and would be devoured.

This was also why the diameter of the other true gods' miniature universes was only as big as 100 million light years, whereas Luo Feng's miniature universe had a diameter of one billion light years.

Perhaps, at the moment, Luo Feng's miniature universe was not as big as that of a true god of void space or an eternal true god. But the moment Luo Feng became a true god of void space or an eternal true god, he would definitely be above them all. This was because his miniature universe had a structure that was complete and without leakage. It was naturally flawless from the start!

In fact, the process was similar to the evolution of the Sector Beasts, which moved individuals in the direction of becoming a complete, ultimate life form: the ultimate king. The ultimate king of the Sector

Beasts would be just like Luo Feng. It would be able to transform its Sector Beast power into godly power; it could easily change its aura. It could change everything. There were many things it would be able to do, and it would acquire an array of talents such as breeding and devouring.

The way a king of the Sector Beasts devoured things would be the true terror. Even Luo Feng's miniature universe, even the primal universe—none would be able to resist it!

Because the king of the Sector Beasts represented true destruction, even the primal universe would need to self-destruct and transform into its origin in order to mount a resistance. Luo Feng's miniature universe might have the potential to do so, but in terms of talent, it was lacking. Therefore, it would still be restrained.

However! That was when being restrained by the king of the Sector Beasts. These were ordinary Sector Beasts whose lives had yet to evolve to completion. Solely relying on their talents to confront Luo Feng's miniature universe—which was complete and with no leakage—naturally, there was no way they could land a bite! No matter what, they would not be able to devour anything. Not even a trace of it!

Initially, Luo Feng fell into a daze, but soon after, he was in a state of delirium.

The 450,000 Sector Beasts outside were also struck with disbelief. They had always thought of themselves as superior life forms and had always believed they were born to be incomparably noble. They felt that no miniature universe had a chance when facing them, and every one would be devoured by them in the end. But today, it was like they had bitten a sheet of iron, shattering their teeth. And yet, they had not managed to take a single bite.

“Luo Feng?” Teleporting out of the palace, Sitting Mountain Guest wore a solemn expression as he looked far into the distance where a chaotic airflow was spreading over to fill up. He wondered to himself, Do you need me to protect you?

Sitting Mountain Guest had a feeling that such a great commotion had to have been caused by the Sector Beasts' devouring.

Luo Feng's voice was transmitted. “It's all right, Teacher. Those Sector Beasts are unable to do anything to me.”

“Can't do anything?” Sitting Mountain Guest was shocked.

Luo Feng transmitted his voice again. “They can devour the miniature universes of other true gods, but they can't devour mine.”

Sitting Mountain Guest was dumbfounded, but soon, a smile appeared on his face. Even he had never heard of anyone being able to create a miniature universe with a diameter of one billion light years at the true god level. Such uniqueness was the only explanation for such an outcome.

“Haha! Then over here at your miniature universe, I'm no longer needed!” Sitting Mountain Guest laughed heartily, then immediately left Luo Feng's miniature universe.

In the faraway region containing the miniature universe of the first reincarnation era, amidst one of the void spaces, Luo Feng was engaged in crossfire with one of the fifth-stage Sector Beasts.

Sector Beast Zia was executing "Destruction." It was trying its best just to stay alive!

"Previously, Beddy was only a fifth-stage Sector Beast," said Sector Beast Zia. "I suspect Beddy had not yet reached the top level of the fifth stage. I am stronger than it was, so who knows, I might be able to survive this."

Zia executed Destruction and fought with all its might. Yet suddenly, a piece of news was transmitted to it.

It was shocked into a daze. How could...? How could...? How could it be that the devouring of Luo Feng's miniature universe would fail? They were unable to devour Luo Feng's miniature universe?

"Humph." Seeing Sector Beast Zia's surprise, Luo Feng wielded his Blood Ghost Blade and fought with all his might.

Fighting a fifth-stage Sector Beast was what Luo Feng looked forward to. The technique of Destruction, when performed by a fifth-stage Sector Beast, would allow Luo Feng a chance to steal a glimpse of the "destruction of the origin." Earlier, he had only managed to see Beddy execute it twice. This Zia, in its heightened state of madness, had already executed it three times in succession, much to Luo Feng's benefit.

"Even when I execute Destruction, I still cannot shake it off." Sector Beast Zia wanted to bring out his Sector Light Passageway right away.

Suddenly—

At the same moment when Luo Feng's Blood Ghost Blade struck, a water droplet soundlessly invaded the body of Sector Beast Zia. This was "Three Stars Sector," a soul enslavement technique that Luo Feng was most skillful and powerful in. Previously, he had relied on this technique to enslave Morosa. Whether this enslavement would be successfully or not depended on two determining factors: the soul and the willpower!

From the first stage to the sixth stage, the Sector Beasts were all at the true god level. Although they were evolved, their souls did not go through much evolution. Mainly, it was the "sector" in the bodies rising—their comprehension level improving—and so the battle techniques that they could execute were more mystical and profound. There was also a gradual increase in the unique moves they would be capable of executing, such as Sector Light Passageway, Sector Light Domain, and Destruction!

Zia's soul was slightly stronger than Morosa's, but not by very much. As for its willpower? Both were the cream of the crop among the Sector Beasts. Now, with the rapid evolution of all the sudden fighting and killing, Zia's internal "sector" might have become more powerful, but its willpower did not increase much.

This was just like Luo Feng. Only when Luo Feng's comprehension reached the life gene level of 100,000 could he comprehend the insight of the universe operations. That was when his willpower could evolve to an eternal true god's ultimate limit. As for the stage where he progressed from a universe master to a true god, there had not been much improvement in his willpower at all.

“Theoretically speaking, if I can enslave Morosa, I can also enslave Zia.” Luo Feng whispered to himself.

“What is...?” In Sector Beast Zia’s two singular eyes, there was first confusion, quickly followed by a painful struggle. “Explode!”

With a loud rumble, it exploded. Holding onto its only remaining glimmer of sobriety, Sector Beast Zia had managed to blow itself up. It had known that if it hesitated further, it would most likely be completely caught up. Sector Beast Zia had not reacted in time to execute Sector Light Passageway to escape, so it had been left with its only choice to the path of freedom—self-destruction!

“How could the enslavement be unsuccessful?” Luo Feng frowned.

Previously, when he had been in the Sector Beasts’ nest, he had needed to act very carefully. That was because he had not enslaved a Sector Beast. But this time around, he intended to spread his killing to all four corners. If he could enslave a fifth-stage Sector Beast, then he and his Sector Beast could split into two forces. That way, they could kill even more Sector Beasts.

“This Zia was, after all, of the same caliber as Morosa and Beddy. It had already stood among the top-tiered Sector Beasts long before now. Its willpower had been quite strong to begin with.” Luo Feng shook his head. “Perhaps by switching to a Sector Beast with weaker willpower, I will be able to enslave it.”

Sou!

Luo Feng immediately teleported and vanished in a flash as he made his way after the next Sector Beast.

Sector Beast Zia’s death did not seem to stir up much commotion among the Sector Beasts. This was because the entire Sector Beast race was surprised by the news that Luo Feng’s miniature universe could not be devoured. They had all fallen into a mixed state of shock and anger.

“Execute the final abandonment plan!”

“The abandonment plan!”

“This is an insult to all the Sector Beasts!”

“The final plan!”

This was a plan that the Sector Beasts had prepared while escaping out of their nests. It was the final abandonment plan. The most dreadful plan. A plan that required a great many Sector Beasts to be sacrificed.

It was unfair, but the Sector Beasts were all of one mind. This was a plan that guaranteed the birth of a sixth-stage Sector Beast! Putting this plan into play was a great insult to the honorable Sector Beasts. But now, they had no choice but to execute this plan.

There was nothing they could do to Luo Feng. There was nothing they could do to his miniature universe. He could kill them to his heart’s content or enslave them all he wanted.

They needed to fall back on their one last shot!

The birth of a sixth-stage Sector Beast. According to the limitation set by the supreme law, forcing Morosa to show his true self would lead to the birth of the final king! So long as the king of the Sector Beasts could be born... Luo Feng would die!

This was cruelty. Most of the Sector Beasts were unwilling to execute it; unless they were left with no other recourse, they would never resort to the abandonment plan!

“Let’s go!”

“Let’s go!”

“Let’s go!”

More than 450,000 Sector Beasts originally surrounding Luo Feng immediately teleported over long distances in all directions. They quickly made their escape and left.

Chapter 1475: Luo Feng’s Team

The closest two out of the 450,000 Sector Beasts were at least over ten million light years away from each other. They all ran away, completely separating. Even Luo Feng, who knew their locations due to the coordinates sent by Morosa, he couldn’t do anything about it.

Just run, thought Luo Feng. You’re all too weak for me, yet there are too many of you. I can’t deal with you, but when you’ve reached level five, there won’t be this many of you.

There were only 900,000 Sector Beasts. The best case for the Sector Beasts was that around 100 level-five Sector Beasts could be born. But in reality, some Sector Beasts ate more than others, so there might only be around 50 level-five Sector Beasts born. All he needed to do was kill all the level-five Sector Beasts, which was very difficult!

But he had to try!

Shua! Shua! Shua!

Just after Luo Feng forced Qi Ya to self-destruct, he started to chase another Sector Beast by teleporting.

