

SWALLOWED 531

Chapter 531: Greeting Blood God

Luo Feng became a green light and entered the entrance of his cave into huge pit quarters.

Within the cave.

“In that whirlpool core, after experiencing and absorbing that golden light for 30 days, my body is already saturated.” Luo Feng flew straight to his stone bed and sat crossed legged. His eyes were filled with anticipation. “Hope I can absorb the 3rd crystal. If I still fail then I won’t ever be able to absorb it. After all, my body’s limit has already been reached, whether it’s the killing aura...or the even better golden light, it’s already useless.”

Taking a deep breath, Luo Feng flipped his hand and a blood red triangular crystal appeared on his palm.

Even after seeing it thousands to tens of thousands of times, he still couldn’t help but be drawn in by its beauty every time.

“It’s too beautiful.”

“This is a treasure of the universe.” Luo Feng gently sliced his left palm. Chi, a wound appeared and fresh blood flowed, making contact with the crystal. Immediately a formless killing aura willpower rushed against his. However, his earth body had only absorbed 2 crystals before, hence this amount of willpower was a joke.

Chi chi...

“Hm?” Luo Feng frowned, sitting crossed legged, his body began to twitch uncontrollably. His muscles twisted, his veins were squirming around like worms, scales began to appear on his skin...

Pain, intense pain.

However, the golden horned beast had absorbed 97 crystals before. Hence, this level of pain was something he could totally bear with.

Minutes and seconds passed...

Blood red energy flowed continuously out of the blood river crystal and entered his body. Gradually, the color of the crystal grew faint, becoming more and more transparent. After awhile, the entire crystal had become transparent, like glass. After which, the crystal crumbled into energy and entered his body.

“Success!”

“I finally succeeded.” When he felt the entire crystal had been absorbed, his body had successfully digested it. Luo Feng couldn’t help but feel ecstatic.

Yes!

Mad glee!

His power had leapt, his melding with the origin laws and comprehension had all risen, this was simply one part of it. Another was the points! The Virtual Universe Company points were very valuable...just like this blood river world mission. The 1st mission was to acquire 1 blood river crystal, and the prize was 10,000 points.

However one only had one such chance.

Acquiring one blood river crystal was 10,000 points. Even if you acquired 100k crystals...you'll still be unable to get more points, getting only that 10,000.

Afterall!

To universe levels, maybe acquiring one crystal was hard enough. However to the undying, even to beings like True Yan Emperor who was able to unleash teleportation, acquiring the crystals was very simple.

"However it is strange."

The Virtual Universe Company has always declared that the blood river crystals are treasures." Luo Feng was curious, "However in blood river world, there were 10 million worlds. Within every world there would be territories, with many have domain lord warriors. Almost all the domain lords would have crystals."

"Obviously the amount of crystals is huge."

"However..."

"Even after searching the entire treasure trove of the Virtual Universe company, there wasn't any blood river crystals to buy within!" Luo Feng was even more curious. Yes, it wasn't sold!

Blood river crystals, it was only found here in the secret region blood river world, and even in blood river world, it was very valuable.

Afterall...

it was plenty. Yet the treasure trove didn't have any.

"Blood river world mission is a universe level mission." Luo Feng thought, "The domain lords would have to head out into territories to take on envoy missions. As for the sector lords, they have to go through life or death training. I probably won't ever get the chance to enter this blood river world in the future. At least, I acquired over 9000 crystals."

Within his consciousness, Luo Feng felt that the crystal was a banned item, one that was controlled by the Virtual Universe company. Even with his absolute beginning region status, he was unable to exchange for them.

"When I get the chance, I'll go check it out."

"Hm, first I'll take a look at my condition after absorbing the 3rd crystal." Luo Feng didn't think much of anything else, triggering the mysterious energy within.

Immediately, a blood red engraving appeared on his bare chest.

A simple but complete engraving.

“How wonderful.”

He closed his eyes, feeling the depths of the endless universe, the ripples of the many laws were perceived at this point. Gold, wood, water, fire, ground, wind, light, thunder, space, time...he could feel the ripples more clearly than before.

“1 time.”

“The level of clarity is 1 fold higher than before. The strength of unleashing has also doubled.” Luo Feng thought.

1 time more was equal to doubling his power.

That was a whole level of power more!

“My comprehension has increased, my future comprehension speed will rise too.” Luo Feng thought, “No wonder the blood warrior is so respected. All those who are able to enter the Virtual Universe company are all absolute geniuses. To double one’s comprehension and strength the origin laws, just what is that? Giving 100k points is very normal.”

“I’ll give it a shot.”

“I’ll see if I can absorb the 4th. Also my willpower is stronger than before, I’ll let the golden horned beast try and absorb the 98th crystal to see.” Luo Feng was filled with anticipation.

.....

After a while.

The earth body tried absorbing the 4th and reached halfway before he failed!

The golden horned beast fought hard for awhile and was just about to succeed before finally getting decimated by the killing aura willpower, failure!

“Haha, I cannot be too greedy.”

Luo Feng was gleeful, suddenly standing from the stone bed, “My consciousness...it’ll probably be another 8 to 10 years before I’ll be able to withstand the 98th crystal’s killing aura willpower.”

No rush.

His life span was 10 times that of a normal human sector lord. To absorb 100 blood river crystals was the target, he could definitely hit it.

“Hm, right now I am a blood warrior.” Luo Feng thought. “The 2nd mission was to absorb 3 crystals and become a blood warrior. However, I will have to receive the blood river medal, only then will I get the 100k points.”

“Blood river medal!”

“Every blood warrior can go to any world city to the leader and receive the blood river medal.”

“Blood god Baqi, he is also a World leader. He should have some blood river medals.” Luo Feng couldn’t wait at all. Remaining in ancient god ruins already had no benefits left for him. On top of that, within the headquarters of the Virtual Universe company, he had many things to do...it was time to leave blood river world.

He rushed to acquire the blood river medal!

Sou!

Luo Feng flew out through the cave and headed swiftly towards the depths of the pit.

.....

“It’s 97.”

Deep in the depths, on a platform, sitting crossed legged was a huge bronze silhouette. He looked into the distance, “Number 2, what do you think of 97?”

“For so many years, he’s been staying in that same spot. The most he did was head towards the aura whirlpool.” Another voice resounded over 10k km within the captain’s ears. The blood god guards’ wrist communicators were used within the blood river continent area. As long as one was here, they could know of each other’s locations.

Because blood river continent was simply too huge.

Hence...every marker of the wrist communicator had a specific range of about only 100km! To the strong, such accuracy was already enough. Because within 100km, with a sector lord or domain lord’s strength, they can instantly discover their target.

Whether it was Blood god Baqi or the two captains of the blood god guards, using the wrist communicator...they all realized, Luo Feng had flew close to the aura whirlpool.

As their markers had a 100km margin of error.

None of them knew that Luo Feng had actually entered within the whirlpool.

“So many years, to focus only on training and not do anything else, at least we can begin to trust him.”

“Hm, indeed we can begin to.”

.....

In the depths, it was vast.

A blood colored palace was erected amidst the mist. A green light landed before the palace and headed in, simultaneously saying, “Blood god guard 97, greets Lord blood god.”

“Wait a moment.” A voice resounded from the palace.

Luo Feng was very clear this was an AI’s voice, quietly and patiently waiting within the palace.

When the blood god was training, it was forbidden for anybody to disturb him. To see the blood god, they can only rely on the AI to request for them.

.....

"I'm on the 5th level, come." A majestic voice resounded in Luo Feng's ears.

"Yes."

Only then did Luo Feng follow the staircase. Like a blur as he swiftly headed up, in an instant, he reached the 5th level.

The 5th level was comparable in size to the 1st level of the palace.

However the layout of this level was more humane than the 1st level! Just like the design of the walls around, the luxurious rug on the floor, the materials were those that lasted over millions of years, and above this 5th level in that black throne, sat a silhouette that emitted a thick powerful aura.

Intrepid and powerful, the silhouette was dressed in a blood red long robe and had blood colored long hair.

It was blood god Baqi.

Below his majesty was another throne. There stood an incomparably tall wild beast Qi Niu. Even though he was below his majesty, with his huge stature, it caused his back to reach even higher than where Blood god Baqi sat.

"Greetings Lord, greetings Lord Qi Niu." Luo Feng knelt down, one knee touching the ground.

"97, what's the matter?" Blood god Baqi sat high in his throne looking down coldly.

"Lord, I've already absorbed 3 blood river crystals." Luo Feng said respectfully, "I've always dreamt of becoming a blood river warrior and receiving a blood river medal. My reason for coming today is to request a blood river medal."

"Ah?"

Blood god Baqi stood up fiercely. Beside him, the wild beast Qi Niu too shot out two spurts of hot air from his nostrils, they flowed past Luo Feng.

"Absorbed 3 crystals?" Baqi was shocked. He knew that the talent of this new blood god guard 97 was very high. However to quickly absorb 3 crystals...shocked him greatly. Because some humans could at most absorb 4 or 5 crystals, maybe 7 or 8, like himself!

However, it required long periods in the killing aura to alter their body.

"Yes."

Kneeling on one knee, Luo Feng's chest bronze armor automatically ripped open, revealing his bare chest. Simultaneously, Luo Feng triggered that mysterious energy and a blood red engraving appeared there.

Looking at the simple but complete blood red engraving, Baqi's eyes gleamed. He revealed a smile and laughing loudly, "97, very good, very good."

"Rumble." Two jets of hot steam shot out of wild beast Qi Niu's nostrils. He too let out a thick booming sound, "Very good."

Chapter 532: Undying Shrine

Within the palace, Blood god Baqi laughed as he walked down from the throne.

Luo Feng remained knelt there.

"Hm." Baqi looked at Luo Feng kneeling on one knee, more satisfied as he looked. Blood river world was different from the universe. The universe had the Virtual Universe company and other huge powers nurturing their geniuses, allowing them to compete. However it was mostly a protective kind of nurture.

Blood river world was different!

There were over 10 million world cities on the continent. Countless sector lords fought against each other! Even if one was a genius, no matter how powerful, you'll still have to experience slaughter to slowly reach the top! Hence Baqi would accept elites to build his own blood god guards, this was him preparing his genius army!

Right now he was in training. However, the moment he revealed himself, his power and status would have to be earned through slaughter!

Blood river continent worshipped strength! Worshipped slaughter!

"97, at cloud level 9 you are able to defeat a domain level 1 blood demon." Baqi stood there, looking down at Luo Feng, "Right now you've even absorbed 3 blood river crystals. Your improvement speed would be even faster! Your level of talent is considered top level even amongst the geniuses absorbed by the undying shrine."

"Under me, your benefits will definitely be no less than those geniuses nurtured by the undying shrine!" Baqi said confidently, "If you are loyal to me, I will treat you well!"

"Thank you Lord, I will do my best to support you and work for you." Luo Feng knelt there, clean and respectful.

When Baqi heard those words, his smile grew wider.

"Haha..."

"Hahaha..." Baqi began to laugh even louder. The laughter resounded continuously around the palace, even the blood god guards in their training rooms on the 3rd level all looked up, wondering why their lord was so happy.

Baqi was all smiles, personally lifting Luo Feng till he stood there.

“Work hard.” Baqi smiled at Luo Feng. “First break through to domain level. As for the blood river medal, I haven’t taken over a world city. The medals that I initially brought with me have all been given out.”

“Ah.” Luo Feng was stunned.

Given out?

Meaning, Baqi didn’t have any blood river medals?

