### **President's Sweet Wife**

#### **Chapter 1001 Thousand Year Family**

The other person was an older-looking man, but Stephan had never seen one in all his years at the Zaccardi Family.

The other person met him and smiled kindly, "It's Mr. Stephan, isn't it?"

Stephan was stunned and thought to himself, "I haven't seen this one before, is it because there is someone else around York?"

However, he only dared to ponder it in his mind and did not dare to ask more questions.

Only nodding his head, he responded, "Yes."

"Sir has been waiting for you for a long time, please follow me."

The man led him all the way to the island's estate.

Because it was dark, Stephan couldn't remember the way, but he had a vague feeling that he had taken many turns, like walking in a maze, not the same way he had taken the last time he came to see York.

The doubts in his heart could not help but deepen, but in the end, he pressed on, all did not ask.

As the two walked into an antique manor house, another winding path led to a long time before, finally, stopping in front of a carved wooden door.

The old man stood outside the door and shouted, "Sir, Mr. Stephan has arrived."

A man's clear voice came from inside, "Come in."

Stephan's mind was blown.

This is not the voice of York.

York, after all, is old, more than fifty years old nearly sixty years old, even if well maintained, the voice is still tinged with a layer of twilight dullness.

But at the moment the sound that comes into your ears is magnetic and clear, like a clear spring in the mountains, "tinkling" a sink into the heart.

He couldn't help but awe at the fact that he followed the old man into the house.

The house is rich in sandalwood scent, but do not let people feel unpleasant, on the contrary, there is a light and quiet taste.

Just see the east corner of the house, sitting in a man.

The man looked very young, estimated to be two years younger than he was, but handsome, is the kind of calm and elegant looks, the body breathes a mysterious aura that can not be said.

The old man led him over.

"Sir."

"You go out first."

Clinton instructed.

The old man then nodded and turned to go out.

Stephan and Clinton were the only two people left in the room at once. Stephan was a little embarrassed and had no idea what was in front of him, let alone what they were trying to do by bringing him in.

He just subconsciously shielded the box that contained the Celestial Book and looked at Clinton warily.

"This gentleman is ....."

Clinton looked up at him, his eyes smiling.

"You don't know me."

Stephan was a little stunned.

Only to see the man beckoned, a figure came out from the side curtain.

Stephan was aghast.

Because it was none other than the current patriarch of the Zaccardi Family, York.

"Patriarch, you, you ....."

By this time, Stephan's head was spinning with them.

I don't understand what York's gourd is selling.

York smiled, "Murong, come, let me introduce to you, this gentleman is called Clinton, he is the real leader of our the Zaccardi Family."

When these words came out, Stephan could not help but shake viciously.

Clinton? The real leader?

His mind flashed, and suddenly he remembered the words Felix said to him when he went to see Felix today.

"Did Clinton call you?"

So, Felix knows him! So, the person who made a deal with Felix last time is also not York at all, but .....

Realizing this, his pupils dilated out of shock.

York did not care about his reaction.

It was Clinton's own idea to offer to meet Stephan anyway.

Since he dared to do so, he naturally thought of what was behind it.

So one is not worried at all that Stephan will expose this to the public.

Just see Clinton raised his hand and said lightly, "I know you have a lot of questions in your mind, there is no hurry, sit down and talk slowly."

Stephan's mood at this moment can be described as a mixture of emotions.

Originally, he had always thought that everything was directed by York, and he had always put York's orders first.

But now I know that there is someone else behind York.

Looking at the way they get along, York also seems to treat the man in front of him, who is two years younger than him, with respect.

Who is he? What is his identity in the Zaccardi Family?

Why should York listen to him?

He wants the Celestial Book, and for what purpose?

A series of questions were in his head, a jumbled mess, causing his mind to wander.

However, in the end, he sat down as he was told.

Clinton personally brewed a pot of tea and poured a cup for each of the three before saying in a soft voice, "Do you know the origin of the Zaccardi Family?"

Stephan gave a hard shake.

The origin of the Zaccardi Family, of course, he knew.

Every child of the Zaccardi Family, at a very young age, has the task of memorizing the family rules.

The family rules are written above, along with the origin of the family.

The Zaccardi Family, in fact, was once an unattainable aristocracy in the earliest days.

This is a long time, that goes back a thousand years.

At that time, this continent is still the Cold War era, where the people who call themselves emperors are a family surnamed Helian.

But unlike all the dynasties, every emperor that The Helena family honored at that time was a woman.

In those days, they were called queens.

And it was not the Queen who was really in charge of the government at that time, but the High Priestess at that time.

The queen is more like a totem, a symbol, an object of admiration by all the people.

And the high priest is the one who really makes the sea feast and the river clear and governs the rivers and mountains.

Everyone respects the high priest and fears the high priest, is more than the queen.

So there is also that tradition that the queen is called the emperor, but the high priest is the second emperor, that is, the one who actually rules this kingdom.

Coincidentally, the Zaccardi Family was the last High Priestess at that time.

That dynasty, which died at the hands of the Zaccardi Family, is recorded in ancient books and folklore, and there are many rumors that say various things.

However, the Zaccardi Family's rules are very tight-lipped about this part of history.

Surprisingly, although the dynasty died, the Zaccardi Family did not.

Not only that, but after two centuries of absence, the Zaccardi Family is back in history in a fantastic way.

For thousands of years, the Zaccardi Family has been involved in everything from business, to dignitaries, to the military, to everything in between.

In this great land has seen several divisions, wars and killings, beauty and peace.

As things change, what remains the same is the growing strength of the Zaccardi Family and their deeper and deeper hiding.

The Zaccardi Family, like a giant tree, reveals a canopy that is already powerful enough to be feared, and actually hides roots underneath that are even more amazing.