Out of the 450,000 Sector Beasts that were fighting each other in the region of the first universe era, the top three Sector Beasts were Qi Ya, MengQu, and Ang Si.

Qi Ya, Morosa, and Beddy were already at the pinnacle level before, so every one of them was excellent, thought Luo Feng. This MengQu might become quite powerful in this special situation, but his willpower might be weaker than Qi Ya and Morosa... There’s a chance I can enslave it.

Hu!

He flew toward MengQu. When Qi Ya was attacked, and all the other Sector Beasts, including MengQu, got the message, they all fled in different directions. This made it more difficult for Luo Feng to hunt them down.

Weng!

The space was clotted.

“No!” Sector Beast MengQu, who had been flying, was stunned. It turned both of its heads into the distance. A silver-armored and silver-winged man showed up in the space in the distance. It was the individual the Sector Beasts feared the most: Milky Way Horde Leader!

Milky Way Horde Leader in the distance gave a look. Then the vast space around him was immediately trapped in a miniature universe, and a powerful binding force arrived.

Shua!

Luo Feng teleported and approached it. Inside the miniature universe he had formed with only one thought, he could clot the space around his enemy. Luo Feng could teleport close to it.

“Destruction!” Sector Beast MengQu raged, and the bloody engraving picture behind it soon formed a Sector Beast made of light. They both raged, and a gleaming, spinning whirlpool portal raced toward Luo Feng.

Meanwhile, Luo Feng also waved the Blood Shadow Blade in his hands. An equally gleaming white-gold blade of light rushed forward. The arc of light and the whirlpool portal hit each other!

The whirlpool portal crumbled first, and the curved blade of light slashed it before it crumbled. At the same time, a drop of water silently penetrated the body of Sector Beast MengQu in the wake of the shock waves.

Enslaving technique: “Three Stars Sector.” It was the supreme enslaving technique created by a supreme being known as “Gold” from Jin Country, and it was also the most powerful enslaving technique from the World of Jin.

“Hmm...” Luo Feng observed Sector Beast MengQu with great expectations. He sincerely wished to be able to successfully enslave it this time!

MengQu stood still in space. The shock waves around it had already been weakened, and the space had already recovered.

“Ha...” Luo Feng sensed the soul of MengQu, and he could tell that MengQu’s soul was already under his control. This provoked a smile from Luo Feng’s face. “Wake up, MengQu.”

Both the singular eyes of MengQu glinted. “I... I am the king,” said Sector Beast MengQu in a daze. It looked at Luo Feng in front of it, and then it gained complete consciousness. It then said with respect, “Master.”

“Okay.” Luo Feng nodded. “I’ll go hunt down Ang Si. You go kill the Sector Beasts closest to you.”

“Yes, Master,” said Sector Beast MengQu respectfully.

Shua! Shua!

Luo Feng and Sector Beast MengQu kept teleporting in different directions.

It was impossible for Luo Feng to take MengQu with him. If he did, other Sector Beasts would see him coming. That would make it very difficult for him to hunt those Sector Beasts down. However, if MengQu acted on its own, the fleeing Sector Beasts might panic and change direction.

“MengQu was enslaved.”

“MengQu was enslaved!”

“It turned to Milky Way Horde Leader just as Morosa did.”

All the fleeing Sector Beasts sensed it. They could still clearly sense the presence of Morosa and MengQu, but apparently, they were now on the opposite team.

“Beware of the enslaving technique of Milky Way Horde Leader.”

“Be careful not to be enslaved by him.”

Luo Feng found out the truth when fighting the last of the three great beings, “Ang Si.” It blew itself up just as he created his miniature universe. It self-destructed without even putting up a fight.

Hong!

The shock waves spread and hit the body of Luo Feng. His wings were trembling, but he frowned. “I just successfully enslaved MengQu, and the Sector Beasts are so insane now? They self-destruct as soon as I catch up to them?”

The Sector Beasts were left with no choice.

Beddy, Qi Ya, and MengQu were all level-five Sector Beasts, yet none of them could survive against Luo Feng in a fight. They understood that no matter how hard they tried, they would be killed by Luo Feng anyway, so they would rather self-destruct than risk being enslaved by Luo Feng, which would make him stronger.

Inside the miniature universe of Luo Feng, inside the spaceship, Morosa was controlling the enormous model. Unsettled, it said, “Master, you have nine slaves now, but I am the weakest one.”

Luo Feng took a look at Morosa.

It was true. In the past eight days, Luo Feng had killed Qi Ya and enslaved MengQu, forcing Ang Si to self-destruct! Luo Feng had then gone after another level-five Sector Beast, but that one had also exploded. Luo Feng had then understood that he himself wasn’t enough to enslave those Sector Beasts, so he started acting together with MengQu.

With MengQu, he had located a target and teleported there immediately. Though the Sector Beast had known that MengQu was chasing it as well, Luo Feng and MengQu were still approaching them. The teleportation distance of Luo Feng was too far—farther than level-five Sector Beasts.

When MengQu met the enemy, the two Sector Beasts began fighting each other, and their sectors were sensing one another, so it was impossible for them to self-destruct!

When the Sector Beasts were fighting each other in the hive of Sector Beasts, nobody self-destructed no matter how serious the grudges were, as it was impossible to self-destruct during a Sector Beast fight.

During the battle, Luo Feng had performed his enslaving technique to enslave that Sector Beast.

Time flew by. Luo Feng continued to use that technique, even using different slaves to act at the same time, forcing other Sector Beasts to flee awkwardly. Using this method, he had successfully enslaved eight Sector Beasts in total.

“This time, I’ve enslaved eight Sector Beasts.” Luo Feng looked at Morosa. “Five of them are level-five Sector Beasts, and three of them are level-four Sector Beasts. As for you, you’re a level-two Sector Beast. However, I made you a promise before. As long as you helped me with all your energies, I would get many Sector Beasts for you to eat. Only one of the Sector Beasts I have enslaved can live, and it will be you.”

Morosa was exhilarated.

Luo Feng was calm. When a level-two Sector Beast ate a level-five Sector Beast, it could jump straight to a level-five Sector Beast! They were all his slaves, so with one thought, they wouldn’t be able to blow themselves up.

That means only one of them can live, Luo Feng thought. As for Sector Beasts... If I really can’t stop a level-six Sector Beast from being born, then I’ll make a level-six Sector Beast for myself.

Luo Feng didn’t have any other options, and this was the reason why he enslaved the Sector Beasts. Now, out of all the Sector Beasts he had enslaved, there were five level-five Sector Beasts in total. MengQu was the most evolved one out of all of them! However, that still wasn’t enough for a level-six Sector Beast to be born!

“Look, master.” Morosa pointed at that giant model of Universe Ocean. “The Sector Beasts from the first universe era have entered ‘Lost Ocean Domain.’ You can go to Lost Ocean Domain as well, Master. But now, the 450,000 Sector Beasts surrounding your miniature universe have also entered Lost Ocean Domain, and only 30,000 Sector Beasts are still in the normal ocean domain in Universe Ocean. It’ll be very difficult for you to hunt them down.”

Luo Feng frowned and considered.

It was true. Lost Ocean Domain was an area that no races from Universe Ocean had ever comprehended. Once someone was trapped in there, he would be lost in the depths of Universe Ocean without any reference points. They would never be able to find their way back.

However, the Sector Beasts had all rushed into Lost Ocean Domain, one after another! Only 30,000 Sector Beasts were left.

Luo Feng rushed into Lost Ocean Domain as well!

He dared to rush in because Luo Feng was bringing MengQu with him. That meant that even if he was trapped in Lost Ocean Domain, MengQu could still sense the location of Morosa. They could return by

following that sensation; it was the same reason why the Sector Beasts had dared to venture into Lost Ocean Domain.

We're in trouble now, thought Luo Feng. Lost Ocean Domain is enormous, yet the Sector Beasts are running in all directions. If I'm trying to catch one Sector Beast, I'll be getting farther away from another Sector Beast.

After enslaving eight Sector Beasts, Luo Feng now felt helpless. He had to bring one Sector Beast with him when journeying into Lost Ocean Domain. The fleeing Sector Beasts would get as far away from him as possible. Some would get away through natural wormholes.

Luo Feng couldn't follow Sector Beasts precisely in Lost Ocean Domain, and the only thing he could be sure of was the location. He moved in a straight line.

When Sector Beasts fled through natural wormholes, Luo Feng was left dazed. He couldn't even find the wormholes.

Time passed. One month, two months, three months...

Other than Morosa, Luo Feng had enslaved eight Sector Beasts and killed a large group of Sector Beasts. He then acquiesced and decided to go back!

But just when he was about to return, Luo Feng understood that the level-six Sector Beasts would soon be born.

Chapter 1476: Birth

Luo Feng's original body was making its way back at that moment within his miniature universe.

"Master," Morosa reported respectfully. "There are many Sector Beasts escaping into the Lost Ocean Domain of Universe Ocean. Out of the 450,000 Sector Beasts from the second batch, 420,000 have escaped into the Lost Ocean Domain. Adding to this number are those Sector Beasts from the first batch Master went after. The number of Sector Beasts that Master has killed and enslaved is a far cry from half the number of the first batch of Sector Beasts. If all the Sector Beasts who have escaped into the Lost Ocean Domain started fighting one another, their numbers alone could give rise to two sixth-stage Sector Beasts!"

