

Sweet Wife 1271

Chapter 1271: she was not sensible

This time, the old man did something wrong, but he had already told her in advance that the old man at home was not easy to get along with. However, he did not come here often. He only came here occasionally.

As long as he came, he would not like her very much. He just told her to hide. If she met him directly, she should not act like a child. She just needed to let the old man scold her a little, and she should not talk back because she was talking back, in the end, the old man scolded her even more fiercely.

Of course, he would not help her. The more he helped her, the angrier the old man became.

Their family was not ordinary. They had to do everything according to the old man's wishes. Moreover, they were still living in Lu Jin's place. The house was not theirs.

Of course, he had already told her about these matters and the stakes involved. She had also agreed to it. Today, after being scolded by the Old Man a few times, she started to quarrel with him. Meanwhile, Lu Qin was not feeling very comfortable, he also didn't have the time to coax a woman into finding trouble for no reason.

As far as Lu Qin was concerned, Yan Huan was just looking for trouble for no reason.

The door to the room slammed shut with a bang. Yan Huan walked back to the side, lowered her head, and picked up the towel. Only then did she continue to dry her hair bit by bit. The anger and unwillingness on her face., there was also a trace of madness mixed within it. In an instant, it dissipated. It was as if it had also vanished into thin air.

Her heart was abnormally calm. Amidst the calmness, there were some indescribable things. No one knew if it was sarcasm or not. No one knew if it was mockery. They only knew., right now, she was drying her hair again and again. It was so cold that it seemed a little heartless.

She put down the towel, pulled the blanket away, and lay down again. Finally, she could have a good sleep. It was not in the corner. There was no wind, no rain, and even less cold. She slept in a daze. vaguely., she seemed to have had a dream again, but she was too tired. She was so tired that she could not even open her eyes.

Naturally, no one called for her for dinner. She had missed dinner, and even her supper.

At this moment, no one cared whether she had eaten or not, and she had not eaten. Could it be that they did not know? Could it be that they did not expect that she had not eaten?

It was not that they did not expect.

It was because they had never cared.

She sat up, and a rumbling sound came from her stomach. She was hungry, but it was not certain if she could find anything outside. There must be fruits. The Lu family had endless fruits, and she could eat whatever she wanted, however, she did not want to eat any fruits. She wanted to eat. She could eat anything, even instant noodles.

She walked out and could hear Qin Xiaoyue snoring outside the corridor. The door to the study room was closed, and there was no one outside. Everyone was sleeping.

Of course, everyone slept only after they had eaten their fill. Unlike her, she had been hungry for an unknown period of time. She had only eaten once a day, and her stomach was like a drum. Not only was she hungry., even her stomach was starting to ache.

She opened the door first. The rain outside was still falling. It was sparse and didn't seem to have any intention of stopping. She had been in the room the whole time and didn't notice if it was raining outside. Of course, she couldn't hear it either., it wasn't until the moment the door opened that the wind with water vapor blew over and blew on her face.

Almost all of her clothes were rustled by the wind. She took a step back. Just as she was about to close the door and enter, she let out another breath and walked out, allowing the rain to fall, it was not the cold wind, but the wind blowing on her body. The wind at night seemed to be colder than during the day, and the rain was also colder.

She ran to the windowsill and stretched out her hand to retrieve the lunchbox. However, when her hand reached for the lunchbox, a beam of light fell on her body. She held the lunchbox in her arms, under the rain, her hair was slightly wet, and the rain fell on her face with a colorless coldness.

She turned around and saw a car driving over. The lights shone on her body for a long time before they were finally extinguished. Then the car door opened, and a man walked out of the car, he then took out a black umbrella from the car and held it up. The rain could be seen to be very heavy. From the car lights earlier, it could be seen that it was pouring down.

That man held the umbrella and walked towards the door step by step.

Yan Huan was stunned for a moment before she immediately reacted. She hurriedly carried the lunchbox and ran in one step ahead of the man. The corner of her skirt was a little warm, but she did not care.

She brought the lunchbox into the kitchen. She could already hear the sound of the door, the sound of changing shoes, and the sound of a card being stuck. The umbrella had also been closed.

Yan Huan turned on the tap and washed the lunchbox under the tap. The cold water occasionally touched her fingers. In a moment, it was as if she could not even find her own fingers.

After the lunch box was washed, she opened the fridge and searched for something to eat. She had not forgotten that her stomach was hungry. If she did not eat, then., perhaps she would not be able to sleep tonight.

If she could not get up tomorrow, let alone what she would face. If she did not eat her fill, how could she have the strength to face so many troubles and the schemes of the people around her.

How could she have the ears, eyes, and eyes to learn to think, use her brain, and use her heart to feel whether others had good intentions or evil intentions, whether they were real or deceiving.

However, regardless of whether she looked or not, she at least knew that Qin Xiaoyue's heart had never been true to her. Therefore, everyone was well aware of such a person, so there was no need to waste time on her.

And she didn't have that much time to waste on someone she didn't like.

As soon as she opened the refrigerator, she was surprised. There was still half a basin of rice. These rice were all leftovers from today's meal. The chef might have cooked too much, so he didn't finish it. Instead, he put it in there, he might think about eating it again tomorrow.

How should the Lu family put it? Although they were wealthy, they had their roots. Old Master Lu had fought in the war. Back then, the conditions were tough, and he couldn't eat enough. He didn't have enough to wear. He had even eaten grass roots and tree bark.

Therefore, the Lu family didn't leave any food. Even if they did, they couldn't throw it away.

And the rice was only left behind. No one would pour it away. This wasn't anything else. This was grain, and it was clean grain. Ye Shuyun had left it for her son. Perhaps Lu Yi would come back late, when she wanted to eat, she would stir-fry a bowl of egg-fried rice for herself.

Chapter 1272: egg fried rice

?

Lu Yi knew how to take care of himself. None of them knew how to worry about this.

Yan Huan roughly weighed the rice. There was already half a pot of rice left. It was enough for her to eat. She looked out of the kitchen window and saw that the light in the living room was on. That man was holding his notebook, he was flipping through something as if this was his usual habit. He did not stop for a single moment, nor did he say a single word.

He could have walked his entire life without any wind or rain.

Under the protection of the Lu family, he could sweep through everything, but he had to fight his way out.

Using his own brain and methods, he had to walk such a difficult path. It was not easy. Yan Huan knew very well that this path was not easy to walk. Being a prosecutor was not easy, and it was not that easy either.

And Lu Yi had chosen to take such a path.

The path was destined to be neither peaceful nor peaceful.

However, thinking about it again, life was only a short hundred years. In fact, it passed in the blink of an eye. Just like the changes of the four seasons, it was also like the myriad forms of the world. It was destined to be neither mediocre nor peaceful, it was also impossible for anyone's life to be smooth sailing. Everyone would encounter setbacks, and everyone would encounter difficulties.

A plain life was good, but some people pursued a life of grandeur.

And to choose which life to live, besides themselves, it was also the life that God had arranged for them

Yan Huan scattered the rice in the pot and found a few large green prawns. After washing them clean, he removed the black thread. Then, he poured some oil into the pot and put the prawns into the pot. These green prawns., when she saw the hot oil, her body arched up. In a moment, it turned red. When it was out of the pot, she peeled the prawns outside, leaving only the prawns.

She also found some green beans and some corn kernels. The chef often prepared these. Perhaps this chef had a special hobby. He really liked to make pine nuts and corn, so these things., were prepared very well.