“Haha, 97, you little punk, the moment you heard there weren’t any medals...your expression changed.” Baqi smiled, “I understand your thoughts. I grew up listening to the legends of the blood and black warrior too, working hard to become a blood warrior and black warrior, to get the blood river medal.”

“That medal, to those who receive it, is simply just a medal and has no other meaning. To those that don’t receive it...it’s however a target that they’d chase for thousands to tens of thousands of years.”

“Hm!”

“I may not have any right now, but I’ll inform the undying shrine to give me a few more.” Baqi smiled at Luo Feng, “I estimate in about 10 days, if they are faster... within 6 to 7 days, they will send envoys to deliver the medals to me. Then, I’ll hand one to you.”

“Thank you lord!” Luo Feng’s expression was filled with gratitude as he bowed.

“Haha...go on! Breakthrough to the domain level!” Baqi smiled. “Ah, right, these are two blood river crystals! When you’ve absorbed them, look for me again.” Following which, he flipped his hand and took out two more crystals, they floated out of his palm and straight to Luo Feng.

Luo Feng respectfully received them, “Thank you lord.”

Baqi smiled as he looked at Luo Feng leave respectfully, following which he couldn’t help but laugh loudly again, causing the entire palace to tremble.

.....

As Luo Feng left the 5th level, he met a few other blood god guards. They were all curious as to why Baqi was so happy. Hence they came to ask! Luo Feng naturally explained to them. Immediately the group of guards were all filled with envy, congratulating Luo Feng.

After which, Luo Feng left the palace and rushed straight into the sky, towards where the aura was thick and red.

“The 1st time I met Blood god Baqi, he was brutal, cold and without remorse. He would have killed me in a heartbeat.” Luo Feng smiled and shook his head as he flew. Exclaiming within, “However after so many years, now he’s attitude is obviously much better. He even got closer once he knew I absorbed 3 crystals.”

This was a form of trust.

When they first met back then, even though he had submitted, Blood God Baqi probably still hadn’t fully trusted him.

However after so long of sticking by the rules within his huge pit quarters, obviously Baqi was very satisfied and finally began to trust him. Maybe the level of trust wasn't comparable to his captain number 1 or others, but because of Luo Feng's talent, obviously Baqi still favored him heavily.

"Pity!"

"Baqi, I cannot stay in this blood river world. My area...is even more vast." Luo Feng muttered within, "After I receive the medal, I'll leave!"

"The next time I come will definitely be much much later."

Sou!

He swiftly tore through the skies and headed towards his huge pit quarters.

After Luo Feng left, not long after, Baqi personally used his communication device to send a message to the undying shrine, requesting more blood river medals.

.....

Undying shrine, its core region was within the ancient god ruins.

The area was vast. There were large amounts of mountain ranges, occasionally swamps, rivers, forests and huge pits etc...in this ten million km area, the killing aura was all around. Be it high in the mountain peaks or deep in the swamps and rivers, or in the huge pits, or floating in mid air...

In every core of the whirlpool auras was a glaring red sun.

In this entire region however there were a total of 10,081 aura whirlpools about. Every one of them revolving, most of them however were about ten times less or more than Luo Feng's pit, the smaller ones had an aura of only 1/10th. There were all forms of aura whirlpools.

All different in strength, size and position.

10,081 whirlpools, separated into skies, rivers, mountain peaks, valleys, naturally formed phenomenons!

"Rumble..."

"Ji!"

"Ang!"

Like an ancient beast howling, passing through trillions of years of time and space, resounding within a region.

In the center of these 10,081 whirlpools, there was an ancient shrine a million km in area, completely black and red in color. The surface layer had incomparably complex statues, some of them were of beasts roaring, some of undyings battling and so on. The ancient shrine surrounded by the 10,081 whirlpools, emitted the same ancient aura.

Just how big was an ancient shrine that had an area of 1 million km?

Earth was tiny compared to this shrine.

The size of the shrine was comparable to the sun!

This was the center of blood river continent's strongest power. Even the Virtual Universe company hadn't completely dominated this place.

.....

Undying shrine, majestic and tall, in level 9,829 of the palace.

"Yuke." A black armored silhouette stood before the throne. Gazing downwards, his voice boomed like thunder.

Below, a white uniformed man was kneeling, his head on the ground.

"Go get 20 blood river medals and with the fastest speed send them to Baqi." The armored silhouette said indifferently.

"Yes, great god." The white clothed man knelt and said respectfully.

"Go!" The silhouette said.

Shua!

The armored silhouette vanished from the palace. The white clothed man got up and turned to head outside, simultaneously shouting loudly outside, "Wula, get the team of special envoys ready, we are leaving immediately from the shrine."

"Yes lord Yuke."

A voice resounded from outside.

.....

After a while, a dark purple disc shaped universe ship swiftly tore through the skies flying away from the shrine. Up in the 15th level of clouds, it flew quickly towards the huge pit.

The ancient god ruins were simply too vast. The universe ships created by the undying shrine paled far in comparison to Luo Feng's automaton ship. Even flying in the cloud levels, the resistance was much higher than flying in space. Hence just the flight alone, Baqi said would require 6 to 10 days.

6 to 10 days here was blood river continent's time.

In truth, compared to earth time, it was about 1 to 2 months.

.....

In that ship, after flying about 20 days of earth time, within a wide river in the ancient god ruins was an island.

On that island.

A warrior was in training.

At the depths of the river was a huge aura whirlpool, endless aura emitted from within, making this island...as the best place to train.

“Lord!”

“Lord!”

Two silhouettes fiercely emerged from the surface of the water, landing on the island. These two shouted hurriedly, their voices rumbling...resounding throughout the island. With a domain lord's strength, the power of those roars, one could only imagine.

“Lord.” “Lord.”

The two of them rushed until they were before a beautiful silver white palace, there stood a beautiful receptionist.

Rumble!

A silhouette rushed out from within the palace, immediately appearing at the entrance. With a wave of his hand, a wave of world energy formed a huge palm and slapped the two underlings shouting. It knocked them so far back that they flew into the distant vegetation.

“I've already said it before.” Before the palace, dressed in a white robe, a bewitchingly handsome youth, with fox like eyes was staring at the two who were spitting out blood. “When I am training if you are looking for me, first let the AI know and let it inform me! You actually shouted and made a ruckus. I am teaching you a lesson this time, next time, don't blame me for being merciless.”

The two guards immediately were shocked to their senses.

“We know our mistake.”

“We know our mistake.” The two quickly flew over and bowed respectfully.

“Hm.”

The fox like youth cleared his throat and said indifferently, “Speak, just what has gotten you both so crazy.”

“There's some historical remnants at the bottom of the river.” One of the guards shouted.

“There's some historical remnants at the bottom of the river, very likely from that battle countless years ago.” The other guard spoke.

The fox like youth stared wide eyed.

Historical remnants?

From that legendary battle?

“Bring me there quickly!” The youth ordered in a shrill voice, his face flushed red from excitement.

Chapter 533: Historical Remnant

“Yes!” The two guards didn’t dare delay, quickly leading the way into the distant river.

“How did you two discover it?” The fox like youth communicated while following them.

Historical remnant.

The ancient god ruins was the place where blood river continent’s strongest undyings joined hands against the outsider’s invasion. That battle was a bloodbath, trillions of km of area was completely wasted, even causing the area to be filled with killing aura up till now. One could only imagine how intense the battle was!

Every undying was able to build his own god country, the amount of treasures they had was plenty.

After that battle back then...

The undying shrine, there was a period of time where everybody madly searched for treasures. They swept the entire ancient god ruins, collecting large amounts of the treasures! However...even though the undying shrine had sent undyings to search for the treasures, the area was afterall still too large!

Also, the ground went too deep!

The surface diameter of blood river continent was 9 trillion km, and the depth alone was close to 100 billion km. With such depths, to actually search the entire area properly...

Even a group of undyings would definitely leave something out!

However over a trillion years, it was rare that one ever heard of a new discovery. Afterall. over countless years, 99% of the historical remnants were already found, leaving behind the extremely hard to find ones.

.....

The three of them dived straight into the river, diving deeper and deeper, this vast river’s depth was at least 10,000km, very deep indeed.

“Lord, discovering the remnant was also our luck.”

“Right, it’s luck.”

The fox like youth dived downwards, communicating, “Explain.”

“The two of us were at the bottom of the river hunting some water beasts to barbecue and eat. Who would have thought that at the bottom, we ended up feeling the ground below tremor violently, causing a canyon to split apart, with some ancient decayed weapons floating out. We didn’t dare delay, hence we came to inform you.”

“The moment we discovered it, we immediately came to inform you Lord.”

The two of them said.

The fox like youth smiled as he heard this. He was a sector lord nurtured by the undying shrine, his sights were indeed plenty. Hence from the explanation alone he understood...

“It should be some undying or world leader’s world storage which was destroyed. Hence, when it was destroyed the ground tremored, it caused his world to reveal itself.” The fox like youth thought. As long as one reached the sector lord level, he could use his world energy to build his own world and even a world within a world.

And one world could be shrunk down within a villa.

Even until it reached the size of a specially constructed sand grain.

How much it could shrink depended on the materials!

Some materials were just a little bigger than a sesame seed, that alone could house an entire world. And even though creating space rings’ materials were cheap, however to actually slice a piece of space was very hard and troublesome. Hence, many wealthy sector lords and even undyings would rather use money to acquire valuable materials and store their worlds and use as their storage! Afterall, a world the size of a sand grain was easy to bring about.

However...

The god countries were different, they were even more vast and more troublesome.

“Should be an undying!”

“World leaders all have their internal worlds. They can place items within their internal worlds. Only undyings! They already don’t have their internal worlds, only god countries. And placing items within and retrieving it later, storing is very troublesome. Hence bringing along a world, where the space is huge, storage etc, was very convenient.” The fox like youth thought. “However, the materials used to store a world are still very valuable, and they cannot last forever. After over a trillion years...finally they decayed. Once that happened, then the world would reveal itself. Hence, the ground split open, allowing these two punks to discover it. Haha, my luck sure is good.”

The fox like youth reached the bottom excited, at the dark bottom, he used his world energy.

“Indeed!”

“It’s indeed a world.” The youth scanned the bottom with his world energy, reaching deep into the ground, immediately he was very excited.

Sou!

He immediately dug deep into the ground and began to search for the treasures.

.....

Half a day later, Hu Xin island, within the palace.

The fox like youth stood before the fence. Gazing into the distance, he felt extremely satisfied. “I didn’t expect that, I Kuyan, could acquire such historical remnant treasures. Hm, from the looks of it, it should

be some items stored in some undying's world. Even though there aren't as many treasures as I expected, however it's still hundreds to thousands of times more than my wealth."

Windfall.

The legendary historical remnant, it was that thrilling! He was a world leader, even though he had plenty of treasures, in this one instant his wealth had leapt 1,000 times.

"However, the other weapons and materials etc, I can handle. This jade gold statue however, is really useless to me." The youth flipped his hand and a 30cm tall statue appeared in his palm. It was completely half transparent, gold in color. Looking at this statue, it gave off a heart trembling energy.

The statue was of a wild beast. A lizard like creature, with a long tail, thick legs and a single horn on its head! Its intrepid energy emitted from the mysterious ancient statue.

"This jade gold statue is one of the legendary beast god statues I think. I've heard there's a total of 18 of them." The fox like youth shook his head, "However, it only has sentimental value, no other uses."

Beast god statue.

An item the undying shrine worshipped. There were a total of 18 of them. However, back then during the terrifying battle, more than half of them were lost. Till today, three of them still hadn't been found.