Luo Feng nodded. 900,000 Sector Beasts could probably give rise to the birth of three sixth-stage Sector Beasts. The number of Sector Beasts he had killed and enslaved merely constituted a small portion. Judging by the remaining ones, it was entirely possible for the birth of two sixth-stage Sector Beasts.

"However, according to the Sector Beasts' Iron Rule of Fate, two sixth-stage Sector Beasts have to kill one another," Morosa said. "Only one can remain standing."

The iron rule of fate was a set of shackles imposed upon the process of giving birth to the final king of the entire Sector Beast race. To hasten the birth of the final king, there were four iron rules.

The first iron rule was that no two sixth-stage Sector Beasts were allowed to coexist. They were required to fight one another to death. All their divided bodies also would have to fight each other until there was only one left standing.

The second iron rule was that the final king had to be born during the gestation period. Maximizing the time stipulated by the breeding process, even if they were forced to fight and kill one another, the devouring had to continue to the very last minute of their time limit until there was only one left standing.

The third iron rule: If there were only two Sector Beasts left, regardless of how powerful or powerless they were, they had to fight one another until there was only one left standing.

The fourth iron rule: The final surviving Sector Beast, regardless of being a first-stage or a sixth-stage Sector Beast, would become the ultimate king.

“Hmm.”

Luo Feng’s brows were furrowed as he thought. The number of Sector Beasts was too many. Hundreds of thousands of Sector Beasts in the Lost Ocean Domain, probing in different regions, meant there had to be a large number of reference points where these hundreds of thousands of Sector Beasts had gone. Altogether, the Sector Beasts would have obtained substantial information of a region of the map of Lost Ocean Domain! This would allow the Sector Beasts to be able to speedily escape through the natural wormholes time and again. But there was no way Luo Feng could give chase because he did not have the benefit of a map!

The moment this new ocean map was defined, Luo Feng was unable to give chase no matter how he tried. He was forced to retreat.

“30,000 Sector Beasts have stayed behind,” Morosa reported respectfully. “They did not go to the Lost Ocean Domain. They are all separated from one another, scattered all over the three most dangerous lands. The environment of the three most dangerous lands is severe. Catching even one of these Sector Beasts is going to be very difficult.”

Luo Feng understood. The 30,000 Sector Beasts that remained behind were represented a beacon of hope for their race. For those Sector Beasts that had escaped into Lost Ocean Domain, although they would have managed to piece together a partial map of the region, they had fled too far; there was no way they could rely on their own abilities to return.

“In the future, when a sixth-stage Sector Beast is born,” Morosa said, “by sensing the whereabouts of some of the Sector Beasts who have stayed behind, it could kill its way into our Universe Ocean. They might have been worried that Master would kill all the remaining Sector Beasts, including those of us who have pledged allegiance to you, Master. Killing us all would cause them to lose their points of reference and be lost for eternity. They would not be able to return. Accordingly, the number of Sector Beasts they left behind was many: 30,000! There is no way Master can kill them all in a short time.”

How cruel! But Luo Feng had to do his best. When his original body returned, the first thing to do was to head to Tilted Peak Sector!

Within Tilted Peak Sector, the land was vast and divided into many special regions. Presently, those Sector Beasts were simply heading for any of these special regions they chanced upon! There were even some Sector Beasts that escaped directly into some of the most dangerous lands. Upon entering such dangerous lands, getting out again would be challenging.

“Apprehend!”

“Catch them.”

“Catch them!”

The 30,000 Sector Beasts that had remained behind to play the role of the beacon of hope were all second-stage Sector Beasts. They were not considered powerful. Before Luo Feng, they did not even have the ability to self-destruct. Therefore, they could all be forcibly caught and confined within Star Tower by Luo Feng. Then, MengQu would devour them all. Luo Feng was no longer enslaving them because there was also a limit to the number of soul slaves he could own.

“Loathsome!”

Within Star Tower, silver-armored Luo Feng was looking far ahead. Deep within the endless darkness was a huge abyss. This was the well-known Dark Yong Domain that was at the core ground of Tilted Peak Sector.

“To think you would go so far as to escape into Dark Yong Domain,” Luo Feng muttered. “The moment you step into Dark Yong Domain, there is no way you can get out. Yet, as many as 102 Sector Beasts are hiding in there.”

Would Luo Feng dare to enter? Of course not!

Just a while ago, he had tried getting a godly powered avatar to control an automaton-type battleship and drive its way in, but after entering, there was no way it could come out!

“These Sector Beasts have given no thought of coming out again.” Luo Feng shook his head.

There were many dangerous lands similar to the three most dangerous lands. Once someone entered, escape would be impossible. At that moment, a substantial number of Sector Beasts were making their way into these places! With the methods Luo Feng had, there were some dangerous lands he could still manage to escape from, but there were also those that he would not be able to escape from.

Luo Feng did not dare to personally survey the situation, so he had to send his godly powered avatar to conduct the investigation. The previous two times, the godly powered avatar had controlled the automaton-type battleship and charged its way out. But this time, upon entering Dark Yong Domain, no matter how it tried, it would be unable to get out.

“30,000 Sector Beasts. It is impossible to kill them all.” Luo Feng sighed. Then, controlling Star Tower, he left.

In the faraway Lost Ocean Domain, where Universe Ocean was simply much too vast, a few hundred thousand Sector Beasts were exploring, yet all they had managed to find out, collectively, merely

constituted a small part of the entire domain. Now, the few hundred thousand Sector Beasts were gathered in this ocean domain. Though relatively small, the area of the ocean domain that the Sector Beasts had managed to learn about was much more than ten times that of what Luo Feng and the three reincarnation eras had managed to learn about the same domain.

“Kill!”

“Between you and I, only one can survive.”

Two hideous-looking Sector Beasts were fighting one another without inhibitions. Blood splattered everywhere. It was simply crazy, and such killing was taking place in different void spaces. Several hundred thousand Sector Beasts were killing and evolving simultaneously. They were hanging on to everything they got as they evolved.

Time passed. In the blink of an eye, nearly a year had gone by. Within the Lost Ocean Domain, only two Sector Beasts remained. They were equally impressive, and they were both sixth-stage Sector Beasts.

Hong! Hong!

A powerful, oppressive force caused the entire void space to vibrate. Both Sector Beasts stood far apart from one another in the void space as they faced one another. One of the Sector Beasts gripped an axe. Both their bodies were covered with complex, blood-colored engravings. At the same time, a single horn grew on each of their foreheads. The tips of these horns flashed with white light. This white light seemed to annihilate everything.

The two Sector Beasts had slightly different auras. One was eerie, while the other was more violent. They were “Mohe” and “You.”

“Mohe, we have both crossed over to the sixth stage. It is destined that only one of us can survive.”

“You... You are dead for sure. Let me be the one to finish off this Milky Way Horde Leader to become the ultimate king.”

The two sixth-stage Sector Beasts were engaged in a life-and-death battle within that faraway Lost Ocean Domain.

“You” had been annihilated! Mohe had become the final surviving sixth-stage Sector Beast!

After devouring You, Mohe’s power had rapidly climbed up to reach the top level of the sixth stage. Then, right away, it made its way back.

“Milky Way Horde Leader! My noble Sector Beast race is the rightful owner for the final victory.”

Mohe was advancing through the void space with a godly axe in his hand. By relying on the ability to sense his fellow Sector Beasts’ whereabouts, it would never get lost. The few thousand Sector Beasts scattered all over the three dangerous lands—who had yet to be apprehended and hacked to death by Luo Feng—were all extremely excited. Finally, a sixth-stage Sector Beast had arrived.

After about a month, Mohe finally stepped into the familiar ocean domain again.

“I... I am here.” Standing amidst the vast void space, the single horns on Mohe’s two heads were curved as they stabbed in the direction of the void space up ahead. The white lights at the tips were faint. Both the single eyes on its two heads flashed with madness.

“Mohe,” said a second-stage Sector Beast hidden in a mountain range, “we shall leave everything to you.”

Hong!

The hidden second-stage Sector Beast self-destructed.

“Mohe, I trust you,” said another Sector Beast hiding inside the Universe Boat, who also self-destructed.

“The last glory of our Sector Beast race. You need to protect it!”

“Kill that Milky Way Horde Leader!”

“We of the Sector Beast race should be the ones of highest nobility!”

One after the other, Sector Beasts were self-destructing. They were Sector Beasts that Luo Feng either had not had time to hunt and kill, or those who had hidden in some of the most dangerous lands, so Luo Feng had been unable to hunt and kill them. One by one, they were self-destructing in succession! All were annihilated.

There was only one Sector Beast left who was truly free of enslavement: Mohe!

“I, Mohe! I will protect the last remnant of the glory of my noble Sector Beast race. I will not allow that Milky Way Horde Leader to tarnish our race! Roar!” Mohe raised both his heads and roared in anger.

At this moment, an invisible fate was enshrouding it. It was the one and only Sector Beast free of slavery.

Luo Feng was still in shock upon witnessing the repeated self-destruction and disappearance of the Sector Beasts. Morosa’s expression suddenly registered a drastic change.

“Master!”

“Master!”

“Master!”

Morosa and the few other enslaved Sector Beasts, like MengQu, who were together with it at the three most dangerous lands, simultaneously transmitted their messages to Luo Feng in shaky voices.

“What is it?” Luo Feng sensed that something was amiss. Why would the nine great Sector Beasts he had enslaved report to him all at the same time?