She cooked the green beans and corn, then cracked three eggs and scrambled eggs.

Then she poured some oil into the pot, then poured the finely chopped scallions into the pot, then poured the rice that she scattered into the pot, stir-fried it a few times, and then cooked the green beans and corn, she also poured in the ham sausage and eggs, and finally sprinkled some scallions on it.

She fried the rice to two large plates of fried rice. On top of the fried rice, there were a few neatly arranged shrimps.

Yan Huan took out a plate and placed it on the table. Then, she placed the chopsticks on the side.

She went into the kitchen again and took out a plate. She didn't plan to eat here. After all, Lu Qin had returned. She was upright and sat upright. She didn't do anything but to repay Lu Yi for giving her a meal in the afternoon, she owed him a favor.

That was what she thought. Everyone might think so, but Lu Qin wasn't.

There was nothing going on in the first place, so he would definitely say something. He had always hated Lu Yi and didn't like him. How could he let go of such a good opportunity, even if he lost his woman, it wouldn't change anything.

However, Yan Huan had no intention of giving him a chance, nor was he so foolish as to sacrifice his reputation. She had already become like this. In the end, would she still be labeled as a fickle flower.

She held the plate and sat at the table. This was the fried rice she had cooked. To be honest, the dishes she cooked were very fragrant, and they weren't greasy at all. The scallions on them were all green and green, it was not fried at all. The most fragrant thing was the Hongren peeled from the prawns. These were not prawns, but real fried ones. They were also hand-peeled. With this rice, it was very delicious,

she scooped a mouthful of rice with a spoon and then put the rice into her mouth. It was too fragrant. This was something she learned from a chef when she came to the Lu family in the past. However, she did not cook much. Now that she ate it again., only then did she realize that the taste had never changed. It was not because she had changed, but because she had become a little melancholic.

Perhaps people had to learn to grow up.

In fact, she had always been a child who had not grown up. She was still too naive and naive. Perhaps it was because she had entered this industry too smoothly, and very smoothly, she became famous, she had made many films very smoothly and also very smoothly. Within a few years, she had won the Best Actress award in the country. At that time, she was only 23 years old.

Perhaps it was also because she had become famous too early. She had foolishly decided on a man and had fallen in love with this man without hesitation. It was also a sacrifice that she did not hold back.

However, she did not hold back. What did she get in return.

She thought about her two years of life. Should she tell the truth? Well, to be honest, she was not happy at all. She would have nightmares because Lu Qin did not promise her a future.

The promises he made to her were all verbal. The happiness she promised her was also somewhat illusory. Jiayi was right. She still had to work. She still had to leave a way out for herself, she couldn't give everything away.

She took another bite of fried rice and felt that something was wrong. Oh, she had forgotten. She had forgotten something. She had made one less soup. Otherwise, she could have made another soup with fried rice, in fact, chicken and mushroom soup was the best.

However, thinking about the time now, she decided to forget about it. She went to pour herself a cup of boiling water and made do with it.

Just as she poured herself a cup of water, she suddenly thought of something. She secretly opened the door and went to the living room to take a look. In the end, the plate that she placed on the table was gone, and the plate was placed in front of Lu Yi, there were also traces of eating. It was not that he did not eat, but he would occasionally stuff a spoonful into his mouth.

Fried Rice was good. He didn't have to care too much about whether it was cold or not. It wasn't like noodles. If it was left for too long, it wouldn't be edible. No matter how long the fried rice was left, no matter how long it was left, the rice would still be one grain at a time, it was still very delicious.

Yan Huan closed the door again and placed the cup on the table. He sat down again and placed the plate in front of him. Then, he took the spoon and finished it one bite at a time.

Her favorite food was shrimp, and the shrimp was really delicious. It wasn't the kind of shrimp that was stir-fried. It was a little dry. She had peeled the shrimp with her own hands, so of course it was delicious.

After finishing the plate of fried rice, she still wanted to eat it.

However, she touched her stomach. She was really full. It was really good.

She threw the plate here first, then lay herself down and went to sleep.

Chapter 1273: audition

The next day, she woke up on her own. The early morning had already passed, and no one in the house had woken her up. If she didn't wake up, there would be no breakfast.

She opened the door and saw that it was still raining heavily outside. The heavy rain was almost pouring down, and the car outside was already going out in the rain.

Eight o'clock.

That man went to work early. He was ready to set off at eight o'clock. No matter if it was wind, rain, snow, or knives, they would not stop him from going to work.

However, she was different. She actually liked to be lazy sometimes. Of course, it was also outside of filming. When she was filming, she would not do such a thing. Therefore, her results were related to her luck, of course, it was also inseparable from her hard work.

When she walked out, the people outside were all present except for Old Master Lu. Of course, there was also no annoying Fang Zhu. She did not like Fang Zhu at all because she could see that Fang Zhu looked down on her.

In fact, she liked to eat with this uncle and aunt the most. They were not too picky people. Moreover, they would turn a blind eye to anything as long as it was not too excessive, they usually did not care too much.

Moreover, ever since she saved Lu Jin by accident last time, it was obvious that Lu Jin's attitude toward her had improved a lot. It could not be said that he was very concerned about her, but at least it could be said that he was amiable.

However, as long as Qin Xiaoyue was around, everything was as usual. However, as usual, it was still better than Fang Zhu. Qin Xiaoyue made her uncomfortable, but it was only half as uncomfortable as Fang Zhu.

As long as the square bamboo came, she would feel uncomfortable all over. The two of them hated each other.

She took the chopsticks and began to eat. Because she ate a little too much yesterday, her stomach was not too hungry. If she was not hungry, her spirit would be better, and she would not eat too much.

However, the breakfast in the morning was not bad. She also unexpectedly felt that her appetite was good.

It was just that Lu Qin could not swallow his food. He did not know what he had thought of.

"In a while, you will go with me to audition," Lu Qin said to Yan Huan.

Audition? Yan Huan did not like this word. Why did she have to audition? She was not someone else, she was not someone else. She was not the same person who used to be an extra. She was Yan Huan, who had won the Best Actress award and had also acted in many television dramas and movies.

However, Lu Qin's words had already been said. It seemed like she couldn't reject him. If she wanted to reject him, she needed to find a good reason. It was just that what reason was suitable now.

En, she was sick. She only touched her face. Her face was glowing red, and she could eat and sleep. Did she look like she was sick? And it was obvious that she wasn't sick anymore.

She did not want to go.

What was the reason.

What was the reason?

She did not want to say any reason, nor did she want to give any explanation, because it was very annoying.

After eating, Lu Qin brought Yan Huan into Yongyu Entertainment. This was where Lu Qin worked. This was not a big entertainment company, but it had good resources. She forcefully terminated the contract from the previous company, she also left behind an ingrate. At that time, she had wanted to come here, but in the end, she was rejected by the other party.

It was only because the other party looked down on her.

Even if she didn't want money or anything, even if she was a side character or a stunt double, the other party still didn't want it. Why did they bring her here?

"You're going to audition for a role later. It's for my acting."

Lu Qin gently stroked Yan Huan's hair. "Thank you for your hard work."

"Okay," Yan Huan agreed. It wasn't the first time. She understood the meaning of acting. wasn't it for him to act ugly? Furthermore, she was in the same production team as him. When she was on stage, she would act for him. She was ugly and he was beautiful..., when she was behind the stage, no matter how much she helped him act, she would also help him raise his acting skills to a certain level. This was also how it came about in the past. Otherwise, how could there be a matchmaker who had almost destroyed all of her roles appearing, and that role was simply a nightmare in her heart.