"Even though it's useless to me, however giving it to the undying shrine would mean great benefit to me, I'll get quite a reward." The youth smiled. Using his communication device, he sent a message to the undying shrine...

The message was very simple.

It was that he, Kuyan, had acquired a beast god statue by chance and was giving it to the shrine.

.....

The message quickly reached light speed. Within 1.5 days, it reached the shrine. Within the shrine...even though the beast god statues were but items of worship and had no other use or importance, its status was still highly regarded. Hence the shrine immediately gave the order for the envoy team closest to bring the statue back, and even give a reward to the sector lord Kuyan.

Yuke led his team of envoys and sat in a dark purple universe ship, arriving in the air above Hu Xin island.

"Kuyan."

The white robed Yuke descended from above, behind him followed two envoys.

"Haha, Yuke." The fox like youth smiled and flew from the island, welcoming them. "What a coincidence."

"I am here under the god's orders to deliver the blood river medals to Lord Baqi." The white robed Yuke said. "Right now there are currently 2 teams of envoys in the ancient god ruins, and I just happened to be close to you. Hence, I was ordered to route over and receive the beast god statue."

"Lord Baqi?"

The fox like youth was surprised. "You are heading to Lord Baqi? I heard he has been in the aura training for quite long, and has already absorbed 8 crystals."

"Yes." The white robed Yuke nodded.

"Go, it's a good surprise that I met you here. I'll follow you to meet Lord Baqi. I've long heard of his reputation, but haven't met him yet." The youth said. Compared to Baqi...whether it was age or position, he paled in comparison. Firstly, this fox like youth was only sector lord level 3.

And Baqi, had long long ago reached the pinnacle of sector lords.

And he was a trillion year genius!

As long as he wanted, he could breakthrough to undying very quickly! In terms of position, Baqi was comparable even to the undyings. Otherwise, why would his guard team alone have two sector lords, and even a powerful wild beast Qi Niu as his brother.

"Let's go." White robed Yuke nodded.

Immediately the group flew into the purple ship in the sky. It sped off with shocking speed headed towards the huge pit.

.....

Time passed.

Luo Feng waited patiently within the huge pit quarters.

"Blood god Baqi told me that day it'll take 6 to 10 days. According to earth time, that's at most 2 months, however now, 2 months have passed." Dressed in the blood god guard uniform of bronze armor, he sat crossed legged on his stone bed, worrying within.

Him staying there didn't have many benefits anymore.

And returning would mean more opportunities. Compared to the vast universe, blood river continent was simply too small.

"Rumble!"

The air shook, and a powerful energy reached Luo Feng.

"97!" A thick voice resounded within the huge pit quarters, causing Luo Feng to jump down and reply respectfully, "Lord."

The huge pit quarters was 10s of thousands of km away from the palace in the depths of the pit, and a sector lord's unleashed world energy was unable to travel that far. Hence he had to control and focus his world energy in a specific direction. With Blood god Baqi's control, it caused the air to shake.

"Come here to me." The voice resounded.

"Yes." Luo Feng replied, happy within, looks like it was time to receive the blood river medal.

Sou!

Luo Feng became a green light and followed the cave out, diving deep into the depths of the huge pit and reaching the bottom in an instant.

.....

5th level of the palace.

Luo Feng had arrived at the 5th level, spotting the blood color robed Baqi in the throne above, along with the wild beast Qi Niu beside.

“Greetings Lord, Lord Qi Niu.” Luo Feng knelt on one knee.

“Get up.”

Baqi was smiling, “In a while, the blood god palace envoys will arrive and deliver the medals. Also...your luck this time is good.”

“My luck is good?” Luo Feng’s face was filled with curiosity.

Blood god Baqi smiled, “Haha, the special envoys that have come have brought along another world leader Kuyan. He was extremely lucky, acquiring an ancient treasure from the undying shrine...the beast god statue! It is a statue of a beast god, a legendary being. When they arrive, I’ll let you see the statue.”

“Ah? Beast god statue?”

Luo Feng was curious, on the surface however he shouted, “Thank you Lord!”

Chapter 534: Beast God Statue

When Luo Feng went to visit the blood god Baqi, a dark purple disc shaped universe ship had stopped above the huge pit in mid air.

Hua!

The cabin door opened.

The leader of the envoys, the white robed Yuke and the Fox like youth Kuyan flew out of the cabin door, followed by 8 others.

“This is Baqi’s training spot?” The fox like youth’s eyes gleamed. Gazing below at the huge pit, “The aura here is so thick, looks like there’s a whirlpool down there too.”

“Hm.” Yuke nodded indifferently, simultaneously keeping the universe ship.

“Follow me down.” Yuke ordered.

“Yes.” the group complied.

“Hehe, we’ll meet the legendary Lord Baqi in a moment.” The fox like youth was very excited.

Sou! Sou! Sou! The silhouettes rushed downwards swiftly into the depths of the blood red aura.

Within the depths, a palace was erected there. 10 silhouettes swiftly descended and landed at the entrance of the palace, led by the white robed Yuke and the fox like youth Kuyan.

“Lord Baqi. On orders from my god, we’ve delivered the blood river medal.” The white robed Yuke bowed and shouted.

“Enter.”

A thick booming voice immediately reached the 10 people’s ears. Simultaneously, a blood god guard appeared at the entrance and personally led them in. “Envoys, this way!”

With the guard leading them, the 10 of them quickly reached the 5th level of the palace.

.....

Palace 5th level.

A blood red robed Baqi sat high in his throne, gazing below. Below, on the left was the fierce looking wild beast Qi Niu, and beside him were 3 blood god guards. Captain number 1, vice captain number 2 and the blood god guard awaiting his medal 97.

Yuke and Kuyan along with the others had arrived.

“Greetings Lord Baqi.” The white robed Yuke bowed, beside him the fox like youth bowed too.

“Greetings Lord Baqi.” The 8 of them behind them too knelt down on one knee.

“Yuke, it’s been rough on you.” Baqi nodded from above in the throne. His gaze then landed on the youth beside him, “You are Kuyan?”

“Yes Lord Baqi.” The youth smiled and spoke excitedly, “I was a few generations after Lord Baqi. However, I am also one of the geniuses from the undying shrine. I’ve long heard of your name and always wanted to meet you. But today, it’s finally come true.”

Baqi nodded, remaining calm.

The Undying shrine had many geniuses in one batch, the strength of the world leaders was large also. He... Baqi was a genius of a trillion years and his position was comparable to an undying. As for the other normal geniuses, naturally he didn’t bother. What’s more, even though Yuke and Kuyan below were of sector lord strength.

One was sector lord level 3 while the other was 5.

Even in terms of quantity they hadn’t reached the pinnacle. Naturally Baqi couldn’t bother too much with them.

“Blood river medal?” Baqi looked below at Yuke.

“These are the 20 medals that my god had ordered me to deliver.” Yuke flipped his hand and 20 palm sized medals floated in his hand. They were all completely dark red, and on them were engraving and words.

Sou!

The 20 medals floated directly to the throne above before Blood god Baqi.

“Hm.” Blood god Baqi snorted coldly. With a wave of his hand, he kept those 20 medals.

“97!” Blood god Baqi ordered.

“Present!” Luo Feng walked out and knelt on one knee, replying loudly.

In the throne above Baqi smiled, “You’ve successfully absorbed 3 crystals, becoming a blood warrior. Today, before the envoys of the undying shrine, I personally present you this blood river medal! Train well, don’t waste your talents.”

“Your underling will not disappoint you Lord.” Luo Feng knelt on one knee, his voice strong and forceful.

“Hm.”

Blood god Baqi waved his hand and immediately 1 medal appeared and floated before Luo Feng.

Luo Feng stared at the medal. It was palm sized, and dark red in color. Its surface was covered in engravings that formed together an ancient palace. As he raised his hand to receive it, he said respectfully, “Thanks lord.” Simultaneously, he let out a sigh of relief within. He had finally acquired the medal.

Once one became a blood warrior and acquired the blood river medal, the reward would be 100k points!

“Everything is finished. I have no need to stay anymore. Once I return to the huge pit quarters, I’ll find a chance to leave.” Luo Feng thought.

“Cloud level pinnacle and he’s absorbed 3 crystals?” That fox like youth Kuyan let out a shrill voice, resounding throughout the palace. “Congratulations Lord Baqi. Congratulations, to acquiring such a genius. I believe that in 100s of thousands of years, he will definitely be a powerful warrior.”

Baqi only replied indifferently, changing the subject, “I heard you acquired a Beast god statue?”

“By mere luck.” Kuyan immediately replied.

“Your luck is not bad.” In the throne, Baqi nodded coldly.

And Luo Feng who was standing beside the two other guards was curious within. Just what was this beast god statue thing?

“Lord Baqi, please take a look.” Kuyan confidently extended one hand and suddenly, a statue appeared out of nowhere in his palm. It was about 30cm tall, half crystal like and transparent. It also had complex gold within, and it looked like a lizard like beast. However, its head seemed to be struggling with its 4 legs which were thick and powerful, and one horn that piercing towards the sky.

The entire statue emitted a heart trembling terrifying energy.

“Brutal!”

Almost like a crazed shout, the voice resounded through everybody’s ears, making everyone who was staring at the statue change their expressions.

“Good statue!” Blood god Baqi complemented and nodded.

“Beast god!” The wild beast Qi Niu stared wide eyed, and a complex look could be seen within his gaze as he looked on.

The two captains of the blood god guards too looked in shock. They had heard of the legendary beast god statue before, but have never seen it! Of all present, the only one who had probably seen a beast god statue before was probably Blood god Baqi.

.....

“This, this is...” Luo Feng remained calm on the outside, inside however were filled with torrents of thoughts and emotions that took over.

Right!

Without a doubt, this beast god statue was the terrifying ancient beast he had seen in the three pictures in the whirlpool. Just the statue alone...that weak but terrifying energy it emitted, it was definitely stronger than Baqi, Qi Niu or any others! Even more powerful than some of the powerful warriors Luo Feng had seen in the primal chaos city...

Naturally, the energy from the statue was weak!

“This beast god statue?” Luo Feng carefully examined it, staring at every scale, and at its incredibly defined claws and tail.

Howl!

Brutal!

Luo Feng could almost see countless years ago, where this lizard like beast dominated the universe space. Howling and slaughtering tens of millions, its intrepid energy...completely triggered Luo Feng’s golden horned beast. What his earth body saw, the other bodies naturally saw too.

“Howl...” The golden horned beast within the internal world couldn’t help but howl out, and its dark pupils were filled with excitement and anticipation.

“This, this is the true aim of the golden horned beast.”

“This is the direction in which the beast needs to head in.” Luo Feng was extremely excited.

Having long studied the three ancient pictures, along with the golden horned beast’s reaction, it made Luo Feng burn with excitement within.

The shape of the statue was important, but the importance was given to god itself!

Luo Feng had long studied the blurry ancient pictures formed by the aura, using Tearing Sky and land technique to comprehend and learn. After rushing into the whirlpool, he was even able to more clearly study the three pictures. Those three within were 10 times clearer than those formed by the aura outside. Hence that image of the god was also 10 times clearer!

And at this time!

This beast statue before him...it made Luo Feng feel as though there was a living ancient beast right before him! Even though it was a simple statue, however the god that statue portrayed, that energy...was countless times higher than the three ancient pictures.

"Howl..." The golden horned beast howled within the internal world.

It was howling.

Almost like a cat howling, trying to imitate a tiger!

That ancient beast was a tiger and the golden horned beast was but a weak cat!