“Master!” Morosa shouted in shock. “When the Sector Beasts who were scattered all over self-destructed at the same time, we felt the fate.”

“The ‘fate’?” Luo Feng was taken aback.

The Sector Beast race was greatly controlled by the influence of fate, as outlined by the four iron rules of fate.

“Only one surviving Sector Beast is free of enslavement,” Morosa continued. “Fate is telling us that even we, the subservient Sector Beasts who pledged our allegiance to you, have to fight and kill among ourselves. There must be a final surviving Sector Beast out of us all. Then this Sector Beast will go to battle against the free Sector Beast... to give rise to the ultimate king. This is the fifth iron rule of fate—an iron rule that has just fallen upon us.”

“What? A fifth iron rule?” Luo Feng’s expression changed drastically.

A free Sector Beast? Against an enslaved Sector Beast? They were actually expected to fight a final battle!

Luo Feng recalled the moment when he had enslaved Morosa. At the time, he had received a warning from the supreme law. The Sector Beasts were a supreme life form that represented destruction. Apparently, attempting to enslave them was difficult in the first place. Now, there was only one surviving Sector Beast that was free of enslavement, and unexpectedly, a fifth iron rule was laid down to hasten the birth of a final king! Obviously, this was to deprive Luo Feng of any chance of preparation.

“I have many Sector Beasts as slaves under my command. By observing them execute ‘Destruction,’ then thoroughly comprehending it, I will be able to ascend to a higher state. So long as I have more time, my power will get stronger. Through this calamity, my chances are higher, too. But now, the supreme law is no longer giving me time.”

Luo Feng’s expression appeared solemn. When his opponent reached the level of sixth-stage as the top, there would be no higher rank to rise to. Yet he could still gradually rise further if he continued with cultivation.

However, now that the fifth iron rule of fate had descended... the ultimate king had to be born.

“The final battle. Is this it?” Luo Feng’s eyes flashed with a complex brilliance. “Then bring it on.”

Luo Feng took control of Star Tower and started to head back to the primal universe. Those Sector Beasts under his command, unfortunately, would not be able to give rise to the birth of a sixth-tier Sector Beast. When it came to making a final decision between the Sector Beasts free of enslavement and the enslaved ones, of course he would choose to strike! If his side won, that would naturally be the perfect outcome.

If that Sector Beast, “Mohe” truly became the ultimate king, that would be a true disaster. Everything Luo Feng sought to protect would be annihilated.

On the eve of this battle, Luo Feng could not help but feel a strong urge to see his own family.

Chapter 1477: Splendid Because of Battle, Bright Because of You

Luo Feng went back to the original universe and back to Milky Way Holy Land.

The final fight was coming, and based on the deadline described by Morosa, Luo Feng knew that he didn't have much time left. He didn't have any other thoughts but meeting with his family.

Hua!

Luo Feng landed in a hallway made of green stones. It was a simple courtyard, and in front of the courtyard stood a white-caped woman. Luo Feng smiled at her. She was his wife, Xu Xin! Xu Xin, who had always supported him without any complaints. She didn't crave him, and she didn't ask him to give her more time. Was it because she didn't like him?

When Luo Feng had tried to fight the swallowing beast to death, and everyone had thought he had died, including Xu Xin, she had chosen to die with him after giving birth to his child. Love wasn't supposed to be a restraint. Instead, it was supposed to be constant care and support.

"Feng." Xu Xin smiled, and her smile was like a moon in the sky, calming Luo Feng's soul.

Luo Feng's wife was the harbor of his heart. He reached out and held her hand. "Let's go see mom and dad."

"Okay," said Xu Xin. She didn't ask any further questions. She'd been waiting here for a long time, and their parents lived in this courtyard.

They entered the courtyard. Soon, they saw Luo Hong Guo and Gong Xin Lan, who sat there talking. After a trillion eras, they still looked the same as before.

"Ah, Feng." Luo Hong Guo and Gong Xin Lan both stood up.

"Mom, Dad!" yelled Luo Feng. When he saw his parents, he was still like that same hard-working student in the dojo during the era of Headquarter City on Earth.

Luo Hong Guo and Gong Xin Lan gave each other a look. They both felt that something was wrong with Luo Feng. He already stood among the pinnacle of billions of races, and he was steady and reliable when hanging out with his parents. However, Luo Feng was acting like a child—a child who was deeply attached to his parents.

It was unusual. They both noted this, but neither of them said anything about it.

"Come and sit, Xu Xin." Gong Xin Lan held her son's hands. They sat down, and so did Xu Xin.

Luo Feng was talking with his parents and wife like an ordinary human being, and soon, his two sons, Luo Ping and Luo Hai, and his brother, Luo Hua, also arrived. The family gathered together, talking and laughing. However, they had all lived for a long time, so they all sensed something wrong with Luo Feng this time.

It all seemed so normal, which was exactly why it was so abnormal. It was an unusual time! They were facing the Sector Beasts right now! And Luo Feng carried all the responsibilities. How did he have the time and energy to talk with his family? However, nobody said anything, even after talking for a long time. In fact, Luo Hong Guo, Gong Xin Lan, Luo Ping, and Luo Hai spoke the most.

“It’s time,” said Luo Feng.

Everyone went quiet.

Luo Feng looked around. He looked at his mom and dad, who had always cared for him! At the brother who had grown up with him. At the two sons who idolized him. And at his wife who had been supporting him this whole time.

“I think you all know now.” Luo Feng nodded. “Something major is happening, and I’ve been keeping it from you. But now, it’s time to tell you.

He had gone to the hive of the Sector Beasts for slaughter, and he had fought 900,000 Sector Beasts, yet he hadn’t shared this information with his family. Even though they knew about the Sector Beast crisis, they didn’t know any of the details. However, if he failed this time, all the races of Universe Ocean would be annihilated—including him! There was no longer any need to shield them from anything.

“What’s happening, brother?” asked Luo Hua.

“Dad.”

“Dad?”

Luo Ping and Luo Hai were looking at Luo Feng anxiously. His parents and his wife also looked at him, worried.

“This is the final act of the Sector Beast crisis,” said Luo Feng. “There can only be two results of this battle. If I win, all the races, including us humans, will be safe and sound. But if I lose, all the races will be annihilated, and the humans will die out as well. The original universe will be destroyed, and so will I... No one can survive it. This will be the final battle.

His parents, his wife, his sons, and his brother were all shocked. This had to do with all the billions of races in Universe Ocean?

“I’m about to leave,” whispered Luo Feng. “I wanted to see you, my parents, and the rest of you, at the last moment before I left.”

Luo Feng looked around at his family members. They were all his family!

“A Feng.” Luo Hong Guo put his hands on his son’s shoulders, embracing him, and he smiled. “Actually, I’m very proud of you. I remember when I was young, when the nirvana came, and we barely survived it. We’ve survived life-and-death situations so many times that we could finally live in Headquarter City, giving birth to you and A Hua.”

Gong Xin Lan also embraced her son.

“Your mom and I are very proud. We never expected that we would be able to tour the universe! We never expected that we would experience so many virtual games as if they were real life. Others only have one lifetime, but we’ve had countless lifetimes already.”

“Our lives are fantastic. And it’s because of you!”

Both Luo Hong Guo and Gong Xin Lan looked at their son.

“Don’t feel burdened. Our Chinese saying goes, ‘a hundred years of life,’ but we’ve lived for countless hundreds of years. Even if we die, we’ll smile as we die.” Luo Hong Guo smiled. “Just go, and don’t feel pressured. Just go and fight them. If you win, we’ll have endless glory, but if you lose, we’ll die with you.”

Luo Feng’s eyes were wet. He didn’t feel any pain. Instead, it was endless joy.

Luo Feng looked at his family members, who weren’t worried at all. “Actually, I’m really selfish,” he said. “I don’t have much time to be with Xu Xin, with my sons, and with my parents... I spent most of my time adventuring through the universe. I’ve been venturing and fighting. Even though I’m doing this for the survival of the earthlings, I’ve actually become accustomed to the life of adventure and combat. I like adventuring, and I love seeing all the mysteries of the universe. I love fighting, and I get excited by dancing between life and death. Without those, my life would be simple and boring.” Luo Feng shook his head. “Although it’s a blessing to live a simple life, I’ve become used to fighting. I’m used to this life.”

Luo Feng looked at all his family. “My life shines because of fighting! And without fighting, it would be boring. However, you guys.” He looked at his parents, holding the hands of his wife, and he looked at his sons and his brother. “You’re the greatest treasure of my life in this world! You are my everything! You’re more important than my own life! Without you, my world would be in darkness forever.”

Family was most important of all—more important than his own life. He would do everything to protect his family! Without them, he would be trapped in darkness forever.

“My life is splendid because of battle, but it is bright because of you!”

Luo Feng looked at his family members. He let go of his parents and stood up.

“Time for me go to.”

The ultimate fight was related to the survival of all the races of Universe Ocean. Luo Feng wouldn’t hide anything. Instead, all the true gods knew about it. True gods from all the races, and even lots of universe masters, had gathered in front of the palace on the square in Milky Way Holy Land.

Luo Feng walked out with his family, and all the races looked at him.

“Milky Way Horde Leader.”

“Milky Way, we count on you now.”

“Milky Way...”

All the races knew that this was the moment.