Thinking about it, it was also a nightmare in the hearts of many people.

Even now, she still did not believe that she was the one who acted in that role. She believed that the person was her.

So ugly, so wretched, and so disgusting. She wondered what kind of role Lu Qin had arranged for her this time?

When she received the script and saw the introduction of the role, she actually felt like vomiting blood.

This role was good. The role that Lu Qin had found was indeed good. It was a half-old lady in a historical costume movie. She would expose some of her flesh whenever she met people. She would also throw flirtatious glances whenever she met people, this was not the jianghu hero that the half-old lady had taken a liking to Lu Qin. She would not let him go no matter what. She was simply using every form she had.

Yan Huan could imagine what kind of cannon fodder this character would be. If it had some personality, perhaps she could challenge it. After all, it was considered a character. But what kind of character was this, it was just one or two episodes where she would show her face, dress herself up like this, and then sell her meat.

Her meat wasn't cheap to that extent.

So, she didn't want to shoot this.

However, looking at how determined Lu Qin was, she knew that she couldn't refuse. From the moment she stepped into the Lu family, she knew that her future was in Lu Qin's hands.

If Lu Qin wanted her to become famous, she could become famous.

If Lu Qin wanted her popularity to decline, then she would force her popularity to decline.

And now that Lu Qin wanted her to act in such a role, she would have to act in such a role.

If there was a first time, there would be a second time. And she didn't want to have a second time, especially if such an episode or two would destroy all of her films. She refused in her heart.

However, it didn't matter if it was just a small role, it still needed an audition.

An audition? Sure, an audition. And she was the least afraid of an audition.

And during the scene, she took the script and began to read it expressionlessly.

The director and producer at the side were clearly a little impatient. How could they continue to read the lines? Even if it was just a small role, not everyone wanted to act and wanted to act.

"I'm sorry," Yan Huan hurriedly apologized. "It's been a long time since I've acted. I Can't get into character right now." Indeed, she just couldn't get into character right now. She took the script over and carefully read it a few times, then, she put down the script. This time, she didn't use any lines, but she acted like a wooden figure. Although her face was good-looking, her movements were very stiff. She still dared to act like this., he had to smash the stage.

The director at the side was also getting impatient.

"A movie queen? With such acting skills?" The producer at his side said bluntly.

Chapter 1274: told her to walk back

"They're all outdated." The producer also curled his lips. "Alright, he waved his hand impatiently. You Don't have to act in this anymore. We will not find anyone else."

"Then, can you arrange another role for me? I can even be a minor character."

Yan Huan was a little embarrassed as he shamelessly requested again.

The director had already endured it to the extreme, "You can't even perform this well and still want to play other roles. Even if you're just a minor role, there's no place for you now. Wherever you see fit to be a god, you can go. Our production team really can't accommodate you."

Yan Huan wanted to say something but hesitated for a long time. In the end, she turned around and left listlessly. No one knew that the smile on the corner of her lips was actually a little cold.

In fact, the moment she entered and saw the director, she knew what she had to do. The director was very self-confident, and he also had very high expectations of the actors. Although his acting was not very good., on the surface, he was always higher than the average person.

Just like what they said, even if it was a minor role, it had to be professional. and such an unprofessional and old lady, how could they possibly want it.

"Are you done?" Lu Qin saw Yan Huan come out and quickly went up to greet him.

"Yes, I'm done." Yan Huan lowered his head and didn't say another word.

“When are you coming to film?” Lu Qin asked Yan Huan again, “The filming is about to start, and I have to leave for the production team. When you come, we can see each other every day. Otherwise, we might only see each other every two to three months. Also, if you come here, you don’t have to live in the Lu family and suffer from grandfather’s anger anymore.”

His words sounded nice, as if he was thinking of her. In fact, only he himself knew who he was really thinking of.

“I might not be able to come.” Yan Huan raised his face. He was really sorry about this.

“You won’t be able to come?”

Lu Qin’s face darkened.

“Why? Didn’t you promise me to Help Me Act?”

“I did,” Yan Huan said apologetically. “You Can’t blame me for this.”

“I wasn’t selected. Your Director complained that my acting wasn’t good, so she didn’t take a fancy to me.”

“Your acting isn’t Good?” Lu Qin felt as if he was telling a big joke. Yan Huan’s acting wasn’t good, and her acting wasn’t good. In the industry, although Yan Huan’s reputation wasn’t very good, and he became famous too quickly., his anger increased even faster. However, what people liked to talk about the most was her acting skills. No one would dare to say that her acting skills were not good.

She used her acting skills to defeat one opponent after another. In the end, she won the award of the Best Actress in the country, Da Yun. That year, she was only 23 years old. There were very few people who could win a big award at the age of 23, moreover, she learned it by relying on her own talent.

If someone said that Yan Huan’s acting skills were bad and her acting skills were not good, to be honest, he would not be willing to believe it.

“I also did not feel that my acting skills were much worse,” Yan Huan muttered to himself, “But that director did not like me. He said that my acting skills were completely in line with his requirements. He was not even willing to give me a minor role.”

Lu Qin didn’t believe him and went to the director.

If he had to use acting skills as an excuse, Lu Qin would definitely not believe him. He knew very well how good Yan Huan’s acting skills were, but now he had actually been rejected.

How was this possible.

The role he accepted now was the male lead in this drama. He had also spent a lot of effort to stand out from the rest. He had also put in a lot of effort for this. The reason why he had asked Yan Huan to come., other than asking Yan Huan to act for him, he also hoped that Yan Huan could act for him so that he could have a better understanding of the role.

These were Yan Huan’s greatest uses. However, if Yan Huan did not stay, then whoever he asked to act for him would still help him. Even if he was willing to help, he did not really believe in the results,

Lu Qin didn't believe it. Even if he went to the director, he didn't know what the director said or what he said to the director. In short, when he came out, his entire face turned green.

"You can go back by yourself," he said stiffly to Yan Huan. The words that came out of his mouth were a little cold.

"Then can you lend me your car?" Yan Huan stretched out his hand and asked for the car keys. If she didn't have a car, how was she going to go back? Was she going to walk back?

"Don't you have an assistant? Let her pick you up." Lu Qin had never thought of giving Yan Huan the car keys. "I'll still need them later."

"Alright." Yan Huan took her hand out and didn't force her. In fact, she was very clear in her heart. Lu Qin was also clear in his heart that her cars were all placed at the Lu residence, but none of them could be driven by her.

As for her assistant, Lu Qin clearly knew that Jiayi wasn't around, so she went to work elsewhere. Because Yan Huan already had no popularity here, and in Hai City, she couldn't find a job that was suitable for her.

So there was no other way. The assistant could only go to other places and try her luck.

So now that she didn't have a car and a driver, how could she go back?

Yes, a taxi. But could a taxi enter that place? No.

Then how was she going to go back?

Was Lu Qin taking revenge on her? Just because she didn't get the role of the half-old Lady Xu, no one deliberately played the role of an ugly supporting actress for him, and no one acted with him. In the end, he was just selfish, he was just stingy.

Yan Huan had completely forgotten how she fell in love with such a stingy man. She was so in love that she was willing to give up everything, even herself.

When she came out, the sky was still cloudy, but fortunately, it didn't rain. Otherwise, she wouldn't even have an umbrella. She really didn't know how she could go back.