"That was not the correct way!"

"Wrong, what I studied before was wrong."

"Tearing sky and land, compared to this ancient beast's 1st claw pales in comparison. Looking at the statue itself, I know the right path." Almost like a living ancient beast here, the energy emitted from the statue revealed many secrets that indeed benefitted the golden horned beast.

"I have to acquire it!"

"This ancient beast statue, I have to get it!"

"This statue, to the golden horned beast is like the 9 universe tablet to the human body. I don't know who carved this statue, but they were actually able to capture its essence." The golden horned beast studied it awhile and immediately realized that this was far from an ordinary statue.

Luo Feng's gaze fell on the white robed Yuke and Kuyan's bodies.

Those two were sector lords!

"What do I do? These two are both sector lords. I have no way to snatch." Luo Feng panicked within.

"And there's even Baqi and Qi Niu here, who were both sector lord pinnacle. And once they leave, they will swiftly take their universe ship and go."

As Luo Feng was panicking...

"The beast god statue, is completely jade gold, and every inch of jade gold is incomparably valuable. It's a material used by undyings to create weapons." Baqi looked at the statue and exclaimed a couple of times. However, he seemed more enticed by the material and the worth of the jade gold that was used to make the statue.

"However, 18 statues, in terms of craftsmanship, all are at their peaks." Baqi's felt his problem and quickly complemented the work.

"Lord Baqi, as the medals have been delivered, we'll return back to the shrine." White Robe Yuke bowed.

Kuyan too kept the medals and bowed.

"Hm." Baqi nodded.

Yuke, Kuyan and the other 8 envoys thus left.

Luo Feng stood there, frowning.

Chapter 535: Too Valuable

As the white robed Yuke and Kuyan left with the 8 envoys, Luo Feng left the palace too.

Sou!

He became a beam of green light rushing into the sky, quickly reaching his huge pit quarters.

“Undying shrine, Beast god statue?” Luo Feng looked at the skies. He could see 1,000 li in the sky, and there, a dark purple disc shaped ship floated around.

“Beast god statue!” Luo Feng recalled the statue.

Howl!

Li!

Looking at that statue was almost like looking at a live ancient beast itself.

Through the statue and its mysterious energy, he could feel the ancient beast’s first claw scene. Such artistic grace, unleashing an attack that could destroy the entire land and skies, it was so natural! The ancient beast’s claw was one that was infused with both universe laws and ground and sky laws.

It came into contact with almost every law!

Looking at the beast statue, the golden horned beast too had some revelations. It could use this to understand how to improve in its training. Maybe the statue wasn’t as godly as the 9 universe tablet.

However, to the golden horned beast, its importance was maybe even higher than the 9 universe tablet to it.

The only thing was that the statue was protected by two sector lords now.

“Hmph.” Luo Feng thought, and entered his huge pit quarters.

Blood river world space, Tian Shi palace.

This palace was located in space. In terms of size, it wasn’t smaller than a planet.

Within the 1st level of the palace, a group of sector lords in charge of surveillance were shocked as they looked at the huge screen.

“Ah, His majesty Luo Feng’s automaton ship has entered Blood River world.”

“Luo Feng’s ship, it’s been in space for so long. Why enter it now?”

“He’s preparing to return?”

“Be on your toes.”

The group of sector lords didn't dare relax. Right now, Luo Feng was heavily favored by the upper echelons of the Virtual Universe company. In terms of position, he was much higher than the group of sector lords.

.....

15th cloud level, the dark purple disc shaped ship was flying swiftly.

In the 18th cloud level, disguised fully as a cloud was a silver white pyramid automaton ship. It too was swiftly flying. In terms of speed and flexibility...this undying automaton ship was much better in many aspects compared to the Yun Mo planet ship, much less the technologically backward ships of Blood River world.

Automaton ship, control room.

Black clothed Luo Feng sat in the sofa. A light screen appeared before it, and on it there was a marker.

“Beast god statue, I definitely have to get it. The 9 universe tablet, it's hard to get even one chance to study it, and each time, there is a allowed study period of only 7 days. And this statue...is extremely important to the golden horned beast.” Luo Feng's eyes gleamed. In the vast universe, the strong preyed on the weak, and many races were destroyed and extinct due to this law of the jungle.

Everything was based on strength!

Even though the points from the blood river crystal were very important, and his rewards this time were huge, the beast god statue was hundreds to thousands of times more valuable than the 100k points!

“No matter what, I have to get it.” Luo Feng thought.

“Master, the target has been acquired. Currently maintaining a distance of 1.6million km.” The AI from the automaton ship spoke.

“Activate star annihilator cannon!” Luo Feng said coldly.

“Yes!” The ship's AI wouldn't defy him in the least.

A voice however resounded in the control room, shouting, “Luo Feng, what are you doing, why are you activating the star annihilator cannon? That's a star annihilator cannon, and is comparable to an undying's full attack. Just one shot can completely destroy a planet! The amount of energy used is shocking too. The automaton's reserves aren't that much, your one shot will use 1/3 of the reserves!”

While Babata was shouting in rage...

The control room resounded with the AI's voice, “Star annihilator cannon 1 countdown, 60...59...58...”

“There's a treasure I need to get from that ship.” Black clothed Luo Feng said coldly.

“Damn, is there a treasure that requires you to use this cannon? A star annihilator cannon is one of the pinnacle weapons in the entire human race of the universe. One shot is akin to an undying's full attack. However, because of its dispersed attack, it cannot be as condensed as a true undying, hence it cannot

kill an undying. However, anything under an undying...will definitely be reduced to ashes! Aren't you worried that the treasure you want will be destroyed too?"

The black clothed Luo Feng said coldly, "That's a statue made of jade gold from Blood River continent."

"Jade gold? Hm..." Babata seemed to realize, muttering, "What a waste."

18 beast god statues, were from an era before a war over trillions of years ago.

Most of them had been retrieved, yet none of them seemed to be damaged in the least. Obviously, to actually damage these statues was extremely hard, even the undyings found it hard to do!

Even if one broke through a space ring, with the space inside broken, the statues would still remain unharmed.

Even after an undying is killed, the statues were still in perfect condition.

Undying shrine...

They've always regarded the statues as extremely important items to be worshipped. As their history was very special, what they represented was terrifying. Hence the undying shrine worshipped these statues! Other than the fact that they remained in perfect condition over countless years, the undyings had yet to find any other special use for them.

"30...29...28..." The countdown in the control room continued!

.....

About 1.6million km from the automaton ship, the dark purple ship was flying.

Whether it was the automaton race or the human race, they mostly battled in space. Since the area in space was vast and unlimited, their scanning radius was naturally huge too. Much less this...automaton ship was made from a race of technology! Which was equal to an undying.

If it were detected by the ship made by the backward Blood River continent, that would be a joke.

.....

Within the Dark purple ship.

"Yuke, that Baqi sure is arrogant. I painstakingly went all the way there, yet he didn't even smile at me." The fox like youth Kuyan sat crossed legged, lifting a wine glass and saying dissatisfied.

"Baqi was also known as blood god, he made his name because of his madness and slaughter. He may be closer to his blood god guards. However to others, he's always been cold." The white robed Yuke shook his head and smiled. "There is no way around it. Baqi is a genius of a trillion years, hence he can back his arrogance. We can only accept it!"

The fox like youth simply snorted coldly.

In front of Baqi earlier, he was affectionate and friendly. However, now he couldn't hide it anymore.

“Kuyan.” The white robed Yuke changed the subject, “You giving this beast god statue to the undying shrine this time will get you a huge reward.”

“Haha...” The fox like youth smiled the moment he thought of the reward.

.....

“6...5...4...3...2...1!” Energy storing complete!”

Within the silver white pyramid’s control room, Black clothed Luo Feng sat in the sofa. His eyes gleamed coldly as he ordered, “Fire!”

.....

The silver white pyramid was 1,200m tall.

The large pyramid at this time revealed itself. The beautiful tip of the pyramid had a condensed glaring light ball as the entire surface of the ship had large amounts of light energy gathered at the tip. It got stronger and stronger, until it sparked like lightning, finally forming a light ball with a diameter of 300m.

With the order within the control room, “Fire!”

Chi!

The light ball at the tip became a light pillar with a diameter of 300m and immediately followed the calculated path from the AI within the ship and fired out!

.....

Within the dark purple ship.

The fox like youth was still smiling, “Yuke, you relax, this...”

chi!

The 300m diameter light pillar immediately passed right through the purple ship, that ship’s diameter was but about 100m, it was completely engulfed by the light pillar. Under this terrifying attack, the two sector lords within the ship Kuyan and Yuke could only stare wide eyed in fear and were reduced to nothing.

The other 8 envoys within didn’t even have time to react and were destroyed!

Peng!

The space rings all broke apart one by one, and all the stored spaces within too were sliced open, with large amounts of items within being reduced to dust. However, within the fox like Kuyan’s ring, there were several items that managed to survive the light pillar’s attack. Especially that beast god statue...

Even after the space was destroyed, it was perfectly undamaged, almost like this attack was nothing but a gust of wind against it.

The light pillar immediately reduced the ship to dust. Simultaneously, a 300m diameter cavity appeared in the wilderness of the ancient god ruins below. The light pillar condensed and gathered and finally a

huge explosion occurred! Rumble...tens of thousands of km around exploded. The area at the middle of the explosion was decimated, and countless rubble and stones flew everywhere.

Star annihilator cannon!

The truth that just one shot could destroy an entire planet, was not a joke at all.

.....

At the depths of the huge pit, within the palace.

“Such a strong energy ripple?”

“Who is it?”

Sou! Sou!

Two silhouettes, one blood god Baqi and another Qi Niu swiftly rushed towards the energy ripple. Even the two captains of the blood god guards swiftly rose into the skies. All these characters flew out of the huge pit and headed towards the terrifying energy ripples.

“What’s going on?”

“Why has the lord left?”

The blood god guards all rose into the skies and flew out of the huge pit. Luo Feng too followed suit.

“Baqi, blood god guards.” Luo Feng looked at the guards swiftly flying out, thinking, “It’s time to say goodbye!”

Sou!

As Blood god Baqi rushed towards the energy ripples, Luo Feng rushed into the skies and simultaneously took off his wrist communicator, tossing the hard to destroy communicator deep into the pit. He himself swiftly flew through the 18 cloud levels and as the automaton ship drew close, he vanished into his internal world.

.....

A huge crater with a diameter of tens of thousands of km could be seen.

Blood god Baqi and Qi Niu floated in mid air, gazing down at the size of the crater, and were utterly shocked.

“There’s no trace of origin law ripples.” Blood god Baqi’s face revealed shock. “This, this isn’t an undying’s attack”

“It’s the outsiders!” Qi Niu’s eyes too were filled with shock.

“Inform the shrine, immediately inform the shrine!”

.....

And in the space above Blood River world, the automaton ship disguised as a meteorite flew.

Luo Feng lay in the sofa, lifting a wine glass and looked at the beast god statue that emitted a terrifying energy. He smiled happily and said, "1/3 of the energy reserves were used to exchange for a beast god statue. It's definitely worth it. With such a small capital investment, I've gotten a huge profit, huge profit indeed!"

Chapter 536: Yu Dao Door

"Look at your smug face." The energy formed silhouette of the demon Babata mocked.

"How can I not be satisfied?" Luo Feng put down the wine glass and lifted the beast god statue. Looking ahead at the vast space, it was dreamy and filled with dust and fog. Meteorites could also be seen everywhere.