Luo Feng walked around, passing all the true gods. He saw his teachers: Primal Chaos City Leader, Sitting Mountain Guest, and True Yan. He also saw his friends: Hong, Thunder God, Rong Jun, Wu Ka, Hu Yan Bo, and Babata. Many great beings of the earthlings—even his brother Wei Wen—were there. Great beings from the Remote Ocean (the races created by Luo Feng) were there, as well as his disciples.

“Teacher.”

“A Feng.”

“Milky Way.”

“Luo Feng.”

They all called out to him.

Luo Feng remained the longest in front of his teachers. Primal Chaos City Leader nodded, saying, “You have never let me down.”

Sitting Mountain Guest smiled. “I’ve devoted endless energies to cultivating you, and you turned out even better than I thought... However, you haven’t paid me back yet, so don’t be defeated by the Sector Beasts. You must win this time.”

True Yan tapped on Luo Feng’s shoulders. “You’ll always be my best disciple.”

Luo Feng walked to the front. He turned around and looked at all the great beings standing in the square. There were true gods of the demon race and the bug race who he had fought before, as well as some subsidiary races who had followed his orders. Some of them were his friends, people he cared about...

Everything...

At this moment, Luo Feng felt the full weight of all he had to defend.

I won’t allow it! thought Luo Feng. I won’t allow anything that I’m protecting to be destroyed! I’ll protect everything with my life! I won’t allow it! I won’t allow it to be destroyed!

The great beings from all the races looked at Luo Feng. He looked back at them and smiled.

“I will return!” he said.

Sou!

Luo Feng flew away like a streak of light. If he did come back, it would mean he had succeeded. If he didn’t make it back, all would be lost. The great beings of this universe era would only be remains in the three Lands of Extremis.

Luo Feng was full of strengths! Including the strength of his heart! Because of his family, his teachers, and his friends! He needed to defend them all!

It was all so beautiful, and he wouldn’t allow it to be destroyed! He was willing to sacrifice everything to protect that!

Hong!

A ferocious Sector Beast burst out of the universe membrane and flew toward the area where a silver-armored and silver-winged man stood.

“Master,” said Morosa respectfully.

Luo Feng glanced at Morosa, who had already entered limit level five. Normally, when attaining level three, then level four, and then level five, each level would require time to process. However, under the influence of the supreme laws, Morosa had improved without facing any obstacles.

And now, only one enslaved Sector Beast was still alive. There was also only one free Sector Beast who was still alive.

“Master, Mo He is coming here,” Sector Beast Morosa said anxiously. “Mo He is very fast. Its teleportation distance is clearly much greater than me. Are you sure you can win this fight, master?”

Morosa wasn’t guaranteed to win anything.

“I will win this fight!” whispered Luo Feng. “I have to!”

His voice was firm. He had to win this fight. He had to protect everything he was responsible for defending!

“Go!” Luo Feng took Morosa and teleported. They disappeared and charged toward Sector Beast Mo He.

Chapter 1478: The Final Victor

How white and dazzling the two intertwining whirlpool portals were! They were unstoppable.

“They are so powerful. I’m afraid they are even more powerful than my Door of Life.”

The very moment Luo Feng laid eyes on “Destruction of Reincarnation,” he came to a conclusion: If I were to be struck by this technique head-on, confronting force against force, I might get injured. But I have Star Tower, so there is no need for me to meet force with force!

This thought sprang to mind, but the next moment, Luo Feng’s expression changed.

It wasn’t right! He had Star Tower, so he could hide inside. But this was the battle in which the king of the Sector Beasts would be born. There was no way Morosa could hide in Star Tower to avoid this battle along with him. At the moment, Luo Feng was blocking off attacks by standing in front of Morosa, but the moment he hid in Star Tower, Star Tower was bound to be bombarded and blasted far away upon being hit by this impact. Then he would be forced apart from Morosa.

Sector Beast Mo He could fully take advantage of this opportunity to kill Morosa in one blow!

“Against the combined attacks of eight million Sector Beasts, you were still able to stay alive.” Sector Beast Mo He was looking forward to Luo Feng hiding in Star Tower. “This move of mine will never be stronger than the combined attacks of eight million Sector Beasts! However, if you are going to hid in Star Tower, the moment you are blasted away, you will no longer be able to protect Morosa.” Sector Beast Mo He was filled with eagerness. “Go in! Hurry! Get inside Star Tower.”

The root cause of this battle was to determine who, between the two Sector Beasts Mo He and Morosa, who would be the final survivor!

“Star Tower!” Luo Feng suddenly roared.

Before him, a nine-story tower appeared out of nowhere. It was none other than Star Tower, which was now in a horizontal position, resembling a gigantic, pointed cone. It began instantly revolving, transforming into a long river. This long, golden river headed toward the two intertwining whirlpool portals and crashed into them without delay.

After Luo Feng had created the secret technique at top-tier level 12, this move was the newest set of secret techniques Luo Feng came up with upon completing his comprehension of Star Tower. Luo Feng had named it “River of Stars.”

River of Stars against Destruction of Reincarnation!

Peng!

The dazzling golden river collapsed instantly. Star Tower, being bombarded in its entirety, was thrown far into the distance, where it tumbled away. The two whirlpool portal still seemed to be just as mighty as before as they charged straight for Luo Feng, but upon close scrutiny, cracks could be seen on the outer walls of the two intertwining whirlpool portals.

Luo Feng’s eyes were fixated on the two dazzling, intertwining portals. His godly power was blazing to its ultimate limit, and Wu Qi God was propelled to the third level. With both hands, he held Blood Ghost Blade and hacked with his might!

Hua!

A gigantic, white-gold door appeared in the space before Luo Feng. When the great door opened, a white-gold blade light shot out right away to greet the Destruction of Reincarnation portal.

Luo Feng was now using his strongest blade technique: Door of Life!

At the moment of collision, there was silence. Loud bangs followed soon after.

Hong! Hong! Hong!

Endless violent bangs resounded; endless impact waves resonated. The two whirlpool portals were already crippled, yet they continued to assault Luo Feng!

At that very moment, Luo Feng stood up straight. The five gigantic pairs of wings folded forward to form an envelope around Luo Feng, keeping him entirely within its embrace. At the same time, Sector Beast Morosa was also completely surrounded by the wings.

Peng!

The impact of a head-on collision threw Luo Feng far into the distance. He tumbled away at a few million times light speed.

Pu!

In the process of being thrown, Luo Feng could not help but spit out blood. The blood splattered all over Morosa, who was kept safe under Luo Feng’s protection.

“Master!” Morosa was agitated and worried about the strike Luo Feng had received.

After a while, Luo Feng stopped tumbling.

“Do as I say.” Luo Feng swallowed the blood in his mouth and looked at Morosa at his side. “Don’t get arrogant and impulsive. I have Wu Qi God and Shi Wu Wings to protect my body! My body is far superior to yours... Even with this remnant of power, you will still die if you are struck by it!”

Morosa nodded frantically. “Understood, Master. I will not do anything to foil Master’s great plan!”

What a joke. Previously, the axe technique used by Mo He had been ten times more powerful than Destruction. It would have been enough to exterminate Morosa. Now, Mo He had divided itself in two, and both bodies were executing Destruction concurrently. The subtle combination of two Destruction whirlpool portals was reflected through the formation of hundreds of millions of spaces. When that happened, its power climbed linearly to reach an incredible level. Even if only a portion of this power remained, it would still be able to exterminate Morosa!

“Hahaha... Milky Way Horde Leader.” From afar, the two Sector Beasts, both of them Mo He, flew over together. “You are smart enough not to hide inside Star Tower. If you had entered Star Tower, Morosa would be dead by now! You are quite impressive, indeed. Still able to resist. But I reckon that more than half your godly power has been consumed, right? Hiding in Star Tower, you will die; if you do not go in, you will still die—and you will die at my hands! Try to receive our attacks again.”

Once again, the two Sector Beasts, Mo He and Mo He, started to execute their moves together.

In the distance, Luo Feng’s expression changed. His godly power was already burning at its limit. To maintain Wu Qi God at its third stage was already very taxing on his power. If it were any other ordinary true god, that godly power would most likely have been used up in a moment, but Luo Feng’s godly power reserve was rich enough, so by sustaining a high degree of consumption, he could easily pull through for a long time.

However, earlier on, when he had been bombarded by the remnant of Destruction of Reincarnation, that one hit had seriously injured him. Although it was not to the extent that Mo He imagined—where more than half of Luo Feng’s godly power was consumed—he had still lost almost 30 percent of his power!

30 percent might not have seemed like much, but given Luo Feng’s godly body, such a loss was scary enough.

Hong! Long! Long!

Once again, the two dazzling, intertwining whirlpool portals in the midst the void space came flying at Luo Feng.

“Go.”

Luo Feng did his best. First, Star Tower blocked off the attack! Then Blood Ghost Blade executed Door of Life again to resist! Then Shi Wu Wings folded together to surround and protect Luo Feng.

Peng!

Luo Feng was thrown into the distance upon impact and tumbled far away.

Fresh blood splattered. His skin was subjected to such violent vibrations that it split open, and his bones trembled just as violently.

Luo Feng forced his godly body to absorb the impact of those hits so that Morosa would not be injured, regardless of how much he personally had to endure as a result. No matter what, nothing could be allowed to happen to Morosa.

“Not dead?” The two copies of Mo He in the distance were shocked. For every single time Mo He executed the move, it was actually equivalent to using “Destruction” twice.