She flagged down a taxi on the road. The taxi drove very fast. Because it wasn't at the peak of the crowd, the taxi was faster than usual. And no matter how fast it was, it would still throw her to the middle of the road, Yan Huan could only put on her high heels and walk forward step by step.

It had been a long time since she had walked in high heels. However, it had to be said that walking in high heels was indeed a very difficult challenge for a woman.

Forget it. She took off her shoes and held them in her hands. She stepped on the ground barefooted. She was not afraid of wearing shoes. After all, no one here knew her.

A car drove past her. She did not care. She did not even know what song she was humming. Humming and humming did not sound good. She did not understand why her voice was so good, why was her singing so unpleasant.

But she listened to it herself. It did not matter. Whoever liked to listen to it would listen. Whoever did not like to listen to it would get lost.

Chapter 1275: walking back

She swung her shoes and walked forward. It was actually a little cold when her feet stepped on the ground. After all, it had just rained, and there was still water on the ground. She soon noticed that she was covered in mud, and even her feet were dirty.

She also did not pay attention to the car. After a while, she began to deliberately step on the water. As she stepped on it, the mud on her body became even more.

It was not until she saw the car door open and a man alighted from the car. He stood in front of the car quietly with his hands hanging down. Just like that, he looked at her indifferently like a mud monkey.

Yan Huan wiped his hands on his body and continued to walk forward. She still said the same thing — she would not take the begging car. Even though she might still have half an hour if she continued to walk, she would rather walk for another half an hour, she would rather beg this man than beg him.

He would give her food, and she would give him egg fried rice

No one owed anyone anything.

The man's gaze had always been on her, and even though she clearly knew it, she still did not turn around and beg him.

Let me take the car.

I beg you, let me take the car.

I beg you, let me take the car.

At this moment, the phone in her bag rang. She took the phone out of her bag and placed it by her ear

"Miss Yan, it's me." Her assistant was clearly anxious. Of course, when she called, her voice was also anxious

"Miss Yan, I heard that you're going to accept a movie, is that right?"

"I want to accept it. What movie do I want to accept?" Yan Huan thought about it. She wanted to accept it. Did she want to accept it? She didn't. She didn't want to accept it. She really didn't want to accept it.

"You're my assistant. You arranged my schedule. Aren't you the one who knows the best whether I take it or not?"

Yan Huan was puzzled. Wasn't her assistant the one who knew her schedule the best? Why was she asking her now?

"Miss Yan, you haven't been obedient these past few years."

On the assistant's side, she felt like crying, "In the past, you were more obedient to sister Yi Ling's words. No matter how tight your schedule was, you didn't have time to sleep or eat. You had to shoot

everything that could be shot. You never dropped the ball. It's just that you don't listen to me now. I asked you to take it, but you didn't. I asked you to take it, but you insisted on taking it."

"Now, we're going to shoot a nude scene."

"Miss Yan, let's have some ambition, okay? We can't shoot a nude scene."

Nude scene? Yan Huan really didn't know which nude scene it was. It had been a long time since she had filmed a nude scene.

"Did Mr. Lu arrange an audition for you? I have a friend there. He told me that you went and even auditioned."

"She said that it was just a show of flesh. She said that only those who didn't know how good the role was would film it. The better ones would definitely not be touched. Although there is no good or bad role and it is all up to the actors to interpret it, there are some roles that you can not accept. If you act well, you are ugly. If you don't act well, you are even uglier."

The assistant originally did not want to say that her popularity had reached such a state. There was already no one who wanted to hire her to film an advertisement. If she continued to spend her things that she had left behind., if she were to spend them irresponsibly, she would have no other choice.

Regardless of whether it was money or popularity, it was the same.

There was even a person's reputation.

It was difficult to earn a good reputation.

It was too easy to throw it away. Just like Yan Huan, she had gone from being a first-rate actress to an unknown number of first-rate actress.

However, if she wanted to salvage it, it might take more than a few years.

"Don't worry, I didn't pick it up."Yan Huan picked up her shoes and continued walking. However, after a while, she felt that her shoes were in the way. She directly threw them aside and didn't want them anymore.

"You didn't pick it up?"The assistant was stunned. "Miss Yan, you really didn't pick it up?"

"Yes, I didn't pick it up."Yan Huan threw her shoes away. She felt much more comfortable now.

She smiled again. "He doesn't like my acting skills."

"Tell him to SCRAM!"The assistant was instantly flustered. who did they think they were? They actually looked down on your acting skills. In the entire entertainment industry, how many people could compare to your acting skills, if it wasn't for you not acting back then, how could they have hired you now.

That was also in the past. Yan Huan sighed in her heart. Yes, that was also in the past. What else did she have now? Other than this face, she had nothing else.

And this face, which had always been successful in her eyes, was also useless. Her good luck had probably run out.

She didn't stop walking forward. Fortunately, the road was smooth and even. Although it was a little cold, walking was just a habit. By the time she reached home, it had already been more than half an hour, she had really walked for more than half an hour.

She wiped her feet clean on the mat outside, then opened the door and walked in.

"Miss Yan, where are your shoes?"

The nanny was shocked when she saw Yan Huan's feet. wasn't it cold to be barefoot in this weather?

"I lost them." Yan Huan took out her slippers from the shoe cabinet and prepared to go back to her room to sleep. She was tired today. She was tired, and her heart was tired.

She was wearing mud and water clothes, and it was really uncomfortable.

She walked into her room. Oh, today was really good. Qin Xiaoyue wasn't around, and neither was Lu Qin. He still had to film and live in the production team, and she was wondering if she was going to be alone in an empty room again, should she seduce a man and bring him home.

In the end, she only had this thought. She didn't want to forget it. She wasn't that open-minded.

And there really wasn't anyone here for her to hook up with. Lu Jin, she didn't even know how to think about it.

Lu Yi, forget it. This man was too hard, she couldn't bite him.

The chefs here were too ugly.

And she had filtered through all the male creatures in the Lu family. In the end, she realized that she really didn't have the courage to do that. She also couldn't eat the sin of having an affair.

However, if Qin Xiaoyue and Lu Qin were not around, she really felt relaxed. She had to admit that she did not seem to be happy in the past two years, she was not as busy as before.

She changed her clothes and lay down. She felt a little dizzy and uncomfortable.

Of course, she slept until she woke up naturally. The sky was still bright outside. As for what time it was, she took out her phone and checked the time. It was five o'clock at the right. She could eat in half an hour.

It was great that Qin Xiaoyue was not around.

It was also great that Lu Qin was not around.

Perhaps her thoughts were too selfish and too rebellious, but she really did not want to see them during dinner. She just wanted to have a good meal.

She changed into a set. It was bare-faced, no makeup, and no good clothes. It was just an ordinary family costume, and she did not want others to compare their beauty. Even without makeup, she was

still very beautiful. Wasn't that enough, as for the argument that she was only beautiful when compared to others, she admitted that she could not compare to Fang Zhu's ugliness.

Chapter 1276: concept

When she left, Lu Jin's entire family was present, including Fang Zhu.

Fang Zhu was not a stranger here. She came to the Lu family frequently, probably to brush her presence as the lady of the house. As for who she would brush for, that was up to her.

Yan Huan walked over and sat down. They were all eating and did not wait for her, so she was the one who was excluded. However, wasn't this normal? She was already someone to them, it was only right that she did not wait for her.

"By the way, did you leave some rice behind?"

Ye Shuyun asked the nanny beside her.