Looking at the endless space, Luo Feng's spirit rose. Looking down at the beast god statue, he almost felt as though the statue had become a live ancient beast that was roaring. This beast itself seem to embody the laws. The golden horned beast within his internal world also raised its head to howl, resounding throughout the entire internal world.

"This is it!"

"It's the strongest thing I can rely on." His eyes gleamed. While staring at the statue, he said "With this statue, comprehending that 1st claw will be much faster. This will also make my path to understanding the other paths easier and smoother!"

"I want to stand at the peak of the universe, and this will pave the way to achieve that!"

"My greatest reward from this Blood River world is this beast god statue!"

Luo Feng thought.

The Moshu clansmen appeared next to him. The black clothed Luo Feng immediately received the statue and disappeared within the internal world.

Within the internal world.

"Howl!"

The golden horned beast was like a black mountain range that stood there, and while it extended its right claw, it was even bigger than the Himalayan mountains. Black clothed Luo Feng placed the statue in its palm, after which the statue vanished and entered within the golden horned beast's storage ring.

The golden horned beast had its own storage ring. As it frequently trained deities of the world etc, it required a space to retrieve its own treasures to swallow.

It stored the storage ring within the slits of its chest's scales.

Generations of golden horned beasts too had placed their storage items within that slit, mainly because there was a space there that was actually suitable to place items.

...

Within the control room of the automaton ship.

Luo Feng looked ahead at the space, ordering, "Let's go, head to Meng Na city!"

"Meng Na city?" Demon babata opened his mouth in shock.

Luo Feng looked at the virtual image of Babata beside and nodded his head. "Back then I placed Na Ke in Meng Na city, and it's been 80 years already. Who knows what's happened to him! I gave him some treasures back then...the treasures could move his heart. Hence, before leaving I want to go take a look, since Tian Shi palace is that direction too"

The space close to Swallow mound territory was the closest to Tian Shi palace.

For Luo Feng to return, he'd have to first head to Tian Shi palace, and since it was along the way, visiting Na Ke was a natural thing to do.

"Rumble!"

The automaton ship swiftly flew, quickly becoming a blurry light in space.

Ancient god ruins, the star annihilator cannon had left a huge crater there.

Baqi who was dressed in his blood robe and the mountain like wild beast Qi Niu along with the over 90 blood god guards all stationed themselves about the edges of the crater.

"Rumble!"

The skies shook.

Baqi, Qi Niu and the guards all looked up at a silhouette that had appeared in mid air. It was a tall and sturdy old man in grey stone colored armor, his hair stood erect. As he blinked, it was almost as though there was endless thunder energy, his gaze was like a thunder prison.

"Greetings undying." Baqi bowed respectfully.

"God!"

The guards all knelt down orderly, even Qi Niu lowered his head.

This grey armored old man gazed at the 10k km diameter crater. Rumble! Rumble! His gaze was like the sun, shooting out two light pillars, which pierced straight into the deep crater. It was almost as though he could see entirely though the red thick aura within the crater.

"Undying." Baqi opened his mouth. Within this group, his status was the closest to that of an undying.

However in terms of power, of course the undying was still more powerful.

"This crater..." The old man's voice was powerful and deep. "There's no sense of laws, the terrifying attack that created this crater is indeed not one of an undying. However in terms of power...it's definitely comparable to the full power of an undying. Only the outsider's valuable technological weapons can create something of this level."

"Looks like it's really the outsiders." Baqi nodded.

"This is very serious." The stone armored old man frowned saying solemnly. "Because of this huge crater..." the undying shrine had already discussed this with the highest priority. According to that terrifying ancient battle before, from all the data that we've collected. Even from the outsiders, weapons with power comparable to an undying are highly unlikely."

Indeed.

The universe humans may have great technological advancements. However, power that matched that of an undying could only be created through immeasurable amounts of wealth. But that was simply not worth it.

The only ones that had truly reached the pinnacle of technology was the automaton race!

"These few years, there would frequently be outsiders entering our Blood River continent." The stone armored old man frowned. "We caught all we could and killed all we could. However these are small matters. This time however, for someone to have such a powerful weapon, the person who's invaded our world must have a very high status!"

"Hm." Baqi nodded.

"Also according to the world leader Kuyan and Yuke's ship, their signal was cut halfway in this region. Right here, they met with a tragic end." The stone armored old man said. "Obviously the enemy used this weapon to attack from far, destroying the ship and killing both Kuyan and Yuke. This level of technological attack, those two couldn't even defend against. Even Baqi you, wouldn't have 1% of surviving that attack."

Baqi's body shuddered.

Technological weapon?

It was actually so powerful?

"Be on high alert!" The stone armored old man said. "You are our Blood River continent's rare genius of a trillion years. If you were killed by a technological weapon, that would be the worst possible result."

Baqi nodded. Gritting his teeth, he asked unsatisfied, "Are we to simply just bear with this? Not retaliating?"

"Retaliate, what do you mean retaliate?" The stone armored old man looked at Baqi. He was feeling exhausted within. Without truly experiencing the ancient tragic battle from before, it was hard to imagine just how powerful the outsiders were, because of many reasons, the undying shrine was able to maintain governance.

And he, was an ancient survivor of that battle.

Back then, he was only a sector lord, he didn't truly participate in the battle, otherwise he would have died long ago.

However he knew many secrets to that ancient battle.

"Our Blood River continent's power is still far too weak." The stone armored old man replied. "We cannot think of retaliating yet, we can only train well. Everything relies on power. As for this matter, you don't need to bother with it...the outsiders rarely send someone so important. Our undying shrine will not be careless too. If we catch him, we may know more secrets from that person!"

Over a trillion years, the undying shrine had indeed caught a few universe geniuses.

Baqi nodded.

Sou!

The stone armored old man became a bolt of lightning and flashed, vanishing from the skies. As an undying, that old man's speed...was even faster than the ships their undying shrine had built!

"Lord." Blood god guard's two captains came over, the others all hadn't heard Baqi's conversation with the undying.

"I told you all to send a message to all the world leaders to check on any news of 97. Have you done that?" Baqi looked at the two captains.

"Lord." The captain number 1 said respectfully. "We've already sent out the messages. However Lord, are we not to investigate personally? I suspect 97 could still be in the area."

"We don't have time to investigate!"

Baqi shook his head coldly. "He actually betrayed me, there'll be no place for him on Blood River continent!" A month ago when the huge crater was created, blood god guard 97 had secretly left, enraging Blood god Baqi. He had once heavily favored 97. So, he didn't expect to be betrayed.

However...

Baqi never would have thought that 97, didn't need to stay at all in Blood River continent. Because his true limits, were the endless vast universe...

The automaton was disguised as a meteorite, and after about 2 months of flying in space, it finally reached Meng Na city's space.

"Master, we've arrived at Meng Na city." The automaton ship AI said.

Sitting crossed legged in the control room, Luo Feng, who was studying the universe wonders opened his eyes and smiled, "Little Na Ke, I hope you are still alive."

...

His earth body sat in the automaton ship. He let the Mosha body fly out before flying back into space.

Shua!

Black robed Luo Feng walked in the luxurious bustling streets of Meng Na city.

It's been two months since I fired the cannon and acquired the beast god statue. I believe the effect would be pretty great. For safety reasons, I'll leave the core in space, there'll be no loss then." Black

clothed Luo Feng was very relaxed. Even if he met with a dire situation and the Mosha body was reduced to dust.

With a little energy usage, he could easily reform the body.

As long as the core was fine, the three bodies were essentially undying.

The core was Luo Feng's true core.

"Ahead is Yu Dao sect." Luo Feng walked along the streets, buying little snacks along the way to eat, and casually gazing about. "I ordered Na Ke back then strictly to not leave this place unless he reached cloud level (Universe level), he should have listened to me."

After a while.

Luo Feng stood in the streets. Looking at the luxurious mansion, there was a tag on the door.

"This is the Ni residence, don't hang around the entrance, make way."

"Black clothed punk, move to the side."

The two guards at the door ordered.

Luo Feng's expression was ugly, looking at the two guards.

Rumble!

The two guards felt as though the land and skies about them vanished. The black clothed youth before them, his formless pressure...caused them both to crumble.

"I'm asking you, where's the Yu Dao sect?" Black clothed Luo Feng asked coldly.

"Yu Dao sect, it was destroyed long ago."

The two guards said in shock.

At this time, the oncoming traffic of people couldn't hear anything. They could only see the two guards speaking to the black clothed youth, not hearing anything they said.

Luo Feng's gaze focused, "Tell my in detail what happened to the Yu Dao sect."

"Yes, yes."

"We'll speak."

The two guards immediately began to explain in detail about how after the Yu Dao sect was destroyed and how someone came to avenge it later.

Chapter 537: 80 Years Later Na Ke

In the dark night, the Mosha clansman left Mengna city without a trace, returning to the automaton ship in the sky.

Within the control room.

Luo Feng sat in the sofa. His expression was cold, as he said softly, "Depart towards Swallow mound city." The automaton ship immediately accelerated and headed towards Swallow mound city.

"What's up, Luo Feng?" The demon Babata too sat in the sofa.

"Around 50 years ago, the Yu Dao sect was destroyed." Luo Feng frowned. "The elite strength was simply wiped out and the entire sect was destroyed...and it was actually the earliest disciple of the sect that did it. About 30 years ago, a silver haired spirit reader appeared and killed that culprit before leaving."

"What about little Na Ke?" Demon Babata asked.

"According to what the two guards told me, I suspect that silver haired spirit reader was Na Ke." Luo Feng said. "Back then, I left him spirit reader training methods. If my guess isn't wrong, Na Ke would very likely have headed towards Swallow mound city."

"Hm." Demon Babata nodded.

Sou!

The automaton ship was swiftly flying in the space above the Blood River world.

One day later, it reached the space above the swallow mound territory.

Following the same procedure, he left his core in his earth body in the automaton ship. The mosha clansman dived through the cloud levels and headed towards swallow mound city.

Night time.

The cold winds howled, and in a forest 10 million km outside swallow mound city, within a particular cave.

"Crackle!" The fire crackled, giving the entire cave warmth.

"Father." A tall silver haired youth laid a mat on the ground. Some food appeared in his hand, "Let's eat. We fled so far in one go, and we are at least ten million km away from Swallow mound city. And we never entered the city, remaining in the wilderness. Searching pointlessly for us won't be an easy task for them."

"Hm."

An old looking middle aged man with messy silver hair nodded. Lifting his fruit juice and taking the food off the mat, eating as he smiled at the youth. His eyes were filled with pride and glee. Exclaiming, "Ke Ke, you are much more mature than before. For me to see you before I die, the heavens are treating me well. Speak, tell me how you suddenly vanished back then, I looked for you everywhere like a madman."

"Father." The silver haired youth shook his head, "This is how it all happened..."

Na Ke began to tell him in detail of what happened back then. Nabu listened with his eyes opened wide.

"I, I actually agreed for you to follow Lord Feng? And had him wipe my memories?" Nabu was shocked, after which he smiled. "Hm, I would indeed do that. Tell me, over these many years. Looking at you...you seem to have suffered quite a bit."

The aboriginals of Blood River world were born ground level (star traveller), and in the vast surroundings, it had resulted in many special bloodlines in the world.

The Na Family...

The bloodline was special too. After maturing, their hair would turn silver.

"It's like this, back then when big brother Feng took me..." The silver haired youth said indifferently, "...that night I fled Meng Na city, I vowed to take revenge for my teacher..."

"I bumped into another teacher at Tong Lian mountain."

"..."