This consumed quite a bit of Mo He’s power. Fortunately, it was a sixth-stage Sector Beast now, and a sixth-stage pinnacle one, at that. Its power reserves were enough to allow it to execute Destruction several times.

“Every time, you will be severely injured!” Sector Beast Mo He roared. “Let me see exactly how many times can you take such hits!”

Once again, it executed its strongest move.

“Block,” said Luo Feng.

Luo Feng gritted his teeth and held on. There was no other way.

Given the speed of the whirlpool portal, there was no way he could dodge. And if he hid in Star Tower, it would be no different than sending Morosa to its death.

“I would also like to know,” said Luo Feng, “whether you can execute more, or whether I can block more.”

Luo Feng hung on through clenched teeth.

Once!

Twice!

Thrice!

Ten times!

Eleven times!

“Still not dead!” By now, Sector Beast Mo He was going completely crazy. “I refuse to believe that your godly power is limitless. Meet your doom!”

Sector Beast Mo He was left with no choice. Luo Feng was doing all he could to protect Morosa. Even in the face of such powerful strikes, he was not dodging or hiding.

Mo He really had no other choice. In this battle for the birth of the ultimate king, it had no way of backing out.

“For the glory of my Sector Beast race...” Mo He’s eyes were filled with madness. “I must win. Human, meet your doom!”

The two dazzling, intertwining whirlpool portals appeared again.

“What I seek to protect in my heart I shall not allow to be destroyed.” Luo Feng’s look was just as fearsome as both his hands wielded Blood Ghost Blade. “You ought to be the one meeting his doom!”

Peng! Peng! Peng!

Thirteen times, fourteen times, fifteen times...

This was the final battle. It was the battle for the birth of the king. While it might be said that Mo He and Morosa were fighting to give rise to the final victor, the truth was that Mo He and Luo Feng were battling one another! Luo Feng was Morosa’s protector. As long as Luo Feng remained alive, there was no chance at all for Mo He to kill Morosa. Conversely, with Luo Feng out of the picture, Mo He could easily become king.

The 30th time!

“I don’t believe this! I don’t believe your godly power is unlimited!” Sector Beast Mo He was in a state of insanity. It had used up a good half of its total power. It had attacked 30 times, which was as good as executing Destruction 60 times.

“Why is it still able to sustain?” Luo Feng wondered, his eyes bloodshot.

He begrudged the current situation. He was down to 10 percent of his godly power. It would take only three or four more hits for his godly power to be completely used up.

On the one hand, this was a pinnacle sixth-stage Sector Beast. The power reserve of such a beast was unbelievably extensive. On the other hand, Luo Feng had a perfect godly body at a life gene level of 100,000 times. Unfortunately, there was not enough time. Luo Feng’s godly power wasn’t able to build up to the level of the ultimate limit. He wasn’t being given any time at all.

“Die!” Sector Beast Mo He roared. “The ultimate king will not be enslaved!”

Hong!

This was attack number 32!

Luo Feng’s eyes split open. Traces of blood were gushing and splattering. His entire being fell into a state of absolute madness.

“I must protect the ones I seek to defend! I cannot lose! I cannot!”

At this moment, Luo Feng was sent tumbling again. His godly power was sharply reduced, dropping to an amount that would allow him to bear just one last hit. He could sense that Sector Beast Mo He had yet to be forced into its final desperation. Yet Luo Feng had been reduced to his final stage of resistance.

“I cannot lose!”

Luo Feng fell into utter insanity.

At this juncture, various scenes flashed through his mind. To help his younger brother get on his feet again, he had stolen the steel-armored dragon's egg...

He had set his soul ablaze in order to perish with the devouring beasts...

When he first made his way off Earth, he had proudly risen up in the universe battle of talents...

He had knelt before True Yan to become a disciple of True Yan...

Various scenes replayed in his mind.

Sitting Mountain Guest, True Yan, Primal Chaos City Leader, and Huge Axe... Xu Xin, Luo Ping, and Luo Hai... Rong Jun, Wu Ka, and Bolan... Their faces flashed through his mind.

"I cannot lose."

For all the important people and things he sought to protect. Step by step, he had made his way from Earth to where he was now. He had transcended everything in his life... He had to stand by what he sought to protect; it was his responsibility!

"Get up!"

An unyielding willpower! An unmovable, steadfast willpower! For everything important to him, he burned with endlessly might willpower!

At that moment, he erupted!

Hong!

Luo Feng's willpower finally transcended the ultimate limit of an eternal true god to reach an even higher domain. It was truly high enough to be the "holy" domain!

As Luo Feng prepared to go into the final battle, as he was bidding his family farewell—that was when the change in his willpower had begun brewing. At that moment, for everything he sought to protect by giving his all, his willpower erupted.

A breakthrough!

"The ultimate king can only be a free Sector Beast!" Sector Beast Mo He felt as though it could taste victory as it witnessed Luo Feng's crazy demeanor. "Go to hell."

From a distance, Mo He saw Luo Feng get back on his feet and set his gaze far ahead.

That look...

At that moment, everything in Mo He's surroundings suddenly disappeared. Only Luo Feng's eyes, which had transformed into gigantic planets, remained, revolving and emitting endless power. An extremely acute willpower, almost like a sharp blade, pierced right through Sector Beast Mo He's willpower.

Supreme willpower secret technique: "Linear Element Technique."

The godly king of Jin had waited for a trillion eras for the appearance of a being who could master Linear Element Technique. This was a secret technique that drove many godly kings crazy. It was a terrifying

technique that could annihilate even the most top-tiered talents from the ancient civilization if they merely tried to master it. To be able to master it, one's willpower had to first undergo sanctification to become holy.

This secret technique was one Luo Feng had studied repeatedly umpteen times. The moment his willpower was sanctified, he would acquire all he needed to learn it instantly.

Hong!

The eyes of both Sector Beasts, Mo He and the other Mo He, went dull. Then, instantly, they lost consciousness. The few million other bodies, scattered all over Universe Ocean, all lost consciousness after their eyes went dull.

Luo Feng pointed afar. "Die."

An illusory beast head appeared and instantly started boring its way into the body of Sector Beast Mo He. It was going to launch a direct attack at Mo He's soul!

Sector Beast Mo He's willpower was originally powerful, so it was able to bear the impact of ordinary soul attacks. But now, in its unconscious state, it did not have a trace of resistance. It was like a candle that could be extinguished with a single breath. There was not an ounce of resistance. Instantly, its soul was annihilated.

A few million other bodies were, within an instant, all annihilated.

"Ha..." Standing far away in the void space, Luo Feng's body trembled slightly. Soon, he lost all control. Throwing his head back, he laughed heartily. "Hahahaha...! I did it, I did it, I did it! Hahaha..."

At that moment, Luo Feng laughed as if he had gone mad; he seemed to be carried away with the laughter and completely lost all composure.

Chapter 1479: The Birth of the King of Sector Beasts

He won.

Finally, he had won the fight. This was the most exciting moment for Luo Feng in a trillion eras.

"Back!" Luo Feng pointed.

Hua!

Star Tower was floating up above, and the black hole at the base swallowed both of the bodies of Sector Beast Mo He and Morosa standing beside him! Morosa was a slave of Luo Feng, so he couldn't resist it at all.

"No matter what." Luo Feng was exhilarated, but he still kept his cool, "I can't be careless and doom myself. If you want to become the ultimate king of Sector Beasts, make a breakthrough in my Star Tower."

Mo He was dead. Morosa was the single, final Sector Beast. It could now evolve and become the ultimate king.

The king of Sector Beasts was the most precious, most perfect, and most noble of them all. It represented the destruction origin of all life. It was so noble that it could rival the original universe... Luo Feng couldn't be sure that such a noble creature could be enslaved. If Morosa suddenly shook off Luo Feng's enslavement when it was becoming a king and destroyed all the races, including Luo Feng, everything would be in vain. That was why Luo Feng had put Morosa back in his Star Tower, even if he was exhilarated!

Star Tower was a godly king weapon! Once Morosa was trapped inside Star Tower, it wouldn't be able to break out, as it was only a newborn king of the Sector Beasts! Even a Sector Beast who had reached its pinnacle level—one that could destroy an entire kingdom in the ancient civilization—couldn't break out, as it was only a bit stronger than godly kings. As for Morosa, it was just a newborn king of the Sector Beasts.

If I can still enslave it, then everything will be fine, Luo Feng thought. If I can't enslave it anymore, I'll keep it in Star Tower forever until I can kill it.

Although he was worried, he still believed that he was able to enslave the ultimate king. Since he had been able to enslave Morosa, it ought to be possible for him to enslave the king of the Sector Beasts. Besides, the final battle had been between an enslaved Sector Beast and a free Sector Beast. If the ultimate king couldn't be enslaved, there was no point for the battle.

Everything has a chance, Luo Feng thought. To enslave a Sector Beast, someone's life gene level must attain 100,000 times to turn his godly power to the power of Sector Beasts. Also, he has to have exceptional willpower! Then he can actually enslave a Sector Beast. To enslave the king of Sector Beasts, he also needs to destroy the entire Sector Beast race.

A life gene level of 100,000 times! Exceptional willpower! The destruction of the entire Sector Beast race! Three conditions, and all needed to be met to enslave the king.