"I did. I left half a pot."

The nanny answered and placed them all in the fridge.

"That's good." Ye Shuyun added some more food into her bowl.

"Why did you leave some rice behind?" Lu Jin asked Ye Shuyun. "It's fine. Don't tell me you want to eat another portion?"

"I didn't ask for it." Ye Shuyun sighed. She felt sorry for her son. If he was busy with work, he wouldn't even be able to eat rice. Didn't he just come back a few minutes ago without any warmth in his butt, he went to work again.

"I left the rice for Lu Yi. When he comes back in the middle of the night, heat it up for yourself and you can eat it."

"Auntie, why is Lu Yi so busy recently?" Fang Zhu was a little puzzled when she heard that. "Also, why does he have to cook for him at night? Why does he have to do it himself?"

"Let him do it himself?" Ye Shuyun did not feel that there was anything wrong with her son doing these things. "If he can do it himself, he doesn't need to trouble others."

However, if the chef she hired did not let them do it, it would be a waste of money.

Fang Zhu did not feel that there was anything wrong with hiring a chef to cook. In the future, if she wanted to eat, she would definitely ask the chef to help her cook. Otherwise, what use would there be for her to ask the chef to do anything and support them, this was the only way to establish a definite employment relationship.

She paid for it, and they paid for the labor. If they had to do it themselves for a meal, then she really did not know what to ask them to do. If she had to do everything herself, then there was no need for them to do anything.

Ye Shuyun didn't want to argue with Fang Zhu over this matter. Perhaps this was the difference in their education. Fang Zhu's thoughts were completely different from those of their generation.

Not everyone needed help from others. They could do it themselves. If everything became someone else's, then wouldn't they become trash.

No matter how Fang Zhu ate, it was possible that he could tell that there was a generation gap between him and Ye Shuyun. In the end, he endured it and didn't say anything. He just ate his own food, and of course, he didn't mention Lu Yi's name anymore.

Yan Huan listened to their conversation and was somewhat speechless.

This Fang Zhu's IQ was quite good. Otherwise, he wouldn't have become a graduate student and a PhD student. But how could her EQ be comparable to an idiot.

Yan Huan ate her meal quietly. Others talked about others while she ate her own. It didn't affect them at all. Moreover, with Lu Jin and Ye Shuyun, Fang Zhu couldn't even mock her if she wanted to, fortunately, intellectuals weren't completely hopeless when it came to certain favors. Otherwise, she would really sympathize with Lu Yi. How could he have such a girlfriend? How should she put it? Her eyesight was really not that good, this was farsightedness. It was hard to see his face from a close distance, so he could bite down even if he looked like a pig.

Otherwise, she would not understand. So many people could choose, so why did he have to choose this one? Wasn't it strange?

Of course, she also remembered what Ye Shuyun said, which was that there was rice in the kitchen. Then, could she eat fried rice today? Anyway, there was a lot of rice, so what if she got a piece, at most, she would work harder and give her son a portion of the fried rice. In that case, the two of them would not owe each other anything.

Well, she made a happy decision. She believed that the man would not object. If it were her, she would not object. It would be great to have ready-made rice in front of her eyes, moreover, it could be said that she had waited a thousand years to cook.

Of course, she did not deliberately wait for anyone. After eating, she did nothing for a while. She watched TV and was in a daze for a while. When she was about to sleep, she naturally fell asleep. Moreover, she slept well.

When she opened her eyes again, it was about eleven o'clock, and her stomach was indeed hungry

The lifestyle of the Lu family seemed to be completely different from hers, and it was impossible for her to have the whole family cooperate with her. She had never experienced this before, so when she first came to the Lu family, she was a little flustered, her head and eyes were numb, but it was better now. After two years, she should be used to it.

The breakfast in the Lu family was eight o'clock, lunch was twelve o'clock, and dinner was early, at six o'clock. In the future, no one would cook anymore. Of course, she was a weirdo, but of course, Lu Yi was not., because Lu Yi had to go to work. Logically speaking, the work that he went to was very leisurely. It was absolutely nine in the morning and five in the evening. But most of the time, Yan Huan could not see such a pattern.

Because most of the time, he would go out at 7 am and go home at 12 pm. Otherwise, for the sake of her son, Ye Shuyun would drag it out until her son had breakfast at home. But the problem was..., even if the meal was raised to seven in the evening, Lu Yi would sometimes not have time to eat because there were still four or five in the evening and six in the evening. So what should he do? Could it be that everyone had to change the time with him?

Therefore, in the entire Lu family, only Lu Yi had the habit of having a meal in the middle of the night because he might not even have lunch when he came back from work.

She sat up and swaggered out. The nanny and servants in the house would not stay here, so there were only Lu Jin and Ye Shuyun in the house. They slept early at night and were also sound asleep, therefore, it was impossible for them to come out at this time. Even if they heard some noise in the kitchen, they would probably not care. Because they would think that their children were cooking for them.

Speaking of which, the Lu family was really strange. If it was an ordinary family like this, they would probably have a bunch of people serving them. Women would run around the beauty salon every day, while men would eat, drink, and have fun every day. However, the Lu family was different, here, she felt that it was a family with a foundation, a very regular family, a good mother, a good father, and an outstanding son.

And an outstanding son, who relied on himself to walk step by step, of course, was also walking on his own unique path.

As for Lu Qin.

Forget it, she didn't say anymore.

Chapter 1277: auditions again

She can only say, just because of too good imagination, can really turn a person into a god, in your eyes, he is your heaven, Your Earth, your everything, but it is all based on your love for him, love to the point of being unable to extricate oneself.

But if one day, you find that you do not love him.

All of his good points, in your case, have become his shortcomings.

And under his shiny appearance, what kind of dark and dirty intentions.

Yan Huan truly didn't know about this, and didn't want to know.

Because she wasn't at the end of her rope, because if she knew too much, the more she would regret it.

Maybe she was timid, it was just that you were the two paths in the dream, one accompanied by pain, the other was relaxed and happy. And she was no exception, she was afraid of pain.

She put on her slippers and followed him out. The lights in the living room were dim, so no one was there.

She suddenly thought of something and ran to the window to look at the man's car.

Anyway, the car was there, but the car was not. Well, the man went to work.

It was not too dark outside. There were street lights, so she could see clearly that there was no car outside. The place was empty, so there was no car. And the man's car had always been parked there. It was almost his exclusive parking space, if that was the case, then he wasn't here.

Should she make an extra serving? What else could she do? She used the rice that his mother had left for his son.

Alright, let's Get Busy.

She walked into the kitchen and sat down for two servings. If no one ate them, she would eat them all herself.

She opened the refrigerator and found some green prawns. This time, she took some more. Last time, there were ten green prawns. A plate of five was not enough to eat. When she washed the prawns, the other side also boiled water, she put in the corn kernels and green beans and cooked them.

When she was done washing the prawns, she heard the sound of the car stopping outside

Oh, she's back?

So did she eat or not? If she didn't eat, it was just right. She wanted to eat two plates.

As a result, the lights in the living room were always on. When the footsteps reached there, they did not appear again. Therefore, she knew that her two plates of fried rice were going to be shared with others.

She felt a little hurt. Such a delicious meal was actually not for herself.

The ingredients were all prepared. If it was fried, it would be very fast. Although it looked like two plates, it was actually just a matter of a few minutes. Not long after, the two plates of fried rice were ready, on each plate were more than a dozen large shrimps. She also made two sets of mushroom egg soup. With this fried rice, it should be quite good. This was the standard accompaniment to her fried rice in the past. With rice and soup, it could solve the problem of hunger.