"I then separated from my two brothers and headed to Swallow mound city alone. Arriving here, I controlled my bones and muscles to change my appearance. Plus, many of the warriors from back then couldn't recognize me. Since I'm a cloud level right now, with a scan, I discovered the family was destroyed but you were still alive. I knew that it was a trap. Hence, I first entered the city leader's mansion to become a general, after half a year..."

Na Ke spoke for more than an hour before finally finishing his 80 year story.

Nabu looked at the youth before him, seemingly in disbelief. This cautious, cunning and brutal youth, was the same idol worshipping, hot blooded silly little Na Ke.

His son had indeed experienced quite a lot.

Meng Na city, Tong Lian Mountain, Flame eye clan...every bit of Na Ke's experiences, every life or death struggle, had completely trained him.

"You've grown up." Nabu exclaimed softly.

"The one I am most grateful for is Big brother Feng." The silver haired youth smiled. "He had prepared so much for me, and because of that, I was able to withstand each and every setback and stand back up! Finally reaching cloud level...however cloud level isn't my final goal. My goal is to reach the domain level and even the world level!"

"Hm." Nabu nodded, pleased.

His gamble back then was right!

...

Within Swallow Mound City.

City leader's mansion.

"You are saying you can't find him?" The purple clothed lady stood in the hall, coldly staring at the city leader Puyang Wen before her.

Puyang Wen bowed slightly in fear. "Yes, the subordinates, they..."

"Explain." The purple clothed seductive lady's eyes gleamed.

"It's the subordinate's mistake. I've already sent a million strong army to go search..." Puyang Wen's head was filled with sweat, because he was only a low level domain level while this lady before him was a high level domain level, and she was also the world leader Si Yong's favorite disciple!

She could easily destroy him! And the only thing he was supposed to do was to keep an eye on Nabu. But, since he messed that up, how could he not be fearful?

"Idiot!"

"Useless!"

The purple clothed lady smiled coldly. "Million strong army? You said before that it was a problem with your general. That general was a cloud level spirit reader. How fast is his flying speed? In just a breath, he can fly 10 million km without a problem. Which direction should your million strong army fly in to search? Are you stupid?"

Puyang Wen was stunned.

"Get out, get out, get out." The lady raged.

"Yes." Puyang Wen retreated.

He waited till he exited the building. His face originally filled with fear, but suddenly his eyes gleamed with dissatisfaction. "Right, I am an idiot. If I weren't one before...why did you support me to becoming the city leader back then? Just wait, once my master gives the order, we'll see who's the real idiot is!"

...

Within the hall.

The seductive lady glanced at Puyang Wen, shaking her head and smiling coldly, "So useless, luckily back then I didn't place any hopes on that idiot."

"Di."

The lady flipped her hand and a communication device appeared. A screen with a map displayed and there was a light dot on it. The lady smiled immediately, "Who would stupidly keep an eye on him? Back then I doped him and put a chip into his already heavily injured body. Won't I always know his position then?"

The communication device, compared to the universe ship's construction was trillions of times easier to make.

Those sector lords had given these devices to their important underlings. The purple clothed lady, as the right and left hand woman of world leader Si Yong, acquiring these communication devices was very easy.

"The distance is really 10 million km." The lady smiled. "I'm in no rush to catch them. I'll first observe, I am sure that silver haired man will bring Nabu to go see that mysterious warrior Feng."

The silver haired seductive lady immediately sent a message to her teacher Si Yong.

Following which she flew out of the mansion alone, rushing into the sky in the night, headed towards Nabu and Na Ke.

"She is the strongest within Swallow mound city!"

"The activation of the swallow mound army, according to the investigation, is to look for Nabu and the silver haired general."

"Hm, that silver haired spirit reader general should be Na Ke. And that lady...flying out so late at night, she should know their location." A black silhouette followed the purple haired lady from behind.

Over 10 million km, even if the purple haired lady was a domain lord level 8 warrior, with Blood River world's strong gravity, she could only reach up to 1,000km per second. Even then, it would still take over three hours for her to arrive at the forest.

"I'll not alert him first."

"Teacher will be here soon, then we'll take the chance to catch Feng. That mysterious Feng, he actually dared to kill my two seniors and the undying shrine envoys, he deserves to die." The purple haired lady stood on a branch of a 3m thick huge tree, staring coldly into the distance, and completely hiding her presence.

Domain lords were indeed proficient in hiding their presence.

At this time, from behind her a black clothed man stood.

"Hm?" The purple clothed lady seemed to realize something and looked back suspiciously. When she saw the black robed Luo Feng in mid air behind, her expression changed.

Black clothed?

Black short hair? Youth?

"You are Feng?" The lady's expression was serious, staring hard at the black robed man.

"Looking for me? Congratulations, you've found me." The black clothed Luo Feng nodded.

"Xiu!"

Her eyes flashed and immediately unleashed a spirit attack, simultaneously using a spirit weapon to attack.

"Weng!" A beautiful flash of a blade. Its resplendence was intoxicating, the purple clothed lady couldn't help but get shocked, following which her consciousness fell deep into darkness. The flash disappeared and Luo Feng kept his blood shadow blade back into his storage ring and grabbed the lady's neck.

She had a small wound on her stomach, the blade went through the wound and pierced right through her life core, causing her death.

In terms of power?

After 80 years of training, his internal world had swallowed the large amounts of prepared valuable metals, efficiency rising to 52 times. 80 years was akin to over 4000 years, and the domain lord level evolution 7, 8, 9 required 1200 years, domain lord level 1 to sector lord level 1, required about 5000 years.

Currently...

The golden horned beast and Mosha clansman were both domain level 9. And in terms of power, not level, they were absurdly powerful! With the Mosha clansman able to unleash 10 times its original power...it was terrifying.

"Who is it!"

In the cave, the silver haired Na Ke's expression changed, standing at the entrance of the cave.

"It's me." The black clothed Luo Feng walked over from mid air, carrying the body of the purple clothed lady.

"Feng, big brother Feng!" The silver haired Na Ke stared wide eyed.

"Feng, Lord Feng." Nabu was very shocked too.

The silver haired youth looked at the body Luo Feng held, even more shocked, "This, this is the 3rd disciple of world leader Si Yong, she..."

Black clothed Luo Feng threw her body to the ground and said, "You are in danger now, the world leader Si Yong is rushing over."

Chapter 538: Luo Feng VS World Leader

"Si Yong?" The silver haired youth Na Ke and his father were at a loss.

Si Yong was the world leader of this side of the world, a being like an emperor!

"Si Yong knows you are here and is rushing over." Luo Feng had discovered the purple clothed lady's communicator after he killed her. Using his own AI to hack it, he was able to find out quite a lot.

"How were we discovered? I was very careful when I took my dad over." Na Ke was in disbelief.

"Because there's a chip in your dad's body." Luo Feng replied.

"What?" Na ke turned to look at his father. Nabu's face was filled with suspicion. Na Ke quickly used his spirit energy to scan his father's body, finally finding a little chip within the bone of his leg, immediately saying, "Father, bear with me, I'll extract the chip."

Over his years of exploring, Na Ke had heard of the communication devices. Usually those equipped with them were all domain level.

A black light swept past Nabu's leg and the device was immediately dug out. After which he used his spirit energy to pressure the wound, and with Nabu's body structure, this little wound was nothing.

Luo Feng ordered the quantum computer, "Do a scan to see if there are any more devices in his body."

"Yes master." The AI shot out a signal scan, "Confirmed, only one device and its been extracted."

"Hm."

Luo Feng looked at the father and son before him. "Na Ke, Nabu, quickly leave...ah, right," He flipped his hand and retrieved a space ring, tossing it to Na Ke.

"This is?" Na Ke was stunned.

"Wealth." Luo Feng said.

Since he was leaving Blood River world, the currency of this world had no more use to him. However...through his hunt, he had acquired quite a massive amount of wealth. The amount he was giving them right now was about 100 times that of a city leader, Luo Feng didn't even take out the rest.

Too much wasn't a good thing for Na Ke. He had given enough.

"Hurry and leave." Luo Feng said. "The further the better...as for Si Yong, I'll stall him for you!"

"Big brother Feng!" Na Ke couldn't help but shout.

"Lord Feng, you..." Nabu too couldn't believe it.

"Quickly go!" Luo Feng frowned, shouting coldly.

Na Ke and Nabu were afterall clean law abiding people that had been through much suffering. At this point, there wasn't much else to say. Na Ke immediately brought his father, stepping on a spirit weapon and becoming a beam of light leaving.

Watching the two leave, Luo Feng smiled.

"Little Na Ke, during my trip here in Blood River continent, it was fate that made us meet each other. Your future depends on your own self now." Luo Feng said softly. After which he rushed into the skies and landed on the peak of a 1000m tall mountain. Standing alone on top, gazing into the distant horizon, "A domain lord has no challenge to me whatsoever, only a sector lord has some meaning!"

"Come Si Yong!"

Luo Feng stood there, the winds blew, he patiently waited.

...

A silver black disc appeared in the 15th cloud level above that mountain.

"According to the communication device coordinates, its right here." Almost like the ocean blue, dressed in black armor, Si Yong's lips were thin and cold. He vanished from the ship and became a black beam of light rushing downwards through the 15th, 14th...

Right till the 1st cloud level heading towards that forest.

Suddenly!

He stopped in mid air, frowning as he looked at the majestic peak of the mountain. There stood a black clothed man.

"I'm called..."He stared hard at him, "Feng!"

"Feng!" Si Yong unleashed his world energy, immediately discovering the purple clothed lady's body, his facial muscles twitched, "My disciple..."

"Dead." The black clothed man said coldly, "I killed her!"

Si Yong's eyes were like lightning, struggling, he roared, "You actually dare kill my disciples in my territory, you are but a small domain level..."

"If you want to battle, cut the chatter, let's fight." The black clothed man's eyes were piercing, filled with fighting spirit.

Si yong was taken aback. A domain level challenging a world level? What joke was that.

After he was stunned, he turned to rage!

"Haha, haha..." Si Yong laughed , "Today will be your funeral!"

The cold mountain breeze howled, Luo Feng's blood however was burning and boiling. The blue haired man before him was a sector lord. Just from his energy alone, he should be about sector lord 4 or 5.

Domain level 9 challenging sector lord 4 or 5?

And there was a breakthrough in between?

Madness!

Even the strongest genius of the universe wouldn't attempt something like that, because the level difference was too huge. Just strength alone was tens of times different! What's more...a sector lord could use a side of his world to pressure his enemy. Even if the enemy was strong, no one would be that crazy.

Only Luo Feng dared to do something so insane! In terms of genius...he was now comparable to Bolan, the pinnacle of the universe humans. And right now he was a favoured of space, the universe's strongest assassins...Mosha clansman!

"Domain level 9 against a sector lord 4 or 5?" Luo Feng stared ahead at Si Yong in mid air, as his spirits were burning wildly.

...

The two suddenly grew silent.

One stood above the majestic peak, and one in mid air. The two who faced off were completely silent.

"Rumble..."Suddenly the land and skies changed colors. The black armored Si Yong floated in mid air, his long hair flying, his gaze shooting out glaring beams of light. Laughing loudly, "You think you can fight me?" Immediately the mountain stones, including the mountain Luo Feng was standing on began to crumble.

Countless amounts of rubble rose up and floated in mid air.

A blur of stones floated all over.

"Go!" Si Yong pointed at Luo Feng, coldly ordering.

Hu...