Luo Feng had met all the criteria. If the supreme laws let Morosa shake off the enslavement at this moment, it would be unfair. At least, that was Luo Feng's opinion!

Inside the space of suppression in Star Tower, the two bodies of the ferocious Sector Beast Mo He lay there while Sector Beast Morosa stood to the side.

"Ah!" Both the heads of Sector Beast Morosa shot up.

A supreme force arrived, surrounding Morosa.

Luo Feng stood at the edge of the space of suppression, watching. The supreme laws? he thought. No wonder the king of Sector Beasts stands in opposition to the original universe!

Hua!

Both of Sector Beast Mo He's bodies were annihilated and vanished. All those millions of bodies of Mo He scattered everywhere immediately vanished. This surprised Luo Feng, as he'd thought Morosa was going to eat the bodies.

Hong! Long! Long!

A powerful force was born, and it infused the body of Morosa.

Each force had the appearance of the Sector Beast. Even though all those Sector Beasts looked very similar, they were somehow different. Luo Feng could even identify Qi Ya, Beddy, and the other Sector Beasts he had encountered. All the forces of the Sector Beasts infused the body of Morosa.

Hou!

Morosa couldn't help yelling in excitement. Its body was bulging, and the bloody engraving picture on its body was getting increasingly complicated, as if an invisible hand was drawing on its body. At the same time, both the heads had a horn, and each horn was emitting white light from its tip.

The forces kept coming. The forces of all the dead Sector Beasts gathered and merged with it. Soon, Morosa had reached top-tier level six. Morosa stayed there for a long while, until the last powerful force merged in. It was the force of Sector Beast Mo He!

Hong!

It kept infusing. The power of all the dead Sector Beasts infused its body, which made Morosa cry out. Soon, one white character after another emerged from its body. The gleaming white characters were surrounding Morosa, so that Luo Feng couldn't even see it anymore. He could only sense that a terrifying force was reacting.

"Incredible." Luo Feng was thrilled. "The power of all the Sector Beasts merged into one! One out of a billion Sector Beasts! Each of the Sector Beasts is as powerful as a true god, the attack of a billion true gods is more powerful than an eternal true god, yet those energies only add up to a king of Sector Beasts that has just entered its growth period."

The power was there. Those gleaming white characters were dimming while new characters showed up all the time. It was as if they were telling an ancient secret. A single horrifying, destructive force was tumbling. It was the destruction origin of the supreme laws. The king of Sector Beasts represented the complete destruction origin.

After a long time, the supreme law force was finally gone. The billions of characters that previously surrounded Morosa's body were gone, and only after that did Luo Feng see the appearance of Morosa.

"This, this..."

Luo Feng looked at the newborn king of the Sector Beasts in shock. A transparent, giant white life form was standing there. Its body was perfect. It had two hands and two legs, a mouth, a nose, and two eyes, but it didn't have ears. There were two horns on its forehead, pointing forward.

It looked holy and beautiful. Even some of the most beautiful individuals of the human race, or even the alluring bug empresses, were inferior to it.

It was so beautiful and natural, containing supreme mysteries. Without those two horns, it would have looked like an innocent and lovable child, yet with those two horns, it had the supreme power of the throne.

“King of the Sector Beasts?” whispered Luo Feng. “Those hideous and savage monsters, with dark skin and two heads... Their ultimate king is more beautiful than any creature I’ve seen. Even bug race empress looks ugly compared to this.”

It was perfect.

“Master.” The being’s skin condensed into armor, and it bowed and saluted Luo Feng. “Thank you for making me, Morosa, the ultimate king.”

Luo Feng looked at Morosa. He could sense it. It was true. His soul control was deeply ingrained in the soul of this king of the Sector Beasts. He could crush the soul of the king with one thought.

Just as he had expected, after a series of tests, he was qualified to enslave the ultimate king.

“Morosa,” Luo Feng chuckled. “Now, you’re more beautiful than any other creature.”

“I can turn into any shape, and I can change the forces as well,” said Morosa respectfully. Its body changed, and it turned into Divine Eye True Master. Then it turned into Rampaging Devil God. Then Hong and Primal Chaos City Leader. Even their auras were the same.

Luo Feng smiled. The king of the Sector Beasts also had the ability to be “Invisible and Formless.”

“What other abilities do you have now?” asked Luo Feng.

Morosa answered modestly. “I still have the ability to have ten million bodies. Besides, I’ve mastered the complete destruction origin, and I can keep comprehending the destruction origin so that I can be more powerful. Plus, the sector inside my body is perfected, so it can breed many powerful warriors. Warriors that are much stronger than level-six Sector Beasts.”

“Oh?” Luo Feng was thrilled.

Lucky him.

Fortunately, he had won. If Mo He had become the king of the Sector Beasts, he wouldn’t have stood a chance at all. The king still had ten million bodies, while it was able to breed lots of warriors... It was amazing.

“Of course, the king of the Sector Beasts isn’t almighty,” said Morosa humbly. “I still need to swallow lots of energies and lots of valuables to provide my warriors with sufficient vigor.”

“Ha... There’s a Purple Moon Holy Land waiting for you to swallow.” Luo Feng smiled.

“It will be my honor.” Morosa smiled.

Luo Feng looked at Morosa carefully. Morosa had been reckless and grumpy before. However, it was now calm and peaceful. Apparently, its demeanor had totally changed now that it possessed the complete destruction origin.

“What level are you at now, compared to us? Universe masters? True gods? Void space level? Or higher?” asked Luo Feng curiously.

“I’ve just entered the growth period,” said Morosa. “I should be at the level of void space according to your training system.”

A true god of void space? Luo Feng nodded. It was as he had expected.

“I’m different from you, master,” said Morosa. “I don’t have any upper limit on my power. If I can keep swallowing and comprehending, then I’ll keep improving myself... I have mastered the destruction origin, so no matter how slowly I am comprehending, I’ll reach the pinnacle level eventually. When I reach that level, I’ll be at the same level as the pinnacle original universe, and with one strike, I’ll have the power of a strike by the original universe. However, the original universe is used to breed countless lives. It can’t make attacks by itself.”

Luo Feng was thrilled. The original universe couldn’t attack on its own. However, if it really could strike on its own, given its vast volume, it could definitely reach the level of godly kings. No wonder the Sector Beasts were considered a catastrophe even in the ancient civilization!

Only a multitude of kingdoms teaming up could resist the Sector Beasts. Apparently, several godly kings alone were not powerful enough to resist the army of the Sector Beasts.

“The lives of the original universe need to transcend incarnations when we reach the level of void space,” asked Luo Feng. “Morosa, do you also need to transcend incarnations now that you’re at the level of void space?”

Chapter 1480: The Destruction of Purple Moon Universe

“Transcend reincarnation?” Morosa shook its head. “Master, you are a life form of the primal universe. But I am not. The level I am at now might be the equivalent to a true god of void space level... but no one has ever forced me into transcending reincarnation.”

Luo Feng lamented and sighed. That was how impressive it was. Being at a comparable status as the primal universe, even the willpower of the origin would have no way of coercing it to do anything against its wishes.

“Let’s go,” Luo Feng said. “You need to make a trip to Purple Moon Holy Land with me.”

“Yes, Master.” Morosa’s eyes revealed a hint of anticipation. Of course, it knew what it was going to be doing.

There was not a single hint of pity in Luo Feng’s eyes. Previously, he’d had to deal with the Sector Beast crisis, so in light of the most important matters at hand, he had put all else aside. There had been no time to waste. But now, the crisis was over. Purple Moon Holy Land had constantly oppressed the humans, always trying to kill him. They had targeted him multiple times, becoming his sworn enemy long ago! And he also needed to retrieve the last component of his Shi Wu Wings.

Hu!

Star Tower teleported right away and vanished within the vast, chaotic airflow.

While Luo Feng and Morosa made their way to Purple Moon Holy Land Universe, a gathering was taking place in the Pantheon Sanctuary of the virtual universe. The humans and other races from the Hong Alliance and various groups of powers—like the demons, the bugs, the Space Beast Alliance, the Ancestral God School, and even some of the supreme masters who were lone travelers like Sitting Mountain Guest—had gathered here!

Silence.

The most they did was exchange conversations via voice transmissions. The worry in their eyes and on their faces was difficult to conceal. This final battle concerned the life and death of all the races. If the news they received was a nightmare, that would mean all of them would be annihilated.

Seated at the highest level, garbed in his white robe, Luo Feng's eyes were shut. No one dared to disturb him.

Hua!

Suddenly, Luo Feng opened his eyes. The many true gods had set aside a part of their thoughts to keep tabs on Luo Feng. At that moment, they all looked over. Even the many universe masters outside the Pantheon Sanctuary got to their feet. They were all watching the great hall from afar. Anticipation filled their eyes as they all waited for Luo Feng to announce the outcome.

"Dear all," he said.

Luo Feng looked below; a smile suddenly broke out over his face.

Just one smile, and right away, all the true gods below, and even the universe masters outside had an inkling of the answer. However, if they did not hear it straight from Luo Feng, could not rest assured of the certainty of the answer. One by one, they held their breath and stared hard at Luo Feng. They were all waiting for him to make the announcement.

"The final battle. We won!" Luo Feng's voice rang loud and clear. "The Sector Beast crisis is over. This reincarnation generation is still going to continue for several trillion eras. Fret not, everyone!"

All the true gods below cheered at the same time.

"Hahaha!"

"Victory, victory!"