The rice was ready, and so was the soup. She took out a plate of rice and placed it on the table. There was also a set of mushroom and egg soup. The soup was salty and mild. No matter how the fried rice was, it was still somewhat greasy, after drinking this bowl of soup, it could be used to relieve the boredom. Then, she placed a pair of chopsticks neatly on the side.

On her side, she took her own portion from the kitchen.

He gave her food, and she gave him food,

they didn't owe each other anything.

She didn't like owing others, and of course, she didn't like others owing her. She wasn't a good person, and it was a blessing to say that she would suffer a loss. Anyway, she didn't suffer a loss, and of course, she didn't owe anyone anything.

She took her portion and ate it in her own room. She was embarrassed, and it was probably the same for Lu Yi. They each ate their own portion. If Qin Xiaoyue did not come back tomorrow, then..., she would cook fried rice again. Tomorrow, she would tell the chef to leave more fried rice for him.

Of course, she was not feeling guilty. She just did not want Qin Xiaoyue to say that she was cheating on him again. She clearly did not do anything, but in the end, she would not only burn herself, but also Lu Jin's family, at the same time, it would also burn Lu Jin's family.

Frankly speaking, that family wasn't bad or good to her, but at the very least, they were polite. They didn't abuse her on a daily basis.

This was also the only polite thing to do in the Lu family. At the very least, they weren't like Old Master Lu, who was sometimes disrespectful, sometimes ruthless, sometimes unintentional, and sometimes had a mother but no mother.

No matter how tough she was, she was still raised by her parents.

She placed the plate on the table and took a spoon to eat the rice. What she made was delicious. She didn't say anything else, but the fried rice she made was extremely delicious. It was guaranteed that she would want to eat two more bowls after eating one bowl, of course, the soup was also not bad.

The soup was very delicious. It had a light salty taste, followed by the delicate fragrance of egg flowers and the natural fragrance of mushrooms.

Yan Huan took another sip of this delicious soup. Today's cooking was extremely successful. Although she had not cooked for a long time, it seemed that her culinary skills were still online. She did not make it too strong and it did not taste bad, she also did not make it too light and it did not taste good.

HMPH, look, she had found another ability that was stronger than master extinction's.

Many of her best dishes were learned by her in the past two years. Sometimes, she would personally cook for Lu Qin. However, Lu Qin wasn't too generous, and it was fine if he didn't eat. She would eat it herself.

She believed that Fang Zhu would never be able to make such delicious fried rice, and of course, he wouldn't be able to make such delicious soup.

She ate up the entire plate of fried rice. There was not even a grain of rice left. She was full now. As long as she was full, her mood would be exceptionally good, and her mood would be good, she would sleep well this night. She would be in high spirits the next day.

Yes, she had decided to eat this tomorrow.

She pulled away the blanket and lay down to sleep. Everything outside had nothing to do with her. All she wanted to do now was to sleep well.

However, she seemed to have dreamed of that strange place again. She could not find the way, nor could she see anything clearly. She tried to go right, but her body was full of pain. She went left, but it was easy all the way.

She hesitated for a moment, but in the end, she chose the left path.

She seemed to be constantly running forward. She did not know if she had run past the time, or if she had run past the years, or if she had run faster than herself..

After a while, the surgery bell rang. She took out her phone and looked at the caller ID. It was Lu Qin. Why did she yawn so early in the morning, she even forced out her tears.

“Yan Huan, I have a role here. Come over and give it a try.”

Yan Huan was stunned. In the end, she put down her phone. She didn't want to compromise anything, but it seemed that she was always compromising. After compromising, her ears would be quieter. Alright, she would compromise again. One Day.., when she couldn't stand it anymore, she would say it again.

And early in the morning, she would have to get up and then go out to look for Lu Qin.

Chapter 1278: told her to get lost again

When she went out, Qin Xiaoyue, who was outside, came back at some point in time. She might not have come back for the whole night either, and her face was obviously unhappy.

Yan Huan sized up Qin Xiaoyue. She was already so old, but she still dressed herself so coquettishly. In this world, she had really never seen a woman who was even older than Qin Xiaoyue.

However, eating less meat and taking care of her body was much more useful than smearing so many things on her face.

“Mom, give me the car keys.”

Yan Huan reached out his hand to Qin Xiaoyue.

“Don't you have a car?” Qin Xiaoyue pursed her lips. It was obvious that she wouldn't give him the keys.

“Mom, My Car Isn't with you. Where do I have a car now? Your Lu Qin asked me to go for an audition. I can leave, but if I go too late, I won't have time.” Yan Huan didn't care. She wouldn't drive if she didn't drive, she thought it was a walk.

When Qin Xiaoyue heard Lu Qin's name, she had no choice but to open her bag. She took out her car keys and handed them to Yan Huan,

“Be careful. If you scratch my car, I won't let you off.”

Yan Huan waved the car keys in his hand. “Mom, I remember that this car seems to be under my name, right?”

Qin Xiaoyue's expression darkened. At that moment, it was as if she was about to eat Yan Huan's flesh.

Yan Huan swung the car keys in his hands again. She did not put on any makeup, did not dress up, and did not do anything. Just like that, she went to the audition with a clean face.

No matter what the scene was, it was fine as long as she did not want to act.

Even if she was given the female lead, she was unwilling because she did not want to be in the same production team as Lu Qin. She also did not want to act with Lu Qin. She worked so hard, and the more Lu Qin's acting skills improved.., the more she belittled herself, the lower she would be. She did not want to ruin her little reputation like this. She also wanted to earn money..

To support herself.

Oh right, to support a mother-in-law. This mother-in-law's taste was getting bigger and bigger. She realized that she really could not afford to support her anymore. Lu Qin had never given her a single cent, and he did not earn any money now, it was also the time when she needed money to wrap herself up.

In fact, she had secretly calculated that if she gave everything she had, she would be able to make Lu Qin famous. However, she didn't know how she would look like when that time came.

Perhaps when she didn't suddenly wake up, she would really do that. She would give everything she had just to make Lu Qin stand at the highest point. But now, she was feeling it.

She couldn't let Lu Qin stand at that point. Otherwise, she, who had nothing, would end up with nothing left.

She took the car keys and opened the car door. Coincidentally, she saw that the man was also preparing to drive and drove away very quickly. Yan Huan waited for a while and waited for his car to drive further away before driving away.

It had been a long time since she had driven, so she was a little unfamiliar with it. Fortunately, some things were already an instinct in her life, just like driving a car.

She didn't drive fast. During this time, Lu Qin called her a few times to urge her, but she still drove away unhurriedly.

"When are you coming?"

Sure enough, he was urging her again.

"It might take a while."

Yan Huan drove very slowly, and Lu Qin on the other side was clearly a little anxious.

"Why are you so slow?"

Was he complaining?

"I haven't driven for a long time, so I'm new to it." Yan Huan pouted. There were many people on the road, and there were many cars. I was quite afraid. Who asked you to let me come over in the morning, and you didn't pick me up?" Yan Huan directly kicked the ball back to Lu Qin.

Lu Qin probably choked on his words. He didn't speak for a long time and then directly hung up on her.

Yan Huan only arrived at the set after about an hour.

After she entered, her image couldn't be said to be too bad. However, compared to other people's meticulous dressing, she was like a plain boiled cabbage. It was too bland.