Like a mad tornado, countless stones passed through space. This was tens of millions of times more crazy than ten million arrows being shot, and all of them engulfed Luo Feng, almost as though it wanted to turn his entire body into a target! Si Yong was a sector lord level 5, even though he was controlling so many stones, every one of them had the power to kill a domain lord level 9. Hence, with so many gathered, the power was terrifying!

Using pure power to suppress his enemy!

Rumble! Rumble! Rumble! Rumble! Rumble! Rumble! Rumble!

Under the attacks of countless stones, the mountains crumbled and every one of them began to fall. Countless trees fell, the ripple from every stone's attack clashed time and again. Thousands of km were affected by the countless high powered ripples, decimating and razing the surroundings to the ground.

"Your stones fly too slowly." A voice resounded.

Si Yong turned fiercely, and on his left stood Luo Feng. He was shocked within, "This punk Feng is so fast. His instantaneous speed is definitely much faster than me! Much faster!"

"Use your real strength, otherwise killing you will be pointless." Luo Feng flipped his hand and a blood shadow blade appeared. He stared at his opponent, as his eyes burned with spirit.

Shua!

Luo Feng immediately rushed forward, his rushing speed was extremely quick. Even though he was prepared, Si Yong was still shocked. His options were limited, quickly projecting his internal world, the vast world energy immediately warped and changed everything within the 1,000 li area!

The scenery changed, it was a destroyed mountain range in the night before.

Now however it was an endless ocean, the water below even had an ice mountain.

"Hm?" Luo Feng immediately felt the terrifying pressure, almost as though his entire body was shackled.

"This is the true power of a sector lord, the strongest trump card a sector lord can use against a domain lord...an entire world? Indeed its powerful. With the pressure of the world, all of my powers will decrease in strength!" Luo Feng licked his lips, his eyes burning even more, "This is thrilling, fighting with everything!"

Shua!

Under the pressure of the world, over 10 thousand Luo Feng's appeared in the air above the ocean. The appearance of the blur of images made Si Yong shocked.

"My god, even with my world pressure he still can form over 10 thousand images? This, this...his comprehension of the space laws, just what level has he reached?" Si Yong was completely stunned. Not even mentioning Blood River world, even in the universe there were extremely few people of this level.

"Hua!"

A resplendent flash of a blade could be seen, which was extremely glaring and intoxicating... The moment it flashed, the surrounding space seemed to be subdued, and a formless space energy pressured on Si Yong's region. Through the space pressure...he was able to battle the world pressure!

"Just what level have his space laws reached?" As Si Yong was shocked. One black and one white awl appeared before him.

Dang!

The white awl brought with it endless ice cold energy, as the surroundings froze into ice and snow and attacked Luo Feng's blade!

"Chi!" Luo Feng felt his body tremble and fresh blood spurting out from his mouth. Simultaneously he shouted, "Illusion!"

Hu!

His body immediately became a blur, the surroundings became nothing but a blur of images. This made Si Yong get even more serious. Suddenly a blur of silhouettes seem to teleport right beside him, simultaneously the brutal and powerful energy of a blade slashed right at Si Yong.

"Block." Si Yong retreated abruptly, simultaneously using the black awl to defend.

"Dang!"

The powerful blade actually knocked away the black awl, its strong slash sliced right at Si Yong's neck.

"Rumble!" Four shields appeared beside Si Yong's body and they floated around him. Luo Feng's blade hit one of them head on...knocking Si Yong's entire body backwards by 100 km.

The Moshu clansman's strongest trump card!

Illusionary 7 blades...Burial!

Before coming to Blood River world, his strongest move was the dutchman's pipe. And because of how the golden horned beast had been studying the 1st claw and had fast comprehension of it, this 1st claw became Luo Feng's strongest move. The 1st claw was very similar to Burial.

Studying the 1st claw had made his comprehension of Burial soar. After 80 years, this move instead became the Moshu clansman's strongest move!

Burial, why burial?

Using one's full strength, even sacrificing himself to unleash the most brutal and intrepid attack! It was incredibly powerful!

Si Yong who was knocked back had an ugly expression. Looking at the 4 shields before him, his eyes focused once more. "I was actually forced to use my world, defensive weapons and spirit weapons all in a short amount of time. This, this..." Before this, Si Yong never would have thought that he'd be forced by a domain lord to use all his tricks.

"Yayaya!!!" Si Yong's entire face was flushed red. He roared and stared at the distant Luo Feng. "Punk, I'll let you know that a domain level cannot defeat a world level. It's just impossible!!!"

Chapter 539: Go and Die!

The surface of the ocean was roaring, and the many blocks of ice floating there were flying about, and the owner of this world Si Yong was floating in mid air. He currently had a very troubled expression. Obviously in this short time, this domain lord had forced him into such a state of rage. It was humiliating, a sector lord's humiliation!

"Words are useless." Luo Feng was dressed in black. Standing far in the distance, his body once again became a blur and through the Mosha clansman's use of Illusionary techniques movement, it was like a fish in water. his close combat instantaneous acceleration far exceeded that of this sector lord.

An illusion appeared.

Si Yong immediately retreated!

"Explode!" Si Yong roared.

Immediately, the two black and white awls before him let out a glaring light, the surroundings about the white awl became extremely cold and froze into ice. Snow was fluttering about. The area surrounding the black awl however howled, as the black water took shape, making the black awl like a black dragon.

Rumble! Rumble!

A black water dragon and a white ice dragon interweaved about, even shaking the entire world. The endless world energy poured into these two 'dragons', of which the black dragon was filled with endless energy while the white was filled with absolute killing intent!

This move was called the Dual Dragon Pierce. It was Si Yong's trump card from studying the water origin laws. While maybe his comprehension levels didn't compare to Luo Feng's, however it was still infused with origin laws. Also, in terms of pure power and the world pressure, his advantage was obvious.

"Rumble!"

The two dragons flew around each other like a huge electric drill, immediately creating an image and reaching right before Luo Feng.

"That speed, it's so fast." Luo Feng who was moving at his max speed looked at the black and ice dragon that seemed to reach him in an instant. He became a blur for a moment before changing his direction and dodging, simultaneously a 6 edged shield appeared before him, defending him.

That push from the shield seemed simple enough, however it was almost as though the entire space was pushed back!

"Rumble!"

The black and ice dragons that were weaving in and out together were affected by the space pressure. Due to this, they clashed into the 6 edged shield and as they clashed... the two dragons exploded with terrifying power, knocking Luo Feng far back as fresh blood spurt from his mouth. At this point, the 6 edged shield too was knocked far away.

Xiu! Xiu!

The core of the two dragons, the black and white awls revealed their true state and pierced straight at Luo Feng.

"Shua!" Luo Feng who was in mid air immediately dodged, over 10k images appeared in the surroundings.

"Clash, explode and pierce!" Luo Feng looked at his hand below. The left arm which was completely broken from holding the shield earlier was bloody however black energy was wrapped around it and in an instant, it completely recovered. "After Infusing with the origin laws, world energy, and an entire world behind this attack, when the two spirit weapons combined...this move is extremely powerful."

Si Yong who was floating in mid air looked delighted initially. However, right after he began to rage. Howling, "You still aren't dead? I don't believe you can't die!"

"Go!!!"

Si Yong howled, his face was pale as he pointed with gritted teeth, seemingly using his full concentration to control the spirit weapons.

Rumble! Rumble!

The two awls immediately formed an arc and the air about them once again concentrated into an icy aura and the ice dragon, while the other black one had black water surrounding it, forming a black water dragon. It was even clearer than the earlier move.

The two dragons' claws, horns and wings were complete this time.

"Go and die, die, die!!!" Si Yong was completely immersed in madness.

Howl...

"Howl..."

The two huge dragons howled through the surroundings. Who knew whether it was them howling or just the sound waves generated from their extreme speed. The two life like dragons spiraled, their tails waving about, claws glistening in the light, their bodies rushed forward and immediately countless images vanished. Luo Feng was finally forced into a difficult situation.

"There's an absolute difference of at least 10 times. He has the world to help him, along with comprehension of water laws. This is a spirit reader that extremely hard to deal with."

"Even with this moshu body, it's a very taxing to battle. However, only this can be considered a challenge!" Luo Feng moved as fast as he could. The moshu clansman was the strongest assassins in the universe. They were proficient in stealth killings, and the Illusionary techniques was just one path for it.

The Illusionary techniques combined with the Moshu clansman's illusions was an absolute combo!

Under Si Yong's mad howls, even though Luo Feng was injured time and again, he still managed to survive. As for the injuries? The Moshu clansman's body was an energy life form, its wounds could recover swiftly

"Chi!" Luo Feng spit out fresh blood again, once again dodging.

"Chi!"

The flash of a blade was clawed away by the ice dragon, its claw was completely destroyed, however, it quickly reformed. And as Luo Feng was knocked away, he dodged and once again vanished.

"How can this be, why is he still not dead?" Si Yong stared wide eyed. With a struggling expression, he said, "He's only at domain level, and I am at world level!"

"Just what ghostly movement allows him to move that quickly and so unpredictably!"

"Getting injured time and again, yet it has no effect at all."

Si Yong floated in mid air controlling the two spirit weapons to attack Luo Feng. Obviously he had the upper hand...however he was still unable to achieve victory! He was pressuring Luo Feng over and over, but Luo Feng seemed fine. That movement was ghostly, and his attacks were as terrifying as before. This made Si Yong extremely troubled.

"I can only shrink the area."

"After that, the area I need to focus my attacks in will be smaller. This way, the efficiency will be higher." Si Yong realized the problem. As the area they were fighting in was too huge, it allowed Luo Feng to easily dodge 10km away and flash about hundreds of times. With such a huge space, when Luo Feng unleashed his movement...the two spirit weapons naturally couldn't achieve victory!

Rumble...

The two huge dragons retreated and stayed close to Si Yong! Luo Feng would be attacked within a 100km diameter area before. However now with them retreating, only when Luo Feng entered a 30km diameter area around Si Yong was he attacked.

The area was smaller!

Naturally the efficiency was higher!

"Smart, you finally realized the problem." Having been forced back time and again, unable to even approach Si Yong, Luo Feng's eyes gleamed He immediately rushed at Si Yong, and as he did...the two spirit weapons didn't even budge.

As he drew closer however, only then did they howl out! The reduced battle area made the two dragons instantly close their distance with Luo Feng, making it taxing on Luo Feng to dodge.

"Rumble!"

One clash made Luo Feng's entire body tremble, and fresh blood spurted from his mouth, nose and even ears. He could only retreat and dodge.

"Hahaha..." Seeing the obvious advantage, Si Yong laughed loudly. "A world level is a world leader, a domain level is just a domain level. No matter how much of a genius you are, you'll still die without a doubt!!!"

Shua! Shua! Shua!

Luo Feng dodged time and again drawing closer to Si Yong!

The smaller battle area had its pros and cons. The good thing was that with his speed at close distance, he could occasionally get close to Si Yong. The bad part was...the closer he got, the faster the attacks were even and the reaction time was shorter!

"Shua!"

Almost like a ghostly flash, he closed in the 30km distance and instantly reaching about 100m away from Si Yong. Si Yong controlled his 4 sided shield and simultaneously used his two spirit weapons to surround and attack Luo Feng!

"I didn't believe that with such close distance, you will be able to withstand up to 3 attacks. But 10 to a hundred attacks?" Si Yong howled!

"Burial!"

Luo Feng roared softly, unleashing his strongest move. The grey flash of the blade was brutal, instantly slicing through 10m of distance, and slashed at Si Yong. The power of that flash, the intrepid energy was simply terrifying! The surrounding space around it was completely controlled...

The flash headed forward and had a hint of gold light.

Illusionary 7 blades...burial!