"Great!"

"We won!"

They were all top-tiered existences that stood at the peak of their own races, but at that moment, none of them could be bothered about proper conduct! The universe masters outside Pantheon Sanctuary were just as excited.

Sitting Mountain Guest, who was seated below, looked at Luo Feng from afar. He, too, smiled. At long last, he could let out a sigh of relief.

“Luo Feng.” Primal Chaos City Leader turned to look at Luo Feng. Laughing had never felt more natural than it did now. “My disciple, you have never disappointed me.”

The atmosphere was filled with jubilation.

The various races all knew the outcome, and the news spread like wildfire. Even the handful of true gods from the first and second reincarnation eras who had lost their miniature universes and thus gone into hiding in Universe Ocean heard the news.

“It was a success?”

“We pulled through?”

The others like Jue He True God and Rampaging Devil God, who were scattered all over Universe Ocean, were extremely lonely. When they learned of the news, they were not very happy because their miniature universes and all their people had been exterminated. Now, they would spend their lives as lonely souls, waiting for doomsday to arrive.

Within East Emperor Holy Land Universe, East Emperor Ancestor was pacing the vast continent, watching the lives of his people. “Have we pulled through?”

Some of his people were so weak that their lives would not even surpass 100 years. Traversing the great continent and seeing the life-and-death reincarnations, East Emperor Ancestor was already prepared, but the moment the news reached him, the joy in his heart simply could not be contained and came surging out.

“Hahaha...” East Emperor Ancestor threw his head back and laughed heartily. He was laughing for himself as well as his own people.

The entire East Emperor Universe, including all the true gods and universe masters, were extremely excited. They were all rejoicing and celebrating because they had made it through this calamity.

It was the same joyous atmosphere within the Purple Moon Holy Land Universe. Not only were the universe masters and true gods getting emotional, but even Purple Moon Ancestor was delighted.

“I have extraordinary opportunities,” said Purple Moon Ancestor. “I am bound for great achievements. How can it be possible for me to meet my downfall in the face of this Sector Beast calamity?”

Purple Moon Ancestor was relaxed and happy. Then a glimmer of anger flashed in his eyes.

“That Luo Feng unexpectedly managed to stop this Sector Beast crisis from happening. His great potential is indeed intimidating. He will become my greatest opponent in the future. Why did he not perish along with the Sector Beasts? Forget it. Since he managed to survive this time around.” Purple

Moon Ancestor shook his head. “Seems like I can only look forward to the future to see whether he is more powerful or I am more powerful. For now, I don’t believe I will lose to him.”

Then Purple Moon Ancestor pushed aside all thoughts of Luo Feng. He joined his underlings, as they all started their celebration banquet. Surviving a crisis was indeed a major event worthy of celebration.

Just as all the higher-ups of Purple Moon Holy Land were happily celebrating, amidst the void space surrounding Purple Moon Holy Land Universe, Star Tower appeared. Two figures walked out from the side door at the base of Star Tower. One of them was a man clad in silver armor: Luo Feng, a. And the other was a handsome king with a pair of curved horns: Morosa.

“Purple Moon Holy Land.” Luo Feng looked into the distance at the gigantic miniature universe. “It’s time for annihilation.”

Both parties had long been sworn enemies! Would Luo Feng go easy on them?

“Morosa, how long will you need to swallow it all?” Luo Feng asked persistently.

“I am different from the second-stage and third-stage Sector Beasts,” Morosa said with a smile. “My sector is now truly perfect. My ability to swallow naturally reached a new level high. It should be very fast, but I need to try before I will know exactly how long I will need.”

“Hmm... You may begin.” Luo Feng instructed.

Morosa nodded.

It looked into the distance at Purple Moon Holy Land Universe. Then its pair of horns suddenly shot out countless distorted white ray of light. The tip of each horn was like the source. Together, the tips of its two horns resembled the constellation Gemini. The tips of its horns were influencing one another, forming a strange gravitational force that completely shrouded the faraway Purple Moon Holy Land Universe.

Hong!

Time and space trembled and vibrated, then became distorted. A dazzling radiance followed the countless distorted rays of light and crazily penetrated Morosa’s body. Morosa became immeasurably dazzling—like a sun a trillion times brighter than anything else.

Luo Feng looked to his side at Morosa. The king of the Sector Beasts was so dazzling that Luo Feng could not clearly make out its features.

“How is it?” he asked.

“Purple Moon Ancestor must be trying to use his willpower for additional power, as he tries his best to put up a resistance,” Morosa said. “This Purple Moon Holy Land Universe is very big, indeed. Such an extremely powerful origin. With the support of his own willpower... if I want to devour it, I would need some time. Probably around one day.”

“One day?” Luo Feng laughed.

Second-stage and third-stage Sector Beasts would have required around 100,000 years to finish devouring everything. The king of the Sector Beast only required a day.

“This is the day I have been waiting for.” Luo Feng laughed.

Within the Purple Moon Holy Land Universe, Purple Moon Ancestor had originally been seated high up above everyone else while the true gods and universe masters were helping themselves to delectable cuisine and fine wine, overjoyed as they conversed incessantly at loud volumes.

But now...

“Sector Beasts are devouring?”

“Ancestor, are you saying the Sector Beasts are devouring our Purple Moon Holy Land?”

“How is that possible? The primal universe sent us a message informing us that the Sector Beast crisis is over, right? Hasn’t Milky Way Horde Leader gotten rid of all the Sector Beasts?”

There was an uproar among the crowd.

Purple Moon Ancestor stood above them all, his face filled with anger as he shouted furiously at them, “There are Sector Beasts devouring the origin of our Purple Moon Holy Land Universe right now! This is my miniature universe; how would I not know? Could I be wrong with something like this? Hurry, send the message to those of us in the primal universe right away. Tell them! The Sector Beasts have yet to be exterminated, and they are attacking my miniature universe right now.”

“Yes, Ancestor.”

“Understood.”

“Understood.”

The true gods and universe masters beneath him were flustered. They all started to transmit messages to the true gods in the primal universe.

Purple Moon Ancestor stood way up high with a face filled with hostility. He was angry and anxious. His miniature universe was being devoured in a continuous manner, and the speed at which it was being devoured scared him!

He was also fuming mad at Milky Way Horde Leader Luo Feng, who had claimed that the Sector Beast calamity was over. Why were there Sector Beasts coming to devour his miniature universe again?

Could it be that Luo Feng lost? Purple Moon Ancestor wondered to himself. He must have known everything would be exterminated. Could it be that, before the extermination, he has decided to go crazy and wantonly spread false news of his victory? Anyway, he will have to be exterminated if he lost, right? So, in his moment of insanity, he must have purposefully come up with such a ploy.

Purple Moon Ancestor started to let his thoughts run wild in his anxiety.

It had never occurred to him that a Sector Beast would become Luo Feng's slave! In light of this, Luo Feng had never publicized it. Even the groups of top powers from the primal universe were equally clueless about the fact that Luo Feng had enslaved a Sector Beast!

In the virtual universe, at the Pantheon Sanctuary, true gods and universe masters from various races were all gathered. They were holding a grand ceremony to celebrate their victory over the Sector Beasts. They had stemmed the tide of the Sector Beast crisis.

Luo Feng and Primal Chaos City Leader were seated at the topmost level. Joy and laughter filled the room.

Suddenly, a voice resounded, saying, "The Sector Beasts have not been exterminated! The Sector Beasts are devouring Purple Moon Holy Land Universe now!"

As the voice rang out, the entire Pantheon Sanctuary instantly fell silent.

"Yes, the Sector Beasts were not exterminated. There is already news coming from Purple Moon Holy Land. They are being attacked by the Sector Beasts, and the origin of Purple Moon Holy Land universe is currently being devoured!"

"Purple Moon Holy Land is in the middle of being attacked by the Sector Beasts."

"There are still Sector Beasts around!"

There was an instant uproar within the Pantheon Sanctuary. Would Milky Way Horde Leader lie? Everyone was on pins and needles.

Space Beast Ancestor also voiced his concerns. "Milky Way Horde Leader, are the Sector Beasts completely wiped out, or are there still some surviving Sector Beasts?"

Nine Remoteness True Master was also worried. "Milky Way, if there are remnants of the Sector Beasts roaming around, we must quickly get rid of them. Otherwise, when the few remaining Sector Beasts start to grow and develop, they will again impose a great threat on us."

"Dear all."

Luo Feng looked down at everyone, and the moment he spoke, everyone quietened down.

"Rest assured," he said. "The Sector Beast crisis is now over. If you don't believe me, you can ask the three ancestral gods... I believe the three ancestral gods will have received news from the willpower of the origin. They will know whether or not the Sector Beast crisis is over."

Instantly, everyone within the Pantheon Sanctuary looked at the three ancestral gods.

The three ancestral gods looked at one another.

The old ancestral god spoke up. "The Sector Beast crisis is, most certainly, a thing of the past. Period."

"Hahaha..."

"We are relieved to hear what the ancestral god has said!"

The tense atmosphere within the Pantheon Sanctuary immediately eased up. However, there were still a handful of true gods asking, “Why would Purple Moon Holy Land say that the Sector Beasts are attacking their holy land universe?”

Luo Feng looked down. “It is not an attack from the Sector Beasts! It’s me. I am the one attacking! It will not take long for Universe Ocean to be forever rid of Purple Moon Holy Land!”