The moment Lu Qin saw her, he directly pulled her to the audition place.

Yan Huan frowned because Lu Qin pinched her arm until it hurt.

However, she endured it and didn't say anything.

It was still that director. The moment he saw Yan Huan, he seemed to look down on her. "Go and try it." Although the director wasn't very willing, in the end, he was still willing to give Yan Huan a chance for Lu Qin's sake, however, Yan Huan couldn't wait to have such an opportunity.

She obediently went up and did whatever the director told her to do. Regardless of whether it was her eyes or her body, she didn't seem to be in place. Moreover, there was one action that she didn't manage to do well even after Ng for a long time.

The director immediately became impatient.

"Lu Qin, I've already given you face, but she really can't do it. Perhaps she's not bad with some directors, and she can still be remedied. However, you know my character. I've always asked for my acting skills, especially when it comes to acting. Perhaps the best actress Yan used to be good, but her acting skills are really not online right now. No matter how famous she was in the past, I might still have to apologize." Yes..., the word 'sorry' was very clear,

that was two words. No, it was one word. It was also what Old Master Lu loved to say the most.

Scram!

And Yan Huan was really gone.

Lu Qin couldn't say anything in front of her, even though his face was long and he was very unwilling. But there was no other way. She didn't want Yan Huan. It could be seen how messed up Yan Huan was now, even a production crew like this didn't want her. Fine, if she didn't want him, then so be it. She would scam.

Moreover, under the watchful eyes of so many people, Lu Qin, who had always been a person of integrity, would never have anything to do with a washed-up female star. His current career was at its peak. Outside..., Yan Huan absolutely believed that she was safe. At the very least, Lu Qin wouldn't strangle her to death.

She took out her car keys and prepared to go back. However, when she got into the car, she didn't really want to go back. It had been a very long time since she had come out.

It wasn't easy for her to become outdated. It wasn't easy for her to lose her popularity. It wasn't easy for her to come out and casually show her face.

She drove around like this. Sometimes, she could still see the advertisements that she had shot in the past. At that time, she was still young and beautiful, but she had already become outdated to the point where no one knew her.

However, in just two years, everything had changed.

While driving, she seemed to have nothing to do, so she prepared to go back. She had an inexplicable feeling that if she went back late, she would encounter some trouble.

Chapter 1279: you said that you wanted to support me

As expected, when she drove the car back to the Lu family, she saw that Qin Xiaoyue's face had become longer than a horse's, and her eyes were not looking too good.

Alright, she's back. You can tell her. Seriously, I've driven my car for so long, I don't know what to do. I've already said that you can't marry such a woman, yet you insist on marrying her.

Hearing Qin Xiaoyue's complaints, Yan Huan only wanted to laugh.

Did Lu Qin marry her? It didn't seem like it now. He had only promised her, but she didn't know if this promise would be fulfilled in the end.

Yan Huan put the car keys aside. Qin Xiaoyue had just opened her mouth, but she closed it unwillingly.

And Yan Huan knew what Qin Xiaoyue wanted. Didn't she just want the car keys? Wasn't she just afraid that she wouldn't return the car keys to her?

HMPH. Qin Xiaoyue snorted from her nose and directly grabbed her car keys.

Yan Huan opened the door and also received a call from Lu Qin.

"Why are your acting skills so bad now?" Lu Qin's voice was almost like a stick, and just like that, he hit Yan Huan's body one stick after another.

"I haven't acted in two years." Yan Huan pursed her lips and felt very wronged. Her voice was wronged and her face was also wronged. However, there was an indescribable coldness in her eyes, it was slowly freezing up.

"I wanted to shoot at that time. You said that I didn't need to shoot. In the future, you will give me money that I can't spend. You will also give me clothes and bags that I can't wear. I can have whatever I want."

Yes, this was Lu Qin's promise. However, Lu Qin had never done anything.

When Yan Huan was about to say something else, Lu Qin interrupted her impatiently. "You should properly practice your acting skills. If you do this, you won't even have the chance to act for me in the future."

"I understand," Yan Huan agreed. However, her red lips raised something that others could not understand. It seemed like she was mocking him.

However, who would know if she was mocking someone else or herself?

Lu Qin had already hung up the phone. Moreover, he was rather impatient. Yan Huan did not know if he was afraid of something or if he was hiding from something. Yan Huan knew that as long as she brought this matter up., Lu Qin would not be able to say another word to her.

He had his dignity as a man, even though Yan Huan only felt that it was a little ridiculous.

She took a book and started reading it. Then, she waited for dinner. If Qin Xiaoyue was here, the fried rice for tonight might be fried soup.

She turned another page of the book, and she heard footsteps and Qin Xiaoyue's loud voice.

“Don’t worry, I’ll be there in a while. Alright, I’ll pack my luggage in a while. See You Later.”

Yan Huan put down the book and walked out as well. Outside, Qin Xiaoyue was already packing her luggage.

“Mom, where are you going?”

“Where I’m going, it’s none of your business, right?”

Qin Xiaoyue had always been rude to Yan Huan. Of course, she wouldn’t say anything nice to her either

“It’s none of my business. This is your freedom. Yan Huan is leaning on the side. I don’t know what he’s thinking. I just need to know that you’re going to be gone for a few days. Otherwise, if Lu Qin asks, I won’t be able to answer.”

Qin Xiaoyue felt very comfortable when she heard her son’s name.

“Where else can I go?” She pursed her lips. Of course, she was going abroad. “Unlike You. You’re like a pig all day long. You sleep when you’re full.”

As Qin Xiaoyue talked about where she was going, she really did not let go of any place that could hurt Yan Huan.

Yan Huan smiled and did not reply.

Alright, it was best if she left. It was best if she stayed outside for a few more days so that her ears and son could have some peace and quiet. The two of them were definitely enemies in their past lives. As long as they met, it would be either smoke or gunpowder.

No one knew which woman would be able to stand Qin Xiaoyue’s temper, and it was really too difficult for her to be Qin Xiaoyue’s wife.

She returned to her room and lived a life of eating and sleeping.

After Qin Xiaoyue packed her luggage, she carried her large suitcase and went out. This trip might be like what she had said, she would be gone for a few days. She was like this when she was not around, as long as Lu Qin was not around.., she didn’t have any place to stay at home, but it was understandable. Her son wasn’t around, and she was facing her daughter-in-law, who wasn’t very likable. She would rather see the scenery outside than look at her face.., it was fine if she didn’t look. Yan Huan didn’t want to look at anyone else either.

Yan Huan read for a while more. In a short while, it was time to eat.

She walked out. There weren’t many people today. It was just her and Ye Shuyun. Lu Jin wasn’t around, Lu Yi wasn’t around, and even Fang Zhu wasn’t around. Oh, how could she forget? wasn’t it almost summer break, and before summer break, teachers were the busiest, so teacher Fang Zhu was also the busiest.

It was this huge table full of dishes. The two of them definitely wouldn’t be able to finish it.

“Your mother-in-law left?”

Ye Shuyun asked Yan Huan.

“Yes, she left. She might be gone for a few days.” Yan Huan did not touch the big fish and big meat as she ate. She also ate bland. In the past, it was to maintain her figure. Later on, she became accustomed to eating such meals, she was actually not too picky. When she encountered delicious food, she did not care about her own life. If it was not delicious, she would not eat it even if she starved to death. As long as it was similar, she would eat it.