"It's useless." Si Yong laughed.

Rumble! Rumble!

His two sided shield came over to block. The 1st side was knocked back but the 2nd managed to block the blade!

"Rumble!" The two dragons howled from behind, attacking Luo Feng!

The blade had yet to have any effect. Luo Feng squinted and immediately released the blade in his hand, his right hand suddenly grew longer! It was originally a normal human arm, in an instant it grew and pierced swiftly towards the shield, extending over 10m long, its life crystal too was within that right arm!

"Rumble!"

The two huge dragons clashed into his body and it immediately exploded, fresh blood and bones scattering.

"What!" Si Yong looked at the sudden growth of the right arm that extended and was extremely shocked.

"How did his arm grow so long, is it from the armor? It's useless, his body has been destroyed, even if the life crystal is ok, without a flesh body to trigger it, it's unable to trigger sufficient energy!" Si Yong was calm, triggering energy required passing through the backbone and muscles etc.

Once the body was destroyed, leaving only a broken arm, what was the use?

Shua!

The blade flashed and instantly sliced through Si Yong's neck, piercing into his body and scanning within, it pierced straight into the life core and broke it!

"How, how is that possible..." Si Yong stared wide eyed, "How can a fake hand extended from the armor unleash such terrifying bladework? Once the body is destroyed, how can it even attack with power?" Before dying, many thoughts passed through Si Yong's mind, following which, he crumbled and his consciousness faded!

The two huge dragons immediately crumbled and fell, revealing 2 spirit weapons. The world around too crumbled and the endless ocean dissolved, revealing a decimated mountain range.

The spirit weapons fell from mid air, the shield too followed suit.

Si Yong was defeated!

"Chi chi chi..." That broken arm instantly wrapped itself with black energy and as the energy gathered, it became a black clothed Luo Feng.

His eyes were filled with fatigue, however also with ecstasy and excitement. "I've succeeded!" Luo Feng lowered his gaze to look at Si Yong's body. Thinking within, "A true human, if their body was destroyed, they can only use spirit attacks, and not close quarters physical attacks. However...the mosha clansman is an energy life form. If I wanted to, I could change to tens of millions of things, much less a broken limb. I can even change into a cloud contact vine, a stone and I'd still be able to attack!"

Chapter 540: Tian Shi Palace

The Mosha clansman could transform into almost anything, be it humans, bones, muscles, skin, the internal organs, hair, eyes and nose etc all would be exactly similar to that of a real human! Even if it got injured and its bones broke, the impact causing blood to be spit out...everything was exactly like that of a real human. And if it changed to a golden horned beast.

Similarly, every scale, horn even the engravings on the scales.

Of course...the larger the size, the more energy it required. Even if the mosha clansman transformed into the golden horned beast, it would only be a 10m huge golden horned beast. If it wanted to transform to tens of km, hundreds of km like the mountain range like huge beast, the energy within the life crystal would be depleted very quickly!

...

Night, the cold winds blew.

The mountain range was reduced to a wasteland. Black clothed Luo Feng gazed down below.

"I actually used the Mosha body to kill Si Yong?" Luo Feng was excited. "Even though the mosha clansman is strong, it's still after all strong in assassination only. During a true 1v1 battle like this...there are many stronger than the mosha clansman!"

If it were the 12 pinnacle bloodlines of the space beasts.

Which of them weren't incomparably intrepid?

And just like the ancient beast in the ancient pictures in Blood River world, which was just as intrepid. And the pinnacle of the bug clan in the universe the Mother nest, and the metal life forms, plant life forms, the powerful existences, these were all beings comparable to the golden horned beast.

All of them were incredibly intrepid.

"The mosha clansman is strong in assassination."

"Actually, I only required to kill one of his disciples and transform into him. Then using the natural ability to imitate that disciple's energy." Luo Feng thought, "That way, even if I stood before Si Yong, he wouldn't sense any problem at all."

"When I get close, with him defenseless, I'll kill him in an instant!"

"That would be much much easier than fighting it out like before." Luo Feng was clear. Allowing the Mosha clansman to assassinate Si Yong wouldn't have been a challenge at all.

The main thing was its natural ability to duplicate was simply too sick.

Completely imitating a person, not just in appearances but in energy too? One wouldn't even detect anything. Even in the vast universe, with countless races, the mosha clan still struck fear in all these races as the most terrifying assassins. If its natural ability wasn't so powerful, it wouldn't have gotten the name Universe's strongest assassins.

"I was able to kill him!"

"Even though it was partially due to Si Yong's poor comprehension of the laws, however with the gap in our power, I still succeeded. It also shows that my improvement over these 80 years was huge." Luo Feng was happy within. Gazing below at the decimated mountain range, as Si Yong's internal world crumbled, large amounts of treasures were scattered throughout.

Luo Feng collected Si Yong's space item and placed the valuable treasures casually within. As for the others?

How much wealth could a sector lord have?

In the universe, one with 10 mixed elements was already wealthy. Much less the aboriginals of this Blood River world, only very few were worthy of Luo Feng's attention. The other items, added together were far from 1 mixed element's worth. With Luo Feng's status, whatever he needed all used points after all.

Sou!

He rushed into the sky, leaving behind the decimated mountain range and Si Yong's body, along with large amounts of treasure that he wasn't even interested in or were worthless to him.

However, within half a day after his departure, a team had discovered the area with the items, a few domain lords were going crazy over them and this team madly began to compete and kill amongst themselves. And as the large amount of treasures created a big stir within Swallow Mound city, countless began to join in the war for the items.

Also, the news about the death of Si Yong had spread.

Si Yong's death!

Immediately, the surrounding large world leaders began their attacks to snatch the territory.

Si Yong's power quickly faded into dust...

There wasn't even anyone trying to avenge him, much less go after Na Ke and Nabu.

...

"This, this is what big brother Feng left for us?" The silver haired youth Na Ke brought his father finally to a hiding place to rest. Only then did he open the space ring to check, shocked.

"Ke Ke, what's the matter?" Nabu was curious.

"Big brother Feng left us a large amount of wealth. So much more than our family's wealth from before, millions of times more." Na Ke was shocked.

Nabu's eyes gleamed immediately, "Haha, our Na Family will rise up again, stronger and bigger than before. With this wealth, it'll be easy from now. Na Ke...our gamble back then was right!"

Na Ke nodded, worrying within about Luo Feng. "Big brother Feng said he'd go stop Si yong..."

However later on, when the news of Si Yong's death spread, especially the location of his death, Na Ke and Nabu were overwhelmed with shock!

Obviously!

The place where Si Yong died was where Luo Feng was waiting before.

"Big brother Feng killed Si Yong?"

"Lord Feng killed Si Yong?"

Na Ke and Nabu were shocked.

As for whatever happened later in Blood River world, Luo Feng naturally didn't know.

After killing Si Yong, moshu Luo Feng rushed into the sky back into the automaton ship and began his departure.

"Blood River world."

Standing in the control room, he looked back at the endless vast continent. This was a place completely subdued and observed by the Virtual Universe Company. "Here's where we part, little Na Ke. Once I reach domain lord level I'll be sent into territories as an envoy around the universe. At sector lord level I'll be going through hellish training too. I'm afraid I won't return for a very very long time. I hope that when I eventually do, I'll still be able to see you."

Luo Feng knew...

It would probably be tens of thousands of years before he could actually return. However, with regards to Blood River world, he was still filled with curiosity. There would eventually be a day when he would return to investigate everything properly.

...

The fog covered the distant space, an incomparably huge palace floated there, that was Tian Shi palace.

Because of this Palace's existence, the many powerful warriors of Blood River world didn't dare leave. Since the ancient times till now, they were all stuck within their world.

Sou!

The palace in space, was larger than even a planet. At this time a little dot flew out from the palace and swiftly headed towards Luo Feng's automaton ship, it was a triangular black ship with a diameter of 800m.

"Di!"

"Your majesty Luo Feng, how are you? I am the receiver of Tian Shi palace, Mo Luo Ke. Congratulations on your majesty's completion of the Blood River world mission." The ship drew closer to Luo Feng's automaton ship, sending a message over. Very quickly, with the ship leading, Luo Feng arrived within a vast hall in the 1st level of Tian Shi palace.

The hall was at least 1,000 km in length and width.

Luo Feng kept his automaton ship and stood shocked within the hall. In this hall, there were many other ships stopped there, taking up more than half of the area. Every ship...according to his visual perception, were at least E grade ships. Some of the ships were even F grade.

"Your majesty Luo Feng." Dressed in silver armor with 6 eyes and blue skin, the sector lord Mo Luo Ke stood beside and lead the way. Speaking fluent universe language, his voice was very clear and resounding, "You actually stayed in Blood river world for 80 years. That's really shocking."

"The main thing was the blood warrior mission." Luo Feng smiled as he walked.

Different from Blood River world, even though there were many races within that world, most of them looked pretty similar.

However the human races were too many in the universe. With countless races, all sorts of appearances were present.

"Blood warrior mission? Has your majesty completed it?" Mo Luo Ke was shocked.

"Hm." Luo Feng nodded.

"Wow, congratulations your majesty." Mo Luo Ke smiled. "I've seen and received many geniuses who've attempted this mission, even those from the Huge Axe and universe mercenary alliance. However, very few are actually able to become blood warriors. Because, absorbing three blood river crystals normally required them to stay in the ancient god ruins for extended periods. Many of them don't have that much patience. And it's also very dangerous within the ruins."

Luo Feng nodded.

The two walked and chatted. Even though they weren't rushing, in a few minutes they had passed a 1,000km distance swiftly and arrived at the stairs of the 2nd floor.

The stairway was incredibly vast. Every level was 100m high, 10km long and 5km wide. It was entirely made of ceramic...each stairway had at least 1,000 levels, spiraling upwards.

"We can only proceed from here to head upstairs." Sector lord Mo Luo Ke smiled.

The two became beams of light and followed the stairs upwards.

"There's no need to head up right. Just arrange a universe ship for me and send me off, wouldn't that do?" Luo Feng asked.

"Its our leader of the Tian Shi Palace, he wishes to see you." Mo Luo Ke said.

"The leader?" Luo Feng was shocked.

Tian Shi palace's leader, what status was that?

He was someone who was watching over in this palace. The many powerful beings of Blood River world, and even amongst the Virtual Universe Company, he would definitely be considered an absolute being in the upper echelon.

"Hm." Sector lord Mo Luo Ke's eyes were filled with envy. Smiling, "I've been in this palace for so many years, I've yet to meet him face to face. Our leader has unbelievable power. With just him being here, those undying's from the undying shrine in Blood River world, and all the ancient beings, none of them dare come out. For the leader to wish to see you, is your good luck."

"Why does he wish to see me?" Luo Feng was curious.

The leader of Tian Shi palace, that level of being, he was at least a universe country leader level, or even stronger. How else could he control Blood River world with fear?

To the geniuses, that level of being didn't care much for them at all.

These beings were all ancient eternal beings within the universe.

"The reason behind him wanting to meet you? Why would I, such a small figure know?" Sector lord Mo Luo Ke smiled. "My authority is only to send you to the 2nd level. I don't even dare to follow after. However there will be someone there to receive you and take you straight to the 9th level to meet the leader."

The moment he finished speaking.

The two arrived at the 2nd level of the palace. Luo Feng gazed far ahead and spotted a 3m tall messy haired man with a huge axe on his back. Vaguely, that man was almost like a tall mountain that made hearts tremble. The energy he emitted seemed even more terrifying than the god general 13 from back in Ganwu universe country.