The two of them ate silently. Yan Huan didn't like to talk, and Ye Shuyun didn't say anything either. However, it was still alright. They each occupied the other side of the table, so they didn't feel uncomfortable at all, in addition, they ate different food, so they ate each other's food as if they were eating their own food.

“The old master is Coming Tomorrow.”

Ye Shuyun reminded Yan Huan, “Don't come out. I'll get someone to send the food over. The old man has a bad temper at home, and so does your temper.”

Ye Shuyun didn't know what to say, “Speak up for him and admit defeat. He won't say anything. Although the old man's temper is scary, don't be afraid. He's just a paper tiger. He'll hit your uncle, Lu Yi, and Lu Qin, but he won't hit a woman. No matter how much he dislikes you, he won't hit you.”

“Thank you, aunt. I understand.”

Yan Huan continued to eat. She was already very grateful for such a kind reminder. Yes, she wouldn't come out tomorrow. If she didn't come out, she wouldn't come out. She would continue to be a pig, but as long as she was given food, she wouldn't mind.

But she wouldn't come out

But she wouldn't let her see anyone.

Ye Shuyun still wanted to say something, but she hesitated. Actually, it wasn't like there was no other way. The old master's personality was like that. After some time, the old master would accept his fate and follow.

Chapter 1280: eating alone

She only hoped that Yan Huan would be able to persevere. Of course, it wouldn't be a big deal if he gave in to Old Master Yan's attitude. However, she was worried about Yan Huan's character. Yan Huan's character was hard to say sometimes, just like the time she smashed her own stomach and scared Qin Xiaoyue so much that she didn't come out for a few days, she knew that her character was a little impulsive and she should be very stubborn.

Was she going to confront the old master head-on?

But here, as a member of the Lu family, they had to take care of the old master. It was not because the old master had a lot of power, but because his surname was Lu. And if they wanted to stay in the Lu family for a day, they had to have a day, they knew how to get along with the old master.

She kindly reminded Yan Huan.

In fact, she didn't feel that there was anything wrong with Yan Huan. It was just that the old master clearly didn't take the wrong turn.

"Don't worry, it'll be fine after some time."

She felt that she still had something to say.

"Thank you, aunt, I understand." Yan Huan had never raised his head and only ate the food in his bowl. She was truly grateful to Ye Shuyun. Perhaps in the Lu family., the only person who had a good impression of her was ye Shuyun.

Sometimes, she couldn't help but think about how her life would have been if she had married Lu Yi instead of Lu Qin. Even if the old man didn't like her, he would at least have a good mother-in-law to protect her.

On this point, Qin Xiaoyue was far from Ye Shuyun.

However, this was only her thought. She would not like a man like Lu Yi. Perhaps she was more of a slut. She preferred a pale face.

She could not help but laugh at herself in her heart.

Now, she had found a pale face. Not only did she have to raise a pale face, but she also had to raise a pale face of her mother.

After eating, she went back to continue flipping through her books. Other than these, she did not know what else to do. Perhaps it was because she had run around a lot in the past, but now she just wanted to stay in a quiet place, if her assistant had arranged something for her, she would have done it. However, it was really difficult for her little assistant right now. She was still trying to think of ways to help her regain her popularity.

Even though it had been a few days, there didn't seem to be any results.

Her assistant had mentioned a reality show to Yan Huan. Yan Huan didn't really want to participate in it. Moreover, even if she went, she wouldn't be the main lead. She wasn't a small supporting role. This was considered a relatively popular show, and her exposure wasn't bad either,

however, in her current situation, it was impossible for her to record a show every day and run around everywhere.

The Lu family was not a Lu Qin family. She could not go out just because she wanted to.

It was easy for Lu Qin to make a cameo appearance. However, if she really made a cameo appearance, would she be needed?

Oh right, how did she spend her time in the Lu family in the past? Other than fighting with Qin Xiaoyue, she seemed to be looking for trouble with Ye Shuyun. Ye Shuyun did not bother with her either, now that she did not look for trouble with others, she realized that her days were not so miserable anymore. Even the fierce meat on her face shrank back.

In fact, it was quite good.

The afternoon was also quite good. Ye Shuyun and her were there, but the others were not.

"I asked them to remake the breakfast. Do You Mind?" Ye Shuyun asked Yan Huan. It was just for the two of them. It was a little pitiful.

"No, it's okay."

Yan Huan ate quite well. Anyway, she only ate a few dishes and didn't eat anything else. Without Qin Xiaoyue, she also felt relaxed. Yan Huan didn't like to talk too much, perhaps it was because he had been eating with the Lu family for a long time. Every time, Qin Xiaoyue would pick this and that, but she just kept quiet.

Ye Shuyun did not say anything. She was still thinking that she could have another meal with these dishes. In the evening, she and Lu Jin would have enough to eat.

After Yan Huan finished eating, he went to the kitchen and told her to leave some rice for her to eat in the evening.

In the afternoon, she did not go out. However, she heard that Fang Zhu had come. She did not want to sit with Fang Zhu. It was not because she was afraid of Fang Zhu. No, she was really afraid of Fang Zhu, she was afraid that she would not be able to swallow Fang Zhu's face.

Therefore, she did not go. Anyway, she did not want to eat.

At night, she fried another serving of egg fried rice for herself. Initially, she had fried two servings. However, when she came out, that man did not seem to have returned.

Only then did she remember that she had heard from the servants that he had gone out with Fang Zhu.

The two of them had gone out to spend the night.

She pursed her red lips. Where did this unhappiness come from?

This seemed very normal. They were originally boyfriend and girlfriend, so it was normal for them to spend the night together. Could it be that she did not allow them to spend the night outside and had to stay alone in the empty room like her.

She sat on the sofa and stared blankly at the two plates of fried rice.

Well, it was best that no one fought with her. No wonder she always felt that she didn't have enough to eat. Perhaps it was just that she didn't have enough to eat, so she gave it all to others.

That was why she always didn't have enough to eat.

And she calculated that they were considered even, so they wouldn't owe each other in the future. In that case, they would each take care of their own stomachs in the future. However, after eating a few mouthfuls, she felt that some of the flavors weren't very good. Perhaps it was because she ate too much during the day, that was why she couldn't eat anymore.

She put down the bowl and placed it on the table for a while before coming over to eat.

She had just stood up and was about to go back to her room to get a book. While she was reading and eating, she suddenly heard someone coming in from behind her.

Fang Zhu walked in and was surprised to see the rice on the table. "Oh, you've already gotten someone to prepare the food for me. It just so happens that I'm hungry too."

She walked in front of the table generously. There were two plates of fried rice and a bowl of soup on the table. It also aroused her appetite. In addition, she was already a little hungry, so now she wanted to eat even more.

She took out a bowl from the kitchen and scooped a bowl of rice for herself. She sat there and started eating. Once she ate, she realized that the fried rice was surprisingly delicious. She didn't know which chef in the family made it, it seemed to be quite delicious. She would cook it again the next time she came over.

While eating the fried rice, she scooped a bowl of soup for herself. Well, the soup was not bad either. It was a clear soup that was neither salty nor light. However, the clear soup was unexpectedly delicious. It had the taste of fresh mushroom soup and brushed across the tip of her tongue, it also made people feel the temptation of a delicacy. She scooped another bowl of soup for herself. There was not much soup. At most, there were two small bowls. It seemed to be too little. It was not enough for her to drink. She had really been busy all day today, one of her students was sick. As a teacher, how could she ignore her students? Therefore, she accompanied the students in the hospital for a day
